Unlike the majority of planets in the Lylat System, Katina is covered by more land than water. Despite this, several small inland seas can be found on the planet, covering around 8% of the surface. Some of these seas are large and contain islands big enough to house naval forces. Around these seas are large areas of grasslands and savannas. In recent years of the Star Fox universe several cities have sprung up around the military outposts in these prairies, but as of Star Fox: Assault they still remain comparatively small to the cities found on other planets.

Bill: Hang on guys. Help is on the way!

We arrived and started blasting enemies. Assisting us was Fox's childhood friend and leader of the Bulldog Unit of the Cornerian Army - Bill Grey.

Bill: Fox you made it.

Fox: Bill! Is that you? I can't believe it!

Me: It's a pleasure to meet you Bill. Team Loud Phoenix Storm is at your service.

Bill: It's truly an honor. We can talk later.

Laney: Lets blast these scumbags into dust!

We did so and we were having the death toll of the enemies climb fast.

Slippy: I can't tell who's who out here. It's hard to tell the good guys from the bad.

Me: I know. The ships almost look alike. But luckily I have a way to find out. Switch to Identification Visors.

We pressed blue buttons and our visor shields turned blue and the enemy ships were now identified with the color red on the edges.

Me: That's better. Lets get them!

Fox: Very genius J.D.

We continued blasting enemies.

Bill: Enemy mothership approaching!

We saw a huge flying saucer spaceship coming towards the base. It was the Flying Assault Fortress - Saucerer!

Me: That ship looks very reminiscent of the ships from the movie Independence Day.

Luna: It sure does look like it dude.

Luan: That won't make a good saucer for a cup of tea. (Laughs) But seriously, it won't.

I scanned the ship and printed some blueprints for it to use in the future.

The ships stationed itself over the base and hatches on the underside opened and more ships came out by the dozen. We blew the hatches open.

Bill: There's some sort of energy reaction!

We saw the core of the ship appear.

Bill: The core has appeared.

Me: I'm on it.

We had 1 minute to destroy it and me and Fox fired lasers at the core and the core exploded.

Bill: YEE HAW! You did it!

The whole ship went down and it exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We left for the next destination.

Bill: I'm glad we're on the same team Fox.

Fox: You owe me one.

Me: I'm glad we could help out Bill.

Bill: Thanks J.D.

Me: Anytime Bill.

We left Katina. For Katina we killed 216 enemies. 1,088 enemies were destroyed total.

## AQUAS

We were at the Ocean Planet - Aquas.

The entire surface of Aquas is covered with water, and abounds with a diverse range of aquatic life. Though generally harmless, some of Aquas' aquatic lifeforms can be extremely deadly, even to modern submersible vehicles. Ruins similar to those found on Titania point towards an ancient civilization that no longer exists, tangibly similar to the Anglars. The Ancient Civilization had originally ruled above the waves, where it built temples as well as harvesting aquatic life on Aquas. However, a monster underneath the waves, Bacoon, became jealous of the civilization's prosperity, and when it grew more powerful, it eventually learned to control the aquatic lifeforms. Bacoon then used this new found ability to command thousands of explosive starfish to migrate to the polar ice caps and explode, melting the polar caps and flooding the entire planet, thus ending the civilization.

I was watching the fight from the air in the Osprey Wild Zord. The other ships had a special function that enabled them to travel underwater. I was doing some scans of the planet and it was amazing.

Me: Wow! This whole planet's surface is completely covered with water. It makes Earth's Oceans look like a joke.

Lily: But it sure is a beautiful planet.

Me: It sure is. But there's not one single spec of land in sight from the surface. It's an endless desert of water. It reminds me of the movie Waterworld.

Lori: How do you think it literally became this way?

Me: The scanners say that a monster called Bacoon became jealous of this planets ancient civilization and it sent exploding starfish to migrate to the polar ice caps and explode, causing them to melt and flood the entire planet.

Laney: That's horrible!

Riley: I can't believe that this Bacoon did that.

Stacy: That is sick!

Trudy: It sure is sis.

Everyone explored the planet and they blasted fish and monsters and even exploding starfish. Laney and Lana tamed some of the fish and creatures and they became their friends. Then they came across a monstrous creature. It was BACOON! It was a monstrous clam creature and it was the source of the pollution of the planet Aquas.

Thousands of years ago before the Lylat Wars, a great civilization lived above the waves of Aquas, building beautiful temples and making a living by harvesting sea life. Meanwhile, Bacoon was a monstrous entity living in depths that grew jealous of the glorious civilization above, learning how to control aquatic lifeforms and sent thousands of explosive Starfish to explode in the ice pas and melt them, drowning the civilization and sunk the temples forever by the rising tides.

Me: So that creature is Bacoon. It looks like a giant oversized clam and not the kind we use in clam chowder.

Slippy: It sure is an ugly clam.

Me: It was also made into the source of Andross's pollution of Aquas. It's one of his bioweapons.

Krystal: It's awful. I can't believe such a monster destroyed this whole planets civilization.

The subs and ships fired lasers and torpedos at Bacoon and then the whole creature exploded twice.

KRABBBBOOOOOOOOOOOOOMMMM!
KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Wow!

We prepared to dock. We destroyed 173 enemies on Aquas and our total was now at 1,261 enemies killed.

The Blue Marine for the Star Fox team came through.

ZONESS

We were flying over the 2nd Ocean planet of the Lylat System - Zoness. It was once a beautiful vacation spot until Andross ruining it.

Zoness was once the aquatic vacation world of the Lylat system. The planet is nearly covered with ocean, with only small groups of islands breaking the watery surface. However, Andross's bio-weapon has polluted the once beautiful oceans and transformed the beautiful sea creatures into hideous monstrosities.

Me: So this is the planet Zoness.

Fox: Yeah. It was once a popular vacation spot.

Laney: It looks more like a dump now.

Falco: I hear ya Laney.

Krystal: This is awful that Andross did this.

Nico: I can't believe Andross did all this to this planet.

We were destroying numerous horrifying creatures and the kill total was rising fast.

Another ship appeared and piloting it was Katt Monroe, Falco's close acquaintance in his days of the rough-neck space hot rodders gang.

Katt was an old friend of Falco's from their days in a rough-neck space hot rodders gang and had a crush on him, but he pretended not to notice. However, they had a falling out over Falco always coming to her rescue just because she was sweet on him. He left Katt behind one day, telling her "You're a big girl now, Katt. You can handle these things yourself. You don't need me."

Katt: We're closing in on them Falco.

Me: Katt Monroe. It's a pleasure to meet you.

Katt: You too big boy. The legendary Team Loud Phoenix Storm. It's an honor to meet you.

Falco: Katt?! What are you doing here?

Katt: Is that any way to greet a girl?

Me: Lets focus on the matter at hand. But you're more than welcome to help us Katt.

Katt: Thank you J.D.

We blasted all kinds of enemies and creatures to dust and destroyed all the searchlights in the area. After clearing a mind field Slippy noticed something.

Slippy: Something's coming from the sea!

Blasts of toxic waste appeared out of the sea and out of the sea arose the Illegally Modified Research Vessel - Sarumarine!

Me: Wow! What a submarine!

Monkey Captain: Disrespectful little whelps! I'll teach ye some respect!

The captain fired a spike ball at us and the Osprey Zord grabbed its chain in its talons and I ran a scan on the Sarumarine and printed blueprints of it.

Me: His armor is tough! We have to fire bombs at it.

We did so and blew the ship apart and it exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The whole Sarumarine was completely destroyed.

Fox: All aircraft report.

Me: No damage here Fox.

We reported in.

Katt decided to help us out. I told Falco maybe Katt was being sweet to him because she loves him. At first he denied it but he knew that I was right. We went to the next location. We killed 264 enemies and it raised our total to 1,525.

---

## SOLAR

---

We were flying over the surface of Lylat Prime's sister star - Solar. The star Lylat Prime is a class B blue giant star and it had a temperature of 44,540˚ Fahrenheit. The star Solar was a class M red dwarf star and it had a temperature of 5,840˚ Fahrenheit. It was located right in the middle of the X-Y-Z Triangle. I used my magic to make the ships and the Osprey Zord handle any hot temperature in the universe up to 100,000,000,000˚ Fahrenheit.

Lori: Wow! This is literally hot!

Me: It's over 5,000˚ here Lori.

Lola: It wouldn't look good for a tan here.

Me: No it wouldn't Lola.

We flew over the lava of the star and blasted rocks and flying creatures. Then we encountered the evil bioweapon - VULCAIN! It looked like an ugly mantis creature and it was able to survive in the scorching hot environment of Solar.

Scientists have been saying for years that nothing could possibly live on this world's surface, but Andross's ships had been scanned going to and from the planet. Only Andross would be so foolhardy as to try to find military benefit in exploiting a molten planet like Solar. Only the Star Fox Team's specially modified Arwings could withstand the heat on the planet's surface, so they were sent by General Pepper to investigate what the Androssians were doing on the planet.

Peppy: This is the enemy Bioweapon!?

Me: This is an ugly creature!

Falco: Andross is an insane fool!

Me: He's more than that Falco. He's 10,000% fucked up to the core.

Lisa: Technically that's not a real percentage, but it fits him just fine.

We blasted off his arms and then his head and then he exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Vulcain was completely destroyed.

Volcana: That takes care of that firebug.

Luan: (Laughs) Good one Claire.

Volcana: That wasn't a joke but thanks Luan.

Fox: All aircraft report.

Me: All good Fox. The Magic Heat Shields held perfectly.

Fox: Great job J.D.

Krystal: It's all good.

We reported in and we were all right. We killed 999 enemies. It sounded weird but we did. Bringing the total to 2,524 enemies slain.

# SECTOR X

We were flying through the second point of the X-Y-Z Triangle - Sector X. It's called that because it has a nebula in the shape of the Letter X.

During the course of the Lylat Wars, Cornerian spies reported that Andross created a secret research facility in Sector X, but then all contact with them was lost. Remote scanning revealed the existence of a debris field, but nothing more could be found out that way.

We were flying through the destroyed remains of a base that was destroyed by Andross and his forces.

Me: This whole base is gone.

Slippy: It sure is.

Katt: What caused all this?

Lori: I literally have no idea.

Naruto: Without a doubt, this was the work of Andross and his forces.

Me: I have that feeling myself bro.

Then we saw numerous enemies come at us and we fired lasers and more at them. We scoured the base and destroyed them all.

Falco: What the heck!? Everyone look behind you!

We saw a huge robot appear in front of us. It was the Robot Guardian - Spyborg!

Fox: So this is the secret weapon.

Me: It's an incomplete robot.

I scanned it with my computer vision and it was a very cool robot.

Spyborg: (Robotic Voice) **Destroy. Destroy.**

Slippy: Enemy shield analyzed.

Spyborg: **I will terminate all enemies.**

It looked at us and saw us as the enemy.

Spyborg: **You are an enemy.**

We hit his head and blew it off.

Slippy: Yippee! You did it!

But the Spyborg wasn't done yet. It gave us the ah ah ah gesture.

Fox: Huh? What?

Spyborg: **The view is clear. Destroy. Destroy.**

Falco: Destroy what? He's crazy.

Krystal: Let me help out.

Krystal went in.

Peppy: Krystal get back here!

But then we saw the robot swat Krystal away!

Krystal: Fox!

Me: Krystal!

Fox: Krystal!

We saw her heading for the planet Titania.

I had the Osprey Zord fire lasers from its eyes and it hit the Spyborg's head and it was ready to explode.

Spyborg: **I must be complete!**

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Fox: Give me Krystal's location R.O.B.

R.O.B. 64: Distress signal coming from Titania.

Me: She's on the planet Titania. We were about to head there anyway.

Laney: We got to get over there!

Me: Lets go guys!

We set out for Titania. We killed 187 enemies and it brought our kill total to 2,711.

---

TITANIA - Search for Krystal

---

We were flying over the arid wasteland of the planet Titania.

Titania is known as the "Red Planet" due to massive ion storms that stir up red dust from the planet's surface and deposit it into the stratosphere. Archaeologists have discovered a large number of ancient ruins on Titania, pointing to an ancient civilization that once inhabited the planet. The only survivor of this lost civilization is a creature code-named "Goras", believed to be an advanced planetary defense system. Due to Titania's hostile nature, travel to the planet is usually restricted to researchers alone.

Fox was in the Landmaster, a tank made by Slippy and we were gonna fly in the air.

Fox: Deploy the Landmaster!

The Landmaster went out of the Great Fox and onto the surface.

Me: Here we go guys.

We were flying in the air and Fox was on the ground.

Fox: Give me Krystal's location R.O.B.

R.O.B. 64: Lifeform indicated at 12:00.

Me: Confirmed R.O.B. I have Krystal's signature on radar.

We trekked and flew over the surface of Titania and we were killing numerous enemies and blasting them with lasers and missiles and bombs. The kill total was rising fast. We went over mountains and rocky terrain.

Katt: I think we're getting close.

Krystal: (Screams) I'm hit!

Me: Hold on Krystal we're almost there!

Lincoln: We're almost there J.D.!

Me: I know Lincoln.

We saw Krystal and her Arwing in a strange structure.

Fox: Krystal!

Krystal: I knew you would come. But stay back!

Me: Why?

Then the structure came alive and I fired lasers at it and it went into the ground and pulled Krystal in.

Krystal: FOX!

Then a massive creature came out. It was the prehistoric beast Goras!

Goras' body appears to be several stories tall with long, segmented limbs (two legs, four arms and a tail), large bony protrusions from his shoulders and hips, and a large dragon-like head with a single horn. The two upper limbs have three-fingered claws that can fire bolts of energy, while the lower pair have large mantis-like pincers used for swiping. Its exposed ribcage, which can open and close like a cage, holds Goras' delicate organs. The skeletal, corpse-like design suggests that Goras is some sort of supernatural construct, or perhaps only appears to be, and the "bones" are actually an exoskeleton of sorts. It may also be a creature native to the planet, or at least had its design based on native creatures to the planet, judging by the many giant bones and skulls similar in design to it scattered around the planet's surface.

Me: That thing is ugly!

Slippy: Enemy shield analyzed.

The shield gauge appeared on my screen. We blasted his arms off and freed Krystal.

Krystal: Thank you all.

Me: Lets finish this freak off!

We did so by blasting his chest and he exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Goras was dead.

Fox: All aircraft report.

Krystal: Thank you all so much.

Me: It was our pleasure Krystal.

Peppy: I'm glad we could help.

We left Titania. We killed 177 enemies and it brought our kill total to 2,888.

## MACBETH

We were on the planet Macbeth. It served as a major weapons manufacturing plant for Andross and his forces.

Allegedly hollow after a geological event shrunk its core, Macbeth is still able to support life and is well known for containing a wealth of minerals. Home to a large population of miners, engineers, and scientists, travel to and from this planet occurs more often than any other, and it is a seemingly endless source of supplies, although conditions on it can be harsh at times. It has an advanced railway system.

Me: This is really strange. These scans show that its core shrunk somehow, yet Macbeth is still able to support life and retain its planetary structure.

Laney: That is really strange.

Syd: But that is really interesting.

Sakura: It sure is.

We saw a huge train that went on a railway that went on for miles.

Me: That train is Andross's main energy and weapons supply transport. Lets blast it apart!

Monkey Conductor: Here come the little hyenas now.

Me: And we're about to blast you apart you dumb dirty ape!

We blast apart the cars of the train and blew apart numerous enemies.

Peppy: Change the switch ahead!

Me: I see the switches ahead Peppy.

Peppy: Great! Shoot the 8 switches to open the lock!

Me: Roger that.

I fired feather lasers and they hit the switches.

Monkey Conductor: I didn't expect to have to use this. You're very lucky.

The monkey conductor brought out a special biomechanical weapon called Mechbeth.

Created by Andross, Mechbeth was an experimental weapon manufactured in the weapons labs on Macbeth, fitted with an advanced combat system but with a fatal flaw: its internal power generator was still in development at the outbreak of the war. For this reason, it had to rely on an outside source for power, tethered to an energy supply train. However, its combat computer was fully functional. Mechbeth was also armed with three potentially dangerous attacks: an explosive iron bar launcher installed on the head, beam generators installed on the wings, and a tail in which it can spear its enemies and drop them. These three attacks were purported to be the most deadly weapons ever designed on the planet.

Following the Venomian invasion, Cornerian resistance fighters on Macbeth had gotten information on the gigantic train that transported minerals and weapons from the mines and factories to Andross's main base and launching area. Although the train's route was well defended, derailing that train and stopping its shipment will be a crippling blow to Andross's plans. Fox McCloud acceded to the planet's surface in the Landmaster to take out the train and the supply depot, since Macbeth was the industrial key to Andross's military machine and liberating this planet from his clutches would have crippled his ability to produce additional weaponry.

Me: Awesome weapon.

I scanned it and made blueprints for it.

Slippy: Enemy shield analyzed.

We saw the fuel bunker on the right and we changed the rest of the switches.

Peppy: Okay now shoot the switcher.

Monkey Conductor: Step on the gas!

Fox flipped the switcher.

Peppy: Good going Fox!

Me: Bingo!

The tracks were switched and the train went down the wrong track.

Monkey Conductor: No! HIT THE BRAKES!

He slammed on the brakes but he just kept on going and he was plowing through the rail blocks.

Monkey Conductor: I CAN'T STOP IT!

The train went into the fuel bunker and the Mechbeth was destroyed and then the whole bunker exploded.

KRABBBBOOOOOOOMMM! KRABBBOOOOOOM! KRABBBOOOOOOOOOOOOOM! KRABBOOOOOOOOOOOOOOO! KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMM!

The Whole Fuel Bunker exploded with incredible power.

***KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

Fox: All Aircraft report.

Me: All good Fox.

Slippy: I can see the look on their stupid faces.

Krystal: We damaged their weapons and energy production to their core.

Peppy: We sure did.

We reported that our ships were fine. We killed 173 enemies and our kill total was now at 3,061.

## Sector Z

We arrived in Sector Z, the final point of the X-Y-Z Triangle. It was called that because Sector Z is a nebula in the shape of the Letter Z.

Sector Z is part of a trio of nebulae that appear in the shape of an alphabetical character, itself formed in the shape of a giant Z. Beyond the other two sectors, Sector Z is in fact the most dangerous, despite its smaller size and less amount of magnetic radiation. This is in part because the sector is strewn with the wreckage of an earlier battle, and in part because of its proximity to Venom and Lylat's two suns.

We were ambushed and we were killing enemies and protecting the Great Fox and blasting them apart. We also destroyed 6 Copperhead missiles. Our kill count for this area was 114 and it raised the kill count to 3,175.

## Bolse Observatory

We were over at the Bolse Observatory. One of Venom's prominent defense stations.

Created for the defense of Venom, Bolse is a massive artificial satellite in orbit of Andross's capital planet. It is protected by a force field that makes it immune to remote scanning and allowed it to shrug off capital ship weaponry. The sheer size of the station and the amount of magnetic energy generated by its force field give Bolse a strong gravitational field. Besides its laser cannons, Bolse also houses missiles and Bolse Fighters, along with armies to be used for the invasion of Corneria.

The power needed for the operation of Bolse is generated by a bionuclear core. The fusion of biomutated energy and nuclear power gives the station the immense power needed to battle entire fleets of enemy ships. However, this reaction is also incredibly unstable, turning the defense satellite into a ticking time bomb. Six reactor pylons were needed to cool and stabilize the generator, otherwise the core would undergo bionuclear meltdown.

We destroyed the energy barriers and blew the core of the satellite apart and we got out of there as it exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We got 162 more enemies and it brought our kill total to 3,337.

---

Venom Air Defense Zone.

---

We were now in Area 6, the Venom Air Defense Zone.

This area of space has no unusual features, but it is the most convenient atmospheric re-entry point from which to strike at Andross's home base. The legendary battle station Death Ball, which is equipped with a matter-displacement device, is said to control this area of space.

Me: Here we go guys!

Fox: Entering Venom Air Defense Zone!

Nico: This is it guys! There's no turning back now!

We flew in and blasted a massive number of enemies at an incredible rate. We broke through all the lines of defense. But then we saw another enemy coming.

Slippy: Enemy ahead! This one is different.

Falco: Crud! We were so close to Venom.

We saw the enemy and it was the Ultimate Space Weapon - Gorgon!

Gorgon was a specialized war machine of great power with the appearance of a massive disk-shaped machine with three long metal tentacles and a small, vulnerable core in the center. The core reflected its shield's status. At full power, it was blue. With shields slightly weakened, it turned yellow, and when shields were low, it was red. When its shields were depleted, its core would blink red and yellow erratically, indicating vulnerable status. The hard outer shell was capable of opening up in three sections like flower petals, revealing three bonded "energy balls" and what appeared to be metal teeth along the inside of each petal.

Slippy: Enemy Shield analyzed.

I scanned the machine and printed blueprints.

We blasted the energy balls inside it and it weakened the shield and we blasted the core.

We destroyed it and it exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We killed 563 more enemies and it brought our kill total to 3,900.

Fox: Hold on. We're entering Venom Air Space.

We flew towards Venom.

---

Venom - the Final Battle.

---

We were now over the surface of the planet Venom.

A harsh place with only decaying remnants of civilization, Venom is a cruel planet with conditions intolerable to most life. The atmosphere is highly un-breathable, as there is barely any oxygen whatsoever and it is covered with a very thick smog that keeps much of the light from both Lylat and Solar from reaching Venom's surface. Overall, Venom is a world of perpetual darkness. The surface is barren, broken by rough cliffs and chasms. A vast acidic ocean kills off any straggling attempts of life to flourish. Andross was exiled to this planet for the deadly crimes he committed near Corneria's population. However, he did survive and even managed to make parts of the planet habitable, allowing himself and his formed army to live in isolation on the planet. It has since become his adopted homeworld and base of operations.

Fox: Say your prayers Andross.

But then we got an unexpected surprise when Star Wolf showed up. We saw Wolf O'Donnell, Leon Powalski, Pigma Dengar, Andrew Oikonny and their newest member Panther Caroso.

Wolf O'Donnell, sometimes called Lord O'Donnell or even Star Wolf, is the leader of Star Wolf and rival of Fox McCloud. Wolf has been wanted by the Cornerian Army for several years for crimes such as larnecy and treason, which has given them reason to put a bounty on Wolf's head of sp$30,000.00.

Leon Powalski is the only original member other than Wolf himself to have stayed with Star Wolf since its formation. Leon is the team assassin or simply "killer", a dangerous enemy, whose secretive nature is emulated in by having psychopathic traits - very cold, calculating, and cunning. His bounty is the lowest of the team earning only sp$10,000.00

Pigma Dengar is one of the original members of the Star Fox team, and after he betrayed James McCloud and Peppy Hare to Andross, he joined Star Wolf. Wolf later expels Pigma from Star Wolf due to his incredible greed and distrustful nature (he also mentions that "If he'd shown his filthy hide here [Sargasso Space Zone] my [Wolf's] men would have driven him out", which implies that he also gave his men the order to shoot on sight if Pigma ended up coming near their territory).

Andrew Oikonny is the nephew of the evil Andross. He is an inexperienced pilot who only flies to try and follow in Andross's footsteps. Shortly before the events of Star Fox: Assault, Oikonny was kicked out of Star Wolf for undisclosed reasons. He then took control of his dead uncle's remaining army and started a rebellion against the Cornerian Army.

Panther Caroso made his first appearance as the newest member of Star Wolf in Star Fox: Assault. His signature symbol is a red rose and is quite conceited, often embarrassing those around him. He is also quite a flirt, considering himself a ladies' man. Panther has been tracked by the Cornerian Army for years and leaves a red rose as his calling card and reached a bounty of sp$20,000.00

Wolf: Don't get too cocky Star Fox and Team Loud Phoenix Storm.

Leon: Lets see how you handle our new ships.

Pigma: Too bad dad's not here to see ya FAIL!

Andrew: We'll make sure you never reach Andross!

Panther: Hey beautiful. Lets have some fun.

Me: Star Wolf. Just the enemies we're looking for. Now we can kill all of you and throw Panther in jail.

Nico: Thundercracker, Skywarp, make sure to finish off Wolf and Leon quickly and painlessly. Ramjet, fight Panther but leave him alive so we can throw him in prison. Thrust and Dirge, make sure Pigma and Oikenny die painful deaths.

Thundercracker: Roger that boss!

Skywarp: Leave that to us.

Thrust: This is gonna be awesome!

Dirge: Lets make these fuckers pay!

Ramjet: Lets do this!

We split them off and went at Star Wolf.

Wolf: You'll be seeing your dad soon Fox.

Me: You'll be seeing him yourself when we send you to Hell, Wolf!

Thundercracker fired his lasers at Wolf and he fired a missile at him and blew his engine off.

Thundercracker: Sorry, Wolf. But we can't have two versions of you in prison. (shoots a missile at Wolf's Wolfen, destroying it and killing Wolf)

Nico: Wolf O'Donnell, you have failed this universe!

Me: One down 4 to go.

Skywarp went after Leon.

Skywarp fired missiles at Leon and the missiles hit him and he exploded. Killing him instantly.

Skywarp: Take that you putrid lizard!

Nico: Way to go Skywarp! Leon Powalski, you have failed this universe.

Me and Dirge were chasing after Pigma.

Me: This is for James McCloud you fucked up rotten pork chop!

I fired lasers at Pigma's ship and blew out the engines and blew his whole ship apart and a laser bisected him in half and he was exposed to the poisonous Venom air. Pigma was laying on the ground gasping for air. He was suffering big time.

Pigma: (Gasping) James deserved to die!

Me: You can tell him that yourself in Hell!

Dirge transformed into his robot mode and crushed him with a deadly jump stomp.

Dirge: To quote my boss "Pigma Dengar, you have failed this universe!"

Nico: Well said Dirge.

Nico and Thrust then went after Andrew Oikonny.

Andrew: You will pay for everything!

Thrust: It's you that's going to pay for everything monkey freak!

Thrust fired his missiles and they hit Andrew's Wolfen and Nico fired his lasers and blew the whole ship apart. Andrew was on the ground gasping for air and he was suffering big time. Thrust transformed and crushed him with a powerful jump.

Nico: Andrew Oikonny, you have failed this universe!

Ramjet went after Panther. He rammed Panther's Wolfen and it was malfunctioning and Thrust transformed and picked it up.

Panther: Ok, Conehead. Why'd you spare me?

Thrust: First of all, Conehead is an accurate term for me. Second, I spared you because me and the rest of my friends like you, Wolf, and Leon more then Oikenny and Pigma.

Panther: But your buddies just killed Leon and Wolf.

Thrust: That's because where we come from, the two of them are still alive in one of our prisons. I know it's complicated to explain but we'll let you see for yourself.

Me: But we're not done yet guys. It's time to go after Andross! Nico, Krystal, Scourge, Arixam, Chromedome, Thrust, Merrick you all come with me. We're going to help Fox take down Andross.

Nico: You got it.

Merrick: Lets do it.

We went down a shaft.

Merrick: Ok. If Zen-Aku can use this mode, then so can I! (takes out Giraffe crystal) Predazord, Spear mode!

The Giraffe Zord attached to the Predazord and was its right arm.

Andross: I've been waiting for you Star Fox and Team Loud Phoenix Storm. You know that I control the galaxy. It's foolish to come against me. Now you will feel true pain.

Me: Bring it on Andross!

We arrived in the main room and we saw Evil Mad Scientist - ANDROSS!

Andross was once a brilliant Cornerian scientist with pure intentions. His research proved to be extremely beneficial towards both Corneria and the Lylat System at large, earning him the title of a genius to be honored, respected, and influential. However, in time, Andross gained a wide lust for power, bringing him to the point of insanity with a disregard for public safety. Dangerous experimentation left General Pepper of the Cornerian Army suspicious, often questioning the ethics of them. It was not long until both Andross and General Pepper came into a serious confrontation over the issue.

Andross was ordered to terminate his research, but blatantly ignored the general's demands. Eventually, his experimentation caused a massive explosion that tragically destroyed a large portion of Corneria City, and also transformed most of the Lylat System into a wasteland of near-extinction. Infuriated, General Pepper banished Andross to the desolate planet Venom, in fear that he could potentially subvert the entire Lylat System if left to do his bidding. General Pepper assumed that Andross would not survive.

When he was sent to Venom, however, Andross survived and made the discovery that Venom hosted life-forms of humanoid lizards and monkeys. As the years progressed, he began to build an army and conduct various life-threatening experiments on himself. He became a twisted shell of his former being and was driven by madness. His thoughts and intentions shifted from protecting the Lylat System to destroying it and ruling a new galaxy under his name. Andross's evil ambition had served as a magnet to attract the scum of the Lylat system into his service. The most powerful and intelligent of his followers had been promoted to positions of leadership in Andross's military machine, and were given command of specialized war machines of great power. Andross dispatched these key lieutenants to seize strategic locations throughout the Lylat system. The machines they controlled came in a variety of shapes and sizes, and were always accompanied by fleets of support craft. With this new power founded by the forces of Venom, Andross created an empire. Five years had passed, and General Pepper noticed strange activity coming from Venom. Under direct order from the Cornerian Army, a band of mercenaries known as the Star Fox team were sent to investigate.

The team consisted of three members: James McCloud], the founder and leader, Peppy Hare, his best friend, and Pigma Dengar, his other best friend. Upon their arrival however, Pigma betrayed the team, leaving James and Peppy to be captured by Andross. James was killed, and Peppy barely managed to escape. Returning home, he informed General Pepper of what happened and told James' son, Fox, about his father's fate. A few years after the incident on Venom, Andross declared war on the Lylat system, proclaiming himself emperor to all. Andross's legions of minions were mustered from sources throughout the Lylat system. From bio-tech enhanced monsters from the abysses of Aquas to mechanized starfighters assembled in Macbeth's weapons labs, Andross's minions had one thing in common: they were expendable. Each fighter pilot was expected to willingly give his life for the emperor; each robot was programmed to destroy or be destroyed, and each mindless bio-tech drone had been conditioned to think only one thought to destroy Star Fox. Andross also had his own answer to General Pepper's Star Fox team when he offered Wolf O'Donnell money to lead a mercenary team against Fox McCloud, because Wolf was a vicious pilot who seemed to be trying to prove his equal piloting skills and see Fox fail. Andross also made his whining nephew Andrew Oikonny a Star

Wolf pilot to keep him out of his own business, and because he wanted nothing to do with him.

Pigma Dengar also joined Wolf's team because of their delight in Star Fox's doom, and Wolf also found the mysterious Leon Powalski in a rough bar on Venom. Funded and equipped by Andross, the Star Wolf team was born as a group of elite evil pilots who defend the key routes to Venom, always flying the most advanced version of Andross's "Wolfen" class star-fighter prototypes which may even have been superior to the Star Fox team's Arwings. Wolf then vowed to destroy Star Fox and protect Andross, so that he may be feared throughout the galaxy. The Venom Army was unleashed onto Venom's neighboring planets, destroying everything in their path. Any form of rebellion was crushed, causing the Lylat system to be on the brink of becoming a wasteland of near extinction. Corneria, Andross's homeworld, was the final defense left against the menacing threat which had overcome the galaxy. The Cornerian Army stood no chance against the forces of Andross, leaving General Pepper to desperately call upon a new Star Fox team for help. This new team was led by James' son Fox McCloud, composing of Peppy Hare, Slippy Toad, and Falco Lombardi. Having been trained to become experts at flying the swift Arwing, Fox McCloud and his team immediately came to Corneria's aid without hesitation.

The young but keen Fox guaranteed that Andross would be stopped and Pigma would be brought to justice, leaving to assist in fending off the Venomian Army's invasion. After achieving what seemed impossible, the Star Fox team became the Cornerian Millitary's leaders in defeating the forces of Andross. The planets of the Lylat system were saved thanks to their efforts, and even the rival bounty hunters of Star Wolf were disposed of. Venom's homeworld forces were also defeated, until the dictator himself awaited his demise.

It seemed that Andross had been one step ahead of the Star Fox team since their invasion upon Area 6, Venom's air defenses, understanding that they posed a very large threat to his survival. This however, didn't stop Fox from destroying the evil scientist's Ultimate Space Weapon Gorgon. Neither did the Ultra Performance All-Range Fighters Wolfen II, piloted by Star Wolf prevent Star Fox from reaching the Emperor's underground tunnels. As Fox made his way closer to Andross's main base, the madman also accessed Fox's communication channels to taunt Fox. Andross taunted Fox by telling him that the latter would die just like his father did and that he was foolish for coming to face Andross alone. Soon, Fox reached Andross. Staring into the eyes of his father's killer, Fox was repulsed by what Andross had become. The countless lethal experiments Andross had performed in his exile took a toll on his appearance, as the madman was nothing more than an immense disembodied head with giant mechanical hands at either side.

Fox then encountered Andross and a furious battle ensued. Eventually, Fox destroyed the outer layering of Andross's head, and soon the Ape revealed himself in his true form: an enormous brain with two bulging eyes that were connected to the brain by energy strands. Even though being an evil mastermind, he made a pun, stating he was the only one with the "brains" to rule the Lylat System. Fox then entered All-Range Mode, taunting Andross about deciding to show his true form, before confronting the monstrosity. Fox couldn't attack the brain directly because it was equipped with shooting eye balls and a Dimension Transporter and that would allow it to evade Fox's attacks head on. The grueling battle continued, and both suffered large amounts of damage, but Fox gave it his all and managed to defeat Andross by destroying the cerebellum. As he burst into flames, Andross declared that if he was going to die, then he was going to take his opponent down with him, and with the last of his power, let loose a devastating self-destruction, hoping to claim Fox's life in doing so. Andross would have succeeded had it not been for James McCloud's spirit, who helped Fox escape by leading him back to the planet's surface. Meeting with General Pepper, Fox informed everyone that the great leader of Venom had finally been defeated and that the Lylat system had been saved.

Four years passed since the presumed death of Andross. After the Lylat Wars, the galaxy seemed to be at peace. A Cornerian base was established on Titania for research on its ruins, but was unfortunately a front for the leader of the base, Captain Shears, to resurrect the great Andross by cloning remnants of his DNA found on the planet. Sometime during the past four years, a space gang, led by Katt Monroe, had hacked into the main database of Captain Shears' files and discovered research documents on resurrecting Andross, although they initially believed that they were plans for a bioweapon. She managed to contact Falco, a former member of the gang, for assistance in dealing with what she found. Falco left without his team's permission while they were debriefed on the situation. Captain Shears misled the Star Fox team into believing the gang were actually servants of Andross, resulting in a dogfight between Fox and Falco.

It was not until after Slippy explored the base and realized the truth, as well as the gang hailing Fox on the communications channel and explaining what happened and reviewing the files they hacked, that the fighting ended, although Slippy ended up captured in the process. Fox entered Captain Shears' base on Titania in an attempt to stop him, but it was too late. The once powerful dictator Andross had awakened, despite Slippy's efforts in stopping his revival. Captain Shears was crushed by the resurrected Andross, who thereafter immediately attacked Fox. Fox blinded Andross by throwing Shears's rapier at one of his eyes, escaping a close encounter and enraging Andross even more. Luckily, the Star Fox team managed to destroy the base and left Andross beneath its ruins by using a Landmaster with one shot of the Nova Bomb.

After his apparent defeat at the hands of Fox, Andross, severely weakened and reduced to a disembodied spirit, fled the Lylat system and took refuge on Sauria, the Dinosaur Planet, where he learned of the Krazoa. Andross found and gave the renegade dinosaur warrior General Scales, who was invading the Krazoa Palace at the time, more power to defeat the EarthWalker army and conquer Dinosaur Planet while at the same time keeping himself relatively unknown to Scales. After some time, arrived on the planet and discovered the Krazoa. She completed one of six spiritual tests, releasing a Krazoa Spirit into the palace. When she did this, Andross, who had been observing her the entire time, attacked, trapping her within a crystal which ascended to the roof of the palace. After this incident, he disappeared into the shadows and awaited the moment when all six spirits would eventually be released. A distress signal had been sent out by an injured EarthWalker soldier near the first Krazoa Shrine, and it was General Pepper who received it.

The Star Fox team, who had been orbiting the planet at the time, was ordered by General Pepper to investigate. Falco had left Star Fox years earlier, and the team was in desperate need of funds to make repairs on the Great Fox. They saw this as a great opportunity to do so. Arriving on the planet, the lone hero Fox discovered Krystal's Staff and battled his way through the dangers of the Dinosaur Planet, fighting against the vicious tribe known as the SharpClaw. He learned after much research that sections of the planet were split apart, which had been causing the destruction of Dinosaur Planet. The team also learned of the Krazoa Spirits, and were ordered to collect all six to reassemble the missing sections of the planet. It was later discovered that General Scales was a mere puppet of Andross. After the final confrontation between him and Fox, the voice of Andross demanded General Scales give up the last of the Krazoa Spirits, which he held inside himself all along. Fox recognized the voice, but could not remember who exactly it was.

Having the last Spirit released, Andross arose in the form of a mighty Krazoa statue under the name "Krazoa God", looking over the vast Krazoa Palace, claiming to be a divine deity. Krystal was released from her prison and saved by Fox, who watched as she took back her Staff and quickly tried to destroy the floating statue. Her attacks did nothing as it floated to the skies, where it was followed by Fox in his Arwing. Arriving in space, a confused Fox gazed upon the great Krazoa statue which stared back at him. It suddenly spun around, revealing the creature it had been hiding. Andross, who was thought to have been killed eight years ago, laughed and remarked at how he was going to destroy the Lylat system. Fox, horror-struck, knew Andross had to be destroyed once and for all.

A clash between good and evil ensued, as both viciously attacked one another. The fighting could be heard by the inhabitants of Dinosaur Planet itself, where they prayed for their savior's life. Andross had come too far to be defeated again, and soon gained the upper hand by nearly destroying Fox's Arwing. Only a miracle could save him from being crushed by Andross' jaws. Falco appeared from nowhere and saved Fox from being killed by firing a bomb directly at Andross as he was using his vacuum breath. Andross sensed the danger only at the last second and closed his mouth before it went inside, stunning him long enough for Falco to encourage Fox to keep fighting.

Andross did not think anything of this act, ignoring Falco and concentrating on killing Fox. This was his downfall, as Falco provided bombs for Fox to use. One by one they were released into Andross' mouth, revealing the large brain he shelled underneath. Rapid shots were fired and immediately the effects of both Fox and Falco's team work was shown. Andross, screaming in defeat, burst into a blast of energy, destroying him and almost claiming Fox and Falco's Arwings. The evil ex-emperor had finally been defeated for good. Fox prevented the Lylat system from war once again, thanks to the help of an old friend.

Andross may be gone, but his descendants; nephew Andrew Oikonny and grandson Dash Bowman, both attempted to carry out his desires. Dash tried to revive the memory of his grandfather's original intentions of helping the Lylat system, whereas Andrew proclaimed himself the new emperor to continue Andross's evil intent on ruling the Lylat system. As for Andross's true fate, himself, no one knows. His "ghost" appeared to takes the form of either a Killer Bee, Dune Worm, Grunner, or even Monarch Dodora.

He also taunted anyone who attempted to gain the weapon. However, this ghost was somewhat capable of thought, since he had difficulty controlling Monarch Dodora when fighting Dash Bowman, and attempted to support Dash in getting the device, presumably because he hoped that Dash will continue his legacy.

In Star Fox: Assault, Andross's position as emperor and ruler of his forces is succeeded by Andrew Oikonny, but this is short-lived when Oikonny is defeated by Fox, Falco, Slippy, and Krystal, and later destroyed by an aparoid moth (although Command depicts his survival, though it is considered non-canon).

Nico: Andross, you have failed this universe!

Me: He has failed the entire universe!

We fired powerful energy blasts and lasers and blew his hands apart.

Merrick: Lets see how he likes this. CRESCENT MOON SPEAR, FIRE!

The Giraffe Zord fired its head and it was enveloped in a powerful fire blast that turned it into a crescent shape and it went at incredible speed. It hit Andross and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOMMMM!

Then Fox fired lasers at his eyes and revealed his TRUE form! He was a massive disembodied brain with two floating eyeballs attached to laser wires.

Andross: Only I have the brains to rule Lylat.

Fox: So Andross, you show your true form.

Me: Lets finish this freak off! Combo time guys!

Nico: You got it! Solrock I choose you!

Nico called out his Solrock.

Nico: GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his device and it enhanced his light powers and Solrock's abilities.

Chromedome: Time for action. CYBER KEY POWER!

The Earth Cyber Planet Key went into his dual-lasers and it enhanced them 100-fold.

Nico formed a small artificial sun.

Nico: Solrock, use Solar Beam!

Solrock charged up a Solar Beam.

Nico and Chromedome: ULTRAVIOLET SUPERFLARE RAY BURST!

Solrock fired a massive blast of Solar Light and Chromedome fired his lasers and the blasts combined and they hit Andross and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Cybertron Scourge: Lets burn this freak! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and two more dragon heads popped up and roared.

Cybertron Scourge: Witness the Three-Headed Dragon!

Arixam: Lets get him!

Arixam was enveloped in a massive vortex of water and she turned into Cybertron Starscream.

Arixam: Now for you to witness true power. DECEPTICON CYBER KEY POWER!

The Decepticon Cyber Planet Key went into her back and out came Starscream's Null Cannon on one side and the other had a blade.

Me: Thank goodness it's not the real thing.

Nico: Yeah no kidding. I hate Starscream.

Arixam: Lets get him Scourge!

Cybertron Scourge and Arixam: SUPERFLAME FINAL STRIKE!

Cybertron Scourge fired a massive blast of fire and Arixam fired a massive blast of energy from her cannons and the blasts combined and they hit Andross and exploded with incredible power.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets get him! Final Smash time!

Thrust: You got it J.D. CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back booster and enhanced his speed 100-fold.

Thrust: HYPERSONIC BOOMSTORM!

Thrust went at Hypersonic Speed at 50,000 miles per hour and the power of the massive Sonic Boom hit Andross and it hurt him bad.

Merrick: Now its our turn. PREDATOR WAVE!

The Alligator mouth fired a massive blast of energy at Andross and it hit him in the Cerebellum and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Cerebellum was completely destroyed. But Andross had one last trick up his sleeve!

Andross: IF I GO DOWN I'M TAKING YOU ALL WITH ME!

Me: Not a chance in Hell you freak!

I used Instant Transmission and beamed us all out of the room just in time as Andross exploded with incredible power!

KRABBBBBBBBBBBBBBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful and so devastating that it would've completely obliterated us had we not gotten out of there! We saw that Andross was destroyed from space.

Me: Now to make sure that Andross never returns. Purple Osprey, let me handle this. I want to finish this war with a bang.

It screeched in agreement and the cockpit of the Osprey Zord opened up and I was standing outside.

Me: (Echoing) Andross you will never be welcome in our universe ever again!

I went Super Ebonwu 30,000.

Me: (Cups Hands to side)
KAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA!
MEEEEEEEEEEEEEEEEEEEEEEEEEEEEE!

HAAAAAAAAAAAAAAAAAAAAAAAA!
MEEEEEEEEEEEEEEEEEEEEEEEEEEEEEE!
HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

I fired a massive Kamehameha Wave right at the planet Venom and it hit the planet with enough destructive power to obliterate 500 planets. Planet Venom exploded with incredible power.

***KRABBBBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOO***

The explosion was so powerful and so devastating that it shook the entirety of the Lylat System to the very foundation and the explosion could be seen all the way from the planet Corneria. General Pepper knew that the explosion was that of Planet Venom and he knew right then and there that the Lylat Wars were over.

When the explosion faded, Planet Venom was completely obliterated. Not even an atom of it was left.

Me: That did it! It's over guys. We won!

We all cheered wildly.

Merrick: (To the Viewers) That was extremely intense. Team Loud Phoenix Storm is an awesome force.

We went back to Corneria and we were all awarded medals for our heroic valor and our bravery in killing Andross. We went back to Earth and we rested. Our new ships were a success.

---

In the Mariana Trench Prison, Nico was giving Wolf, Leon and Panther their lunch.

Panther (sees Wolf and Leon): So you two really still are alive.

Wolf: Of course we are. J.D. and his pals must've killed alternate versions of me and Leon.

Leon: Got the usual?

Nico (slips burgers and fries through the cell): I sure do.

It was gonna be a long time for Wolf, Leon and Panther to accept responsibility for their crimes.

THE END

---

Another Fanfiction Complete.

I used to play Star Fox 64 a lot back when I was a kid. It was awesome! I wanted to make it a combo with Star Fox 64 3DS and Star Fox Assault but without the Apparoids. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Very Sick Lori

It starts in the Moon Prison. Nico, Maria, Carmen, Syd, Vicky's Parents and Tootie were visiting Icky Vicky.

Vicky's parents were extremely madder than hell at Icky Vicky for the kind of torture and pain and control she had over them. They gave birth to spawn from Satan himself. Icky Vicky realized that she was in a lot more hot water than she already was.

Vicky's Mom: You are the worst babysitter and the most evil monster we've ever created!

Vicky's Dad: That's right! You can never control us ever again!

Vicky's Mom: Nico can you cover Tootie's ears? We don't want her to hear this.

Tootie: No it's all right mom. I can handle it.

Vicky's Mom: All right sweetie.

Nico: Show no mercy.

Vicky's dad: With pleasure Nico.

Vicky's parents took a deep breath and they gave Icky Vicky the most brutal rant ever known in the history of mankind!

Vicky's Dad: YOU ARE THE MOST DISGRACEFUL ASSHOLE AND THE BIGGEST MISTAKE WE HAVE EVER MADE!

Vicky's Mom: YOU MAKE ME SICK JUST LOOKING AT YOU! YOU ARE NOTHING MORE THAN A MOTHERFUCKING BITCH! A 20,000% ASSHOLE TO THE 10TH POWER!

Vicky's Dad: YOU ARE A FUCKED UP PUTRID FUCKING SHITKICKING ASSWIPE WITH ABSOLUTELY NO LOVE FOR ANYONE BUT YOURSELF!

Vicky's Mom: YOU ARE THE BIGGEST MOST INCREDIBLY FUCKED UP BITCH THAT HAS EVER WALKED THE FACE OF THE EARTH!

Vicky's Dad: YOU ARE NO LONGER PART OF OUR FAMILY!

Vicky's Parents: WE NOW OFFICIALLY DISOWN YOU!

Nico: Whoo! Yeah!

Maria: You tell her guys!

Carmen: That's telling that bitch! Yeah!

Syd: That was awesome guys!

Tootie: Yeah!

Maria: YOU MAKE ME SICK JUST LOOKING AT YOU FUCKY VICKY!

Nico: (Laughs) Fucky Vicky. I like that.

Carmen: That's a good one sis.

Maria: Thanks Carm. (To Vicky) JUST LOOKING AT YOU MAKES ME SICK YOU FUCKED UP VOMITPISSER! NO ONE LIKES YOU BECAUSE YOU ARE NOTHING BUT A SADISTIC BULLY THAT GETS A SICK THRILL OUT OF CAUSING PAIN AND SUFFERING! I HATE YOU MORE THAN LIFE ITSELF YOU FUCKED UP MOTHERFUCKING PSYCHOPATH!

Carmen: Whoo! You tell her sis!

Nico: Oh yeah! ICKY VICKY YOU HAVE NOT ONLY FAILED EVERYONE IN DIMMSDALE, BUT YOU ALSO FAILED EVERY SINGLE CHILD ON EARTH AND ON PLANETS ALL OVER THE UNIVERSE AND IN OTHER UNIVERSES! YOU MAKE EVEN YOUR FUCKED UP BOYFRIENDS QUIVER IN FEAR AT JUST THE SIGHT OF YOU!

Carmen: I'VE BEATEN UP CRIMINALS THAT ARE MUCH WORSE

THAN YOU! YOU ARE ARE NOTHING MORE THAN A MAJORLY FUCKED UP LUNATIC WITH ABSOLUTELY NO REGARD FOR THE VALUE OF HUMAN LIFE YOU PSYCHOPATHIC FREAK! THAT'S WHY YOU WILL ALWAYS BE A LOSER AND A MENACE TO SOCIETY! I HAVE NEVER SEEN SUCH A MOST PATHETIC FUCKED UP WORTHLESS PILE OF GARBAGE IN ALL MY LIFE! YOU ARE THE MOST WORTHLESS MOST DISGUSTING WORTHLESS PILE OF GARBAGE THAT HAS EVER WALKED THE FACE OF THE EARTH! I ABSOLUTELY HATE YOUR FUCKING GUTS MORE THAN ALL OF LIFE ITSELF ICKY VICKY!

Then Icky Vicky went absolutely crazy! She was screaming and roaring like a demon from another planet and she did all these monstrous sounds that defied all forms of human comprehension and she made all these crazy unearthly screams that were truly demonic. She was foaming at the mouth and her eyes were blood red with so much rage and incomprehensible fury. She had blood streaming down her face and this indicated that she was completely out of her mind with so much rage and indiscriminate fury.

Nico: Oh and one more thing Icky Vicky. Here's some friends of yours to settle the score with you. (Whistles)

A bunch of parents that Icky Vicky babysat for their kids before showed up and they were armed with makeshift weapons, pitchforks and torches.

Nico: Go wild guys!

Parent 1: Thanks Nico. Get her!

They went into Icky Vicky's Cell and beat the living shit out of Icky Vicky.

They left the prison forever severing their ties to Icky Vicky - the most hated babysitter and most pathetic excuse of a human that ever lived.

---

Back at the Estate on Earth, I was monitoring the insanity of Denzel

Crocker. So far he was at 9,843% Insanity.

Me: He's almost there. It's just a matter of time.

Luan: What's he almost there for what J.D.?

Me: Mr. Crocker's almost at 10,000% insanity. When he hits that level of insanity, that's when we perform IT.

Luna: What is IT dude?

Me: We totally remove his brain.

Everyone gasped.

Chloe: J.D. you can't do that! That's murder!

Me: Normally yes. But not to those that deserve it. Besides, I hate Mr. Crocker's guts. He wants nothing more than to see the entire world burn and abuse the power of fairy godparents for his own selfish purposes for his own personal gain.

Chloe: Well since you put it that way.

Nico, Maria, Carmen and Syd came back. Nico also caught a Crawdaunt and a Claydol.

Me: Hey guys.

Nico: Hey J.D.

Me: How was the visit to the prison?

Nico: Oh it was awesome!

Maria: We did the biggest rant ever on Icky Vicky.

Nico played the whole rant and we heard it and we cheered wildly.

Lynn: Whoo! You sure showed her!

Lucy: You really laid down the law with her. Well done.

Syd: They really laid down the law with her. It was so awesome!

Ronnie Anne: I'm glad that disgraceful babysitter was put in her place.

Maria: And I just made a whole new arch nemesis next to the late Hydro Man.

We laughed. Lori came down.

Lori: (Weakly) Hey guys.

We saw Lori and she was really pale and she was coughing and sneezing.

Me: You look horrible Lori.

Teresa: You ok, Lori? You don't look so good.

Lori: I think I may literally be coming down with something.

G1 Brainstorm: You better get to Ratchet and Red Alert, Lori. You don't look so good.

Lori: (Sniffles) Okay.

In the infirmary we ran some diagnostic tests.

Wanda: Lori has the Fairy Flu.

Me: What's the Fairy Flu?

Wanda: It's an illness that affects Fairies. It causes us to temporarily lose control of our magical powers.

Stellar: But we just found out that it affects humans as well.

Laney: Boy that doesn't sound good.

Red Alert: You sure Lori has the Fairy Flu, Wanda?

Wanda: Of course. Why?

Ratchet: Because there's something else inside her as well.

Me: What is it Ratchet?

Ratchet: Take a look for yourself.

On a scan we saw that Lori had a deadly pathogen inside her. It was THRAX!

At the beginning of the story, Thrax enters the body of Frank DeTorre, an overweight widower without the slightest regard for hygiene and health, when the latter eats an egg that just spat by a monkey into a muddy floor. By doing so, he infiltrates the City of Frank, a huge metropolis inside Frank's body in which each of his body cells is living a life identical to that of humans, with white blood cells as cops and germs as criminals.

Thrax casually murders the two witnesses of his arrival and goes to the germs headquarters in Frank's armpit. There, he quickly takes control of the germs' gang by killing their leader Scabies; and plans to take advantage of Frank's poor health condition to operate undetected.

The titular primary protagonist is Osmosis "Ozzy" Jones, one of Frank's white blood cells who was demoted from the police after he activated the emergency evacuation (i.e. throwing up), to get rid of germs from polluted oysters, which was seen as "unnecessary force".

He gets reluctantly teamed up with a rule-abiding cold pill named Drix (Drixenol) to investigate on a throat inflammation (in fact Thrax's doing), and they discover that something far more dangerous is going on. However, the incompetent and election-obsessed Mayor Phlegmming (who is to blame for Frank's disastrous lifestyle) dismisses their warnings and states that this is nothing more than a "common cold" after Thrax and his henchmen destroy the dam in the nose.

Jones uses his body-altering abilities to pass as a germ and infiltrates a meeting of Thrax and his thugs inside a zit to get in on what is going on. There, he discovers that Thrax is a deadly virus and serial killer whose purpose is to kill each person he contaminates faster than the last, and is now planning to murder Frank within 48 hours (which is faster than any virus has killed) so that he will be famous. When Ozzy is caught, Drix barges in just as Thrax was about to incinerate him. After a brief battle, the zit is destroyed in the explosion of a medicine grenade, killing most of Thrax's gang and seemingly Thrax himself as well.

Yet, the virus has survived and his hiding in a toenail with Joe Cramp and Bruiser left. As Thrax prepares to get back on schedule, Bruiser suggested they incubate for a while as they are few in numbers (which would mean that Thrax will not be able to break his record). Very angered, desperate and disillusioned, Thrax kills both Cramp and Bruiser in an explosion, heading off to finish things as a lone wolf.

Phlegmming fires both Ozzy and Drix, but they keep investigating nonetheless until they can be sure that Thrax is really gone. They go to the memory zone of the brain and discover that Thrax has broken in. Meanwhile, Leah Estrogen, the mayor's assistant, and Ozzy's love interest start suspecting that something is amiss, but even when he can no longer ignore the situation, Phlegmming keeps underestimating it. Leah starts her own investigation in the brain and stumbles upon Thrax, who stole a DNA bead from Frank's hypothalamus, causing his body temperature to skyrocket, and the entire city to be devastated in a fire, under Phlegmming's disbelieving and remorseful eyes.

Despite her activating the alarm and putting up quite a fight, Thrax takes Leah as a hostage to force Ozzy and Drix, who caught up with them, to let her go, but not before Drix could shoot Thrax's claw with a freezing blast, preventing him from using it.

As Frank is being rushed into the hospital in critical condition, Thrax triggers a sneeze to exit his body, followed by Ozzy who used Drix's cannon to propel himself after his foe, landing in Frank's daughter Shane's eye.

Ozzy and Thrax engage a fistfight, with Ozzy altering his body structure to better fight his foe, fighting him evenly. Unfortunately, the ice around Thrax's claw is shattered, and he manages to catch

Ozzy before proceeding to strangle him with the DNA chain. However, he and Osmosis are sent flying by one of Shane's tears. Thrax attempts to stab Jones with his claw, gloating that he will break his record with Shane as soon as Frank dies, but Ozzie traps him on the girl's fake eyelash that is about to fall.

Ozzy clings to Shane's real eyelash, with the DNA chain still around his neck, while Thrax falls into a bottle of rubbing alcohol and dissolves and burns to death. Ozzy then uses Shane's teardrop to re-enter Frank's body and replace the stolen DNA, saving Frank's life in extremis.

As Frank is saved and vows to adopt a healthier lifestyle, Phlegmming is impeached (presumably replaced by his opponent, who unlike him actually cared about Frank's health) and Ozzy is appointed as an elite cop after being rehired by the police, with Drix as his partner and Leah as his girlfriend.

Me: Thrax!? I thought he was gone for good!

Lincoln: Thrax from Osmosis Jones is inside Lori!?

Me: That's what it says Lincoln. We're gonna have to go inside Lori and destroy him.

Nico: That's incredibly risky!

Lori: Yeah you guys can't go inside me! You all might literally damage something important!

Ben: Leave that to me.

Ben turned into Alien X.

Ben: (Ben and Multiple Voices) ALIEN X!

Me: What are you gonna do Ben?

Alien X used his powers on Lori.

Alien X: Alright. I made sure that our attacks wouldn't hurt Lori's insides.

Me: Great thinking Ben. Okay who wants to go inside Lori?

Lincoln: I'll go.

Laney: Me too.

Lana: Same here. This'll be so cool!

Bobby: I'll go too. Don't worry babe we'll get you all better.

Lori: Oh thank you Boo Boo Bear.

Brainstorm: I'll go.

Nico: Same here.

Ax (Animorphs): I wish to go too.

Armada Cyclonus: I'll go too.

Clawful: I'll go too.

Syd: I'll go as well. This is gonna be so awesome!

Nico: Syd is quite adventurous huh?

Me: She sure is.

Spiderman: I'll go too.

Flash: I want to go in too.

Clayface: Same here guys.

Beast Boy: I'll go in too. One time I turned into an amoeba and went inside Cyborg.

Tara: I didn't know that Gar.

Robin: Cyborg was invaded by a computer virus that made him go on a huge eating spree and Beast Boy and Gizmo went inside him to destroy it.

Me: That is a REALLY unlikely alliance.

Starfire: It was.

Nico: Poromon, Kirby, you two better comfort Lori while we're inside her.

Poromon: You got it Nico.

Kirby: You can count on us Nico!

Jumba: (Russian Accent) If you wish to go inside Elder Sister, take Experiment 222. Little Girl has called him Poxy.

Me: You got it. Thanks doctor.

Poxy was a cute guy.

Me: Lets do it!

Ant Man: I can get us inside Lori. My Shrink Suit can shrink not only me but it also can anyone with me.

Me: I didn't know that Scott. I guess we should've thought of that when we went inside Jerry.

Ant Man: That's okay.

Me: Here Lori.

I hand her a communicator so we can talk to her from inside her.

Lori: Thanks J.D. Show that virus no mercy.

Me: With pleasure. Lets do it.

Ant Man shrunk us with his shrink suit and we were the size of white blood cells. We went into Lori through her mouth and down her esophagus and into her stomach.

On the beach by the stomach acid was a white blood cell named Osmosis "Ozzy" Jones and with him was his partner and best friend Drixoral - a 24 Hour Cold Medication.

Drix (to Ozzy): We did it, Ozzy. Frank's safe. Thrax won't be able to harm him now.

Ozzy (O.J.): Yeah, but now Thrax can harm someone else. And the two of us are out of Frank too.

We landed by them in the stomach.

Ozzy (O.J.): Team Loud Phoenix Storm! It's nice to finally meet you guys!

Me: Osmosis Jones. It's an honor to finally meet you too.

Drix: We've heard so much about all of your adventures and they are the most amazing we have ever seen!

Me: Thanks Drix. But how did you guys wind up here inside Lori?

Ozzy (O.J.): We got sucked into a mosquito and we were taken in here when Lori squished it.

Me: That's strange. But we were told that Thrax has invaded Lori and she also has the Fairy Flu.

Ozzy (O.J.): So Thrax is here!?

Me: He sure is. You're inside Lori Loud.

Nico: And if we don't stop him he will kill Lori.

Me: He won't kill her. He'll just cause some serious damage. The Fairy Flu she has gave her a fever of 102.

Ozzy (O.J.): We have to stop him!

Me: Lets work together to take him down for good. I have an idea.

We huddled and we put our plan together. It was to have us fight Thrax in Lori's Colon and when he's weakened enough we're going to kill him by blasting him with the biggest fart Lori ever made.

Ozzy: I hope you guys don't mind me shooting Thrax through the head the first chance I get.

Me: Not at all Ozzy. Lets get him!

We sprang into action. We found Thrax and his flunkies a hotel in the Appendix.

One of Thrax's thugs was trying to find us when he ran into a dark alleyway.

Thug: Hello?

Spidey (appears behind him): Hi. (knocks him out)

Clayface: Alright, Ozzy. You and I are going to infiltrate Tharx's meeting. But we need to keep our cool.

Ozzy: Right.

Clayface and Ozzy went undercover and were disguised as germs.

They found out that Thrax was planning to do the same thing to Lori like he was going to do to Frank. He was going to kill Lori by pulling out a vital gene from the Hypothalamus and raise her temperature to fatal levels. A temperature of 108˚ Fahrenheit for anyone is instant death. It suffocates the heart.

But then Ozzy tripped and his cover was blown and Thrax saw him.

Thrax: YOU!

Clayface: Nice going Ozzy.

Flash got them out of there and the fight to save Lori was on!

I punched Thrax in the face and kicked him in the stomach.

Nico: Thrax, you have failed Lori Loud's insides!

Me: More like he has failed the worlds of human anatomy and medicine!

We went into Lori's Colon and the fight was really brutal. I punched Thrax in the face and kicked him in the stomach and punched him in the chest and bit him in the hand and bit it clean off.

Ozzy fired his gun at Thrax.

Thrax: (Ozzy points his gun at Thrax's head) Awful close, Jones. Afraid you'll miss?

Ozzy: (points at Thrax's crotch instead) There are other ways we can kill you. I don't need to go for your head! (shoots Thrax in the crotch)

Thrax screamed like a little girl.

Bobby: You will never hurt my babe again!

(Bonnie Tyler's Holding Out for a Hero plays)

Bobby spread his wings and punched Thrax in the face and crushed Thrax's foot and kicked him in the neck. Bobby then kicked him in the face and stomach and punched him in the mouth and knocked out some of his teeth. Bobby fired crystals into Thrax and they hit Thrax and exploded. Bobby kicked Thrax in the face and punched him in the eyes. Bobby formed crystal claws on his knuckles and slashed Thrax's face. Lori was watching Bobby's fight with Thrax on my laptop and her kids were taking care of her while she was resting. She couldn't believe what she was seeing. Bobby was destroying Thrax, an evil virus with enough power to destroy a human in just 3 days. Bobby formed a sword of crystal and they engaged in a massive sword fight. Thrax had his heat claw. It was a deadly sword fight. Sparks flew everywhere and some of Lori's Fart Gas ignited and exploded in Thrax's face and burned him bad. It was a brutal fight.

Me: Come on guys! Lets finish this fucking parasite! Combo time!

Clawful: Right J.D.! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his device and it enabled him to summon an army of lobsters and these lobsters can explode on contact.

Cyclonus (Armada): (Laughs) My turn! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back on the underside and it will increase his abilities 10-fold. His blasters were enhanced.

Clawful and Armada Cyclonus: LASER LOBSTER SWARMBOMBS!

Armada Cyclonus fired powerful laser blasts and Clawful summoned a massive swarm of lobsters and they went at Thrax and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOMM!

G1 Brainstorm: Now it's my turn! CYBER KEY POWER!

The Gigantion Cyber Planet Key went into the back of his blaster and it enhanced his speed and firepower range and it enhanced his pulse cannons 20,000-fold.

Ax (Animorphs): Lets get him. UNIVERSAL CYBER KEY POWER!

The Universal Cyber Planet Key went into his device and it will enabled him to use the powers and abilities of all the aliens in the Omnitrix and the Aliens and Creatures of the Animorphs.

Ax and G1 Brainstorm: LIGHTNING PULSEBLAST BARRAGE!

Ax fired Megawhatt's lightning and G1 Brainstorm fired his pulse cannon and the blasts combined and they hit Thrax and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Me: Now to finish you off once and for all. Final Smash time!

Poxy used his final smash called RUBBING ALCOHOL BURNWAVE. He fired a blast of rubbing alcohol at Thrax and it burned him badly.

Ozzy: You are never welcome here in this body Thrax! IMMUNE SYSTEM GENE DESTROYER!

Ozzy fired a blast of energy at Thrax and it blew his arms and legs off.

Me: Now for the grand finale. Lori, we need you conjure up the biggest fart you can make. It's the best way to kill Thrax!

Lori: One mondo super fart literally coming up!

Lori strained hard and told her brain to make it.

Me: Remember this Thrax: SHIT HAPPENS!

Laney: FIRE IN THE HOLE!

We teleported out of Lori's Colon and went to Ozzy and Drix's pad.

Lori's Colon shook violently and then a massive explosion of horrible smelling fart gas that smelled so extremely horrible blasted Thrax head on and he was disintegrated in an instant into nothing.

KRAAAAAAFFFFFFFFFFFFAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

Thrax was dead. We saw the whole thing from a monitor in Ozzy's pad.

Ozzy: (To the Viewers) Wow! Lori has quite an incredibly toxic and explosive fart.

Me: They don't call her toot-zilla for nothing.

Lori: I heard that!

Me: It was so awesome working with you Ozzy and you too Drix.

Ozzy: Same to you J.D. You guys are awesome.

Me: We get that a lot. But it was Bobby that is the hero of this one. He really let Thrax have it. You were awesome compadre.

Bobby: Thanks amigo.

Lori: That's my Bobby Boo Boo Bear.

We got out of Lori's body and took a shower. Should Ozzy and Drix need us again he would let us know.

---

Lori's kids were taking care of her. Roxanne had a bowl of

Sauerkraut with her.

Roxanne: Here mommy. Stardust and Stellar said that the best cure for the Fairy Flu is eating a lot of Sauerkraut.

Lori: Oh thanks sweetie. I don't like sauerkraut but if it'll help, then okay.

Lori ate all the sauerkraut and it was helping her. Lori was cured the next day.

THE END

---

Another Fanfiction Complete

Osmosis Jones was an awesome movie back in 2001. It was funny and anatomically hysterical! Chris Rock, Bill Murray and all those stars did a great job in that movie! But it was because of those stupid critics that it became a box office catastrophe! Bunch of brainless losers! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time

# Krabs's Army

Chapter opens to the Krusty Krab.

French Narrator: (French Accent) Ah, the Krusty Krab. Home of the delicious Krabby Patty and its super-secret recipe.

Lily was working behind the grill and Maria came in.

Maria: Hello Krusty Crew!

Lily: Hey Maria. Hey Horsea.

Horsea: Hey Lily.

Maria: Horsea, what kind of Krabby Patty would you like?

Horsea: I'll have a Monster Krabby Patty.

Maria: That's a good choice Horsea. We're all here Lily.

Lily: One Monster Krabby Patty coming up.

Real hands appeared and they had a huge pile of meat in them and they plopped the meat onto the grill.

French Narrator: 20 minutes later.

Lily came out with the patty.

Lily: Order up! One Monster Krabby Patty.

Lily brought it to the table the Crusaders of Neptune were at and she sat it on the table. Lily had a Shadow Clone behind the grill.

Varie: Wow! Lily you weren't kidding! This is the biggest item on the Krusty Krab menu.

Rolf: You sure are a magnificent burger cook cowlick water Loud Girl.

Lily: Thanks Rolf.

They got to eating.

Lily: Thanks for visiting the Krusty Krab, Maria.

Maria: You're welcome Lily. It's always fun to come here.

Horsea: Did you guys know that I insulted Icky Vicky as well?

Gali: What did you say to her Horsea?

Horsea: Oh it was awesome.

---

In the Moon Prison, Maria had finished her rant to Icky Vicky. Horsea then squirted acid ink into Icky Vicky's eyes and she screamed in excruciating pain.

Horsea: YOU ARE THE WORST EVER HUMAN THAT EVER LIVED VICKY! YOU ARE THE MOST DISGUSTING SHIT-FACED FREAK OF NATURE THAT HAS EVER WALKED THE FACE OF THE EARTH! GO KILL YOURSELF!

Maria: Whoo! You tell her Horsea.

FLASHBACK ENDS

They cheered for Horsea.

Invisible Woman: That was well done Horsea.

Seaspray: You said it Susan. Good show.

Gali: Very impressive.

Lily: I'll say.

Lana: Me too Lily. That was awesome!

Rolf: Rolf agrees.

SpongeBob: Attention, Krusty Krab crew! All hands report immediately!

Lily: [runs up] Fry cook Lily Loud reporting, sir!

Pearl: [Hops out from the boat.] Cashier Pearl Krabs reporting, sir!

Sandy: Bus girl Sandy Cheeks reporting!

Squidward got up from his nap.

Squidward: (Yawns) What's everyone yelling about?

SpongeBob: Today is the 25th anniversary of the first time Mr. Krabs's arch-enemy and our former nemesis Plankton ever tried to steal the secret Krabby Patty formula. [scene flashes back to Mr. Krabs and Plankton]

Plankton: Can I have the secret formula?

Mr. Krabs: No.

Plankton: Okay. [walks away]

SpongeBob: [voiceover] But Plankton was persistent!

Plankton: [comes back] Pretty please?

Mr. Krabs: Uh-uh. [scene cuts to Plankton holding a costume behind his back]

SpongeBob: He used disguises! [Plankton laughs and pulls a cockroach costume over himself; Mr. Krabs squishes him] Super science! [Plankton drips a droplet of chemical into a test tube and drinks it; he is surrounded in a pink cloud and appears as a cockroach; Mr. Krabs steps on him again] Civil disobedience! [Plankton is marching, holding a picket sign that states "I am not a roach"; Mr. Krabs squashes him once more; scene cuts back to the Krusty Krab with, Lily, Sandy, Pearl, Squidward, and SpongeBob] And Mr. Krabs always came out on top! Now that Mr. Krabs is in prison and Plankton has been banished into the endless void of space, and now we have a naked nude Krabs in Plankton's place and we have to make sure that he doesn't get the Krabby Patty Secret Formula.

Lily: I never knew that Plankton was that crafty. But you can count on us Mr. SquarePants!

Squidward: [sarcastically] Fascinating.

SpongeBob: But thousands of failures have made him crafty, so keep your eyes open! [SpongeBob eyes bulge out, and he moves them right to left] You'll never know what trick he'll use to steal the secret Krabby Patty formula.

Lily: Aye aye sir!

Pearl: You can count on us Mr. SquarePants.

Robot: [walks into the Krusty Krab, speaks in robotic voice] **What a quaint restaurant. I think I will sample their wares.**

Lily: It's a robot.

SpongeBob: I got this one. Excuse me Pearl. [moves Pearl out of the way] I'll take this one. [to the robot] Welcome to the Krusty Krab, sir. May I help you?

Robot: **Yes please. I'd like an order of chili coral bits.**

SpongeBob: [loses fake grin he had] You sure you don't want a Krabby Patty?

Robot: **No, thank you.** [pulls out a huge bar of gold] **Will this cover it?**

SpongeBob: Wow! That's a lot of gold! [grabs the gold and hands the robot a paper bag] Here you go.

Robot: [takes the bag and walks toward the door; using green laser beams, it melts the doorway and walks through] **Good day.**

Lily had strong suspicions about the giant bar of gold that was given to

SpongeBob: Hm. I was sure it was one of Krabs's tricks.

Lily then sensed something inside the gold bar.

Lily: Oh no!

Lily jumped over to the bar and opened a hatch on it and inside was Krabs.

Lily: I knew this was too good to be true!

SpongeBob: I knew it was a trick!

Krabs: Alright, Squarepants. Hand over the Krabby Patty formula!

Spongebob: Or what?

Krabs (shrugs): Or I'll destroy the Krusty Krab. Is that a valid threat? Because I didn't think that far ahead.

SpongeBob: Well, then, allow me to suggest your next move. [scene cuts to a slingshot; Krabs screams in terror as he is flung towards the Crab Net!]

Krabs: CURSE YOU SQUAREPANTS!

CRASH!

Krabs hit the wall of the Crab Net.

Krabs: Ouch.

Gali: Boy that stupid Krabs just will never learn.

Luna: No he won't dudes.

SpongeBob: [laughs]

Lily: Serves that skinflint right! But just in case.

Lily had Maria spy on Krabs.

Spongebob: Why am I getting a strange sense of deja vu?

---

At the Crab Net, Krabs was getting up from the launch.

Krabs: You just wait, Squarepants! Next time I'll… ah, who am I kidding? At least I can go home to me wife who understands. [scene cuts to inside the Crab Net]

Fiona: So? Tell me what happened.

Krabs: I don't want to talk about it.

Fiona: Talking will make you feel better.

Krabs: Leave me alone.

Fiona: That's your problem. You never let anyone in. Krabs the rock, Krabs the loner…

Krabs: And she's off, ladies and gentlemen.

Krabs:… and that's why everything you try ends up like this… [Fiona's screen shows Krabs laughing, about to pull a lever; Lily punches him in the face and sends him flying] and like this… [Fiona's screen shows Krabs with a bunch of pillows wrapped around him laughing; Lily punches him again but with a spiked metal fist-glove and sends him flying] and more recently, like this. [Fiona's screen shows a slingshot with a flinging noise.]

Krabs: [whimpering, starts bawling] I'm a failure!

Fiona: It's not that bad! You just require a little help. Maybe some henchmen…

Krabs: Henchmen?

Fiona: Yes, what you need to do is surround yourself with muscular tough guys who will do whatever you say.

Krabs: I like the sound of that. I'll canvas all the seediest lowbrow dives in town to find me minions. And I know just how to speak their language! [scene cuts to a dim club with muscular tough guys playing pool; Krabs stands at the door] Felicitations, malefactors! I am endeavoring to misappropriate the formulary for the preparation of affordable comestibles! Who will join me!?

[Scene cuts to Krabs sitting in a wheelchair in the Crab Net with a cast and bandages]

Krabs: I don't get it. No matter what I do, I always end up being smashed by someone bigger and stronger than me.

Fiona: Oh, come on. I think you're overreacting. [as Fiona talks, a robotic hand comes out of a panel and pats Krabs, then crushes him] Sorry.

KRabs: That's okay. I'm no different than the millions of other Krabs in the sea. [while Krabs talks, he "assembles" himself together, sticking his eyes on, putting his claws in the sockets, and matching his legs which are labeled "left leg" and "right leg" in their appropriate sockets] The Krabs family has been a money-obsessed family for many generations and now because of Lily we have now because the most hated family in the history of the world. And we're now always being pushed around and crushed. Wait! That's it! Acting alone, we're powerless, but united, the Krabs family could be a real pain in the hindquarters! [he appears with a phone book and slams it on the table] SquarePants and Loud may think one Krabs is no problem, but let's see them take on two, or ten, or a hundred, or a thousand, or a million! [scene cuts to Krabs dialing a number; cuts to Krabs on the phone; cuts to Krabs writing letters to numerous family members; cuts to Krabs licking the adhesive on a bunch of envelopes; cuts to Krabs in a red airplane, skywriting "CALLING ALL KRABS"; cuts to a montage of differently dressed Krabs] But why stop there? I'll gather every family member from every corner of the ocean. The entire Krabs family under one roof! SpongeBob won't stand a chance against the staggering intellect of a million cheapskate criminal masterminds! [doorbell rings] They're here! Welcome, mateys! [Krabs runs to the door and opens it with a big grin, which quickly fades into a look of disgust and disbelief; he sees a huge group of hick, redneck crab family members playing music; one of them begins to speak]

Clem: [hick drawl] Hey, look, everybody! It's cousin Krabs!

All: Yee-haw!

Krabs (sees all his family members): I've been gone from home longer than I thought. [Clem runs up and shakes Krabs's Claw]

Clem: [hick drawl] Well, howdy, cousin! [Krabs stares at his claw, which is dripping after his cousin shook it]

Krabs: Uh…

Clem: It's me, Clem. O' course, you remember Zeke, Rufus, Jeke, Billy Billy Bo-Illy Bonana Fanna Fo-Filly, Doug, Enos… [Clem continues introducing the rest of the family; Krabs is crawling on the ground]… Fletcher McGee, Rainchild, Zeke Junior…

Krabs: Alright! I get it! I mean, uh, come inside. Make yourself at home. [scene cuts to the family inside the Crab Net, standing in front of Karen] I'd like you to meet me computer wife, Fiona.

Clem: [whistles from the back of the group] Golly, she sure is purdy, Eugene.

Fiona: Eugene?!

Krabs: [annoyed] Yes, that's me first name. [Fiona cracks up; Krabs keeps an angry face]

Fiona: Eugene? [laughing]

Krabs: [still has an annoyed face] Will you please-!

Eugene: [still laughing] Sorry!

Krabs: All right, as I was saying… [Karen starts laughing] Okay, we all know Eugene's a funny name.

Fiona: [laughing] Okay, okay. I'm done. No more.

Eugene: Good. Ahem, to continue. [turns away from Fiona; he doesn't see the screen that she brings down behind him; the word "EUGENE" appears on the screen] Only you can bring honor… [the family laughs; Krabs turns around to look at the screen; it is blank]…

and dignity… [the word "EUGENE" with a finger pointing at Krabs appears; the group laughs, and Krabs turns to look at the screen, which is now blank]… back to the Krabs name. [as soon as Krabs speaks, another "EUGENE" sign appears with an arrow pointing at Krabs; he turns around to look at the screen and is trembling with fury; as he starts to speak, another "EUGENE" sign appears] For years, it has been me goal to acquire the secret formula for… [Krabs turns around and points at the sign] Aha! [he runs to the outlet and unplugs it] Okay, that's enough! [Fiona says "Eugene! Ha Ha!" before losing power; Plankton runs in front of Fiona's screen] Bottom line: we invade the Krusty Krab so I can steal the secret formula. What do you think?

Family Member 1: But what's in it for us? [the family roars in agreement]

Krabs: Well, what do ye want?

Family Member 2: Gawrsh. Can I get a new string for my banjo? [holds up a banjo with one string]

Family Member 3: And another boot to match this'n? [holds up foot with a boot on it]

Family Member 4: [holds up laptop] And some more memory for my laptop!

Clem: And what about root beer?

All: Root beer?!

Krabs: Help me get the secret formula and you can have as much root beer as you can drink! [the group cheers] Victory, thy name is Krabs! [Krabs turns to face the cheering crowd; on his back is a note taped on with the word "Eugene."]

Maria heard the plan outside and she was shocked.

Maria: This is bad! We got to warn everyone.

Maria went to the Krusty Krab and warned everyone.

Varie: So Krabs has amassed an army with his entire family and brethren?

Maria: I'm not kidding Varie. He's going to take down the entire Krusty Krab with over 1 million family members.

Lily: This is really bad. We are about to go into war. Krabs amassing an army like this to take us down is equal to that of a declaration of war.

SpongeBob: We have to be ready.

Maria: I have an idea. It's gonna be risky but we need to find out their weakness.

SpongeBob: Their weakness is money.

Maria: No I'm talking about their weakness biologically.

Lily: Oh I get it.

Maria: I'm gonna go ask Mr. Krabs about this.

Everyone gasped.

Lily: Maria that's crazy!

Maria: It's our only chance Lily. But you have to trust me on this. We have no other alternative.

Lily: Okay Maria. Do what you got to do.

Maria: Thank you.

Maria went to the Ross Ice Shelf Prison.

---

Maria was talking to Mr. Krabs.

Mr. Krabs: So there's a naked version of me thats filled in Plankton's role?

Maria: That's right Mr. Krabs. He runs around in the nude and he's after the Krabby Patty Secret Formula.

Mr. Krabs: Boy and I thought Plankton was such a headache. But this nude version of me sounds even more dangerous.

Maria: He is Mr. Krabs. But Lily has beaten him as much as you have beaten Plankton.

Mr. Krabs: I'm proud of that Lass.

Maria: I am too. But the real problem is this. The naked Krabs has amassed a huge army of his and your kind to destroy the Krusty Krab to steal the Krabby Patty Secret Formula.

Mr. Krabs: (Gasps) That is exactly what Plankton did with his kind!

Maria: Plankton tried this kind of plan before?

Mr. Krabs: Aye lass. But in the end I horrified that malignerant microbe with a fake secret formula recipe where the Krabby Patties are made of Plankton.

Maria: That is genius Mr. Krabs. That just might work with the naked Krabs. Alright, Mr. Krabs. I'm gonna make you a deal. I'll convince Lily and J.D. to knock years off your sentence if you tell me the weaknesses of crabs.

Mr. Krabs: You got a deal lass.

The deal was made.

---

Back at the Krusty Krab they got ready.

Lily: Mr. Krabs, I'm sorry I got you sent to prison.

Mr. Krabs: No you had every right to do so lass. Being in prison for all that time has made me realize what a selfish skinflint I was. I never had any love for anyone except meself and money. Plus I can't believe that I did all those crimes to Squidward, SpongeBob and everyone I know.

Lily: It's good that you've had a change. I can never be one to carry a grudge.

Then Krabs's voice was heard.

Krabs: [over megaphone] Attention Krusty Krab management! This is your better speaking.

Mr. Krabs: What?!

Lily: Here he is. [Krabs is standing outside the Krusty Krab with a megaphone]

Krabs: [over megaphone] I have the restaurant surrounded. Give me the secret formula or I'll destroy the Krusty Krab! [Mr. Krabs and Squidward run outside to Plankton]

Mr. Krabs: Ah, you and what army ya pig!?

Krabs: (Shocked) What!? I thought you were in prison!

Mr. Krabs: I was released on parole.

Krabs: Well it doesn't matter! Here comes my army. [scene pans out to show the Krusty Krab surrounded by something covered in the sand. The millions of members of the Krabs family popped out and they looked at them with blazing fury.]

Mr. Krabs: Uh-oh.

Lily: ATTACK!

They went at the Krabs army and it was an extremely violent and brutal massacre. Lily punched a bunch of crabs in their faces and fired glowing red scalding hot water at them and burned them. Maria fired hot water and burned them and she ripped some of their claws off. Gali slashed them and kicked them. Luna played a chord and blew them away with water. Lana froze them in ice and turned them into ice pops.

Rolf: Mestick! (hits Krabs with shepherd's hook) (BLAM!) Shlorvin! (hits Krabs again) (POW!) I SAID! (hits Krabs again) (KRAKROW!) NEVER AGAIN WILL YOU TORMENT THE KRUSTY KRAB!

Varie summoned a huge giant squid and it grabbed some of the crabs in its tentacles and threw them miles away from the scene.

Maria: To quote my friend Nico "You stupid crabs have failed this ocean!"

Varie fired numerous blasts of scalding hot water and burned many crabs. Seaspray activated his hovercraft jet engines and blew some of them away.

Varie: Lets use our combos!

Seaspray: You got it Varie. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back between the engines and 4 more blasters popped out.

Octopunch: Time for action! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it supercharged his harpoon launcher and 4 more harpoon launchers popped out.

Seaspray and Octopunch: NAUTICAL LIGHTNING MAELSTROM!

Seaspray fired powerful blasts of wind from his engines and he fired his lasers and Octopunch fired his energized harpoons. They turned into a massive tornado and they made mincemeat out of the crabs.

Highbrow: Now it's our turn! CYBER KEY POWER!

The Autobot Cyber Planet Key went into a port on top of him in his chopper mode and he had 6 more blasters pop out of his corrosive acid rifle.

Invisible Woman: Time for some action. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her device on her device on her arm and it not only enhanced her invisible powers but it also gave her the ability to fire powerful beams of light on the electromagnetic wavelength.

Highbrow and Invisible Woman: MICROWAVE GREASEFIRE FRYER!

Invisible Woman fired a massive blast of microwave energy and Highbrow fired krabby patty grease and the microwave energy ignited the grease and turned it into a powerful napalmic flamethrower blast that fried some of the crabs.

Varie: Final smash time guys!

Rolf: You got it Varie! SCANDINAVIAN OPERA SHOT!

Rolf sang opera in gibberish and it released a powerful sonic blast that was loud enough to shatter crab shells like glass.

Lily: Oh that is too funny! But good job Rolf!

Rolf: Thank you Cowlick Water Loud Girl.

Sandy: (Southern Accent) Time to finish these sidewinders! CHEMICAL PATTYBOMB BARRAGE!

Sandy threw a bunch of krabby patties made of highly unstable explosive chemicals and they hit the crabs and exploded.

KRABBOOOOMMMM! KRABBBBOOOOOOOOOMMM!

The army of Krabs was defeated.

Maria: You do not want to steal the Krabby Patty Secret Formula anyway.

Krabs: And why is that?

Maria: Because this is what's in the Krabby Patty.

Maria showed a page in a book and it revealed that the Krabby

Patties are made from CRABS!?

Krabs (horrified): WHAT?! KRABBY PATTIES ARE MADE OUT OF CRAB?!

Maria: Yep.

Krabs: [screams in horror while running all the way back home to the Crab Net]

[Back outside the Krusty Krab, the Krabs family reads the recipe and gasps; they all run screaming while everyone laughs, except for Clem who just stands there staring at the book]

Maria: How come you aren't running?

Clem: I can't read.

Maria: Get out of here!

Clem ran. The Krabs family was going to be running for a long time.

Lily: And don't come back you fried chickens!

Maria: That was awesome!

Squidward saw the recipe.

Squidward: Maria is this really the recipe for a Krabby Patty?

Maria: Nope. This was all part of our counter plan to drive those rotten crabs away.

SpongeBob: It sure worked Maria.

Lily: It sure did.

Sandy: (To the viewers) Never underestimate the ingenious methods of Team Loud Phoenix Storm!

Lily: No way.

After Lily got home, she and Maria told me everything and Mr. Krabs was hired back at the Krusty Krab as a bus boy and he was now placed on highly supervised probation. Lily brought a Cradily and an Anorith for Nico. It was gonna be two weeks before the Krabs family realize that they were duped.

THE END

---

Another Fanfiction Complete.

This chapter is based on the episode of SpongeBob called Plankton's Army. That episode was very funny and strategically planned. It was so funny how Plankton went running to the Chum Bucket in horror. I based Rolf's Final Smash off of how he was singing opera in the episode Hand Me Down Ed's. That episode was so funny! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# The COBRA Strikes

It starts in the city of Dimmsdale.

KRABOOOOMM!

Massive explosions were breaking out all over the city and we were finding and killing all the evil babysitters all over the city. In an alley, 2 evil babysitters were hiding in trashcans. The evil babysitters were part of an evil Satanic Cult called B.R.A.T. which stands for Babysitters Raging Against Twerps. And if there's one thing we never tolerate it's Satanic Cults.

Evil Babysitter #1: Are they out there?

Evil Babysitter #2: No idea. One of us should go check.

Lily kicked the two trashcans and they crashed onto the road.

Laney grabbed them with plant vines and slammed them into the street.

Nico: You Evil Babysitters have failed this world!

Me: And then some man.

I punched a babysitter in the face and knocked out his teeth. Chester and A.J. punched and kicked a girl in the face and bit her leg and tore out a huge chunk of her leg. Timmy fired a massive energy blast at the girl and killed her.

Edzilla (tail whips evil babysitters): ED SMASH BAD BABYSITTERS!

Lynn headbutt a girl and smashed her skull open. Killing her.

?: Let us help you all out.

We turned and we got a surprise shock. We were being helped out by the famous members of the United States Military Elite

Organization: G.I. Joe!

G.I. Joe: YO JOE!

G.I. Joe is the code name of an elite covert special mission unit operating under the control of the United States Military in the fictional G.I. Joe universe.[1] In the 1960s and 1970s, a toy military adventure character based on General Joseph Colton was available. From 1982, the name "G.I. Joe" referred to the team, also known as the "Joe team" or the "Joes". The G.I. Joe team was introduced as the G.I. Joe: A Real American Hero toyline by Hasbro. Later, the Marvel G.I. Joe: A Real American Hero comic books and the G.I. Joe: A Real American Hero television cartoons were released. The team's battle cry is "Yo Joe!"

Me: Oh wow! G.I. Joe!

Nico: Oh Awesome! You guys are one of my favorites! I love you guys!

Duke: It's an honor to meet you all Team Loud Phoenix Storm. I'm Duke, the leader of G.I. Joe. My real name is Conrad Hauser.

Ripcord: I'm Ripcord. Ace fighter pilot. My real name is Wallace Weems.

Tunnel Rat: I'm Tunnel Rat. Demolitions expert. My real name is Nicky Lee.

Roadblock: I'm Roadblock. 2nd In Command. My real name is Marvin.

Snake-Eyes: I'm Snake-Eyes, Ninja Specialist.

Scarlett: And I'm Scarlett. Intelligence Reconnaissance Officer.

Me: It's truly an honor to meet all of you.

Lincoln: You guys are so awesome!

Lana: I love all your comics and they are so cool!

Duke: I'm glad we all have some fans. Lets help with these freaks.

Me: Thanks Duke. Lets get these clods!

We resumed our fight with B.R.A.T. and we continued killing them. Duke punched an evil babysitter in the face and Scarlett kicked and punched a bunch of evil babysitters all at once. Roadblock punched and blasted a bunch of evil babysitters and killed them. Tunnel Rat threw a bunch of explosives and blew the evil babysitters to pieces.

Evil Babysitter #1: I HATE YOU TWERPS SO MUCH!

As his aura flares up, Snake Eyes grabs a car and throws it at some of the babysitters, killing them.

Duke: Nice throw, Snake Eyes. I knew training would pay off.

Snake-Eyes: Actually, it seemed that I only got that strong when that babysitter expressed hatred of us.

Me: It's one of our most prominent powers Snake-Eyes. We absorb Negative Energy from hatred and negative emotions and it makes us far more powerful.

Duke: It's amazing.

Scarlett: This is awesome.

Me: And you evil babysitters are all finished. It's combo time guys! Cerebros, activate combo attack sequence delta!

Cerebros: ACKNOWLEDGED AND ACCEPTED. CYBER KEY POWER!

The Universal Cyber Planet Key went into his arm and out came powerful laser blasters.

Storm: Time for some action! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Storm's arm device and her weather powers were enhanced 100-Fold. Turning her into a powerful super hurricane!

Cerebros and Storm: HYPERCANE LASER MAELSTROM!

Storm fired a massive hurricane with winds of over 500 miles per hour and Cerebros fired a powerful barrage of laser blasts and they blew apart and shredded some of the evil babysitters into a thousand pieces.

Sideswipe: My turn! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his blaster.

Aqua Man (Megaman): Lets get them! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Aqua Man's arm and it enhanced his Water Balloon Blaster.

Sideswipe and Aqua Man: LASER MAELSTROM MINESTORM!

Sideswipe fired laser blasts and Aqua Man fired numerous water balloons and the lasers merged with them and they became powerful mines. They hit the evil babysitters and exploded all over the place.

Poromon: Lets go Kirby! (Echoing) LIGHTNING JAVELIN!

Poromon fired a massive blast of lightning.

Kirby became Spark Kirby and fired a powerful blast of plasma energy.

Kirby and Poromon: SUPERLIGHTNING DEATH STRIKE!

The blasts of lightning combined and they struck most of the evil babysitters and killed them by turning them into ash.

Me: You evil babysitters are never welcome here in Dimmsdale or any part of the world. You are nothing but monsters to all children in general! Final Smash Time!

Snake-Eyes: Lets get them. G.I. JOE SLASHTORNADO SHRED!

Snake-Eyes took out his swords and spun rapidly in a super fast motion and he shredded the evil babysitters into a million pieces. Splattering their blood and guts all over the place.

Caleb: Now it's my turn! MERIDIAN REBELSWORD SLASH!

Caleb took out his sword and slashed the rest of the evil babysitters apart with his sword. Killing them.

Me: That takes care of that.

Everyone in Dimmsdale cheered wildly and everyone was hugging their children and apologizing to them for having the monster babysitters take care of their kids. They were such idiots. We brought an end to the terror of evil babysitting in Dimmsdale.

* * *

Later we were shown the base of G.I. Joe under Staten Island in New York City.

Duke: Welcome to our base, guys. Hope you like it.

Me: Oh wow!

Nico: This is just like everything I've ever imagined!

Lincoln: This is so awesome!

Lana: I can't believe we're actually in THE G.I. Joe headquarters!

Me: I know. Ever since G.I. Joe came out in 1985 it's been a major league source of inspiration and mentoring for many kids and more.

Duke: That's right J.D.

Me: It's truly an honor to be here.

Duke: You all have saved the universe more than the number of times we saved the world from COBRA.

Me: I know COBRA. They have been your most hunted target for years.

Duke: That's right.

Lola: What is COBRA?

Me: It's an evil terrorist organization that wants to rule the world. They are an organization of Militaristic Terrorists.

Cobra Commander is the leader and founder of the Cobra Organization. He is the commander and chief of the Cobra Armed forces and all operations his organization is involved with, and takes an avid part in planning and strategy.

The Baroness (born Baroness Anastasia DeCobray) is Cobra's head of intelligence and espionage missions (second only to the COBRA Commander).

Dr. Mindbender is a mad scientist and former dentist. He is responsible for many breakthroughs for the Cobra Organization, including the Cobra BAT, several mind-control devices, and many different genetics experiments.

Tomax and Xamot are identical twins with an empathic link that allows them to feel each other's pain and gain the strength of each other. Because of this, they train the elite Cobra Crimson guard, but are more respected for their skills in the board room than that of combat.

Storm Shadow is a ninja of the Arashikage clan that specializes in assassinations, and is the personal bodyguard of Cobra Commander.

Destro, or James McCullen Destro XXIV, is a weapons dealer for MARS (Military Armaments Research Syndicate) Industries, whose number one client happens to be Cobra. Because of this, he is considered a member of the Cobra Organization, as he is often allied with Cobra. Similarly, Zartan, a master of disguise hired gun and his group (the Dreadnoks) often do missions for the Cobra Organization and it would appear that they have no real other clients.

Major Sebastian Bludd is a mercenary who works for Cobra with extensive military combat and serves as Cobra's Head of Infantry Deployment and field command.

The man only known as Firefly has little to no known background, other than being the world's greatest saboteur. He destroys not only quickly and effectively, but untraceably. He is completely loyal to the Cobra Organization.

Blackout was aspiring to become a part of GI Joe, but was denied access when he failed his psychology exam and was later determined a suspect in the disappearance of his sister. Because of this, he subsequently surrendered to and joined Cobra and now heads their sharpshooter corps.

Scrap-Iron is a Cobra specialist who leads a core of troopers who specializes in anti-armor take downs.

These are the blueshirted grunts with standard military equipment. They are led by Cobra Officers that report to the office of Infantry Deployment.

The Cobra Viper is the slightly more upgraded version of the Cobra Troops. They are equipped with superior armor and weaponry, as well as more extensive combat training.

An elite core of soldiers that serve as the end-all-unit for the Cobra Organization. They perform all kinds of high importance missions, often posing as civilians or serving as the honor guard to the Cobra High Staff. In addition to extensive military training, they are also required to have degrees in accounting or law, as they also maintain the legal and financial side of Cobra.

The Python Patrol is a group that's members are hand-picked by Cobra Commander. They are known for their revolutionary stealth coating technology, masking their suits and vehicles from most to all forms of military detection.

Castle Destro is Destro's Castle (aptly named) in Scotland, and serves as a military headquarters for both Cobra and MARS Industries.

The Cobra Citadel, also known as the Silent Castle is Cobra's Base of operations in Eastern Europe, and is located in Trans-Carpathia. Created and primarily owned by Destro, the base is outfitted with many secret passageways, and perhaps most of all, through a massive series of gears, pulleys and levers, it can shift its appearance into an exact replica of Castle Destro.

Cobra Island is the base of all Cobra Operations. Cobra caused a massive earthquake to create this island. Cobra lawyers quickly seized it and declared it a sovereign nation. It was equipped with all things needed to run the entire organization. It was eventually taken by the UN when Cobra disappeared, but was quickly seized back from them when Cobra made its return.

The Cobra Consulate is a large building in New York City that serves as the embassy to the US after Cobra Island became its own nation. Many floors were destroyed in a fight against GI Joe.

Springfield, USA was where Cobra began and served as a base for covert missions. It was a poor place, but was made substantially wealthy by the foundation of Cobra.

Broca Beach is a US town that Cobra eventually commandeered after the loss of Springfield.

Helicarrier, also known as the Cobra Airship is a massive flying palace in the shape of the iconic Cobra emblem. When it was first brought into battle, it collided with GI Joe's aircarrier and both sank into the sea. Another one was commissioned, but was brought down over Liberty Island in New York City.

Millville was a poor steel producing town that swayed to Cobra Commander when he promised them an economic future. They were then brainwashed. However, after a battle between Autobots and Decepticons, much of it was destroyed, forcing Cobra to pull out of the town.

Monolith Base was another of Cobra's main bases. It was Cobra's main base (before Cobra Island), but it was taken by GI Joe.

In order to keep the cash flowing and to hide certain aspects of its operations, Cobra manages to infiltrate the free market with a number of legitimate business fronts. Most of them are anagrams of the word 'Cobra'.

Naja Trading Corp has offices in both San Francisco and Rio Lindo in the Republic of Sierra Gordo. Cobra used it to smuggle MX missile guidance chips out of the country inside of video game fronts. Naja is Hindi for Cobra.

Arbco is the largest and most prominent Cobra front. It started in Springfield, but grew to have offices in at least ten major cities. It encompasses the Arbco Furniture Company, which held a secret testing lab within for a deadly plague toxin in Springfield, Vermont. Arbco Moving and Storage used trucks to transport HISS tanks covertly into Washington DC for an attack on the US Treasury. They were also used to transport sensitive spy equipment for reassigned undercover Crimson Guardsmen. Cobra Commander maintains a mobile office in an Arbco Moving truck. And there's Arbco Bros. Circus, which was also a cover to transport HISS tanks and FANG copters around the country.

Carbo Plumbing is a team of surveillance tele-vipers that eavesdrop on a military inquest from a plumbing van outside the Pentagon.

Robca Realty is an actual business that feeds Cobra's economy.

Broca Bros. Carnival is an actual business that feeds Cobra's economy.

Orbac was a moving company that smuggled Cobra troops that moved into the Safeco Field Stadium in Seattle using trucks with this name on their side, and Zartan used an Orbac truck as a mobile HQ once.

Extensive Enterprises is a global company based out of the twin Enterprise Towers in Enterprise City existing primarily to serve Cobra's administrative needs with Tomax, Xamot, and an army of Crimson Guardsmen as the corporation's upkeep. It is a massive, but legitimate company that is the main building force of Cobra's economy.

MARS or the Military Armaments Research Systems/Syndicate is a legitimate weapons manufacturing firm headquartered in Callender, Scotland, which is run by James McCullen Destro XXIV.

Me: G.I. Joe has been trying to kill all of COBRA for a long time. But the only way to make sure that they are gone for good or put out of operation once and for all is to kill Cobra Commander or all of the organization all together.

Duke: That's right J.D.

Lori: Wow! These guys are literally that dangerous!?

Me: They are Lori.

Shockwave: Before Megatron's death, one of his plans was to have an alliance with COBRA.

Thundercracker: We actually weren't looking forward to working with COBRA though.

Me: It's good you didn't work with them though.

Nico: Yeah.

Duke: I agree. But COBRA is a major threat to everyone we know and love. We need to take down their forces one at a time.

Me: We'll gladly help out.

Duke: Thank you all. Here's the first operative of COBRA we need to take down.

Duke showed us footage of COBRA's elite assassin - Thomas S. Arashikage A.K.A. STORM SHADOW!

Born in St. Louis, Missouri, Thomas S. Arashikage was a member of the Arashikage ninja clan and nephew to the Hard Master. During the Vietnam War he was a soldier in the Long Range Recon Patrol where he became friends with Lonzo Wilkinson (aka Stalker) and Snake Eyes, who was an enigma even then. After the war, when he had heard Snake Eyes' family had died in a car accident Thomas invited Snake Eyes to join the Arashikage clan and start a new life. Unfortunately, tragedy struck again when the Hard Master was murdered by a Cobra agent using one of Thomas' arrows. Thomas fled Japan and joined Cobra under the codename Storm Shadow to find the killer and clear his name, becoming the organization's deadliest assassin and Cobra Commander's bodyguard.

Sideswipe (sees Storm Shadow's footage): Our first COBRA opponent is that guy?!

Sunstreaker: Don't worry, Sideswipe. I'll write your will for you.

Me: Wow. Storm Shadow's skills are incredible.

Laney: He sure is a deadly martial artist and an excellent swordsman.

Naruto: No kidding. He would sure be an excellent challenge for all of us Shinobi.

Me: He sure would bro.

Zoe: But he sounds incredibly dangerous.

Me: Where was Storm Shadow spotted?

Duke: In Tokyo, Japan.

Me: Then we better get over there. Ready guys?

Everyone: Ready!

G.I. Joe: YO JOE!

We went to Tokyo, Japan.

---

In Tokyo, Storm Shadow was walking down the street.

Storm Shadow just bumped into a Chinese man named Tuong Lu Kim.

Tuong Lu Kim: Watch where you're going, you Japanese dog! (gets stabbed through the chest)

Storm Shadow (to Tuong Lu Kim's corpse): Next time, don't insult someone as dangerous as me. Now, I think I should grab some lunch.

25 minutes later, Storm Shadow finished his lunch. After his lunch, Storm Shadow was walking back to the Cobra base. Suddenly, he heard a sound.

Storm Shadow (smirks at the bad stealth attempt): You can come out now, Team Loud Phoenix Storm. I know you're there.

We walk out of the shadows.

Maria: You know we were coming.

Storm Shadow: In your haste to punish me, you forgot one thing. You cannot surprise a skilled warrior like me.

Me: Thomas Arashikage A.K.A. Storm Shadow. It's a pleasure to meet you.

Storm Shadow: You too J.D. Knudson.

Me: We were told a lot about you and how you are one of COBRA's deadliest agents. Shall we test those skills you have?

Storm Shadow: Yes.

We unsheathed our swords.

Me: Only fools rush into battle. It's an easy way to get yourself killed.

Storm Shadow: That is too true.

Storm Shadow came at us and we engaged in a powerful sword fight. It was a brutal and incredibly powerful fight.

Storm Shadow (easily avoids Lincoln's lightning): Do you all even have a tactical plan to defeat me? When I go after my targets, I at least have a strategy to take them down.

Bobby went at Storm Shadow.

Storm Shadow (avoids Bobby's punch): Brute force might have worked against other enemies. But not against me!

Bobby: Are you trying to fight us or tutor us?

Storm Shadow (smirks): Can I not do both?

Me: You're very strategic and analytical and I can sense that you are very honorable.

Storm Shadow: Yes. It goes against my policy to kill females or any other person that is with honor.

Me: That's a very good code. We embody the same code and only kill those that deserve it. There are villains in this universe that will never redeem themselves. Some will and some won't.

Storm Shadow (to Storm): Know that I do not take any pleasure in fighting you or your fellow females. But if I hold back on you all, Cobra Commander will not let me hear the end of it.

Karai: (Japanese Accent) Lets get him with our combo Xion!

Xion: Right!

Karai unsheathed her Katana and Xion had her keyblade ready.

Karai and Xion: LIGHTSWORD STORMSLASH!

Karai and Xion were enveloped in auras of light and they slashed at him with the force of a powerful hurricane. But their attacks missed.

Storm Shadow: Your teamwork is very impressive. You have taught everyone well J.D.

Me: Thanks. It takes a great teacher to bequeath a great students and a great team.

Leni charged and Storm Shadow disappeared.

Storm Shadow got behind Leni and pinches her neck, knocking her out.

Storm Shadow: You all are not the only ones who can do the Vulcan Nerve Pinch.

Me: You are very skilled Thomas. And you are also a man of pure honor. For that you have earned our respect. Usually when we're fighting a villain, they have no honor in them. And that is why we kill them or throw them in prison. But I have to ask. Why do you serve an evil organization like COBRA?

Storm Shadow: Because I want to find the man that murdered my family and make him pay.

We gasped when we heard that.

Me: Tommy I'm so sorry that happened to you.

Maria then got the drop in him and kicked his sword out of his hand.

We walked up to him.

Storm Shadow: I am not afraid of death, Knudson. I will face my punishment with grace and honor.

Maria: Oh. We're going to kill you. But not in the way you'll expect.

Me: No Tommy. We're not going to kill you. We're going to spare you're life. The reason for that is because you have earned our respect and you are a man of honor.

Nico: Look, you can do great things while not being COBRA's lapdog. But I also know that you still have ill feelings towards Snake Eyes to join us right away. For now, we'll let you go so we can have a rematch in the future.

Storm Shadow: Very well. Oh, and don't worry about the Chinese Man I killed. He was a racist idiot anyway.

Nico: Thomas " Tommy" Arashikage, you have failed COBRA Industries!

We laughed.

Storm Shadow: That was a good one.

Me: But we got to make this convincing for COBRA. I have an idea.

I snapped my fingers and formed an artificial clone of Storm Shadow while the real Storm Shadow left. One day we would meet Storm Shadow again. He severed his ties to COBRA. I fired a powerful energy blast at the Storm Shadow Clone and Cobra saw us kill the clone and obliterated it completely.

Me: COBRA, I know you're watching this. I have a message for all of you. Team Loud Phoenix Storm and G.I. Joe are now working together. You better be ready for the fight of your lives when that time comes. You will pay for your crimes. Get ready COBRA. We're coming for you!

COBRA Commander was about to face the ultimate wrath of Team Loud Phoenix Storm in the future. He was enraged when he thought that we had killed Storm Shadow.

Snake-Eyes: (To the Viewers) These guys are amazing and awesome.

Me: Thanks Snake-Eyes.

Duke: You guys really live up to your name. I'm so happy that you convinced Storm Shadow.

Me: Thanks Duke. But the fight with COBRA has just begun and we need to be ready when they make their move.

We later went back home and prepared for COBRA to make its next move. On the way back home Nico caught a Castform and a Milotic. It was so awesome meeting G.I. Joe!

Later at the Moon Prison, me and Nico were visiting Icky Vicky in her prison cell once again. We told her that we killed every single one of her evil babysitter friends and she went completely ballistic. She hated us even more as a result.

We see Storm Shadow walking down the streets of Odaiba.

Storm Shadow (narrating): It felt good to sever my ties with COBRA. And I owe it all to Team Loud Phoenix Storm. Truth be told, when I parted on good terms with them, I no longer held a grudge against Snake Eyes.

We then see Storm Shadow in an alleyway polishing his sword.

Storm Shadow (narrating): But I feel it is not time for me to join the Redemption Squad. Not yet. I have to sharpen my skills first. And I feel that here in Odaiba is the perfect spot.

We then see Storm Shadow defending civilians from Stilt Man aka Wilbur Day.

Storm Shadow (narrating): So while the Odaiba Digidestined help Team Loud Phoenix Storm fight COBRA and the Legion of Doom, I fight for the people. The weak. The innocent. Anyone who cannot protect themselves. When they cry out for a savior, I will answer. As for the criminals who threaten them? They need to know that their actions have consequences. That Storm Shadow is coming for them.

Finally, we see Storm Shadow charging at Stilt Man with his sword.

THE END

---

Another Fanfiction Complete

G.I. Joe is an awesome series from 1985. I wasn't born back then but it is so awesome! I'm not too familiar with it but COBRA is a wicked and extremely dangerous organization. NicoChan got me into G.I. Joe and introduced me into the team. Thanks man and thanks for the ideas as usual. You're gonna see us fight more of COBRA in the future. Let me know what you all think.

See you all next time.

G.I. Joe is owned by Hasbro and Donald Levine.

# Send in The Clones

It starts in the Estate. We were watching TV and playing card games.

Maria: So, Horsea. How did you end up in Narnia before you and I first met?

Me: That's what I was wondering myself.

Horsea: Well, I was being chased by some Tentacool. They were really angry with me for stealing some of their food. I was running scared for my life and then a strange vortex opened up. I was sucked into it. Next thing I knew I wound up in Narnia.

Maria: And that's where I found you.

Horsea: I'll never forget the day we first met, Maria. If I hadn't met you, Jadis would've found and killed me.

Maria: I'm glad I did.

Everyone: Awww.

Me: That is so touching.

Then the crime alarm went off.

Computer: Warning. 211 in progress at the Gotham Royal York First National Bank.

Me: Again? That bank needs better staff and security.

Maria: We better go see. Ready Nico?

Nico: You know it.

They were off.

---

At the Gotham Royal York First National Bank, they busted in.

Nico: Hold it right there… (Gasp)!

They saw that the bad guys were SAM, CLOVER AND ALEX! WHAT THE HELL IS GOING ON!?

Maria: Sam? Clover? Alex? What are you three doing?

Clone Alex: What does it look like we're doing?

Maria: It looks like you three are taking something that doesn't belong to you. But there's got to be more to it than that.

Clone Sam: Maybe we just got tired. Tired of being in the same old routine of having all these gadgets and having nothing to show for it.

Maria: But you girls are heroes. And that's what heroes do!

Clone Clover (laughs): That and a dollar will get you an ice cream cone. You'll see what I'm talking about. Maybe not now but in the future.

Maria: I already know what you three are talking about. I've been down that road before.

Nico: I don't know Maria. Something is seriously wrong here.

But then Clover started twitching uncontrollably.

Nico: What the?

All three of them started twitching uncontrollably.

Nico: That's not right. (Gasp) You three are not the real Sam, Clover and Alex! You're clones!

Maria: Poorly built ones from what I can see. But we've dealt with something like this before. But they were robot versions of us.

Bank Teller: We heard about that. Boy it's a miracle you all are okay.

Maria: Thanks sir.

Nico (to the clones): We're letting you go back to your boss. So you can tell him that if he wants to ruin Sam, Clover, and Alex's reputation, he's got another thing coming.

Clone Sam (narrows her eyes): If you're going to threaten us, you better be damn sure you can deliver. (the clones are about to walk away)

Nico: I've helped kill the likes of Nerissa, Skeletor, and G1 Megatron. (the clones stop in their tracks) I killed Dan Phantom when Paradox, Azmuth, and Clockwork warned us about him. He was one of the first major bad guys that I took down. I killed Prince Phobos because he caused so much misery and pain in Meridian. My hands were red with the blood of most of the Pokemon criminal teams. I was even the one who beat Metallo into submission when he gave Superman a hard time before. And that's just me, not including those I know who are going to beat your boss up. There's Riku. Former minion of Maleficent, and the Keybearer of the Dawn, who uses Darkness as a weapon. Just the other day, he brutally beat up Team Galactic Commander Saturn and his Toxicroak because he threatened to harm three innocent Pokemon. And need I remind you that he helped Sora destroy Xemnas before Xehanort was defeated?

The Spy clones remained silent.

Nico: William Dunbar. Former general of X.A.N.A. and the leader of the Redemption Squad. He's led the Redemption Squad towards many of our victories. Or have you forgotten that he and his girlfriend participated in the last Total Drama season and watched our backs the entire time there? Or maybe I need to remind you that he was the one who helped J.D kill his H.A.R.D.A.C. clone and even helped carry him out of there when he got injured during that fight. And maybe you need to be reminded that this is also the boy who beat up his girlfriend's ex boyfriend when he came after her a week ago. Go after someone he cares about, and it's a death sentence. Or, go after someone that means something to someone he cares about. That brings me to Maria Rockell, William's girlfriend. Well, you know most of her rep. One of Ebon's minions in the Meta Breed and the second in command of the Redemption Squad. She managed to beat up Archie of Team Aqua one on one and also killed Hydro Man. Here's the important thing to keep in mind… she just ran into your fellow clones a few minutes ago. So she's going to really want a piece of your boss. And do I really need to say anything about my ice wielding, superpowered girlfriend? You say I should be damn sure I can deliver on a threat. I promise you, clones… I can deliver.

The Spy clones growl before walking off.

Maria: We better report back to J.D.

Nico: Right.

They did so.

---

Back at the estate Nico and Maria reported what happened.

Me: So clones of Sam, Clover and Alex were responsible for robbing the bank?

Nico: Yeah. We saw them twitch uncontrollably and knew they weren't the real deal.

Sam (TS): This is the work of our old enemy Macker!

Me: Macker? Who is he?

Alex: You would hate this guy J.D.

Clover: Let me show you.

Clover typed in his profile. What we saw about him was shocking. He was half man, half machine. The entire left half of his body was totally robotic.

During a previous mission, he had gotten into a fight with the spies while attempting to break into a safe. Sam tackled him, sending him falling over the railing.

Attempting to hang on, Macker took several pieces of hair from

Sam, Alex, and Clover, using them as a means of hanging on for as long as he could. However, seconds later, he fell off the ledge as the spies looked on, with Macker suffering injuries so severe that the left side of his body had to be completely replaced with cybernetics.

After that, he was imprisoned but his grudge against the girls became overwhelmingly strong. Fueled by thoughts of exacting revenge against the spies, Macker escaped from prison and using the hair he had gathered from the spies, he created hundred of clones of the spies using the strands of their hair he ripped off when he fell.

Having created the clones, Macker ordered them to loot the world's central banks, all for the sake of destroying the spies's lives as they had tried to destroy his although Sam, Clover, and Alex intervened, successfully stopping Macker's plan of revenge as they destroyed the transmitter, preventing the clones from carrying out Macker's plan.

Macker along with the clones were all later caught by a WOOHP helicopter with Macker being imprisoned.

Me: Whoa! What happened to him?

Clover: We stopped him on a mission a while back and he fell and got mangled up. He had to replace the entire left side of his body with cybernetics.

Nico: He looks like a fusion between Metallo and Cyborg.

Me: That's exactly what I was thinking.

Cyborg: But he looks nothing like me. I became this way when I was severely injured in an accident.

Laney: And John Corben became Metallo when his body was being ravaged by an incurable disease.

Me: Those are two major huge differences. But we have to stop this guy and make sure he doesn't terrorize the planet by ruining Sam, Clover and Alex's reputation even more!

Wanda: Boy it sounds like this guy is incredibly bad news.

Me: You got that right Wanda. And I think death is the appropriate punishment for him.

Ben: And I have the perfect place for him to die in. The Null Void.

Me: The Null Void? What's that?

Gwen: The Null Void is an alternate dimension in where the galaxy's worst criminals are sent to.

Ben: It's like a prison for intergalactic criminals. The worst of the worst go there.

Me: Oh I get it. I think we sent Parasite there.

Ben: That's right.

Me: It's like a planet size Intergalactic Supermaximum Security Prison. Let me see here.

I look up the Null Void and what I saw was astounding. It was located right next to the Galactic Center 49,000 light-years away from Earth.

Me: It's located in the Forbidden Zone.

Lincoln: That sounds like a very dangerous place.

Lucy: If it's dangerous and dark, I would send my worst enemies there.

Me: But to get there we would have to take the U.S.S. Valor halfway across the galaxy.

Ben: There's actually an easier way.

Ben went to the wall and put his hand on a handprint scanner and it scanned it. The wall had a panel flip over and reveal a compartment that had a strange gun.

Ben took it and gave it to me.

Me: What is this Ben?

Ben: That's a Null Void Projector. What it does is it opens up a portal that leads right into the Null Void.

Me: Wow! That's very helpful. We got to see what the Null Void looks like.

I fired the projector and it formed a portal and me, Ben and Nico went in. We saw what the Null Void looked like. It was actually much bigger than what we thought. It was an extremely terrifying place that looked like Hell amplified a million fold. It was a void of Hell that spanned all the way across the entire universe. The landscape was really gnarled and twisted and nightmarish and it looked like something out of a horror movie and out of your worst nightmares.

Me: Whoa! So this is the Null Void.

Nico: This is one horrifying place!

Ben: Yeah. That was my first thought too. But the landscape is always changing and it's completely impossible to know where you are going.

Me: It's like a maze from Hell. It's perfect. Our prisons are starting to get overcrowded so we'll have to start sending prisoners here as well.

Nico: That's a great idea J.D. But we should only send the most dangerous of all criminals here.

Me: That's a great idea Nico. Okay this will be one of our newest prisons. But only for the most dangerous of all criminals.

We went back home to Earth and we told everyone about the Null Void.

Lori: That is literally a great idea to send them there.

Luna: It's perfect dudes.

Sam S.L.: It sure is love.

Me: But we're wasting time here. Lets get after Macker. First we have to tell Jerry. Sam, W.O.O.H.P. us.

Sam (TP): You got it.

We went to W.O.O.H.P. Headquarters.

We arrived in Jerry's office.

Jerry: Ah, Team Loud Phoenix Storm.

Me: Hello Jerry. I wish this was a social visit, but I'm afraid we got big problems. Macker is out to ruin Sam, Clover and Alex's reputations again.

Jerry: Oh my.

Me: Yeah. We can't let him get away with this.

Jerry: Indeed. He did escape from prison 12 hours ago.

Clover (puts a poison pill into a water bottle): I've got an idea. This water bottle has a poison pill in it. We can give this bottle to Macker. When he drinks from it, the poison will kill him! What do you think?

Danny: I like it! We'll keep that option in mind.

Me: That's a great idea Clover. That poison pill you put in that water is one of Laney and Lisa's creations.

Lisa: Affirmative.

Jerry: I wish you all luck. Macker is flying his flying fortress over the Pacific Ocean.

Me: Not that we'll need it. But thanks Jerry. But we got to use the element of surprise on him.

Jerry: I have just the thing.

Jerry pushed a button on a remote and in a garage on a screen was a massive B2 Stealth Bomber.

Me: Wow! What a Stealth Bomber!

Jerry: It's our brand new Phoenix Stealth Fortress. We built it just for you.

Me: Thank you so much Jerry. And we do know how to fly planes.

We got into the Stealth Fortress and we were off.

Me: This is so awesome!

Lynn: It sure is.

Me: Sam how did Macker get your DNA to clone you?

Sam (TS): He pulled some of our hair out.

Me: Hmm. A strand of hair doesn't have that much genetic material and information compared to that of a drop of blood. But it is enough.

Alex: That's true.

Lincoln: Target sighted J.D.

Me: I see them. Engage cloak.

The ship then went totally invisible. We were right underneath the flying fortress.

Randy: Alright. Time for some stealth action. I'm going to deactivate the security laser so you guys can get in safely.

Me: Roger that Randy.

Randy went into the ship through the air vents and he was invisible and he went into the security laser control room.

Randy (contacts Jerry): Jerry, I found the lock to the security lasers. But I need a password to deactivate it.

Jerry: Roger that Randy. The password is Death To All Spies.

Randy: Very bad password.

Randy typed it in and the Security Lasers were deactivated.

Randy: Time for action guys!

Me: Lets get him guys!

We flew up to the fortress.

---

In the fortress, Macker was smiling sinisterly as he knew that his plan was working.

Macker: Soon those spies will be outcasts from humanity.

A massive explosion of fire blew a hole through the floor of the fortress and a phoenix cry was heard. We bursted in. We saw MACKER THE SAFECRACKER!

Macker: Team Loud Phoenix Storm, welcome.

Me: Whoa! You're even more uglier than what we first thought!

Macker: Perhaps. Sam, Clover and Alex. How nice to see you again.

Alex: And it'll be the last time.

Clover: Before we fight, do you want some water?

Macker (takes the water bottle): Don't mind if I do.

Clover (whispers as Macker drinks the water): That's right. Drink it, you son of a bitch!

Macker drank it all down.

Macker: Ah. That hit the spot.

Clover: Why didn't it work?

Macker: Did you really think poison was going to kill me? I hae cybernetics in my body, remember?

Clover: It was worth a shot!

Randy (to Macker): Look, I know why you're doing this. But do you know how many people are going to get hurt?

Macker: Oh, I know how many people you 3 spy friends are going to get hurt. And I'll enjoy watching everyone turn against them!

Me: We won't let you get away with everything you've done!

Macker: Then how about you face all of my clones.

Macker snapped his fingers and out came hundreds of clones of Sam, Clover and Alex!

Me: Holy shit!

Lori: This is literally a nightmare!

Me: It's like the spies are looking at themselves in the mirror. But on a great scale. You sure have been busy Macker. But not for long.

I flared up my aura and spread it out and the aura marked the clones with red auras and us with green auras.

Nico: Very clever J.D.

Me: Lets get this clod!

Nico: Macker, you have failed this city!

Me: More like he has failed this world! Take them down!

We went at Macker and his clones.

I punched a clone of Sam and to my shock I punched her entire head off and she turned into a pile of blood and primordial slop!

Me: EW! Whoa! My punch turned her into primordial slime!

Nico: Actually the clones are very unstable. I noticed this when we saw a clone of Clover twitch uncontrollably.

Me: Boy, Macker did a terrible job on them.

Stewie: This reminds of that time when me and Brian made Bitch Clones of ourselves. They weren't stable either.

Brian: Yeah that was a disgusting time.

Me: That is weird. But Macker did an even worst job than you did Stewie. No offense.

Stewie: None taken J.D.

Nico: I can't believe I'm about to say this, but you clones have failed at being born!

Me: And then some.

Lori punched a Clover clone and her punch went all the way through her chest and the clone of clover turned into blood and primordial slime.

Lori: Oh that is literally disgusting!

Lori got sick to her stomach and went to a nearby trashcan and hurled her guts out.

Luna: Major pukefest!

Me: Okay lets just blast them all before we flood this place with vomit.

We did so by firing energy and elemental blasts at the clones and it destroyed the entire fortress by blowing the entire roof off.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Macker: You ruined everything!

Me: And we show no remorse in doing so.

Macker: But why is the ship still flying?

Me: Because our new stealth fortress is holding it up. And now it's time to destroy you Macker!

I went at Macker and punched him in the face and kicked him in the metal stomach.

Lori punched him in the face and threw him into the floor.

Sam, Clover and Alex punched and kicked Macker all over the place and pulverized him brutally.

Macker: I HATE YOU ALL SO MUCH YOU FUCKERS!

Our auras flared up with incredible power.

Me: Thanks for the power boost you motherfucker.

Clover: His hatred is really intense.

Me: Now to finish you. Combo and Final Smash time!

Scorponok: You got it J.D. CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enabled him to fire his missiles and laser blasts from his pinchers and tail even in Beast Mode.

Randy: Lets get him! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his device and it enabled him to not only go invisible but also change into all forms of light energy on the electromagnetic wavelength.

Randy and Scorponok: X-RAY MISSILE IRRADIATION!

Randy turned into pure X-Ray radiation and crawled at Macker and Scorponok fired blasts of energy from his tail. The X-Ray's irradiated him and his skeleton was showing. We saw that he was worse than what we first thought. He had his whole body minus his head changed into that of a cyborg.

Me: Whoa! His whole body minus his head is cybernetic! That's incredible technology!

I turned on my computer eyes and saw that the cybernetic components used on him were incredibly well crafted and amazingly built.

Cyborg: Wow! He was built the same way as me.

Me: He sure was.

Nico: Very interesting technology.

Me: It sure is. Cerebros, Engage combo sequence ΔΘΩ!

Cerebros: Acknowledged and in progress.

Cerebros transformed into the head of Fortress Maximus and he linked up to the body of Fortress Maximus.

Fortress Maximus: CYBER KEY POWER!

The Universal Cyber Planet Key went into his arm and it enhanced his laser blasters and strength 2,000-fold.

Danny Phantom: Time for some pain. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his device and it enabled him to shape his energy and ghost energy powers into powerful weapons. Danny turned a blast of ghost energy into a scythe.

Fortress Maximus and Danny Phantom: LASERBLADE SLASHSTORM!

Danny swung his scythe and a blade of pure energy blasted out of it and Fortress Maximus fired lasers. They hit Macker and they exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOMMM!

Hawkeye: Time to finish this! FLAMEARROW STABSTORM!

Hawkeye fired a massive barrage of arrows that ignited on fire and they hit Macker and exploded.

Clover: You will pay for your crimes Macker! FLYING CLOVER FLOWERSTORM!

Clover spread golden yellow angel wings and flew into the air and she fired a massive storm of flowers and they hit Macker and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOMMMMM!

Macker is down.

Nico and Randy both caught a Kecleon and Nico also caught a Banette.

Me: It's over Macker. You're through.

Macker: I will never go down!

Me: No, but you will never be welcome on Earth again! It's time for you to be the first inmate in our newest prison: The Null Void.

I fired the Null Void Projector and we threw him into the Null Void. The portal closed.

Clover: (To the Viewers) That was so awesome. It was also really cool doing a final smash.

---

Back at the estate we were watching and eating popcorn and watching Macker get chased by the Null Void Guardians. Then we saw the poison take effect and it killed him in an instant.

Me: Burn in hell Macker.

THE END

---

Another Fanfiction Complete.

Macker was a strange villain on Totally Spies. He got the spies framed for crimes they didn't commit and that really makes my blood boil! He was the first ever villain I saw on the show. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Someone Needs to Diet

It starts at the Gotham Royal York Police Station. Me, Nico, Syd and Sydney were bringing in 3 more criminals.

Sheila: Hey guys.

Me: Morning Sheila. Just caught 3 more asshole muggers trying to rob a woman in the streets.

Sheila: Oh yeah. We've been after these guys for a while. Great job.

We dropped them on the floor and then an explosion bursted through the wall of the station. Out of the dust came a gene-slammer that was half human, half crocodile.

Me: Whoa!

Snapjaw: Afternoon guys. The name's Snapjaw! I used to be Naomi Orlimar.

Sheila was shocked. She knows Naomi.

Sheila: Naomi? What happened to you!?

Me: She's half human, half crocodile. Without a doubt this is the work of Dr. Shitface Paradigm.

Sheila: But Dr. Paradigm is dead and he specialized in Ocean Creatures.

Me: No, this is the work of his brother Dr. Roland Paradigm and he specializes in gene-slamming with Land Animals.

Sheila: I didn't know that Dr. Paradigm had some siblings.

Me: Stacy came to that discovery when she saw that her friend Nicole Pottor was turned into half cheetah. We also have a strong feeling that there's another member of Dr. Luther Paradigm's family that specializes in animals from the air.

Sheila: That is unusual.

Sydney: It's also pure evil and they are ruining the laws of nature.

Me: Yeah.

Snapjaw: I will turn you all into lunchmeat!

Me: Not on our watch you overgrown leather purse! Sheila, I'm going to transform you into your mutant form so you can subdue Naomi. I know it's something you don't want to have happen, but we have no choice.

Sheila: I understand J.D. Okay.

Me: It's gonna hurt Sheila. But I can give you the ability to transform into your mutant form at will.

Sheila: I'd like that J.D. I'm ready.

Me: Okay. Here goes.

I snapped my fingers and Sheila was in a lot of pain.

Sheila (holds her stomach in pain): I forgot how much this hurts!

Sheila fell down to all fours. Much to her horror, her feet and hands changed into spider feet, ripping apart her sneakers.

Sheila: Well, time for me to mutate again (her breasts vanish) Well, there go my breasts!

Her body expanded into a spider monster body, removing her neck and ripping away her police uniform. Her buttons flew off her uniform as it was tearing. Sheila was a spider monster with a human head and blue underwear right now.

Sheila: Never thought I'd be happy to become a monster again!

With that, Sheila's biue underwear ripped off. Sheila's brown hair fell out as she grew more eyes, her teeth sharpened, and she gained a spider monster head. A spider monster stood where Sheila stood just a few minutes ago and it roared.

Sheila jumped and pinned Snapjaw down.

Me: Syd, Nico, pin down Snapjaw. I'm going to change them back.

Nico: But I can't cover my eyes if I'm doing that.

Me: Leave that to me!

Nico: Okay.

Snapjaw: Let go of me!

Nico: Not a chance Naomi! We're here to help you.

I grew an octopus tentacle and covered Nico's eyes.

Nico: Clever. Thanks.

Me: No problem. Here we go. Everyone cover your eyes.

I snapped my fingers and then Sheila and Naomi changed back. Naomi had black hair and she was an oriental girl. Sheila was turned back but she was unclothed. She got up.

Sheila (covers her naked body): Can you guys please get me a towel to wear?

Me: Hold on Sheila.

I pulled out a robe for her and she put it on.

Sheila: Thanks J.D.

Me: No problem. Lets get you and Naomi back to the estate.

Sheila: Good idea.

Me: I'm sorry you all had to see this.

Officer Paul: No worries J.D. But great job.

Me: Thanks Officer Paul. If we have anymore bad guys for you, you'll know.

Officer Paul: Will do.

We left the station and went back to the estate carrying an unconscious Naomi.

---

Back at the estate, Mary and John were playing pool.

Mary: 8 ball in the corner pocket.

Mary hit the cue ball and it knocked the 8 ball into said pocket.

John: Nice shot Mary.

Mary: Thanks John.

The door opened and in we came.

Naomi was awake and she wearing a green robe.

Me: We'll get you guys some new clothes.

John: What happened to them J.D.?

Me: Naomi Orlimar here became a land Gene-Slammer called Snapjaw. She became this way because of Land-Slammer Paradigm.

Clint: That guy is a monster!

Bobby B.: Yeah. He needs to be destroyed for good.

Me: We will kill him when the time comes. But for now lets get Naomi and Sheila here some new clothes.

I handed Sheila a towel and she put it on.

Maria: Okay. Lets head up to Leni's room.

Sheila: I hope I can find some better clothes for me.

A bunch of boys were looking at Sheila and doing cat calls and saying perverse things.

Sheila turned her head into her spider form. It turned into a big ugly mouth with razor sharp teeth and roared ferociously at them and it caused the boys to turn yellow with fear and they ran out of there like frightened chickens! Sheila's head reverted back.

Me: (GULP) That was terrifying.

Sheila: I know. But it serves them right.

Nico: No kidding.

Sheila: Lets get me some new clothes.

Me: Leni is a genius when it comes to fashions.

Sheila: At least it'll be better than the clothes I once had in the underground city.

* * *

Sheila: (Narrating) When I was trapped there with everyone I had a tattered green dress and green shoes. I was a total prisoner until I was cured.

Sheila then transformed into her horrific spider monster form and her clothes were shredded apart.

FLASHBACK ENDS

Me: That's awful Sheila. But don't worry. We'll get you all set.

We went into Leni's Room and we were getting everything ready. Later Naomi and Sheila were looking at themselves in the mirror. Naomi had a green t-shirt with a crocodile on it. She had sleeveless trench coat with crocodile scales and the kanji for Crocodile Enforcer on it. ワニエンフォーサ She also had blue jeans on and brown shows. Sheila had a black shirt with a spider on it and she had a black sleeveless trench coat with the kanji for Spider Assassin on it. クモアサシン She also had black pants and brown shoes.

Naomi: I look amazing!

Me: You two look incredible.

Shelia: Thanks J.D. Leni is an awesome fashion designer.

Me: Leni is an amazing fashion designer. She made me my fire trench coat. I also have this on my back.

I had the kanji for Phoenix Firestorm on the back. フェニックスファイアストーム

Sydney: That's an awesome name. Phoenix Firestorm is perfect for you.

Me: Thanks Sydney. Question Sheila. What were you doing before you were turned into a monster by the Shredder?

Sheila: I was walking home from the grocery store. I was abducted by the Shredder and his Foot Ninjas and then everything went black after that.

Me: (Growls) I'm glad we killed the Shredder and sent him and his Foot Clan fuckers straight to Hell where they belong.

Maria: I am too. The Shredder was an absolute monster.

Me: Naomi how did you become a Land Gene-Slammer?

Naomi: Well it was last night.

---

Naomi: I was done with my day of work at the police station. I had just gotten home and then I felt a tranquilizer dart hit me. At first I thought it was nothing. But then I was in excruciating pain. I thought it was just a stomach bug. So I went to bed. Then the next morning I woke up as a half human, half crocodile gene-slammer. But I had no control over myself. I was being controlled some how.

FLASHBACK ENDS

Me: Ronald Paradigm used a mind control serum on you. And me giving you the ability to change at will got rid of it.

Naomi: It sure did.

Me: We will kill him and send him off to Hell with his brother. I promise you.

---

Later in the living room we were watching TV and playing video games. Lincoln and Nicole P. were playing racing games. Suddenly the buzzing of a fly was heard.

Laney: Uh oh! A fly is in the house!

Edd got a flyswatter!

Edd: Okay. We're safe. Everyone stay calm. I've got it under control.

Lori: Where is that stupid fly!?

Eddy: "It's on Ed!

Ed: Get it off, Eddy, get it!" [Eddy hits Ed.]

Eddy: [slapping Edd on the back] Bingo! Gah. This guy's quick! [grabbing the flyswatter] I got it I got it! [Ed hits him with a newspaper.] Ow!

Ed: [swatting at the air] "Prepare to meet your doom, buzz-bug with wings that flies!"

Lola: [bringing the flyswatter down on Ed's head] There it is! (SMACK!) Hey, get back here! [knocking Edd and Eddy over] Look out. It's too fast! There it goes! I got him! I see him! I got him! I see him! I got him!"

[The fly zooms into Lola's mouth.]

Lola: (No Sound)

Ed: What? I can't hear you, Lola. [coming to the obvious solution] MY EARS ARE BROKEN!

Edd: It seems the fly has lodged itself in Lola's voice box. Disabling her ability to talk.

Eddy: This reminds me of the time that happened to me. I had a fly get stuck in my voice box and I lost my voice.

Lori: That literally is not good.

Luan: That stinks. That is something that no one can Buzz about. (Laughs to rimshot) Get it?

Most of us laughed while everyone else groaned.

Me: (Laughs) That was a good one Luan!

Danny (turns his hand intangtible): Hold still, Lola. I'll have that bug out in no time.

Lola complied and Danny stuck his hand into her neck and pulled out the insect.

Danny: Got it.

Lola coughed and gagged hard. Laney got her some water and Lola drank it.

Lola: Ah. Thank you Laney and Danny. That was really clever though.

Lisa: Indeed it was.

Maria came in and she had a box full of cookies.

Maria: Hey guys. Would any of you want some cookies?

Me: No thanks Maria, but thanks for offering.

Mary: I'll have one.

Nico: Same.

Mary tried one and it was extremely tasty.

Mary: Wow! These cookies are delicious!

Nico: Mmm! Boy I'll say. Whoever made these did a really good job.

Mary's brown aura flared up and she then suddenly underwent a massive power increase! We felt her energy skyrocketing at an astronomical level.

Me: Holy mackerel! Mary what are those cookies doing to you!?

Mary: I don't know but they are much more powerful than when I ate a whole huge box full of chocolate!

Alex: (Offscreen) I hope they don't turn you into like how I have become.

We turned and we gasped as we saw that Alex was now fat and obese.

Me: Alex what happened to you!?

Lori: Yeah you were literally skinny as a toothpick yesterday.

Me: And now you've really let yourself go! What happened!?

Alex: It's because of Inga Bittersweet.

Me: Inga Bittersweet? Who's she?

Sam (TS): She's a former girl scout that wants to punish the world for being kicked out of the girl scouts.

Me: It sounds like you have a bad history with her. Lets see here.

I went to the computer and looked up her profile.

Inga Bittersweet was formerly a Happy Girl (a parody of the Girl Scouts) as a child. However, she was expelled from her troop because she ate the cookies instead of selling them like she was supposed to do. With that, she then spent the next 20 years planning her revenge.

She developed a highly concentrated sugar extract and used the formula in her own brand of cookies called Passion Patties (a parody of the Girl Scout cookie), and anyone who ate them was instantly addicted to them. The extract was also fattening enough to cause obesity within a day (judging from Shirley Rogers, Jerry Lewis and Clover's change in appearance). Dr. Bittersweet soon used her Passion Patties to dominate the cookie market.

The cookie craze quickly caught the attention of Jerry, who sent Samantha, Alexandra, and Clover to investigate and stop her scheme. During the infiltration of her production factory, she caught them and hooked them up to an automatic feeding machine to sumo size them. As she gloated about her imminent victory, Clover (who ate the cookies and had become sumo sized) managed to sneak a homing device onto Inga, which led the spies to her Arctic storage facility.

The girls tracked her down and defeated her by forcing her to drink a vial of her sugar extract. She inflated to Clover's size in seconds, and the girls left her to eat the cookies until Jerry arrived.

Me: She got kicked out of the girl scouts for eating all of their cookies!?

Mary: That's really stupid. I do love girl scout cookies but even I have my limits and know how to control myself.

Lana: Me, Lola and Laney are Bluebell Scouts and we sell cookies also. But we also have our limits as well.

Lola: You said it.

Laney: I know.

Me: We need to find out what's in these cookies.

Gru: I have an idea. We can have Agnes, Carmen, Margo, and Edith pose as Girl Scouts and sell my cookie bots to Bittersweet. That way, we can get a close look on what the cookies are made of.

Me: That's a great idea Gru. Proceed.

Gru: Okay.

Carmen, Margo, Agnes and Edith dressed up as Girl Scouts and went to Inga's house.

---

At Inga's house in Helena in Montana, Carmen, Margo, Agnes and Edith were at the house of Inga Bittersweet. Carmen rang the doorbell and Inga answered it.

Inga: (European Accent) Ja?

Carmen: Would you like to buy some cookies?

Inga: Oh my what adorable girl scouts. I'll go get my wallet. How about you all come on in while I do so?

Carmen: Thank you ma'am.

They went in and sat at the table. The cookie bots took some of the passion patties cookies and they put them in one of the extra boxes of cookies they had. Inga bought 20 boxes of girl scout cookies and she handed them the money. They left.

---

Back at the estate we analyzed the cookies. We saw their chemical composition and we saw that they were made with an incredibly highly concentrated sugar extract that makes people really fat and obese.

Me: They're made with highly concentrated sucrose extract. It's powerful enough to make anyone fat and obese and diabetic.

Lincoln: These cookies are a recipe for disaster!

Me: We got to stop Inga or else Diabetes medicine prices will skyrocket through the roof.

Nico: She does make really good cookies though.

Mary: She sure does. But she gives the girl scouts a really bad name! And I won't stand for it!

Me: Me neither. I love sweets as much as anyone else but she is ruining the love of candy and sweets everywhere!

Mary: She'll be perfect for the Null Void.

Me: No she's not that dangerous.

Nico: She sure makes really good cookies. She would be perfect as a cafeteria worker in one of our space prisons.

Me: Good thinking Nico. Lets get her guys! And when we get back Alex, you're going on a diet and going on one of our strongest exercise regimens. Team Loud Phoenix Storm, lets fly!

We set out for Helena, Montana.

* * *

At Inga's factory that makes her cookies, Inga was smiling. Suddenly a massive fiery explosion blasted through the roof of the factory and a phoenix cry was heard.

We landed and we were facing INGA BITTERSWEET herself!

Me: Inga Bittersweet, I presume?

Inga: That's right. J.D. Knudson and Team Loud Phoenix Storm. Welcome to my factory.

Me: You're under arrest for selling diabetic cookies!

Inga: I want to punish the world for what they did to me in the Happy Scouts!

Me: You really loved their cookies didn't you?

Inga: I couldn't help myself! They were so good! I was expelled from the scouts because of that. But that's why for 20 years I worked on my recipe to punish the world for this atrocity done against me!

Me: You should've learned how to control your cravings better.

Maria: I agree.

Lincoln: Your cookies may be good but look what they did to Alex.

Laney: If she keeps eating them she's gonna turn into a diabetic blimp!

Syd: Yeah! We won't let you turn everyone into insulin shot pumping blimps!

Me: Insulin prices would skyrocket because of you!

?: Then you all will die before I let that happen!

Me: That voice!

Spiderman: I thought I would never hear that voice again.

A Heartless appeared. But it was once someone that we know all too well.

The Heartless that appeared before us was a familiar foe with real tentacles that have ugly mouths on them. (Think of the ugly tentacles from the ugly mutant octopus in the movie Deep Rising)

Me: Dr. Otto Octavius A.K.A. Doctor Octopus!

Nico: But how!? You killed yourself right in front of our eyes!

Spiderman: Doc Ock?! (smirks below his mouth) Geez, did you get a makeover at the Ugly Heartless store?

Hellmouth Octopus: Hello, Spider Man. Or should I say, (smirks) Peter Parker?

Me: What the hell happened to you!? You look even more fucked up than when you were when you took your own life.

Hellmouth Octopus: You like it? I was made stronger than ever!

Nico: You are even more disgusting than when everyone faced you ages ago.

Spiderman: No kidding.

Hellmouth Octopus: And it's also got some new features.

The Hellmouth Octopus fired a blast of acid at the floor in front of us and it was far more powerful than Xenomorph Acidic Blood! It was so extremely corrosive that it burned and dissolved a huge hole all the way through the factory floor and it was eating through the basement floor.

Me: Whoa! That is some extremely strong acid!

Lisa got a sample and analyzed it.

Lisa: It's highly concentrated fluoroantimonic acid. A superacid that has enough power to burn through and dissolve anything. Even the strongest metal in the world.

Me: Wow! That is some powerful stuff! If it is strong to burn all the way through the factory then it can dissolve anything into mush!

Hellmouth Octopus: Do you know why I committed suicide, Parker? (launches tentacle but Spiderman avoids it) It's because you ruined all of my plans! (launches another tentacle that Spiderman avoids) You put Electro, Mysterio, and Vulture in inescapable prisons. You turned Rhino, Shocker, Kraven, and Sandman against me. (sprays acid but Spiderman dodges it) You ended up killing Scorpion, Hobgoblin, and Hydro Man. In short, you are the exact reason I ended my own life!

Spiderman: C'mon, Doc! We actually were going to throw you in one of the space prisons. But now I won't even get to make fun of you in prisons because of what you did to yourself!

Me: Yeah you're even more uglier and fucked up than when we first fought you. But now we get a chance to finish some unfinished business.

Otto Gunther Octavius, better known as Doctor Octopus, is a major antagonist in Marvel Comics and a frequent adversary to Spider-Man and the X-Men. He is a genius supervillain and former atomic scientist who can control four mechanical arms grafted onto his body.

Born in Schenectady, New York, Otto Octavius had something of an unhappy childhood. His father Torbert was abusive and violent towards both Otto and his mother Mary. Otto was determined not to become like his father and put all of his effort into his education, regularly scoring top marks.

Unfortunately, a combination of Otto's shyness and good school work got him labeled as a "teacher's pet" and he became a target of bullying. Otto eventually became a brilliant and respected nuclear physicist, atomic research consultant, inventor, and lecturer. One of his most iconic inventions was a set of highly advanced mechanical arms controlled via a mind-computer interface to assist him with his research into atomic physics.

Unfortunately, there was an accidental radiation leak that ended in an explosion and those "wonderful" mechanical arms became fused to Octavius' body. His tentacles were made of adamantium, and had the strength to crush materials stronger than a block of cement. They were telescopic and could stretch over 20 feet.

The arms could be used for walking, lifting or throwing heavy objects, or climbing. Octavius could telepathically control the arms, even when they were not connected to him.

The accident also seemed to have damaged his brain and the scientist turned to a life of crime. His very first criminal act was taking the hospital hostage and proclaiming himself Doctor Octopus, the derogatory nickname that his co-workers had originally given him.

In their first encounter, Octopus defeated Spider-Man by tossing him out of a window. Following this defeat Spider-Man considered giving up his heroic career, but was inspired to continue his heroic career by the Human Torch and ultimately defeated Doctor Octopus. Since then the Good (or Bad) Doctor has gone on to become one of the most identifiable members of Spider-Man's rogues gallery. He was actually Spider-Man's first arch-enemy, especially during the early days before Norman Osborn began rising to prominence.

After his first few defeats at the hands of Spider-Man, Doc Ock contacted several other super-enemies of the web-slinger (Electro, Sandman, Vulture, Mysterio, and Kraven the Hunter) to form the Sinister Six, to trap and destroy Spider-Man. Even this plan failed however, and Ock and his cohorts were once again imprisoned. Octavius continued to be a thorn to Spider-Man, and concocted many schemes that often involved taking over the world and/or forming a different version of the Sinister Six. One of these schemes was his taking on the guise of the Master Planner, a mysterious crime lord. Doc Ock has mostly battled Spider-Man, but has also had run-ins with other heroes such as Daredevil and Iron Man. Ock once even led a version of the Masters of Evil against the Avengers.

After years of fighting Spider-Man, his body began to succumb to the injuries he had sustained over the years. As a way to prevent his death, Otto switched bodies with Peter Parker. Before dying in Otto's body, Peter urged Otto to change for good and succeed the Spider-Man mantle with his last breaths. Otto complied, swearing to become better and a more superior hero, resulting a more brutal, but still trying-to-be-heroic Spider-Man. Unfortunately, he found himself slowly slipping back into evil, starting with his attempted erasure of a fragment of Peter Parker's soul. He eventually had a realization that he was doing more harm than good by the time Peter's soul fragment came back from the dead, and relinquished control of Peter's body, erasing his own consciousness as penance. As Otto died, he told Peter that Peter was a better Spider-Man and a better person than Otto (the self-proclaimed superior successor) could ever hope to be.

However this would not be the end of Otto Octavius, as the doctor managed to create a digital copy of his consciousness prior to his death and stored it within one of the gauntlets of his Superior Spider-Man suit. Eventually, Otto's backup mind sprung to life and began its search for a new body to inhabit. Otto had planned to repossess Peter Parker's body again, but fearing Peter's mind would reject him, he decided to inhabit the Living Brain and wait for the right time to present itself. Otto was forced to act as Peter's assistant at Parker Industries (a company founded by Otto during his time in Peter's body) which he did until he learned that his original self admitted Peter's superiority over him at being Spider-Man. The news caused Otto to go berserk, sending the Living Brain on a rampage until it was destroyed by Spider-Man. Afterwards, Otto escaped in an Octobot and believed Peter's body must have done something to his consciousness to have him make such a claim. He then abandoned his plan to control Parker in favor of locating his original body instead.

Octavius soon learned that his body was taken by New U Technologies to be cloned alongside various other corpses. However, Otto used this to his advantage by allowing his body to be cloned so he can control the healthier copy. He eventually succeeded in gaining control of his clone and became Doctor Octopus once more. However, like all New U clones his new body suffered from the Carrion Virus; a illness that causes cellular breakdown, so he made an alliance with the new Jackal (who was CEO of New U Technologies) to find a cure. When Spider-Man infiltrated the company's headquarters, Doc Ock ambushed him and revealed himself to his foe of having been a copy of the original Otto's mind and his time as the Living Brain before easily defeating him. Ock was about to finish Spider-Man off but was stopped by the Jackal who told him to stand down.

While working at New U Technologies, Doctor Octopus decided to use the Jackal's cloning equipment to try and create a new clone which was completely immune to the Carrion Virus. Otto constructed the clone by splicing Peter Paker's DNA with his own, toying with the idea of transferring his consciousness into it upon completion and regaining all of Spider-Man's powers with no presumable side effects to his mentality. He eventually succeeded at creating what was dubbed the Proto-Clone before his partnership with the Jackal suddenly went sour. Doc Ock betrayed him and sped up the effects of the Carrion Virus in all those infected with it, including Ock himself, but then managed to body-hop into the Proto-Clone and left his other clone body to crumble into dust.

Octavius later caught a ride to one of his old bases to find it already occupied by members of Hydra. He quickly dispatched the intruders only to be confronted by Arnim Zola who offered him an alliance to take down Parker Industries. Otto accepted due to his dislike over Peter Parker's management of the company and to gain access to Hydra's resources. He then designed himself a new costume and outfitted four new mechanical tentacles on his body before rebranding himself the Superior Octopus. Otto then met with Peter as the Superior Octopus to give him an ultimatum. Either Peter signs over ownership of Paker Industries over to him now or he will soon take it by force. Peter refused Ock's offer and in response, Otto gives Hydra the go-ahead to destroy the company's European branch.

True to his word, the Superior Octopus returns a couple of days later to gain control of the company and is inevitably faced with resistance from Spider-Man. However, Otto underestimated how far Peter was willing to go in stopping him and Hydra, as Parker gave his allies the signal to destroy all the company's files, research and assets, thus shutting Parker Industries down for good. Spider-Man had also gained the upper hand against the super-powered Ock by causing his mechanical arms to malfunction. Defeated, Otto made his retreat back to Hydra's base where he was praised by Arnim Zola for eliminating Parker Industries, much to Otto's annoyance. Later, the Superior Octopus became part of Hydra's Avengers and battled against resistance at Washington D.C., but was again defeated after one of their members betrayed the team.

After Hydra's downfall, Octavius abandoned his Superior Octopus alias and retook the name Doctor Octopus once more before soon learning that Carnage planned to harm Spider-Man's loved ones. Otto still retained some of Peter Paker's memories and felt compelled to stop the villain, but was seemingly killed while doing so. However, Otto survived and used the opportunity to change his identity. Now operating as Dr. Elliot Tolliver, Octavius began preparations to make his comeback as the Superior Spider-Man.

---

Hellmouth Octopus: And what unfinished business is that?

Me: Instead of sending you to prison, we're going to kill you like we should've done in Australia.

Nico: Dr. Otto Octavius A.K.A. Dr. Octopus, you have failed this world!

Me: More like he has failed all of the universe! Mary, you face Inga and we'll face this Dr. Octopus freak!

Mary: You got it dad.

Me: Power up!

We transformed and went at the Doctor Octopus Heartless.

I punched him in the face and kicked him in the chest. Spiderman fired a blast of web at his face and kicked him in the face.

Laney tied him up in vines and threw him into a machine and destroyed it. But out of the machine rolled a dark orb. I picked it up.

Me: So Inga was using a dark orb to power her factory. Well never again!

I crushed it and we got a massive power boost.

Lincoln fired a blast of lightning at the Hellmouth Octopus and blew the tentacles off.

Me: I liked you better when you had those cybernetic tentacles. Not some cheap knockoff of the ugly tentacles from that octopus monster in the movie Deep Rising.

Doctor Octopus spit at me and it hit me in the face.

Me: Oh yuck! You are one seriously fucked up monstrosity Octavius! Plus when was the last time you used mouthwash?

Lola: Never. Since he spent all his time dead.

Me: You're not the only one that can grow tentacles out of his back.

I sprouted gruesome slimy tentacles covered in blood and slime and they turned into gruesome flesh flowers.

Stacy: Now that is wicked awesome!

Kate L.: J.D. has shape-shifting powers and he can turn into anything. He used these kinds of transformations to scare two bullies named Hawk and Hank and he scared them so bad that he soiled their pants 3 times. But these transformations are from an extremely horrific and nightmarish experience I've had down in Antarctica. It was a nightmare that will forever haunt me. They are from a terrifying shape-shifting alien monster I know called The Thing.

Stacy: Like in the movies from 1982 and 2011?

Kate L.: That's right.

Stacy: Oh man! That's horrible what you went through. Kate, I'm so sorry you went through all that.

Kate L.: It's all right Stacy. But I've recovered and I'm all right with J.D. transforming into the creatures from The Thing.

Stacy: I'm glad you're getting better Kate.

Trudy: Me too Kate. That was awful that you went through all that.

I sent a flesh flower tentacle at his face and it chomped onto his face and ripped his whole face open and he screamed in excruciating pain. Splattering his blood everywhere.

Me: Yummy. Now to finish you off. Combo time guys!

Nico: You are gross dude. But great job.

Me: Thanks Nico.

Omega Supreme (Energon): You got it J.D. CYBER KEY POWER!

The Universal Cyber Planet Key went into his arm and it enhanced his Final Impact blast 100-Fold.

Billy (GAOBAM): Time for some action! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his device and gave him majorly explosive acidic flatulence.

Omega Supreme and Billy: FINAL FARTSTORM BURST!

Energon Omega Supreme fired a massive blast of energy from his right arm fingers and Billy (GAOBAM) fired a massively explosive and extremely corrosive fart.

KRAAAAAAAFFFFFAAAAAAAAAAAAAAAAAAAAAAAARRRRRTTTTT

The blasts combined and they hit the Dr. Octopus Heartless and burned him badly as a massive blast of energy and flaming fart gas.

Gravity Man: Time for some heavy firepower! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his arm and it enhanced his Gravity Hold 100-fold and it also gave him the ability to form weapons of gravity energy.

Brawn: Time for some heavy strength! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his strength 10,000-fold and it gave him the ability to fire powerful energy blasts that can possess enough power to obliterate the strongest of boulders and buildings.

Gravity Man and Brawn: GRAVITY SWORDHAMMER PULVERIZER!

Gravity Man formed a Swordhammer and Brawn had the strength to lift up a whole planet. Brawn punched the Dr. Octopus heartless and Gravity Man slammed his hammer and the combined force of their hits caused his tentacles to explode into a gruesome mess. The Dr. Octopus Heartless landed on the ground.

Me: You disgust me Octavius. You were once a brilliant scientist with so much to give for humanity. But you threw it all away all for your insane ambitions and that makes you even more fucked up than all the other villains we've killed in the past.

Hellmouth Octopus: ***I HATE YOU KNUDSON!***

My aura flared up with incredible power!

Me: Thanks for the power boost. But it's time for you to go back to hell where you belong. Goodbye and good riddance!

I fired a massive energy blast at the Dr. Octopus heartless and it enveloped him and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion completely obliterated him in an instant. Killing him instantly. Dr. Octopus was sent into the River of Fire. But the fight wasn't over yet.

Mary was facing Inga Bittersweet.

Mary: You may make delicious cookies Inga, but there is one ingredient that you forgot to add into your recipe.

Inga: And what is that?

Mary: All recipes are always made with love and they come from the goodness in your heart! Plus, I have some new friends I want you to meet.

Inga: What do you mean?

Mary: I have the perfect backup force to help me take you down!

Mary pulled out a special ring and it was covered in diamond and it had a symbol in the shape of a jewel with the symbol of Team Loud Phoenix Storm on it. She put it on her finger.

Mary: CRYSTAL BRIGADE, SHINE FORTH!

Mary held her hand up and the ring shined a rainbow beam of light into the air and a jewel appeared in the air. It turned into a portal and out came the Crystal Gems: Steven Universe, Connie Maheswaran, Garnet, Amethyst, Pearl, Ruby, Sapphire, Lapis Lazuli, Peridot, Jasper and Bismuth.

Mary: Say hello to the Crystal Brigade.

Steven: I'm Steven Universe, gem of Pink Diamond.

Connie: I'm Connie Maheswaran, Swordmaster of the Gems.

Garnet: I'm Garnet.

Amethyst: Yo, I'm Amethyst.

Pearl: I'm Pearl. It's a pleasure.

Ruby: What's up? I'm Ruby.

Sapphire: I'm Sapphire. It's a pleasure.

Lapis: I'm Lapis Lazuli.

Peridot: What's happening? I'm Peridot.

Jasper: Yeah I'm Jasper.

Bismuth: What's up friends? I'm Bismuth.

Steven: What's going on Mary?

Mary: We're dealing with an evil baker that wants to turn the world into fat diabetic people.

Garnet: That is not right.

Pearl: Everyone has to eat everything in moderation.

Mary: I know. Lets get her guys!

They went at her and Mary punched her in the face. Garnet formed her gauntlets and brutally punched Inga all over the place and she fired a blast of lightning at her and electrocuted her. Amethyst formed her whip and lashed Inga all over and she threw spike mines from it and they hit her and exploded. Pearl formed her trident and fired a blast of energy at her and it hit her and blew her into some boxes of her cookies. Lapis spread her wings of water and flew into the air and fired a massive blast of water and got Inga wet. Inga did not like that one bit. Peridot fired a blast of light at her and Jasper rammed her. Inga threw cookies at Steven and he formed his shield and blocked them. They hit the shield and it emitted a sonic ping that shattered the whole factory and it collapsed. I had everyone protected in a force field.

Me: That was a close one.

J.D. 2: J.D. I sense 3 Shen Gong Wu in the rubble.

Me: Which ones are they?

J.D. 2: It's the Gills of Himachi, the Sun Chi Lantern and the Falcon's Eye.

Me: The Gills of Yellowtail? Interesting name. These Wu sound interesting. What do they do?

J.D. 2: That's a good observation J.D. I'm impressed that you know all about Japanese names. The Gills of Himachi allows the user to breathe underwater. But it turns them into a fish in the process. The Falcon's Eye allows the user to see through solid objects.

Me: Like Superman with X-Ray Vision.

J.D. 2: Exactly. And the Sun Chi Lantern allows the user to combine their chi with anyone illuminated in its light.

Me: That is awesome! Where are they?

The E symbol on my forehead glowed and fired 3 lasers and they lead me to a safe hidden in the rubble. I found the safe and took out a stethoscope and turned the combination lock and opened the safe and found them.

Me: There they are!

I took the Sun Chi Lantern and it resembled a brown lantern. The Gills of Hamachi was a gold band with a green scale design on the front. It was worn around the neck when in use. The Falcon's Eye was a golden monocle with an "eyebrow" design and a dark red lens.

Me: Interesting characteristics. But these have to be the coolest ones we've seen.

Omi: (Tibetan Accent) Well done J.D.

Me: Thanks Omi.

I took the Wu and put them in a bag I had with me.

Mary punched Inga in the face.

Nico (throw Hobgoblin's bombs at Inga): Inga Bittersweet, you have failed this city! (eats a cookie) But not these cookies. They actually taste very good!

The bombs exploded and they blew her into the rubble.

Me: It's final smash time guys!

Vakama: You got it J.D.! FIRESTORM TA-METRU KANOKA TORNADO!

Vakama fired his Kanoka disk and it spun rapidly and turned into a deadly firestorm tornado and it spun Inga around with incredible force.

Alex: I will never let you get away with this Inga! EGYPT SANDSTORM BLIZZARD!

Alex spread her wings and they were those of the Egyptian Goddess Isis and she fired a massive blast of sand at Inga and buried her in a huge pile of sand.

She arose from the sand and was exhausted.

Alex: (To the viewers) I may be fat and overweight but I can still fight.

Inga (sighs): Alright. I admit when I'm beat. Go ahead and kill me.

Nico: Kill you? (smirks) I've got a better idea!

In the Saturn Insane Asylum, Nico had Inga work as a cafeteria chef.

Inga: I'm actually surprised you're making me work as a lunch lady in the Saturn Prison cafeteria.

Nico: Well, every cafeteria needs one.

Inga: That's true.

Nico: Think of it as the lightest prison sentence we can give you. Besides your cookies are really delicious.

Inga: Oh why thank you Nico.

Nico: You're welcome Inga.

---

Back at the estate, Lynn Jr., Lynn Sr., Rita, Sarah, and Vince were really whipping Alex into shape. She was panting like crazy. And dripping sweat by the bucket. Nico came back and he had just caught a Duskull and a Trophius.

Nico: Wow! You guys are whipping her into shape.

Lynn: We sure are Nico.

Lynn Sr.: It's gonna be a long road for her. But she needs to lose that weight.

Me: It's gonna take a while but it will work.

Vince was not seen because he was far too busy taking care of Carol and his kids. Alex was on the road to being her old self again.

THE END

---

Another Fanfiction Complete.

Inga Bittersweet was one of the most craziest villain's I've ever seen.

But I love cookies and sweet food as much as anyone else. But they are loaded with fat and sugar that can give you diabetes and make you fat. No one should ever eat that much sugar in one sitting. It's very unhealthy. NicoChan gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# WRESTLING WITH THE JACKAL!

LLLLLLLLET'S GET READY TO RUMBLEEEEEEEEEEEEE!

---

It starts at a local restaurant. Me, Nico, Lincoln, Laney, Sydney, Syd, Rachel and Lucy are having lunch. Nanette was taking our order.

Nanette: Hey guys.

Me: Hey Nanette. How have things been since you were cured?

Nanette: Oh it's awesome J.D. I'm so glad I have my humanity back.

Nico: And we're glad we killed the Shredder. He was the one that did that to you.

Nanette: I know.

Syd: That's another one of my favorite adventures. You guys going after the Shredder.

Me: Oh yeah Syd. That was one of our most awesome adventures.

Lincoln: It sure was. I'll never forget going up against the Shredder and the Foot Clan.

Rachel: Me too Link. It was so cool taking them down.

Me: You said it Rach. Nanette, what were you doing before the Shredder and his Foot Clan changed you all?

Nanette: I was walking home from work after a long day. Then I was abducted by the Shredder's soldiers. I woke up in a strange room. Then next thing I knew, everything blacked out.

Me: The Shredder deserved to be destroyed.

Sydney: Yeah but things slowly got better in the underground city.

* * *

Sydney: (Narrating) After we met in the Underground City, Me, Sheila and Nanette became really good friends and we were trying to figure out what to do if we ever got cured and saw the surface again. We've been best friends ever since.

FLASHBACK ENDS

Me: And we all arrived with the cure and saved you all.

Sydney: That's right.

Me: Sydney how did you, Nanette and Sheila meet?

Sydney: That was shortly after we were abducted and we discovered the regenerative properties of the Crystal Moon. But it was during our time in the Underground City that we got to know each other.

* * *

In the Shredder's lab Sydney, Sheila and Nanette were being injected with DNA from different creatures from other planets and they started changed into their monster forms. Sydney had on a blue shirt and blue leggings. It was an awful experience.

Past Sydney: (Screaming in excruciating pain)

Past Nanette: WHAT'S HAPPENING TO ME!?

Past Sheila: IT HURTS SO BAD!

They changed.

Sydney: (Narrating) We don't remember much after we were abducted. But after we were made human again because of the Crystal Moon we really started talking.

Past Sydney: My name is Sydney.

Past Nanette: I'm Nanette.

Past Sheila: I'm Sheila. it's a pleasure.

Sydney: We were talking about the usual.

Past Sydney: So you were walking home from work Nanette?

Past Nanette: Yeah until these weird men kidnapped me and turned us into monsters!

Past Sheila: We've been cursed with a fate worse than death.

Past Sydney: We have to think of something to help get us out of here somehow.

Sydney: Ever since then we were like prisoners down there.

FLASHBACK ENDS

Sydney: It was a nightmare.

Me: That is awful Sydney.

Lincoln: And I take it the Turtle Brothers found you guys.

Nanette: They sure did.

---

Nanette: (Narrating) They found us in the sacred chamber frozen in crystal and they saw us without our clothes on. Their reactions on their faces were priceless.

Past Nanette: Like what you see boys?

Past Sheila: NOT A SINGLE WORD! GOT IT!?

Sydney covered herself.

The turtles were embarrassed.

FLASHBACK ENDS.

We laughed.

Me: Okay now that's funny. What were you all doing in your spare time while waiting for us?

Sydney: I was trying to decipher some runes in the city.

Nanette: I was gardening and Sheila was carrying rocks and boulders.

Me: Well you guys had to do something to pass the time. Also if you went too far away from the Crystal Moon, what would happen?

Nanette: We would turn back into monsters.

Sydney: The Crystal Moon was the only thing that would keep us from changing into monsters. We were trapped in a prison underground.

Nanette: I wondered away and turned back into my blue beetle monster form and it was terrible.

Me: What a nightmare.

---

Sydney wandered away the first time and she changed into her blue furry insect monster form. But she still retained some of her humanity and she went back in and she reverted back. But she was naked.

Past Sydney: LOOK AT ANY PART OF ME AND I'LL KILL YOU!

The same thing happened to Nanette and when she came back in she reverted back and was naked too.

Past Nanette: Like what you see boys?

I think I'm gonna puke.

Sheila did the same and she walked back in covering her naked self.

Past Sheila: LOOK AT ME AND I'LL BREAK YOUR FUCKING NECKS!

FLASHBACK ENDS

Me: That is a total nightmare.

Syd: I would not want to wish that on my worst enemies.

Laney: How did you guys react when the Crystal Moon sunk into the lava?

Sydney: That was a disastrous reaction.

---

The exploding geodes they used were too powerful and the Crystal Moon fell from the cave ceiling and sank beneath the lava.

Past Sydney: ON NO!

Past Nanette: Without the Crystal Moon we're gonna turn back into monsters!

Past Sheila: And here it comes!

Sheila clutched her head in agony and she turned back into an ugly spider creature! First she grew extra arms from her sides and she bent down and grew a huge mouth and she turned into an ugly spider creature. Nanette did the same as she turned into an ugly blue beetle creature and grew extra arms and she changed and Sydney did so as well and she screamed and turned into a furry blue insect humanoid creature. Their clothes shredded as they changed, their hair receded and their teeth grew into razor sharp fangs.

FLASHBACK ENDS

Me: Horrible.

Lincoln: No kidding.

Me: But you all were cured when we arrived and brought the Crystal Moon back.

---

After the Crystal Moon was raised out of the lava thanks to us, everyone reverted back to their human forms. Nanette had her body shrink back and extra arms retract and she grew her hair and face back. Sheila had her spider appearance vanish and she lost her extra arms and her teeth returned back to normal and she stood as a human should. She regrew her hair and her skin. They were back to normal. But they were naked.

Past Nanette: We're back to human again!

Past Sheila: But how?

Past me: That would be thanks to us.

They saw us and we boys had our eyes covered.

Past Lincoln: We're not looking until you put some clothes on!

Past Me: And if we do Nicole will beat the living shit out of us.

Past Sheila: Good. You even peak at me and I'll snap your neck!

Past Sydney: We can now cure you all thanks to Team Loud Phoenix Storm and our friends.

Nanette: Sydney!

Sheila: Sydney!

Nanette and Sheila hugged Sydney after they put some clothes on and we administered the serum.

FLASHBACK ENDS

We laughed.

Me: We sure were smart back then.

Sydney: Yeah. Nanette, Sheila and I quickly became sisters because of it. Our bond was so strong that we ended up becoming so close because of it. I've become the Big sister. Strong, brave, optimistic and never willing to give up hope.

Me: That's what I like in people.

Nanette: And me and Sheila have become the younger sisters. I am Strong, powerful and giving. Sheila is a strong and fearless woman willing to protect.

Lincoln: That's awesome!

Suddenly an explosion bursted through the wall of the restaurant and in came a figure flying in and it looked like a giant bat. When it landed we saw that it was a gene-slammer that was half human, half vampire bat!

Me: Whoa!

Lincoln: Another Land Gene-Slammer!

Laney: This one is half human, half vampire bat!

Lucy: Wicked.

Me: Who are you?

Batswarm: My name is Batswarm. But I used to be Ophelia Ramirez.

Lincoln: I'm confused. I thought Dr. Roland Paradigm specializes in land animal gene-slamming.

Me: Actually Bats spend most of their time on the ground when they sleep during the day. And they come out at night to feed. They are masters of both land and air.

Lincoln: Oh.

Lucy: Vampire bats have always been my favorite creatures. They are the true masters of the night and the darkness.

Me: It's amazing at what they can do. Ophelia how did you become half human, half vampire bat?

Batswarm: I don't have any idea. I was living alone in Orchid Bay when suddenly I starting feeling an excruciating stomach pain and back pain. I went to bed hoping it would go away. Then the next morning I awoke looking like this. But the sunlight hurts me. It weakens me because the light from the sun blinds me and it burns me somehow.

Me: That's exactly like what happened with the Nightbreed when we met them.

Lincoln: Yeah. They couldn't go out in the sunlight because it hurts them and weakens them somehow.

Me: The Sun's ultraviolet radiation weakened them somehow.

Batswarm: That is very similar. But when I became like this I developed an insatiable thirst for blood. I can't control it.

Me: That is an interesting trait in Vampire Bats.

Syd: Yeah. Vampire Bats can drink up to 60% of their body weight in blood in one night. But if they don't feed every 2 or 3 days they die.

Lucy: That's an interesting fact Syd. I didn't know that.

Lincoln: She's like a walking animal encyclopedia. Her mom works at the zoo as a zoologist.

Syd: Yep.

Sydney: That's amazing.

Laney: I know where Orchid Bay is. That's a suburb of Gotham Royal York on the eastern edge of the city.

Me: It's an interesting town and our scanners picked up a lot of supernatural and mystical activity there.

Batswarm: Yeah. I ran away from Orchid Bay and went into hiding and now I only come out at night. But I can't control myself right now. I need to get some blood in me.

Me: You don't want to taste my blood Ophelia. It's poisonous.

Nanette, we don't have any other option. We need you to change into your monster form so we can hold Ophelia while we cure her. We can give you both the ability to change at will.

Nanette: Okay. I understand.

Me: Okay. Boys you better cover your eyes. I don't want you all to see this so Nicole can beat the living shit out of us.

Nico: Okay.

Me: Nanette, this is gonna really hurt. Are you ready?

Nanette: I am.

We covered our eyes and I snapped my fingers and Nanette changed.

Nanette (her hands turn into claws): Here we go!

Two more of Nanette's mutated arms grew out of her sides. Her back expanded as it turned blue, ripping apart her shirt. Her front side turned white and expanded, ripping apart her pants. Her feet then transformed to suit her new form, ripping apart her shoes. Nanette was currently a blue beetle monster with a human head and red underwear.

Nanette (grits her teeth): DEAR GOD! I HATE THIS PART!

Nanette's blonde hair fell out of her head as her red underwear ripped off. She grew antennae and gained a blue beetle monster head. A blue beetle monster stood in the place where Nanette once stood.

Nanette went at Batswarm and held her and I snapped my fingers again and Nanette and Batswarm were reverting back. We covered our eyes again. She had magenta and purple hair and green eyes and she was knocked out and back to normal. Nanette was totally unclothed.

Nanette was back to human form. But she was also naked.

Nanette (smirks as she strikes a pose in front of Lincoln): Like what you see, Lincoln?

Lincoln: And risk having Nicole and the Anti-Pervert Patrol beat the living crud out of me?

Nico: I don't think so.

Nico took out some pepper spray and he sprayed his eyes with it.

Sydney: Nico, why the hell did you spray your eyes with pepper spray?!

Nico: So I don't accidentally peep on Nanette. Don't worry. I'll be fine in a few minutes.

Me: That's going a little overboard dude.

I pulled out a purple robe and gave it to Nanette. She put it on and we uncovered our eyes.

Me: Lets get you both back to the estate and get you some new clothes. Leni is a great fashionista. She can make many kinds of clothes for anyone.

Nanette: Thanks J.D.

I picked up Ophelia.

Me: So she embraced the gothic subculture as well.

Lucy: It looks like it.

?: Wait! Let me help too.

We saw an oriental girl with black hair and brown eyes and a magenta streak in her hair. She had a green shirt with a pink dragonfly on it and blue jean pants and she had combat boots and a strange bracelet on her left arm.

Me: And you are?

Juniper: Sorry, my name is Juniper Lee.

Me: Pleasure to meet you Juniper.

Juniper: You can call me June if you want. It's an honor to meet you J.D.

Me: You too. Wait a second. I recognize this bracelet. You are the legendary Te Xuan Ze.

Juniper: How did you know that?

Me: Trust me June. We are no strangers to the worlds of the mystic, the paranormal, the supernatural and the magic arts. You are the Magical Protector and your job is to maintain the balance between the physical and the spiritual planes.

Juniper: That's right.

Me: Lets head back to the estate and you can tell us all about it.

Juniper: All right.

We were walking back to the estate.

Laney: So June, how big is the responsibility of being the Magical Protector?

Juniper: It's a big responsibility. Almost as big as you being the leader of Team Loud Phoenix Storm, J.D.

Me: That is a huge job. You have your work cut out for you June.

Juniper: Yeah.

Then an explosion blasted out the front window of a jewelry store!

KRABOOOOOOOOOOMMM!

Me: Uh oh! We got a jewelry store robbery in progress!

Nico: Lets get them!

Juniper: I want to help too.

Me: Okay June. But it's dangerous.

Juniper: I can handle it.

Me: Okay.

Robber 1: Lets go man! Hurry!

Me: (Offscreen) You shitfaces aren't going anywhere except prison!

I swooped in and punched a robber in the face and kicked him in the stomach.

Nico: You robbers have failed this city!

Nico punched a robber in the face.

Then we suddenly saw June jump in and she pile drove a robber with incredible strength and she punched him in the mouth and knocked out some of his teeth.

Me: Whoa! June is incredibly powerful!

Nico: She has superhuman strength!

Lincoln: Unbelievable!

Juniper kicked a robber in the crotch and there was a sickening crunch and then she threw the robber into the wall of the store. A third robber went at her and Juniper ran at him with amazing speed and he swung a crowbar at her and she dodged him and jumped over him and kicked him in the face and sent him crashing into the wall of the store. Knocking him out.

Me: Wow! June that was well done!

Nico: You have superhuman speed and strength. Amazing!

Juniper: That's right. I have all these abilities that come with being the Te Xuan Ze.

Laney: It's awesome.

Lucy: You have an awesome skill set.

Nanette: She sure does.

Me: How would you like to join us June?

Juniper: I would be honored J.D.

Me: Great.

J.D. 2: I sense 2 Shen Gong Wu, J.D.

Me: Where are they?

J.D. 2: They're in the jewelry store that was just robbed.

Me: Which ones are they?

J.D. 2: The Shroud of Shadows and the Ruby of Ramses. The Shroud of Shadows allows the user to become invisible and the Ruby of Ramses allows the user to levitate any object.

Me: Wow. That's neat. I hope someone doesn't use the Shroud of Shadows for perverse pleasure. That would be a despicable and dishonorable act.

J.D. 2: It sure would be.

Juniper: Who are you talking to?

Laney: It's a long story June.

I went into the jewelry store and I saw the Shroud of Shadows hanging on the wall like a tapestry and the Ruby of Ramses was in a display case. The Ruby of Ramses looked like a large, eight-sided, conical shaped ruby. It also had numerous spikes close to the base of the ruby. The Shroud of Shadows was a dark colored cloth whose gradient would range from black to light grey- depending on the lighting. About as large as a poncho.

Me: So these two are the Shroud of Shadows and the Ruby of Ramses.

I take the ruby out of the case and I took the Shroud of Shadows down.

Me: It's good we found these.

We went back to the estate.

We arrived and Ophelia woke up.

Ophelia: (Groans) What happened?

Juniper: Ophelia are you all right?

Ophelia: June? What happened?

Juniper: It's a really strange and ugly story. Lets get you some clothes and I'll tell you all about it.

We got Nanette and Ophelia some new clothes. Nanette was now wearing a purple summer shirt with a blue beetle on it and a purple sleeveless trench coat with scarabs all over it with the kanji for Blue Beetle of Death on the back. 死の青い甲虫. She also had purple leggings and blue sneakers.

Nanette: I look amazing.

Leni: Purple is totes a trending color for you.

Ophelia had a black sleeveless trench coat in her size and she had a gray summer shirt with a bat on it. The trench coat had bats on it and the kanji for Venomous Vampire Bat on the back. 毒ヴァンパイアバット. She also had black jean pants and black spike boots. She also had black bat earrings and a black spike choker.

Ophelia: I do look amazing. But life is a grim and dull thing.

Me: I know Ophelia. But we have to be ready for the hardships of all life.

Maria: I'm starting to think that the Paradigm brothers are perverts.

William: What makes you say that, babe?

Maria: Do you know how many clothes are destroyed thanks to the transformations those three cause?

Me: I can only speculate Maria. But if we don't stop them, we're gonna have a whole world full of Gene-Slammers to deal with.

Ophelia: June can I ask you a question?

Juniper: Sure Ophelia.

Ophelia: Why are you always running off like that? You always have something not needed you need to do.

Juniper: (Nervous) Uh…

Me: June, I think it's time she knew the truth. Besides, one thing I've learned is that you can tell anyone whom you feel is trustworthy.

Juniper: That is a good point. Okay Ophelia. You see the reason I'm running off all the time is because of this.

Juniper showed her bracelet.

Juniper: This bracelet lets me know when there's a disruption in the balance of the physical, magical and spiritual planes. I'm a mystical warrior called the Te Xuan Ze. I'm the Magical Protector and that has a major responsibility. My job is to maintain order and balance between the worlds of the paranormal, the mystical and the supernatural.

Me: That's right. Her job is just as powerful as our job is on Team Loud Phoenix Storm. And we are no strangers to the worlds of the paranormal, supernatural and the mystic.

Juniper: Yep. I have to fight monsters and demons and spirits and all that stuff.

Ophelia: That is a big job. But where are the monsters? I don't see them.

Me: Well you can't see them because the monsters exist on the spiritual plane. June is the only one that can see them. Let me show you through her eyes.

I snapped my fingers and Ophelia saw smaller monsters and spirits.

Ophelia: Oh… My… God! This is what you see June?

Juniper: Yep. On a daily basis. It's a majorly powerful job.

She saw two little monsters fighting.

Juniper went over to them and broke them all.

Juniper: All right you two break it up.

Me: Her job is a majorly big one.

Ophelia: I see what you mean J.D. June, I didn't know you had so much responsibility on your plate. It's just as powerful as Team Loud Phoenix Storm.

Juniper: I know.

Ophelia: That is cool June. You have an awesome job and a cool rep.

Juniper: Thanks Ophelia. How would you like to help me out as my partner?

Ophelia: I would like that June.

They shook hands and we're in business together as a team.

---

Later the next day we were watching Wrestling! Alex was on the treadmill dripping a lot of sweat. But she was back to what she was before.

Alex: I think I'm back to my non overweight self.

Lynn Sr.: Yep you are Alex. Great job today.

Alex got off the treadmill.

Me: Come on Triple H! RIP HIS HEAD OFF!

Lynn: Come on Brodus! DESTROY HIM!

Lincoln: Boy you guys love watching wrestling!

Laney was reading a book.

Then the alarm went off.

Me: Uh oh.

We went to the computer and saw that the evil wrestler Jackie the Jackal was back and he was hurting all kinds of innocent people.

Me: Jackie the Jackal?

Ron: I thought we saw the last of Jackie the Jackal.

Kim: Apparently not. And now, the so called champion's back in the ring, along with dozens of civilians.

Me: Who is Jackie the Jackal?

Kim: He was one of our most powerful adversaries.

Originally a promoter for the GWA, a highly popular traveling wrestling show, Jackie Oakes tired of selling fights and wanted to be in one.

Jackie Oakes is the founder and promoter of the Global Wrestling Association. Wanting to become a wrestler himself, he stole mystical Egyptian artifacts and allowed the spirit of Anubis - the Egyptian god of mummification - to possess him. This transformed him into a super-strong creature that he called "The Jackal.

However, with his short stature, he is denied the action and respect he wants. In order to achieve his goal, he turns to stealing some ancient Egyptian artifacts from museums while on tour with the wrestlers. Most notably a Talisman of Anubis and the ancient papyrus that contains the incantation to activate the power of the talisman, allowing him to be possessed by the spirit of Anubis. This transforms him into a powerful jackal-human hybrid, which he intends to use in the ring in order to become a successful wrestler.

But even with the power of Anubis, Jackie is brought down with the combine efforts of Kim, Ron, Steel Toe, Pain King, and Rufus.

Shego: To be honest, me and Drakken never did pay that much attention to Oakes until today.

Me: So he's a wrestling promoter gone bad. Now he has the gaul to attack innocent people and disgrace the world of pro wrestling!? This guy is a monster! Lets get him!

Lynn: Yeah!

?: Let us help you all out as well.

We turned and we saw Jayna and Zan the Wonder Twins.

Me: Wow! Jayna and Zan the Wonder Twins.

Jayna: That's right J.D. It's an honor to meet you.

Zan: The Justice League can't stop talking about you guys. We were told so much about you.

Me: I had a feeling. We had the Justice League help us out a lot and we helped the Justice League too. Our achievements have spread like wildfire throughout the entire Justice League and the Avengers.

Jayna: They sure did.

Me: You're more than welcome to help us.

Jayna: Thanks J.D.

Zan: Lets get him.

Me: Lets fly!

We set out for the WWE wrestling stadium in Los Angeles, California.

Jackie the Jackal was hurting people like crazy. Then a massive fiery explosion blew a hole through the stadium roof and a phoenix cry was heard. We landed in the arena floor.

Lynn (to the civilans): Everyone clear out of here now!

Me: Jackie the Jackal we won't let you disgrace the worlds of pro wrestling anymore!

?: I agree with you there J.D.!

We turned and we saw all our favorite stars of Wrestling! John Cena, Hulk Hogan, A.J. Lee, Goldberg, Santino Marella, The Miz, Triple H, Michael Cole, Vince McMahon, Brodus Clay, Kane, Sin Cara, Jerry Lawler, Sgt. Slaughter, Jimmy Hart, Big Show, Alberto Del Rio, Cameron and Naomi.

Me: Oh wow! The Wrestling Legends!

Nico: This is so awesome!

Hulk H.: It's such an honor to meet you Team Loud Phoenix Storm.

John C.: You guys are legends all around the world.

A.J.: And it's awesome how you guys work together to take down criminals.

Me: We get that all the time.

Nico: Lets work together to take down Jackie the Jackal.

Brodus: Lets get him!

Everyone: YEAH!

Ben: I think Rath would like to have a word with you Jackie!

Ben turned into Rath.

Rath: LEMME TELL YOU SOMETHING, JACKIE OAKES, OTHERWISE KNOWN AS JACKIE THE JACKAL! RATH'S GONNA

BEAT YOU LIKE A BAD EGG!

Hulk H.: YOU TELL HIM RATH!

Lori: Lets get them A.J.

Me: Ladies first.

Lori punched Jackie and A.J. picked up Jackie and slammed him onto the arena floor. Lori and A.J. pile-drive Jackie and punched him in the stomach.

Lori: You literally disgust me Jackie!

A.J.: You are a disgrace to wrestling!

Leni and Naomi punched Jackie in the stomach and kicked him in the face.

Naomi: That's showing you!

Leni: You totes disgust me Nicky!

Naomi: He's name is Jackie.

Leni: Oh right.

Luna punched Jackie and Sgt. Slaughter kicked him below the belt and punched him in the face.

Sgt. Slaughter: Awesome job soldier!

Luna: It was awesome dude!

Luan teamed up with The Miz, Lincoln teamed up with Goldberg, Lucy teamed up with Kane, etc, etc, etc.

Nico: Lets sock it to him Hulk.

Hulk H.: You know it Nico!

Nico and Hulk: LET US TELL YOU SOMETHING JACKIE THE JACKAL! YOU HAVE FAILED THE ENTIRETY OF THE WORLD

OF WRESTLING!

Hulk Hogan and Nico punched Jackie in the face and kicked him in the stomach with devastating force and dealt him a deadly uppercut to his face. Then they grabbed a metal chair and slammed it onto Jackie's head.

Hulk H.: You have a lot of talent in Wrestling Nico.

Nico: I watch a lot of it on T.V. and you are an awesome wrestler Hulk!

Me and John Cena went into the ring.

Me: Lets get him John.

John C.: You got it J.D.!

We went at Jackie and punched him in the face with incredible strength. We picked him up with our strength.

Me: John I loved how you kicked Robert Patrick's butt in your movie The Marine back in 2006.

John C.: That was one of my classics J.D. But it was Ferdinand in 2017 that really inspired a lot of people.

Me: That's one of my favorites John. You were a true Bull in that movie.

John C.: (Laughs) That's a good one J.D.

We slammed Jackie onto the arena and pile-drove Jackie.

Rath punched and slashed Jackie the Jackal all over the place with ferocious and indiscriminate fury.

Rath: (Punches Jackie) You like that!? (Slashes Him) How about that!?

Brawl went onto the arena.

Brawl: Don't you know who I am?

Jackie the Jackel charges at Brawl.

Brawl: I'M BRAWL, FUCKER! (punches Jackie)

Then a Kurt Zisa Heartless appeared.

Ironhide (dodges a punch from Kurt Zisa) Well, Optimus, ol' buddy, this is what separates the Autobots from the robot chickens!

Brawn: Ain't no one calling me a robot chicken!

Ironhide and Brawn punched the Kurt Zisa Heartless all over the place and destroyed it.

Me: Jackie has a Dark Orb and it's in his Talisman. Combo time!

Metroplex: (Scottish Accent) Lets get him lads! CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his battle axe and the blades separated.

Psylocke: Lets get him! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her device and it will had her Sword grow to the size of Metroplex's axe and it enhanced her strength and power 100-fold. The sword glowed neon pink.

Psylocke and Metroplex: SUPERWEAPON GIANT SLAM!

They slammed their giant weapons onto Jackie the Jackel and they hit him with devastating force and slammed him through the arena floor.

Trypticon: Me, Trypticon, smash Jackal. CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his back in City Mode and it enhanced all of his weapons and strength 100-fold and it enabled him to have more weapons and blasters pop out and fire them all in rapid succession. He was now a moving battle fortress.

Shocker: Time for action! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his device and it enhanced his lightning and sonic powers 100-fold.

Shocker: MAXIMUM LIGHTNING STORM ASSAULT!

Shocker fired a massive blast of lightning and Trypticon fired all his weapons and blasters all at once and they hit Jackie the Jackal and exploded all over the place.

Me: Final Smash time guys!

Jayna: Lets get him Zan!

Zan: You got it Jayna!

Wonder Twins: (Echoing) WONDER TWIN POWERS ACTIVATE!

They put their fists together and activated their powers.

Jayna: Form of A BLUE WHALE!

Jayna turned into a blue whale.

Zan: SHAPE OF A MEGATSUNAMI!

Zan turned into a massive tsunami of pure water.

Wonder Twins: SUPERWHALE TSUNAMI SMASH!

The Wonder Twins slammed into Jackie the Jackel with incredible force and shattered the Dark Orb and we got a massive power boost.

Brawl: Lets finish this clod! BRAWLSTORM PUNCHING FISTICUFFS!

Brawl punched Jackie the Jackal with a ferocious flurry of powerful fisticuffs. Knocking him down.

Brawl: (To the Viewers) That's how the fight ends.

Lynn: Now it's time for the grand finale. John, Hulk, A.J., guys, shall we teach this disgrace what true wrestling is all about?

A.J.: Lets do it Lynn!

John C.: Lets get him!

Lynn and the Wrestlers went at Jackie who was on his last legs and they charged up powerful punches ready to destroy him.

Lynn and the Wrestlers: WRESTLESTORM MANIA PUNCHBARRAGE!

Lynn and the Wrestlers ferociously punched Jackie the Jackal all over the place with a ferocious and relentless assault of punches that were so powerful and so devastating that they caused the whole arena to exploded into powder. When it was done we saw that Jackie the Jackal was defeated and the talisman that he was wearing was destroyed. Jackie reverted back and Nico grabbed him and picked him up.

Nico: Jackie Oakes, you have failed this city!

Me: He has failed the entirety of the worlds of wrestling. John, it was so awesome teaming up with you guys.

John C.: It was awesome to help you guys as well.

We shook hands with them and we all were declared the champions of Wrestling.

Jackie Oakes was sentenced to 20 life sentences in the Titan Prison without the possibility of parole.

---

Back at the estate we were resting. We had an autographed specially made poster of us with our favorite wrestling heroes. Nico also caught a Chimecho and an Absol.

In the Training Grounds, Lily was practicing her lightsaber moves against a Robo-Plankton we have built for training purposes.

Robo-Plankton: You have interfered with my plans for the last time you stupid brat! I will now destroy you!

Lily: Bring it on you malignant shrimp!

Robo-Plankton fired ion blasts at Lily and she deflected all the blasts back at the Robo-Plankton and they hit him and exploded. She was demonstrating an awesome display against him. We not only restored the honor of all of Wrestling, but we also brought down a bad wrestling wannabe.

THE END

---

Another Fanfiction Complete.

Jackie the Jackal was the most ruthless wrestler in all of the Kim Possible Universe. I wanted to make this a combination between a fight like we always do and guest appearances and a team-up with the most famous wrestlers in all of the WWE. I also wanted to add Juniper Lee from The Life and Times of Juniper Lee to the mix. NicoChan gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

Life and Times of Juniper Lee belongs to Judd Winick and Cartoon Network.

# Venusian Race

It starts in the city of Dayton, Ohio. Me, Nico, Maria, Lori, Dr. Strange, Shockwave and May were heading to the Kramer house. Me, Nico, Maria, Lori, and May were riding our elemental Rapidash, Shockwave was in his Mazda RX-8 form and Dr. Strange was flying. The reason we're heading there is because Slappy, the living dummy had lots of victims and he terrorized more than just Nico.

Me: So you aren't the only one that was affected by Slappy, Nico?

Nico: No I wasn't. I've read the Goosebumps books and Watched the movies and they were enough to scare me bad. But I'm not the only one that Slappy traumatized with fear.

Lori: Slappy was literally a nightmare brought to life.

Maria: I think we should consider that the real Slappy is still out there.

Dr. Strange: You don't have to worry about that. Before I met all of you, I managed to seal Slappy's real spirit into the Dark Dimension for all eternity.

Me: Well that's a relief Stephen. The last thing we want is for Slappy to return.

Shockwave: If there are any other Goosebumps monsters out there, we need to find them if they attack.

Me: Yeah. We'll call ourselves the Goosebumps Monster Exterminators.

We arrived at the Kramer house.

Me: Here we are guys.

We went in and we were talking to Amy, Sara and Jed Kramer.

Amy: So we aren't the only ones affected by Slappy?

Nico: No you aren't Amy. I was petrified with fear when I saw him and he was horrifying.

Me: But you all don't have to worry about him anymore. He's gone for good.

Dr. Strange: Yeah. I sealed him into the Dark Dimension for all eternity.

Amy Kramer: So Slappy's gone forever?

Nico: Yep. Me and Lori were the ones that killed him.

Me: I'm so sorry for all the pain and suffering he caused you.

Amy had her good dummy Dennis with her.

Dennis: FYI, I helped to save Amy and the family from Slappy. Poor Jed was supposed to be dressed up like me. But he slept on the job.

Me: That's silly. But I'm glad you helped Dennis.

Lori: Slappy was literally a monster and a nightmare brought to life.

Shockwave: Yeah. I would call him the Devil in Puppet Form.

Amy then broke down crying.

Nico: (hugs Amy as she cries into his chest) That's it, Amy. Let it out.

Amy was crying hard and she was severely traumatized from the experience with Slappy. She was permanently scarred from the nightmare she and her siblings had to endure. She was wailing loudly and it was enough to make our hearts hurt. When we came and told them about Slappy being dead, it was like a huge weight was lifted and a huge nightmare was finally over. But nothing will heal the wounds that Slappy had inflicted.

---

Later we were watching TV and playing card games. Maria and

Horsea were playing with Carol's kids who now look like they are 4 years old. They got this way because of their powers. Carla was being tickled by Maria and Horsea was playing catch with Evelyn and Pearl.

Luna: Boy that is awful dudes. I can't believe that Slappy was that bad.

Laney: Yeah. He's a prominent example of Level 23 on the scale of evil.

Me: Yeah. He was a monster of pure unrestrained and unrelenting evil. He destroyed so many lives both physically and psychologically.

Lucy: I may enjoy the darkness, but what Slappy did makes even the darkness quiver in fear.

Then the doorbell rang.

Me: I'll get that.

I went to the door and answered it. It was Bobbie Fletcher.

Bobbie: Hey J.D.

Me: Hey Bobbie. What's up?

Bobbie: I came to tell you guys that there's a new race going on. It's on the planet Venus.

I gasped.

Me: The planet Venus!? That's crazy! The temperature on the surface is at 900˚ Fahrenheit and it rains sulfuric acid.

Bobbie: Don't worry J.D. We built special racers for you all that can withstand the hostile environment of the planet and the inhospitable conditions.

Me: Wow. You guys really thought ahead. All right. We'll be there.

Bobbie: Great! It's gonna be both a land and air race. See you all there.

Me: All right.

I went to tell everyone.

Lana: So Bobbie Fletcher was here?

Me: She sure was Lana. We have another race going on. It's on the planet Venus.

Everyone gasped.

Me: I was shocked myself when I found out that we were going to be racing on such an inhospitable world. But they already thought ahead and made racers for us that can withstand the extremely harsh environment of Venus.

Laney: That's amazing!

Leni: Hey guys I made awesome race uniforms for us.

Leni showed us our new racing uniforms. Lincoln was wearing an awesome orange uniform like the ones NASCAR has and his was orange and black with lightning on it.

Me: Wow! Lincoln you look awesome in that uniform.

Lincoln: Thanks J.D. Leni made it.

Leni: He is totes amazing in it. I made Racing Uniforms for all of us.

Me: Ooh. Lets go put them on.

We did so and I looked amazing. I had a red, orange and yellow uniform on and there was fire on the legs and the back and phoenix wings were on the back as well.

Me: Wow! Leni this uniform is awesome!

Leni: Thanks J.D. Fire is totes trending on you.

Me: I like it Leni. Thank you.

We all had awesome Racing Uniforms on that were our respected colors and they had our elemental powers on them and our numbers were on them.

Lori: Leni you've literally outdone yourself.

Luna: Yeah these uniforms are rockin' dude!

Sam S.L.: They sure are.

William came in and with him in his arms was an Eevee.

William: Hey guys.

Me: Hey William.

Nico: Cute Eevee.

William: Thanks Nico. I found him lost on the street and decided to have him be my Pokemon.

Me: That's great man.

William: You guys look great in racing uniforms.

Me: Thanks man. Leni made them and we have another race.

Luan: But this time it's on the planet Venus.

Me: I know this is crazy, but they've already taken the necessary precautions to have us race in such an inhospitable environment.

William: Well as long as we're prepared.

Thundercracker: Can we join in too?

Me: Sure. It's gonna be both a Land and Air race.

Thrust, Dirge, Ramjet, Skywarp, and Thundercracker were gonna participate as well.

Cliffjumper: Can we join in too?

Me: Sure Cliffjumper. The more the merrier.

Gears, Huffer, Brawn, Windcharger, Bumblebee, and Cliffjumper joined in too.

Me: Lets go guys. It's race time!

Everyone cheered and we were off to the planet Venus.

---

On the planet Venus 24 million miles away from Earth, we were in our special racers and I was looking over the route of the race we had to take. It was a race around the entire planet of Venus. We had to go around the planet 7 times in a race that covers the entire surface of the planet.

Me: Wow! This is gonna be an amazing race!

Will: I don't even have my driver's license and I'm already racing!

Me: It's a first for many people Will.

Will's racer was a green and pink roadster with lightning on the sides and back and the number 74 on the side. It was called Will's Eternal Lightning Speeder.

The Guardians each had a racer.

Irma's racer was Green and Blue and it had the number 73 on it and water and an ocean wave was on the sides and back. It was called Irma's Everlasting Megatsunami Surfer.

Taranee's racer was Green, Red, Orange and Yellow and it had the number 72 on it and flames and a phoenix were on the sides. It was called Taranee's Flying Flame.

Cornelia's racer was Green and Brown and it had the number 71 on it and it had vines, rocks and crystals and a dragon of earth on the sides and the back. It was called Cornelia's Earthshaking Speeder.

Hay Lin's racer was green and sky blue and it had the number 70 on it and it had clouds, the sun and the Aurora Borealis on the sides and the back. It was called Hay Lin's Hurricane Flyer.

Megan: Cornelia, good luck out there.

Cornelia: Thanks Megan. I've never participated in a race like this before.

Megan: It's a first for you guys. I'll be rooting for you.

Cornelia: Thanks Megan.

Bumblebee: Hey J.D. aren't we gonna get burned out there when we race? This planet is extremely inhospitable after all.

Me: I've already taken that precaution Bumblebee. I used my magic to make you guys impervious to the 900˚ heat and to the sulfuric acid that rains down on the planet.

Bumblebee: Good thinking J.D.

But then we saw a new racer drive in. He was driving a black race car with the number 100 on it and he had a malevolent grin on his face.

Me: Oh shit! That's Dirty Piston Joe!

Lincoln: Who is he?

Me: Only the deadliest racer in all of racing. He killed 40 people on the track but was never caught for it. He's also the meanest cheater that ever lived. Rumors have been flying around that he too uses terrorists to kill racers. He's also the younger brother of Piston Pietro, who we arrested after the Iceland Race.

Joe: (Italian Accent) That's-a right! And now I'm-a going to get-a revenge on you for throwing-a my brother in prison!

Me: We'll see about that Joe. Only a coward resorts to cheating.

We got into our racers and the race was ready to begin.

Billy N.: And welcome to another one of the biggest days in racing history! Hello, I'm Billy Natson and we have quite a magnificent treat for you all today. We're on the planet Venus, 24 million miles away from Earth. This world is incredibly inhospitable with 900˚ temperatures and sulfuric acid rain and a treacherous volcanic landscape. Never before have we ever done a race on a planet widely known all over the world for its beautiful appearance, but evil nature. We have the famous racers of the legendary Team Loud Phoenix Storm with us and we have some new racers participating with us. Wow! You ready to race J.D.?

Me: You know I am Billy! Venus may be inhospitable, but that doesn't mean that we can burn rubber on the 2nd planet from the Sun! Whoo!

Billy N.: I love that racing spirit J.D.!

We revved up our engines.

Krysta: Are you ready?

We revved them up more.

Joe: You all are-a gonna have funerals in Hell.

Me: Shut the fuck up Joe. If anyone deserves a funeral in Hell it's you.

We were right in each others faces and we growled ferociously.

Krysta: On your marks! Get set!

The door that led to the planet opened and Krysta waved the green flag.

Krysta: REV UP AND GOOOO!

We put the pedal to the metal and gunned it!

Billy: AND THEY'RE OFF!

The Race around Venus was on! We were racing over Ishtar Terra, and we saw some of the most amazing rock formations and the most unusual volcanoes on any planet known to the Solar System. We were racing at 10,000 miles per hour.

Me: Wow! Venus has a breathtaking landscape.

Lori: It literally does.

Lisa: And look at the mountain we're passing by.

We were driving by Maxwell Montes, the 2nd highest mountain in the Solar System.

Me: Wow! That's Maxwell Montes!

Lola: Unbelievable!

Lana: That is one enormous mountain!

Located on Ishtar Terra, the more northern of the planet's two major highlands, Maxwell Montes is 11 kilometers (36,000 ft) high. It rises about 6.4 kilometers above and to the east (21,000 ft above, and 4 miles to the east) of Lakshmi Planum, and is about 853 kilometers (530 mi) long by 700 kilometers (435 mi) wide. The western slopes are very steep, whereas the eastern slopes descend gradually into Fortuna Tessera. Due to its elevation it is the coolest (about 380 °C or 716 °F) and least pressurized (about 45 bar or 44 atm) location on the surface of Venus.

Thundercracker: I've never seen a mountain this tall before.

Nicole: It's the 2nd highest mountain in the Solar System. It's the highest point on the planet Venus.

Laney: It's a magnificent mountain.

Me: It sure is.

Nico: How many Volcanoes are on the planet Venus?

Me: Venus has over 1,600 major volcanoes and they believe that Venus has over 1,000,000 volcanic features.

Everyone: WOW!

Lori: Venus is literally volcanically active!

Luna: How come Venus has more volcanoes than on Earth?

Me: Venus has a crust that acts in consistency like play-doh compared to the toffee-like crust we have on Earth. Plus because of the 900˚ temperatures it takes much longer for lava to cool on Venus than on Earth.

In Bereghinya Planitia we came across a violent electrical storm. The lightning on Venus was striking all over the clouds.

Me: Wow!

Lincoln: Look at the lightning in the clouds. It's striking only in the clouds.

Will: How is it doing that and not striking the ground?

Me: Venusian Lightning acts much differently than on Earth. The atmosphere here on Venus is 90 times denser than on Earth. Because the atmosphere here on Venus is so thick, there's too much resistance in the thick air on Venus for lightning to travel to the ground.

We then had rain made of sulfuric acid hit us. But the cars were not affected or were being damaged.

Lola: This rain is acid.

Lisa: That's correct. This rain is composed of sulfuric acid.

Lynn: How come Venus has sulfuric acid for rain instead of water?

Me: The reason is because of Venus's atmospheric composition. The clouds of Venus are made mostly of Carbon Dioxide. 96.5% Carbon Dioxide to be precise. And it's also the reason why Venus is so hot all the time. The 900˚ heat is the result of Venus's atmosphere. The atmosphere traps the energy from the Sun and it prevents the Sun's energy from escaping.

Luan: That is a Hot development. (Laughs) Get it? But seriously, that is intense!

Me: That's a good joke Luan. But yes it is.

We then passed by Gula Mons and Sif Mons. Two of Venus's Major Volcanoes.

Gula Mons is a volcano in western Eistla Regio on Venus; it is 3 kilometers (1.9 mi) high and located at approximately 22 degrees north latitude, 359 degrees east longitude.

Its main feature is a NE-SW-oriented rift-like fracture set connecting two summit calderas. There is also a structure which links the northern caldera and ridge system to Idem Kuva corona located NW of Gula Mons. Radially spreading lava flows which have digitate and broad sheet-like forms extend from the summit, including radar-dark flows which overlay several older lava deposits. Radial and circumferential fractures are present on the flanks.

Sif Mons is a shield volcano in Eistla Regio on Venus. It has a diameter of 300 kilometers (190 mi) and a height of 2.0 kilometers (1.2 mi). It is named after the Norse goddess Sif.

Cornelia: How long does Venus take to orbit around the Sun?

Me: It takes 224 days to orbit the Sun. But a Venusian day to rotate lasts longer than that. It takes Venus 243 days to make a single rotation on its axis.

Lincoln: That's a long time!

Me: I know. Venus also has a retrograde rotation. That means that it spins in the opposite direction. Instead of the Sun rising in the east and setting in the west, it rises in the west and sets in the east.

Lily: That is a very unusual feature on the planet Venus.

We then arrived in Atla Regio and we saw the 2 largest Shield Volcanoes on the planet Venus: Maat Mons and Sapas Mons.

Maat Mons is a massive shield volcano. It is the second-highest mountain, and the highest volcano, on the planet Venus. It rises 8 kilometres (5.0 mi) above the mean planetary radius at 0.5°N 194.6°E, and nearly 5 km above the surrounding plains. It is named after the Egyptian goddess of truth and justice, Ma'at.

Maat Mons has a large summit caldera, 28×31 km in size. Within the large caldera there are at least five smaller collapse craters, up to 10 km in diameter.

A chain of small craters 3-5 km in diameter extends some 40 km along the southeast flank of the volcano, but rather than indicating a large fissure eruption, they seem to also be formed by collapse: full resolution imagery from the Magellan probe reveals no evidence of lava flows from these craters.

At least two large scale structural collapse events seem to have occurred in the past on Maat Mons.

Radar sounding by the Magellan probe revealed evidence for comparatively recent volcanic activity at Maat Mons, in the form of ash flows near the summit and on the northern flank.

Intriguingly for planetary geologists, atmospheric studies carried out by the Pioneer Venus probes in the early 1980s revealed a considerable variation in the concentrations of sulfur dioxide (SO2) and methane (CH4) in Venus' middle and upper atmosphere. One possible explanation for this was the injection of volcanic gases into the atmosphere by plinian eruptions at Maat Mons.

More recent studies have suggested that the volcano structure, distribution of lava flows, pit craters, summit morphology, and other small-scale features are indicative of recent volcanic activity on Maat Mons.

Although many lines of evidence suggest that Venus is likely to be volcanically active, present-day eruptions at Maat Mons have not been confirmed.

Sapas Mons is a large volcano located in the Atla Regio region of Venus.

Sapas Mons is named after the Canaanite sun goddess. It measures about 400 kilometers (250 mi) across and 1.5 kilometers (0.93 mi) high. Its flanks show numerous overlapping lava flows. The dark flows on the lower right of the radar image are thought to be smoother than the brighter ones near the central part of the volcano. Many of the flows appear to have been erupted along the flanks of the volcano rather than from the double summit. This type of flank eruption is common on large volcanoes on Earth, such as the Hawaiian volcanoes. The summit area has two flat-topped mesas, whose smooth tops give a relatively dark appearance in the radar image. Also seen near the summit are groups of pits, some as large as one kilometer (0.6 mile) across. These are thought to have formed when underground chambers of magma were drained through other subsurface tubes and lead to a collapse at the surface. A 20-kilometer-diameter (12 mi) impact crater northeast of the volcano is partially buried by the lava flows. Little was known about Atla Regio prior to the Magellan probe. The new data, acquired in February 1991, show the region to be composed of at least five large volcanoes such as Sapas Mons, which are commonly linked by complex systems of fractures or rift zones. If comparable to similar features on Earth, Atla Regio probably formed when large volumes of molten rock upwelled from areas within the interior of Venus known as 'hot spots.'

Later we were over in Alpha Regio on the planet Venus's Southern Hemisphere. I was miles ahead of the others and I was in a crater commonly called The Tick. It was called that because on the computer enhanced images of Venus's surface it looked like a tick bug. I saw something in the crater and it looked like a strange crystal. I drove up to it and got out of my car. I saw that it was a strange crystal cluster. It was a beautiful glowing red crystal cluster and it was a beautiful crystal.

Me: This crystal is beautiful.

I dug it out and took it with me. It was a beautiful crystal.

Me: I don't think I've ever seen a crystal like this before. And all the way out here on the planet Venus.

I got back in my car and got back in the race.

We later got down to the edge of the South Pole and we saw the most amazing feature of all on the planet Venus. We saw two massive tornadoes on the ground over Venus's south pole. It was a massive marvel.

Me: Wow! Look at that!

Laney: Two tornadoes on the planet Venus? How can that be?

Me: They discovered in 2006 that Venus has two massive tornado-like vortexes on the south pole of the planet. They circle the planet and come back together every 2 days. The satellites showed that it looked like a massive twin hurricane on the planet over the south pole. It was really freaky.

Varie: It sure looked like it from what I saw.

Lincoln: I see the finish line!

Me: It's on now!

We gunned it.

Joe: It's time for you all to die!

Joe pressed a red button and out came a lot of missile and laser guns.

Nico: Oh no you don't!

Nico pressed a red button as well and Nico fired a missile at Vinny's car and it hit him and exploded. Destroying his car.

KRABBOOOOOMMM!

Nico: Dirty Piston Joe, you have failed this race!

Joe: I'm not finished yet! (Pulls out a radio) KILL ALL THE RACERS!

Then an enormous dust cloud was seen in the northeast and we saw that a huge armada of assassin racers was heading straight for us.

Fu: J.D. you got bad company heading your way from the northeast! Terrorist racers are coming!

Me: I see them Fu. Carol, Vince, blast them to death!

Vince: Roger that partner!

Vince and Carol fired King Ghidorah's Gravity Lightning at the terrorist racers and blew them all to pieces and killed every single one of them. But some survived the explosions and the Venusian atmosphere caused them to burst into flames and they were incinerated in an instant.

Carol: That takes care of those clods.

Me: Those rumors are now confirmed.

Megan: You can do it, Cornelia!

Billy N.: And here comes the first racers to cross the finish line! It's Luan and Eddy!

After the rest of us crossed the finish line we saw that Luan and Eddy both crossed the Finish Line at exactly the same time and we cheered wildly for them.

* * *

We were at a space dome in space that served as the winners circle.

Me: Way to go Luan and Eddy!

Nico: You guys were awesome!

Luan: Thanks guys.

Luan and Eddy got the trophy. It was a gold trophy in the shape of the planet Venus and it had a car racing around it made of swarovski crystal. It was a beautiful trophy.

Joe came back and he was enraged.

Joe: It's not fair! I should've won this race! I should've won this race! Now I'm going to kill all of you!

Joe threw a punch at me and I ducked under it and punched him in the face.

POW!

I knocked out some of his teeth and knocked him out.

Me: You will never learn Joe. Cheaters never prosper.

Joe was arrested.

Nico: Serves that fucker right.

Me: I think a nice long stay in the Uranus Prison with his brother for the rest of his miserable life is what he needs.

?: (Spanish Accent) Ah but you all won that race beautifully.

We turned and we saw an Anti-Fairy version Wanda's Ex-Boyfriend, Juandissimo Magnifico: ANTI-JUANDISSIMO MAGNIFICO! He looked a lot like Juandissimo Magnifico. But with black bat wings, a black crown, red eyes and fangs and a devil beard. Anti Juandissimo is a very deep anti fairy. He's very philosophical, bright, and handsome, yet he doesn't care about his looks the way Juandissimo, his fairy counterpart, does. He is super influential and brave. He never hesitates to get himself dirty for the good of others. He is very charitable and likes to volunteer, but never to the extreme of Timmy's obsessive friend, Chloe. He is very noble, and he does what's right, but at the same time loves to do things for himself as well, since he is pretty important.

Anti Juandissimo doesn't like the things Juandissimo likes.

He is very kind and forgiving, unlike Juandissimo.

He has muscles too, because he does a lot of kung fu.

He isn't very strong, but makes up for it with smarts.

He hates mirrors and only likes to break them.

Wanda: Oh no! It's Anti-Juandissimo.

Trixie: This guy looks like he's really bad news.

Emerald: Oh he is very bad news.

Stellar: He is really bad news guys.

William: Me and Eevee will take care of this creep!

Wanda: Be careful William. He may not be strong, but he is very smart.

Me: So instead of being strong, he's very smart.

Wanda: That's right. And he does a lot of Kung Fu.

Me: So he's a skilled fighter. This is going to be quite a challenge.

Stellar: Yep.

William and Anti-Juandissimo went at each other and they engaged in a powerful and brutal Kung Fu fight. But William was being severely overpowered. Anti-Juandissimo then hit his Eevee with his magic and his Eevee got a surprise ability. It got the ability to transform into any of its evolutionary forms at will. It turned into Flareon and fired a powerful blast of fire at Anti-Juandissimo and burned him and I swooped in and slashed him with my Anti-Fairy killing claw and killed him in an instant. Anti-Juandissimo was dead.

We got William to the infirmary and Sora used a potion on him to heal him. But William had a nasty broken leg and he was gonna be in a wheelchair for a while.

Francis: (To the Viewers) Boy this was quite a race. I hope you all enjoyed it.

Me: I know I did Francis.

Dirty Piston Joe now shares a cell in the Uranus Prison with his brother Piston Pietro. Sentenced to 40 life sentences without parole.

THE END

---

Another Fanfiction Complete

The Planet Venus is a beautiful planet but it is a dangerous and completely inhospitable world. I was born a Libra and Venus is Libra's ruling planet. NicoChan11 gave me the ideas for this one. Thanks man as usual. I also did this chapter to show some excitement for everyone and provide an educational experience for everyone on Venus. Let me know what you all think. Next race is tomorrow and it's gonna be in Italy.

See you all next time.

# Italian Racing Frenzy

It starts over in Rome, Italy. It was time for the start of the race around Rome. For centuries, Rome has had a tremendous amount of history around it that dates back to 5,000 years ago.

Confetti falls from the air as tons of people were in the stands, cheering for the race that was happening today in Rome. Broadcast cameras were also being put up.

*Rita, Lynn Sr. and the significant others were in the stands.*

Skippy: *excited* I can't wait for this race!

Silas: *small smile* Agreed. It's bound to be wicked.

Rocky: This is gonna be so awesome! I hope Lucy wins.

Silas: Me too. Right Haiku?

Haiku: I hope so too.

On the track, we were getting ready.

Me: This is gonna be so awesome!

Laney: I love the city of Rome. It's loaded with so much history.

Me: We were here on our worldwide vacation and it was awesome!

Nicole: It sure was. Good luck dad.

Me: Thanks Nicole.

Nico: I'm sorry Maria couldn't be with us today.

Me: She has to take care of William. He's gonna be out of commission for a while. His leg has to heal.

Nico: Yeah.

Lisa: He has to rest his leg while he recuperates.

Varie: Yeah.

Bloom: Thanks for letting us participate in this race.

Me: No problem Bloom.

Bloom's racer was a blue and yellow car with fire and a dragon made of pure fire on the sides and front and back. The number 88 was on the side. Bloom's car was called Bloom's Flaming Dragonfire Rider.

Flora's racer was a Green and Pink car with flowers and butterflies on the sides, front and back. The number 89 was on the side. Flora's car was called Flora's Beautiful Flower Flyer.

Musa's racer was a purple and red car with music notes on the sides, back and front. The number 90 on the side and the car was called Musa's Musical Call.

Layla's racer was an ocean blue and sky blue car with ocean waves and water on the sides, front and back. The number 91 was on the side and the car was called Layla's Oceanic Surfstorm.

Tecna's racer was a green and purple car with equations, electronic gadgets and the binary code on the sides, front and back. The number 101 was on the side and the car was called Tecna's Technological Matrixstorm.

Stella's racer was a yellow and orange car with beams of light and suns on the sides, front and back. The number 92 was on the side and the car was called Stella's Prismlight Rider.

Roxy's car was a sea foam green and yellow car with animal pawprints and footprints on the sides, front and back. The number 93 was on the side and the car was called Roxy's Animal Kingdom Roadshredder.

Tecna: This is gonna be an awesome race. The chances of us having fun in this race are 100%.

Me: You got that right Tecna.

But then we got an awful surprise at who came driving up.

Lynn: *shocked* Oh. My. God!

Lincoln: What is it, Lynn?

*Lynn points to the racer. We all notice the racer that Lynn was looking at, and our jaws drop in shock.*

*There was Booster Julian, one of the most treacherous and most diabolical racers in history, looking all confident and smug.*

Lincoln: *shocked* It's really him…

Lynn: *shocked* Yeah… Booster Julian…

Luan: *shocked* Woah…

Me: Booster Julian. What a very unpleasant surprise.

Lincoln: *in his head* He's so going down!

Julian: (Italian Accent) Well well. How nice-a for Team Loud Phoenix Storm to arrive for me-a to kill! (Laughs maniacally)

Me: I'm gonna make you eat those words you fuckmouth.

*Later, we all gathered to the starting line.*

Billy: Howza-yowza! That's Italian, folks! Here we go now! Let's give a big welcome to all our racers!

*The crowd cheers.*

Julian: *smirks* Hah! We all know who the winner will be today, me! Booster Julian!

Me: In your dreams Julian.

Lynn; *next to him, smirks* Oh, yeah? That's gonna change when you race against all of us!

Julian: *smugly* Hah! Do any of you losers think you can win? *points mockingly at the Daily Drivers* With those little toys? Hah!

Sisters: *angry* HEY!

Lincoln: *smirks, thumbs-up* You asked for it! *looks at his sisters* Come on, girls! Let's show him!

Me: Guys don't let him get to you all. He's trying to get you riled up.

*Lincoln presses a button on the dashboard of his Daily Driver.*

Singers: Roadster racers, goooooo!

*Lincoln's Daily Driver transforms into his roadster. It revs up loudly.*

*One by one, all of our Daily Drivers transform into our roadsters.*

Singers: Roadster racers, goooooo!

*The crowd cheers loudly as Julian gets shocked.*

Pietro: *shocked* Wha-?! Huh?!

Lincoln: Face it, Pietro! You may as well give up already! It'll save you the embarrassment!

Me: Yeah and send you back to the amateur leagues you freak!

*The sisters laugh tauntingly at Pietro, who's still shocked.*

Eddy: Hey, Julian. Before we start, I have one thing to say.

Julian: And that is?

Eddy: Hick says what?

BURN!

Me: Sick burn Eddy.

Tecna (to Julian): You have a 29% chance of crossing the finish line first.

*A woman, known as Grace, held up a green flag.*

Grace: Roadster Racers, on your mark!

*The roadsters rev up loudly.*

Grace: Get set!

*The rear tires begin to spin, kicking up smoke as they screeched while getting traction from the pavement.*

Grace: *waves the green flag* Rev up and GOOOOOOO!

*The crowd cheers as the racers punched the throttle, kicking up a cloud of smoke as they tore off from the starting line.*

Billy: AND THERE THEY GO, FANS!

*Julian passes the siblings, only for Lincoln to pass him.*

Lincoln: Eat my dust!

*Julian is not fazed by this.*

Julian: *waves his hand out* Out of my way!

*Julian passes Lincoln and Lynn, who were the closest to him. He almost causes them to swerve off the track.*

Lincoln: Woah!

Lynn: Watch it!

Sideswipe (Julian bumps him): Hey! Watch it, asshole!

*The two siblings soon regain control, and Lincoln glares at Julian angrily.*

Lincoln: *growls* Julian is soooo going down! *speeds up*

Julian: *looks behind him* Heh-heh, this is gonna be good.

*Julian presses a button on the dashboard of his roadster.*

Julian: *looks behind him* Bon appetite!

*Julian's roadster starts making makes pizza behind it, then it starts shooting at the siblings.*

Me: Pizza? Oh boy.

Billy: It looks like Pietro is making one of his classic moves. That's right, he's cheating! It's the old pizza pie flip 'n' fly, and boy, is it flying!

*Everyone but me frantically avoid the pizzas that were aimed at them. One nearly hits Lincoln and Lynn causing them to spin-out.*

I grabbed the pizza and I was eating it.

Me: (Munch) Mmm! Delicious pizza! But you aren't the only one who likes to fight dirty!

I fired a laser at the back of his car and it hit it and exploded.

KRABOOOMM!

Lincoln, Lynn: *trying to regain control* Woah!

Lana, Lola: *panicking* LOOK OUT! *swerve out of the way as a pizza zooms between them*

Leni: *wide-eyed* EEP! *ducks under a flying pizza*

*Lincoln was now furious.*

*Then, a pizza slams into Luan's roadster, causing her to spin-out.*

Luan: *trying to regain control* Woah!

*She collies into Luna, Lucy, Lana, and Lisa, who all spun off the course.*

Luna, Lucy, Lana, Lisa: *trying to regain control* Woah!/Oh, no!/ Ahhh!

Billy: Oh, boy! Luan, Luna, Lucy, Lana, and Lisa have spun out of the track!

*Lincoln glared at Julian furiously.*

Lincoln: He wants to play dirty?! Fine by me!

Me: Don't worry Lincoln, I'll get everyone back on the track.

I pressed 5 buttons and fired 5 tractor beams and they grabbed Luan, Luna, Lucy, Lana and Lisa's cars and I was towing them.

Lincoln: Great job J.D.

Laney: This guy has no idea who he is messing with!

*Lincoln pushes a button on his dashboard.*

Lincoln's Roadster: *echoing voice* Broken Rage: Activated!

*Lincoln's roadster starts glowing as it roars after Julian. He looks behind him and notices Lincoln coming closer.*

Julian: *smirks* So, that's how you want to play, eh? Then it's time to give these cheesy cheeseballs the slip! With a little oil!

*Pietro presses another button, and a huge bottle of olive oil pops out of his roadster.*

Pietro: *looks behind him with a smug smirk* Olive oil that is!

Me: Olive oil!?

I pressed a button and my car turned into a jet and flew over the track as it was being slathered with oil and the other cars were with me.

*The bottle starts spilling olive oil onto the track. The siblings race onto it and start spinning out on the slippery oil.*

Siblings: *spinning out* Woaaaah!

Leni: *trying to regain control* Oh, my!

*Lincoln and Lynn managed to stay on the track, but Lori, Leni, Lola, and Lily spin out onto a different road.

Billy: And there goes Lori, Leni, Lola, and Lily right off the course!

*At the stands.*

I fired more tractor beams and they grabbed Lori, Leni, Lola and Lily's cars and they flew with me.

*The group saw everything from the jumbotron screen, and needless to say, the parents were shocked, while the significant others were angry.*

Rita: *shocked* Oh my goodness!

Ed: *angry* That bastard! He knocked our sweethearts off the track!

Skippy: *angry* Ooh! That guy is so dead when I get my hands on him!

Winston: *angry* Indeed!

Bobby: *angry* He's gonna pay for doing that to my babe!

Rocky: *angrily through gritted teeth* That miserable wretch…

Dexter: *angry* Absolutely unacceptable!

Lightning: *sees Lynn still on the track* Don't worry, guys! Lynn's still in this!

Ronnie Anne: *sees Lincoln still on the track* Yeah, and so is Lincoln! *cheers* Come on, Lincoln! You can do it!

Lightning: *cheers* Show that loser how you roll, sweetie! SHA-BLAM!

*Lincoln and Lynn were the only ones left. Their roadsters roared after Pietro.*

*Lincoln was getting even angrier, and Lynn noticed.*

Lynn: *surprised, in her head* Whoa, Lincoln's taking this very seriously!

*Lincoln furiously pushes another button.*

Lincoln's Roadster: *echoing voice* MASTERED RAGE: ACTIVATED!

Lynn: *shocked* Oh, shoot…

*Lincoln's Roadster speeds in front of Pietro VERY FAST, much to Julian's shock.*

Julian: *shocked* What in the?!

*It now shows a zoomed out scene where Lincoln, Lynn, and Pietro race off across a bridge.*

Billy: Looks like were down to just J.D, Nico, athlete, the bookworm and the cyborg.

*Meanwhile, Lincoln was way in front of Julian, and deactivated his Roadster's Mastered Rage.*

Lincoln: *smirks* Hah, that'll teach him!

*Unfortunately, Julian speeds in front of Lincoln with a turbo boost.*

Lincoln: *surprised* Huh?! What the?!

Julian: *laughs triumphantly* Booster Julian will never be beaten! Ha-Ha! *races away*

Lincoln: *angry* Dang it!

*Since Lincoln used his Roadster's Mastered Rage, it would take a VERY long time for the mode to recharge before he can use it again.*

*Lynn catches up to Lincoln.*

Lynn: What the heck happened, bro?

Lincoln: That jerk of a racing star got in front of me again! And I can't used my Roadster's Mastered Rage again for a long time!

Laney: That's not good!

Lynn: That stinks, bro! We better catch up to that punk!

Lincoln: *angry* I KNOW!

Me: If he wants to fight dirty, then we can fight dirty as well!

Nico: Lets get him!

Bloom: This guy picked the wrong people to mess with.

*We continue going after Julian.*

*While doing so, we race by the Fountain of Neptune.*

Lincoln: *amazed by it* Wow! The Fountain of Neptune!

Lynn: *amazed by it* Yeah! It looks so cool! *sees Booster Julian up ahead* There's the punk! *closes in on him* Move over!

Julian: *smirks at Lynn* Ha! *swerves into her way harshly, causing her to move out of control towards the fountain*

Lynn: *trying to regain control* Ahhh!

Lincoln: *shocked* Lynn! Look out!

Lynn: *flies into the Fountain of Neptune* Woah! *makes a big splash as water from one of the fountain's statues poured onto her*

Lincoln: *stops next to her, concerned* Lynn, are you okay?!

Lynn: *now wet and irritated* I'm fine, bro…

Lincoln: *glares at Julian* I'm really starting to hate this guy!

Julian: *calls behind him smugly as he races away* Face it, madam! You're all washed up! Ha-ha-ha!

Me: Shut the fuck up!

Lynn: *growls* Oh, yeah?! *pulls back on the gear stick, then races out of the Fountain of Neptune with Lincoln following behind*

*Julian is seen racing down the track as Lincoln and Lynn drift on a sharp turn behind him.*

Lynn: There he is! *We race race after Pietro*

*Julian looks in the left wing mirror and sees Lincoln and Lynn still behind him, much to his shock.*

Julian: *shocked* What?! *looks behind him with narrowed eyes* Those pests are still on my tail?!

Me: And we're gonna make sure you don't win cheater!

Julian: *faces forward with a smirk* Not for long! I'm gonna give them a tour of the Colosseum! *laughs arrogantly as he races away faster, with Lincoln, Laney and Lynn racing after him*

*Soon, the three of them were zooming over to the Colosseum.*

Billy: Check it out, roadster fans! We found some roadster racers! And they're now about to head past the Roman Colosseum!

Julian: *smirks* Now, to get these fools off my tail!

*Julian whistles innocently as he drops a banana onto the track, and Lincoln notices it too late.*

Lincoln: *shocked* Oh, no!

Me: The old banana slip gag! That is really old.

I pressed a button and fired a laser and it obliterated the banana peel.

Lincoln: *whooping* WOO-HOO! YEAH!

*As Lincoln soared through the air, he was amazed at the view from his height.*

Lincoln: *amazed* Woah! The view is amazing up here! But enough sights for now, *smirks* I got a race to win!

*Julian roars down the track, closing in on the finish line.*

Billy: There it is, roadster fans! Booster Julian, about to win again!

Julian: *arrogantly* Ha-ha! To the finish line, and to victory!

Me: Not for long to you fuckass!

I fired a missile at his car and it hit his car and it exploded!

KRABBBOOOOOOOOOOOOMMMM!

The explosion blew Julian's car into the air and it broke apart into a thousand pieces. Julian was out of the race!

Lynn: *off-screen* Coming through!

Billy: Woah, what a move! J.D, Nico, Laney, and Lynn are all in first place and holding strong! *Cuts to where Lincoln is seen catching up quickly* But maybe not strong enough, cause here comes Lincoln!

*Lincoln zooms past us.*

Billy: Lincoln has taken the lead!

*Lincoln and Laney zoomed ahead of us, leaving Julian on the ground seething in extreme fury.*

*Me, Nico, Lincoln, Laney and Lynn look back and we stick out their tongues at Pietro just as they cross the finish line. Lincoln and Laney got first, and Lynn got second.*

Julian: (ENRAGED SCREAMING!) I HATE YOU ALL!

Our auras flared up.

Nico: Booster Julian you have failed this race!

*The other nine siblings, who managed to find their way to the track again, pass him and cross the finish line.*

*Lily got third.*

*Luna got fourth.*

*Lucy got fifth.*

*Luan got sixth.*

*Lana and Lola tied for seventh.*

*Lori got eighth.*

*Leni got ninth.*

*Lisa got tenth.*

*Julian… was dead last.*

Billy: And there you have it, roadster fans! Lincoln is the winner of the Race for the Rigatoni Ribbon!

*Lincoln stands on top his Roadster's seat and waves to the crowd.*

*The sisters stop next to Lincoln's Roadster and pick him up, praising his victory.*

Sisters: *happily* YOU DID IT, GUYS!/YOU WON!/WAY TO GO!

Me: Way to go guys!

Lincoln: *smiles* Thanks, girls!

Rita: *off-screen* Kids!

*The siblings look and see their parents and significant others running towards them.*

Lincoln: *waving* Hey, guys!

*The boys, Ronnie Anne, and Sam hug their others.*

Bobby: *concerned* Are you all okay?

Lori: *smiles* We're fine, Boo-Boo Bear.

Lily: *smiles* Yeah, that meanie, Pietro, got what he deserves.

*The significant others smirk at Pietro, who was throwing an angry tantrum.*

Sam S.L.: *smirks* Serves him right.

Dexter: *smirks* I show no remorse for him.

Eddy: *smirks* Me neither. He deserved that.

Lightning: *smirks* Lightning totally agrees. SHA-BLAM!

*Later, the siblings were standing on a small racing awards stage. Grace gives Lincoln and Laney a racing trophy with a blue ribbon on it.*

Grace: *smiles* Congratulations, Lincoln and Laney!

Lincoln: *smiles, takes the trophy* Thank you, Grace.

Laney: This was awesome!

*The crowd, parents, and significant others cheer as Julian growls in fury.*

Julian: I will kill all of you for this humiliating defeat!

Thrust (points gun at Julian): I killed one bad human before. I won't hesitate to kill another. You really want to push your luck?

Wildrider (grabs Julian by the collar): Say the word, boss, and I'll waste this punk!

Nico: Stand down Wildrider. Let Lincoln and Laney handle this. They won so they should be the ones that take him down.

Lincoln: Thanks Nico.

Wildrider let him go and Lincoln punched Julian in the face and Laney punched him in the stomach and in the crotch. Laney then kicked him in the face with devastating force and knocked him out.

Julian was arrested for his crimes.

* * *

Later, we were all back in Gotham Royal York. At the Roadster Garage, Lincoln puts the trophy in the trophy case. He smiled at it as Ronnie Anne put her arm around him.

Ronnie Anne: *smiles* Nice job, sweetie.

Lincoln: *blushes* Thanks, Ronnie.

Ronnie Anne: Even if you hadn't won the trophy, I still would have given you this reward.

*She kisses Lincoln on the lips passionately, and his faces turns completely red as he smiles.*

Lincoln: *red face, smiles* Th-Thanks, Ronnie…

*Ronnie Anne giggles.*

Me: That was an awesome race guys. You all gave it your all and did well.

Lori: Thanks J.D.

William was in a wheelchair and Maria was taking care of him.

Maria: William, I remember that you took care of me when I was still healing from the Mutant Bear attack.

William (smiles): And now it's your turn to take care of me. (kisses Maria)

Horsea: Stacy, is it possible for you to use your shark parts in your human form?

Stacy: Hmm. I don't know. Let me see.

Stacy transformed her forehead into her sawshark nose and she saw that she can do that.

Stacy: I sure can.

Me: That is so cool!

Trudy: It sure is. And I discovered that I can fly with just my flying fish wings.

Me: We saw that Trudy. That's awesome.

Maria: You want some fish Stacy?

Stacy: Sure.

Stacy took the whole fish and ate the whole thing.

Maria (sees Stacy eat a whole fish in only 10 seconds): I'm impressed that you ate that fish quickly, Stacy.

Stacy (smirks at Maria with shark teeth): You were right about one thing, Maria. I guess I do sometimes give into my shark mind.

Maria: That's cool though.

Carol: Stacy, before you got gene slammed, did you have a boyfriend?

Stacy: No I never got the chance to find one.

Poliwag: Stacy, do you want to go on online dating sites to get a boyfriend?

Stacy: Relax, guys. I'll find a boyfriend on my own pace.

Me: Good idea Stacy.

Booster Julian was sentenced to 75 years in prison for his crimes and he was permanently banned from racing.

---

Out in space, an alien starship was flying by the planet Earth. It was a ship that was that of the Gordanian's. A race of interplanetary pirates that capture valuable creatures from other planets to sell on the Intergalactic Black Market. Jared, Nathaniel, Starfire and Robin were pulverizing the Gordanian's into pulp and slashing them all to pieces and blasting them and killing them.

Jared: The Gordanian's just never know when to learn.

Suddenly they heard the sounds of someone screaming with such indiscriminate fury.

They went down the hall to a prison cell hall and at the end of the hall they arrived at a cell with a reinforced door. They heard incredibly strong pounding on the door.

Jared: Whoa! Whoever is in that cell is full of incredible fury!

Nathaniel: No kidding dad.

Robin: It's sounds like a girl is in there.

Starfire: This is exactly how I busted out of a cell like this and escaped to Earth.

Jared: That is a very coincidental scenario.

Starfire: It sure is. But that scream is familiar to me.

Then the door was busted down.

Jared: Stand ready!

Jared and Nathaniel went Super Angel.

They saw in the darkness of the cell, a pair of glowing neon blue eyes. A girl with red hair and purple Tamaranian clothes and her hands were in cuffs came out and she was younger than Starfire.

?: (Speaking Tamaranian)

Starfire gasped and she knew the young Tamaranian.

Starfire: Dawnfire? Sister?

Dawnfire: (Speaking Tamaranian)

Starfire: I'm your sister Koriand'r.

Dawnfire's glow in her eyes faded and they were blue eyes with blue sclera. She recognized Starfire and went to her and Starfire hugged her.

Dawnfire: (Speaking and crying in Tamaranian)

Starfire: I'll never leave your side again little sister.

Nathaniel was instantly smitten by her and he freed her from her arm cuffs. Then she kissed him and she got the ability to speak English.

Dawnfire: How did you all find me?

Jared: We saw this ship you were on flying past Earth and I sensed something here. We killed all of the Gordanians.

We brought Dawnfire back to Earth and she was glad to have Starfire back and she decided to live on Earth from now on.

THE END

Another Fanfiction Complete.

nbwatts made the chapter for the Italy Race and it was awesome! Credit goes to you for a great chapter and thanks for letting me use it as one of my chapters. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Cataclysmic Prophecy

It starts in the living room. We were watching TV and playing card games.

Trudy: It was so awesome today. I got to pulverize terrorists trying to destroy the city.

Me: Way to go Trudy!

Stacy: I'm proud of you sis.

Maria: I'm glad you're fully healed, William.

William: Thanks Maria. Sora's cure potions and Cure Spells really worked.

Sora: Aw it was nothing.

I turned and I noticed that Static Shock was down about something.

Me: Virgil are you all right? You look sad about something.

Static: (Sighs) I'm sad because today is the anniversary of when Richie was shot.

We gasped when we heard that.

Lori: What happened?

Gear: Let me show you.

Gear lifted up his pants leg on his right leg and we saw a bullet wound scar. We gasped in horror at what we saw.

Me: (Whistles) That is a nasty one! Looks like a 25 caliber pistol wound.

Laney: No kidding.

Lisa: That is exactly what it is 2nd elder brother.

Nico: How and who did this to you Richie?

Gear: It was because of a kid named Nick Connor. He was bullying a friend of ours named Jimmy Osgood.

We growled in fury.

Me: That makes me sick! Virgil how did this happen?

Static was still down about it.

Me: You don't have to tell us right away. You can tell us when you're ready.

Static: No, no. You all have a right to know. Okay here goes.

Static told us that Jimmy Osgood was a bright kid that was being tormented and tortured by a bullying kid named Nick Connor. When Jimmy was shoved into a locker, that's what sent him over the edge. When Virgil and his dad were at Jimmy's house to help his father with car trouble, Virgil when up to Jimmy's room and he found a threatening message on his computer saying that Jimmy was going to kill Nick and his friends and end their bullying ways for good with a gun his father has. It was a 25 caliber semi-automatic handgun. Virgil went and told Jimmy's dad and his dad and showed them what he wrote. Virgil's dad Robert Hawkins is a social worker that works with kids and he advised Jimmy's dad to get Jimmy some help. But unfortunately it was too late. Virgil told them that Jimmy knew where to get a gun and Jimmy's dad kept it under lock and key in his bedroom. Jimmy took it without his father knowing. Virgil told his dad and Jimmy's dad that the kids were at the community center and Mr. Hawkins told Jimmy's dad to call the police. Virgil turned into Static Shock and went there to try and stop it. But by the time he arrived, it was already too late. Jimmy had accidentally shot Richie and was in the corner in a fetal position crying his eyes out and everyone was standing there in shock. Richie was rushed to the hospital and he was lucky that he was gonna be all right. But Nick Connor however was punished for his actions. He got 2 years of suspension and was sentenced to 1,900 hours of community service. Same with his friends. 1 year of suspension out of school and the rest of it was in-school suspension. In a way, Nick got a slap on the wrist.

We were absolutely horrified.

Me: That is just disgusting!

Nico: I can't believe that Nick would do something like that to him.

Vince: Nick has no right to call himself a trusting kid.

Me: I agree with you partner. Virgil, are Jimmy and Nick one of the Metabreed or were they exposed to any part of the biohazardous mutagen?

Static: No thank goodness.

Me: Well that's a relief. Did Jimmy get any community service at all?

Static: He got 200 hours but he now goes to the school psychologist.

Me: Well at least he's getting help there. But regardless what Nick and his cronies did doesn't excuse them of what they have done.

Nathan: I agree J.D. I know exactly what Jimmy is going through. Before I became a member of Team Loud Phoenix Storm, I was being bullied a lot. I'm sure Lynn told you about that.

Me: She sure did Nathan. It's good she stopped them. Bunch of bias-motivated shitfaces.

Nathan: Yeah. You got that right.

Mindy: I hate bullying with a vengeance. I should know because I was bullied bad.

Nico: I know sis. That sickens me.

Me: It all does. Lets head over to Dakota City guys.

Francis: Let me come with you guys when we visit Jimmy. It's time for the present bully to meet the past bully.

Me: Good idea Francis. Besides now that you're cured, everyone will accept you again. Lets roll!

We did so.

---

We arrived in Dakota City.

Maria: Boy I missed Dakota City.

Me: It sure is different than what it was the last time we were here.

We saw that Dakota City is now a much better and peaceful place.

Carmen: I missed this place though.

Liam: (Southern Accent) It sure is rough being away from home huh my Fiery Dumplin?

Carmen: Oh Liam.

Cosmo: I would love to see Dakota City crime ridden.

Me: Cosmo, you're an idiot. Wanda, in all honesty I don't know what you were thinking marrying a brainless idiot like Cosmo.

Wanda: Oh I've gotten used to it.

Me: Easy for you to say. Also I don't know what the Fairy World high council was thinking letting Cosmo be a Fairy Godparent. He's a completely brainless moron.

Cosmo was doing something really stupid. He was picking his nose with his feet and eating his boogers. COMPLETELY IDIOTIC.

Me: And look at his brain scan.

I showed her a picture of Cosmo's Brain and it showed that his skull was completely empty. No brain at all.

We arrived at Dakota City High School. We saw Jimmy working in the school as a janitor.

Jimmy O.: Hey J.D. Knudson of Team Loud Phoenix Storm!

Me: It's a pleasure to meet you Jimmy.

Static: Hey Jimmy. Its been a while.

Jimmy O.: It sure has Virgil. How have things been with you?

Static: Doing great man.

Gear: Glad to see you're doing well.

Jimmy O.: Thanks man. I'm so sorry I shot you back then.

Gear: It's all right man. I've forgiven you for that back then.

Jimmy O.: Thanks man. But Nick just won't learn. He's still bothering me.

Alexis: Don't worry, Jimmy. We'll make sure Nick gets his just desserts.

Jessie (Pokemon): And FYI, laser guns are the rage these days.

Me: Yep.

Jimmy O.: Thanks guys.

Nick Connor then arrived.

Me: Nick Connor.

Nick C.: J.D. Knudson. What brings you all here?

Me: What else? We're here to kick your butt.

Nick C.: You think I'll let you…

POW!

I punched him in the face and Francis walked up to him.

Nick Connor (tries to get up): C'mon, guys. This isn't funny!

Gear: Lots of things aren't funny! Getting me shot wasn't funny!

Static: Bullying Jimmy for God knows how long wasn't funny!

Francis grabbed him by the shirt.

Francis: And becoming a very worse bully then I ever was definitely wasn't funny!

Nick Connor: Ok. You guys are right. I'm sorry about all of that!

Maria: No, you're not! (grins sadistically) Not yet, anyway!

Me: Okay I'm noticing a completely similar situation here. Isn't this like what happened when you got shot Richie?

Gear: It is.

Nick Connor (to Francis): Look, Stone! Things have changed. I'm the top dog of this school now. You can't just walk in and pretend to own the place.

Francis: You're right. I don't own the place. But then again, neither do you!

Nico: Nick Connor, you have failed this city!

Me: And he has failed everything a human being represents.

We pulverized Nick into pulp and got him sent to prison.

---

Later at home I was monitoring Denzel Crocker's insanity. He was almost at 10,000% Fucked up. He was at 9,902%. And rising slowly.

Me: He's almost there. When he hits 10,000% Fucked up, we remove his brain and destroy his body and lock his brain into the Saturn Insane Asylum.

Wanda: But isn't taking out Mr. Crocker's brain going to kill him?

Me: Nope. His brain is going to be in a special nourishment jar that'll keep him alive.

Stellar: I hope you don't kill him J.D. Because we need his spazzes to keep the magic in Fairy World going.

Me: Say what now?

Stellar showed me through some visual aids.

Stellar: For centuries we fairies have harnessed the energy that comes from the spazzing of certain humans who believe that fairies exist.

A picture of Fairy World was on a slideshow and it showed energy flowing into a massive magic wand that serves as the power source for all of the fairies and all of Fairy World. All the energy comes from the people that believe that all fairies exist.

Stellar: When Mr. Crocker first began to spazz about fairies many years ago, his energy was so powerful that we used it to fuel the big giant wand all by itself.

Mr. Crocker releases a massive spazz that powers up the Fairy World wand alone.

Me: So Mr. Crackass has spazzing that fuels all of Fairy World and keeps the magic going?

Stardust: Pretty Ironic isn't it?

Me: A major case of irony. I've hated Mr. Crocker for as long as I can remember. Ever since I threw him into the nuthouse 4 years ago, he has constantly hated my guts while gradually continuing to lose his sanity. But I never knew that he was a power source for all of Fairy World and all its magic. What happens if Mr. Crackfuck stops believing in Fairies?

Wanda: Well this happened before you threw him into the nuthouse J.D. Mr. Crocker was cured by a psychologist and he stopped believing in Fairies. It caused Fairy World to lose all its power and it was so bad that it began to fall right out of the sky. We had to get Mr. Crocker back into spazzing or else all of Fairy World would've plunged right into Giant Bucket of Acid World.

Me: Giant Bucket of Acid World? That's crazy!

Stellar: It sure was. Jorgen realized that having Fairy World over such a place was a stupid idea. Now we won't just be relying on Mr. Crocker's spazzing. We're going to rely on all of the nutjobs in the world.

Me: Well that's a relief. Okay so sending Crocker's brain to the Saturn Insane Asylum will be a bad idea. So instead we'll calibrate it by hooking it up to it to continuously fuel the Big Wand indefinitely.

Wanda: That'll work perfectly J.D.

Stellar: That's genius!

Stardust: It just might work.

Me: Sure Mr. Crocker might be a fucked up weirdo but we need his spazzing to keep the magic going.

Wanda: What was Crocker's insanity levels at back when you stopped him the first time J.D.?

Me: Back 4 years ago when I defeated Crocker the first time, he was at 3,217%. Now here we are in 2019, 4 years later and he's now at 9,907%.

Trixie: I'm glad Crocker is not our teacher anymore. I never liked him.

Sapphire: I never liked him either.

Emerald: Same here.

Me: I don't think anyone in your age group liked him Trixie. But I have a strong feeling that Mr. Crocker is hatching a diabolical plot to get revenge on me even as we speak. And when he sets it into motion, we'll be ready for him.

My eyes glowed red with righteous fury and when the time came, Crocker is gonna wish he was never born.

---

Later everyone was watching TV and playing card games yet again.

Me: Hey Ash you told us about that time where you saved the world from total destruction in the Orange Islands right?

Ash: I sure did.

Me: That was an incredible adventure for you. How did you save the world?

Ash: It was an amazing adventure. It centered around the island of Shamouti and the islands of Fire, Ice and Lightning. They were home to the legendary birds Moltres, Articuno and Zapdos.

Tracie: Moltres, Articuno and Zapdos are the connectors of the Balance of Nature. A crazy pokemon collector named Lawrence III disrupted that balance by collecting them.

Me: So this Lawrence III was the source of what caused the planet to nearly be destroyed. Let me see here.

I look up the adventure Ash went through on the computer and it showed a rather interesting kind of prophecy.

Me: Look at this. "Disturb not the harmony of Fire, Ice, or Lightning

Lest these Titans wreak destruction

Upon the world in which they clash

Though the Water's Great Guardian shall arise to quell the fighting

Alone its song will fail

Thus the earth shall turn to ash

O Chosen One

Into thine hands bring together all three

Their treasures combined tame the Beast of The Sea

From the trio of islands, ancient spheres shall you take

For between life and death, all the difference you'll make

Climb to the shrine to right what is wrong

And the world shall be healed by the Guardian's song."

Wow. That is a very enigmatic prophecy.

Laney: But I think I know what it means. The titans of Fire, Ice and Lightning are Moltres, Articuno and Zapdos - the 3 Legendary Birds. The Guardian of Water has to be the legendary Pokemon Lugia.

Ash: That's right. Lugia is the legendary beast of the sea and the guardian of water.

Misty: And it will sing its song to try and stop the fighting. But it won't be enough to do so. Ash is the chosen one to bring the fighting to an end. He had to get three magical spheres from each island. Their combined power will save the world and tame Lugia.

Me: Wow! That's a massively cataclysmic prophecy. Let me see here.

I looked up what would've happened if the planet wasn't saved and what I saw was horrifying. If the balance of nature was continuing to spiral out of control, it would've ultimately destabilized the planetary structure and the whole planet would explode!

A holographic image showed the whole planet exploding.

Me: The Whole Planet would Explode!?

Ash: That's bad!

Misty: I never knew that the planet would explode!

Tracie: Me neither!

Me: We got to see what this was like and bring this Lawrence III to justice. Lets head to the Simulator.

Articuno: When I get my wing on Lawrence, he's headed to an icy grave!

Me: No Articuno, he's not worth it. According to this, he doesn't have any powers or any of that super villain stuff. But he is a villain nonetheless and jail is perfect for him.

Articuno: Whatever works.

We went to the Simulator.

---

In the Simulator, we got ready for the journey that will decide the ultimate fate of the world. The Simulator Activated and we found ourselves on Shamouti Island. We were in the middle of the Orange Islands. We saw the islands of Fire, Ice and Lightning in the middle of a frozen cold sea and the skies were clouded up with storm clouds and

Me: Whoa! So this is what happened. The Balance of nature has been severely disrupted.

Jessie: Wobbuffet, don't you go wandering off now.

May: Look up there!

May pointed to something and we saw a flying fortress flying above Ice Island.

Ash: That's Lawrence's flying fortress!

Me: That must be where he's holding Moltres, Zapdos and your past selves. Lets go!

We flew up to the Flying Fortress. Along the way, Nico caught a Wynaut and a Glalie.

We landed on the fortress and went in.

The Flying Fortress was a beautiful and magnificently constructed piece of machinery.

Me: Wow. Lawrence's flying fortress is amazing!

Ash: Yeah. He loved the fancy stuff.

Me: I got to give him credit though. He put a lot of work into this.

Laney: It looks very similar to the works of the famous Italian Renaissance master Leonardo De Vinci.

Me: It sure does remind me of that.

We saw amazing artworks on the ceiling. It reminded me of some of the famous works of famous artists from all over history.

Laney: Wow. The artwork he has on the ceiling is amazing.

Me: It sure is. It's some of the most famous works of history.

We continued on and we got to the main room and we saw Moltres and Zapdos trapped in electrified collection rings.

Me: Here they are!

We saw Ash, Misty, Tracie, Melody and Team Rocket in the fortress as well.

Me: Everyone is here.

We explained everything and the past kids were horrified!

Past Ash: What!? He's going to cause the whole planet to explode!?

Me: I'm afraid so. If we don't stop this prophecy the whole world is doomed.

Past Jessie (to her present day self): You're siding with the twerps now? Ew!

Jessie: It really isn't that bad.

Me: We can worry about that later.

?: So you all are here.

We turned and saw LAWRENCE III!

He is first seen in his large airship reading a prophecy. He thinks that the prophecy was about him and that he is the Chosen One. He then sets to work on capturing the three legendary birds so that he could draw out Lugia, which he also plans to capture.

Using various weapons from his ship, he injures Moltres and captures it with electrical rings rather than a Poké Ball. This disturbed the harmony of the legendary birds, threatening to destroy the world with a raging current called the Beast of the Sea, although Lawrence III seemed oblivious to this, focusing primarily on his plan to capture Lugia. Making it feel like a game of chess, he then captured Zapdos when it moved to Fire Island, thinking that Moltres left. He also captured Ash and his friends when they were in a boat and brought them aboard his ship to see his crowning achievements.

However, he did not foresee that the group, especially Ash, would not take kindly to his method of capture of the two legendary Pokemon. As he attempted to capture Articuno for his collection, Ash, using the combined power of his Pikachu, Charizard, Squirtle, and Bulbasaur freed Moltres from its device. Moltres then freed Zapdos from its electric cage, but then the two started fighting, destroying part of the ship, and allowing Articuno to join them in the battle. Lawrence III's ship crashed on Lightning Island.

As the prophecy said, Lugia did rise from the sea to stop the fighting of Articuno, Zapdos, and Moltres, and Lawrence III, still intent on capturing it, decides to capture it just like he did with Moltres and Zapdos. Though Lugia managed to break free and destroy the remains of his ship with Aeroblast, Lawrence III survived the destruction. Finding his Ancient Mew card, Lawrence III vows to start his collection again, but this time on a smaller number. It is also explained in the novelization of the movie that he would not capture Lugia again.

Lawrence III has no super powers, but he is greedy and is not a very pleasant man.

Me: Lawrence III. So we meet at last.

Nico: Lawrence III, you have failed this world!

Lawrence III: So what brings you all here?

Me: We came to tell you that what your doing is putting the entire planet in grave danger. If you keep doing this the entire planet is going to explode!

Lawrence was shocked!

Me: That's right. You're putting the whole planet into jeopardy. Let me show you.

I showed a holographic image of the planet and the catastrophic repercussions that are taking place. He was shocked and had no idea that he was placing the whole planet in terrible danger.

Lawrence III: I had no idea. I'll go with you quietly.

Wheeljack had his blaster pointed at Lawrence.

Wheeljack: (to Lawrence) You say anything to push your luck and we'll change our minds and shoot you in the head!

Nico: Wheeljack, stand down. That's not needed.

I placed cuffs on Lawrence III.

Me: You made the right decision Lawrence. Right now we need to get everything in the world back to normal. Lets go!

We then sprang into action and Moltres and Zapdos out of the electrified rings and outside and then I beamed the flying fortress to our dimension. We flew outside and we saw a massive full scale war going on. Moltres, Zapdos and Articuno were really going at each other. Firing fire blasts, lightning blasts and ice beam attacks at each other. Destroying everything in their wake. It was a vicious and relentless clash. The Guardian of the sea then suddenly appeared out of a massive tornado of water and we saw that the guardian was Lugia!

Me: It's Lugia!

Nico: Oh wow!

Varie: We have to help Ash get the other two treasures!

Me: Lets do it!

We flew out and Lugia was helping us. We set out for Lightning Island and the 3 birds were hot on our tails. Moltres fired a blast of fire, Zapdos fired a blast of lightning and Articuno fired an ice beam blast at us. We fired energy blasts and powerful lasers and more at the 3 birds.

Me: This is crazy!

Laney formed a massive tree in the middle of the ocean and it grabbed the 3 birds.

Laney: That will hold them for a while.

Me: Lets go!

We continued on to Lightning Island and we arrived in the middle of the mountain on the island. We saw a shrine in the middle of the island in the shape of Zapdos. We gave Lugia the ability to talk with his mouth instead of talking Telepathically.

Lugia: The treasure is in that shrine there.

Ash: I see it.

Ash went down into the mountain and he saw a yellow sphere and he pulled it out. It glowed yellow with the essence of lightning.

Me: The Sphere of Lightning.

Lugia: Yes. Ash is indeed the chosen one.

Me: We have one more treasure to get.

We left for Ice Island.

Just as we arrived, the legendary birds broke out of the tree and went at us.

Me: Here they come!

Alexis: Lets get them!

Alexis fired a powerful blast of ice fire and Moltres fired a powerful blast of fire and the blasts collided and exploded in a massive fiery explosion.

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOMMM!

Articuno fired an ice beam and Nico's Articuno fired a powerful ice beam and May fired a powerful blast of ice from her hands. The blasts collided and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOMMM!

Zapdos fired a massive blast of lightning and Nico's Zapdos fired a powerful blast of lightning.

Nico: DRAGON THUNDERCLAP!

The 5-Star Dragonball lit up on his bracelet and he fired a blast of lightning from his finger. The blasts collided and they exploded into a massive fiery explosion.

KRAAABBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We went through the mountain of Ice Island and we arrived at the top of the mountain. We saw the shrine for Ice Mountain.

Me: There it is.

Ash pulled out the sphere and it glowed with the essence of Ice.

Me: We got it.

We got off the island and went back to Shamouti.

Me: Lets hold the birds back until we fulfill the prophecy.

Nico: You got it.

Alexis: Lets get them! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her device and it enabled her to form weapons out of her ice fire.

Wheeljack turned into his Transformers Armada version

Wheeljack: Lets get them Alexis! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back foil and in car mode it enabled him to grow jet wings and fire lasers and missiles from his wings and it also enabled him to fire energy blasts from his chest in robot mode.

Alexis and Wheeljack: ICEFIRE SCYTHESTORM BARRAGE!

Alexis formed a Scythe made of pure ice fire and Wheeljack fired numerous missiles and lasers. Alexis was on one of the missiles and she slashed Articuno and the missiles hit Articuno and Zapdos and knocked them out.

Jessie: Time for some action. Ready Wobbuffet?

Wobbuffet: WOBBUFFET!

Jessie: ANIMATRON CYBER KEY POWER!

The Animatron went into her device and it enhanced her Wobbuffet's abilities.

Shockwave: Time for some action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his ammo and abilities 100-fold.

Shockwave turned into his blaster form and I had him in my hands.

Jessie's Wobbuffet and Shockwave: REFLECTING ELECTROMAGNETIC BURST!

I fired Shockwave and Jessie's Wobbuffet reflected it with his Mirror Coat and it enhanced the blast and it hit Moltres.

Nico: Final Smash time!

Nico's Articuno: You got it Nico! SUBZERO BLIZZARD FEATHER STORM!

Nico's Articuno fired a massive barrage of feathers that turned into a shower of icicles and they hit Moltres and stunned him.

Lugia: My turn. AEROBLAST!

Lugia fired a massive laser blast that contained enough power to destroy a whole city and it hit Moltres and knocked it out while destroying the whole ice sheet.

Lugia: (To the viewers) This is the first time I've done that.

But then the whole storm got worse. Massive and powerful tornadoes appeared out of the storm all over the place and lightning was striking all over the place. This could only mean that the planet was getting ready to explode. We hightailed it back to Shamouti Island and Ash placed the treasures of Fire, Ice and Lightning in an altar and they glowed and then green healing water poured out of the altar and turned the whole shrine into a beautiful altar. Melody then played Lugia's song and it caused Moltres, Articuno and Zapdos to calm down and become tranquil. It was a beautiful and magnificent song and it sent the healing water out all across the area and we saw the storm clouds clear and the world was getting back to normal. We flew out with the legendary birds and Ash and Lugia joined them. We then saw an incredible and unusual sight emerge from the water. We saw a massive river made entirely of pure water emerge from the ocean. It was as big as the entire planet and it was the source of all the climate in the world. We then saw the river go back down into the ocean later on and Moltres, Articuno and Zapdos went back to their home islands. The world was saved from total destruction. Saving the lives of everyone on the planet both human and Pokemon.

Later the simulation ended and everyone cheered for us. We helped prevented a massive and devastatingly cataclysmic disaster from happening. Lawrence III was sentenced to 50 years in the Jupiter prison. The reason for this is because he had no idea what he was doing would've caused the end of the world.

THE END

---

Another Fanfiction Complete.

The 2nd Pokemon Movie was the most awesome movie made by the people of Pokemon! It was one of my number 1 favorite movies. I saw the movie trailer for it from the 1st Pokemon Movie and it played the Requiem Rave Song and it was awesome! Moltres, Articuno and Zapdos are some of my number one favorite pokemon. It's awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Adventures Adventures Adventures

Part 1: The Sociopathic Jock

---

In the Jupiter Prison, Lily and Mr. Krabs were there to visit the sociopathic jock Jo. She has an old score to settle with her and to make her suffer for her ways. After Jo's althetic career was ended on Total Drama All Stars 2 because of having her leg amputated, she has developed an incredible hatred against all of us and all of the world for ruining her life. But Jo was declared too dangerous to hang around with the other inmates. So she was placed in Solitary Confinement for the protection of the other prisoners.

Lily and Mr. Krabs were walking down the hall. Mr. Krabs was givin the ability to live on both land and in water thanks to Lily's magic.

They got to the cell Jo was in and the guard saw them.

Guard: Oh hello Lily. Here to visit Jo?

Lily: Yep. We're here to correct something she said when we were on Total Drama All Stars 2.

Guard: I saw what she did on that show. That was awful she did that.

Mr. Krabs: I can't believe she is that evil. I'm glad I'm being watched by Lily now.

Guard: That's good Mr. Krabs.

The guard opened the cell door and they went in and they saw Jo.

---

Her favorite type of music is workout music, her favorite color is grey, and her favorite movie is Charlie's Devils. The weirdest dream she ever has was when she let a guy win because she found the guy attractive. Her best childhood memory was the first time she was picked first during a team selection. Her most embarrassing moment at school was when she got locked out of class due to her going for a jog between periods. Her first job was as an enforcer for the neighborhood kids. 10 years from now she sees herself as a personal trainer for the stars. Her dream date would be with Willy Slanks since he invented a great new workout system, BowTies. Jo never thinks the world will ever end as long as she's alive.

Jo is first seen in "Bigger! Badder! Brutal-er!", on the yacht, warning Scott not to bother her. She swims to shore quickly, excited to be the first one there, but then realizes that Dawn beat her and is not even wet. She wins the race that determines the teams and taunts Lightning for losing to a girl. However, she is assigned on the Mutant Maggots, because Lightning walks in front of her when Chris shows up. After Chef Hatchet falls off her team's trampoline reward and throws the saw at Lightning, she laughs at his injury, but is then run over by the rolling trampoline. During the start of the challenge, she seems very excited, trying to get her team pumped. She jumps on the trampoline in an attempt to reach the totems but gets launched into the lake. When riding down the mountain on her team's totem, she is annoyed when the opposing team passes her. Although she and her team reach their cabin last, they win immunity since the Toxic Rats' cabin was destroyed.

In "Truth or Laser Shark", Jo is first seen running into Brick after her morning run. She proceeds to argue with Brick about who is better until she tells him their team is lucky to have both of them. However, she reveals in a confessional she was just saying this to keep Brick loyal, implying she will break him like a stick. She then breaks one, only to receive a splinter. Before the first challenge, Jo is rather tough on Cameron calling him weak. When he tries to rebuttal which Jo brings up a good point on trying to win Total Drama without some physical power. During the truth challenge, she notices Brick's face turning red and tells him to admit the truth for the team. When Mike wanted to leave she smacked him and told him she was determined to win. Before the second challenge, Jo was the first to try on the glasses and complained about the lack of visibility. She does well for her portion of the obstacle course, and her team wins the challenge.

In "Ice Ice Baby", she competes with Brick to see who can eat more food until he chokes on his spoon. She then saves him and later comments on Mike's various personalities. When Chris announces a race through the speakerphones, she tells everyone to begin running. After they reach their destination, she tells Cameron she would have eaten him by now if they were all hamsters. While climbing the mountain, she and Brick converse about how they became so good at rock climbing. She then taunts him when he dislocate his arm in an attempt to impress her. When Anne Maria would not do the challenge, Jo motivated her by insulting her fashion. Jo made it the top of the mountain first out of anyone, but she still lost that part of the challenge since the Toxic Rats got their whole team on top. Shortly afterwards, Anne Maria made it to the top and attempted to punch Jo, but Jo moved out of the way and she ended up hitting Brick. In the second part of the challenge, Jo assumed the leadership role, after thumb wrestling Brick for it, and proceeded to order around the Maggots. When Anne Maria again refused to do the challenge, Jo threw her hairspray out of the fort, causing Anne Maria to chase after it.

In "Finders Creepers", she is seen rushing out of the Maggots' cabin when Chris wakes them up unexpectedly. During the challenge, she leads her team away from the Rats, stating that she had a plan. She commands the Maggots to hide in a bush so that they can follow the Rats to the next destination, leading them to their own clue. Arriving at the marked tree, Jo suggests sending in their most expendable player in case it's a trap. Although Brick objects saying no one's expendable, Jo's "win no matter what" attitude keeps pushing as she sends Cameron to find the souvenir. After Cameron finds the key and Zoey disappears, Jo simply says that they should give up the search and forge ahead. Brick again objects, but Jo overpowers him calling Brick a "G.I. Joke". The Maggots then get the lead after Sam clears up the land mine field, which Jo thanks him for. Arriving at the graveyard, Jo comments on their arriving first and immediately sends Cameron to get the next clue. After finding it, Jo commands the team to fan out and search. When Brick falls into a dark grave, Jo pulls him out and slaps him 3 times, telling him to pull himself together. Soon after Brick disappears, Jo calls him a "dead weight", causing a small fight between her and her teammates. Once Anne Maria finds the next souvenir and boasts about it, Jo rushes her and then leads them onward, firstly commanding Mike to hide the souvenirs in the tombstone. At the final location, Jo goes on ahead when Cameron wants to find Anne Maria and Mike. Inside the cavern, Jo easily finds the last clue, but is then captured by the mutated spider. Later, when Cameron is captured by the spider, Jo asks who it is, guessing "tan job", "couch patato", and "freckle face" before finding out it's Cameron, who she's surprised made it that far, which he takes as a compliment. Once Brick is freed by Mike (Svetlana), he wishes to free his teammates, but Jo orders him to win. While he beats Sam and Scott to the finish line, Jo's order costs them the victory with Brick alone vs. the two Rats. At the elimination ceremony, Brick volunteers to go home, but it turns out that Brick is the Rats' reward. Chris then comments that Brick and Jo will now be competing on opposite teams.

In "Backstabbers Ahoy!", Jo surprises Brick with her whistle and then begins to tease him. They then argue about who is the better competitor, resulting in her bragging about her running and squat thrusting skills. She then says she is whipping her team into shape, indicating she is teaching Cameron how to do push-ups. She competes against Brick in the diving challenge, doing very well. She loses air at one point until Anne Maria saves her. However, she ends up losing when an air-filled Brick launches past her and gets his skis. In the second part of the challenge, Jo is chosen to shoot the seagull gun. She is successfulsucessfull in shooting the first two mines, but the gun stalls before Jo could shoot the final seagull, and thanks to Zoey's steering, they crash into a rock. Determined not to lose, Jo throws Cameron into the final mine, allowing the Maggots to win the challenge. Jo is later shown with the other contestants blaming Dawn for stealing their poessions.

At the start of "Runaway Model", Jo is uninterested in fixing her hair with Zoey and Anne Maria, and begins shaving, much to their displeasure. Later, at the challenge, she claims that fashion is a waste of time and again explains to Lightning that she is female. When Lindsay comforts Sasquatchanakwa about his "hairy body issues", Jo mentions she feels his pain, then quickly covers it up. In order to rescue Lindsay, Chester applies "a bit of rouge" to Jo's face. Jo believes she looks beautiful and takes off to seduce Sasquatchanakwa. He laughs at her, to which she, in response, punches him across the island. The Maggots win, and, upset she looks terrible, begins throwing barrels at Mike. At the elimination ceremony, she is switched with Scott and is now on the Toxic Rats. When Brick welcomes her to the team, she tells him it is now her team.

Jo is in the confessional at the beginning of "A Mine Is a Terrible Thing to Waste", happy that now that she's on "Team Rat" she can work out in the nude. She then bothers Brick on her way over to breakfast. During the challenge, her team makes it to the mine shaft elevator first, but Lightning shouts and causes a cave-in on his team. Sadly, the elevator crashes at the bottom, which forces the Rats to climb down the cables. When Brick decides to go first, Jo throws him the jar of fireflies, since the Maggots got the flashlights. Brick falls, but is able to slow down by using his arms. However, Jo and Lightning speeding down after him cause him to drop the jar, allowing the fireflies to escape. Jo and Lightning chase after them, leaving Brick alone. She convinces Lightning to make an alliance with her and gave up trying to convince Lightning that she is a girl. The Toxic Rats were captured by the mutant gophers and it was Jo that distracted them so they could escape. At the elimination ceremony both Lightning and Jo vote off Brick because they view him as a traitor to their team.

Jo and Lighting decide to see who will be the leader of the Toxic Rats in The Treasure Island of Dr. McLean but it was mostly a tactic that Jo used to make Lighting do the work. Through the challenge Jo takes the lead, leaving Lightning to bear the brunt of the challenge, including being tortured by a mutant squid and subsequently by mutant swamp animals in the hunt for Sam and former contestant Gwen, who were buried alive. Jo then used the metal detector given to them by Chris to find the keys to her and Lightning's handcuffs, and for the chest in which Sam and Gwen were imprisoned. Jo ultimately won the challenge for the Toxic Rats by digging out the two campers, only to be knocked out by the fully-mutated Dakota, who rushed in to save Sam.

In "Grand Chef Auto", Jo is happy about the merge and immediately forms an alliance with Lightning. Cameron offers to be in her alliance as well, but she refuses. While looking for her key, Jo is attacked by a mutant cockroach. She then finds a key in the garbage. As the second part of the challenge begins, she and Lightning are captured by Chef. Jo quickly formulates a plan and has Lightning bend the bars with his immense strength. When he does, she pushes him to Fang, betraying him. Jo then grabs a go-cart and drives away, causing Lightning to have a grudge against her for the remainder of the game. She does not win the challenge, but is safe none the less.

In "Up Up and Away in my Pitiful Balloon", Jo is shocked to see the blimp at camp and Heather. When Chris announces the challenge, Jo asks Cameron to form an alliance with her. He accepts, however she only makes the alliance since Cameron knows how to build an aircraft because of his brains. During the challenge she makes Cameron work on her hot air balloon, saying she will protect him from elimination. She also tries to make Cameron sabotage Lightning's helicopter, although he ultimately fails. Cameron ends up winning the first part of the challenge when he finds a rocket, and she makes Cameron give her his smoke machine prize. When Heather starts escaping with the million bucks Jo grows to like Heather due to the way she plays, however she disapproves her "girly short shorts". Once again when they are stopping Heather, Jo uses Cameron as a shield from the gemmies that Heather throws at her. However Cameron double crosses her when Lightning tells him that she is only going to betray him. Cameron reveals he hid a bomb in his smoke machine just in case and blows up her balloon. She sinks into the ocean with Fang, who got tangled on her rope, and Scott, whom her and Zoey attacked. She is later seen at the campfire where she gets the Toxic Marshmallow of Losedom because Cameron and Lightning voted her out. Jo said that she deserves to win Total Drama. She called Cameron a traitor and tries to hit him, with him replying "I learned from the best." She then compliments him as Cameron was talking about her. She proceeds to yell at Lightning calling him an idiot as Lightning couldn't recognize she was a girl. Jo then takes the Hurl of Shame.

Jo then returns in the season finale "Brain Vs Brawn: The Ultimate Battle". Chris introduces her along with the rest of the eliminated cast. She doesn't seem to be too thrilled on rooting for either of the finalists, but chooses Lightning over Cameron. Jo is then seen giving Lightning advice on what to use for his armor. Later on when

Chris' remote malfunctions, releasing all the mutant animals, Jo hops out of her seat as she runs away from the animals. Larry eventually has her in his grasp, until Cameron blasts at him and she is released. In Lightning's ending, Jo is the only contestant who seems happy that he won. In Cameron's ending, When Cameron was on top of Lightning, she counts with the rest of the cast to 3, but she doesn't seem excited. At the end, she is seen on the boat when Cameron announces to use the money for everyone. Jo says she can use the money for her own gym. She is last seen laughing at Chris when he is quarantined by the government.

Jo is one of the returning contestants in "Heroes vs. Villains". After noticing the size discrepancy between her team and the opposing team, she immediately demands that Chris provides the Villainous Vultures with an extra member to make up for the difference. Jo volunteers to be the pusher of the baby carriage for her team, tricking Lightning by saying she was a champion shopping cart pusher. When Gwen attempts to reason with her, Jo blows her off and taunts her on her boyfriend kisser status, upsetting Gwen. During her pushing of the carriage, she tells Lightning that the two of them should stay out of each others way till the merge, and tells Duncan that she wants to take charge, to which Duncan agrees with a laugh. He then compliments Jo on her zinger, which stuns her. She later carries Alejandro up to the top of the staircase of the spa house, where he unlocks the door with the correct key for the team's win.

In "Evil Dread", Jo is seen eating a plate of meat for breakfast. She then suggests to everyone that they should vote off Lightning next since he is the strongest competitor. Later, the challenge of the day was to find 3D puzzle pieces of certain places and build them. This is where Jo's conflict with Heather reaches a boiling point they both fight for leadership. Heather ends up finding the first piece but Jo tries to take it away from her. Heather ends up dropping the piece onto Jo's, which, Jo then pushes Heather into a trench filled with crabs. Jo eventually finds another piece but Lightning jumps by and takes it for himself. Jo and the rest of the Vultures seems to won the challenge by they are still missing a piece. Jo then gets upset over Lightning due to miscounting the pieces which leads to their first loss. At the elimination, it was revealed that Jo convinced the other

Vultures to vote of Lightning, who eventually discovers Jo's betrayal, with Jo and Lighting in the bottom two, Lighting is voted off and nearly curses at No, who watches as he takes the Flush of Shame

In "Saving Private Leechball", Jo and Heather argued about the leadership role on their team, until Gwen told them to be quiet. The next day, Jo tried to convince Gwen to join an alliance, even though Heather and Alejandro tried to as well. During the challenge, Jo accidentally fired the leech-cannon at Scott, causing her teammates to be upset with her. Later during the challenge, she was the only member of her team left standing, and she went to the cave to try to take out Courtney and Sam, but failed when she battled against Zoey. At the elimination ceremony, because of her constant bickering and firing the cannon at Scott, she was voted off her team and was last seem in the Flush of Shame, being flushed off the island.

---

She is in one of the balloons in "The Final Wreck-ening", but her balloon is not popped, and floats away with the other un-popped balloons.

And now she has all her crimes in the events of the Total Drama All Stars 2 saga.

Jo: Lily Loud.

Lily: Hello Jo.

Jo now had a brand new artificial prosthetic foot in place of the foot she lost.

Lily: I see you got a new artificial foot. It's quite the improvement.

Jo: It is. And when I face you all on Total Drama Galaxy, I'm going to make you wish you were never born!

Lily: I have that to look forward too. We still have 9 more months though.

Jo saw Mr. Krabs with her.

Jo: Are you kidding me? First, you throw your boss in prison. And now, you got him out?!

Lily: That's right! Guess we're not what you claimed us to be after all!

Krabs: Yeah! I actually deserved to get thrown in prison before my parole.

Jo: Fine. So you and your boss made amends. But that stupid Princess sister of yours still made Zoey Lawton fatherless!

Lily: One accusation at a time!

Mr. Krabs: Who is she talking about?

Lily: Zoey Lawton is Deadshot's daughter. Her father was Floyd Lawton A.K.A. Deadshot. We killed him when we killed the Joker and most of the Suicide Squad. Zoey hates her father for what he became.

---

Little is known about Deadshot's past before being an assassin. All that is known is that his real name was Floyd Lawton, and he had an abusive father he tried to kill, but unintentionally shot his brother. He has since become a crack shot, often boasting that he never misses.

He initially arrived at Gotham City claiming to be a new crime fighter. He was actually planning on becoming king of Gotham's Underworld, while taking out crime bosses as a superhero. Batman and Gordon exposed this plan and he was jailed. He was also a member of the Suicide Squad, a government program that uses supervillain's services on life or death mission in exchange for a pardon. This was perfect for Deadshot because he believes he has no life purpose and does not care if he lives or dies. When not working for the Squad he goes on assassination missions.

On his missions he has assassinated a senator, killed a man committing crimes pretending to be Deadshot, and offering to put Count Vertigo out of his misery. He was once possessed by a demon named Neron. While controlled Neron tried to have him kill a kindergarten class but the Justice League stops him. He also once attempted to kill the pope but was stopped by Wonder Woman. In 2005, Deadshot learned that he had a daughter named Zoey living in a rough neighborhood controlled by gangs.

Though he decided a normal life as a father wasn't for him, instead wiping out all the local gangs. Deadshot later broke into Arkham Asylum to kill Joker on an assassination mission, but was stopped and nearly killed by another assassin named Onomatopoeia. He informs Batman what had happened and was sent back to jail. After being caught yet again, he returns to the government operated Suicide Squad.

---

Mr. Krabs: That's terrible lass.

Lily: Yeah. But Jo, Floyd was a monster! He killed hundreds of innocent people and he had no right to call himself a father! He was a cold-blooded ruthless snake! Like you!

Jo: Hey! At least I don't go around killing people for crimes they do!

SLASH!

Lily slashed Jo's face with claws she made of pure water she formed on her fingertips and she slashed out Jo's eyes. Jo was screaming in excruciating pain.

Lily: You make me sick Jo! When we face each other on TDG, I'm going to make you suffer a thousand painful deaths for your crimes. You'd better beg for mercy when we face each other.

They left the prison.

Guard: Nice way to show her Lily.

Lily: Thanks Mac.

They went down the hall.

Mr. Krabs: Hey Lily, I heard from SpongeBob that you made the first ever Monster Krabby Patty.

Lily: I sure did Mr. Krabs. Mr. SquarePants said that never before in the history of the Krusty Krab has anyone ever succeeded in making a Monster Krabby Patty. And I made the first ever successful Monster Krabby Patty.

Mr. Krabs: I'm proud of you lass. Great job.

Lily: Thanks Mr. Krabs. Maria and Varie and some of my friends come to the Krusty Krab for lunch every now and then. It's great having them there.

---

Part 2: Meeting Our Genderbent Twins.

---

In the Estate on Earth, we were playing video games and reading books and playing card games. I was playing go fish with Linka.

Linka: You got any sevens J.D.?

Me: Nope go fish Linka.

Linka drew a card.

Me: Hmm. Do you have any 2's?

Linka: Uch.

Linka gave me 2 of them.

Me: Thank you. Sydney, when you all were cured what did you do when you got home?

Sydney: That's a good question.

---

After Sydney, Nanette and Sheila were cured, they got dressed in normal clothes and dropped themselves onto their beds at their houses for the first time in so long. While being stuck in the underground city they lost the feeling of a nice warm bed and the taste of normal food. They cried in sheer happiness and were eternally grateful to us for curing them.

Nanette, Sheila and

Sydney were in a tri-split screen scene crying on their beds.

Nanette, Sheila and Sydney: (In unison) (Crying) We have our lives back. Thank you Team Loud Phoenix Storm. Thank you.

FLASHBACK ENDS

Laney: We saw that when you moved in Sydney.

Kate L.: Yeah. The Shredder robbed you of your humanity and we got it back for you all.

Lori: That freak was literally the ultimate evil.

Syd: He sure was.

Me: Yeah. Linka do you miss your brothers back in your dimension?

Linka: I sure do J.D. and I've forgiven them for what they did.

Me: That's good Linka. No one can stay mad at someone forever. It's not healthy for anyone.

Nico: That's right. Mindy put her anger over Colton behind so why shouldn't anyone else?

Me: Yep.

Computer: ALERT! CODE DIMENSION JUMP IN PROGRESS.

Me: We haven't had one of those happen in a while! We'll finish our game later Linka.

We went to the computer.

Me: Triangulating position.

The computer showed that the vortex was right over the neighborhood.

Me: It's right over our neighborhood!

We went outside and we saw a wormhole over the neighborhood right next door to the Fairy Tail Guild Castle. When the vortex faded we saw a magnificent and breathtaking castle that was 1,000 times bigger than any castle over in Europe and it was majorly articulate. (Think of the Alvarez Empire Castle from Fairy Tail)

Me: Wow! What a castle!

Laney: That is the most breathtaking castle I've ever seen!

Lori: That castle is literally the most amazing castle anywhere.

Lucy H.: It looks just like the castle from the Alvarez Empire.

Mindy: I remember that castle. That was the coolest castle ever.

Me: Lets go see.

We did so and when we got close it looked like a massive fortress and it was incredibly beautiful and breathtaking.

Lola: Wow! What a castle!

Lana: I think it would be perfect for anyone.

We went in and we saw that it was a magnificent castle and the architecture was magnificent.

Me: Wow! This is amazing.

Laney: I would love to live in a castle like this.

Nico: Me too Laney.

?: Hey!

We turned and we saw the Loud Brothers and with them was a girl with long black hair and she had wings of pure fire like mine and she had a fiery sun symbol in the middle of her forehead and she had a red summer shirt and a red skirt and red sandals and with her was a boy with aqua green hair and he had blue clothes. We saw genderbent versions of ourselves. The only ones present weren't Nico's and our newest recruits.

Me: What the?

Female Me: What the?

Me and Female Me: (In Unison) WHY DO YOU LOOK LIKE ME!?

Linka: Brothers!

Loki: Linka! It's been a while squirt.

Linka hugged Loki and her brothers for the first time in a long time ever since we kicked her brothers butts.

Me: How is it that you look so much like me?

Female Me: Isn't it obvious? I'm your female self.

Me: Wow! It's like I'm looking at myself in the mirror. I'm James Dean Knudson. But everyone calls me J.D.

Jaime: That is too coincidental. I'm Jaime Diana Knudson.

Me: Oh wow! It's a pleasure to meet you. It's like we're twins. I've always wondered what it would be like to have a twin counterpart. It's like we're twin siblings.

Jaime: It sure does feel like that.

Me: No kidding.

Jaime: Yeah. Are you the leader of your own team?

Me: I sure am. I'm the Leader of Team Loud Phoenix Storm.

Jaime: That is very coincidental. I'm now the leader of our own team called Team Loud Fairywind.

She showed me the symbol on her shirt. It was a Fairy on a Crescent Moon over a sun with the name Team Loud Fairywind below it.

Me: That is really coincidental. So I guess we did leave our mark on your universe.

Jaime: In a way you did.

Varie: That is cool. So you are my male self?

Valen: I sure am. My name is Valen and I'm Jaime's fiancé.

Varie: Pleasure to meet you. I'm Varie.

We introduced ourselves to our opposite sex counterparts and it was awesome to meet them.

Jaime: (To Maria) So you all formed a group of redeemed supervillains called the Redemption Squad?

Maria: Yep. If you see a boy whose last name is Rockell and a girl whose last name is Dunbar, make sure to recruit them.

Jaime: We will. It's so awesome how you all set so many villains on the right path.

Me: Yep. We saved them from themselves and made them good and better people. I take it Team Loud Fairywind just as well known as Team Loud Phoenix Storm is?

Jaime: We sure are. But we haven't been on the same number of adventures you all have. We can't even begin to compare how many adventures we all have took compared to you.

Me: We don't like to brag.

Jaime: Thank you so much for taking care of Linka in your dimension.

Me: It was our pleasure Jaime. Linka became a twin sister of Lincoln and they are awesome as twins. In a way we all have become twins

now.

Jaime: We sure have.

Laney: Yeah. Larry was it really rough for you to miss Linka?

Larry: It was Laney. Our family was never the same since Linka was thrown into your dimension. My brothers had to do some hard labor in community service as a result.

Lana: At least they didn't get jail time.

Leon: Yeah. But Lily we look so similar.

Lily: I know. Last time I saw you, you were a baby.

Leon: I know. It's so awesome!

It was so awesome having our opposite sex counterparts with us.

## Part 3: Meeting Syd's Parents.

Me, Jaime, Nicole, Nico, Lori, Ronnie Anne, Syd, Laney, Lincoln and Clyde were heading to Syd's house in the estate grounds.

Syd: You guys are gonna love meeting my family.

Me: I know Syd. You told us so much about your mom and dad.

Clyde: I'm cool with meeting your parents Syd.

Me: (To the Viewers) Clyde finally gave up his crush on Lori and now he and Syd have a budding romance going on. After we met our opposite sex counterparts Clyde met Syd on one of our bad guy stopping sprees and cupid's arrow struck them both. It's so awesome.

Clyde: I'm glad we have a romance going on J.D.

Me: I am too buddy. I'm sorry things didn't work out with you and Haiku.

Clyde: It's all right J.D. But we're still good friends.

Me: That's great buddy.

Syd opened the door to her house and we went in.

Syd: Hey guys I'm home. And I brought friends.

Syd's mom Becca came out of the kitchen and on her shoulder was an Indri Lemur.

Becca: Oh hey kiddo. J.D. Knudson and Team Loud Phoenix Storm. It's such an honor and a pleasure to meet you all. I'm Becca Chang.

Me: It's a pleasure to meet you. Wow is that an Indri?

Becca: That's right J.D. His name is Rocca and I'm taking care of him while we rebuild his habitat at the zoo.

Laney: He's really cute.

Me: These are also the loudest lemurs in the world. They have a deafening call that can be heard from up to 2 miles away.

Lincoln: That is loud.

Lori: It sure is.

Becca: That's right J.D. You sure know a lot about animals.

Me: Syd is like a living animal encyclopedia. She showed us a lot of animals.

Becca: I'm sure she did.

Clyde sat down but then he felt that his "Chair" moving really slowly.

Clyde saw that he was sitting on the back of a huge tortoise.

Clyde: Wow!

Me: Wow! That's a Galapagos Tortoise. We saw one of those when we were at the Galapagos Islands when we were in Ecuador.

Becca: Yep. That's Tormo. He's our newest addition to the zoo. I'm taking care of him while his habitat is under construction.

Me: He sure is cool.

Becca: He sure is. I heard from Syd that you all were on an awesome worldwide adventure.

Me: We sure were. That was one of the most awesome educational experiences we've ever had.

Nicole: I'm a volcanologist and I wanted to show everyone the worlds volcanoes.

Becca: That's an amazing and very dangerous field of nature science.

Nicole: It is. And my heroes were world famous Volcanologist's Maurice and Katia Krafft. They've been to every volcano on the planet except for those down in Antarctica.

Becca: That's amazing.

We showed Becca a photo album with pictures of our trip and she was amazed at them.

Me: Here's us in Nome, Alaska.

Becca saw the picture of us standing in front of the statue of Lily and Balto. In Lily's hand was a heart and she was holding the flag of Alaska in the other.

Laney: My baby sister Lily saved all of Nome from a terrible disease that was afflicting them. She risked her life and braved the treacherous subzero climate of Alaska to save all of Nome and all of Alaska.

Becca: That's amazing!

Syd: It was so cool that Lily did that.

Me: It was. That was one of Lily's bravest deeds.

Lincoln showed another photo of us in Hawaii.

Lincoln: Here's us in Hawaii. I won the Big Kahuna of Hawaii surfing contest there.

Syd: Oh that is so amazing Lincoln!

Clyde: I remember that. That was so awesome!

Me: Oh yeah. Lincoln's dad taught him how to surf. He was the winner of the Big Kahuna of Hawaii himself a long time ago.

We showed Becca our global adventure and it was awesome.

Nico: Wow. You guys have been all over the world huh?

Me: Not just the world Nico. All over the galaxy and all over the universe.

Jaime: That is very coincidental.

Me: It sure is Jaime.

---

## Part 4: Closing Down the Dimmadome!

---

We were back at the estate. Team Loud Phoenix Storm and Team Loud Fairywind were now one team working together.

Me: It was so awesome meeting your mom Syd.

Syd: Thanks J.D. She sure is an amazing parent.

Me: She knows so much about the world of animals as much as you do.

Syd: That's amazing huh?

Then the alarm went off.

Me: Uh oh.

We went to the computer and we saw that Doug Dimmadome had enslaved the entire city of Dimmsdale and made them all into mindless zombies and built a huge housing development called Dimmadome Acres. We saw that every house in Dimmadome Acres looked exactly the same and the area spanned for miles.

Me: Whoa! Look at all this guys!

Timmy: Oh no! Doug Dimmadome is at it again.

Me: Who is Doug Dimmadome?

Timmy: He's a rich business owner.

Doug Dimmadome is the major business owner in Dimmsdale. He is sometimes featured as a villain, for example in the episode "Moooving Day" where he tried to control the citizens of Dimmsdale with tainted milk. However he is not always villainous. The "on and off" status of his character is referenced in the episode "Channel Chasers" where he argued with himself about Timmy Turner.

Me: He looks more like a corrupt business owner.

Nico: But he looks very similar to the Rich Texan that we killed over in Springfield on my birthday.

Sideshow Bob: (British Accent) That guy had some very serious problems.

Me: He sure does look like him though and he does have that Texas flare on him.

Timmy: Not only that but he tried this harebrained scheme before. He gave everyone milk laced with a mind control serum that enslaved everyone and made them all mindless zombies. Even Cosmo and Wanda fell victim to it. He even got Mr. Crocker.

Me: Mr. Fuckass himself!? You got to be kidding!

Timmy: No I'm not J.D.

Me: What was the antidote for this scheme he did?

Timmy: I destroyed his plans with my delicious Mega Fizzy Juice.

Timmy gave me a bottle of the stuff.

Me: So this is the stuff.

Timmy: Yep. Try some.

I did so. I drank the whole bottle and released a massive belch.

BBBBBUUUUUUUUUUUUUUUUUUUUUUUUUUUUURRRRRRRPPPP

Me: Wow! That is some tasty and awesome stuff. And it's really refreshing. Thanks Timmy.

Timmy: You're welcome.

Cosmo: All the nutrition of juice and all the fun of fizz.

Me: It's very refreshing and nutritious.

Laney: It's tasty stuff.

Me: Lets head over there and make sure he doesn't do something like this again. Team Loud Phoenix Storm,

Jaime: And Team Loud Fairywind,

Me and Jaime: LETS FLY!

We were off to Dimmsdale.

---

We arrived in Dimmsdale and we saw that the situation is worse than what we first saw. We saw a massive milk factory and it was heavily guarded. We were hiding on one of the roofs of the houses outside of the factory.

Nico: Boy it's heavily guarded.

Jaime: How are we gonna get inside?

Carmen: I have an idea. Maria?

Maria: Oh no. Not this again.

Carmen carries Maria off of the roof in front of Dimmadome's guards.

Carmen: Get help! Please! My sister's dying! Get help! Help her!

As the guards approach them, Carmen throws Maria at them, knocking them down.

Maria: (gets up) Even after nearly a whole year, I still find that ploy humiliating.

Me: But at least it worked. Lets go!

We went into the factory and bursted in with a massive fiery explosion. A Phoenix Cry was heard out of the flames and landed in the factory. We then saw DOUG DIMMADOME!

Me: Doug Dimmadome. So we meet at last.

Dimmadome: That's right. J.D. Knudson and Team Loud Phoenix Storm.

Me: You tried this stupid plan before and it failed big time Dimmadome.

Dimmadome: That's right.

Me: You're under arrest for your crimes against Dimmsdale!

Dimmadome: What did I do?

Timmy: You enslaved all of Dimmsdale twice with this mind control milk!

Chloe: You tried to turn all our parents into meals after they were turned into chickens!

Me: And now you tried this stupid plan again with the mind control milk.

Dimmadome: Tell ya what. If ya'll let me continue my business, I'll let ya'll in on a piece of the action.

William: Not gonna happen.

Stewie: Hang on. We should think about this. I mean, it's not like he's got a way of harming us physically. And besides, we could salvage some of Dimmadome Acres when we're done.

William: That's tempting, Stewie. But we don't make deals with criminals.

Me: Never in a million years. It's time for you to go to jail Dimmadome!

?: **You'll have to get past me first!**

We saw a cloud of darkness appear and it began to take form.

The Heartless that appeared before us looked like William's Dark Lyoko form with X.A.N.A.'s eye on the forehead. But it also had a Heartless symbol on the chest.

Ulrich: X.A.N.A.?!

Dark Matrix General (smirks): **Ah, Lyoko Warriors. How long has it been? A whole year?** (to Aelita) **Hello, Aelita. How's your dear daddy, Franz Hopper?**

Me: X.A.N.A.! I thought we were done with you for good after we killed you.

Dark Matrix General: **Well now I'm back and you and I have an old score to settle J.D. Knudson.**

Me: We shall see X.A.N.A.

XANA was created to counteract and destroy French Military Project: Carthage, of which its creator, Franz Hopper, was a contributor. Along with XANA, Franz created a virtual world called Lyoko to give XANA access to the real world through its supercomputer. Hopper also created a Time Reversion program as a byproduct, allowing him to perfect his work and doubling the supercomputer's power along with XANA's upon use.

He'd spent almost seven years on June 6, 1994, and became schizophrenic while XANA's intelligence grew exponentially with each day. Sometime between later reversions, a hole in XANA's programming allowed it to be infected by a virus that broke down its intelligence and caused it to turn evil.

Hopper was in the final stages of Lyoko's creation when XANA betrayed him and alerted the Men In Black to his location. Trying to avoid being arrested, Hopper virtualized himself and his daughter, Aelita onto Lyoko. XANA then attacked them and denied any negotiation of peace with Franz. Hopper shut down the supercomputer from Lyoko when XANA turned him down, trapping all three in the supercomputer.

The factory, XANA and Aelita were rediscovered by Jeremy Belpois ten years after being rendered dormant. XANA launched an attack, undiscovered until after its plans were thwarted for the first time by Jeremy and his friends. The newly dubbed Lyoko Warriors made a pact to free Aelita from XANA's clutches so the latter could be terminated.

XANA's first few strategies are simplistic as he only ever attacks the Lyoko Warriors to study the real world. It could only possess inanimate objects or cause electromagnetic interference in the environment. When they finally manage to rematerialize Aelita, XANA uses her memories of Earth as a tether to keep them from shutting down the supercomputer until it can escape.

XANA's next strategy was to steal Aelita's whole memory to gain the Keys to Lyoko in her Annex Code with its latest monster, the Scyphozoa. Aelita's memories of Earth were starting to slip through and the Lyoko Warriors were closer to finding out the origins of Aelita, Franz Hopper and XANA. It used their confusion to trick them into thinking Franz had emerged from the recesses of Lyoko, along with almost stealing back his diary and the Lyoko Warriors' privatized data.

Its last tactic was to trick Jeremy into sending his friends after Aelita's missing memories using a fake transmission hidden in the bowels of the fifth sector's core zone. This trick worked, XANA gained its freedom and it had succeeded in finally killing Aelita. XANA then launched its largest attack ever with the intent of destroying the supercomputer. Although XANA had escaped, Franz revived Aelita with her real fragment and stopped XANA's ultimate attack, suppressing Lyoko's towers to prevent XANA from activating more than one at a time.

XANA had escaped the supercomputer into the world network and duplicated itself onto other supercomputers around the world, planning to use them to create an army of robots. While it still considered the Lyoko Warriors a threat, it did not attack them until a prototype upgrade to the Superscan alerted it that they were trying to find a way to get into the world network and stop it. In response, XANA switched tactics, launching attacks with the purpose of killing its enemies once again, along with destroying Lyoko, so that the Lyoko Warriors would lose all means of combating it.

It would achieve this by attacking the Core of Lyoko, but the Lyoko Warriors were always capable of traveling to the fifth sector and stopping its destruction. XANA then prioritized destroying the rest of Lyoko knowing that it was the only one who knew the transfer protocols to virtualize into the fifth sector. It reformated the Scyphozoa to implant a virus into Aelita so that it could possess her and have her destroy Lyoko's sectors one by one.

Jeremy was formulating the transfer protocols for sector five after realizing XANA's plan and succeeded in creating them just after XANA destroyed the last of the original sectors. At the same time, the group decided to recruit William Dunbar to help fight XANA and balance the team.

One day, while every member of the group was having real world problems, XANA attacked the Core of Lyoko without activating Lyoko's last tower, pressuring the group to not use a Time Reversion. This attack forced Aelita to transfer herself and a rookie William to defend the Core. However, William's excitement with Lyoko caused him to be separated from Aelita, at which point the XANA possessed him with the Scyphozoa and had him devirtualize Aelita. William then proceeded to the Core to join the monsters who were shooting at it.

William's powers allowed him to easily rip through the Core's shields, along with the other Lyoko Warriors when they caught up with him. With nobody left to defend it, William destroyed Lyoko and was deleted shortly after. However, XANA used its virus in William to salvage his DNA coding and turn William into its permanent slave.

With data sent by Franz Hopper, the Lyoko Warriors managed to reconstruct Lyoko. XANA used this as an opportunity to return William back to reality as a double agent and kidnap Aelita. Realizing that William could still be saved, as well as needing to uncover XANA's exact plans for the network, Jeremy and Aelita resolve to build a digital submarine to go after XANA on the network and retrieve William and Franz Hopper's DNA codes.

XANA became less concerned with the Lyoko Warriors and realized that Franz Hopper was the reason they kept bouncing back from their defeats. In order to assure their final defeat, XANA decides to have William try to delete Aelita in order to lure out Franz Hopper, which the Warriors figured out after the closest attempt failed.

The Lyoko Warriors eventually stumble upon the replicas of Lyoko and the supercomputers XANA uses to run them, resolving to destroy them and isolate XANA's program in the network. At their fourth outing, XANA creates a new, gigantic monster called the "Kolossus" which almost destroys their submarine and forces their retreat, but XANA also reveals William's DNA code to them in a miscalculated attempt to stop them in the real world. Their next encounter would be mutually assured defeat, as the Kolossus destroys their submarine, but the Lyoko Warriors manage to retrieve William from XANA's clutches.

Due to XANA destroying their submarine, Jeremy devised an "Anti-

XANA Program" based on Franz Hopper's original design of XANA, which he used a prototype version of to slow down the Kolossus long enough to save William. With the sub destroyed, Jeremy's only remaining option was to enhance the program so that it would be powerful enough to destroy every trace of XANA in the world.

After William was freed from XANA's control, Franz Hopper sent Jeremy some additional data to improve the Anti-XANA Program, prompting Jeremy to bring his friends to Lyoko and protect Franz while the two collaborated on the program. However, William was still anxious to go to Lyoko, so he joined them at the factory, but they ordered him to only come as backup. This would prove to be a bad compromise, as XANA sent his most personable Spectre to possess William knowing its destruction was drawing near.

The possessed William would go on a rampage in the factory, slowing down Jeremy's progress on the program. Meanwhile, the Kolossus threatened Franz Hopper as it dredged closer on Lyoko. Even though the Kolossus was taken down, the program didn't have enough power to be launched by Jeremy, so only Aelita could do it from the fifth sector's interface. Upon arriving, she noticed her father under fire and hesitated to launch the program. XANA's monsters finally destroyed Franz Hopper, which forced Aelita's hand. The program was run, causing a series of bubbles to emerge from the Core of Lyoko that destroyed XANA's monsters and the Lyoko replicas. Meanwhile in the real world, the Spectre that represented XANA the most was ejected from William and writhed in agony before disappearing completely, and assuring that the malevolent program had finally been destroyed.

Though XANA had suffered its first and final defeat, the Lyoko Warriors were not celebratory with its demise. Aelita and Jeremy were emotionally stirred by Franz Hopper's death, while the other Warriors, except William and Yumi, felt that they shouldn't shut down the supercomputer due to its impact on their lives.

After deciding that their story must not be told after a classmate discovers Jeremy's diary on the whole venture, the Lyoko Warriors resolve to shut down the supercomputer and silently move on with their lives, leaving XANA as a bad memory.

However, despite apparently being destroyed, XANA managed to survive in two separate continuities, indicating that the program managed to escape total destruction from the multi-agent system.

In the first continuity, the live-action series Code Lyoko Evolution, XANA managed to infiltrate a virtual world known as the Cortex. As the Cortex was not registered as one of the program's replicas, in addition to having a powerful firewall capable of destroying programs meant to cause direct harm to its functions, the multi-agent program was unable to destroy the remaining traces of XANA. However, the process had left XANA severely weakened and trapped in the Cortex. Unlike Lyoko, the Cortex had much more protective coding, making it near impossible for XANA to fully take control of it. However, XANA had a backup plan, just before its initial defeat, it had split a copy of its Source Code into four and integrated it into the Lyoko Warriors sans William and Jeremie without their knowledge, and rendered said codes dormant so as to avoid detection. After six months, XANA activated the codes and lured the Lyoko Warriors into reactivating the supercomputer, giving it the means to sustain attacks via its polymorphic specters, altered so that physical contact with the heroes would drain the Source Codes from them, increasing XANA's strength so that it could break out of the Cortex. Unfortunately for XANA, the program was unable to launch large-scale attacks due to needing the Warriors alive, and the interference from Professor Tyron, the man who created the Cortex, limited XANA's activity. The Lyoko Warriors eventually uploaded a virus into the Cortex, which threatened to delete XANA once and for all. Tyron had his supercomputer shut down so as to program in an anti-virus to stop this. At this time, XANA had retrieved 95% of its Source Codes, and, like the Cortex, was rendered dormant, meaning that once Tyron succeeded in programming it the anti-virus, XANA would be free once again. Due to the series not being renewed however, XANA remained down, but not out.

In the second continuity, a novel series known as Code Lyoko Chronicles, XANA was defeated at an earlier point in time. XANA's attempt at obtaining the Keys to Lyoko ended in failure, as Franz Hopper managed to reveal himself earlier, and gave the Lyoko Warriors the means to power up a different version of the anti-XANA program, which merely ejected and separated XANA from Lyoko. The process still weakened XANA immensely, leaving it to drift in the world network without the means to empower itself. Desperate and without memories, XANA eventually created a file housing its programming, looking for a vessel that would be best suited for infiltrating Kadic and killing its enemies once and for all. Choosing a girl known as Eva Skinner, XANA began to settle into its new circumstances, and learned of the Lyoko Warriors researching the history of the Supercomputer. Seeing a chance to gain its strength back, XANA befriended the group but planned on destroying them from the inside out. Seducing Odd, XANA managed to brainwash the boy, laying the groundwork for its return. XANA however, would later learn from Hopper's archives, a shocking truth, that he had been made with altruistic purposes in mind, and had been corrupted by leftover coding from a dark zone program that had been inserted Project Carthage, whose templates Lyoko had been created from. XANA would thus ally itself permanently with humanity, helping the Lyoko Warriors to defeat a terrorist group that was hoping to use Lyoko as a substitute for Carthage. While XANA seemingly sacrificed itself to upload a self-destruction program that would delete Lyoko for good, his programming was salvaged by the Lyoko Warriors, who managed to recreate XANA and bring him into the real world as a human.

It should be noted that neither of the above continuities are completely canon, as Evolution was disowned by the original show-runners, who confirmed that only a few of their ideas made it into Evolution and that the events within were not canon. Similarly, while the novels were written with the original documents in hand, not all of their events are noted to be canon either. Whichever is the case, it can be safely confirmed that while XANA suffered a crippling blow at the end of Code Lyoko, the program found a way to survive regardless…

---

Dark Matrix General: (avoids fire blast from William's blaster) **You know, William. I'm almost proud of you for becoming a leader after you betrayed me.** (to Maria) **And you must be his girlfriend. I'll deal with you once I finish with my former servant!**

Me: You'll have to get through me first X.A.N.A. And just for the record, I'm not the same as I was back when I fought you back then. I've gotten far more powerful since then.

Dark Matrix General: **How so?**

I was enveloped in a massive vortex of pure fire and it turned into a powerful phoenix and completely destroyed the entire factory and blew all of Dimmadome Acres away! When the phoenix faded I was now in my Super Ebonwu 30,000 Phoenix Fire form.

Me: This is how. I've far surpassed you and all the villains we killed in strength and power. Lets dance X.A.N.A.

We went at each other and I punched the Dark Matrix General in the face and sent him crashing into the wall of the rubble. Then the Dark Matrix General unsheathed its sword and I did the same and we clashed our swords extremely ferociously. Our swords were clashing with such extreme force and ferocity that it was unbelievable and sparks and embers were flying all over the place and setting all of the rubble of Dimmadome Acres on fire and it all turned into an epic and ferocious conflagration of incredible power. We stopped and stared at each other with incredible hatred directed at each other.

Dark Matrix General: **I HATE YOU MORE THAN LIFE ITSELF J.D.!**

My aura flared up with incredible power.

Me: Yeah fuck you too!

I kicked the Dark Matrix General in the stomach and sent him crashing through another wall.

Maria then swooped in and punched the Dark Matrix General in the face and she kneed his back with devastating force and brutally punched him and kicked him all over the place with indiscriminate fury.

Edzilla then appeared.

Edzilla: ED SMASH PUNY VIRUS! (headbutts Dark Matrix General)

POW!

Edzilla smashed the Dark Matrix General with extreme savagery and ferociousness.

Jeremie, Ulrich, Yumi, Odd, Aelita and William then stood ready with me.

Edzilla pins down the Dark Matrix General with his foot.

Dark Matrix General (groans in pain): **What have I done to deserve this?**

Aelita: (tears in her eyes) YOU CAUSED MY FATHER'S DEATH! AND YOU COMMITTED SO MANY CRIMES IN FRANCE AND EVEN POSSESSED SEVERAL OF OUR FRIENDS IN KADIC!

Jeremie: Including me!

Dark Matrix General: **Oh yes. Now I remember.**

Me: Not only that but you tried to kill the Lyoko Warriors on several occasions and you tried to kill thousands of innocent people.

Odd: Now you will die!

Edzilla threw the Dark Matrix General into the air and Jeremie fired a massive laser blast from his wrist laser. The blasts hit the Dark Matrix General and they exploded. Yumi and Ulrich unsheathed their elemental swords and they were surging with lightning and wind and they slashed the Dark Matrix General and the wounds on it exploded with extreme power.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Aelita spread her wings and flew up to the Dark Matrix General.

Aelita: THIS IS FOR MY FATHER YOU MOTHERFUCKING BASTARD!

Aelita fired a tremendous number of blasts of fire from her wings and the blasts hit the Dark Matrix General and exploded with incredible

power.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Odd fired laser blasts from his wrist guns and they hit the Dark Matrix General.

William fired a massive blast of lightning from his blaster and it electrocuted the Dark Matrix General.

Me: Time to finish you off for good X.A.N.A. This is our world and you are not welcome here!

Jeremie: Lets get him! MATRIX BLASTSTORM!

Jeremie fired a powerful blast of green energy from his wrist blaster. It hit the Dark Matrix General and exploded with incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Aelita: You will pay for your crimes X.A.N.A.! LYOKO DEATHRAY!

Energy from the towers in Lyoko formed all over the area and they channeled their energy into Aelita and she fired a powerful blast of energy at the Dark Matrix General and it hit him and exploded with incredible power!

KRABBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: You will never harm our planets ever again X.A.N.A.! I don't know what Franz Hopper was thinking when he created you. But he should've pulled the plug on you ages ago! You are one of the worst mistakes ever created in all of cyber technology!

Nico: X.A.N.A. you have failed this universe!

Me: And now to finish you off for good! (Cups hands to side) KAAAAAAAAA! MEEEEEEEEEE! HAAAAAAAAAA! MEEEEEEEEEEE!

The Lyoko Warriors had balls of energy that had the codes of the matrix ready to fire.

Me: This is for all the pain and suffering you've caused X.A.N.A.!

Me and the Lyoko Warriors: MATRIX FORCE KAMEHAMEHA!

The Lyoko Warriors fired green blasts of energy and they converged on a focused point and I fired a massive Kamehameha Wave and the blasts combined and turned into a massive green energy wave of unimaginable power and it slammed into the Dark Matrix General and enveloped it and sent it high into the sky where it exploded with incredible power.

KRABBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

X.A.N.A.'s evil spirit was sent into the River of Fire and we will never see it ever again.

Me: Go back to Hell and stay there.

Jeremie: (To the Viewers) It was so cool using a final smash.

Me: It sure was Jeremie. Well done.

Aelita: We did it for you daddy. You can now finally rest in peace.

Aelita then broke down crying hard and Jeremie comforted her.

Me: Jeremie, you take care of Aelita and help her out. We're going after Dimmadome next.

Jeremie: Okay J.D.

We went after Dimmadome next.

Edzilla (to Dimmadome): Cowboy dance for Ed! Or Ed will smash!

Dimmadome: Hey! I'm not gonna-

Edzilla: COWBOY DANCE FOR ED! (roars at him)

Eddy (aims blaster at Dimmadome): You heard him, cowboy. Dance for Ed!

Eddy fired his blaster at his feet and he danced like a dumb square dancer.

Nico: Doug Dimmadome, you have failed this city and you have failed at Square Dancing!

Me: Lets take him down guys! DRILL BOMB!

I fired Drill Man's Drill Bomb and it hit the ground by his feet and exploded into a massive fiery cloud and it sent Doug Dimmadome crashing into a giant vat of his milk.

CRASH!

Nico: I'm gonna slice you to ribbons Dimmadome! ROLLING CUTTER!

Nico fired Cut Man's Rolling Cutter and it sliced through the milk container and destroyed it.

Nico: Oh that is so awesome!

May: It sure is.

Me: Lets see what the powers of the robots can do when enhanced with Cyber Planet Keys. I'll start with Ring Man. RING BOOMERANG! VELOCITRON CYBER KEY POWER!

The Velocitron Cyber Planet Key went into my device on my left arm and it enhanced Ring Man's Ring Boomerang and enabled it to grow to huge size. I held up my hand and a huge ring the size of a car formed over my hand and I threw it and it slammed into Dimmadome's face with incredible force and it knocked out his teeth.

Nico: Oh that was so awesome! Dive Man you want to help me with a combo?

Dive Man: You know it Nico. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his torpedoes and his dive missiles 10-fold and it gave him the ability to become a submarine capable of firing lasers and missiles and move at 75 miles per hour.

Nico: Time for some awesome action. DIVE MISSILE! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Nico's device and it enhanced the dive missiles 10-fold.

Nico and Dive Man: HOMING TORPEDO BARRAGE!

Nico and Dive Man fired huge torpedoes and they hit Doug Dimmadome and exploded with incredible power.

KRAAAAABBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: That was awesome! Lets see how Pharaoh Man does it. PHARAOH SHOT! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into my device and I held up my hand and a huge ball of Solar Fire appeared in my hand. The ball of Solar Fire was as big as a whole car and it looked like I was holding the Sun itself in my hand.

Lori: Wow! Look at that huge ball of fire!

Jaime: It's like J.D. is holding the sun in his hands.

Syd: Oh that is awesome!

I saw the huge ball of solar fire and I was amazed.

Me: Wow! It's like I'm holding the sun in my hand.

Nico: It sure does look that way. That is so awesome!

Me: It sure is.

I threw the ball of Solar Fire at Dimmadome and it hit by him and exploded into a massive explosion of pure fire.

KRRRAAAAABBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful that it looked like someone detonated 400 tons of napalm all at once.

Yuko and Lola absorbed all the fire in the area.

Me: Wow! What power!

Nico: That was intense!

Me: It sure was. I think Pharaoh Man was easily the strongest of the Robot Masters we faced. That was an amazing demonstration. Now we know we can utilize the weapons and powers of the robots once under Dr. Wily's control and enhance them with the Cyber Planet Keys. Lets finish him with our combos.

Dive Man: Roger that J.D.

Shrapnel: Lets get him! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his lightning abilities 100-fold.

Dive Man and Shrapnel: LIGHTNING TORPEDO ONSLAUGHT!

Dive Man fired Dive Missiles and Shrapnel fired a powerful blast of lightning and the lightning merged with his torpedoes and they hit Dimmadome and exploded and electrocuted him

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM! ZZAAAAAAAAAAAAAAAAAAAPPPP!

Ice (DC): (Scandinavian Accent) Lets show this clod some teamwork! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her device and it enhanced her ice powers 100-fold.

G1 Bumblebee: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back bumper and it enhanced his abilities and gave him the ability to fire a powerful laser cannon that pops out of his back in car mode and it became a separate blaster in robot mode.

Ice and G1 Bumblebee: ABSOLUTE ZERO LASERSTORM!

Ice fired a massive blast of ice energy and it had a temperature of -459.67˚ Fahrenheit or Absolute Zero and Bumblebee fired a laser blast and the blasts combined and they froze Dimmadome in a big block of ice.

Me: You are going to spend the rest of your life in prison Dimmadome.

J.D. 2: J.D. I sense 4 more Shen Gong Wu. They are in the basement of this factory.

Me: Which ones are they?

J.D. 2: One is called the Reversing Mirror, the 2nd one is the Hoduku Mouse, the 3rd one is the Ring of the 9 Dragons and the last one is Glove of Jisaku.

Me: The Unwind Mouse, the Glove of Work, The Ring of the 9 Dragons and the Reversing Mirror? Interesting. What do these Wu do?

J.D. 2: The Reversing Mirror has the power to reverse the powers of other Shen Gong Wu, the Hoduku Mouse has the power to fix any mistake, the Glove of Jisaku allows the user to attract any object including other Shen Gong Wu like a magnet and the Ring of the 9 Dragons divides the user into 9 entities with their own personality.

Me: That's incredible! Show me where they are.

The E symbol in the middle of my forehead glowed red and fired 4 laser beams that directed me to them and I found them in the basement behind some barrels full of milk.

The Reversing Mirror resembles to a structure like mirror size rectangular like lightbulb. It had the Ying-Yang symbol in the middle.

The Glove of Jisaku resembled a brown oven mitt when not in use but sprouted out red magnet bars when activated.

The Hoduku Mouse, like its namesake, was in the shape of a mouse. It was gold and bronze with ruby eyes. It had a goldenrod tail.

The outer ring shell was black, taking the shape of a dragon's back. The core of the ring had golden lining. It had a golden gem embedded at the top.

Me: There they are.

I picked them up and put them in a bag I always carry with me.

We restored all the damage that was dealt to Dimmsdale and we sent Doug Dimmadome into the Uranus Prison. He was sentenced to 572 years in prison and was ordered to pay $923,000,000,000,000,000,000,000,000,000,000,000.00 in restitution. During the whole battle Nico caught a Sealeo and a Huntail. We went back to the estate and it was grand victory for us.

THE END

---

Another Fanfiction Complete

Jo is a major league jerk and is the worst ever jerk in all of the history of Total Drama. She doesn't care about anyone but herself so we decided to have Lily and Mr. Krabs rub it in her face. Also I wanted to have our Genderbent selves move in with us because I figured it would add some excitement. It would be cool having twins of ourselves as siblings. I figured we could also meet Syd's parents as well. Becca is voiced by Melissa Joan Hart, who I've known on Nickelodeon for a really long time and she did a great job on Clarissa Explains It All and Sabrina the Teenage Witch and she was awesome! The last part of this chapter is where we faced Doug Dimmadome from the Fairly Oddparents. He reminded me of the Rich Texan from the Simpsons. NicoChan11 gave me the ideas for this one. Let me know what you all think.

See you all next time.

# House For Imaginary Friends

HAPPY BIRTHDAY RACHEL SAN DIEGO!

---

It starts at the estate. We were watching TV and reading books. I was playing pool with John and Dr. Bolton.

Me: 8 and 9 balls in the side and corner pockets.

I hit said balls into said pockets.

Dr. Bolton: Well done J.D.

Me: Thanks Dr. Bolton.

The doorbell rang.

Girl Lynn: I'll get it.

She went to the door and opened it and then she saw 4 more gene-slammers. One was half human, half Thresher Shark. The 2nd was half human, half Wobbegong Shark. The 3rd was half human, half lobster and the last one was half human, half king crab. They were all girls.

Girl Lynn: Wow!

Thrashtail: (French Accent) Are the Street Sharks here? We're friends of theirs.

Girl Lynn: Yeah they're here.

They came in and we saw the Gene-Slammers.

Me: Wow.

Bobby B.: Regine? Is that you?

Thrashtail: Yes Bobby it's me.

Stacy: What happened to you guys?

Me: This is definitely Dr. Luther Paradigm's handiwork.

John: Regine, what happened to you?

Thrashtail: I've now become Thrashtail. I have this abnormally long strong shark tail with this huge tail fin that packs a powerful punch.

Me: How did Dr. Fishfuck slam you girls?

Swiftray: (Spanish Accent) He hit each of us with tranquilizer darts full of his splicing formula. I'm Ingrid Martinez. But I'm also known as Swiftray. I was spliced with Wobbegong DNA.

Lobclaw: (German Accent) I'm Sue Schnitzelbach. But I'm also known as Lobclaw. I was slammed with Lobster DNA.

Giantclaw: (British Accent) And I'm Kay Tudor. But I'm also known as Giantclaw. I was spliced with King Crab DNA.

Me: It's a pleasure to meet you.

Bobby B.: What were you all doing when Dr. Piranha Breath slammed you?

Thrashtail: We were having a study party. It was right after you and your brothers continued your crusade against zat awful madman Paradigm.

---

Thrashtail: (Narrating) We were studying for our test when suddenly we felt zis extremely excruciating pain.

The girls all held their stomachs in incredible pain.

Regine: WHAT IS HAPPENING TO ME!?

Ingrid: I don't know but it hurts amigo!

Then they all started to change. Regine's skin turned dark blue and her clothes began to stretch as she grew muscular and they ripped to shreds and she grew a fin on her back and her teeth turned into razor sharp teeth and then she grew a long tail out of her butt. Ingrid's skin turned light brown and her grew flatter and thinner and she had a huge whip-like whiskers and she grew two shark fins on her lower back and her shirt was shredded. Sue's skin turned dark red and her hands turned into huge lobster pinchers and she grew lobster shell and her shirt shredded apart and she grew a long lobster tail out of her butt. Kay's skin turned light red and her hands turned into spiked king crab pinchers and her upper body turned into a king crab shell and she grew 2 more sets of legs and she had the ability to crawl on walls like a spider. She had a spiked carapace and her strength increased dramatically. Her shirt was completely shredded.

The girls looked at themselves in the mirror and they screamed in horror.

Regine: What happened to us!

Ingrid: Someone slammed us!

Sue: When we find them they will pay for this!

Kay: Not if the Street Sharks and Team Loud Phoenix Storm get them first!

FLASHBACK ENDS

Thrashtail: And that's how we ended up like this.

Me: And we killed Dr. Luther Paradigm and made him pay for his crimes against Mother Nature and to the world.

Giantclaw: You killed him!?

Me: We sure did. Dr. Luther Paradigm did all kinds of terrible things to not just you girls but also to Dr. Bolton and his family and many others. They've ruined so many lives and took away their humanity.

Stacy: That's right girls. And the last time we saw each other we found a formula that reverted us back.

Me: Really? When was this Stacy?

Stacy: It was before we met you guys and killed Dr. Fishfuck.

* * *

Stacy: (Narrating) Bobby stole a bunch of tubes containing a formula that can reverse Gene-Slamming from Paradigm. But trouble is, we had to take another dose of the formula exactly 8 hours after taking the first dose to make it permanent. We found the key to curing us.

They took the formula and they were in a lot of pain and they were changing back to human again. They regained their human skin and their hair.

John: I'm back to normal!

Clint: Hey it works!

Coop: Oh this is awesome!

Stacy: It sure is.

Clint: Uh you may want to put a shirt on Stacy.

Stacy: No way. I'm so ecstatic!

FLASHBACK ENDS

Stacy: We thought it would be the key to restoring our lives. But we then realized that without our enhanced abilities as the Street Sharks, we couldn't stop Dr. Fishface and his Seaviet cronies. We couldn't stop them on our own power.

Me: So Dr. Fishbreath did invent the antidote.

Clint: He sure did J.D.

Coop: But we decided to let the antidote wear off and turn us back.

* * *

John: (Narrating) We were chasing after Piranoid and his freaks of nature when we started to change back again.

Stacy: (Groans in pain) I always will hate this part!

They changed the same way they changed the first time. They regained their abilities as the Street Sharks.

FLASHBACK ENDS

Me: What Dr. Luther Paradigm did to all of you was absolutely terrible. But regardless you all were given a great gift and with great power comes great responsibility.

Bobby B.: That's right. And we were given the power to stop Dr. Paradigm and his cronies.

Me: That's right. But Dr. Paradigm and his cronies aren't the only ones terrorizing our planet as we speak. There are other evils still out there.

Stacy: And we have to stop them.

Dr. Bolton: That's right.

Me: But Regine, I can cure you and give you all the ability to change into your gene-slammed forms at will.

Thrashtail: How can you do that?

Me: I have the power to do anything. Plus I did the same thing to John and his family and their friends. They have the same ability.

Trudy: That's right. I'm half Human, half Flying Fish.

Valerie: I'm half human, half Megalodon.

They explained what they were spliced with.

Thrashtail: That stupid Dr. Paradigm!

Me: And it's not just Dr. Luther Paradigm. It's Dr. Roland Paradigm as well.

Lincoln: Dr. Roland Paradigm is Luther Paradigm's brother and he specializes in gene-slamming with land animals.

Stacy: I have a strong suspicion that Dr. Paradigm's family is tampering with the laws of nature by splicing people with animals of the three great powers of the animal kingdom: Land, Air and Sea.

Giantclaw: That is a dangerous business.

Me: It is. But lets turn you all back to normal and give you all the ability to change into your gene-slammed forms at will. But this is gonna hurt a lot.

Thrashtail: We're ready J.D.

Me: Okay. Boys, better cover your eyes.

Nico sprayed his eyes with pepper spray.

Me: Nico, I still think spraying your eyes with pepper spray is going a little overboard.

Nico: (Grunts) I know but it works.

Me: Whatever works.

We covered our eyes and I snapped my fingers and Regina, Ingrid, Sue and Kay started reverting back. But it was excruciatingly painful.

Gear (to Maria): It was never that rough for you when you became mutated by the Big Bang.

Maria: I know. And at least my swimsuit was still intact when I returned to human form.

Me: That's true.

Regine (grabs a table): Hello, table. You and I are gonna be spending quality time for a few minutes.

Kay (braces herself against the wall): I don't believe it. I'm human again!

Sue (holds her stomach in pain): My stomach has butterflies from transforming.

Ingrid (glares at us as she covers her topless chest): Do you boys mind? I'm not wearing a shirt right now!

Me: We have our eyes covered Ingrid.

Ingrid: Oh sorry.

Maria: Lets get you four some brand new clothes.

Regine: Thank you Maria.

They went up to Leni's room.

We uncovered our eyes.

Me: Whew. The Paradigm brothers are send our clothing bills through the roof.

In Leni's room, Regine had a blue summer shirt with a thresher shark on it and she had an awesome blue sleeveless trench coat with the ocean on it and it had the kanji for Blue Thresher Shark Destroyer on the back. オナガザメ嵐

Regine: Wow! I look amazing.

Leni: Ocean goes totes perfect for you.

Ingrid had a yellow summer shirt on with a wobbegong on it and she had sleeveless trench coat with the desert on it and she had the kanji for Desert Wobbegong Glider on the back. 砂漠ウォッベゴングライダー

Ingrid: I look amazing.

Maria: Deserts are perfect for you Ingrid.

Sue had a red summer shirt with a lobster on it and she had a sleeveless trench coat on that had lobsters on it and she had the kanji for German Lobster Thrasher on the back. ドイツロブスタース

ラッシャー

Teresa: You look awesome Sue.

Sue: I look amazing ja.

Kay had a light pink summer shirt with a King Crab on it and she had a sleeveless trench coat with the flag of Great Britain and the kanji for Queen Elizabeth's Knight of Crabs on the back. エリザベス女王のカニの騎士

Kay: I look very stylish.

Maria: You sure do Kay. Me, Leni and Teresa make awesome clothes.

---

Later in the living room I was watching Mr. Crocker's insanity level rise slowly. It was at 9,977% and rising slowly.

Me: We're almost there Mr. Crackfuck. Soon your brain with be removed and your body will be destroyed.

Wanda: I still think removing Crocker's brain is a bad idea.

Me: I know Wanda. But I've always been that much of a risk taker. When you're a warrior you have to do risky and dangerous things to make sure that you get the job done.

Wanda: Well, that is true.

Cosmo: You should eat some boogers while you're at it like I do with my feet.

Cosmo did so and I bashed him on the head with a frying pan and sent him spinning into our ceiling fan and it threw him into a garbage can and he crashed into the wall and was rattling all over the place. We laughed at his misfortune.

Wanda: Okay now that was funny.

Me: It sure was amusing.

Lincoln then saw something out the window.

Lincoln: Hey guys look at this!

We went to the window and we saw a huge yellow mansion down the street at the edge of the suburb.

Me: I know that house. That's Foster's Home for Imaginary Friends. It's an adoption center for all kinds of Imaginary Friends that were given up.

Lori: Oh that place is literally awesome! It's where I adopted my imaginary friend Windcloud. Right?

A small little tornado no bigger than Lori's head appeared and he had blue eyes.

Windcloud: (Southern Accent) You darn said it Lori.

Lana: That is so cool!

Lucy: I actually know a classmate that goes there every day.

Lana: Yeah, his name is Mac and he's an awesome and smart kid.

Lola: Yeah.

Me: Lets go check it out.

We went down to Foster's.

We walked down the street and we saw Mac. Mac was a brown hair boy with a red shirt and green pants.

Me: Hey Mac!

Mac: Oh hey guys. Hey Lucy.

Lucy: Hey Mac.

Me: You heading over to Foster's?

Mac: Yep. I go there every day after school. But since today is Saturday, I might as well visit anyway.

Me: We're heading there to check it out.

We went to the door and Mac rang the doorbell. The door opened and a girl with red hair, a green jacket, a white shirt and blue shorts answered. It was Frankie Foster, co-manager and granddaughter of Madame Foster who owns Foster's Home for Imaginary Friends.

Frankie: Oh hey Mac.

Mac: Hey Mac.

Lori: Hey Frankie.

Frankie: Oh hey Lori.

We went in.

Me: Wow! So this is Foster's. It's breathtaking.

Laney: It sure is.

We heard hopping coming and we saw a man size rabbit imaginary friend. It was Mr. Herriman, Madame Foster's Imaginary Friend.

Mr. Herriman is a man-sized rabbit friend who wears a top hat, a monocle, a tuxedo coat, white gloves, a bow-tie, a yellow vest, and a mustache while speaking in an English accent in a personification of the Edwardian era. He is the head of the house and runs things for Madame Foster, his creator. He is the oldest friend in the house, which is something he is quite sensitive about. He is named for Krazy Kat creator George Herriman, with a pun on "hare."

He stands six feet tall (seven feet with his top hat on) and weighing in at 210 pounds. Quite the opposite of his carefree and calm-tempered creator Madame Foster, Mr. Herriman is a stickler for rules, having made many silly and impractical rules in an attempt to keep everything "running smoothly," to the point of being ridiculous. He usually refers to others in a proper manner, calling males "Master" and females "Miss" in front of their names, the only time he actually calls people in normal fashion is when he is in pure terror. He is shown to have an addiction to carrots (which he will go to great, even desperate, lengths to hide), despite his best attempts to ignore or get over the weakness. He is phobic of dogs and is easily sent into a panic whenever he comes across a dog or anything dog related because dogs are natural predators of rabbits. Because of this, he made a rule that no dogs are allowed in the home.

He is frequently called a badger by Goo, throughout the show until the episode "Bus the Two of Us."

Mr. Herriman, though proper, has often shown a lack of social skills. His ways of being proper are to the point to where the other imaginary friends cannot stand him or be around him, his ways of keeping things "running just the right way" often inconvenience the other characters to the point of being disrespectful. Frankie has a strong disliking towards Mr. Herriman, due to his constant lack of consideration towards her and often talks her down, whether he is aware of it or not. At the end of "Destination Imagination," however, he realizes his poor judgment towards her after witnessing how she handled World, even putting forth an agreement to have the other friends help her around the house. He has a strong disliking for Bloo, due to his chaotic nature and constant rule breaking.

Although Mr. Herriman is a strong stickler for the rules, he is often over-ruled by his creator Madame Foster. Despite the fact that they often disagree on things (rules mostly), Herriman and Madame Foster have an unquestionably loving relationship, and at times Herriman will appease his creator much in the way that he did when Madame Foster was a little girl (such performing his 'Funny Bunny' dance and song for her when in private). He is also very protective of Madame Foster, to where even she tells him to relax. Mr. Herriman was featured in Cartoon Network's comic series based on the show, hallucinating Madame Foster as a little girl after getting high on cleaning solvents in the "Ill Will" issue. Herriman recalls in the issue how, as a young child, Madame Foster spilled something over and when questioned by her parents, she blamed him, so he claims that incident as being his reason for obsessing over cleaning, rules, and manners, to avoid getting in trouble again.

Mr. Herriman is very passionate about his job as the house president, taking the job seriously, as he's stated that being the president of the house makes him feel like he is needed and important to the Foster community. Herriman is surprisingly old fashioned, even believing that the internet is an actual net. It is believed that Madame Foster created him during the 1930s, making him believe the 2000s are still running in the old-fashioned ways of living.

Mr. Herriman is comparable to Captain Peacock from the British TV sitcom Are You Being Served? mainly his being a stickler for rules, similar accent, and upper-crust attitude. This was derailed in the episode "Let Your Hare Down," when his alter ego, a hippie type called "Harry" had no regard for rules until William Collector came and he became his old self again.

Mr. Herriman: (British Accent) J.D. Knudson and all of Team Loud Phoenix Storm. It's such an honor to have you all here.

Me: It's a pleasure to meet you too Mr. Herriman.

We saw a tall Imaginary Friend come up. It was Wilt. He was a tall red Imaginary Friend as tall as a basketball player.

He has big stitches on the side of his head. Only his right arm is usable in a normal manner. He has a stubby left arm, but it can be used to hold small things, as we see in Where There's a Wilt, There's a Way, when he holds a bowl of chips with his left arm. His eyes are on stalks protruding from his head; the left eye is utterly broken, so it rattles when it moves and the eyelid doesn't open and close at all some of the time. According to his Coco Card, he is the tallest of the imaginary friends (although this may not be true since the Big Fat Baby, the New Guy, Extremeasauruses, Foul Larry, and many others seem to be bigger and stronger) at ten feet tall and 130 pounds of lean muscle (as he said in Room with a Feud- "I'm a lean, mean muscle machine!"), and strong enough to lift Eduardo, if only for a few seconds.

His usual outfit is tube socks, his single wrist sweatband and large black and white chucks. His shoes always cause a squeaky sound whenever Wilt walks on a surface of any sort. He can wear clothes, such as suits and t-shirts in various episodes, but normally does not.

Although he is never seen wearing them, he owns blue striped pajamas, along with reading glasses, both of which are seen in the episode "Foster's Goes to Europe".

Me: Wow! You're a tall guy.

Wilt: Thanks J.D. My name is Wilt. It's such a pleasure to meet you.

Me: Pleasure to meet you too Wilt.

Then a big strong purple fur imaginary friend came. It was Eduardo.

Eduardo is a muscular seven-foot tall (to his horns), 542-pound monster-like "guardian friend". He resembles a mixture of a minotaur and beasts from Maurice Sendak's Where The Wild Things Are with his purple fur, horns, fangs, devil-like tail, and skull-shaped belt buckle. He also has a unibrow and wears gray pants.

Eduardo: Hola. I'm Eduardo and I like potatoes.

Me: Pleasure Eduardo.

Then another Imaginary friend appeared. It was Coco.

Coco is kind, helpful, funny, ditzy and surprisingly sarcastic, despite the fact she only says one word. Coco has a palm tree for a head, a crooked red beak, a blue and white aeroplane body, and orange legs. Coco's creator, according to a golden trading card in the Foster's Home For Imaginary Friends Leapster game, is created by a girl who crashed on a desert island, which could explain her appearance of the palm tree head and airplane body. She was discovered by two scientists named Douglas and Adam (called "nerds" by Bloo), who were introduced in "Good Wilt Hunting." Since they found her alone, it's never been stated or known what became of Coco's original creator. Although Coco has attempted to tell Douglas and Adam, they may have either unintentionally ignored her or not understood what she was trying to say. Throughout "Good Wilt Hunting," it's shown that she acts as a motherly figure towards Douglas and Adam. She is 4 feet tall and weighs 80 pounds.

Coco: Coco coco coco Coco. Coco cocococo.

Me: I don't understand.

Wilt: She says her name is Coco. And it's a pleasure to meet you.

Coco: Coco.

Me: Pleasure to meet you too Coco.

Then we saw another Imaginary Friend. It was Bloo, Mac's Imaginary Friend and best friend. But he was very sad for some reason.

Me: What's wrong with him?

Bloo: (Crying) Mac's brother Terrence and Duchess hurt my feelings!

Eduardo: Aw! Do you need to be tickled, Azul?

Mr. Herriman (smacks Eduardo on the head): Master Eduardo! This is not something to be laughed at. Master Blooregard is going through some serious emotional pain and humiliation right now. And unlike most incidents that he is involved in, he did nothing to deserve this treatment from Terrence and Duchess, who I am currently too disgusted with to even address formally at the moment!

Bloo (depressed with tears still in his eyes): It's ok, guys. Terrence and Duchess were just doing what everyone else seems to do. After all, I'm just a loser and a moron, just like they said. Mac's mom hates me, you guys are obviously disgusted by me at this point, and now this. I just can't take this anymore. Now if you excuse me, I'm going to be in bed crying myself to sleep.

With that, Bloo headed to his room slowly and sadly. And all of us could only watch him in sadness. Even Mr. Herriman.

Me: Poor guy.

Lori: (INFURIATED GROWLING) THAT LITERALLY MAKES ME MAD!

Lori went to go find Terrence and Duchess.

She found them in the backyard. Terrence and Duchess saw her.

Lori (glares at Duchess and Terrence): For making Bloo cry, I am literally going to turn you two into human pretzels!

Duchess (smirks evilly): What's more important right now? Bringing us to justice? Or comforting poor Bloo?

Lori growls, knowing that she was right.

Terrence (smirks): Either way, we win! (punches Lori in the stomach)

The two jerks then laugh evilly as Duchess goes back to her room while Terrence goes back to Mac's apartment.

Me: Those fucked up freaks!

Mac's friend Goo appeared and she was shocked.

Goo: Mac, I just got here a few seconds ago. You want to tell me what's going on? (sees us) Besides Team Loud Phoenix Storm being here, of course! Can I have your autographs?

Star Sapphire (chuckles): Maybe later, Goo.

Mac: Well, Goo. Terrence and Duchess said some mean things to Bloo that really hurt his feelings. So now, Bloo's probably going to lock himself up in his room for the rest of the summer.

Lori: Rest of the summer? Try literally the rest of his life!

Wilt: I'm sorry. But I don't think that's how you say use literally correctly.

Me: You get used to it Wilt. She says that all the time.

Upon hearing the simplified truth about what happened to Bloo, Goo flared up in an uncharacteristic rage.

Goo (in a low voice): So what are we gonna go about it, Mac?

Lola: Simple. We track those two jerks down and teach them why it's not wise to poke the sleeping bear!

Mac: No. We can't beat them up right now. Terrence would just go to the police and say we attacked him for no reason. We need to be smart and humiliate the two of them. (smirks) And I think I know how.

Mac huddled us together and he revealed his plan.

Me: Ooh Mac that's brilliant!

Luan: I like your style Mac.

Lynn: Look, Mac. I actually think this prank is brilliant. (sternly) But, there's a good chance Terrence and Duchess might hurt more people before tomorrow. And when that happens, it'll be your fault, since you're not letting us go after them now.

Mac: I know Lynn. But it's worth it.

Later the next day, Bloo was laying on his bed. Mac came into his room.

Mac: Hey Bloo! You got to see what we did.

Mac picked him up.

Bloo: Put me down, Mac! I don't want to get laughed at again!

Mac: Relax, Bloo. I think you'll enjoy this greatly.

Bloo nervously looked at Terrence and Duchess only to see their new pink colors, making him laugh out loud.

Bloo: HaHaHaHaHaHaHaHa! Hey, Duchess and Terrence, looking good! The color of Barbie really suits you two!

Once they had heard this, Terrence and Duchess gave an enraged charge with intent to kill.

Maria (trips them with water puddle and they fell into pig poop): Ed!

Cheese! Sit!

Upon hearing the command, Ed sat down on Terrence's head while Cheese sat on Duchess' head. Ed and Cheese then quickly farted a foul smell on Duchess and Terrence.

FART!

Cheese: I pooted.

Ed: Sorry, Terrence. But Mom has me house broken!

Bloo: Man, I'd like to meet the guy who pulled this kind of prank off.

It took only a few triumphant looks from the imaginary friends to realize who got Duchess and Terrence in their trap.

Eduardo: It was all Señor Mac's idea, Azul. He was really mad at Terrence and Duchess for what they said to you yesterday so he decided we should set up a bunch of booby traps for them!

Bloo: Really, Mac? You did all that to those two losers? I didn't know you had it in you. Remind me never to get on your bad side!

Mac: Bloo, you might be a jerk sometimes. And you might drive us crazy with the stunts you pull. But no matter what, you'll always be my best friend.

Bloo: Thanks Mac.

The prank they did was very well planned and thought out. Terrence and Duchess stepped on a tripwire that activated a spring-loaded boxing glove that sent them careening down a hall on a red wagon and they got pelted with raw sewage, pelted by raw eggs, splattered with rotten cheese, mauled by rabid raccoons and a bucket of pink paint splattered all over them.

Me: And we also helped him. It's time for us to pulverize these freaks.

Nico: Terrence you have failed as a big brother and as a human being.

Me: What he said. You're a fucked up freak Terrence. You give all brothers everywhere a really bad name.

He is the 13-year old brother of Mac, the series protagonist, and like many older brothers enjoys picking on his little brother - however Terrence goes beyond the usual antics of an older brother, being a downright bully towards Mac on many occasions, in fact he seems to make it his main priority in life to make Mac as miserable as possible. He even later on gains his own imaginary friend is named Red. His desire to torment his younger brother for his own amusement has led him to even deliberately place Mac in life threatening situations without regard for his safety though he always receives his karmic punishment for his malicious actions.

However, like many bullies in cartoons Terrence is extremely dumb and as a result is easily outsmarted - this does not seem to stop Terrence from trying new ways to do bad things to Mac and his friends, not seeming to learn much from his many mistakes in the past. In the shows first ever episode. He appears as one of the two main antagonists throughout the whole episode; serving as the main, later secondary antagonist throughout the whole episode.

For he was the primary threat at first until he became a minion for the main villain throughout the rest of the episode.

Terrence: That's because I don't care about Mac! He's a deadbeat loser and he is a mistake!

We all gasped in horror and our expressions turned into those of pure rage.

Me: You're a heartless sociopathic freak!

Terrence: I don't give a flying fuck what you think! I want Mac dead! I hate Mac more than life itself and I did all those horrible things to him because I wanted him dead! I wanted him to suffer! He's a useless moron! I tried to kill both him and his fucking friend with an extreme-a-saur and I tried to kill him more than once! I destroyed our apartment to make him suffer more! And I'm the one that got mom to send him to this dump!

Me: You are a total monster!

Frankie: You are the true mistake you heartless beast!

Me: I should kill you where you stand Terrence. You make Charles Manson himself look like a joke!

POW!

I punched Terrence in the face with powerful force and knocked him down and gave him a huge black eye.

Me: Now we're gonna do what we should've done to you!

Lori: But what you say to Bloo?

Terrence: I called him the worst imaginary friend ever created and he makes other Imaginary friends look like fucked up douchebags that smells like piss.

Duchess: And I called him the worst and most disgusting and most vile thing ever thought up and that Mac is the worst mistake ever.

WHOA! THAT IS EXTREMELY CRUEL AND HARDCORE!

They laughed maniacally and when we heard them say those things we were so mad that our heads exploded into fire!

Me: YOU MAKE ME SICK!

Nico: You have failed everything!

Duchess: You think you've all won? Think again?

A roar was heard.

Frankie: Eduardo, please tell me that was your stomach growling!

Out in the backyard we saw a deadly imaginary fiend called an EXTREMEASAUR!

Most of the Extremeasaurs have the grotesque appearance of monsters, or in rare cases, very innocent and harmless looking, like the Extremeasaur Champion seen in "Eddie Monster." They can be exceedingly taller than Wilt in most cases, or are no more bigger than Bloo otherwise. Size does not deter the fact that these monsters are extremely dangerous; even the smallest of ones can be deadly, which is what explains the reason that they are kept within confinement.

They have such great power, fearsome looks, and almost no intelligence whatsoever because they are fighting machines. Despite that, there was one Extremeasaur which wasn't even strong enough to take a punch to the face, meaning Extremeasaurs have certain weaknesses, which Eduardo kept accidentally exploiting. Some weaknesses are that they are made of metal, and when Eduardo weeped, the monster turned to rust.

Me: What the heck is that!?

Frankie: That's an Extremeasaur!

Me: That thing is ugly!

Duchess: Now we are gonna kill you all and destroy you! My pet, KILL THEM ALL!

The Extremeasaurus roared ferociously.

Me: Take it down!

We went at the Extremeasaur and I punched it in the face and knocked out some of its teeth!

Lori (fires wind blast at Extremeasaur): You know, Mac. This monster literally wouldn't be attacking us right now if you had just let us beat up Terrence and Duchess right away.

Mac: Yeah, I'm starting to think that you're right.

Wilt (to Lori): Ok, after this is over, I'd like you to look up the word "Literally" in the dictionary that I have in my room.

Me: Lets get him! THUNDER BEAM! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into my device on my left arm and it enhanced the Thunder Beam 100-Fold.

Me: Eat Lightning you fucker!

I fired a massive blast of lightning at the Extremeasaur and it roared in pain as it was being electrocuted painfully with 100,000,000,000,000,000 volts of electricity.

Nico: Time for some action. Drill Man would you like to join me in a combo?

Drill Man: You know it Nico.

Nico: DRILL BOMB! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his device and it enhanced his Drill Bomb to the explosive power of a thermoberic bomb.

Drill Man: Lets get him! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it gave him the same enhancements.

Nico and Drill Man: NAPALMIC THERMOBARIC DRILLBOMB BARRAGE!

Nico and Drill Man fired huge Drill Bombs and they hit the Extremeasaurus and exploded with incredible power.

KKKKKRRRRRRRRRRRRRRRRRRRRRRRRRAAAAAAAAAAAAAAAAAA

The Extremeasaurus was sent crashing into the hill.

Edzilla (punches Extremosaur): ED SMASH IMAGINARY FIEND!

Me: Lets get him! Combo time guys!

Girl Lynn: You got it! Ron Fox! You're up!

Ron: You got it Coach Lynn! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his device and it enhanced his water powers 100-fold.

Ironhide: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his blaster and it enabled him to fire sulfuric acid and salt acid.

Ron Fox and Ironhide: OCEAN WATER DISINTEGRATOR BURST!

Ron fired a powerful blast of water and Ironhide fired a powerful blast of salt acid and the blasts combined and they hit the Extremeasaur and it burned him bad.

Star Sapphire: Lets have some fun! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm and it gave her the powers of Zamaron and the fury of the power of love.

Bludgeon turned into his Revenge of The Fallen form.

Bludgeon (ROTF): Time for some awesome fun! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his abilities. Bludgeon has high-powered antennas that produce electrical fireballs with a range of over 400 yards. His battle armor secretes ordorous, mucus slime. His smoke generators in legs produce billowing clouds of black smoke that disorient the enemy. He also has high-voltage electric cannon. It also enabled him to fire fireballs that explode with the power of thermobaric bombs.

Star Sapphire and Bludgeon: LOVEFIRE FIREBALL DEATHSTORM!

Star Sapphire fired Love blasts and Bludgeon fired a massive barrage of fireballs and the blasts combined and they hit the extremeasaurus. The blasts hit him and they burned him. Extremeasaurus's hate love and they were born out of pure hatred.

Me: Lets finish this freak off! Final Smash Time!

Drill Man: You got it! C4 DRILL BOMBSTORM!

Drill Man fired a massive barrage of Drill Bombs and they all hit the Extremeasaur and exploded with the power of 40 tons of C4.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Bloo: Time to finish this freak! BLUEBERRY PULVERIZER BOMB!

Bloo fired a powerful blast of energy into the air and it turned into a massive blueberry and slammed into the Extremeasaurus and killed it with a crushing force.

CRUSH!

Me: That's that!

Mac's mom then came and she was infuriated! She walked up to Terrence and when he saw her, he knew he was in a lot of hot water.

Mac's mom: Terrence you are in a lot of trouble mister! How dare you torture Mac all of these years, and how dare you tried to get Mac's imaginary friend killed by a monster, and how dare you wreck my apartment a long time ago!? That's it, Terrence! I strongly dislike your behavior over the years! I saw and heard everything you said thanks to Luan here.

Me: And now you are under arrest!

Raythor (looks at Mac's mom as Terrence tries to run away): You realize that if he gets away, you'll be charged with child neglect due to how Terrence turned out. And we would have to arrest you.

Mac's Mom: Really?

Miranda (smirks): After we beat you up first. But that's only if Terrence gets away.

Me: That's not needed Miranda.

I had Terrence tied up.

We sent Terrence into the Venus Prison Maximum Security Section for life without parole. And Duchess was sent to the newest prison we have: The Jupiter Prison for bad Imaginary Friends. Mac's Mom completely understood what Mac was doing.

Bloo: (To the Viewers) I'm glad that dork Terrence and Ms. Bossypants Duchess got what she deserved.

Me: Me too Bloo.

Mac: Thanks for helping me get rid of my former brother J.D.

Me: My pleasure Mac.

Nico also caught a Relicanth and a Luvdisc.

Maria: Frankie, do you see yourself as Mac's sister?

Frankie: I sure do Maria. He's like the little brother I've always wanted. And Mac says the same thing about me.

Maria: Wow. That is a powerful bond.

We were amazed.

---

Back at the estate, Rachel came back from shopping at the mall. Rachel came into the house and everything was all dark.

Rachel: I wonder why everything is all dark.

She flipped the light switch and we jumped out.

Everyone: SURPRISE! HAPPY BIRTHDAY RACHEL!

Rachel: Oh wow! YOU ALL REMEMBERED!

Me: We would never forget your birthday Rach.

Me and Rachel kissed.

We had an awesome party. We had an awesome chocolate cake with orange, red and blue frosting. Later it was time for presents.

Lola: Here Rachy you can open my present first.

Lola gave Rachel her present first. She opened it and it was a tiara. It had a lot of beautiful jewels and diamonds and more.

Rachel: It's a tiara.

Lola: I didn't know what to get so I decided to give you one of my tiaras.

Rachel: Oh wow! Thank you so much Lola!

Rachel and Lola hugged. We had an awesome party for Rachel. It was the best one ever.

THE END

---

Another Fanfiction Complete

HAPPY BIRTHDAY RACH! We did this chapter as a special chapter for you and for everyone out there. Foster's Home For Imaginary Friends was a great show on Cartoon Network. It lasted from August 13th, 2004 to May 3rd, 2009 and it was an awesome show! NicoChan11 gave me the ideas for this one. Thanks man as usual and Happy Birthday to you Rachel (Kiss)

See you all next time.

# The LOSERS Revenge

It starts in the Dimmsdale Insane Asylum. Timmy was walking to Mr. Crocker's cell.

Timmy found a note in Crocker's cell. But no Crocker.

Timmy (reads note): "Dear Turner. If you're reading this, then that means me and Foop were able to get Crocker out. We have decided to move to another planet that you and your new friends would never think of looking. And we won't tell you where that is. You all say that people like the three of us have no place in this world. Fine. We'll start new lives on a different one. I hope you're happy. From, Dark Laser." On no!

Back at the estate I watched Crocker's brain scan rise from 9,999% to 10,000% fucked up!

Me: It's time for removing his brain!

Everyone cheered wildly. With us were Maria and William's genderbent counterparts Wilma Dunbar and Mario Rockell. Wilma had long black hair and she had an elemental blaster on her back and she had a red and black shirt and a black skirt on and Mario had a blue version of Trunks' clothes.

Earlier Maria and William were walking home from lunch when they saw Mario and Wilma coming out of the bookstore.

William: Whoa! You look like me!

Wilma: And you look like me!

William: I'm William Dunbar.

Wilma: I'm Wilma Dunbar, your female self.

William: This is awesome!

Maria: It's awesome to meet you. I'm Maria Rockell and I used to be

Aquamaria.

Mario: I'm Mario Rockell and I used to be Aquamario.

We met them when Maria and William introduced them to us and we were talking about all kinds of other things.

Trixie: We're finally free!

Timmy came in and he was frantic!

Timmy: Hey guys!

Me: What's wrong Timmy?

Timmy: Mr. Crockpot has flew the coop with Dark Laser and Foop! Read this.

I read the note Timmy found and I gasped and everyone cheered wildly.

Trixie: Hang on. Am I the only one who thinks this is a good thing? Crocker, Foop, and Dark Laser are finally gone from our lives. We should be celebrating, not worrying about their next move!

Thundercracker: Trixie's right. The three of them are someone else's problem now.

Chester: Let's celebrate this moment at my house!

Me: Hold on guys! It's not time to celebrate just yet.

A.J.: Why J.D.? Aren't you happy that we're free of that freak Crocker?

Me: I would be yes. But not this time. I promised to make sure that Denzel Crocker never terrorizes the world of Fairies ever again. And I'm gonna make sure that he never does so ever again by removing his brain.

Nico: I normally would be against this. But who cares?

Me: Yep. First we need to find them.

Chester: When did Mr. Crocker start his obsession with Fairies?

Me: It says here, March 15th, 1972.

A.J.: So for 47 years.

Me: Yep. And his sanity was being destroyed at a slow and steady rate.

A.J.: But how did his sanity get destroyed to 10,000% damage, which is technically not a real percentage, so fast?

Me: The brain damage he received from his mother is what did it. When we visited him in the nuthouse he was at 5,642%.

A.J.: Hmm. That will explain it.

I looked up where they went to and to our discovery they were on the planet Tatooine.

Me: They're on Tatooine.

Obi Wan: Of all places why would they want to go there?

Me: I have no idea Master Obi Wan. But that's what we intend to find out. Lisa, deploy the U.S.S. Valor!

Lisa: Affirmative 2nd Elder Brother.

Lisa did so. Nico caught a Metagross and a Salamence. We were on our way to the planet Tatooine.

* * *

The U.S.S. Valor was flying through the depths of space.

Me: Captain's Log, Stardate 2649.2: We are on our way to the planet Tatooine to find Mr. Denzel Crackfuck Crocker and stop whatever he's planning and remove his brain.

Nico: Mr. Crocker is a monster. He tried to enslave the whole planet and he wants nothing more than to see the world burn.

Me: I know. But thank goodness he's not at 20,000% insanity?

Lori: What happens if he's at that level?

Me: That's where we have to kill him. They go to a terrible place called (DRAMATIC VOICE) THE DEATH ROOM!

Thunder and lightning crashed in the background and satanic cultist music played in the background.

Everyone gasped in sheer horror! Lana coughed.

Lana: Aw dang it I swallowed my gum!

Nico: What is the Death Room?

Me: It's also known as the forbidden zone of a nuthouse. And that's one of the things Insane Asylums never do is kill people that are beyond mental rehabilitation. But luckily that never happened. Because over the centuries, not one insanely fucked up patient at an insane asylum has ever been executed. Because they never reached that level. The reason is because the patients were all either released or they died of natural causes or disease. The Death Room is a point of no return for all mental hospital patients that are at 20,000% insanity. No one has ever come out of the Death Room alive. Legends say that they use an old guillotine with a razor sharp rusty blade and they cut off that persons head and they put the head and the body into an incinerator and bury their ashes in an unmarked grave.

Everyone gasped in sheer horror.

Lucy: That sounds like my kind of place.

Laney: That is a ridiculous place.

Me: I know. But it's true.

Timmy: Also J.D., Dark Laser, Foop and Crocker together are known as the L.O.S.E.R.S.

Me: How come that name? Is it because they always lose?

Timmy: No but that's a funny joke.

Me: It wasn't a joke but thanks.

Wanda: Their name is actually an acronym. It stands for the **L** eague **O** f **S** uper **E** vil **R** evenge **S** eekers.

Me: That's a stupid name but it does make sense. And it also sounds more like something the Legion Of Doom would come up with.

Wanda: It does doesn't it? Also Icky Vicky was part of that group once.

Timmy: And so was my stupid dad.

Me: Now that sounds even more stupid for him.

Lisa: 2nd Elder brother we have arrived at our destination.

Me: On screen.

The viewscreen turned on and we saw the desert planet Tatooine.

Me: There it is. Planet Tatooine.

Nicole: It's beautiful from space. But it's also home to some of the most dangerous crime lords in all of the Star Wars Universe.

Me: I remember that. And Jabba the Hutt is now dead.

Luke S.: Good riddance.

Jaime: I'm glad he's dead.

Me: Me too Jaime. But the scans show that Crocker is on the planet and Dark Laser's ship is there as well. Lets head down to the planet.

We did so. We landed on the planet and it was a vast desert and the view of the planets two suns was amazing. The planet was in orbit around yellow and a red sun.

Me: The planet Tatooine.

Nicole: It's just as hot and dangerous as I remember.

Me: Yep.

Laney: It sure looks like a dangerous place.

Lincoln: It is Laney. This planet is home to some of the most dangerous creatures ever. The Sarlaac, the Terran Raiders and more.

Lori: That is literally terrifying.

?: (German Accent) Zat's not the least of your worries!

Mega Man: Uh oh! That is a voice I thought we would never hear again.

A storm of gears appeared and a new heartless appeared. The Heartless that appeared before us looked like Dr. Wily when we killed him but he had a black robotic arm and a black skull face. He was now called the Insane Mechanic!

Me: (Gasp) Dr. Wily!

Mega Man: But how!? We killed you!

Insane Mechanic: You did Mega Man and it has been a while.

Me: Its been almost a year since we killed you Wily. I see you got some new upgrades in the ugly heartless department.

Elec Man: That's funny J.D.

Me: Thanks Elec Man. Also Wily, I can tell you are here to get revenge on me right?

Insane Mechanic: Zat's right and zen I'm going after Light as well!

Mega Man: You guys keep looking for the L.O.S.E.R.S. I'll keep Wily busy!

Me: Okay Mega Man. Also Wily we never got to thank you.

Insane Mechanic: (Confused) Thank me? For what?

Me: When we killed and reprogrammed all your robots we got new upgrades. We got all their weapons and abilities in the form of this gauntlet on our left arms.

I show him the gauntlet.

Me: I call it the Swiss Army Gauntlet. It's like a Swiss Army Pocket Knife weapon. Let me show you with a demonstration. ROLLING CUTTER!

Cut Man's scissor blades popped out.

Me: And it comes with some new features. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into my left arm and the Rolling Cutter grew and turned into a razor sharp super chainsaw blade. I fired it at the Insane Mechanic and it cut the Insane Mechanic's whole mechanical arm clean off and the Insane Mechanic screamed in excruciating pain.

Lori: Geez! That literally must've hurt!

Lincoln: No doubt about it.

Me: And that's our demonstration. We have many more where that came from. Your robot masters turned out to be your undoing in the form of a Swiss Army Gauntlet. Lets go after the L.O.S.E.R.S. guys. Good luck Mega Man.

Mega Man: Thanks J.D.

Roll: I want to help too Mega!

Mega Man: Okay sis.

Me: I hope you like their new upgrades Wily. Because they have so much to show you.

We went after Crocker and his cronies.

Mega Man fired his blaster and it hit Wily in the face and Roll turned her hand into a lightning coil and she fired a blast of lightning at Wily and electrocuted him with 40 billion volts of electricity.

Mega Man: Now I can do something that I should've done ages ago Wily!

Insane Mechanic: What's that?

Mega Man: Kill you like I should've done years ago.

Roll: Same here Mega!

Mega Man: A combo should kill him for good.

Roll: Right Mega.

Mega Man: Lets do it sis!

Mega Man and Roll then shocked the Wily Heartless by sprouting robot angel wings and they flew at him.

Insane Mechanic: You all can fly!?

Mega Man: That's right Wily and we're your angels of death!

Roll: Die Dirty Wily!

They were then enveloped in a massive fireball and it turned them into a powerful phoenix of pure fire.

Mega Man and Roll: FIRESTORM PHOENIX DESTROYER!

The powerful phoenix hit the Wily heartless and exploded and it completely obliterated him in an instant. His spirit was sent right into the River of Fire for all eternity.

Mega Man: That takes care of him.

Roll: Good riddance to bad rubbish.

They went back to us.

In the city of Mos Eisley we were walking around. We saw many species of creatures from all over the galaxy in the city.

Me: Wow. So this is your home city Luke?

Luke S.: It sure is. This is the town I grew up in.

Lola: Hey look!

We saw Dark Laser buying supplies.

Me: It's Dark Laser! Lets get him!

We went at him.

Me: Hey! Dark Laser!

He saw us.

Nico: I'm gonna ask you this one time, Laser. Where is Denzel Crocker?

Dark Laser: Oh, hello, Team Loud Phoenix Storm. I just want to let you all know that me, Foop, and Crocker are resigning from this whole war between you and the Legion of Doom.

Timmy: Say what?

Dark Laser: You heard right. Look, I know you want to punish us so badly. But going after you all isn't worth it anymore. All of us need to move on with our lives. We're not committing anymore crimes for now. But we're not becoming good guys either. I hope you all understand. Now if you excuse me, I have to get supplies for our new house. Ta ta for now.

With that, Dark Laser walked away, leaving us speechless at what we just heard.

Me: Okay that was weird.

Varie: I wonder what that was all about?

Me: Probably a cover for his real plan. Lets follow him quietly.

We did so. We followed him to a house just outside of the city and we saw that they were in a small house. We looked in and saw them unpacking.

---

Dark Laser has attempted to go through with a number of evil plans, as in his first appearance he made the Death Ball, parody of the Death Star. In "Escape from Unwish Island", he helped Imaginary Gary to defeat Timmy. He also pretended to have his own university in "The End of the Universe-ity" to recruit Timmy over to the dark side. Dark Laser also has a toy dog named Flipsie, which was also made by Timmy in the magic copier, and then Dark Laser stole him as his companion and fellow toy pet. Dark Laser was also recruited in Timmy's army to battle the Darkness, specifically to find a powerful wand on the Blue Moon of Vegan 6. He was also briefly incinerated in Dread N' Breakfast, but brought back to life by Wanda because Timmy didn't actually want to kill him.

In one ocassion, Dark Laser (tired of being contiuously defeated by Timmy Turner) decided to recruit him giving him a scholarship for his school, Dark Mouth University, to show him the greatness of the Dark Powers (a evident parody of The Dark Side of the Force) compared with Fairies Powers (suddenly a parody of The Light Side of the Force). After use against the Da Rules and enrolls in school, his first lesson is to destroy the Earth. But Timmy reform and turns against him, destroying his Death Ball once more.

In order to lure Dark Laser to Earth to use his spaceship, Timmy Turner created a TooYube parody of Dark Laser. The video featured Dark Laser sticking his butt out and making fart noises. The video reached over a million views in a matter of seconds. Dark Laser quickly came to Earth to destroy Timmy, but was convinced into helping him get to the Blue Moon of Vegan.

---

Foop was born by Anti-Wanda in the episode "Anti-Poof". He wants to destroy Poof because Foop doesn't want to "share the spotlight" with him (he wants to be the only baby born in thousand of years, not the 2nd.) His name is "Poof" spelled backwards which is because they are total opposites. He thinks Poof's name is more masculine than his own.

Timmy then figured out, that since Foop was the opposite of Poof, and bad things happen when Poof cries, that good things happen when Foop cries, Poof proceeded to swipe Foop's bottle, causing him to cry, which reversed all the damage he had done and reverted everyone back to normal.

Foop resembles Poof, but he is shaped like a cube rather than a ball. He also was born with a black mustache and goatee on his face, the kind typically seen on stereotypical villains or drawn on pictures as vandalism. His pajamas are slightly darker blue than his skin, and they have a skull symbol on them. Foop has bat wings and a black crown like all Anti-Fairies. His wand is a baby bottle with bat wings on the side, as opposed to Poof's rattle. He also speaks with a stereotypical British gentleman accent.

Poof is nice and kind, while Foop is evil.

Poof has a round body, but Foop has a cube shaped body.

While Poof uses a rattle to focus his magic, Foop uses a baby bottle with blue bat wings on the sides.

While Poof can only say a few words, Foop can speak at an adult level, even though he is a newborn, he also speaks with a British accent like his father.

Whereas Poof has no teeth, but is teething, Foop has a set of fangs like his father.

Foop has two strands of hair as opposed to Poof's one.

Poof has no facial hair, but Foop has a black mustache and goatee.

When Poof cries, bad things happen, however, when Foop cries, good things happen.

He also has the standard black crown, blue skin, pointed ears, and bat wings all Anti-Fairies have.

---

Denzel Crocker worked at a number of different schools and colleges before ending up in Dimmsdale Elementary School. He was once an aspiring professor for Dimmsdale University, but his proclamation of his belief in fairies led to him becoming a laughing stock in all the city of Dimmsdale. He was also kicked out of a New Baltimore Community College for spending money on fairy tracking inventions. Even after landing a job in Dimmsdale Elementary, he was still scorned and laughed at by his colleagues, including Principal Waxelplax.

In Crocker's past life, he was an adorable and kind child who enjoyed helping others. His mother was never around very often and got babysat by Vick. Because of this, he was very miserable. However, his sadness ended after having received his own Fairy Godparents, Cosmo and Wanda.

Unfortunately, after Timmy time travels to the year 1972, Timmy and Cosmo accidentally reveals Crocker's secret about his fairies in front of the whole town who had gathered to celebrate a day honoring Crocker. Because of this, Jorgen Von Strangle is forced to erase Crocker's memory of him ever having fairies, and because of an overdose from the memory wiper, Crocker becomes horribly disfigured, and the town's people, who had now completely forgotten all the nice things that Crocker did with his fairies, assumes that they must be an angry mob and chased him down. He remembers nothing but he finds a DNA tracker device that Timmy left behind in the past on which he wrote 'Fairy Godparents exist' on the back before his mind was wiped, Crocker uses it to try and find real fairies. Timmy later wanted to return back to March 14, 1972, but he was stopped by two Jorgen Von Strangles (1970's version and current version). After that, the event ends with Jorgen and his other self dancing on the dance floor 1970's style.

Crocker's life of a teacher is comical in a way that Timmy's principal, Geraldine Waxaplax beats him up for such situations such as going in to the girl's bathroom. He had to switch jobs three times, changing into a ham salesman, a tour guide in the episode Nega Timmy, and a crossing guard in the episode No Substitute for Crazy!.

His family includes his mother and his uncle. His uncle is obsessed with genies and owns a collection of lamps. One of which contains Norm, although he is kept safe so his craziness is stable. His mother is a polite person, once rich and groovy. But when Crocker was young, she was non-attentive, pretty much like Timmy's parents. Crocker's father is never seen in the series, not even in The Secret Origin of Denzel Crocker, where his childhood is revisited, suggesting Crocker lost him at an early age or that he never had one. This lack of a father figure is implied to be the reason Crocker quickly accepted his stepfather, Ricky, from The Odd Couple as his father and even wanted to play childish games with him and having an allowance.

---

Me: So that blue cube freak is Foop.

Wanda: Yep.

Dark Laser, Crocker, and Foop were unpacking their stuff in their new house on Tatooine.

Crocker: So, how long are we staying here?

Dark Laser: Denzel, we're starting new lives here. That means we're staying here forever.

Foop: Agreed. As much as I want to kill Turner and Poof, I really don't want to die. Not yet. Besides, Team Loud Phoenix Storm will never think to find us here.

Me: What in the world are they up to?

William: There has to be some way we can get evidence that those three are up to no good. That way, taking them down will be justified.

Me: There is. Luan, you better record everything.

Luan: I'm on it.

Luan pulled out her video camera and began recording their talk.

Crocker: The real reason we're here is because Team Loud Phoenix Storm wants to remove my brain!

Dark Laser: Why do they want to do that?

Crocker: Because I'm 10,000% insane!

Foop: Okay that's not a real percentage.

Crocker: But my plan before they take out my brain is to kill every single FAIRY GOD PARENT!

We gasped when we heard him say that!

Me: He's even more fucked up than ever before.

Crocker: If I can't have any FAIRIES! Then no one can! I will kill them all with this!

Crocker pulled out some blueprints for a super powerful death ray cannon.

Crocker: This is the FAIRY! Killer Death Ray Cannon and with it I will hit Timmy Turner and J.D. Knudson where it really hurts and kill their FAIRY GOD PARENTS! (LAUGHING MANIACALLY!)

Me: He's completely fucked up into the next millennium! I should've killed him 4 years ago.

I looked up his scan and it showed that he was at 13,312% Fucked up and rising fast!

Me: He surpassed the 10,000% mark. Come on guys. It's time for us to debrain this fuckpot.

Dark Laser: Fine, Crocker. We'll use this fairy killing ray on Cosmo and Wanda. But after that, we're officially retiring!

Foop: And I'm only helping you with this plan to avenge my mother!

We bursted in with a fiery explosion and we landed inside as a phoenix cry was heard.

Me: Hello Crackfuck. Didn't expect to see us again did ya?

Crocker: How did you find us!?

Me: None of your fucking business you insanely fucked up homicidal nut!

Nico: Denzel Quincy Crocker the Fucked Up, you have failed this universe.

Me: And he has failed as a son and as a teacher. You all face Laser and Foop. I'll face Crocker.

Nico: Okay.

We split them up.

Battle 1: Foop.

The first fight was with Foop.

Foop: You want to kill Crocker, you'll have to go through me!

Maria: Trying to defend your two comrades, Foop? That's admirable. We're trying to defend the universe from jerks like you.

Foop: You all really have god complexes, don't you?

Lynn: We do not!

Foop: Could've fooled me. I've noticed that in all your battles, rather then coming up with a decent strategy, you all just charge in at people like us combos and Final Smashes a blazing. Like for example, Saior Mercury planned to come up with a tactical strategy to take down Nehelenia. But dear Natilee over there didn't want to hear it!

Natilee: Well, excuse me if I wanted to make Nehelenia pay for her crimes!

Sailor Mercury: And I was ok with that.

Foop: And what about Francis Stone over here? During the battle in Daktoa City, there was a fire hydrant near him. You could've used it to put him out. But you all chose to launch him and the rest of Meta Breed to a different location so you could go all out!

Francis: Hey, I didn't really care about how they did it. As long as they beat some sense into me!

Foop: The world may think of you all as heroes. But I think all of you are brutes! What do you have to say to that?!

Natilee: I say you are a big dumb liar! Attack!

The Street Sharks and the Sailor Soldiers flanked Foop on both sides and Sailor Venus kicked him in the face and Mars and Mercury kicked him in the back and Stacy and John punched him in the face. Clint took his bottle wand and destroyed it.

Bobby B.: You are nothing without your wand.

Natilee: And here's something else. Yo mama so stupid she tried to climb Mountain Dew!

Lincoln: Yo Mama so stupid she spent 20 minutes starring at a carton of orange juice because it said concentrate!

Laney: Yo Mama so stupid, when her iphone died she buried it!

Lana: Yo Mama so stupid, she sold her car for gas money!

Lola: Yo Mama so ugly, she looked out the window and got arrested for mooning!

Me: Yo Mama so ugly, she scared the shit out of the toilet!

Varie: Yo Mama so ugly, she made a fucking onion cry!

Foop then became so enraged and so infuriated that he went ballistic. He went at us screaming at the top of his lungs in so much rage that it was unbelievable and Timmy punched him in the face and knocked him down.

William and Wilma fired a massive blast of fire from their blasters and they hit Foop and exploded. William punched Foop in the face and kicked him in the crotch. Wilma punched him in the back and kicked him in the face and punched him with a powerful lightning punch.

Foop flew away.

Me: What a wuss.

Trixie: Ok. Why don't the rest of us go to a quiet place so we can all calm down.

Timmy (to Foop): This isn't over, Foop. One way or another, we're making Crocker pay for his crimes. Count on it!

Francis: Look, guys. Forget what Foop said. So what if you didn't take me out with a fire hydrant when you fought me and my former Meta Breed buddies? What matters is that you won that battle.

Nico: Yeah we sure did. But with honor.

---

## Battle 2: Dark Laser

---

Obi Wan, Anakin, Nico and Ahsoka were clashing with Dark Vader in a lightsaber clash.

Obi Wan (fights Dark Laser with lightsaber): I find you copying Darth Vader very disturbing and unoriginal.

Anakin: I agree my master. He's a total ripoff artist.

Nico: Lets show them what true power is. Combo time!

Gajeel: You got it Nico! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm device and it enhanced his Iron Dragon Slayer Magic 100-fold.

Ratchet: Time for some heavy firepower. CYBER KEY POWER!

The Earth Cyber Planet Key went into his Static Laser Gun and it enhanced it 100-fold.

Ratchet and Gajeel: IRON DRAGON LIGHTNINGDART!

Gajeel fired his Iron Dragon Roar magic and fired a massive blast of metal and energy and Ratchet fired a powerful blast of lightning lasers from his gun and the blasts combined and turned into a powerful spearblast of energy and lightning and it hit Dark Laser and Foop and exploded with incredible power.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Sinestro: Time for some action! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced Sinestro's power over fear to create creatures that are from your worst nightmares enhanced 100-fold.

Hook: Time for some hardware! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enabled his crane hook to turn into a powerful laser blaster.

Hook and Sinestro: NIGHTMARISH HELLFIRE FIRESTORM!

Hook fired a massive laser blast and Sinestro fired a powerful blast of yellow energy from his ring that turned into a horrific fire dragon that was so horrifying in appearance. The fire merged with the dragon and turned it into a real fire dragon and it roared ferociously. It slammed into Dark Laser and Foop and exploded with incredible power.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Maria and Mario both fired a massive stream of water at Dark Laser and got him soaked and they kicked him and punched him all over the place with incredible force.

Nico: Now to send you two packing. Final Smash time!

Obi Wan: You got it Nico! STEWJON JEDI SLASHSTORM!

Obi Wan's Lightsaber glowed with the ferocity of lightning and fire and he slashed Dark Laser with incredible power all over the place.

Timmy: Now you are next Foop! FAIRY GODPARENTS AND CHILD FIRESTORM!

Timmy fired a massive blast of pink energy and Cosmo, Wanda, Poof and Sparky fired a massively powerful blast of Green, Pink, Purple and Yellow energy and the blasts combined and they hit Foop and exploded with incredible power.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Foop and Dark Laser were down.

---

Battle 3: CROCKER

---

I was facing Crocker.

Crocker: I will not have my brain taken!

But I was not intimidated by his shouting.

Crocker then punched me in the face and when it hit me right in my face it didn't even make me flinch. But the power of his punch caused all his bones in his hand and arm to shatter and protrude from his arm and hand.

Me: That must've not felt good.

I grabbed Crocker and my strength was restraining him.

Crocker: Foop, you and Dark Laser get out of here. I'm done for!

Dark Laser: No! We're not leaving you! What about the L.O.S.E.R.S.?

Foop: The L.O.S.E.R.S. are finished! Now let's get out of here while we still can! (poof Dark Laser back to the Death Ball)

Foop gave Crocker one last sad look.

Foop: I never imagined it would end like this. (poofs himself to an unknown location)

Crocker (smiles sadly): Neither did I, old friend.

Sinestro: Looks like the L.O.S.E.R.S. have been disbanded.

Gajeel: United they stand. Divided they fall!

Timmy: You said it Gajeel. (To the viewers) The L.O.S.E.R.S are now done and you should never encounter clods like them.

Me: Well said Timmy.

---

Later we went back to Earth did the Neuroectomy as we call it. Crocker's brain was removed and placed in a jar. His brain really looked like a rotten orange wrapped in rusty razorwire and it had lots of sparking wires poking out of it. It was now hooked up to the big wand as a power source. Crocker's brain woke up and he saw us.

Crocker: What happened?

Me: Well…

I held up a mirror and Crocker saw that he was a disembodied brain in a jar! Crocker screamed.

Me: There's nothing left of him now but his Lame Brain!

Crocker: I HEARD THAT!

Luan: (Laughs) Lame Brain. That's really funny.

Lola: I wonder what it was that Crocker lost his head over!

Crocker: OH I HEARD THAT TOO!

We laughed at him!

Crocker: (ENRAGED SCREAMING) OOH I'M WARNING YOU!

Nico: What are you going to do Mr. Crackfuck? Think something bad?

We laughed some more. We laughed hysterically.

Crocker: WHY YOU!? I WILL ONE DAY KILL YOU AND GET ALL YOUR FAIRIES! FAIRIES! FAIRIES! FAIRIES!

Me: Hey it works!

Laney: It sure does.

Me: Just remember this Crackfucker: Once a Fucked Up Lunatic, Always a Fucked Up Lunatic.

Mr. Crocker's reign of terror was destroyed forever. But our adventures were not over yet.

THE END

---

Another Fanfiction Complete.

I wanted to remove Crocker's Brain and gave you all a great chapter. I got the idea for the talk from his brain from Dexter's Laboratory Ego Trip. That was so funny. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Battle of The Bears

It starts in the living room. It was movie time and we were watching one of my favorite movies from 2012: Brave: It's about a 16th Century Medieval Scotland Princess named Merida. She's the only Disney Princess we haven't met yet. We saw that Merida was an extremely adventurous and highly optimistic and brave princess. She is not afraid to fight in the face of danger. But what really shocked us was that she was placed into an arranged marriage with either of 3 Scottish princes against her will and that she was fated to be married to one of them. But what really surprised us even more was when Merida accidentally turned her mother into a bear when she went to a local witch to get a spell to try and convince her. But it backfired big time. But there was a nasty battle with the ferocious demon bear Mor'du. In the end we saw that Merida and Elinor reconciled and it was a great movie. We cheered wildly when it was done.

Me: That movie is awesome!

Lori: It literally was.

Azula: Getting forced to marry someone? Even my former father wasn't that cruel.

Me: I know. No one should ever have to marry someone that was arranged to someone they haven't even met.

Lola: But that was funny how Elinor was turned into a bear.

Lana: I would love being turned into a bear. That would be so awesome!

Laney: But that did give Elinor a chance to reflect on what she was doing.

Me: That's true Laney.

Maria: With our powers, curing the Queen will be a snap.

Me: You got that right Maria.

Natilee: I've always been a strong Irish and Scotswoman at heart because of my love of Celtic culture.

Laney: I love the Irish and Scottish culture. It's amazing.

Luna: Me too Lanes.

Me: Not only that but Merida we haven't met yet.

Syd: I know. But Bears are so awesome! They are one of the most powerful animals in all of North America and northern Eurasia.

Laney: I like grizzlies, black bears and polar bears. They are awesome.

Me: And they're also very dangerous creatures and very protective.

Kenai: And I should know. I'm a bear myself. Me and Nita have the power to transform into bears.

Me: That's right. I have a strong feeling that Mor'du is in Scotland for real. Let head over to Scotland and take him down.

Kraven: (Russian Accent) I have faced bears before. Allow me to equip us with the proper bear hunting tools.

Me: Great.

Kraven went to his hunting room and he came back out with 12-gauge shotguns, elephant guns and swords.

Me: Awesome Sergei. Thanks. Lets head out for Scotland guys.

Everyone: YEAH!

Mixmaster: Why do I get the feeling that we're in for a nasty surprise?

We were off to Scotland.

---

# SCOTLAND HIGHLANDS

---

We arrived in the Scotland Highlands. We were in the Dunnottar Castle and it was a castle located in Northeastern Scotland.

Me: Wow! So the castle of the Dunbroch clan. It's in Dunnottar Castle.

Natilee: It's one of my favorite castles. It was built in 1400 A.D.

Me: And it was left here in ruin back in 1718.

Lori: So its been left here to rot for 301 years?

Luna: That is not good dudes.

We walked into the castle and we saw that it was back in prosperity. It was a beautiful kingdom.

Me: Wow. It's just like in the movie.

We saw that it was a prosperous kingdom like in the movie. We saw Princess Merida.

Me: Princess Merida.

Merida: (Scottish Accent) It's an honor to meet you and your friends, J.D.

Me: You too. It's so awesome to meet you.

Natilee: (Scottish Accent) Aye. It's a pleasure lass.

Me: We saw your movie Brave and it was awesome.

Merida: I had a feeling you would lad. I'm glad you all came, we're being terrorized by Mor'du, the demon bear.

Me: So Mor'du is real.

Nico: That is too weird.

Me: But we've dealt with all kinds of bad guys before.

Vince: We sure have.

Merida: My mother was cursed with a bear spell. Let me show you.

We were lead into the castle and we saw Merida's mother Queen Elinor in bed and she was slowly turning into a bear.

Elinor (her hands become claws): What's happening to me?!

Jazz: This is gonna suck.

Me: Oh man. Luckily we've handled magic stuff like this before. Elinor, I'm going to snap my fingers and remove the magic that is causing this to you.

Elinor: (Grunts) Okay J.D. Hurry!

I snapped my fingers and she was changed back to normal.

Me: There.

We then told Elinor that Merida has a right to make her own choice and that she should never be forced into marrying someone she hasn't even met. She has to make her own decisions and let her be with who she wants to be in love with. It's her choice and her choice alone. Never in the hands of someone else.

Later we got to waiting for Mor'du.

Laney, Green Arrow, Hawkeye and Merida were practicing archery. They had really good shots. Rachel of the Animorphs was getting good.

Laney: You have a good shot Rachel.

Rachel (Animorphs): Thanks Laney.

Nico was playing with his Transformers Action Figures.

Azula (sees me playing with my Starscream action figure): I don't get it. You hate the real Starscream but like the toy one.

Nico: Because the toy Starscream doesn't hurt people.

Azula: Good point.

Me: Hey Jen, when you first became the She-Hulk, how did that happen?

Jen: It's something I will never forget. I was kidnapped by Dr. Doom and he injected me with some of Bruce's blood that enabled me to get a Hulk Transformation.

---

Jen: (Narrating) I was strapped to a metal table and I then felt this incredible power rushing through me.

Jen's eyes glowed neon green and her veins all over her body were glowing as well. She was in purple exercise clothes at the time.

Past Jen: Oh I'm feeling good!

Her skin turned green and her body grew really muscular! Her hair turned from brown to dark green and her eyes were neon green. Jennifer Walters became for the first time The She-Hulk!

She-Hulk: Oooh! Feel's like somebody's lighting my fire!

She broke out of her restraints but a bomb by her was armed and was about to explode.

She-Hulk: Uh oh. Fireworks.

It exploded.

KRABBBOOOOOOOMMM!

She-Hulk: Oh yeah. Dr. D, You helped turn me into one seriously cheesed off She-Hulk.

FLASHBACK ENDS

Me: Wow. So it was Dr. Doom that gave you your power.

Jen: Yep.

Me: If we ever do face him as a heartless in the future and I have a strong feeling we will, we'll have to thank him for your powers.

Jen: That's true.

Me: How long did it take for you to change back Jen?

Jen: It took about a week. You see I'm much more calmer than my cousin. I changed back in my apartment. And Bruce was with me.

---

Jen and Hulk was back in her apartment and she was in a lot of pain and she began shrinking back to normal size. Her hair color changed back to dark brown, her eyes turned back to emerald green and her skin color changed back. Same with Bruce as he shrunk back down and returned to Bruce Banner.

Jen: (SCREAMS) IT HURTS!

Bruce: (GROANING) YOU GET USED TO IT OVER TIME!

They got a massive headache and we're holding their stomachs in pain and were struggling to keep their balance and bracing themselves on random pieces of furniture. They held themselves up with chairs and tables and the sofa.

They tried to say something during the transformation but it was almost impossible for them to speak.

Jen: Wow! That was intense.

Bruce: It's always rough Jen. But you were awesome as the She-Hulk.

Jen: Thanks Bruce.

She touched him and he winced in pain.

Jen: Oops sorry.

Bruce: It's all right.

Jen: Lets see if it worked.

Jen and Bruce punched the floor and the wall and they hurt their knuckles.

Jen: Ow!

Bruce: It worked!

He touched her and she did the same.

Bruce: Sorry. I need to get some new clothes.

Jen: Same here. Your outfit is all rags and shreds.

Bruce: Yours looks good on you. That can be the new She-Hulk outfit.

Jen: Actually I have a better idea. But first we better change.

They did so and a neighbor came in and he noticed the state their clothes were in.

Neighbor: Whoa! What happened to your clothes?

Bruce: Uh.. We were having a party?

Jen: Yeah a party.

The neighbor looked confused.

Neighbor: All righty then.

He left.

Jen later made her new She-Hulk outfit.

Later they got some burgers and fries.

FLASHBACK ENDS.

Me: That is painful. And you decided to dye your hair black right?

Jen: Yep.

Me: It looks good on you Jen.

Jen: Thanks sugar.

Lori: Has there ever been a time where you and Bruce lost control?

Jen: We don't want to talk about that one.

Me: Okay then. Boy that must've been bad. You two can tell us when you are ready.

Bruce: Well no you all have a right to know. It was a terrible time for me and Jen.

---

They were wearing different clothes. Bruce was wearing a blue sweater and black jeans and brown shoes and Jen was wearing a Purple Summer shirt and black jeans.

Jen and Bruce were in the mall walking around when suddenly they changed into their Hulk forms without warning and then they roared with incredible fury and then they went crazy! They were trashing the whole place and destroying everything in their path with such indiscriminate fury that it was unbelievable! They destroyed the entire mall and it took the full force of the entire army to stop them.

FLASHBACK ENDS

Me: Whoa! That's awful.

Nico: No kidding.

Vince: That's terrible.

Me: Yeah. Have you guys changed back in the middle of a fight?

Bruce: Several times actually.

Bruce: (Narrating) First was the time we fought the snow beast Wendigo.

Jen and Bruce were fighting the giant snow beast Wendigo up in the snowy mountains of Canada. They were wearing their purple clothes that they usually wear when they transform. Jen's was a purple leotard and Bruce's was shredded shorts. But then they both reverted back to their human forms in the middle of the fight!

They called a taxi and it took them back to a city somewhere in Canada.

Taxi Driver: What happened to your clothes?

Bruce: Uh? Lost them in an avalanche.

Jen: Yeah.

Scene changes to the time they were fighting Leon Sharpe A.K.A. Speedfreak. He was a deadly swordsman in a powerful suit.

Jen: (Narrating) Next we were fighting Speedfreak in Las Vegas.

Speedfreak was putting up one helluva fight. But then Hulk and Jen reverted back. They ran fast and they got into a taxi and it sped out of there.

Driver: What happened to your clothes mac?

Jen: We lost them at a gentleman's club.

Bruce: Yeah.

Scene shifts to a fight with Carl "Crusher" Creel A.K.A. Absorbing Man.

Bruce: (Narrating) We were fighting Absorbing Man in Rio De Janeiro, Brazil.

They suddenly reverted back and they got into a taxi and went to Sao Paulo.

Driver: Senor where are your clothes?

Jen: We lost them in the jungle.

Bruce: Yeah.

FLASHBACKS END.

Me: You two ran out of energy. You need food to keep yourselves going.

Bruce: I know. We had to learn that the hard way.

Luna: Has there every been a time where you accidentally transformed into your Hulk forms accidentally?

Jen: Ah that has happened to us several times.

---

Jen: (Narrating) It was back when we were walking down the street of the city.

Jen and Bruce were wearing black exercise clothes and were getting their exercise in. Suddenly there was an explosion and gunfire at a bank and they went to check it out.

Robber: Thanks for the loot ya fucklips!

Jen and Bruce went to stop them and they punched them all over the play. But they fought back and one hit Bruce with a gun. The Robbers were running on foot.

Bruce: They sure didn't think this through.

Jen: No they didn't hun. Lets go.

Jen and Bruce chased after them. Then suddenly they started transforming into their Hulk Forms and they chased after them.

FLASHBACK ENDS.

Me: Whoops.

Then I heard something snap.

Me: Uh oh.

We got up and stood ready.

Me: Stay quiet. He's close.

Kraven smelled the air. He got the scent of Mor'du.

Kraven: Mor'du is close. Very close.

Nico: But where is he.

Then a huge shadow loomed up behind Nico and he turned and he saw MOR'DU THE DEMON BEAR!

Nico: He's right behind me!

Mor'Du roared ferociously and Nico ran and Mor'Du slashed him in the back with his claws and he had nasty slash marks on them and he was bleeding bad.

Me: Mor'Du! He's an evil bear!

Merida: He's more than that lads! He's the demon bear that took my father's leg!

Laney: This bear is a monster!

Nicole: Looks like there's nothing left of Mordru's humanity. Which probably means that the Book of Vile Darkness won't be needed.

Me: No but we can make him into a bear skin rug!

Then numerous bear monsters appeared! They were the bear monsters from Disney Infinity!

Me: Whoa! Look at all these Bear Monsters!

Flora: These bear monsters didn't appear in the movie before, did they?

William: No. They didn't.

Kenai: Time to fight bear with bear!

Kenai and Nika turned into bears.

Rachel (Animorphs): Time to go bear!

Rachel took off her yellow summer shirt and her jeans.

Nico: Whoa hubba hubba Rachel.

May: You need to nurse that wound Nico.

Nico: Sorry May. I couldn't resist.

May: Ah it's all right Nico.

Rachel transformed into a bear. Her hands turned into paws with huge claws and her skin turned all furry with brown fur. Her head turned into a bears head with big ears, a snout and fanged teeth and her body turned into that of a bear!

Rachel (Animorphs): Lets bring the Bear Necessities.

Luan: (Laughs) Good one Rachel.

Me: That was funny.

Laney: Lets bring in the heavy firepower!

Laney pulled out two animal crystals: A Black Bear and a Polar Bear. She put them in her flute.

Laney: Bear Brothers, arise!

Laney played her flute and the Bear Zords arrived.

Lori: Wow! A black bear and a polar bear zord!

Me: That is awesome!

Polar Claw: It's gonna be a Battle of The Bears!

Me: It sure is. Time to face the Bear Facts! Lets get them! Nico you rest up. We'll get you some medical treatment after this is over.

Nico: Okay. Show no mercy J.D.!

Me: I plan not to. Lets go!

We went at them and we were ripping the bears apart. It was a ferocious battle that shook the very foundation of Scotland. We fired arrows and blasted them with shotguns and elephant guns and slashed them with swords. We were causing the bear monster body count to right like a bat out of hell. We slashed and bashed and blasted numerous bear monsters and blew them all apart. Kenai slashed a bunch of bear creatures and the Bear Zords slashed and bashed them to pieces and fired blasts of fire and ice and blew them apart. Until Mor'du was left.

Edzilla (punches Mordru): ED SMASH STUPID BEAR!

Eddy: Go Lumpy Go!

Me: Lets finish this overgrown teddy bear! Combo and Final Smash time!

Nico: Mor'du you have failed all of Scotland!

Flora: Lets get him! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Flora's arm and it enhanced her magic and gave her the ability to control plant monsters like Evil Seed.

Jazz turned into his 2010 movie form.

Jazz: Action Time! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his photon rifle, flamethrower, full-spectrum beacon, 180db stereo speakers and abilities 100-fold. He creates dazzling, disorienting sound and light shows.

Flora and Jazz: FLOWER DRAGON VERTIGOLIGHT!

Flora formed a powerful dragon of flowers and Jazz fired blasts of light and the light merged with the flower dragon and it fired a powerful blast of light energy that caused Mor'du to go crazy and it slammed into him with incredible force and knocked him down!

Azula: Lets burn this monster! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her arm device and it enhanced her Firebending Powers 100-fold. Like with how Sozin's Comet did.

Mixmaster: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his abilities and enhanced his acids and bonding agents with the ability to reduce anything to dust and recombine absolutely anything inside mixing drum. He now can fire any of his mixing drums concoctions through head mounted nozzles and his arms and legs with a range of several hundred thousand meters. His laser rifle has been enhanced dramatically.

Mixmaster and Azula: NITROGLYCERIN FIRESTORM EXPLOSION STORM!

Mixmaster fired a powerful blast of nitroglycerin and Azula fired a powerful blast of white hot fire. The fire ignited the Nitroglycerin and it exploded with incredible power as it hit Mor'du and it exploded into a massive wall of fire.

KRRAAAAAAAAAAAAAAAAAAAAAAAAAAAABBBBOOOOOOOOOOO

Me: Time to see what other powers all the robots of Mega Man had. DUST CRUSHER! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into my left arm device. I fired a huge ball of scrap metal and it hit Mor'du and exploded and it sent shrapnel all over the place. A piece of it hit my arm and it cut it badly. I had blood dripping down my arm.

Me: (Screams in pain) Ow! Wow! That is powerful! Okay I'll use that one only when necessary. That packed as much explosive power and shrapnel as an I.E.D. Lets see here. ATOMIC FIRE!

ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into my left arm and I fired a massive blast of fire that turned into a phoenix and it went at Mor'du and it hit him and exploded with the exploded with the power of 400 tons of napalm.

KRABBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The heat coming off of it was unbelievable!

Me: Wow! That is as hot as a solar flare!

Mega Man: It sure is. But that was really well done!

Mor'du went at me.

Me: Uh oh. SKULL BARRIER! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into my device again and I formed a skull shaped energy shield around me. Mor'du slashed at it and it didn't even penetrate it. Then I fired a blast of wind and blew him back and sent the Skull Barrier at him and the skulls turned into King Cobra Skulls. They went at Mor'du and bit him and poisoned him.

Syd: Oh that is very clever! King Cobra venom is powerful enough to kill 20 people and a bear is no match for that kind of poison.

Laney: That is very clever. But the most venomous snake of them all is the Black Mamba. They can kill a person in 1 to 5 minutes.

Syd: I know. That's what makes them so awesome!

Ronnie Anne: They sure are awesome.

Me: Lets finish this monster off! Final Smash time!

Kenai: Lets get him! URSA MAJOR BEAR STORM!

The Constellation of Ursa Major the Great Bear appeared in the background behind him and a sloth of bears appeared and Kenai and the bears went at Mor'du and they slashed him all over the place with extreme ferocious savagery.

Merida: Now to finish you ya monster! SCOTLAND ARROW FIRESKEWER!

Merida fired an arrow that turned into a powerful fire spear and it went through Mor'du's chest and out through his back. It killed him instantly.

Me: That takes care of him. Great job guys.

Merida: Thanks J.D. It was awesome! (To the Viewers) Stay very still when you see and bear and never stare at it.

J.D. 2: There's 2 new Shen Gong Wu in this area J.D.

Me: Which ones are they?

J.D. 2: One is called the Sapphire Dragon and the other is called Jetbootsu.

Me: What do they do?

J.D. 2: The Sapphire Dragon is the most dangerous Shen Gong Wu that can only be used as an absolute last resort. It transforms into a Sapphire Dragon that indiscriminately turns creatures into a sapphire zombie.

Me: Whoa! That sounds extremely terrifying!

J.D. 2: It is. Jetbootsu allows the user to defy gravity. They act like jet propelled boots and they allow the user to fly, walk on walls and even float in the air.

Me: Wow. That sounds like a handy Wu.

J.D. 2: It is.

The E in the middle of my forehead glowed and fired 2 lasers and they went down two different paths.

Me: They split off in two places. I'll start with the right path.

I followed the right path and it showed me that the first Shen Gong Wu was buried underground and I dug it up. It was the Sapphire Dragon.

The Sapphire Dragon has two forms. In its wu form, it is a miniature statue of a sapphire dragon appearing to be curled up, with its tail as a makeshift handle, and light green eyes.

In its true form, the Sapphire dragon has a long, serpent-like body. It has dark blue scales and a ligh blue underbelly, with cyan eyes seen on its wu form, and long whiskers.

I picked it up.

Me: So this is the Sapphire Dragon.

J.D. 2: Yeah it may not look like much, but this is a very dangerous Shen Gong Wu.

Me: I won't use this one ever. Lets see where the Jetbootsu is.

The 2nd laser formed and I followed it. It was pointing up to a nest in a really tall tree.

Me: It's up in that tree.

I flew up to the top of the tree and saw the Jetbootsu in a nest in the tree.

Me: So its in a nest. Very clever hiding place.

I took the Jetbootsu and put it and the Sapphire Dragon in my bag.

I went back to everyone and told them what I found. Nico caught an Infernape and a Torterra. Kenai caught a Teddiursa. Also I killed Anti-Binky.

---

Later we were resting up. Nico had bandages wrapped around him.

Me: Boy we got a major beating huh?

Lincoln: Yeah we sure did. But it was so cool meeting Merida.

Nico: It sure was.

Syd: But it was so awesome how you killed that Anti-Fairy.

Lynn: The Anti-Fairies are monsters that represent bad luck. And before you moved here Syd, I was extremely paranoid when it came to luck.

Syd: Really?

Lynn: Yep.

Me: And now it's time to send the Anti-Fairies a message they will never forget.

Lori: What kind of message?

Me: To let them know that their end will soon come.

My eyes glowed red.

---

ANTI-FAIRY WORLD.

At the council of the Anti-Fairies, a meeting was in session. An Anti-Fairy came in and it had a strange disk in his hands.

Anti-Billy Crystal Ball: Council, something came for you.

Anti-Fairy councilor: Lets see it.

Anti-Billy gave it to them and it turned on and it was a disk that played a holographic message. I was on the hologram.

Me: Anti-Fairies.

Anti-Fairy Councilor: J.D. Knudson of Team Loud Phoenix Storm.

Me: That's right. I have a message for you all. I am hereby declaring war on all Anti-Fairies. We've had it with all the pain and suffering you cause every Friday the 13th. We already killed a bunch of your stupid and disgustingly evil freaks of nature and now we're gonna make sure that we wipe you out forever. And to show that I mean business…

I pulled out a remote control and pressed a red button and then outside the Anti-Fairies saw their huge big black wand explode into a massive fireball and it blew it apart into a thousand pieces. Then hundreds of smaller powerful explosions went off all over Anti-Fairy World and blew most of the houses all over the place to smoking rubble and killed most of the Anti-Fairies to dust. And it killed them all. The Anti-Fairy Council was in complete utter disbelief. I had killed 50% of the entire population of the Anti-Fairies in one fell swoop with just explosives alone.

Me: As you have just seen, that was to show that we mean business. But that was a small demonstration. Get ready Anti-Fairies, because September 13th, 2019 is going to be your last days alive.

The hologram vanished and the disk exploded in the councils face and killed two of them instantly.

The 3rd councilor arose from the smoke and he was enraged! He was beyond enraged!

Anti-Fairy Councilor: (ENRAGED SCREAMING) I'LL GET YOU FOR THIS TEAM LOUD PHOENIX STORM! JUST YOU WAIT AND SEE! I'LL MAKE YOU PAY FOR THIS! THIS IS AN ACT OF THE DEVIL! CURSE YOU! CURSE YOU ALL TO FUCKING HELL!

THE WAR HAS JUST BEGUN.

THE END

---

Another fanfiction complete.

The 2012 movie Brave was awesome! I saw it earlier and it was awesome and incredibly funny! Craig Ferguson was in that movie as one of the voices and he always cracks me up! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Sitting Bull

CONGRATULATIONS TO THE TORONTO RAPTORS AND TO THE ST. LOUIS BLUES ON THEIR FIRST EVER WINS

---

Note: The flashback in this chapter takes place in between the events of the Redemption Squad Cometh and A Mermaids Revenge.

---

It starts in the living room. We were looking at a bunch of photo albums. The Fox Kids were with us.

Me: Boy those were fun times.

Maria: This also reminds me of that time we did a movie documentary about my times with you guys.

Me: I remember that. It feels like forever ago.

William: And that was shortly after we formed the Redemption Squad.

Pam: What happened back then?

Lynn: Well Pam it was back when we were getting ready to decide who gets to babysit the McCauley's.

---

In Maria's Room, Carmen and Maria were ready for the documentary. Carmen had a video camera with her.

Carmen: Ok, sis. Ready!

Maria: Hi there! My name is Maria Rockell. I am making this short movie to document my life with the Loud Family.

In Luna's room. Luna was doing her thing and Luan was there with a box of comedy props until Lori comes in.

Lori: Hey, are either of you guys free for a babysitting job tonight? Mrs. McCauley just called and I can't do it, I'm sitting for the Dunscombes.

Luna: Sorry, dude. I got the Katzes tonight. [picks up drum] I'm gonna teach Jaime and Sydney how to do a drum circle.

Luan: I'm sitting for the Santinis. I've got some great comedy props in case little Mary gets a ouchie. [hits herself with her hammer prop which she then faints.]

Leni came in.

Leni: [laughs and claps] Thanks, Luan, that makes me feel much better about my ouchie. [shows Leni's feet with a bandage on one of her toes.]

Lori: Hey, Leni, can you sit for the McCauleys tonight?

Leni: Sorry, I can't. I'm sitting for the Lewises. I'm giving Tia and Salome makeovers, they're one and two, it's time.

Me and Varie came in.

Me: Hey girls. What are you all talking about?

Lori: We're talking about who should go Babysit for the McCauley's. None of us are available because we have other clients. Would you like to do it J.D.?

Me: I'm sorry Lori, I can't. Me and Varie were tasked by Lady Tsunade to be 2 of her bodyguards while we escort her to the Five Kage Summit. It's being held over in Greenland. We're gonna be gone for a week.

Luna: What is the Five Kage Summit?

Varie: It's a very important meeting where the leaders of the Five Great Nations gather together to talk out their differences. It's like a summit at the United Nations.

Me: Right.

Lori: Hmm, okay. I guess I'll have to tell the McCauleys no one's free.

Leni: What about Lynn? She's 13, that's when we all started taking babysitting jobs.

Luna: I don't know, dude. She's not exactly the nurturing type.

Luan: And we don't want to blow our reputation as Royal Woods' best babysitters.

Lori: Well, that is true. But you guys, it's only fair that we give Lynn a chance.

(TV STATIC)

Maria was interviewing Static Shock.

Maria (to Static): Static, our viewers want to know. What it's like having me as a friend rather then an enemy now?

Static: Maria was once one of my most dangerous enemies, Aquamaria and she had water powers. Now she is one of the greatest heroes of all. She has an awesome boyfriend William Dunbar and they do all kinds of awesome adventures together.

[Lynn, in the meantime, is in the backyard, tire swinging like a gorilla. The twins are rolling along in Lola's car, and Lynn hangs upside down in their path, causing them to scream, swerve, and crash.]

Lola: Ow! Watch it you clod.

Lana: Know how long it's gonna take me to bump out this hood?!

Lynn: Sorry guys, apology punches! [Punches the twins]

Lana: Ow!

Lola: Ow!

[Lynn goes back to her swinging. Lily is innocently walking along, not seeing Lynn. Charles sees this, and quickly dives at her and end up in a fight circle which Lily wins. All the while, the older sisters watch all of this, shocked.]

Luan: Still want to give her a chance?

Fu: Come on guys. Go for it. It'll be a good chance for her to see if she can do it.

Luna: All right Fu.

[They then look over to Laney who is reading Squeals a book and then the girls got an idea]

Lori: Laney! Our favorite sister in the world!

Laney: What do you want this time?

Luan: We were just wondering if you were available to help with a babysitting job.

Laney: [gets up from her chair] Babysitting? Me?

Lori: You're literally perfect for it! You know more about babysitting than any of us. You're caring, nuturing…

Luna: That and you're so good at taking care of Lily.

Laney: Well, I am known for my fastest diaper changing record. That was before Lily got her powers though. I'll do it!

Lynn: [hearing this] Whoa, whoa, whoa, whoa, you can't give a babysitting job to Lamey! I'm next in line. [She hops out of the tire swing and lands right next to them.]

Lori: But Lynn, let's face it, you're not exactly the nurturing type.

Lynn: What now? I can nurture all day long. [Right then, Lisa comes out the backyard, carrying a jar of strange liquid.] Kids love me.

[notices Lisa's presence and grabs her in a playful noogie.] Right, Lis?

Lisa: [slightly irritated by this] If it'll get you to stop bruising my cranium, I'll gladly respond in the affirmative.

Lynn: [drops Lisa] See? That's a yes. [Lisa notices her experiment is on the loose and chases after it in a panic.]

Laney: Not to take sides here, Lynn. But you don't know exactly what kids like to do.

Lynn: What do you know, Lamey?

Laney: [glares angrily] It's Laney! And I know way more than you!

Lynn: Says the girl who can't even tie her own shoes and has to wear laces!

Laney: [Angry] I TOLD YOU THAT IN CONFIDENCE!

Lynn: Come on you guys, fair is fair. I want some of that sweet babysitting moolah too.

Laney: You wouldn't make a dime without knowing when to tuck them into bed at night!

Lynn: I can do a lot better than you!

Laney: I can do a lot better than you!

Lynn: Oh yeah?

Laney: Yeah!

Lynn: Yeah?

Laney: Yeah!

Lynn: YEAH!?

Laney: YEAH!

[The sisters growl at each other]

Lori: Break it up you two! Clearly there is only one way to settle this!

Lynn: Bingo! Hot sauce eating contest right now!

Lori: No! Not again! I'm saying we'll send both of you to McCauleys to babysit and afterwards we'll see which one of you makes the better babysitter.

Lynn: It is so on!

Laney: You are so going down!

[The two contiue to glare at each other. Cut to later where Laney and Lynn are still glaring at each other at the McCauley residence and their parents drive off.]

Caleb: Uh, excuse me? [The sisters turn around to see the McCauley kids]

Laney: Oh. [clears throat] Hey, kids. So what do you want to do?

Caleb: Play with my science kit!

Camille: Play with my dress-up sticker books.

Laney: Well that sounds-

Lynn: [imitates a buzzer] Lame-o! Come on, I'll show you guys how to have some real fun. [Suddenly, the three are in a makeshift wrestling ring, wearing Lucha Libre masks, the McCauley kids are scared.] Alright, when I blow the whistle, you guys run to the center of the ring, and wrestle. [Blows the whistle, and the kids walk to the center of the ring, and hug.] Guys, Lucha Libre is a contact sport. This time, Caleb, you bounce off the ropes and come back at Camille with an angry possum! Like so.. [Before she did anything else, Laney stopped Lynn]

Laney: What do you think you're doing?

Lynn: Uh, teaching the kids how to Lucha Libre?

Laney: You will do no such thing! These are kids! You just can't teach them how to wresltle and use violence. [Pulls out Caleb's science kit] How about we just play Caleb's science kit instead?

Lynn: [Smacks the kit off Laney] Nope! That's you're problem, Laney. You don't know what children like.

Laney: [angry] I DON'T… [growls] That's it! Let's go! Right now!

Lynn: Bring it, sister! [Laney and Lynn then began to wrestle each other and the kids look at each other in concern]

[Later the kids and Lynn and Laney are in the living room Lynn brings out some condiments and frozen foods from their fridge.]

Lynn: Okay kids, clearly you're too weak to Lucha Libre. So we need to get you into shape. Your parents have a serious lack of exercise equipment, so we'll have to improvise. Camille, let's do some curls with these kosher dills.

Camille: [She tries to do one curl with them, but falls to the floor.] Ow! I heard something pop.

Laney: Oh my gosh! Are you okay!?

Lynn: She's fine. It's totally normal. [Camille whimpers as she tries to limp it off] Kay, Caleb, your turn. Let's see you dead lift this turkey. [She puts the turkey in front of Caleb and he groans.]

Laney: He cannot lift that and you know it!

Lynn: Of course he can! I've lifted thrice my weight when I was his age.

Laney: These kids aren't like you!

Lynn: Stop questioning my methods!

Laney: Only when your 'methods' stop being so questionable!

[The sisters began arguing again. And the McCauley kids knew that they could not get their attention. Minutes later, Lynn and the

McCauley kids enter the kitchen, Caleb now having his back sore.]

Lynn: Important lesson for you guys, after a good workout, you always want to replenish those proteins.

Laney: Finally, something sensible [opens the fridge and pulls out a carton of eggs.] Now, who wants eggs?

Caleb: Ooh, eggs. May I have please have scrambled?

Camille: I like mine hard boiled.

Lynn: [imitates the buzzer again] Cooking takes too long, your body needs that protein now! [She cracks two eggs each for two cups then gives them to the McCauley kids. Caleb starts to whine.]

Laney: Are you out of your mind!? They can't eat raw eggs! They need to cook! [Laney pours the yolks into the frying pan]

Lynn: No! They need to eat them raw! [Pours the yolks back into the cups]

Laney: Cooked!

Lynn: Raw!

Laney: Cooked!

Lynn: Raw! [Lynn throws an egg at Laney]

Laney: Oh it is on! [Lynn and Laney then started to throw eggs at each other and the McCauley kids look at each other in sadness]

Caleb: Can we please go to bed now?

Lynn: Ugh, okay, fine. [Later, the McCauley kids are in bed and Lynn is telling them a story.] So I'm almost to the top of the climbing wall when I beef my foothold, lose my grip, and plummet twenty feet to the ground, bam! Broke my tibia so bad, you can see the bone sticking out through the skin. [Hearing that makes Caleb actually throw up]

Laney: What are you doing?

Lynn: I'm telling them a story.

Laney: About your injuries? You can't do that!

Lynn: You know what, Lamey? I am sick and tired of you always critisizing me!

Laney: And I'm tired of you trying to scar the kids for life!

Lynn: My injuries are very informational!

[Lynn and Laney once again began to argue and the McCauley's looked on sadly one last time]

[Back at the Loud House, the older sisters are on the couch when Lynn enters through the front door.]

Lynn: What up, fellow babysitters!

Lori: Hey, how did it go?

Lynn: Oh, great, I hit it it out of the park. Better than how Laney handled it.

Laney: Uh, I did way better than you! [To her older sisters] She had them drink raw eggs!

Lynn: She wanted to play with a science kit!

Laney: At least it was less painful then when you wanted to teach them Lucha Libre!

[Lynn and Laney started arguing again as the the older sisters left. Just then the phone started ringing and Lori answers it]

Lori: Hello? Oh, hi, Mrs. McCauley. What? She did? They did? Eggs everywhere? But, but- Okay, goodnight. [hangs up]

Leni: [She and the others walk over.] What happened?

Lori: Both Lynn and Laney completely negelcted the McCauley kids because they were too busy arguing! Lynn completely terrorized them and Laney was too busy competing with Lynn to even to take care of them. So now we're all fired as their babysitters.

Leni: [in union] What?

Luan: [in union] No way!

Luna: [in union] Bogus!

Carmen: Oh no girls. I'm so sorry.

Lori: It's all right Carmen. I think we need to have a little talk with her.

Carmen: Good idea.

[In Lynn's room, the older sisters talk to Lynn and Laney about what actually happened.]

Laney: That's what happened? Oh man! I'm so sorry we got you all fired!

Lynn: I don't get it. I thought we had an awesome night.

Luan: Lynn, you made a five-year-old hang upside down and do crunches.

Sakura: And I overheard that you made them eat raw eggs. Yuck!

Lynn: Yeah, and his abs and muscles will thank me.

Lori: We're sorry, but you can't be in the babysitting group anymore.

Lynn: [now upset] What? Come on! It's not my fault those kids didn't know how to have fun! Give me a decent family and I'll show you I can crush it!

Lori: Sorry, but we just can't afford to lose any more clients.

Laney: What about me? Maybe you can consider giving me another chance?

Lori: Laney, you were literally too busy arguing with Lynn to actually do any babysitting. I'm sorry but both of you are not capable to do the job.

Lincoln: [pops in] You know, I'm available for babysitting.

Lynn: Get out of here, Stinkoln'! [throws her football at him and he falls to the floor.]

Laney: You can't just do that!

Lynn: You stay out of this, Lamey!

Laney: [angry] IT'S LANEY!

Lori: This is literally what we're talking about. [She and the others leave the room.]

Laney: [realizing her folly and sighs] What am I doing? I was so busy trying to compete with you that I totally forgot what's really important. Taking care of the kids.

Lynn: [flops onto her bed and growls in frustration] Just so we're clear I can do so much better than you.

Laney: Lynn! I'm serious! If we're gonna fix this we need to start working together. Even if we have different approaches on babysitting.

Lynn: Hmmm. [Gets an idea] You know what, Laney? You're absolutely right.

Laney: Wait. You're agreeing with me? Who are you and what have done with Lynn?

Lynn: I'm serious, Laney. We need to work together to show our sisters that we need this job. [to herself] Me more than you… [To Laney] So I have an idea that will set everything right… [Whispers the plan into Laney's ear]

Laney: What? No way Lynn! You're on your own!

Laney walked away and went back to her room. Carmen came in and she had the camera.

Lynn: Lemme guess. You want to speak my mind about having Maria as a friend, right?

Carmen: There's that, and Lori, Leni, Luan, and Luna seem to think that you can't babysit. What are your thoughts about that?

Lynn: I think it's awful what they said! Lori may be the eldest but I don't go down without a fight! Leni thinks I'm unable to be nurturing! Luna is wrong and Luan? Don't get me started with her.

Carmen: Any other opinions?

Lynn: Lori said I was an un-nurturing type! Leni and Luan said I was rough and reckless, Luna said I was a bad babysitter! Well I will show them!

Carmen: Okay. What are your thoughts about Maria?

Lynn: Maria is an awesome friend and she is a great swimmer like Tamao, Lana and Varie. But she should play different sports to add variety.

Carmen: She should huh? And they do say variety is the spice of life.

(TV STATIC)

Static: Maria became Aquamaria when she was exposed to the Bang Baby Mutagen Gas. She was swimming in the river when she was exposed and it turned her into pure water. But thanks to J.D. and his friends, she has her humanity back. Also it was the help of Carol Pingrey Loud that she became a great friend and a powerful ally.

(TV STATIC)

Lynn: Maria has been giving me awesome advice on how to win and play better at sports. And its been really helpful. She is awesome at sports even though she is a swimmer.

(TV STATIC)

Carmen: Lori, before you give your thoughts about Maria as a friend, our viewers want to know. How long have you, Leni, Luna, and Luan been babysitting for?

Lori: Ever since I was 13. That's when we all started.

Carmen: That's great! That is the best age to start.

Lori: Maria is literally the most amazing friend anyone can ask for. She makes shopping at the mall and it is literally awesome!

Stewie: Maria is an amazing friend and she is an astounding force to be feared.

Brian: She sure is. If Quahog is watching this, your days are numbered.

Carmen (still holding the camera): Thanks for those kind words, Stewie.

Stewie: No problem. (gets serious) And now, here's a message to all the remaining adults of Quahog. I know I've done some bad things in the past. But those days are behind me now. I now have new friends, a new team, and a new family to help and protect. My name is Stewie Gilligan Griffin and this is a message to Quahog. Leave Royal York alone. Because me and my friends are coming… for you.

Carmen: Well said Stewie.

(TV STATIC)

Carmen went into Ed's room.

Ed: Hey, Carmen.

Carmen: Hey there, Ed. My viewers are just wondering about your thoughts of having my sister Maria as a friend.

Ed: Uh Maria is an awesome friend and she loves helping her friends and she and William go perfect like Buttered Toast and Mashed Potatoes and Gravy.

Carmen: Nicely put Ed. Great combination with commentary and food.

(TV STATIC)

At the Local Bank, Carmen was interviewing Spiderman.

Carmen: Hey Spiderman.

Spiderman: Hey, Carmen. I'm just waiting for my gold-stealing buddy Joseph Lorenzini A.K.A. Hammerhead to come through those bank doors so I can send his sorry ass to prison.

Carmen: That's good. While you're waiting for that, can you tell me your honest thoughts about having my sister Maria as a friend?

Spiderman: Sure. You have an amazing personality and a very caring heart.

KRABOOOM!

Spiderman: That's him!

In came Joseph Lorenzini A.K.A. HAMMERHEAD.

---

Little is known about Hammerhead's origin. The unnamed Maggia gangster named Joseph was wounded in a brawl and was discovered by the scientist Jonas Harrow, who replaced the gangster's shattered skull with a steel one. When he awoke, the gangster only remembered a 1920s movie poster, and soon became obsessed with it. Taking the name Hammerhead, he favored 1920s clothes and weapons, and became a crime leader when the Kingpin stepped down for a short time. Hammerhead was often at odds with fellow crime lord and supervillain Doctor Octopus, as well as his mutual enemy Spider-Man.

Several supervillain criminals have worked for Hammerhead, including Tombstone, Electro, and the Tinkerer, who once made a cybernetic exoskeleton for Hammerhead, in which he battled the Human Torch.

---

Carmen fired a powerful blast of fire at him and burned him and he was on the ground screaming in pain.

(TV STATIC)

Maria: That was a great job sis!

(TV STATIC)

Carmen: Venom, do you and Eddie Brock have any thoughts about Maria as a friend you want to share?

Venom: Me and Eddie will gladly share.

Eddie: I think Maria is an awesome girl. She has amazing power and is a giving and compassionate soul.

Venom: I agree with you Eddie. She is an awesome girl that can take on anyone evil.

Carmen: Great thoughts guys.

(TV STATIC)

Eddy: Maria is an awesome girl. She is like Nazz back when I used to live in Peach Creek. She is smart, compassionate and willing to defend her friends and family no matter what.

(TV STATIC)

Panda King: Maria is a girl of magnificent honor and she carries a heart of gold.

(TV STATIC)

Ben: Maria is an amazing girl. She is just as amazing as my ex-girlfriend Julie back home.

(TV STATIC)

Riley: Maria is so amazing. She is a true friend and a very caring soul.

(TV STATIC)

Jasmine (GX): She is an amazing friend and she is a great swimmer and she has amazing power that can bring any villain down.

(TV STATIC)

Mindy (GX): She loves Duel Monsters just as much as anyone else and she is a great collector as well as a great fighter.

(TV STATIC)

Alexis: Maria is an awesome friend and a great partner. She has done all kinds of good deeds in Duel Academy when we're not fighting crime.

(TV STATIC)

Sora: Maria is truly an amazing friend with a great heart of good. Her gentle nature can help others and protect people and that's what makes her a great friend.

(TV STATIC)

Sly Cooper: Maria has all the awesome qualities of a true master thief. She can sneak in quietly in her water form without anyone noticing and she is a brilliant and stealthy person. She is a true friend and knows how to get the job done.

(TV STATIC)

Danny: She even has an awesome personality that would give the most evil of ghosts nightmares. But she is a great friend.

(TV STATIC)

Luan: Maria is an awesome and funny person. She likes all my jokes. They are ones that Wave to you. (laughs) Get it?

Carmen laughed behind the camera.

(TV STATIC)

Lola: Maria is an awesome friend and she is perfect at Tea Parties and loves helping me get ready for my pageants. And she makes me feel like a true princess in a castle.

Carmen: Nicely put Lola.

(TV STATIC)

Numbuh 1: Maria is very smart and talented. She can kick any villain into pulp and save a lot of kids from anyone.

(TV STATIC)

Numbuh 2: She's great at helping me with 2X4 technology. And her jokes are as funny as mine. I mean WATER you all waiting for?

Carmen laughs.

(TV STATIC)

Numbuh 3: Maria is an awesome lover of Rainbow Monkeys like me. She loves the blue ones the best.

Carmen: They are cute huh?

(TV STATIC)

Numbuh 4: Maria is an awesome friend and she knows how to kick some major butt!

(TV STATIC)

Numbuh 5: Numbuh 5 likes hanging out with Maria. She's an awesome friend that can kick our enemies butts.

(TV STATIC)

Tara: Maria is awesome! She and I have been great working together as a team.

(TV STATIC)

Carol: Maria is more than just my best friend. She's the best little sister ever. I'm 17 years old and Maria is 16. I've always been there for her since we were in kindergarten and I was sad to see her go. But we were close through it all regardless of how far apart we were.

(TV STATIC)

Batman: Maria is an amazing girl. She was cursed with a bad ordeal in Dakota City, but thanks to Carol and all of Team Loud Phoenix Storm, she was cured and reunited with her friends.

(TV STATIC)

Raven: Maria is a great friend. I may be half demon and the daughter of an interdimensional monster, but I have a heart.

(TV STATIC)

Starfire: Maria is an awesome friend. And she is an amazing learner about my Tamaranian Culture. She's also learning fast in learning about the Tamaranian Language.

Carmen: I'll have to see that for myself Starfire.

(TV STATIC)

Cyborg: Maria is an awesome and most amazing girl. And she loves pizza as much as anyone else. And she can kick butt like all of us! Boo-yah!

(TV STATIC)

Robin: Maria is an amazing girl. And she can do anything with water and she is also a great leader. I'm very proud of her.

(TV STATIC)

Beast Boy: Maria loves animals as much as I do. And she loves learning so much about them. She is an amazing friend.

(TV STATIC)

Leslie: Maria is a great friend and an awesome teammate. She can help get us through anything when the situation gets rough.

Agony: She sure can. Maria is a strong girl.

(TV STATIC)

Luna: She is a rockin' friend dudes.

Carmen: Rockin dudette!

(TV STATIC)

Ash: She likes Pokemon as much as I do and she likes Pikachu too. Right buddy?

Pikachu: Pikachu.

(TV STATIC)

Aqua: Maria is a true master of water and her heart is full of the purities of the ocean and the serenity that flows through it.

Carmen: That's an awesome and very philosophical way to describe her.

(TV STATIC)

Terra: Maria is a force of nature and she can make any bad guy quake with fear.

(TV STATIC)

Edd: I think Maria is a wonderful friend that has a very strong correlation with me and my fellow gentlemen.

(TV STATIC)

Star: Maria is the most awesome and most magical friend ever! She could've extinguished that freak Tom.

(TV STATIC)

Lucy: Maria may have been through some dark times in her times of darkness, but she always knows how to embrace the darkness of her times to use against her enemies.

Carmen: That's my sister for you Lucy.

(TV STATIC)

Lily: Maria is an awesome swimmer and she can swim really well with awesome grace in the ocean. But she is an awesome and loving friend.

(TV STATIC)

Riku: Maria's heart is full of good. She can make sure that all villains get justice.

(TV STATIC)

Elena: Everyone knows that water conducts electricity and me and Maria are awesome together as friends and more. We're like sisters.

(TV STATIC)

Laney: I think Maria is the most amazing and most smart girl I know next to Lisa and she is a really great swimmer.

(TV STATIC)

Lisa: Maria Rockell is an amazing female friend unit and she has the intelligence capacity and skills to help us out of any situation when it dictates.

(TV STATIC)

Leni: Ooh! We're doing an Interview! Yay! My favorite color is Zebra. And I don't like socks with sandals.

Leni has a brain the size of a walnut.

Carmen: (Facepalm) Focus Leni.

Leni: Maria is totes a great fashion designer like I am. She can make all kinds of great clothes.

(TV STATIC)

Lana: Maria makes great mud for me to play in and she is awesome with my animal friends. Plus she is a great swimmer and loves splashing me.

Carmen: That's my sister Lana.

(TV STATIC)

Lincoln: Maria likes my comics and is great at video games. She beat me and Clyde at Muscle Fish and she is a great video game player.

Carmen: My sister is an awesome Video Game champion.

(TV STATIC)

William: Maria is the most beautiful and most amazing girlfriend ever. She is as graceful as a mermaid and is just as beautiful as one.

Carmen: You are a great boyfriend William.

[The next day, all the Loud siblings are watching TV on the couch, except Lori, who is on her phone, and Lucy, who is reading a book. Just then, the house phone rings.]

Lynn: I got it! [answers it] Loud residence, Lynn Jr. speaking. [She hears someone on the other end and sneaks off into the dining room, makes sure the others are still distracted, then responds.] Oh, hi, Mr. Dunscombe. Sure, let me ask Lori if she's free on Friday. [walks over to another spot then speaks in a muffled tone, then goes back to the other spot.] Sorry, Lori's not available, but I'd be happy to babysit. [She hangs up and takes her seat back on the couch.]

Lori: [concerned] Who was that?

Lynn: A ding-dang telemarketer. I told him to buzz off.

**A FEW DAYS LATER...**

[The older sisters are in the kitchen. Leni and Luna are having coffee, and Luan is having a bowl of cereal.]

Lori: So, you guys didn't have any babysitting jobs this weekend either?

Luan: Nope. Didn't get a single call.

Luna: [in union] Deadsville.

Leni: [in union] Me neither.

Lori: Weird. Maybe we should check in with our clients.

[The four girls are now in different locations of the house, on their cell phones.]

Leni: Hi, Mrs. Lewis.

Luan: Hi, Mr. Santini.

Luna: Hey, Mr. Katz.

Lori: Hi, Mrs. Dunscomb.

[They all hear what their clients have to say.]

Lori, Leni, Luna, and Luan: Lynn did what!?

Lori: I can't believe this! Not only did Lynn steal our jobs but she lost us 4 more clients!

Luan: We have to tell her this stops now!

Fu: I can't believe Lynn would do this to you!

Luna: What are we going to do 'bout Lynn? We know she ain't gonna listen to what we have to say. You know how she is.

Luan: [Thinking of something] What if we can get her to want to quit babysitting?

Leni: How would we do that?

Luan: Easy, get her to sit for the worst kids in Royal York.

[They all get closer together, knowing who that is.]

Lori, Leni, Luna, and Luan: The Fox quintuplets!

Fu: Who are they?

Luan: They are Spawns from Satan!

Lori: Ugh, they are literally a nightmare. [Flashback to them throwing stuff at Lori while she was hiding behind the couch.]

Leni: [Flashback to them locking Leni out in the rain.] So mean.

Luan: [Flashback to them throwing a bucket of ice water on Luan while she was sleeping.] Little monsters.

Luna: [Flashback to them flushing stuff down the toilet.] Bad to the bone.

Fu: THEY WERE THAT HORRIBLE!?

Lori: They literally were.

Luan: So, it's a plan?

Lori, Leni, and Luna: It's a plan.

Fu: It's genius.

[Meanwhile, outside the backyard, Lynn is throwing some pitchers at her goalie net when the older sisters approach her.]

Lori: Hey, Lynn, can we talk to you?

Lynn: [knowing where this is going] Okay, I know what you guys are going to say but before you get mad, let me explain-

Luan: Oh, we're not mad.

Luna: We get it, dude, you were just trying to prove you can handle babysitting.

Leni: And guess what? You proved it.

Lynn: Really? So, your clients liked me?

Lori: Literally loved.

Lynn: Yes! I knew it. I told you guys! So, you're taking me off the bench?

Lori: Yep. In fact, we already have a new client lined up for you.

Lynn: Sweet, who is it?

[Later, Laney was in the livng room watching tv with her pig Squeals, when Lynn interrupted]

Lynn: BOOM! I'm back in the game, baby! I got a gig! In you're face, Lamey!

Laney: First, stop calling me 'Lamey'. And two, really? They're really giving you another job after what you did?

Lynn: Yeah! Lori said all the clients loved me! So they gave my own babysitting job! I guess I do make the better sitter after all!

Laney: Well, congratulations Lynn. So who is it?

Lynn: I'm babysitting for Mr. and Mrs. Fox. Welp, I gotta get going! [leaves] See ya, Lamey!

Laney: Stop calling me that! [sighs] Well, at least it's nice to know that Lynn finally gotten a chance to- [Realizing who Lynn was babysitting for] MR. AND MRS. FOX!? That means she's babysitting the Fox Quintuplets! The meanest, craziest, baddest, straight up most horrible children on Earth! [Squeals squealed in terror] Oh man! What was Lori thinking! There's no way Lynn can babysit those monsters! Not with her expertise!

[Meanwhile, Lynn was at the Fox residence and the parents drive off.]

Lynn: Later, Mr. and Mrs. Fox! [closes the door] So, gang, what should we do tonight?

[Lynn is then shocked by what she sees; The one in green is finger painting on the wall, the one in blue is squirting ketchup and mustard into a table fan, the one in red is bow and arrowing the goldfish, and the one in white has an angry raccoon. She is shocked, she looks over and sees Pam standing next to her, Pam is looking at Lynn, and holding a hose. Pam sprays her right into the door, and all the quints surround Lynn and laugh menacingly, Lynn gets a nervous look. Back at the Loud House, Laney and Squeals were trembling in fear thinking about what Lynn was going through]

WELCOME TO HELL!

Laney: I gotta do something Squeals! Those kids are gonna eat her alive! [Laney dashes off to save Lynn but she stopped when Squeals oinked at her] What's that, Squeals?

Squeals: [Oinks]

Laney: Good point! I'll need protection. I'm not going in there unarmed. [Cut to Laney in her closet putting on an armored knight costume from her chest, a super hero utility belt and holds a plant sword in her hand]

[Later the older sisters were in the living room when they saw Laney coming down with her armour]

Luna: Uh, what's with the duds Laney?

Lana: Are you going out to slay a dragon?

Laney: No Lana. I wish I was. I'm gonna go save Lynn from the Fox Quintuplets!

Lori: Laney, relax. Besides, she deserves this after she costed us more clients. If she kept this up, we would literally lose our jobs!

Laney: But assigning Lynn to the most terrible kids on Earth? No one deserves this! You guys know what they're like.

Luan: Exactly, that's why we gave Lynn the job.

Leni: Yeah, I bet by now those little monsters have trapped her in the crawl space like they did to me.

[The older sisters laugh while Laney is terrified by the thought]

Lori: Or, rolled her up in a rug and pushed her down the stairs like they did to me. [They laugh again, only a little more dwindled.]

Luna: Or, threw a skunk into the bathroom while she was doing her business.

[The others are just aghast at this, they all then start to look guilty.]

Luan: Well, Lynn had it coming.

Lori: Literally.

Laney: Really? I mean, sure she has no idea how to handle kids but that is no reason to punish her like this.

[A few seconds of silence.]

Leni: [giving in] Guys, I'm trying to be a team player here, but I'm starting to feel bad.

Luna: No, dude, I get it. I am too.

Lori: Me too. Lynn's only 13, and who knows what kind of horrible mess she's in right now.

Luan: And all she wanted was to be a part of our babysitting group.

Laney: I can get where she's coming from. She was really determined to be a good sitter just like you guys. Just like I was when you guys thought I could do it.

Leni: Yeah.

Lori: [immediately gets up] We have to go help her!

Luna: [gets up as well] Agreed. But first, Laney, you think you can score us some protective gear? [Laney grabs a rack of armour costumes]

Laney: What size?

Carmen: Lori, you, Leni, Luan, Laney and Luna are about to save Lynn from the Fox Kids. Do you 5 have anything to say to Eddy, Sam, Joey, Bobby, and Ed before this daring rescue?

Lori: We literally never should've sent Lynn into the Lions den!

Leni: Totes! We have to save her!

Luan: There's no Lion out of this one! (Laughs to rimshot) Get it? But seriously, we have to save her!

Luna: Lets do it dudes!

Laney: Yeah!

Sam S.L.: You can do it love!

Eddy: Go save her My Angel of Comedy!

Joey: (British Accent) Be careful Laney.

Bobby: Show no mercy Babe!

Ed: Gravy!

Eddy: Shut up Ed.

[The five girls approach the Fox residence, with their gear, and knock.]

Lynn: [Answers the door, unharmed] Hey guys, what's up?

[The five roll into the house, commando style, and get ready for a fight, much to Lynn's confusion. The four are then surprised by what they see; the Fox quintuplets are all sitting around reading.]

Laney: Uh, I think we got the wrong house.

Luna: Yeah. I thought you were babysitting the Fox quintuplets. Who are those guys?

Lynn: Those are the Fox quints, duh.

Laney: Aroo?

Luan: Wait, how did you get them to behave?

Lynn: It was a cinch. [Flashback to dinner, the quints are having a food fight while Lynn looks on with a displeased look.] First, I showed them that if they want to get crazy, I can get ten times crazier. [Lynn gets up, lets out a yell, and throws the entire dinner aside, leaving the quints shocked. Another flashback shows the quints playing tug-o-war.] Next, I wore them out with athletic competition. [Another flashback to Pam cleaning up her toys and Lynn giving her a thumbs up.] And lastly, three words, [She grabs Pam and gives her a horsey ride.] horsey, reward system. [Flashback ends]

Lori: Wow! Impressive.

Laney: I can't believe it! You did the impossible! You tamed the Fox Quintuplets. You really are the better babysitter.

Lynn: Told ya!

Lori: Well, anyway, I guess we should get going.

[They all start to leave, but Lynn stops them.]

Lynn: [Suspicious] Wait a minute, what's going on? Why'd you even come here in the first place?

Luna: Nothing, dude, we were just in the neighborhood.

Laney: Doing some… cosplay?

Leni: We were? I thought we came here because we felt bad about trying to get Lynn to quit babysitting.

Luan: [laughs] That's funny, Leni, but jokes are my territory. Come on, let's go.

Lynn: You wanted me to quit babysitting, why?! You said your clients loved me!

Lori: Well, they didn't. You actually terrified their kids, but now I think I know why, they just weren't the right kind of kids for you, these guys are. None of us could handle them, but clearly you're doing great.

Luna: We're sorry for trying to mess with you.

Lynn: [rubs her arm] Well, that's cool. I guess it wasn't so great that we stole your clients. And I'm sorry I got you involved in this, Laney.

Laney: And I'm sorry I was so crossed with you about you not knowing how to take care of kids.

Lynn: Me too. Apology punches! [punches her sisters]

Luna: Dude!

Leni: Ow!

Luan: Ow!

Lori: Ow!

Laney: Ow!

Pam: [She and her brothers head upstairs.] Coach Lynn, we're ready for bed!

Lynn: Well, duty calls. I'm glad we're good, I'll see you guys at home. [heads upstairs and the four girls leave.] Who wants to hear about the time I broke my tibia?!

Fox Quints: I do, I do!

Laney: Wow, they really are perfect for her.

[The next day at home, the four sisters are in the living room. Lori is texting on her phone, Luan is reading a book, Luna is strumming her guitar, Leni is filing her nails and Laney was playing with Squeals. Lynn shows up with her duffel bag.]

Lynn: Off your butts, ladies. You've all got babysitting jobs tonight.

Luan: What are you talking about?

Lynn: I got your old clients back. It took a lot of begging and pleading, and the apology punches didn't help, but I was able to convince them.

Luna: Mighty dece' of you, sis.

Lynn: Well, see you later, I'm sitting for the quints. Now that Mr. and Mrs. Fox have found someone who can handle their kids, they're going out, like, every night. Yo, Lanes. You wanna come with? We can share the load.

Laney: Thanks, but no thanks Lynn. I had enough babysitting for one day.

Lynn: Your loss. [She leaves the house]

Me and Varie walked in.

Me: Hey guys, we're back.

Lori: Hey J.D. How was the escort mission?

Me: It went off without a hitch Lori.

Carmen: Hey J.D. do you have any opinions about Maria?

I saw the video camera.

Me: Making a short movie, Carmen?

Carmen: Yep. To end it, do you have any thoughts about Maria to share?

Me: Okay. Maria is an awesome friend. She has really come a long way ever since we helped everyone out in Dakota City.

Carmen: Thanks J.D.

[That night at the Fox's, Lynn and the quints are Lucha Libre wrestling, Lynn blows her whistle, and the quints are loving it.]

Stevie: [As Lynn has him over her head.] Best babysitter ever!

[Lynn laughs]

FLASHBACK ENDS

Me: That was really cool though.

Maria: It sure was.

Lynn: Boy I can't believe I was like that. My competitiveness was a monstrosity.

Me: It was.

---

Later we were having a special sports party. We were celebrating the first ever Stanley Cup win of the Saint Louis Blues and the first ever championship ever won for the Toronto Raptors. Never in the history of the 54 years of the team on the NHL have they won the Stanley Cup. All of the state of Missouri was going ballistic. Also The Toronto Raptors have never won an NBA Championship for Canada. All of Canada went crazy when the Raptors won. We had sports meals, sports appetizers and more.

Me: This is so awesome! I'm so happy for Saint Louis and Toronto.

Vince: Me too partner. I'm so happy that the Blues won their first ever Stanley Cup!

Me: Me too partner. And I'm so happy for the Raptors.

Bridgette: Me too. Hooray for Canada!

Me: A toast to the first ever victories of the Saint Louis Blues and the Toronto Raptors!

Everyone: YEAH!

We clinked our glasses and cheered.

Carmen: (To the viewers) I love our babysitting adventures and our awesome adventures and more. But no one likes a babysitter that takes sports too seriously.

Lynn: (Offended) HEY!

THE END

---

Another Fanfiction Complete

Sitting Bull is one of my favorite episodes. I love how Lynn babysat the Fox kids and it was awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. And congratulations to the Saint Louis Blues and the Toronto Raptors.

See you all next time.

# Curse of The Haunted Mask

It starts in the training yard.

Lincoln was practicing his martial arts moves with me, Jen and Linka.

Me: (Blocks a kick) Great job Lincoln!

Lincoln: Thanks J.D.

Jen: You're really getting stronger kid.

Me: He sure is. We're proud of him.

Nico: Yep. Hey Jen, did you ever at one time impersonate a crime lord?

Jen: I sure did. Me and Bruce foiled the plans of the ruthless Ms. Allure.

Nico: I heard about her. She was one of the most notorious crime lords in all of New York.

Me: I remember her. She had a very dangerous and deadly hypnotic power that allowed all kinds of people to do her bidding.

Jen: Yep. It was shortly after we stopped some mobsters from bringing in weapons. It was shortly after we blew up Quahog.

---

In the New Jersey Shore on the wharfs, Jen and Bruce were fighting and pulverizing a bunch of mobsters at a warehouse. They had millions and millions dollars in stolen money, jewels, guns and weaponry and more. They had it all. Jen was in her She-Hulk form and she was wearing a black trench coat, black clothes and black stiletto shoes. And Bruce was in his Grey Hulk Form.

Jen: (Narrating) **Back then I was known as the notorious Lady**

**Green and Bruce was the Grey Hulk and he was known as Mr. Fixit. Back then we were called anti-mobsters. I guess that's the right term. Our mission was to bring Miss Allure's criminal empire crashing down. We had to infiltrate Allure's empire by taking out the opposition that stands in her way. And it was no easy task.**

Jen punched a man in the face and Grey Hulk knocked out a bunch of men.

She-Hulk: That takes care of those clods.

Grey Hulk: Yeah but we're not done yet. Now we take on Allure.

They went to Miss Allure's building in New York City. There they confronted her. They met Miss Allure! She was a beautiful woman with looks many people would kill for.

Her enforcer, the Absorbing Man, was completely devoted to Miss Allure but she showed no interest in return.

Allure attempted to get Bruce Banner to fix the headaches her powers were causing her so she could run the town, but Mr. Fixit and She-Hulk had other plans. She tried to hypnotize She-Hulk, but failed. Eventually, when Banner snapped out of the trance Allure had on him, he simply removed her powers. She then accepted the love of the Absorbing Man.

She-Hulk: So you are Miss Allure.

Allure: That's right. And you are the famous Lady Green I've heard about. You have a lot of nerve foiling my plans to get everything I could ever want!

She-Hulk: We aim to please.

Grey Hulk: Time to take you down bitch!

They went at her. But just as they were about to smash her to pieces, they reverted back to their human forms. She-Hulk turned back into Jen and Grey Hulk turned back into Bruce! THEY HULKED OUT!

Allure: Jennifer Walters. So you're the infamous Lady Green.

Jen: That's right.

Jen punched her in the face and kicked her in the stomach!

Jen: Using feminine wiles to get what you want? Trading on your looks? Read a book sister! That passive aggressive number went out long ago. Chicks like you give women a bad name.

Jen punched Allure in the face and kicked her in the stomach and punched her in the face again. Then she dealt a powerful kick to her face and knocked her out. Jen and Bruce took all the jewels Allure stole along with all the weapons they took. The police arrived and Jen put a special collar on Allure's neck that stripped her of her mind control powers permanently.

Jen: (Narrating) After the police arrived they arrested Allure and we sent her to one of our toughest maximum security prisons for eternity.

FLASHBACK ENDS

Me: Wow! You guys really socked it to her! Awesome job!

Nico: Miss Allure you have failed this world.

We laughed.

Me: You said it buddy.

---

Later we were back in the estate. I was in the basement putting laundry in the washing machine.

Me: (To the Viewers) Even superheroes have to do chores.

I put the laundry in the machine and turned it on.

I then saw a strange trunk by the wall. It had a skull face on it and it had an old style on it. I walked up to it and it had a strange energy on it.

Me: I wonder who owns a trunk like this.

The Grim Reaper then appeared.

Me: Oh hi Grim.

Grim: (Jamaican Accent) Hello J.D. Doing laundry?

Me: Yep. I noticed this trunk here. Is it yours?

Grim: It is mon. It's where I keep all the artifacts of the paranormal and the supernatural.

Me: Wow! That's amazing. May I have a look inside?

Grim: Certainly.

I opened the trunk and looked inside it. It had all kinds of strange and enchanted objects.

Me: Wow. Look at all this stuff.

I pulled out a strange purple crystal.

Me: A Dark Crystal?

Grim: This is the Dark Crystal of The Dark Dimension. What it does is it sends the most evil of souls to the magic plane called the Dark Dimension.

Me: Dr. Strange told us about the Dark Dimension. It's where he sent the evil spirit of Slappy for all eternity.

Grim: That's right.

Me: This'll come in handy. It will be perfect for that.

I put the crystal around my neck.

Me: Perfect.

I found something else. It was a strange bracelet. It was a green bracelet and it had an evil looking octopus head on it.

Me: What is this wicked bracelet?

Grim: That is the Bracelet of Cthulhu. An ancient and terrible being that can drive men mad by looking at them.

Me: I've read a lot about Cthulhu. He's a monster of pure unrestrained evil. He's said to be the ultimate personification of pure evil amplified 100-fold. But this might come in handy.

Grim: When you put it on you'll get all of Cthulhu's powers enhanced 100-fold.

Me: Wow! That's incredible.

I put the bracelet on my right arm and the eyes glowed. I got a huge muscle increase in size. My muscles were now as big as Arnold Schwarzenegger's.

Me: Wow! I look incredible! I look like an awesome body builder.

Grim: Yep. It builds up your muscle strength.

Me: I have to try this bracelet out on my next mission.

I then noticed something strange.

Me: What's this?

I pulled out a terrifying and ugly mask.

Me: Whoa! This mask looks ugly!

Grim: You know this mask J.D.

Me: Hmm.

I looked at it and it was very familiar to me somehow. But then I suddenly had a memory flashback. I saw this mask on my favorite Goosebumps book The Haunted Mask!

Me: (GASP) I remember this ugly mask! This is the Haunted Mask from the Goosebumps Series!

Grim: That's right. It was given to me to hide in my trunk.

Me: I got to show this to everyone!

We went upstairs.

---

In the Dining room, Nico was looking over all of his entire collection of the Goosebumps Books.

Nico (to Poliwag and Poromon): You know, guys. I'm starting to think that maybe we won't really get to fight any other Goosebumps monsters. After all, Slappy's demise probably alerted the rest of them to our prescence. Chances are, they're all in hiding about now. What do you two think?

Poromon: They are out there Nico. But we have to finish them one at a time when we find them.

Poliwag: We just got to know where to look.

I came in.

Me: And I believe I found one in our basement Nico.

I showed him the Haunted Mask.

Nico: (GASPS IN SHOCK) THAT'S THE HAUNTED MASK! WHERE DID YOU FIND THAT!?

Me: In Grim's Trunk in the basement.

Nico: So we had a Goosebumps monster in our house the whole time?

Me: We never even realized it. You know more about this mask better than I do.

Nico: I sure do.

After everyone gathered, Nico told us how the mask came into the possession of a young girl in Raleigh, North Carolina named Carly Beth Caldwell.

Carly Beth makes her first appearance in The Haunted Mask. She is a timid, easily scareable girl, which usually leads her to be on the receiving end of cruel pratical jokes pulled by her friends Chuck and Steve. With Halloween just around the corner, Carly Beth decides she's done being scared. She needs to get revenge on the two boys, and so she puts a plan in action to scare them on Halloween night. Getting home, she discovers her mother has sculpted a plaster head replica of her. She tells Carly Beth she made it because she loves her, but Carly Beth can't help but be turned away from the head. Her mother also reveals she made a duck costume for her, after Carly Beth admired one in a store window. This repulses Carly Beth, as she wants to be scary for Halloween, not cute.

On Halloween Night, she enters a novelty party store in hopes of finding a mask that will scare Chuck and Steve. To her disappointment, nothing in the store seems to fit the bill, but eventually, Carly Beth finds an entrance into the basement of the store, where two dozen grotesque and realistic looking masks are waiting for. One in particular catches her eye- a green one, with glowing eyes and jagged fangs. The shopkeeper of the store stops her before she can take it, and tells her the masks are not for sale. He tells Carly Beth the masks are too scary to be worn, but Carly Beth pleads, offering all the money she has. Eventually, the shopkeeper gives in, and lets her take the mask, telling her she'll regret it. Carly Beth exits the shop, and prepares to set her revenge plan in motion.

She puts the mask over her face, and heads out, also carrying the plaster head her mother made on a broom handle. While in the mask, Carly Beth can't help but scare the other trick-or-treaters walking around. To her glee, the mask seems to terrify everyone, even her best friend, Sabrina Mason. Hoping to find Chuck and Steve, she separates from Sabrina, scaring kids along the way in a now raspy voice.

Carly Beth eventually finds the two, and they are immediately scared of her. They ask if Carly Beth is under the mask. In response, Carly Beth shows them the plaster head, pretending it is her own decapitated head. To her shock, the head seems to cry out for help, which sends Chuck and Steve running in fear, and the head rolls onto the ground. With her plan successful, Carly Beth regroups with Sabrina.

After arriving at Sabrina's house, Carly Beth attempts to remove the mask, but discovers it has become stuck to her face. She asks Sabrina for help, but upon inspection, the two discover there is no line between her skin and the mask. Her eyes have also changed to a glowing orange. In panic, she runs back to the party store for help. The Shopkeeper is there waiting for her, and tells Carly Beth the mask is not a mask at all, but rather, an actual face. He tells Carly Beth the only way the mask can be removed is through a symbol of love. Frustrated, Carly Beth demands to know what he means. Her yells wake up the other masks in the basement, which rise up to chase her. Carly Beth flees, with the masks in pursuit. She retrieves the plaster head her mother made, and holds it up, declaring that is a symbol of love. The masks are defeated, and Carly Beth safely removes the mask from her face.

Carly Beth returns in The Haunted Mask II, set the following Halloween, changed by her experience with the mask. She has since become much more braver, and is no longer easy to scare, much to Chuck and Steve's frustration. Steve wants a mask of his own - something as scary as the one she wore. Carly Beth warns him of the danger the masks possess, and recounts how it became stuck to her face. Steve doesn't believe her, and ignores her warnings not to go to the party shop.

Steve ends up stealing the mask of an old man, which sticks to his face, and causes him to feel weak and old. He realizes that only Carly Beth can help him remove it. Carly Beth attempts to help Steve find a symbol of love to remove the mask, but nothing works. She theorizes that the different masks may have different methods of removal. The two head back to the party shop, and find the suit that matches with the mask. Her theory is proven correct when the mask lifts off Steve's head, and attaches to the suit. After Steve's mask is removed, he and Carly Beth break into a fit of joyful laughter now that the mask is finally removed.

Me: That is awful Nico. I didn't know Carly Beth had a really bad history with this bad mask.

Lori: I can't believe Carly Beth literally went through all that!

Laney: Me neither. This mask is pure evil.

Me: It's worse than that guys. We have to destroy this thing.

Then there was a knock on the door.

Me: I'll get that.

I went to the door and I answered it. It was famous superheroine Greer Nelson A.K.A. Tigra.

Me: Oh wow. Greer Nelson A.K.A. Tigra.

Tigra: That's right. It's a pleasure to meet you J.D.

Nico: Wow. You're one of my favorite superheroes.

Tigra: I'm glad I have some fans.

Laney: Wow. It's so awesome to meet you Greer. I take it the Avengers sent you?

Tigra: They did Laney. I was sent to assist you guys in an upcoming mission.

Me: We greatly appreciate it Greer.

Luna: But how did you become Tigra?

Tigra: That is a story I'll never forget.

Greer Grant was a native of Chicago, Illinois. She was a sophomore at the University of Chicago when she met her future husband, policeman Bill Nelson. She left college to marry him. The marriage was a strong one, flawed only by Bill's overprotective nature. Bill was killed in an off-duty shooting, and Greer had to find a job of her own. After weeks of searching, she ran into her old physics professor, Dr. Joanne Tumulo.

Dr. Tumulo was working on the human potential experiments that turned Shirlee Bryant into the super powered villainess called the Cat. Not trusting the test subject chosen by her financial backer, Malcolm Donalbain, Greer persuaded Dr. Tumulo to let her undergo the experimental treatments as well. She emerged with superhuman physical and mental capabilities. When Donalbain had Dr. Tumulo's lab destroyed with dynamite, Greer donned one of the dozens of Cat costumes that she had created and the doctor had appropriated and set out to put an end to his scheme. With her new abilities, she adapted quickly to the strange garb and wrecked Donalbain's headquarters. Rather than let himself be touched by the Cat's raking claws, Donalbain committed suicide. A fire set off by the ruined equipment destroyed Donalbain's headquarters. Greer embarked on a brief crimefighting career as the Cat.

Another of Donalbain's Cat costumes surfaced years later, when Patsy Walker discovered it while accompanying the Avengers. She donned it and dubbed herself Hellcat.

"The Tigra" is the historical defender/champion of the Cat People, a humanoid race created by sorcery during the Dark Ages. Concerned about the Cat People's uncontrollable population growth and savagery, a community of sorcerers eventually banished the entire original Cat People population to a demonic netherworldly realm.

The two very first Cat People, who were themselves very capable scientists and sorcerers, were able to evade banishment through their magic. They continued to live amongst humanity in secret and worked to refine the Cat People's biology to make a peaceful integration into the human population possible. They were constantly persecuted and required a protector. Discovering that the original spell for transforming cats into Cat People like themselves had been rendered inoperative, they created a process combining science, sorcery, and focused mental power that could transform a human female into a "Tigra," a humanoid tiger-like being with abilities that far surpassed those of either race.

This unnamed first Tigra defended the Cat People with great effectiveness, and allowed a new community to establish themselves on Earth, separate from the group that had been banished. This new population continued to live amongst humanity in secrecy through the present day, relying on enchantments that cast the illusion of a human appearance.

Nothing is known about the other Tigras who may have existed, or even if there have been more than two. At the time when Greer was transformed into a Tigra, "The Tigra" was only remembered by the Cat People as a distant but powerful legend. It has been strongly implied that only one Tigra can exist at any given time.

Dr. Tumulo was revealed to be one of these modern Cat People.[7] When members of HYDRA tracked Tumolo down to obtain "The Final Secret" (the Black Death plague, which was another creation of the first two Cat People), Greer once again donned the Cat costume and drove them off. However, she was mortally injured by a blast from one of their alpha radiation pistols.

Greer regained consciousness in a Baja California cave, surrounded by a gathering of Cat People summoned by Tumolo. Rapidly dying from the radiation's effects, Greer was offered one last hope of survival: a combination of ancient science, sorcery, and mental power that would transform her into Tigra, the Cat People's legendary half-human, half-cat warrior. She readily consented, began wearing only her black bikini from this time on, and arose from the ceremony as a superhuman-powered human-animal hybrid. Striped fur covered her entire body, her hands and feet bore razor-sharp claws, her teeth became long and pointed, and her eyes were now cat-eyes. In addition to superhuman strength and senses, she also gained many of the drives and instincts of a cat. Soon after, she encountered the Werewolf.

Though initially unable to change back to her human self, the Cat People ultimately gave her a mystical cat-headed amulet that allowed her to first create the illusion of her human form and later to change at will. She seldom made use of it, preferring her feline, super powered form and mostly abandoning her life as Greer Grant-Nelson.

Greer resumed her superhero career, with most of the world unaware that the woman who briefly fought crime as The Cat was now the feline Tigra. She fought alongside most of Marvel's heavy-hitters in wide-ranging adventures. She first battled Kraven the Hunter, and then teamed with Spider-Man against Kraven. She also became a friend and associate of the Fantastic Four.

When the Avengers found themselves shorthanded, Moondragon used her mental powers to compel a dozen unaffiliated heroes (apparently selected at random) to travel to Avengers Mansion and audition for the vacant position. Though he disapproved of Moondragon's methods, Captain America offered Tigra a spot on the team.

Although Tigra's first tenure with the Avengers was brief, she served well. She also aided the X-Men against Deathbird. Her time with the Avengers was highlighted by her single-handedly saving the world from destruction by the Molecule Man, who intended to consume the planet's energy like Galactus. Alone among the Avengers, she was able to get close enough to him to talk him out of his plan. She convinced him to seek help from a therapist and the Molecule Man has ceased to be a threat to this day.

The Avengers fought the Ghost Rider, who blasted the team with his terror-inducing hellfire. The nature of Tigra's powers caused her to be affected by the exposure on a far deeper level than her teammates. She was left with great self-doubts about her qualifications as a member of Earth's premier superhero team, particularly alongside such heavy-hitters as Thor and Iron Man. Ultimately she resigned her membership, leaving the team on good terms.

She resumed her modeling career, moving to San Francisco when employers on the East Coast proved unreceptive to the idea of a cat person model. There she befriended private investigator Jessica Drew, and aided her on several cases, but had no better luck with modeling work and accepted an offer from The Vision to become a founding member of the Avengers' new West Coast-based team. Alongside the new West Coast Avengers, she fought Graviton, and became a close friend of Wonder Man. She also began a flirtation with Henry Pym.

While with the West Coast Avengers, she seemed to have shed the remainders of her hellfire-induced self-doubt. However, the cat-like aspects of her personality (such as a penchant for savagery and a need for affection) had begun to dominate her human intellect, causing her increasing distress. She sought help from her Avengers teammates in overcoming the "cat" side of her personality, which had caused her to become the lover of both Wonder Man and Henry Pym. She also encountered and fought the was transported with the West Coast Avengers by Balkatar to the realm of the Cat People. Ultimately, she came into contact with the banished colony of Cat People, whose king agreed to resolve her crisis in exchange for carrying out her historical function by murdering the Cat People's longtime foe, Master Pandemonium. Though she initially accepted their terms, when the critical moment came at an arena in the Cat People's realm, Tigra refused to violate the Avengers' code against killing, and failed to kill Master Pandemonium. The Cat People stripped her of her "Tigra soul" (the peculiar articulation of her Tigra powers in this demonic realm). She was reduced to her normal, pre-transformation human state.

Hellcat, who had accompanied Greer and the West Coast Avengers, lent Greer the super-suit that she used to wear as The Cat, and a battle ensued. As the tide began to turn against the Cat People, their leader released the "Tigra soul" as a means of confusing Greer. The tactic backfired. The cat-suit had been designed by a Cat Person (Tumolo) specifically to amplify Greer's human capabilities. So instead of Greer being dominated by the "Tigra soul" as before, the suit caused her human and feline personalities to successfully integrate together.

This time, Greer's transformation into the legendary cat-warrior was much more complete than before. Her strength and abilities were far greater than they were originally. Her appearance became more feline, and she grew a tail like the rest of the Cat People. She also lost the ability to shift back to a human form, though as before she showed no sense of loss for her human identity.

Her transformation was so complete and the Tigra legend was so strong amongst the Cat People that they immediately ceased hostilities. Tigra continues to hold a position of significant reverence among the Cat People.

The transformation also resolved the conflicts between the human and feline aspects of her personality. Tigra could now exploit the full range and ferocity of her abilities without fear of going so far that she would lose control of her actions, and she could also indulge her natural feline inclinations (such as hunting and chasing prey for enjoyment) without feeling guilty or self-conscious. This integration was confirmed in concrete ways immediately upon the team's return to Earth. Tigra performed a sport dive off the highest span of the Golden Gate Bridge, exhibiting no signs of any injury or fear of the water. She also terminated her ongoing relationship with Hank Pym, explaining that although she no longer felt a cat-like need to seek affection at every opportunity, she had no conventional human desire to be tied down to one mate, either.

She was captured by Graviton at one point, but freed the Avengers from him. Around this time, the Arthurian Lady of the Lake summoned the West Coast Avengers to England to aid the superhero team Excalibur. With the others, Tigra ventured into the realm of limbo to help stop Doctor Doom's mad plans to gain power at the cost of killing everyone in Britain.

Tigra briefly left the West Coast Avengers in a dispute over the Avengers' policy against killing. Tigra stated that she believed by her very nature that killing prey was sometimes necessary. She joined Mockingbird and Moon Knight in forming an independent group.

After returning to the team, Tigra inexplicably underwent another "inversion" and transformed into a more beast-like feline shape, losing her human intellect completely and becoming a danger to her fellow Avengers. This was possibly due to the reality-warping machinations of Immortus, who at the time sought to distract the team so as to have unimpeded access to the Scarlet Witch. Tigra was forcibly shrunken down to sub-housecat size by Hank Pym and kept in a cage in his lab while the team tended to other urgent matters.[volume & issue needed] She escaped and traveled into suburbia where she lived as a wild animal. She was ultimately rescued and restored to her former appearance and stability by noted witch Agatha Harkness, who was an associate of the West Coast Avengers at that time.

Tigra resumed her membership in the West Coast Avengers. On an intelligence-gathering mission in Japan, she and Iron Man battled a team of Asian supervillains known as the Pacific Overlords. During the fight, Iron Man was incapacitated and Tigra suffered a deep, critical stab wound to the abdomen before dispatching her attackers and making her escape. She flew away in the Avengers' Quinjet, intending to report back to headquarters on the Overlords' plans, but severe loss of blood caused her to lose consciousness and crash land in Arnhem Land, an Aboriginal territory in northern Australia. Rescued by Aborigines, she decided to stay put while she recovered from her wounds, naming Spider-Woman Julia Carpenter as her replacement. She briefly made Arnhem Land her home, enjoying the company of the Aborigines and the pleasures of living wild.

After the West Coast Avengers disbanded, Tigra resumed her wide-ranging adventures. Though no longer an active Avenger, she continued to participate in Avengers operations when needed, as a member of the team's extended family.

With the aid of a new transformation device to disguise her true identity from her fellow officers, Tigra spent some time on the New York City police force. She focused much of her time on a personal case and in combating a force of vigilante police officers.

Later, mystical forces which attacked all Avengers brought her to the Avengers Mansion. There, she and all the other Avengers were entrapped by Morgan LeFay, to live out in an alternate universe where LeFay ruled, fighting alongside the others as one of the "queen"'s guards under the name "Grimalkin". After the defeat of Morgan, Tigra went off into space with Starfox, to enjoy the pleasures found there. She appeared off and on, having a series of adventures as part of the ad-hoc space-faring Avengers Infinity team in which she helps in preventing an extra-universal race from destroying all life in our universe.

Tigra returned to Earth with the Avengers Infinity team during the Maximum Security storyline, during which she helped to save the Earth from becoming a penal colony for alien criminals.[volume & issue needed] She played a particularly crucial role in events when the Infinity team were captured after discovering the Kree's role in recent events, with the Kree intending to lobotomize the team and make it appear as though they had destroyed another planet; due to the attention the Kree had paid to keeping the more powerful team members contained, they were unprepared for Tigra, the weakest member, to escape her bonds by returning to her smaller human form, allowing her to escape her shackles and free her teammates in time to reveal the truth.

Tigra fought along Iron Man's side during the Civil War. She supported the registration act, although she expressed sincere concern about the fate of Captain America and the other heroes who opposed the Act and turned fugitive. Nonetheless, in Civil War Files, Tigra was listed not merely as having registered to comply with the law, but also as having become an agent of S.H.I.E.L.D. to actively aid in its enforcement.

Pretending to switch allegiances, she infiltrated Captain America's Secret Avengers team as a mole. She passed information to Iron Man undetected until the very end of the conflict, when she was discovered and "outed" by Hulkling, Captain America's own spy among the pro-registration forces. Captain America kept quiet, exploiting her presence to feed disinformation to Iron Man about his team's plan to rescue imprisoned heroes later that day.

Greer has been identified as one of the 142 registered superheroes who are part of the Fifty State Initiative. She served as a founding instructor at Camp Hammond, the training compound for The Initiative, and resumed her romantic relationship with fellow superhero Yellowjacket, unaware that he had been kidnapped and replaced by a Skrull duplicate.

Tigra was captured by Chilean soldiers controlled by the Puppet Master, who sculpted a figure in her likeness and thus put her under his mental control. He used her and the other superhuman women he'd enslaved (including Stature, Dusk, Araña, and Silverclaw) as elite guards at his South American base of operations. Tigra and the rest of the heroes were restored to their normal free will when Ms. Marvel and her S.H.I.E.L.D. strike team liberated the compound and killed the Puppet Master.

Later she was shot and severely beaten by the Hood in her home in retaliation for having beaten Jigsaw, a member of his fledgling super-criminal organization. While Tigra was incapacitated, the Hood threatened the life of her mother, and Jigsaw stole the mystic talisman she occasionally uses to transform to her human identity.

The Hood and his entire crew later appeared at her apartment, demanding to know the location of the New Avengers' secret headquarters. Tigra intentionally gave him information that led them into an ambush. She joined in the battle and personally beat down the Hood, saving the life of Iron Fist in the process. By the time of the Hood's second appearance in her apartment, she had completely recovered from her injuries and had either reacquired her talisman or replaced it with a close facsimile.

Tigra continued to serve in the Initiative as a senior staff member of the central organization, and was the leader of the Arkansas Initiative team "The Battalion" until the Initiative was taken over by Norman Osborn and she learned of the Hood's role as his right-hand man. She has also appeared as a member of She-Hulk's "Lady Liberators" team.

After the Skrull invasion, Tigra reveals to Hellcat and Trauma that she believes herself to be pregnant by Yellowjacket, though she is unsure if the baby is the real Hank's or the Skrull imposter's. She tells Trauma that she has decided to terminate the pregnancy regardless of the father's identity. She later decides to leave the camp for Arkansas, planning to train Razorback, who had been replaced by a Skrull and recently returned, and was eager to take the imposter's place in The Battalion. When she was nearly injured by Ragnarok's hammer she seemed to show concern for the baby.

When Norman Osborn told her that he was going to take her baby for genetic testing and that moreover he'd made the Hood the chief operating officer of the Initiative, Tigra went on the run with Gauntlet despite having been offered her choice of prestige assignments as a registered hero. She co-founded the Avengers Resistance., choosing its name as a means of restoring honor to the legendary team's traditions. Now wanted as an outlaw, she began exacting personal vengeance from members of The Hood's gang, starting by savagely attacking and beating a member of The Brothers Grimm inside his home. She currently serves as the team's de facto leader.

Tigra is later approached by Ultra Girl asking why she and the Avengers Resistance are going after the villains in the Initiative. In response, she shows her a video of the Hood savagely beating her. Now, she wants to get back at them, by showing them that they are vulnerable… by making them scared and broken. Tigra later ambushes Mandrill.

She claimed her final retribution against The Hood not on the battlefield, but after he was rendered powerless and taken into custody. After telling him that she was perfectly comfortable with the idea of taking his life, the sight of his baby in the hallway outside convinced her that dooming him to either a life in prison or on the run would be far worse punishment, as he'd never get to hold his child ever again; and to kill him would jeopardize her future with her own baby. Tigra gave birth to what is apparently a normal Cat Person kitten during the transition between Tony Stark's administration of The Initiative and Norman Osborn's; the gestation period was a mere two months, due to her feline physiology. She hid the infant from Osborn, entrusting its care to the Cat People until the end of hostilities. She named the child William, after her late husband.

At the conclusion of The Siege, Tigra stated a new motivation not only to restore the good name of the Avengers, but also to ensure that her child will grow up in a safer world.

Following the arrest and incarceration of Norman Osborn, the dismantling of his criminal superhero teams, and the repeal of the Superhuman Registration Act, the President names Steve Rogers (the original Captain America) as America's new head of national security. Rogers seeks to assemble a collection of heroes to inspire the nation and the world as a new organization of Avengers. Tigra is among the 25 heroes he personally invites to join him in creating a new Heroic Age.

Alongside Hank Pym, Quicksilver, Jocasta, Speedball and Justice, Tigra serves as part of the founding faculty of Avengers Academy, training a new generation of heroes in the traditions of the world's elite superhero team.

During this time, Tigra learns that the Skrull posing as Pym was indeed William's father, but as he had disguised himself as Pym at the genetic level, it means that William is half-human, rather than half-Skrull, with Pym technically being the genetic father. After learning this, Tigra asks Henry to take care of William in the event of anything happening to her.

When a former associate of The Hood plans to release the video of Tigra's beating commercially, Tigra arranges to have the footage air in its entirety during a live interview, so that her own experience may serve as an example to other trauma survivors and inspire them to seek help. During this same interview, she announces her formation of a series of "Always An Avenger" centers to provide veterans, children, spouses and any other trauma victims with needed counseling and resources.

Members of the existing Avengers Academy class react to the initial news of the video by tracking the unpowered Hood down, attacking him, and releasing video of the attack on the Internet, rather than taking the escaped Hood into custody and returning him to jail. Tigra becomes furious at their counter-heroic actions and by their refusal to appreciate the seriousness of their transgression. She summarily expels all those involved. Later, after talking with the rest of the faculty staff, they decide to put all those involved on probation instead.

She has slowly grown closer to Henry Pym and the two have resumed their romantic relationship.

Tigra was one of ten female heroes recruited by Misty Knight to aid her and Valkyrie in repelling a group of Asgardian Doom Maidens. At the end of this adventure, Valkyrie comes to realize that Tigra and three of the other heroines are among those deemed by the All-Mother to be worthy to become shieldmaidens like herself, symbols of honor and valor and courage, to one day be led by Valkyrie into battle and death.

During the Secret Empire storyline, Tigra appears as a member of the Underground which is a resistance movement against Hydra ever since they took over the United States.

Tigra appeared in the Fresh Start revival of West Coast Avengers in which she had been changed into a giant with her mind set to a feral state.

Tigra: So after all that, I decided to help out the Avengers.

Me: That's amazing. Greer, how would you like to have the ability to transform into Tigra at will?

Tigra: You can do that J.D.?

Me: I sure can.

Tigra: Thank you J.D.

Lincoln: Do we have to cover our eyes?

Me: Not this time. But Greer, this is gonna hurt.

Tigra: I'll handle it.

Me: Okay.

Lincoln: Can I change her back J.D.

Me: Go for it buddy.

Lincoln snapped his fingers and she started change back.

Greer: (GROANS IN EXCRUCIATING PAIN) Oh God it hurts!

She reverted back to what she was before she became Tigra. Greer held her stomach in pain, she had a splitting headache, struggled to keep her balance, and braced herself on a random piece of furniture. A chair to be exact. She had her black hair return, blue eyes, fair skin and her nails reverted from claws, her tail went back into her butt.

Tigra: That was weird.

And her tiger stripes vanished.

She was beautiful.

Greer: I… I… I'm human again! This is amazing!

Me: How do you feel?

Greer: I feel amazing J.D.

Lola: Great job Linky.

Lori: I'm glad you're back to normal Greer. You look amazing in that bikini.

Greer: Is this the only thing I was wearing the whole time I was Tigra? Well it fits perfectly.

Me: It looks great on you. Are you hungry?

Tigra: Starving.

I made her some chicken and she ate it.

Me: Boy you sure were hungry.

Tigra: I know. I'm a meat eater.

Nicole: You and I have so much in common. I love eating meat.

Laney: Uh guys! We got problems.

We went into the living room and we saw the mask floating.

Me: Holy shit!

Nico: I remember the other masks doing this in the books and the movie.

Haunted Mask: (DEMONIC VOICE) **You will never stop me! I'm coming Carly Beth.**

The Mask flew out the door.

Me: After it!

We went after it. We flew after it and rode on our horses.

---

In the Caldwell house in Raleigh, North Carolina lived Carly Beth Caldwell and she had just gotten the mask.

Sabrina: Carly Beth, Team Loud Phoenix Storm should be here soon. Do you still feel the Haunted Mask's influence?

Carly Beth: I'm trying to fight it. But it's so hard.

There was a knock on the door.

Carly Beth went to the door and answered it. It was us.

Me: Carly Beth Caldwell. It's a pleasure to meet you.

Carly Beth (secretly trying to fight the Haunted Mask's influence in her mind): It's an honor to meet you, J.D.

Me: Same here.

Carly Beth: My favorite adventure of yours was when you guys went to the Toy Story world.

Maria: I remember that. We met the Gigas robots there.

Ironhide: And I used my cannons to kill Lotso and Stinky Pete.

Me: We'll talk about our adventures later.

Carly Beth told us how she found the mask and all that.

Me: That is awful.

Greer: I can't believe that this mask is that evil.

Sabrina: Me neither.

Sabrina saw Greer and she was shocked and amazed at her beauty.

Sabrina: Wow! Tigra you look amazing!

Carly Beth (sees Tigra in her human form): Well, it's not every day I see a bikini wearing woman in my house.

Greer: Its been with me ever since I changed into Tigra.

Carly Beth: You are sure beautiful Tigra.

Greer: Call me Greer. It's my real name.

Carly Beth's Mom: You have amazing looks Greer.

Greer: I get that a lot.

Carly Beth: (Grunts) Interesting.

Tigra: You ok, Carly Beth? You're acting weird.

Carly Beth (plays dumb while secretely getting a bat): I don't know what you're talking about.

Maria (eyes widen): Carly Beth… you're being influenced by the Haunted Mask, aren't you?!

Carly Beth (sighs): Maria, why did you have to go notice that? (swings bat at her)

Maria ducked and Laney wrapped Carly Beth in vines.

Carly Beth (grins evilly under the Haunted Mask's control): **HAHAHAHA! You can't stop the Haunted Masks. We are invincible!**

Maria: Let her go you latex freak!

Carly Beth: **Never** !

Brittney: No one is invincible but us!

Brittney placed a special anti-mind control headband on Carly Beth's head. It stopped the control of the mask as long as she had that headband on.

Carly Beth: I can't believe I did that.

Me: It's not your fault Carly Beth. It's this evil masks fault.

Sabrina: This is a total nightmare!

Me: And we will destroy this mask. Also Nico told us about what you went through. What Chuck and Steve did to you was unforgivable.

Carly Beth's mom: What are you talking about J.D.?

Me: I'm afraid that your daughter has fallen victim to bullying at her school. On Halloween she was humiliated by two dickhead bullies named Chuck Greene and Steve Boswell.

Carly Beth's mom: Those two kids that won't leave Carly Beth alone!?

Me: That's them. And they humiliated her by putting a worm in her sandwich.

Carly Beth's Mom: Those two kids will never learn!

Me: Usually bullies never do.

Sidney: That's right. Take it from me. I may be a ghost from the 1950's and I was bullied relentlessly, but I hate bullying with a vengeance.

Nico: Me too Sidney.

Carly Beth: Look, I appreciate that you're looking out for me. But the Haunted Mask is more important than my bullying problems.

Me: I know Carly Beth. These matters can't be overlooked though. If there's one thing we all never tolerate more than anything, it's bullying. I hate all bullies with a vengeance.

Nico: That's right. Bullies are scum and they failed this whole universe.

Me: We'll deal with Chuck and Steve later though. Right now we got to destroy the Haunted Mask. Where did you get this mask Carly Beth?

Carly Beth: I got it at a mask store. I'll show you where it's at.

Me: Okay.

Sabrina: Greer, before we confront Chuck and Steve, I'd like to give you some clothes that I have.

Maria: That won't be necessary Sabrina.

Maria gave Greer black leggings, orange sandals, orange summer shirt with tiger stripes, and a sleeveless trench coat with tiger stripes on it.

Greer put them on and she looked incredible.

Greer: Wow. Thanks Maria.

Maria: You're welcome Greer.

We left for the mask store.

* * *

We arrived at said store and it was closed. Carly Beth opened the door and we went in. We saw hundreds of different kinds of masks and there were lots of scary and creepy ones.

Laney: Wow! Look at all these masks.

Shade Man: There's a lot of them.

Me: There sure are.

The Shopkeeper came out.

Shopkeeper: Go away.

We saw him.

Me: Are you the one who made the masks?

Shopkeeper: That's right.

Me: I'm J.D. Knudson, Leader of Team Loud Phoenix Storm.

Shopkeeper: I've heard a lot about you and your deeds. You are a powerful force of good.

Me: That's right. We came here to destroy the mask you gave to Carly Beth here.

Shopkeeper: Perhaps I should tell you how these masks came into being.

The Haunted Mask is actually one of many, created by a nameless shopkeeper long ago. The shopkeeper had no love for himself, for he was born with an ugly face. As a grown man, the shopkeeper became a scientist in the field of biological engineering and in turn used this to create a beautiful human prosthetic face. He made this face of human flesh and made it so that when he put it on it would attach itself to his flesh and would remain so forever. But something went wrong: when he put on the beautiful Mask it changed, it became hideous. No matter what he did to stop the decay, the face turned into an ugly monstrosity. The face turned a dead green, its teeth grew into animal fangs, and its flesh became contorted and deformed. The shopkeeper did the only thing he could do. Knowing that the face he made was never supposed to be removed, he took a knife and carved deep into the skin where the Mask was supposed to end. This first failed attempt became the Haunted Mask.

After painfully removing the Mask, he tried countless other times to create the perfect flesh mask for him to wear to hide his face. They all failed just the same. It was after his failures that he realized that the reason the masks had failed to remain as they were created was because they changed his outside appearance but not the way he still felt inside: ugly. These feelings in turn were what transformed the faces. They changed to reflect the man he still was on the inside, hideous. The shopkeeper took his failed attempts, dubbing them "The Unloved," and put them on a shelf in the back room of the mask shop that he was still working on setting up, as a reminder of what he was still trying to accomplish. Meanwhile, in this back room of the shop, these living Masks waited and watched for an opportunity to gain a body.

Me: So these masks are from you?

Shopkeeper: That's right.

Me: These masks are monsters. They are haunted and possessed. That's why we're here to destroy them. To make sure they never harm anyone ever again.

Nicole: It gets worse dad. Sir I know what's wrong with you. You've been cursed by an evil artifact called the Amulet of Baator.

Nicole showed us a picture of an evil looking amulet in the Book of Vile Darkness. It was an amulet in the shape of a demonic skull and it had all kinds of evil runes on it.

Nicole: This amulet is a cursed amulet. The curse it that whoever wears it will have hideous and ugly facial deformities. And the wearer must create ugly faces for the Nine Hells of Baator.

Shopkeeper: I had no idea that this amulet I was wearing was cursed.

Me: That is a very dangerous amulet. Where did you get it?

Shopkeeper: I've had it since I was born.

Me: This amulet is the reason why your face is ugly. Is there any way to remove the curse?

Nicole: There is dad. The only way to destroy the curse is to destroy the masks that were created as a result.

Me: Can the wearer take the amulet off?

The Shopkeeper tried to do so, but he got burned as a result.

Me: That Amulet will burn its wearer if he tries to take it off.

Nicole: But there's a loophole. A powerful magic spell can break the curse and remove the amulet.

Brittney: Let me take care of that.

Brittney chanted a powerful magic incantation and fired a blast of darkness at the amulet and it fell off of the shopkeeper.

I picked it up.

Me: Wow! Great job Brittney!

Lola: And look at this!

Lola held up a mirror to the shopkeeper and his face was back to normal. But then we got an unusual surprise. The Shopkeeper fell to the ground and he looked at us.

Shopkeeper: Thank you. All of you. Thank you.

Then the shopkeeper disintegrated into dust in seconds.

Me: Wow. He was cursed with a fate worse than death.

Nico: It looked like eternal life without eternal youth.

Lori: I wonder how long he lived.

Me: I guess we'll never know. But he can now go to his eternal rest.

Laney: In peace.

Me: Lets say a prayer for him.

We did so.

But then after we got done, all the masks came alive! There were 5 more haunted masks and they were the ugliest masks we've ever seen.

Me: Here we go guys! Lets take the fight outside!

We did so.

Outside we were facing the ugly masks. Then they grew bodies. They had black tuxedoes on.

Me: They have bodies now! You guys are seriously ugly!

My dark orb detector went off.

Me: There's a dark orb here.

My dark orb detector showed that there are 6 dark orbs in each of the masks.

Me: There's six dark orbs in each of the masks.

Greer: Time to go Tigra!

Greer's skin turned orange.

Tigra: Orange is my favorite color.

Her hair turned red.

Tigra: I've always liked being a redhead.

She grew fur.

Tigra: Tiger fur is so soft.

She grew tiger stripes.

Tigra: I've always loved these stripes.

Her nails on her hands and feet turned into claws.

Tigra: I'll have to get used to that.

Her teeth turned into fangs.

Tigra: I've always been a meat eater.

She got taller.

Tigra: I've always liked being tall.

Then she grew her tail.

Tigra: (Groans in pain) I've hated this part!

Her tail popped out of her leggings.

Tigra was ready to fight and her clothes were still intact. She kicked off her sandals.

But then a huge swarm of scorpions appeared and they began to take form.

The Heartless that appeared before us had a lower half of his body of a full fledged scorpion with deadly razor sharp pinchers. The upper half of his body was green, ugly and gross and dripping with acid.

Spiderman: Scorpion?!

Malevolent Scorpsting: Miss me, Web Head?!

Me: You're even more uglier than ever before Gargen. You're still the ugliest and most fucked up freak of nature we've met.

Malevolent Scorpsting: You are no different Knudson!

He fired a powerful blast of acid at me and I dodged it.

Malevolent Scorpsting (swings tail at Rhino): You know, Rhino. I always really hated you. (Rhino's aura flares up) Even when we were on the same side, you always pissed me off with how stupid you were! (sprays acid at Rhino but he avoids it) Hell, if it weren't for you, Blondie would've been dead at Australia!

Leni: Hey, don't talk about Lori like that!

Lori: He was referring to you, Leni.

Me: You were the one that killed him Leni.

Leni: Oh yeah.

Me: Lets take these clods down!

We went at them. I punched the Malevolent Scorpsting in the face and kicked him in the stomach and punched him in the face again and slashed off his tail.

Me: Now lets see what this bracelet can do. Hey Gargen. I have something for you to look at.

I had him look at the Bracelet of Cthulhu and its eyes glowed and it emitted an evil speech that sent shivers of pure fear down my spine and its glow made the Scorpion Heartless go ballistic. He was screaming like a homicidal madman and he was acting like a crazed maniac out for blood and he was screaming like a monster! He was blasting buildings with acid and objects as he was screaming like an insanely fucked up lunatic to the 100th power.

Me: Wow! It works way too well!

Lori: Boy he's literally gone crazy!

Me: That's Cthulhu for you Lori. According to H.P. Lovecraft's Necronomicon, Cthulhu is an ancient, malevolent and terrible supernatural monster that can drive people mad just by having them look at him. This bracelet I'm wearing has all of Cthulhu's powers and it's imbued me with them. Lets finish these freaks of nature! Lets split them up and take them!

We did so and went after them.

Lori and Tigra went after the first mask. It was an ugly droop face mask.

Tigra slashed it with its claws and swat it with her tail.

Lori fired an enormous blast of wind and blew him around in a powerful tornado. Lori kicked the mask off.

Lori: Combo time Greer!

Tigra: You got it Lori!

Tigra ran fast on all fours and Lori fired a massive tornado of wind.

Lori and Tigra: CYCLONE TIGER CURRENT!

The wind merged with Tigra and she turned into a tiger of pure wind and she slashed the droop face mask into a million pieces and killed it in an instant.

Tigra: That was so awesome!

Lori: It sure was. 1 down 6 to go.

The dark orb inside the mask came out and Lori picked it up and crushed it with her bare hands. We all got an immense power boost from it.

Laney, Syd, Riley and Wood Man were facing the smirk face mask. He was called that because he was an ugly face always smirking.

Laney fired razor sharp leaves at the mask and cut it in.

Syd and Riley fired bramble vines at the mask and they lashed it all over. Wood Man fired numerous leaves at the mask and they cut it up really bad.

Laney: Lets finish this clod! Combo time.

Syd: You got it Laney.

Riley: Lets do it.

Wood Man: Lets!

Wood Man fired a blast of leaves and Laney, Syd and Riley fired massive tornadoes of leaves at the mask.

Wood Man, Laney, Syd and Riley: LEAFSTORM DRAGON BUSTER!

The Leaves turned into a powerful dragon made of leaves and it roared ferociously. It ate the smirk face mask and destroyed it completely. The dark orb inside it came out and Laney picked it up and crushed it. We got another immense power boost.

One by one we killed all but 1 of the masks because it got away.

Nico: You masks have failed this world!

Me: Lets see what the Dark Crystal of the Dark Dimension can do.

I held up the crystal and it sucked in the other 4 spirits of the masks into the Dark Dimension where they will stay for all eternity.

Me: Oh that is awesome!

The spirit of the Haunted Mask appeared.

Haunted Mask (as a spirit): **I will return! You have not seen the last of me. I am invincible.**

Nicole (takes out Book of Vile Darkness): And I… am Nicole Knudson.

Sabrina: Seriously? That's the line you're going with?

Nicole: Oh, c'mon! He put me on the spot!

Luigi (takes out Poltergust 3000): Hurry up, Nicole or I'll get his spirit before you can.

Nicole sealed the Haunted Mask spirit into the Book of Vile Darkness for all eternity.

The Spreadmouth one is the one that got away and we were gonna take him out later.

All that was left was to take down the Malevolent Scorpsting. The gaze of Cthulhu made him completely unpredictable. But this let his guard down. I punched him in the stomach with devastating force and he coughed and gagged and belched up a tremendous amount of blood. But I saw that my shoe was burned and scuffed.

Me: I needed to get some new shoes anyway. Lets finish this clod off! Combo and final smash time!

Bubble Man: You got it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his

Bubble Lead 100-fold.

Kickback: Time for action! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his electromagnetic blast tube and it enhanced its power 100-fold and it enabled it to fire pure lightning.

Bubble Man and Kickback: LIGHTNING BUBBLE BOMB!

Bubble Man fired a powerful Bubble ball and Kickback fired a massive blast of lightning. The lightning merged with the bubble and the bubble hit the Scorpion Heartless and it exploded with incredible power.

Hay Lin: Lets get him! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her device and it enhanced her Air Powers 100-fold.

Cliffjumper turned into his Energon Counterpart.

Cliffjumper (Energon): Lets do this! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enabled him to have 2 more blasters pop out of his sides and enhance his blaster power.

Hay Lin and Cliffjumper: HURRICANE LASERSTORM STRIKE!

Hay Lin fired a massive blast of wind and Cliffjumper fired his lasers at an incredible level. They combined and they slammed into the Scorpion Heartless.

Laney: Lets get him Mallow!

Mallow was with us.

Mallow: You got it Laney! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her arm device and it enhanced her Steenee's powers.

Mallow: Steenee use Leaf Storm!

Mallow and her Steenee fired a massive blast of leaves.

Laney: My turn! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Laney's device and it enhanced her plant powers.

Laney and Mallow: BRAMBLE DRAGON LEAFSTORM!

Laney fired a powerful blast of leaves and the blasts of leaves combined and turned into a massive dragon made of leaves and it fired a massive blast of leaves at the Scorpion Heartless and it hit him and exploded.

Me: Lets get him Xenia.

Xerneas: You got it.

I had an energy bow ready and an arrow of pure fire was ready And Xerneas had her gold bow ready and she had a blue energy arrow ready.

Me and Xerneas: MOONLIGHT FIRESTORM ARROW!

Me and Xerneas fired both arrows and they divided into more arrows and they hit the Scorpion Heartless land skewered him all over.

Me: Lets see what powers Shade Man has. NOISE CRUSH! VELOCITRON CYBER KEY POWER!

The Velocitron Cyber Planet Key went into my device on my left arm and enhanced the Noise Crush 100-Fold.

Me: Lets see how loud this is.

I fired a powerful blast of hypersonic sound energy and it was so powerful that it shattered all the windows into shards and more. The Scorpion Heartless screamed in pain as the sound blast destroyed his ears.

Me: Lets finish him off. Final Smash time!

Shade Man: Lets get him! SONIC BATSTORM STRIKE!

Shade Man fired a massive blast of Sound Energy and it turned into a massive colony of bats and it slammed into the Scorpion Heartless.

Nico: Mac Gargen A.K.A. Scorpion, you have failed this world!

Carly Beth: I've never done a Final Smash before. I'm going to enjoy the experience!

Me: Go for it Carly Beth!

Carly Beth: LOTUS STORMSLASH SURPRISE!

Carly Beth formed a massive storm of lotus flowers and they swirled around her at a blazing speed and they went at the Scorpion Heartless and slashed off his claws and what was left of his tail!

Me: Wow! That was very well done Carly Beth!

Sabrina: Way to go!

Me: Very impressive.

Rhino then charged at the Scorpion Heartless!

Rhino: This is from me you motherfucking bastard!

He slammed all the way through The Scorpion Heartless with devastating force and he bisected him in down the middle! Killing him instantly and sending Scorpion's spirit into the River for Fire.

Me: Go back to Hell Gargen and stay there you son of a bitch!

Carly Beth: It's over. It's over.

Carly Beth had tears streaming down her face and she walked up to me and she hugged me and cried hard into my chest. I comforted her.

Me: (Hugs her and pats her back) It's all right. It's all right. Let it all out.

Carly Beth was finally free from the worst nightmare she has ever been through in her life. Nico caught an Empoleon and a Staraptor and Lori caught a Staravia and a Pidgeot.

---

Later at her school we were waiting for Carly Beth's bullies Steve and Chuck to come in. We saw them come in and they saw us. With us was Carly Beth's mom and the principal.

Chuck: Wow! Team Loud Phoenix Storm.

Steve: It's so awesome to meet you guys!

Me: We get that all the time but unfortunately we're not here for pleasantries.

Maria: We're not happy with the way you've been bullying Carly Beth here.

Chuck (walks past us): Look, it's obvious that you guys are here for a public service announcement in this school. And me and Steve are just in the way.

Steve: C'mon, Chuck. If we hurry, we'll be the first ones in the lunch line.

Maria: Are you two even listening to us?!

Me: You two aren't going anywhere.

Suddenly Ed went crazy!

Ed: BIG TROUBBBBBBBBBLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLL

Ed went completely ballistic and he threw food at Chuck and Steve and slammed all kinds of furniture and tables onto Chuck and Steve with devastating force. Edd and Eddy looked on in shock and horror as he was mercilessly pulverizing Chuck and Steve. Ed calmed down 20 minutes later and Chuck and Steve were hurt bad.

Me: Whoo! What a tantrum!

Nico: That's gonna leave a serious mark!

Me: No kidding.

Carly Beth: (To the Viewers) What a serious thrashing. But they deserved it.

Me: You said it.

Nico: Sorry about all the damages.

Me: Let me fix that.

I snapped my fingers and everything was all reverted back to what it was as if it never happened.

?: You guys sure did a number on them.

We turned and then we saw the famous creator of the Goosebumps Books, R.L. Stine!

Me: Oh wow! R.L. Stine!

Nico: The Famous Creator of the Goosebumps Books.

R.L.: That's right. It's an honor to meet you Team Loud Phoenix Storm.

Me: Same here.

Nico: I am a huge fan of your work and I love all your books and they are awesome!

R.L.: I'm glad you like them Nico. I've heard you all killed Slappy and the Haunted Mask.

Me: Yes we did. But we have many more monsters from your work to destroy.

R.L.: I know you can beat them all. They are hiding all over the world and you have to stop them.

Me: We'll stop them. You can count on it.

Later we went back home. R.L. Stine is gonna inform us which monsters are making their move next.

THE END

---

Another Fanfiction Complete.

The Haunted Mask from the Goosebumps series was the first ever Goosebumps movie I watched back when I was a kid. It was not that scary for me. But it was creepy. NicoChan11 gave me the ideas for this one. Thanks for that man as usual. Let me know what you all think.

See ya next time.

# The Fathers From Hell!

HAPPY FATHERS DAY 2019 EVERYONE!

---

It starts at the estate. It was 6:00 in the morning and we were cooking an awesome breakfast for our fathers.

Me: Pancakes are almost ready. (To the viewers) Oh hey guys. Today is a very special day today. It's June 16th, 2019 and it's also known as Father's Day. It's the day where you give thanks to our fathers for being awesome parents. We're making a special breakfast for our dads. Being a dad myself, I'm sure my kids are gonna have something awesome planned for me.

The pancakes were ready. We made awesome breakfasts for our dads. We gave them our breakfasts.

Lynn Sr.: Wow! You guys made all this for me!?

Leni: We totes did. And J.D. helped us.

Lisa: Indeed father. He is an awesome cook.

We gave our dads an awesome breakfast and cards.

Horsea and Poliwag: HAPPY FATHER'S DAY, EVERYBODY!

Nico: Thanks, guys! I take it Manaphy and Poromon are working on a card?

Horsea: We already did Nico.

Manaphy: Nico, I want to give you this. I made it since you and Mama became a couple.

They made a special card that looked like May and Nico flying above the ocean and the Temple of the Sea in the background behind them and they had the dead body of the Phantom in their hands. And Manaphy, Poliwag and Poromon was in between them. It said Happy Fathers Day Nico Chan.

Nico: Guys this is beautiful!

He hugged them gently.

Then a phone call was coming in on the computer.

Me: I'll get that.

I answered it and it was Dr. Robert Santiago Sr., Ronnie Anne and Bobby's father.

Me: Hello?

On a holographic screen was Dr. Santiago.

Dr. Santiago: (Spanish Accent) Hello J.D. I'm Dr. Arturo Santiago and I'm Bobby and Ronnie Anne's father.

Me: It's a pleasure to meet you. Bobby and Ronnie Anne hardly ever talked about you.

Dr. Santiago: Yeah I'm very busy all the time. I'm a missionary and I work as a Doctor setting up clinics in different parts of the world. I'm in Paraguay right now building clinics.

Me: Oh that is neat! We went on a massive worldwide adventure to study about the worlds volcanoes.

Dr. Santiago: I know. Ronnie Anne and Bobby couldn't stop talking about that. You all must've had an awesome time.

Me: It was awesome.

Ronnie Anne: Hey J.D. (Gasp) Hi dad!

Dr. Santiago: Hola miha! How's my little girl doing?

Ronnie Anne: I'm doing great dad! Happy Fathers Day.

Dr. Santiago: Thanks miha.

Me: I'll leave you two alone to catch up.

Ronnie Anne: Thanks J.D.

I left.

---

Later we were in Dakota City at the mall. We were shopping and getting gifts for our dads.

Me: My dad's gonna love this new golf club I got him.

Lori: Your dad is literally a great golfer J.D.

Me: Well he's not the greatest golfer but he's just as good in my heart and mind.

Laney: That's awesome J.D. I bought dad new cookbooks on Russian, Scandinavian and Creole food. It's best to explore new worlds in cooking.

Me: That's true Laney. Mr. Lynn is an awesome cook and he always needs to add more food to the menu.

Laney: That's true.

Wanda: You wouldn't like my dad J.D.

Me: How come Wanda?

Timmy: Her father Big Daddy is like the mob boss of the Italian Mafia.

Wanda: My family is like the Italian Mafia. But they are Garbage Business Men and they all act like they are mobsters from the roaring 20s and the Italian Mafia. My father Big Daddy is a badass mob boss.

Me: Wow! I didn't know your family was like the Italian Mafia, Wanda.

Wanda: Yeah but they aren't as dangerous as the real thing.

Nico: Well that's a relief. We've dealt with numerous crime figures all over the world and in Mafia's all over the world.

Me: Yeah I know. But none of them are more dangerous than those of the Italian, Russian and Japanese Mafias.

Nico: Oh man. The Yakuza. I've dealt with a lot of them before joining Team Loud Phoenix Storm.

Jaime: Those guys are completely ruthless and honorless slimeballs.

Me: I know.

But then we heard someone yelling.

?: (Arabic Accent) YOU BOTH HAVE CORRUPTED THIS FAMILY!

We turned and we saw a man enraged at his wife and daughter.

Static: Uh oh. That's Daisy and her mom and dad.

Me: Looks like we got a domestic disturbance in progress.

The man slapped the woman!

SLAP!

The woman screamed.

Me: Now it's stepped up to a Domestic Violence scene! Lets go!

We went at them!

Man: I HATE YOU BOTH! I'M GONNA DO WHAT I SHOULD'VE DONE 2 YEARS AGO!

The man then pulled out a gun and pointed it at Daisy and her mom and he pulled the trigger and I swooped in faster than a bullet and grabbed the bullet out of thin air. He fired his gun until it was empty and I grabbed all the bullets. Static Shock then appeared and fired lightning and immobilized him.

I dropped the slugs of the bullets.

Me: I believe these are yours.

The police arrived and arrested Daisy's dad for attempted murder, domestic abuse and domestic terrorism.

Static: You ok, Daisy?

Daisy: I'm fine… Virgil.

Static: I don't know what you're talking about.

Daisy: Oh, c'mon. Everytime Static's around, you're not. And you're not even disguising your voice.

Me: Virgil, I think it's time for everyone to know who you are.

Static: Well all right.

Static took off his mask and revealed that he was Virgil Hawkins.

Frieda: Virgil is the famous Static Shock!?

Daisy: I was able to figure it out.

Me: There's a reason why Virgil was not around all the time. He is also the electrified superhero Static Shock. Virgil was in the wrong place at the wrong time when he was exposed to the Experimental Biohazardous Mutagenic Gas that created the Bang Babies. Ever since that time, he has been helping numerous people out all over in Dakota City and with us on Team Loud Phoenix Storm.

Maria: It also happened to me. My name is Maria Rockell and me and my sister Carmen were also exposed to the same mutagen. I was formerly the Metabreed member Aquamaria and it was thanks to the help of my sister and best friend Carol Pingrey and being blessed with the Water Stallion of Tefnut that I got my humanity back. I joined Team Loud Phoenix Storm's Redemption Squad as 2nd in command.

Daisy: (to Maria) It's nice to finally see the real you outside of your

Aquamaria form.

Maria: Thanks Daisy. That means a lot to me.

Carmen: That's right. My name is Carmen Rockell and I'm Maria's little sister and I was given fire powers because of the Big Bang as well. But I was not afraid to hide my identity. I've been helping out Virgil.

Francis: And you all know me. I'm Francis Stone and I was formerly known as Hotstreak. I got fire powers from the Big Bang as well. But J.D. made me into a better person and he is a true friend and a great mentor.

Me: I'm glad you view me with such high regard Francis.

Francis: Thanks J.D.

Teresa: My name is Teresa Haylin and I was formerly known as Talon. I had the appearance of a bird and a deadly sonic scream. J.D. and Francis saved me from myself and made me realize what I was doing. Francis and I are now boyfriend and girlfriend.

Gear: That's right. I'm Richie Foley and everyone knows me as Gear. I was accidentally given super intelligence by accidental exposure to the Big Bang from V here. I've been helping Virgil as Gear.

Gale: And My name is Gale. I am one of the Nightbreed. Everyone called me Nightingale. I have dark matter synthesis because of the Big Bang Mutagen. We weren't seen all the time because we of the Nightbreed were phobic of the light of the Sun. It made the Sun's Ultraviolet Radiation like Kryptonite to us.

Me: So you see everyone, Virgil Hawkins, Richie Foley, Carmen Rockell and Gale were given their powers by the mutagenic gas that made the Bang Babies and with Great Power Comes a Great Responsibility. Static and his friends have done so much for you all in Dakota City just as much as we have on Team Loud Phoenix Storm.

Then Frieda started clapping and then Daisy and then the clapping increased to everyone rapidly. Everyone cheered wildly for Static.

Static: Thanks J.D.

Me: No problem Virgil.

Daisy's dad: He's very special isn't he?

Officer: He sure is. I'm proud of Virgil.

Nico: Daisy's dad you have failed as a father.

Me: And here's a reason why you should never be one ever.

I had Daisy's dad look at the Bracelet of Cthulhu and then he went crazy! He was screaming like a crazy madman and thrashing around.

Daisy's dad was about to do an Honor Killing. One of the most insidiously known forms of murder in the Muslim world. He was sentenced to 10 consecutive sentences of life without parole in the Jupiter Prison Secure Psychiatric Prison Unit. He was strapped to the wall in a straitjacket. Also, Sandman and Nico's dad caught a Sandygast.

* * *

Back at the estate, we were giving our gifts to our dads.

Me: Happy Fathers Day dad.

Sumner: Thanks son.

Nico: Happy Father's Day dad.

Leandro: Thanks son.

Lynn Sr.: Oh thank you for the cookbooks sweetie. These will come in handy for me.

Laney: You're welcome dad.

The alarm went off.

Me: Uh oh.

We went to the computer and it was the warden of the prison I sent David Banner too.

Warden: J.D. we have huge problems. David Banner has escaped from prison!

Me: What!? How did he do it?

Warden: I have no idea. He somehow turned his fist into solid concrete and smashed through the walls like they were nothing.

Me: That's exactly like how Absorbing Man is able to do. Where is he heading?

Warden: We don't know J.D. But he did leave this note on the prison wall.

He showed me a note.

Me: "Come and get me you fuckheads." That's not very intimidating. Let me see here.

I pulled up the satellite scan and it showed that David Banner is walking through the forests of New Mexico near Santa Fe.

Me: He's in the forests next to Santa Fe, New Mexico. We're on our way Mr. Warden.

Warden: Thank you J.D. It would be great if you killed him. He's considered extremely dangerous to everyone and everything and to himself.

Me: Roger that.

The call clicked off.

Me: This is really bad guys! Bruce Banner's fucked up father escaped from prison!

We all gasped in sheer horror.

Lori: That maniac monster that tormented Bruce and killed his mother!?

Me: Yeah. I put him away 11 years ago and he's a monster. He tried to kill Bruce and he killed his mother Rebecca. He's an extremely fucked up monster. I should've killed him all those years ago. Now I'm going to correct that mistake. I'm going to kill David Banner.

Betty: Wait J.D. I want to be a hulk like She-Hulk.

We gasped.

Me: Betty are you sure you want this? Bruce had to go through a lot of pain and torture to become the Incredible Hulk.

Betty: I know. But I want to be there to protect Bruce. I love him and I want to be there for him.

Me: If this is what you want, then we won't stop you. Everyone you may want to stand back. This is gonna get really radioactive.

I snapped my fingers and had everyone behind lead shields.

Me: Here it comes Betty.

I fired a powerful blast of Gamma Radiation at Betty and she screamed in pain. Her DNA and body was changing.

When it was done, Betty looked the same.

Me: How do you feel Betty?

Betty: I don't know.

Me: Hmm. Think of something that makes you angry.

Betty did so. She thought about David and all the horrible things he did to Bruce and she thought about her father and how much he hated Bruce. Then she started to change! Her eyes turned Neon Blood Red.

Betty: (SCREAMING IN PAIN)

Me: Here it comes!

Betty: (feels something growing inside her) Oh! I think it's working!

Her skin turned red and then her muscles grew and she was getting taller. Betty had a black jacket, black dress and black stiletto shoes. Her clothes were tearing and her shoes were shredded as her feet grew big and her hair was now blood red.

Betty: This power is awesome!

Betty had transformed into a Red She-Hulk!

Me: Wow! Betty you look awesome! How do you feel?

Red She-Hulk: I feel incredible J.D. Now I know what Bruce goes through whenever he becomes the Hulk.

Jen: Now we all can fight as Hulks.

Jen took off her lab coat, blue shirt, skirt and shoes. She was in her purple leotard.

Jen turned into the She-Hulk. Jen's eyes turned emerald green and her skin turned green and she grew muscular and taller. Jen was wearing a lab coat and she had a blue summer shirt and a black skirt on and she had black stiletto shoes. Her hair turned from black to dark green and grew longer.

Red She-Hulk: This is amazing Jen. Bruce is lucky to have a cousin like you.

She-Hulk: I get that all the time Betty.

Me: I have just the combat clothes in mind for you Betty.

I snapped my fingers and Betty now had a different set of clothes on. She had Black Combat Boots, black leather pants, black sleeveless vest, and black fingerless gloves. She had no shirt on and her vest was half way unzipped.

Red She-Hulk: I look amazing J.D. Thank you.

Me: You're welcome. Lets go kill a bad father.

Rebecca: I got a score to settle with my bad husband.

Me: Lets get him.

We set out for New Mexico.

SANTA FE, NEW MEXICO

We were flying over the forests of Santa Fe. We were searching. I had my infrared vision on. My Dark Orb detector went off.

Me: Uh oh. We have a Dark Orb in the area.

I turned on the radar on my Dark Orb Detector and it showed that it was up ahead by 20 miles and moving fast.

I saw David Banner running.

Me: There he is!

As he was running, without warning I swooped in and punched him in the face and sent him crashing into a tree.

He got up and he saw us.

We were facing DAVID BANNER!

David Banner was a genetics researcher who, in his quest to improve on humanity, experimented on himself; after his wife Edith Banner gave birth to Bruce, David, seeing that Bruce was not normal, barely showing emotion and gaining patches of green skin when he did, felt that he was responsible, realizing that his experiments on himself had affected Bruce. Trying to find a cure for Bruce's condition, David had his research shut down by Thaddeus "Thunderbolt" Ross; going into a rage over the loss of his work and the hopelessness of Bruce's situation, David accidentally destroyed his laboratory and tried to kill Bruce only to accidentally fatally stab Edith, before being arrested and confined to a mental institution; blocking his memories of David killing Edith, which haunt his nightmares, Bruce was taken into foster care by Ms. Krenzler.

Thirty years later, David was released from a mental hospital and got a job as a janitor from Benny (after supposedly killing him for the job) at the research institute Bruce worked at, in the same field as his father. Confronting Bruce on the night after he was blasted with radiation and nanomeds, David revealed his relationship to him (Bruce had previously thought his biological father was dead) and stole some of his mutated DNA. Experimenting with Bruce's DNA on animals, David also saw his son's first transformation into the Hulk, which he soon became obsessed with copying that power.

Releasing three dogs he had mutated to kill Betty Ross, who had confronted him over what has happened with Bruce, David called Bruce and told him of this. Defeating the mutant dogs and saving Betty, Bruce was tranquilized and taken to a military facility, which David followed him to. As Bruce was held captive, David subjected himself to the same devices that gave Bruce the ability to change into the Hulk, giving himself the ability to absorb the properties of everything he touched. Finding Betty, David told her that he will turn himself in if he was allowed to see Bruce one more time, also revealing to her that he had intended to murder Bruce (believing he would mutate out of control) when his research was originally shut down and that instead he ended up killing Edith when she tried to stop him.

Taken to Bruce, David was placed in a room with him, where they were placed between two electrical generators that would kill both of them if things went out of hand. Bruce began to reflect on the memory of his mother and cried. His father attempted to comfort him, but Banner angrily refused, saying that maybe he was his father back then,but he no longer was now. Having descended into megalomania, David ranted to Bruce about how the military has ruined their lives, also stating that the Hulk was his true son, and Bruce was just a shell for him. Biting some electrical wires, David became a being of pure electricity while Bruce, upon seeing this, becomes the Hulk. Breaking out of the military facility and engaging each other, David and the Hulk crash into a lake, where David, becoming a being of stone and water, tried to absorb all the Hulk's energy, which the Hulk allowed. Unable to contain the Hulk's energy, David swelled into a gigantic energy bubble, which was blown apart by a Gamma Charge Bomb launched by General Ross, killing David.

---

Me: Hello David. How nice to see you again after all these years.

David: J.D. Knudson! You put me in the clink!

Me: You brought that on yourself Banner! You are even more fucked up than when I threw you in there. Now I realize that letting you live was a mistake. A mistake that I intend to correct.

David: So you intend to kill me.

Me: That's right and send you off to hell. You're even more fucked up than when I beat you and threw you into the nuthouse.

David: You should've let me done my research and kill Bruce!

Me: And make you all-powerful? Not gonna happen you fucked up megalomaniac!

Lori: You literally disgust me you fucked up freak!

Nico: David Banner, you have failed this world!

Rebecca walked up to him and David saw her for the first time in 30 years.

Rebecca B.: Hello David.

David: Back from the dead, whore? Should've kept that face buried.

Rebecca punched David in the face with incredible strength and she slammed him into the ground with devastating force.

Me: Holy shit!

Nico: Wow! What power!

Vince: You taught her really well partner.

Me: Thanks partner.

David got up and his body was now made of pure earth and rock.

Me: Whoa! What the fuck happened to you David!?

Nico: He must've experimented on himself.

Me: He sure did. He made himself into some kind of elemental freak.

Punisher: (points gun at David) Don't worry, guys. This won't take long. (shoots David with gun)

The Bullets hit him and they didn't even phase him!

Me: Bullets won't kill him Frank. This requires more destructive firepower. Also David, I'm not the same as I was when I beat you the first time.

David: How so?

Me: Power up guys!

We did so and transformed and our power was unleashed.

Me: This is so. I've transformed into something far more powerful

Vince: Now we're gonna take you down.

Me: David Banner, I will never forgive you for your crimes!

Rebecca B.: You tried to kill me and my son and I will never forgive you for that!

Then a massive pillar of lightning hit the ground from out of the sky.

The Heartless before us was familiar. The only difference was that it had demonic wings and twin razor sharp blades on his arms that pack 100 quadrillion volts of electricity.

Electrified Shreddeath: Hello, Turtles.

Leonardo: Shredder?!

Me: The Shredder! I see you've gotten some upgrades in the Heartless Department huh Ch'Rell.

Electrified Shreddeath: That's right. And now I'm going to shred you like you did to me! I'm going to kill you all!

Me: Then come at us!

Electrified Shreddeath: (charges at the Turtles) Tonight, I dine on Turtle soup!

Karai kicked him in the chest.

Karai: (Japanese Accent) I thought I was rid of you for good "Father."

Electrified Shreddeath: (grabs Karai by the throat) It was a mistake to betray me, Karai! From the very start, I knew there was a slight chance that you would turn on me! But still, I have given you my love and respect and taught you everything I knew. And this is how you repay me?!

Karai: (sees Xion behind Shredder) No, "father". This is.

Xion slashed the Electrified Shreddeath in the back and he dropped Karai. Maria then went behind him and bisected him right in half with the Sword of Tengu!

---

According to Splinter, the Sword of Tengu is a "potent mix of science and sorcery." Using magic and Utrom technology, the sword is exceptionally powerful. It can fire sonic waves when swung that can obliterate anything and anyone in its wake (if it doesn't just injure them). Shredder bragged that with the sword he laid villages to waste, brought castles to ground, and vanquished armies, giving hint to its true, terrible and destructive potential. The proof of its mystical capabilities is when Splinter used it to defeat the Foot Mystics, believing that, "conquering our mystic foe requires a mystic weapon."

However, the weapon is so powerful, wielding it is almost impossible - it shocks (perhaps lethally) anyone who tries to so much as grasp it. There are only two ways to wield the sword: by using a customized protective glove (or, in Shredder's case, a customized Utrom exosuit), or by being a true master of Ninjutsu, whose powerful will enables them to wield the sword, but not without burning their hands.

---

Maria was standing in front of the legendary Sword of Tengu.

Master Splinter: Maria, you be careful. Only a true master of Ninjutsu can safely wield the sword.

Maria: (turns into her water form) Don't worry, Master Splinter. I'll be in my water form the entire time.

Maria turned into her water form and she grabbed the sword and she can now wield it safely.

FLASHBACK ENDS

The Sword of Tengu cleaved him right in half and he screamed in so much excruciating pain that it was unbelievable. The lightning from the sword was more powerful than ever and it was overflowing with 150 Septillion Volts of Electricity.

Karai: (pins Shredder down with her foot) So arrogant, father. That is your downfall! Since you came back from that asteroid, I never wanted your love and respect. (Shredder groans) Can you hear me? (about to stab her former father) I wanted your head!

Karai then slashed off the Electrified Shreddeath's head clean off and it killed him instantly. His evil spirit was sent right into the River of Fire for all eternity.

We then turned our sights towards David.

Me: Now it's your turn to die David.

Maria: Here Lincoln. You can use this.

Maria handed Lincoln the Sword of Tengu. Then his lightning powers and the sword reacted together and then he was enveloped in a massive and powerful flash of light and a massive vortex of lightning exploded out of him and it went high into the sky. We felt his energy levels rising dramatically at an accelerated rate and the ground started shaking violently at an incredible rate. The amount of energy we were sensing was unbelievable! When the lightning vortex faded we saw Lincoln and he was forever changed. He had angel wings made entirely of pure lightning and his hair had lightning arching all over it at an incredible rate. On his forehead was a symbol of a thunderbird with lightning around it and he had an orange aura with lightning all over it. Lincoln was now a Super Angel 20,000 LIGHTNING THUNDERBIRD! His power was overflowing with so much intense lightning that it was absolutely unbelievable! The level of energy we were feeling off of Lincoln was absolutely mind boggling!

Me: Wow! Lincoln you look incredible!

Nico: His power is completely unreal! The Sword of Tengu unlocked a whole new transformation!

Vince: It sure did. Lincoln how do you feel?

Lincoln: I feel amazing! This power is absolutely incredible!

Me: Lets take down this freak of nature! Get ready David, it's time for you to die!

David: I will take you all with me to Hell!

Me: I'm gonna make you eat those words! Lets get him!

We went at David and I punched him in the face with devastating force and sent him crashing through two trees and he got up and went at us.

Edzilla: (punches David) ED SMASH BAD DAD!

Red She-Hulk and She-Hulk punched David together and they slammed him all over the place with extreme ferocity!

Bruce then became the Incredible Hulk and punched David high into the air and Rebecca punched and kicked David all over the place with extreme ferocity.

Lincoln fired a massive blast of lightning at him and it hit him with 20 Octillion Volts of Electricity and electrocuted him very badly. But David then surprised us when we saw him turn into pure lightning. We flew into the air and massive storm clouds rolled in and lightning struck all over the place! The lightning energized Lincoln dramatically and he punched David all over the place with extreme ferocity!

Lincoln then punched David with devastating force and sent him flying into a nearby lake. David turned into pure water.

Red She Hulk: You want our power so badly David!?

She-Hulk: Then take it!

Hulk: TAKE IT AAAAAALLLLLLLLLLLLL!

The Hulk Trio channelled their power into David and it was becoming far too much for him to handle all at once. David turned into a massive bubble of Gamma Energy!

Me: Now lets finish this Dickhead freak off once and for all! Combo and Final Smash time!

Woody (Lilo and Stitch) called forth the Animatron Cyber Planet Key and it went into his right arm and his pinchers became giant chainsaws!

Sky Lynx: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into Sky Lynx's booster engines and it enhanced his abilities: Shell-resistent and steel-reinforced hull can withstand enemy bombardment and extreme temperature variations. Possesses solar powered auxiliary engines. Acetylene blaster inside cockput shoots 3000 degree Celcius flames. As space shuttle, has interplanetary travel capabilities - maximum speed 30,000 mph, range 40,000,000 miles. It enhanced his acetylene blaster to shoot 50,000,000˚ Celcius flames and enhanced his speed to 750 million miles per hour and range to 134,000,000,000,000,000 miles.

Sky Lynx: FLAMING EMBER DEATH BARRAGE!

Woody threw a bunch of chopped down trees and threw them and Sky Lynx fired his acetylene blaster and ignited the trees and they hit the Gamma Bubble and exploded with incredible power! The Gamma Bubble bursted and exploded with the power of 600 Megatons of TNT.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

I contained the explosion in a powerful force field. When the smoke cleared we saw David in the middle of the lake weak and near death.

He got up and got to us.

G1 Soundwave: My turn! CYBER KEY POWER!

The Earth Cyber Planet Key went into his Concussion Blaster and it enhanced it 100-fold.

Blitzwing: Time for action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his Electron Scimitar and enhanced its power by increasing the blade length.

G1 Soundwave and Blitzwing: SONIC LIGHTNING SLASH!

Soundwave fired a massive sound blast and it merged with Blitzwing's sword and Blitzwing slashed David and it electrocuted him very badly. David was stripped of his powers when we burst the Gamma Bubble.

Me: Nico, lets use our new robot power upgrades Dr. Light gave us.

Nico: You got it buddy! And I also caught a Kricketune and a Bibarel.

Me: Awesome job dude! Lets start with this one. STORM TORNADO! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into my device on my left arm. I fired a massive tornado blast and it carried the destructive power of a Category 6 Tornado at 400 miles per hour and it blew David around with such indiscriminate fury.

Nico: Lets try this one! ELECTRIC SPARK! VELOCITRON CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his device on his left arm. Nico fired a massive ball of electricity and it hit David and exploded into a massive dome of electricity that generated 40 quadrillion volts of electricity. It electrocuted David badly!

Nico: Oh that was so awesome!

Me: It sure was. I wonder why we never faced any of the Reploids from Mega Man X?

Nicole: I think it's because they came from the future.

Me: Hmm. That explains it. Final Smash Time!

Punisher: You got it! SKULL BULLET DEATHKILL!

The Punisher fired numerous shots from his guns and pumped David full of lead.

Red She-Hulk: Now it's my turn! RED SLAM FIST ASSAULT!

The Red She-Hulk slammed her fists into David with extreme force and ferocity!

Lincoln: Now it's time to finish this freak off!

Lincoln went up to David.

Lincoln: At least if you'd stay in your cell then you wouldn't have to die!

Lincoln charged up a powerful blast of energy and lightning and he fired a massive blast of lightning and it enveloped David and completely obliterated him in an instant!

Nicole: I think the Book of Vile Darkness is too good for you David. Go to hell and stay there!

David Banner was sent into the River of Fire for all eternity!

We powered down and Betty, Jen and Bruce reverted back. They regained their skin colors and their eyes reverted back. Their hair came back. But for Betty it was extremely painful. She was holding her stomach in excruciating pain as her hair reverted back. Betty's hair was black, Jen's turned back to black and Bruce's turned back to brown.

Betty: Oh that hurt really badly!

Jen: You get used to it over time Betty.

Betty: Easier said than done. (To the Viewers) It was awesome for me to turn into the Red She-Hulk. Now I can fight with Bruce and Jen.

Me: You sure can.

We went back to the estate. David Banner was dead and he was gone for good.

THE END

---

Another Fanfiction Complete

Happy Father's Day 2019 everyone! I hope you all have a great fathers day and spend some awesome time with your dads. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Mystery in Mexico

It starts in the Fairy World Big Wand.

I was standing in front of the jar that held the Disembodied Brain of the most hated teacher in the world and the most fucked up man ever known: Mr. Denzel Crocker.

Me: Hows life now that you are a fucked up Disembodied Brain Crackfuck?

Crocker: I HATE YOU MORE THAN LIFE ITSELF KNUDSON!

My aura flared up.

Me: Because you are a fucked up freak of nature Crackass.

Crocker: I WILL NEVER FORGIVE YOU FOR WHAT YOU DID TO ME! I WILL KILL YOU FOR THIS YOU FREAK! I HATE YOU AND YOUR FAIRIES!

My aura flared up more.

Me: I've heard better comebacks from a turkey sandwich you freak!

Crocker: I HATE YOU J.D.! I HATE YOU MORE THAN ALL OF LIFE ITSELF! I WANT NOTHING MORE THAN TO KILL YOU AND SPIT IN YOUR FACE BECAUSE I HATE YOU! I HATE YOU! **I HATE YOU I HATE YOU! I HATE YOU! I HATE YOU! I** ***HAAAAAAAAAAAAAAATTTTTTTTTTTEEEEEEEEEEE YYYYYYOOOOOOOOOOOOUUUUU!***

Denzel Crocker's hatred towards me was so incredibly powerful and so extremely intense that it flared up my aura to an incredible level and it looked like I had fire around me. It flared up my aura to such a massively incredible degree that it was now that of an everlasting fire.

Me: Wow! Crocker's hate towards me is unimaginable.

Dr. Strange: It sure is. I don't think I've ever sensed this much power coming from you.

Me: I've never felt such power from ones own hatred. If Crocker can power the big wand with just his spazzing alone then his hatred is 100 billion times more powerful.

Dr. Strange: No kidding.

Crocker: I HATE YOU MORE THAN ALL OF LIFE ITSELF! YOU RUINED MY LIFE AND YOU MAKE ME SO CRAZY!

Me: Too late for that Crackfuck and you're already 13,517% insanity. When you made that threat to kill all the fairies it raised your insanity to that level.

Crocker: I'D LIKE TO TIE YOU TO A ROCK AT LOW TIDE AND WATCH THE CRABS EAT YOU! YOU MAKE ME SO CRAZY!

Me: Go fuck yourself sideways. Oh too late, you already did!

We laughed at him.

We left. We were walking back to the estate.

Me: Stephen can I ask you a quick question?

Dr. Strange: Sure.

Me: How did you seal Slappy into the Dark Dimension?

Dr. Strange: That is an awful story. I encountered Slappy when he was possessing his final victim Harrison Cohen. I was there to help Jillian Zinman, his best friend. It was before we all took down General Ross.

---

Dr. Strange came into the bathroom. Slappy, recognizing the Sorcerer Supreme, stopped what he was doing.

Slappy (using Harrison's voice): Hi. Dr. Strange, right? Nice to finally meet you.

Jillian (angrily): Yeah, don't try to hurt us one minute and then pretend to be pleasant the next!

Dr. Strange: I was just coming to investigate a disturbance here, Harrison. (Smirks) Or should I say, Slappy?

Slappy (gulps): I'm in big trouble, aren't I?

Dr. Strange: What do you think?

Slappy: Oh fuck me sideways.

Dr. Strange has Slappy in a headlock when his communicator rang.

Dr. Strange (picks up): Hello?

Iron Man: Stephen, you and the rest of the Avengers head to Royal York right away! Captain America, Spiderman, and the others are fighting some Hydra goons!

Dr. Strange: I'm on my way.

He hung up and used his magic to remove Slappy's real spirit and he used his magic to open up a portal into the Dark Dimension and he threw Slappy into it for all eternity.

Dr. Strange had freed the world of the most dangerous monsters in all of the Goosebumps series.

FLASHBACK ENDS

Dr. Strange: And that's how I defeated Slappy and threw him into the Dark Dimension.

Me: That's amazing Stephen. Nico has been terrified of Slappy ever since he was a young boy. But you saved and freed numerous lives he ruined from Slappy's evil grip.

Dr. Strange: It was nothing J.D.

We arrived back at the estate.

Me: Hey guys.

Lincoln: Hey J.D., hey Stephen. How was Crocker?

Me: Worse than ever buddy. But he gave me quite a power boost. His hatred towards is just as powerful as his insane spazzing in Fairy Godparents.

Then I got a call on my watch. It was Mystery Inc. and they were over in Veracruz, Mexico.

Me: We got a call from Mystery Inc and they're down in Veracruz.

Lori: We better get over there. We literally haven't seen them in a while.

Me: Yeah. Team Loud Phoenix Storm, lets fly!

We set out for Mexico City, Mexico.

---

Veracruz, Mexico

---

We arrived in the city of Veracruz, Mexico

Me: Veracruz, Mexico. A lot of history and great culture is here.

Syd: I've always wanted to come here to Mexico. A lot of beautiful animals and amazing things to do are here.

Ronnie Anne: There sure are. Me and my family are all from Mexico.

Syd: Oh that is so cool Ronnie Anne.

Me: It sure is. I've learn so much about the Mexican Culture when I was here ages ago.

Laney: And we were here on our worldwide adventure. It was so awesome!

Me: This city has 500 years worth of history behind it.

Jessie K.: That's right. It was founded on April 22nd, 1519.

Lola: So 500 years ago.

Lisa: 500 years, 1 month and 26 days to be exact.

We saw the Mystery Inc. gang.

Me: Hey guys!

Fred: Hey J.D.

Velma: Guys! Long time no see!

Lori: Same here Velma.

We hugged them.

Alejo: (Spanish Accent) It is an honor to meet you, Señor J.D. And your timing couldn't have been more perfect.

Fred: This is my penpal Alejo Otero. I was telling him all about your adventures.

Me: Pleasure to meet you Alejo.

Alejo: You too J.D. This is my brother Luis.

Luis: Pleasure Señor J.D.

Me: You too Luis. So whats been going on?

Alejo explained the situation. Veracruz is being terrorized by a monster called El Chupacabra.

Me: El Chupacabra? The Legendary blood-sucking monster from South America?

Alejo: No. This is actually much different. It's the Mexican version of Bigfoot.

Me: Can you give us a description of what it looked like?

Luis: I can try.

Luis told us that El Chupacabra looked like a giant gorilla. It resembled a huge gorilla beast with purple fur, glowing green eyes, an upright posture, and sharp fangs. It had large claws on its hands, that it often used to abduct people. The museum guide wore stilts to cover the huge size.

Me: That looks like our version of Bigfoot over in America.

Nico: It does sound like it.

Me: Well as you always say Freddy…

Me and Freddy: (In Unison) Looks like we got another mystery on our hands.

We laughed.

Me: Just like old times.

Edd (takes out magnifying glass): Alright. Time to search for clues. Let's all check back in an hour.

We got to work. We walked around Veracruz and we arrived at the famous Aztec temple of the Pyramid of The Sun. One of Mexico's most important landmarks and sites of its history.

Me: Wow. The Pyramid of the Sun.

Jessie K.: It was built back in 200 A.D. and left abandoned in 750 A.D.

Third largest ancient pyramid in the world, the second largest is the Pyramid of Giza and the largest is the Great Pyramid of Cholula which is 90 kilometers away

The Pyramid of the Sun is the largest building in Teotihuacan, believed to have been constructed about 200 CE, and one of the largest in Mesoamerica. Found along the Avenue of the Dead, in between the Pyramid of the Moon and the Ciudadela, and in the shadow of the massive mountain Cerro Gordo, the pyramid is part of a large complex in the heart of the city.

The name Pyramid of the Sun comes from the Aztecs, who visited the city of Teotihuacan centuries after it was abandoned; the name given to the pyramid by the Teotihuacanos is unknown. It was constructed in two phases. The first construction stage, around 100 CE, brought the pyramid to nearly the size it is today. The second round of construction resulted in its completed size of 225 meters (738 feet) across and 75 meters (246 feet) high,[clarification needed] making it the third largest pyramid in the world, though still just over half the height of the Great Pyramid of Giza (146 metres). The second phase also saw the construction of an altar atop of the pyramid which has not survived into modern times.

Over the structure, the ancient Teotihuacanos finished their pyramid with lime plaster imported from surrounding areas, on which they painted brilliantly colored murals. While the pyramid has endured for centuries, the paint and plaster have not and are no longer visible. Jaguar heads and paws, stars, and snake rattles are among the few images associated with the pyramids.

It is thought that the pyramid venerated a deity within Teotihuacan society, however, little evidence exists to support this hypothesis. The destruction of the temple on top of the pyramid, by both deliberate and natural forces prior to the archaeological study of the site, has so far prevented identification of the pyramid with any particular deity.

Lola: How come we didn't encounter this place on our global trip?

Me: We were here in Mexico to study about the volcanoes of Mexico and learn about the Mayan City of Tikal. Plus it was not on our route.

Lola: Oh.

Lana: This pyramid is amazing!

Laney: It sure is a breathtaking marvel.

Me: And it's also the largest building in Teotihuacan, Mexico.

Sailor Jupiter: Ok. Did anyone find any clues?

Catwoman: Well, you won't believe what I found.

Catwoman handed me a piece of a costume.

Me: Looks like a piece of a costume from the Day of The Dead.

Lincoln: I wonder who it belongs to?

Lori: I hope it doesn't belong to him.

We turned and we saw a mime in Mexico?

Me: Who is that ugly guy?

Omi: (Tibetan Accent) That is Le Mime and he's one of the Heylin.

Me: So he's another Heylin freak.

Rachel: He looks very similar to the Mime from Animaniacs.

Me: Oh he was funny. But this guy is a disgrace to mimes everywhere.

Trent then started shaking in fear and he curled up in a ball and sat on the ground in a fetal position.

Nico: Oh that's right. Trent is terrified of Mimes.

Me: Trent you have to snap out of it. Mimes are not that scary. They are people just like you. And Billy used a mime on Total Drama to torture you. Billy McLean is the true enemy and you have to snap out of it and conquer your fear.

Something made Trent realize that everything I said was true and he then got a look of determination on his face. He then got up and went at Le Mime and then he punched him in the face and kicked him in the stomach and punched him in the face again and dealt a major uppercut to his chin and punched him in the stomach and kicked him in the crotch.

DING!

Me: (Winces) Oooh! That's not gonna feel good in the morning!

Nico: Ay yi yi! Le Mime you have failed this world! Mr. Mime, lets get him!

Nico threw a pokeball and out came Mr. Mime.

Nico: Mr. Mime, time to challenge this punk to a mime off!

Me: Take five Trent.

Trent did so.

Me: But great job dude. You conquered your fear of Mimes.

Trent: I sure did. Thanks J.D.

Me: You were great buddy.

Mr. Mime stood in front of Le Mime. Le Mime was about to attack with his invisible weapons. But Mr. Mime had him trapped in an invisible box. Mr. Mime was a much better mime than Le Mime was. I snapped my fingers and stripped Le Mime of his powers.

Sabrina Mason (to the powerless Le Mime): Lucky for you, we've got more important things to worry about. But try and attack us again and we're letting Venom and Rhino break your limbs!

Me: So you should consider yourself lucky. But if we see you again…

I made the the finger gesture at him that says "I will Kill You."

Le Mime ran away.

Me: What a wuss.

Then a roar was heard and out came the MEXICAN CHUPACABRA! It was a giant gorilla creature.

Me: There he is!

Shaggy: ZOINKS!

Lori: He's literally huge!

Me: But we've dealt with big monsters before! Lets get him!

We powered up and transformed.

Me: Luis, you're about to see Team Loud Phoenix Storm in action. Lets get this freak!

We went at the El Chupacabra. I punched him in the face and kicked him in the stomach.

Nico: You have failed all of Mexico you overgrown dang dirty ape!

Nico kicked the beast in the stomach and fired a powerful blast of energy at his arm and it blew the whole thing clear off in a powerful explosion. We saw that the whole thing was mechanical.

Me: It's totally mechanical. Lets finish it with combos and final smashes!

Gears: You got it J.D.! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his strength 100-fold.

Sailor Jupiter: Lets get him! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her arm and it enhanced her lightning powers.

Sailor Jupiter: JUPITER THUNDER DRAGON STORM!

Sailor Jupiter fired a massive blast of lightning and it turned into a massive dragon of pure lightning.

Gears and Sailor Jupiter: THUNDER BOULDER DRAGONSTRIKE!

Gears threw a huge boulder and the dragon picked it up and channeled lightning into it and dropped it onto the Chupacabra. It slammed onto it.

KRABBBBOOOOOOOOOOMMM!

Onslaught: Let get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into Onslaught's back and it enhanced his missile range and photon missiles.

Catwoman: ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Catwoman's arm and it enhanced her strength and cat abilities.

Onslaught and Catwoman: PHOTON CAT BARRAGE!

Catwoman went at the Chupacabra and slashed it and the photon missiles hit it and exploded.

KRAAABBBBOOOOOOOOOOOOOMMMMM!

Sabrina Mason: I'll start the final smashes! BLUE CAMELLIA SHRED STORM!

A massive swirl of blue camellia blossoms swirled around Sabrina and she sent them all at the Chupacabra and they cut it all over the place.

Velma: My turn! VIKING RUNE BOMBSTORM!

Velma had a bunch of red energy runes swirl around her and they went at the Chupacabra and exploded. Blowing it completely to dust and a woman flew out of the cloud of smoke and we grabbed her.

Me: You are busted.

Lincoln: And so is this freak. Here's the freak that piece of costume belongs to.

Me: And lets see who's under this ugly mask.

I took off the skull mask and it revealed that the mastermind was really Mr. Smiley! He was a real estate developer.

All: MR. SMILEY!

Alejo: But why would he do this!?

Me: He wanted to ruin your business by scaring away all of your customers.

Laney: And his girlfriend here is his accomplice.

Laney took off her red wig and she was really Charlene!

Luis: Charlene? But why?

Gears: She never loved you, Luis. She dressed up as a fake El Chupacabra because she was helping Smiley get all the land here.

Me: They wanted to get you to sell your land so they can make billions of dollars and live in the lap of luxury.

Charlene: That's right! I never loved you! I loved your money and if we got married your inheritance would become mine. Then I was fixin to drop you like a hot tamale and share my riches with my little honey bunch here! (Kisses Smiley)

Me: I think I'm gonna be sick.

Mr. Smiley: But that goody goody brother of yours had to complicate everything. Mr. "I want to respect fathers wishes" over there.

Charlene: Well what happens now hun?

Mr. Smiley: We go to jail! What do you think happens? We could've made billions if it weren't for you meddling kids and Team Loud Phoenix Storm!

Me: Tell it to the judge Smiley! And you're looking at 50 to 75 years in a Mexican Prison. And let me tell you, they aren't as nice as our prisons in America. They are merciless. Get em outta here.

Nico: Mr. Smiley and Charlene, you two have failed this country.

Me: And in all of life.

The Mexican police took them away.

Alejo (sighs): We owe you a big thanks.

Onslaught: No problem, Alejo.

Alejo: That sentence was actually directed towards Charlene. If it weren't for her, we wouldn't have made such amazing friends in you all.

Maria (smiles): Thanks. But you want to thank us too, right?

Alejo (smiles): Of course. All of you played a part in solving this mystery.

Me: We sure did. We're just doing what we do best and that's..

Me and Mystery Inc.: Meddling.

We laughed.

Me: Just like old times right Fred?

Fred: You know it J.D.

Velma: It was so awesome doing a Final Smash. I felt really powerful.

Me: First times for everything Velma.

Velma: Yep. (To the Viewers) And Monsters and Criminals everywhere, if you do crimes, we're coming for you.

Me: You got that right Velma!

Nico caught a Luxray and a Roserade. We decided to have a fun time in Mexico and learn all about the country some more.

VIVA MEXICO!

THE END

---

Another Fanfiction Complete

Scooby Doo and the Monster of Mexico is one of my favorite movies from Scooby Doo. It was awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Duckberg Reunion

It starts at the estate. We were watching one of our favorite shows: Ducktales.

Donald: This is my favorite show.

Me: It's really funny how your nephews always trounce the bad guys. But let be tell you Donald, those dumb Beagle Boys just never learn.

Donald: No they sure don't.

We laughed.

Mewtwo: It seems the Beagle Boys have gone into seperate locations.

Me: They sure have. But all bad guys never take a hint.

Then the doorbell rang.

Eddy: I'll get that.

Eddy went to the door and answered it.

Steve's mom: Hello, I'm Steve's mom.

Chuck's Dad: And I'm Chuck's dad. We need to speak with your friend, Ed.

Eddy: About what?

Steve's mom: About him physically assaulting our sons!

Eddy: Come on in and talk to him.

They came in and I went up to them.

Chuck's Dad: J.D. Knudson of Team Loud Phoenix Storm. It's an honor.

Me: You too. Are you Chuck and Steve's parents?

Steve's Mom: We certainly are. We've heard so much about your adventures and you are amazing at what you do.

Me: We get that a lot. Now I take it that this is what Ed did to your sons and for that I apologize for what he did. But there is a reason why he did it. Let him explain.

Ed: I know you guys hate me for hurting your sons but there was a reason for it. I would not stand by and let them hurt Carly Beth Caldwell!

Eddy (to Ed): Lumpy, you're not helping the situation right now!

Steve's mom: Look, we don't have time to watch you two argue with each other. Bottom line is: you slammed tables on our sons, you threw food at them, and then you beat them to a pulp!

Ed: Like I give a fuck!

Chuck's dad: We're not here to know what you give a fuck about. But you should be in jail for that shit!

Sarah: Hey! Leave my big brother alone!

Maria: Look, if we give you footage of what your sons did to Carly Beth, will you believe us?

Chuck's Dad: All right.

We showed them footage from a special point of view taken from 1 year ago before Carly Beth first found the mask. It showed that Chuck and Steve at the Halloween Party and they put a worm in Carly Beth's Sandwich when she wasn't looking and she found it and because of them everyone laughed at her and completely humiliated her.

Me: So you see, Chuck and Steve have been bullying Carly Beth Caldwell for a long time and we had to teach them a major lesson they would never forget. But we never intended for this to happen. We only wanted them to see the error of their ways by pelting them with food. Not maiming them.

Chuck's Dad: Oh gosh! We had no idea our sons were doing that!

Steve's mom: We are extremely sorry for wrongly accusing you.

Edd: Well, you weren't totally in the wrong. We never meant to cause any property damage.

Chuck's Dad: We understand. We had no idea that they were hurting Carly Beth. We've known Carly Beth since she was a little girl but we had no idea they were doing this to her.

Steve's mom: How long has this bullying been going on?

Sabrina M.: I can answer that Mrs. Boswell. This bullying went on for 7 years. They enjoyed scaring her with deadly pranks.

Sabrina put in a tape and it was us catching the pranks in motion from Carly Beth's point of view. They did all kinds of horrible and unspeakable pranks to her and scared the living shit out of Carly Beth all for their own sadistic pleasure and amusement.

Me: There you have it Mr. Greene and Mrs. Boswell. I'm so sorry we beat your sons up.

Mr. Greene: No you had every right to do so. Now we understand that your actions were justified.

Mrs. Boswell: We will make sure that our sons get what's coming to them. Thank you all for showing us what monsters they have become.

Mr. Greene: Now we know that these matters cannot be overlooked. Thank you J.D.

Me: You're welcome Mr. Greene. If there is anything we can do to help you out you let us know.

Mr. Greene: Well we want Carly Beth to testify at their trial and the true charges our sons will be facing.

Me: If that is what you want then it'll be done. And if you want we can have Ed and Sabrina testify as well.

Sabrina: I'll do it. I want those jerks to pay big time!

Ed: Me too!

Me: If Chuck and Steve are with you tell them that they have been served. See them in Court.

Mr. Greene: Will do.

They left.

The trial was tomorrow.

Chuck's dad: Is this your idea of a joke, young man?

Chuck: Does it look like we're laughing?!

Steve's mom: Steve, I know you wouldn't bully Carly Beth without a good reason. But I don't know what's going on with you two.

Steve: I'll tell you what's going on. Me and Chuck bullied Carly Beth! Just like she and Sabrina said! (his mom gasps) And now, Team Loud Phoenix Storm is gonna try and get us thrown in jail forever!

Chuck's dad: And just where do you two think you're going?!

Chuck (smirks): Somewhere Team Loud Phoenix Storm will never find us. If you two still care about us, then you won't try and go after us!

With that, Chuck and Steve exited the house, never to be seen by the neighborhood ever again.

We went back to watching Ducktales. We were learning the full extent of the crimes and abilities of the Beagle Boys.

The Beagle Boys made their first appearance in the 10-page story The Terror of the Beagle Boys (WDC #134) that was first published in November 1951. Although the Beagle Boys are only shown very briefly on the last page of this story, it is implied that Scrooge has known about them for a long time. The first story to feature the Beagle Boys in a major role is Only a Poor Old Man from March 1952, which serves as a template for virtually all future Beagle Boys appearances, and establishes them as a serious threat to steal Scrooge's fortune.

The Beagle Boys are usually depicted as a gang of about six to ten members, who are similar in appearance and personality, and without an established leader. However, sometimes the Beagle Boys are led by their grandfather, Blackheart Beagle (prison number 186-802). The Blackheart character originates from two characters created by Carl Barks: Blackheart Beagle, a riverboat pirate from The Fantastic River Race and Grandpa Beagle, who appeared in The Money Well. Don Rosa later combined the character into one in chapters 10 and 11 of The Life and Times of Scrooge McDuck. According to Rosa, Blackheart Beagle semi-retired in 1947, following a failed attempt at robbing Scrooge's money bin.

According to Don Rosa's Life and Times of Scrooge McDuck, Scrooge first met The Beagle Boys in his Mississippi riverboat days, circa 1880. Those Beagle Boys included Blackheart Beagle and his three sons. Scrooge first met the modern Beagle Boys during Christmas 1947, which was when he first met his grandnephews Huey, Dewey and Louie and met his nephew Donald for the second time. Since then the Beagle Boys have been a constant threat to Scrooge's huge money bin.

The three most common numbers on Beagle Boys prison tags are 176-167, 176-671, and 176-176. In fact, no digits other than one, six, or seven appeared on their prison ID tags. Carl Barks used to include the words "Beagle Boys Inc" on their shirts under their numbers, which was later deleted.

According to one of Don Rosa's stories, the Beagle Boys have been known by their prison numbers since their childhood, and they don't even know their real names themselves. (Their parents do know their real names, but demand a bribe from their sons to let them know.) Also according to that story, Blackheart Beagle doesn't remember his sons' names.

In the Barks/Rosa universe, the Beagle Boys have almost identical personalities, but one of the members (176-167) is known to be very fond of prunes, a weakness that proves to be the Beagle Boys' downfall in some stories. The Beagle Boys usually operate on their own, but collaborated with Magica De Spell in the 1963 Barks story Isle of the Golden Geese, and again in the 1997 Don Rosa story A Little Something Special where they also teamed up with Flintheart Glomgold.

In all comics, the individual Beagle Boys are referred to by their prison numbers, indicated on the tags seen on the chests of their distinctive orange or red shirts. The original depictions by Barks in American comics always showed the Beagle Boys with orange shirts. European comics recolored these same Barks drawings to show Beagle Boys in red shirts. Subsequent European comic depictions of the Beagle Boys by artists other than Barks also showed them in red shirts, as did the DuckTales cartoons.

In later years, they appeared in the comics as a trio (some combination of the most common numbers with 176-167, 176-671 and 176-761), plus cousins and other relatives of various talents as spin-off characters. They live in a small tumbledown hide-out in Duckburg; in 1980s American-produced stories, their pet cat Ratty often lived there as well. In the Italian stories, they are sometimes accompanied by their pet dachshund, 64, who shares their criminal mindset, but it is often overcome with 64's constant, voracious appetite.

Sometimes they team up with other villains such as Magica De Spell, Black Pete, Mad Madam Mim, or hire out their services to Flintheart Glomgold or John D. Rockerduck. During these occasions they continue to operate out of their own interests rather than their employers. The Beagle Boys make cameos in the Darkwing Duck episode "In Like Blunt", where they are among the villains bidding on a list of S.H.U.S.H.'s secret agents.

Many other authors use a character purely based on The Money Well version as the Beagle Boys' grandfather. In particular, Italian authors use a "Grandpa Beagle" who differs from Blackheart in being much skinnier and constantly smoking a pipe.

Sometimes they antagonize Super Goof, Mickey Mouse, or some other characters from Walt Disney's comic books.

Although the characters are obviously based on dogs, they in no way resemble the actual beagle breed.

## BIG TIME

Big Time is the second-in-command and usual leader of the group in absence of Ma Beagle, and is distinguished by being rather short for someone with the word "Big" in his name. He is extremely hot-tempered and crooked, and often has to correct his companions whenever they get something wrong and mishear his directions. In the Beagle family, he seems to only take orders from Ma Beagle herself. His prison number is usually shown as 167-671. However, in "Scroogerello" his number says 167-617, and he mentions his first wish would "to be taller".

## BURGER

As his name suggests, Burger has a large appetite, although it is for more than just hamburgers. He also isn't very bright. Incidentally, his comic counterpart (who had the second placard number) is known for a special appreciation for prunes and his curious culinary tastes (i.e. ketchup on ice cream or peanut butter pizza with gravy).

Burger was inspired by the Beagle Boy who is often portrayed enjoying prunes (and originated from the Carl Barks story "The Giant Robot Robbers"), and has a slightly different facial expression than the other Beagles. The not-too-bright Burger is named for his habit of talking about food, regardless of whether or not any of the others are actually talking about it themselves. He is also prone to random hunger tantrums. Due to his appetite, he has even taken a bite out of his license plate, which reads "761-176".

## BOUNCER

Designated with the placard number of "716-167", Bouncer usually serves as the muscle of the group. Of the regularly recurring DuckTales Beagles, Bouncer bears the most physical resemblance to the standard Beagle Boys seen in the original comics, except that he has one tooth missing.

BAGGY

Designated with the placard number of "617-716", Baggy, as his name suggests, wears baggy, loose-fitting clothes and often has a dopey grin on his face. His plate is also askew with one of the corners bent over. Out of all the Beagle Boys, Baggy is probably the least intelligent.

Baggy has lots of trouble communicating what he means to say and has a habit of stumbling over his words and saying the wrong things, which make it hard for his brothers to understand him. This doesn't seem to impede his musical talent, however, and in "Beaglemania" Baggy plays the keyboard.

BANKJOB

Bankjob is physically the strongest and overall largest of the DuckTales Beagles, being about the same size as Launchpad McQuack. He is distinguishable by his large, Jay Leno-esque chin, and originally has the placard number of 671-167. He is the third-in-command of the Beagle Boys, playing the leader of the group whenever Big Time is absent. However, his methods usually rely less on brains and more on brawn and impulsiveness.

Bankjob appears to be brave and reckless, as seen in "Time Teasers" when he shoots directly at a cop. However, part of this could just be for show, as he is obviously very afraid when he encounters the pirates later in the episode.

Throughout the series, Bankjob has different numbers included; in the episode "Hero for Hire", his number says 614-167 and in some others his number is 618-167.

BABYFACE

Designated with the placard number of 176-167, Babyface is the youngest of the Beagle Boys, in both appearance and a number of mannerisms. He is slightly taller than Big Time, and is considerably rounder in stature. He has a clean-shaven face and dresses much like a little kid with a distinctive propeller hat worn backwards, hence his name. His shirt also appears to be somewhat small for him, as his belly is constantly exposed. The cuffs of his sleeves are white and folded back, and he doesn't wear gloves, making his outfit unique from the rest of his brothers. He also has two strands of hair on his head.

Babyface is also very enthusiastic and adamant when it comes to breaking into Scrooge's money bin. In "Time Teasers", for example, he is so excited to get his hands on the Time Teaser, he tries to grab it and breaks it. Babyface also seems to be pretty clumsy, often falling or tripping over things. Despite all this, he is one of the smarter of the Beagle Boys and also seems to be rather cheeky, as in "Time Teasers" he comments that Bankjob actually never has brilliant ideas, and he isn't afraid to talk back to others, like Magica de Spell in "Send in the Clones".

Babyface disappeared from the series after the "Super DuckTales" serial, but continued to occasionally appear in DuckTales comic book stories, most notably in the story "Webby's Field Trip" (published in the February 1993 issue of Disney Adventures). In that story, Babyface (who is drawn with a strangely different design) is sent by Big Time to infiltrate Webby Vanderquack's class under the guise of a new student named B.B., because Webby's class is taking a field trip to Scrooge's Money Bin later in the week. Babyface actually ends up becoming friends with Webby, eventually finding out that she suggested to Scrooge that her class take a field trip to his Money Bin. When Webby feels guilty about the Beagle Boys breaking in during the field trip, Babyface, feeling sorry for her, actually rebels against his brothers and helps Webby stop them. However, due to helping the Beagles in the first place, Babyface still goes to jail along with them, and it is unclear if his apparent reform was permanent.

## BUGLE

Designated with the placard number of 671-761, Bugle is a tall, lanky beagle with a love of music, particularly jazz and disco, and often speaks in rhyme. He can be identified by the sunglasses he wears in front of his typical mask, as well as his beatnik hat and sandals. His clothes are also rather long and loose-fitting. He also has two or three stands of hair on his head. Bugle is usually seen working alongside Bankjob and Babyface.

One time when the Beagle Boys were spying on an opening of Scrooge McDuck's new bank in order to check for any weaknesses in security, the alarm was set off, to the annoyance of everyone present, including the Beagle Boys. However, Bugle remarked he actually likes the tempo of the alarm sirens "because it has a jazzy rhythm".

## MEGABYTE

The only Beagle Boy whose name doesn't start with a 'B', Megabyte is one of the more minor Beagle Boys. He is arguably the smartest of them, since he's been to college and is able to program and reprogram computers. He has the placard number of the square root of 6 in 716 in 6.

He first appears in the DuckTales episode "Full Metal Duck" (part three of the five part serial Super DuckTales). Here, Ma Beagle calls him to make a remote to control Gizmoduck's suit, so he will turn against Scrooge McDuck and his family. Despite his high intelligence, he is not without moments of stupidity, as when Huey, Dewey and Louie free Gizmoduck by stealing Megabyte's remote and swapping it with an identical one. Megabyte tries to thwart the pair by controlling Gizmoduck, only to find the remote only controls a Gizmoduck toy, to which Megabyte remarks "What did he do, shrink in the wash?" while failing to realize his sabotage plans had been sabotaged.

## BOMBER

With the placard number of 117-671, Bomber looks a lot like Bankjob in that he has a similar jawline and is very large in size. He is more intelligent than most of the other Beagles, and is a skilled pilot with his own airplane.

## BACKWOODS

The only Beagle who wears a full mustache, Backwoods has the placard number 167-761. He has a strong Canadian accent and is the twin brother of Binky Beagle and Bacon Beagle. The fact that he actually believes this is true could make him the dumbest of all the Beagle Boys. Backwoods wears a Davy Crocket-like trapper's outfit as opposed to the normal jailhouse outfit of the Beagle Boys. He is also the only person who is able to understand Bacon Beagle. As mentioned by Glomgold in "Ducky Mountain High", Backwoods and his twin brothers are brothers of Duckburg's Beagle Boys.

BINKY

Binky is probably the only Beagle Boy who is never seen speaking. He is roughly the same size as Baggy Beagle, wears a lumberjack outfit and has a full beard. He lives with Backwoods and Bacon Beagle in the Ducky Mountains. His placard number is covered by his beard.

BACON

Bacon is, in fact, a pet pig, hence his name. When Glomgold asked how he could be a Beagle Boy, Backwoods explains that Bacon had a bad case of the swine flu as a child. Bacon cannot speak, but his oinks and grunts are, instead, translated by Backwoods Beagle. His number reads 167.

BARITONE

A cousin of the Beagle Boys, Baritone appeared in the Disney Adventures comic story Mrs. Beakley's Secret Love. He has muttonchops and a mustache and possesses the ability to mimic anyone's voice. In the story, he falls in love with Mrs. Beakley and sends her many gifts while his cousins want him to use his impression of Scrooge to help them break the new voice lock on Scrooge's money bin. When he finally does help them break in and they are caught and arrested, Baritone vows to give up crime and become a good citizen upon finishing his prison sentence.

BULLSEYE

Bullseye is one of the many Beagle Boys trying to rob Scrooge's bin in part one of the four-episode serial "Catch as Cash Can". He is among the Beagles who manage to reach the door of the bin, but he gets hit by a giant cannonball before he can enter the bin itself.

## BOMBSHELL

Bombshell is one of the Beagle Boys' brothers and Ma Beagle's son, whose picture can be seen on the TV in the Beagle Boys' hideout in the episode "Beaglemania". Ma Beagle seems to favor him over the other Beagles. He appears to be one of Ma's older children, and his clothes suggest he's involved in warfare or the military. His placard number is 677-767.

## BONAPARTE

One of the Blueblood Beagles who appear in "The Status Seekers", Bonaparte and his brothers reside in the posh minimum-security Club Fed Penitentiary prison. They assist Charles Upstart III in seeking out the Mask of Kufululu. He resembles Big-Time, and is also very short; his name is a reference to Napoleon Bonaparte, who was known for being of short stature. In addition, he has the same number on his placard as Big-Time.

## BICEP

One of the Blueblood Beagles who appear in "The Status Seekers", Bicep and his brothers reside in the posh minimum-security Club Fed Penitentiary prison. They assist Charles Upstart III in seeking out the Mask of Kufululu. He resembles Bouncer, and even carries his number on the small placard.

## BEARNAISE

One of the Blueblood Beagles who appear in "The Status Seekers", Bearnaise and his brothers reside in the posh minimum-security Club Fed Penitentiary prison. They assist Charles Upstart III in seeking out the Mask of Kufululu. He resembles Burger, and has his number as well.

## MA BEAGLE

Ma Beagle always bails out her sons by providing cakes or other goods with means of breaking out of prison hidden inside. She's far more competent than her children, but even then tends to fail because Scrooge McDuck and the nephews always find a way to outwit the Beagle Boys.

An interesting note regarding Ma Beagle is that whenever she appeared in the first season, she was often the only Beagle to escape successfully. This trait notably seems to disappear in the later seasons. In the second season premiere, "Time is Money", it is implied that she was eventually arrested; when Big Time disguises himself as an elderly woman, Burger initially mistakes him for Ma, saying "She must've broke out of jail!" Additionally, two episodes in the show's later seasons, "The Bride Wore Stripes" and "New Gizmo-Kids on the Block", end with Ma Beagle being arrested and going to jail.

Me: Boy there's so many of them.

Then we got a call on our airport landing frequency. It was Launchpad.

Launchpad: Team Loud Phoenix Storm Tower, Team Loud Phoenix Storm Tower this is McDuck Transport 13, requesting permission to land. Over.

Lana: That's Launchpad!

Me: It sure is. We've never had a landing at the estate before.

I pressed a button and an airport radio came out.

Me: Team Loud Phoenix Storm to 13, you have permission to land. Hanger 1. Over.

Launchpad: Roger that.

The jet flew over us and we went to the Air Traffic Control tower at our estate and we saw Launchpad flying the McDuck plane and he had the whole of McDuck's fortune and the McDuck estate with him and he placed them next to the estate and the plane landed in our hanger. We went to see them.

In the plane we saw Scrooge McDuck and his nephews Huey, Dewey and Louie and surrogate niece Webby Venderquack.

Huey, Dewey, Louie: Uncle Donald!

Donald: Good to see you boys again!

Huey: We missed you so much Uncle Donald.

Donald: I missed you guys too.

Scrooge McDuck: (Scottish Accent) Ach, Donald it's great to see ya.

Donald: You too Scrooge.

Me: Scrooge McDuck. It's such an honor to meet you in person.

Scrooge McDuck: You too J.D. We were told so much about all yer adventures lad.

Me: I'm not surprised. Huey, Dewey, Louie and Webby right?

Huey: That's right. It's awesome to meet you J.D. My favorite adventure was when you went and destroyed Nerissa.

Dewey: My favorite is when you faced all the Demon Sorcerers and the Dark Hand!

Louie: My favorite was when you all helped destroy Xehanort.

Webby: And my favorite was when you all destroyed Godzilla in Japan and New York.

Me: Those were some of our most action packed adventures.

Scrooge McDuck: Aye, they were lad. I like all your adventures.

Me: We go on all kinds of awesome adventures. So I take it you moved the entirety of your estate and your fortune here right?

Scrooge McDuck: Aye lad. I wanted to move here for protection under you guys.

Me: You made the right choice Mr. McDuck.

Scrooge: Call me Scrooge J.D.

Me: Sorry. I take it the Beagle Boys just won't leave you alone and tried repeatedly to swipe your fortune?

Scrooge: How did you know?

Me: Call it intuition. Now we can all make sure that the Beagle Boys never return and take your fortune ever again. We're gonna team up and take them down.

Nico: Are we gonna kill the Beagle Boys?

Me: No. We're gonna throw half of them into the Null Void for all eternity and the other half will go into the Uranus Prison.

Ben: That's a great idea J.D.

Me: Lets go see where they all are at.

We went to the computer and we saw on the satellite scanners that all of the Beagle Boys were coming towards us.

Me: They're on their way here guys. We got a fight on our hands. Time for action!

Sunstreaker: Those dumbasses won't know what hit em!

Scrooge: Lets get those clods!

We went out to face them.

---

We were outside and we saw a helicopter heading right at us. It was being piloted by Ma Beagle.

Big Time: (Evil Laughter) Your fortune will be all ours McDuck!

Me: Not if we have anything to say about it dog breath.

I fired an energy blast at the helicopter and it hit it and it exploded.

KRABBBOOOOOOOMMMM!

The Beagle Boys fell to the ground and they were burned in places. They stood up and saw a salesman stand?

Swindle (disguised as a salesman to bait the Beagle Boys): Free jawbreakers! Get your free jawbreakers here!

Big Time: Free Jawbreakers? Oh boy!

They went at the stand and they grabbed the jawbreakers and then they saw that the Jawbreakers had fuses in them? They were bombs!

The Jawbreaker bombs exploded in their faces!

KRAAAABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosions blew them back.

Big Time: Team Loud Phoenix Storm!? Scrooge is now working with you!?

Me: No you flea bag. He came to us for our protection. As long as there are bad guys out to ruin him, we won't let them get to his fortune! And now its time for us to send you all back to prison where you belong!

Big Time: We'll bust out like we did before!

Me: Not this time!

Nico (to the Beagle Boys): Before we fight, you can finish those jawbreakers. You should at least get to eat a last meal.

Bonaparte: Thank you.

They ate real jawbreakers.

Nico: Beagle Boys, you all have failed this world!

Bankjob: We're gonna rip you apart in a bunch of pieces and then we're gonna take those pieces and rip them apart into even more pieces.

Me: I've heard that one before. Lets get them!

We all went at them and it was a vicious and brutal fight. We all punched and kicked all the Beagle Boys at a ferocious and vicious level.

POW! BIFF! CRACK! BLAM! BAM! KROW! SMASH! THWACK BLAM SMASH ZONK CRACK! BANG BOOF! ZONK SLAM KATOW! (Think of how Ashi slaughtered an entire army all by herself in Samurai Jack)

It was an extremely savage and merciless onslaught. Faces were being broken, blood was splattering all over the place, teeth were flying and bones were being broken. One by one we pulverized and mercilessly thrashed all of the Beagle Boys and took them down until it was only Ma Beagle that was standing. Her sons were all knocked out and half of them were sent into the Null Void and the rest were sent to the Uranus Prison.

Me: Now it's just you and us Ma Beagle.

Ma Beagle was petrified with fear. She got a powerful glimpse of how we mercilessly took down her whole gang and how we brought them to their knees without so much as breaking a sweat.

We went at her and I punched her in the face and knocked out some of her teeth. Nico punched her in the stomach, Vince kicked her in the back of her head and Carol fired a powerful blast of Gravity Lightning and it hit her and exploded.

Lori: You literally give all loving mothers everywhere a really bad name!

Lori punched Ma Beagle in the face and she then had her butt right in her face.

Lori: FIRE IN THE HOLE!

Lori farted in Ma Beagle's face at point blank range.

KRAAAAFFFFAAAAAAAAAAAAAAAAAAAAAAAAAAARRRRRRRRTTTTTTTT

Ma Beagle was coughing and vomiting her guts out. Lori's farts smelled so horrible that they nearly killed Ma.

Me: Lori's farts would definitely be called a Weapon of Mass Destruction.

Luan: Or in this case a Weapon of Ass Destruction. (Laughs to rimshot)

We all laughed at Luan's funny joke.

Me: (Laughs) That was so funny! But her farts would be banned by the Geneva Convention Bio-Chemical Weapon Protocol of 1925.

We laugh hysterically.

Eddy: (LAUGHS HYSTERICALLY) That was so funny and hilarious! (LAUGHS) Call a doctor! (Laughs)

Lori: That was literally amusing. But it would be true.

Leni punched Ma with devastating force in the face. Luna and Sam fired blasts of fire and water and they burned and soaked her. Luan threw an El Mongo Stink Bomb and it splattered into her face and exploded.

KRRRAAAAAAAAFFFFAAAAAAAAAAAAAAAAAAAAAAAAAAAAARRRRR

The stench from the El Mongo Stink Bomb made Ma Beagle smell worse than Ed's feet.

Me: Ugh! Geez Ed!

Ed: Something smells good.

Eddy: Shut up Ed.

Me: Hey Ma Beagle. You want to hear the most horrifying sound ever?

Ma: What is it?

I put on earmuffs and press the palm of my right hand and my nails turned into razor sharp claws and I rolled in a blackboard.

Lori: Uh oh! Cover your ears everyone!

Everyone did so.

I scratched the chalkboard and it made the most horrifying most raucous sound ever known to man.

SSSSSCCCCCRRRRRAAAAAAAAAAAAAAAAAAAAAAAAAAATTTTT

Ma Beagle screamed in excruciating pain as her eardrums were bleeding.

Syd punched Ma Beagle and then she did a Tiger Roar and the gang of cats that normally attack the Casagrande's on a daily basis appeared and mauled Ma Beagle at a ferocious level.

Ronnie Anne: Syd that was so awesome! I didn't know you could do Tiger Roars.

Syd: When you know a lot about animals you know how to do their calls.

Me: That's awesome Syd.

Nazz: Here's a sound that will ruin her.

Nazz took a deep breath and she started yodeling.

Nazz: (Yodeling) YODELAY YODELAY YODELAYI YODELAY YODELAY YODELAYI YODELAII!

Nazz's yodeling made Ed crack and he shattered. It also made some of the windows shatter into a thousand pieces.

Me: Nice lungs Nazz.

Kevin: I said the exact same thing man.

Me: Funny. Lets finish her with our combos and final smashes!

Mewtwo: I'm going to enjoy this! ANIMATRON CYBER KEY

POWER!

The Animatron Cyber Planet Key went into his device and it enhanced his powers and psychic abilities.

Swindle: Lets steal all their money! CYBER KEY POWER!

The Earth Cyber Planet Key Went into his Gyro Gun and he was in his FMC XR311 mode.

Mewtwo and Swindle: RAPID FIRE PSYCHICSTORM!

Mewtwo fired numerous psychic energy balls and Swindle fired his gyro gun. They hit Ma Beagle and exploded all over the place with incredible power.

Goofy: Lets get him! GIGANTION CYBER KEY POWER! Ahyuck!

The Gigantion Cyber Planet Key went into Goofy's Device and it grew his shield to as big as a car.

Sunstreaker: Showtime! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his electron blaster.

Goofy and Sunstreaker: ELECTRON GRIND SLAM!

Goofy and Sunstreaker were sliding on Goofy's shield like a sled disk and Sunstreaker fired numerous blasts from his Electron Blaster and they hit Ma Beagle as they sled toward her at a phenomenal speed and they slammed into her with incredible power.

CRAAASSSSHHHH!

Sarah (EENE): Lets get these stupid freaks! MAMMOTH MOUTH CHOMP!

Sarah went at Ma Beagle and she opened her huge mouth and bit Ma Beagle in her stomach with incredible force.

KRACHOMP!

Ma Beagle: AAAAAAAAAAAAAAAHHHH!

Donald: This is for stealing from my Uncle! ANGRY SLAMSTORM SURPRISE!

Donald Duck then went at Ma Beagle and he was viciously pulverizing her with numerous objects: Safes, Anvils, bottles, refrigerators, pots, pans, etc., etc.

Me: Geez! He's hitting her with everything but the kitchen sink!

Luan: That gag is way too corny.

Me: Well Donald Duck was created back in 1934. That phrase was made during World War II.

Luan: I didn't know that. Ma Beagle couldn't Sink so low! (Laughs) Get it?

Me: (laughs) That was a good one Luan.

Donald: Now for the Grand Finale!

Huey: Let us help Uncle Donald.

Webby: Me too!

Donald: Lets get her!

Donald had a powerful ball of energy and elemental magic ready! Huey, Dewey, Louie and Webby had balls of fire, water, wind and earth energy ready.

Donald, Huey, Dewey, Louie and Webby: MCDUCK ELEMENTAL FIRESTORM FORCE!

They fired their blasts and the blasts converged and fired as a deadly laser and it slammed into Ma Beagle and exploded with incredible power.

KRRRAAAAAAAAAAAAAAAAAAAAAABBBOOOOOOOOOOOOOOOO

Ma Beagle was beaten and defeated.

Me: It's over Ma Beagle. It's time for you to go away forever.

I sent Ma Beagle into the Venus Prison for all eternity. The Beagle Boys were done forever. During the battle Nico caught a Rampardos and a Shieldon. And Rhino caught a Rhyhorn.

Donald Duck: (To the Viewers) Never mess with the McDuck Clan or you will be asking for trouble.

We went back into the estate. But unfortunately Maria got some bad news from Carly Beth.

Maria: WHHHHAAAAAAAAAAAAAAAATTTTT!? Are you fucking kidding me right now? Chuck and Steve are on the run?!

Carly Beth: When I find those two I will break their fucking necks!

Me: Now calm down Carly Beth. The FBI will handle this and so will my friend John Walsh.

Nico: The host of America's Most Wanted?

Me: Yep. I brought some of America's most wanted and most dangerous criminals in for him and the FBI.

Lincoln: So that's how the FBI know's you after we brought in Cain Torres.

Me: Yep. But we will find them and bring them in. They can run but they can't hide.

My eyes glowed red with righteous fury.

Scrooge McDuck was now under our protection and the hunt for Chuck Greene and Steve Boswell was on.

THE END

---

Another Fanfiction Complete

The Beagle Boys on DuckTales were one of the most notorious gangs of villains made by Disney in 1987. They were both funny and stupid. But like all bad guys, they get what's coming to them in the end. I made this chapter include elements of the episode of Ed Edd N Eddy Ed… Pass It On and the scene from Samurai Jack where Ashi slaughtered an entire army of bad guys all by herself. That was an epic scene! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Sociopathic Imaginary Friend

It starts at the zoo. Me, Nico, Lincoln, Laney, Lana, Ronnie Anne and Syd were helping Syd's mom Becca with some construction on the new exhibit.

Becca: Thanks for helping me build the new exhibit guys. We're building an exhibit for new birds.

Me: It was our pleasure Becca. Syd has been showing us all kinds of animals and she is amazing at it.

Syd: Thanks J.D. We're putting in a condor exhibit.

Me: Oh wow! I love Andean Condors.

Nico: Me too dude.

Lincoln: Those birds are so awesome!

Laney: They sure are. We saw those birds when we were in Argentina on our Worldwide Adventure.

Me: I'll never forget seeing those bird. They were so cool!

Ronnie Anne: They sure were. They are the largest birds in the world.

Lana: Oh yeah. They are awesome birds.

Me: They sure are.

I was wearing my Jurassic Park Vest.

Becca: I didn't know you went to Jurassic Park.

Me: We did more than just go there Becca. We actually help endorse the park and it's a huge success. Kids all over the world have been wanting to see real dinosaurs from millions of years ago.

Becca: I was really shocked to see that they brought all the dinosaurs back to life.

Me: We all were Becca. But it was so awesome.

Nico: I saw Jurassic Park with my family and it was so awesome!

Lana: It sure was.

Laney: That was an extremely unforgettable experience. We saw all the dinosaurs brought back to life after 65 million years of being extinct.

Ronnie Anne: Oh yeah. It was so awesome.

Syd: It was awesome! I had my mind completely blown!

Me: We all had our minds blown Syd.

We got to work on the exhibit. It was a habitat for Andean Condors. We got in two Andean Condors from South America, Mica and Norm. They were big birds. We made the habitat of the condors look like their home in South America. It was down to the last detail.

---

Later back at the Estate, we were watching a brand new show recommended by Ronnie Anne. It was called Adios, Ana, Adios. It was a Mexican show about a young orphan girl named Ana Ronalda and she can kick major butt! We saw her break out of her rope bindings with brute strength and she kicked her captors butts.

Lola: Wow! She can sure kick butt!

Sally: That's for sure!

Me: Boy Ronnie Anne this show is awesome!

Ronnie Anne: It sure is. My relatives got me hooked on it.

Nico: Boy she sure knows how to kick some major butt.

Me: She sure does.

Lori: I literally love how they style her hair.

Me: Her hairstyle in this episode reminds me of Princess Leia's from Star Wars IV.

Lola: It sure does.

Syd: This show is so awesome!

Me: It sure is. Hey Jen did you ever Hulk out on the Beach?

Jen: That is something I don't like too talk about.

---

Jen: (Narrating) I was relaxing on the beach. I had a black bikini on. Suddenly I started reverting back to human.

Jen started reverting back. Her skin turned back and then her hair turned back to black and she lost all her muscle mass and then she saw this.

Jen: I was back to normal and I was shocked. But I changed back to She-Hulk.

Jen turned back into She-Hulk and got her green skin, green eyes, muscle mass and her long dark green hair.

FLASHBACK ENDS

Jen: I don't know what caused that to happen.

Carly Beth came in with Chazz.

Chazz: Carly Beth you have to at least help us somehow.

Carly Beth: Look, Chazz. My mind's all mind up. I'm not helping to look for Chuck and Steve.

Chazz: I get that Chuck and Steve picked on you. Believe me, I used to be in their shoes before. But them running away isn't a good idea. And I should know.

Carly Beth: That doesn't really convince me.

Chazz: Fine. But don't you want to be there at the trial when they get their just desserts?

Carly Beth: When I testify against them at their trial, but that's it!

Chazz: Fine with me.

Me: C.B. I'm sorry Chuck and Steve got away, but I promise we will catch them and bring them to justice. They will pay for their crimes.

Carly Beth: Good.

Brawl: So, there's been no sign of of those dirtbags, Chuck and Steve, so far?

Prowl: Not a trace. We even had the Aerialbots and Flash search for them.

Carly Beth: Hey, I don't blame them. I wouldn't want to show my face too if I had done the things Chuck and Steve did.

Sora: Look, Chuck and Steve did pick on you. No argument there. But don't you think we should at least look for them a few more times? They could get seriously hurt out there.

Carly Beth: So what? As far as I'm concerned, Chuck and Steve deserve to be kicked out of society forever!

Beekeeper: But we still have to find them so they can stand trial. Granted, they'll be found guilty anyway. But it's best to have them there for a better outcome.

Carly Beth: You know what? You guys can go search for them if you want. I want nothing to do with Chuck and Steve anymore! (leaves the room)

Me: Boy she really despises their guts. Then again I would hate someone like Chuck and Steve if they did all that horrible stuff to me.

Nico: Me too. Chuck Greene and Steve Boswell have failed as human beings and citizens of society.

Me: They sure have buddy.

Vince: What Chuck and Steve did to Carly Beth is extremely low.

Me: You'll get no argument from me partner.

Carla: You said it J.D.

Evelyn: Those freaks are monsters!

Me: You said it Evelyn.

The doorbell rang.

Luna: I'll get that dudes.

Luna went and got the door and she answered it. It was Mac and Bloo.

Mac: Hey Luna.

Luna: Hey Mac. How's it hangin' little dude?

Mac: It's all good Luna. Me and Bloo decided to visit you guys.

Luna: Come on in.

They did and we saw them.

Me: Hey Mac.

Mac: Hey J.D.

Lucy: Hey Mac.

Mac: Hey Lucy. How have you been?

Lucy: Been doing good Mac. Darkness still flows through me but I've been doing good.

I was looking into Bloo's eyes and I saw something troubling him.

Me: Bloo is there something wrong? I can see that there's something wrong in your eyes.

Lola: How do you know that J.D.?

Mac: He's knows that old saying "The Eyes are the Window Into the Soul" and he knows something is wrong. But yeah Bloo, what's wrong?

Bloo: (Sighs) It's that freak Bendy.

Me: Bendy? Who's he?

Mac: He's an imaginary friend in Foster's. Bloo thinks he's nothing but trouble.

Bendy may have just been misunderstood and because of that may have become the mean trickster he is. But his actions got worse over time and he fakely complimented Frankie and Herriman only to talk bad about them behind their back. Bendy may actually be evil though since his grin is incredibly sinister and manipulative every time. Also, he never stops what he does, as Bendy is shown getting away with everything he does wrong.

At the beginning of the episode, "Everybody Knows It's Bendy", Bendy's family drops him off because of his supposed antics (i.e. stealing cookies). Frankie and Mr. Herriman assume that Bendy's creator, Gregory, is to blame (as children could sometimes blame imaginary friends when they do something bad). Gregory and his family leave in disgust (but Gregory and Bendy were very sad due to Gregory forcibly abandoning him).

Frankie and Mr. Herriman comfort Bendy and later, Bendy goes into the Arcade Room. Once there, Bloo asked him if he wants to play video games against the winner, but Bendy then pushes a flower and vase (which was an heirloom) off the TV and it breaks. He then runs away for a few seconds until Bendy was called back due to Bloo saying it was him who broke the vase. Bendy was going into fake tears and Mr. Herriman scolds the four of them for blaming

Bendy. While Bendy leaves, the four of them are forced to clean up the mess.

Later, Bendy was later laying on the couch and littering the floor with potato chips and shoved the bag of chips into Edwardo's hand. When Mr. Herriman accused Edwardo, he pointed to Bendy, who fully blamed Edwardo (just like earlier in the Arcade Room). Bendy later uses Wilt's shoes to track mud all over the walls and floor and like Edwardo, the same thing happens to Wilt and he gets in punished by Frankie.

Later, Bendy comes up from underneath the table and steals frosting from the cake with his finger and blames Coco (like earlier). Finally, he writes Bloo's name on the wall and Bloo grabbed the marker and was blamed just like the others. All four of them were confined to the room at all four corners. Later, the four of them placed a baseball and bat near some glass and wait for Bendy to arrive.

When he gets there, he does use the baseball and bat to break the glass, but the four of them still got blamed for it (especially the fact that because of Coco's tongue slipping, the pictures found at the scene taken by Coco show Bloo holding the bat). Later, he hijacks the intercom and insults Mr. Herriman and Frankie before Bloo grabs it from him.

When Bloo got caught, Bendy was initially blamed, but his alibi was he was scrubbing the toilets with a toothbrush, which resulted in Bloo being punished of no more TV, Video games, and paddle-ball until further notice. Bendy then mentions that the toothbrush he is using is, in fact, Bloo's. While he leaves, Bloo and Bendy start laughing as though it was a competition and Bloo was scolded for laughing. But Bloo comes up with an idea to fully expose Bendy by catching him in the act.

Bendy later walks up to a jar of Frankie's cookies and opens the lid. Just as he was chewing the cookie, a rigged camera took his picture. He goes up to the camera and grabs the photo, which is covered on one side with glue. Because he tried to get the glue covered picture off of his hand, he loses balance and makes a noise when he fell, which draws the attention to Frankie and Mr. Herriman.

He tried to draw on the photo with a marker (that was sabotaged) and it explodes ink all over the place and on him. He runs into the restroom to clean the mess off, but the faucet handle broke off and the sink was overflowing. When Mr. Herriman and Frankie demand the perpetrator to come out of the restroom at once, he was using toilet paper to stop the water from coming out. But it was too late because the house flooded and destroyed part of the house.

When Bendy was thought to be fully caught, Bloo tried to explained that Bendy was guilty the whole time and was framing everyone else, but also mentions what he did to fully exposing him (setting up the camera, putting glue on the photo, sabotaged the marker, loosened the faucet handle, clogged up the drain, and backed up the pipe system).

Because of this, Bloo was scolded for flooding the house, but he claimed that Bendy was the one that took the cookie, which Frankie and Mr. Herriman don't care about. When Mac comes to the doorstep, he asked Bloo what did he do. But as Bloo yelled "Bendy did it!," Bendy was using spray paint on the view (breaking the fourth wall), ending the episode.

Bloo: He's nothing but trouble! He gets everyone in trouble and then blames it all on me!

Me: Well do you have any proof?

Bloo: No I don't.

Me: Hmm. Let me see here.

The computer popped out and I hacked into the Security cameras at Foster's and reviewed the footage of the times Bendy was at Foster's.

Bendy is a furry yellow imaginary friend with curly hair on the back of his head, black thick zig-zag stripes, and small bushy eyebrows. Whenever he successfully blames someone else for his evil-doings, he gives them a creepy grin while others are not looking.

Me: So that's Bendy. He looks like an imaginary friend that wouldn't hurt anyone.

Bloo: Yeah but look closer.

The footage continued and it showed Bendy doing all kinds of unspeakable crimes and then blaming Bloo for them!

We gasped in sheer horror!

Me: So it WAS Bendy that did all that!

Mac: Bloo, why didn't you tell me that Bendy framed you guys?

Bloo: Because I didn't want you to worry about it.

Mac: Well, I'm worried now. So there really isn't any difference!

Me: But wait a second. Something here doesn't add up. It's showing that there are 5 more crimes going on at the same time Bendy is doing his crimes.

Mac: That's impossible. Bendy can't be in 6 places at once.

Adult Blossom had a very strong feeling she knew who was with him.

Me: Not unless he has some help. Whoever made Bendy is an absolute idiot. This kid gave birth to a sociopathic monster.

Mac: My thoughts exactly. He's like my brother.

Me: No your brother was a total psychopath.

Sammy: This Bendy character is like my former sister Amy.

Me: Amy had a major superiority complex. But we got to get over there and clear everybody's names. Lets go!

We went to Foster's.

---

We arrived at Foster's and knocked on the door.

Frankie answered the door.

Frankie: Oh hey guys.

Me: Hey Frankie.

We went in and Mr. Herriman came.

Mr. Herriman: (British Accent) Ah Master J.D. welcome.

Me: Hello Mr. Herriman. I'm afraid this isn't a social visit. We have evidence that shows that some imaginary friends are being framed for crimes they didn't commit. And this flash drive I have has all the evidence you'll need.

We showed the evidence to Frankie, Mr. Herriman and Madame Foster.

Frankie: So Bendy was doing all those things!

Maria: Hang on. On the security footage, there are crimes going on at the same time Bendy's doing his own crime. He can't be in 6 places at once.

Me: That's what has us stumped.

Frankie: BENDY YOU GET OVER HERE! NOW!

Bendy did so and he had those sad puppy dog eyes. But Frankie and us saw through his ruse.

Bendy: So, you figured it out, huh?

Blossom: And we know you had help. Isn't that right, Gangreen Gang?

The said bullies came out of the shadows. However, Ace had blue skin while Big Billy looked like a walking rock. Grubber, Snake, and Arturo looked the same.

THE GANGREEN GANG WAS BACK!

Ace

Ace sports a long, straight, greasy, slick-back hairdo, a scraggly mustache, a colored vest-jacket, a pair of shades and even fangs.

When he speaks, he sounds like the typical juvenile delinquent - mean, obnoxious, and disrespectful. He has a nasally Italian New Yorker accent.

As the Gang's smartest member, he is the instigator of most of their antisocial activities, and he does possess a certain charismatic charm that allows him to sweet-talk people who ought to know better, such as Ms. Keane and even Buttercup in the episode Buttercrush. His full name is **Ace D. Copular** .

In "Power Lunch", he had cryokinesis (referencing his coolness), the ability to generate ice and snow, similar to Blossom's ice breath. He is also the best looking one of the gang.

Snake

Snake is the closest friend of Ace and the overall second-in-command of the Gang. He has shoulder length greasy black hair with black lips, pointy nose, skinny body, a kangol hat turned backwards, and a snake-like voice. Ace sometimes punches Snake if Snake says something out of line.

In "Power Lunch" his special ability was stretching long distances and strangling people like a real snake. His real name is **Sandford D. Ingleberry** .

Big Billy

Big Billy is a hulking big fat colossus with a shock of red hair covering the top half of his face, and a single big blue eye who acts as the Gang's muscle. Big Billy's height is 6'11", helping add to his position as the muscle man of his friends. Though he does at times display a childlike innocence, he mostly just does the bidding of his more savvy, ruthless, and vindictive friends. In the episode "School House Rocked", it is revealed that his real name is **William W. Williams** and that he is a Cyclops.

Big Billy loves to eat and will gobble more junk than the rest of the gang. In one episode, he was saved by the Powerpuff Girls and began following them everywhere out of sheer gratitude, but eventually he became more of a hindrance then a help and he returned to the gang, in which they plan on getting revenge on the Powerpuff Girls, even almost killing them. In "Power Lunch", he can transform into a rock, referencing his intelligence.

Lil' Arturo

A malevolent Mexican midget with straight hair swept forward over one eye, Li'l Arturo seems to take the most amusement from the Gang's activities.

He sounds very much like Señor Wences. He carries around a switchblade-styled comb he refers to as his daughter and calls "Maria". He has a rather prominent underbite. His full name is **Arturo De La Guerra**, which is Spanish for "The Art of War", a reference to the work of Chinese philosopher Sun-Tzu. He is the smallest of the Gang. In "Power Lunch", his superpower is super-speed, referencing his energetic personality.

Grubber

Grubber is physically the Gang's most grotesque member - untidy hair, an enormous chin, ragged, grubby clothes, a long tongue hanging out, and protruding eyes, resembling a Ed "Big Daddy" Roth cartoon. He also appears to be mostly mute, communicating instead through blowing a raspberry. However, he does occasionally demonstrate unexpected talents, such as playing the violin, speaking eloquently or performing impersonations (at first, they were so obvious it was a wonder how he fooled anyone, but later he was able to do them perfectly), and appears to be smarter then he looks. His full name is **Grubber J. Gribberish** . In "Power Lunch", he can do loud and supersonic belches, referencing his rebarbative and grotesque nature.

Ace: Can't blame us for having some fun, can you, Powerpuff Girls?

Me: So the Gangreen Gang is back.

Maria: I get it now. You 5 helped Bendy with his crimes, hoping that it would confuse us and make us think Bloo and the others were doing it.

Ace: And we would've been long gone before you all figured it out. We may not have been able to trick you morons. But we're still going to collect our treats!

Me: What treats?

Ace: We're going to now kill you all for killing us!

Me: You guys brought that all on yourselves. All you guys are is a bunch of unprincipled psychotic sociopathic freaks. We killed you because you deserved it. We were not gonna stand by and let you terrorize innocent people.

Bendy: There any lines you all won't cross now?

Chazz: We don't kill kids.

Bendy: Tell that to Chandler and Morbucks!

Me: Chandler and Morbucks were exceptions and the Gangreen Gang are not kids. They are monsters and absolute freaks.

Herriman (to Bendy): I should have never accepted you into this house in the first place!

Mr. Herriman spun around and he was now in a fighter uniform.

Brawl (to Herriman): I thought you don't like violence.

Herriman: When it comes to protecting this house and its inhabitants, I make exceptions.

Me: Lets take this outside. Because we don't want any damage done to the house.

Frankie: Good idea.

We went outside.

We stood ready to face them.

Me: Frankie I want Bendy to watch this. This is what happens when we fight and we fight mercilessly.

Frankie: You got it J.D.

Ace: So what are you all gonna do?

Me: Destroy you like we did before. Also for the record, we're not the same as we were when we beat you the last time.

Ace: I'll have to see that!

Me: Lets get them!

We went at the newly resurrected Gangreen Gang and we clashed with them.

---

Battle 1: BIG ROCKY BILLY!

---

Big Billy: Duh, I've been turned into a rock.

Edzilla: ED WILL SMASH YOU!

Leni used her gravity powers and lifted him high above the ground!

Leni: You guys totes make me sick!

Leni slammed Big Billy into the ground and it shattered him into smaller pieces.

Edzilla (punches Big Billy): ED SMASH PUNKY ROCK!

Leni and Edzilla both mercilessly pulverized Rock Big Billy into pebbles and killed him in an instant.

Big Billy went into the River of Fire.

Leni: That takes care of that tubby freak.

Ed: You said it Leni.

---

Battle 2: LOUD GRUBBER

---

Lori, Black Canary, Luna and Bubbles young and adult were facing Grubber. He had extremely loud Sonic Burps. He released an incredibly loud sonic burp that had red sonic waves and they were loud enough to shatter eardrums and windows. Lori then surprised everyone by screaming and then she released a massive hypersonic scream that was so powerful that it overpowered Grubber's and it blew him into an electric transformer and electrocuted him.

Grubber was burned.

Black Canary: I didn't know you had a sonic scream like me Lori.

Lori: I just literally discovered that I had this power. It's awesome!

Luna: Here he comes dudes!

Bubbles (Adult): Lets show him a deadly hypersonic scream combo.

Black Canary: This is gonna be awesome!

Grubber took a deep breath and he let out a powerful sonic burp and Black Canary, Lori, Luna and both Bubbles released a combined hypersonic scream.

AAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAHHHHH

The Scream was so loud and so powerful that it not only overpowered Grubber's sonic burp but it hit him and he exploded all over the place into a million bloody pieces. Killing him instantly. They saw Grubber's Spirit get sucked into the River of Fire.

Nicole: So long you stupid dummy!

Lori: I don't understand Nicole. How come all the villains get sent into the River of Fire and not back into the Book of Vile Darkness?

Nicole: It's called the Curse of The Book of Vile Darkness. Any villain that we killed and imprisoned in the Book of Vile Darkness that gets brought back to life and is killed again by us gets sent into the River of Fire for all eternity where their existence will be forever erased.

Luna: That is a perfect place for them dude. I hate the Gangreen gang.

Black Canary: Me too. They give all humans everywhere a really bad name.

Bubbles (Adult): Agreed.

Lori: It literally fits them perfectly.

Luna: It sure does dude.

## Battle 3: FAST ARTERO

Luan, Eddy and Flash were facing Little Artero and he had superspeed. He could now run faster than a bullet fired from a gun.

Luan: You are a fast one. They should write you a major speeding ticket for speeding and not having a license to run on the road.

Artero: Very funny.

Flash ran fast and got behind Artero.

Flash: You're just a sad little freak that can't outrun the fastest man alive.

Flash punched Little Artero in the face and Luan and Eddy fired a massive blast of light and completely obliterated Artero in an instant.

His spirit went into the River of Fire.

Luan: Artero might have been fast, but nothing is faster than light.

Eddy: You said it my angel of Comedy.

Flash: No one insults my image.

## Battle 4: STRETCHY SNAKE

Nico, Sora, Prowl, Brawl and Beekeeper were facing Snake. Snake got Super Elasticity and he can stretch himself all over the place.

Nico: Hey Snake, how about we Tie this one up?

Nico went at Snake and he grabbed him and tied him up into a pretzel knot.

Nico: Now you are a human pretzel with no salt or cheese. Lets finish this clod with our combos.

Brawl: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into Brawl's sonic cannon and it enhanced it 100-fold.

Beekeeper: Time to deliver the sting! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into the Beekeeper's Right Arm device and it had his bees gain super stingers that are capable of poisoning people with poison that packs the potency of Poison Dark Frog Venom.

Brawl and Beekeeper: SUPERSONIC VENOM DEATHSTRIKE!

Brawl fired his sonic blaster and Beekeeper sent a powerful swarm of bees at Snake and the sonic blast confused him and the bees all stung him all over the place. Snake was gagging, coughing and violently convulsing.

Prowl: Lets get him Sora! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his acid pellet gun.

Sora: GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Sora's Right Arm device and it turned his Keyblade into a key of pure light.

Sora and Prowl: ACIDIC STRIKE RAID FORCE!

Prowl fired acid pellets and Sora threw his keyblade and it spun rapidly like a sawblade and the acid pellets merges with the keyblade and it hit Snake and was burning him alive.

Nico: Now it's time to finish you Snake! You have failed this world. FIRE WAVE! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Nico's left arm device. Nice fired a massive blast of fire and it hit Snake and completely incinerated him in an instant. Snake's spirit went into the River of Fire.

---

## Battle 5: CRYO ACE

---

Me and Ace were facing each other. This was a battle between two of the most powerful forces in the universe: Fire VS Ice. One of the oldest battles in the universe thats been around since the beginning of time.

Ace fired a blast of ice at me and I fired a blast of fire at the ice and melted it.

Me: You know Ace, this is a battle that's been around ever since the beginning of time: Fire VS Ice. For 13.6 billion years Ice and Fire have been clashing ever since.

Ace: That's interesting and Ice will win!

Ace fired a powerful blast of ice and I fired a massive blast of fire and our blasts collided and turned into a massive cloud of steam.

Me: This is getting us nowhere. Final Smash time!

Mr. Herriman: You got it Master J.D. BUNNY SLAM KICKSTORM!

Mr. Herriman dashed and kicked Ace all over the place with a furious barrage of kicks and they were so powerful that they were dealing a tremendous amount of damage.

Coco: Coco! COCOCOCOCO! (Translation: EGG BOMB FIRESTORM!)

Coco fired a massive barrage of easter eggs and they opened and hit Ace in his face and exploded.

KRAAAABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Time for fire to destroy you once and for all Ace!

I fired a massive blast of fire at Ace and it enveloped him and completely incinerated him into dust and ash. His evil spirit went into the River of Fire.

Nico: Gangreen Gang you all have failed this world!

Me: And this universe.

Now we went and dealt with Bendy. During the battle Nico caught a Mothim and a Vespiquen.

Mr. Herriman: (To the Viewers) Never mess with Team Loud Phoenix Storm or you are seriously asking for it.

I picked up Bendy and had him look me in the eyes.

Me: You are in a lot of trouble. I don't know what your creator was thinking making you. But he is a very bad kid.

We condemned Bendy to the Jupiter Prison for Imaginary Fiends where he will stay for all eternity.

THE END

---

Another Fanfiction Complete

I hated Bendy's guts with a vengeance on Foster's Home for Imaginary Friends. He was a sociopathic freak of nature! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Friends Possessed By Vikings

It starts at a very prominent business building. Two very important people were in an office in their easy chairs. Those people were Slade and Jagger Princeton, the two older brothers of Chazz Princeton.

Slade and Jagger were sitting in their easy chairs in their home office watching a mindless reality show when who should appear but their estranged brother, Chazz.

Chazz: Hello, everyone. My name is Chazz Princeton, and I'm the youngest brother of Slade Princeton. He has told you he is a great American, a great leader and a great family man. But I ask you… would a great family man do what he has done to me?

Evil music played, and a montage of a younger Chazz with bruises on his face from being slapped, Chazz being kicked around, Chazz being yelled at when he didn't do well in duels or in his studies and then finally Slade blowing up at his brother at Duel Academy and dueling the boy in order to tear down the school.

Chazz: My brother has disowned me, mistreated me and attempted to take away the educational opportunities for hundreds of children in an attempt to damage me and anyone who gets in his way. He is a political opportunist and doesn't really care about the United States. And there is further evidence of that…

Chazz then showed a picture of Slade burning an American flag, and it was clear he wasn't disposing of a worn, damaged flag at a Boy Scout jamboree.

Chazz: Ladies and gentlemen, do you really want to elect a candidate who mistreats family and denigrates our national symbol? I am Chazz Princeton, and I approve this message."

Slade and Jagger sat slack-jawed for about three minutes after the ad aired. Then Slade looked at his brother in horror.

Slade: If enough people have watched this, we're doomed…

Jagger: Can't we spin this? Make it a media conspiracy? Come on, Slade, there's got to be a way to make this go away!

Then Slade said something about his baby brother that is not fit to repeat.

Slade and Jagger were completely enraged. The Phone rang.

Slade: I'll get that (answers phone) Hello?

Chazz (unable to hide his smirk): Hello, Slade. How's the election going?

Slade (pissed off): When I get a hold of you..!

Chazz (laughing): You'll do what? Give me more ammo for next time? Maybe you'll think twice about how you treat people, or I'll bet I can find more of m friends who'll give me the goods on you. You go bye-bye, Slade… (hangs up)

But then as luck would have it an FBI SWAT Team bursted into the house and they raided the house and found them in the office.

Officer: DOWN ON THE GROUND NOW!

They slapped the cuffs on them. Slade and Jagger Princeton were arrested for abuse, fraud, assault and battery, attempted murder and high treason.

* * *

At the estate we were watching the news.

News Reporter: Earlier this morning, presidential candidates Slade Princeton and his brother Jagger were arrested for numerous crimes against the entirety of the United States.

Me: Well it serves your douchebag brothers right Chazz.

Nico: I'll say.

Alexis: Yeah those jerks have had this coming for a longer time.

Jaden: Yep.

Nico: Slade and Jagger Princeton you have failed this country.

We laughed.

Lola: But those clods got what was coming to them and they deserve to spend every second in prison.

Lisa: Affirmative elder sibling.

Chazz: Yep. Thanks for helping me bring my brothers to justice J.D.

Me: Anytime Chazz. That's what friends do and what your brothers did was completely unforgivable.

Chazz: I know. Those clods are not my brothers anymore. As far as I know my brothers are dead to me.

Sasuke: At least it's not like that with me and my brother. I thought I hated my brothers guts because I thought he killed all my clan in cold blood.

Me: But that was because of the corruption of the council.

Laney: Your brothers were monsters Chazz. If I was in your shoes, I would've disowned them right away after I found out their true nature.

Chazz: Yeah. Good point Laney.

June: I'm glad they got what they deserved.

Me: Me too June. Hey June, what was the strangest adventure you've had in Orchid Bay?

June: That is an easy one. It was where my friends were all possessed by the Vikings of The Kragnarok Clan.

Me: (Gasp) The Kragnarok's? I know that accursed clan all too well.

Lori: How do you know them J.D.?

Me: (Eyes glowed red) My ancestor is the one that killed them and cursed them by sealing their spirits into the Medallion of Takar.

June: I didn't know that J.D.!

Lincoln: Who's your ancestor that sealed them?

Me: He's the most famous viking in the world that explored much of North America: Leif Erikson.

Laney: I know Leif Erikson. He lived back 1,000 years ago and he discovered much of North America before Christopher Columbus discovered it.

Me: That's right. It was back 1,000 years ago.

Leif Erikson or Leif Ericson (c. 970 - c. 1020) was a Norse explorer from Iceland. He was the first known European to have set foot on continental North America (excluding Greenland), before Christopher Columbus. According to the Sagas of Icelanders, he established a Norse settlement at Vinland, tentatively identified with the Norse L'Anse aux Meadows on the northern tip of Newfoundland in modern-day Canada. Later archaeological evidence suggests that Vinland may have been the areas around the Gulf of St. Lawrence and that the L'Anse aux Meadows site was a ship repair station.

Leif was the son of Erik the Red, the founder of the first Norse settlement in Greenland and of Thjodhild (Þjóðhildur), both of Norwegian origin. His place of birth is not known, but he is assumed to have been born in Iceland, which had recently been colonized by Norsemen mainly from Norway. He grew up in the family estate Brattahlíð in the Eastern Settlement in Greenland. Leif had two known sons: Thorgils, born to noblewoman Thorgunna in the Hebrides; and Thorkell, who succeeded him as chieftain of the Greenland settlement.

## Early life

Leif was the son of Erik the Red and his wife Thjodhild, and the grandson of Thorvaldr Ásvaldsson, and distant relative of Naddodd, who discovered Iceland. He was a Viking in the early days. His year of birth is most often given as c. 970 or c. 980. Though Leif's birthplace is not accounted for in the sagas, it is likely he was born in Iceland, where his parents met-probably somewhere on the edge of Breiðafjörður, and possibly at the farm Haukadal where Thjóðhild's family is said to have been based. Leif had two brothers, whose names were Thorsteinn and Thorvaldr, and a sister, Freydís.

Thorvald Asvaldsson was banished from Norway for manslaughter and went into exile in Iceland accompanied by young Erik. When Erik was himself banished from Iceland, he travelled further west to an area he named Greenland, where he established the first permanent settlement in 986. Tyrker, one of Erik's thralls, had been specially trusted to keep in charge of Erik's children, as Leif later referred to him as his "foster father".

## Discovering Vinland

Leif and his crew travelled from Greenland to Norway in 999 AD. Blown off course to the Hebrides and staying for much of the summer, he arrived in Norway and became a hirdman of King Olaf Tryggvason. He also converted to Christianity and was given the mission of introducing the religion to Greenland. The Saga of Erik the Red and the Saga of the Greenlanders, both thought to have been written around 1200, contain different accounts of the voyages to Vinland. The only two known strictly historical mentions of Vinland are found in the work of Adam of Bremen c. 1075 and in the Book of Icelanders compiled c. 1122 by Ari the Wise. According to the Saga of Erik the Red, Leif apparently saw Vinland for the first time after being blown off course on his way to introduce Christianity to Greenland.

According to a literal interpretation of Einar Haugen's translation of the two sagas in the book Voyages to Vinland, Leif was not the first European to discover America: he had heard the story of merchant Bjarni Herjólfsson who claimed to have sighted land to the west of Greenland after having been blown off course. Bjarni reportedly never made landfall there, however. Later, when travelling from Norway to Greenland, Leif was also blown off course, to a land that he did not expect to see, where he found "self-sown wheat fields and grapevines". He next rescued two men who were shipwrecked in this country and went back to Greenland (and Christianised the people there). Consequently, if this is to be trusted, Bjarni Herjólfsson was the first European to see America beyond Greenland, and the two unnamed shipwrecked men were the first people known to Europeans to have made landfall there.

Leif then approached Bjarni, purchased his ship, gathered a crew of thirty-five men, and mounted an expedition towards the land Bjarni had described. His father Erik was set to join him but dropped out after he fell from his horse on his way to set sail, an incident he interpreted as a bad omen. Leif followed Bjarni's route in reverse and landed first in a rocky and desolate place he named Helluland (Flat-Rock Land; possibly Baffin Island). After venturing further by sea, he landed the second time in a forested place he named Markland (Forest Land; possibly Labrador). Finally, after two more days at sea, he landed in a verdant area with a mild climate and plentiful supplies of salmon. As winter approached, he decided to encamp there and broke his party into two groups - one to remain at camp and the other to explore the country. During one of these explorations, Tyrker discovered that the land was full of vines and grapes. Leif therefore named the land Vinland. There, he and his crew built a small settlement, which was called Leifsbudir (Leif's Booths) by later visitors from Greenland. After having wintered over in Vinland, Leif returned to Greenland in the spring with a cargo of grapes and timber. On the return voyage, he rescued an Icelandic castaway and his crew, earning him the nickname "Leif the Lucky".

Research done in the early 1960s by Norwegian explorer Helge Ingstad and his wife, archaeologist Anne Stine Ingstad, identified a Norse site located at the northern tip of Newfoundland. It has been suggested that this site, known as L'Anse aux Meadows, is Leifsbúðir. The Ingstads demonstrated that Norsemen had reached America about 500 years before Christopher Columbus. Later archaeological evidence suggests that Vinland may have been the areas around the Gulf of St. Lawrence and that the L'Anse aux Meadows site was a ship repair station and waypoint for voyages there. That does not necessarily contradict the identification of L'Anse aux Meadows with Leifsbúðir since the two sagas appear to describe Vinland as a wider region which included several settlements. The Saga of Erik the Red mentions two other settlements in Vinland: a settlement called Straumfjǫrðr, which lay beyond Kjalarnes promontory and the Wonderstrands, and one called Hóp, which was located even farther south.

## Personal life

Leif was described as a wise, considerate, and strong man of striking appearance. During his stay in the Hebrides, he fell in love with a noblewoman, Thorgunna, who gave birth to their son Thorgils. Thorgils was later sent to Leif in Greenland, but he did not become popular.

After Leif's first trip to Vinland, he returned to the family estate of Brattahlíð in Greenland, and started preaching Christianity to the Greenlanders. His father Erik reacted coldly to the suggestion that he should abandon his religion, while his mother Thjóðhildr quickly became a Christian and built a church called Thjóðhild's Church. Leif is last mentioned alive in 1019, and by 1025 he had passed on his chieftaincy of Eiríksfjǫrðr to another son, Thorkell. Nothing is mentioned about his death in the sagas-he probably died in Greenland some time between these dates. Nothing further is known about his family beyond the succession of Thorkell as chieftain.

## Legacy

Leif's successful expedition in Vinland encouraged other Norsemen to also make the journey. The first apparent contact between the Norse and the indigenous people, who the Norse later referred to as skrælingjar, was made by his brother Thorvald, and resulted in hostilities and killing. In the end there were no permanent Norse settlements in Vinland, although sporadic voyages at least to Markland for forages, timber and trade possibly lasted for centuries. The casual tone of references to these areas may suggest that their discovery was not seen as particularly significant by contemporaries, or that it was assumed to be public knowledge, or both. Knowledge of the Vinland journeys might have spread around medieval Europe, as writers such as Adam of Bremen made mention of remote lands to the west. It has been suggested that the knowledge of Vinland might have been maintained in European seaports in the 15th century, and that Christopher Columbus, who claimed in a letter to have visited Iceland in 1477, could have heard stories of it.

Stories of Leif's journey to North America had a profound effect on the identity and self-perception of later Nordic Americans and Nordic immigrants to the United States. The first statue of Leif (by Anne Whitney) was erected in Boston in 1887 at the instigation of Eben Norton Horsford, who was among those who believed that Vinland could have been located on the Charles River or Cape Cod; not long after, another casting of Whitney's statue was erected in Milwaukee. A statue was also erected in Chicago in 1901, having been originally commissioned for the 1893 World's Columbian Exposition to coincide with the arrival of the reconstructed Viking ship from Bergen, Norway. Another work of art made for the 1893 World's Columbian Exposition, the painting Leiv Eiriksson oppdager Amerika by Christian Krohg, was in the possession of a Leif Erikson Memorial Association in Chicago before being given back to the National Gallery of Norway in 1900.

For the centenary of the first official immigration of Norwegians to America, President Calvin Coolidge stated at the 1925 Minnesota State Fair, to a crowd of 100,000 people, that Leif had indeed been the first European to discover statues of him were erected at the Minnesota State Capitol in St. Paul in 1949, near Lake Superior in Duluth in 1956, and in downtown Seattle.

The Sagas do not give the exact date of Leif Erikson's landfall in America, they only state that it was in the fall of the year. At the suggestion of Christian A. Hoen, Edgerton, Wis., 9 October was settled upon, as that already was a historic date for Norwegians in America, the ship Restaurationen coming from Stavanger, arrived in New York Harbor on 9 October 1825with its first organized party of Norwegian immigrants.

In 1929, the Wisconsin Legislature passed a bill to make 9 October "Leif Erikson Day" in the state; the bill was signed by Governor Walter J. Kohler, Sr. that May. In 1964 the United States Congress authorized and requested the president to proclaim 9 October of each year as "Leif Erikson Day".

Me: My ancestor was one of the greatest explorers that ever lived.

Lily: Wow. That's amazing. Mr. SquarePants told me that he invented a holiday called Leif Erikson Day. But he didn't have anyone to celebrate it with so he made Bubble Buddy as a result.

Me: That's cool Lily.

June: Yeah Roger found the Medallion and the spirits of the vikings from the Kragnarok Clan possessed my friends. Including Ophelia.

Ophelia: I don't remember what happened after that. But all I do remember is that we were singing for a choir at an old folks home and then all of a sudden everything went black. But I was not in control of my body.

Me: That's the curse of the Kragnarok's. Leif Erikson broke the medallion in half and scattered it.

June: I'm worried about all my friends though.

Ophelia: Think it's time we visited Orchrd Bay to tell our friends that we're alright.

G1 Mirage: I don't know. I have a feeling that something bad's waiting for us there.

June: C'mon, Mirage. What could possibly have happened while me and Ophelia were gone?

Me: Well we're not taking any chances. Lets fly!

We set out for Orchid Bay.

---

Orchid Bay, Michigan

---

We arrived in Orchid Bay, Michigan only to find that most of the city was completely destroyed and burning on fire. It was a horrifying and terrible sight.

Me: My God, what the hell happened here?

Lincoln: This is a nightmare.

June: This is terrible!

G1 Mirage: What in the world caused all this?

Nico: I don't know. But this is not good.

Sasuke: These are all not random acts of destruction. These were all caused by acts of brutal savagery.

June: How do you know all that Sasuke?

Sasuke: My clan has a way of knowing what took place during a battle.

Me: Looks like these cars were hacked to pieces by axes and swords and smashed with war clubs. Very similar to how the vikings did centuries ago.

June: How is that possible?

Me: I don't know.

Brittney: Something supernatural is behind all this.

Laney: Yeah. I feel it too.

June: But where is everyone?

Dennis (sees us): June? You and the others can cone out now. I'm ok.

A bunch of people came out.

Then we saw a girl with blond hair in pigtails.

June: Jodie! Thank goodness you're all right.

Ophelia (to Jodi, who had her back turned to them): Jodi, about why I left…

June: Jodi, I know that you found out about my secret. I'm very sorry. I never meant to keep this from you. I just hope you can forgive me.

Jodi (normal voice): Oh, don't worry, June…

She turns around to reveal that she's possessed.

Possessed Jodi: Your secret's safe with me!

Me: That's not Jodi talking! Who are you and what have you done with Jodi!?

Possessed Jodi: The girl you call Jodi is no longer here!

Me: I've heard that one before. Wait a second. I know that voice.

June: I do too. It's the leader of the Kragnarok Viking Clan!

Then we got an even more shocking surprise! We saw 6 Heartless Appear. It was the Heartless of 6 of our most fearsome enemies: Hobgoblin, Captain Cutler's Ghost, Beast Man, The Black Knight Ghost, Tri Klops and Teridax appeared! It was a terrible group called The Heartless 6!

Vakama: Teridax!

Beast Boy: Beast-Man!

Me: Tri Klops!

Spiderman: Hobgoblin!

Velma: The Black Knight Ghost and the Ghost of Captain Cutler!

Maria: Looks like the vikings have the help of 6 Heartless versions of our enemies.

## Makuta Teridax

100,000 years ago, Teridax was created by the Great Spirit Mata Nui to serve as part of a Brotherhood, whose job was to develop and alter creatures as needed; the Brotherhood soon also took on the position of protecting Mata Nui's chosen people, the Matoran. Teridax was explicitly put in charge of the city of Metru Nui and its surrounding region by Miserix. In this time, Mata Nui and Teridax were so close that they were considered brothers. In reality, this was because of Teridax's destiny of taking over Mata Nui's body and helping his brother restore the broken planet of Spherus Magna, something Teridax was never aware of.

Eighty thousand years ago, the Brotherhood had discovered through the traitor Takadox that a military alliance called the League of Six Kingdoms was plotting no less than the overthrow of Mata Nui himself. The Brotherhood, allied with Mata Nui's champions, the Toa, and Teridax led a preemptive strike against the League and their leaders, the six warlords titled "Barraki".

All six Barraki were captured, but as Teridax was about to execute them a stranger named Botar appeared. He and Teridax argued over the fate of the Barraki until Botar finally teleported away, taking the Barraki to The Pit with him. Though Teridax would occasionally wonder about the stranger and what he had done with the Barraki, he would more often consider the League's ultimate goal, and concluded that a Barraki was ultimately unworthy to replace the Great Spirit. However, he then began thinking about himself taking over the Matoran Universe and spurred on by this thought of rulership, Teridax (and eventually the rest of the Brotherhood) became jealous of the high regard that the Matoran gave Mata Nui. He began brooding on ways to overthrow Mata Nui and with the information gleaned from Tren Krom by Mutran; he was able to formulate The Plan.

Eventually, Teridax revealed to the other Makuta his plan, which was to put Mata Nui to sleep, intending to take his place in the minds of the Matoran as their saviour. Miserix resisted this, but those Makuta that supported him were killed or fled. After a short brawl, Teridax claimed leadership of the brotherhood and ordered Miserix to be executed, although Krika and Spiriah, the Makuta assigned the task, did not kill him. Krika instead imprisoned him in a volcano on Artidax. Teridax then set his plan into motion. At some point during these events, six Toa were selected to be Teridax's bodyguards. He, of course, was more than capable of defending himself, so having bodyguards was purely a matter of prestige. These Toa became known as the Toa Hagah.

## Metru Nui

When the Plan was a year from fruition (even though he had a pledge not to), Teridax kidnapped Turaga Dume, the leader of Metru Nui, and, posing as Dume, began sending the Toa that guarded the city to close the sea gates from which they never returned. To aid in this, he hired three Dark Hunters: Nidhiki and Krekka, who helped inside the city, and the Hunter codenamed "Eliminator", who would stay outside and kill the Toa sent out to close the gates. He also brought in a predatory pet bird named Nivawk to act as a spy. Eventually, only Toa Lhikan was left as the guardian of the city. After he was taken, "Dume" commissioned the city's best mask maker, Vakama, to make the Mask of Time that would help in his plans. "Dume" then created the twisted plant called the Morbuzakh and unleashed it on the outskirts of Ta-Metru.

After the Morbuzakh plant drove the Matoran to the city's centre, Lhikan became suspicious and, suspecting that he might be killed, decided it was time to choose Matoran to become new Toa. Teridax tried to subtly influence this decision so that Lhikan would choose Toa who would not be able to stop him; but Mata Nui, suspecting danger, let Teridax think that he chose Toa that could not stop him, so the Toa chosen were the ones destined to succeed.

While these new Toa Metru - which included Vakama - were able to destroy the Morbuzakh, Teridax proceeded forward and had the city's Vahki enforcers continue the job that the Morbuzakh had started: kidnapping Matoran and putting them into spheres that would erase their memory, allowing Teridax to "save" them from their imprisonment. He would use the Vahi to speed up the process of their memory erasure, which would allow him to easily convince them to see him as the new "Great Spirit." By the time the Toa Metru discovered his plot, it was too late and the entire population of Metru Nui had been put into the spheres. Even worse, Teridax finally struck Mata Nui, sending him into a coma and bringing about the Great Cataclysm.

The Toa tried to escape the city with a few spheres, intending to return for the rest, but Teridax gave chase; boosting his power by absorbing Nidhiki, Krekka, and Nivawk into his body along with the city's power supply. Vakama went to face him alone and tried to use the Vahi that he'd made against him; Teridax was impressed that he was able to make a Vahi and offered him a position with his Brotherhood as part of his essence, but Vakama refused. Unfortunately, Vakama's inexperience led to both of them getting caught in the mask's slow-motion effect. Teridax had fired an inescapable, deadly blast when Lhikan, now a Turaga, jumped in the way and took the brunt of the blast for Vakama, and he soon died from the wound. Inspired by Lhikan's sacrifice, Vakama began to challenge Teridax truly, and with the help of the other Toa Metru, sealed Teridax in a prison of solid protodermis.

## Dark Times

But even imprisoned, Teridax was not helpless. He telepathically summoned two of the Brotherhood's lieutenants, Sidorak and Roodaka, to bring their Visorak armies to Metru Nui. Once there, Roodaka painfully cut away a small shard of the prison, intending to absorb the Toa's elemental powers and use them to break the seal. However, things didn't go as planned and Roodaka was instead attacked with blasts of elemental power, but the effect was the same: the seal was broken and Teridax was free again. Teridax's first action after being freed was to teleport Roodaka away from the Toa, who thought her dead. The prison shard was claimed by the Toa Metru, who later used it to represent Teridax when telling their tales as Turaga.

A short time later, Teridax began searching for the Vahi, which had fallen into the sea during his fight with Vakama. But Vakama was also looking for the mask, as was a mutant named Voporak, who searched on behalf of the Dark Hunters. Teridax found Vakama and trapped him in an illusion, hoping to trick Vakama into giving him the Vahi - but Vakama broke free of the illusion, and Teridax was furious to learn that Voporak had taken the mask. He offered Vakama a truce until they got the Vahi back, and he kept his word - until the Dark Hunter leader, the Shadowed One, showed up, hunting the Toa that he was sure was responsible for Nidhiki and Krekka's deaths.

Teridax started bargaining with the Shadowed One over the Vahi, but Vakama cut negotiations short when he pointed out that it was Teridax who had killed Nidhiki and Krekka. Enraged, the two Hunters attacked Teridax, breaching his armour; but Teridax was able to knock Voporak out and make the Shadowed One age prematurely in Voporak's defensive field. Because of this incident, the Shadowed One declared war on the Brotherhood of Makuta. In the confusion, Vakama snatched the Vahi and began flying away.

Teridax soon tracked down Vakama and demanded the Vahi, but Vakama threatened to destroy the mask - and with it, the entire space-time continuum. Extremely reluctantly, Teridax agreed to give the now-free Matoran a year of peace and to leave Vakama's allies in Metru Nui alone. He then returned to Destral and challenged Icarax to make him stop terrorising Matoran with his Manas. Interestingly enough, he let Icarax live for the time. He then went to one of his many lairs, this one called Mangaia.

In that year, Vakama and the other Toa Metru brought the Matoran to the Island of Mata Nui, became Turaga, and led them in constructing villages. Teridax, meanwhile, located a lost Matoran named Ahkmou and used seductive lies to make him an ally. Once the year was up, he began to harass the Matoran by creating Kraata and using them to enslave the local Rahi wildlife, with Infected Kanohi, forcing them to attack the villages. His aim was hopefully to intimidate the Matoran into surrendering, but more importantly to keep the Matoran away from Metru Nui. But the Matoran fought back, driving off the Rahi and freeing some from Teridax's control. However, Teridax would keep on enslaving more, and the stalemate would continue for nearly a thousand years…

## The Arrival of the Toa

A wanderer named Takua was able to find six Toa Stones that were scattered around the island, created and hidden back when the Turaga were the Toa Metru. Bringing these together at the Kini-Nui Temple summoned the Toa Mata to Mata Nui. At first, Teridax tested these beings to make sure they were real Toa, including using Ahkmou's help to spread an epidemic among the Po-Matoran. He even went so far as to fight them directly. Once he was convinced, he retreated and awakened the Bohrok swarms for the

Toa to deal with. He held no illusions that the Bohrok would be able to defeat the Toa, but they would keep the heroes busy; and once the swarms failed there was the chance that the elite Bohrok-Kal could be a threat to the Toa. But the Toa prevailed against the Bohrok threats, transforming into more powerful Toa Nuva in the process.

## Mask of Light

Whatever schemes Teridax was plotting during this time were abandoned a short while later, when Takua found the legendary Avohkii Mask of Light. Legends stated that the mask's wearer, the Toa of Light, would appear in a time of darkness; and Teridax quickly sent out Rahkshi to keep the prophecy from coming true. He also appeared to Takua, warning him that the consequences could be fatal for his friend Jaller if he didn't give Teridax the mask. But these attempts failed, as Takua realised his destiny to become the Toa of Light, renaming himself "Takanuva" - though Teridax's warning rang true, as Jaller did indeed die in the last battle with the Rahkshi.

The next day, Takanuva went to challenge Teridax alone; though once he got there he told his friend Hahli (who had stowed away on his vehicle) to go back and bring all the Matoran. While she was doing this, Teridax challenged Takanuva in the Matoran sport of Kolhii, and the ensuing "game" damaged much of the lair. When the Matoran arrived, Teridax took out the lair's last remaining pillar, causing a cave-in and cutting off the Matorans' escape route. Takanuva then tried to rip Teridax's Mask of Shadows off of his face, causing the two to fall into a pool of energized protodermis and emerge as a single being, Takutanuva.

Takutanuva opened the way to Metru Nui, and the Teridax side (being enlightened by the Mask of Light piercing the lies he had told himself over the centuries) even helped bring Jaller back to life, but the energy spent on the resurrection made Takutanuva too weak, and the gate he was holding fell and crushed him. Takanuva was quickly restored from his mask, but Teridax is believed by the world to be dead. Despite the apparent victory, Takanuva harboured some suspicions that Teridax let the Matoran win to further some grander plan.

## Voya Nui

Six Skakdi Dark Hunters, somehow hearing about Teridax's apparent death, broke into the Makuta's domain. After a mishap where one of the Skakdi were split into two beings, Teridax's lingering essence implanted knowledge and information of the Kanohi Ignika into their minds, manipulating them into travelling to Voya Nui and retrieving the mask for him. Teridax, forcing his gaseous form to not dissipate through sheer willpower, followed the Skakdi to the island. During his disembodiment, Teridax had discovered that Mata Nui was dying, and sought to use the Ignika to, ironically, save the Great Spirit's life.

On Voya Nui, the Skakdi tricked the inhabitant Matoran into believing they were Toa. Teridax further influenced one of them, Zaktan, into solidifying his essence into a crystallised vat. This material was used to hypnotise the Voya Nui Matoran into the Skakdi's slaves. Teridax remained in his vat form, recovering from the strain of forcing himself to stay intact and awaited an opportunity for a return. It came in the form of a fight between Order of Mata Nui members Brutaka and Axonn. During the battle, Axonn had realised that Brutaka drew power from Teridax's essence and shattered the chamber housing it. Teridax proceeded to quietly flee the scene and follow the Toa Inika into Mahri Nui.

As the Toa travelled down the Cord, Teridax attempted to possess Matoro's body as the Toa of Ice had briefly left it to scout ahead in spirit form. The Toa Inika quickly found out what had happened and threatened to destroy Matoro's body, driving Teridax out.

## Mahri Nui

Wandering the waters beneath Voya Nui, Teridax possessed the body of a Maxilos robot searching for Pit prisoners. It was here that he was contacted by Gorast, who he ordered to gather the strongest Makuta to invade Karda Nui and build an army of Shadow Matoran using the Av-Matoran living there. With this, Teridax had put the necessary pieces in place for his goals.

Disguised as the Maxilos robot, Teridax travelled to the Pit and discovered Order of Mata Nui member and Pit warden Hydraxon there, imprisoning a transformed Toa Matoro. Once Hydraxon was out of the area, Teridax revealed himself to Matoro, much to the Toa of Ice's horror. Teridax offered a truce and temporary partnership to retrieve the Ignika; a deal Matoro reluctantly agreed to. Teridax freed the Toa and beckoned him to help him find clues within the Pit's ruins.

Teridax discovered what he presumed to be the body of Toa Tuyet (in actuality a deceased alternate version) within the ruins and tricked Matoro into using his Kanohi Tryna to resurrect the corpse. The Makuta initially planned to keep what he believed to be shards of the Nui Stone within Tuyet's armour on hand for plans. Unfortunately, Karzahni, with his ambitions for conquest, fought with Teridax for the Stone, briefly trapping him in a vision of a future where Mata Nui awoke and punished him for his actions. The Makuta managed to snap out of the assault and defeat Karzahni by magnetically sending him away.

However, another obstacle arrived in the form of Brutaka, who distracted Teridax long enough for Botar to come and steal away the Nui Stone. Teridax shrugged off the setback, deciding that the whole affair was a small, distracting detour and joined Matoro in finding the rest of the Toa Inika, who had transformed into the Toa Mahri.

Once the Toa were reunited, Teridax was forced to act like a mindless robot. The Ignika had somehow gotten into the hands of Hydraxon, and Matoro, wanting to be rid of Teridax's threat looming over the Toa Mahri's quest, suggested the possessed Maxilos robot to find the Pit jailer. Not wanting to reveal himself, Teridax begrudgingly agreed and searched for Hydraxon. After a brief battle with the jailer, Teridax was ambushed by Matoro and frozen in a block of ice, the sharp drop in temperature cracked the Maxilos hull and released Teridax's essence. A fireball from a fight between the now-Toa Jaller and Hydraxon melted the ice, releasing Teridax but leaving him in a critically damaged state.

Teridax was then attacked by the Barraki's underwater Rahi army, further damaging his vessel. Despite anger at his loss, Teridax opted not to continue involvement and abandoned the Maxilos robot to travel back to Metru Nui. During his journey, Teridax felt the death of the Matoran Universe and, in a moment of humility, prayed that something saved his brother and the universe.

Luckily for everyone, Matoro donned the Ignika and sacrificed himself to bring Mata Nui back to life. Meanwhile, at Metru Nui, Teridax infiltrated the Core Processor to bide time, waiting for the Toa Nuva to awaken Mata Nui.

## Reign of Shadows

The Toa Nuva succeeded in awakening the Great Spirit using the sentient Ignika. However, Teridax intercepted Mata Nui's spirit before he could retake his body, and sealed him into the Ignika, overriding the mask's consciousness and replacing it with Mata Nui's. After thousands of years of planning, Teridax's plan finally came to fruition as he rose out of the waters of Aqua Magna in Mata Nui's enormous robotic body, which housed the entirety of the Matoran Universe.

He killed all remaining Makuta, intending not to let another betrayal like his to occur. With god-like control over his new body's functions and environments, Teridax made his presence as the universe's new Great Spirit known to all. His first act, forming a constellation of his Kanohi Kraakhan on the Wall of Stars, announced the new world order to all species within him. His second act was to launch the Kanohi Ignika into outer space, exiling Mata Nui with no way to return to save his people. Thus began the Reign of Shadows as Teridax, still getting used to the enormity of his new form, focused his attention on ridding his body of all resistance and free will.

## Journey's End

After weeks of coordinating the purge of resistance within his body, Teridax suddenly sensed Mata Nui's presence on Bara Magna, where he unwittingly sent the Ignika. Furious over his brother's survival, Teridax abandoned his quest for the complete conquest of the Matoran Universe and ordered his forces to descend to the Southern Islands in preparation for an invasion. Activating his body's propulsion systems, Teridax launched himself into space towards Bara Magna. As he travelled, Teridax decided once and for all that he didn't need Mata Nui alive for his plans of universal conquest and opted to kill his brother finally.

Teridax arrived on Bara Magna, where he found himself confronted with a smaller robot similar to his body. The Makuta realised this was Mata Nui, having taken over a prototype version of his former body to confront Teridax. Mata Nui pleaded with him to help him restore Spherus Magna, which he revealed as their mutual destiny and the purpose for the Great Spirit Robot's journey across the universe. Teridax refused to listen, blinded by pure murderous intent, and struck Mata Nui. The Makuta mocked Mata Nui for his newfound fondness for the inhabitants of Bara Magna as well as for those within the Matoran Universe, which he reminded Mata Nui that he would be harming if he were to fight back. As he fought Mata Nui, Teridax unleashed his Rahkshi army upon the Glatorian and the Agori at his feet, inciting a full-scale war on the planet's surface.

As the battle raged on, Mata Nui managed to trick Teridax into using the Great Spirit Robot's gravitational systems to draw Bota Magna and Aqua Magna towards Bara Magna, accomplishing the Great Beings' mission for them. However, Teridax, at his wits' end, chose to destroy Bara Magna with the same gravitational energy. At that moment, Teridax was distracted by Toa Tahu's mass destruction of his Rahkshi forces. Mata Nui took advantage of this hesitation and shoved Teridax into Bota Magna. The Makuta's head impacted with the jungle moon, destroying it and ending the tyrant's life and threat once and for all. As Spherus Magna was re-formed immediately following his death, Teridax unknowingly completed his destiny to take over the Matoran Universe and aid Mata Nui in finally repairing the Shattering.

### Beast-Man

Beast Man makes his debut in Mattel's very first illustrated books as Skeletor's closest and most loyal follower in the then quite small band of Evil Warriors. As the toyline expanded, he stayed at Skeletor's side as a ferocious man-beast who can summon most of the wild creatures of Eternia to aid Skeletor's schemes.

Beast Man appears frequently in the toy line's accompanying cartoon series by Filmation, introduced in the first episode "Diamond Ray of Disappearance". Although toned down slightly for the younger-child friendly series, as were many of the characters, his cartoon portrayal is generally consistent with his mini-comic portrayal, although in some early episodes the show's writers added extra dimensions to his character in that despite his loyalty, he clearly resents being bossed around by Skeletor and secretly desires to someday overthrow his master. This side of his character is brought to the forefront in the episode "Prince Adam No More", in which he is finally thrown out of Skeletor's crew. Feeling useless without the power of Snake Mountain behind him, he sets out to prove his worth by capturing King Randor by himself and bringing him to Snake Mountain. Although he succeeds in capturing the King, when He-Man comes to the rescue he is subjected once again to Skeletor's wrath and admitted back into his ranks purely so Skeletor has someone to vent his anger on. But his final line in the episode "It's kind of nice to be home" indicates he now feels he belongs as Skeletor's underling, and subsequent episodes portray him mostly for comedy value, willingly succumbing to Skeletor's abuse and constantly bungling his schemes. Notable episodes for Beast Man in the show's later stages include "The Shadow of Skeletor" and "Orko's Return" which restore him to his original, darker portrayal, working independently and craftily to achieve his aims. The powers of Beast-Man are shown effective in some earlier episodes, such as "Creatures From The Tar Swamp", "A Beastly Sideshow" and "The Dragon Invasion". His ability to control animals is not impeccable, however. For instance, he cannot control Cringer, Battle Cat, or Panthor.

Beast Man remained a fairly regular character throughout the run of the 1980s series, while some other earlier figures like Zodac, Mer-Man, Tri-Klops and Stratos gradually dropped out of sight when newer characters were released. He generally held his position as Skeletor's right hand man thoughout the cartoon's run, although in some later second season episodes this position was occasionally filled by characters such as Clawful or Whiplash, as writers attempted to promote newer characters more prominently. Beast Man was often teamed up with Trap-Jaw, one of the other earlier characters to remain consistent through the show's life.

Beast Man's background is never mentioned in the cartoon, although the series bible states a surprising origin for him, explaining he was once a thuggish human from Earth called Biff Beastman who owned a farmyard on which he constantly abused the animals. He was recruited as chief technician on the spacecraft piloted by Marlena Glenn, which crashlanded on Eternia, but he wound up on Skeletor's homeworld of Infinita, where he was mutated into Beast Man and recruited by Skeletor. This origin story appears in a storybook entitled "New Champions of Eternia" but was unpopular with most of the show's writers and therefore excluded from the series.

## Tri-Klops

Real Name: Trydor Esooniux Scope

Originally an inter-dimensional bounty hunter and tracker, Scope was recruited by Skeletor during one of the final battles of the Great Unrest to bolster his weakened forces. As good with a blade as he is crafty. Scope took on the name Tri-Klops after an accident left him blind and he was forced to wear a tri-optic visor which granted him expanded tracking abilities including Gammavision, the ability to see around objects, Distavision, a form of Far Vision, Night Vision, and the ability to generate optic blasts, Tri-Klops uses his three different eyes to spy for Skeletor!

## Black Knight Ghost

He first appeared, alongside the five main characters, in the pilot episode of Scooby-Doo, Where Are You!, which was called What a Night for a Knight. He was clad in suit of black armor and was voiced by the late Bob Papenbrook. Shaggy Rogers and Scooby-Doo found the mysterious black knight that the kids return to the museum. When there, they discover the archaeologist delivering the knight is missing, and the knight has come to life. The man behind the Black Knight Armor was the curator Jeremiah Wickles (also known as Old Man Wickles), who was using the legend to cover up his art forgery scheme.

## Ghost of Captain Cutler

Captain Cutler's Ghost first appeared in the Scooby-Doo, Where Are You? episode, A Clue For Scooby-Doo. It was revealed that Captain Cutler was still alive and he and his wife faked his death so that they would steal the yachts and sell them.

## Hobgoblin

The Hobgoblin (Jason Phillip Macandale) is one of the recurring antagonists of the series (along with Kingpin, The Green Goblin,Doctor Octopus, and Venom). He was voiced by Mark Hamill, who's voice is similar to the Joker, who also voiced him in Batman: The Animated Series.

In his first appearance, he was a criminal-turned-assassin hired by Norman Osborn to kill New York's most feared criminal mastermind, Wilson Fisk, also known as the Kingpin, in which the Hobgoblin himself did not know that Fisk was the Kingpin. Osborn was indebted to the Kingpin for various shady loans that Osborn was unable to repay. After the assassination is foiled by the appearance of Spider-Man and Peter Parker when they save Fisk when he was going to create a criminology school and cause the Hobgoblin to flee, the Hobgoblin demands Osborn to pay him and he will take another chance to kill Fisk. But Osborn refuses to pay him and fires him. This sets off a chain of events in which the Hobgoblin is curious about why Osborn wants Fisk dead and while snooping around Fisk's building, he is captured and realizes Fisk is the Kingpin.

Just when the Kingpin would kill the Hobgoblin, the Hobgoblin asks for a chance for a partnership with the Kingpin and defeat Norman Osborn, the man who hired the Hobgoblin to kill Fisk. Kingpin was so despised at hearing this news and Osborn for what he did that he aligns with the Hobgoblin and sends him to kidnap Harry Osborn, Norman's son, in order for the elder Osborn to make good on his payment. But when Hobgoblin sees that Kingpin will not pay him immediately, he eventually betrays the Kingpin by going to Norman for better weapons to kill the Kingpin and so that Osborn can have his company and son.

Osborn gives him a better glider and weapons, and gets into a prolonged battle with Spider-Man across New York, ending with the Hobgoblin presuming that Spider-Man died in an explosion. Later, by the time the Hobgoblin returned to the Kingpin, Hobgoblin realizes the Kingpin knows he was going to double-cross him, causes the Kingpin to flee, having the Hobgoblin think he died and took over his empire. The story concludes with the Kingpin, Osborn, and Spider-Man all loosely allying themselves to defeat the

Hobgoblin, where Spider-Man fights the Hobgoblin in the Kingpin's lair and nearly destroys it. The superhero saves Harry, bringing him back to Norman and expelling the Hobgobin from Fisk's empire, having the crime lord recaim it as his own. The Hobgoblin tries one more time by trying to kill Osborn and his son, but Spider-Man saves them and has the Hobbgobin crash into a nearby river. In the end, Osborn sells 50% of his company to the Kingpin in order to repay his debt, Harry Osborn is returned safely, and the Kingpin rebuilds his headquarters.

Hogoblin went on to make two more appearances, starting with the crossover of X-Men: The Animated Series. He discovered that Dr. Herbert Landon, who was said to cure mutation, (and secretly promising to make a mutant army for the Kingpin) was planning to exterminate all mutantkind. The Hogoblin blackmailed Landon that if Landon did not give him the money he thought he deserved, then Landon's real intentions will be revealed to the public. However, Spider-Man tracked the Hobgoblin down and learned that Landon could potentially make good on his threat. Teaming up with Wolverine, Spider-Man tracked Landon to his lab. They battled Hobgoblin, who managed to escape with discs outlining Landon's master plan. Spider-Man and the X-Men managed to defeat an ironically mutated Landon after the Hobgoblin escaped, and Landon was taken into a hospital to be cured of his mutation.

The Hobgoblin's next appearance was in the second Green Goblin story arc, in which his identity was revealed to be Jason Philip Macendale, fiancé to Felicia Hardy and had a portal-creating machine called the Time Dilation Accelerator. Once his identity was revealed to his fiance, he and Felicia were kidnapped by the Green Goblin who stole the Accelerator from the villain and took both fiancé to their doom at OsCorp where they will be killed in an acid pool. Spider-Man forced the Goblin into limbo (right before he would return in the next episode), saved Macandale and Felicia and their relationship ended. The Hobgoblin was then immediately taken into custody afterward.

An alternate-reality version of the Hobgoblin appeared in Part One in the series finale of Spider-Man as an enemy of the Scarlet Spider. He battled the various Spider-Men from different realities to try to stop Spider-Carnage from destroying all of reality, suffered defeat, and was tied up. In the last episode of the series, the Kingpin's building (where the beaten Hobgoblin was kept) exploded. Madame Web used her powers to save Spider-Man, his associates, and the Kingpin, but Hobgoblin apparently perished in the explosion. An interesting fact is that in his first appearance his skin was not white, but black.

Sasuke: This is definitely Tala's handiwork!

Me: That Tala just loves making our jobs harder. But we beat these fuckfaces before and we can do so again.

?: (Scandinavian Accent) Let me help you all.

A spirit appeared and we saw that it was the spirit of my ancestor Leif Erikson.

Me: (Gasp) Ancestor Leif Erikson!

Leif: That's right. You are a true Norseman J.D. I've watched all your battles from afar and you are a magnificent warrior.

Me: Thanks Ancestor. Shall we team up and take these vikings down like you did 1,000 years ago?

Leif: You got it!

Me: June, I'm sorry but we're gonna have to hurt your friends to drive the spirits of the vikings out.

June: We'll just do what we have to do.

Black Maskblock: I give you… the Heartless 6!

Ben: That's exactly how the Negative 10 was introduced to me.

The Malevolent Animous pounced at Captain America, knocking him to the ground. The Glowing Sea Terror fired a harpoon at Optimus Prime's leg, making him scream in pain.

Possessed Jodi: This isn't one of your simulations. This is real! If

Optimus Prime and Captain America fall before us, what chance do you have?

Ben: We'll see about that! It's Hero Time! (turns into Fasttrack)

Nico pulled out the spear and healed Optimus Prime.

Me: Lets split them up and take them down!

We went at them.

---

## BATTLE 1: Glowing Sea Terror!

---

Mixmaster, Jazz, Maria, Bai Tza, William, and Shego were facing the Glowing Sea Terror.

The Glowing Sea Terror looked like an ordinary man in a scuba suit and he has seaweed and water powers.

Maria: I'll never forget that haunted glow when we beat Captain Cutler's Ghost.

Bai Tza: Too bad he wasn't a ghost for real. That was just to cover a major smuggling ring he and his wife were doing.

Maria: Velma wasn't the Ghost of Captain Culter your second villain that you busted?

Velma: He was. Captain Cutler and his wife were doing a major smuggling ring by painting boats and yachts different colors and selling them on the black market.

William: That's awful!

Bai Tza: Lets get him!

They went at the Glowing Sea Terror and Bai Tza punched him through his helmet and kicked him in the helmet and knocked it clean off. The person underneath the helmet was an ugly decomposing face! He was glowing.

Mixmaster: That is one ugly freak of nature!

Jazz: How do you think he became like that?

Bai Tza: Well it says that he died in prison.

Maria: Great so not even Hell was willing to accept him!

William fired a powerful blast of lightning from his blaster and electrocuted him and he screamed in a horrifying sound. (Think of how the Ghost of Captain Cutler made that ghostly sound at the beginning of the episode)

Jazz fired numerous laser blasts at the Glowing Sea Terror and they hit him and exploded.

Shego fired a powerful blast of green fire and Mixmaster fired chemical bombs at him and they exploded and killed the Glowing Sea Terror instantly.

Bai Tza: That takes care of that clod!

Maria: Yep.

## BATTLE 2: Malevolent Animus

Hot Shot, Scrapper, Shocker, Elena, Venom, and Rhino were facing the Malevolent Animus.

The Malevolent Animus looked like Beast Man but with black fur and he has demon wings and evil red eyes

Will (quietly): Next time Jodi walks by, I'll grab her and activate the Heart of Kandrakar. Then I'll open a portal to the estate so that the others can help get the spirit out of her.

The Malevolent Animus then appeared behind her.

Malevolent Animus: Too bad you won't live to do that!

Elena fired a powerful blast of lightning and electrocuted the Beast-Man heartless and kicked him in the face and sent him crashing into a dumpster. But surprisingly, when he hit the dumpster, he unearthed Chuck Green and Steve Boswell!

Nico: There you two are!

Nico and May grabbed them and tied them up in chains.

But they saw that Chuck and Steve were possessed by the vikings as well!

Possessed Chuck: Let us go you fucking runt!

Possessed Steve: You will all die by our hands!

Nico: You viking freaks have failed this world as you did 1,000 years ago!

Nico and May punched them in their faces and knocked them out. The first group met up with Nico and May.

Maria: You two are in a lot of trouble when you are unpossessed.

Nico (to May and Maria): May. Maria. Do you think we did the right thing?

May: Right thing?

Nico: You know, exposing Chuck and Steve.

Maria: Of course we did.

Nico: It doesn't feel like it. They might've been jerks. But if we hadn't been so harsh in teaching them a lesson, mabe they wouldn't have run away and become the vikings' puppets. And now, they cn't come back to their homes again. But, what do you two think?

May: They deserved it Nico. After all the pain and trauma they've inflicted on Carly Beth, they'll get what's coming to them.

Maria: When we send Chuck and Steve to jail we'll get justice for Carly Beth.

Will: Now lets get back to work.

Will used the Heart of Kandrakar to open a portal and she went at her and pushed her into the portal and they went in and the portal closed.

Nico: That's a genius plan Will has.

Hot Shot fired a powerful laser blast it hit the Beast-Man heartless and Elena fired a powerful blast of lightning and Shocker did the same and electrocuted him. Rhino and Venom both charged him and they slammed into him and he exploded all over the place as a massive pile of blood and guts.

Scrapper: That's that for that freak.

---

## Battle 3: Pumpkinhead Terror

---

Scavenger, Landmine, Francis, Killer Frost, Lea, and Poison Ivy were facing the Pumpkinhead Terror.

The Pumpkinhead Terror looked like Hobgoblin but with a Flaming Pumpkin for a head.

Pumpkinhead Terror threw a pumpkin bomb at Nicole just as she took out the Book of Vile Darkness, knocking it into a nearby pond.

Nicole: NO!

Pumpkinhead Terror (cackilng): Oh, poor thing! Guess you won't be able to use your book anymore!

Nicole: You monster fucker!

Landmine blew the Pumpkinhead Terror away in a powerful tornado and Killer Frost fired a blast of ice and froze him.

Poison Ivy threw a bunch of vines and tied up the Pumpkinhead Terror and Lea and Francis fired powerful blasts of fire and burned him. Scavenger fired a bunch of laser blasts and they hit the Pumpkinhead Terror exploded all over the place. Killing him instantly.

Nico flew in and brought Nicole the Book of Vile Darkness.

Nico: Here Nicole.

Nicole: Thanks Nico. I owe you one.

---

Battle 4: Dark Ghost Knight

---

Long Haul, Slingshot, Arpeggio, Teresa, Karai, and Xion were facing the Dark Knight Ghost.

The Dark Ghost Knight looked like how the Shredder turned into in the 1980's TMNT 2 movie.

Dark Ghost Knight (clashes sword with Karai): **Be glad you can exchange witty banter with me. Most of my fellow monsters hardly ever speak!**

Teresa: You are an ugly monstrosity!

Xion: I agree!

Karai slashed the Dark Knight Ghost's arms off and Slingshot and blasted his body apart and Xion slashed his head and Arpeggio blasted what was left of him with feather bombs.

Slingshot: So much for that freak!

---

Battle 5: Dark Three-Eyed Horror.

Me, Hook, Ratchet, Stewie, Bowser Jr, Rubberband Man, and Inque were facing the Dark Three Eyed Horror.

The Dark Three-Eyed Horror looked like a Tri-Klops without his visor but he had more powerful strength and the armor he got from the Ambrosia.

Dark Three Eyed Horror: I'm actually glad you morons killed me.

Stewie: Why's that?

Dark Three Eyed Horror: Because you've made me even more powerful then He-Man and Skeletor!

Rubberband Man: You make me sick Tri-Klops! You injured Teela and she lost a lot of blood because of you!

Me: But in truth we should be thanking you.

Dark Three-Eyed Horror: (Confused) Why?

Me: Because thanks to you I was able to give Teela some of my blood and it gave her powers as a result.

We went at him and I punched him in the face and kicked him in the stomach. Inque slammed a tentacle of ink onto him with devastating force and Hook, Ratchet and Stewie blasted him all over the place with blasters. Bowser Jr. fired a poweful blast of fire from his mouth and it hit the Tri-Klops Heartless and burned him. Rubberband Man punched the Dark Three-Eyed Horror with devastating force and I fired a powerful energy blast and vaporized him.

Me: Go back to hell Tri-Klops.

Battle 6: Black Maskblock

Nico, Vakama, Bonecrusher, Override, Sandman, Clayface, Riku, and Demona were facing the Black Maskblock.

Black Maskblock looked like Makuta Teridax but with spiked black armor and a spiked dark mask and had an aura of dark fire

Black Maskblock: Hello, Vakama. How is Toa Lhikan?

Vakama: Better! Now that he's about to be avenged!

Black Maskblock: Is that any way to talk to the future ruler of this universe? Now that Juniper Lee's friends are working with me, my comrades and I will kill off every hero across the world. But you won't live long enough to see it!

Nico: We'll see about that! And I haven't forgotten what you did to me Teridax! You made me see Ken and tried to poison my mind with hallucinations of him as the Digimon Emperor!

Riku: You will pay for everything you've done Teridax!

Nico: Lets get him!

They went at him and Nico punched him in the face and punched his mask off. Vakama fired a powerful blast of fire and Sandman fire a powerful blast of sand at him. The blasts hit him and burned and cut him.

Squirrel Girl fired nuts that exploded and they hit him and exploded.

Squirrel Girl: You are a monster Teridax!

Riku fired a blast of dark fire and burned him bad.

Override and Lori fired blasts of fire and lasers at the Black Maskblock and they hit him and exploded.

Nico: Lets finish this clod with our combos and final smashes!

Mirage: You got it Nico! CYBER KEY POWER!

Mirage turned into an Indy 500 race car and The Velocitrion Cyber Planet Key went into Mirage's back and out popped 6 more laser blasters from his sides

Squirrel Girl: I've always wanted to try this. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and she had numerous squirrels appear by her.

Squirrel Girl: I hope you aren't afraid of squirrels.

G1 Mirage and Squirrel Girl: SUPERSONIC SQUIRREL SCURRY!

The squirrels ran by the sides of Mirage and Squirrel Girl was standing on top of him as he fired lasers and they ran him over.

Breakdown: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into the back of Breakdown's bumper and it enhanced his Concussion Blaster.

Commander Jupiter: Lets get him Skuntank! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and it enhanced her Skuntank's abilities.

Commander Jupiter: Lets get him Skuntank!

G1 Breakdown and Commander Jupiter: LASER CANNON STINKBLAST BARRAGE!

Commander Jupiter's Skuntank fired a powerful blast of an extremely foul smelling stench that smelled so horrible that it made some of us hurl our guts out and Breakdown fired his concussion blaster and concussion blaster and the blasts combined and hit him and they exploded.

Bonecrusher fired blasts and missiles at the Teridax Heartless.

Demona slashed him with her claws and fired laser blasts from her red eyes.

Lucy: Lets get him! NIGHT LIGHTNING FEARSTORM!

Lucy fired a powerful blast of black lightning and it slammed into the Black Maskblock and electrocuted him.

Ophelia: You make me sick! DARKFIRE DRAGON DEATH!

Ophelia fired a massive blast of dark fire and it went at the Black Maskblock and burned it with flames as hot as the sun.

Ophelia: Lets see what Batswarm is capable of in a fight.

Ophelia sprouted bat wings and her skin turned dark brown and furry, her teeth turned into fangs, her eyes turned yellow and her ears turned pointy. She Turned Into BATSWARM!

Ophelia went at the Black Maskblock and screamed and a powerful blast of supersonic energy fired out of her mouth. It hit the Black Maskblock and blew him apart!

Batswarm: Wow!

June: Ophelia that was amazing!

Batswarm: Thanks June.

June: My turn! MAGICFORCE BLAST STORM!

June fired a powerful blast of magical energy and it slammed into the Black Maskblock and vaporized him in an instant. All the 6 Heartless were sent into the River of Fire.

Me: That takes care of them. Lets go stop those vikings!

Nico caught a Pachirisu and a Floatzel during the fight.

## Battle 7: The Kragnarok Vikings

We went at the vikings in the kids bodies.

Me: Just so you know kids, this is gonna hurt us more than it's gonna hurt all of you.

We went at them and mercilessly pulverized them into pulp. We punched, kicked and pulverized them brutally with indiscriminate fury. Back at the estate Will was facing the leader of the vikings in Jodi's body. Will dodged a slash from her axe and kicked her in the face and leg swept her.

We brought everyone back and we brought everyone together.

Me: Wow. You did a great job Will.

Will: Thanks J.D.

Lucy: (To the Viewers) Never mess with the power of darkness and Team Loud Phoenix Storm.

I found the medallion.

Me: Here's the Medallion of Takar.

Leif: Just crush it J.D.

Me: Right Ancestor.

I crushed the medallion with my bare hands and the spirits of the vikings left the kids and they were sucked into the River of Fire.

---

At the estate in the infirmary Jodi woke up. She only had a broken leg.

Jodi: What? What happened?

Me: Glad you're awake Jodi.

Jodi: J.D. Knudson? It's an honor to meet you.

Me: Same here. June told me a lot about you. But I'm afraid we have bad news.

We explained everything and Jodi was in absolute shock.

Jodi (sobs): The things we did… WHAT HAVE WE DONE?! (throws up)

I went over and comforted her. Jodi was absolutely horrified at what she and her friends did against their wills. And the pain and deaths they caused were awful. But it was gonna take a lot of psychological therapy for them. We had Ino come over and help them. After she calmed down, we were talking to her.

Jodi: We were worried about you June.

June: Sorry about that Jodi.

Jodi: And Ophelia we haven't seen you in a while. We thought something happened.

Ophelia: It did actually and that's why June left. To find me.

June: I ended up meeting Team Loud Phoenix Storm as a result.

Me: It's a very long and complicated story.

We told her how Ophelia was gene-slammed with Vampire Bat DNA and how she can turn into Batswarm. We also helped turn her back and got her new clothes.

Jodi: Wow! Ophelia that's amazing!

Ophelia: It is.

Jodi: And June are you still fighting monsters and demons as the Te Xuan Ze?

June: I sure am.

Me: So I guess June told you and trusted you right?

Jodi: She sure did.

June: And now Ophelia and I are working together.

Ophelia: We're partners.

Me: Yep they are. And they are really awesome together.

Jodi: You guys are perfect as partners.

They had a nice talk.

THE END

---

Another Fanfiction Complete

The Vikings of the Kragnarok Clan from The Life And Times Of Juniper Lee were a bunch of fierce vikings and they were tough too. NicoChan11 gave me the ideas for this one. Thanks man as usual. No I am not descended from Leif Erikson in real life. But it would be cool if I was. Let me know what you all think.

See you all next time.

# A Hellish Dystopian World

HAPPY 1ST DAY OF SUMMER EVERYONE!

---

It starts with us in a jail and Chuck and Steve were in a holding cell.

Steve: So, even after everything that's happened, you're still going to send us to jail?

Maria: You two still bullied Carly Beth. Do you really think we're just going to let that slide?

Chuck (finally having enough): HEY! WE'VE BEEN THROUGH ENOUGH ALREADY!

All of us were shocked that Chuck actually stood up to us.

Maria: We're not through with you two yet.

---

(The Peoples Court Theme plays)

Bayliff: Calling courtroom to order in the case of people of the United States VS Chuck Greene & Steve Boswell. Honorable judge Diana P. Bradley presiding.

Judge Diana: You may be seated.

We sat down.

Judge Diana: Has the jury reached a verdict?

Juror 1: We have your honor. We in the above entitled case of Case Number 124223433J, we the jury find the defendants Charles Edwards Greene and Steven Maxwell Boswell, Guilty on all charges.

Carly Beth: Yes!

Steve: Your honor, I would like to say something.

Judge Diana: Fine. Go ahead.

Steve: All we did was play a few cruel jokes on Carly Beth. But those are nothing compared to what guys like Peter Griffin did. So why don't you ask yourselves before you throw us in jail: is this really worth fussing over?

Judge Diana: After what you did to Carly Beth? Not a chance and I will not show any mercy on you two. As punishment for your crimes against Carly Beth Caldwell, it is the judgement of this court that I impose the maximum on you. You both are hereby sentenced to 75 years in prison without parole. You'll serve 3 years in the local Juvenile Correctional Facility and then when you turn 18 you will be transferred to the United States Penitentiary in Tuscon.

Me: That's also the prison where the kidnapper of Elizabeth Smart was sentenced to.

Lori: And also where disgraced doctor Larry Nassar is held.

Me: Those freaks got what they deserved.

Judge Diana: Yes they did. I have 3 kids myself and I love them more than anything. In addition to your sentence you are hereby ordered to pay Carly Beth restitution in the amount of $672,726,938,675.00

That was an extremely heavy amount.

Carly Beth gave her victim impact statement and she showed that she was more powerful than the both of them both physically and mentally and that they will never torment her or her friends ever again.

They were about to be taken away but they looked at us with incredible rage.

Chuck (to us): Happy, guys?

Riku: Look, if there's anything we can do to make things easier for you two.

Chuck: Don't bother. You've done enough already. I just hope you can sleep at night knowing that you threw us in prison even after we got possessed by those vikings.

Me: You brought all this on yourselves. You should've been nicer to Carly Beth and you should've been her friends instead of her bullies.

Carly Beth was free of her bullies.

---

Back at the estate we were watching our favorite movie saga: The Hunger Games. Chloe Carmichael, Lori Loud and Lola Loud are huge fans of the books and the movies. They love to dress up for the movie. The movies are set in a Post-Apocalyptic Dystopian World that makes a walk through Hell seem like child's play. It takes place in what used to be the continent of North America and it is now renamed Panem. A terrifying cataclysmic event destroyed much of the planet and it radically altered the landscape. It follows the leader of the Mockingjay Rebels named Katniss Everdeen and the rebels are on a mission to bring down the tyrannical rule of the evil ruler of the Capitol District, President Coriolanus Snow. We hated this guys guts to the point where it makes our blood boil. He's a tyrant that rules over the whole land with fear.

President Snow is responsible for taking care of the country and working on the Hunger Games (a competition on which one boy and one girl between the ages of 12 and 18 from each of the 12 districts must have a fight to the death) year after year. He is unafraid to hurt or kill people if he feels that they will be a threat or a sign of rebellion. In Catching Fire (book two), he threatens to kill Katniss', Peeta's, and Gale's families if she didn't convince all of Panem that what she did in the games (threaten that she and Peeta would commit suicide if The Capitol didn't make them both winners) was just her madly in love and not a sign of rebellion.

After the overthrow of the Capitol, Snow is tried, convicted and sentenced to death. As the Mockingjay, Katniss is given the opportunity to execute Snow. However, she assassinates President

Alma Coin instead. In the chaos that follows, Katniss witnesses Snow laughing and coughing up blood as a crush of people surround them. When everything calms down, Snow is found dead, either from choking on his own blood or being crushed by the crowd.

It was absolutely horrible what we saw Snow doing. He was killing innocent children all for his own sick amusement while ruling over the entire world with an iron fist. If there's one thing that we never tolerate above all others, it's the senseless slaughter of innocent people including children above all others.

Me: I can't believe that President Snow would do all those horrible things not just to the planet but to all those kids as well!

Nico: I know. He makes even the Devil Himself look like a fucked up joke.

Lori: I know. He literally is a true monster.

Chloe Carmichael was dressed up like Katniss. She had her hair in a ponytail and was wearing Katniss's uniform from Catching Fire.

Chloe: But Katniss is so awesome! She is an amazing warrior!

Me: She is also an amazing Leader. She lead the rebels really well and they all successfully overthrew the Capitol.

Nicole: Like how we overthrew the Imperial Empire in Star Wars.

Me: Exactly.

Nico: But President Snow was a pure evil monstrosity.

Me: No kidding. He's probably the worst villain we've ever seen anywhere. And he makes even the worst people in all of history look like a total joke!

Nico: He makes all the villains we faced look like tame kittens compared to him.

Edd: Nicely put Nico.

Jared: No kidding Double D. This guy is a completely honorless slimeball.

Hulk: Reminds Hulk of time when me and She-Hulk turned back into puny Banner and cousin Jen in subway.

Me: What happened back then?

Jen: Well we were about to stop another mob organization and we had to take the subway.

---

Jen: (Narrating) Me and Hulk were walking through the subway station.

She-Hulk: Looks like we have to take a train.

Hulk: Here comes now.

They reverted back. Their skin turned back to their normal colors, they lost all their muscle mass, their hair reverted back to brown and black and they shrunk down in size. The train came and opened its doors for them and they went in after everyone else got off at their stop. They got on the train and a little girl was looking at them.

Girl: What happened to your clothes?

Jen: It's a long and strange story young one.

The men were looking at her.

Jen: (Strikes a pose) Like what you see boys?

The men were doing catcalls and they were going crazy and howling like wolves from Tex Avery.

Bruce: You are full of surprises Jen.

Jen and Hulk got off and they changed back into their Hulk and She-Hulk forms.

Bruce: I hate this part!

Jen: Me too!

When they changed back into their Hulk forms they roared ferociously.

FLASHBACK ENDS

Jen: But we stopped the mob in the end.

Me: Well that's a relief.

Then we got a surprise when a portal suddenly opened up. Out of the portal came the hero of the Hunger Games, Katniss Everdeen herself!

We gasped.

Me: Katniss Everdeen!

Skywarp: Katniss Everdeen?!

Katniss: Hi. Hope I'm not interrupting anything.

Me: I take it you came to us to help you kill Snow?

Katniss: That's right. I was told so much about your deeds from everyone we rounded up in the Mockingjay Rebels.

Me: We don't like to brag.

Nico: But still we know all about the Hunger Games and what President Snow is doing is completely unforgivable!

Skydive: That son of a bitch!

Katniss: Hey, I'm pissed off at Snow too. But we can't afford to lose our cool. If we charge in recklessly, it'll be easy for him to kill us. We need a foolproof strategy. Any suggestions?

Me: Katniss is right. I know the deeds that Snow did are absolutely horrific, but we can't let anger and rage over the reign of terror of Snow get to us. The Capitol District is a heavily guarded and extremely well fortified area. This time we can't rush in without a very well thought out strategy and plan.

Nico: Good point.

Katniss: Ok, when we get to my world, try not to lose it, ok?

Me: We won't. Lisa, deploy the U.S.S. Valor!

Lisa: Affirmative 2nd Elder Brother.

The U.S.S. Valor was deployed and we were on our way to the world of the Hunger Games.

---

The U.S.S. Valor was flying through space.

Me: Captain's Log, Stardate 2672.4: The U.S.S. Valor is en route to a post-Apocalyptic Dystopian Planet Earth that is ruled by a tyrannical district. With us is legendary rebel hero Katniss Everdeen and our mission is to destroy the Capitol District and kill its president and free the world from his rule.

Lola: I can't believe this is really all real.

Me: I know. Katniss how did your version of Earth get turned into the Post-Apocalyptic dystopian nightmare it is now?

Katniss: It was because of Snow. He ruined our home planet. He destroyed much of our entire planet and now everyone is starving. Living on our world is like living in a total nightmare.

Me: What year is your planet Earth set in?

Katniss: From your time standards it would be in the year 6742.

Everyone: Wow!

Me: That's 4,723 years from now. It's 2019 in this time.

Katniss: So we were teleported through time somehow.

Me: Yeah.

Lincoln: It's absolutely horrifying what you all went through Katniss.

Laney: I know. I read the books on the Hunger Games and they were awesome!

Laney showed Katniss her books on the Hunger Games series and Katniss was amazed.

Katniss: So they made books about my adventures?

Me: And a movie series and they are awesome!

Nico: They sure are.

Lori: The books and the movies are both literally good.

Me: They sure are. My mom read all the books and she loves them. Also Katniss you are an awesome and magnificent leader. You lead a bunch of rebels and achieved victory and overthrew an entire empire.

Katniss: I'm glad you all look up to me is such high regard.

Me: Millions of people all over our planet Earth do. You are a major inspiration to a lot of people.

Katniss: I'm glad they look up to me.

Maria: You know what, Katniss? You're right. We can't rush in during every time we fight bad guys.

Katniss: Don't get me wrong. The way you guys do things is pretty good. Just not for situations where rushing in can get innocent people killed.

Me: That's a good point. But with a heavily armed and well fortified place like the Capitol District, this is gonna take some heavy planning.

Katniss: Ok. Before we confront Snow, we need to free the captives from the guards. The captives are kids being forced to fight, like me. Do you guys think you can keep your emotions under control for this part?

Me: We can do that.

Lisa: We have arrived at our destination.

Me: On screen.

On the view screen we saw another planet Earth. We were 10 light-years away from our Earth, but this version of planet Earth was completely different. What we saw was absolutely horrific. The continents of the planet were changed big time and the landscape was radically altered. On North America, we saw that the entirety of Florida, the Gulf Coast, The Atlantic East Coast, the Pacific Coastline, much of western and southern Alaska and the Northern Canadian Province of Nunuvat were completely underwater and the Hudson Bay was expanded. Most of North America was still intact. Greenland was still intact. The Caribbean islands were all completely underwater. Most of Central America was still intact. Parts of Northern, Central and Southern South America were underwater. The Amazon River was completely overflowing and it covered much of Brazil. Uruguay, Southern Paraguay and northern Argentina were underwater. Parts of Antarctica were underwater. England was almost completely underwater and had now been reduced to islands. Parts of Europe, Iceland and Scandinavia were still intact. Parts of western and southern Africa were underwater. The Mediterranean Sea, Black Sea, Caspian Sea and Aral Seas were overflowing. Parts of Asia and Russia were still intact, but the western side of India and the Maldives were totally underwater. Eastern China was totally underwater. Part of the Indonesian Islands were underwater. Japan was still intact. But the south central side of the island of Honshu was underwater. Southern Central Australia was underwater. All the major cities around the world had been completely destroyed.

Me: This is worse than what we first thought!

Laney: I can't believe Earth became like this!

Lana: What could've caused the whole planet to become like this?

Me: This wasn't the work of a Nuclear Holocaust. This was the work of the polar ice caps melting partially.

Varie: That's not the worst part. The population numbers took an incredible nosedive. They started out at 7.9 billion people and now it's 6.5 million people.

We gasped in sheer horror.

Me: This is much worse than what we first thought. Our race on this planet is now teetering on the razors edge of extinction.

Laney: That's 99% of the planets population!

Lisa: 99.15% to be precise.

Me: This is worse than what we first thought. Now the planet has a population the size of New York City and unless we kill Snow then the entire planet will have no future. Lets begin our operation!

We engaged the stealth cloaks and landed on the planet in the mountains outside of the Capitol District. The Capitol District was right inside the Rocky Mountains, an area I am very well familiar with. We got out and Katniss showed us the Capitol District. What we saw from the distance of the mountains that it was an amazing city and we saw that it was an advanced city. It looked like a city from the year 2250.

Me: Wow. So that's the Capitol District.

Laney: It's just as amazing as it is in the books and in the movies.

Chloe: It sure is.

Me: And it's just as heavily fortified as what we have seen. This is gonna be much harder than what we thought. Rushing in would be suicide.

I took out a pair of advanced binoculars and studied the city. I saw that the whole city was heavily guarded with all kinds of advanced weaponry, highly trained guards and more.

Me: There's guards and weapons all over the place.

Nico: It looks like Snow is prepared for anything.

Laney: He sure is.

Me: First we have to get all the kids out of there.

I looked around and I saw a prison complex. It was located on an island in the middle of the lake.

Me: That Prison complex must be where they're keeping the kids. We have to get them out of there.

Nico: Skywarp, you think you can handle that?

Skywarp: You know I can boss.

Nico: Okay.

Me: I put a special cloaking device in you that will make you invisible completely to radar so no one can see you Skywarp.

Nico: Also I used my energy to enhance your energy to increase your teleportation range and your speed 100-fold. But it will only last for two hours.

Skywarp: That's more than enough time boss.

Me: Fortress Maximus will be helping you out too. He has the same features.

Skywarp: Roger that.

Nico: Lets do this.

Me: Okay. Cerebros, Initiate rescue protocol ΣΘΓ121!

Cerebros: Acknowledged and commencing.

Fortress Maximus was in his fortress mode and he and Skywarp were off and they went completely invisible. They flew out over the entire prison complex and Skywarp teleported and took all the kids one by one onto Fortress Maximus. He used incredible speed and the guards were all completely stumped as to what's happening. When all the kids were taken they were horrified.

Guard: All the kids are gone! You better report this to President Snow!

Guard 2: Me!? You're second in command!

Guard: So. Make it an order!

Fortress Maximus and Skywarp went back to us.

The kids were unloaded in our hideout and they saw us. We introduced ourselves. Later we got to work on our battle plan.

Katniss gave me a map of the Capitol District and it was a very well detailed and very sophisticated map.

Me: Okay. Here's the plan. Naruto, Lori, you will be the leaders of the Dragon, Angel and Bird Air Assault Squad. You will take the squad and attack and destroy the laser defense turrets and the guards along the Capitol District Perimeter.

Naruto: Roger that bro.

Me: Okay. Laney, you, Sakura and Lynn will lead an attack squad underground and attack the guards and the district from underneath. We need to take out as many guards as possible without harming the civilians.

Laney: You got it J.D.

Lynn: You can count on us.

Sakura: Roger that.

Me: Carol, you will call forth King Ghidorah and you Vince and your children will attack with the power of the Kaiju and help out the Air Attack Force.

Carol: Right!

Me: Great. Varie, you, Lilly, Cleo and the girls will lead an underwater attack force that will ambush the guards and the forces underwater. We need to use the element of surprise on all of them.

Varie: Roger that honey.

Me: Okay. With the guards down on all three levels, Me, Nico, Luan, Eddy, Edzilla, Chloe and Katniss will go into the main building while everyone provides more cover fire. Lana, Lola, you evacuate the civilians and get everyone to safety while everyone attacks.

Lana: Roger that.

Me: Okay. This is gonna be a very dangerous and very brutal battle. But our plan is to kill Snow and end his reign of terror. He has plagued this planet for far too long. Any questions?

No one asked.

Me: Okay. We attack when I give the signal. Lets move!

We got ready.

---

It was D-Day - The Day of Destiny and our mission was to make Snow pay for his crimes against our planet. We were now called the Team Loud Phoenix Storm Mockingjay Alliance. It was gonna be a rough and dangerous fight. But we were ready for anything.

I was looking through my binoculars. I saw all the guards on the towers.

Me: Excellent.

I pulled out a signal flare gun.

Me: Okay. Lets tear these fuckheads apart!

I fired the flare and a red light was fired into the sky and it exploded and the Air Attack Force was on its way. Most of us were on Dragons and Birds and were carried by angels.

Me: Air Team, Fire at will!

Naruto: Right! Fire at will!

The Dragons fired powerful blasts of fire from their mouths and everyone fired powerful blasts of their powers, energy blasts and elemental energy blasts and they rained down on the entire Capitol District and massive fiery explosions broke out. They destroyed all the guard towers and annihilated all the guards all along the walls of the district and set everything on fire. Lori fired powerful energy blasts and powerful blasts of wind that blew all the guards away and incinerated them. Riley and Syd summoned up massive trees and they uplifted the walls and sent guards high into the air at incredible speed.

Kin: FIRE!

Kin Tsuchi and her Dragon fired powerful energy blasts at the guards and vaporized them in an instant in a powerful explosion.

KRAAABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: That was really clever.

Katniss: It sure was.

Stewie: Very impressive.

Me: Yep. (Through the radio) Carol, Vince, you're up!

Vince: Roger that Partner.

Carol: Lets get them!

Carol raised her hand up and a massive fiery explosion erupted out of the ground and turned into a massive fireball. The fireball took form and turned into King Ghidorah!

Carol and Vince flew onto King Ghidorah's middle head.

Vince: Lets get them!

Me: Fire at will!

King Ghidorah fired it's Gravity Lightning and Carol and Vince fired Space Godzilla's Corona Beams and the blasts hit the buildings. The buildings exploded into massive piles of flaming debris and they were blasting more guards and buildings apart. Carla fired a powerful blast of Burning Godzilla's Spiral Atomic Ray and blew most of the buildings into burning rubble and fiery explosions. Evelyn and Pearl fired Mecha Godzilla's rainbow laser vision, finger missiles and chest blasters and the whole city was being blasted apart and turning into a major war zone! Lola and Lana were evacuating all the civilians and getting them to the safety of the mountains. Massive fiery explosions were decimating the entire district.

Me: Underground team, move in!

Lynn: (On the radio) Roger that!

Me: Underwater Assault Team, attack!

Varie: (On the Radio) Roger that!

The Underwater and Underground teams moved in. Massive earthquakes rattled the ground and massive geysers of lava exploded out of the ground and rained down on the guards and rocks, boulders and red hot meteors rained down and they all hit and smashed the guards and massive fiery explosions rang out. Massive explosions erupted out of the water and killed a bunch of guards and destroyed a bunch of ships and subs in the water.

Maria fired a massive blast of water and Edzilla was riding on a massive megatsunami.

Maria and Edzilla: MEGATSUNAMI EDZILLA SMASMSTORM!

The wave carried Edzilla into the city and he slammed into them and pulverized a bunch of guards with merciless fury.

Me: This is it guys. We're going in! CHAAAAAAAARGE!

We went at the city and roared in a thunderous roar of yelling and

Nico fired a powerful blast of energy at the gates and blasted them open. More guards came out and we had our swords and weapons ready and blasted and slashed them apart into a million pieces. Blood and guts were flying all over the place and splattering everywhere. The city was turning into a massive bloodbath. We got to the courtyard of the main capital building and we saw a huge army blockade ready for us.

Me: They got a blockade ready. Nico, Katniss, Edzilla, Eddy, Luan, get ready to move!

Nico: Right!

Edzilla: Ed smash dumb president now?

Eddy: First Lumpy, let's find an elevator to his office. So far, not rushing in is actually doing us some good so far.

Carol fired a blast of Godzilla's Atomic Ray and blew most of the army apart and everyone fired a bunch of blasts of energy and powers and blew them apart.

Me: Now's our chance! Follow me!

We ran fast and went into the Capital Building as everyone was providing cover fire.

Vince: Lets finish them with our combos!

Skywarp: Roger that Vince! CYBER KEY POWER!

The Earth Cyber Planet Key went into the back of his jet booster and it enhanced his speed to 60,000 miles per hour and it enabled him to get more missile launchers on his underside and top side and he can fire more missiles all at once.

Riku: Lets get them! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Riku's right arm device and it enhanced his Keyblades powers.

Skywarp and Riku: HYPERSONIC DARKFIRE STRIKE RAID

HURRICANE!

Riku threw his Keyblade and it was enveloped in Dark Fire and Skywarp flew at 60,000 miles per hour and the Hypersonic Sonic Boom combined with the keyblade as it was spinning and it turned into a deadly fiery spinning saw blade. It slashed through numerous guards all at once.

Slimy called upon the Animatron Cyber Planet Key and it went into his back and it enhanced his slime powers to the point where they become extremely acidic.

Skydive: Lets get them! CYBER KEY POWER!

The Earth Cyber Planet Key went into the back of Skydive's Nega Blaster and it enhanced its power 100-fold.

Skydive: ACID MOLECULAR DESTRUCTO-BURST!

Slimy fired a massive wave of acid slime and it covered the guards and Skydive's nega blaster finished them by reducing them to protoplasmic goo.

Inside the capital building we were killing more guards and more. Along the way, Nico caught a Cherrim and they were having trouble with a Gastrodon.

Horsea (dodges Gastrodon's Bubblebeam): Watch it!

Poliwag: Yeah! That's not a Bubblebeam.

Horsea and Poliwag: This is a Bubblebeam! (both of them fire a Bubblebeam at Gastrodon)

Their attacks hit it and knocked it out.

Nico: Pokeball go!

Nico threw a pokeball and caught it!

Nico: Yes!

Me: Way to go Nico!

Then we got to an elevator.

We took the elevator to the top floor. We were listening to awesome elevator music.

Me: This elevator music is catchy.

Nico: It sure is.

Chloe: I would not want to listen to music like this in this place.

Me: You're right. Lets stay focused.

We arrived at the top floor and we got out of the elevator and we were at a huge office and then lasers fired at us and hit the floor. We dodged them and we saw PRESIDENT SNOW HIMSELF! He was operating a laser turret and firing it at us and I fired a powerful energy blast and destroyed the turret and he jumped out of it and landed on the floor as it exploded.

KRABBBOOOOOOOOOOOOOOOOOOMMMM!

Me: President Coriolanus Snow. So we finally meet at last.

Snow: Yes so we do.

Me: Before we fight, I want to know something? Why did you plunge this whole planet into a Post-Apocalyptic Dystopian Nightmare?

Snow: To enforce my will upon the planet and enslave it to how I like it. I melted the polar ice caps to destroy everything we worked hard for.

Me: You motherfucking shitstained son of a bitch!

Nico: Coriolanus Snow, you have failed this world and the entire universe!

Me: Take him down!

We went at him and I punched him in the face and kicked him in the stomach and kneed him in the face. Nico punched him in the face and knocked out some of his teeth. Me and Snow engaged in a powerful sword fight and the power of our clashes were so strong that it was unbelievable! We clashed violently and sparks were flying everywhere and setting everything on fire.

Edzilla: ED SMASH BAD PRESIDENT!

Edzilla smashed and brutally pulverized Snow into pulp. Chloe fired a powerful blast of magic energy and a swarm of piranha's appeared and bit him all over the place.

Luan and Eddy both fired a massive blast of light and burned him bad.

Me: Lets finish him!

Chloe: Lets get him! MAGIC LIGHTNING STORM BURST!

Chloe fired a massive blast of magic and a storm cloud formed and lightning struck all over him and electrocuted him.

Katniss: My turn. This is for my friends and my family! FIRE ARROW FIRESTORM!

Katniss fired an arrow and it lit on fire and it hit Snow and went all the way through his leg and burned him and it exploded and blew his whole leg off. He screamed in excruciating pain.

Me: It's over Snow. You've lost. And now you will pay for your crimes.

Suddenly a massive earthquake rattled the planet and the skies stormed up.

Nico: What's happening?

I looked at my device and I saw that the planets core has been made completely unstable.

Me: Oh no! The planets core has been completely destabilized. It's accelerating rapidly! The whole planet is going to explode!

Everyone gasped in sheer horror!

Snow laughed malevolently!

Me: What have you done you fucking fucker!

Snow: I pressed this Self Destruct button here. In 10 minutes, this whole planet and everyone and everything on it will be completely obliterated. You all will be joining me in the fire of hell for all eternity! We're all going to die you fucking pieces of shit!

Me: Don't count on it you motherfucking son of a fucking bitch!

I snapped my fingers and beamed everyone on the planet to our Earth. We went back to the ship and took off. We were watching the whole thing from a safe distance. Snow was left on the planet. He saw the whole planet destroying itself. Huge torrents of lava exploded high into the sky, the sky was stormed up and lightning struck everywhere and massive earthquakes rattled the land. Water was being sucked up into the sky and the ground was upheaving and changing and crumbling apart.

Snow: NO! DAMN IT! (ECHOING)
***NOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

We watched on in sheer horror as we saw the whole planet explode right in front of our very eyes.

***KRRRRRRRRRRAAAAAAAAAAAAAAAABBBBBBBBOOOOOOOOOO***

The explosion was so powerful and so devastating that it shook the entirety of the area to the core and destroyed the whole solar system in an instant. The whole planet and the whole Solar System was completely obliterated in an instant! There was absolutely nothing left.

Me: Wow! Snow destroyed the whole Solar System in this area.

Lincoln: What a monster! I'm glad this wasn't our solar system.

Me: Me too.

Katniss was shocked and she saw right in front of her very own eyes, that her home planet was now completely vaporized in a split second.

Katniss: My home. MY HOME! (CRYING!)

I went over and comforted her.

Me: I'm so sorry Katniss. I'm so sorry.

Katniss was crying hard. Her home was destroyed and she cried hard into my chest. We had never seen anyone cry so hard. Later we were back on our Earth.

Katniss was reunited with her friends. Now she has a chance to start her life over.

Nico: Katniss, how would you like to live with us?

Katniss: Really?

Nico: Yeah. You taught us the value of thinking strategically. We could learn a lot more from you.

Me: That's right. It was thanks to your strategies that we triumphed over Snow and saved everyone and destroyed his tyrannical rule.

Katniss hugged me.

Katniss: Thank you so much J.D.! Thank you!

Me: You're welcome Katniss.

We showed Katniss her new room at our estate and she loved it.

Katniss: (To the viewers) To all tyrants everywhere, we will find you and take you down.

THE END

---

Another Fanfiction Complete

The Hunger Games is an awesome book series that my mom loved to read and she read all the books. What happened on the world of the Hunger Games was absolutely horrific and it was so awesome how Katniss lead an uprising against the Capitol District. This has to be one of the most strategically planned chapters we've ever done. NicoChan11 gave me the ideas for this one. Thanks man as usual. I got the idea for this one from watching an episode of the Fairly Odd Parents called the Hungry Games which was a parody of The Hunger Games. Jennifer Lawrence, Josh Hutcherson, Liam Hemsworth, Woody Harrelson, Elizabeth Banks, Lenny Kravitz, Stanley Tucci and Donald Sutherland all did a great job in all three movies from 2012 to 2015! They were awesome! Mockingjay was in 2 parts. I never saw the movies or read the books but they were awesome from what I've heard. Let me know what you all think.

See you all next time.

Hunger Games is owned by Gary Ross, Francis Lawrence, Suzanne Collins and Lionsgate Films,

# An Electrified Maniac

It starts at the estate. Nico was watching TV and looking at all his Goosebumps books. He was figuring out which of the Goosebumps monsters we should face next.

Nico: The next Goosebumps monsters that we should fight in the future could be Monster Blood and whoever Billy and Sheena Deep fight.

His newest Pokemon that he caught, an Ambipom and a Drifblim were with him.

Ambipom: Maybe we should just follow what your heart is telling you.

Nico: That's a great idea Ambipom.

Manaphy came to him.

Manaphy: Papa?

Nico: What's wrong Manaphy?

Manaphy: I think Mama's sick.

Nico: Uh oh.

Nico and Manaphy went up to May's room and they went in and they saw that May was really sick. She had pale skin, red droopy eyes, runny nose and she was coughing, sneezing and aching.

Nico: May you don't look so good.

May: C'mon, Nico. I'm perfectly fine.

Nico went over to her and felt her head. She was burning up.

Nico: No you're not May. You're burning up.

Lana: What!? May's sick!?

Lana and Lincoln came in and Lana got the thermometer and she scanned May's head.

Lana: 102.3˚ May has a high fever.

Lincoln: Boy May you don't look so good.

May: But I'm fine.

Nico: Trust me May. You are anything but fine.

May was coughing and sneezing bad.

May: Oh you are right. I am sick.

Nico: You need to stay in bed and get some rest. We'll take care of you until you're better.

May: Thanks Nico.

---

Me and Xerneas were riding my Rapidash to May and Max's house. It was such a beautiful day and it was an awesome morning.

We arrived at May's house.

Caroline: J.D., Xenia.

Me: Hello Caroline.

Caroline: How is May and Max doing?

Me: They're doing great.

We talked to Caroline while she was tending to her garden.

Caroline: So you all killed both Team Magma and Team Aqua?

Me: Yeah we were supposed to kill just Team Aqua. But both teams surfaced at the same time and there was a change of plans.

Because of that, we went after both teams. The Alpha Ocean washed Team Aqua with the Tide and the Omega Volcano blew Team Magma away.

Xerneas: That's right.

Caroline: That's amazing. It's good that both teams got what was coming to them.

Me: Yep. Our next target is Team Plasma and the Delta Sky will Blow them into the Stratosphere.

Caroline: What is Team Plasma's goal?

Xerneas: They want to rule the world by separating both humans and Pokemon from each other forever.

Me: A world without free will for both humans and Pokemon. That's the ultimate fate worse than death for both sides. When Team Plasma makes their move, we're going to destroy them completely.

Xerneas: We won't let Team Plasma do this.

Caroline: I know you won't.

My cell phone rang.

Me: One sec.

I answered it.

Me: Hello?

The screen split into two parts. One part on the left was me and the second part was Nico on the right.

Nico: Hey dude. It's Nico.

Me: What's up man?

Nico: I'm afraid that May is sick. She's got the flu.

Me: Oh no. I'm sorry May's sick dude.

Caroline: May's sick?

Me: One sec dude. (To Caroline) Yeah she's sick. She's got the flu.

Caroline: Oh no. I hope she's doing all right.

Me: She'll get better Caroline. (To Nico) Tell her to get lots of rest and drink plenty of liquids.

Nico: I did. Me, Ratchet, and the Loud's are gonna watch her and look after her.

Me: Okay dude. We'll be back in a few.

Nico: Okay. Tell Caroline I said hello.

Me: Will do. See ya dude.

I hung up.

Me: Nico says hello Caroline.

Caroline: Tell him I said the same.

Me: Will do.

* * *

Later we went back home to the estate. Me and Xerneas went into the estate and we saw Nico sitting on the couch.

Me: Hey dude.

Nico: Hey guys. How was Caroline?

Me: She's doing good. She was tending to her garden when we were talking to her. She says hello.

Nico: I'm glad she's doing good man.

Me: Me too.

I went up to May's room and saw her being looked after by Manaphy and Poliwag and Ratchet.

Me: Hey May.

May: (Weakly) Hey J.D.

Me: Nico told me you got sick. I'm sorry.

May: It's all right.

Me: At least you have everyone taking care of you. But because of your condition you have to stay in bed.

May: Okay.

Me: Get some rest and you'll be better soon.

In the living room I was monitoring on the computer how many Anti-Fairies were left before the big date with destiny on September 13th, 2019. Because of my threatening message and the explosions that killed a huge number of them, their population numbers took an incredible nosedive from 23,257,240 to 724.

Me: Wow! I didn't know my threatening message produced these results. The Anti-Fairies population is down drastically.

Laney: They sure are. You killed so many of them.

Me: I know. Killing all those Anti-Fairies was the ultimate declaration of war. But it was worth it to show them that our threat was legit. My threatening message was more than just that. It was called an Anti-Fairy Holocaust.

Wanda: They sure got what they deserved.

Me: And then some. Anti-Fairies are pure evil and want to destroy us all.

Lynn: When we kill them all, it'll all be worth it.

Me: Yep.

Katniss: Why are these Anti-Fairies so bad?

Me: Because they are responsible for all the terrible incidents that occur on Friday the 13th. Every time that day comes around, they cause all kinds of trouble to everyone.

Timmy: Yeah. They broke my moms back with a jackhammer.

Katniss: Ouch.

Me: No kidding. Do you know that old saying "Step on a crack, break your mothers back"?

Katniss: No I don't unfortunately.

Me: Well it's a stupid superstition. It means that if you step on a crack like on the sidewalk or the street or any other place like that, your moms back will be broken to the point of being crippled.

Katniss: Ooh. Ouch.

Timmy: Yeah. The Anti-Fairies nearly crippled my mom.

Me: Yeah, that's what I heard. Whoever came up with all these dumb superstitions has to be the biggest and dumbest idiot on the face on the planet.

Lynn: No kidding.

Me: Wait a minute. Ronnie Anne, you had a bunch of black cats terrorize you right?

Ronnie Anne: Yeah why?

Me: Well that old saying from Scotland "A Black Cat crossing your path is bad luck" is another dumb superstition.

Ronnie Anne: Never really was the superstitious person.

Me: Me neither. These are Anti-Fairies.

I pulled out a wanted poster of an Anti-Fairy and show it to Katniss.

Katniss: These guys are Anti-Fairies?

Me: Yep. And they are pure evil. They look like regular fairies except they have bat wings, black crowns, black wands and are the total opposite of regular fairies personality-wise. I marked the date on my calendar for when we face the Anti-Fairies in the ultimate war on Friday the 13th.

I pulled out my calendar for 2019 and on the month of September, I marked the date Friday, September 13th, 2019 with a black crown, broken black wand and an evil skull and crossbones.

Katniss: Very creative but detailed.

Then the alarm went off.

Me: Uh oh.

At the computer we found out that Electronique is at it again.

Me: Electronique? Who is she?

Kim: She's one of my most dangerous enemies. She has a very strong hatred against me and Shego.

---

Electronique was a villain of Go City who was able to utilize the power of electricity and use it for her own nefarious purposes. Originally imprisoned by Team Go, Electronique escaped and sought vengeance against Team Go for her imprisonment. After luring all of Team Go into a trap, she used the Attitudinator to change Team Go from good to evil. Unbeknownst to Electronique, Shego had since turned evil and she was turned to good instead.

With the majority of Team Go's members at her disposal, Electronique plotted to terrorize Go City and bring it to its knees by using the very superpowers that had previously kept it safe. Despite the Attitudinator's effect, Team Go still bickered like they used to, forcing Electronique to send them to find Shego, the one who had kept them in line and on track before they had disbanded so she could turn her evil. However, Shego came to them along with Kim Possible, Ron Stoppable and Rufus after seeing what her brothers were being forced to do for Electronique.

She was eventually defeated by Team Go (who had all become good) with assistance from Ron (who had temporarily resumed his evil identity as Zorpox the Conqueror). As Electronique was being escorted by Team Go back to prison, spewing out threats of her return, Ron used the Attitudinator on Electronique to ensure that she would never be a nuisance to Go City ever again.

---

Me: She sounds pure evil. But I have an idea. We're going to make a trap for her at a local warehouse.

Shego: And I can use this on her to change her ways.

Shego pulled out some kinds of strange helmet-like device.

Me: What's that thing Shego?

Shego: It's called the Attitudinator. We built it to turn villains into good guys.

Me: This is a genius invention.

Laney: This is a perfect way to rehabilitate criminals.

Me: Guess we should've thought about this thing before we killed the Joker. But what's done is done.

Kim: Shego, You might want to call your old Team Go Teammates as well.

Shego: You got it Kim.

Me: What is she capable of?

Kim: She has crazy lightning powers because of her suit. She has a powerful battery in her suit that gives her lightning powers.

Me: Then we'll overload that battery and knock her out that way.

Katniss: That's a great idea. How are you gonna do that?

Me: We'll overload her suit with lightning that's far more powerful and knock her out.

Shego: To lure Electronique out, I'll have her meet me in an abandoned warehouse.

Me: That's a great idea Shego. Lets get her!

We flew out.

---

We set up a trap at a local warehouse by the Lake Huron pier. Shego was facing Electronique.

Electronique: I knew you'd come to me eventually, Shego.

Shego: Actually, this whole meet up was ironically a trap.

We bursted in with a fiery explosion and a phoenix cry was heard. We landed in the warehouse and all of Team Go was with us - Hego, Wego and Mego.

Hego: It's good to see that you've finally changed your ways, sis.

William: And I can vouch for her.

Shego: Thanks Hego.

Me: Electronique, I presume?

Electronique: That's right and I hate you all to fucking hell!

Our auras flared up with incredible power.

Me: Geez your temper is awful!

Nico: Electronique you have failed this city!

Me: And she needs a major attitude adjustment.

Lincoln: Lets get her!

We went at her and I punched Electronique in the face and she fired a powerful blast of electricity and it hit Livewire and energized her.

Livewire: Thanks for the energy, bitch!

Livewire fired a powerful blast of electricity and lightning and Electronique deflected it and it hit Sam S.L. and it was electrocuting her! She was screaming in excruciating pain. But then something happened. She was holding her stomach in a lot of pain and she was throwing up. She then got excruciatingly splitting headaches and she was transforming. Sam's skin turned as white as a ghost, her hair turned neon electric blue with a white streak and her clothes changed to a black body suit with a lightning bolt flap over the chest, she had teal gloves and black and teal boots and her hands and body had a tremendous amount of lightning surging through it.

Sam S.L.: What!? What happened!?

Me: Wow! Sam you look incredible! Livewire's lightning turned you into another Livewire!

I formed a mirror and Sam saw herself and she was shocked.

Luna: Sam this is awesome dude!

Sam S.L.: It sure is. Not only do I have fire powers but now I have lightning powers as well. In this form call me Sam Livewire.

Livewire: Love the name hun.

Then blasts of ice hit Electronique and froze her up to her waist.

We saw May and she was in her pajamas. She was still sick.

Me: Are you crazy May!? You're too sick to fight!

May: I may be sick. But I can still kick ass!

I was amazed with her determination. She was as strong as Girl Jordan was when she was sick during the fight with Star Sapphire.

Then a screech was heard and we saw a massive heartless appear in a massive burst of lightning. It was a giant thunderbird but with incredibly spiked wings and a sawtooth beak and the feathers were Larxene's Lightning Kunai and it was generating enough lightning to power 20 billion cities for 20,000 years. It was called the Electrified Skyterror.

Me: Wow! That Heartless is incredible!

Elena: I completely forget that I had a Heartless as well.

Electrified Skyterror: Yes and now you will be shocked out of existence!

Elena: Wait!

The Electrified Skyterror landed and Elena went up to it.

Elena: Larxene, listen. You were my Nobody and I was turned into you when I became this Heartless. I let my darkness consume me and I was foolish to do so. But you have to understand that I would never hurt another person. You and I, we can work together and help achieve what many people can only dream of and help people and we can become a magnificent and awesome force of good.

The Electrified Skyterror began to see that Elena has changed dramatically and that she was right.

Elena placed her hand on its head and she and her Heartless merged together and she underwent an incredibly powerful transformation. She was enveloped in a powerful ball of pure lightning and the amount of lightning being generated from her transformation was so powerful that it was overloading lights and electrical boxes all over the area. When the ball faded, Elena was forever changed. She had a sleeveless trench coat that looked like that of a powerful thunderstorm full of lightning, the Electrified Skyterror's wings and powerful tail and she had an aura that was overflowing with pure lightning and it was at 200 quintillion volts of pure electricity. And there was also a thunderbird symbol emblazoned in the middle of her forehead.

Elena: Wow! This is an incredible amount of lightning!

Me: Elena you look incredible!

Nico: No kidding. Her energy level is completely unreal!

Me: Lets take this freak down!

We all went at Electronique and I punched her in the face and kicked her in the stomach. Nico fired a powerful blast of energy at her and it hit by her and exploded.

KRABBBOOOOOOMM!

Electronique: (ENRAGED SCREAMING) I HATE YOU!

Our auras flared up and I punched her in the stomach and kicked her in the face and knocked out some of her teeth.

Me: Lets finish this! Combo and Final Smash time!

Baymax: Affirmative J.D. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and he got a massive power boost.

Optimus Prime turned into his Cybertron Form.

Optimus Prime: Lets do this. CYBER KEY POWER!

The Autobot Cyber Planet Key went into his left cannon and enhanced.

Baymax and Optimus Prime: ENERGY FIST RAYBURST!

Baymax charged up his fist and fired it and Optimus Prime fired his cannon and they hit her and exploded.

KRABBBBOOOOOOOOOOOMMMM!

Me: That was awesome! Time for some heavy hardware. Thundercracker do you mind?

Thundercracker: Not at all partner. Go for it.

Me: Thanks. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into my right arm and I got Thundercracker's fuselage missile blaster.

Me: Nice!

I fired the blaster and it hit Electronique and exploded.

KRABBBBOOOOOOOOOOOOOOOMMM!

Me: That was awesome!

Thundercracker: Great job partner!

Me: Thanks Thundercracker.

Cybertron Sideways: Lets finish the combos. CYBER KEY POWER!

Cybertron Sideways had his own Cyber Planet Key go into his shield and blades popped out of it.

Demona: Lets get them. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and it enabled her to use the light of the moon and the sun and form it into weapons. She formed a sword of pure sunlight.

Cybertron Sideways and Demona: SOLAR SLASH SURPRISE!

Sideways and Demona slashed Electronique all over the place.

Me: Final Smash time!

Hego: Lets do this! SUPER BOULDER SLAM!

Hego picked up a huge boulder at Electronique and it slammed into her with devastating force.

Livewire: It's time to give you a shock! FURIOUS LIGHTNING WOLF!

Livewire fired a massive blast of lightning and it turned into a huge wolf made of pure lightning and it hit Electronique and bit her and threw her into the crates.

She got up and was enraged.

Me: Lets finish this!

I fired a massive blast of lightning and it hit Electronique. Lincoln and Linka fired a massive blast of lightning and it combined with my lightning. Gabrielle, Sam and Nico fired powerful blasts of lightning and they combined with our lightning.

Electronique: (Evil Laughter) Your lightning is pathetic.

Elena: Lets see how you like this!

Elena fired a massive blast of lightning and our lightning was now more powerful than ever. The lightning was too much for her suit to handle and it shorted the whole suit out and exploded. Causing her suit to be destroyed completely and her lightning powers were stripped from her.

I put the Attitudinator and pressed a button and it changed her.

Hego: (To the viewers) Never mess with Team Loud Phoenix Storm or you will pay the ultimate price. Either your life or your freedom.

* * *

Back at the estate, Electronique was now Lola's maid.

Lola: Please get me some more tea.

Electronique: Yes Mistress Lola.

She did so.

Lynn: So how long Is Electronique gonna be your maid?

Lola: Until I get bored of her. Which might be never.

May was back in bed and Nico was taking care of her.

Laney: I'm sorry you got sick May.

May: It's all right Laney.

Nico: But I'm always here for her.

It was gonna be an awesome recovery.

THE END

---

Another Fanfiction Complete

Electronique was another strange villain of Kim Possible. I thought she was cool but she had a really bad temper problem. And no one like that. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Maniac Fashion Designer

It starts at Gotham Royal York High School. Me, Stacy and Nico were walking down the hall to our next class. Lincoln and his younger sisters were with us. The reason is because a water main break caused the elementary school to close for the week.

Me: I'm sorry the school was closed Lincoln.

Lincoln: It's all right J.D. But at least we're seeing what it's like in the high school.

Laney: That's true. I can't wait to see what it's like at the school Lori, Leni, Luna and Luan go to.

Linka: It's gonna be so cool.

Lily: It sure is.

Clover: Hey guys.

We saw Sam, Clover and Alex.

Me: Hey girls. What's shaking?

Alex: Not much J.D. Just really nervous about todays trig test.

Me: I know that feeling. Math was never my strongest forte. That's more Lisa's strong suit.

Lisa: Indeed 2nd Elder Brother.

Sam (TS): Are you really Lisa's older brother J.D.?

Me: (Laughs) Everybody asks me that. But we're not siblings by blood. Ever since I moved here in 2016 we've developed a very strong and very powerful bond that made us like brothers and sisters.

Lincoln: Yep. J.D. and all of us are close in name but not in blood.

Me: Yep.

Clover: That's a really powerful bond.

Sakura came in and she was dressed in a traditional Japanese school girl uniform.

Me: Wow. Sakura you look awesome in the Japanese School Uniform.

Sakura: Thanks J.D. Lady Tsunade says it's part of a special program she has for us.

Fu: And it sure does look awesome.

Fu was wearing a blue Japanese school girl uniform and she had the kanji for the number 7 on her shirt. 七

Me: Wow. Fu you look great. And the number 7 on your shirt is perfect.

Fu: Thanks J.D. We're learning so much more in your schools other than just being a ninja and learning how to fight.

Me: That's great Fu. They do say that variety is the spice of life and you have to learn all that you can.

Sakura: That's true.

Nico: Yep. I may be a Saiyan and a strong warrior, but even I need to strengthen my brain with knowledge.

Sakura: That's true.

Naruto came over and he was dressed in an awesome High School Uniform. (Konoha High School Uniform) But he had the kanji for the number 9 on his shirt. 九

Naruto: Hey guys.

Me: Looking good bro.

Naruto: Thanks bro. Who would've thought that High School clothes from Japan would look good on me?

Fu: They sure do Naruto.

Me: And the number 9 is perfect too.

Mandy then came up to us.

Me: Oh great.

Mandy: Hey losers. Check out my new shoes.

We saw that Mandy had nice sparkly purple shoes.

Me: Nice shoes. Where did you get them, at a whorehouse?

Mandy gasped at me laying on the sick burn and we laughed at her.

Mandy: Are you saying that I am a whore!?

Me: That's what I just said right? Here's a fact for you Mandy. We have 3 things that we don't rub in other people's faces.

Mandy: And what is that!?

Me: 1: We may have all the money in the world but we don't rub our wealth in other peoples faces. 2: We aren't snobby little brats that think they are better than everyone just because they are rich, popular, more beautiful, have better clothes and have superiority complexes. And 3: We don't brag about all that.

Mandy: Well it doesn't matter because I'm still better than all of you. And Clover you need to dye your hair a better color you dumb blonde!

Mandy laughed like a hyena.

Me: Ooh I HATE THAT GIRL!

Lori: I hate her too! She makes me sick just looking at her!

Lola: I will rip her apart!

But then we saw Clover growling in extreme rage and she had raging fire blazing in her eyes and real fire burned in the background and Satanic Cultist music was playing.

Me: Uh oh. Looks like Mandy is now miles down shit creek.

Sam: Oh boy. When Clover gets insulted about her hair she goes completely ballistic!

Me: Oh shit and Mandy just crossed that line!

Clover then went ballistic and she ran after Mandy faster than a bullet fired from a gun and she was running so fast that she was setting the floor of the whole school on fire.

Me: Wow! What speed!

Clover pounced on Mandy and she punched and viciously pulverized Mandy with such extreme ferocious fury that it was intense.

Then Clover took Mandy to the Principals office and reported her and then Karma bit Mandy in the butt big time. Mandy got expelled from school.

Me: What!? You got Mandy expelled!?

Clover: Yep. Making fun of my hair was the final straw that broke the camels back.

Me: Well I would say she deserves it.

Lana: Me too. That girl is nothing but trouble.

Nico: Mandy you have failed this school and this city.

Me: You said it Nico. But lets ruin her life even more with a deadly prank. Luan, Eddy, Naruto, it's time to work your magic.

Luan and Naruto got to work. Mandy was in an arm cast and she had a crutch and a broken leg and an ice bag on her head and she had a black eye.

Mandy: I can't believe that stupid Clover! She ruined my life! I'll get you for this Clover!

She got in her car and was about to head home. She started her car and suddenly something exploded in her car and it smelled so horrible that she got out of her car and was hurling her guts out.

Me: The El Mongo Stink Bomb. Works every time.

Stacy: That bitch got what was coming to her.

?: Hello Stacy.

We turned and we saw a black haired kid with blue eyes a black jacket, a red shirt with the Marilyn Manson symbol on it and black shredded jeans and black spike boots. It was Caine Manson.

Stacy: What the hell do you think you're doing here, Caine?!

Caine: What? Can't an old friend say hello?

Me: You know this guy Stacy?

Stacy: His name is Caine Manson, he's my ex-boyfriend.

Nico: Boy this guy looks like he's nothing but trouble.

Stacy: He is. We used to date until I found out that he's the illegitimate son of the infamous Charles Manson.

We gasped when we heard that name.

Me: This kid is related to Charles Manson, the infamous monster leader of the Manson Family Cult!?

Caine: That's right. Yes my father was an absolute monster. But I'm not like him. Sure I did a couple of terrible things, but I would never kill anyone like my father did.

Me: Your father was a monster. They called him the Devil Incarnate and he had a Swastika emblazoned on his forehead. He was beyond pure evil. He was Anti-God.

Caine: I know. My father was a monster. He was the most hated man in America and I'm glad he's dead.

Me: Was denied parole 12 times over the course of his incarceration. Everybody hated his guts and they wanted nothing more than to see him die. And he did die last year and now everyone is dancing on his grave and shitting and peeing on it.

Caine: I know.

Stacy (starts to transform): You're gonna wish you never showed your face again!

Me: Oh no!

Stacy had turned into her street shark form. Her skin turned pink and she grew her sawshark nose on her forehead and she grew her shark fin and her teeth turned razor shark and she roared. Caine ran in fright fast and Stacy reverted back.

Stacy started crying.

Stacy (tears in her eyes): Now do you guys see? This is why I'm careful about starting a romantic relationship!

Emma Gilbert: Look, Stacy. You can't give up on love just because of one bad boyfriend.

Me: That's right. There are plenty of other fish in the sea metaphorically speaking.

Stacy: (Sniffles) You're right guys.

Then we saw four girls come up to us and they were in their swimsuits. Their names were Betty Jaded, Kerri Taylor, Frankie Roxxx, amd Amo Morbia. Betty has red hair and is in a brown 2 piece bikini. Kerri is blonde hair girl with brown eyes in a blue one piece. Frankie has orange hair and a yellow summer shirt and purple skirt and Amo is a black hair girl with a blue one piece swimsuit

Nico: Is there any reason you 4 are coming to us in your swimsuits?

Betty: We think something's wrong with us.

Me: What's wrong girls?

Amo (holds her stomach in pain): What's happening to us?!

Me: Oh man!

We saw the four girls change right in front of our eyes! Betty turned into half human, half lion. Kerri turned into half human, half tiger. Frankie turned into half human, half bear and Amo turned into half human, half fox!

Kerri: W-What are we?

Me: Well.

I formed a mirror made of water and they saw their transformations and they screamed in absolute horror!

Betty: WHAT THE HELL HAPPENED TO ME!?

Kerri: I LOOK LIKE A TIGER!

Frankie: I'm a Bear!

Amo: And I'm a Fox.

Me: Just remain calm girls.

Lisa: I can help synthesize the antidote, but I'll need a sample of your blood to isolate the mutagen.

Frankie: Okay.

Lisa took four tubes of blood.

Lisa: I'll be back with the anti-mutagen when its ready.

Me: Okay Lisa. In the meantime girls. Boys cover your eyes.

I snapped my fingers and the girls reverted back to their human forms. But it was very painful for them.

The girls reverted back but they were naked.

Frankie (covering her naked body): Can we please have some towels to wear?

Ace: Coming right up. (Nico sprays his eyes with pepper spray) Seriously, Nico. Pepper spraying your eyes isn't necessary!

Me: Yeah that's too much dude.

Maria: I'll take you girls back to the estate and get you all some new clothes.

Betty: Thanks Maria.

They went back to the estate.

Suddenly the ground underneath us opened up and we went down a chute.

Stacy: WEEEEEEE!

Me: This is awesome!

Alex: Speak for yourself J.D.!

We hit a cushion and it plopped down and we were in Jerry's office.

Jerry: Hello girls and Team Loud Phoenix Storm.

Me: Oh hello Jerry.

Nico: I take it this isn't for a social visit.

Jerry: No it's not.

Stacy: What is this place?

Me: Oh that's right you're brand new to this place Stacy. This place is called W.O.O.H.P. It stands for the World Organization Of Human Protection. It's purpose is to protect the world from all kinds of dangerous threats that terrorize the planet.

Jerry: That's right. And it's a pleasure to meet you Stacy Bolton.

Stacy: Thank you Jerry. It's a pleasure to meet you too.

Sam: Jerry Lewis is our superior here at W.O.O.H.P. He's our boss.

Alex: That's right.

Me: Team Loud Phoenix Storm and W.O.O.H.P. now have a powerful partnership ever since Lincoln saved Sam, Clover and Alex when we were participating on Total Drama All Stars 2.

Lincoln: Yep.

Jerry: That's right. And girls congratulations on finally getting Mandy expelled.

Me: You guys have eyes and ears everywhere huh?

Jerry: Indeed.

Kim: So what's the sitch?

Jerry: We just recently got word that the Mad Fashion Designer Helga von Guggen is back to her old tricks again. Just this morning 4 cruise ships with numerous swimsuit models all disappeared without a trace.

Clover: (Growls!) That woman turned me into a cat!

Me: I take it you have a really bad history with this woman Clover?

Clover: I sure do.

Sam: She is a mad fashion designer. She turns people into animal hybrids all for getting their fur coats!

We gasped in sheer horror!

Helga Von Guggen is a rogue fashion designer and one of the show's recurring villains. She has a bodyguard, Trode, to do her bidding.

In "Wild Style", Trode met the spies while they were investigating the mass disappearances of cruise ships along with their crews and passengers. Helga was the mastermind behind the abductions, and instructed Trode to infect one of the spies with her mutation serum through the use of a dart, resulting in Clover being mutated into a catgirl. At Helga's hideout, Helga revealed to the spies that she was using the serum to turn humans into animal-like creatures in order to produce instant-fitting pelt coats. Ultimately, Helga fell victim to her own mutation serum and transformed into a massive Chimaera-like mutant monster, and was defeated and captured by the girls.

In "Fashion Faux Pas", Helga returned (in her normal state) with a scheme to use Mystique fashion clothes to strangle people to death. At her hideout, she told the spies her plan, and ordered Trode to keep an eye on them. In the end, she was turned in and captured again. It is never explained how she returned to normal in this episode.

Me: (GROWLS!) So she's a mixture of Cruella De Vil, Dr. Roland Paradigm and Dr. Moreau.

Laney: Three very dangerous villains in one.

Me: That really makes me sick! We'll gladly take the case Jerry. We're going to kill Helga. If there's one thing we don't tolerate it's mad scientists.

Nico: You got that right J.D.

Me: We'll gladly take that vile witch down Jerry.

Jerry: Very good.

We were given our gadgets and more and we were off. Helga lives on an island in the Solomon Islands in the Bougainville Area. We arrived at her island and it was a stereotypical volcano island fortress.

Me: A Stereotypical Volcano Island Fortress. Couldn't she have picked something a little more original?

Alex: Usually all villains never pick anything original.

Suddenly the ground shook and out of the ground arose a massive and horrifying plant monster! But it was no ordinary plant monster! It was a Heartless!

The Heartless that appeared before us was a giant 8-Headed Rose Serpent! Instead of snakes however, it was giant roses with voracious razor sharp bloodthirsty teeth dripping with extremely highly corrosive acid. It's body was made of leaves and razor sharp thorns that looked like those of Marluxia's scythes and it roared in a vicious and terrifying roar. The Roar was as horrifying as Godzilla's. It was Marluxia's Heartless - The 8-Headed Pain Rose!

Me: Look at the size of that towering monstrosity!

Elena: So this ugly thing is Marluxia's Heartless!

Laney: This thing is terrifying and ugly!

Riley: No kidding!

We heard someone laughing.

Me: Who's laughing!?

Elena: In the middle head!

We saw the middle head open up and out of its tongue arose MARLUXIA! He was now one with his own heartless!

Me: Marluxia! I thought you were still in the Book of Vile Darkness!

Marluxia: You ignorant fools. This was originally my heartless.

Elena: We can see that Marluxia.

Marluxia: You are just as pathetic as the others Larxene! How could you betray us!? After everything that we've done for you!

Elena: My name is Elena and I was never part of your wretched Organization!

Laney: Even in death you refuse to take a hit Marluxia. You just will never accept defeat because you're such a worthless and arrogant fool!

Laney called her scythe The Graceful Dahlia.

Nico: Marluxia you have failed this whole universe!

Me: Didn't you already say that to him Nico?

Nico: No I never did.

Laney: And just so you know Marluxia, I'm not the same as I was when I faced you before.

Marluxia: How so?

Laney then shocked us all as she began powering up. Laney was enveloped in an emerald green aura and her eyes were glowing in a sapphire blue glow and she had her wings spread. Then in a massive and blinding flash of light, Laney was forever changed as a massive growth of life exploded all over the entire island and covered everything on it, including the volcano. Laney now had emerald green hair, a green vest with a rose on it, a green skirt with roses on it that went down to her ankles, and she had rose thorn spiked knuckle gauntlets. Laney also had a rose emblazoned in the middle of her forehead. She had now been transformed into a SUPER ANGEL 10,000 GRACEFUL ROSE!

Laney: I have now ascended.

Me: Wow! Laney your power is incredible!

Lincoln: Sis what happened to you?

Laney: You remember how we sealed away Captain Pollution?

Me: Yeah, you gathered all of natures life force and it made you incredibly powerful enough to seal him away for all eternity.

Laney: That's right and in doing so I also unlocked this transformation as a result.

Me: That's incredible Laney. You've really surpassed everyone's expectations.

Laney: Thanks bro.

Laney flew at the 8-Headed Pain Rose with incredible speed.

Marluxia: You're wasting your time.

Laney's scythe blade glowed an intense emerald green and she slashed the entirety of the 8-Headed Pain Rose in half and it killed it in a massive and powerful blaze of emerald fire. Marluxia was incinerated in an instant and he screamed in excruciating pain as he went into the River of Fire for all eternity.

Me: Go back to Hell Marluxia.

Laney: Good riddance to bad rubbish.

Me: Yep. Great job Laney!

Nico: You really let him have it.

Me: Lets get moving.

Clover: Careful, guys. Even though we're immune to Helga's mutating tricks, there's still some deadly traps on this island.

Me: Noted Clover.

We went into Helga's volcano fortress and snuck inside. We made sure that we stayed extremely quiet and we saw Helga and she had three tanks with three people inside.

Helga: Soon my new line of fashion will sweep the world by storm.

Me: (In my head) What is she up to?

Woman: What are you gonna do?

Helga nodded and a man pressed a button and the woman was sprayed with something and she was transformed into a polar bear hybrid creature!

We were disgusted and enraged with what she was doing. The woman was roaring.

Helga: Now dear, you will be used for something much more. You will be used in the making of my newest line of fashion.

Me: (In my head) What you're doing is absolutely cold-blooded murder and animal rights activists would be infuriated and they would kill you and mount your head on a pike for everything you're doing.

We hid behind the crates we were watching from.

Lisa then arrived and Betty, Kerri, Frankie and Amo were with her. Betty was wearing a red summer shirt with a lion on it and she had a sleeveless trench coat with the African Savanna on it and the kanji for Lion's Roaring Pride was on the back. ライオンのうなり声 Betty also had purple long shorts on and blue sandals.

Kerri had a blue summer shirt with a tiger on it and she had a sleeveless trench coat with tiger stripes on it and the kanji for Tiger's Furious Prowl. タイガーの激怒うろつき She also had orange pants and brown sandals.

Frankie was wearing a green summer shirt with a bear on it and she had a sleeveless trench coat with the forest on it and the kanji for Grizzly Bear Family Protector. グリズリーベアフェロシャスプロテクター She also had green pants and brown combat boots.

Amo had a yellow summer shirt with a fox on it and she had a fire sleeveless trench coat on with the kanji for Kitsune's Flaming Death on it. きつねの燃えるような死 She also had red pants and ninja sandals.

Lisa: (Whispers) 2nd Elder Brother. I have the antidote.

Me: (Whispers) Great job Lisa. Wow girls you look amazing.

Kerri: (Whispers) Thanks J.D. Maria, Teresa and Leni make awesome clothes.

Betty: (Whispers) They sure do.

Me: Now we have the antidote. Lucy, you go scare Helga from behind her and that will be the signal to attack.

Lucy: I'm on it.

Lucy teleported.

Helga: Soon this whole world will bow before me.

Lucy: I have to object about that.

Helga and the guards jumped out of their skins in fright as a pipe organ played.

Helga: Where did you come from!?

Suddenly massive explosions blew apart all the equipment and set everything all on fire. We fired powerful energy blasts at the equipment and destroyed everything in a fiery blaze.

Everything was destroyed and ruined.

Helga screamed in a ballistic fury.

We stood ready to face her.

Me: Helga von Guggen, I presume?

Helga: So the famous Team Loud Phoenix Storm is here.

Me: That's right.

Helga: So the spies are with you. How nice to see you all again. I take it you're here to throw me in jail?

Me: No. This time we're here to kill you! Take her down!

We went at her and I punched her in the face and she crashed into a burning machine!

Helga: MY FACE!

Me: Aw did I damage your pretty face? We're about to damage much more than that.

Natsumi: And we're about to end your life.

Natsumi was facing Helga.

Natsumi: You are a total menace to everything in the entire animal kingdom! You make me sick looking at you!

Natsumi slammed one of her tails into Helga's face and sent her crashing into another machine.

We then saw Helga pull out a vial for a serum.

Naruto: I've got a bad feeling about this!

Helga: I didn't want to use this so soon. But you've forced my hand! (drinks serum)

Me: Uh oh!

But then Helga started to change! She turned into an ugly Chimera Creature! She had a goats head, huge long horns, razor sharp teeth, yellow eyes, long arms with tiger stripes and three fingers and she had goat legs and hooves.

Me: What in the Fucking Hell did she become!?

Natsumi: A fucking monstrosity that's what!

Me: Soon she's about to become a dead monstrosity! Lets take her down!

We went at her and I punched her in the face and kicked her and broke off one of her horns! Laney slashed her in the face with her scythe and cut out her eyes. Natsumi slammed her all over her face with her tails and fired a massive blast of fire at her and burned her all over. The fire burned her all over her body.

Me: She's not the only one with a primal side!

I growled and turned into J.D. The Nocturnal!

Me: (HOWLS) **Now you will face the true power of the animal kingdom! But first.**

I pulled out a bunch of vials containing Dr. Cuvier's Splicing formula.

Me: **Dr. Cuvier's splicing formula is about to be put to good use.**

I went at Helga and stabbed her in multiple places with 30 vials of Cuvier's Chimera formula.

Helga: **What did you do!?**

Me: **Wait for it.**

Then Helga underwent a terrible and grotesque transformation. The formula from Dr. Cuvier transformed Helga into a horrific and grotesque monster that was a fusion of 30 different animals of the animal kingdom. (Think of how Dr. Cuvier transformed into that horrible abomination on Batman Beyond)

I showed Helga her reflection on a mirror I made and she was horrifically hideous!

Helga: **WHAT HAVE YOU DONE TO ME!?**

Me: **Brought out the beast in you!**

I flared up my Aura and it was Dark Purple.

Me: **Now you die Guggen! Combo and Final Smash time!**

Ace: Right! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and it enabled her use her psychic powers to form energy weapons.

Cyclonus: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his Oxidating Laser 100-fold and enabled him to fire more oxidating lasers from his blasters.

Ace and Cyclonus: PSYCHIC OXIDATING THUNDERSTORM

SWORD!

Ace formed a sword of pure psychic energy and Cyclonus fired his Oxidating Lasers and they merged with her sword and Ace slashed The Mutated Abomination Helga in various places.

Powerglide: Time to finish you for good! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Thermal Beam Missile Launcher and turned it into a deadly superlaser cannon.

Emma G.: Lets get her! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and enhanced her Mako Island Powers 100-fold.

Powerglide and Emma Gilbert: SUPERHEAT ICE MELTER!

Powerglide fired his Thermal Superlaser Cannon and Emma fired a powerful blast of ice from her hands and the blasts combined and they hit Helga and exploded into a massive cloud of scalding hot steam. It burned her all over.

Stacy: You will never hurt anyone ever again! SHARK ATTACK CHOMP!

Stacy turned into her Street Shark form and chomped off Helga's mutated left arm with devastating force. Helga screamed in excruciating pain.

Wheeljack: My turn.

Wheeljack turned into his Armada form.

Wheeljack: WIND SHEER MISSILE BLAST!

The Mini-Con Wind Sheer linked up to him and the sides of his car mode opened up and he fired powerful missiles at Helga and they hit her and exploded.

Natsumi: Never again will you terrorize the Animal Kingdom or any of our animal friends ever again! Now you die! TAILED BEAST BOMB!

Natsumi charged up a powerful ball of Chakra and condensed it and she fired it as a massive energy wave and it hit Helga and exploded with unbelievable power!

KRRRAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAABBBBOOO

The entire island was completely obliterated in a massive explosion that carried the explosive power of a 1000 megaton nuclear explosion and it killed Helga and completely obliterated the whole island in an instant.

When the smoke cleared, we were standing in a huge crater from the explosion and the whole island was completely destroyed.

Me: **Wow! What power!**

Naruto: That's Natsumi for you bro. Great job!

Natsumi then kissed Naruto.

All of Helga's prisoners that were mutated were safe.

Helga's spirit then appeared.

Helga (as a spirit): You may have killed me. But now, you'll never be able to cure my victims!

Wheeljack: Let me worry about that!

Wheeljack fired tranquilizer darts full of the anti-mutagen and they were cured.

Luigi: (Italian Accent) You will never terrorize the-a animal kingdom again!

Luigi sucked Helga into his Poltergust Machine and she was made into a portrait. I reverted back.

Me: Hell is too good for you Helga. Being a portrait is much better

for you.

Nico: Helga von Guggen, you have failed this universe.

Betty: This is what you get for mutating us.

Kerri: That's right. Burn in hell you fucking bitch!

Me: Well said girls. I'm so sorry that Helga did this to you.

Betty: It's all right. But thank you so much for curing us J.D. Now we have the power to transform at will like Stacy and her friends and family.

Me: You're more than welcome to join us.

Betty: We would be honored.

Stacy: I'm glad girls. (To the Viewers) Never mess with the laws of the animal kingdom or you will answer to all of us.

Me: You said it.

We reported back to Jerry and we showed him what happened.

Jerry: Very well done everyone.

Me: Thanks Jerry. I know it would've been wise to send Helga to jail, but she was asking for this for a long time.

Jerry: Indeed. But she deserves it nonetheless. And she looks much better as a portrait.

Me: Indeed she does.

We saw that Jerry had Helga's portrait hung up on his wall.

Me: She looks good on your wall Jerry.

We laughed. Another villain of the spies was destroyed. And it was a win win. Clover was finally free of her arch-nemesis Mandy and we killed another one of their villains. During the battle, Nico caught a Mismagius and a Lopunny.

THE END

---

Another Fanfiction Complete

Helga Von Guggen of Totally Spies was a really strange villain. But I did notice some similarities between how her modus operandi played out. She was very similar to Cruella De Vil of 101 Dalmations and the mad scientist Dr. Moreau from H.G. Wells The Island of Dr. Moreau. Both extremely insane people. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time

# The Bloodthirsty Peaches

It starts at Gotham Royal York Elementary School.

Mrs. Johnson: Okay class. We have a special treat for you all. We're having a special contest. It's gonna be a special cooking contest.

Everyone was excited including Lincoln, Clyde, Laney, Lily, Girl Jordan and Stella.

Me: Awesome, I love cooking.

Lincoln: Me too J.D.

Laney: This is gonna be an interesting contest.

Mrs. Johnson: I'm glad you're all excited. You'll each be divided into teams of 6 and you have to create a 4 course meal. We'll decide who the winner is on how they did and the winner that makes the best meal will not only get this awesome trophy…

Mrs. Johnson had an awesome Hamburger Shape Trophy made entirely out of Swarovsky Crystal. The buns were orange crystal, the meat patty was brown and the lettuce, cheese, tomatoes, and onions were green, yellow, purple and red crystal. This was the most dazzling trophy we've ever seen.

Mrs Johnson: But the winner will get their food and meals added to the school cafeteria menu.

Me: Ooh this is gonna be awesome!

Clyde: It sure is J.D. And you've learned so much on your worldwide adventure.

Girl Jordan: That knowledge will really come in handy.

Me: It sure will.

Mrs. Johnson: Okay here are the teams. Team 1 under J.D.

Knudson will be Lincoln Loud, Laney Loud, Lily Loud, Stella, Girl Jordan and Clyde McBride.

Me: Awesome! This is gonna be awesome guys!

Stella: It sure is J.D.

Girl Jordan: I hope we win like with the Earth Day contest.

Me: Lets not get ahead of ourselves Girl Jordan.

The contest ceremony was gonna be held on Saturday. We have 3 days to make our meals.

* * *

Later we were walking back to the estate.

Me: This is gonna be an interesting contest.

Laney: I love learning so much about cooking. Dad is an awesome cook.

Me: He sure is Laney. Mr. Lynn is a great cook and his cookbooks and recipes will be perfect for us to use.

Lincoln: But some of the advanced dishes we don't know how to cook. We practically know how to do every dish in dads cooking repertoire.

Me: That's true Lincoln. But there are many dishes that your dad doesn't know about yet. Sure we've been around the world, but there are even dishes and recipes that we don't know about yet. But we'll think of something. We have three days to think it over.

Girl Jordan: Yeah.

Stella: That gives us plenty of time to think of something.

Me: It sure does.

* * *

Back at the estate we were watching TV and reading cookbooks. I was reading a cookbook on soups.

Me: Hmm.

Clyde: How about we do a four course meal with an appetizer, a soup, an entree and a dessert?

Me: That's a great idea Clyde. Anyone have any ideas for Appetizers?

Nico: Hmm. How about Mini-burgers?

Me: That's a great idea Nico. All in agreement?

We raised our hands.

Me: Okay Mini-Burgers for appetizers to start. I have a great recipe for a Jack Daniels Barbecue Sauce Glaze that is perfect for them.

Clyde: I'm not supposed to drink alcohol.

Laney: No Clyde, the Jack Daniels Whisky is not for drinking. It's for adding flavor.

Clyde: Oh. That's a relief.

Me: Good. Okay now for soups.

I was looking through the soups book. I came across an interesting one.

Me: How about this one? Tomato Gazpacho with basil?

Laney: That's a good choice.

Lisa: How about instead we do something more sophisticated like a Visisouise?

Me: Cold Potato Soup? I don't think a lot of people like cold soup unless it was borscht and not very many people like beets.

Lincoln: How about a creole tomato soup?

Me: That works Lincoln. All in agreement?

We raised our hands.

Me: Okay Creole tomato soup it is. Now for entree. Any ideas?

Girl Jordan: Hmm. How about King Crab Legs like in Alaska?

Lily: That's a great idea. I know an awesome King Crab dish with Sherry Wine and 12 spices.

Me: That's a great idea Lily. All in agreement?

We raised our hands.

Me: Okay Seasoned King Crab it is. Now for Dessert. Any ideas?

Stella: I have an awesome recipe for a S'mores pie.

Me: Ooh that sounds tasty Stella!

Lola: I love S'Mores! The Marshmallows are delicious!

Lana: And the chocolate is my favorite.

Laney: I love chocolate! (Drools)

Me: You guys really love chocolate. Okay all in agreement?

We raised our hands.

Me: Okay it's unanimous. We have the choices down: Jack Daniels Burger Bites, Tomato Gazpacho, Seasoned King Crab and S'Mores pie.

Nico: Those are awesome choices dude.

Me: They are.

We had the choices all set. We had three days to make the meals.

---

Two days before the cooking began we were watching TV and playing card games. I was playing Go Fish with Lily and Jen.

Me: Hmmm. Lily do you have any 6's?

Lily: 2 of them.

Lily handed me two of them.

Me: Hey Jen, have you ever Hulked out in any other places than what you told us?

Jen: Well there was the time me and Bruce hulked out at a dance club.

Me: What happened back then?

Jen: Well it was before we joined Team Loud Phoenix Storm.

---

Jen: (Narrating) We went to a local dance club called the Step-N-Move. It was one of our most favorite places to get our groove on.

Jen was wearing a black dance dress and Bruce was wearing a black tuxedo and he looked really nice.

Jen: Lets bust some moves Bruce.

They did so. But just as they were about to do more moves, they HULKED OUT! They went into terrible pain and their skin turned green.

Jen: (Groans in Pain) Oh not now!

Bruce: (Groans in Pain) Why now of all times!?

Bruce's muscles got bigger and his tux was shredding apart as his body grew huge and big and his muscles and strength grew. Jen's dress stayed the same and she grew taller and her skin turned green and more muscular and her black hair turned dark green and longer. Luckily she wears her She-Hulk leotard underneath her dress just in case. She was now the She Hulk!

But they continued to dance anyway.

After it was done, they went outside.

She-Hulk: Time to change back.

They reverted back

Bruce: I hate this part.

Jen: Me too.

Bruce's clothes were shredded as his body returned to Bruce Banner.

FLASHBACK ENDS

Jen: That was the coolest Dance Party ever.

Me: That's cool Jen. But I'm glad people didn't run for their lives because of that.

Jen: Me too.

Elec Man: I'm glad too guys. Even my new friend I have agrees.

We saw a Voltorb with Elec Man.

Me: You caught a Voltorb.

Elec Man: I sure did. He's an awesome partner. And his Lightning Attacks are as strong as mine.

Nico: That's cool dude.

Elec Man: Thanks.

---

Later it was time to get cooking.

Me: Okay now we have to get ready for the cooking. And I know just the place to help us. We're going to Marzipan.

Lincoln: Awesome! It'll be cool to see Chowder and Mung.

Girl Jordan: I wonder how Mung is doing since Truffles was put away.

Me: We'll find out.

May: This is gonna be awesome!

We opened the book of Chowder and we went into Marzipan!

Me: Marzipan is looking better than ever.

Nico: It sure is.

We went into Mung Daal's Catering and we saw Mung cooking.

Me: Hey Mung.

Mung: Ah J.D. Knudson. Welcome back.

Me: Good to see you again. We're actually here on a cooking assignment.

Mung: You guys don't need to come in every time you have a food assignment from school. You can come in anytime.

Me: I know Mung. But we're learning how to make the food for a contest. We have until tomorrow night.

Mung: Lets get started.

We went and got the ingredients for our cooking and we were at Gazpacho's Produce Stand.

Gazpacho: Oh hey Mung. Hi Chowder.

Chowder: Hey Gazpacho.

Gazpacho: It's such a pleasure to finally meet you, J.D.! Sorry I wasn't around when you first came here. I was out visiting my mother.

Me: That's all right Gazpacho. But it's a pleasure to meet you too.

Lincoln: I take it you know that Truffles is in a nuthouse?

Gazpacho: I sure do Lincoln and that woman still owes me money.

Laney: How much does Truffles owe you?

Gazpacho: 10,000 Sments.

Mung: That's the equivalent of $20,000,000.00 in your money.

Everyone: Wow!

Nico: That's a lot of money!

Elec Man: No kidding.

Me: That's small change compared to what I have though.

Mung: That's true.

We bought the ingredients and went back to the catering company.

---

Over at the Marzipan Mental Hospital, Truffles was in her room sitting in the room talking to herself.

Truffles: I can't believe I'm in here. And for what? Because I was strict towards my husband? There's nothing wrong with that!

Lincoln and Gazpacho arrived.

Truffles: Did you all come to bust me out?

Gazpacho: No. We're just visitng because you still owe me money.

Lincoln: You better pay up Truffles if you know what's good for you.

Truffles: I WILL NOT!

Lincoln: Then we can do this the hard way.

Lincoln cracked his knuckles and began to tickle Truffles feet and she was laughing uncontrollably until she agreed to pay.

* * *

Back at the Catering Company we were deciding what dessert to make.

Stella: Here's a good one. Lets make Mince Meach Pie.

But then the color drained out of Mung's face and he turned as white as a ghost and was sweating in fear.

Mung: M-m-m-m-m Mince Meach!? M-m-m-m-m-m-m-m-m-m-m-m-m-m-m-m-m-m-m-mm! MINCE MEACH! NNNNNNNNNOOOOOOOOOOOOOOOOOOOOOOO!

His scream was so loud that it could be heard all over Marzipan. Mung was hiding in a garbage can full of Potato Peelings.

Me: Mung are you all right?

Laney: What has you so scared?

Chowder: Mung has a really bad history with Mince Meach Pie. It scarred him for life 50 years ago.

Me: Really? Mung can you tell us what happened?

Mung: It's too painful. But here goes. It was 50 years ago.

* * *

Mung was handsome and he had blackish-blue hair and a blackish-blue mustache.

Mung: (Narrating) I was going to make my first Mince Meach pie and I went to the Meach Fields.

Mung went to said fields and the Meaches looked like giant savage bloodthirsty peaches with razor sharp teeth. Mung was in a tree and he lifted up a Meach with beautiful lips and she was wearing a princess hat.

Queen Meach: Oh a man. (Giggles)

Mung: You see the Queen Meach is a peaceful and flavorful fruit. But her servants are vicious and bitter!

They attacked him to defend their queen. They were incredibly vicious and chased after him.

Mung: They don't give up easily.

Mung made it back to the catering company unharmed.

Past Mung: Now it's just me and Meach.

Mung made his first ever Mince Meach Pie and it looked really tasty.

Mung: My first Mince Meach Pie. It was everything I thought it would be.

He ate the whole thing.

Later that night past Mung was taking a bath and singing.

Mung: But that very night…

The Meaches attacked Mung in the bath.

Mung: And the next morning…

Mung went to go get something out of the cabinet and the Meaches attacked him again.

Mung: And 2 hours later…

Mung went to the bathroom to do his business and the Meaches attacked him in there as well. No sense of respecting someones privacy whatsoever.

Mung: The Meaches attacked again and again and again and again and again and again and again and again and again and again and again and again and again and again and again and again and again and again and again. Every day for 25 years.

The Meaches ferociously attacked Mung throughout that entire timeframe as the Sun and the Moon rose and set repeatedly through rain, sleet and snow and then the Sun had a beard on it. The Meaches left and went back home.

Mung: Meaches hold one heck of a grudge. They broke my spirit and all my bones.

Mung was a majorly mangled up mess because of the meaches as a result.

Mung: They even ate my hair.

Past Mung saw that he was bald because of the Meaches.

Past Mung: NNNNNOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO!

The scream he made was so loud that everyone heard it. Even the giant that's holding up the land heard it.

Giant: Hey other people have problems too ya know.

The giant shook the land violently and everyone was screaming.

FLASHBACK ENDS

Mung: And that's why I don't want to make that dish again. Ever again. Ever, ever, ever, ever, ever again.

Me: Boy I had no idea they were that ferocious to you.

Nico: Me neither.

Laney: That is an extremely rough history.

Lola: No kidding. 25 years of being viciously pulverized by bloodthirsty fruit!? That is extremely hardcore!

Lana: I would not want to eat those peaches.

Me: Me neither. I don't think Jared would want to touch those peaches with a 25 foot pole. But regardless lets give this dish a shot.

Mung: Sorry, everyone. You'll have to do this without me.

Maria: That's fine. We can get someone to fill in your position for this.

Me: Okay.

Chowder: Lets get my friends Gorgonzola and Ceviche to help us.

Me: Good idea Chowder.

Chowder: Gorgonzola knows all about Meaches.

* * *

Scene transits with peaches.

We were at Gorgonzola's restaurant.

Gorgonzola: J.D. Knudson of Team Loud Phoenix Storm. Nice to meet you. Unfortunately, Marzipan City is a little out of your juristiction.

Me: We've actually been visiting here for a while. And we need your help.

Gorgonzola: Well, I'm helping out Silton for an important order. Sorry. I'm a little preoccupied at the moment.

Me: Would it help if I said please?

Gorgonzola: No. And you already have your own friends and Chowder to help you out. Why ask me?

Me: Well, you have a particular set of skills.

Gorgonzola: You'll have to do better then that. If you don't give me a good reason to help you out, I'm gonna go walk into that door and into my kitchen ad forget this conversation ever happened.

Me: Mung's scared out of his mind.

Gorgonzola (blinks): Come again?

Me: You heard right. Mung's scared out of his mind. And we need someone who has knowledge about Meaches.

Gorgonzola: Meaches? Well, why didn't you say so right away?

Me: Because you didn't let us finish. Lets get Ceviche and Panini to help us out.

We did so.

---

Scene transits with grapes.

We were walking to Ceviche's restaurant.

Gorgonzola: Those Anti-Fairies sound like bad news.

Nico: They are. We actually did spare this Anti-Fairy named Foop from facing death at our hands. And rather then be grateful, he's probably going to help his fellow Anti Fairies continue to spread bad luck. That's what mercy gets you with people like him.

Me: Yep. But we'll kill him when the time comes.

We got Ceviche and Panini and we explained the situation.

Panini: Oh no! We'll gladly help you all out.

Ceviche: Count us in.

Me: Great. Lets go make those meaches into fruit salad.

We went to Meach Fields.

Scene transits with dancing watermelon slices.

We were at Meach Fields and we saw sign that said "Welcome to Meach Fields."

Me: Welcome to Meach Fields. Here we are guys.

Maria: When I was in the Metabreed, we always followed four rules. Make the plan, execute the plan, expect the plan to go off the rails, and then, throw away the plan.

Me: Unlike what you did in the Metabreed, we always go through with the plan till the very end.

We were hiding behind a rock and we saw the Meaches. They were vicious looking giant peaches with mouths full of razor sharp teeth.

Meaches are an extremely dangerous species of fruit. They are ruled by the Queen Meach, and are quite dangerous and extremely territorial. As such, making them into dishes is almost impossible- not only for their aggressive behaviour, but also due to their bitter flavour.

The Queen Meach, however, is very sweet and can be made into a delicious Minch Meach Pie.. If you can manage to take her away from her colony, and manage to survive the Meach chase. And after making the Mince Meach Pie, the maker will get attacked by the Meaches that chased the maker back, for probably 25 years.

We saw a Meach in a tree that was wearing a princess hat.

Me: So those are Meaches. They sure are big peaches. And that one in the tree must be the Queen Meach.

Gorgonzola: That's right J.D. Meaches may look harmless but they are extremely vicious.

May: And from the looks of things they are smart.

Gorgonzola: They are smarter than they really look. They don't fall for any trick or any disguise.

Me: Boy this is gonna be tough. But we all fought tough battles before. Lets sock it too them!

We went at the meaches and viciously pulverized them into pulp!

May (takes out ice gun): There's only one way we're ever getting the Queen Meach out of here.

Gorgonzola [chuckles]: Oh, I see. You didn't just recruit me for my skills, did you? You wanted a team member who wouldn't mind if you got all murder-y.

Lincoln: This is the only way. And what if those Meaches get into Marzipan City? We have to make sure everyone's safe from them. Now let us do our job.

May is about to fire at the head of a Meach when Gorgonzola stopped her.

May: Now what?!

Gorgonzola: I have a better idea. All food takes a while to thaw out when put on ice.

Wheeljack: What's your point?

Gorgonzola: My point is that if May sets her ice gun to a cold enough temperature that isn't lethal, the Meaches will be immobilized just long enough to get the Queen out of there. Or, you can ignore what Katniss taught you all, kill them, and prove to Foop that he was right about you guys being brutes. Your choice.

May: That just might work!

May did as Gorgonzola suggested and froze the Meaches and I picked up the Queen Meach.

Queen Meach: Oh a man! (Giggles)

Ceviche (looks at the brutally beaten up Meaches): Kinda harsh, don't you think?

Lincoln: Yeah but it gets the job done.

We left the fields.

---

Scene transits with onions slicing.

We made our first ever Mince Meach Pie.

Me: It sure looks tasty.

Laney: It sure does.

Mung: Well done guys!

Me: Thanks Mung. We put the Meaches on ice. I have an idea.

I had a devilish grin on my face.

---

Scene transits with peanuts.

We were at Marzipan Maximum Security Prison where we were visiting Reuben.

Nico: Hello Reuben.

Reuben: Well, well if it isn't Nico Chan.

Nico: I have some friends we would like you to meet. But first wear this.

Nico put a note on his chest that said "I ate your Queen. Destroy me."

Nico blew a signal whistle and the Meaches came and roared ferociously and Nico opened up Reuben's cell door and they went in and viciously pulverized and mangled him up. He's gonna have 25 years of extremely excruciating pain on him.

Nico: Reuben you have failed this city.

Nico left the prison.

Wheeljack: (To the viewers) Never mess with us when you're a con artist or you will be in big trouble.

---

Later we cooked our dishes and went to the contest. We were having them tasted by Mrs. Johnson, Principal Huggins, Lady Tsunade and Shizune.

Then the results were announced.

Mrs. Johnson: You all made wonderful dishes. The winner of the Gotham Royal York Cooking Contest is…

Drumroll played and Mrs. Johnson pulled out an envelope and she read it.

Mrs. Johnson: Team 1 with J.D. Knudson, Lincoln, Laney, Lily Loud, Clyde McBride, Girl Jordan, and Stella!

Everyone cheered wildly for us.

We went up and got the trophy and our food was added to the school cafeteria menu.

---

We went to the Burpin Burger to celebrate.

Syd: Way to go Clyde!

Clyde: Thanks Syd. This was so awesome cooking with you all.

Me: Thanks Clyde. We all did it together and it was awesome!

Laney: Thanks J.D.

Lincoln: This was so cool having a cooking contest.

Lily: And we now have our food on the School Cafeteria menu.

Me: We sure do.

It was a great day for us.

Elsewhere in the city of Mariner Bay, the Lightspeed Rescue Power Rangers were getting ready for another daring rescue.

Carter Grayson: Time for some fire rescue!

Chad Lee: Right!

Lightspeed Rescue Rangers: LIGHTSPEED RESCUE!

They activated their morphers and they sprang into action as a rainbow light illuminated the screen.

THE END

Another Fanfiction Complete.

The Meaches on Chowder were the most vicious fruits in the world. I would call those fruits the Piranhas of the Fruit Worlds. I got the idea for the cooking contest out of inspiration from another fanfic. I forgot who made it but that's where I got the inspiration for it from. That episode from Chowder was funny and I decided to use that inspiration for this one. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Mermaid Kidnapping

It starts with Nico in the living room deciding which of the Goosebumps monsters to go after next. He was looking through all his Goosebumps books and deciding which one to do next.

Nico: Boy there's so many monsters out there.

Maria and Horsea were eating the food we made.

Maria: This food is delicious!

Horsea: It sure is.

Maria and Horsea saw Nico.

Maria: Nico, for the next Goosebumps adventure, let's meet up with Sheena and Billy Deep.

Nico: From Deep Trouble? That's a great idea. Thanks Maria.

Maria: No problem.

Nico: That one has a bad guy that really makes my blood boil.

Maria: Who is that?

Nico: He's not a monster, he's actually the assistant of Dr. Deep. His name is Alexander DuBrow and you would hate this guy Maria.

Nico revealed the history of Alexander DuBrow.

Alexander DuBrow is a science assistant to Dr. Deep and is the custodian of his boat and equipment. He is somewhat obnoxious but is not a full villain until halfway through the story.

When Dr. Deep and his niece Sheena and nephew Billy are studying marine wildlife, Billy has encounters with a giant squid which Dr Deep laughs off, and then Billy for real comes into contact with the mermaid said to haunt the place. He brings her with him but

Alexander captures her. They all study her but she is calling for her other mermaids. Alexander knows the mermaid is in distress but doesn't want her freed for financial matters. Later, Billy notices some men on a boat coming to their ship at night. They kidnap the mermaid.

Billy runs up to them and tries to fight them off but they knock him to the floor. Then Alexander comes in. Billy wants to see Alexander punch them out because he is strong, but then to his dismay Alexander sides with the men, revealing he was their leader all along and planned this kidnap. He betrays Dr. Deep and the others by throwing them in the mermaid tank, locking it, then throwing them overboard to drown.

But the mermaids come and save them, then they head to Alexander's boat. Alexander and his thugs come out and try and fight them, setting their boat on fire. But the mermaids come and rock the thieves' boat back and forth.

Alexander is never seen again in the book; he may have gone to jail.

Maria: I hate this guy!

Nico: Me too.

Suddenly, an explosion was heard.

KRABOOOOMM!

Nico: What was that!? Are we under attack?

Maria: No that's J.D. and Laney. They're trying out new weapons from the Lightspeed Rescue Power Rangers.

Nico: Maria can I ask you a question?

Maria: Sure Nico.

Nico: How did you and Carol meet?

Maria: That is a question I haven't heard in a long time. Me and Carol met when I started in Kindergarten.

---

Maria: (Narrating) I was starting in kindergarten at Royal Woods Elementary. Carol was a brand new student that started that day. She was a very smart girl and very talented.

Carol wore a purple head band, purple shirt and lavender skirt and brown shoes. Maria wore an aqua blue shirt and skirt and had black shoes.

Maria: As I was getting ready for class, 2 second-graders came. They were mean brutes. They pushed me down and punched me in the face and gave me a nasty black eye. Those kids were evil. That's when Carol came in and beat them up.

Young Carol punched them in their faces and punched them in their stomachs.

Young Carol: Leave her alone you dirtbags! Who do you think you are!? You better get out of here if you know what's good for you!

The bullies ran in fear.

Young Carol: Are you all right?

Young Maria: Thanks for saving me.

Young Carol: You're welcome. I'm Carol Pingrey.

Young Maria: I'm Maria Rockell. That was so cool how you did that!

Young Carol: Thanks Maria.

Maria: After Carol took me the nurses office, we quickly became best friends and it became a powerful friendship that turned into a sister bond.

FLASHBACK ENDS.

Maria: Ever since then, we've been extremely close in heart and in spirit.

Nico: That is a powerful bond.

---

In the training grounds, me and Laney were using the Lightspeed Rescue Power Rangers Weapons. I had a purple V-Lancer in my hands and I slashed a dummy that looked like Rita Repulsa and cleaved it right in half. It exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: Oh this is so awesome! Lets see what else this thing is capable of. Blaster mode!

I change it into a blaster and fired a powerful purple laser blast and it hit a dummy that looked like Lord Zed and the dummy exploded into a fiery explosion.

KRABBBBBBBBBBOOOOOOOOOOOOOOOOOOOOMMMM!

Laney had a Brown V-Lancer and she slashed a dummy that looked like the evil Green Ranger and it exploded.

KRABBBBOOOOOOOOOOOOOOOOOOMMM!

Laney: Lets see how you like this Goldar! Blaster Mode.

Laney changed her V-Lancer into a blaster and fired a brown laser blast and it hit the statue and exploded.

KRAAABBBBOOOOOOOOOOOOOOOOOOMMM!

Me: This is so awesome!

Laney: It sure is. Power Rangers Lightspeed Rescue and Wild Force are my favorite shows.

Me: Mine too Laney.

I also had a battle booster on my right arm.

Me: Lets see what these Battle Boosters can do.

I pressed some buttons.

Me: 4-7-8 Activate!

My right arm glowed neon purple and went at an Evil Sasuke statue and flared up my Super Angel 50,000 Aura and punched it and it shattered into splinters and exploded in a massive fiery explosion.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Oh wow! That was intense!

Laney: Just like what I saw in the show.

Me: It sure is. Here's something I remember. 5-5-5 Activate! Booster Beams!

I fired a powerful purple beam of energy at a dummy that looked like Obito and it hit it and exploded with incredible power.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Oh wow! That packed as much power as a blast of energy.

Laney: It sure did.

Me: Lets see what else there is. THERMO BLASTER!

I held out my hand and a purple Thermo Blaster appeared in my hands.

I fired a fire blast from it and it hit several statues that looked like several enemies we took down and they all exploded and bursted into flames.

Laney: That's not all they can do. BOOSTER MODE!

Laney pulled back the blaster and it opened and turned into an enhanced blaster and she put her booster in it.

Laney: 8-1-8 Activate!

Laney fired a brown energy blast from the Thermo Blaster and it hit

3 dummies and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: I remember seeing a Megabattle Suit that they have. Lets see if I have one. 8-6-1 Activate! Megabattle!

I then had a powerful surge of energy and I got an awesome armored tech backpack with purple armored angel wings and emergency sirens were on top of the tech backpack and the wings had a special feature that can fire elemental energy blasts and I had an awesome and super powerful ultra sword with a powerful purple blade and I had the symbol of Team Loud Phoenix Storm on the chest plate strap.

Me: Oh wow! This is so awesome! I look amazing!

Laney: J.D. this is so cool! Chad's and Joel's Megabattle packs were so awesome when I saw them.

Me: I know. Theirs were awesome.

Laney: Lets see if I have the same feature. 8-6-1 Activate! Megabattle!

Laney then had a powerful surge of energy and she had an awesome armored tech backpack with brown armored angel wings and emergency sirens were on top of the tech backpack and the wings had powerful missile launchers on them and she had a powerful brown energy whip. She had the symbol of Team Loud Phoenix Storm on the chest plate strap.

Me: Wow. Laney you look awesome with that.

Laney: Thanks J.D. Lets see what they can do.

Me: You got it. Ladies first.

Laney: How gentlemanly.

Laney went first and she lashed 5 dummies and slashed them in half and they exploded and blew them into a thousand pieces in a fiery explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Oh that was cool!

Laney: Lets see what else it can do. Fire missiles!

Laney fired 5 missiles and they hit 5 more dummies and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Laney: That was awesome!

Me: It sure was. Lets see how they handle in the air.

We took to the sky and the dummies flew at us like heat-seeking missiles. I fired a powerful blast of lightning from my wings and it hit 2 of the dummies and they exploded.

KRABBBOOOOOOOOOOOOOOOOOMMM!

Me: Awesome! Lets see what my sword can do.

I charged it up and the blade was energized with fire and I slashed a dummy and it exploded into flames.

KRABBBBOOOOOOOOOOOOMMM!

Me: Wow! Lets see what else it can do.

I turned the sword into a powerful mega elemental rifle!

Me: Awesome! What a rifle!

I fired a powerful blast of razor wind and it slashed the last dummy apart and it exploded into flames.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: Oh that was cool!

Laney: It sure was. Great job J.D. You are a fast learner.

Me: It's part of being a warrior. I have to learn more and add more to my arsenal and keep my enemies guessing.

Nico: You got that right J.D. You guys really tore up the training grounds.

Me: We sure did huh?

Nico: Yeah but you two look awesome in those Megabattle suits.

Me: You watch Lightspeed Rescue too?

Nico: Yep. It was awesome! Also I came to tell you that I think we just found our next mission. We're going to take down Alexander DuBrow from Deep Trouble.

Nico holds up said book.

Me: Alexander is not a monster from what I remember.

Nico: Nope. He's a greedy thug that wants money. He kidnapped a mermaid and is planning to sell her for $1,000,000.00.

Me: That's small pocket change compared to what we have. Lets head to the computer.

We did so.

* * *

At the computer we found out where Alexander DuBrow is at and surprisingly he has the mermaid in Mariner Bay, California. Where the Lightspeed Rescue Power Rangers are at.

Me: Mariner Bay? That's where the Lightspeed Rescue Power Rangers are!

Laney: Oh this is gonna be awesome!

Nico: I can't wait to meet the Lightspeed Rescue Rangers.

Lori: Me too. They are literally awesome!

Me: Looks like we might get that chance. There's a huge fire burning in a tall building. Team Loud Phoenix Storm…

Jaime: And Team Loud Fairywind…

Me and Jaime: Lets fly!

We were off to Mariner Bay, California.

---

MARINER BAY, CALIFORNIA

---

In Mariner Bay, California the Lightspeed Rescue Power Rangers were trying to save people from a burning building. It was a 10 alarm fire. The Lightspeed Rescue Rangers were Carter Grayson, the Red Lightspeed Ranger, was a fire fighter in the local fire department; Chad Lee, the Blue Lightspeed Ranger, worked as a lifeguard and marine animal trainer at a local aquarium and a marine amusement park; Joel Rawlings, the Green Lightspeed Ranger, was a stunt pilot; Kelsey Winslow, the Yellow Lightspeed Ranger, was an extreme sports athlete; and Dana Mitchell, the Captain's daughter, who agreed to become the Pink Lightspeed Ranger, was a nurse and practiced medical arts. Also with them was Ryan Mitchell, the Titanium Ranger who was thought to have been killed.

Dana's Med Rescue 5 was transporting the injured and Carter's Red Fire Rescue 1 and Chad's Aqua Rescue 2 were fighting the fire.

Carter: This fire is too strong!

Chad: No kidding!

Kelsey: We need help!

Me: (On the Radio) Do you need some help guys?

A Massive explosion of pure fire exploded high in the air and a phoenix cry was heard.

We flew out of the explosion like a massive flock of birds.

Me: Team Loud Phoenix Storm is here to help!

Carter: Awesome! It's such an honor to meet you all!

Me: You too Carter. We watch Power Rangers Lightspeed Rescue all the time on TV and you guys are awesome!

Luna: That's right dudes!

Me: Lets put out that fire first and then we can talk.

Kelsey: We owe you guys one.

Lincoln: Thanks Kelsey.

We flew around the entire building and absorbed all the fire. It was fully extinguished.

We landed and everyone cheered wildly for all of us.

Me: You're welcome guys!

Carter: That was great guys! Thanks for helping us.

Me: No problem Carter. It's such an honor to finally meet the famous Lightspeed Rescue Power Rangers.

Kelsey: Same here.

Dana: We are grateful for your help.

Nico: We're glad we arrived in time.

Joel: You sure did.

Chad: We owe you all one.

Ryan: Thanks for helping us J.D. You all are truly everything we've heard about.

Me: Thanks Ryan.

Carter: Good to see you again, Tommy.

Tommy: Same to you, Carter. I haven't seen you since the Forever Red battle and the Legendary War.

Carter: Feels like forever huh?

Me: That was an epic one.

Carter: Lets introduce you to our commander.

Me: All right.

* * *

We went down to the Lightspeed Aquabase. It was an underwater base that serves as the headquarters for the Lightspeed Rescue.

Me: Wow! The Lightspeed Rescue Aquabase.

Chad: Yep. It's our base of operations.

Laney: It's everything like we've seen.

Luan: This is an awesome base. It sure is a Base of a different color. (Laughs) Get it?

Most of us laughed while everyone else groaned.

Me: (Laughs) Good one Luan.

Nico: That was a good one.

Captain Mitchell: Welcome to the Lightspeed Rescue Aquabase, Team Loud Phoenix Storm.

Me: Captain William Mitchell. Pleasure to meet you.

Captain Mitchell: You too. We've heard so much about your achievements.

William: We get that a lot.

We were shown around and it was an awesome place.

Me: The Aquabase is so awesome.

Laney: It sure is. It's everything we imagined.

Chad: It's home away from home.

Nico: I'll say.

Ms. Fairweather: (Offscreen) Glad you all could come.

We saw the chief scientist and engineer of Aquabase, Ms. Angela Fairweather.

Me: Ms. Angela Fairweather. It's a pleasure.

Ms. Fairweather: You too. J.D.

We explained to them about why we were in Mariner Bay.

Me: And that's the run down.

Captain Mitchell: So Alexander is up to his old tricks again.

Me: I take it you have a bad history with this guy huh Captain Mitchell?

Captain Mitchell: You don't know the half of it J.D. I've been after this guy for 12 years. He's a greedy thug and wants nothing more than to see the whole world burn. He's after mermaids all over the world to sell to zoos all over the world for enormous profits.

Me: That is absolutely sick.

Varie: And I am mermaid.

Tamao: I'm a mermaid too.

Lilly: Same with me.

Ariel: As well as me and my sisters.

Maria: I have the ability to turn into a mermaid.

Melody: Same here.

Me: This guy is a total menace to the world of Mermaids.

Nico: No kidding. He's featured in my favorite book series.

Nico showed them the Deep Trouble Goosebumps book.

Kelsey: So the Goosebumps stories are all real?

Me: Yep. They sure are Kelsey. There's a lot of monsters and villains and we encountered two of them so far.

Nico: We encountered Slappy, a monster that terrorized me and severely traumatized several others for life.

Me: He was a living Ventriloquist Dummy and he was pure evil.

Carly Beth: I was cursed by the Haunted Mask.

Nico: But there's no monster in this one, Deep Trouble, only a mad scientist assistant that's out to make a quick buck.

Me: A quick millions.

Carter: We'll gladly help you all out.

Me: We appreciate it. Let me see if I can find him.

I concentrated and found his hideout on an island north of Mariner Bay.

Me: I found him. He's on an island over there.

I pointed north.

Me: Chad, from what I remember you know a mermaid right?

Chad: I sure do. Her name is Marina. She's…

I saw Chad blush.

We all did.

Lori: Looks like you have found someone you love.

Me: He sure did. We have a habit of picking up on these things.

Luna: Maybe we can have Marina help us out.

Me: That's a great idea.

Chad: I agree. Tell her I sent you.

Lily: Okay. I'll go find her.

Me: Okay Lily. I sense her over there.

I pointed out to the west in the water.

Maria: I'll go with you.

Lily opened a diving hatch and she and Maria went into the water. Maria turned into her mermaid form.

Me: Don't worry guys. We have the ability to breathe underwater. Lily and Maria are an awesome team underwater.

Chad: I can tell J.D.

Me: From what we remember you were pinned down in a rock slide and Marina saved your life.

Chad: That's right.

Dana: You guys did watch us on TV.

Me: Never missed an episode.

Laney: You guys are all awesome.

Me: Also Chad according to the legend of the mermaid, we learned that when a mermaid saves a human's life she's granted a wish.

Lilly: That's right.

Lincoln: Me and Lilly met 223 years ago at the end of the 18th century.

Nicole: It's true. We went back in time to the days of the pirates on a mystical island.

Me: It was right after the end of the Revolution.

Laney: It was so awesome.

Chad: I never knew about that.

---

Lily and Maria were swimming and they saw a mermaid with an orange tail and an orange bikini top and she had brown hair.

Maria: That must be her.

Lily: She's really pretty.

They swam up to her.

Lily: Are you Marina?

Marina: I sure am.

Lily: I'm Lily Loud.

Maria: And I'm Maria Rockell.

Marina: Pleasure to meet you. You're from Team Loud Phoenix Storm.

Lily: That's right. We came to find you because we could use your help. Chad would like you to help us.

Marina: I would like that. My sister Karm has been kidnapped.

Lily: Oh no! You can tell us what happened.

Marina: Okay.

Back at the base we were talking.

Chad: So I heard you guys fought numerous mermaids over in the Mediterranean.

Me: Oh yeah. That was one of our most brutal, gruesome and most bloodiest battles that we've ever had. We were facing evil mermaids from the dark side of the legend.

Dana: There's a dark side to the legend?

Me: Yeah. The dark side is that for centuries, people believed that mermaids were savage, ruthless, bloodthirsty monsters that lured sailors to their deaths.

Varie: It was because of those mermaids from the Dark Side that I lost my parents.

Me: Yeah.

We saw them come up.

Lily: Hey guys.

Maria: We found her.

They got out.

Marina came out.

Chad: Marina.

Marina: Hey Chad.

Me: Marina it's a pleasure to meet you.

Marina: J.D. Knudson of Team Loud Phoenix Storm. It's a pleasure.

Me: You too.

Marina told us that her sister is the mermaid from the Goosebumps Book Deep Trouble and that she was kidnapped by Alexander.

Me: Alexander will not get away with this.

Lincoln: No he won't.

Chad: That's right.

Me: Lets get him.

Jaime: Yeah!

We set out for Alexander's island.

---

On the island two kids named Billy and Sheena Deep called us.

Alexander (to Billy): Who the hell did you just call?

Billy: Just a few of J.D.'s Cybertronian friends who are gonna take you down!

Aleander: Oh please. They'll never make it in time!

A massive fiery explosion blasted a hole through the roof of the hideout and a phoenix cry was heard.

We arrived out of the smoke.

Alexander (smirks at the Lightspeed Rescue Rangers): They don't look like Cybertronians to me.

Goon (sees morphers): Aren't you punks a little old to be playing with toys?

Kelsey: Do our morphers really look like toys?

Eddy: A little. (takes out blaster) You guys morph. I'll buy you some time! (fires blaster at the bad guys)

Carter: You're gonna pay for your crimes Alexander. Lets get him.

Rangers: LIGHTSPEED RESCUE!

The Rangers turned into their power ranger forms.

Ryan: TITANIUM POWER!

Ryan became the Titanium Ranger!

Me: Awesome! Just like on TV.

Kelsey: Yep.

Joel: This is gonna be awesome helping you.

Me: It sure is. Alexander DuBrow, you and your men are under arrest.

Alexander: You'll never take me alive!

Edzilla: (grabs Alexander by the throat) ED SMASH POACHER!

Edzilla punched him in the face and threw him into the wall.

The thugs came at us and we teamed up with the Lightspeed Rescue Power Rangers. Edzilla released the mermaid. She was very pretty. She has long blonde hair, wears sea shells for earrings, and has clam shells covering her breasts. She has a long fish tail and all she says is "Kruu." Her favorite food is squids.

Edzilla smashed the tank open and freed the mermaid. Edzilla took her to the ocean.

Just as he reached it a massive fiery explosion erupted out of the ocean and blew the whole laboratory apart with a massive shockwave and it took the form of a massive mushroom cloud. The mushroom cloud then had evil red eyes, a malevolent smile and its blast ring was made entirely of Axel's Chakrams. It was called the Nuclear Firepain!

Lea: Guess my Heartless didn't get the memo that I switched sides.

Me: Whoa! So this is your heartless!

Lola: This one is gigantic!

Edzilla (Puts the mermaid in the ocean): You safe now. Find cover. Fight about to get ugly.

Marina: Karm!

Marina and Karm were reunited and they hugged.

Marina: I'll never lose you again.

Lea walked up to the Nuclear Firepain and he tamed it and they merged and a massive vortex of fire exploded out. Lea's energy was rising fast at a dramatic rate. When the vortex faded we saw Lea was forever changed. He was in a red t-shirt of fire and his pants were phoenix flames and he had wings made of pure fire and tail feathers made of pure fire as well.

Me: Wow! Lea you look amazing!

Lea: Thanks J.D. I feel incredible. I feel the power of my heartless surging through me.

Elena: We've now transcended to new heights in power.

Lea: We sure did.

Me: Lets take down Alexander and his cronies.

We went at them and it was a vicious and powerful fight. Nico caught a Honchcrow and a Purugly during the fight.

Nico: Alexander DuBrow, you have failed this city!

Me: He has failed more than that.

I punched a thug and Carter punched one as well.

Me: Carter it was so cool how you all fought the evil forces of Queen Bansheera. It was so awesome how you all killed her.

Carter: (Punches a thug) We get that all the time.

Me: (Kicks a thug in the face) I believe it. Ready Carter? Lets blast them.

Carter: Right!

We jumped and kicked two thugs in their faces.

Me and Carter: (In Unison) 5-5-5 Activate! Booster Beams! Fire!

Me and Carter fired energy beams from our boosters. Carter's was red and mine was purple. They hit three thugs and exploded.

KRABBOOOOOOOOOOOOOOOOMM!

The thugs were blown into the rubble.

Carter: You have watched our moves.

Me: Yep.

Laney and Dana teamed up.

Laney: You'll like this Dana. 8-6-1 Activate! Megabattle!

Laney had her Megabattle Gear appear on her.

Dana: Wow! Laney you look awesome in Megabattle Gear.

Laney: Thanks Dana. Me and J.D. have been practicing with all kinds of new weapons.

Laney slashed two thugs with her new energy whip.

Dana: That was awesome!

Laney: Thanks Dana. Watch this! Thermo Blaster!

Laney's Thermo Blaster appeared in her left hand.

Laney: Booster Mode!

She turned it into a rifle and put her battle booster in it.

Laney: 8-1-8 Activate!

Laney fired a brown laser blast from her Thermo Blaster. It hit two thugs and exploded.

KRABBOOOOOOOOOOOOOOOOOOOOOOOMMM!

Laney: You two belong in hell!

Dana: Well done Laney!

Laney: Thanks Dana.

We went at the thugs and destroyed them all.

Me: Now it's your turn Alexander. Combo and final smash time!

Billy Deep: I want to help too!

Me: Okay.

Nico: Murkrow, I choose you!

Nico called out his Murkrow.

Nico: ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Murkrow's abilities.

Grimlock: Me, Grimlock next. CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his Galaxial Rocket Launcher.

Nico: Murkrow Night Shade!

Murkrow fired a powerful blast of dark energy.

G1 Grimlock and Nico's Murkrow: DARKSTORM GALAXY SHRED!

Murkrow fired a powerful blast of dark energy and Grimlock fired his Galaxial Rocket launcher and the blasts combined and turned into a powerful mini galaxy energy disk that slammed into Alexander and exploded.

KRABBOOOOOOOOOOOOOOOOOMMMM!

Commander Mars: Time for action Purugly! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Commander Mars' right arm device and it enhanced her Purugly's abilities.

G1 Razorclaw: Lets get him! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his speed and power as well as his sword and concussion blaster.

Commander Mars: Purugly, Fury Swipes!

Razorclaw fired his concussion blaster.

Commander Mars and Razorclaw: ANIMAL SONIC SLASHSTORM!

Purugly slashed Alexander all over the place and Razorclaw's Concussion blast sent Alexander into the wall.

Me: Final Smash time!

Maria: I'll start us off! MAELSTROM TORNADO SPLASH!

Maria fired a massive vortex of pure water and it slammed into Alexander with devastating force and slammed him into more crates.

Billy Deep: Let me try! AQUA PRISM BEAMBURST!

Billy Deep formed a big ball of water and it fired a massive blast of rainbow light and it hit Alexander and exploded. He was knocked out.

Captain Mitchell arrived and he slapped the cuffs on Alexander.

Billy Deep: (To the viewers) It was so cool doing a final smash.

Me: Your first one Billy.

Alexander was arrested by Captain Mitchell.

Commander Mars (to Alexander): You should be lucky that Captain Mitchell is the one arresting you. If it were us, we wouldn't show you mercy.

Me: That's right. And you have a lot to answer for while you're in prison.

Alexander DuBrow was sentenced to 20 life sentences in the Uranus Prison without parole and ordered to pay the Deep Family $523,857,222,368,999,999,999 in restitution.

Me: Carter it was so awesome working with you all.

Carter: It sure was J.D. You guys are a magnificent team and a tremendous inspiration to the world.

Me: We don't like to brag. But thank you Carter.

We shook hands and Carter and the Power Rangers of Lightspeed Rescue would need us when the time came.

---

Later we were back at the estate.

We were at our swimming pool relaxing and having fun.

Billy Deep: My favorite adventure was when you guys killed Morgana.

Melody: I remember that.

Maria: I was only wearing my swimsuit for that entire adventure.

Me: That was an awesome adventure.

Sheena was wearing a blue one piece swimsuit. She was having a swimming race with Maria, Varie, Lana, Tamao and Will.

Maria (laughs): Man, Sheena. You swam like a turtle!

Sheena: Oh yeah!?

They raced again.

We laughed and it was funny.

Me: Got to admire her spirit though.

I was having a glass of Tang Orange Juice. Lola and Lana were in the world of Tang with the Tang Chimps and they were kicking and shredding fruit all over the place. They were shredding bananas, cherries, oranges, pineapples, all kinds of fruit.

Lana: It's like we're living food processors!

Lola: And it's like we're in Fruit Ninja!

Lana: This is awesome!

We were having a lot of fun and a great time. This was the first ever Goosebumps Villain we busted that wasn't a monster.

THE END

---

Another Fanfiction Complete.

The Goosebumps Book Deep Trouble is one of my favorites. I liked the book because of the cover and it had a shark that looked more like a fusion between an Orca Whale and a Hammerhead Shark. Power Rangers Lightspeed Rescue is one of my favorite seasons of the Power Rangers Series and they were awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time

# Fruit-tastic Shenanigans

It starts in the living room. We were watching TV and reading books.

Laney: Hey guys, I have some new fruit snacks for all of us. Gushers!

Me: I haven't had those in a long time Laney.

Maria: Me neither J.D.

May: Can I have some?

Laney: Sure.

Me: I remember seeing those funny Gushers Commercials where the kids heads turn into fruit when they eat them.

Nico: Those were so funny. I wonder if that will happen to us?

Maria: Lets find out.

Maria, May, Yumi and Gwen ate them.

Maria: Fruity and here comes something!

Maria was laughing.

Maria: (Giggles) Are you tickling me William?

William: I'm not even touching you Maria.

Maria's hair fell out and her head turned blue and bumpy and it grew and had mini-berries on it. She had her head turn into a Blue Raspberry.

May: Sweet and fruity. Whoa!

Gwen: Fruity and tasty. Uh oh!

Yumi (sees May and Gwen's faces turning red): Aw, May! Are you and Gwen blushing?

May: We aren't blushing. But we are laughing! (Laughs)

Gwen: I'm laughing too! (Laughs)

May: (Giggles) Is that you tickling me Nico?

Nico: I'm not even touching you May.

Gwen's hair fell out and her head turned dark red and round and she grew a long stem out of the top of her head and she had turned into a cherry!

May's hair fell out and her head grew big and heavy and it grew a green skin and her head turned into a heavy watermelon.

May: Whoa! I feel really heavy!

She fell to the floor.

FWOMP!

Yumi: Tasty. Here it comes!

Yumi was laughing a lot.

Yumi: (Giggles) Ulrich stop it!

Ulrich: I'm not doing anything.

Yumi's hair fell out and her head turned orange and she laughed as her head was turning into an orange. Her head turned big and round and grew an orange peel and she had the scent of oranges on her.

Gwen (starts to giggle): Wait. This transformation isn't painful. It feels… good!

Gwen's head turned into a cherry and May's head turned into a watermelon.

Me: Wow! It really works!

I show them a mirror and they saw that they were fruit!

Maria: Hey I'm a blue raspberry!

Yumi: I'm an orange!

Gwen: I'm a cherry.

May: And I'm a Watermelon!

Nico: May you look awesome as a watermelon.

May: (Giggles) Oh Nico.

Maria: Uh oh. I have to sneeze. (SNEEZES!)

She splattered me, Nico and William with blue raspberry juice.

Me: (Slurps) Yummy! Blue Raspberry. My favorite!

Nico: Mine too. It's tasty.

William: Maria you have really tasty and fruity juice.

Maria: (Laughs) Oh William.

Me: I like blue raspberry because it turns your tongue and your teeth blue.

Nico: That is a funny thing Blue Raspberry does.

Leni: Are there any real blue raspberries?

Me: No Leni. It's an artificial flavoring. It's what goes into the candy that makes it seem real.

Leni: Oh.

Laney: But maybe Blue Raspberries can be real.

Laney touched a plant pot full of soil and she grew a bush and it had Blue Raspberries on it.

Me: A blue raspberry bush! That is so awesome Laney.

Laney: Lets try one.

We did so and they are as tasty as the real thing and we saw that our tongues were blue and our teeth were blue too.

Me: My tongue is blue!

Laney: Look at my teeth.

James: How do you girls feel now that you're fruits?

May: It feels sweet and tasty.

Gwen: How long will this last.

Me: I think about 10 more minutes.

We waited.

10 minutes later the girls were feeling something.

Yumi: I feel something.

Yumi felt her head changing back.

Yumi: (Woozy) Fruity and silly.

Gwen: I feel something.

Gwen's head reverted back.

Gwen: (Woozy) Fruity.

Maria: Here comes something.

Maria's head reverted back.

May: Something's coming!

May's head reverted back. But she was very woozy and disoriented.

Nico: (sees the girls normal again) You four ok now?

Yumi: Yeah we're fine.

Gwen: I'm good.

Maria: Same here.

May then fainted and Nico caught her.

Nico: That was a fruity and funny experience for you.

Me: That was very funny though. Tasty too.

Lori: It sure was.

We laughed.

Carol: That was funny! Lynn Sr. you remember how you met Maria right?

Lynn Sr.: I sure do. She was only in her swimsuit when we met.

Lynn Sr.: (Narrating) **After we got back from the mall you came downstairs.**

Carol: Lynn Sr., Rita, this is my friend Maria Rockell. We've known each other since we were in kindergarten.

Maria was still in her aqua blue swimsuit back then.

Maria: It's a pleasure to meet you.

Rita: Same to you Maria.

Rita: (Narrating) **We first met Maria then and she is an awesome girl.**

FLASHBACK ENDS.

Me: That was a good memory.

Johnny: Hey guys. I have a new game for you all. It's called Smash Badger 3.

Me: That sounds like a parody of Crash Bandicoot.

Johnny: It totally is.

We watched Johnny and Nicole play it.

Me: This game is funny and awesome!

Dukey: Yeah. We have to defeat the Evil Dr. Swamp Brain. He's the final boss on this game.

Me: He sure looks dangerous.

Hound: Johnny, who's more destructive? Swamp Brain or Smash Badger?

Johnny: They're both pretty even. But Dr. Swamp Brain is pure evil.

Susan T.: One time we accidentally brought him to our world.

Me: That must've been crazy.

Johnny: It was. But it was an awesome adventure.

Dukey: Relax, guys. There is no way Swamp Brain's getting out.

Nico: Oh James. I think you know this Pokemon.

Nico pulled out a pokeball and gave it to him and out came a Chimecho.

James: Chimecho!

It was happy to be reunited with James.

Me: It's an adorable pokemon!

Nico: I caught a Chingling and a Skuntank earlier today.

Me: Awesome job buddy.

Nicole: Yes! Goddess of Video Games wins again!

Johnny: I bow before your superiority Lady Nicole!

But then a blast of purple light came out of the TV and went into the Front Yard.

Me: Was our TV supposed to do that?

Nico: Nope.

Me: Lets go!

We went outside and we saw standing in our own front yard DR. SWAMP BRAIN HIMSELF!

Swamp Brain: Guess who's back, Level Pork Belly?!

Me: Actually you're in Gotham Royal York. Johnny Test and his family moved here and are living with us.

Dr. Swamp Brain: Really? Oh. Well then uh I guess I'll call this level Level Gotham Royal York.

Me: That works.

Swamp Brain: Good.

Johnny: Swamp Brain I don't mind killing!

Drag Strip: Because he's a digital character.

Johnny: And I already killed him.

Dr. Swampbrain: You foolish humans! Prepare to bow before me!

Me: We're more than human you disembodied freak! Lets get him!

We went at Dr. Swamp Brain and blew all four of his legs off. I punched him in the face and Nico kicked him in the face and punched him in the frontal lobe. May punched him in the face and kicked him into the air. Johnny punched him in the face and bashed his brains in with a hammer.

SMASH!

Dukey: Yeah!

Dukey fired a blaster at Dr. Swamp Brain and it hit him and exploded.

KRABOOOOOOOOOOOMMMM!

Edzilla (punches Swamp Brain): ED SMASH BRAIN MAN!

Me: Lets finish him! Combo and final smash time!

Hound: Roger that! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his plasma energy blaster.

Mr. Stenchy used the Animatron Cyber Planet Key and it went into his backpack device and it enhanced his vile stench to that of incredibly disgusting rottenness.

Hound: STINKY PLASMA CANNONBALL!

Mr. Stenchy got into Hound's Plasma Energy blaster and he fired him at Dr. Swamp Brain and he busted through his glass dome and released a massive and foul odor that made Dr. Swamp Brain puke out his nerves and innards.

Drag Strip: Lets get him! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his speed.

James: Lets show them Chimecho! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced Chimecho's abilities.

James: Use Psywave!

Drag Strip and James: SUPERSONIC PSYCHIC FORCE!

Drag Strip went at supersonic speeds and Chimecho fired a massive psychic energy wave. Drag Strip slammed into Swamp Brain first and the wave followed and it hit him and exploded.

KRABBBOOOOOOOOOMMMM!

Me: Final Smash time!

Ash: I'll start us off. SUPERSONIC RICOCHET KICK!

Ash ran fast and jumped and bounced off a tree and went fast at Dr. Swamp Brain at supersonic speed and he slammed a powerful and devastating kick into him.

Me: Wow! What power!

Dawn: Ash did a move like that against Team Rocket when we met.

Jessie (Pokemon): We never saw him move like that and it was amazing how he did that.

Brock: I agree. That was amazing how Ash was able to move like that.

Me: It sure was. And he demonstrated an amazing set of moves when we killed Team Rocket.

Dawn: He sure did.

Serena: He's an amazing guy.

Lincoln: That's our Ash.

Dukey: Lets finish him. BUILDING BLOCK SWORD SMASH!

Dukey pulled out a sword made entirely out of building blocks and he jumped up and slashed Dr. Swamp Brain and he exploded all over the place!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Dr. Swamp Brain was dead.

Me: That's it for him. But that was awesome!

Dukey: It sure was. (To the viewers) Never underestimate the skills of true video game champions.

Me: You said it Dukey.

Johnny: Despite what happened today, I still like to play Smash Badger.

Me: Awesome.

I ate a watermelon gusher and my smile turned into a watermelon slice smile.

THE END

---

Another Fanfiction Complete.

Dr. Swamp Brain on Johnny Test was a one time appearance on the show. I love gushers fruit snacks and those commercials were awesome and funny! NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# Curse of The Black Cauldron

It starts in the living room at the estate. It was movie day and we were watching one of my favorite Disney Movies: The Black Cauldron from 1985. It was about a young Pig handlers apprentice named Taren who lived during the European Dark Ages of 8th Century Medieval Europe in the land of Prydain and how he journeys to find a terrifying artifact that can bring forth an army of the dead from the Darkness of Hell itself called the Black Cauldron. The Black Cauldron is an artifact of doom from the darkness of Satan himself. The Black Cauldron is called this because in Prydain there lived a malevolent and pure evil king that struck fear into everyones hearts and he was thrown into a molten iron cauldron and burned alive. His demonic spirit haunts the cauldron and for centuries it laid hidden and was extremely elusive.

Narrator: Legend has it, in the mystic land of Prydain, there was once a king so cruel and so evil that even the gods feared him. Since no prison could hold him, he was thrown alive into a crucible of molten iron. There his demonic spirit was captured in the form of a great Black Cauldron. For uncounted centuries, the Black Cauldron laid hidden. Waiting. While evil may have searched for it, knowing whoever possessed it would have the power to resurrect an army of deathless warriors and with them, rule the world.

---

In the land of Prydain in 717 A.D., Taran is an "assistant pig-keeper" on the small farm of Caer Dallben, home of Dallben the Enchanter. Dallben learns that the Horned King is searching for a mystical relic known as the Black Cauldron, which is capable of creating an invincible army of undead warriors, the "Cauldron-Born". Dallben fears the Horned King may try to steal his pig Hen Wen, who has oracular powers, and use her to locate the cauldron. Dallben directs Taran to take Hen Wen to safety; unfortunately, Taran's foolish daydreaming causes Hen Wen to be captured by the Gwythaints, winged wyvern-like creatures that serve the Horned King.

Taran follows them to the Horned King's stronghold. Along the way, he encounters the small, pestering creature Gurgi, who joins Taran on his search. Frustrated by Gurgi's antics and fear of the castle, Taran leaves him to sneak inside and rescues Hen Wen, but although Hen Wen escapes, Taran is captured and thrown into the dungeon. A fellow captive named Princess Eilonwy frees Taran as she is trying to make her own escape. In the catacombs beneath the castle, Taran and Eilonwy discover the ancient burial chamber of a king, where Taran arms himself with the king's sword. It contains magic that allows him effectively to fight the Horned King's minions and so to fulfill his dream of heroism. Along with a third prisoner, the comical, middle-aged bard Fflewddur Fflam, they escape from the castle and are soon reunited with Gurgi. Upon discovering that Taran has escaped, the Horned King orders his goblin companion Creeper to send the Gwythaints to follow Taran and bring him back alive.

Following Hen Wen's trail, the four stumble into the underground kingdom of the Fair Folk who reveal that Hen Wen is under their protection. When the cheerful, elderly King Eidilleg reveals that he knows where the cauldron is, Taran resolves to go destroy it himself. Eilonwy, Fflewddur, and Gurgi agree to join him and Eidilleg's obnoxious right-hand man Doli is assigned to lead them to the Marshes of Morva while the Fair Folk agree to escort Hen Wen safely back to Caer Dallben. At the marshes they learn that the cauldron is held by three witches-the grasping Orddu, who acts as leader; the greedy Orgoch; and the more benevolent Orwen, who falls in love with Fflewddur at first sight, which causes a frightened Doli to abandon the group. Orddu agrees to trade the cauldron for Taran's sword, and he reluctantly agrees, although he knows that to yield it will cost his chance for heroism. Before vanishing, the witches reveal that the cauldron is indestructible, and that its power can only be broken by someone who climbs in under his own free will, which will kill him. Although Taran feels foolish for aspiring to destroy the cauldron alone, his companions show their belief in him; and it seems that Eilonwy and Taran will kiss. Suddenly, the celebration is interrupted by the Horned King's soldiers who have finally reached the marshes themselves. They seize the cauldron and arrest everyone but Gurgi, and take their prisoners back to the castle. The Horned King uses the cauldron to raise the dead and his

Cauldron-born army begins to pour out into the world.

Gurgi manages to sneak into the castle and rescue his friends. Taran decides to cast himself into the cauldron, but Gurgi stops him and jumps into the cauldron himself. The undead army collapses. When the Horned King spots Taran at large, he infers the turn of events, says that Taran has interfered for the last time, and throws the youth toward the cauldron; however, the cauldron's magic is out of control. It consumes the Horned King in a tunnel of fire and blood, killing him and destroying the castle, using up all its powers forever. The three witches come to recover the now-inert Black Cauldron. However, Taran has finally realized Gurgi's true friendship, and he persuades them to revive the wild thing in exchange for the cauldron, forcing him to give up his magical sword permanently. Fflewddur challenges the reluctant witches to demonstrate their powers by the revival, and upon hearing Fflewddur's remarks, the witches honor the request, restoring Gurgi back to life. After Gurgi is resurrected, he pushes Taran and Eilonwy into a kiss. The four friends then journey back to Caer Dallben where Dallben and Doli watch them in a vision created by Hen Wen, and Dallben finally praises Taran for his heroism though he prefers to be a Pig-Boy.

---

The Black Cauldron was being searched for by the evil Horned King, the war leader of Annuvin and he will stop at nothing to find it and rule the world! Taran and the lost princess Eilonwy whom we haven't met yet and is the last of the Disney Princesses we have yet to encounter, managed to defeat the Horned King and kill him with it. We saw the Horned King die and we saw Taran and Eilonwy kiss and it was a great movie. But the movie critics gave this movie a bad rating. But those stupid critics don't know anything about it.

Me: That's an awesome movie!

Nico: It sure is.

Lincoln: I just can't believe those movie critics gave this movie a bad grade and more.

Laney: Yeah they wouldn't know good movies if they kicked them in their faces.

Me: I know. Riku, was Eilonwy one of the Princesses you kidnapped?

Riku: No thank goodness.

Me: Well that's a relief.

Nicole: But that Black Cauldron is absolutely terrible. It is just like the Book of Vile Darkness but in the form of a metal cauldron.

Nico: What's the difference between the Book of Vile Darkness and the Black Cauldron?

Nicole: The Book of Vile Darkness was crafted from the body of an evil sorcerer and the Black Cauldron was made when that evil king fell into it.

Lola: Who was the Book of Vile Darkness made from?

Nicole: You would hate this guy Lola. His name was Nhagruul the Foul.

Nicole revealed the history of Nhagruul the Foul.

4,000 years ago in the world of Dungeons & Dragons, Nhagruul the Foul, a malevolent sorcerer who reveled in corrupting the innocent and the spread of despair, neared the end of his mortal days and was dismayed. Consumed with hatred for all things living, Nhagruul sold his soul to the demon lords of the abyss so that his malevolent spirit would survive after his body perished. In an excruciating ritual, Nhagruul's skin was flayed into pages, his bones were hammered into a cover, and his diseased blood was transformed into the ink to pen a book most vile. All those exposed to the book were driven insane and were corrupted by the wicked knowledge contained inside that they were forced to turn evil. Misery and bloodshed followed the disciples of Nhagruul as they spread their masters Dark Dream. Creatures, untamed and depraved emerged from every pit and unclean burrow to partake in the fever of destruction. The cities and kingdoms of Karkoth were devoured by this plague of evil. Until a group of holy warriors arose from their ashes. Nicole was in the world of Dungeons & Dragons and she became a member of this powerful group of warriors. The warriors were called The Knights of The New Sun and they swore an oath to resurrect all hope in the land. The purity of their hearts was so powerful and great that Pelor, the God of Light granted them powerful amulets with which to channel his righteous power of light. This pierced the shadow that had darkened the land for 1,200 years and cast it asunder. Nicole found the Book of Vile Darkness during the battle and her power completely destroyed Nhagruul's Evil knowledge and spirit inside it and completely wiped the book clean of info. Nicole would use the book to capture the Universe's most evil villains and imprison them in the book forever.

Laney: Wow! That is terrifying!

Lana: I can't believe that the Book of Vile Darkness is that evil!

Jared: But Nicole cleansed it of all its evil and made it a prison for the most evil villains in the universe.

Nicole: That's right big bro. And I'm also a member of the Knights of the New Sun.

Nicole pulled out an amulet of Pelor and this showed that she was a member of the Knights Of The New Sun.

Me: That's an amazing amulet Nicole.

Lincoln: How come you never showed that to us?

Nicole: You never asked.

Lincoln: Touché.

Nicole scrolled through the pages and revealed all the information she gathered from the villains that we killed and imprisoned in the book and it was an amazing amount of information.

Nicole: Some people are just that completely evil. They are so bad that they make even the devil himself cringe.

Me: We killed so many villains and destroyed numerous monsters.

Laney: Sora did you visit the world of The Black Cauldron during your journey?

Sora: As a matter of fact we did. We arrived at that world when we were searching for Riku.

Kairi: I remember you told me that.

Me: That's cool. Also from what we know, Eilonwy is the only princess we have yet to meet.

Aqua: That's right.

Kida: You guys know all of us.

Tiana: I know. It's hard to imagine that you know a lot of princesses.

Me: I know. Lets not forget that we've encountered so many people and friends that Sora knows as well as Aqua, Ventus and Terra and they helped out numerous people in need.

Goofy: We sure have.

Me: Yep. Mega Man can I ask you a question?

Mega Man: Sure J.D.

Me: How did you become Mega Man? We're you a normal human that volunteered to become this?

Mega Man: You hit the nail right on the head J.D. Here goes. Before I became Mega Man, I was originally a human named Rock.

---

Mega Man, or Rockman, came into existence due to the following timeline of events. In the fictional and futuristic year 200X, the robotics expert Dr. Thomas Light (Dr. Right in Japan) worked to create a humanoid robot. This robot would demonstrate an advanced artificial intelligence program that would allow it to make decisions based on vague commands and directions.

Before Dr. Light ever constructed what would eventually become Mega Man, he first designed the robot known as "Proto Man" ("Blues" in Japan) which similar to his name was designed as a prototype of his future creations. Dr. Light's achievement greatly exceeded his expectations, however, he found a critical problem on Proto Man's power reactor. He made plans to modify and repair him, but the robot ran away, fearing that he would lose his identity and become like a different person.

After the disappearance of Proto Man, Dr. Light decided to create another robot. He created two robots siblings around the same time to work as a pair. These robots were called "Rock" (ロック) (Mega in the Mega Man Powered Up remake) and "Roll". Rock was created as Dr. Light's lab assistant, and his "sister", Roll, was designed for housekeeping.

With the success of these two test-type robots, Light designed and built six industrial robots, mainly to be used in the construction and maintenance of public works. These robots were Cut Man, a timber felling robot; Guts Man, a construction robot; Ice Man, a robot designed for exploration in extreme freezing temperatures; Bomb Man, a land reclamation robot; Fire Man, designed for waste management; and Elec Man, designed to oversee and control atomic energy power plants. (Mega Man Powered Up introduced two more Robot Masters: Time Man, a time researcher robot, and Oil Man, an oil maintenance robot.) Each of these robots had full use of a human-like intelligence and reasoning potential. However, little did Dr. Light know that all of these robots, including the missing Proto Man, would later serve as the key to unlocking Rock's destiny.

Dr. Albert W. Wily, an old colleague of Dr. Light's, grew jealous when his projects were always overshadowed by his self-proclaimed rival. He constructed a robot factory in the Pacific and began to plot to conquer the world.

Wily stumbled upon Proto Man one day, who was dying when his energy system was malfunctioning. He repaired him, and while analyzing him he discovered that he had found a way to create robots at the same level as Dr. Light. He decided to reprogram Dr. Light's industrial robots to exact revenge. One day, the industrial robots became misled and forced under his rule. With his new followers, Wily seized control of the city and demanded recognition. This string of events set in motion what would later become the purpose for Mega Man's existence.

Realizing that it would be very difficult for the armies to stop Wily, Dr. Light knew something had to be done. Rock, having a strong sense of justice, volunteered to be converted from his current state as a lab assistant into a fighting robot, or rather, a super fighting robot. Thus, on May 25, he became known as "Mega Man"

From that day forward Mega Man volunteered himself for action against crime and serving to support and protect mankind's existence and coexistence with robots within society.

Mega Man fights and destroys each of the Robot Masters before journeying to Wily's fortress to defeat him once and for all. Mega Man eventually wins the battle, but Wily bows down and begs for forgiveness, which Mega Man grants. Mega Man then walks home to meet Dr. Light and Roll.

After the events of the first Mega Man game, Dr. Wily somehow returned with a new fortress and eight of his own combat robots, designed specifically for destroying Mega Man.

Mega Man defeats all eight Robot Masters and confronts Dr. Wily himself, who turns into an Alien. Mega Man defeats the Alien, which is revealed as a hologram operated by Dr. Wily. After Wily begs for mercy, Mega Man spares him and returns home… again.

Some time later, Dr. Wily claims to have changed and teams up with Dr. Light to create a giant peacekeeping robot called Gamma. However, the new Robot Masters created to mine the Energy Elements needed for Gamma's construction have gone out of control. Mega Man goes after them, meeting his brother, Proto Man (under the alias Break Man in this game, until the ending) along the way. Mega Man soon retrieves the crystals, but returns to discover that Dr. Wily has stolen Gamma and plans on using it to take over the world.

Mega Man defeats Gamma and foils Wily's plan again, and the mad doctor is seemingly killed by debris of his fortress at the end. (Wily's

UFO can be seen flying in the ending, revealing he had survived.)

One day, Dr. Light received a message from a scientist named Dr. Cossack, challenging Light and Mega Man to a contest to see whose robots were better. Dr. Cossack's Robot Masters started causing chaos and Mega Man went out to stop them.

After defeating the Robot Masters, Mega Man goes to Dr. Cossack's Citadel to confront him. Upon defeating the scientist's final machine, however, he discovers that not all is as it seems…

In truth, Cossack was being forced into his criminal acts because his daughter, Kalinka, had been kidnapped by Wily (who was very much alive). Luckily, Proto Man betrays Wily and rescues her, allowing Mega Man to head for Wily's new fortress and defeat him once more. This time, however, Wily was able to escape.

Mega Man discovers, to his shock, that Proto Man has kidnapped Dr. Light and a new group of Robot Masters under his command were attacking the city. As usual, Mega Man heads out to save the day and get to the bottom of Proto Man's strange behavior.

After defeating the Robot Masters and navigating Proto Man's Castle, Mega Man confronts Proto Man. At first, his opponent gets the better of him, as Mega Man is reluctant to hurt his ally, but the real Proto Man shows up and reveals the fake as Dark Man 4, who Mega Man defeats with ease.

After defeating Dark Man, Dr. Wily appears and reveals himself as the creator of Dark Man. Saying that he is holding Dr. Light captive at his castle, Wily challenges Mega Man to come after him.

Yet again, Mega Man goes to Wily's castle and defeats him once more. But the fortress starts to collapse and Mega Man, using his super strength, tries to hold it up. Wily escapes while Mega Man is distracted, but Proto Man comes in and rescues Mega Man and Dr. Light.

An event called the 1st Annual Robot Tournament, sponsored by the billionaire Mr. X, is held. Everything seems fine as the contest begins, but when the top eight robots enter the arena for the final event, Mr. X appears and reveals he had reprogrammed the eight robots to use them to take over the world.

Mega Man goes to stop Mr. X and his army of robots, defeating the Robot Masters and battling Mr. X atop his castle. As it turns out, Mr. X is only an alter ego for Mega Man's nemesis, Dr. Wily. Thus, Mega Man battles Wily and puts a stop to his plans once again. This time, he finally apprehends the mad doctor, sending Wily to prison.

Unfortunately, Dr. Wily had planned for even this outcome. Six months after Wily's defeat and imprisonment, it is revealed he had four robots hidden away. These robots are activated remotely and break Wily out of prison.

Mega Man arrives upon the scene and encounters Bass, a humanoid robot, and Treble, his robotic wolf. Mega Man and Bass get into a short battle, apparently impressing the latter with his skill. Bass claims he is trying to stop Wily as well and comments that Mega Man might not need his help before leaving.

After defeating four of the Robot Masters, Mega Man finds out Wily is attacking the robot museum and has stolen Guts Man. He attempts to intercept the villain, but is delayed when Wily deploys a clown-like robot to battle him.

Mega Man finds Bass again, injured in a fight. Mega Man takes him back to Dr. Light for repairs. However, when Mega Man returns to the lab, he finds the lab has been damaged by Bass, who has also stolen blueprints for the Super Adapter intended for Mega Man and Rush. Dr. Wily appears on the screen and reveals that Bass and Treble are his creations.

Mega Man then heads to Wily's castle to stop his latest plan. Along the way, he fights Bass, using a similar version of the Super Adapter with Treble.

Mega Man then confronts Wily and defeats him again. As always, Wily begs for forgiveness, but Mega Man points his Mega Buster at him, saying he does not trust Wily and plans on killing him. Dr. Wily, scared out of his wits, reminds Mega Man that robots cannot harm humans. In the original Japanese version, Mega Man is speechless.

In the English version, he replies that he is "more than just a robot", implying he was planning on firing his Buster anyway, which was a stark contrast to how Mega Man is normally.

Before Mega Man can pull the trigger, Bass and Treble appear and rescue Wily. Mega Man then leaves Wily's fortress as it goes up into flames, clearly conflicted about what happened.

During a city battle against Bass, Mega Man is called away to investigate an island uncharted by any maps. After defeating a hermit crab-like robot, he finds Dr. Wily, who reveals that the island was his base before absconding with an orb of strange purple energy. Although unable to stop Wily's escape, Mega Man finds a badly damaged robot in a crater and takes it back to Dr. Light's lab. While the robot is brought in for repairs, Dr. Light informs Mega Man that Dr. Wily is at it again, with four brand-new Robot Masters attacking locations all over the globe.

As Mega Man defeats each of the Robot Masters, he finds capsules of the strange energy Dr. Wily took from the island. When he returns to the lab, he gives the samples to Dr. Light for study, but the robot he found earlier breaks free and heads out to the desert. Mega Man goes after him and briefly fights him, but realizes that his opponent is holding back. Before he can consider it further, the robot flees and Proto Man appears, telling him that Wily's new headquarters is up ahead.

Mega Man goes to the "Wily Tower," but is captured by a massive robot. He is then saved by the strange robot he battled earlier, who introduces himself as Duo and explains his mission to destroy all "Evil Energy" in the universe. Duo informs Mega Man that the other robot contained Evil Energy within it, which Wily was using to make his robots more powerful. He also told the hero that Wily Tower was protected by a forcefield linked to four more Robot Masters hidden around the world. As Duo left to secure the rest of the Evil Energy around the world, Mega Man set out to defeat the other four Robot Masters and foil Wily's latest plan.

In the end, Mega Man defeated the remaining Robot Masters and infiltrated Wily's fortress. Along the way, Bass challenges him to a duel, having used Evil Energy to increase his power, but Mega Man emerges triumphant once more. When he finally reaches Dr. Wily, he is caught in an energy trap and is almost destroyed by Wily's machine's cannon, but is saved when Duo appears and takes the blast for him. Duo, now immobilized, is in turn saved by Proto Man. Mega Man thanks Proto Man for helping Duo recover and takes on Wily's newest machine.

As usual, Mega Man destroys the latest incarnation of the Wily Machine, leaving Wily on the ground begging for forgiveness. As Mega Man berates Wily for trying the same old ruse after so many failures, he is taken over by the Evil Energy in Wily's machine as the tower collapsed around them. However, Duo saved Mega Man and destroyed the evil energy within him. He leaves before Mega Man wakes up, but Proto Man informs him of Duo's final message to the Blue Bomber: "Thank you".

A new robot named King, claiming to be the strongest robot in the world, began to recruit other robots to form a new Robot Army. Mega Man went to stop King, aided-to his surprise-by Bass, who took offense to King's claims of being the strongest robot.

After defeating the eight new Robot Masters and King himself, it is revealed that King was created by Dr. Wily, who Mega Man and Bass defeat once more.

Several years later, new robots were causing havoc around the world, all created by Dr. Light. Mega Man quickly volunteered to clear Light's name and was sent out to investigate the source of the problem.

Soon, the police came to arrest Dr. Light. Meanwhile, Mega Man went after the Robot Masters and, after he defeated a few of them, discovered that they were scheduled to be decommissioned and sent to the junkyard because they had reached the expiration date assigned to them by the government. Once the final robot had been taken down, Mega Man brought back his Memory Circuit Board to Auto for investigation. As it turned out, Dr. Wily had reprogrammed the robots, who were scheduled for demolition, to rise up against their human masters rather than be destroyed.

Mega Man then went to Dr. Wily's castle and defeated Dr. Wily again. Dr. Wily, as usual, begged Mega Man for forgiveness. Mega Man responded to this by having Rush play clips of all the times Wily had done the same routine (the clips being scenes from previous games). Although Wily seemed contrite and apologetic, he tricked Mega Man into thinking that Dr. Light was, in fact, imprisoned in a jail cell in the next room. Although Proto Man appeared and warned him that it was a trap, Mega Man went to investigate the cell and was electrocuted by the fake Light robot and Wily set his hideout to self-destruct. Proto Man saved Mega Man, but Wily escaped yet again.

Mega Man is enjoying his day until Roll falls ill with Roboenza. At first, he believes that Wily is behind the epidemic, but Wily claims that he had found the cure, only to have it stolen by eight out-of-control Robot Masters. After defeating them all, Mega Man learns that Dr. Wily actually was behind the Roboenza epidemic all along. He succumbs to Roboenza himself, but Roll gives him her saved medicine to give him the strength to defeat Wily.

After Mega Man defeats Wily, the doctor becomes sick. Mega Man asks Wily if he has been infected with the Roboenza and Wily answers that he is a human, not a robot. Despite this opportunity to finally end Wily's evil schemes once and for all, Mega Man's heroic nature wins out and he takes Wily to a hospital. The mad scientist immediately broke out after recovering, but left behind enough of the cure to restore all of the robots infected with Roboenza. This would imply that Dr. Wily does in fact have some kindness in him.

Although he is not actually playable in the Bass and Proto Man modes, he still played a key role in those modes: In Proto Man mode, he was responsible for curing Proto Man when the latter started succumbing to Roboenza, and in both Bass and Proto Man mode endings, it is heavily implied that Mega Man was responsible for taking Wily to the hospital after the latter succumbed to influenza.

In a dream, a flashback sequence reveals that while they were at Robot University, Dr. Wily was working on a device named the Double Gear System, a device that pushes robots beyond their usual limits. Dr. Light was resistant to Dr. Wily's research due to him believing that robots shouldn't be strained, and if the Double Gear System fell in the wrong hands, it could cause harm. Wily recalls the research in his dream, and set out to kidnap eight new robots that Light was checking up on. Despite some reluctance from Light, he eventually is persuaded by Mega Man to have the Double Gear System installed in him. After recalling the rift between Light and Wily at Robot University (Light's independent thinking robots vs. Wily's Double Gear System), Mega Man ponders a way for them to work together. Wily then hacks into Light's lab, telling Mega Man where to find him, and Mega Man obliges.

After Mega Man defeats Wily, Light comes in and ponders the idea of him and Wily working together again, explaining that Mega Man was the amalgamation of both of their ideas. Wily rejects it however, and storms off. With the Gear Fortress collapsing, Mega Man escorts Light and Auto out of it.

---

Me: Wow! Mega Man that's incredible!

Mega Man: I know.

Mindwipe: So that's how Mega Man got created?

Me: It would appear so.

Laney: Did the same thing happen to you Roll?

Roll: It sure did. I may be a house robot but I love to help out Mega. He's my brother.

Me: That's amazing Roll. But in the end, Dr. Wily paid the ultimate price for his crimes. At the hands of us and his former robots and then Mega Man and Roll's.

Mega Man: Yep and this time he's gone for good.

Me: In the river of fire.

Laney: Good riddance.

Rachel S.D.: You said it Lanes. I just can't believe that Dr. Wily was that ruthless and diabolical.

Nico: Dr. Albert Wily, you have failed both the worlds of humans and robots.

Laney: You said it.

Laney was having some gushers.

Alexis: Can me, Yolei, Tara and Jen have a gusher Laney?

Laney: Sure Alexis.

They took one.

Tara went first and she ate it.

Tara: Mmm. Fruity. Uh oh.

She felt like someone was tickling her.

Tara: (Laughs) Gar, stop it!

Beast Boy: I'm not doing anything Tara.

Tara's head then started to change. She lost all her blond hair and her head elongated and grew up. Her skin turned into a yellow peel and it turned into a banana. The peel split and revealed her face.

Me: You turned into a banana!

Luan: That's quite an Ap-pealing way to split! (Laughs) Get it?

We laughed.

Tara: (Laughs) Luan that was so funny!

Me: (Laughs) Good one Luan! Just don't let Beast Boy turn into a gorilla and eat you.

Beast Boy: That's a gorilla stereotype dude.

Me: Sorry I thought it was true.

Tara: But it is funny.

Alexis ate hers.

Alexis: Tasty and fruity. Here comes something.

Alexis was laughing.

Alexis: Jaden! Stop it! (Laughs)

Jaden: I'm not doing anything Lex.

Then her head was changing. She lost her hair and her skin turned blue and her head turned shorter and it turned into a blueberry.

Me: Alexis, you turned into a blueberry!

Lori: Oh Alexis, that's so cute!

Alexis looked at herself in a mirror and she saw herself as a blueberry.

Alexis: I do look adorable.

Jaden: You sure do.

Jaden kissed her and when it was done his lips turned blue.

Me: Your lips are totally blue Jaden!

Lori: Yeah take a look.

Jaden saw this in a compact mirror and his lips were a purplish blue.

Jaden: Wow. My lips taste fruity.

Jen: Lets see what I'll turn into.

Jen ate hers.

Jen: Mmm. Fruity. Uh oh.

Jen started laughing.

Jen: Bruce stop tickling me!

Hulk: Hulk not doing anything Jen.

Jen then had her head start changing. She lost her brown hair and her skin turned green and we first thought she was hulking out, but her head grew and turned into a citrusy lime.

Me: Your head is a lime.

Jen: And I smell like Key Lime Pie.

Luan: I love Key Lime pie.

Jen: That's silly but I love limes.

Yolei: Lets see what mine tastes like.

Yolei ate hers.

Yolei: Yummy and fruity. Uh oh.

Yolei was laughing hard.

Yolei: Quit it Hawkmon!

Yolei's Hawkmon: I'm not doing anything Yolei.

Yolei then started to change. She lost her lavender purple hair and her head puffed up as her skin turned yellow but then it turned into a lemon.

Me: Your head is a lemon.

Yolei: I smell like lemonade.

Me: Just don't squirt in our eyes.

We laughed.

Davis: Nice head, Yolei!

Me: Davis!

Yolei: (Sarcastically) Oh hardy har har. Very funny!

Ten minutes later they changed back.

Tara reverted back and she got all her hair back.

Tara: (Woozy) Tropical fruity goodness.

Alexis reverted back and she got all her hair back.

Alexis: (Woozy) Those are fruity pop-tarts.

Jen reverted back and she got her hair back.

Jen: (Woozy) Oh that was sour. I feel like I drank a whole thing of Lime Juice.

Yolei then reverted back too. She gained all her hair back.

Yolei: (Woozy) Oh I feel like I drank a quart of lemon juice.

We laughed at what they said and they laughed with us.

Me: That was funny though.

Nico: It sure was.

Miranda: I thought it was hilarious.

Me: It sure was. Shall we head into the Simulator for an Adventure into the World of the Black Cauldron?

Everyone: YEAH!

Me: Lets do it!

We went to the Simulator.

---

We were in the Simulator and we were going to head into the movie The Black Cauldron. The Simulator Activated and we found ourselves in the world of Prydain. We were in the year 717 A.D. during the European Dark Ages, one of the darkest and most savage times in all of our history. We were 1,302 years into the past and it was a barbaric time back than.

Me: Wow. Prydain, 717 A.D.

Lola: It sure is beautiful.

Lana: I would call this a vacation spot.

Me: It sure would be one. Lets not forget though that this was the European Dark Ages, one of the most savage times in our history. But lets find Taran.

We walked around and we found Taran and Eiloney living in a nice house with his pig Hen Wen.

Me: There he is.

Sora: Taran! Eilonwy!

Taran: (British Accent) Sora, Donald, Goofy!

Donald: Long time no see Taran!

Goofy: How have you been?

Taran: I've been doing great. Thank you.

Eilonwy: Sora, it's great to see you again.

Sora: You too Eilonwy.

Taran and Eilonwy saw us.

Taran: Are you J.D. Knudson?

Me: That's right. J.D. Knudson, leader of Team Loud Phoenix Storm.

Taran (bows): Mr. Knudson. It's an honor to meet you, sir!

Me: No need for formalities. Just J.D. is fine.

Eilonwy: So what brings you all here?

Me: We've come to destroy the Black Cauldron and make sure that it never terrorizes this world ever again.

Taran: I'm glad you all came. We'll gladly help you all.

Nico: And if the Horned King is back and I have a strong feeling he is, we'll be ready for him.

Eilonwy: We all will.

Maggie: We sure will.

Me: Lets head out.

Maria: This time, no one's getting sacrificed to that Cauldron.

Me: You got that right Maria.

We were on our way to find the Black Cauldron. Our mission was to destroy it and make sure that no one can get their hands on it ever again.

Eilonwy: Aqua, was the Realm of Darkness that bad?

Aqua: It was. While I was in it, I was thinking dark thoughts, like me giving Terra a black eye and giving Ven a permanent atomic wedgie.

Me: That's horrible Aqua. I can't believe the Realm of Darkness is that evil. It makes a walk through Hell seem like child's play.

We arrived in a terrifying land and we saw the castle of the Black Cauldron.

Me: It's the Castle of The Black Cauldron.

Nico: It looks like a true fortress from Hell.

Carol: It sure does. It would be a perfect fortress for the Devil himself.

Lincoln: It sure would look like it.

But then a powerful storm appeared overhead and then a tornado dropped down. And it had Sky Blue eyes, a malevolent grin and Xaldin's spears were orbiting around it. It was Xaldin's Heartless called the Tornadic Deathstorm.

Tornadic Deathstorm: Surprised to see me Lori?

Me: That voice. XALDIN!

Tornadic Deathstorm: I'm flattered that you remember me J.D.

Lori: I thought we were rid of you for good Xaldin!

Tornadic Deathstorm: You haven't dealt with my Heartless yet.

Taran: You know this guy J.D.?

Me: And I wish we didn't. His name is Xaldin, and he was once a member of Organization XIII, a group of Nobodies that worked under the ruthless Xehanort who tried to destroy the entire universe.

---

Xaldin was once Dilan, a castle guard working under Ansem the Wise, benign lord of the Radiant Garden kingdom, who met Ventus and later took Aqua's armor and Keyblade into the castle. Becoming a Nobody to be free of feelings, Xaldin understood the setbacks of lacking a heart, but kept a clear disdain towards people who follow their hearts, especially towards the Beast.

Xaldin secretly begins his attempt to manipulate the Beast's rage to create a powerful Nobody and Heartless. He then kidnaps Belle, forcing the Beast to choose whether Belle or the rose is more important to him. The plan fails when Belle gets away with the rose and Xaldin falls against Sora and the Beast, fading into nothingness.

---

However, in Dream Drop Distance, it's revealed that he was revived as Dilan along with Even, Aeleus, Ienzo and Lea.

Me: Xaldin is a monster of pure unrestrained evil and he tried to kill us before. But we killed him.

Lori: And he literally still disgusts me. I hate him more than all of life itself!

Tornadic Deathstorm: It's good that the Beast is no longer cursed. It'll be all the more sweeter to kill Belle in front of him when I'm done here!

Me: You are even more fucked up than ever Xaldin!

Nico: Xaldin, you have failed this entire universe!

Lori: Also Xaldin, I will kill you again and this time you will never come back!

Lori screamed in a powerful rage and she flared up her sky blue aura and was enveloped in a powerful tornado and her energy was skyrocketing at a powerful level. She transformed into her Super Angel 10,000 Hurricane Eagle form! She had one of Xaldin's spears in her hands and her sky blue aura not only had lightning in it but also miniature tornadoes spinning around her.

Lori: You will now pay for your crimes Xaldin!

?: He's not the only one you have to worry about!

Me: The Horned King!

We turned and we saw THE HORNED KING! Back from the dead!

---

In The Chronicles of Prydain series, the Horned King appears only in the first book "The Book of Three". He is Arawn's champion and the War Leader of Annuvin. The Horned King is described as a huge man wearing armor (except for his arms, which are naked and stained crimson), a red cape and an antlered skull mask. The antlers are presumably where he gets his name.

Arawn sends the Horned King to capture the oracular pig named Hen Wen from Caer Dallben. He follows Taran across Prydain in search of the pig Hen Wen, but cannot find her. In the end, he marches his army to Caer Dathyl and attacks Taran when he and

Eilonwy try to warn the Sons of Don of the impending attack. Taran tries to fight him with the sword known as Dyrnwyn, but is nearly slain by the sword's fire in his attempt to draw it. Gwydion is able to defeat the Horned King by speaking and uttering his true name (Cornelius presumably), and upon the utterance of his name, the Horned King is struck by a flash of lightning and destroyed by flames.

The Horned King serves as the main antagonist here. However, the main antagonist was originally to be Arawn. In spite of this, the animators felt that people would prefer him better since he had horns (such as Maleficent and Chernabog). But in The Black Cauldron, the Horned King is depicted as an elderly and sinister king with gnarled antler horns and a red robe covering undead, green, rotting skin of his body which indicates his appearance to be ghoulish.

His main plan in the film was to find the Black Cauldron and use its power to unleash an army of undead Cauldron Born. He tries by any means to find the cauldron, such as Princess Eilonwy's magic bauble and Taran's oracular pig named Hen Wen. After the Horned King unleashes his army of Cauldron Born at his Castle using the power of the Black Cauldron, Gurgi flings himself into the cauldron to stop the army. After facing off against Taran, he is sucked into the cauldron and presumably perishes. The Horned King has a vast army of servants at his disposal including the troll-like goblin named Creeper, the Huntsmen of Annuvin, the dragon-like Gwythaints, and (of course) his Cauldron Born.

The Black Cauldron has never widely resounded with audiences. In theaters, the film's PG-rated intensity frightened children and upset parents expecting wholesome entertainment from the "Disney" name. However, those who have never avoided it often sing the film's praises, rather than singling it out as one of the weakest animated features in the studio's canon. The Horned King's increased role in the film renders him a treacherous, affecting and scary villain. His efforts to gain possession of the magical titular cauldron are drastic, as he calls forth an army of dead soldiers to find this key to ruling the world. Later, the Horned King while trying to pull himself away from the Black Cauldron before reviving his undead army again, was ultimately destroyed by the power of the very artifact he now possessed, with him, his plans to dominate all life.

---

Horned King: Surprised to see me, Taran?

Taran: I thought you were dead!

My dark orb detector went off.

Me: He has a Dark Orb on him.

Horned King: You mean this?

The Horned King revealed that he had a Dark Orb imbedded in his chest.

Me: It brought you back to life!

Eilonwy: What is that thing he has?

Me: That is a Dark Orb. It's a fragment of Xehanort's evil. They are scattered all throughout the entire universe and our mission on Team Loud Phoenix Storm is to destroy all of those Dark Orbs and erase every single bit of Xehanort's evil essence.

Sora: Yeah we have countless orbs to clean up.

Me: Lori you take down Xaldin's Heartless. We'll take down the Horned King.

Lori: Right!

Xion: Lori, I want to help you.

Lori: Okay Xion.

Elena: Same here.

Lori: All right Elena.

Tornadic Deathstorm: You are as useless as everyone in the organization Larxene.

Elena: Fuck you Xaldin! I was never apart of Organization XIII!

Xion: You make me sick looking at you!

Horned King: Oh and I'm not alone you fools.

The Horned King raised his hands and he had an enormous army of skeletons with him!

Me: He has a tremendous army with him!

Lucy: This is a lot of skeletons even for my standards.

Me: But he's still a dangerous enemy!

Nico: Horned King, you have failed this world!

Me: And he has failed this whole universe. Lets get them guys!

We went at The Horned King and Lori, Elena and Xion went at Xaldin's Heartless and we went at the Horned King and his entire army. Massive and fiery explosions were erupting out all over the area and destroying everything in their paths. Taran was armed with his magic sword again and Eilonwy had a magic sword as well.

Nico: (fires Starcream's Null Ray at skeletons) Like shooting fish in a barrel!

Me: It's shooting Monkeys in a Barrel, but that works man.

We fired energy blasts and elemental blasts and blew all the skeletons apart and more.

Lori fired a massive blast of wind from her hands and slashed the Tornadic Deathstorm with one of her spears. Elena and Xion fired a powerful blast of lightning and solar plasma and the blasts combined and hit Xaldin's Heartless and it exploded. Xaldin was seen and he got sucked into the River of Fire.

Xaldin: FUCK YOU ALL! FUCK YOU ALL TO FUCKING HELL!

Xaldin was gone for good. He will never terrorize the world ever again.

Elena: Go back to hell Xaldin and stay there!

We mercilessly destroyed all of the skeletons.

Warpath ran over all of the skeletons in his tank mode and squished them all over the place.

Warpath: You dead should stay dead!

Nico: And they failed at being dead!

We killed the last of the dead and set our sights on the Horned King.

Me: Now you die again Horned King.

I fired a massive blast of energy at him and obliterated him in an instant.

His spirit then appeared.

Brock (to Horned King's spirit): You get to live, Horned King. At least, just long enough to watch as we destroy your Cauldron.

Brittney: And my magic will hold you until we do.

Me: Lets go.

We pressed on and we made it to the castle. In a room we saw THE BLACK CAULDRON!

---

The origin of the Black Crochan is unknown, though it was owned for a long time by the enchantresses, Orddu, Orwen and Orgoch. Arawn made a deal with the three to obtain the Cauldron and used it to create his own army of Cauldron-Born; however, he kept it beyond the agreed-upon time and the mysterious women eventually stole it back, taking it to their home in the Marshes of Morva.

In their quest to destroy the Cauldron, Taran and his companions traded the powerful brooch of Adaon to the enchantresses; however, they then found its power could only be broken if a living human willingly threw himself into the Cauldron, a fatal act. After the Cauldron's seizure by King Morgant, this was finally done by Prince Ellidyr.

Its exact origins are unknown, though legends says the gods imprisons the soul of a malicious king into the molten iron of what is to be forever known as the Black Cauldron, for untold centuries it remains hidden while many people with lust for power searches for it. The only one among those is none other then the deathly and malevolent emperor, the Horned King.

The Horned King finally have it in his grasp while his mortal soldiers captured Taran and 2 of his 3 friends but Gurgi alone escaped, and return them to the castle. The Horned King uses the cauldron to raise the dead and his Cauldron-Born army begins to pour out into the world of Prydain.

Gurgi manages to free the captives and Taran resolves to cast himself into the cauldron, but Gurgi stops that and advances himself instead. The undead army collapses. When the Horned King spots Taran at large, he infers the turn of events and throws the youth toward the cauldron, but the magic is out of control. It consumes the Horned King and destroys the castle, using up all its powers.

The 3 witches come to recover the now inert Black Cauldron. Taran has finally realized Gurgi's true friendship, however, and he persuades them to revive the wild thing in exchange for the cauldron, giving up his magical sword permanently. Fflewddur goads the reluctant witches to go ahead and demonstrate their powers by the revival, which they do. Taran, Ellonwy and Fflewddur Fflam were reunited with Gurgi at last.

---

Me: There it is. The Black Cauldron.

Lily: That thing is overflowing with pure evil.

Me: And we won't let it be used for evil ever again.

Taran: How are we gonna destroy it?

Me: We're going to use the combined power of our attacks and use the power of Righteousness, Valor, Courage, Love and Friendship. We need to combine our attacks and hit it all at once.

Nico: Lets do it!

Me: Lets do it guys! Combo and Final Smash time!

Mindwipe: Lets do it! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his speed to 20,000,000 miles per hour and it enhanced his strength in bat mode.

Skullcruncher: Lets get him! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Skullcruncher's back and it enhanced his jaw strength.

Mindwipe and Skullcruncher: HYPERSONIC GATOR CHOMP!

Mindwipe picked up Skullcruncher with incredible speed and they went at the cauldron and Mindwipe threw Skullcruncher and he bit the cauldron in half.

Warpath: My turn! CYBER KEY POWER!

The Earth Cyber Planet Key went into the back of Warpath's Gun and it enhanced his explosives that he can now fire.

Brock: Lets go. Sudowoodo, I choose you!

He sent out Sudowoodo.

Brock: Lets go! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Brock's device on his right arm and enhanced his Sudowoodo's abilities.

Brock: Use Hammer Punch!

Warpath and Brock: DYNAMITE EXPLOSION PUNCH!

Warpath fired numerous bunches of dynamite and Sudowoodo had his Hammer Punch ready. Sudowoodo punched the cauldron with devastating force and the bunches of TNT exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMMMMMMM!

Me: Nico, lets charge up our Spirit Bombs.

Nico: You got it J.D.

Me and Nico raised our hands into the air.

Me and Nico: EVERYONE! SHARE YOUR ENERGY WITH US!

We charged up powerful Spirit Bombs.

Taran: Lets take care of the cauldron while they charge up!

Maggie: I'll start off. BLACK LANTERN DEAD RAY!

Maggie fired a powerful black lantern energy blast and it hit the Cauldron and exploded with incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Taran: My turn! EXCALIBUR MAGIC SLASHSTORM!

Taran's sword glowed with incredible righteous energy and he slashed the entire cauldron with ease.

Taran: Lets do this together Eilonwy.

Eilonwy: You got it Taran!

Taran and Eilonwy jumped into the air and they formed a powerful energy blast with a heart in the middle.

Taran and Eilonwy: LOVESTORM COURAGE FORCE!

They fired the blast and it hit the cauldron and it exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Our Spirit Bombs we're ready.

Me and Nico: DOUBLE SPIRIT BOMB STRIKE!

We both fired our Spirit Bombs at the Cauldron.

Me: Black…

Nico: Cauldron…

Me and Nico: YOU HAVE FAILED THIS ENTIRE UNIVERSE!

The powerful spirit bombs slammed into the Black Cauldron and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Black Cauldron was completely obliterated in an instant and completely destroyed.

Me: That's it for the Black Cauldron. Awesome job everyone!.

Lincoln: That… Was… AWESOME!

Girl Jordan: It sure was.

Me: Time to seal you away Horned King.

Nicole: Now, time for you to see the inside of the ACTUAL Book of Vile Darkness. Unlike your Cauldron, you'll only get out when I say you can get out! (Chants an Incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

The Horned King was sucked into the Book of Vile Darkness.

Horned King: DAMN YOU J.D. KNUDSON!

Taran: That was amazing!

Me: It was. We saved the world and destroyed two ultimate evils.

Taran: (To the viewers) Never mess with the powers of ultimate evils or we'll come after you.

Me: You said it Taran.

The Witches of Morva came.

Maggie: You're too late, Witches! The Horned King is dead. And the Black Cauldron is destroyed!

Me: Courtesy of Team Loud Phoenix Storm.

The witches were left to grieve for their Cauldron and the Horned King being destroyed. Later we placed the world of the Black Cauldron in orbit around the Land of Departure.

---

Outside we were enjoying ourselves and relaxing by the lake and Nico caught a Bonsly and a Bronzong.

Maria: I just realized that this date was when I joined you guys.

Me: That's right. It was 1 year ago today.

William: Yep.

Suddenly a massive blinding flash of light illuminated the whole planet and we shielded our eyes. But then when the light faded, we saw an incredible and absolutely unbelievable sight. The planet Earth was now completely different and totally changed beyond all form of imagination. We saw 3 moons in the sky and one moon had rings around it and the sky was illuminated with the dazzling display of the aurora. We saw that the trees had crystal clusters all over them and there were two ruined castles and monsters and strange creatures were all over the place and so were mermaids, sprites, fairies and more. We saw strange landscapes and more. Our planet was now completely unrecognizable!

Me: Whoa! What happened to the whole planet!?

Zoe: (Gasp) I… I… I can't believe it! The worlds of Mewni and Earth are now fully merged together!

We gasped in sheer amazement! Our worlds were now one!

Laney: Our world and Star's world are now one!?

Me: How did this happen!?

Zoe: Star must've done this. She told me that she was gonna destroy the magic. For eons, the World of Magic dimension has been causing a lot of trouble for Mewni and the dimensions across the cosmos that it knows.

Brittney: Is that even possible?

Me: We better go see if she's all right.

We went to the ruined castle and we saw that it was still standing but ruined.

Me: Hello?

Laney: Is anyone here?

Zoe: Star? Marco? Lady Moon?

Star B.: Guys!

We saw Star and Marco.

Me: Star!

Me and Star hugged.

Me: Thank goodness you and Marco are okay.

Star B.: Thanks J.D.

I saw that Star's Heart marks on her face are totally gone.

Me: Your heart marks on your face are gone.

Star B.: I destroyed the magic. I used the Whispering Spell and destroyed the whole world of Magic.

Me: That's incredible!

Marco: She did it.

Me: She really did it.

I saw bandages on Marco's stomach.

Me: Are you all right Marco?

Marco: I got stabbed in the stomach by a unicorn horn.

We gasped.

Me: Thank God you're all right Marco. A wound like that would've killed you.

Moon: (British Accent) It would've.

Me: Queen Moon?

Zoe: Lady Moon!

Zoe went over and hugged her.

Zoe: Thank goodness you're all right.

Moon: Yes I'm fine Zoe. Star did it. She saved our worlds.

Me: And she merged both our worlds into one. Lady Moon it's such an honor to meet you.

Moon: You too J.D. Thank you so much for taking care of Star.

Me: It was our pleasure your majesty. Team Loud Phoenix Storm is like a family always looking out for each other and helping people in need.

Mina: Then you will die before you are done!

We turned and saw MINA LOVEBERRY!

---

Prior to her debut, Mina was originally a peasant girl who was enlisted by Queen Solaria Butterfly to undergo a three-stage magical metamorphosis that turned her into one of the queen's "Solarian" super-warriors. Throughout the years, she served under Solaria's rule battling against monsters until the latter's death during an ambush.

In the past, Mina was once known as a great mewman warrior and Star's idol. However, when Star first meets her in the episode "Starstruck", Mina is revealed to be mentally insane as she is shown to be diving into dumpsters and putting paper bags on her head. She even tried to take over the earth with Star but Star refused. When the humans told Mina that they pick their leader by voting she lost her mind and became a super-powered giant. After a fight with Star, Mina decides to leave Earth and return to Mewni.

She then appeared in a flashback from "The Battle of Mewni" segment "Moon the Undaunted". A young and more sane Mina is seen interrogating a monster about the death of Moon's mother. She decides about going to war with the monsters, however, the princess decides to face the monsters' leader, Toffee, alone. When Moon cuts off Toffee's finger with the darkest spell given to her by Eclipsa, Mina and the rest of Moon's court bow before her.

Her latest appearance was in "Monster Bash" where she captures some monsters from Star's party in the ancient monster temple. Mina believes that the monsters are evil, but when Star tries to reason with her, Mina refused to listen. Following Miss Heinous' arrival, Mina reveals that Heinous is actually Meteora Butterfly, the daughter of Eclipsa Butterfly and her monster husband. Mina then tries to kill Heinous but is stopped by Star, Marco, and Tom. When Heinous gets away, Mina goes on an angry rampage looking for her, then escaped when the Mewman guards show up.

She is seen again in "Divide" when Marco suggests sending Mina to fight Meteora. One of the guards says that they already sent her to fight but she lost. The guard then shows Mina's soulless body as proof while it floats in the air.

Mina returns in "Ghost of the Butterfly Castle", revealing herself as the eponymous entity guarding the now abandoned Butterfly Castle to Moon Butterfly. She also disclosed that she's indirectly responsible for her attempt to turn Eclipsa into stone with berries in the episode "Yada Yada Berries". She also obtains a crow companion named Sebastian.

In "Junkin' Janna", Sebastian has gained Solarian powers like Mina and is gathering giant pieces of armor for her. Sebastian then appears at the end of "Cornonation" flying over the monster temple as the Mewmans accept Globgor and Eclipsa.

In "Ready, Aim, Fire", it is revealed that the Magic High Commission conspired with Mina to help get rid of Queen Eclipsa Butterfly and the monsters. She gets inside her new Solarian built armor.

In "The Right Way", she leads an army of a hundred Solarian Warriors. In "Here to Help" and "Pizza Party", she is revealed to be working for Moon so she can remove Eclipsa from the throne, but she betrays Moon in order to pursue the war on all monsters.

In "The Tavern at the End of the Multiverse", Mina gathers up all the monsters to kill them by pushing them off a cliff. But she finds out it will not be complete without the King of Monsters, Globgor. So she and her Solarian Warriors go searching for Globgor.

In the series finale "Cleaved", Mina finds Globgor with River and Eddie, then she orders her Solarian warriors to pull up the magic sanctuary to get Star, Moon, and Eclipsa. When she enters the sanctuary she hears them chanting the whispering spell from the well of magic and goes inside to the realm of magic to stop them. When she arrives she is shocked to see the ghost of Solaria helping them. Mina gets dragged in the magic by a dark millhorse despite her pleads to Solaria, who shows nothing but disgust towards Mina. After the magic gets destroyed, Mina emerges powerless still pledges her loyalty to Solaria. Refusing Moon's offer to find help for her, she then leaves to live in the forest with Manfred claiming her ideas will live on after death.

Zoe: Mina!

Zoe fired a massive blast of energy at her and completely obliterated her in an instant.

Zoe: You are never welcome in our worlds again Mina Loveberry.

We met Eclipsa and her daughter Meteora and we met Globgor. But we got a surprising shock when we found out that Meteora is really Ms. Heinous whom we killed when we destroyed St. Olga's. But we're glad she's on the right path of redemption. Even though the magic is destroyed she still has her powers given to her from the Sun Fireball of Helios. But we now have a whole new world merged with ours and it was gonna take an extremely long time to get used to it.

Meanwhile, On the legendary floating island of Animaria, 6 people were getting ready for the most awesome adventure. They were the Wild Force Power Rangers.

Cole Evans: This is gonna be great! Meeting Team Loud Phoenix Storm is gonna be awesome.

Taylor Earhardt: You ready?

Max Cooper: Lets do it!

Wild Force Rangers: WILD ACCESS!

They changed in a powerful flash of light and the camera faded out.

THE END

---

Another Fanfiction Complete

The Black Cauldron from 1985 was an awesome movie and I thought it was an awesome adventure! It's too bad those stupid movie critics ruined it by saying how bad it was and it was because of them that it became an underrated movie and a box office bomb that nearly bankrupted all of Disney! What a rip! Those stupid critics are losers! The movie didn't get released until 1996 because of it. I got the idea for the ending for the chapter from the final episode of Star VS The Forces of Evil: Cleaved. That last part of that episode was awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. And the Black Cauldron was the only Disney Movie with a Disney Princess we had left to cover.

See you all next time.

# A Tournament for Extremeasaurs

It starts in the middle of the city. We were walking back from the mall. The Bolton Siblings and their friends are now called the DNA Splicers! Their team symbol is the Team Loud Phoenix Storm logo and underneath it is a DNA Helix with the name on it.

Me: So what did you and Mariah get Bobby?

Bobby B.: I got Mariah some nice make up. Never was into that stuff but I figured it was perfect for her.

Trudy: That's awesome big bro!

Stacy: That's very thoughtful of you bro.

Mariah: I got Bobby an awesome video game.

Mariah got him Call of Duty.

Me: Call of Duty is awesome Mariah.

Bobby B.: Thanks J.D.

Lincoln: I'm too young to play that kind of game.

Laney: Me too.

Stacy: I know guys. But you guys have the next best thing and that's awesome skating moves.

Laney: True.

?: Hello Bobby.

We looked and saw a blonde hair woman with blonde hair girl with a blue streak in her hair, blue eyes, black shirt, blue pants and black shoes.

Bobby B.: Oh no! Helen?

Me: You know this girl Bobby?

Bobby B.: Unfortunately I do. I wish I hadn't met her though. Her name is Helen Seamus. She's my ex-girlfriend.

Helen Seamus: You're gonna regret breaking up with me, Bobby Bolton. No one says no to Helen Seamus!

Me: This bitch is really fucked up!

Trudy: How is she this bad?

Me: Let me see here.

I looked up her information on the crime database and I got a surprising shock. Helen Seamus is a sociopathic monster that has the face of an angel but the heart of a demon. She has rap sheet that's over a mile long and has a major league history of extreme violence. Mostly Assault and Battery charges. Rumors flew around that she killed someone because of it. She was never apprehended because of her crimes. But after Bobby disappeared because of Dr. Luther Paradigm she swore to hunt him down and kill him no matter what the cost.

Me: This is a horrifying rap sheet!

Nico: I can't believe that Helen is this messed up! Helen Seamus, you have failed this city!

Mariah: You want to get to my boyfriend, you'll have to go through me!

Mariah jumped onto Helen and punched and pulverized her in a ferocious assault!

Stacy (sees Mariah savage beating Helen up): Think we should help Mariah out?

Maria: Knock yourself out.

Stacy, Trudy and Olivia pounced onto Helen and pulverized her into pulp.

When it was done, Helen was arrested by the cops and we watched as she was taken away.

Bobby Bolton: Why did I even date Helen in the first place?

John: Because Clint over here was the one who suggested her?

Me: Clint you should've looked up her history first.

Olivia: Yeah.

Me: But that's not important. We took another criminal off the streets and sent her to prison.

Coop: Yep.

Clint: That bitch deserves it.

Me: Yep.

Helen Seamus was sentenced 6 consecutive teams of life without parole plus 623 years for her crimes.

---

Back at the estate we were playing video games and card games and reading books.

Me: Jen? Did you ever go to a place to relax and did you hulk out there?

Jen: I sure did. Me and Bruce went to a spa to relax.

Hulk: Hulk sore after long day.

Jen: Yep.

---

Jen: (Narrating) After all the fighting we had with bad guys, our joints were hurting and we went to a spa to relax. We were in a sauna.

Bruce B.: This is relaxing Jen.

Jen: You said it Bruce.

Jen: But then we hulked out.

Jen: (Groans) Why does this keep happening to us!?

Bruce B.: (Groans) I don't know Jen!

Their skin turned green and muscular and Bruce and his had turned black and he turned into the Incredible Hulk! Jen's towel ripped off and she was naked and she turned into the She-Hulk! Her black hair turned longer and dark green. They reverted back the second they transformed.

Jen covered herself.

Jen: Don't get any bright ideas boys or I'll break your necks.

Bruce gave her a new towel.

FLASHBACK ENDS.

Jen: That was the worst Spa Trip ever.

Me: Sounds like something Master Jiraiya would love.

Nico sprayed his eyes with Pepper Spray again.

Me: Nico will you stop spraying your eyes with pepper spray?

Nico: That image is so perverse that even I don't want to know what it looks like!

May: Well spraying yourself with pepper spray is gonna destroy your eyes Nico.

Nico: Sorry. I can't help it. I may have Sabretooth's Accelerated Healing factor and I can regenerate my eyes, but Nicole will kick the living shit out of me if I think about stuff like that!

Nicole: Well using pepper spray like that is going a bit overboard.

Nicole was reading a newspaper from the Daily Bugle.

Nicole: Peter sure does a great job getting stories for the Daily Bugle.

Me: That he does Nicole.

Lisa: Nico I believe I have a solution for you. Instead of the use of Capsaicin Mace; Street Name: Pepper Spray, I invented this. It's an electroshock anti-perverse bracelet. Whenever you think of perverse thoughts, it will zap you with a good voltage of 100,000 volts of electricity.

Me: That just might work. Great idea Lisa.

Nico put the bracelet on and he tested it by thinking of something perverse and then suddenly…

ZZAAAAAAAAAAAAAAPPPPPPPPPPP!

Nico: (Blubbers) Hey it works! Thanks Lisa.

Lisa: You're welcome Nico.

Me: Here Lisa. I don't have any candy but these blueprints are perfect for you.

Lisa: Much appreciated.

Then the doorbell rang.

Lincoln: I'll get that.

Lincoln went and got the door. He answered it and it was Mac and Bloo's friend Goo.

Lincoln: Oh hey Goo.

Goo: Hey Lincoln. What's happening?

Lincoln: Not much. We were just talking about stuff.

Goo: Okay. Hey I have some news. May I come in?

Lincoln: Sure.

Goo came in and we saw her.

Me: Hey Goo. What's shaking?

Goo: I have news. The bad teens are having an Extremeasaur tournament.

We gasped.

Me: An Extremeasaur Tournament? You mean like a tournament where Imaginary Friends fight to the death against Extremeasaurs?

Goo: That's right.

Laney: That's insane!

Lily: A tournament like that is pure blood and murder.

Goo: Mac told me that his brother Terrance once was in one of these tournaments and he once used Eduardo for it.

Me: That jerk!

Goo: I wasn't there during the first Extremeasaur tournament. Are those kinds of things illegal?

Me: Let me see here.

I looked it up on the computer and discovered that Extremeasaur Tournaments are 100% illegal and having one is a federal offense punishable by up to 100 years to life in federal prison.

Me: It is illegal and it's a federal offense. When is this tournament going on?

Goo: Later tonight.

Me: Then we got to stop them and kill all the extremeasaurs. Here's how were going to do it.

I revealed my plan. Our plan was to have Luan take in Leni and Edzilla and Leni will be Edzilla's legs and when their cover is blown, we ambush them.

Me: Good plan?

Nico: Good plan.

?: Perhaps we can help out as well.

We turned and we saw the Wild Force Power Rangers! We saw the Red Lion Ranger Cole Evans, Taylor Earhardt the Yellow Eagle Ranger, Max Cooper the Blue Shark Ranger, Alyssa Enrile the White Tiger Ranger, and Danny Delgado the Black Bison Ranger.

Me: Oh wow! The Wild Force Power Rangers! It's such an honor.

Nico: You guys are awesome.

Laney: We watched Power Rangers Wild Force all the time and it was so awesome how you guys defeated Master Org and that was all so awesome!

Cole: I'm glad we have so many fans. Hey, Merrick. Sorry that it took a long time for us to reunite. But here we are!

Merrick: It's good to see you all again Cole.

Me: The Wild Zords are awesome too. I also have a Wild Zord.

I pulled out my Crystal Saber and in it was my Osprey Wild Zord Crystal.

Me: I have the Osprey Wild Zord.

Danny: The Osprey is a magnificent bird.

Taylor: It sure is.

Laney: I used the Predazord in a battle against one of the Heylin on the planet Animatron. It was so awesome!

Me: It sure was. And I used the Osprey Wild Zord when we did a simulation in the Lylat System. It's an awesome starship and an awesome and powerful friend.

Alyssa: I'm amazed you all know our abilities.

Me: It's the call of the wild. I'm called the Screeching Osprey.

I snapped my fingers and my purple vest appeared.

Cole: Wow. You are a powerful ranger at heart.

Laney: And I'm also a ranger at heart.

Laney snapped her fingers and she had an awesome brown vest on and there was a bear print on it and on her back was the name Savage Grizzly. She also had a Crystal Saber and there was a brown Animal Crystal with a grizzly bear in it.

Cole: The Grizzly Bear Zord. That is amazing Laney.

Taylor: You are a strong and spirited girl Laney.

Laney: Thanks Taylor.

Tommy: It's great to see you again Cole. We haven't seen each other since the Forever Red battle.

Cole: You too Tommy. It was awesome.

Me: We also met the Lightspeed Rescue Power Rangers in Mariner Bay. It was awesome.

Max: That's cool J.D.

Me: But we would be honored to have you all help us.

Alyssa: Thanks J.D.

Me: You're welcome Alyssa. Also Cole you have the sympathies and condolences of Team Loud Phoenix Storm for what Master Org did to your parents. He was a totally honorless monster and if it were up to me, I would've killed him myself.

Nico: Master Org you have failed this universe.

Cole: Thanks guys.

Me: You're welcome. Now here's what we do.

Lincoln: Ok. We can call this stage "Making the Plan".

Taylor: What do you mean?

Maria: I taught him that.

We went over the plan again.

---

Later it was time for the tournament.

Leni was at the tournament gate.

Leni: Listen, I'm, like, new to all this Extremosaurus stuff. I was totes hoping that we could go over the script.

Owner: Get mashed by the champ. Make it look good. That's the script.

We were hiding behind the rocks.

Cole: So this is the plan J.D.?

Me: We wait for Leni's cover to be blown and then we're going to destroy all the Extremeasaurs and arrest the kids.

Alyssa: Don't you think that's going overboard?

Me: I know it's wrong Alyssa but these kids are dangers to the worlds of imaginary friends. They're sending Imaginary Friends to fight to the death against these creatures of destruction.

Taylor: That is terrible.

Nico: These kids have failed this city.

Maria: Yep.

Lincoln: This stage is called "Executing the plan".

Max: This is gonna be awesome.

Leni was inside Edzilla and she was holding up Ed inside him as his legs and extra arms.

Crowd: BRING DOWN THE SMASH! BRING DOWN THE SMASH!

Bloo and Max Cooper: BRING DOWN THE SMASH! BRING DOWN THE SMASH!

Taylor (shakes her head in amusement): You two are such kids.

Mac: So, Taylor. Is it true that you and Eric Myers are dating?

Taylor: Yep. We might be from different Ranger teams. But he's a cool guy to be around.

Me: It would be so cool to meet the Time Force Rangers. They're from the year 3,000 and we saved the world from total destruction when that time rolls around.

Cole: I heard about that J.D.

But then Leni tripped and she fell out of Edzilla!

Kid: Wait. That's not an Extremeasaur!

Lincoln: Now we're in "Expect the plan to go off the rails"!

Me: Now!

We rushed in and we were ready to fight!

Me: You kids are under arrest in the name of the law!

Kid 2: It's Team Loud Phoenix Storm! KILL THEM!

Edzilla: ED STRONGEST THERE IS! (punches an Extremeasaur)

Cole: Lets take these monsters down!

Taylor: Right!

Wild Force Rangers: WILD ACCESS!

They pressed their cell phone morphers and turned into the Wild Force Power Rangers!

Cole: Time for some Wild Zord Power.

Me: Right Cole.

I pulled out my Crystal Saber and so did Laney. The Rangers did the same.

Me, Laney and the Rangers: WILD ZORDS DESCEND!

A music tune was heard and in Animaria, the Wild Zords came. The Purple Osprey, The Brown Grizzly, The Red Lion, Golden Eagle, Blue Shark, White Tiger and Black Bison all came.

Alyssa: ELEPHANT ZORD ARISE!

The Elephant Zord arrived.

Max: GIRAFFE ZORD DESCEND!

So did the Giraffe Zord.

Alyssa: DEER ZORD DESCEND!

The Deer Zord arrived.

Merrick: WILD ZORDS DESCEND!

He called forth the Wolf, Hammerhead and Alligator Zords.

Cole: FALCON ZORD, DESCEND!

The Falcon Zord arrived.

Me: Now for some additional help.

I used my telepathic powers to call Princess Shayla.

Me: (Telepathically) Princess Shayla, can you hear me?

On the legendary floating island of Animaria, Princess Shayla heard

me.

Princess Shayla: I hear you J.D. You are a magnificent force of good for everyone.

Me: I get that all the time. But I have an idea. I'm going to resurrect the Wild Zords that form into Animus.

Princess Shayla: You can do that?

Me: I've done it before to other people and I can do it to other things too.

Princess Shayla: This is wonderful! Thank you J.D.!

Me: Think nothing of it Princess.

I held up my hand and chanted a powerful spell and 5 lights appeared and they were animal crystals and they appeared in my hands. One was a Black Lion, a Blue Condor, a Brown Saw Shark, A Black Buffalo and an Orange Jaguar.

Me: Wow. 5 more zords. A Black lion, a Blue Condor, a Brown Saw Shark, a Black Buffalo and an Orange Jaguar.

Said Wild Zords appeared and they were eternally grateful that I brought them back to life.

Me: You're welcome.

Cole: J.D. That was awesome!

Taylor: You are everything we've heard about.

Alyssa: I'll say.

Me: Just doing what we do best and that's helping people.

Lets tear these monsters that give Imaginary Friends a really bad name apart!

We went at all the Extremeasaurs and pulverized and blasted them into dust.

Bruce: Time to Hulk Out!

Bruce then got angry and his skin turned green and muscular and his hair turned black and his eyes turned green. His clothes were shredding and his shorts were left as he turned into the INCREDIBLE HULK!

Hulk: HULK SMASH!

Jen took off her white lab coat, blue shirt and skirt and shoes and she Hulked out! Her skin turned green and muscular and her black hair went from brown to dark green and she grew taller and she became SHE-HULK!

Betty's eyes turned neon blood red and she grew taller as her skin turned red and muscular and she grew taller. Her new clothes she got are indestructible and they are stretchy. The Red She-Hulk was ready.

The 3 hulks were ready and they went at the extremeasaurs with extremely ferocious fury and they punched and pulverized them all over the place with incredible fury!

Suddenly there was a massive earthquake and out of the ground arose a massive Crystal Monstrosity! It was the Heartless of Aeleus that turned him into Lexaeus. The Heartless of Aeleus looked like a giant living dark red Crystal Cluster. It can fire powerful red energy lasers in all directions and it can throw boulders and molten lava and fiery meteors. It has a malevolent grin and evil red eyes. And its crystals are sharper than a razor blade. It's called the Volcanic Death Crystal.

Me: Whoa! Is that Aeleus's Heartless?

Aqua: It sure looks like it.

Laney: This is the Heartless Aeleus turned into and into Lexaeus? It's terrifying!

Lincoln (sees Lexaeus' Heartless): Now we're in the "Throw away the plan" phase!

Lynn: Guys, one of us needs to get Aeleus here so he can get his Heartless under control!

Breach: I'll do it!

Breach called Aeleus.

Breach: Aeleus, if you're wondering about your Heartless, we've got good news and bad news. The good news is, we found your Heartless.

Aeleus: And the bad news?

Breach: It's getting ready to turn Edzilla into paste!

Aeleus: Get me over there fast Hayley!

Edzilla: ED SMASH CRYSTAL FREAK!

20 minutes later, Aeleus arrived and he saw that Edzilla was standing triumphantly on top of it.

Aeleus (sees Edzilla beating up his Heartless without any problem): I thought you said my Heartless was about to turn Edzilla into paste.

Breach: That's what I thought.

Me: Looks like Edzilla has things under control. Lets have you tame it Aeleus.

Aeleus: Right.

Aeleus touched it and tamed it and in a massive swirl of rocks, crystal, lava and earth he was forever changed. He had crystal dragon wings and he was more powerful than ever before.

Me: Wow! Aeleus you look amazing!

Aeleus: I sure do.

Aqua: Would you like to help us?

Aeleus: I would like that.

Me: Lets take all these clods down!

We all went at the kids and Extremeasaurs and our power was savagely overwhelming them. The Wild Zords were tearing apart all the extremeasaurs and killing them. We were savagely blasting and pulverizing them.

Kid: You may have beaten our Extremeasaur's but lets see how you all fair against the Champion!

They brought out a huge crate and opened it and inside was a tiny extremesaur. It looked like an ordinary yellow cat but it got mad and 9 tails electrified came out surging with 100,000,000,000,000 volts of electricity. Lincoln grabbed all 9 of its tails and he, Gabrielle, Olga and Linka absorbed all of its lightning and electricity.

Olga: Wow! That is strong electricity!

Gabrielle: (British Accent) It sure is. It's power is incredible!

Me: It's still the champion and an extremeasaur nonetheless. Lets take it down! Combo and Final Smash time!

Swoop: Lets get him! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his Thermal Sword temperature to over 95,000˚ Fahrenheit.

Jackie Chan: Lets get them! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and he got the chi powers of Shendu.

Swoop and Jackie Chan: INFERNO STORMBLAST SLASH!

Jackie Chan fired a massive blast of fire and Swoop went and slashed the little extremeasaur and the blast of fire hit it and exploded into a massive fireball.

KRABBBOOOOOOOOOOOOOOOOOOOOOMMMM!

Bai Tza: My former brother's powers are perfect for you Jackie.

Jackie: Thanks Bai Tza.

Bai Tza: I will always despise my brother for his incompetence and he got what he deserved.

Me: Well said.

Cybertron Scourge: Lets get him! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and his two extra heads popped out and roared.

Scourge: Witness the 3-headed dragon.

James: Mime Jr. go!

James sent out his Mime Jr.

James: Time for some heavy firepower! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his Mime Jr.'s abilities.

James: Mime Jr., Psybeam!

Mime Jr. Fired a massive psychic energy blast.

Scourge and James: PSYCHIC FIRESTORM BURST!

Scourge fired a massive blast of fire and the blasts combined and they hit the little extremeasaur and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Me: Final Smash time!

Star Man: Lets get him! STAR CRASH STORM!

Star Man had a bunch of stars orbit around him and he fired them at the little extremeasaur and they hit it and exploded.

KRABBBOOOOOOOOOOOOOOOMMM!

Frankie: My turn. IMAGINARY FRIEND BOMBSTORM!

Frankie formed a bunch of explosive kamikaze imaginary bomb friends and they slammed into the little extremeasaur and exploded and killed it.

Me: That was awesome Frankie!

Frankie: Thanks J.D. It was nothing.

Edzilla turned back into Ed.

Ed: I defeated your champion Extremeasaur. So I deserve a trophy!

James: Better do what he says.

Me: Unless you all want to join your extremeasaur friends in the Netherworld.

The Kid gave him an awesome trophy and then the FBI and the Police arrived. They arrested all the kids.

Me: You kids are getting life for this.

Hulk, She-Hulk and Red She-Hulk reverted back. They now got used to the pain of transforming into their hulk forms.

Bruce B: (As he reverts back) You mess with imaginary friends and you mess with us.

Jen: (As she's reverting back) That's right hun.

Betty: (As she's reverting back) No one messes with our friends and lives to tell about it.

Frankie: (To the Viewers) Never mess with the power of imaginary friends and Team Loud Phoenix Storm or else.

During the battle Nico caught his own Mime Jr. and a Happiny. It was so cool meeting the Wild Force Power Rangers and having them help us out as well as having the Extremeasaur's eliminated. The kids were found guilty of their crimes and sentenced to 100 years to life in federal prison, the null void and in the space prisons.

In another part of the galaxy, in an awesome Space Colony light-years from Earth, 6 awesome Power Rangers were getting ready.

Leo Corbett: It'll be a huge honor to meet Team Loud Phoenix Storm.

Maya: Yeah.

Lost Galaxy Rangers: GO! GALACTIC!

A massive flash of light was seen as the screen turned white.

THE END

---

Another Fanfiction Complete.

NicoChan11 gave me the idea for this one from the Foster's Home For Imaginary Friends Episode Eddie Monster. That was a funny and strange episode. I included the Power Rangers Wild Force rangers because they were the most awesome Rangers in the Power Rangers Series! Thanks for the ideas man as usual. Let me know what you all think.

See you all next time.

# Alien Dragon World Rescue

It starts with us flying through the infinite void of space in the U.S.S. Valor.

Me: Captain's Log, Stardate 2681.3: The U.S.S. Valor is on its way to a planet located 62,000 light-years away from Earth. We picked up some strange energy readings of incredible power and we are on our way to check it out.

The Lightspeed Rescue Power Rangers were with us. They were traveling in their Super Train and Max Solarzord and it was attached to the side of the ship.

Chad: This is so cool being on your starship guys.

Me: Thanks Chad. We used this ship to travel all over the universe. It's our mode of universal transport.

Carter: It's an amazing ship.

Lisa: Thank you Carter. It's a ship of my own design I built.

Carter: That's amazing.

Maria (puts on glasses): Guys, what do you think of me while I'm wearing glasses?

Me: You look awesome with glasses Maria.

William: You sure do babe.

Carmen: Sis, I think you should put on glasses on certain days.

Laney: I think you look great with glasses Maria.

Lisa: Indubitably.

Maria: Good idea Carmen.

Me: Aqua, when you were in the Realm of Darkness did you think of anything bad?

Aqua: I did. It was horrible.

---

Aqua: (Narrating) I was in this strange and terrifying world and I saw a mirror. Then out came another me. She was my inner evil and she was tormenting me by poisoning my mind with lies and saying I was a bully and a monster.

Aqua (sadistic smirk vanishes off): Wait. Why did I think those things? I'm not a violent person. And I'm certainly not a bully.

FLASHBACK ENDS

Aqua: Every day in the Realm of Darkness was like living in a total nightmare.

Me: That's horrifying.

Maria: Do you guys think I should also get a tattoo as well?

William: A tattoo is perfect for you babe.

The radar beeped.

Lisa: We appear to have arrived at our destination.

Me: On Screen.

We arrived at the Planet Draco. It was a post-apocalyptic planet located 62,000 light-years away from Earth. It's actually a refugee planet where the people of a planet Earth that was destroyed by war escaped to and tried to rebuild civilization. Now it's in the grip of war to compete for land and resources.

Me: So this is the planet. It's called Draco.

Kin: Nice name for it.

Laney: It sure is.

Nicole then recognized it from somewhere.

Nicole: (Gasp) I know this planet! It's the planet that's where Panzer Dragoon takes place.

Me: I know that game.

Lily: Me too. That game is so cool!

Kin: I love that game series. Especially Panzer Dragoon Zwei. That was awesome.

Nico: It's one of my favorites.

Aang: Can you guys remind me who the bad guy is on this planet?

Me: The bad guy is actually an evil black dragon and we have to destroy a tower that enhanced its power somehow.

Aang: Now I remember.

Laney: Hey look. There's another ship there.

Me: Hailing frequencies.

Lola: Aye Captain.

We stationed over the planet.

Lola: Channel is open.

Me: This is the starship U.S.S. Valor of Planet Earth, Captain James Dean Knudson of Team Loud Phoenix Storm commanding.

The one that answered was Leo Corbett, Leader of the Lost Galaxy Power Rangers.

Leo Corbett: I'm Leo Corbett, the Leader of the Lost Galaxy Power Rangers.

Me: Oh wow! It's an honor to meet you Leo.

Laney: Same here Leo.

Me: I take it you came to see what's going on here at the planet Draco?

Leo Corbett: We are. Hey, Carter. It's been a while since our two Team Ups and the Legendary War.

Carter: That's right.

Chad: Is Karone and Kendrix with you guys?

Leo Corbett: They are.

Kendrix, Maya, Damon, Kai and Mike appeared and we saw them. We beamed them to our ship and it was so awesome to meet them.

Me: So you all came here from the planet Mirinoi?

Leo: That's right. Our scanners picked up a strange energy disturbance.

Maya: Mirinoi is like Earth.

Kendrix: But it's home.

Me: I can tell. Mirinoi is 18,000 light-years away from Earth and it's a beautiful planet.

Laney: I also remember that you guys are all looking for planets that are capable of supporting life.

Leo Corbett: That's right.

Me: Well you don't have to look any further. We found thousands of planets capable of supporting humans. But trouble is, most of them have atmospheres too poisonous for human life. But we did however find a bunch of planets like ours.

Leo Corbett: We'll have to see them later.

Suddenly there was a purple light and I was enveloped in a powerful power and massive pillar of purple light. I felt my energy levels rising at an astronomical level!

Me: Wow! What's happening? My power is rising fast!

Nico: Unbelievable! What is this power!?

Laney: I don't know. But it's unbelievable!

A sword floated down to me and I saw it floating in front of me.

Me: A Quasar Saber!

Leo: It chose you as its master J.D.

I took the saber and I felt its enormous power flowing through me and it felt like I had the very power of the entire universe in it. The saber had a Phoenix Galactabeast on it.

Me: Wow! I have the fire of Space and the Universe flowing through me.

Nico: J.D. your power is incredible!

Leo Corbett: I can tell you watched our show J.D.

Me: Me and Laney never missed a show.

Then I was enveloped in a massive surge of energy and I was gaining even more power as I got an awesome Armband, awesome belt, my Quasar Saber got an awesome Crossguard and I got awesome wristbands and leg bands. And I also had a purple Transdagger on my left hip.

Me: Wow! What power!

Leo Corbett: Wow! J.D. you got blessed by the lights of Orion.

Laney: J.D. this is so awesome!

Me: It sure is. This is incredible. And I have a Transdagger too. Lets see what mine can do.

I pulled and it turned into a powerful purple spear staff.

Me: Wow! This is awesome! Leo this is awesome.

Leo Corbett: Thanks J.D.

Me: Would you all like to help us?

Leo Corbett: We would be honored J.D. Ready guys?

Kai: Lets do it.

They all nodded.

Leo Corbett: Okay.

Lost Galaxy Rangers: GO! GALACTIC!

Leo, Kai, Damon, Maya, Mike and Kendrix became the Lost Galaxy Rangers.

Me: Wow! Just like on TV. Lets head down.

We did so and flew down to the planet.

Me: We're gonna have dragons as our rides and I know just the ones.

Marie K.L. and Vince called forth Marianas Dragons and they were riding on them. I summoned a Nier Dragon and I was riding on that one.

Nico called forth his Etzel Dragon, Carol called forth a Pandi dragon, May called forth an Icicle Dragon and we had all kinds of dragons.

Kin: I summon Black Rose Dragon!

Kin called forth a Duel Monster called Black Rose Dragon. It was a breathtaking dragon made of rose petals.

We were flying over the planet and we saw an amazing sight. This whole planet was not just a refugee planet, it was also an alien world. It was a planet unlike anything we've ever seen.

Me: Wow! This place is an incredible world.

The terrain and landscape was filled with all kinds of awesome creatures the likes of which we had never seen and it was an amazing sight. There were 2 planets that it orbits around and it provided a spectacular view.

Laney: This is amazing!

Carol: Incredible!

Kin: This is amazing. I never even knew a bunch of creatures like this were possible!

Marianas: This is amazing!

Marie K.L.: No kidding.

Vince: I didn't think this was all possible.

Nico: What could've caused this planet to go downhill so fast?

Laney: No idea. But this planet has an amazing landscape.

May: It's breathtaking.

Me: I see something up ahead.

Kin: Is that who we're looking for here?

Me: Close. Lets go see.

We flew over and got closer and we saw that it was a blue dragon and on it was a man with red hair and blond streak.

Me: It's Kiel.

Kiel saw us.

Kiel: Wow. Who are all of you?

Me: I'm J.D. Knudson, Leader of Team Loud Phoenix Storm from planet Earth. We came here to help you.

Kiel: It's a pleasure to meet you. Sorry I'm afraid I've never heard of you all.

Me: That's all right Kiel. We're new to this world. Can you tell us what's wrong so we can help out?

Kiel: I will be more than happy to.

Kiel revealed that an evil black dragon has kidnapped his love Alita and forced her to lend it her power somehow.

Black Rose Dragon: Dragonic Telepathy. He forced and linked Alita into it.

Kin: I can hear her thoughts. She's calling out to us for help.

Me: I feel it too Kin.

Lincoln: Me too.

Me: Kiel we'll gladly help you out.

Kiel: I'm grateful to you all J.D.

Me: We can beat that Black Dragon together. But first we have to rescue Alita without hurting the Black Dragon.

Kin: And once she's free we'll let all hell loose on it.

Nico: I like that.

Kiel: Thank you all. Thank you.

Me: You're welcome Kiel.

We flew over the landscape and we saw all kinds of magnificent creatures and landscapes.

Me: Wow. This world is amazing.

Kiel: So what is it like on your planet?

Me: It's much different than this one Kiel. Our planet is being constantly protected by us and we have a tremendous responsibility to keeping the people and everything safe.

Kiel: That's amazing.

Me: It is. So what's the story with Alita?

Kiel: She's the most beautiful girl I've ever met. But she can't see anything.

Laney: She's blind?

Lincoln: She's got some challenges.

Me: I can tell. And does she have any past history with the Black Dragon we're trying to destroy?

Kiel: I don't really know J.D. This Black Dragon appeared and Alita somehow knew it was coming.

Icicle: That is very unusual.

May: I know.

Me: Where is the Black Dragon taking Alita?

Kiel: Some kind of tower in the West Sea. We can't let the dragon get to it.

Nico: We have to hurry.

Etzel: This tower sounds like it's really bad news.

Nico: It sure sounds like it.

We flew on and we got to the West Sea.

Me: Looks like we arrived at the West Sea. Nathaniel, can you see the tower on your radar?

Nathaniel was monitoring the landscape from the ship.

Nathaniel: I found the tower on the radar.

Me: Fire the Super Laser at the tower and don't cause a megatsunami.

Nathaniel: Right.

Nathaniel fired the super laser at the tower and we saw the laser fired from the sky and a massive explosion erupted out of the water.

KRAAABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Wow!

We saw a small explosion of water and a tidal wave was heading toward us. But it faded when it reached us.

Me: Good shooting Nathaniel.

Nathaniel: Thanks grandpa.

Leo Corbett: Hey look!

We saw up ahead, another dragon.

Me: Is that the Black Dragon?

Laney: That looks like it.

Black Rose Dragon: That's it all right.

Kiel: We can't attack it. We might hurt Alita.

Kin saw a girl infused into its neck. She had blond hair and a pink robe and she had dark green marks on her face.

Kin: Is that girl Alita?

Kiel: That's her.

Kin: I have an idea. We'll tangle up the Black Dragon and I'll get Alita out.

Me: Good idea. Arpeggio, you go with her.

Arpeggio: (British Accent) Right.

Kin and Black Rose Dragon and Arpeggio went at the Black Dragon and it saw them coming and fired a blast of energy from its mouth. They dodged and Black Rose Dragon entangled the black dragon in its thorn tentacles.

Black Rose Dragon: Hurry Kin.

Kin: Right!

Kin and Arpeggio jumped onto the Black Dragon's back and they got her.

Arpeggio: Don't worry, Alita. We're here to save you!

Kin: Pull!

Kin and Arpeggio pulled on her and they pulled her out of the black dragon's back.

Kin: She's weak but she'll be all right.

Kin took her onto her dragon.

Alita: (Weak Groan) What happened?

Kin: You're free from the Black Dragon. Hold onto my back and whatever you do don't let go,

Alita: Okay.

Kin saw that her vision is slowly coming back.

Me: Now lets get this fucking monster!

We went at the black dragon and he fired powerful energy blasts of us and I fired a powerful blast of energy and the blasts collided and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Thundercracker: That thing can't talk? Aw man! That means we won't have fun with witty banter.

Nico: Calm down Thundercracker. Lets focus on the matter at hand.

Thundercracker: You got it boss.

Edzilla: ED SMASH DRAGON! (chomps on Black Dragon's tail)

The Black Dragon roared in pain.

Our dragons fired powerful blasts of elemental energy and they hit the Black Dragon and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Me: Combo and Final Smash Time!

Arpeggio: Tallyho! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his device on his right wing and it enhanced his wings and speed.

Thundercracker: Lets get him. CYBER KEY POWER!

The Earth Cyber Planet Key went into his missile launcher and it became a longer missile launcher.

Arpeggio and Thundercracker: SONIC THUNDERMISSILE DEATHSTORM!

They both fired powerful energy blasts and they combined and hit the Black Dragon and exploded

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

G1 Silverbolt: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his Electrostatic Discharger Rifle and it enhanced it 100-fold.

Aang: Lets get him. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm device and it enhanced his Airbending powers and Avatar Powers 100-fold.

G1 Silverbolt and Aang: LIGHTNING HURRICANE SAWBLADE!

Aang fired a massive blast of air and powerful with and G1 Silverbolt fired a powerful blast of electrical energy.

Me: Kiel have you ever done a final smash before?

Kiel: No what is that?

Me: It's a grand finale attack that we are capable of that finishes our foes off with great ease. You have the power to do one, and you just have to reach deep down and find that power.

Kiel: Okay.

Kin: I'll show you how we do it. BLACK ROSE FLARESTORM!

Kin held out her hands and fired a massive blast of crimson red fire and Black Rose Dragon fired the same thing and their blasts combined and they hit the Black Dragon and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Kiel: Wow! That was amazing!

Kin: That's how we do a Final Smash. You have to reach deep and find that power.

Kiel: I can try.

Then Kiel heard a voice.

?: Kiel.

Kiel: That voice. Is it the dragons?

Blau: That's right. I am called Blau. You must lend me your power Kiel. You have the power of the dragon inside you. We have to work together to defeat him.

Kiel: I understand. DRAGONIC FORCE DESTROYER!

Kiel stood on the dragon's back and he held out his hands and a powerful blast of energy formed in his hands and he fired it and it was a massive blast of power. It hit the black dragon and burned it and killed him instantly. The Black Dragon fell into the ocean and exploded with incredible power!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Wow! What power!

Nico: Black Dragon, you have failed this world.

Kin: That was intense!

Alita: It sure was.

Kin: You can see Alita!

Alita: I sure can! I can see!

Kiel: Alita. You can see everything! You can see!

Me: She can see everything for the first time!

Alita: I sure can. And you must be Kiel!

Kiel: I sure am.

Nico: It's good we saved you Alita.

Alita: I'm glad you all did. Thank you all.

Kin: (To the viewers) Even the power of an evil dragon is no match for the power of Team Loud Phoenix Storm.

Kiel: You said it. (To the viewers) These guys are just that good.

---

Later we went back to Earth and Nico caught a Chatot and a Spiritomb.

Maria came back and she had an awesome Mermaid Tattoo on her right arm.

Me: Wow! Maria that is an awesome ink.

Maria: Thanks J.D. Mermaids are awesome.

Me: They sure are.

It was such an honor to meet the Lost Galaxy Power Rangers and if they ever need us to help them, we will gladly answer the call.

THE END

---

Another Fanfiction Complete

This chapter is for the video game Panzer Dragoon, I've known that game for years ever since I was a little kid. It was awesome! I played it on Sega Saturn in 1995 and it was awesome! I love dragons and they are amazing and incredible creatures of myth. I based this one on the OVA of Panzer Dragoon and that was so awesome! There's a new Panzer Dragoon Game coming out for Nintendo Switch later this winter in 2019 and that is something I'm really looking forward to. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

Panzer Dragoon is owned by Sega and Team Andromeda.

# Camp Squirrel Bean Adventures

It starts at the estate. A massive explosion rocked the estate from the training grounds.

KRABBOOOOOOOOMMM!

In the training grounds I was testing the power of the Quasar Saber against new holographic training dummies Lisa created and they looked like all the deadliest enemies of the Power Rangers.

My Quasar Saber's blade glowed neon purple and I slashed a dummy that looked like Rita Repulsa and it exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Me: That was awesome! Lets see this move. Quasar Saber PLEIADES SLASH!

The 7 Stars of the Pleiades Cluster swirled behind me and I slashed a dummy that looked like Lord Zed and it exploded into 7 pieces and those pieces exploded.

KRABBBBOOOOOOOOOOOOOOOOOMMMM! BOOOM BOOOM BOOOM BOOOM BOOOM BOOOM BOOOM!

Me: Wicked awesome! Lets see what the Lights of Orion can do. LIGHTS OF ORION ACTIVATE!

My armband, wrist bands, leg bands and belt appeared and my Quasar Saber got an awesome crossguard. I held the sword up to my armband and it released a powerful roar.

Me: Power Up Mode!

I ran fast and turned into a powerful purple fireball and went at them at an incredible blazing speed and went through 12 statues and they all exploded into massive fireballs.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Then I was facing Dr. Adler who in reality is really MASTER ORG!

Me: Dr. Adler A.K.A. Master Org. You're gonna pay for killing Cole's parents.

Master Org: That's right. I killed Cole's Parents. And I enjoyed every single minute of it.

Me: I don't know who's even more fucked up. All the villains we killed or you.

Master Org: Maybe so, but they begged me for mercy, so I gave it to them. I ended their worthless existence quickly.

Me: You're even more fucked up than the Devil himself. But why? Why would you kill Cole's parents!?

Master Org: (Evil Laughter) It was easy! They deserved it after all the pain they caused me!

Me: No. You brought all that unto yourself because of your own fucked up ego.

Master Org: Cole's parents were once my friends. I trusted them. I dedicated my whole life to our cause.

---

Master Org: (Narrating) We worked together day and night, trying to prove the existence of Animaria. We were a team. We were all going to the top together. But as time passed, I grew to love Cole's mother, and I know she shared my feelings, as well.

Before Master Org became who he was, Dr. Viktor Adler was once a brilliant scientist that worked together with Cole's parents, Richard and Elizabeth Evans. Their mission together was to prove the existence of the legendary floating island, Animaria. As time passed he began to show feelings for Elizabeth.

Master Org: Things would have been perfect.

But unfortunately Dr. Adler was beaten to the punch when he was about to pop the question to Elizabeth as Richard already did so before he could. This sparked a major jealousy within him which sowed the seeds of jealousy.

Master Org: Except… His father couldn't bear to see me succeed in anything, even love, so he stole her away from me. He betrayed me. He stole my one and only love. But that's not all he stole. He stole my chance at a family…

Dr. Adler saw that Cole's mother was pregnant with Cole.

Master Org: And my chance at fame. I began to detest their mission to save the Earth, and nature became a prison, always reminding me of my betrayal.

On a mission to the Amazon in Brazil, they found on the ground some strange and ugly seeds and they were really the last remnants of Master Org.

Master Org: At that moment, I knew fate had led me to the release from my suffering. I couldn't stand it any longer, so I did the only thing that I could. I would punish those who hurt me. I knew if I were to become Master Org, there would be nothing that could stand in my way. So I ate the seeds, and the transformation began.

Dr. Adler ate the seeds and he became MASTER ORG REBORN!

Past Dr. Adler: AND NOW! I WILL HAVE MY REVENGE!

Master Org: I was no longer a weak human being. I became Master Org.

Dr. Adler now with Master Org's powers killed Cole's parents in cold blood with plant vines that he grew from his hands.

FLASHBACK ENDS

Master Org: All traces of my past had to be destroyed, all obstacles eliminated.

Me: You've become worse than the devil himself Adler. You were Richard and Elizabeth's friend and you betrayed them and murdered them in cold blood! You destroyed so many lives and you killed so many innocent people in cold blood all for your own twisted, selfish and fucked up ambitions!

Master Org: It was my rightful revenge!

Master Org fired a blast of energy from his staff and I blocked it and threw it back at him and sent him flying. He stopped and Nico appeared.

Nico: It's the real Master Org!

Me: What!? I thought that was a dummy!

Nico: This is the real thing. Now we can get justice for Cole's parents.

Me: That's right. Cole's parents will never rest until this monster is sent straight to hell where he belongs.

Nico: Master Org, You have failed this world!

Me: You will pay!

I went Super Ebonwu 30,000 Phoenix Fire and Nico went Super Saiyan 4.

Me: I will never forgive you for your crimes against the world Master Org!

Nico: Me neither!

Me: BIG BANG ATTACK!

I fired a massive blast of energy

Nico: NUOVA STAR!

Nico fired a massive ball of pure fire.

Me and Nico: BIG BANG FIRESTORM BURST!

The blasts combined and they went at him. They hit him before he even had time to react and it resulted in a massive explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

A massive mushroom cloud could be seen for miles. I had the whole city protected in a powerful force field. When the smoke cleared there was nothing left of Master Org. He was completely obliterated in the explosion. We saw a massive black evil cloud appear and I opened up the Portal the leads into the River of Fire and sent him there.

Me: Go back to hell Master Org.

Nico: I hate Master Org and he got what he deserved.

Me: You got that right buddy. Great job.

Nico: Yep.

Cole: (Offscreen) J.D.!

Me: Cole.

Cole: What happened out here?

Me: We killed Master Org.

Nico: J.D. thought he was fighting a training dummy that looked like him. But it was the real thing.

Me: I had no idea myself. Nico sensed that it was him.

Nico: But we got justice for you Cole. We avenged your parents and destroyed the evil monster Master Org.

Cole: But Master Org died when we destroyed him with the combined power of the Wild Zords.

Me: He must've gone into dormancy when you beat him. But it's over now. Master Org is dead. This time forever.

Cole then collapsed to his knees and he looked up at the sky and he knew that the nightmare of Master Org is finally over.

Cole: We did it Mom and Dad. We did it.

Cole got justice for the deaths of his parents and Master Org was never going to terrorize the world ever again.

---

Later we went back into the estate.

Nico: I'm glad Master Org is gone.

Me: Me too. He got what was coming to him. And his physical body and memories were forever sealed into the Book of Vile Darkness. But the work of the Wild Force Power Rangers is never finished.

Alyssa: No it's not.

Maria (grinning): Hey, William. I got a surprise for you.

William: What is it? (Maria turns her back on him)

Maria (lifts up the back of her shirt): Like it?

William's jaw dropped, as well as most of us in the room who saw Maria's bare back. There in an inky aqua blue fancy large font script was a mostly fresh tattoo on Maria's skin with the words 'Property of William Dunbar. No others allowed to touch.'

Me: "Property of William Dunbar. No Others Allowed to Touch" That's an awesome tattoo Maria!

Odd was the first one to break the silence by laughing his ass off on the floor, with Yumi doing the same thing. Jeremie snickered, Aelita giggled like mad, and Ulrich wolf whistled at the sight and slapped a shocked William on the back.

William (blushes brightly): B-Babe, why did you get another tattoo?!

Maria (lowers her shirt): To show you that I'm your girlfriend and no one else's. Don't you like it?

Francis: Nice Ink Maria! William you dog you.

Teresa: Awesome ink Maria.

Rubberband Man: Righteous Ink Maria.

Static: Looks great on you Maria.

Gear: Yeah.

Horsea: That is an awesome tattoo.

Carmen: I'll say. It looks great on you sis.

Maria: Glad you guys like it. Because I'm about to put on my swimsuit, which will sadly cover the tattoo.

Katniss: It's all right Maria.

Maria: Thanks Katniss.

Nico: J.D. that was so cool how you resurrected the Animus Zord Wild Zords.

Me: I didn't know I had that kind of power.

Skywarp: We haven't visited Camp Kidney in a while.

Nico: Great idea Skywarp.

Me: Lets head over to Camp Kidney.

Jaime: This is gonna be so awesome.

Me: It is Jaime. Team Loud Phoenix Storm…

Jaime: Team Loud Fairywind…

Me and Jaime: LETS FLY!

We were off to Prickly Pines, Wisconsin.

---

PRICKLY PINES, WISCONSIN

We arrived in Prickly Pines, Wisconsin and we were at Camp Squirrel Bean.

Edward: I can't believe I'm saying this, but Camp Kidney's actually a fun place now.

Dave: To be honest, I'm making the most of the camp's current state. Because there's probably a small chance that sooner or later, it's all gonna be gone.

Me: Camp Kidney will be here for a long time Dave, as long as we make sure people or monsters like Lumpus never return.

Edward: That's great.

Samson: I'm just glad that Tubbimura guy is in jail now. He was actually really weird. He kept talking about his dog, Muffin Face, pudding cups, and all other kinds of foods.

Me: That guy needs to go on a serious diet.

Lazlo: I know. But let me tell you this. We did find the treasure of Three-Eyed Fred.

Me: Really?

Nicole: Oh wow! I love treasure hunts!

Nico: Can you tell us the story of the treasure Lazlo?

Lazlo: I'd be more than happy to.

Later that night around a campfire as we were roasting marshmallows, Lazlo told us the story.

Lazlo: This story is about the cursed Lumpy Treasure. It's a story about a ruthless outlaw named Three-Eyed Fred, who robbed a treasure train a loooonnngg time ago and buried the treasure on the darkest, creepiest, the Spookiest island in all of Leaky Lake: ITCHY ISLAND!

Laney: That sounds like a place I would never want to go to.

Luan: I'd be itching to go there! (Laughs) Get it?

We laughed at Luan's joke.

Nico: (Laughs) Good one Luan.

Eddy: Hey, Nico. Since you won't be using that pepper spray can anymore, can I have it?

Nico: Sure Eddy.

Nico gave Eddy his pepper spray.

Lazlo: But because Fred took his secret to the grave, no one knows where the treasure is buried. But there are a few who do know where that treasure is buried. For the mosquitoes of Itchy Island will one day bite the chosen one on their exposed flesh, revealing a secret map to the treasure of Three-Eyed Fred.

Me: That sounds like an awesome treasure hunt.

Nicole: It sure does.

Raj: (India Accent) I was the chosen one for that map.

Then mosquitoes bit Raj on his butt yet again.

CRUNCH!

Raj: (SCREAMS IN PAIN) Not again!

We saw Raj go crazy and he shooed the mosquitoes away. We saw the Map right on Raj's butt.

Lazlo: Is that the map to Itchy Island?

We looked and we saw it.

Me: It sure is. Raj is the chosen one yet again. But Lazlo, didn't you say that the treasure was taken by the mosquitoes?

Clam: Taken.

Lazlo: I did. The curse of Three-Eyed Fred is that the mosquitoes take the treasure to somewhere else.

Me: Shall we go find that treasure!?

Everyone cheered.

Chip: I want to go with you guys, too!

Skip: Same with me!

Me: All right. Lets go find that treasure!

Everyone cheered.

Patsy: Lets do this!

We were off to Itchy Island. We got there and they called it Itchy Island because it was a major league nest for numerous mosquitoes.

Me: Wow.

Lazlo: Itchy Island!

Me: Lets find that treasure.

We looked high and low and followed the map. I took a picture of the map on my phone and we were gonna use it as a guide.

Nina: Oh this is so cool! I love treasure hunts!

Nicole: Me too Nina.

We arrived at the X that marked the spot.

Me: We found the X! Lets get digging!

Lucy, Lana, Ed, and Lincoln got digging!

Gretchen: We're almost there!

Ed: Look! Treasure!

Me: JACKPOT!

We pulled the chest out and opened it.

Choir: THREE-EYED FRED'S TREASURE!

Everyone: WOW!

Lori: Look at all that gold!

Lola: And those jewels!

Lana: There's a lot of it!

Laney: It was all worth it.

Lazlo: Here come the mosquitoes!

I fired a massive blast of fire at the mosquitoes and sent them flying away.

Me: Lets get this treasure back to camp.

Nico: Camp Squirrel Bean, you all have succeeded in this treasure hunt.

We brought the treasure back to camp and we used the treasure get Camp Squirrel Bean better cabins and a better mess hall, and a better Scoutmaster Quarters and more.

---

Later we were celebrating our treasure success at my favorite meat restaurant: Beef Lumberjacks.

Bear Lumberjack (snarls at Slinkman): Hey, you're that slug with Lumpus who didn't pay up!

Slinkman: You're not still mad about that, are you?

Me: Now sir let me help.

I paid the bill Slinkman owed.

Bear Lumberjack: Thanks J.D. We owe you all one for destroying that freak of nature Lumpus.

Me: Yeah he was a total fraud and a 7,512% nutcase.

Bear Lumberjack: You got that right.

We had really good steaks and Jared had a salad because he's a vegetarian.

Me: Mmm. Good steak.

Nicole: Boy you said it dad.

Lola: These placemats are really cool.

Lana: They sure are and there's a map of Leaky Lake on it.

Lazlo: Yep. There's Beef Lumberjacks, the bait shop, the manure shop, where Acorn Flats was, Mount Blackhead, and there's…

Me: Huh?

Clam: No Camp Squirrel Bean.

Me: Sir how come Camp Squirrel Bean is not on your placemats?

Bear Lumberjack: It takes money to advertise that.

Nicole: I think I know a way we can put it on. I'll eat the MEAT BOMB!

Everyone gasped when they heard Nicole say that.

Lazlo: Oh wow!

Raj: This is gonna be so amazing.

Clam: Meat.

Nicole: I heard Lumpus ate a Meat Bomb.

Lazlo: He sure did. They grow meat out in the California Steak Orchard and water it with Growth Hormones. They pick the biggest steak and call it the Meat Bomb.

Nicole: Wow. That's a lot of beef. But as Lynn says: OH IT IS ON!

We got Nicole ready and they brought out a huge steak!

Bear Lumberjack: Here ya go! One meat bomb! (Grunts) Coming Up!

He put a huge slab of steak on the table.

Bear Lumberjack: Enjoy.

Me: Wow! That is a huge slab of meat. Over in Amarillo, Texas they have a restaurant that serves a huge 72 oz. steak. Priced at $1.00 per ounce.

Nicole: I saw that dad. It's really good food.

Heidi: You can do it Aunt Nicole.

Nicole: Lets get started.

Then the massive steak grew bigger. It was as big as a whole monster truck tire!

Me: Whoa! That is a massive steak!

Lazlo: It's the growth hormones.

Me: I don't think I could eat a steak that massive.

Nico: I can eat a whole steak like that.

Me: I know you could.

Lincoln: That's a lot of meat.

Laney: But Nicole loves meat and she is a true carnivore.

Jared: I don't eat meat. I eat only fruits and vegetables and drink only water.

Nicole: Okay now we're talking!

Nicole got started and she was eating the whole steak and it was gone in 30 minutes.

Nicole ate the whole steak.

Nicole: Now that was a good steak!

Nicole then released a monstrous belch.

BBBBBUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUU

Nicole was declared the winner and she was hoisted up.

Lori: And the new Meat Bomb Champion is NICOLE KNUDSON!

We got Camp Squirrel Bean placed on the placemat.

It was awesome getting Camp Squirrel Bean on the placemat and we made a picture for it and Nicole put it in her room in a picture frame.

William: (To the viewers) Nicole's Appetite may be bottomless, but her heart is as big as her appetite.

THE END

---

Another Fanfiction Complete.

I made this chapter as a combination of two episodes of Camp Lazlo: Lumpy Treasure and Never Bean on The Map. 2 of my favorite episodes of Camp Lazlo. They were both funny. I love steak but it's loaded with fat and cholesterol and too much beef is bad for you. But they don't grow beef out in an orchard or with growth hormones. That would be cool if they did grow beef that way though. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# The Slimy Magical Blood

It starts at the Zoo. Me, Lana, Nico, Syd, Ronnie Anne, Laney and Lily were helping Becca with the new reptile exhibit being put in.

Becca: Thanks for helping me build the new exhibits at the reptile house guys.

Me: No problem Becca. It's so awesome helping you out at the zoo.

Syd: This is so awesome. We're getting new King Cobra exhibits.

Laney had the King Cobra around her arm and she was petting it.

Laney: Aw Lesty is a cute Cobra.

Syd: She sure is Laney.

Me: King Cobras are one of the most deadliest snakes in the world.

Ronnie Anne: They are.

Nico: One bite is powerful to kill 25 people.

Lana: That is deadly.

Becca: It sure is.

We got to work on the King Cobra exhibit and it was a beautiful exhibit in the zoo. It looked like a tropical rainforest and Lesty was right at home.

---

Later back at the estate, Nico was looking through his Goosebumps books.

Jared was eating a bowl of broccoli.

Jared: Mmm. Nothing like a bowl of broccoli salad for me.

FART!

Jared: Scuse me.

We laughed.

Me: That was funny son!

William: Hey, Maria! Have you fought any bad crooks today?

Maria: No. Why are you asking?

William: No reason. I've got a surprise for you.

Maria: What's the surprise?

William (slips off his shirt): This!

William revealed his bare chest to Maria and anyone else looking at him. Maria blushed hotly, as did more than a few other girls in the room, at the sight of William's chest but there was something else that also drew their attention. On top of William's chest, he had the words 'You can look but can't touch because…' tattooed in blood red and black ink.

Me: "You can look, but can't touch because…"

William (turns around): That's not all.

The girls still blushed because his back was just as hot to them as his chest. But what caused William to blush the most was the tattoo on his back.

Teresa (amused with a blush): "This is Maria Rockell's Property?"

Around the words, William had a tattoo done in pink and red that was a trail of Cherry Blossom Petals while there was a black and red knife tattooed under the words, piercing the 'O' in property.

William (puts his shirt back on): Hey, she has a tattoo that says 'property of William Dunbar' so I thought I'd get one similar but different. Besides, doesn't Maria Rockell's property have a good ring to it?

Francis, Static, and Gear were rolling on the floor laughing their heads off.

Rubberband Man (snickers): Might as well have tattooed "Maria Rockell's Boy Toy" on your back while you were at it.

Me: (Laughs) That is so funny! But that tattoo is so awesome William!

Yumi: That is an awesome tattoo Will!

Ulrich: Nice ink though dude.

Odd: Rightous ink dude! You two are perfect for each other.

Jeremie: That tattoo is a magnificent perfect mark on you William.

Aelita: That is an awesome tat on you William.

William: Thanks guys.

Carmen: Rockin' tat bro!

Maria: Aw William that is so sweet.

Blackfire: Quick question. Do your parents know that you two have tattoos?

Maria: They sure do.

William: Yep they do.

Me: Besides, I think they look really cool with tattoos.

Nico looked through his books and he found his next target.

Nico: I think I have our next target. Lets go after the Monster Blood.

We looked at the Monster Blood books and we saw a gross green slime coming down the stairs and it looked alive.

Me: That stuff is disgusting! It looks like living snot!

Nico: It does look like it.

Ben: That Monster Blood thing looks like Goop.

Me: It does have those same characteristics. But Goop is from the planet Viscosia and he doesn't have the ability to turn people into giant monsters.

Laney: Who would make such a disgusting abomination!?

Nico: The Monster Blood is next on our hit list.

Me: Lets see. Who would make such a horrifying abomination?

I looked it up on the computer and saw that it was made by an evil sorceress named Sarabeth.

Sarabeth is an antagonist in Monster Blood. She is an evil sorceress that took the appearance of a black cat and since then had been living with Evan Ross' aunt, Kathryn. Later, it is revealed that she was the cause of Kathryn's deafness and the reason why the Monster Blood is evil. Finally, when she tells Monster Blood to kill Evan and Kathryn. Trigger appears, pushing Sarabeth towards the Monster Blood causing her death.

Me: This bitch is fucked up to the extreme!

Nico: I can't believe she's that dangerous.

Me: Our best chance is to throw all the Monster Blood into the Sun and obliterate it with the Solar Fire.

Nico: That's a good idea.

Me: Lets go get that psychotic bitch of darkness!

Brittney: Yeah! She gives us sorceresses a really bad name!

Me: Team Loud Phoenix Storm…

Jaime: And Team Loud Fairywind…

Me and Jaime: LETS FLY!

We were off to Jackson, Mississippi.

---

Jackson, Mississippi.

---

We arrived at the Ross Residence in Jackson, Mississippi.

Me: Here we are guys.

We landed and we saw Evan Ross and Andy playing in the backyard with Evan's dog Trigger.

Me: Are you Evan Ross and Andy?

Evan Ross: Team Loud Phoenix Storm! Nice to meet you guys!

Me: It's a pleasure to meet you too Evan.

Andy: We love all your adventures and they are so awesome!

Evan: It was so hard to pick just one so we chose all of them.

Me: I'm glad we have such great fans. But we came because you had an encounter with a certain evil batch of slime.

Nico held up the books on Monster Blood.

Nico: Monster Blood.

Me: Since you guys encountered it, we're gonna destroy it.

Lola: Yeah this stuff is gross and it looks like living snot!

Evan: Come inside so we can talk.

Me: Okay.

We went inside. We were talking to Evan's mom.

Mrs. Ross: Evan, this whole thing about Monster Blood? It sound like crazy talk.

Ed: That's not crazy talk. This is crazy talk. [does various forms of gibberish blabbing, but his third blabbing makes his saliva hit Francis, making him hammer-fist him to shut him up, bashing his head in] Sorry.

Me: Trust me Mrs. Ross. Evan has dealt with this evil slime before and it is a nasty and gross atrocity. We need to destroy all of it by sending it all into the fire of the sun.

Laney: And we need to send that evil sorceress Sarabeth in there with it.

Evan: But I thought she was dead.

Me: I have a strong feeling she isn't. Evan, we need to work together to take it down for good.

Evan: You got it J.D.

Andy: Here's the can of Monster Blood.

Me: So this is the stuff. Okay. Here we go.

---

We were outside and we had the can of Monster Blood on the street.

Me: Okay here we go.

Edzilla: ED SMASH STUPID SLIME!

I took the top off the can and the Monster Blood oozed out. It was gross seeing it.

Me: Oh that is disgusting slop.

Evan: It sure is.

Then we saw that the slime had the symbol of the Heartless on it.

Bombshell: Evan, did the Monster Blood always have a Heartless symbol on it?

Evan: No. Why?

Bombshell: Because it's a Heartless now.

My Dark Orb detector went off and it showed that there was a dark orb in the Monster Blood.

Me: There's a dark orb in the Monster Blood!

Evan (sees the Monster Blood Heartless): Whatever it might be before, it's a Heartless now.

Me: Yep.

Then we saw the monster blood take shape and it formed into a woman with black hair and she had a horrifying demonic mask on. I recognized her. It was the evil Moldavian Satanic Princess ASA VAJDA! She took off the mask and I saw that she had a horrifying face but there were bloody holes in it and emblazoned on her forehead was the Star of Satan!

---

Asa Vajda was a princess of Moldavia who lived during the first half of the 17th century. Asa was a witch in service to Satan and she practiced her art along with a colleague named Igor Javutich. Asa's own brother, Kriavi Vajda was the head of the Holy Inquisition. Capturing Asa and Igor, he tried them for witchcraft outside the family estate. Before her sentence was carried out, Asa placed a curse on her brother's family line, shouting "It is I who repudiate you, and in the name of Satan I place a curse upon you. Go ahead, tie me down to the stake, but you will never escape my hunger, nor that of Satan!" The inquisitor had his men nail the Mask of Satan upon both Asa and Igor's faces and their bodies were burned at the stake. At the moment of her death, a terrible storm erupted and the Inquisitors fled the scene. When the storm subsided, they placed Asa's body in the tomb of her ancestors. Her coffin was outfitted with a glass window so that all who looked upon it would see the Mask of

Satan staring back at them. A giant cross was erected upon the coffin to ward off evil.

Two centuries later, two scientists named Doctor Thomas Kruvajan and Andre Gorobec traveled by coach through Moldavia on their way to a conference in Mirgorod. Their coach suffered a broken axle near the ruins of the Vajda family chapel and while the coachman affected repairs, Kruvajan and Gorobec decided to explore the ruins. While inspecting the catacombs, they came upon Princess Asa's coffin. A large bat flew out, startling Kruvajan. In an attempt to kill the bat, he unwittingly struck the cross affixed to Princess Asa's coffin, as well as shattering the small glass window at the head of the casket. Cutting himself on a splinter of glass, Kruvajan's blood dripped down onto the Mask of Satan, mysteriously bringing Asa back to life.

Though alive once again, she was still weak and was unable to rise from her coffin. She used what little power she had regained to resurrect her lvoer Igor Javutich. She then summoned Doctor Kruvajan back to her tomb, forcing him to give her his blood, making her even stronger. Working through both Javutich and Kruvajan, she continued to wreak her vengeance against the Vajda family. The prince and his heir, Constantine Vajda, were both killed in short order, but it was the prince's daughter, Katia Vajda, that captured Asa's attention. The twenty-one year old princess was the spitting image of the witch and Asa sought to take possession of her, transferring her essence into Katia's body. Moments after completing the spell however, Kruvajan's student Andre Gorobec exposed her and the local villagers became aware that Asa was a witch. She was pulled out of the chapel ruins and bound to a wooden stake whereupon she was set on fire and burned to death.

---

Me: (Gasp) I don't believe it! That's Asa Vajda!

Lola: Who is she?

Me: She's the evil Satanic Princess from the movie Black Sunday, one of my dads movies from his past. When my dad was a kid, that movie scared the living shit out of him when they nailed that horrifying mask onto her face as they were about to kill her!

Lori: What year was that movie made?

Me: 1960. This woman is a demon born from the Devil himself.

Then we heard malevolent laughter.

Me: Who's that!?

Evan: That's Sarabeth!

We saw a woman with black hair and black leather clothes come out in a vortex of magic. It was SARABETH!

Evan: Sarabeth!

Sarabeth: Don't worry, Evan. I'll make your death quick and painless!

Me: I'll make sure your death is slow and excruciatingly painful!

Nico: Sarabeth, you have failed this whole planet!

Lana: I'll face Sarabeth. You guys face that overgrown slimeball.

Me: Right Lana!

We went at the Monster Blood heartless. I punched it in the face and my fist when all the way through it.

Me: Oh yuck!

Luckily my powers were protecting me from its deadly effects.

Me: So physical attacks won't work on it. Our best option is to use energy waves and elemental attacks.

We did so and it hurt the Monster Blood Heartless.

Then the Monster Blood Heartless changed again. It became the RADIOACTIVE PALEOSAURUS!

After a series of deaths involving both humans and marine creatures, along with the discovery of an enormous dinosaurian footprint, scientists uncovered the existence of the Paleosaurus. Theorising that the beast was also dying of the massive dose of radiation which was killing all those around it, but that it would travel up the River Thames to perish in fresh water whilst devastating London en route, the group devised a way to deliver an even higher dosage of radiation which would hasten its demise.

Whilst constructing their weapon, authorities discovered the Paleosaurus' radar transparency, and had to rely on helicopter surveillance. However, the radiation emitted by the creature caused the helicopters to crash, and the

Paleosaurus subsequently embarked on a rampage through central London.

Finally finishing the weapon, the remaining scientists loaded their radium-filled torpedo aboard a miniature submersible and destroyed the beast in the River Thames after sustaining heavy damage.

However, news reports of shoals of dead fish at the end of the film suggest that a second Paleosaurus may have made landfall in the United States…

---

Me: It's the Radioactive Paleosaurus!

Shanan: From the 1959 movie The Giant Behemoth!

The Monster Blood Heartless as the Paleosaurus fired a massive green lightning laser blast that was as radioactive as 100 tons of plutonium. I blocked the laser and I sprouted my tail and it fired the laser back at it and it exploded.

The Monster Blood Heartless reformed and it turned into the GIANT TARANTULA!

---

Wearing pajamas, a man with Neanderthal features stumbles through the Arizona desert. He falls and dies. Dr. Matt Hastings, a bright, handsome and sympathetic doctor from the small town of Desert Rock, is called to view the body. Asked to give an opinion as to cause of death, he finds himself perplexed. Surprised to learn the deceased was someone he knew - biological research scientist Eric Jacobs - Dr. Hastings suggests he be given permission to perform an autopsy to learn why the man's face is distorted beyond recognition. The sheriff refuses, judging an autopsy unnecessary as Jacobs' associate, Dr. Gerald Deemer, signed the death certificate and there is no indication of foul play.

Curious to learn more, Dr. Hastings drives twenty miles out of town to visit Dr. Deemer in his lab. Hastings learns that Deemer and Jacobs have been conducting experiments on animals in an effort to use an atomic isotope to create a super food nutrient. Foreseeing a future when human population growth would outstrip food production and result in food shortages, their hope was to create a viable replacement for food and prevent widespread starvation.

He learns that the scientists' experiments proved successful in one respect, in that some animals were able to thrive and grow exclusively on the nutrient without any food. Yet, the nutrient has not been perfected. Other animals have died after receiving injections, and still others have kept growing to gargantuan proportions. The latter include a white mouse, a guinea pig, and a Mexican red rumped tarantula.

Deemer tells Hastings that the cause of Jacobs' death was his impatience to see if the latest batch of the nutrient would sustain humans. As a result, Jacob injected himself with the nutrient which resulted in runaway acromegaly, which killed him in four days. What Deemer does not reveal is that Jacobs also injected his research assistant, Paul Lund, with the same nutrient.

After Hasting leaves, the deformed Lund appears, attacks Deemer and partially destroys the lab. During this rampage the lab catches fire and the glass front of the tarantula's cage is shattered. Lund grabs the hypodermic that Deemer was going to use to inject an animal and injects Deemer instead.

During the melee the arachnid escapes outdoors, unnoticed. Lund collapses and dies. Deemer - who had been unconscious - regains consciousness, grabs a fire extinguisher, and puts out the fire. Intending to continue his work without questions or objections, he buries Lund's body and conceals all traces of the grave.

The following day a new lab assistant arrives in town, by bus. The young and beautiful Stephanie Clayton, who goes by the nickname "Steve," has signed on to assist in the lab as part of her master's degree program. Told she will have to wait a couple of hours for the only taxi driver in town to return and drive her out to the lab, she accepts a ride from Dr. Hastings, who is also headed there.

When they arrive and see the damage, Dr. Deemer tells them that the fire was caused by an equipment malfunction. He indicates that all the animals were killed in the fire, and avoids answering questions about what happened to his previous research assistant.

As Steve's contract stipulates that she live in Dr. Deemer's residence, Dr. Hastings leaves her there with her suitcases.

Steve begins working in the lab and proves to be a capable lab assistant, even as she begins to notice disturbing changes in Dr. Deemer's appearance and demeanor. Meanwhile, the now house-sized tarantula ravages the countryside as Dr. Hastings tries to unravel a mystery that includes clean-picked cattle carcasses and pools of arachnid venom up to eight feet in diameter.

Once he puts two and two together, Hastings begs the sheriff to gather law enforcement personal and explosives so they can try to destroy the creature that is killing livestock and humans.

The tarantula eventually returns to the lab during the night and kills Dr. Deemmer but Steve escapes with Dr. Hastings. Then the tarantula pursues its human quarry down the road toward the town. After several failed attempts, the spider is eventually destroyed by a napalm attack launched from a jet fighter squadron.

---

Shanan: The Giant Tarantula from the 1955 Movie Tarantula!

Leni then freaked out.

Leni: (SCREAMS IN TERROR!) SPIDER!

Leni used her gravity powers and lifted it up and slammed it into the ground and splatter it everywhere!

SPLAT!

Everyone: EW!

Me: That was disgusting.

The Monster Blood Heartless reformed and it split into four masses and it turned into the GIANT ANTS from the 1954 movie Them!

---

The giant ants were first normal carpenter ants that lived in New Mexico but were mutated into huge killers by nuclear weapon tests. Later they killed off people from their acid in which they first killed a store owner. Later two police officers found a little girl all by herself and the dead store owner in the desert. A team of FBI agents, scientists and police officers come together to investigate the mysterious deaths. They are attacked by a giant carpenter ant and kill it by shooting its antennas. They find an entrance to the hive of the Six-legged terrors which is covered in remains of unlucky victims of the huge Insects and kill the ants in it by gassing the colony and burning the survivors with flamethrowers. The team finds three huge, open eggs in the breeding chamber of the hive. The scientist of the team explains that three ant queens which are searching for a new place to start a colony.

A pilot in Texas gets attacked by said ant queens but survives, unlike most of the crew members of a ship in which an ant queen hatched her brood before getting destroyed by the Navy. The showdown takes place in the sewers of Los Angeles after the President of the United States declares martial law on L.A. in which all the ants in the sewers get eliminated by the army, including some newly hatched queens.

---

Me: It's the Giant Ants from the 1954 movie Them!

Lincoln: (Imitating Onslow Stevens) To all units, to all units, Condition Red. Drain 267 is the Target Area!

Laney: Nice Onslow Stevens imitation bro.

Lincoln: Thanks Laney.

Lincoln fired a powerful blast of lightning and destroyed the ants. The Monster Blood Heartless reformed and it turned into THE THING! But it was The Thing from 1951.

---

A United States Air Force (USAF) re-supply crew is officially dispatched by General Fogerty from Anchorage, Alaska at the unusual request of Dr. Arthur Carrington (Robert Cornthwaite), chief of a group of scientists working at a North Pole base, Polar Expedition Six. They have evidence that an unknown flying craft of some kind crashed nearby. Ned Scott, a reporter in search of a story, tags along. A minor romantic sub-plot involves Captain Patrick Hendry (Kenneth Tobey) and Carrington's secretary, Nikki Nicholson. On arrival, Dr. Carrington briefs the airmen, and Doctor Redding shows high speed photos of an object moving downward, up and on a straight line - not the movements of a meteor. Hendry wonders to the doctor, "Twenty thousand tons of steel is an awful lot of metal for an airplane." "It is for the sort of aeroplane we know, Captain," Carrington responds. From Geiger counter readings, Hendry's crew and the scientists fly to the crash site aboard the supply team's ski-equipped C-47. The craft is buried in the ice, with a vertical stabilizer protruding from the surface. They are shocked to discover that the shape of the craft is that of a flying saucer. They try to free it with thermite heat explosives, but in doing so accidentally destroy the craft. Crew Chief Sergeant Bob's geiger counter locates a body nearby, frozen in the ice.

They excavate the tall body, preserving it in a large ice block and return to the research outpost as a major storm moves in, making communication with Anchorage very difficult. Some scientists want to thaw out the creature immediately, but Hendry orders everyone to wait until he receives orders from Air Force authorities. Feeling uneasy guarding the body, Corporal Barnes covers the ice block with a blanket, not realizing it is an electric blanket, and the creature thaws out, revives and escapes to the outside cold. The creature wards off an attack by twelve sled dogs, and the scientists recover an arm, bitten off by the dogs. As the arm warms up, it ingests the blood from one of the dogs and begins to come back to life. They learn that, while appearing humanoid, the creature is in fact an advanced form of plant life. Dr. Carrington is convinced that the creature can be reasoned with and has much to teach them, but Dr. Chapman (John Dierkes) and other colleagues disagree. The Air Force men are just as sure it may be dangerous.

Carrington soon realizes that the creature requires blood to reproduce. He later discovers the hidden body of a sled dog, still warm, drained of blood, in the greenhouse. He has volunteers from his own team, Dr. Voorhees, Dr Olsen and Dr Auerbach, stand guard overnight, waiting for the creature's return. Carrington secretly uses blood plasma from the infirmary to incubate and nourish seedlings he has taken from the arm, failing to advise his colleagues or Capt Hendry of what he has done, or of having found the bodies of Olsen and Auerbach, drained of blood. Dr. Stern (Eduard Franz) is almost killed, but escapes to warn the others. Nikki reluctantly updates Hendry when he asks about missing plasma. Hendry confronts Carrington in the greenhouse, where he sees that the creature's planted seed pods have grown at an alarming rate. Dr. Wilson (Everett Glass) advises Carrington that he hasn't slept, but Carrington is unconcerned. The creature returns and the USAF crew, after gunfire has no effect, trap it in the greenhouse. The creature escapes and tries to break into another part of the camp. Following a suggestion from Nikki, Hendry and his men set it alight with kerosene, causing it to flee into the night.

Nikki notes that the temperature inside the station is dropping quickly, probably due to a cut fuel line. The cold forces the scientists and the airmen to make a final stand in the generator room. They rig a booby trap, hoping to electrocute the thing. As the creature advances on them, Carrington twice tries to save it, once by shutting off the power, and then by trying to reason with the creature directly. It throws him aside, before falling into the trap and being reduced to a smoldering husk. Its seedlings are also destroyed. Scotty files his "story of a lifetime" by radio to Anchorage, warning his listeners to "Watch the skies!"

---

Me: It's the Thing from 1951!

Kate L: It's much different than the Thing that I saw down in Antarctica.

Me: This version of The Thing has a major difference than the one you know. This version of the Thing is made of Plant Material. The one you know is made entirely out of blood and guts.

Lincoln: So there are 2 different versions of it?

Me: Exactly. But they are still shapeshifting freaks all together!

Kate L.: I never want to go through that horrible nightmare again!

Me, Kate and Lola fired a massive blast of fire at the Monster Blood Heartless and burned it. It was weakened.

Me: I was right! Solar Fire does weaken it! Lets blast it with Combos!

Edzilla: ED SMASH! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right upper tentacle arm and it gave him a surprise ability.

Perceptor: Lets do it. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his light beam blast.

Edzilla and Perceptor: ULTRAVIOLET FLARE BURST!

Edzilla fired a massive blast of fire from his mouth and Perceptor fired a massive blast of ultraviolet light. The blasts merged and turned into a powerful blast of powerful blue fire and it hit the Monster Blood Heartless and burned it all over.

Bombshell: Lets get this freak! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his Cerebro Shells 100-fold.

Blackfire: Time to burn some blood. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Blackfire's right arm device and it enhanced her powers 100-fold.

Bombshell and Blackfire: ULTRAVIOLET STARBURST BOMB!

Bombshell fired a bunch of Cerebro Shells and Blackfire fired a massive blast of energy and the blasts combined and they hit the Monster Blood Heartless and exploded.

Evans: Lets finish this slimy monstrosity! SOLAR PLASMA FIRESTORM!

Evans fired a massive blast of Solar Plasma and it hit the Monster Blood Heartless and burned it. Weakening it and Lucy put it in the can.

I took it.

Me: Now it's time to finish off Sarabeth.

Lana was fighting Sarabeth. She punched her in the face and fired a powerful blast of Ice Lightning and Sarabeth fired a powerful blast of Dark Lightning and the blasts combined and they exploded.

KRABBOOOOOOOOOOOOOOOOOOOOMMMMMM!

Lana: You make me sick Sarabeth! You should've stayed dead you freak!

Sarabeth: I'll make your death painful!

But then something snapped inside Lana. She thought of all the terrible and horrible things Sarabeth did over the years as well as all the terrible deeds done by others. Lana was then suddenly enveloped in a massive and blinding white light and she was in a massive vortex of snow and ice lightning and we felt her energy levels rising at an astronomical rate and she was getting more powerful by the second. When the vortex faded, Lana was forever changed. She looked like she was a 25 year old girl and she had a bigger red baseball cap, longer blue hair in pigtails, no shirt and she had bigger dungarees and brown hiking boots. She had blue angel wings and a Snowflake was emblazoned in the middle of her forehead with a Snowy Owl in the middle of the snowflake. Lana was now a Super Angel 20,000 SNOWSTORM OWL!

Lana: You will never torment peoples lives again!

Lana went at Sarabell and kicked her in the stomach with devastating force and punched her in the face.

Sarabell was in a lot of pain.

Lana: Now you will freeze. FROSTFIRE LIGHTNING FREEZE!

Lana fired a massive blast of ice lightning and froze Sarabell in a huge block of ice.

Me: Now to destroy you completely Sarabell.

I punched the ice and shattered it and killed Sarabell in an instant.

Me: Time to make sure you never come back Sarabell!

I opened up a portal and it lead to the surface of the Sun and we threw in the pieces of Sarabell and all the Monster Blood into it and they were both vaporized in an instant. During the battle Nico caught a Garchomp and a Munchlax.

Lola: Lana you did it!

Lana hugged Lola.

Lana: Thanks sis.

Evans: (To the viewers) You will face the wrath of Team Loud Phoenix Storm if you ruin our lives.

Me: You said it Evans. You did a great job.

Evans: Thanks J.D. It was so awesome doing a final smash. It was my first one ever!

Me: First times for everything.

Andy (to William and Maria): Can we see your tattoos?

Maria: Sure.

Maria and William showed them to her.

Andy: Awesome!

We later went home. Evans and his family along with Andy and her family we're placed into our protection.

THE END

---

Another Fanfiction Complete.

The Monster Blood on the Goosebumps Books was the grossest monster ever made by R.L. Stine and it was awesome! I wanted to make it more exciting by having it change into monsters from movies from my dads past. The movie Black Sunday really did scare the living daylights out of my dad back in 1960 and it was horrifying. The monsters I used are as follows:

Asa Vajda - Black Sunday (1960)

Radioactive Paleosaurus - The Giant Behemoth (1959)

Giant Tarantula - Tarantula! (1955)

Mutated Ants - Them! (1954)

The Thing - The Thing From Another World (1951)

All great movies and all awesome movies from the 1950's and 60's. NicoChan11 gave me the ideas for this one. Thanks man as usual.

Let me know what you all think.

See you all next time.

Movies and monsters belong to their owners.

# Haunted Auditorium Phantom

It starts in the Park. Eddy was walking through the park enjoying the beautiful sunny day.

Man: Morning Eddy.

Eddy: Hey sir.

Woman: What's up Eddy?

Eddy: Not much Ma'am. Just the sky! (Laughs)

Woman: (Laughs) That's funny Eddy.

Kevin: What's shakin' dude!?

Eddy: Not much Kev.

But then he heard someone crying and it was Luan.

Eddy: (Concerned) Luan?

Eddy found her sitting on a bench crying her eyes out.

Eddy: Luan are you all right?

Luan: (Crying) (Hugs Eddy) Oh Eddy! He came and laughed with his new girlfriend!

Eddy: Who did Luan?

Luan: (Crying hard) My ex-boyfriend Benny! And his new girlfriend Angela!

Eddy: That kid that cheated on you!?

Luan: That's him!

Eddy: WAIT TILL I GET MY HANDS ON HIM!

Later William and Riku were holding Benny in place.

William (he and Riku are holding Benny down): I'm sorry, I thought I just heard this new girl call this guy Luan's ex.

Eddy (walks behind Benny): You heard right. So I thought the four of us should give him a little… warning about what happens the next time he hurts our Comedy Queen.

Maria punched Benny in the stomach.

POW!

Eddy: You see. I've already had a nice morning. When I found my girlfriend crying in the park, that just made my morning bad. I don't like it when she's that upset. You know what I dislike even more? When someone she cares about plays her. She gave you nothing but love and affection. And what did you do? Nothing. Except fucking cheat on her!

Benny grunted as William twisted his arm. The Redemption Squad leader's eyes was as cold as ice, Riku's eyes were burning maliciously in a way that reminded Sora of when he was being manipulated by Maleficent, and Maria looked like she was seconds away from killing Benny.

Eddy: You could've told Luan that things weren't working out between you two. But instead, you decide to play with her feelings and dump her when she was no longer useful to you! Even I wasn't that low back in my scamming days.

Benny (winces in pain as Riku and William tighten their grips on him): Things just weren't working out. I had to move on.

Eddy: And you didn't even consider how she felt? I've got a lot of bad things to say to you before Maria, William, and Riku beat up!

Eddy then let out a massive BALLISTIC RANT IN A SCREAM SO LOUD THAT EVERYONE ALL OVER THE CITY HEARD!

Eddy: (SCREAMING AT THE TOP OF HIS LUNGS) ***YOU ARE THE***

***WORST EVER FUCKED UP AND MOST DESPICABLE FUCKING FREAK OF NATURE BOYFRIEND THAT HAS EVER LIVED AND YOU ARE THE MOST FUCKED UP SHITFACED FREAK OF NATURE EVER! YOU MAKE ME SICK AND YOU ARE THE WORST EVER LOSER THAT EVER LIVED AND YOUR JOKES ARE AS FUCKED UP AND YOU HAVE THE UGLIEST FUCKING FACE THAT HAS EVER BEEN SEEN! YOU LOOK IN THE MIRROR AND YOU CRACK IT AND YOU GIVE EVERYONE BAD LUCK! YOU ARE THE WORST BOYFRIEND EVER AND YOUR JOKES CAN MAKE EVEN BLIND KIDS CRY! YOU ARE SO FUCKED UP THAT I WOULD RATHER LICK A TOILET 2,000 YEARS THAN HAVE ANYONE DATE A POMPOUS FUCKLIPPED FUCKSACK LIKE YOU! YOU WOULDN'T EVEN KNOW A GOOD JOKE IF IT HIT YOU IN YOUR FUCKED UP, WORTHLESS, COMEDY HATING FUCKED UP FACE!***

Eddy's rant was so loud that we heard it all the way from the Estate.

Me: Holy Shit! That is one loud voice Eddy has.

Back with Eddy and everyone. Eddy's face was red and on fire and he was panting like mad as smoke was coming out of his ears.

William: Wow! Eddy that was a nasty rant!

Eddy: (Calms down) Sorry about that.

Maria: That's all right. But man you really laid down your law on him.

Riku: I'll say. Not even I am that loud.

Luan walked up to Benny.

Luan (to Benny): At least I know Eddy is a better man than you are now.

Eddy (to the others): Luan just made one request. Don't kill him.

Panic flickered in Benny's eyes, and Riku chuckled darkly as William grinned.

Riku (Maria sauntered up to lean on Benny's back): We'll try not to.

Eddy: Just don't interrupt us for the rest of the morning, please.

Maria: I'm not suicidal.

Eddy and Luan went back to the estate but not before hearing the first scream of pain that Benny let out.

Eddy: Oooh. That sounded painful.

Maria, William and Riku came back

Luan: Is he still alive?

Riku (rubs ice pack against his knuckles): He was when I left. Though William was once's Xana's general and Maria was formerly a Metabreed member, so they may have more tricks than I do for making him scream.

Luan: While I kind of feel bad for him now, I still can't help but think he deserved it.

Riku: For hurting you that much? He deserves everything we're giving him.

Luan: Thanks for having my back. You, Eddy, William, Maria…

Riku: Of course we came. Did you think we wouldn't?

William (he and Maria catch up to them as he nurses his bruised knuckles with Maria in her swimsuit due to strongly using her powers): Of course we would. Besides, it was nice to get our frustrations out on someone since we have still have alot of villains to fight.

Maria (grins while carrying her clothes): So it's a win win.

Luan (hugs them): It still means so much.

William (kisses the top of her head): No problem, Luan. (Maria hugs her tightly)

Benny was on the ground and he pulled out a marionette and it was

Ms. Appleblossom.

Ms. Appleblossom: (British Accent) (To a brutally beaten up Benny) You really screwed up big time Benjamin.

Benny: (Weak) Now's not the time Ms. Appleblossom. I'm in too much pain to talk.

Benny was taken to the hospital.

---

Back at the estate we were watching TV and playing pool and card games.

Me and Jared were lifting really heavy weights with Lynn and Lightning and we were working up a tremendous sweat. I was lifting up a barbell with 500 ton weights on it.

Me: (Grunts) This is no problem for me.

Jared: (Grunts) Easy for you huh dad?

Lynn: You guys are really strong like me.

Lynn was running on a treadmill set at marathon level.

Lightning: You have amazing speed Lynn.

Lynn: (Panting) Thanks Lightning. When you work with sports you build up strength and speed.

Later we rested.

Me: Whew! What a workout.

Jared: You said it dad.

Lynn: That was awesome guys. Hey Jared can I ask you a question?

Jared: Sure Lynn. What's up?

Lynn: How did you and Allenby meet?

Jared: Well I told this to most of you but not everyone.

We went to the living room.

---

Lana was looking at herself in the mirror with Skippy by her side.

Lana: Wow. My Super Angel 20,000 Form looks incredible. I feel like a grown woman in this form.

Skippy: You sure do Lana. You are 7 years old but you are amazing when you look like this.

Lana: Thanks Skips.

Lana picked him up.

Lana: Shall we go for a fly together?

Skippy: I'm always up for a fly.

They went outside and flew around.

Me: Aw that is so adorable!

Jared: It sure is. Guys I'm going to share for all of you what happened when me and Allenby met.

Lori: We've literally been wondering about that Jared.

Jared: It's an amazing story.

---

Jared: (Narrating) It was back in the time we came from. Shortly after I inherited the family sword, I was doing a simulator exercise where I faced the awesome and godly power of the first person ever to utilize Chakra: Kaguya Ōtsutsuki.

---

A millennium ago, Kaguya arrived on Earth with a portion of the clan in search for the fruit of the God Tree, which chakra she was supposed to provide to the clan's main family in another the anime, upon her arrival, she was discovered by the people of the Land of Ancestors, who brought her before their emperor, Tenji. Identifying herself as the God Tree's guardian, Kaguya used a mysterious power to wipe Tenji's memories of the encounter and subsequently settled among his people, becoming recognised as his concubine. Growing closer with the emperor, she eventually fell pregnant. When the Land of That began to threaten the Land of Ancestors over a border dispute, Tenji attempted to prevent the outbreak of war by declaring that anyone who attacked the larger nation's representatives was to be executed, an order which she broke when she was threatened by them, resulting in her and her assistant Aino becoming hunted by their land to be executed.

Losing all faith in humanity but still longing for peace, Kaguya believed that it was necessary for her to attain god-like powers in order to put an end to all of humanity's conflicts. So, despite her clan waiting to harvest that world of its God Tree, she defied the taboo surrounding the fruit and ate it. In doing so, she awakened the Rinne Sharingan and became the sole person on the planet endowed with chakra. Using her new-found power, Kaguya single-handedly ended the wars, and took control of the nations. For her deed of stopping the conflict, she received the blessing of the people and was worshipped as the Rabbit Goddess (卯の女神, Usagi no Megami). After establishing peace and changing somehow, Kaguya used the Infinite Tsukuyomi on humans to transform them into an army of White Zetsu over the course of many years in order to protect her chakra from being stolen by other clan members. In the anime, not wanting mankind to perish, she freed some victims of the genjutsu and erased their memories.

While giving birth to her twin sons Hagoromo and Hamura, she dispersed chakra to them, making the pair the first people born with chakra. Ruling by herself and often resorting to cruelty, her dōjutsu and jutsu were regarded with fear, awe and reverence by humans. At some indefinite point, the Rabbit Goddess had instead become known as a Demon (鬼, Oni).Eventually, Kaguya found herself ruled by her own desire to possess all chakra, which eventually turned her against her sons. Having devised a plan to absorb their chakra, she integrated with the God Tree and became the Ten-Tails, followed by her challenging the twins to battle.

Assuming the Ten-Tails was an incarnation of the God Tree that attacked them to recover the chakra from its stolen fruit, Hagoromo and Hamura sealed the beast's chakra within the former's body while using its husk as the core of Six Paths - Chibaku Tensei, creating a celestial body that would become known as the Moon. Hamura later took leadership of the Ōtsutsuki clan and departed to the moon to guard the beast's remains, while Hagoromo remained on Earth in order to spread chakra to humanity and teach them the concept of ninshū. However, just before her sons could completely seal her, Kaguya had manifested her will in the form of an artificial human called Black Zetsu. With the agenda of reviving its "mother", Black Zetsu manipulated Hagoromo's eldest son, Indra Ōtsutsuki, as well as his descendants within the Uchiha clan and his brother's descendants within the Senju clan in an attempt to get one of them to awaken the Rinnegan and break the seal. Madara Uchiha would eventually succeed in obtaining the Rinnegan, and Black Zetsu began secretly manipulating world events to have Kaguya revived.

---

Jared was facing Kaguya and she slashed at her and fired a massive blast of fire at her and it hit her and exploded.

KRABBOOOOOOOOOOOOOOMMMM!

Jared: Kaguya's power was so incredible that it easily rivaled that of anyone. She had this crazy technique that enables her to take anyone and anything to any planet in any part of the universe. It was called Amenominaka which means Heavenly Governing Inside. She took the battle to a distant volcano planet located 34,000 light-years away from Earth. The planet was called Pyron. It was a volcano planet and it was a very inhospitable world.

Past Jared: This place you brought us to is intense Kaguya.

Kaguya: It is and it will make for your ultimate resting place.

Past Jared: Not if I have anything to say about it!

Jared went at Kaguya and punched her in the face and she vanished through a strange portal.

Jared: Kaguya was a very slippery and deadly woman. She used this crazy portal technique called Yomotsu Hirasaka, which means Underworld Slope Hill. It enables her to move through anywhere with portals and surprise her enemies. But I was too crafty for her.

Jared sensed her behind him and punched her in the face and slashed her body in half.

Kaguya then changed her landscape and Jared was on a terrifying cold planet.

Jared: Kaguya changed the land again and we were on an ice planet called Cryon. It was cold planet located in the same system.

FLASHBACK PAUSES

Jared: In a way my battle with Kaguya was like a battle across the infinitely vast distances of the cosmos.

Me: Wow. That's amazing son.

Lori: This Kaguya woman literally sounds like she's incredibly dangerous.

Jared: She was. She was like a god and our power was both equal. But we put up one helluva fight. Now here's where the part gets good.

FLASHBACK RESUMES

Jared: (Narrating) After I got out of the Simulator, the Quicksand Damsel alarm went off.

A blue alarm light went off.

Past Jared: Uh oh!

Jared: I went to the computer and triangulated the position it was coming from. I saw it was coming from the Tarne Valley on the border between Sweden and Finland. I flew out to Sweden-Finland Border.

Jared flew out to said location and he arrived in the Tarne Valley. It was a swampy area.

Past Jared: Lets see here.

Jared looked at his device and the signal was at 500 meters northwest of his position.

Past Jared: That way.

Jared ran fast northwest.

Jared then heard someone calling for help.

Jared: As the signal was getting stronger and stronger I knew that I was getting close.

Past Allenby: HELP ME! HURRY!

Jared: I saw Allenby up to her shoulders in quicksand and fearing I wasn't gonna make it in time I went Super Angel.

Jared flared up his Rainbow Super Angel aura and it enhanced his speed and he flew fast. He flew over at a blazing speed and grabbed Allenby's hand and flew and pulled her out. They flew into the sky and Jared was carrying her as the wind blew the quicksand off.

Jared saw how beautiful Allenby was as he carried her bridal style. It was love at first sight. He landed on a tree with his rainbow aura flared up.

Past Jared: Are you all right?

Past Allenby: I think so. Who are you?

Past Jared: My name is Jared Knudson and I'm the son of J.D.

Knudson. I saved you.

Past Allenby: My name is Allenby Beardsley. How did you find me?

Past Jared: Our alarm system detected you. I came out here as fast as I could and I saved you.

Past Allenby: I am forever grateful to you Jared. Your aura is amazing. I've never seen it glow with so many beautiful colors.

Past Jared: It glows with the beauty of a rainbow like you Allenby.

Allenby then knew that Jared was the one for her. She had found her perfect match made in heaven.

FLASHBACK ENDS

Jared: And that's the story of how me and Allenby met.

Everyone: Awww.

Lori: That is literally the most beautiful story I've ever heard.

Leni: It totes is beautiful.

Luna: Dude it turned from an exercise into a rescue.

Jared: That's right Luna.

Me: That is an awesome story son.

Lola: It was like a knight saving a captive princess from a tower.

Jared: That's an excellent way to put it Lola.

Aqua: It reminds me of what I went through before J.D. saved me.

Me: Oh man. What happened Aqua?

Aqua: It was on the day we killed Xehanort.

FLASHBACK.

In the Realm of Darkness during the events of Keys To The Light, Aqua was lost in thought.

Aqua: (Narrating) I was wandering through the Realm of Darkness. I felt something evil growing and spreading. It was starting to corrupt me as I went deeper and deeper into the realm.

Past Aqua (starts to cry) No! I'm a good person! Not a monster!

Aqua: I was starting to give up hope. But then I heard your voice J.D.

Past Me: Aqua! Aqua! Can you hear me!?

FLASHBACK ENDS

Aqua: And the rest we already know.

Me: That's awful Aqua. I'm glad we saved you when we did.

Aqua: I am too.

Terra: Same here Aqua.

Ventus: I'm happy too.

Me: So how did you guys beat up Benny?

William: I smashed his face in, kicked him in the stomach and bit his arm and kicked him right where the sun doesn't shine.

Maria: I held him down with my water powers and punched him all over the place at a merciless level.

Riku: Then I burned him on his arms and legs and punched him all over the place.

Me: You guys were merciless on him.

Eddy: Yeah but he deserved it for cheating on Luan.

Me: As long as you didn't go overboard.

---

Later we were watching TV and we were watching the most famous and most iconic musicals ever: The Phantom of The Opera!

---

In 1911 Paris, the Paris Opéra hosts an auction of old theatrical props. Among the attendees is the Vicomte Raoul de Chagny, who purchases a papier-mâché music box and eyes it sadly, remarking how the details are "exactly as she said." The auctioneer presents the next item for bid, "lot 666" (referencing the evil events that took place long ago), "a chandelier in pieces", alluding to a connection with "the Phantom of the Opera". As the porters remove the drop cloth covering the fixture, it flickers to life and ascends to the ceiling as the auditorium's former grandeur is restored ("Overture").

It is now 1881 and the cast of a new production, Hannibal, are rehearsing onstage when they learn that new owners, Firmin and André, are taking over the Paris Opéra House ("Hannibal Rehearsal"). Carlotta, the Opéra's resident soprano prima donna, begins to perform an aria for the new managers when a backdrop inexplicably falls from the flies, barely missing her and prompting anxious chorus girls to whisper, "He's here! The Phantom of the Opera!". The managers try to downplay the incident, but Carlotta angrily insists that such things have been happening for "three years" and she storms out, quitting the show. Madame Giry, the Opéra's ballet mistress, informs Firmin and André that Christine Daaé, a chorus girl and orphaned daughter of a prominent violinist, has been "well taught" and can sing Carlotta's role. With cancellation of the sold-out show being their only other alternative, the managers reluctantly audition her and are surprised to discover that she is indeed talented. As Christine sings the aria during the evening performance, the Opéra's new patron, Raoul, the Vicomte de Chagny, recognises her as his childhood friend and playmate ("Think of Me").

Backstage after her triumphant début, Christine confesses to her friend Meg (Madame Giry's daughter) that she knows her mysterious teacher only as an invisible "Angel of Music" ("Angel of Music"). Raoul pays a visit to Christine's dressing room and the two reminisce about the "Angel of Music" stories that her late father used to tell them. Christine confides that the Angel has visited her and taught her to sing ("Little Lotte"). Raoul indulges what he assumes are fantasies and insists on taking Christine to dinner. When Raoul leaves to fetch his hat, Christine hears the jealous Phantom's voice and entreats him to reveal himself. The Phantom obliges by appearing as a ghostly, partially masked face in her mirror ("The Mirror/Angel of Music (Reprise)"). Believing him to be the Angel of Music sent by her deceased father, Christine is irresistibly drawn through the mirror to the Phantom, who leads her down into the cellars of the Opéra house. The two then board a small boat and cross a subterranean lake to his secret lair ("The Phantom of the Opera"). The Phantom explains that he has chosen Christine to sing his music and serenades her. When he reveals a mirror that reflects an image of her in a wedding dress, the figure in the mirror gestures to Christine and she faints from shock. The Phantom then covers her tenderly with his cloak ("The Music of the Night").

As the Phantom is composing music at his organ, Christine awakens to the sound of the monkey music box ("I Remember"). Overcome with curiosity, she slips behind the Phantom, lifts his mask, and beholds his grotesquely disfigured face. The Phantom rails at her prying gesture and Christine runs in fear. He then ruefully expresses his longing to be loved ("Stranger Than You Dreamt It"). Moved by pity, Christine returns the mask to the Phantom and he escorts her back above ground.

Meanwhile, Joseph Buquet, the Opéra's chief stagehand, regales the chorus girls with tales of the "Opéra Ghost" and his terrible Punjab lasso. Madame Giry arrives and warns Buquet to exercise restraint or face the Phantom's wrath ("Magical Lasso"). In the managers' office, André and Firman read notes from the Phantom and are interrupted by Raoul, who accuses them of sending him a note saying that he should make no attempt to see Christine again. Carlotta and Piangi then burst in, demanding to know who sent Carlotta a note warning that her "days at the Opéra Populaire are numbered." As André and Firmin try to calm Carlotta, Madame Giry delivers another note from the Phantom: he demands that Christine replace Carlotta as the Countess in the new opera, Il Muto, and that Box 5 be kept empty for him. The managers are warned they will face a "disaster beyond imagination" if these demands are not met

("Notes"). Firmin and André assure the furious Carlotta that she will remain their star and Christine will play the Pageboy, a silent role ("Prima Donna").

The première of Il Muto initially goes well, until the voice of the Phantom suddenly cuts through the performance, enraged that Box 5 was not kept empty for him as he had directed. As Christine whispers that she knows the Phantom is near, Carlotta reminds her that her role is silent, calling her a "little toad". The Phantom states that it is Carlotta who is the toad and reduces the diva's voice to a frog-like croak. Firmin rushes to defuse the situation by announcing to the audience that Christine will take over the starring role, and he instructs the conductor to bring the ballet forward to keep the audience entertained. Suddenly, the corpse of Joseph Buquet drops from the rafters, hanging from the Punjab lasso. Firmin and André plead for calm as mayhem erupts and the Phantom's diabolical laughter is heard throughout the auditorium ("Poor Fool, He Makes Me Laugh").

In the ensuing chaos, Christine escapes with Raoul to the roof and tells him about her subterranean encounter with the Phantom ("Why Have You Brought Me Here?/Raoul, I've Been There"). Raoul is skeptical but promises to love and protect her, and Christine reciprocates his vow ("All I Ask of You"). Christine and Raoul go back inside, unaware that the Phantom has overheard their entire conversation. The heartbroken Phantom angrily vows revenge before returning to the auditorium and bringing down the chandelier during the curtain call ("All I Ask of You (Reprise)").

Six months later, during a masquerade ball, the Phantom appears in costume as the Red Death. He announces that he has written an opera entitled Don Juan Triumphant and demands that it be produced with Christine (who is now secretly engaged to Raoul) in the lead role, and he warns of dire consequences if his demands are not met. Noticing an engagement ring on a chain around Christine's neck, the Phantom angrily pulls it from her and vanishes in a blinding flash of light ("Masquerade/Why So Silent").

As the masquerade attendees scatter in fear, Raoul accosts Madame Giry and demands that she reveal what she knows about the Phantom. Giry reluctantly explains that the Phantom is actually a brilliant scholar, magician, architect, inventor, and composer who was born with a terrifyingly deformed face and was ostracized for it. Feared and reviled by society, he was cruelly exhibited in a cage as part of a traveling fair until he eventually escaped and disappeared. He subsequently took refuge beneath the opera house, which has now become his home.

Before rehearsals, Raoul plots to use the première of Don Juan Triumphant as a trap to capture the Phantom and put an end to his reign of terror. Carlotta falsely accuses Christine of being the mastermind, suggesting that it is all a ploy to make her the star. Christine angrily defends herself, explaining that she is his victim just like everyone else. Raoul, knowing of the Phantom's obsession with his fiancée, asserts that the Phantom will attend the opera's première and begs a reluctant Christine to help lure the Phantom into the trap, but she refuses ("Notes/Twisted Every Way"). During rehearsal, Piangi is unable to sing his part in the new opera, causing frustration and chaos for everyone. The piano suddenly begins to play the piece by itself (having been possessed by the Phantom) and the entire company immediately sings the proper notes in unison.

Torn between her love for Raoul and her awe of the Phantom, Christine visits her father's grave, longing for his guidance ("Wishing You Were Somehow Here Again"). The Phantom appears atop the mausoleum, again under the guise of the Angel of Music ("Wandering Child"). The weary Christine begins to succumb to the Phantom's influence, but Raoul arrives to rescue her. The Phantom taunts Raoul, hurling fire balls at him until Christine begs Raoul to leave with her. Furious, the Phantom declares war upon them both and causes flames to spring up around the mausoleum ("Bravo Monsieur").

With armed policemen having secured the auditorium and watching for the Phantom, Don Juan Triumphant premieres with Christine and Piangi singing the lead roles. During Don Juan's and Aminta's duet, Christine comes to the sudden realization that the Phantom has somehow replaced Piangi ("Don Juan Triumphant/The Point of No Return"). Mimicking Raoul's vow of devotion on the rooftop, the Phantom once again expresses his love for Christine and forces his ring onto her finger. Christine rips off his mask, showing his horrifically deformed face to the shocked audience. Exposed, the Phantom hurriedly drags Christine off the stage and back to his lair. Piangi's garroted body is revealed backstage and the opera house plunges into chaos. An angry mob, vowing vengeance for the murders of Buquet and Piangi, search for the Phantom. Madame Giry tells Raoul how to find the Phantom's subterranean lair and warns him to beware the magical lasso. ("Down Once More/Track Down This Murderer").

Down in the lair, the Phantom has compelled Christine to don a wedding dress. In a moment of epiphany, she explains that she is not fearful of his physical appearance, but rather his inner nature. Raoul reaches the lair and attempts to persuade the Phantom to spare Christine and begs him for compassion. The Phantom retorts that the world had never shown him any and ensnares Raoul in the Punjab lasso. The Phantom offers Christine an ultimatum: if she will stay with him, he will spare Raoul, but if she refuses, Raoul will die ("The Point of No Return Reprise"). As the Phantom and Raoul both vie for Christine, she sadly asks the Phantom what life he has been forced to live. Finally, she tells the Phantom that he is not alone and kisses him, showing him compassion for the first time in his life.

Having experienced kindness at last, the Phantom realizes that he cannot win Christine by force and sets them both free. Raoul hurries Christine out of the lair, but she returns alone to give the Phantom back his ring. The Phantom once again pledges his love to her as she tearfully exits the lair to rejoin Raoul. As the angry search mob closes in, the devastated Phantom huddles on his throne beneath his cloak. Meg is first to reach the lair and finds no one there. She approaches the throne with curiosity and quickly pulls away the Phantom's cloak, but finds only his mask. She lifts the mask up into the light and gazes at it in wonder as the curtain falls ("Finale").

---

We watched and we saw that the Phantom of the Opera wore a mask because 35% of his face was horribly scarred and disfigured.

Me: Geez! I'll never forget seeing that.

Nico: Me neither.

Lana: What happened to him?

Me: He got horribly scarred and disfigured because he was burned in a fire. He wore that mask ever since.

Laney: I'll never forget seeing that.

Lisa: Indeed. But this is one of the most sensational performances of the world.

Sakura: It sure is Lisa.

Fu: I love operas like this. It's so exquisite.

Me: You sound just like Ultra-Humanite, Fu.

Fu: He got me into it. It's so serene and tranquil.

We heard their song on the movie and it was awesome. But in the end we heard the bloodcurdling scream and it sent shivers of fear down our spines.

Me: That is so terrifying.

Nico was looking through his books and he picked the Phantom of The Auditorium.

Nico: Next on our hit list is the Phantom of the Auditorium.

Me: I remember that one Nico.

Lori: What is the Phantom of the Auditorium?

Me: It's about a ghost that haunts an auditorium at a school in Idaho.

Naruto: I would normally be scared, but I got over my fear of ghosts.

Sakura: That's great Naruto.

Fu: Who is this ghost?

Me: Believe it or not guys, he's really a child actor that first got the lead role as the Phantom in that version of the Phantom of The Opera. This was back in the 1920's. The Phantom's name is Brian Colson and he vanished over 90 years ago.

Livewire: How did that happen?

Me: We don't have any idea Leslie.

Volcana: We got to get over there and find out.

Me: You're right Claire. Team Loud Phoenix Storm…

Jaime: And Team Loud Fairywind…

Me and Jaime: LETS FLY!

We set out for Boise, Idaho.

---

Boise, Idaho.

---

We arrived in Boise, Idaho.

Me: Boise, Idaho. The Potato Capital of the world.

Luan: It's something to get Starched up about. (Laughs) Get it?

We laughed at Luan's joke.

Me: (Laughs) Good one Luan!

Eddy: (Laughs) That was a good one.

We went to the Boise school where the play was being held.

We walked into the school. There we met Brooke Rogers.

Brooke: Team Loud Phoenix Storm. Welcome to our school.

Me: Thanks Brooke. It's a pleasure to meet you.

Brooke: Same here.

Me: We came here to face your little ghost problem.

Brooke: Yeah there have been hauntings. I think it's the real phantom of the Auditorium. Let me show you where it's at.

Me: Okay.

We went to the school auditorium.

Maria: This auditorium is really nice.

Brooke: Thanks.

Me: It sure is a nice place.

Eddy: This brings back memories.

Luan: It sure does. We did Romeo and Juliet and it was amazing.

Eddy: It was our first play together.

Me: That was an outstanding performance.

Nico: You guys told me about that and that was so awesome!

Me: It sure was Nico. You would've loved it and cried at the same time.

Lori: It literally was a spectacular performance.

Max Cooper: Personally, I think you look cute with those glasses on, Brooke.

Brooke: Thanks Max.

Me: We have to be ready for it. The play is being held tonight and we won't let this phantom ruin it.

Suddenly Danny and Lincoln had a Ghost Sense.

Lincoln: There's a ghost near.

We saw the lights go out and out came THE PHANTOM OF THE AUDITORIUM!

Me: The Phantom.

Danny: Ready Lincoln?

Lincoln: Ready Danny.

Danny and Lincoln: We're going Ghost!

Danny and Lincoln turned into Danny Phantom and Lincoln Phantom.

Me: Lets get him!

I punched the Phantom in the face and his mask flew off and his face was horribly scarred and disfigured just like the Phantom of The Opera. He had burns over 60% of his face.

Me: Whoa!

Lincoln: Whoa. He really needs a plastic surgeon.

Danny: Took the words right out of my mouth Lincoln.

Eddy (to the Phantom): You know, if you can talk, feel free to do so.

The phantom roared.

Brooke: I want to help out too.

Me: Okay Brooke.

Raythor was sitting in the seats and it was gonna be an awesome fight!

Raythor: Is there any popcorn at this school?

Lana got him some.

Suddenly we got an amazing surprise. The spirits of Christine Dae and Erik the Phantom from the Phantom of The Opera appeared.

Laney: Wow! Christine Dae and Erik the Phantom!

Christine: (British Accent) It's an honor to meet you Laney Loud.

Erik: We've seen your achievements from Heaven and they were amazing.

Laney: We don't like to brag.

Christine: We would like to sing for you while you all fight this Phantom imposter.

Laney: Cool! It would be a great honor.

Christine: Okay.

The song played and the organ being heard was awesome.

Christine & Erik: (Singing divinely)

In sleep he sang to me

In dreams he came

That voice which calls to me

And speaks my name

And do I dream again?

For now I find

The phantom of the opera is there

Inside my mind

Sing once again with me

Our strange duet

My power over you

Grows stronger yet

And though you turn from me

To glance behind

The phantom of the opera is here

Inside your mind

Those who have seen your face

Draw back in fear

I am the mask you wear

It's me they hear

My spirit and my voice

In one combined

The phantom of the opera is there

Inside my mind

In all your fantasies you always knew

That man and mystery were both in you

And in this labyrinth

Where night is blind

The phantom of the opera is here

Inside my mind

He's there

The phantom of the opera

As the song played the fight raged on with the Phantom of the Auditorium and it was a rough one. Nico punched him in the face and I punched him in the stomach and kicked him in the stomach. Brooke punched and kicked him in the crotch and stomach and kicked him in the face and Lincoln fired a powerful blast of lightning and ecto-energy and burned him and Danny punched him in the face and let out a powerful sonic ghost wail and blew him into the wall. The Phantom of the Auditorium got up and went at us and I dodged one of his punches and kicked him in the face and Max Cooper punched him and slashed him with his claws.

Max Cooper: The Shark bit ya.

Lola fired a massive blast of fire and burned him all over and his cape was torched.

Lola: You burn me up!

Lana kicked him in the chest and fired a powerful blast of ice lightning and froze him and she shattered it into a million pieces.

Lana: You are about to get chilly.

But he reformed and Lucy and Maggie fired powerful blasts of black fire and black lightning and they hit him and he screamed.

Lucy: Fear and darkness consume.

Lincoln and Linka fired powerful blasts of lightning and it was a fierce electrocution.

Linka: Ghosts Shock me!

Lincoln: Me too!

Everyone in the school came and they were absolutely amazed and floored about what they were seeing! Team Loud Phoenix Storm and Brooke and Zeke were fighting the Phantom of The Auditorium and it was an awesome fight! Everyone couldn't believe that the Phantom of The Auditorium was REALLY Real!

G1 Smokescreen: No mercy!

Naruto: Believe it!

We did our combos and G1 Smokescreen used the Earth Cyber Planet Key to enhance his electro-disruptor rifle and Naruto used the Animatron Cyber Planet Key and it enhanced his Six Paths Sage Mode 100-fold. They used a powerful combo called LIGHTNING SOLAR SYSTEM RASENGAN. Smokescreen fired his electro-disruptor rifle and Naruto formed a powerful Planetary Rasengan with 9 mini-Rasengan orbs of chakra infused with the elemental powers of the 9 tailed beasts and the lightning enveloped them and turned it into a deadly solar system of power. Naruto slammed it into the Phantom and it exploded with incredible power. I contained the explosion in a powerful force field. Naruto got out of the force field after the smoke cleared and G1 Wildrider used the Earth Cyber Planet Key and it enhanced his Scattershot laser gun 100-fold and Sandpit used the Earth Cyber Planet Key to enhance his sand powers 100-fold. They used a powerful combo called LASERSHOT SANDSTORM. Wildrider fired a massive scattershot blast of lasers and Sandpit made a massive wall of sand and the blasts hit the phantom of the auditorium all over as the sand covered them.

Sandpit roared.

G1 Wildrider: That's blowing them away!

Lucy: You will experience what true fear is like!

We did our Final Smashes and Lucy used her Final Smash called NIGHT LIGHTNING FEARSTRIKE and it was where she fired a massive blast of black lightning and it turned into the most terrifying monsters and demons ever imagined and they hit the Phantom and electrocuted and exploded. Danny Phantom used his Final Smash called GHOSTSTORM DEATH CYCLONE and it was where he releases a massive Ghost Wail that turns into a massive tornado and ghosts appear around it as it spins the target and the ghosts explode.

Danny: You are not a true ghost!

Brooke used her first ever final smash called FIRESTORM SPIRIT STRIKE and it was where she fires a massive blast of fire and it turns into a massive swarm of ghosts made of pure fire and they hit the target and explode in a kamikaze formation. Danny sucked in the Phantom of the Auditorium into the Fenton Thermos and the song ended.

Brooke: Never come back again Phantom!

Danny: Show's over Phantom.

Danny and Lincoln reverted back and everyone in the auditorium cheered wildly for us.

Me: Thank you! Thank you all! Christine, Erik, it was so awesome having you here with us during the battle. Thank you.

Christine: It was our pleasure J.D. You guys are everything we've seen.

Erik: It's true. You all keep bringing those bad guys to justice.

Me: With pleasure Erik.

Erik and Christine went back to Heaven.

Brooke: J.D. that was so awesome! I didn't know I had the power to do a Final Smash.

Me: It was your first one ever. Everyone has the power to do a final smash Brooke. You just have to reach deep down and find that kind of power.

Ms. Walker came up to us.

Ms. Walker: J.D. you all were amazing!

Me: Thank you Ms. Walker. I'm sorry about all the damage done to the auditorium.

Ms. Walker: No worries. But thank you so much and Brooke we were wrong about not believing you when you told us that the Phantom was haunting the auditorium.

Brooke: It's all right Ms. Walker.

Danny: (To the Viewers) Ghosts everywhere, watch out. If you mess with Team Loud Phoenix Storm, we're coming for you.

We stayed to watch the whole play of The Phantom and it was a magnificent performance. Nico caught a Riolu and a Hippowdown when we got back.

THE END

---

Another Fanfiction Complete.

The Phantom of the Auditorium in the Goosebumps Books reminded me of the Phantom of The Opera and that is one of my favorite plays by Andrew Lloyd Webber and favorite songs by Sarah Brightman and they were awesome! Every time I would hear the ending of the song I would always get shivers of fear down my spine. But we made another Goosebumps monster bite the dust. NicoChan11 gave me the ideas for this one. Let me know what you all think.

See you all next time.

Songs and movies belong to their rightful owners.

# 4 Psychological Elemental Forces

It starts in the living room at the estate. Everyone was watching TV, playing card games and reading books.

Carly Beth, Evans, Sheena, Brooke and Sabrina were looking at all of Nico's Goosebumps books.

Evans: I can't believe Monster Blood has 4 books written about it.

Nico: This is how we've been able to track the whereabouts of it and its fellow monsters.

Sabrina: We've been going after the Goosebumps monsters one by one.

Energon Scorponok: I think we should go after the Horrorland theme park as the next Goosebumps target.

Nico: I have that one saved for the last Goosebumps book we destroy.

Brooke: I think the next target should be this one.

Brooke pointed to book for The Werewolf of Fever Swamp.

Nico: The Werewolf of Fever Swamp?

Sabrina: That one really terrifies me.

Nico: Okay that will be next on our hit list. The Werewolf of Fever Swamp will be struck with a silver bullet. But the next Full Moon is on July 16th. We'll face him on that date.

Sheena: Sounds like a plan.

Brooke: What monsters have we killed so far?

Nico: We killed Slappy the evil dummy. Dr. Strange killed him before we could and sealed him into the Dark Dimension.

Nico showed them the book trilogy for Night of The Living Dummy.

Nico: Next we killed the Haunted Mask. Carly Beth knows this one.

Carly Beth: That was the monster that nearly destroyed my life and others.

Sabrina: Same here. That mask was pure evil.

Nico: But the true monsters were Chuck Greene and Steve Boswell. Next we went after Dr. DuBrow in Deep Trouble.

Nico showed them the book for Deep Trouble.

Sheena: That was the story I'm from.

Nico: Yep. And technically Dr. DuBrow wasn't a monster. He was more of a crazy lunatic.

Sheena: True.

Nico: Yep. Then we faced the Monster Blood. That was the grossest one ever.

Evans: It sure was. But that Sarabeth woman was a monster.

Nico: Yep. And here's our recent kill: The Phantom of The Auditorium.

Nico held up the book for Phantom of The Auditorium.

Brooke: That's the one we did.

Nico: Yep.

I was reading a book on Psychology. Laney was letting me borrow it.

Edd came and he saw me reading it.

Edd: I didn't know you were into Psychology J.D.

Me: Oh thanks Double D. I'm actually reading about it because something was bothering me. I've been replaying our fight with

Patience St. Pim in my head and the corrupted version of the Land of Ooo that we prevented. But I did watch the show Adventure Time and saw a strange similarity to what I found out. I found out in this book that the Corrupted Land of Ooo shares the traits of one of each of the 4 temperaments: Choleric, Phlegmatic, Melancholic and Sanguine.

Most individuals tend to have aspects of their personality which identify with each of the four temperaments. However, there are usually two primary temperaments that are displayed at a significantly higher level. An individual could be any combination of the following four types.

Sanguine personality type is described primarily as being highly talkative, enthusiastic, active, and social. Sanguines tend to be more extroverted and enjoy being part of a crowd; they find that being social, outgoing, and charismatic is easy to accomplish. Individuals with this personality have a hard time doing nothing and engage in more risk seeking behavior.

Choleric individuals tend to be more extroverted. They are described as independent, decisive, and goal-oriented, and ambitious. These combined with their dominant, result-oriented outlook make them natural leaders. In Greek, Medieval and Renaissance thought, they were also violent, vengeful, and short-tempered.

Melancholic individuals tend to be analytical and detail-oriented, and they are deep thinkers and feelers. They are introverted and try to avoid being singled out in a crowd. A melancholic personality leads to self-reliant individuals who are thoughtful, reserved, and often anxious. They often strive for perfection within themselves and their surroundings, which leads to tidy and detail oriented behavior.

Phlegmatic individuals tend to be relaxed, peaceful, quiet, and easy-going. They are sympathetic and care about others, yet they try to hide their emotions. Phlegmatic individuals also are good at generalizing ideas or problems to the world and making compromises.

Lincoln: That is a strange set of information.

Lola: What does Choleric mean?

Me: That is for people that express dominance, rage, violence and are vengeful and are totally short-tempered.

Lola: That is hardcore. What element does that entail?

Me: Fire.

Lana: What about Melancholic?

Me: That one is where you're sad, depressed and very down all the time.

Lana: That is sad. What is that elemental force?

Me: Earth. Phlegmatic is where you're feeling peaceful and don't have a care in the world and you're easy going and sympathetic. They represent the elemental force of Water.

Lucy: What about Sanguine?

Me: That one represents Air and that's where you're happy, enthusiastic, optimistic and full of energy.

Lola: Boy that is very complicated for me.

Lisa: I find it to be very interesting and very inspirational.

Laney: Me too. But I just can't believe that Patience St. Pim was gonna turn the entire Land of Ooo into a Proto-Psychological nightmare.

Me: By all estimates, she was 25,000% fucked up. Worse than Mr. Crackass. Shall we head to the Simulator and see for ourselves?

Lori: Lets do it!

We went to the Simulator.

---

We went into the Simulator and for our exercise we're going to see what it was like during the time the Land of Ooo was corrupted because of Patience St. Pim. The Simulator activated and we found ourselves in the Corrupted Land of Ooo and what we saw was mondo unusual.

---

## SANGUINE - CANDY

---

We saw that the land was totally transmogrified into Candy. We saw everything turned into a sweet tooth paradise! It was enough to give the entire world diabetes 100,000-fold.

Me: Whoa! Look at all this candy!

Lana: There's enough to give anyone cavities.

Lisa: Indeed.

Laney: Look at all this candy. I can't believe this happened here.

Crash Man: I can't believe that this Patience St. Pim did this to this world. It's hard to imagine she has this kind of power.

Me: From what I remember Crash Man she used the power of some kind of mind control magic to force Princess Bubblegum, Flame Princess and Slime Princess to do this to the Land of Ooo against their wills.

Flame Princess: I remember that. That was awful.

Lola: I'm sorry that happened to you Phoebe.

Sam S.L.: But we will find Patience and make her pay for her crimes.

Suzi: I promise that will happen.

We walked on and we saw a massive pink bubblegum tower that went 10,000 feet up into the air.

Me: Wow! Look at the size of that Bubblegum Tower.

Princess Bubblegum: So this is the happy tower I was turned into.

Finn: You were turned into an amazing and happy tower Pebo.

Me: Well lets take a look.

We flew up to the top of the tower and we saw Princess Bubblegum's face.

Elements Princess Bubblegum: Hello dear friends.

Me: Princess Bubblegum?

First Aid: These corrupted Princesses are like the Twisted Princesses.

Reflector: Hopefully, they won't look like zombies.

Flamebird: At least these corrupted Princesses are being controlled by a single source.

Maria: Ok. If we defeat Patience, the princesses should go back to normal.

Me: I have a better idea.

I flew up to Elements Princess Bubblegum and put my hand on her head and she was enveloped in a powerful white light and she was back to normal.

Princess Bubblegum 2: What happened?

Me: You were turned into this massive bubblegum tower because of Patience St. Pim.

Princess Bubblegum 2: I remember now! That woman is a menace and we have to stop her.

Me: And we will. Team Loud Phoenix Storm will see to that.

I used my magic and merged Princess Bubblegum 2 with her counterpart and Princess Bubblegum got wings made entirely of pure candy and bubblegum.

She saw her wings.

Princess Bubblegum: What the nuts!? I can fly now!

Me: You sure can. We have one down and 2 to go before we face Patience St. Pim.

We pressed on.

## CHOLERIC - FIRE

We arrived in the second part of the corrupted Ooo and what we saw was absolutely horrifying. We saw the fire section and it was a black landscape that was really melted, gnarled and surging with intense fire and it was radiating with intense heat and there was blue fire erupting out of every crack, mountain and landmass and the temperature was over 750,000˚ Fahrenheit.

Me: Geez! Look at this place.

We stepped onto the land and then we felt all our auras flare up with a massively incredible intensity unlike anything we've ever felt before and it was so unbelievably powerful that it made all the other villains hatred toward us feel like small mice in comparison! Our power was rising so incredibly fast that it was incredible! The ground was shaking extremely violently and lightning struck everywhere. When it was finished 1 hour later we were now far more powerful than ever before and our power was enhanced 100 sextillion-fold.

Me: (Gasp) Whoa! Holy mackerel!

Nico: Unbelievable! That was the biggest power up ever!

Me: This place is overflowing with incredible levels of negative energy and it is so strong that it defies all form of logic!

Lola: It's far more powerful than that of any villain that has hated us.

Lynn: Or any villain we've defeated.

Me: No kidding.

Laney: I've never felt this level of power.

Syd: This is unbelievable!

Ronnie Anne: It sure is.

Flame Princess: This is unbelievable. I've never felt this kind of power before.

Lana: What happened here?

Me: This place represents the emotion Choleric.

Laney: This place is like looking at the physical manifestation of the heart of an evil monster!

Lucy: That is almost exactly what it feels like.

Me: I know. This place makes Hell seem like a walk in the park.

Finn: It's amazing that you all can walk in here without Flame Shields.

Me: Our power protects us from anything.

We walked on and we saw that the whole land was changed into a fiery rage hole. We then saw Lady Rainicorn come out and she was pure fire.

Lady Flamicorn: (Speaking Korean) 내 분노는 찜질방보다 더 뜨겁다! (My rage is hotter than a sauna)

Lola: She's speaking Korean.

Carol: That's one of the hardest languages in the world. Let me help her.

Carol flew up to her.

Carol: (Speaking Korean) 아가씨, 괜찮아요. 우리는 당신을 아무런 해가 없다는 뜻입니다. 우리는 단지 당신을 도우려고했던 부패를 들어주고 싶습니다. (Lady, it's all right. We mean you no harm. We just want to help you and lift the corruption that has taken you over.)

Lady Flamicorn: 내 분노가 내게 가까이 오면 일조 만조의 힘으로 너를 죽일거야! (My rage will kill you with the force of a trillion suns if you come near me!)

Carol: 레이디 제발! 너를 도울 수있어. Jake와 가족에 대해 생각해보십시오! 당신은 진정하고 우리가 당신을 도울 수있어! (Lady please! I can help you. Think about Jake and your family! You've got to calm down and let us help you!)

Lady Flamicorn calmed down and she knew Carol was right and Carol placed her hand on her head and Lady Rainicorn was reverted back to normal.

Lady fainted and Jake caught her.

Me: She'll be all right.

Vince: I didn't know you can speak Korean, Carol.

Carol: I'm multi-lingual.

Then we went down below the surface and the negative energy was stronger and it enhanced our power more and we saw Flame Princess as a blue fire dragon!

Me: Flame Princess!

First Aid: These corrupted Princesses are like the Twisted Princesses.

Reflector: Hopefully, they won't look like zombies.

Me: No that's not possible Reflector. You already said that guys.

Reflector: Oops.

Brock: I'm so shocked at these corrupted princesses that I'm not even being swooned by them right now.

Me: And you already have a girlfriend Brock.

Brock: Yeah.

I went over to her and placed my hand on her and cured her and merged her with her counterpart.

We got back to the surface.

Then we saw a little warrior armed with a blue fire sword and powerful armor and I took his blue fire sword. It reacted with my power and the blade of fire turned into a deadly blue fire blade fire.

Me: Wow! This'll come in handy.

We pressed on and went to the next part.

## PHLEGMATIC - SLIME

Next we were in the Slime land and we saw everything covered in slime and mucus. It was a gross land and it looked like we were walking through the inside of someones nose covered in grotesque slime and grossness.

Me: Ugh! This is disgusting!

Lola: No kidding! I'm gonna be sick! It's so gross here!

Lana: I'll say!

Lana rolled around in some of the slime and she was covered head to toe.

Princess Bubblegum: What is Slime Princess doing here?

Me: No clue.

We went to the main building. The door opened.

Slime: Shoe Size?

Me: I'm a size 13. I got big feet.

We went in and we were handed roller-skates.

Me: Roller-skates?

I put them on and they fit me and we went onto a roller-derby rink.

Me: Slime Princess likes to Roller Skate? Nice!

Lynn: I love this kind of place! Yee-haw!

Lynn did all kinds of awesome tricks and so did most of us.

Nico: This is awesome!

Me: Gnarly dudes!

We saw a bloated and huge Slime Princess and I rolled up to her and put my hand on her head and it cured her.

Slime Princess: (Groans) What happened?

We explained the whole thing and we set out for the final land.

## MELANCHOLIC - ICE

We were in the Ice section and it was overflowing with sadness.

Me: So this is the Melancholic section. This place is overflowing with sadness. Poor things.

Laney: I know. But lets thaw out that evil witch!

Me: And we won't have to look far. Lets blow this place to water.

I released a massive blast of fire and it blew apart the whole land and exposed it to the sun!

Out of the temple came PATIENCE ST. PIM herself!

Patience St. Pim was the current reincarnation of the ice elemental, and had visions of the coming of the Lich. Patience sailed into the ocean and covered herself in an ice sphere.

Patience was discovered by Finn and Jake in Ice King's castle. When she was released she was overjoyed at her increased elemental powers. Patience then froze Finn and Jake and made Ice King fetch her the other elementals so Ice King kidnaps Princess Bubblegum, Slime Princess, and Flame Princess and brings them to her. Patience shows them their potential as elementals, and attempts to make them unite, but the Princesses make her lose her balance and she crashes into her boat. The Princesses escape whilst Slime Princess shoots slime at Patience, sticking her to the wall. Patience makes Ice King scrape all the slime off her and she tells him that she will make people know of her presence in Ooo.

Patience sends a drawing of a circle to remember a past candy element (Chatsberry). It is revealed Patience mastermind the invasion which attacked the Candy Kingdom and caused Princess Bubblegum to unlock her true elemental power to defend the kingdom. Patience is seen operating and whistling ominously as she stares at a map containing information on all the princess. She kisses the tip of a paper plane and launches it into a picture of Bubblegum.

Patience plays a crucial part in the elements mini-series. In a flashback Patience captures Betty Grof and uses her powers which she stole from Magic Man as an power source for the elementals. However, instead of embracing the their powers they become overwhelmed by their powers. Causing all of Ooo to be split into four separate areas representing the four elements.

When Finn, Jake, and Ice Kinh go to the Ice Kingdom to confront her Patience appears as her pure elemental self and feels great sorrow for her actions. Later, when Princess Bubblegum starts to turn all of Ooo into candy Patience decides to freeze herself in another ice time capsule, not wanting see the consequence and hoping things will be better in the future. It is unknown what happened to her after Lumpy Space Princess fixed Ooo. She either had been fixed or is still in her time capsule.

Patience: So Team Loud Phoenix Storm has come.

Me: And we're here to kill you! Lets get her!

We went at Patience and I kicked her in the face and Finn slashed her in the chest with his sword.

Finn: Not even Ice King was this bad on his worse days!

Finn kicked her in the face and Nico punched her in the mouth and knocked out some of her teeth.

Baymax: The most efficient medical procedure to perform at this time will be shock therapy. My programming normally prevents me from harming human beings, but I sense that you are not human at all. (Electricity promptly began to course through his armored fist) On a scale of one to ten, how much would you rate the pain you are likely to experience?

Baymax fired his electrically charged Armored Fist and it hit her and slammed into her with devastating force.

Nico: Patience St. Pim, you have failed this Kingdom! (fires Vexen's ice blast at her)

It hit her and exploded.

We overpowered her with numerous blasts of elemental firepower and we were hitting her all over the place.

May flew up to her and slammed her fist into her face.

May: It's gonna be a cold day in hell for you, bitch!

May kicked her in the face and stomach and she threw her into a flaming pile of sticks.

Me: Lets finish her off guys! Combo and final smash time!

Energon Scorponok: You got it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his energy sting 100-fold.

Reflector: Lets go. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his flash explosion blasters.

Energon Scorponok and Reflector: LIGHT STING DEATH BOMB!

Energon Scorponok fired a powerful energy beam from his tail and Reflector fired a powerful light bomb and the blasts combined and they hit Patience and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

First Aid: Lets get her. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Decrystalizer Cannon.

Brock: Croagunk go!

Brock sent out his Croagunk.

Brock: Lets get her. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet key went into Brock's device and enhanced his Croagunk's abilities 100-fold.

Brock: POISON STING!

First Aid and Brock: STINGER NEEDLE LASERSTORM!

Croagunk fired a massive barrage of laser needles and First Aid fired his cannon and the blasts combined and hit her and they exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Now to finish her once and for all!

Princess Bubblegum: Lets get this witch! JELLYBEAN TSUNAMI SLAM!

Princess Bubblegum fired a massive tsunami of jellybeans from her hand and it slammed into Patience with incredible force.

Lola: My turn! FIRESTORM BURN TORNADO!

Lola fired a massive blast of fire and it spun around into a massive tornado and it spun Patience around and burned her.

Finn: Let me at her! GRASS SWORD SLASHSTORM!

Finn got his Grass Sword ready and slashed Patience all over the place at an accelerated rate.

Flame Princess: Time to finish her for good. FIRESTORM TORNADO MASSACRE!

Flame Princess fired a massive blast of fire and it turned into a huge number of fire tornadoes and it burned her all over the place.

Finn: F.P., lets finish this witch with a Combo Final Smash!

Flame Princess: Lets do it Finn!

Finn ran at Patience and Flame Princess spread her wings and flew at her.

Finn and Flame Princess: FIRE SWORD EXPLOSION SLASH!

Flame Princess formed a sword of pure fire and they both slashed Patience St. Pim and cleaved her in half right down the middle and she exploded in a massive fiery explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The magic Patience did was undone and everyone was back to normal and now uncorrupted.

Nico: Go to hell Patience!

Patience St. Pim's spirit arrived.

Nicole: And you will never torment anyone ever again Patience! (Chant an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Patience St. Pim's evil spirit went into the Book of Vile Darkness. Now we had two Patience St. Pim's with different fates: 1 was killed by us and the other was sealed into the Book of Vile Darkness.

Finn: (To the viewers) You mess with the laws of nature and the Lands of Ooo, Me and Team Loud Phoenix Storm will destroy you all!

Me: You said it Finn.

We left the Simulator and we rested. Nico caught a Drapion and a Craogunk of his own. We had an amazing and educational experience.

Nico: You know what, guys? Let's go after the Horrors in Horrorland next on our Goosebumps hit list. After all, we don't actually know how many monsters are out there.

Me: Good point Nico. Horrorland it is then. Then we'll deal with other monsters before July 16th.

We got a good rest.

THE END

---

Another Fanfiction Complete

This chapter is based on the Adventure Time Miniseries: Elements and that was the freakiest episode I've ever seen. But as I watched it quickly became more fascinating. I did some research on what it was based on and I found out that it was based on the 4 Personality Temperaments from Proto-Psychology. They were made when Psychology was still in it's infancy. But it was so awesome! NicoChan11 gave me the ideas for this chapter. Thanks man as usual. Let me know what you all think.

See you all next time.

# Invaders on The 4th of July

HAPPY INDEPENDENCE DAY 2019 EVERYONE!

---

It starts at the estate. Everyone was getting ready for the 4th of July. The house was decorated in decorations of red, white and blue and we had food for our barbecue ready. And we also had fireworks ready for tonight.

Meanwhile me, Nick F., Lincoln, Earth, Joey and Laney were over in our nations capital Washington D.C. We were over at the National Archives looking at the document that cemented our country's freedom: The Declaration of Independence. This was one of the most important documents in our countries history.

In CONGRESS, July 4, 1776.

The unanimous Declaration of the thirteen united States of America,

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.

That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.

Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their Public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness of his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil Power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefit of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation, and tyranny, already begun with circumstances of Cruelty & Perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these united Colonies are, and of Right ought to be Free and Independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. And for the support of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

New Hampshire: Josiah Bartlett, William Whipple, Matthew Thornton

Massachusetts: Samuel Adams, John Adams, John Hancock, Robert Treat Paine, Elbridge Gerry

Rhode Island: Stephen Hopkins, William Ellery

Connecticut: Roger Sherman, Samuel Huntington, William Williams, Oliver Wolcott

Hopkinson, John Hart, Abraham Clark

Pennsylvania: Robert Morris, Benjamin Rush, Benjamin Franklin, John Morton, George Clymer, James Smith, George Taylor, James Wilson, George Ross

Delaware: George Read, Caesar Rodney, Thomas McKean

Maryland: Samuel Chase, William Paca, Thomas Stone, Charles Carroll of Carrollton

Virginia: George Wythe, Richard Henry Lee, Thomas Jefferson, Benjamin Harrison, Thomas Nelson Jr., Francis Lightfoot Lee, Carter Braxton

North Carolina: William Hooper, Joseph Hewes, John Penn

South Carolina: Edward Rutledge, Thomas Heyward Jr., Thomas Lynch Jr., Arthur Middleton

Georgia: Button Gwinnett, Lyman Hall, George Walton

Nick F.: Wow. So this is the Declaration of Independence.

Me: Yep this is the very document that cemented our country's freedom, 243 years ago today. (To the viewers) Oh hey there. You're probably wondering why we're in the National Archives here in Washington D.C. Well today is a very important part of our country's history. Today is July 4th, 2019 A.K.A. Independence Day. This is the day we celebrate the anniversary of declaring our freedom. It was back on July 4th, 1776 that we established our independence from England and made ourselves a free country. 243 years ago today we made this very document that cemented our freedom.

Lincoln: Yep.

Laney: This is so awesome. I can't believe I'm seeing the Declaration of Independence for the first time.

Nick F.: Me too Laney.

Joey: (British Accent) I'm actually from England and I love my native land but I can't believe my people were like that all those years ago.

Me: I know Joey. But it was thanks to the help of the French that we were able to win the American Revolutionary war. The French hated England for their humiliating defeat during an event called the Seven Years war back in the 1750's.

Nick F.: I didn't know that.

Me: Yeah. With the help of the French, we made sure that England could never take us back and we won the Revolution. This was a decisive factor during the Revolutionary War. During the Siege of Yorktown in 1781, The French Navy formed a powerful blockade of ships that prevented the British from getting in or out and because of that, the British commanded by General Charles Cornwallis surrendered and it was that battle that ended the war.

Laney: That's right.

Joey: And do you know why the war was started in the first place?

Me: King George III was going to make sure we didn't get independence and he wanted to continue ruling us. Also he did a horrible thing called Taxation Without Representation and it's not fair. It was the Boston Tea Party back in 1773 that sparked the Revolutionary War, which lasted from April 19, 1775 to May 12th, 1784.

Joey: So not even ten years it lasted.

Me: 9 years and 23 days. Let me show you all another important document of our countries history.

We went into another room and we saw the United States Constitution.

Me: This is another important document. This is the United State Constitution. It's the document that instates the laws of our country. It was created back on September 17th, 1787.

Preamble

## "We the People" in an original edition

The preamble to the Constitution serves as an introductory statement of the document's fundamental purposes and guiding principles. It neither assigns powers to the federal government, nor does it place specific limitations on government action. Rather, it sets out the origin, scope and purpose of the Constitution. Its origin and authority is in "We, the people of the United States". This echoes the Declaration of Independence. "One people" dissolved their connection with another, and assumed among the powers of the earth, a sovereign nation-state. The scope of the Constitution is twofold. First, "to form a more perfect Union" than had previously existed in the "perpetual Union" of the Articles of Confederation. Second, to "secure the blessings of liberty", which were to be enjoyed by not only the first generation, but for all who came after, "our posterity".

## Article One

Article One describes the Congress, the legislative branch of the federal government. Section 1, reads, "All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives." The article establishes the manner of election and the qualifications of members of each body. Representatives must be at least 25 years old, be a citizen of the United States for seven years, and live in the state they represent. Senators must be at least 30 years old, be a citizen for nine years, and live in the state they represent.

Article I, Section 8 enumerates the powers delegated to the legislature. Financially, Congress has the power to tax, borrow, pay debt and provide for the common defense and the general welfare; to regulate commerce, bankruptcies, and coin money. To regulate internal affairs, it has the power to regulate and govern military forces and militias, suppress insurrections and repel invasions. It is to provide for naturalization, standards of weights and measures, post offices and roads, and patents; to directly govern the federal district and cessions of land by the states for forts and arsenals. Internationally, Congress has the power to define and punish piracies and offenses against the Law of Nations, to declare war and make rules of war. The final Necessary and Proper Clause, also known as the Elastic Clause, expressly confers incidental powers upon Congress without the Articles' requirement for express delegation for each and every power. Article I, Section 9 lists eight specific limits on congressional power.

The Supreme Court has sometimes broadly interpreted the Commerce Clause and the Necessary and Proper Clause in Article One to allow Congress to enact legislation that is neither expressly allowed by the enumerated powers nor expressly denied in the limitations on Congress. In McCulloch v. Maryland (1819), the Supreme Court read the Necessary and Proper Clause to permit the federal government to take action that would "enable [it] to perform the high duties assigned to it [by the Constitution] in the manner most beneficial to the people", even if that action is not itself within the enumerated powers. Chief Justice Marshall clarified: "Let the end be legitimate, let it be within the scope of the Constitution, and all means which are appropriate, which are plainly adapted to that end, which are not prohibited, but consist with the letter and spirit of the Constitution, are Constitutional."

## Article Two

Article Two describes the office, qualifications, and duties of the President of the United States and the Vice President. The President is head of the executive branch of the federal government, as well as the nation's head of state and head of government.

Article two is modified by the 12th Amendment which tacitly acknowledges political parties, and the 25th Amendment relating to office succession. The president is to receive only one compensation from the federal government. The inaugural oath is specified to preserve, protect and defend the Constitution.

The president is the Commander in Chief of the United States Armed Forces and state militias when they are mobilized. He or she makes treaties with the advice and consent of a two-thirds quorum of the Senate. To administer the federal government, the president commissions all the offices of the federal government as Congress directs; he or she may require the opinions of its principal officers and make "recess appointments" for vacancies that may happen during the recess of the Senate. The president is to see that the laws are faithfully executed, though he or she may grant reprieves and pardons except regarding Congressional impeachment of himself or other federal officers. The president reports to Congress on the State of the Union, and by the Recommendation Clause, recommends "necessary and expedient" national measures. The president may convene and adjourn Congress under special circumstances.

Section 4 provides for removal of the president and other federal officers. The president is removed on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

## Article Three

Article Three describes the court system (the judicial branch), including the Supreme Court. There shall be one court called the Supreme Court. The article describes the kinds of cases the court takes as original jurisdiction. Congress can create lower courts and an appeals process. Congress enacts law defining crimes and providing for punishment. Article Three also protects the right to trial by jury in all criminal cases, and defines the crime of treason.

Section 1 vests the judicial power of the United States in federal courts, and with it, the authority to interpret and apply the law to a particular case. Also included is the power to punish, sentence, and direct future action to resolve conflicts. The Constitution outlines the U.S. judicial system. In the Judiciary Act of 1789, Congress began to fill in details. Currently, Title 28 of the U.S. Code describes judicial powers and administration.

As of the First Congress, the Supreme Court justices rode circuit to sit as panels to hear appeals from the district courts.[b] In 1891, Congress enacted a new system. District courts would have original jurisdiction. Intermediate appellate courts (circuit courts) with exclusive jurisdiction heard regional appeals before consideration by the Supreme Court. The Supreme Court holds discretionary jurisdiction, meaning that it does not have to hear every case that is brought to it.

To enforce judicial decisions, the Constitution grants federal courts both criminal contempt and civil contempt powers. The court's summary punishment for contempt immediately overrides all other punishments applicable to the subject party. Other implied powers include injunctive relief and the habeas corpus remedy. The Court may imprison for contumacy, bad-faith litigation, and failure to obey a writ of mandamus. Judicial power includes that granted by Acts of Congress for rules of law and punishment. Judicial power also extends to areas not covered by statute. Generally, federal courts cannot interrupt state court proceedings.

Clause 1 of Section 2 authorizes the federal courts to hear actual cases and controversies only. Their judicial power does not extend to cases which are hypothetical, or which are proscribed due to standing, mootness, or ripeness issues. Generally, a case or controversy requires the presence of adverse parties who have some interest genuinely at stake in the case.

Clause 2 of Section 2 provides that the Supreme Court has original jurisdiction in cases involving ambassadors, ministers and consuls, for all cases respecting foreign nation-states, and also in those controversies which are subject to federal judicial power because at least one state is a party. Cases arising under the laws of the United States and its treaties come under the jurisdiction of federal courts. Cases under international maritime law and conflicting land grants of different states come under federal courts. Cases between U.S. citizens in different states, and cases between U.S. citizens and foreign states and their citizens, come under federal jurisdiction. The trials will be in the state where the crime was committed.

No part of the Constitution expressly authorizes judicial review, but the Framers did contemplate the idea. The Constitution is the supreme law of the land. Precedent has since established that the courts could exercise judicial review over the actions of Congress or the executive branch. Two conflicting federal laws are under "pendent" jurisdiction if one presents a strict constitutional issue. Federal court jurisdiction is rare when a state legislature enacts something as under federal jurisdiction.[d] To establish a federal system of national law, considerable effort goes into developing a spirit of comity between federal government and states. By the doctrine of 'Res judicata', federal courts give "full faith and credit" to

State Courts.[e] The Supreme Court will decide Constitutional issues of state law only on a case by case basis, and only by strict Constitutional necessity, independent of state legislators motives, their policy outcomes or its national wisdom.[f]

Section 3 bars Congress from changing or modifying Federal law on treason by simple majority statute. This section also defines treason, as an overt act of making war or materially helping those at war with the United States. Accusations must be corroborated by at least two witnesses. Congress is a political body and political disagreements routinely encountered should never be considered as treason. This allows for nonviolent resistance to the government because opposition is not a life or death proposition. However, Congress does provide for other lesser subversive crimes such as conspiracy.[g]

## Article Four

Article Four outlines the relations among the states and between each state and the federal government. In addition, it provides for such matters as admitting new states and border changes between the states. For instance, it requires states to give "full faith and credit" to the public acts, records, and court proceedings of the other states. Congress is permitted to regulate the manner in which proof of such acts may be admitted. The "privileges and immunities" clause prohibits state governments from discriminating against citizens of other states in favor of resident citizens. For instance, in criminal sentencing, a state may not increase a penalty on the grounds that the convicted person is a non-resident.

It also establishes extradition between the states, as well as laying down a legal basis for freedom of movement and travel amongst the states. Today, this provision is sometimes taken for granted, but in the days of the Articles of Confederation, crossing state lines was often arduous and costly. The Territorial Clause gives Congress the power to make rules for disposing of federal property and governing non-state territories of the United States. Finally, the fourth section of Article Four requires the United States to guarantee to each state a republican form of government, and to protect them from invasion and violence.

# Article Five

Article Five outlines the process for amending the Constitution. Eight state constitutions in effect in 1787 included an amendment mechanism. Amendment making power rested with the legislature in three of the states and in the other five it was given to specially elected conventions. The Articles of Confederation provided that amendments were to be proposed by Congress and ratified by the unanimous vote of all thirteen state legislatures. This proved to be a major flaw in the Articles, as it created an insurmountable obstacle to constitutional reform. The amendment process crafted during the Philadelphia Constitutional Convention was, according to The Federalist No. 43, designed to establish a balance between pliancy and rigidity:

It guards equally against that extreme facility which would render the Constitution too mutable; and that extreme difficulty which might perpetuate its discovered faults. It moreover equally enables the General and the State Governments to originate the amendment of errors, as they may be pointed out by the experience on one side, or on the other.

There are two steps in the amendment process. Proposals to amend the Constitution must be properly adopted and ratified before they change the Constitution. First, there are two procedures for adopting the language of a proposed amendment, either by (a) Congress, by two-thirds majority in both the Senate and the House of Representatives, or (b) national convention (which shall take place whenever two-thirds of the state legislatures collectively call for one). Second, there are two procedures for ratifying the proposed amendment, which requires three-fourths of the states' (presently 38 of 50) approval: (a) consent of the state legislatures, or (b) consent of state ratifying conventions. The ratification method is chosen by Congress for each amendment. State ratifying conventions were used only once, for the Twenty-first Amendment.

Presently, the Archivist of the United States is charged with responsibility for administering the ratification process under the provisions of 1 U.S. Code § 106b. The Archivist submits the proposed amendment to the states for their consideration by sending a letter of notification to each Governor. Each Governor then formally submits the amendment to their state's legislature. When a state ratifies a proposed amendment, it sends the Archivist an original or certified copy of the state's action. Ratification documents are examined by the Office of the Federal Register for facial legal sufficiency and an authenticating signature.

Article Five ends by shielding certain clauses in the new frame of government from being amended. Article One, Section 9, Clauses 1 prevents Congress from passing any law that would restrict the importation of slaves into the United States prior to 1808, plus the fourth clause from that same section, which reiterates the Constitutional rule that direct taxes must be apportioned according to state populations. These clauses were explicitly shielded from Constitutional amendment prior to 1808. On January 1, 1808, the first day it was permitted to do so, Congress approved legislation prohibiting the importation of slaves into the country. On February 3, 1913, with ratification of the Sixteenth Amendment, Congress gained the authority to levy an income tax without apportioning it among the states or basing it on the United States Census. The third textually entrenched provision is Article One, Section 3, Clauses 1, which provides for equal representation of the states in the Senate. The shield protecting this clause from the amendment process is less absolute - "no state, without its consent, shall be deprived of its equal Suffrage in the Senate" - but permanent.

## Article Six

Article Six establishes the Constitution, and all federal laws and treaties of the United States made according to it, to be the supreme law of the land, and that "the judges in every state shall be bound thereby, any thing in the laws or constitutions of any state notwithstanding." It validates national debt created under the Articles of Confederation and requires that all federal and state legislators, officers, and judges take oaths or affirmations to support the Constitution. This means that the states' constitutions and laws should not conflict with the laws of the federal constitution and that in case of a conflict, state judges are legally bound to honor the federal laws and constitution over those of any state. Article Six also states "no religious Test shall ever be required as a Qualification to any Office or public Trust under the United States."

## Article Seven

Article Seven describes the process for establishing the proposed new frame of government. Anticipating that the influence of many state politicians would be Antifederalist, delegates to the Philadelphia Convention provided for ratification of the Constitution by popularly elected ratifying conventions in each state. The convention method also made it possible that judges, ministers and others ineligible to serve in state legislatures, could be elected to a convention. Suspecting that Rhode Island, at least, might not ratify, delegates decided that the Constitution would go into effect as soon as nine states (two-thirds rounded up) ratified. Once ratified by this minimum number of states, it was anticipated that the proposed Constitution would become this Constitution between the nine or more that signed. It would not cover the four or fewer states that might not have signed.

## Closing endorsement

The signing of the United States Constitution occurred on September 17, 1787, when 39 delegates to the Constitutional Convention endorsed the constitution created during the convention. In addition to signatures, this closing endorsement, the Constitution's eschatocol, included a brief declaration that the delegates' work has been successfully completed and that those whose signatures appear on it subscribe to the final document. Included are, a statement pronouncing the document's adoption by the states present, a formulaic dating of its adoption, and the signatures of those endorsing it. Additionally, the convention's secretary, William Jackson, signed the document to authenticate the validity of the delegate signatures. He also made a few secretarial notes.

The language of the concluding endorsement, conceived by Gouverneur Morris and presented to the convention by Benjamin Franklin, was made intentionally ambiguous in hopes of winning over the votes of dissenting delegates. Advocates for the new frame of government, realizing the impending difficulty of obtaining the consent of the states needed to make it operational, were anxious to obtain the unanimous support of the delegations from each state. It was feared that many of the delegates would refuse to give their individual assent to the Constitution. Therefore, in order that the action of the Convention would appear to be unanimous, the formula, Done in convention by the unanimous consent of the states present… was devised.

The document is dated: "the Seventeenth Day of September in the Year of our Lord" 1787, and "of the Independence of the United States of America the Twelfth." This two-fold epoch dating serves to place the Constitution in the context of the religious traditions of Western civilization and, at the same time, links it to the regime principles proclaimed in the Declaration of Independence. This dual reference can also be found in the Articles of Confederation and the Northwest Ordinance.

The closing endorsement serves an authentication function only. It neither assigns powers to the federal government nor does it provide specific limitations on government action. It does however, provide essential documentation of the Constitution's validity, a statement of "This is what was agreed to." It records who signed the Constitution, and when and where.

Me: This document helps us enforce our laws.

Lincoln: How many laws are there in the United States of America?

Me: There's 20,000 laws in the United States alone.

Everyone: WOW!

Joey: That is a lot of laws to follow.

Me: I was shocked too. But most of those laws are for the uses of guns. But let me show you another document.

We went to another room and we saw another of our most important documents: The United States Bill of Rights.

Me: This is the United States Bill of Rights. It was made by Thomas Jefferson, America's 3rd President on September 25th, 1789.

The Bill of Rights had little judicial impact for the first 150 years of its existence; in the words of Gordon S. Wood, "After ratification, most

Americans promptly forgot about the first ten amendments to the Constitution." The Court made no important decisions protecting free speech rights, for example, until 1931. Historian Richard Labunski attributes the Bill's long legal dormancy to three factors: first, it took time for a "culture of tolerance" to develop that would support the Bill's provisions with judicial and popular will; second, the Supreme Court spent much of the 19th century focused on issues relating to intergovernmental balances of power; and third, the Bill initially only applied to the federal government, a restriction affirmed by Barron v. Baltimore (1833). In the twentieth century, however, most of the Bill's provisions were applied to the states via the Fourteenth Amendment-a process known as incorporation-beginning with the freedom of speech clause, in Gitlow v. New York (1925). In Talton v. Mayes (1896), the Court ruled that Constitutional protections, including the provisions of the Bill of Rights, do not apply to the actions of American Indian tribal governments. Through the incorporation process the United States Supreme Court succeeded in extending to the States almost all of the protections in the Bill of Rights, as well as other, unenumerated rights. The Bill of Rights thus imposes legal limits on the powers of governments and acts as an anti-majoritarian/minoritarian safeguard by providing deeply entrenched legal protection for various civil liberties and fundamental rights. The Supreme Court for example concluded in the West Virginia State Board of Education v. Barnette (1943) case that the founders intended the Bill of Rights to put some rights out of reach from majorities, ensuring that some liberties would endure beyond political majorities. As the Court noted, the idea of the Bill of Rights "was to withdraw certain subjects from the vicissitudes of political controversy, to place them beyond the reach of majorities and officials and to establish them as legal principles to be applied by the courts." This is why "fundamental rights may not be submitted to a vote; they depend on the outcome of no elections."

## First Amendment

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

The First Amendment prohibits the making of any law respecting an establishment of religion, impeding the free exercise of religion, abridging the freedom of speech, infringing on the freedom of the press, interfering with the right to peaceably assemble or prohibiting the petitioning for a governmental redress of grievances. Initially, the First Amendment applied only to laws enacted by Congress, and many of its provisions were interpreted more narrowly than they are today.

In Everson v. Board of Education (1947), the Court drew on Thomas Jefferson's correspondence to call for "a wall of separation between church and State", though the precise boundary of this separation remains in dispute. Speech rights were expanded significantly in a series of 20th- and 21st-century court decisions that protected various forms of political speech, anonymous speech, campaign financing, pornography, and school speech; these rulings also defined a series of exceptions to First Amendment protections. The Supreme Court overturned English common law precedent to increase the burden of proof for libel suits, most notably in New York Times Co. v. Sullivan (1964). Commercial speech is less protected by the First Amendment than political speech, and is therefore subject to greater regulation.

The Free Press Clause protects publication of information and opinions, and applies to a wide variety of media. In Near v. Minnesota (1931) and New York Times v. United States (1971), the Supreme Court ruled that the First Amendment protected against prior restraint-pre-publication censorship-in almost all cases. The Petition Clause protects the right to petition all branches and agencies of government for action. In addition to the right of assembly guaranteed by this clause, the Court has also ruled that the amendment implicitly protects freedom of association.

## Second Amendment

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

The Second Amendment protects the individual right to keep and bear arms. The concept of such a right existed within English common law long before the enactment of the Bill of Rights.[98] First codified in the English Bill of Rights of 1689 (but there only applying to Protestants), this right was enshrined in fundamental laws of several American states during the Revolutionary era, including the 1776 Virginia Declaration of Rights and the Pennsylvania Constitution of 1776. Long a controversial issue in American political, legal, and social discourse, the Second Amendment has been at the heart of several Supreme Court decisions.

In United States v. Cruikshank (1876), the Court ruled that "[t]he right to bear arms is not granted by the Constitution; neither is it in any manner dependent upon that instrument for its existence. The Second Amendment means no more than that it shall not be infringed by Congress, and has no other effect than to restrict the powers of the National Government."

In United States v. Miller (1939), the Court ruled that the amendment "[protects arms that had a] reasonable relationship to the preservation or efficiency of a well regulated militia".

In District of Columbia v. Heller (2008), the Court ruled that the Second Amendment "codified a pre-existing right" and that it "protects an individual right to possess a firearm unconnected with service in a militia, and to use that arm for traditionally lawful purposes, such as self-defense within the home" but also stated that "the right is not unlimited. It is not a right to keep and carry any weapon whatsoever in any manner whatsoever and for whatever purpose".

In McDonald v. Chicago (2010), the Court ruled that the Second Amendment limits state and local governments to the same extent that it limits the federal government.

## Third Amendment

No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

The Third Amendment restricts the quartering of soldiers in private homes, in response to Quartering Acts passed by the British parliament during the Revolutionary War. The amendment is one of the least controversial of the Constitution, and, as of 2018, has never been the primary basis of a Supreme Court decision.

## Fourth Amendment

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

The Fourth Amendment guards against unreasonable searches and seizures, along with requiring any warrant to be judicially sanctioned and supported by probable cause. It was adopted as a response to the abuse of the writ of assistance, which is a type of general search warrant, in the American Revolution. Search and seizure (including arrest) must be limited in scope according to specific information supplied to the issuing court, usually by a law enforcement officer who has sworn by it. The amendment is the basis for the exclusionary rule, which mandates that evidence obtained illegally cannot be introduced into a criminal trial. The amendment's interpretation has varied over time; its protections expanded under left-leaning courts such as that headed by Earl Warren and contracted under right-leaning courts such as that of William Rehnquist.

## Fifth Amendment

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

The Fifth Amendment protects against double jeopardy and self-incrimination and guarantees the rights to due process, grand jury screening of criminal indictments, and compensation for the seizure of private property under eminent domain. The amendment was the basis for the court's decision in Miranda v. Arizona (1966), which established that defendants must be informed of their rights to an attorney and against self-incrimination prior to interrogation by police.

## Sixth Amendment

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defence.

The Sixth Amendment establishes a number of rights of the defendant in a criminal trial:

to a speedy and public trial

to trial by an impartial jury

to be informed of criminal charges

to confront witnesses

to compel witnesses to appear in court

to assistance of counsel

In Gideon v. Wainwright (1963), the Court ruled that the amendment guaranteed the right to legal representation in all felony prosecutions in both state and federal courts.

## Seventh Amendment

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any court of the United States, than according to the rules of the common law.

The Seventh Amendment guarantees jury trials in federal civil cases that deal with claims of more than twenty dollars. It also prohibits judges from overruling findings of fact by juries in federal civil trials. In Colgrove v. Battin (1973), the Court ruled that the amendment's requirements could be fulfilled by a jury with a minimum of six members. The Seventh is one of the few parts of the Bill of Rights not to be incorporated (applied to the states).

## Eighth Amendment

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

The Eighth Amendment forbids the imposition of excessive bails or fines, though it leaves the term "excessive" open to interpretation. The most frequently litigated clause of the amendment is the last, which forbids cruel and unusual punishment. This clause was only occasionally applied by the Supreme Court prior to the 1970s, generally in cases dealing with means of execution. In Furman v. Georgia (1972), some members of the Court found capital punishment itself in violation of the amendment, arguing that the clause could reflect "evolving standards of decency" as public opinion changed; others found certain practices in capital trials to be unacceptably arbitrary, resulting in a majority decision that effectively halted executions in the United States for several years. Executions resumed following Gregg v. Georgia (1976), which found capital punishment to be constitutional if the jury was directed by concrete sentencing guidelines. The Court has also found that some poor prison conditions constitute cruel and unusual punishment, as in Estelle v. Gamble (1976) and Brown v. Plata (2011).

## Ninth Amendment

The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

The Ninth Amendment declares that there are additional fundamental rights that exist outside the Constitution. The rights enumerated in the Constitution are not an explicit and exhaustive list of individual rights. It was rarely mentioned in Supreme Court decisions before the second half of the 20th century, when it was cited by several of the justices in Griswold v. Connecticut (1965). The Court in that case voided a statute prohibiting use of contraceptives as an infringement of the right of marital privacy. This right was, in turn, the foundation upon which the Supreme Court built decisions in several landmark cases, including, Roe v. Wade (1973), which overturned a Texas law making it a crime to assist a woman to get an abortion, and Planned Parenthood v. Casey (1992), which invalidated a Pennsylvania law that required spousal awareness prior to obtaining an abortion.

## Tenth Amendment

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

The Tenth Amendment reinforces the principles of separation of powers and federalism by providing that powers not granted to the federal government by the Constitution, nor prohibited to the states, are reserved to the states or the people. The amendment provides no new powers or rights to the states, but rather preserves their authority in all matters not specifically granted to the federal government.

Congress has sometimes circumvented the Tenth Amendment by invoking the Commerce Clause in Article One or by threatening to withhold funding for a federal program from noncooperative States, as in South Dakota v. Dole (1987).

Me: This document is the bill that extends our rights across the country.

Lincoln: Wow. This is a huge amount of rights.

Earth: It sure is. I can't believe that we were given so many things we can and cannot do over this country's whole history.

Nick F.: It's just a lot to take in.

Me: I know. But I figured that I would take us to Washington D.C. to show you all.

Earth: This was a very educational treat.

Laney: It sure was.

Later we went back to the estate.

---

We got back and helped out with the decorating.

Horsea, Poliwag, Manaphy, and Poromon: HAPPY 4TH OF JULY, EVERYBODY!

Nico: Thanks guys.

Me: You excited for the 4th of July, Nico?

Nico: You know I am J.D. I love the fireworks, barbecue and the history.

Me: Awesome! I love this day because of barbecue and to shoot off fireworks.

Laney: Me too.

Stacy: I haven't had a good 4th of July since I got gene slammed.

Me: I don't think any of you had.

John: I know J.D.

Coop: I wish our mom was here with us.

Me: What happened to your mom Coop?

Coop: She died of cancer when we were kids.

Me: Oh no. I'm so sorry.

Dr. Bolton: It's all right J.D. But thank you for your concern.

Stacy: But she will always be with us in our hearts.

Laney: That's great Stacy.

Tommy: I just wish Zordon were here to celebrate the 4th of July with us.

Kimberly: If he hadn't sacrificed himself with Andros' help, the United alliance of Evil would've never been defeated.

Billy: As long as there are Power Rangers, he'll never be forgotten.

Lori: I'm sorry about Zordon guys. But his spirit will always be with you no matter what.

Trini: Thanks Lori.

Jason: I have a feeling he already is.

Zach: Me too.

Cole: I don't think I've ever celebrated a 4th of July with you guys.

Me: This will be your first ever 4th of July Cole. I know you spent most of your time in the jungle because of Master Org. But now you have plenty of time to catch up.

Cole: I sure do.

James: We've never celebrated the Fourth of July in the Pokemon world before.

Me: This'll be your first ever 4th of July James. I know just the perfect thing to do before we shoot off fireworks and have barbecue. Lets go into the Simulator for an awesome exercise.

Nico: Okay.

We did so.

---

We were in the Simulator and we were going to do an exercise where we fight against the Harvester Aliens of the 1996 movie Independence Day. The Simulator activated and we were at Area 51 and we were at standing there at the crack of dawn as the President was going to give his speech on it.

Me: This is gonna be awesome guys.

President Tom: (On the Loudspeaker) Good Morning.

We stood before him with a lot of people.

President Tom: In less than an hour, air crafts from here will join others from around the world. And you will be launching the largest aerial battle in the history of mankind. Mankind, that word should have new meaning for all of us today. We can't be consumed by our petty differences anymore. We will be united in our common interest. Perhaps it's fate that today is the 4th of July. And you will once again be fighting for our freedom. Not from tyranny, oppression or persecution. But from Annihilation. We're fighting for our right to live. To exist. And should we win the day, the 4th of July will no longer be known as an American holiday. But as the day when the world declared in one voice We will not go quietly into the Night! We will not vanish without a fight! We're going to live on! We're going to Survive! TODAY WE CELEBRATE OUR INDEPENDENCE DAY!

We cheered wildly. That was easily one of the most powerful speeches we've ever seen.

Me: Lets get them!

We walked up to President Tom.

Me: Mr. President, you have the assistance of Team Loud Phoenix Storm. And we will triumph.

Vince: We won't let you down sir.

Carol: Count on it.

Me: You're gonna need some heavier firepower sir. Missiles and bombs won't be able to damage the hulls of those ships. We have the firepower you all need.

President Tom: Thank you all.

We shook hands.

---

Later we were off and we had a lot of fighter jets and we were flying beside them. We were flying by a bunch of F16 Fighter Jets. We saw an enormous ship coming towards us.

Me: Target sighted.

President Tom: We have visual.

General Grey: Do not engage until we've confirmed the package has been delivered.

President Tom: Roger.

We saw the ship and it was a massive 15 mile wide alien ship.

Me: Wow! I forgot how big those ships were.

Lori: That is literally the biggest ship ever.

Me: No kidding.

Laney: Not nearly as big as our ship though.

What General Grey meant by the package being delivered is that 2 people: Captain Steven Hiller and MIT Technological Expert David Levinson are boarding the Mothership of the Harvester Aliens to plant a computer virus to disable their defenses so we can have a fighting chance and take them down more easily.

In an unspecified time in the past, the Harvesters presented themselves as a threat to the universe itself, due to their plague-like nature. Attacking from their own homeworld, their empire encountered a highly-advanced civilization of trans-sentient beings which they pushed to the brink of extinction.

For thousands of years, the Harvester Empire has been at war against a coalition of many alien races, who lost their planets to the Harvesters. This war remains at a stalemate as the Harvesters could not locate their enemies' planet of origin. Because of this, the Harvesters attempt to hunt down a sapient artificial intelligence known as the Sphere for its vital information on their enemies. The remnants from this civilization escaped with technology that they stored at a sanctuary world, where they have since actively prepared species with the necessary tools to combat the Harvesters. Recognizing the beings as a threat, the Harvesters are determined to discover the sanctuary world and prevent the spread of the means that can defeat them.

The first recorded interaction between humanity and the aliens was in 1947, when an Attacker crashed on the Foster Ranch outside of Roswell, New Mexico. In the crash, two aliens were killed, while a third was seriously injured. The crashed ship, the two bodies and the injured alien were brought to the new Air Force installation outside of Rachel, Nevada called Homey Airport, (better known as "Area 51"). The survivor died within a matter of weeks. Over the next 49 years, scientists at Area 51 studied the Attacker, attempted to repair it and studied the physiology of the three alien corpses. However, none of the technology of the Attacker could be accessed, as there was no Mothership nearby.

Vietnam War veteran Russell Casse claimed to have been abducted by the aliens in 1986, with the purpose of conducting horrific experiments upon him. However, the veracity of these claims are debatable and as such, Casse was largely dismissed for suffering Post-Traumatic Stress Disorder (PTSD).

On July 2, 1996, a Mothership arrives at the Moon and begins to transmit command signals into Earth's satellite system. During this time, a number of satellites crash into the Mothership, which significantly disrupts terrestrial communications. After establishing a permanent position, the Mothership deploys three dozen city-sized Destroyers to position themselves over major cities. The signal progressively becomes weaker after every new transmission, with the end of the signal indicating when each Destroyer should fire upon cities.

On July 3, 1996, humanity is devastated, as the largest cities are now in ruins and hundreds of millions of people are dead. The Destroyers move on to other major cities, with the intention being to destroy every last one within a matter of days. There are a number of attempts by humans to defend themselves against the Destroyers, but each of these ends in utter failure, while the alien casualties are minimal, with only one reported crashed Attacker.

On July 4, 1996, the tide of war takes an abrupt turn. In the early Nevada morning, the captured Attacker from 1947 is deployed from Area 51 by the humans, with Captain Steven Hiller piloting and computer scientist David Levinson as a passenger. The Mothership summons the Attacker and docks it in the center of the ship. Levinson connects to the aliens' internal network and uploads a computer virus that disrupts the Mothership's systems and causes the shields to go down for fifteen minutes. With this slim window of opportunity, the United States Air Force manages to destroy a Destroyer when Casse goes kamikaze into the primary weapon. This strategy is shared with other nations and the Destroyers everywhere are destroyed. A Destroyer that previously landed and drills into the earth's crust in the Congo issues a distress signal, calling for other civilizations to come to their aid. Soon after, Hiller and Levinson shoot a nuclear missile into the transport hub of the Mothership and escape. The ship explodes, thus ending the first invasion.

In the 20 years following the first invasion, humanity has worked industriously to prepare for another global threat; the nations have unified to create a defense grid around the planet and Moon that cannibalizes the alien technology from the debris of the first invasion.

A massive Harvester Mothership in the midst of a mission receives the distress beacon from the first mission. Infuriated, the Queen orders an assault on Earth. Their enemy, the Sphere, arrives shortly before they arrival of the Harvester Mothership, but is mistaken for the aliens, so it is shot down by the humans. The Harvester arrives and promptly disables Earth's defenses and situates itself over the Atlantic Ocean.

Upon detecting the presence of the Queen, the humans launch a defensive strike against the Harvester Mothership, with the intention of killing her. Predicting this move, the Queen allows the humans close to her, then has Attackers swarm the scene. A sparse number of humans infiltrate the Harvester and crash land in the ship's interior ecosystem, due to an electromagnetic pulse issued.

The Sphere is activated, which prompts lures the Queen's ship. Taking advantage of her determination, Levinson reroutes the signal from the Enemy to a space tug carrying cold fusion bombs, piloted by former President Whitmore. Through a sacrificial mission, Whitmore flies into the Queen's ship and detonates the bombs directly in front of her. The Queen, however, survives and continues her pursuit of the Enemy. Upon snagging the Enemy, the Queen is attacked and killed by ships piloted by Dylan Hiller and Jake Morrison. With the death of the Queen, the aliens go catatonic, the Harvester releases its grip on Earth and the second invasion ends.

Me: No it's not. But these aliens are not welcome on our planet.

In the Area 51 command room, they got word that the virus is being uploaded.

Captain Wilder: Sir, they're uploading the virus.

General Grey: Phoenix 1 and Eagle 1, package is being delivered. Stand by to engage.

Me: Yes sir.

I had my computer eyes on and they saw the shield around the ship. It was a massive green bubble around the ship.

General Grey got word that the virus was in.

General Grey: Delivery complete. Engage.

Me: Shield's not down yet sir. Give it 30 more seconds.

I kept an eye on the shield and then I saw the shield disappear.

Me: Shield's down. Fire!

President Tom: Eagle 1, Fox 3.

President Tom fired a missile and it hit the ship and exploded.

KABOOM!

Everyone cheered in the base.

General Grey: Direct hit!

Captain Wilder: Squadron leaders and Team Loud Phoenix Storm, fire at will. Fire at will. Fire at will.

Me: This is it guys! Fire at will!

We fired missiles and energy blasts at the ship and they hit the ship and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM

We caused a significant amount of damage to the ship and blew 25% of the ship apart.

Lincoln: Yeah!

President Tom: Wow! That did it!

Then a massive armada of alien fighter ships came.

Me: Here they come!

Luan fired a massive blast of light and blew some of the ships apart.

Eddy (shoots aliens with blaster): HAPPY INDEPENDENCE DAY, MOTHERFUCKERS!

The ships were exploding all over the place as fiery debris.

Maria (shoots water at aliens): You just had to attack the Earth on the 4th of July!

The water made one of the aliens collide with another ship and they exploded.

Lola and Suzi fired massive blasts of fire and energy and many ships exploded.

G1 Soundwave (shoots at aliens): Independence Day aliens: about to die.

Soundwave fired blasts from his Concussion blaster and he destroyed a lot of ships.

Me: Lets cut these aliens down to size! Rolling Cutter!

I activated Cut Man's Rolling Cutter and fired a scissor blade and they sliced and diced the ships.

May (shoots aliens with ice gun): Chill out!

May froze some of the ships and blew them to pieces.

Nico: You Aliens have failed this universe!

Nico fired massive energy blasts at the ship and the fighter ships and blew them apart.

Captain Wilder: We're running out of missiles sir. But it's settling directly over us.

Then the ship's main weapon was being ready to fire.

General Grey: They're preparing to fire their primary weapon!

Me: Lets go!

President Tom: Lets take it out before it takes us out!

We went under the ship and we saw the ships main weapon being charged up.

Me: Target sighted.

President Tom: Target at 12:00!

We fired numerous blasts.

Me: Lets destroy this ship for good! Combo and Final Smash time!

Blaster: You got it J.D.! CYBER KEY POWER!

Blaster had the Earth Cyber Planet Key went into hit electro-scrambler gun and it enhanced it 100-Fold and 3 more blasters popped out,

Stacy: I've never used a Cyber Planet Key. First for everything. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her device and it enhanced her lightning powers 100-fold.

Blaster and Stacy: LIGHTNING STORMBLAST STRIKE!

Blaster and Stacy fired a massive blast of lightning and it hit the flaps of the hatch for the city destroyer weapon.

G1 Soundwave: Target Sighted! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his Concussion Blaster 100-fold.

James: Lets get them Carnivine! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into James's right arm device and it enhanced his Carnivine's abilities.

James: Leaf Tornado! Go!

G1 Soundwave and Carnivine: SONIC RAZOR TORNADO STRIKE!

Carnivine fired a massive tornado made of leaves and G1 Soundwave fired a massive blast of concussion energy and the blasts combined and they hit the weapon.

Nico: Lets get them! Time for the Final Smashes of Red, White and Blue!

Lincoln: Lets do it!

Nico: I'll go first! RED FOR GLORY!

Nico fired a massive blast of red energy and it hit part of the ship and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMMM!

Lincoln: WHITE FOR LIBERTY!

Lincoln fired a massive blast of white energy and it hit the ship and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

May: BLUE FOR FREEDOM!

May fired a massive blue blast of energy and it hit the ship and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: President Tom, let them have it!

President Tom: You got it J.D. MISSILE FIRESTORM EXPLOSION!

President Tom fired a massive barrage of missiles at the ship. But then they missed and hit the wrong spots!

Me: Negative impact!

Russell: Sorry I'm late Mr. President!

We saw a fighter plane arrive.

Me: Russell Casse, I presume?

Russell: You got that right. I told you I wouldn't let you down.

Me: We'll hold them off for you.

We did so and Russell had his missile ready. But then it got stuck and he knew he had to make a very difficult choice.

Russell: Do me a favor. Tell my children I love them very much.

I knew what Russell was going to do.

Me: We will Russell.

Russell flew up to the weapon and took off his mask.

Russell: ALL RIGHT YOU ALIEN ASSHOLES! IN THE WORDS OF MY GENERATIONS! UP YOURS!

The laser was charging up.

The laser was getting ready to fire and it was targeting the Area 51 base.

Russell: (LAUGHS) HELLO BOYS! I'M BAAAAAAAACCCCKKKK!

He slammed into the laser with a kamikaze attack and the whole ship exploded!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The whole ship erupted into a massive fireball.

President Tom: He did it! The son of a bitch did it!

Everyone at the base cheered wildly.

We went out from under the base of the ship as it was going down.

Later the Mothership exploded and we had the Harvester Aliens beat. The mothership was destroyed like it was in the movie with a tactical nuke. The Alien Ships all over the world were destroyed and beat.

Me: We did it guys.

Nico: We sure did. These aliens have failed this universe!

Me: You got that right.

Lincoln: Never underestimate the power of Team Loud Phoenix Storm and everyone working together.

Blaster: Best 4th of July ever!

President Tom: We couldn't have done all this without you J.D.

Me: We're happy to help Mr. President.

We shook hands.

President Tom: (To the viewers) These guys are powerful forces to be feared. Never mess with Team Loud Phoenix Storm.

Later we left the Simulator. We salvaged some of the ships and made our own weapons and defense systems with it and more for the benefit of the planet.

---

Later we had our barbecue and we had burgers, ribs, pork and more. Nico caught his own Carnivine and a Lumineon and Ben had a Ditto.

At 9:00 we saw fireworks go off.

Nico: Blaster was right. This really is the best 4th of July ever.

Me: Lets sing America the Beautiful for this day.

All: (Singing)

O beautiful for spacious skies,

For amber waves of grain,

For purple mountain majesties

Above the fruited plain!

America! America!

God shed His grace on thee

And crown thy good with brotherhood

From sea to shining sea!
O beautiful for pilgrim feet,
Whose stern, impassioned stress
A thoroughfare for freedom beat
Across the wilderness!
America! America!
God mend thine every flaw,
Confirm thy soul in self-control,
Thy liberty in law!
O beautiful for heroes proved
In liberating strife,
Who more than self their country loved
And mercy more than life!
America! America!
May God thy gold refine,
Till all success be nobleness,
And every gain divine!
O beautiful for patriot dream
That sees beyond the years
Thine alabaster cities gleam
Undimmed by human tears!
America! America!

God shed His grace on thee

And crown thy good with brotherhood

From sea to shining sea!

The flag of the United States of America waved behind us in the background as we saluted. The Fireworks were breathtaking and there were so many designs in them.

It was the best 4th of July we ever had.

We then went to bed.

Me: (To the viewers) This was a memorable 4th of July. Have a great night to all of you and God Bless America!

I winked at the camera and the screen irised in with the form of a firework and the American Flag waved and around the firework was Happy Independence Day.

Elsewhere, an awesome Police car was on patrol and in it was Wes Collins, Leader of the Time Force Power Rangers from the year 3000 and his partner Eric Myers, the Quantum Ranger and commander of the Silver Guardians.

A robber had stolen an armored car!

Wes Collins: That armor car was stolen!

Eric Myers: Lets get him!

Wes Collins: TIME FOR TIME FORCE!

Eric Myers: QUANTUM POWER!

In a powerful flash of Red Light they transformed and the camera turned red.

THE END

Another Fanfiction Complete

Happy 4th of July Everyone! I hope you all have an awesome Independence Day and celebrate 243 years of freedom! Independence Day from 1996 was an awesome movie and I figured it would be perfect for this chapter. I added some history for you all on America's greatest documents for you. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. Again have a Happy Independence Day and eat lots of great barbecue and have fun with a lot of fireworks.

---

See you all next time!

# Imaginary Friend Mall Shopping Spree

It starts at the estate. We were watching TV and having fun. Mung and Chowder were with us and he was showing me and Lola how to make Baked Alaska.

Me: And now for the final touch.

I lit the cake on fire with a cigarette lighter and burned the brandy on it.

Mung: And viola! Baked Alaska.

Chowder: That looks tasty!

Me: It sure does.

Jen: Mmm-mm! That cake looks delish.

Me: It sure does.

After the fire on the cake went out we served it.

Lola: Oh this is so delicious!

Lana: I'll say!

Laney: Mmm! So yummy!

Lisa: A very delicious and tasty confectionary treat.

Me: Baked Alaska is one of my favorite desserts and it's also one of the hardest known recipes in the world.

Nico: You sure got it down. You have succeeded in making an awesome Baked Alaska.

Me: Thanks Nico.

Jen: This dish reminds me of the time me and Bruce reverted back to our human forms on a camping trip.

Nico: What happened back then?

Jen: Well we were camping.

* * *

Jen: (Narrating) Me and Bruce were in our Hulk forms and Bruce caught a bear for dinner. We got done eating and that's when we changed back.

They began to reverting back!

She-Hulk: (Groans in pain) Not now!

Hulk: (Groans) Hulk hate this!

They clutched their stomachs in pain and they had headaches and they were changing back.

She-Hulk: No! Must stay in She-Hulk form!

Hulk: Hulk no want to go back to Puny Banner!

They started changing back into their human forms and eventually succeeded after some resistance. Their skin changed back and their hair turned back to normal colors.

Jen: Oh man! That was rough.

Bruce B: No kidding.

They got to eating the bear and then suddenly another bear appeared and he was ready to attack. They kicked it and punched it in the face and knocked out one of its teeth.

They then felt themselves Hulk out again again.

Jen: NO! I won't change back into She Hulk! I won't!

Bruce: Oh come on!

They tried fighting their second transformations but eventually succumbed. They changed back to their Hulk forms afterwards.

FLASHBACK ENDS

Jen: But we persevered. We had a great dinner and we beat a bear that came after us and we changed again and we had s'mores and more with it.

Me: That's great guys.

Hulk: Hulk agree. Can get through anything.

Jen: You got that right. And I have this on.

Jen revealed that she has a special elastic bracelet with a bear fang on it.

Me: That's a cool bracelet!

Nico: It sure is. The bear is an amazing animal.

Bloo was playing paddleball but he was having a hard time learning how to do it.

Lynn (sees Bloo pick up a paddleball): Bloo, one of these days, I should teach you how to properly play paddleball.

Bloo: I know Lynn. It's hard for me.

Maria came in and she had coupons, gift cards and bags ready.

Maria: Who's up for going to the mall?

Leni: The Mall!? Count me in Maria!

Me: I'm up for a shopping spree.

Laney: Same here.

Everyone cheered.

Me: Lets head to the mall guys!

Mr. Herriman: You all have fun at the mall. I need to go back to Foster's to get my phone.

Me: Okay. We'll walk over to the mall.

Mr. Herriman: All right. I'll see you over there.

Mr. Herriman went out and got into his car and drove to Foster's. But what he didn't realize is that he went over the speed limit and police sirens were heard.

He pulled over and he was stopped by a cop. But this cop was none other than member of the Silver Guardians and Quantum Ranger himself - Eric Myers.

Eric Myers: Excuse me, sir. You went past the speeding limit.

Herriman: I apologize. I was trying to get back to the mall in a hurry after I got my phone from my house.

Eric: I'm cool with it. As long as you pay the fine.

Herriman: Excuse me. But I will not pay the fine for trying to get back here in a hurry.

Eric: C'mon. I'm just doing my job.

Herriman: And I am doing mine by trying to watch over the members of my house!

Me: What's going on here?

We saw Eric Myers.

Me: Wow! Eric Myers the Quantum Ranger!

Lincoln: Awesome!

Eric: J.D. Knudson and Team Loud Phoenix Storm. Cole! Carter! Nice to see you guys!

Taylor: Hey, handsome. Hope you didn't forget about your girlfriend.

Eric: No way babe.

They kissed.

Eddy (to Eric): Dude, I'm gonna be honest. You were badass fighting as the Quantum Ranger!

Eric: Thanks Eddy. It's part of our job.

Wes: I don't believe it. Cole, Carter! Tommy!

Carter: Hey Wes.

Cole: Great to see you again Wes.

Tommy: Same here.

Me: Wes Collins of the Time Force Power Rangers! It's so awesome to finally meet you in person.

Wes: Same to you J.D. We heard so much about all your achievements in the year 3,000.

Me: Our times are 981 years apart. How can that be possible?

Wes: We have a lot of ways that can tell people.

Me: That's neat. 31st Century technology must be incredible.

Wes: It is.

Eric: Plus you did save the world from that asteroid that was gonna crash into the planet and destroy it.

Me: That's right.

Laney: That was one of our bravest and smartest deeds.

Me: We were running out of options, but during one of our missions we actually got the one option needed to destroy that rock.

Wes: That's amazing.

Lincoln: It sure was.

Eric: So where are you all heading?

Me: We're going to the mall. You can come with us if you'd like. Who knows there might be some bad guys there to bust. Usually malls are a prime target for robbers and thieves.

Wes: We would be honored.

Eric: Count us in.

Mac: Does Mr. Herriman still have to pay the fine?

Eric: I'm sorry, Mac. But he still has to.

Me: I'm sorry Mr. Herriman. It's the law.

Mr. Herriman: I understand Master J.D. and I apologize.

Mr. Herriman did so and he got his phone and we were on our way to the mall.

* * *

We arrived at Gotham Royal York Mall. It was made much bigger than ever before and it was now twice as big as the Mall of America in Minnesota.

Me: Whoa! The mall is now bigger than ever!

Leni: It's totes amazing!

Maria: Carmen, you go with me and Bai Tza.

Carmen: You got it sis!

Bai Tza: This is gonna be so cool!

We split up and went on the best shopping spree ever!

* * *

# Maria, Carmen and Bai Tza - Nicolas Sidana.

---

Maria, Carmen and Bai Tza were at Nicolas Sidana. (Nicolas Sidana is a parody of the cooking store William Sonoma.)

Bai Tza: What are you gonna get Maria?

Maria: I'm gonna get a new espresso machine for Ms. Rita and Nurse Santiago. They need to have stronger coffee for the day. You should see how much coffee Nurse Santiago goes through. She needs it for her night shifts and a doctor or nurses work is never done.

Bai Tza: I believe it Maria. Being an E.R. nurse is really strenuous. You have to tend to a lot of people who are either dying or extremely sick.

Carmen: Mostly heart attacks or strokes. That's a good job though. But being a superhero for me is plenty.

Maria: Me too.

Bai Tza: Same here.

They went into the store and they found a perfect espresso maker. It was loaded with all kinds of features.

Maria: This one is perfect.

Bai Tza: It sure is. But it looks expensive.

They looked at the price and saw that it WAS expensive.

Maria: Wow! $800.00? That's a lot.

But there was a sale going on. It was 75% off. So it was $200.00

Maria: That's more like it.

They got it.

They left the store and they had a huge box being held in water tentacles made by Bai Tza.

---

Shego and William - Pego Store.

---

Shego and William were heading to the Pego store. (Pego is a parody of the Lego Store.)

Shego: So what are you gonna get William?

William: I'm gonna get a giant Pego set. I want to see if I can put together a set of the Hogwarts Castle.

Shego: Oh that is so cool! I read all the Harry Potter books and they are amazing!

William: They sure are.

They went in and William bought a building set of the Hogwarts Castle from Harry Potter. It was a huge set that was priced at $400.00. But since there was a sale, they got it for $75.00. Great deal.

They left the store and William and Maria were gonna have a lot of fun with it.

---

Rhino, Lori, Roxy, Lydia and Venom - Ceramics House.

---

Rhino, Lori, Roxy, Lydia and Venom were over at The Ceramics House. (The Ceramics House is a parody of The Pottery Barn.)

Eddie: So what are you gonna get Lori?

Lori: I'm gonna get Bobby and our great family some new dishes.

Rhino: They will love that!

They found some awesome plates and dinnerware for the table. They bought them for $50.00.

---

## Luna, Sam, Lincoln, Tara, Bloo, Karai and Xion - Tomahawk Music

---

Luna, Sam, Tara, Lincoln, Bloo, Karai and Xion were over at a music store called Tomahawk Music. (Tomahawk Music is a parody of Yamaha Music.)

Luna: So what are you gonna get dudes?

Sam: I'm gonna see if I can get one of those cool Celtic harps. I've always wanted to play the harp.

Karai: (Japanese Accent) That's an interesting instrument Sam. I'm gonna get a Japanese Banjo called a Shamisen. It's a guitar from Japan.

Xion: That sounds cool Karai.

Bloo: I do love music.

Luna: I want to get an awesome Irish Flute. I love the Irish Music like Natilee does.

Lincoln: I'm gonna get a flute too Luna.

Luna: Rad choice bro.

Tara: I would love to see you play the flute Lincoln. Thats always been one of my favorite instruments.

Lincoln: Thanks Tara.

They went into the store and Lincoln picked out an awesome green flute with the Celtic Triquetra on it and it had all kinds of mystical symbols of Celtic lore on it.

Lincoln: This is a pretty flute.

Lincoln then played Terra's theme song from Teen Titans and the room changed into a massive and amazing crystal cave and they saw Tara fighting crystals in the shapes of all of her most dangerous enemies including Slade and the evil TTG Terra. She was destroying all of them with ease and everyone was amazed.

When the song was done everyone in the store cheered wildly.

Sam: That was rockin' little dude!

Luna: You said it Sammy! Rad tunes bro!

Tara: Lincoln that was so awesome!

Bloo: Yeah he's good! Not bad for someone who played it for the first time.

Karai: My thoughts exactly Bloo.

Then they heard a man at the register and they saw him hold a gun at the clerk. But the robber only had one shoe on and his bare foot smelled horrible!

Robber: Give me all of your money or you die!

Bloo walked up to the robber and grabbed his wallet.

Robber: Hey!

Bloo (evades robber): YOU'LL NEVER TAKE ME ALIVE!

Luna and Sam and Karai swooped in and punched him in the face and knocked him out.

Lincoln: You should know the rule: No shirt, no shoes, no service!

Wes then came in.

Wes: You all okay?

Luna: We are Wes.

Wes: That's Stinkfoot Rupert. The Silver Guardians and the FBI have been after him for 17 years. He's a slippery robber that is very clever.

Lincoln: I didn't know that Wes. But I'm glad we busted him.

Luna: Yeah.

Stinkfoot Rupert was called that because he has a bad foot fungus on his foot that smells really horrible and that's how he got his name. They bought their instruments and left the store. Stinkfoot Rupert had a huge bounty on his head and it was given to them.

---

Lea and Francis - Ken Torres Jewelers.

---

Lea and Francis were over at Ken Torres Jewelers. (Ken Torres Jewelers is a parody of Ben Bridge Jeweler.)

They were looking at some amazing watches and jewelry.

Francis: Wow. Look at all that jewelry.

Lea: These watches are breathtaking. I just can't believe that they are that expensive. But James Bond had really good taste.

Francis: He sure did Lea.

Lea saw the Omega Watches and one watch caught his eye. It was the Grey Side of the Moon watches. They were made of meteorite. Which is an awesome element to use in a watch.

Lea: Wow. These watches are amazing. Omega Grey Side of the Moon.

Francis: Oh yeah. Those watches are amazing. They are made with Meteorite, which is worth more than it's weight in gold.

Francis and Lea got 4 of them for $48,512.00. Which is small pennies compared to what we have.

---

Teresa, Lynn, Wilt and Arpeggio - Mike's Sporting Goods

---

Teresa, Lynn, Wilt and Arpeggio were at Mike's Sporting Goods. (Mike's Sporting Goods is a parody of Dick's Sporting Goods.)

Wilt: Wow. This is a lot of sports equipment.

Lynn: Oh yeah. It's so awesome coming here.

They tried on all kinds of awesome sports shoes and more and they bought all kinds of sports gear for Lynn and Wilt while teaching him all about money.

---

Shocker, Eduardo and Elena - Super Bullseye

---

Shocker, Eduardo and Elena were over at Super Bullseye. (Super Bullseye is a parody of Target.)

They were buying food and all kinds of things for the house.

---

Rubberband Man, Coco and Inque - Menora

---

Rubberband Man, Coco, Lola and Inque were at a make up store called Menora. (Menora is a parody of the cosmetics store Sephora. And no it's not based on the Jewish Candle.)

They bought all kinds of make up and cosmetics for Lola and Lori and more.

---

Poison Ivy, Laney, EuroTrish and Killer Frost - Parns and Loyal Booksellers

---

Poison Ivy, Laney, EuroTrish and Killer Frost were at Parns and Loyal Booksellers. (Parns and Loyal Booksellers is a parody of Barnes and Noble Booksellers)

Laney: (Whispers) I love coming here to Parns and Loyal. It's my favorite.

Poison Ivy: (Whispers) Me too.

EuroTrish: (European Accent) (Whispers) I love learning so much about Europe. It's where I'm from.

Killer Frost: (Whispers) That is so cool EuroTrish.

They bought books on Europe and the countries around the world and Laney bought books on Psychology. Poison Ivy bought books on nature and animals. Killer Frost bought books on space and rocks and minerals.

---

Stewie, Lana and Bowser Jr. - Base Hardware Store.

---

Stewie, Lana and Bowser Jr. were at Base Hardware. (Base Hardware is a parody of Ace Hardware.)

They got all kinds of tools for everyday uses.

---

Riku, Lucy, Shannon, Maggie, Brittney and Demona - Goth Topic

---

Riku, Lucy, Shannon, Maggie, Crimson, Brittney and Demona were at the Gothic store Goth Topic. (Goth Topic is a parody of the accessory store Hot Topic.)

Goth Topic was loaded with all kinds of things that are perfect for the lover of darkness and all things dark and depressing.

Brittney: Wow. This is perfect for all goths everywhere.

Maggie: It sure is. And vampires everywhere.

Shannon: I would fit in here.

Lucy: Same here.

Crimson: In Canada there are stores like this. But we never went to any of them on Total Drama.

Brittney: When we get rid of Billy McLean, we're gonna make sure he never terrorizes another teens life ever again. Thank goodness Don wasn't like that.

Crimson: No I think he's the antipode of Billy McLean.

Riku: Billy is pure evil incarnate.

Demona: And we have to make sure he's in prison for life.

Brittney: Yep. The darkness will consume him forever.

They bought all kinds of gothic accessories and more.

* * *

Sandman and Clayface - Earthstorm.

* * *

Sandman and Clayface were at a store called Earthstorm Trading. (Earthstorm Trading is a parody of Earthbound Trading)

They were buying all kinds of rocks and minerals for collecting and to give to us.

---

Nico and May - Cordstrom.

---

Nico and May were at a clothing store called Cordstrom. (Cordstrom is a parody of Nordstrom department store)

Nico: What are you going to get, May?

May: I'm gonna get some awesome clothes to try on.

May picked out some clothes and tried them on and Nico saw her try on different color summer dresses, and all kinds of swim clothes and more.

Nico: Wow! You look so beautiful in all those clothes May.

May: Thanks Nico.

They bought their clothes.

But then a robber open fired.

BANG!

Robber: EVERYBODY DOWN! THIS IS A ROBBERY!

Nico went at the robber!

Nico: You have failed this city!

He punched him in the face and knocked him out with just one punch.

May: That'll show him.

May fired her freeze ray and froze him until the cops came.

Eric Myers came.

Eric: Wow! You busted another one of our most wanted criminals. This is Musclebound Pete. He's wanted all over the country in 20 states for numerous robberies and it's believed that he did some murders.

Nico: Wow! I didn't know that Eric.

Eric: But great job guys. The Silver Guardians and the FBI can take it from here.

Nico: Okay.

Stinkfoot Rupert and Musclebound Pete were arrested and sentenced to 972 years in Federal Prison and we were given the reward money for their capture: $100,627,837,679,633,756,826,876,865.00.

Magnet Man: (To the Viewers) Robbers everywhere, Never mess with Team Loud Phoenix Storm or there will be hell to pay.

THE END

---

Another Fanfiction Complete.

This is a non-combat chapter and I figured it will be perfect for this one. Power Rangers Time Force was an awesome part of the series and we're gonna meet the rest of them in the future. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# The Chicken That Saved the World

It starts in the Jupiter Maximum Security Prison. Maria, Francis, Teresa, Rubberband Man, Nico, Timmy, Tootie, Chloe and Carmen were standing outside of Icky Vicky's cell.

Maria (to Icky Vicky): You thought my rants are bad? How about we hear what my fellow former Metabreed members have to say to you.

Francis: And it goes like this. (Clears throat and sprays his mouth with breath spray and takes a deep breath) YOU MAKE ME SICK TO MY STOMACH JUST LOOKING AT YOU! YOU MOTHERFUCKING TYRANNICAL FUCKED UP BITCH! I WOULD RATHER BURP OUT FIRE THAN HAVE YOU AS A FUCKING BABYSITTER AND I WOULD RATHER LICK SOMEONES FACE THAT WAS NEVER SCRUBBED FOR 85 YEARS THAN HAVE YOU AS A BABYSITTER YOU FUCKED UP MONSTROSITY MOTHERFUCKING BITCH FROM SATAN!

Carmen: You tell her Francis!

Tootie: Yeah! You show that witch!

Francis (pants): Man, haven't gotten that angry since my Bang Baby days.

Teresa: My turn. (Clears throat) YOU ARE THE MOST PATHETIC EXCUSE FOR A HUMAN BEING I'VE EVER SEEN AND YOU MAKE EVEN THE MOST RUTHLESS OF VILLAINS LOOK LIKE TAME KITTENS COMPARED TO YOUR UGLY FUCKED UP FACE AND YOU ARE A TRUE FUCKED UP FREAK OF NATURE! I WOULD RATHER STICK A CACTUS UP MY BIG BUTT THAN HAVE YOU AS A FUCKING BABYSITTER YOU MOTHERFUCKING SNAKE!

Nico: Yeah you tell her Teresa!

Carmen: Yeah! Whoo!

Timmy: I'm glad Icky Vicky is here and never terrorizing the kids again.

Rubberband Man: My turn. (Clears Throat) IF I HAD A DOLLAR FOR EVERY FUCKED UP BRAIN YOU DON'T HAVE, I'D HAVE ONE DOLLAR YOU FUCKED UP FREAK OF PUTRID FLESH! YOU ARE SO UGLY THAT YOU MAKE EVEN SATAN HIMSELF CRINGE IN DISGUST! YOU MAKE ME SO SICK I WOULD RATHER EAT MY OWN VOMIT THAN HAVE YOU AS MY BABYSITTER!

Everyone: EW!

Prisoner 1: Boy that is sick!

Prisoner 2: But you tell her guys!

Prisoner 3: Yeah! Show that fucked up bitch who's boss!

Rubberband Man: Thanks guys.

Clayface: Let's make ranting at Icky Vicky a new weekly thing in place of the Griffin humiliations.

Nico: Good idea Matt.

They left the prison.

Nico: Icky Vicky will always fail this universe.

Maria: Even the prisoners hate her.

Nico: They sure do.

---

Outside of the estate, someone was watching us.

Elena Validus (sees us walking back to the estate): Knew if we followed you idiots long enough, you'd show us exactly where your headquarters was. Thanks, Team Loud Phoenix Storm.

Elena Validus arrived at Lynn Sr.'s restaurant.

Lynn Sr: Excuse me. Are you here for a reservation?

Elena Validus: No. I'm… an old friend of Ben Tennyson's. I just came here to deliver a message.

Lynn Sr: Which is?

Elena Validus (smirks evilly): Tell Ben that we will see him very soon and that he's gonna learn what happened to Kevin. And that it's all his fault! (leaves the restaurant)

Lynn Sr.: Sounds like Ben has a bad history with that girl.

---

Back at the estate, we were watching the 2005 movie Chicken Little. It was a really funny movie about a young chicken named Chicken Little and how he is a paranoid chicken that is trying to help his town, the fictitious town of Oakey Oaks. But it was invading aliens from another planet that made him into a true hero and in the end it was all a misunderstanding. But it was a really funny movie.

We cheered and laughed at the movie.

Me: That movie is so awesome!

Lola: It sure was.

Scrooge McDuck: (Scottish Accent) That was a funny movie lad.

Ginger: (British Accent) It sure was. A splendid performance.

Me: Indeed. In the future Scrooge, we're gonna go after Glomgold. I can tell he was causing a lot of trouble for you.

Scrooge: Ach. Good idea lad. Glomgold will have a nice long stay in one of your space prisons.

Joe S.: That blue alien cop sounded just like me.

Me: He sure did Joe.

Sora: Chicken Little is an awesome friend. And it's been so long since we've seen each other.

Me: Lets go into the Simulator and see Chicken Little,

Nico: Good idea. And I caught an Abomasnow and a Mantyke earlier.

Me: Great job dude. Lets go.

We went to the Simulator.

---

In the Simulator we got ready. It activated and we found ourselves in the world of Chicken Little! The World was full of Anthropomorphic Animals.

Me: Wow! So this is Oakey Oaks. The World of Chicken Little. This is so cool!

Sora: It sure is. I was here during the Search for Riku.

Goofy: Gawrsh it feels like forever ago.

Donald Duck: I'll say.

Chicken Little: Hey guys!

We saw Chicken Little.

Sora: Hey Chicken Little!

Chicken Little: Sora, long time no see!

They hugged.

Me: Hey Chicken Little! How've you been?

Chicken Little: Great J.D. It's great to see you again.

Me: You too.

Chicken Little: I'm glad you all came J.D.

Me: What's wrong?

Chicken Little: Remember when I said that I would need your help later on? Well, that time is now!

Me: Why?

CLANG!

We saw a piece of the sky fall onto Depth Charge.

Depth Charge: OW! (sees the piece of the sky on the ground) I've heard of the sky falling but this is just ridiculous!

Lincoln: How did you find this?

Chicken Little: I also found this one as well.

Pipes: And you haven't told anyone about the sky piece because…

Chicken Little: Because my dad never believes me about the sky falling. And he definitely won't believe me if I told him now.

Me: He will believe it now! Look!

I pointed up to the sky and we saw many alien spaceships come.

Chicken Little's father Buck came.

Buck: I know you have a good explanation, son. Please make it a good one.

Chicken Little: I think that will give you one dad!

Everyone saw the alien ships.

G1 Headstrong: Everyone, stay in your homes. We'll handle this!

Me: This looks like a job for Team Loud Phoenix Storm.

Chicken Little gathered his friends and they all had makeshift weapons.

Chicken Little: I hope dad doesn't ground me for saying this. But, tonight… WE DINE IN HELL!

We did Spartan Grunts like in the movie 300.

Me: Lets get them guys!

Sora: Just like old times, huh?

Chicken Little: You know it Sora. Lets get them!

Everyone: YEAH!

We went at the Alien ships and the aliens came out and they were the same guys but they were really hostile! We punched and blasted all the ships and blew them apart in massive fiery explosions and blew them all into a thousand flaming pieces. The aliens weren't putting up much of a fight and now it erupted into a firestorm. We blew them apart and more.

Me: Time to finish these creeps off! Combo and Final Smash time!

Clayface: You got it J.D.! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and it enhanced his clay powers 100-fold.

G1 Headstrong: Time for action! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Headstrong's back and it enhanced his speed, strength and horns 100-Fold.

Clayface and G1 Headstrong: SUPERCHARGE MACE PULVERIZER!

Clayface formed his right hand into a massive mace ball and Headstrong charged and they slammed into a bunch of ships and blew them to pieces and they exploded.

Pipes: Lets get him! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his corrosive dual exhaust pipes.

Depth Charge: Lets do it. CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his Manta Ray powers and his abilities 100-fold.

Depth Charge and Pipes: ACID MANTA ENERGY BURST!

Depth Charge fired a disk blast from his chest and Pipes fired his corrosive exhaust and it burned the ships and melted them and they exploded.

Me: Final Smash time!

Ginger: Lets get them! CHICKEN PIE BOMBSTORM!

Ginger pulled out a Chicken Pie Bazooka and fired it at rapid fire and the pies hit the ships and blew them all apart.

Rocky: Lets do this! FLYING CHICKEN CANNONBALL!

Rocky got shot out of his cannon and plowed through numerous ships and they exploded.

Chicken Little: This is gonna be so awesome! EGGBOMB BOMBSTORM SURPRISE!

Chicken Little fired numerous egg bombs and destroyed the rest of the ships.

Me: That's the last of them.

Nico: You alien freaks have failed this world!

Me: You tell them Nico.

Chicken Little: (to the viewers) You mess with my friends and Team Loud Phoenix Storm or there will be terrible consequences.

Me: You said it Chicken Little.

We left the Simulator and we added the world of Chicken Little to the orbit of the Land of Departure.

THE END

---

Another Fanfiction complete.

I just saw the movie Chicken Little and it was so funny and awesome! 2005's Chicken Little was so funny! NicoChan11 gave me the ideas for this one and he suggested that we do this chapter. Thanks man as usual. Let me know what you all think.

See you all next time.

# The Evil Nanite Queen

It starts at Gotham Royal York High School. I was having a lunch break and surfing the internet and I found something that really disturbed me. I found a website called the Scooby Gang Revenge Social Network. It's a website that was made by all the villains that the Mystery Inc. gang busted over the years and they want revenge on the Scooby Doo Gang for busting them and throwing them in prison. The symbol was the no sign over running images of Fred, Daphne, Velma, Shaggy and Scooby Doo. I was absolutely horrified when I found this. Now all the villains we busted want to kill my friends to get revenge.

Me: I can't believe this! Lori come here!

Lori came over.

Lori: What's wrong J.D.?

Me: Look at this.

Lori: "Scooby Gang Revenge Social Network?" (Gasp) This is literally horrible! I can't believe all the villains our friends on Mystery Inc busted would want them dead for putting them in prison.

Me: Meddling may be good for us. But it's bad for the criminals we bust. But who gives a flying fuck what they think? But we can't let a website like this be on the social internet ever. Look at how much it's bad ratings are.

Lori: Some people are literally that stupid.

Me: They just don't know how to leave things buried. Some scum just can't take a hint and they want revenge for being put in their place.

We went to the computer lab and I sent a message to the United States Department of Defense, the Federal Communications Commission and the internet companies around the world about the bad website we found and how the villains all of Mystery Inc busted want to kill my friends.

Lori: So what are you gonna do J.D.?

Me: I'm going to send a threatening message to all the villains we busted and tell them that if they hurt our friends in any way, shape or form, there's going to be hell to pay in blood.

Lori: Ooh! I like it!

Me: Since we can't use my computer at the estate for it we'll have to do it the old fashioned way with video camera communication.

Lori: You got it.

We got the approval of the school board and we got ready.

In the prisons all over the world, the villains Mystery Inc. busted were getting onto the Scooby Gang Revenge Social Network when suddenly a message came on that said "This Website has Been Seized by the FBI."

Then a video screen appeared and I was on it.

Me: Hello villainous fuckpots. You all may remember me as J.D. Knudson, the Leader of Team Loud Phoenix Storm. But I'm also the member of Mystery Inc. who busted you all ages ago.

I showed them a video montage of everyone that we've busted.

Me: Yes. I'm sure you get the idea. But that's not why we've shut down your website. You see, we shut it down because you tried to kill our friends for our meddling in your criminal affairs. But we did it for a reason. You mess with our friends and I will mess with you. Consider this your first and only warning. And if you ever mess with our friends ever again in the future, there will be hell to pay in blood. Remember this you assholes, shit happens and meddling can be a good thing.

My message clicked off.

Guard: And the district attorney's of where you all came from extended your sentences to life in prison without parole!

All the villains we busted were now forced to spend the rest of their natural lives in prison without the possibility of parole.

Back at the school I told everyone that it worked. I then got a call on my cell phone.

Me: Hello.

?: J.D. Knudson it's a pleasure to meet you. I'm Christopher A. Wray, director of the FBI.

Me: Director Wray. It's a pleasure to talk to you. What can we do for you?

Director Wray: You'll be happy to know that we have shut down that website and as a bonus all the villains that were busted by Mystery Inc. and you were now given an extended sentence of life in prison without parole.

Me: That's great news Director. Thank you so much.

Director Wray: No thank you J.D. We all owe you one. You managed to expose a major first class conspiracy against not only your friends but also against the world. All the villains were gonna get out one day and kill them.

Me: Wow! I had no idea it was that serious. But I'm glad we could help out.

We did a great service to the world. Next I called Mystery Inc.

* * *

In North Carolina, Mystery Inc. was searching for their next mystery when they got a call on their laptop.

Fred: I wonder who that is.

Velma answered it and it was me.

Me: Hey guys.

Velma: Hey J.D.

Shaggy: Like Hi J.D.

Scooby Doo: Rey rude!

Daphne: Jeepers! It's great to see you J.D.

Me: It's great to see you all too. I have great news for you. Remember how you found out about that revenge scheme pulled on you by C.L. Magnus, Lila, Mr. Crawls and Mama Mione?

Fred: Yeah.

Me: Well I found their website and reported it to the FBI, The Federal Communications Commission and the United States Department of Defense and we shut it down for good. And the FBI and the United States Attorney General decided to extend all the sentences of all the bad guys we busted to life without parole.

Velma: Jinkies! That's great J.D.!

Me: Yep. They will never see the light of day again.

They cheered.

Fred: Who told you that J.D.?

Me: I got a call from Christopher A. Wray, the director of the FBI. He told me so.

Shaggy: Like that's amazing!

Crystal: I'm glad we'll never have to see those creeps again.

Me: I agree. But good luck finding more mysteries. And tell them that meddling is a good thing.

---

Later we went back home. Me, Nico and Lincoln were walking back.

Me: Boy those scumbags got what was coming to them.

Nico: You said it dude. All the villains you guys have busted have failed this world.

Lincoln: And then some Nico.

Me: Yeah. But some people are just that stupid and they want revenge for being put in their place.

Lincoln: I can't believe people are like that.

Me: Me neither. But this was a genius use of technical ingenuity.

Lincoln: It sure was.

Just as we walked by a storm drain, something caught Lincoln's eye.

Lincoln: Huh?

Me: What is it Lincoln?

Lincoln: I see something in this drain.

Nico: Is it a quarter?

Lincoln: No it looks like a computer chip.

Me: Hmm.

I used my magnetic powers and attracted the object to me and I grabbed it. It looked like a strange computer chip.

Nico: It's some kind of strange computer chip.

Me: This is definitely not like any kind of computer chip I've ever seen. Lets take it back and run an analysis.

We did so.

---

Back at the estate I was running some data tests on the chip and I made a rather unusual discovery. The chip is actually part of an Extraterrestrial Superorganism Silicon-Based Colony that comes from another planet system located 79,000 light-years from Earth. They are all ruled by a single queen.

* * *

The Queen produces Nanochips from her body and later after she takes up residence in Victor Validus' body, she produces them from there and they have the ability to take over a person's mind. They are a hybrid which is part organic matter and part machine as pointed out by Kevin.

In several days, they mind-conrolled whole Bellwood Citizens. Ben Tennyson and his friends understood it, when they've met [[File:]]with some citizens, who were under control of nanochips, when they saw that some of humans eyes, glowed by strange light, and one teenage girl had nanochip, under her skin on the neck. Using human's bodies, Decoy Queen and nanochips, inside of humans, were providing more and more nanochips, so they can spread them through whole world and mind-control other humans and animals. Max Tennyson, grandfather of Ben was also possessed by nanochips and he worked on Decoy Queen. But when the Queen was destroyed by Nanomech, all nanochips were destroyed, and people were free from mind control.

The Nanochips surprisingly returned in the Ben 10: Ultimate Alien episode Revenge of the Swarm. The team discovered that the chips took over Elena Validus' mind and had made her the Queen of the Hive. After Elena sacrificed herself for Ben by destroying her nano self, the chips still had some life in them.

* * *

Nico: So these chips are a vast colony that wants to destroy the Earth!?

Me: Not destroy it, enslave it. Ben and Gwen told me that they know someone that is actually the queen of this whole colony. Her name is Elena Validus.

I pulled up her profile.

---

According to Gwen, Elena was Ben's first crush. She helped Ben joining the soccer team when he was 3 and used to be best friends with him and Gwen. While this was happening, her father Victor Validus had been studying the Nanochips for years and eventually becomes overtaken by his work. Upon realizing he's been infected by the Decoy Queen, Victor tries to warn Max about "The Hive". However, Max believes that Victor was stealing from him and orders him and Elena to leave Bellwood immediately. Ben and Gwen were saddened when Elena left, so Max chose never to tell them why they moved away.

Elena first appeared in the live-action film, Ben 10: Alien Swarm, when her father was kidnapped and used as a Hive for the chips. She tries to attract attention by organizing an illegal trade on the black market, hoping the Plumbers will catch her and she'll be able to explain. Kevin Levin posed as the buyer, with Ben and Gwen as his partners. Elena reveals herself to the trio asking for help and Ben agrees, when suddenly the chips come to life and attack them. Kevin suspects that Elena set them up, but Elena insists that she had nothing to do with it. Elena mysteriously disappears during the team's battle against the Nanochips, which arrived Kevin's suspicion even more. Later, Elena follows them to Plumbers HQ but Max catches her and kicks her out.

The next day, Ben runs into Elena while she was riding her motorcycle and accompanies her to her father's lab. As they investigate the remains of Victor's research, Bellwood Citizens attack them while under the influence of the chips. They manage to escape when Ben launches a pulse feedback onto the victims. They then find Gwen and Kevin running from a giant Nanochip mace. Ben transforms into Humongousaure and destroys the mace, demolishing Kevin's car in the process. The four return to Plumbers HQ where Max is receiving reports about victims all over the world. He wasn't happy to see Elena at first, but later realizes that Validus may have been right all along and allows her to help. Unfortunately, Max becomes possessed by one of the chips and escapes. Without Max, the team discovers that the Nanochips are being mass produced at a factory in Missouri. They all travel to Missouri in the new car Kevin got Ben as an early birthday present and sneak into the factory. There, the team discovers that the Queen is inside Victor's body using him as a Hive to mass produce the chips. Elena admits to have known her father was being used as The Hive all along, but she didn't say anything fearing they wouldn't believe her (just like how the Plumbers didn't believe her father). While Gwen and Kevin consider sacrificing Victor to save the world, Ben and Elena are against it. Instead, Ben using his newest transformation, Nanomech, to enter Victor's body and destroys the Queen. Without the Queen, The Hive dies freeing their victims and ending their threat. Elena is last seen walking together peacefully with Ben's Team, teasing Gwen on how she earned her place in their team.

Elena reappears in the Ultimate Alien episode, Revenge of the Swarm. It is revealed that her father died and she usurped his research in studying the Nanochips, even creating a forcefield barrier to prevent them from escaping. When Ben shows her the chip that was part of the swarm that attacked him last night, Elena lies saying it isn't hers. Later, she finds the team inspecting her father's grave in the cemetery and agrees to help them in resolving the mystery saying that their situation is far more important than work. However, when the chips kidnap Julie, Ben grows suspicious of Elena and eventually discovers that she is the one siccing them on others so she can have him to herself. This is proven further when Elena transforms into a Nanochip hybrid, revealing that the Nanochips possessed her into becoming their new Queen whereas the one destroyed by Nanomech was a decoy. She defeats Armadrillo by choking him with Nanochips, but Julie breaks free of her bonds and appeals to Elena's inner goodness convincing her to stop. Elena agrees and sacrifices herself to destroy The Hive once and for all, but later the Nanochips begin to reform hinting some life left in them.

In The Perfect Gilfriend, Elena is revealed to have survived her attempted suicide. When Julie goes away for a tennis tournament, Elena impersonates her identity to be with Ben without him knowing it's really her. In her Julie form, she does whatever it takes to please Ben and even lets him stay home and watch Sumo Slammers while she goes shopping with Gwen. Elena also decides to eliminates everyone else around so no one will suspect her, such as pushing Gwen off of an elevator shaft albeit she survived the fall and bringing to life Evil Buildings to kill Kevin (unaware he was rescued by Ben as Way Big). Despite all these actions taking place whenever "Julie" is around, Ben remains unaware of her true identity until he sees a replay of Julie's tennis tournament from yesterday. At this point, Elena finally reveals herself to Ben much to his horror and disapproval. Things get worse when the real Julie returns from the trip, provoking Elena to transform into her Nanochips form again and defeats Ultimate Echo Echo by choking him with Nanochips again. However, Julie reminds Elena that she kills Ben then no one will have him. Elena eventually escapes through the sewers proclaiming: "[She] now knows hate is like!".

* * *

Nico: So that's Elena. She doesn't look like much.

Me: No but this is what she looks like as the Alien Nanochip Queen.

I pulled it up and her appearance looked completely different. It looked like a combination of Aku, Maleficent, Venom and Inque all together.

In her Nanochips form, she is ten feet taller and her body is black with blue stripes. She no longer has pupils and her eyes are much larger. She also has horns on the top of her head similarly to that of Aku or Maleficent and she speaks in an ominous voice.

Nico: Whoa!

Lincoln: She looks like a female Aku!

Me: That's what I first thought too. It looked like Aku had returned. But this is actually the Nanochips as Elena that have taken this form.

Nico: So Elena Validus must've found us.

Me: I have that feeling too Nico. And if she's out there she's gonna be more dangerous than ever.

Nico: Maybe there's a strong possibility that Kevin is with her.

Me: Maybe.

---

In the middle of town, Ben was driving his car home to the estate. Gwen and Riley were with him. They had just foiled another Bank Robbery.

Ben: Another Robbery stopped.

Gwen: You're getting really good at this Ben.

Riley: He sure is. And he's an awesome force to be feared. I've even been made a member of the Plumbers too.

Riley had an awesome Plumbers badge on her belt.

Gwen: That badge looks really good on you Riley.

Riley: Thanks Gwen. Wait. I see someone hurt.

Ben saw who was hurt and he recognized her. It was his ex-girlfriend Julie Yamamoto.

Ben: That's Julie!

Riley: Is that the Julie you told me about Ben?

Ben: Yep.

Gwen: She looks hurt!

Ben: Lets go!

They pulled over and they saw Julie in pain and she was holding her hand over her stomach as it was bleeding.

Ben: Julie!

They went over to her.

Julie YamamotoL (smiles weakly) Hey, Ben. Long time no see.

Ben: Julie! Are you ok?

Julie Yamamoto: (winces in pain) Not really. I was attacked by Elena Validus on the way here. And now I'm starting to feel sick.

Gwen Tennyson: I'll go get Ratchet so he can examine you.

Ben: Lets get her in the car.

The loaded her in and drove to the estate.

Riley: You're really warm Julie. Sorry I'm Riley Anderson and I'm Ben's girlfriend.

Julie: It's a pleasure to meet you Riley.

Riley: Save your strength Julie. We'll get you some help.

Julie: Okay.

Riley saw the wound.

Riley: That wound is bad. We'll get you help Julie.

They drove into the estate lot.

---

We were continuing to research the alien microchips and Ben came in with Julie.

We took Julie to the infirmary and she was gonna be all right.

Ben: Julie, I'm so glad you're ok.

Julie: Well, I don't know about that. I started to feel sick ever since Elena scratched me.

Ben: If she's here, then we need to stop her.

Julie: There's something you need to know. Kevin is with Elena.

Ben: Are you sure?

Julie: Yeah. And he… (holds her stomach in pain)

Ben: Julie! What's wrong?

Julie: It's getting worse! My stomach. The pain! (her eyes glow) THE NANOCHIPS! (lunges at Ben)

Ben turned into Goop and Julie's hands passed right through him.

Goop: Julie, calm down!

Gwen enters the room with Ratchet.

Ratchet: Is she in here?

Gwen: Yeah but… Julie? Oh no.

Julie: (turns to her) Gwen, please. Get away while you still can. I can't control myself!

Laney wrapped her in vines to restrain her.

Me: Let me see if I can find the chip she put into you.

I turned on my X-Ray vision and saw that the chip is inside her head.

Me: It's inside her head.

Lincoln: I got this. I'm going ghost!

Lincoln turned into Lincoln Phantom and he turned intangible and reached into her head and pulled out the chip and Julie collapsed in exhaustion.

Lincoln: Got it!

Lincoln reverted back.

Me: Very clever buddy.

I took the chip and crushed it under my boot.

Ben: Julie I'm glad you're all right.

Julie: I'm free now. Thank you all.

Me: You're welcome Julie. You were about to tell us about Kevin.

Julie: Oh yeah. Ben, Vilgax got to Kevin and turned him into Ultimate Kevin! He's out of his mind with anger and rage and he has no idea what he's doing! Elena has Kevin with her and she's going to destroy the city! I tried to stop them but I was too weak.

Sunny: That's the result I was gonna tell you! Vilgax got to Kevin and poisoned his mind.

Gwen: We still can save him!

Me: And we will. Riley, you will face Elena while we save Kevin.

Riley: You got it J.D.

Me: Julie, you stay and get some rest. You did your best and that's all that counts. But you did a good job.

Julie: Thanks J.D.

Me: Lets go guys! Team Loud Phoenix Storm…

Jaime: And Team Loud Fairywind…

Me and Jaime: LETS FLY!

We were off to the outskirts of the city.

* * *

Elena Validus was standing on the dock of a wharf and with her was ULTIMATE KEVIN! He was a fusion of all the aliens in the Omnitrix.

Kevin had the limbs of the following:

Kevin Levin: Hair, clothing

Necrofriggian: Wings, hood

Cerebrocrustacean: Two legs in place of lower left arm, right hand

Crystalsapien: Right shoulder crystals

Petrosapien: Right arm structure

Polymorph: Body structure

Vaxasaurian: Torso, body shape, chest plates, tail

Evolved Vaxasaurian: Face, right eye

Aerophibian: Face, skin, right foot

Sonorosian: Inner mouth

Biosovortian: Left shoulder spike, Right hand

Appoplexian: Upper left arm, left foot, left wrist claw

Arachnichimp: Lower right arm

Evolved Arachnichimp: Lower jaw

Methanosian: Left arm structure

Orishan: Water ports

Ben and the team arrived and they saw them.

Ben: (sees Ultimate Kevin) Kevin? But we thought you were dead.

Elena Validus: Let's not fall out here, Ben. We and the rest of the Legion of Doom might have told you a teeny tiny little lie. But c'mon! Look at him. You did good. He's grown up to be the perfect monster. You should be proud.

Ultimate Kevin: What's the matter? Lost for words? I expected more. I'm hurt.

Ben: Kevin, I had no idea that Vilgax did this to you.

Ultimate Kevin (enraged): Don't you dare lie to me! How long did you and Gwen wait before settling in your home, huh? A month? A week? I trusted you two! And you both just left me to die!

Ben: Kevin, no! That's not what happened!

Ultimate Kevin: You always told me, Ben… Focus on what I want to achieve… and it'll happen. Well, you wanna know what I want now? Huh? I want you DEAD. (fires Diamondhead shards at Ben but he turns into Ultimate Echo Echo)

Ultimate Echo Echo: (TECHNO VOICE) ULTIMATE ECHO ECHO! (fires sonic blast to destroy the diamond shards while also making a smokescreen)

Ultimate Kevin (smoke clears to reveal Ultimate Echo Echo gone): You can't hide from me! I will hunt you down!

Ultimate Echo Echo: (hiding on a nearby rooftop) **There's no way I can take Kevin in a physical fight. I need to surprise him with stealth attacks.**

Then we swooped in out of nowhere and punched him in the face and sent him crashing into the dock.

Me: Kevin Ethan Levin! We were worried about you. We thought you died.

Ultimate Kevin: But you will die when I get my hands on you! (Fires Ampfibion's lightning at us and I fired more powerful lightning and it hit him and exploded.)

I kicked him in the face and punched him in the stomach and fired an energy blast and blew him into the warehouse!

He exploded out of the rubble and was flying with Big Chill's wings.

Ultimate Echo Echo flew up to him.

Me: An Evolved Sonorosian!

Ultimate Echo Echo: (grabs Kevin by the arms) **Kevin, please! We can help you!**

Ultimate Kevin: There's no helping me! (gets him off with Ampfibian's lightning)

Nico flew up to him and punched him in the face with devastating force.

Nico: (freezes Kevin's legs with Vexen's ice) Vilgax got in your head! Believe me, I know what it's like!

Ultimate Kevin: Don't pretend to understand! (melts ice with Heatblast's flames)

Lincoln: (Fires a powerful blast of lightning at Kevin and electrocutes him) How fucked up are you to believe that stuff Vilgax told you!?

Ultimate Kevin: (Fires Brainstorms Lightning at Lincoln!) ENOUGH TO KILL YOU!

Lincoln countered with more powerful lightning and the blasts collided and exploded.

KRABBBOOOOOOOOOOOOOOOOOOMMMM!

Ultimate Kevin: (fires Jetray's eye beams everywhere) You're no hero, Tennyson! You failed me, and now you're going to fail Gotham Royal York the same way!

Kevin was destroying much of the city and turning it into a massive and raging epic conflagration. Massive explosions erupted all over the place. Luckily a massive force field was protecting the whole city.

Spiderman: (webs Kevin up) Dude, you need to calm down!

Ultimate Kevin: And you need to hang on! (phases out of webbing with Big Chill's Intangibility)

Gwen (restrains Kevin with Mana): You're our friend, Kevin! You're not what Viglax turned you into!

Ultimate Kevin (absorbs Mana with Chromastone's powers): Stop! Stop talking to me! (fires laser blast at her)

I deflected the blast at him and Punched him in the face.

Me: This ends now Kevin! Don't make us kill you!

Ultimate Kevin then got enraged and he went at me and I went Super Ebonwu 30,000 Phoenix Fire and we went at each other and slammed into each other with a massive fiery explosion and we punched and kicked each other all over the place with massively destructive and indiscriminate fury! Massive thunderous fiery explosions erupted out and were being felt all over the place. The fight was so massively powerful that it was shaking the very planet and the entire universe to the core. We all went at him and pulverized him with such indiscriminate fury that it was unbelievable! Massive explosions of the elemental forces were blowing apart the land and more as the whole city was quaking before out incredible battle. Our power was equal in every way to his. Kevin had the powers of over 1,000,000+ aliens in his arsenal and it was an epic and ferocious battle that threatened to tear the entire galaxy and the entire planet apart! The whole city force field was now completely engulfed in a raging inferno, and massive thunderstorms raged all over the place with lightning striking everywhere at a ferocious level. It was a massive, relentless, brutal, ferocious and savage onslaught and Kevin wasn't even giving us a break as he was putting up one of the most ruthless and most incredible battles we've ever had.

Manny: This can't keep going! We have to stop Kevin now or the whole planet is gonna be destroyed!

Helen: But how can we stop him? He has all our moves and powers.

I punched Kevin in the face and sent him crashing into the force field where he was electrocuted. He rebounded and flew at us and I dodged him and kicked him in the back and sent him crashing into the pier and into the water. He exploded out of the water enraged!

Ultimate Kevin: (ENRAGED SCREAMING) I HATE YOU!

Our auras flared up with a more powerful intensity!

Me: GO FUCK YOURSELF SHITLESS!

I punched him in the face and we kicked him in the stomach and he belched up a massive amount of blood. I backed away from him.

Me: (Cups hands to side) KAAAAAAA MEEEEEEEE HAAAAAAAA MEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

Kevin fired Way Big's Cosmic Ray and I fired a massive red Kamehameha Blast and the blasts collided and the shockwave from the blast was so powerful that it blew the water back!

Me: His power is incredible! But so is mine! HAAAAAAAAAAAAAAAAAAAAAAA!

My blast overpowered Kevin's blast and it hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Carol: Lets see how you like this! Lincoln, Linka, Nico, Gabrielle, supercharge me!

Lincoln: Coming at you Carol!

Lincoln, Linka and Gabrielle fired powerful blasts of lightning at Carol.

Nico: DRAGON THUNDERCLAP!

Nico fired a powerful blast of lightning at Carol and lightning from the storm clouds hit Carol and supercharged her and the lightning combined and hit her and supercharged her and she was overflowing with incredible electricity! She was using King Kong from 1962's powers of absorbing electricity to make herself more powerful!

Carol: Lets see how Kevin likes this!

Carol flew over to Kevin and grabbed him and lightning surged from Carol's hands and burning him all over the place with 100 quadrillion volts of electricity!

Carol fired a massive blast of lightning from her hands and it hit

Kevin and exploded as it electrocuted him.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets finish this! Combo time!

Sub Zero: Lets get him! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and he sprouted the wings of an ice dragon and it enhanced his ice abilities 100-fold.

Huffer: Lets bring this freak down! CYBER KEY POWER!

The Earth Cyber planet Key went into his back and enhanced his fusion torches 100-fold and 5 more torches popped out.

Sub Zero and Huffer: STEAM DRAGON FUSION BOMB!

Sub Zero formed a powerful ball of Ice Energy and Huffer formed a powerful ball of Fire Energy and the blasts combined and turned into a massive white ball of fusion energy. They fired it and it hit Kevin and exploded with incredible power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Magnet Man: Our turn! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Magnet Man's right arm and it enhanced his magnets and enable him to fire Aurora and Solar Wind.

Bonecrusher: Time for action: CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his strength.

Magnet Man and Bonecrusher: SOLAR WIND SUPERPUNCH BARRAGE!

Magnet Man had Aurora Borealis energy around his magnet and Bonecrusher had his enhanced fist. And they punched Kevin at the same time with devastating force.

KRABBBBLLLLLAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

Ben: Lets do this! Final Smash time! FURY OF 1,000,000 ALIENS!

Ben flared up his aura and the spirits of all the aliens he has in his Omnitrix appeared and he and those aliens flew at Kevin and mercilessly pulverized him.

Riley: Lets do it! PLANT SWORD EXPLOSION SLASH!

Riley formed a sword of plants and she slashed Ultimate Kevin and it exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Ultimate Kevin was beat.

Ultimate Kevin (on the ground while glaring at Ben): You did this to me!

Ben (sadly): I'm sorry.

Ultimate Kevin: You left me to rot in that ship for a fucking year… with that squid faced asshole!

Ben: It's not too late. Let us help you.

Ultimate Kevin had no choice but to accept defeat as Ben contacted Azmuth.

Ben: Azmuth, I found Kevin.

Azmuth: Can you repeat that again? I must have misheard you. For a moment, I thought that you said you found Kevin Levin.

Ben: You heard right.

Azmuth: My God! Is he ok?

Ben: No. He's not. But he will be.

Ben turned into Feedback.

Ben: FEEDBACK!

Feedback used his energy powers to strip Kevin of his Ultimate Kevin form and he was being reverted back to normal.

We went over to him.

Gwen: Kevin, are you ok?

Kevin: Gwen, what happened? The last thing I remember was being on Vilgax's ship.

Ben and Gwen laughed as they hugged Kevin, the trio was finally reunited.

Me: Welcome back Kevin.

Riley: But we still have one loose end to tie up.

Riley went over to face Elena.

Elena V.: You ruined everything!

Riley: Elena, you are not yourself. Those alien microchips are the true cause of you becoming like this! The queen is controlling you! You have to fight her!

Elena turned into her Alien Queen form!

Riley: Whoa!

Elena: (Distorted Voice) **We will not let you get to Ben. He is rightfully ours!**

Venom: And we thought those bonded with Symbiotes can say We.

Riley: Elena, listen to yourself! Those alien microchips are messing with your mind and they turned you into their slave! A pawn with no free will! Is this the life that you want?

Elena was thinking about what Riley said.

Riley: Elena, I can free you from the control of the Alien Microchip Queen and you can control the chips to use as a powerful force of good! You just have to trust me!

Elena was thinking but the Queen was not gonna let her.

Riley: Here we go. You guys got my drums ready?

Me: We sure do Riley.

We had Solomon Island Native Drums and we played the chant from King Kong VS Godzilla in 1962. It was the chant of Faro Island in the Solomon Islands in the Bougainville area. Spiritual images of the natives of Faro Island dancing to the chant were seen by Riley. The chant caused Elena's head to get a gash in the middle of her forehead and out came the queen microchip and Riley grabbed it and put it on the ground and crushed it with her foot. Destroying it completely and Elena's mind was now back in full control. As a result, her horns left and her face and skin and hair changed back and she was now wearing a black and blue sleeveless unisuit.

Riley: Elena. Are you alright?

Elena V.: What happened?

Riley: It's a long story Elena. But you're now free from the Alien Queen Nanochip's control and you have full fledge control over the Alien Microchips.

Elena had tears come down her face and she broke down crying and Riley comforted her.

---

Back at the estate, we were telling Kevin about all our adventures.

Kevin: So let me get this straight. You've been helping J.D. and the others kill villains like Joker and Scarecrow…

Ben: Kevin, please. I know you're probably mad.

Kevin (grinning): Oh, I'm mad. Mad you haven't invited me to the killing sessions!

Me: Sorry dude but you weren't with us at the time.

Kevin: True.

Ben: So you don't know what happened while you were mutated?

Kevin Levin: Actually, no. Usually, I remember what happens when I'm mutated. I think this is a sign that my energy absorbing abilities are getting out of control. If I absorb energy and get mutated one more time, I might never go back to human again.

Ben: That's fine. I don't even like your mutated form. He's all "Destroy everything!" I prefer you. What, with all the alien knowledge and sarcasm.

We laughed.

* * *

In the infirmary, Riley was talking to Julie.

Julie: I'm glad Elena's back to normal.

Riley: Me too Julie.

Julie: Riley, please take care of Ben.

Riley: I will. But just because you and him are no longer a couple doesn't mean you can't be on the same team as him. You're actually a lot nicer then most exes that we've encountered.

They laughed.

Julie was put in a wheelchair. She was gonna have to wait until she's fully healed before she gets back in the field.

Riley: (To the viewers) This was an action packed adventure and I hope you all loved it.

Julie: Who are you talking to?

Riley: We have this bad habit of Breaking the fourth wall. It's a cool way to address the masses out there.

Julie: Oh cool.

---

In the Living room, Julie was with us.

Ben (to Julie): Julie, if you and Kevin are gonna be on this team, then you know you'll have to help us fight villains a different way now. No more knocking the bad guys down and then letting them run off to fight another day. From now on, we either throw irredeemable villains in the prison J.D. and the others made or kill them. Scumbags like Vilgax have proven they'll do anything to hurt us.

Me: That's right Ben. And he will pay for his crimes against the galaxy!

Nico: He sure will. Kevin I'm sorry we hurt you like that.

Kevin: No hard feelings Nico.

Me: But I'm glad we reunited you all.

We formed a new branch of Team Loud Phoenix Storm for them called the Omnitrix Brigade and Elena and Kevin were also in the Redemption Squad. Nico also caught a Weavile and a Magnezone. Later we showed Kevin some examples of our rants on Icky Vicky.

Me: See that red hair girl there Kevin?

Kevin: I sure do.

Me: That girl is the worst ever babysitter that ever lived. Her name is Vicky. But we call her Icky Vicky. She is pure evil incarnate.

Timmy: Yep.

Timmy revealed everything about the full extent of Icky Vicky's evil nature.

Kevin: Jeez! That girl makes even Vilgax cringe.

Me: My thoughts exactly. We made this into our new weekly game where we rant out the biggest insults ever known at her. Julie you're about to see what I mean. But be warned though. It's not gonna be pretty.

Julie: I can handle it.

Me: Okay.

Clawful: (On the holographic screen) Do you want to know what I think about you Icky Vicky? [screams] **Arrgh! Regga flebba breeka brecka smullen-ellen Icky Vicky! Yegga hegga mergin babysitting! Dimmy middy freak! Rivy flivy diva shiva Icky Vicky's Babysitting!**

We laughed at what he said.

Lily: That is so funny! Mr. SquarePants said the exact same thing to Mr. Krabs one time.

Me: I remember that Lily. But that was so funny!

Next was Rhino.

Rhino: Here's what I think about you Icky Vicky! (Clears throat and sprays mouth with breath spray) YOU ARE A STUPID FUCKED UP BITCH THAT HAS ABSOLUTELY NO RESPECT FOR THE VALUE OF HUMAN LIFE! YOU SMELL WORSE THAN A LITER OF TOXIC WASTE THATS BEEN LIT ON FIRE! AND YOU GIVE ALL FUCKED UP BITCHES AND EVEN BETTER NAME: MOTHERFUCKING PUTRID FUCKING (CENSORED)!

Prisoner 1: Whoa! That is mondo harsh but perfect for that bitch!

Prisoner 2: YEAH! YOU SHOW HER RHINO!

Prisoner 3: Whoo-hoo! Yeah!

Rhino: Thanks guys. (To the viewers) Even I have to be careful about has to be said.

Electro: (From his cell) YEAH! You show that fucked up bitch Aleksei!

Electro is being held in a solitary confinement cell.

Me: Geez! But great show dude!

Nico: Whoo! Yeah!

Kevin: That is a colorful vocabulary you guys have. But she deserves it nonetheless.

Me: You got that right Kevin.

Randy: My turn. (Growls) YOU MAKE ME SICK YOU MOTHERFUCKING MENACE TO SOCIETY! I WOULD RATHER EAT PIGS THAT HAVE BEEN ROLLING IN POOP AND SHIT THAT HAVE YOU AS MY BABYSITTER YOU FUCKED UP PIECE OF SHIT AND PUSS! MY OWN MOTHER WOULD BE SCARED OUT OF HER FUCKING SKIN FROM JUST THE MERE SIGHT OF YOU!

Prisoner 1: Yeah you tell that bitch!

Elec Man had a concession box with popcorn, hot dogs and snacks with him.

Elec Man: Hot dogs, Popcorn, snacks and soda! Get your snacks here!

Prisoner: I'll take some popcorn.

Elec Man handed him some popcorn.

William: My turn. (Takes a deep breath) YOU HAVE THE WORST REPUTATION IN THE HISTORY OF THE FUCKING WORLD AND I WOULD RATHER KISS A PILE OF GARBAGE THAN HAVE YOUR MOTHERFUCKING SHITSTAINED FACE BABYSIT ME YOU FUCKED UP BITCH FROM HELL!

Prisoner 1: Yeah you show that bitch kid!

Prisoner 2: You got to admire their spirits.

Guard 1: That's telling her though.

Guard 2: Good show William!

Me: You tell her William!

Maria: That's my boyfriend there!

Kenai: My turn.

Kenai walked up to her and ROARED AT HER FEROCIOUSLY LIKE A RABID GRIZZLY BEAR!

Kenai: I HATE YOU SO MUCH THAT IT MAKES ME SICK TO MY FUCKING STOMACH!

Then Kenai threw up all over Icky Vicky and she was completely covered in head to toe in rotten, disgusting vomit made with fish guts and it smelled really horrible!

Everyone: EEEEEWWWWWWWW!

Guard: Oh that is disgusting! But that fits her perfectly.

Me: Oh yuck!

Nico: Bear throw up.

Laney: But it serves that freak right.

Sandman: My turn. Sweetheart, I hope you're watching this.

Penny M.: I sure am daddy.

Sandman took a deep breath.

Sandman: YOU HAVE A MAJORLY FUCKED UP BRAIN THAT NEEDS TO BE TAKEN OUT AND THROWN INTO A LANDFILL THAT SMELLS WORSE THAN A THOUSAND ROTTEN FUCKING CORPSES! I WOULD RATHER WIPE MY OWN ASS WITH IT THAN HAVE YOU BABYSIT ME YOU FUCKED UP BITCH!

Prisoner 4: Yeah you tell her Flint!

Prisoner 3: Way to go Flint!

Guard: Nice job Flint.

Sandman: Thanks.

Electro: That's showing that fucked up bitch Flint!

Sandman: Thanks Dylan.

Me: That's telling her Flint!

Penny M.: That's my daddy!

Clayface: My turn.

Clayface turned into Icky Vicky with his form-shifting powers and he danced around stupidly and everyone was laughing at it.

Prisoner 1: Oh that is so funny!

Prisoner 2: (Laughing Hysterically)

Guard 1: That is so funny!

Guard 2: (Snickered)

Clayface reverted back.

Clayface: YOUR FORM MAKE ME WANT TO WASH MY FUCKING MOUTH OUT WITH FUCKING SOAP YOU FUCKING FREAK!

We laughed.

Kevin: (Laughing) That was so funny!

Poromon: My turn. I hope Nico doesn't punish me for what I'm about to say. (Takes a deep breath) YOU ARE THE WORST EVER FUCKING FREAK IN THE HISTORY OF THE DIGITAL AND REAL WORLDS AND I WOULD RATHER KISS NICO'S BUTT AND EAT HIS SAIYAN TAIL THAN HAVE YOU AS A BABYSITTER!

Prisoner 1: You tell her kid!

Guard: Nice one Poromon!

Nico: (Offended) Hey!

Me: Aw it's only directed at Icky Vicky man. Besides, little guy has got spunk.

Elec Man: My turn. I saw this one on TV.

Elec Man was enveloped in a ball of lightning.

Elec Man: (Opens his menacing eyes and unleashes a massive beam of lightning which pierces through the orb striking Icky Vicky!) ***RRRAAAAAAAAAAAA AAAARRGH! YOU'RE A LAZY FUCKED UP MOTHERFUCKING NO-GOOD BABYSITTER AND YOU FUCKING DRIVE ME NUTS! CAN'T YOU JUST LISTEN TO KIDS EVEN ONCE IN YOUR FUCKING WORTHLESS LIFE?! 'CAUSE IF YOU DID, YOU'D FUCKING RATHER WANT TO KILL KIDS WHENEVER YOU GET THE FUCKING CHANCE!*** (Voice breaks a little) ***BUT YOU WOULDN'T KNOW HOW TO LOVE SOMEONE IF YOU GOT PAID ALL THE FUCKING MONEY IN THE FUCKING WORLD, (Tears of oil are STREAMING and steam is blowing off his face) AND EVEN THEN YOU'D SCREW IT ALL UP ON THE ACCOUNT THAT YOU CAN'T EVEN FOLLOW THE SIMPLEST OF INSTRUCTIONS, HURTING INNOCENT PEOPLE THAN DOING YOUR MOTHERFUCKING JOB!***

The orb exploded and lightning went all over the place.

Prisoner 1: Wow! You tell him man!

The prisoners and guards applauded for him.

Elec Man

Me: Holy mackerel!

Laney: Wow! That was powerful!

Lisa: No kidding.

Nico: But that was a great rant!

Ben: Now it's my turn.

He turns into Fourarms.

Fourarms: FOURARMS! (Takes a Deep Breath) ***YOU MAKE ME FUCKING SICK JUST LOOKING AT YOU! KIDS SCREAM AT YOUR NAME AND YOU DO NOTHING BUT MAKE THEM CRY! I WOULD RATHER EAT A TRUCK FULL OF ROTTEN JELLYFISH THAN HAVE A LOUSY, NO-GOOD, FUCKED UP, BACKSTABBING, TWO-TIMING, DOUBLE-CROSSING FUCKING SLIMEBALL BITCH LIKE YOU!***

We cheered wildly for him.

Me: Yeah you tell him Ben!

Kevin: Didn't think he had it in him.

Me: Me neither.

Riley: That's my boyfriend Kevin.

We got a great kick out of it. We also found Kevin's car and put it in our garage where he can work on it and continue to modify it.

---

Later on the planet Vilgaxia, Vilgax was on his throne thinking. His faithful servant Psyphon approached him.

Psyphon: Lord Vilgax, a strange device came. I think it's a holographic message device.

Vilgax: Lets hear it.

Psyphon put it on the floor and it turned on and I appeared in a holographic message and I was 2,000 feet tall.

Me: Greetings people of the Planet Vilgaxia. I am J.D. Knudson, leader of Team Loud Phoenix Storm. I'm sure you all heard of me and I'm sure you know my friend Ben Tennyson, mortal enemy of your Lord, Vilgax. I have a message for Vilgax. You drove our friend Kevin Ethan Levin insane and turned him into a homicidal psychopath! This kind of action will not be tolerated ever! As a result I hereby am declaring war on your leader Vilgax!

Everyone gasped at my declaration!

Me: We will not stand by and watch while Vilgax continues to bring pain and suffering to the many people of this proud galaxy we call home! So get ready Vilgax, when we fight, it will be in a place of my choosing and your days of trying to take over this universe of ours are numbered! We're coming for you Vilgax!

The Hologram vanished.

Psyphon: My emperor! What are we gonna do!?

Vilgax: I'll deal with J.D. Knudson and Ben Tennyson when the time comes.

BUT THE BATTLE IS JUST ABOUT TO BEGIN!

THE END

---

Another Fanfiction Complete

The Ben 10 Alien Nanochips were the most unusual villains I've ever seen in the series. They were so awesome though! But the way they controlled people is something I would call the ultimate fate worse than death. I saw them on Alien Swarm and in Ultimate Alien and they were awesome! But I'm glad we have the Team all back together and I'm sorry it took so long to have it all happen. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Down 1 Rich Duck

It starts in the garden at the estate. Kevin, Smithers and Slinkman were working in the garden.

Kevin: You know, I don't blame Ben for punching you in the face. I might have been shocked when he told me but I think you had it coming.

Smithers: Look, I've already been read the riot act for waht I did. (to Slinkman) Besides, didn't you blindly work for Lumpus for all those years?

Slinkman: At least I realized what I was doing wrong a lot quicker then you. You, on the other hand, have a lot to make up for.

---

Later me, Julie, Elena V., Donna Diego and Bella Hartley were walking home from the Mall.

Bella Hartley: How are you feeling, Julie?

Julie Yamamoto: I'm feeling a lot better thanks to Sora's potions. But every once in a while, I fear that my body might move against its own will and attack you guys.

Me: I'm glad you're feeling better Julie. But rest assure that the Nanochip Queen is now dead and will never terrorize the world again.

Elena V.: That's good. We will never allow that monstrosity of a queen to ever invade my body.

Scream: And we thought only those bonded to Symbiote's can say we.

Elena V.: I guess some aliens have adapted the same qualities.

But then we got a rude surprise from an old enemy from Donna's past.

It was her ex-boyfriend Sean Lumenos, a murderer I busted before we met Donna and killed Carlton Drake.

Donna Diego: Sean Lumenos!

Julie Yamamoto: You know this jerk?

Donna Diego: Unfortunately I do. He's my ex-boyfriend.

Me: And he's also a murderer I busted 1 year before we killed Carlton Drake.

Sean L.: That's right.

Julie: What was he sentenced to?

Me: He was sentenced to 25 years to life in prison. But I've been reading a newspaper report that he escaped from prison.

Donna (her teeth become sharp): You're gonna regret coming here, Sean! (her tongue changes)

Donna became SCREAM!

Sean was quivering in fright and I wrapped him in vines.

The police arrived and they rearrested him.

Donna Diego reverted back.

Donna Diego: As my friend Nico Chan says, Sean Lumenos, you have failed this world.

We laughed.

Julie (hugs Scream): Are the transformations to Symbiote and Human painful? And do your clothes rip off every time?

Donna: No, Scream covers me as we transform and my clothes are intact. She can turn into this awesome yellow and black trench coat.

Julie: It's amazing.

Elena V.: It sure is.

---

Back at the estate, we were having delicious coconut mango smoothies in coconuts as we were sitting by the pool relaxing on a hot summer day.

Me: (Slurps) Ah. Delicious smoothies Leni.

Laney: Thank you for the smoothies Leni.

Leni: You're totes welcome Laney.

Donna Diego: They are very refreshing.

Me: Yes they are. Kevin, how did you and Ben meet?

Kevin: That is a very dark question. Before I redeemed myself, I was once one of Ben's most dangerous enemies. I was often called Kevin 11.

Kevin revealed his past.

When Ben found him, Kevin lived alone and stole from people in order to get by. Ben befriended him once he found out that Kevin, too, had special powers. Then, when Kevin tried to commit a crime out of spite, Ben tried to stop him and persuade him to use his powers for good. Kevin grew resentful of Ben and later returned as an enemy.

Kevin reappeared in several episodes. In one episode Kevin absorbed the Omnitrix, granting Kevin the power of shapeshifting into Ben's alien forms. Kevin tried to frame Ben for several crimes. But eventually Kevin mutated even further into a monster with all of Ben's alien forms wrapped into one hideous creature.

But in one episode, Kevin and Ben had to team up with each other. they were kidnapped by a robot named Slix Vigma. They were forced to fight other as entertainment for others. Because they were connected together. After Slix was destroyed Ben manage to escape while Kevin was trapped on the ship with a new friend of Ben Technorg.

Kevin also teamed up with Vilgax so he can defeat Ben for making a fool out of him. Since then Kevin has been trapped in the Null Void.

Kevin is found by the Rooters, who did experiments with his Osmosian powers on Alan Albright, Helen Wheels, Manny Armstrong and Pierce Wheels, transforming them into the Amalgam Kids, making them do nasty things. After that, Kevin fled, only with Servantis controlling his memories, convincing him that he had "alien blood".

During the time that he was associated with the Rooters, Kevin first met Argit when he gave a caged Argit a leaf to eat. Kevin then says that he is going back to Earth and save it and intends to take down Ben.

Eventually on Earth, Kevin discovers Argit and threatens him to start running and he and the Amalgam Kids confronted Ben, Gwen, and Max and Kevin fired a blast at Ben. Ben manages to avoid the shot and transforms into Eye Guy. Eye Guy pins Kevin down, However, Kevin did this to get Ben to come closer and touches the Omnitrix causing Kevin to mutate again. Kevin, like Ben stated, starts to go insane again and even attacks his allies the Amalgam Kids. Kevin was eventually stopped by Argit who used his quills. Kevin and the Amalgam Kids were sent back to the Null Void but an enraged Servantis wiped out their memories and sent them away. Servantis then abandoned the plan to destroy Ben after Ben stopped wearing the Omnitrix.

In the Null Void, Kevin and Argit are moving some objects around and they both talk about how difficult it is to bring the objects together. Suddenly, a robot named Otto arrives and says that he is going to use the objects to help them get out of the Null Void. Otto tricks Kevin and Argit into turning on the device and escapes without them, leaving now-dismayed Kevin and Argit trapped in the Null Void.

At some point later, Kevin was brought out of the Null Void by

Thaddeus J. Collins, who was being possessed by Zs'Skayr, and tied to the Null Void portal using Plumber technology. Collins asked Kevin to use his absorbing powers to mine Hedorium underground. Kevin was mining for Hedorium in a dark cave when he encounters Ben (who was accompanied by his cousins Gwen and Lucy Mann and his friends Cooper and Jonesy). After Cooper examines the technology as Kevin asks him to disconnect him from the portal, Ben disagrees with Kevin's request as he has done a lot of bad deeds to him. Kevin then tells Ben that the planet Earth would be in danger, Ben takes Lucy and Jonesy to find out about the problem as Gwen and Cooper deal with Kevin. While Ben as Eye Guy, Lucy and Jonesy fight Grandpa Max holding a weapon, Kevin teases Cooper about being Gwen's boyfriend but both of them stated they were just friends. Kevin teases and thinks he is a better guy, leaving Gwen raged and walks away. As Eye Guy, Lucy, and Jonesy defeat Max, Cooper tried to pull the connection but failed. He then re-programmed Kevin's connection to let him pull the portal like a kite. Gwen blasts at the portal to separate the ionic bonds as they headed to join Ben, Lucy and Jonesy. Ben laughs at Kevin because he is still connected to the portal, Kevin says it is better than being stuck to one spot. As the group walked further into the caves, they see a portal which things come out off. They head up only to see Thaddeus, who is revealed to the children to be Zs'Skayr in disguise, and that the portal is for the Ectonurites to come in from their homeworld. Gwen is surprised that Kevin has been helping Zs'Skayr. The other Ectonurites are inside the bodies and controlling the grown ups. Due to the collective efforts of all the kids, everyone was saved when suddenly the Null Void portal starts to pull Kevin. Ben, Gwen, Lucy, Jonesy and Cooper help to pull Kevin in order to prevent him from being pulled into the Null Void portal, but they fail to do so when Ben loses his grip on Kevin's hand, leaving Kevin getting pulled back into the Null Void.

At some point later, Kevin and Argit managed to escape from the Null Void at the same time and two years after breaking away from Servantis, Kevin began work on his car, not satisfied with a simple standard model he began outfitting it with Alien Tech, and to this end traveled to Khoros to acquire a Tetramand engine block for it. Since the tech couldn't be given to an outsider, he wooed the then teenage Princess Looma Red Wind and successfully defeated her combat earning the right to marry her in three years thereby making him a part of the family and was given the engine as a gift.

In the first episode of Ben 10: Alien Force, Kevin joins Ben and Gwen to battle against evil. Even though Kevin became an ally to Ben Tennyson Kevin still did several things that made him an anti-hero. In the pilot episode he is shown selling weapons to the Forever Knights but ends up fighting Ben but looses. However with the threat of the DNaliens and the Forever Knights he joins Ben and Gwen.

It is later revealed in the episode of Ben 10: Ultimate Alien, Ultimate Aggregor, that when he absorbed raw energy, he became insane, which happens to be the one of the Osmosians. Later in the episode The Forge of Creation, he absorbs the Ultimatrix in order to stop Aggregor from absorbing a baby Celestialsapien, but it does more harm than good after he goes insane again. After Aggregor has been defeated, he flies off, leaving both 10 and 16 year old Ben and 16 year old Gwen behind. In the next episode,… Nor Iron Bars A Cage, It's revealed how Kevin escaped from the Null Void and how he turned back to normal between the original series and Alien Force and how he had gotten his material absorbing powers. In the same episode, he voluntarily goes back to the Null Void to get revenge on his prison's warden, Morgg. He almost got his vendetta on Morgg, and leaves the prison, thinking that he did kill him. Gwen still thinks that Kevin could get his sense back and go back to normal, but Ben says that they now might have to "put him down", meaning that Kevin might have to be killed. However, as of the end of the season one finale episode, "Absolute Power: Part Two", Ben and the others restored Kevin back to normal, and Kevin is once again a good guy.

Me: Man. That is awful Kevin. But I'm glad you redeemed yourself.

Kevin: Me too J.D.

Me: But I can tell what species you're a hybrid of. You're an Osmosian from the planet Osmos V.

Kevin: That's right. My father was a pure blooded Osmosian. I'm a hybrid.

Me: That's amazing. Ben told us what happened to your father and you have our condolences for what happened.

Kevin: Thanks J.D.

Nico: But from all accounts Ragnarok deserved it. I'm glad you got justice for your father.

Kevin: Thanks Nico. I appreciate that.

Laney: Who is Ragnarok?

Me: I know he's named after Doomsday in the old Norse Myth. But from what we were told, he was a nasty space pirate that stole the energies from stars and sold them to the highest bidder on the interstellar black market.

Kevin: That's right and he was also the monster that killed my father.

Ragnarok was originally a powerful and dangerous criminal from unknown origin, who possessed a ship able to drain energy from stars, destroying them in the process. He was a member of the Rooters as well.

According to Max's false memories, as he was about to absorb Earth's sun, Devin and Max successfully stole the key for his device. Ragnarok succeeded in catching their ship, and threatened to kill Max if Devin wouldn't tell him where the key was. When Devin declined, Ragnarok attempted to kill Max, but Devin put himself between them, and was fatally wounded instead of Max. Furious, Max used the element of surprise to send Ragnarok into the Null Void, where he was taken into custody.

Ragnarok appeared in Vendetta, where he escaped from his Null Void prison and the Null Guardians and arrived on Earth. After he trashed Kevin's house in order to find his key, Kevin's mother revealed to him what she thought happened to his father, causing the young Osmosian to start looking for Ragnarok in order to get revenge.

Feeling worried for Kevin, Ben and Gwen learned exactly who Ragnarok was from Max, and attempted to help Kevin, only to be asked by him to stay out of his way. Eventually, Ragnarok got the key back, and attempted to use it to activate his machine, but Kevin successfully infiltrates his ship, and destroys the ship's command, causing the device to be damaged and the air tank to break open. Ragnarok then begs Kevin to save him, stating that his father was a Plumber, an honorable man and he would never have let anyone die. Instead, Kevin took the key from him and left him to be sucked into space, seemingly causing his death. He remained loyal to the Rooters and never revealed the truth about Kevin's father to Kevin.

Me: That's awful Kevin. But I'm glad you destroyed him. He was a danger to everyone in the entire universe.

Laney: That's terrible.

Kevin: He was.

Me: How did you find out about Ragnarok?

Kevin: My mother told me everything.

Me: The truth then ignited that spark to get justice.

Kevin: That's right. (to Donna) What was your family history like before meeting Scream?

Donna Diego: It's something I don't like to talk about. But you all have a right to know.

Donna told us that before she became Scream, he parents were murdered by Wilson Fisk, A.K.A. Kingpin.

Wilson Fisk grew up in poverty and was tormented by his classmates for being overweight. Tired of being bullied, he began to train himself in physical combat. When he gained a powerful physique, he forced his former tormentors into joining his gang, and thus, his desire for absolute control began. Later on in life, he met a crime boss named Don Rigoletto. At first, he fostered an alliance with Rigoletto, but then, betrayed him and murdered him. Fisk then took over Rigoletto's gang, and took Rigoletto's place as the most powerful crime boss in New York City. He would later join the international terrorist syndicate HYDRA and become a prominent figure as one of their heads of operations.

Although the Kingpin started off as a Spider-Man villain, but Frank Miller, during his classic run on Daredevil comics, effectively transferred Wilson Fisk to become the arch-nemesis of the Man Without Fear. Miller had Fisk focus on street level crime and New York City politics, rather than the superhuman and supernatural exploits of times past.

It was in Miller's later storyline, Born Again, that the Kingpin earned this title. Using information from Murdock's former girlfriend, drug addicted porn star Karen Page, the Kingpin slowly began to ruin Matt Murdock's life, destroying his home, having him barred from practicing law, and leaving him an insane derelict. It was only thanks to a reunion with his long-lost mother that Matt regained his confidence to fight again. Eventually, Matt's efforts saw to it that the Kingpin was exposed as a criminal, fleeing as a homeless fugitive, a harsh taste of ironic justice.

Ever since then, Donna was forced to live on the streets and she was taken by Carlton Drake of the Life Foundation and bonded with Scream against her will and they did tests on her against her will as well. Donna's life was hell.

We were horrified.

Me: Donna that's horrible!

Donna: I know. But now that Drake is dead, we're finally free of his evil.

Me: Yep. And Kevin, Leslie is also Ben's sister.

Leslie: That's right. Leslie Gesneria Tennyson.

Kevin: Wow!

Julie: Congratulations Ben.

Leslie: We're not related by blood.

Leslie told the story of how it happened.

Kevin: That's awful Leslie.

Julie: Oh man. But you and Agony are perfect as sisters for Ben.

Agony: Thanks Julie. That means a lot.

Leslie: Same here.

Julie: And have you all met Ship?

Me: Who?

Julie Whistled and out came a little Galvanic Mechamorph. It lept into her arms.

Julie: This is Ship.

Me: Oh he's a little Galvanic Mechamorph.

Laney: Aw he's really cute!

Julie: Yep. Me and Ben found him on our first date.

Riley: That's amazing Julie.

Julie: Thanks Riley.

---

Later as we were watching TV I got word on my computer that Scrooge McDuck's rick rival Flintheart Glomgold was up to no good.

Flintheart Glomgold is Scrooge McDuck's arch-nemesis and business rival, primarily because of their long-lasting feud concerning which of the them deserves the title of "World's Richest Duck". Glomgold is jealous of Scrooge's wealth and desperately wants to obtain the title, but is usually referred to as "World's Second Richest Duck". He was created by Disney Legend Carl Barks, and made his first appearance in Barks' 1956 comic The Second-Richest Duck (Uncle Scrooge #15).

Flintheart will attempt any possible underhanded deed in order to defeat Scrooge and occasionally hires such thugs as the Beagle

Boys to do his dirty work.

Selfish, dishonest, and incredibly greedy, his goal is to become the world's richest duck, but the thing that makes him such a cruel duck is the fact that he will cross every line to achieve this, even to the point where he might even try to murder Scrooge. He cares for no one other than himself, acting as a loner at some points.

In the comics, Glomgold wears an ascot, a black coat, and a Scottish bonnet. Many of Glomgold's appearances are centered around the fact that he is similar to Scrooge in so many ways (even having a Money Bin that is nearly identical to Scrooge's), both in appearance and personality. However, unlike Scrooge, who does not believe in obtaining money through dishonest methods, Flintheart makes immoral decisions, which often leads to his downfall.

In the comics, he owns a money bin that mirrors Scrooge's. However, it is situated in the Limpopo Valley in the middle of a South African jungle, as opposed to Scrooge's which is in the center of Duckburg.

In "The Life and Times of Scrooge McDuck", Glomgold first meets Scrooge while Scrooge is prospecting for gold in South Africa. Glomgold, however, is caught attempting to steal from a diamond miner's pit claim and runs off, thus showing his dishonest tendencies immediately. In his initial introduction, he says he's a Boer (a descendant of Dutch-speaking settlers in South Africa). He later steals everything from Scrooge's camp (including his campfire) and when Scrooge later confronts him, he declares Glomgold "made him mean".

Scrooge McDuck: (Scottish Accent) Ach, so that wee snake in the grass Glomgold is at it again.

Me: And I know all his terrible deeds. One time he got you sent to prison for stealing his own painting while dressing up like you to frame you.

Scrooge McDuck: Aye. That he did.

Merida: (Scottish Accent) Ach, what a monster he is. We need to take him down once and for all.

Me: Death would be too merciful for him. So prison is where he'll go.

Acid Man: Any idea where we can find Glomgold?

I looked it up and show that his estate is on the outskirts of Duckburg.

Me: The outskirts of Duckburg. Lets roll!

We were off to Duckburg.

---

We were in the woods outside of Glomgold's estate.

Dirge: I have an idea.

Dirge crept up to the front door quietly.

Dirge (plants fake money out in the open): When Glomgold comes near this fake money, we'll corner him like a rat!

Dirge rang the doorbell and ran.

Glomgold: (Scottish Accent) Yes? (Sees the fake money.) Well lucky me! More gold for me fortune!

He was about to pick it up and we jumped out and had him cornered.

Me: Flintheart Glomgold, you're under arrest.

Glomgold: How about we make a deal? You all let me go and have me as a recurring enemy like that Alternate Krabs and I'll give you half the gold I have.

Blades: How about this? We take all your gold and beat you and your goons senseless, giving you a small chance of escaping!

Me: Take them down!

We went at Globgold and his thugs and beat them all a merciless beatdown.

Julie (kickes a goon in the crotch): Oh, how I've missed this!

Kevin Levin (punches a goon in the face): Same here! I forgot how fun this was!

I punched Glomgold in the beak and kicked him in the face.

Nico: Flintheart Glomgold, you have failed this city!

Nico punched a thug and knocked him out. Lincoln grabbed a thug's underwear and gave him a massive atomic wedgie! He screamed like a little girl.

Lori, Leni and Luna punched and kicked three thugs and kicked them in their crotches and knocked them out. The thugs were knocked out and now we set our sights on Glomgold.

Blades: Combo time guys! CYBER KEY POWER!

The Earth Cyber planet Key went into his back and enhanced his twin Smart Rocket Launchers.

Bella Hartley: I've always wanted to try this out. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and it enhanced her powers 100-fold.

Blades and Bella Hartley: SMART ROCKET PRISM CRYSTAL BLIZZARD!

Blades fired his missiles and Bella formed a crystal prism made of glass and the missiles went into it and split into 7 colors and they exploded as they blasted Glomgold all over the place.

Acid Man: Time for action: GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his acid barrier 100-fold and he turned into a serpentine dragon made of pure sulfuric acid.

Dirge: CYBER KEY POWER!

The Earth Cyber Planet Key went into Dirge's engines and enhanced his incendiary bombs 100-fold.

Acid Man and Dirge: ACIDFIRE INFERNO DRAGON!

Dirge fired his enhanced incendiary missiles and they hit Acid Man as an acid dragon and he turned into a dragon made of neon blue fire burning with sulfuric acid. It slammed into Glomgold and burned him and the thugs.

Julie: Time for a final smash! I want to see if I can do one. GALVANIC SWORD SLASH SURPRISE!

A miniature Galvanic Mechamorph appeared and it turned into an awesome energy sword and Julie went at Glomgold and she slashed him and it left a nasty burning gash on him. She slashed him some more and carved the Letter J into his chest.

Scrooge: Time for me to do a Final Smash! GOLD MONEYBAG BOMB BARRAGE!

Scrooge threw numerous bags of money and they hit Glomgold and exploded.

Nico caught a Rhyperior and a Lickilicky.

We took all of Glomgold's gold totaling more than $782,836,867,768,683,648,865,868.00. Glomgold was sentenced to 875 years in the Planet Nine prison without the possibility of parole.

Scrooge McDuck: (To the viewers) Remember this lads and lassies. If you mess with me money and Team Loud Phoenix Storm, you all are gonna be in for some serious consequences.

Me: You can say that again Scrooge.

We went back home.

We had a nice rest.

THE END

---

Another Fanfic Complete

Glomgold on DuckTales was one of the shadiest villains in all of Duckburg. I've never liked the guy and he gives all rich people an extremely bad name. Prison is more than perfect for a monster like him. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# War of The Titans & Gods

It starts over in the Atlantic Ocean somewhere near the Eastern West Indies. A cruise ship was on its way over to America. Everyone on the ship was enjoying a good time on the ship. But little did they know that something evil was going on the ship. There was a powerful C4 bomb in the cargo hold. And it had 1 minute left on the timer.

Everyone was completely unaware that this vacation could very well be their last one alive.

The bomb had 5 seconds left.

5… 4… 3… 2… 1… 0.

The ship exploded and was blown in half in a huge fiery explosion.

KRAAABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

People were screaming and running for their lives in fear. They went to the lifeboats. But they were all destroyed in the explosion.

Me, Nico, Lincoln, Laney, Gi, Earth and Lily arrived and we were driving an emergency rescue ship.

Me: There it is!

We pulled up.

Me: Lets get those people out of there! Lets go! Lets go! Double Time! Lets go!

We sprang into action and we got the people out of the water and we got them onto the boat and got whatever luggage they had out of their belongings. Gi used her Water Ring and brought most of them on board with it.

We got almost everyone on board. But then we saw the whole ship starting to sink!

Me: She's going down!

Woman: My daughter is still on that ship!

Lily: I'll get her!

Me: Hurry Lily!

Lily dove into the water and swam. She went underwater and went into the sinking ship. She swam fast and was searching.

Girl: HELP ME!

Lily: That's her!

Lily swam into a room and surfaced and she found a young girl no older than Lola and Lana's age.

Lily: I'm gonna get you out of here. What's your name?

Sari: I'm Sari. I'm stuck. My leg's caught.

Lily: I'm Lily Loud of Team Loud Phoenix Storm. I'll have you out of there.

Lily dove underwater and she lifted up the bed that pinned Sari and freed her.

Lily surfaced.

Lily: You're free. Sari, hold on to me. We're gonna swim.

Sari: Okay.

They dove underwater and Lily formed a breathing helmet bubble for Sari and they swam as the ship was sinking. But then the ship was starting to break up and the hallway Lily went into was blocked!

Sari: We're trapped!

Suddenly there was a massive blast of water and it blew the blockage away and they saw the person that did it. It was none other than the legendary Percy Jackson, son of Poseidon - God of the

Seas in Greek Myth!

Lily: Wow! I don't believe it! Percy Jackson!

Percy: That's right. Lets talk later Lily! Come on!

They continued and swam up to him and they got out of the ship as it was going down.

They surfaced.

Woman: Look! Lily's got her!

Everyone cheered wildly.

Nico: Way to go Lily!

Lincoln: That's my little sister!

Laney: Thank goodness.

They flew up to the ship.

Sari: Mommy!

They hugged and were reunited.

Earth: Awesome save Lily!

Lily: I had some help.

Percy Jackson came on board.

Me: I don't believe it! Percy Jackson!

Nico: The legendary son of Poseidon, god of the seas!

Percy: That's right. It's an honor to meet you Team Loud Phoenix Storm.

Laney: I love all your books and they are so amazing.

Earth: They are amazing adventures. But what really blows my top is that Luke Castellan, son of Hermes - the Messenger of the Gods stole Zeus's Thunderbolt and framed you for the crime! He deserves to spend all of eternity in Tartarus!

Percy: I agree with you Earth.

Nico: I agree. He has failed all of the entirety of the Olympian Pantheon.

We laughed.

Woman: Thank you so much for saving my daughter Lily.

Lily: It was my pleasure.

Sari: Lily I think I know what caused that ship to blow up. I found this as I was heading back to my room.

Sari handed Lily a piece of paper and she saw an all too familiar symbol on it.

Lily: (Gasp) Guys! Come look at this.

We went over.

Me: What is it?

Lily: I think Sari found out how the ship exploded.

She handed me the paper and I saw the symbol for COBRA!

Me: COBRA! They planted a bomb on that ship to kill everyone!

Nico: So COBRA is behind this bombing.

Percy: The organization that G.I. Joe is trying to kill?

Earth: The very same Percy.

Lincoln: Why would COBRA want to blow up a cruise ship?

Me: Probably to bring attention onto them.

Percy: That's bad. But I'm glad I found you J.D. I have bad news. The Titan Kronos is coming. He's going to be unleashed unto the world and destroy it completely!

We all gasped in Horror!

Me: Kronos!?

Laney: The leader of the Titans!?

Percy: That's him.

Nico: I know all about Kronos. He is the most dangerous and deadliest force of power ever known to the world and he possesses incredible power that can destroy the planet.

Me: That's awful! And if Kronos is unleashed then we got one helluva battle coming our way. But this'll be an awesome test for us. The power of Team Loud Phoenix Storm and the power of the Gods of Olympus taking on the Leader of Titans.

Nico: A battle like that would shake the entire foundation of the entire universe to the core. But I'm always up for a challenge.

Lincoln: Me too.

Lily: Same here.

Me: Percy would you like to join us?

Percy: I would be honored J.D.

We shook hands. We drove back to shore after we salvaged the cruise ship and saved what was left of it. But surprisingly, no one on the ship was killed. Only some that had serious injuries. We took them to the hospital.

---

At the Jupiter Prison, Blizzard Man, Maria, Megan, Carmen, Elena (KH), Will, Irma, Taranee, Cornelia, Hay Lin and Lillian were there. W.I.T.C.H. was there to rant at Icky Vicky.

Megan: Show no mercy Cornelia!

Lillian: Show that monster what for sis!

Cornelia: Okay but you may want to cover her ears Elena. This is not gonna be pretty.

Lillian: I can handle it Cornelia.

Cornelia: Are you sure sis? This is not gonna be pretty.

Lillian: I can handle it sis.

Cornelia: Okay then.

Will: Okay, ready guys?

Irma: Like you even have to ask Will.

Will: Okay I'll go first.

Will walked up to Icky Vicky's cell and she stared into her face and she saw nothing but heartless, pure unrestrained evil that completely consumed her beyond all forms of rehabilitation.

Will: (Takes a Deep Breath) (SCREAMS AT THE TOP OF HER LUNGS) YOU ARE THE BIGGEST AND MOST UNBELIEVABLE FUCKED UP MOTHERFUCKING DISGRACE OF A HUMAN BEING THAT HAS EVER WALKED THE FACE OF THE EARTH AND YOU DON'T GIVE A FLYING FUCKING RATS ASS ABOUT ANYONE BUT YOUR GODDAMN SELF! YOU MAKE ME SICK LOOKING AT YOU! I WOULD RATHER KISS NERISSA'S UGLY FUCKED UP MOTHERFUCKING MOUTH THAN HIRE YOU AS A BABYSITTER!

Will hawked and spit in Icky Vicky's face!

Prisoner 1: WHOO! YEAH! You tell that bitch Will! WHOO!

Guard 1: (Laughs) Good show!

Icky Vicky: EW! YOU NEED BETTER MOUTHWASH!

Will punched Icky Vicky in the face and gave her a massive black eye.

Blizzard Man: Snow cones! Get your snow cones here.

Guard 1: I would like one.

Blizzard Man handed him a green apple flavor snow cone.

The Prisoners and Guards got varying flavors.

Irma: My turn.

Irma went up to Icky Vicky.

Irma: I hope my dad doesn't ground me for doing this.

She sprayed her mouth with Breath Spray and cleared her throat.

Irma: (Takes a deep breath) ICKY VICKY YOU ARE THE BIGGEST AND MOST PATHETIC, UGLY, FUCKED UP, SHITFACED, PUTRID, GODDAMNED, EVIL FUCKING, CANNIBALISTIC, CHUMSUCKING, FREAK OF NATURE THAT EVER LIVED! YOU MAKE EVERYONE YOU COME INTO CONTACT WITH SHIT THEIR PANTS AND THAT'S WHY YOU WILL NEVER BE LIKED IN ALL OF THE ENTIRE PLANET! I WOULD RATHER LICK MARIA'S SKIN AFTER SHE JUMPS INTO A POOL OF ROTTEN POOP THAN HAVE YOU AS A BABYSITTER!

Maria: (Offended) HEY!

They laughed.

Maria: (Laughs) Okay that was funny!

Prisoner 2: You tell her Irma!

Prisoner 3: That was funny!

Taranee: My turn.

Taranee walked up to the cell and then she flared up a massive aura of pure fire.

Taranee: (DIABOLICAL VOICE) ***YOU ARE THE WORST EVER FUCKING MONSTROSITY EVER TO WALK THE EARTH! I WOULD RATHER LICK NICO'S SAIYAN TAIL THAN SMELL YOUR UGLY SWEATY FUCKING FREAKY PUTRID FAT PINEAPPLE-EATTING ASS ALL THE WAY TO DEATH! I HATE YOU MORE THAN LIFE ITSELF YOU FUCKED UP GODDAMNED BITCH!***

Prisoner 4: Yeah you tell that bitch Taranee!

Guard 2: Whoo! That was awesome!

Prisoner 1: Show that bitch who's in charge!

Cornelia: My turn.

Cornelia went up to Icky Vicky's cell. And she had a look of pure rage on her face.

Cornelia: (Takes a deep breath) (SCREAMS AT THE TOP OF HER LUNGS) I HAVE NEVER SEEN SUCH A MAJORLY FUCKED UP AND ABYSMALLY PUTRID PISSANT IN ALL MY LIFE AND YOU MY LIFE AND I WOULD RATHER EAT OIL THATS BEEN LIT ON FIRE THAN HAVE SUCH AN UGLY SCUMSUCKING FUCKLIPPED FUCKPOT LIKE YOU AS MY BABYSITTER! YOU MAKE ME SO SICK JUST LOOKING AT YOU!

Cornelia then got sick and threw up all over Icky Vicky!

Cornelia: (PROJECTILE VOMITING)

The Vomit Stream splattered all over Icky Vicky and everyone was disgusted by it. But then they laughed at Icky Vicky.

Prisoner 5: Oh that was so awesome and funny!

Prisoner 3: (Laughing Hysterically)

Guard 3: (Laughs) That's quite an improvement for her!

Hay Lin: My turn!

Hay Lin went up to her cell.

Hay Lin: (Takes a deep breath) (SCREAMS AT THE TOP OF HER LUNGS) YOU FUCKING WORTHLESS PILE OF WHALE VOMIT LICKING PUSS! YOU MAKE ME WANT TO PULL EVERY SINGLE HAIR FROM MY BODY JUST WANTING TO LOOK AT YOUR FUCKING FACE! I HOPE YOU HAVE A HORRIBLY EXCRUCIATING PAINFUL ETERNITY IN THE FIRE OF HELL THAN HERE WHEN YOU MEET YOUR MAKER YOU FUCKED UP HOMICIDAL PSYCHOPATHIC FUCK!

Hay Lin's yell was so powerful that it was equal to that of a 500 Mile Per Hour hurricane and it blew all of Icky Vicky's hair clean off her head.

Maria: Whoa! That is a powerful yell!

Prisoner 5: Boy I'll say. But Vicky looks good bald.

Prisoner 2: She sure does.

Guard: Bald is perfect for her.

Elena (KH): I think being bald will give her a new name: Chromedome Icky Vicky.

Everyone laughed at Elena's joke.

---

Back at the estate on Earth, we were trying to figure out where Kronos will surface when he has his power back. Percy told us about his uncle.

Spark Man: When I get my hands on your uncle…

Percy: Too late. My mom already got him turned to stone.

Spark Man (pouting): Aw!

Percy (looks at Nico's Tangela): So this is a Pokemon. I actually like playing those games as a kid.

Nico: Yep. I've known Pokemon my whole life. And I caught a Tangrowth and an Electivire over in the park before we rescued all those people on that ship.

Percy: That's cool.

Me: I found it! There's intensely powerful activity brewing at a volcano near Camp Half Blood. That must be where Kronos is getting ready to awaken.

Percy: That's the camp I went to! I went there to master my powers as a Demigod.

Me: I remember that. We got to get over there. The fate of the world is depending on all of us. Lets fly!

We were off to Camp Half Blood.

---

We arrived at the entrance to Camp Half Blood.

Maria (looks at the camp's entrance): Only people that are half bloods are allowed here. Let's see if that applies to our powers as well.

Me: Lets head in.

We went in and we were greeted by Chiron the Centaur.

Chiron: Team Loud Phoenix Storm, Redemption Squad, Autobots, and Decepticons. Welcome… to Camp Half Blood!

Me: Thank you Chiron. We came to fight Kronos. The Titan Leader is about to awaken any minute.

We also saw Annabeth Chase, Daughter of Athena - Goddess of the Wisdom and Military Victory.

Percy: Annabeth!

Annabeth: Percy!

They hugged.

Me: Annabeth Chase. It's an honor to meet the Daughter of Lady Athena.

Annabeth: You too J.D. I was told so much about all of you.

Nico: We get that all the time.

Annabeth: I know. But it's worse than what you all know. Kronos is not the only threat we have to face. Ares is helping to resurrect Kronos.

We gasped.

Me: Ares, the God of War? I should've known that backstabbing traitor of the Olympus Pantheon was behind all of this!

Annabeth: Not just Ares. But also an evil man named Major Bludd.

We gasped again when we heard that name.

Me: COBRA's Major Bludd!?

Nico: So he was the one that planted that bomb on that ship.

Lily: I have a feeling you're right Nico.

Me: We'll gladly help out Annabeth. We won't let Kronos, Ares and Bludd have their way with our planet.

Annabeth: Ok. It's only a matter of time before Kronos, Ares, Bludd and their goons attack. So, let's relax and train here while we still can.

Me: Okay. Lets call the Gods to help us out. We need all the help we can get.

Percy: Lets call my father Poseidon First.

Me: Okay.

Percy Jackson knelt and called his father. A massive wave of water was seen coming out of the lake and out on his chariot came Poseidon - God of the Seas.

Me: Welcome Lord Poseidon.

Poseidon: Ah J.D. Knudson. It's an honor to meet you. My brother Zeus told me so much about you.

Me: I'm glad.

Percy: Hello Father.

Poseidon: Hello My son. We heard that Kronos is coming.

Me: It's worse than that my lord. Ares is the true mastermind behind Kronos coming.

Poseidon: I had a feeling that backstabbing traitor was responsible for all this.

Annabeth: I'll call my mother.

Annabeth knelt and prayed and she called her mother. An Owl appeared and it changed and out came Athena - Goddess of Wisdom and Military Victory.

Me: Welcome Lady Athena.

Athena: J.D. Knudson. It's an honor to meet you. We heard so much about all your achievements.

Me: Thank you milady.

Annabeth: Hello Mother.

Athena: Annabeth my dear daughter. You are growing up to be a magnificent goddess like me. I'm so proud of you.

Annabeth: Thank you mother.

Me: I'll call Zeus.

I knelt and prayed to Zeus. Massive storm clouds rolled in and in a massive blast of thunder and lightning came Zeus - God of the Sky and Thunder and chief god of the Olympus Pantheon.

Me: Welcome Lord Zeus.

Zeus: J.D. it is great to see you again.

Me: You too milord. I'm sorry to call you like this but I'm afraid we have a terrible situation. Kronos is about to rise and Ares is behind all this.

Zeus: I should've known. Ares has always gotten a sick thrill out of causing trouble and he lives for the sheer pleasure of causing war.

Me: He won't get away with this My Lord. We'll make sure of that and then we'll kill him.

Zeus: You can't kill a god.

Nico: Actually my lord, we found out that J.D. can kill a god. His blood is a powerful super poison that can kill even the mightiest of immortal beings.

Me: I found out that my blood has that kind of power when we killed an evil sorceress queen on the planet Animatron.

Zeus: Wow. That is a deadly power.

Me: It is. But I only use it on immortal beings that are completely pure evil.

Zeus: Well that's a relief. And Ares falls into that category.

Me: We need to call Hermes. I want to tell him about how evil his son Luke turned out.

I knelt and prayed and in a fast blur of speed came Hermes - The Messenger of The Gods.

Hermes: I have received your prayer J.D.

Me: Welcome Lord Hermes. I called you to tell you that we're very sorry for how your son turned out.

Hermes: Ah I appreciate your concern J.D. Thank you. But my son brought this all on himself. He stole Lord Zeus's thunderbolt and that's what sealed his fate in Tartarus.

Me: I'm glad he got what was coming to him.

Nico: We need to also call Hades. He can help us against Kronos and Ares.

Me: Okay.

Nico knelt and prayed to Hades. On a black cloud of ghostly souls was Hades - the God of the Dead and Ruler of the Underworld. (Hades from Wrath of the Titans)

Nico: Welcome Lord Hades.

Hades: Nicolas Chan. I am honored that you would summon me.

Nico: Thank you my lord. But I'm afraid we have a terrible situation. Kronos is about to attack and Ares is the true mastermind behind it all.

Me: It gets worse Lord Hades. Ares is the one that got you banished to the underworld in the first place.

Zeus: Everything J.D. says is true brother. Ares is a traitor to all of us and we have to stop him at all costs before he kills us all.

Hades: That traitor! I will gladly help you brother.

Suddenly a loud low growl was heard and we turned to where we saw a smoking volcano ready to erupt. Then the volcano erupted with a massively powerful eruption that was so strong and powerful that it blew away the clouds and more! It released a powerful shockwave that blew a massive cloud of dirt all over the place and blew some of the trees away. We saw a massive fiery eruption go high into the sky.

Me: Kronos is near. Stand ready everyone!

Suddenly a figure jumped out of the trees and went at us! It was Major Sebastian Bludd, A.K.A. MAJOR BLUDD OF COBRA!

Born in Australia, Bludd was trained by the Australian Special Air Force before he left to join the French Foreign Legion and saw action in Algeria, all before becoming a Cobra mercenary.

He worked as a military advisory in a number of hostiles countries where he acts terrorism against peaceful governments throughout Europe. He is wanted on three countries (especially Rhodesia and Libya) for numerous war crimes, and even a few crimes against humanity. He also has a tactical mind like a steel trap, and is proficient with all NATO and Warsaw Pact small arms.

Bludd is adept with weapons, mostly plastic explosives, long-ranged sniper rifles, garrotes, blunt instruments, poisoned ice picks, Saturday night specials, and anything with spikes. He is also identified by his eyepatch and Snidley Whiplash-style mustache.

I kicked him in the face and punched him in the stomach and kicked him and sent him crashing into the ground. Storm Shadow then appeared and swung his sword at Bludd!

Major Bludd: (Australian Accent) Storm Shadow!? You're alive!

Storm Shadow: That's right. Now I will make sure you don't live to see the next sunrise.

Bludd: You traitor!

Storm Shadow (to Bludd): Quck question, Bludd. Who else knows that I'm still alive?

Bludd: Just me, you, and your new friends, traitor!

Storm Shadow (draws his sword): No. Just me and my friends.

We clashed with Bludd and we fired energy blasts and elemental blasts at him. He pulled out his gun and pointed it at Percy Jackson!

Bludd (fires gun at Percy): I'm gonna take you down, Jackson. Then, your little camp's gonna belong to COBRA!

Percy dodged his attack and kicked him and then Bludd pinned him down.

Bludd: (pins Percy down with his foot) This camp is the perfect spot for a Cobra base. We can launch attacks on G.I. Joe, the Avengers, and the Justice League and retreat here, never to be found. And all I've gotta do is get rid of you.

Maria then entombed him in a ball of water and slammed him into the ground!

Bludd (approaches Maria slowly): I'm glad you're still here, Rockell. I wanted to thank you and your friends. You see, I've been assigned to help Kronos and Ares search for the entrance to Camp Half Blood. And after a long time, you all came and let us right in.

Maria backed away until Bludd was at the position she wanted him to be in.

Bludd: You don't run. You're brave.

Maria: Of course I am. (smirks) But I'm also waiting for something.

Bludd: And what's that?

Maria: This! (rolls out of the way as one of the camp's traps activates)

Bludd fell into a pitfall and it had a nasty bed of razor sharp spikes on the bottom and it killed him instantly by stabbing him all over his body.

Me: Burn in hell Bludd.

Nico: Major Sebastian Bludd, you have failed this world.

Bludd then appeared as a spirit.

Bludd (as a spirit): You can't keep yourself a secret forever, traitor. Sooner or later, you'll have to face the music.

Storm Shadow: I'm fine with that. (to Luigi and Nicole) You two should flip a coin to decide who gets Bludd's spirit.

Luigi: (Italian Accent) Not-a needed. I'll make him into a portrait.

He did so.

Suddenly the Volcano exploded and out of it arose a massive giant made of pure lava. It was KRONOS! (The one from 2012's Wrath of The Titans)

Kronos is the king of the Titans, father of the Gods. Kronos current physical form is composed of lava and molten rock. Lines of lava surround Kronos' body, mouth and eyes, which would suggest that the inside part of his body is completely composed of lava. He is capable of projecting massive waves of lava from his arms. It is also seen that Kronos can spawn hordes of Makhai from his very own flesh, or at least project them from the rivers of lava on Tartarus. Both Makhai and Chimeras are seen to be affiliated to Kronos rather than Hades.

According to Hephaestus, if Kronos is let loose, has enough power to scatter the Earth over the universe. In the past, the gods needed the aid of the Kraken to defeat Kronos and the rest of the titans. It is proven that not even the combined powers of Hades and Zeus are enough to stop Kronos, The Spear of Triam is the only known weapon capable of defeating him.

We saw him and he was a massive creature.

Me: There he is!

Lincoln: Unbelievable! He's huge!

Lynn: Unreal!

Luan: He sure is too Hot to handle! (Laughs) Get it? But seriously, he's a massive monster!

Me: This is it guys! Power up!

We transformed and powered up to our maximum power! Smoke was billowing out of Kronos and Lava was dripping out of him.

Me: Lords Zeus, Poseidon and Hades, we need to form the Spear of Trium. It's the only weapon strong enough to kill him.

Zeus: I understand.

Zeus, Hades and Poseidon handed Percy their weapons: The Trident of Poseidon, The Pitchfork of Hades and the Thunderbolt of Zeus. He put them together and they were surging with an enormous amount of lightning and energy.

Me: Wow! So that's the Spear of Trium.

Kronos: (Speaking in Ancient Greek)

He saw us.

Kronos: **HADES! ZEUS! POSEIDON!**

Me: Lets hit him with everything we got! I'll start us off. (Cups hands to side) KAAAAAAAAAAAA! MEEEEEEEEEEEEEEE! HAAAAAAAAAAAAAAAAA! MEEEEEEEEEEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

I fired a massive red Kamehameha Blast at Kronos and it hit him head on and exploded with incredible power!

KRRRRAAAAAAAAAAAAAAAAAAABBBBBBBOOOOOOOOOOOOOOOOOO

The explosion from the blast blew a huge hole in his chest and he grew it back and he roared ferociously. He swung his arm and threw a massive wave of lava at us and it slammed into the ground and set everything on fire in a massive fiery wall of explosions. Setting the whole forest on fire. We fired all kinds of elemental blasts and energy attacks at Kronos and hit him with all of our power.

Lily: You will not take our planet Kronos!

Lily fired a massive blast of glowing water at Kronos and it hit him and he screamed in pain as it cooled him down and hardened him.

Zeus: Lets end this.

Lincoln: Lets do it together Lord Zeus!

Zeus and Lincoln conjured up a massive and powerful surge of lightning and they fired it at Kronos and it slammed into Kronos and exploded with incredible power!

KRAAAAABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Kronos reheated himself and he threw massive globs of white hot Lava and they exploded all around us with incredible power. The whole camp was being turned into a massive warzone!

Carol fired Godzilla's Swirling Atomic Ray and it hit Kronos and exploded and Vince hit Kronos with a powerful Kamehameha Wave and it exploded with incredible power.

KRRRRAAABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Nicole: You are not welcome here Kronos! X100 BIG BANG KAMEHAMEHA!

Nicole formed a powerful ball of concentrated energy and it fired a massive blast of energy and it slammed into Kronos and exploded with incredible power!

KRRAAAAAAAAAAAAAAAABBBBBBBBBBBBBBBBOOOOOOOO

The blasts all damaged him badly but Kronos was not beaten yet.

Kronos: (Speaking in Ancient Greek)

Me: This ends now! Combo and Final Smash time!

Nico: You got it J.D. Tangela, I choose you!

Nico sent out his Tangela!

Nico: ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Tangela's abilities.

Tigatron: Lets get him Airazor!

Airazor: I'm with you Tigatron!

They glowed and combined and they became TIGERHAWK!

Tigerhawk: (In Tigatron and Airazor's Voices) I am Tigerhawk! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Tigerhawk's back and it enhanced his abilities and weapons.

Nico: Tangela, use Ancient Power!

Tigerhawk and Nico: RAGNAROK CATACLYSM STRIKE!

Tigerhawk changed the weather to that of a raging thunderstorm and he created a super massive and powerful tornado and Nico's Tangela lifted up numerous giant chunks of land and sent them flying at Kronos. They slammed into Kronos with devastating force as the Tornado was immobilizing him.

Waspinator: Time for Waspinator to attack! Waspinator, TERRORIZE!

He transformed.

Waspinator: CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his speed and gave him the ability to fire a massive swarm of wasp bombs!

Spark Man: Lets get this clod! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Spark Man's right arm and it enhanced his Spark Shock 1000-fold.

Waspinator and Spark Man: SPARK SWARM SHOCKSTORM!

Waspinator fired massive swarms of wasp bombs and Spark Man fired a massive ball of electricity and they hit Kronos all at once and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Me: Time to do something we never tried before. We're gonna do Double Final Smashes.

Nico: This sounds cool!

Me: I'll go first. Lord Zeus, would you like to help me with this?

Zeus: I would be honored J.D. Lets do it.

We charged up a massive amount of lightning that was powerful enough to power several thousand cities for thousands of years.

Me and Zeus: JUPITER SUPERLIGHTNING PETAVOLT BURST!

We fired a massive and incredible blast of lightning that carried more than 500 Octillion Volts of Electricity and it slammed into Kronos and exploded with unbelievable power!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Massive amounts of lightning emanated everywhere.

Nico: Shall we Lord Hades?

Hades: Lets do it Nico.

The Dragonballs on Nico's Bracelet Glowed bright red and formed a massive red energy ball and he condensed it to his height and Hades summoned a ghostly black fog of the souls of the underworld and they wrapped around the energy ball. Turning it as black as the night.

Nico and Hades: DAMNED SOUL KARMA BALL!

They threw the powerful energy ball at Kronos and it slammed into him and exploded with unbelievable power!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Annabeth: Shall we do this mother?

Athena: Lets shall my darling daughter.

Annabeth and Athena had powerful energy arrows ready to fire.

Annabeth and Athena: HUNTER ARROW PIERCE!

They both fired their arrows and they combined and became a massive arrow and it skewered Kronos all the way through his molten heart!

Percy: Father, lets finish him!

Poseidon: Lets do so my son.

Percy and Poseidon: NEPTUNE MEGATSUNAMI FLOOD!

They fired a massive and incredible megatsunami of water at Kronos and it slammed into him and he screamed in pain as a huge cloud of steam came off him.

Me: He's not finished yet! Percy, you have to kill Kronos with the Spear of Trium. You and Annabeth need to get close enough for Percy to throw the spear.

Percy: How?

Lily: I'll fly you inside Kronos so you can throw it.

Annabeth: Inside!? That's suicide!

Me: No it just might work! Go for it!

Lily: Okay. Ready Percy?

Percy: Ready.

Lily grabbed Percy and they flew towards Kronos.

Me: We need to provide cover fire!

Katniss: Lets do it!

We fired energy blasts and all our powers and weapons at Kronos to distract him and keep him busy!

Annabeth: Let me use a final smash!

Me: Go for it Annabeth!

Annabeth had an energy arrow ready.

Annabeth: HUNTER ARROW MEGA BARRAGE!

Annabeth fired a massive barrage of energy arrows and they hit Kronos and skewered him all over the place.

We continued firing at him.

Lily and Percy were close and they flew down his mouth and down his throat. They were close to his molten heart.

Lily: Throw it now Percy!

Percy: Right! SPEAR OF TRIUM DEATH!

Percy threw the Spear of Trium and it was electrocuting Kronos and killing him from the inside. He then exploded with unimaginable power into a large number of pieces and he was now nothing more than a massive pile of burning rubble. Kronos, the Father of The Gods and the Destroyer of the Universe was dead!

We cheered wildly!

Me: They did it!

Nico: No. WE all did it! Kronos, you have failed this universe!

Me: Yeah!

Lily and Percy came back unharmed.

Annabeth: Percy!

They hugged in joy and then they kissed.

Everyone: Awww.

Poseidon: Son, I'm so proud of you.

Percy: Thank you father.

Me: But we're not done yet. We still have one more loose end to tie up. Ares.

We saw a figure come out of the burning trees. It was ARES - THE GOD OF WAR!

The ancient Greeks had a love-hate relationship with Ares as they knew he was important yet were also fully aware of the more negative aspects of the said deity. Athens (who primarily worshipped Athena) often wrote him as a psychotic brute and coward, but Sparta worshipped him as their primary deity, as Athens did more trade with the rest of Greece and placed a higher value on diplomacy their outlook on Ares is the one that permeated most of the ancient world. Even among Spartans, Ares was portrayed as violent, but since ancient Sparta was an extreme militant city-state where things like public drafting for those as young as ten, the war-god's traits were seen in a favorable light, emphasizing the importance of the warrior mentality. Like almost all deities Ares is more accurately described as amoral rather than evil as he had both positive and negative traits (much like the concepts he embodied), though his negative traits are shown more often, and a number of people who study Greek mythology believe that Ares is the closest thing the Greek pantheon has to a "god of evil," as he is extremely brutal, even by Olympian standards, blanketing himself in the skins of his victims. For this, and many other reasons, he is greatly loathed by his fellow deities, who often speak negatively of him.

Me: Ares, God of War!

Ares: (British Accent) So we meet at last J.D. Knudson of Team Loud Phoenix Storm.

Me: And it'll be the last time. You're gonna pay for your crimes over the centuries! For thousands of years, you've made people fight in wars for no other reason than to see people suffer! And you treat life like a disposable commodity!

Nico: Ares - God of War, you have failed this world and this entire universe!

Me: And you are the true reason why Lord Zeus banished Lord Hades!

Zeus: I should've never trusted you Ares!

Hades: You turned us against all the humans and our friends and you turned Humans against humans for centuries!

Me: It's time to end this Ares!

Me and Nico flared up our power.

We went at Ares and I punched him in the face and kicked him in the stomach. He threw a punch at me and I blocked it and a massive thunderous shockwave exploded out and shook the land. Ares grabbed his hammer and I formed a hammer of pure fire and we swung them slammed the heads into each other and a massive and incredible fiery explosion rattled the land.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

I punched Ares in the face and kicked him in the stomach again and Nico kicked him in the stomach with devastating force and then I kicked his hammer out of his hands and took it. Nico kneed him in the face.

Me: It's over Ares! You will never cause anymore war ever again!

I take out a dagger and slash my wrist and coat the blade of the dagger in my super poisonous blood. Turning it red. The wound healed and I stabbed Ares in his black godly heart and it turned him into dust and killed him instantly! After thousands of years of pain, war, death and suffering, Ares - the God of War had been silenced forever and Nicole sealed both Ares and Kronos into the Book of Vile Darkness for all eternity.

Me: That takes care of that.

We all cheered wildly.

Percy: (To the Viewers) Wow! Everything I heard about Team Loud Phoenix Storm is all true. These guys are all that good.

Me: We sure are Percy. And you did a great job today.

We thanked the Gods of Olympus for all their help and the Gods of Olympus thanked us for their help as well. Hades was welcomed back onto Mount Olympus with open arms. Today we defeated two of the most powerful and most destructive forces in the entire universe: We killed a Titan and we killed a God. We proved that Angels and Saiyan's can be just as powerful as the Gods themselves.

THE END

---

Another Fanfiction Complete.

The movie Wrath of The Titans from 2012 is one of my all time favorite movies. We made this chapter as a combination between Percy Jackson and The Olympians: The Lightning Thief and Wrath of the Titans. Both really awesome movies from 2010 and 2012.

Logan Lerman as Percy Jackson, the demigod son of Poseidon

Brandon T. Jackson as Grover Underwood, Percy's protector, a satyr

Alexandra Daddario as Annabeth Chase, the demigod daughter of Athena, and Percy's romantic foil

Jake Abel as Luke Castellan, the demigod son of Hermes

Sean Bean as Zeus, god of the sky, thunder, lightning, king of the twelve gods of Mount Olympus and brother of Poseidon and Hades

Kevin McKidd as Poseidon, Percy's father, god of the seas, earthquakes, and horses

Steve Coogan as Hades, Percy's Uncle, god of the Underworld, the dead, and riches

Melina Kanakaredes as Athena, Annabeth's mother, goddess of crafts, domestic arts, strategic warfare, peace and wisdom

Rosario Dawson as Persephone, goddess of springtime and wife of Hades

Dylan Neal as Hermes, Luke's father, god of trade, thieves, travelers, sports, athletes, and messenger of the gods of Mount Olympus

Erica Cerra as Hera, goddess of birth, family, marriage, women and queen of the twelve gods of Mount Olympus, sister and wife of Zeus

Stefanie von Pfetten as Demeter, goddess of agriculture, fertility, and the harvest, sister of Zeus and mother of Persephone

Dimitri Lekkos as Apollo, god of the sun, light, knowledge, healing, plague and darkness, the arts, music, poetry, prophecy, archery, and twin brother of Artemis

Ona Grauer as Artemis, goddess of the hunt, virginity, the moon, and all animals, and twin sister of Apollo

Serinda Swan as Aphrodite, goddess of love, beauty, wife of Hephaestus and lover of Ares

Conrad Coates as Hephaestus, god of fire, forge, blacksmiths, craftsmen and husband of Aphrodite

Ray Winstone as Ares, god of war, lover of Aphrodite (uncredited)

Luke Camilleri as Dionysus, god of wine, celebrations, ecstasy, and theatre

Uma Thurman as Medusa, a gorgon cursed by Athena

Pierce Brosnan as Chiron, also known as Mr. Brunner, a centaur who trains heroes at Camp Half-Blood, the immortal son of Kronos and brother of Zeus, Poseidon, Hades, Demeter, and Hera

Maria Olsen as Mrs. Dodds / Alecto, a Fury, servant to Hades

Julian Richings as Charon, ferryman of the River Styx, servant to Hades

Catherine Keener as Sally Jackson, Percy's mother

Joe Pantoliano as Gabe Ugliano, Percy's stepfather

All great stars in this movie and they all did an awesome and great job in the movie Percy Jackson & the Olympians: The Lightning Thief.

Sam Worthington as Perseus, the demigod son of Zeus, who defeated the Kraken and saved humanity; Zeus enlists Perseus' help in order to defeat the Titan Kronos.

Liam Neeson as Zeus, the god of the sky and ruler of Mount Olympus, Perseus' father.

Ralph Fiennes as Hades, the god of the underworld, who makes a deal with Kronos.

Rosamund Pike as Andromeda, who was saved by Perseus when she was a princess; now crowned Queen of Argos, she joins Perseus in his quest to defeat Kronos. Pike replaced Alexa Davalos in the role, due to a schedule conflict.

Bill Nighy as Hephaestus, the fallen god, forger of the gods' weapons.

Édgar Ramírez as Ares, the god of war, who betrays his father Zeus to join Hades.

Danny Huston as Poseidon, the god of the sea, Agenor's father.

Toby Kebbell as Agenor, the demigod son of Poseidon; he joins Perseus in his quest to defeat Kronos.

John Bell as Helius, the young son of Perseus.

Lily James as Korrina, a female soldier from Argos.

Sinead Cusack as Clea, Helius' teacher and guardian in Perseus' absence.

Martin Bayfield as the Cyclops Elder, who leads Perseus and his group to Hephaestus.

Spencer Wilding as Minotaur, the ferocious creature who guards the labyrinth.

All great stars and they did a great job in the movie Wrath of the Titans!

NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

Movies belong to their rightful owners.

# A Priceless Millennia Treasure Hunt

At the beach on Lake Huron. We were having a relaxing time at the beach and having fun. We were swimming in the lake, relaxing in the sun and building sandcastles. Izzy caught a Heracross and Nico caught a Magmortar and a Togekiss.

Me: (Inhales) Ahh. What a beautiful day!

Nico: Boy you said it buddy.

Vince: I'm so glad we can relax on the beach today.

Me: Me too partner.

Naruto: Boy we've been so busy saving the world that we haven't had any time to relax.

Me: No kidding bro. But I'm glad we're having a good time at the beach.

Vince: I love coming to the beach and more.

Carol: It's so relaxing. Can you rub some sunscreen on my back Vince?

Vince: Sure babe.

Vince took the sunscreen and did so.

Fu: Boy this is the life.

Fu was wearing a teal green bikini.

Sakura: You said it Fu.

Sakura was wearing a red bikini.

Naruto: I just hope Pervy Sage isn't here to peek on all of us.

Me: Don't worry about that bro. See that sign over there?

I point at a sign behind me and Naruto saw it. It was a sign that had Jiraiya's face with a no sign over it.

Naruto: (Reading sign) "Not allowed on the beach due to harassing women by order of the Anti-Pervert Patrol." Good I hope that sign works.

Nicole: Oh it will bro. We have a strong enforcement policy.

Naruto: That's great sis.

Nico: One of these days, instead of having Lady Hokage beat the living shit out of Jiraiya, we need to send him to the Ceres Prison.

Nicole: Well as much as I would like to see that happen we can't. Master Jiraiya is far too important for the Hidden Leaf Village and we need him and his spy network.

Nico: Ah. That's a good point.

Maria was in the lake water.

Maria: Horsea, be careful in the water.

Horsea: I will.

Julie, Lana and Lola were building an awesome sandcastle. It looked like an exact replica of the Biltmore Estate in North Carolina.

Julie: Lola, can I ask you a question?

Lola: Sure.

Julie: You know how Heatblast can't use fire when he's wet?

Lola: Of course. J.D. and Ben told me about that.

Julie: Does the same thing apply to you when you're wet?

Lola: Nope. My fire powers are so strong that they are completely inextinguishable.

Julie: Wow! That's amazing Lola.

Varie and Rachel came over.

Varie: Wow. That's a great sandcastle guys.

Rachel S.D.: It looks just like the Biltmore Estate.

Lola: That's my favorite mansion in North Carolina.

Lana: It's so awesome!

Laney was reading a book.

Laney: That's one of my favorite houses in the country. I love the architecture and the history behind it.

Lisa: Agreed. The architecture behind the Biltmore Estate is a magnificent marvel of architectural construction and engineering.

Lola did some more digging and filled up her bucket some more and her shovel hit something.

Lola: Huh?

Lola dug it up and she found a box. On it was a bronze sculpture that had famous figures on it and a bird in the middle square.

Lola: Wonder what this is.

Lori: Guys! It's time to go!

We got in the RV.

I was sitting with Lola.

Me: What's that you got there Lola?

Lola: I don't really know. I found it buried in the sand.

Me: May I take a look?

Lola: Sure.

I looked at the box.

Me: This looks old. Looks to be over 250 years old.

I opened the box and inside it was an old Meerschaum Pipe.

Me: It's an old Meerschaum Pipe.

Lola: I've never seen a pipe like that before.

Me: It's very familiar to me. But I'm having a hard time remembering. But I recognize the sculpture on it. It's the meeting of the Knights of The Round Table. The Knights Templar from Ancient Arthurian England.

Lola: That was so long ago.

Me: 1500 years to be precise.

I found a cryptic riddle on the pipe.

Me: (Reading) "The legend writ, the stain affected, the key in Silence undetected, fifty-five in iron pen, Mr. Matlack can't offend." That is very cryptic.

Lola: What do you think it means?

Me: I can't remember. It's vaguely familiar.

Then on a plaque in the box I found a phrase that refreshed my memory.

Me: (Reading) "The Secret Lies with Charlotte." (Gasp) Lola do you realize what you found here!?

Lola: No what is it?

Me: You found a clue that leads to the legendary Lost Treasure of The Knights Templar!

Nicole heard me say that and she gasped.

Nicole: The Treasure of the Knights Templar!?

Nico: That huge treasure from the movie National Treasure!?

Vince: It's real!?

Carol: How is that possible!?

Me: Lola found this pipe that leads to the treasure at the beach.

Flame Man: I wonder what the treasure is.

Lincoln: I don't know. What is this Treasure?

Me: It's a massive treasure that was started back during the time of the Ancient Egyptians. It's a treasure so massive that it was considered to be the largest of them all.

Nicole: The mother of all treasures. Before we were sent here into the past I've been trying to find that treasure for decades. But all I found were smaller treasures that were just as valuable.

Hot Shot: Wow! That must be one helluva treasure to find.

Nicole: It's said to be the largest treasure ever and it's said to be all full of priceless artifacts from over the millennia.

Everyone: WOW!

Lynn Sr.: Wow! That must be some treasure!

Rita: I'll say.

Lincoln: If the treasure from National Treasure is real, then we need to find it and share it with the whole world!

Me: That's just what I was thinking.

Laney: That treasure will be perfect for it.

Me: It sure will.

---

Back at the estate, me, Lisa and Laney were deciphering the riddle on the pipe. But as we deciphered it we found a rather harrowing path to the treasure.

The legend writ: Refers to the Ottendorf cipher needed to locate Benjamin Franklin's glasses.

The stain affected: The map is invisible to the naked eye.

The key in Silence undetected: The key to the Ottendorf cipher is in the Silence Dogood letters that Benjamin Franklin wrote.

Fifty-five in iron pen, Mr. Matlack can't offend: The map is hidden on the back of the Declaration of Independence.

Me: This is not gonna be easy. The Treasure Map is located right on the back of the Declaration of Independence.

Laney: That's not good. We can't desecrate one of the country's most important documents to find a treasure thousands of years old.

Nicole: Laney is right. We can't disturb a 243 year old document. So we'll have to find a safer way around it.

Lisa: I called in some colleagues from the college to help us. They should be here now.

The Doorbell rang.

Lisa went and got the door.

Lisa: Ah thank you all for coming.

At the door was Benjamin Franklin Gates - a Treasure Hunter and Cryptozoologist, Abigail Chase - Archivist of the National Archives, and Ben's best friend Riley Poole - computer expert and resident genius. With them was Ben's father Patrick Henry Gates.

Lisa: Thank you all for coming Ben.

Ben G.: My pleasure Lisa.

Me: Oh wow. Famous Treasure hunter Ben Gates.

Ben Gates: It's an honor to meet you, J.D.

Me: You too. I'm glad you came. Riley, Abigail and Patrick, it's a pleasure to meet you.

Abigail: Same here J.D.

Me: I'm glad you all came. We made an incredible discovery. But we're at a major standstill. We don't want to disturb the Declaration of Independence because of its age. But there is a treasure map on it.

Ben G.: That's understandable J.D.

Abigail: How are we gonna get to the treasure then?

Scavenger: I'll use my vehicle mode to excavate that treasure.

Nico: I don't think so Scavenger. It's buried some place in the middle of a city somewhere.

Elena Validus: Ben, if any of your aliens are good at digging, now would be the time.

Kevin: That's the same thing I said during the time we found out you were controlling the Nanite chips.

Me: Interesting. But Ben does have aliens that can dig.

Windcharger: Will my magnetic abilities help in this treasure hunt?

Me: They could Windcharger. But we'll have to see. But Ben, we have a safe alternative that can find the treasure without having the need to disturb an important document. We'll use the references of the map in the movie National Treasure.

I held up said DVD movie.

We watched 2004's National Treasure.

Benjamin Franklin Gates is an American historian, cryptologist, and treasure hunter. As a child, his grandfather, John Adams Gates, told him of a story that Charles Carroll of Carrollton passed on a secret to their ancestor in 1832 of a fabled treasure taken from ancient empires throughout history that was discovered by the Knights Templar and later protected by the Freemasons. The treasure would eventually be hidden in America by the Founding Fathers. The clue leading to the treasure is the phrase "The secret lies with Charlotte". While Ben is convinced by the story, his skeptical father dismisses it as nonsense.

Thirty years later, Ben leads an expedition with Ian Howe, and his friend, Riley Poole, a computer expert, to find the Charlotte, a ship lost in the Arctic, which holds the first clue to finding the national treasure. After hard fought efforts, they find a meerschaum pipe, which has a clue in the form of a riddle, implying that the next clue is on the Declaration of Independence. When Ian suggests they steal it, Ben opposes, causing a fight to ensue, resulting in a massive fire fueled by gunpowder, and the group split in two. Ian and his men escape the ship while Ben and Riley take cover just before the ship explodes.

Ben and Riley return to Washington D.C. and report the potential theft of the Declaration to the FBI and Dr. Abigail Chase of the National Archives, but both dismiss their claim. Ben decides to steal the document himself from the Archives' preservation room during a gala event. Obtaining Abigail's fingerprints, Ben successfully obtains the Declaration, but is spotted by Ian's group just as they break in to steal it. Ben tries to leave via the gift shop, but has to buy the Declaration when the clerk mistakes it for a souvenir copy; having not enough cash in hand at the time, Ben pays for it with a credit card. Abigail, suspecting something is astray, pursues Ben and takes back the document. Ian kidnaps her, but Ben and Riley rescue Abigail, tricking Ian by leaving behind a souvenir copy of Declaration. FBI Agent Sadusky begins tracking Ben down, using Ben's credit card information.

Unable to return home, the trio go to Ben's father, Patrick Gates's house. Patrick tries to convince Ben that the treasure is a myth, but Ben dismisses this. The trio then study the Declaration and discover an Ottendorf cipher written in invisible ink. With the help of lemon juice and some heat from the hair dryer, they find out that the hidden cypher refers to the Silence Dogood letters written by Benjamin Franklin. Patrick formerly owned them, but donated them to the Franklin Institute. Using a school boy to acquire the letters' key words, Ben, Riley, and Abigail discover a message pointing to the bell tower of Independence Hall, where the Liberty Bell once stood. Unfortunately, Ian and his men question the school boy and pursue the new lead. Following the point on the opposite wall of the bell house where the shadow cast at exactly 2:22 pm on the same day, Ben finds a hidden cache containing a pair of glasses with multiple colored lenses invented by Benjamin Franklin, which, when used to read the back of the Declaration, reveals a clue pointing to the symbol of Trinity Church which is located on Wall Street and Broadway in New York City.

The group is chased by Ian's associates. Ben is arrested by the FBI, while Abigail and Riley lose the Declaration to Ian. However, Abigail convinces Ian to help them rescue Ben in exchange for the next clue. Ian agrees, arranging a meeting at the USS Intrepid, where they help Ben evade the FBI.

Ian returns the Declaration and asks for the next clue, but when Ben remains coy, Ian reveals he has kidnapped Patrick as a hostage. They go inside Trinity Church where they sit and study the back of the Declaration of Independence using the different lenses resulting in the discovery of an underground passage known as Parkington Lane but it appears to lead to a dead end lit by a lone lantern. Patrick claims it is referencing the Midnight Ride of Paul Revere, pointing Ian to the Old North Church in Boston. Ian leaves Gates trapped in the chamber to die, heading for Boston. Patrick reveals the clue was a fake, then enters the treasure room using the clues they gathered on their journey, but it seems looted. After a heart to heart between Ben and Patrick, they find a notch which the meerschaum pipe fits into, opening a large chamber containing the treasure, then escape through a back exit. Ben contacts Sadusky, who Ben figures to be a modern Freemason by the signet on his ring, surrendering the Declaration and the treasure's location in exchange for clemency. Ian and his men are later arrested when Ben tips the FBI off.

Later, Ben and Abigail have started a relationship. Meanwhile, Riley is somewhat upset that Ben turned down the 10% finder's fee for the treasure but accepted a much smaller amount of only 1%, which still has netted them all significant wealth. As Riley drives away in a Ferrari from Ben and Abigail's newly bought house, Abigail gives Ben a treasure map. When Ben asks her what the map leads to, Abigail simply replies "You'll figure it out."

We saw the whole movie and it was awesome. We saw how they found the treasure. When the movie was done we cheered wildly.

Ben G.: That's an amazing movie.

Me: That's right. And now we know where to go. Shall we follow the map?

Everyone: YEAH!

Me: Lets find that treasure!

We cheered.

Lisa: Kevin, before you depart on this expedition, I have something that might help you absorb energy without going insane.

Kevin: What is it Lisa?

Lisa: This is a special energy stabilizer headband I created that will stabilize your Osmosian powers and allow you to transform into any of your alien forms without losing your sanity.

Kevin: Oh wow. Thanks Lisa.

Kevin put it on.

Me: Try it out Kevin.

Kevin: Okay.

He transformed into KEVIN 11,000!

He had the following appearance:

Pyronite: Torso, right tentacle structure, head and left wing structure

Tetramand: Torso, left arm, legs and arm count

Ectonurite: Head

Vulpimancer: Lower arms, upper left hand

Galvanic Mechamorph: Structure of elbow tentacle

Kineceleran: Tip of the tail on the elbow tentacle

Null Guardian: Tentacles

Lepidopterran: Wings

Unknown: Left wing

Unknown: Elbow tentacle

Unknown: Tentacle arm

Me: Wow! What a fusion! But how do you feel?

Kevin 11,000: **I feel amazing! But I'm still in control of myself.**

Kevin reverted back.

Kevin: It worked. Thanks Lisa.

Lisa: You're welcome.

Me: Your new Energy Stabilizer Headband is a success Lisa.

Lisa: Indeed.

Later we were off to New York City.

---

We arrived at the Trinity Church in New York City.

Me: Here we are guys. The Trinity Church.

Lori: This is literally gonna be so cool!

Me: I also have a strong feeling that Ian Howe is coming for the treasure too. Nico, if you see Ian and his thugs, point them in the wrong direction.

Nico: Roger that.

We went into the church and we went into the mortuary and we found the coffin that said Parkington Lane and we all went down a huge passage.

Nico stood outside the door of the church and just as we knew he was coming, Ian and his thugs arrived.

Ian saw him.

Ian: Is this where we're supposed to find the treasure.

Nico: (lying) Sorry, dude. You're wasting your time. The treasure isn't located here.

Ian: I see. C'mon, boys! (he and his goons walk away)

Nico: Ok. That should buy us some time.

Luckily we're always one step ahead.

We got to a chamber and we found an ancient room and we found a series of dials. One of them had a hole in it that was in the shape of the pipe.

Ed (digs): Dig a hole! Dig a hole! Dig a hole!

Me: Ed! Not now.

Ben G.: Could it really be that simple?

Me: It looks like it.

I pulled out the pipe.

Me: "The Secret lies with Charlotte."

I stuck the pipe into it and put the pipe stem into a hole and turned it and pressed a button and a door opened and we went into a room. In that room we found the Treasure!

Me: We found it!

Lola: Let me light the way.

Lola lit a torch and fire lit the floor and the entire room and we found the biggest treasure ever known in the history of mankind! It was loading with all kinds of priceless artifacts spanning from all over the centuries.

Me: Unbelievable!

Lola: What a treasure!

Wendy Marvell: I bet Fiore never had these artifacts before.

Me: No it didn't Wendy.

Me: Lets get all this treasure to the estate so we can call the museums around the world.

We did so and brought it all up to the surface. But we had one last loose end to tie up. We had to bring Ian Howe and his thugs to prison.

Me: Lets get Ian and his cronies.

My Dark Orb detector went off.

Me: There's a Dark Orb here. And without a doubt it's in Ian's possession.

We followed it and we arrived at Central Park. We saw Ian and his thugs and faced them.

Me: Ian Howe, you and your thugs are under arrest.

Ian: So the mighty Team Loud Phoenix Storm has come.

Me: That's right and we've come to take you in. And I got news for you. We found the treasure and we're gonna give it all to the people of the world.

Nico: Ian Howe, you have failed this city.

Me: And he has failed the world of treasure hunters.

Suddenly a huge black cloud appeared out of nowhere and it flew at us and we saw that they looked like a huge cloud of flies.

Lola: Are those flies?

Me: No this is something else.

One of them landed on my finger and what we saw was mondo strange. They were a swarm of Heartless that looked like a massive Swarm of miniature Galaxies with evil red eyes and the galaxies were no bigger than the size of our big toenails. The swarm will be called the Painsystem Swarm.

Me: It's a massive swarm of heartless!

Lincoln: These are the smallest Heartless we've ever encountered.

Laney: But they are still Heartless nonetheless. Lets get them all!

We went at the heartless and Ian and his thugs. We slashed all the heartless and punched the thugs in their faces. It was a massive and brutal fight.

Me: Lets finish these little bugs! Combo and Final Smash time!

Flame Man: Roger that J.D. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Flame Blast 1,000-fold.

Scavenger: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his weapons 100-fold.

Flame Man and Scavenger: FLAMING LASER FIRESTORM!

Flame Man fired his enhanced Flame Blast and Scavenger fired a massive barrage of lasers and they destroyed much of the heartless swarm.

Windcharger: Lets tear them apart. CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his Grenade launcher and his Flamethrower 100-fold.

Wendy Marvell: I've always wanted to do this! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Wendy's right arm device and it enhanced her Sky Dragon Slayer Magic 100-fold.

Windcharger and Wendy Marvell: FLAMING TORNADO FIRESTORM!

Wendy fired a massive blast of wind from her mouth and she formed a massive tornado and the tornado was ignited by Windcharger's flamethrower and it incinerated the remainder of the heartless swarm. Then we set our sights on Ian and his cronies. We punched and kicked them.

Me: Lets see how you like our final smashes Ian.

Wendy Marvell: You give all treasure hunters an extremely bad name Ian! SKY DRAGON TORNADO BURST!

Wendy Marvell fired a massive blast of wind that turned into a massive tornado.

Ben Gates: I've never done something like this. Lets do this! GOLD RUSH PRISON!

Ben Gates fired a yellow beam of light and it hit the tornado and turned it into a solid gold cage!

Me: Wow! Great job Ben. Not bad for your first ever final smash.

Ben Gates: Thanks J.D. That was amazing!

Me: It sure was.

Ben Gates: (To the viewers) Never mess with the awesome power of Team Loud Phoenix Storm.

Me: No way.

Ian Howe was in the gold cage. I walked up to him.

Ian: So you all found the treasure.

Me: We did. And you aren't gonna get it. It's gonna be donated to the Smithsonian, the Louvre, the Cairo Museum and all the famous museums of the world. You will never get the treasure.

I pulled out a 44 magnum gun.

Me: (Imitating Dirty Harry) You have to ask yourself one question: Do I feel Lucky? Well, do ya punk?

I fired my gun at his kneecaps and blew both of his legs off!

BANG! BANG!

Me: Consider this my mark on you. You're going to prison for the rest of your fucking life.

The police arrested him and he was officially made permanently crippled.

Nico: Did you have to shoot him J.D.?

Me: Just wanted to get my point across.

Nico: Oh.

Vince: That was an awesome Dirty Harry reference.

Me: Thanks Partner.

Ian Howe was sentenced to 4 Life terms in prison without parole in the Uranus Prison.

We donated the treasure to the museums around the world and revealed our findings. We made a tremendous amount of money from the Finders Fees. But most of that money went to Ben Gates and his family. Nicole had finally fulfilled her mission of finding the legendary lost treasure of The Knights Templar.

THE END

---

Another Fanfiction Complete

National Treasure was an awesome movie made back in 2004 and I saw it with all my friends in High School. It was one of the coolest movies ever. Nicholas Cage, Sean Bean, Harvey Keitel, John Voight, Justin Bartha and Diane Kruger all did a great job in that movie! It was awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# An Awful White Cat

At the Jupiter Maximum Security Prison. We were there for another rant session against Icky Vicky. Flame Man was providing the concessions for it by selling hamburgers, hot dogs and snacks to the prisoners.

Mega Man, Roll and Dr. Light were invited to watch.

Me: Thanks for coming over to watch the rant fest Dr. Light.

Dr. Light: You're welcome J.D.

Mega Man: I wouldn't miss this rant fest for anything.

Roll: Me neither. Icky Vicky is a monster to all children everywhere!

Vicky's good self we now call Victoria is with us.

Victoria: I'm glad we could come to see my evil self get more rants.

Roll: Same here Victoria. I hope your evil self burns in hell when we are through with her.

Lincoln: Hopefully she'll die of a heart attack in prison.

Lucy: That's extreme for us to think. But I would love to see Vicky die in here.

Flame Man handed a prisoner a burger.

Prisoner 1: Thank you.

Flame Man: You're welcome.

He handed a prisoner a hot dog.

Prisoner 2: Thanks.

Flame Man: You're welcome.

Mega Man: I thought Icky Vicky was locked up in the Moon Prison.

Me: We had her transferred here because she was assaulting other prisoners in the prison population in the Moon Prison.

Roll: Boy this girl is the ultimate personification of evil.

Me: Tell me something we don't know.

We got started. I was having a burger. Some of the prisoners were in special cages for entertainment purposes made of plexiglass.

Shocker: Ready for this guys?

Me: I hope everything that they say doesn't offend you Dr. Light.

Dr. Light: Don't worry J.D. I'm more than capable of handling it.

Me: All right.

Shocker took out a tuning flute and blew a note.

Shocker: (Clears throat and takes a deep breath) (SCREAMING AT THE TOP OF HIS LUNGS!) ***YOU HAVE A GIANT BUTT!***

(Time Squad Reference)

Icky Vicky then snapped and roared in such extremely ballistic fury!

Me: He really got her going.

Shocker: (SCREAMING) ***YOU HAVE THE UGLIEST FUCKING FACE AND THE UGLIEST FUCKED UP BRAIN ANYONE HAS EVER SEEN! I WOULD RATHER LICK A PIG THAT NEVER TOOK A BATH FOR 40 YEARS THAN HAVE YOU AS A BABYSITTER AND I WOULD RATHER EAT A PIECE OF 30-YEAR-OLD ROTTEN HAM THAN KISS YOUR FUCKED UP UGLY FACE WHEN I SEE YOU!***

Everyone: EEEEWWWW!

Me: That would be far too disgusting.

Prisoner 1: Yeah you tell her Herman!

Prisoner 2: You tell her!

Bai Tza: My turn. Now she'll see why I am a true monster inside.

Bai Tza walked over to Vicky and she turned into her Sea Demon Form!

Bai Tza: **Now this is my true form Vicky! I AM A TRUE MONSTER! UNLIKE YOU! YOU ARE JUST A FUCKED UP MONSTER WITH A HEART AS DRY AS A DROUGHT! YOU MAKE ME SICK LOOKING AT YOU! I WOULD RATHER DRINK A BARREL OF RADIOACTIVE TOXIC WASTE THAN HAVE ME SEE YOU KILL CHILDREN IN A SENSELESS AND DESPICABLY FUCKED UP MANNER!**

Everyone: EEEEWWWWWW!

Mega Man: That is nasty!

Lincoln: No kidding!

Arpeggio: (British Accent) My turn.

Arpeggio flew up to her and cleared his throat.

Arpeggio: I can't believe that I'm about to say this. But (SCREAMING AT THE TOP OF HIS LUNGS!) YOU ARE THE STUPIDEST AND MOST RIDICULOUSLY FUCKED UP MONSTER FROM BLOODY FUCKED UP HELL!

We cheered for him.

Me: Yeah you tell her Arpeggio!

Arpeggio: Thank you. Thank you.

Dr. Light (to Arpeggio): I never took you as the profanity using type.

Arpeggio: I'm quite surprised myself.

Me: Me too.

Xion: My turn.

Xion went up to Icky Vicky.

Xion: (Clears throat and takes a deep breath.) ARE YOU SAYING THAT I'M A DELICIOUS PASTRY FOR YOU TO SNACK ON FOR YOUR OWN AMUSEMENT! IS THAT WHAT YOU ARE FUCKING SAYING!?

Icky Vicky: Uh… Yes?

Xion: THAT'S IT!

Xion jumped Icky Vicky and pulverized her all over the place in a brutal fight cloud!

We were laughing hysterically and rolling on the floor.

Me: (LAUGHING HYSTERICALLY) OH THAT IS SO FUNNY! (LAUGHS)

Lincoln: (LAUGHING HYSTERICALLY) I LOVE THOSE RANTS PESTO DID! THAT WAS SO FUNNY!

We were laughing hard for 20 minutes.

---

Back at the estate, everyone was watching TV and reading books and playing card games. We came in still laughing.

Nico: (Laughing) Hey guys. What's so funny?

Me: (Laughs) Oh! We're laughing because Xion did one of those rants Pesto did.

Lana: From Animaniacs!?

Rachel S.D.: Oh that show is so funny! And it's one of my all time favorites!

Me: It always made most of us laugh Rach.

Lori: I love those rants Pesto did.

Lola: I love Minerva Mink. She is one hot mama mink.

Lincoln: She was the sexiest Mink ever.

Me: Ooh hubba hubba.

Earth: (Purrs)

Professor Utonium was having some coffee.

Override (to Professor Utonium): So what you're saying is that this cat is bad news. Am I right?

Professor Utonium: That's right Override. I was placed under a hypnotic trance and stole the Cat's Eye Jewel so that the cat can use a powerful machine to have the humans obey the cats of the city.

Me: That's insane!

Adult Blossom: I remember that cat. We thought he was an ordinary cat. But he was really a villain.

Adult Bubbles: But he was a cute kitty.

Lana: I would not want to have a cat like that here. Right guys?

Our wolf friends agreed with a howl.

Laney: Even our wolf friends agree.

Me: Yeah. You faced that cat once right girls?

Adult Buttercup: We sure did.

Me: I have a very strong feeling he's out there somewhere.

Suddenly the alarm went off.

Me: Uh oh.

We went to the computer. We saw at the museum that the Cat's Eye Jewel was stolen!

Me: The Cat's Eye Jewel was stolen!

Adult Blossom: Again!?

Adult Buttercup: So that cat is back!

Me: If that's the case then we have to be ready for him. Lets roll!

We were off to the city.

As we were flying we had a bag of cat food with us.

Double D: Remind me why we brought the cat food?

Raythor: Because all cats like that stuff. The minute the cat eats some of it, we'll grab it. Problem solved.

Me: This cat is much smarter than he looks from what the girls told me.

My Dark Orb detector beeped.

Me: We have a Dark Orb somewhere.

* * *

Next scene shows the Gotham Royal York Skyline.

Powerpuff Girls Narrator: THE CITY OF GOTHAM ROYAL YORK… A Place where catastrophe can strike at any minute!

White Cat: That's right. And with the jewel in place, the hypnotic modulator set to 10, and the distance diameter set to 15 miles, soon the city of Gotham Royal York will be hypnotized and obey the common household feline. (EVIL LAUGHTER!)

The machine that was built for this sinister purpose was ready.

But suddenly we arrived.

Me: Like hell will we let you do that!

We saw the White Cat. It looked like the very same cat that was owned by Dr. No!

Me: A stereotypical villain cat.

White Cat: So the mighty Team Loud Phoenix Storm has come.

Me: Your voice sounds just like the Joker's.

Batman: I was just about to say the same thing.

White Cat: My henchman, get them!

The Henchman screeched and yowled like a cat and went at us. I punched him in the face and knocked him out.

Me: That would be considered animal cruelty if it was a real cat.

The White Cat was trying to escape. But then Gatomon, Kari, Violet Incredible and Lana & the wolves cut him off.

Gatomon: Leaving so soon?

Violet Incredible: And without a goodbye?

Lana: How rude.

Kari: And we're hurt.

White Cat: And I still have my friends.

Me: What friends.

?: That would be us you fucker!

We turned and we saw the TTG TITANS & EVIL TERRA REBORN AS HEARTLESS! The Robin Heartless was called the Bird of Control, The Cyborg Heartless was called the Machine of Agony, The Beast Boy Heartless was called the Shapeshifter of Death, The Starfire Heartless was called the Alien of Suffering, the Raven Heartless was called the Scourge of Azarath's Bane and the Evil

Terra Heartless was called the Rock of Menace!

Me: The TTG Universe Titans!?

Tara: And evil me!?

Me: What in the flying freak is going on here!

Laney: I think I found the answer.

Laney pulled out a dark orb from the Hypnotic Machine. It was as big as a beach ball.

Me: So that's it. The Dark Orb was being used as a power source for the hypnotic machine.

Laney crushed it and we got a massive power boost.

Me: Now we can let all hell loose on these fucked up Titan Knockoffs! I hope you like the River of Fire, because that's where we're sending you for all eternity and erasing you from existence.

We went at them!

---

Killer Frost, Carol, Lana, Lea, Nico, Francis, Lola, Poison Ivy, Bloom, Taranee, and Tara & her kids VS. Rock of Menace.

---

Killer Frost, Lea, Francis, Lola, Poison Ivy, Bloom, Taranee, Tara and her kids were facing the Evil Terra Heartless called the Rock of Menace.

Rock of Menace (throws rock at Killer Frost): I'm going to enjoy crushing you!

Killer Frost (avoids the rock): Not before we crush you! And how come you're helping these Titan knockoffs? I thought you hated them!

Rock of Menace: I do. But now that they turned evil, we're friends.

Nico: Evil Tara Markov, AKA Terra you have failed this universe!

Lana punched her in the face and fired a powerful blast of ice lightning at her and froze her hands. Taranee, Francis, Lea, and Lola fired powerful blasts of fire at her and burned her. Nico punched her in the face and kicked her in the stomach with devastating force.

Nico: Lets see you survive this! AFTERSHOCK!

The 7-Star Dragonball on his bracelet glowed and a massive blast of purple energy exploded from underneath the Rock of Menace and blew her into the air.

Bloom: DRAGON FIRE!

Bloom fired a massive blast of fire that turned into a flaming dragon and it slammed into the Rock of Menace and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOMMMM!

Poison Ivy wrapped the Rock of Menace in bramble vines. Killer Frost punched the rock of menace in the face and kicked her in the stomach and punched her in the face again and she unleashed a massive barrage of painful punches all over her face!

Tara: Time to show this evil bitch knockoff that there is only a good Tara Markov!

Gloria: She will never insult our mothers name!

Selina: Yeah!

Tara, Gloria and Selina lifted up a massive number of boulders.

Tara, Gloria and Selina: FEROCIOUS EARTHQUAKE ROCKSLIDE!

They threw all the boulders at the Rock of Menace and they slammed into her with devastating force!

KRAKOOOOOOOMMMMM!

Carol: Time to finish this monster! Our Final Smashes will finish you once and for all!

Gloria: And then you're heading into the River of Fire where you will never come back ever again!

Tara: Lets kill her!

Carol: I'll start us off. BURNING GODZILLA FLARE!

Carol fired a massive blast of Burning Godzilla's Swirling Atomic Ray from her hand and it hit the Rock of Menace and it caused the building around her to explode in a massive fiery explosion.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM! BOOOM! BOOOOOOOOOOOMMM!

Gloria: You are nothing more than an Evil Ripoff of our TRUE mother! ROCK DRAGON DEVASTATION!

Gloria lifted up a massive number of rocks and they formed into a massive dragon of Earth and it went at the Rock of Menace and slammed into her with devastating force.

Tara: You are never welcome here! GAIAFORCE EARTHBLAST!

Tara fired a massive blast of yellow energy and it slammed into the Evil Terra Heartless and killed her in a massive fiery explosion.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Rock of Menace was destroyed.

---

Raven, Jessie (Pokemon), Bumblebee, Supergirl, Nico, May, Jessie B., Demona, Riku, Lucy L., Ransack, Lucy H., Roxy, Cornelia, Lynn, Sandman, and Clayface VS the Scourge of Azarath's Bane.

---

Jessie (Pokemon): (dodges Scourge of Azarath's Bane's blast) If you're evil now, then why don't you summon the Trigon from your world to kill us?

Scourge of Azarath's Bane: Oh please. My dear old Dad is inferior compared to the Trigon that my original counterpart fought.

Lucy L.: You don't deserve to be a true master of the darkness like me.

Lucy L. fired a massive blast of black lightning at the Scourge of Azarath's Bane and it hit her and electrocuted her.

Jessie B. kicked her in the face and threw her into the air and fired a massive blast of fire.

Jessie B.: You are an absolute disgrace to the real Raven!

Raven: That's right! You are just a cheep knockoff of myself that ruins the image of all heroes everywhere!

Lucy H.: And you will pay for your crimes! Nico, I need some water!

Nico: Coming at ya Lucy!

The 6-Star Dragonball on his bracelet glowed and a massive wall of water arose from the lake and went over to the building.

Lucy H. (Echoing) GATE OF THE WATER MAIDEN, OPEN!

She opened the Aquarius Gate with her Celestial Key and out came Aquarius the Water Bearer!

Aquarius: Hello Lucy.

Lucy H.: Hey Aquarius.

Nico: I hope our little talk down in Australia helped you out Aquarius.

Aquarius: It did. It gave me some time to reflect on what a hothead I had become. Thank you all for helping me out.

May: You're welcome Aquarius.

Cornelia: Your hair is very beautiful Aquarius.

Aquarius: Thank you Cornelia.

Lucy H.: We can talk about fashion tips later.

Aquarius: I know. Lets teach that supervillain fake a lesson!

Lucy H.: You got it!

Lucy and Aquarius jumped high into the air.

The Scourge of Azarath's Bane fired multiple dark energy blasts.

Nico: Oh no you don't! AIR SHATTERING ENERGY BALLS!

The 6-Star Dragonball glowed again and massive powerful balls of concentrated wind formed and went at the Dark Energy Blasts and they hit them and exploded with massive explosions of wind!

KRABOOOM! BOOM BOOM BOOMBOOMBOOMBOOM!

Lucy H.: LUCY KICK!

Lucy kicked the Raven Heartless with devastating force!

Aquarius fired a massive blast of water and it slammed into the Raven Heartless with incredible power!

Nico: Rachel Roth A.K.A. Raven, you have failed this universe! (To our Raven) No offense Raven.

Raven: None taken Nico.

Demona flew up into the air and slashed at her with her claws and kicked her into the ground. Roxy fired a powerful blast of nature energy and Cornelia fired powerful blasts of rock and leaves at the Scourge of Azarath's Bane and they hit her and exploded.

KRABBOOOOOOOOOOOOOMMM!

Lynn fired a massive wave of lava and it burned the Raven Heartless.

Sandman and Clayface formed their arms into mace clubs and went at the Raven Heartless and mercilessly pulverized her all over the place. Riku fired a powerful blast of dark fire from his keyblade and it hit her and exploded. May fired a massive blast of ice and froze the Scourge of Azarath's Bane's hands.

Jessie (Pokemon): Lets finish her with our combos and Final Smashes! Yanmega, I choose you!

Jessie sent out her Yanmega!

Nico: I've always loved Yanmega.

Roxy: It looks like a giant dragonfly.

Nico: It sure does.

Another Yanmega then appeared.

Nico: Oh wow! Another Yanmega.

Nico threw a pokeball and he caught it.

Jessie (Pokemon): ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Jessie's right arm device and it enhanced her Yanmega's abilities 100-fold.

Ransack: Lets show them the power of the Insect! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his Reflector Shield and Locust Form 100-fold. And it enabled him to have his wings turn into energy blade wings.

Jessie (Pokemon): Yanmega, SONIC BOOM!

Ransack and Jessie (Pokemon): SUPERSONIC DRAGONFLY BOOM!

Yanmega fired a massively enhanced sonic energy blast at the Raven Heartless. Ransack flew at 4,000 miles per hour and he slashed the Scourge of Azarath's Bane with his wings and the enhanced Sonic Boom hit her and exploded with the power of a Mach 8 Sonic Boom!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so loud that it shattered all the windows in the whole city!

Raven: Lets get this clod Lucy.

Lucy L.: With pleasure Raven.

Lucy fired a massive blast of dark lightning and Raven fired a massive blast of dark energy.

Raven and Lucy: NETHERWORLD STORMSTRIKE BLAST!

The blasts combined and turned into a massive black energy blast and it hit the Raven Heartless and exploded!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Lucy H.: Let use our combo Aquarius!

Aquarius: You got it Lucy!

Lucy H.: (Chants an Incantation)

Survey the Heavens, Open the Heavens…

All the stars, far and wide…

Show me thy appearance…

With such shine.

Oh Tetrabiblos…

I am the ruler of the stars…

Aspect become complete…

Open thy malevolent gate.

Oh 88 Stars of the heaven…

Shine!

(Echoing) **Urano Metria!**

Lucy fired 88 planets and stars at the Raven Heartless!

Aquarius: (Echoing) **BUBBLE SHOT!** Aquarius fired a massive barrage of water bombs from her urn.

Lucy H. and Aquarius: CELESTIAL AQUARIUS MAELSTROM!

The Constellation of Aquarius formed in the background behind them and their magic powers combined and the attacks slammed into the Raven Heartless and exploded with incredible power!

KRABBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Nico: Wow! That was awesome!

Raven: Time to send this cheap knockoff version of me back to Hell!

Supergirl: Lets use our final smashes! I'll start! KRYPTON SUPERSTORM LASER!

Supergirl fired a massive green laser vision blast from her eyes and it hit the Raven Heartless and exploded.

KRABBOOOOOOOOOOOOOOOOOOOOOMMMMM!

Bumblebee: My turn! I bet the TTG version of Bumblebee could never do this. HONEYSWARM HIVE BOMB!

Bumblebee formed a massive ball of honey and energy and it had hundreds of bees in it. She threw it and it hit the Raven Heartless and exploded and splattered honey all over the place. Nico got some on his hands.

Nico: (Licks the honey) Mmm. You make awesome honey Karen!

Bumblebee: Thanks Nico.

Raven: Now to finish you. RAVEN OF ABSOLUTE DARK SHADOW!

Raven formed a massive pitch black raven of pure dark energy and it flew at the Raven Heartless and exploded and completely obliterated her in an instant.

May: WOW! That was intense!

Nico: It sure was.

Jessie B.: One thing is for certain, we will never see that cheep knockoff of Raven ever again.

---

Starfire, Blackfire, Lori, Nico, Teresa, Hay Lin, Arpeggio, Xion, Karai, Leni, Shanan, Rachel S.D., Lincoln, Earth, Celica and Musa VS Alien of Suffering

---

The Alien of Suffering was Starfire's Heartless.

Alien of Suffering (throws Starbolts at Blackfire): Prepare for the knuckle sandwich, "Sister"!

Blackfire (dodges Starbolts): You're even worse then how I used to be!

Starfire: (Throws Starbolts) You are a worst version of me you monster!

The starbolts hit her and exploded.

Lori: You literally disgust me!

Lori blew the Alien of Suffering in a massive tornado of pure wind.

Nico: Starfire of Tamaran you have Failed this universe! (To our Starfire) No offense Starfire.

Starfire: None taken Nico.

Teresa: I would never stoop so low as you would!

Teresa fired a massive blast of sonic energy.

Musa: I've had enough of you cheep knockoffs! SONIC BLAST!

Musa fired a massive blast of sonic energy.

Rachel S.D.: You will never be welcome in our universe! SONIC BLAST!

Rachel S.D. fired a massive blast of sonic energy as well and hers, Musa's and Teresa's sonic blasts combined and they slammed into the Heartless Starfire.

Xion fired a massive blast of light at the Heartless Starfire and it hit her and exploded.

Karai slashed the Heartless Starfire with her sword all over the place. Arpeggio, Hay Lin, Lincoln and Lori fired massive blasts of wind and Lightning at her and blew her around and electrocuted her.

Nico: DRAGON THUNDERCLAP!

The 5-Star Dragonball glowed and Nico fired a massive blast of lightning from his fingers and electrocuted the heartless Starfire.

Shanan: You will never be welcome in our universe ever!

Shanan fired a massive green energy blast and it hit her and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Celica: You give all princesses a really bad name!

Celica unsheathed her sword and slashed the Heartless Starfire all over.

Earth: People like you don't belong here or on Tamaran!

Earth threw a massive glob of lava and burned her.

Starfire: Lets do the combination attacks sister.

Blackfire: You read my mind sister dear.

Starfire and Blackfire fired massive starbolts at the Heartless Starfire.

Starfire and Blackfire: TAMARAN STARBURST STRIKE!

The blasts combined and they hit the Heartless Starfire and exploded with incredible power.

KRABBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Starfire: Lets use our final smashes sister.

Blackfire: With pleasure sister.

Robin: I'll join too.

Blackfire: I'll go first. CENTAURI SYSTEM FIRESTORM!

The Centauri Solar System appeared in the background and Blackfire fired numerous energy blasts in the colors of the Centauri Planets and they slammed into the Starfire Heartless.

Robin: Never mess with our planet again! FURY OF THE ROBIN!

Robin hit threw numerous birdarangs and they all slammed into the heartless Starfire and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Starfire: This is our home and you have no place in it! TAMARAN STARSTORM WRATH!

Starfire fired numerous starbolts at a rapid pace and they hit the Heartless Starfire and completely obliterated her in a powerful explosion!

Nico: That takes care of that witch!

Lincoln: Yep. Good riddance.

---

Beast Boy, Elena, Lana, Edzilla, Cheetah, Nico, Shocker, Lincoln, Will, Venom, Rhino, Laney, and Flora VS the Shapeshifter of Death.

---

Shapeshifter of Death (turns into a snake and wraps around Elena): You just couldn't accept that we were more funny then our original counterparts, could you?

Elena: We don't mind funny shows. As long as they aren't offensive! (unleashes lightning bolt that shocks the jerk off her)

Venom: We find you to be totally disgusting!

Venom pulverized the Beast Boy Heartless in the face.

Flora: And you give our friends a really bad name!

Flora fired a massive blast of golden energy dust at the Beast Boy Heartless and it burned him all over.

Edzilla (punches Shapeshifter of Death): ED SMASH BAD BEAST BOY!

Laney entangled the Heartless Beast Boy in vines and Shocker, Elena, Lincoln and Will fired a massive blast of lightning and electrocuted him. Rhino charged and he slammed into him with devastating force.

Cheetah slashed the Beast Boy Heartless with incredible speed.

Lana fired ice lightning and froze him.

Beast Boy: You will never ruin my good name again! Lets get him Elena!

Elena: Right!

Beast Boy turned into a Spinosaurus and Elena fired a massive blast of lightning.

Elena: SUPERLIGHTNING SPINOSAURUS BITE!

The lightning energized Beast Boy as a Spinosaurus and he bit down on the Heartless Beast Boy and electrocuted him with incredible power!

Cheetah: Lets finish him with our Final Smashes! I'll start! SUPERSONIC CHEETAH SLASHSTORM!

Cheetah ran at supersonic speeds and she slashed the heartless Beast Boy all over the place.

Lana: My turn! KHIONE ICE SWORD MEGASLASH!

Lana formed a powerful energy sword of ice lightning and she slashed the Beast Boy Heartless all over the place and froze him.

Beast Boy: Never insult my name again! PRIMAL GORILLA PULVERIZER!

Beast Boy turned into a gorilla and pulverized the Beast Boy Heartless with merciless fury!

Nico: Garfield Logan, A.K.A. Beast Boy, you have failed this universe!

He held up his right hand and the 3-Star Dragonball on his bracelet glowed and Nico formed it into a powerful energy cannon.

Nico fired a massive energy blast and it slammed into the Beast Boy Heartless and completely obliterated him in an instant.

Elena: That's it for the Beast Boy Heartless.

---

Stewie, Nico, Mega Man, Roll, The Robot Masters, Lisa, Tecna, Bowser Jr., Lily, Layla, Rubberband Man, Inque, Cyborg and Jinx VS the Machine of Agony.

---

Jinx (dodges Machine of Agony's attacks): You know what's ironic? When I was bad, I fought Cyborg on a daily basis. But now that I'm good, I'm fighting against you, who's Cyborg's evil counterpart.

Machine of Agony: You know what's more ironic? The fact that I had a crush on the version of you from my world.

Jinx was horrified and then she hurled her guts out!

Rubberband Man punched the Machine of Agony in the face with a super powerful punch. Inque formed whip and lashed the Cyborg Heartless with indiscriminate fury. Jinx fired energy blades and Tecna fired a massive rainbow energy beam!

Tecna: (British Accent) You give the Cyborg we know and love a really bad name!

Nico: Victor Stone A.K.A. Cyborg, you have failed this Universe! (To our Cyborg) No offense Cyborg.

Cyborg: None taken Nico.

The 2-Star Dragonball glowed.

Nico: RAINBOW GLISTENING SHOT!

Nico fired a rainbow energy blast and it hit the Cyborg Heartless and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Lily and Layla fired massive blasts of water and they soaked him and he was shorting out.

Lisa: You are a robot that should've never been created at all!

Lisa fired a photon energy rifle and it hit him and exploded.

KRABOOOOOOOOOOOOOMMMMM!

Stewie and Bowser Jr. fired a massive blast of fire at him and they burned him.

Cyborg: You will never terrorize our world again! Combo time!

Jinx: You got it Cyborg!

Cyborg fired his arm blaster and Jinx fired a massive blast of pinkish purple energy.

Cyborg and Jinx: JINX STORMBLAST SURPRISE!

The blasts combined and slammed into the Heartless Cyborg and exploded!

KRABBOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Mega Man: Lets finish him off with out final smashes! Ready guys?

Pharaoh Man: You know I always am Mega Man.

Roll: Lets get him!

Cut Man: You lead the way.

Mega Man: Right!

Mega Man, Roll and the Robot Masters: VICIOUS ELEMENTAL ROBOT ASSAULT!

Mega Man, Roll and the Robot Masters all energized themselves and they flew at the Cyborg Heartless and fired all their weapons at once and they hit the Cyborg Heartless and exploded with incredible power!

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Jinx: That was intense! My turn! ONSLAUGHT OF FRIDAY THE 13TH!

Jinx fired a massive barrage of energy blasts and they all slammed into the Cyborg Heartless and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Cyborg: No one disgraces my image! CYBERNETIC BLASTER

SUPERRAY!

Cyborg fired a massive energy blast at the Cyborg Heartless and it hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion completely obliterated him in an instant!

Layla: You will never disgrace image of the Cyborg we know and love!

Lily: Well said!

---

J.D. Nico, William, Stella, Luan, Maria, Bai Tza, Shego, Irma, Batgirl, Luna, Batman and Robin VS The Bird of Control.

---

Batman (throws Batarang at Bird of Control): You have the nerve to call yourself my partner? You digust me!

Bird of Control (dodges Batarang): What are you gonna do about it? You don't kill people, remember?

Me: You don't have any idea how wrong you are!

Robin: Bruce, my counterpart isn't human anymore. You don't have to hold back!

Batman punched the Bird of Control in the face.

I unsheathed my Quasar Saber and the Bird of Control had his staff ready and we clashed.

Me: You are a horrible leader! You never let the Titans have any fun and you never let them did what they wanted when it came to fun stuff!

Luna: Yeah you hardcore fuckpot!

Shego: Wow! Luna I didn't think you were the swearing type.

Luna: It's a living.

Robin: You're exactly how I would've turned out if I had let my obsession with Slade get the best of me!

Bird of Control: I'm not obsessed! I'm detailed oriented!

Me: Bullshit! You are nothing more than a 12,000% fucked up control freak!

Batman: You give the Robin we all know a really bad name!

Nico: Dick Grayson A.K.A. Robin, you have failed this universe as a leader and as everything! (To our Robin) No offense Robin.

Robin: None taken Nico.

Bai Tza: You give all leaders of Superheroes a really bad name!

Irma: Yeah!

Maria punched the Robin Heartless in the face and knocked out some of his teeth.

Me: You are the worst leader ever! You are also the most incompetent leader in the world!

Luan: That's right! And I'm so mad I can't even think of a joke!

Me: Lets finish this clod off!

We all went at him!

The 4-Star Dragonball on Nico's bracelet glowed and he charged up a powerful ball of fire.

Nico: NUOVA STAR!

He threw a massive ball of fire at the Robin Heartless and it hit him and exploded into a massive pillar of fire.

Shego fired a massive blast of green plasma and Luan fired a massive blast of light and the blasts combined and they hit him and exploded.

Luna fired a massive blast of water at the Robin Heartless and so did Maria, Bai Tza and William and the blasts combined and they slammed into him with the force of a powerful megatsunami. Stella fired a massive blast of light and burned him.

Batman: I think it's time to finish this disgrace off.

Robin: You got it Bruce.

Batman and Robin threw numerous Batarangs and Birdarangs.

Batman and Robin: BAT AND BIRD BOMB ASSAULT!

The Birdarangs and Batarangs hit the Bird of Control and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Batman: Lets make this monster suffer with our final smashes.

Batgirl: You got it Bruce!

Robin: Ladies first.

Batgirl: How gentlemanly. BATSTORM METEOR BURST!

Batgirl formed a powerful ball of black energy and she fired it at the Robin Heartless. It hit him and exploded!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Robin: This is for disgracing my image! ROBIN FLOCK STORMSWOOP!

Robin whistled like a bird and he called a massive flock of robins and they went at the Bird of Control and hurt him all over the place.

Batman: You will never terrorize my family again. I AM VENGEANCE, I AM THE NIGHT, I… AM… **BATMAN!**

Batman unsheathed a Bat Sword and his blade energized with dark energy and he slashed the Robin Heartless.

Override: Time for action! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into her blaster and it enhanced its firepower.

Batman: Lets do it! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Batman's right arm device and it enabled him to gain new powerful bat armor.

Override and Batman: SUPERSONIC SPEED BAT SURPRISE!

Override fired a powerful blast of energy from her blaster and Batman flew at supersonic speed. They slammed into the Bird of Control and Exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: And now for the coup de grace!

I pulled out my Transdagger.

Me: OMEGA SPEAR!

I turned my Transdagger into a powerful spear.

Me: BLACK HOLE GALAXY SPEAR!

The spear had a powerful orb of dark energy on the tip and I stabbed the Robin Heartless in his black heart.

Me: GO BACK TO HELL, AND TAKE YOUR FUCKED UP FRIENDS WITH YOU!

The Robin Heartless imploded and was killed instantly.

Me: That's that.

But then their spirits appeared and they were being sucked into the River of Fire! But they weren't gonna go without a fight.

TTG Robin: We won't go back!

Nico: Oh shut up!

Nico held up his hand and his bracelet glowed red and 7 streams of red energy fired out of it and formed a massive energy ball. Nico condensed it and it was the size of his body.

Nico: You disgraceful Titans have all failed this universe! Go back to Hell and stay there! NEGATIVE KARMA BALL!

Nico fired the energy ball and it sucked in the Spirit Titans and went into the River of Fire, sending them in there by force.

The portal closed.

Me: You disgraced titans have failed everything and everyone.

---

## Final Battle: Violet Incredible, Lana Loud and Bubbles VS White Kitty

---

Violet: You are one bad kitty!

Violet fired a powerful force field blast and it hit the cat and exploded.

KABOOM!

Lana: I would never want you to replace any cat!

Lana fired ice lightning and froze it.

Bubbles screamed a deadly supersonic scream and it hit the cat.

Violet: Lets finish this with a final smash! FORCE FIELD BOMB STORM!

Violet fired a massive barrage of force fields and they slammed into the cat.

Lana: My turn! ICE WOLF PREDATOR STORM!

Lana fired a massive blast of ice lightning and it turned into a ferocious pack of wolves and Lana, the wolf friends and the ice lightning wolves went at the cat and the cat yowled and they chased him. They got into a powerful fight cloud.

Bubbles: Time to finish this! POWERPUFF WATER BURST!

Bubbles fired a massive aqua blue energy ray and it slammed into the cat and exploded!

The cat was down.

I put the cat in an animal crate.

Nico: White Kitty you have failed this city.

Nico also caught a Leafeon during the battle.

Bubbles: (To the Viewers) Always care for your animals and they will love you for it.

Me: You said it Bubbles.

We sent the White Cat to the Uranus Prison Pound for life.

We went back to the estate and we were now finally rid of the disgraced TTG Titans. We returned the Cats Eye Jewel to the Museum.

Narrator: Another villain has been defeated. And so once again, the day is saved. Thanks to TEAM LOUD PHOENIX STORM!

We were in our poses in a background of fire.

THE END

---

Another Fanfiction Complete

The White Cat from The Powerpuff Girls was a villain that only appeared once in the show and that was a major disappointment. It would've been so awesome to see him as a recurring villain. What a ripoff! Mark Hamill did a great job voicing him. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# The Nightmare from Bald Mountain!

In the backyard by the lake at Team Loud Phoenix Storm Estate, me and Nico were looking at each other with sheer competitiveness as we were having a contest.

On our picnic table was a jar full of pickled Dragon's Breath Peppers. The Hottest Peppers in the world! The jar had a label that had a picture of a dragon eating a supernova explosion. And the label said "Hypernova Dragonic Cataclysm whole Dragon's Breath Peppers. The Worlds Hottest Peppers. Use with extreme caution!" And there was a skull and crossbones and it also said X10 XXXtra Hot on it.

Me: You ready to do this Nico?

Nico: You are gonna fail this contest J.D.

Me: Bring it on Nico!

I opened the jar and a demonic cloud of smoke with glowing evil red eyes came out of it laughing malevolently as Satanic Cultist Music was heard.

May, Lynn, Lucy, Lori, Laney and Konan were watching. May and Lynn were hugging each other and shaking with fear.

Laney: This is gonna get rough guys.

Lori: No one can literally survive eating that much spice!

Lucy: I'll be sure to say something nice at your funerals.

Konan: This is gonna be a dangerous and very flammable challenge.

Me: You ready Nico?

Nico: On your count.

Me and Nico each take a pepper out of the jar and we had to wear gloves because of the acid in the pepper juice.

Me: 1…

Nico: 2…

Me and Nico: 3!

We ate the peppers and almost instantly we felt the extreme heat. We ate more and more peppers until the jar was empty and we drank the juice from the jar. But then suddenly, Nico exploded in a massive thermonuclear explosion!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

A massive jet of fire exploded right out of his mouth with incredible force as he screamed in excruciating pain!

Laney: Look out!

Everyone ducked.

Nico: WAAAATTTTTEEEERRRR!

He jumped into the lake and it started boiling as he was being cooled down. A huge cloud of steam came out of the lake. Nico came out and he fell to the ground and then he waved the white flag of surrender.

I got up and I had a massively raging aura of pure fire around me.

Me: Whew! Is it hot out here or is it just me?

I had red smoke coming out of my mouth and it was as hot as the core of a blue giant star.

Everyone cheered for me.

Nico: (Wheezes) You have one of the strongest mouths I've ever seen J.D.

Me: I've inherited that from my grandpa on my moms side of the

family.

Nico: You have a powerful stomach too.

May: That's alright Nico. You did your best.

Nico: Thanks May.

Me: You did great though Nico.

Nico: Thanks man.

Me: No problem.

Nico: It's a good thing I have Bowser and Shendu's Fire breath. Otherwise, that pepper would've killed me.

We laughed and Lori saw something.

Lori: J.D. are you all right? There's blood pouring down your right arm.

Me: Huh?

I lifted up my shirt sleeve and there was a tattoo on my right arm that looked like a pepper on fire in the middle of a circle with wings and blood was dripping from it and there was a flame on top of it. And it said 100% Insanely Spicy Demon on it.

Me: I don't remember getting a tattoo like this.

J.D. 2: Oh. (Laughs) Sorry I forgot to tell you J.D. That tattoo is my prize and title I got for eating all the spiciest food in the world. It's how I became a powerful force in the world of spicy food and became recognized as the man with the insane love of spice.

Me: Wow! You are just as insanely spicy as me.

J.D. 2: (Laughs) We both are. But way to go on winning.

Me: Thanks. You and I have so much in common.

J.D. 2: We sure do.

Luan: I'll say. You couldn't Spice this one up! (Laughs to rimshot) Get it?

We all laughed at Luan's joke.

Me: (Laughs) That was a good one Luan!

Eddy: (Laughs) Good one!

---

In another part of the backyard, Nanette and Sheila were having a contest to see who can transform into their monster forms the fastest. Now that they have new clothes that won't be destroyed when they transform, they can have contests like this.

Nanette: Are you ready Sheila?

Sheila: You bet!

Nanette: Scorponok, Syd, would you like to be our referee?

Syd: I would be honored.

Beast Wars Scorponok: Sure thing.

Syd and Scorponok came over and Syd had a green flag ready.

Beast Wars Scorponok (to Sheila and Nanette): Alright, ladies. Are you ready?

Syd: Ready?

They stood ready.

Syd: Set… GO!

They concentrated and started transforming!

Nanette: (Groans) I've always hated this part!

Sheila: (Groans) Me too!

Nanette's hands turned into claws and two more of Nanette's mutated arms grew out of her sides. Her back expanded as it turned blue. Her front side turned white and expanded. Her feet then transformed to suit her new form. Nanette was currently a blue beetle monster with a human head.

Sheila clutched her head in agony and she turned back into an ugly spider creature! First she grew extra arms from her sides and she bent down and grew a huge mouth and she turned into an ugly spider creature with razor sharp teeth.

Syd was keeping track with a 2 stopwatches and she saw that Sheila's transformation was finished first.

Syd: Sheila wins first! In 3.2 seconds!

Dawn (to Sheila's monster form): Sheila? Can you hear me in there?

Sheila nodded. When she turns into her monster form she's called Shredlegs. When Nanette is in her blue beetle form, she's called Thunderbug.

Leni: AAAAHH! SPIDER! (hits Shredlegs with a bat)

Syd: Leni! Stop! That's not a spider! That's Sheila!

They changed back.

Sheila: Wow! I didn't know my transformation was that quick. But OW! Leni it was me in that form!

Leni: Oh sorry.

Sheila: I had no idea you were scared of spiders

Nanette: Me neither.

Spiderman: Leni, how come you're not scared of me but you're scared of Sheila's monster form?

Leni: Because Lincoln showed me his comic books on you. And you are totes amazing in your powers.

Spiderman: Thanks Leni.

Sheila: Good try though Nanette.

Nanette: Thanks Sheila.

After we cured all the people in the Underground City after the events of Journey to the Underground, Max, Roy, Ken and George now have gotten great jobs.

Max now works as a construction worker for a famous construction company.

Roy is a forklift operator at a furniture store.

Ken is a chef at a catering company.

And George is a nuclear power plant worker. But thanks to all the clean energy protocols we put into place during the Earth Week saga, we have zero pollution.

---

In the lake, Maria and Horsea were playing hide and seek.

Maria: I'm gonna find you Horsea.

Hiyana came over to her.

Hiyana: Hey Maria. Playing hide and seek?

Maria: I sure am. Want to join in?

Hiyana: Sure.

They swam all over the lake and Hiyana found Horsea.

Hiyana: Found you Horsea.

Horsea: You sure did.

---

Later we were watching my favorite movie from when I was little: Fantasia. It was an awesome classical music cartoon movie. Earlier Nico caught his own Mamoswine and a Gliscor.

Fantasia opens with live action scenes of members of an orchestra gathering against a blue background and tuning their instruments in half-light, half-shadow. Master of ceremonies Deems Taylor enters the stage (also in half-light, half-shadow) and introduces the program.

Toccata and Fugue in D Minor by Johann Sebastian Bach. Live-action shots of the orchestra illuminated in blue and gold, backed by superimposed shadows, fade into abstract patterns. Animated lines, shapes and cloud formations reflect the sound and rhythms of the music.

The Nutcracker Suite by Pyotr Ilyich Tchaikovsky. Selections from the ballet suite underscore scenes depicting the changing of the seasons from summer to autumn to winter. A variety of dances are presented with fairies, fish, flowers, mushrooms, and leaves, including "Dance of the Sugar Plum Fairy", "Chinese Dance", "Arabian Dance", "Russian Dance", "Dance of the Flutes" and "Waltz of the Flowers".

The Sorcerer's Apprentice by Paul Dukas. Based on Goethe's 1797 poem "Der Zauberlehrling". Mickey Mouse, the young apprentice of the sorcerer Yen Sid, attempts some of his master's magic tricks but does not know how to control them.

Rite of Spring by Igor Stravinsky. A visual history of the Earth's beginnings is depicted to selected sections of the ballet score. The sequence progresses from the planet's formation to the first living creatures, followed by the reign and extinction of the dinosaurs.

Intermission/Meet the Soundtrack: The orchestra musicians depart and the Fantasia title card is revealed. After the intermission there is a brief jam session of jazz music led by a clarinettist as the orchestra members return. Then a humorously stylized demonstration of how sound is rendered on film is shown. An animated sound track "character", initially a straight white line, changes into different shapes and colors based on the sounds played.

The Pastoral Symphony by Ludwig van Beethoven. A mythical Greco-Roman world of colorful centaurs and "centaurettes", cupids, fauns and other figures from classical mythology is portrayed to Beethoven's music. A gathering for a festival to honor Bacchus, the god of wine, is interrupted by Zeus, who creates a storm and directs Vulcan to forge lightning bolts for him to throw at the attendees. Iris, goddess of rainbows made an awesome rainbow. At sunset the god Apollo rode a chariot across the sky. Morpheus the god of sleep, covered the sky with the blanket of night and lastly Diana - the Goddess of the Moon used the crescent moon like a bow and fired a ball of fire that filled the sky with stars.

Dance of the Hours by Amilcare Ponchielli. A comic ballet in four sections: Madame Upanova and her ostriches (Morning); Hyacinth Hippo and her servants (Afternoon); Elephanchine and her bubble-blowing elephant troupe (Evening); and Ben Ali Gator and his troop of alligators (Night). The finale finds all of the characters dancing together until their palace collapses.

Night on Bald Mountain by Modest Mussorgsky and Ave Maria by Franz Schubert. The sequence takes place in a mountainous area, in which a village is overlooked by Bald Mountain. The peak of Bald Mountain is revealed to be Chernabog's wings, which he spreads out as he looks at the village down below. Stretching out his arms, Chernabog casts a dark shadow over the village and summons ghosts, including the spirits of hanged criminals (who pass through the noose a second time as they rise from their graves), fallen warriors in the moat and grounds of a ruined castle and the souls of all who are not buried in sacred ground.

The ghosts join together to become a single mass, swirling around Chernabog, who laughs and summons fire and demons. As the demons emerge and gather below their master, he grabs a number of them and disdainfully throws them into the fires of Bald Mountain, while his other minions dance on. He then uses flames to create images on his right palm: first, the flames resemble three elegant dancers with long flowing hair; then, at his pleasure, they transform into dancing barnyard animals. Chernabog then transforms them into blue lizard-like demons who crawl on his hand and then become crushed. When Chernabog opens his hand, the flames become blue demons with horns and tails who dance before him, causing him to grin maliciously. As the dancing continues, it becomes more frantic and chaotic; Harpies fly above the demons, occasionally grabbing them and throwing them into the inferno.

The celebration culminates in a blinding flash of fire from the inferno. Chernabog, ready to continue, eagerly leers over his minions but is interrupted by the sound of bells, which herald the coming of the dawn. Though he initially ignores the sound, the light of the sun forces him and his minions to retreat; as the ghosts return to their resting places and the demons hide in the mountain, Chernabog raises his arms one final time and closes his wings, protecting himself from the sunlight and becoming the peak of the mountain once more.

A long line of figures (monks or nuns), each bearing a source of golden light, gradually comes into view in the land in front of the village. The silhouettes proceed up a shallow-sloping hill, among natural forms that resemble the architecture of a cathedral (trees are tall and completely vertical, resembling columns, and branches cross together to form gothic arches), the predawn sky filled with color by the coming sunrise. The camera continues ahead of these figures and reaches a serene horizon, where the sun slowly rises to a crescendo.

Lisa loved all the classical music on the movie. But we saw Night on Bald Mountain and we'll never forget seeing the terror of the Walt Disney version of the devil himself: CHERNABOG!

Chernabog is seen rising from the top of Bald Mountain, where he opens his wings, extends his arms, and summons spirits from the lands below, including the ghosts of soldiers, criminals, and those not buried on sacred ground. Using the souls, Chernabog awakens Bald Mountain, summoning fire and demons from its maw. He proceeds to amuse himself by forcing the demonic figures to dance for him. He creates beautiful dancers out of fire, then wickedly transforms them into vile barnyard animals. Chernabog proceeds to summon Harpies to grab other demons and toss them into the hellish inferno of Bald Mountain, and joins in himself by bringing forth life, then proceeding to kill it again by tossing it into Hell. The madness accumulates into a massive infernal flash.

As Chernabog prepares to continue his wickedness, he is suddenly interrupted by the sound of church bells and the light of dawn. Though he attempts to resist it, the bell tolling and morning light become too much goodness for him to withstand, causing the ghosts and demons to retreat. Disgusted, Chernabog folds his wings back over his body to protect himself from the sunlight, hiding in Bald Mountain as the sun rises and a church choir sings "Ave Maria", hailing and praising the Lord God and Mother Mary.

But most of us started crying when we heard the song Ave Maria. It was so peaceful and sacred that it was breathtaking.

When the movie was over, we cheered wildly and it was a great movie.

Me: I love that movie!

Konan: That was a very entertaining movie. I love the song Ave Maria. It's so peaceful.

Me: It is Konan. It means Hail Mary. It was one of the most famous classical musicals of all time.

Lisa: Indeed. I've always loved the musical serenity of Beethoven's Pastoral.

Nico: That was a great song by Beethoven.

Me: It sure was. My favorite in this movie is The Rite of Spring.

Laney: That's one of my favorites too. I thought seeing Earth like that was pretty cool.

Me: It sure was. But this movie was made in 1940. We had no idea what happened back then when the dinosaurs were wiped out back then. The crater from the asteroid that wiped out the dinosaurs was discovered back in 1978.

Lisa: That is correct.

Laney: I never knew about that.

Lola: But the part that really scared me was when we saw Chernabog.

Me: I know. That song A Night on Bald Mountain always gives me the creeps.

Lucy: I find it to be more of my kind of music.

Lincoln: Lucy you always love music like that.

Lucy: Exactly.

Me: Sora, you beat Chernabog before didn't you?

Sora: I sure did. I beat him the first time.

Riku: And I beat him as well.

Me: So you both beat him before.

Kairi: Sora, how did you defeat Chernabog the first time?

Sora: It wasn't easy. But to beat him we had to hit him on his head.

Me: And he's like the devil. He is the ultimate representation of pure evil. But now we have a chance to destroy him for good. Lets head to the Simulator and face him.

Everyone cheered.

Quickmix: (Irish Accent) This time, that punk's gonna be hit in more than just his head!

We went to the Simulator.

---

We were in the simulator and we were getting ready.

Me: Konan, you are known as the Angel of the Rain right?

Konan: That's right J.D.

Me: This simulation will be perfect for you. You are a powerful angel at heart and you have a heart of light.

Konan: Thanks J.D. that's flattering. And yes you are correct. Before I left the Akatsuki my heart was clouded with darkness. But after I realized what was about to go down, I promised to help you all.

Me: Thanks Konan.

The Simulator activated and we found ourselves in the world of Bald Mountain and we saw Bald Mountain and it was a terrifyingly spooky mountain.

Me: Wow. Bald Mountain.

Lola and Lana were hugging each other in fright.

Lana and Lola: (In unison) I'm scared.

Me: I know you two. But we'll get through this together.

Suddenly the music of A Night on Bald Mountain was playing.

Me: Here we go.

We flew up the mountain and the music got louder and louder and we saw something arise from the top of the mountain and unfolded its wings. And out of it was Walt Disney's Version of the Devil Himself:

**CHERNABOG - HARBINGER OF ULTIMATE EVIL!**

Me: Chernabog!

Chernabog: (to Sora) (Demonic Voice) **Hello again, Keyblade Masters. I've been expecting you.**

Cybertron Menasor: (Irish Accent) You're Chernabog, the ruler of Bald Mountain?!

Chernabog **: I am the ruler of the entire universe.**

Me: Not if Team Loud Phoenix Storm has anything to say about it! You will never torment the spirits and souls of anyone ever again!

Nico: Chernabog, you have failed this universe!

Me: Power Up and transform!

We did so and our power was incredible!

We went at Chernabog and I punched him in the face and kick him in the stomach with devastating force!

KRABLAAAAAMMMMMM!

Edzilla (headbutts Chernabog): ED SMASH DEVIL!

Lola and Taranee fired a massive blast of fire and burned him.

Me: (Cups hands to the side) KAAAAAA! MEEEEEEE! HAAAAAAA! MEEEEEEE!
HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA!

I fired a massive red Kamehameha Wave at Chernabog and it hit him and exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The blast blew a huge hole into his chest. Revealing his black heart!

We fired energy blasts and more at Chernabog and we were hitting him with all kinds of attacks. Chernabog sent all his minions at us and we saw vultures, ghosts, demons, spirits, walking skeletons, pigs, wolves, goats, goblins, imps, satyrs, zombies, fire women, hags, harpies and werewolves. He had a massive army of monsters from the dead and a huge plethora evil minions under his command. We were killing all of them and more. It was like we were fighting the entirety of the Army of Hell.

Konan: I will never let your evil plague our world Chernabog!

Konan flew at Chernabog and fired a massive light energy blast from her hands. It hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Chernabog roared in excruciating pain.

Me: Whoa!

Nico: Konan is a true angel!

Lincoln: It's like she was sent from Heaven to destroy the Devil.

Laney: Unbelievable.

Chernabog: **How can this be? You're all human.**

Me: Most of us are human. But we were given incredible power from the Gods themselves.

Nico: I am a pure blood Saiyan from the planet Vegeta.

Starfire: I'm a Tamaranian from the planet Tamaran.

Blackfire: Same with me.

Me: Also some of us are hybrid creatures from Earth. Lets finish this clod off for good!

We went at Chernabog some more. It was a massive and ferocious onslaught.

Me: Lets finish him with our combos and final smashes!

Cybertron Menasor: Aye! Lets do it! CYBER KEY POWER!

The Gigantion Cyber Planet key went into the back of Cybertron Menasor's drill and it enhanced its destructive power 100-fold.

Scorponok: Lets do it. Scorponok, TERRORIZE!

Scorponok transformed.

Scorponok: CYBER KEY POWER!

The Animatron Cyber Planet Key went into Scorponok's left claw and it enhanced his missiles explosive power.

Cybertron Menasor and Beast Wars Scorponok: GIGADRILL MISSILE BARRAGE!

Scorponok fired a massive barrage of missiles and Cybertron Menasor charged with his drill ready. He slammed the Drill into Chernabog's black heart and it pierced through it and the missiles hit him all at once and they exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Dawn: Lets get him Mamoswine!

Dawn called out her Mamoswine.

Dawn: GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet went into her right arm and it enhanced her Mamoswine's abilities.

Quickmix: Good thinking lass. Lets do it! CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his Cement Mixer and it turned into a powerful superlaser cannon.

Dawn: Mamoswine, use Ancient Power!

Quickmix and Dawn: EARTHQUAKE SUPERBLAST CANNON!

Mamoswine fired a massive barrage of huge boulders and Quickmix fired a massive laser blast. They both hit Chernabog and exploded with incredible power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Chernabog's heart exploded and he was far from finished.

Sora: Time to finish you once and for all Chernabog! FINAL LIGHT TORNADO STRIKE!

Sora went into his Final Form and he fired a massive vortex of light energy and it hit Chernabog and burned him and obliterated his minions!

Konan: Time to finish you for good Chernabog. You will never ruin this world we were all given by the Grace of God! HEAVEN'S LIGHT JUDGEMENT!

Konan fired a massive blast of white light at Chernabog and it hit him and completely blew him in half and obliterated his whole lower body!

The Portal to the River of Fire opened!

Me: Lets finish him!

We did the finger motion for the Holy Trinity and prayed.

All: (In unison) Our Father, which art in heaven,

Hallowed be thy Name;

Thy kingdom come;

Thy will be done

in earth, as it is in heaven:

Give us this day our daily bread;

And forgive us our trespasses,

as we forgive them that trespass against us;

And lead us not into temptation,

But deliver us from evil;

For thine is the kingdom,

the power, and the glory,

For ever and ever.

Amen.

Chernabog and all his minions were sucked into the River of Fire forever! The portal closed and we had won.

We beat Chernabog!

We cheered wildly.

Konan: (To the viewers) Not even the Devil is a match for the power of love, faith, and Team Loud Phoenix Storm.

Me: No he's not Konan. But great job guys.

Lincoln: Thanks J.D.

Laney: It was so cool.

We left the Simulator and rested after a powerful fight.

THE END

---

Another Fanfiction Complete

Chernabog on Disney's Fantasia was the creepiest and most horrifying villain I've ever seen from back when I was a little kid. I've known the movie Fantasia since then and it was awesome! My favorite songs on that movie were The Rite of Spring, Nutcracker Suite, Beethoven's Pastoral, A Night On Bald Mountain and Ave Maria. Chernabog is Walt Disney's Version of the Devil and he was a powerful representation of how evil the Devil can be. I beat him twice on Kingdom Hearts and Kingdom Hearts Dream Drop Distance as Sora and Riku. Every time I hear the song A Night on Bald Mountain it always gives me the creeps. Those minions he had were horrifying. And they were the true faces of demons. But not even the Devil is a match for the power of God and the power of love. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Amusement Park From 100 Hells

At the estate, we were all getting Kevin, Gwen, Nico, May, William and Maria ready for a triple date. Me, Ben, Alan and Lincoln were dressing up Kevin. Kevin was in an awesome tuxedo.

Me: Lookin, Sharp Kevin.

Kevin: Thanks man. I haven't gone on a date with Gwen in a while.

Me: When was the last time you went on a date the last time?

Ben: Back when I was going through a phase.

Me: What kind of phase Ben?

Ben: I was going through Necrofriggian Pregnancy and I ruined it.

Me: Really?

Ben: Yeah I found out that Necrofriggian's lay eggs once every 80 years.

Me: Wow. That's a long time for a moth humanoid alien.

Kevin: It sure is.

In Lori's room, Varie, the Loud Sisters, Julie, Chione and Earth were dressing up Gwen.

Lori: You literally look so beautiful in this dress Gwen.

Gwen: Thanks Lori. We haven't been on a good date in a while.

Luna: When was your last date?

Gwen: Back when we were in Bellwood. Ben was going through Necrofriggian Pregnancy.

Varie: (Skeptical) Really?

Chione: Is that even possible?

Gwen: It was weird. We were shocked ourselves.

Julie: I caught it all on camera.

Julie showed them a video of what went down during that time and they saw that Necrofriggian babies look like blue bubbles when they hatch and turn into little Necrofriggians.

Chione: They are so cute!

Varie: They sure are. How often do Necrofriggians lay eggs?

Gwen: Once every 80 years.

Chione: Wow! I didn't know that.

Manaphy: That is really weird but so cool! I didn't know Alien Biology works like that.

Lana: Me neither. But that is so awesome!

Lola: It sure is.

Lynn: That is really cool.

Later they were ready.

Lynn: Have fun with your date, guys!

Kevin Levin: Thanks, Lynn.

Gwen: Make sure nothing bad happens here while we're gone.

Lynn: Got it!

Lori: Look at those two, guys. After a whole year of being apart, they're literally ready to get their love lives back on track.

Soon enough, Kevin, Gwen, Nico, May, Manaphy, Horsea, Maria, and William were in Vanzilla.

Nico: Alright. Time to go.

Manaphy (takes the wheel as Lynn and Lori see this): I'll drive us.

The engine starts, making Lynn laugh and shocking Lori.

Lori: GUYS, NO! MANAPHY'S TOO YOUNG TO DRIVE! (runs to stop her)

Manaphy: Aw man!

Maria: Better let me drive Manaphy.

Manaphy: You're right.

Maria took the wheel.

We saw them drive off.

Me: Ah. There go three awesome couples guys.

Lincoln: Yep.

Varie: I love it when couples get together.

---

They went to a very luxurious restaurant and it was a good one.

Gwen: I'm so glad to be on this date with you, Kevin.

Kevin: Same here. I mean, when was the last time we did anything romantic together?

Gwen: Since the time Ben went through his Necrofriggian Pregnancy.

May: I was told about that. That was so strange but amazing at the same time.

Nico: Yeah.

They were ordering their dinner.

They had their dinner 20 minutes later.

Then a young teenage girl came in.

?: Guys can you all help me?

Nico recognized her.

Nico: Oh wow! You're Lizzy Morris from the Goosebumps book One Night at Horrorland!

Lizzy: That's right Nico. It's an honor to meet you. I came to find you.

May: What's wrong?

Lizzie: My brother Luke and his best friend Clay disappeared somehow and they went to Horrorland.

May: That scary deathtrap amusement park Nico showed me in the Goosebumps books?

Lizzy: That's right.

Kevin: That place sounds horrible.

Gwen: I've read about Horrorland in the Goosebumps series too and it is awful.

May: Don't' worry, Lizzie. We'll head back to the estate and-

Lizzy: No. You guys finish your triple date first. My brothers can wait a little while longer.

Nico: That's very kind of you.

They finished their date.

* * *

On the van ride back home after paying for their dinner and having an awesome time, Lizzy was telling them about everything she and her family went through at Horrorland.

Maria: Lizzy that's awful.

May: That is an amusement park from Hell 100-Fold!

Manaphy: I would not want to go there mama.

Nico: Me neither. But maybe we can make our own version of Horrorland without the deadly attractions.

Maria: That's a great idea Nico.

William: I'm inclined to agree.

May: Me too.

Nico: First we'll need to get the blueprints for it.

Maria: Okay. Lizzy, we'll gladly help you out.

Lizzy: Thank you so much Maria.

Kevin: I'll take my car while we drive to Horrorland. I haven't driven it in forever.

Maria: Good idea Kevin.

The van parked in the garage and they got out.

We heard them come in.

Me: Hey guys. How was your date.

Nico: It was great man. But we had an encounter.

Lizzy: I'm Lizzy Morris. It's an honor to meet you J.D.

Me: Same to you Lizzy. I take it you're here because of Horrorland right?

Lizzy: That's right.

Me: You're not the only one that has had encounters like this. Let me show you.

We showed Lizzy the exploits and travesties that happened to Carly Beth, Brooke, Evans, Sabrina and Andy.

Lizzy: So you all had encounters with these terrifying monsters too!?

Carly Beth: We sure did.

Nico: I was a victim to Slappy the Living Dummy.

Nico showed her the books for Night of The Living Dummy.

Nico: But also I'm not the only one that was tormented by Slappy.

Dr. Strange: And before Nico killed a clone of him, I killed the real one and sealed him into the Dark Dimension.

Nico: That's right Stephen.

Carly Beth: Here's the one me and Sabrina know.

Carly Beth and Sabrina showed them the books of The Haunted Mask.

Sabrina: That mask was pure evil.

Brooke: Here's the one I faced.

Brooke showed Lizzy the book for Phantom of The Auditorium.

Brooke: That was a terrifying one.

Sheena: And here's the one me and Billy faced.

Sheena showed them her the book Deep Trouble.

Sheena: There was no monster in that one. Just a greedy money-hungry criminal scientist assistant.

Billy: Yeah.

Me: Yep. And when we started taking down the Goosebumps Monsters, we made a branch team for Team Loud Phoenix Storm.

Nico: Yep. I'm the Leader of Team Loud Phoenix Storm's Goosebumps Monster Busters.

The symbol was the Goosebumps G with a no sign over it.

Lizzy: That's so cool!

Nico: It sure is.

Carly Beth, Sabrina, Brooke, Sheena, Billy, Evans and Andy had the same symbol.

Lizzy: Awesome!

Me: Lizzy can you show us where Horrorland is located?

Lizzy: I sure can.

I pulled up a holographic map of the world on the computer and Lizzy showed us by touching it.

Lizzy: (Touches the border between California and Oregon) Right here.

I zoomed into the location.

Me: That's just 25 miles from the Springfield Nuclear Crater.

Nico: Weird seeing it there.

Laney: Then it looks like that's where we're gonna go.

Me: Yep. Okay, some of us are gonna drive, fly and ride our horses.

Lizzy: Oh wow! I love riding horses!

Me: Awesome! Would you like to ride a Rapidash?

Lizzy: I would love that!

Me: All right! Lets head out for Horrorland!

Everyone: YEAH!

Me: Team Loud Phoenix Storm…

Jaime: And Team Loud Fairywind…

Me: LETS FLY!

(The Night Begins to Shine plays)

We were off to Horrorland. We were driving, flying and riding horses. I was riding my Rapidash. As the Crescent Moon shined in the night sky, we were like a powerful army ready to take on anything. We went over mountains and landscapes, went through forests and more.

---

HORRORLAND!

---

We arrived at our destination: HORRORLAND!

Me: Here we are guys. Horrorland. Welcome to Hell 100-fold.

We saw a terrifying amusement park that was practically filled with evil. It was a horrifying place.

Lola: This place is really scary.

Xerneas: No kidding.

We saw the ticket counter.

Horror: Can I see your tickets, please? (gets shot by Dead End)

Dead End: Don't bother. We can let ourselves in.

Nico: Good shot Dead End.

Dead End: Thanks boss.

We went into the park and we saw that it was as big as a massive medieval kingdom.

Laney: Wow! This place is massive!

Maria: No kidding. They could be anywhere in here.

Me: Okay. We better split up into 12 teams and cover more ground.

Nico: Okay.

Lizzy: Here's a map of Horrorland.

Lizzy handed us a map of Horrorland and there were 12 major locations.

Me: Thanks Lizzy.

Meta Knight: I think it would be wise to copy the blueprints of each ride. Their designs are interesting if it weren't for the deadly features.

Nico: I suggested that already.

Me: But that's a great idea guys.

Kup: Let's all meet back here after our assigned rides are dealt with.

Me: Good idea Kup. Lets go.

We were off.

We split up into 12 groups for each location.

---

Stagger Inn - William, Kevin, Stacy, Eddy, Shego, Luan, and Stella.

---

William, Kevin, Stacy, Eddy, Shego, Luan and Stella were at the first attraction: Stagger Inn.

The Stagger Inn is a hotel for HorrorLand visitors.

It has a castle-like look and two sculpted Horrors with axes at the bottom of the staircase leading to the hotel entrance. Many screams and roars can be heard from inside the hotel, indicating that it is most likely haunted.

When Britney Crosby and Molly Molloy were given their suite on the 13th floor, their room has a flat-screen TV, plenty of clothes, and no mirrors.

William: So this is the first attraction.

Stacy: Stagger Inn.

They went into the castle and it was a creepy place. They saw a horror and Kevin absorbed a bar of steel and he turned his hand into a blade and he slashed the horror and killed it.

Kevin (to deflated Horror): Guess you were full of hot air.

Then continued in and it was a creepy hotel.

Shego: This hotel gives me the creeps.

Stella: Me too. This is horrifying.

Stacy: I would give a hotel like this 100 thumbs down.

Luan: And there are no Thumbs Up here. (Laughs) Get it?

They laughed.

Eddy: (Laughs) Good one Luan.

Shego: That was funny.

They walked on and saw that the rooms were lavish but the conditions were horrible.

William: This place is horrible.

Eddy: No kidding. I would never stay here if my life depended on it.

Suddenly there was a scream!

William: Uh oh!

They went down the hall and in a room they saw a girl. It was Molly Molloy.

Molly is twelve years old, Caucasian, taller than Britney and thin with lighter and curlier coppery hair and brown eyes. And she is more into sports.

She was being terrorized by a monster with 6 eyes on stalks and it had orange skin and a leech-like mouth and 7 legs.

Stacy: Let that girl go you freak!

Stacy fired a powerful blast of lightning and burned it all over and incinerated it.

Stacy: Nice try you freak.

They went over to her.

William: Are you all right?

Molly: I am now. Thanks to you guys.

Luan: I know you. You're Molly Molloy from the Goosebumps book Revenge of the Living Dummy.

Luan held up said book.

Molly: That's right. Wow! You're Team Loud Phoenix Storm!

Stacy: We sure are. It's a pleasure to meet you Molly.

Molly: You too. We were teleported here when I touched some of those Horrorland Tickets.

Shego: How many others are there?

Molly: There's 12 of us.

Stacy: Looks like we arrived just in the nick of time.

Stacy pulled out a radio.

Stacy: Stacy to Nico, do you read? Over

Nico: (On the Radio) Nico here Stacy. Over.

Stacy: We found another guest here at Stagger Inn. It's Molly Molloy. Over.

Nico: From Revenge of The Living Dummy? Over.

Stacy: Affirmative. She said that she and 9 more are here as well. I think they are from the Goosebumps Horrorland series. Over.

Nico: Whoa! Have her go with you and get the blueprints for the hotel. Over.

Stacy: Copy that Nico. Over and out. (Puts away radio) Molly, we're gonna get you and the others out of here.

Molly: Thank you so much Stacy.

Stacy: You're welcome.

They went into a room that said main office and they found blueprints for the hotel.

William: Interesting setup for the hotel.

Eddy: Too bad it's a death trap.

William: But when we build our own amusement park, we'll make it safe.

William rolled up the blueprints and put them in a tube he brought with him.

---

Quicksand Beach - Luna, Meta Knight, Trudy, Hiyana, Chione, Lapis Lazuli, Maria, Bai Tza, and Irma.

---

Luna, Meta Knight, Trudy, Hiyana, Chione, Lapis Lazuli, Maria, Bai Tza, and Irma were at a place called Quicksand Beach.

Quicksand Beach is a beach that resides in Black Lagoon Water Park and is made entirely out of quicksand. HorrorLand visitors are given special quicksand (semi-resistant shoes and are told to walk across the beach. They sink, no matter what, into tubes hidden underneath the beach that take them to another part of the park.

They saw a sign that said Quicksand Beach.

Trudy: Quicksand Beach? This place is really dangerous!

Chione: No kidding. But we can just fly over it.

Bai Tza was flying and everyone else spread their wings. They saw that the beach of quicksand stretched for miles.

They hovered over it and it was an amazing but extremely deadly beach.

Meta Knight: Hardly anyone here.

Chione: No kidding.

Bai Tza: I hope nobody dies here.

Irma: I think they did.

Irma used her powers to suck all the water out of the quicksand and turn it into regular sand and she threw the water back into the ocean.

Lapis: That was really clever Irma.

Irma: Thanks Lapis.

Luna: Wait dudes. Look.

They saw the sand collapse and they saw that the beach covered tubes all over the place.

Trudy: So that's it. The beach covers tubes that lead to different places of the park.

Hiyana: That's a clever rues.

Maria: But very dangerous. It makes it all look like they died.

Then they heard a scream and they saw a girl sinking.

Irma: Oops. Missed a spot.

Maria: Lets go!

They went over and they saw that it was Julie Martin!

Julie is twelve years old, Caucasian, tall and skinny with long straight dark brown hair and brown eyes.

Hiyana: I got you!

Julie grabbed her hand and they pulled her out.

Julie M.: Whew. Thanks. Whoa, you're Team Loud Phoenix Storm! I'm Julie Martin.

Luna: That's right dude. It's a pleasure to meet you. And you're from the book Say Cheese - And Die Screaming!.

Luna held up said book.

Julie M.: That's right.

?: What happened here.

They saw a boy hover over the sand and they saw that he was flying! It was Jack Johnson from the Goosebumps Book How I Learned to Fly.

Jack has dark, very curly hair. Jack describes his own nose as being too big.

Maria: Wow! You're flying!

Jack: Yeah I know. I'm Jack Johnson.

Luna: Whoa! You're from the book How I Learned to Fly!

Luna held up said book.

Jack: That's right. Wow! You're Team Loud Phoenix Storm! You guys are my heroes!

Bai Tza: We get that a lot.

Jack: It's so awesome to meet you all.

Trudy: How are you able to fly like that?

Jack: I took a potion that enabled me to get the ability to fly.

Meta Knight: That's amazing.

Lapis: It sure is. Usually you have to have wings or superpowers to do that.

Jack: That's true.

Maria: Is it permanent?

Jack: Yes it is. The potion I took made it last forever.

Everyone: Wow.

Julie M.: That is awesome!

Then the ground shook and out came a huge monster! It was the Plant Worm Monster from the 1981 movie BLOOD BEACH!

The Blood Beach Monster is an enormous worm-like organism that terrorized the visitors of Santa Monica Beach near Los Angeles, California.

The Blood Beach Monster is a large worm-like creature with sickly green skin and a flower-like mouth.

Maria: Whoa! That's the Blood Beach Plant Monster!

Bai Tza: From that 1981 movie?

Meta Knight: Ugly!

Chione: I got this!

Chione spread her Necrofriggian wings fired a massive blast of ice fire and froze it. A bird cry was heard and they saw a Falcon Humanoid.

Maria: Whoa!

The Falcon Humanoid swooped in and shattered the plant monster and Maria pulled out the rest of it and fired a powerful blast of water that shredded it to nothing.

Maria: Wow! That was awesome.

The Falcon Humanoid landed by them. She had a falcon head, falcon wings and feathers all over and she had tail feathers and she had falcon feet with razor sharp claws. Her shirt was gone and so were her shoes.

Chione: You're half human, half falcon.

Swiftclaw: That's right. My name is Abigail Florence. But I'm also called Swiftclaw.

Maria: You're a gene-slammer.

Swiftclaw: That's right. Dr. Arthur Paradigm did this to me.

Chione: Is he the last member of the Paradigm brothers that specializes in Air Animals?

Swiftclaw: That's right. How did you know that?

Maria: We killed the first member of the Paradigm Brothers, Dr. Luther Paradigm. He specialized in gene-slamming with marine animals.

Bai Tza: And now we're dealing with his brother Dr. Roland Paradigm who specializes in Gene-Slamming with Land Animals.

Maria: And it looks like Stacy's suspicions are now confirmed. Abigail, how did this happen to you?

Swiftclaw: I was an ordinary girl out having a good time.

---

Abigail Florence was a girl right around Lincoln's age. She had black hair with a blue ponytail and is a goth girl like Brittney and Lucy. She'll have all black clothes and black leather pants and spike-tipped boots. She also had a scar on her right arm in the shape of a sun.

Swiftclaw: (Narrating) **I was walking down the street after leaving the video game store when I came across a hot dog cart. I bought a hot dog with some ketchup on it. When I got home, I suddenly was experiencing tremendous back pain and excruciating pain unlike anything I've ever felt. At first I though I thought I was having a stomach bug. But then I started to change. My head turned into a falcons, my back grew wings and I grew tail feathers and falcon feet. I looked at myself in the mirror and I was horrified!**

Abigail: (BLOODCURDLING SCREAM!) What happened to me!?

Swiftclaw: I knew that there was only one person that could help me. Or rather a bunch of persons.

FLASHBACK END

Swiftclaw: I set out to find you guys. But I got sucked into a strange portal and wound up here in this awful amusement park.

Maria: That's terrible! My friend J.D. can give you the ability to change into your Swiftclaw form at will like a lot of Gene-Slammers we know.

Swiftclaw: You can help me out?

Maria: We sure can.

Julie M.: This is so awesome!

Swiftclaw: It sure is. But I'm also looking for my brother Aaron. He vanished 6 years ago. He's about as old as Lisa Loud.

Maria: We'll find him for you.

Maria pulled out a radio.

Maria: Maria to Nico? Do you read? Over.

Nico: (On the radio) Nico here Maria. Over.

Maria: We rescued one of the kids here. Julie Martin from Say Cheese - And Die Screaming!. Over.

Nico: Good work. Over.

Maria: Thanks Nico. But we found another Gene-slammer here. Stacy's suspicions have been confirmed. There is another Paradigm Sibling that specializes in Air Animals. His name is Dr. Arthur Paradigm. Over.

Nico: So Stacy was right. I take it you encountered a gene-slammer made by him. Over.

Maria: Affirmative. Her name is Abigail Lawrence and she's half human, half falcon. Over.

Nico: That's amazing. But we'll get her cured and you and Teresa can get her some new clothes afterwards. Over.

Maria: Roger that Nico. I always come prepared. Over.

Nico: Meet up with us on J.D.'s command. Over.

Maria: Roger that. Over and out. (Puts radio away)

Swiftclaw: Thanks for helping me out guys.

Bai Tza: No problem.

Luna: Any time dude.

The found the blueprints for the Quicksand Beach.

## Crocodile Café - Lincoln, Earth, Kirby, Spiderman, Shocker, Elena, and Will.

Lincoln, Earth, Kirby, Spiderman, Shocker, Elena, and Will were at the Crocodile Cafe.

Lincoln: The Crocodile Cafe.

Earth: Doesn't look like the kind of place to eat.

Spiderman: I would not want to eat here either.

Shocker: No kidding.

A girl screamed and they saw her. It was Abby Martin from the book Who's Your Mummy?.

Abby is twelve years old, tall and thin with straight long jet-black hair and green eyes.

They saw that she was in the middle of a crocodile pond.

Lincoln: That's abby Martin from Who's Your Mummy?.

Earth: I'll get her out of there!

Earth spread her wings and flew down and she grabbed her.

Abby: Awesome! You're Earth of Team Loud Phoenix Storm!

Earth: That's right. It's a pleasure to meet you Abby.

Abby: Same here.

They landed and Abby saw them.

Abby: Wow! Team Loud Phoenix Storm. It's such an honor.

Lincoln: Pleasure to meet you too Abby.

Shocker: I take it you got here the same way some others got here.

Abby: I sure did.

Lincoln: It's good we found you. We're gonna destroy this whole park and erase it from existence forever.

Lincoln pulled out a radio and told us everything. They found the blueprints for the Crocodile Cafe.

Abby saw Kirby and she squealed and hugged him.

Abby: Kirby you are so cute!

Kirby: I am cute huh?

## The Haunted Theater - Laney, Dead End, Riley, Samus, Flora, Venom, and Rhino

The Haunted Theater is where movies are played and they are the movies that bring your worst fears to life. It was here that Laney, Dead End, Riley, Samus, Flora, Venom and Rhino encountered Britney Crosby from the book Revenge of The Living Dummy. Dead End destroyed the films and they didn't have any effect on him because of him being with Megatron for a while.

Britney is twelve years old, Caucasian, tall and thin with coppery hair and brown eyes. She also has her hair in a ponytail. (She was in a missing poster on the first page of Monster Blood for Breakfast!)

They saved her from having to watch a horrifying movie and got the blueprints for the theater.

Britney: Wow! Team Loud Phoenix Storm!

Laney: That's right.

Britney: It's such an honor to meet you guys.

Venom: We're glad we could help you.

Britney: Venom and Rhino of the Redemption Squad? Am I glad to see you two!

Rhino: Same here Britney.

Britney: Dead End, why isn't the Haunted Theater having any effect on you?

Dead End: I used to work for Megatron and I am fearless.

Rhino: It was due to his gloomy personality. So he really didn't have any fear.

Britney: Thanks guys.

---

Wolfsbane Forest - Lori, Teresa, Arpeggio, and Hay Lin

---

Lori, Teresa, Arpeggio and Hay Lin were in Wolfsbane Forest in Werewolf Village.

The Werewolf Village is one of the many monster villages found throughout HorrorLand. It is a real working neighbourhood inhabited exclusively by Werewolves. It was created because at HorrorLand's start when its monsters were all roommates, a werewolf´s roommate would disappear on every full moon. A forest spot called Wolfsbane Forest was picked and added a few things.

The main attractions are:

Make Me Howl! - A shop where they will transform you into a werewolf digitally.

Moment of Paws - A werewolf-run spa where it turns out that werewolves are really good masseuses and hairdressers.

Wolfgang´s Music Shop - A place where you can purchase werewolf howl recordings, moon-themed songs, and CDs of the most famous all-werewolf band ever called Howie and the Howlers.

Fur Sure! - A clothing store where all the clothes are made of shredded werewolf fur.

Over the Moon Souvenirs - A gift shop selling silver bullet key-chains, wolf cub dolls, miniature Werewolf Village play sets, jars of authentic werewolf drool, and wolf´s tooth necklaces.

Wolf It Down - The only vegetarian werewolf restaurant with the house specialties being tofu one-armed shepherd pie, cub club cheese sandwiches, and little pigs lettuce in a salad.

The Werewolf Petting Zoo - Visitors to HorrorLand can pet many kinds of werewolves from snuggly grey little cubs to mean gigantic adult ones.

The Wolfsbane Forest - A deep dark forest where giant bugs crawl in the trees. The Wolfsbane Forest is the feeding place for many werewolves and home to their distant, rare, and dangerous cousin called the White Wolf.

There they saved Robbie Schwartz from the book Dr. Maniac VS Robbie Schwartz.

Robby is twelve years old, Caucasian, tall and thin with long and wild brown hair which is almost blond and blue eyes.

They saved him from a werewolf and killed it.

Robbie: Whoa! Team Loud Phoenix Storm! It's such an honor!

Lori: Same here. It's literally amazing how you stopped that mad scientist.

Robbie: Thanks Lori.

Teresa: Robbie, have you seen a kid named Aaron around here?

Robbie: Yes. But he was gene-slammed by a mad scientist.

Teresa: So he's here. We were told by Nico that Dr. Arthur Paradigm is responsible for turning a girl into a half human, half falcon gene-slammer named Swiftclaw.

Robbie: That's terrible!

Teresa: Can you tell me what he looked like?

Robbie: He looked half human, half grey owl.

Teresa: I better tell J.D. about this.

Teresa called me on the radio and told me.

---

The A-Nile-Ator - Lynn, Kup, Star Butterfly, Lila, Ariel and her sisters, Melody, Sandman, Cornelia, and Clayface

---

The A-Nile-Ator roller coaster. The deadliest roller coaster in the world. Lynn, Kup, Star Butterfly, Lila, Ariel and her sisters, Melody, Sandman, Cornelia, and Clayface were there and they saw Boone Dixon riding the roller coaster and it was going at 120 miles per hour and it was a wicked fast coaster.

Boone Dixon is from the Goosebumps Book Welcome to Camp Slither.

Boone is twelve years old, Caucasian, tall and thin with short, straight black hair and dark brown eyes.

They flew fast and got him out of there. But he was too traumatized to speak.

Lynn: Boone are you all right?

Boone came out of it.

Boone: (Groans in sickness) I think so.

Then he threw up all over the place.

Cornelia: EW!

Clayface: Whoa. That coaster did a nightmare on his stomach.

Sandman: No kidding.

Kup: Boy he's gonna be sick for a while.

---

Bat Barn - Lana, Poison Ivy, Beast Boy, Tara, Starfire, Raven, Killer Frost, and Bloom

---

At the Bat Barn in Vampire Kingdom, Lana, Poison Ivy, Beast Boy, Tara, Starfire, Raven, Killer Frost, and Bloom were there seeing all kinds of bats and more. It was there that they rescued Jackson Gerard from the book Help! We Have Strange Powers!.

Jackson is twelve years old, Caucasian, short and thin with straight brown hair, brown eyes, freckles on his nose and dimples when he smiles.

Jackson: Whew! Thank you. (Sees them) Whoa! Team Loud Phoenix storm!

Lana: That's right. It's a pleasure to meet you Jackson.

Jackson: Same here Lana. Thank you all for saving me.

Starfire: You are the welcome.

Tara: Glad we got there in time or who knows what would've happened.

---

The Tunnel of Screams, Lola, Suzi, Sam S.L., Francis, Lea, and Taranee

---

Lola, Suzi, Sam S.L., Francis, Lea, and Taranee were going through the Tunnel of Screams. It was a nightmarish version of a Tunnel of Love ride. It was there that they rescued Jillian Gerard, Jackson Gerard's twin sister.

Jillian is twelve years old, Caucasian, tall and thin with wavy brown hair and dark serious eyes.

Jillian: Wow! Team Loud Phoenix Storm. It's such an honor!

Lola: I'm glad we helped you out Jillian.

Suzi: We're here to destroy this park after we save you all.

Jillian: Good. This park is a nightmare to everyone.

They found out that Jillian and her brother Jackson got awesome psychic powers as a result of an accident involving a fortune-telling machine that was broken.

The Monster Obstacle Course - Lisa, Stewie, Tecna, and Bowser Jr.

In the Monster Obstacle Course, Lisa, Stewie, Tecna, and Bowser Jr. were navigating through a treacherous obstacle course and they rescued Michael Munroe from dangling over a pit of lava.

Michael Munroe is from the book My Friends Call Me Monster.

Michael is twelve years old, Caucasian, very tall, big, hulky and athletic with short spiky jet-black hair and big brown eyes.

Michael: Wow! Team Loud Phoenix Storm.

Lisa: Greetings Michael. It's a pleasure to make your acquaintance.

Tecna: (British Accent) Are you all right?

Michael: Thanks to all of you.

Doom Slide - Lily, SpongeBob, Rubberband Man, Cup, Inque, and Layla

At the Doom Slide, Lily, SpongeBob, Rubberband Man, Cup, Inque, and Layla rescued Matt Daniels. They rescued him from a vampire about to attack him. They killed the Vampire by stabbing it in the heart with a stake.

Matt Daniels is from the book Monster Blood For Breakfast!.

Matt is twelve years old, Caucasian, five feet and two inches tall and athletic with brown hair and green eyes.

Matt: That was a close one. Wow! Team Loud Phoenix Storm!

Lily: Pleasure to meet you Matt.

SpongeBob: We're glad we saved you.

Matt: Thanks. By the way, Spongebob? Happy Birthday!

SpongeBob: Thanks Matt. My birthday was yesterday. But thank you.

Vampire State Building - Lucy, Mandy, Brittney, Shannon, Maggie, Haiku, Goliath and the Manhattan Clan, Riku, Roxy, and Demona.

Lucy, Mandy, Brittney, Shannon, Maggie, Haiku, Goliath and the Manhattan Clan, Riku, Roxy, and Demona were over at the Vampire State Building. It looked like a darker version of the Empire State Building in New York City. Or our version of it in Gotham Royal York.

Brittney: Wow. This looks like a dark version of the Empire State Building.

Goliath: A building like this is not worthy to cut the skies.

Brooklyn: I would not want to live here dudes.

Lexington: Me neither.

Demona: This place is not that impressive.

Angela: Mother now is not the time for criticisms.

Roxy: This place already gives me the creeps.

Then a horror jumped out and tried to scare Mandy.

Mandy (to Horror): You took your best scary shot. Now here's mine.

Mandy growled ferociously and the horror backed away and Brittney blasted it

Demona: I know he wasn't that much of a threat.

Brittney: No he wasn't.

They continued and went inside and they saw a lavish building. But some of its decorations were deplorable.

Shannon: The decorations in this building stinks.

They heard someone yell.

?: Let me go!

Brittney: That's clay!

They went down a hall down some stairs and they saw strapped to a chair.

Brittney: Oh no you don't! SOLAR FLARE!

Brittney released a massive blast of white blinding light and the vampire screaming in pain as it incinerated him with ultraviolet light.

Brittney: Dad's newly enhanced Solar Flare technique really paid off.

When it faded they freed him.

Lucy: Are you all right?

Clay: Yeah. Thanks to you guys. Whoa! Team Loud Phoenix Storm!

Brittney: Glad you're safe Clay. We were sent to rescue you and Luke.

Shannon: Yeah.

Clay: I'm glad. We have to find him.

---

Spider House/Hall of Mirrors - Leni, Lizzy, Ed, Karai, Musa, and Xion.

---

Leni, Lizzy, Ed, Karai, Musa, and Xion were in the Spider House and Hall of Mirrors. Ed was making sure Leni doesn't freak out.

They found Luke Morris in another room and behind a mirror and they freed him.

Luke: Wow! Team Loud Phoenix Storm! Lizzy!

They hugged.

Lizzy: I'm so glad you're all right Luke.

Musa: We were sent to rescue you and destroy Horrorland for good.

Xion: That's right.

Lizzy: Let me call J.D.

Lizzy pulled out a Radio.

Lizzy: Lizzy to J.D. Over.

Me: (On the radio) J.D. here Lizzy. Report. Over.

Lizzy: We rescued Luke. Over.

Me: Excellent. It's time to regroup. We're going after the main operator of this place.

Lizzy: Roger that. Over and out.

Later we all regrouped. We found Abigail's brother Aaron.

---

I snapped my fingers and cured Abigail and Aaron and gave them the ability to transform into their gene-slammer forms at will. But because we didn't have Maria and Leni's clothe making kit with us we gave them robes for now.

Lizzy: I know who's behind this place. His name is Madison Storm.

Luke: I remember him.

Nico: This guy sounds dangerous.

Lizzy: He is.

Me: Well then lets get him. And this time he dies along with this whole park.

Ben: I got just the alien to take him down.

Ben turned into Juryrigg.

Ben: JURYRIGG!

Me: A Planchaküle from the planet Aul-Turrhen.

Juryrigg: That's right.

Me: They look more like those gremlins you see in folklore that destroy planes and equipment.

Laney: They sure do.

We then set out for Madison Storm's castle.

---

At Dr. Madison Storm's Castle, Madison Storm was looking at the security screens and he saw his plans ruined.

Dr. Storm: FUCK THAT TEAM LOUD PHOENIX STORM! THEY RUINED EVERYTHING!

A massive fiery explosion blasted through the ceiling and a phoenix cry was heard.

We busted in and landed on the floor.

---

Very little is revealed about Storm's life before HorrorLand, but comments made in his introductory video at the HorrorLand Museum indicate that he had an unhappy childhood, and created HorrorLand (a scary, potentially lethal amusement park) due to feelings of resentment that he had to any family that may have any shred of happiness about them. Another video reveals that, shortly after finishing HorrorLand, Storm decided that he didn't want to live in his big old amusement park alone; this led to him creating the Cosmic Monster Attractor, which could suck any being in the world (and presumably other dimensions) towards it, allowing Storm to populate his park ("Soon, every werewolf, vampire, mummy, and dis-spirited spirit came spiraling through the stratosphere to join meeeee!").

Although he is not seen or even mentioned during One Day at HorrorLand, Storm apparently took the escape of the Morris family and Clay very badly. This failure, coupled with (a) the monsters beginning to doubt his ability to run the park (a fact he reveals at the end of the game) and (b) the emergence of a power struggle between himself and park resident Count Dracula, led Storm to begin planning revenge. As one of Storm's Horrors (horned-monster minions that handle the day-to-day running of the park) had given the family free park passes when they escaped, Storm uses these to transport Lizzy, Luke and Clay (as well as the player character, albeit accidentally) back to HorrorLand, which is now - according to Lizzy - ten times more scary due to it being night-time.

As Lizzy, Luke, Clay, and the player make their way through the park - from Werewolf Village, through to the Valley of the Lost Kings, and then right down to Vampire Village - little glimpses of Storm are revealed: he is mentioned by Hannah Black (the park guide), videos of him can be found at the museum, and his mocking laughter can be heard at the Deadly Doom Slide. After Lizzie and the player manage to defeat the Werewolf, Storm makes his first move by grabbing Lizzie from behind the player's back (the player only hearing Lizzie's stifled scream).

Later, in Vampire Village, Luke and the player discover a laboratory where Lizzie is being kept prisoner, although Storm has used some of his magic chemicals to transform her into a strange little monster. After some goofing around by Luke, Lizzie is finally transformed back to normal (after transforming into some other things first). Storm isn't mentioned again until the gang arrives at Dracula's Castle in Vampire Village to rescue Clay. Here, Dracula reveals that he actually runs HorrorLand, not Storm (although this just may be an attempt to impress Lizzie, whom Dracula is trying to bend to his control). After escaping Dracula and making their way through the Monster Zoo, the gang finally find Mr. and Mrs. Morris - both of whom are being kept in a cage - before the two are whisked away by a pair of Horrors. The quartet follows them into a large arena, where all of the park monsters (including Dracula) sit, jeer and stamp their feet, eating their popcorn. The kids then see that Mr. and Mrs. Morris are tied back-to-back and standing on a conveyor belt that is taking them closer and closer to a large pot of bubbling purple goo.

However, Clay (who at this point had been the most cowardly of the gang) revealed that he had sneaked into Storm's tower, and had sabotaged the Cosmic Monster Attractor in order to blast every last monster in HorrorLand back into the stratosphere. However, the victory is short-lived: Storm then announces that what will actually happen is that the machine will explode, eradicating every last inch of HorrorLand. As the monsters all run for their lives out of the arena and off into the distance, Lizzie and Luke run to the tower in order to help Clay, followed by the player. The player then takes a lift all the way to the top of the tower, to discover Lizzie, Luke and Clay tied-up back-to-back. Stump - a dimwitted Horror that had been helping out throughout the game - suddenly appears, mentioning that he was so glad the player was joining them as he was hoping they could meet face-to-face. Stump then removes his head, revealing himself to be none other than Dr. Madison Storm, who had been wearing a Haunted Mask.

At this point, the player then has three options: deactivate the Cosmic Monster Attractor whilst preventing Mr. and Mrs. Morris from falling into the goo, save them from the goo but allow the machine to explode, or deactivate the machine but allow Mr. and Mrs. Morris to perish ("Awww… allow me to offer my congratula-I mean, my condolences"). Depending on what happens, Storm will either escape or get sucked by the player into the Attractor himself, defeating him.

Lizzy, Luke, Clay, and the player then escape HorrorLand just as it explodes (either through the countdown or through Clay pushing the button on a pad he'd stolen), ending its evil for good. In the bad ending, they return home, only to find that Mr. and Mrs. Morris are still alive, albeit transformed into Horrors by the goo. However, in the good ending, Lizzy and Luke say goodbye to Clay and return home to find their parents are home and normal. After a tearful reunion, the kids then ask how their parents got home. Mr. Morris then reveals that they hitched a ride from their new neighbor Maddy. As realization hits Lizzie and Luke, a man in shorts and a shirt walks out the door.

---

Me: Dr. Madison Storm. So we meet at last.

Dr. Storm: You fuckers have ruined everything!

Me: And we show no remorse for doing so. You've tormented and killed innocent people. And that we will never tolerate!

Nico: Dr. Madison Storm, you have failed this world!

Dr. Storm: (Laughs insanely) It's those retche…

POW!

I punched him in the face and knocked out some of his teeth.

He got up and he had blood dripping from his mouth and nose.

Dr. Storm: You motherfucker! You broke my nose!

Me: I'm about to break a whole lot more than that you fuckhead! I'm going to kill you.

I punch him in the stomach and we stood in stances.

Dr. Storm: You scared shithead? Well you should be. Because this mad scientist is going to kick your big fucking ass.

Me: I eat motherfucking fucked up lunatics like you for breakfast. And right now I'm… (Kicks him in the face) Really hungry!

I punched him in the chest.

Then all the horrors came.

Horror: You think you can come in here and threaten our lives?!

Lizzy: What about the lives of the people that come here?! They wanted to have a good time, but you endanger them! You think getting pinched was bad? You haven't seen anything yet!

Lizzy then surprised us when she fired a massive blast of lightning from her hands and it hit them and electrocuted the horrors.

Lizzy: Whoa! How did I do that!?

Lori: You got powers when you helped us out.

Lizzy: This is so awesome!

Me: I'll face Dr. Storm. You all face the horrors.

Nico: Right!

Everyone else attacked the horrors and destroyed them with everything we got and we were killing them all. Juryrigg was tearing apart all the machines all over the place and destroying them. I punched Dr. Storm in the face and kicked him in the stomach. I fired an energy blast at him and it hit him and exploded and blasted his whole right arm clear off! He screamed in excruciating pain as he was clutching the stub of his missing arm.

Me: Had enough?

Dr. Storm: (ENRAGED GROWL) FUCK YOU ASSHOLE!

Me: Fuck YOU asshole.

I punched him in the face again and slashed off his leg.

Nico: Combo time guys!

Dead End: Right! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his Double Cannon 100-fold.

Kevin: I've always wanted to do this. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Osmosian Powers 100-fold. He put his hand on an electrical wire that was sparking and it turned him into a body made of pure electricity.

Dead End and Kevin Levin: THUNDERSTORM SPEED CANNON!

Dead End fired his Double Cannon and Kevin fired a massive blast of lightning and the blasts combined and they slammed into the horrors and killed them instantly!

Kup: Lets get them! CYBER KEY POWER!

The Earth Cyber Planet Key went into his musket laser and it enhanced it 100-fold.

Meta Knight: I've wanted to try this. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his sword and turned it into a flaming fire sword.

Kup and Meta Knight: ACID FIRE BLADESTORM!

Kup fired massive blasts of corrosive acid and Meta Knight slashed them to pieces.

Mandy: Time to finish these clods off! SUPERNATURAL BURSTSTORM!

Mandy fired a massive blast of supernatural energy at the horrors and destroyed them.

Lizzy: My turn. LIGHTNING METEOR SHOWER!

Lizzy fired a massive blast of lightning that turned into a deadly meteor shower and it slammed into the remaining horrors and obliterated them.

During the battle, Nico caught a Porygon Z and Gallade.

Lizzy: (To the viewers) You mess with Team Loud Phoenix Storm and we will mess you up.

Me: We're almost done here.

We got all the blueprints for the park and we tied up Dr. Storm.

Me: You will pay for your crimes Storm.

We left and we got outside Horrorland.

I flew up into the air.

Me: Now to make sure you never cause fear to everyone ever again. KAAAAAAAAAAA! MEEEEEEEEEEEEE! HAAAAAAAAAAAAAAA! MEEEEEEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAAAAA!

I fired a massive Kamehameha Wave at Horrorland and it hit the center of the park and it exploded with incredible power.

KRAAAAAAAAAAAAAABBBBBBBOOOOOOOOOOOOOOOOOOOOOO

The whole park was completely destroyed in a massive fiery explosion and the mushroom cloud could be seen for miles. When the smoke cleared, Horrorland was nothing more than a massive smoldering crater in the ground that filled up with water. Horrorland was now completely obliterated and the terror it caused to innocent people faded from memory. We used the blueprints from the park to make our own theme park: Phoenix Land. It was as big as Glove Universe. It was a major league success.

THE END

---

Another Fanfiction Complete and Another Goosebumps Book taken down.

Horrorland was creepy. Need I say more. NicoChan11 gave me the ideas for this one. Thanks man as usual.

Let me know what you think.

See you all next time.

# An Old Friend in Need

At the Jupiter Space Prison, we were doing another rant session with the most hated Babysitter in the whole Universe: ICKY VICKY!

Yolei, Kari, Davis, Cody Hida, and T.K. were gonna participate in the rant.

Me: This is gonna be so much fun!

Prisoner: You may have busted us but you always give us a good source of entertainment.

Me: I'm glad we could offer. Besides, you got to have some form of entertainment while you're here for the rest of your life.

Prisoner 1: That's true. To tell you the truth we despise that bitch Icky Vicky.

Prisoner 2: Me too.

Prisoner 3: Ditto.

Kari: I hope our parents don't get us grounded for swearing at Vicky.

Cody Hida: Yeah, we would get in trouble for this.

Me: I know guys. But I told your parents about this and handed them this.

I showed them an awesome poster flyer. It was a picture of the Jupiter prison and it showed a picture of Icky Vicky's and there were censored grawlixes all over it. It also said "Join the Icky Vicky Rantfest. Now with doing pranks."

Davis: Hey that's a cool flyer.

Me: Yep. We made it ourselves. Shall we get started?

Yolei: Yes. Lets do it. I'll go first.

Yolei went first.

Yolei: (Clears throat) (Takes a deep breath and Screams at the top of her lungs) YOU HAVE A STINKY FUCKED UP SHITSTAINED BUTT THAT SMELLS LIKE THAT OF A FUCKED UP LANDFILL!

We cheered.

Prisoner: YEAH! you tell her Yolei!

Me: Good show.

Yolei: And watch this.

Yolei pulled out a bottle of pepper spray and sprayed Icky Vicky's face and it burned her. She was screaming in excruciating pain.

Me: What's that stuff? Mace?

Yolei: No. It's garlic butter. I found out from Lisa that Icky Vicky is part Vampire. She took a blood sample from her and came to that discovery.

Me: Holy Shit!

Prisoner 3: Wow! I had no idea.

Me: I don't think any of us knew.

Davis: My turn.

Davis went up to Icky Vicky who was still in pain.

Davis took a deep breath.

Davis: (SCREAMING) YOU MAKE ME SICK LOOKING AT YOU AND I WOULD RATHER WIPE MY OWN BUTT WITH A WET NOODLE THAN HAVE YOU AS MY BABYSITTER! YOU MAKE ME SICK AND ONE FUCKED UP MONSTER!

Davis took out a bottle of wasabi and shoved it into Vicky's mouth and she sneezed out fire explosively!

Me: Wasabi! Awesome!

Prisoner 1: Yeah you show her!

Me: Awesome.

Cody Hida: My turn!

Cody went up to Vicky.

Cody: (SCREAMING) YOU HAVE A GIANT FUCKED UP ASS!

Cody threw a bunch of fish into the cell and they covered her from head to toe in fish.

Icky Vicky: Fish? It that it?

Cody Hida: Nope. (Dumps catnip on her) Here kitty, kitty, kitty!

Me: Uh oh! Incoming!

The gang of cats appeared out of nowhere and went into Icky Vicky's Cell and mauled her all over the place.

We laughed at that.

Me: Cody you learned well from Ronnie Anne.

Cody Hida: Thanks J.D.

T.K.: My turn. I don't want a rant. Just a prank will work.

Me: That's fine T.K. By the way, how's your mom and dad doing?

T.K.: Doing great J.D. Thank you for asking.

Me: You're welcome.

T.K. took out a water balloon and threw it and it splattered her with hot sauce. It burned her all over.

Me: Nice shot T.K.!

Kari: My turn.

Kari went up to Vicky's cell and she took a deep breath.

Kari: (SCREAMING) I WOULD NEVER HAVE YOU AS A BABYSITTER YOU MOTHERFUCKING PIECE OF GARBAGE! I WOULD RATHER LICK A MOON RAT THAN HAVE YOU AS A BABYSITTER!

Prisoner 1: What's a Moon Rat?

Me: It's a type of Asian Rat and it smells like Rotten Onions.

Everyone: EEWWWW!

Prisoner 2: I think I saw one of those once before I went mad. So to speak. And you are right. They do smell that bad.

Me: That's true. But I don't think any of us saw one on our global adventure. We also have a new teammate and she's a living animal encyclopedia.

Yolei: He's talking about our friend Syd Chang. She's awesome with animals.

Prisoner 2: Wow! That's really cool.

---

Later the next day at a restaurant, we were having lunch with Terry, Dana and his friends.

Me: So we busted out another rant session on Icky Vicky.

Nico: Yep.

Abigail: You said it.

Abigail was cured and given an awesome black summer shirt with a black falcon on it and she had a black night sky sleeveless trench coat with the kanji for Lightning Falcon's Swift Speed on the back. ライトニングファルコンのスウィフトスピード。

Lincoln: It's good we helped you Abby. You don't mind if I call you that right?

Abigail: No Lincoln you can call me Abby.

Stacy: Now that we know that my suspicions are confirmed, we have to be ready for anything Roland and Arthur Paradigm send our way.

Abigail: That's true. But now we have the powers of the three great forces of the animal kingdom for them to deal with: Land, Sea and Air.

Me: That's true. And the power of Team Loud Phoenix Storm to boot.

The kids of Horrorland were given powers thanks to our battle. We also gave them awesome clothes.

Britney Crosby has Cosmic Umbrakinesis. She had a black shirt with blue jean pants and black shoes and she had a black fancy watch on. She has a black fire sleeveless trench coat with the Kanji for The Everlasting Dark Shadow. 永遠の暗い影

Molly Molloy has Cosmic Chlorokinesis. Molly had a green shirt with tan jeans and she had black Mary Jane shoes. She had a green jungle sleeveless trench coat with the Kanji for Nature's Eternal Bloom. 自然の永遠の花

Matt Daniels has Cosmic Hydrokinesis. Matt had a blue shirt and blue jeans and blue combat boots and he had a blue ocean wave sleeveless trench coat with the Kanji for Ocean Wave Emissary. 海の波の使者

Robby Schwartz has Cosmic Technokinesis. Robby had a yellow shirt with a gear on it with black pants and black combat boots. He also had a gears sleeveless trench coat and the kanji for Justice's Technological Innovation. 正義の技術革新

Abby Martin has Cosmic Aerokinesis. She had a sky blue shirt with a blue Scottish blue kilt skirt, blue jeans and brown flattops. She had a sky sleeveless trench coat with the Kanji for The Skies Hurricane Hero. 空ハリケーンヒーロー

Michael Munroe has Cosmic Pyrokinesis. Michael had a red shirt and brown pants with black combat boots and he had a fire sleeveless trench coat with the kanji for Inferno Firestorm of Justice. 正義のインフェルノファイアストーム

Julie Martin has Cosmic Cryokinesis. She also had a dark blue shirt with blue pants with snowflakes on them and Frozen shoes and she had a snowstorm sleeveless trench coat with the kanji for Absolute Zero Ice Storm. 絶対零度アイスストーム

Boone Dixon has Cosmic Light Manipulation. He had a black shirt with a prism on it refracting light, black pants, black combat boots and a rainbow sleeveless trench coat with the Sun on the back and kanji for Lights Seven Colored Justice was in the middle of the Sun. 七色の正義を照らす

Jillian Gerard has Cosmic Geokinesis and Jackson Gerard has Cosmic Crystal Manipulation. Jillian had a brown shirt with a volcano on it and she had brown pants and brown flattops. She had a lava sleeveless trench coat with the kanji for Volcanic Incandescent Glow. 火山の白熱灯 Jackson had a brown shirt with a crystal cluster on it and he had black pants and brown combat boots. He had a crystal trench coat with the Kanji for Prismatic Crystal of Virtue on it. 徳のプリズムクリスタル

Lizzy, Clay and Luke all have Cosmic Electrokinesis. Lizzy has a purple summer shirt with a lightning bolt on it and black pants and purple flattops and she had a lightning sleeveless trench coat with the Kanji for Lightning Strikes of Courage. 勇気の落雷 Luke had a black shirt with a lightning bolt on it and black leather pants and purple combat boots. He also had a sleeveless trench coat with the Kanji for Justices Thunderstorm of Righteousness. 正義の正義の雷雨 Clay had a black shirt with a lightning bolt on it and black jeans and black combat boots. He had a lightning sleeveless trench coat with the kanji for Lightning Strikes Skin Deep. 落雷が肌を深く襲う

Matt Daniels (to Evan): I'm glad I'm not the only one who had a run in with Monster Blood.

Evan: Me too.

Rhino (to Britney Crosby): You got tormented by Slappy too?

Britney: I sure did. Slappy was a nightmare from Hell.

Nico: You're not the only one Britney. I was tormented by Slappy too.

Julie Martin (to Bai Tza): Bai Tza, can I get a picture of you?

Bai Tza: (Giggles) Sure Julie.

Bai Tza striked a pose and Julie took a picture.

Me: Terry how are you doing with your clean up of the Jokerz?

Terry: Been very busy J.D.

Then we saw a big boy harassing Dana.

Me: Hey who do you think you are!?

We went over and picked him up.

Terry: You got a lot of nerve picking on… (Recognizes him) Big Time?

Big Time: T.T.! (Hugs him)

Terry: Guys, this is Charlie "Big Time" Bigelow. Charlie was always scheming about how he was going to make it big and the name stuck.

Charlie: And T.T. is Tiny Terry, 'cause he was always thinking small.

Flash (snickers): Tiny Terry?

Me: (Scolds) Flash! (To Charlie) We didn't know you were a friend of Terry's.

Charlie: You are an amazing force Fire Chief.

Me: Fire Chief. I like the sound of that.

Terry: Dana, you remember Charlie?

Dana: I remember who he is. Do you?

Sidney poindexter: To be honest, we don't know him that much either.

We got to catching up.

Later at the estate, everyone was starting to get suspicious of Charlie.

Terry: Look, we have a group of redeemed villains as friends. Should Charlie really be that different?

Inque: Terry, I get where you're coming from. You fought to even make me your friend, remember? But Charlie isn't like that. For all we know, he could be going behind you're back right now.

Me: Terry is right Inque. We can help Charlie and have him set on the path of redemption. I have a strong feeling we can help him. I sense that something is wrong with him and we need to fix it.

Max: You're not going to bring him to his senses. He needs to do that on his own.

Terry: Maybe I can at least keep him alive until he does.

Clocker: And when that fails, we're bringing him down!

Me: No Clocker. Trust me guys. We've helped all kinds of supervillains before and we brought them onto the path of light. Now it's time to help Charlie.

Then the alarm went off.

We saw that Charlie Big Time Bigalow was a huge hulking behemoth!

Charlie Bigelow was friends with Terry McGinnis ever since they were kids. Charlie hoped that one day he get the big score and be set for life. At the time, both he and Terry were troublesome and got in trouble with the law. This devious behavior included petty thefts, vandalism, and shoplifting. Once Charlie was eighteen, he took Terry with him on a heist to prove himself and his gang. However, things didn't go as planned and Terry and Charlie got arrested. Terry wasn't severely punished due to that he was underage, but Charlie was put on trial as an adult and was sentenced three years in prison. There he shared a cell with Richard Armacost, a top executive at Agrichem. Charlie took advantage of this and forged an alliance with him and offered him protection. In exchange, he would be fully rewarded for his services.

Charlie is eventually released from jail and coerced his friend Terry to get him a job at Wayne-Powers. However, Terry confronts Charlie about his hidden intentions and failed to persuade Charlie to see reason in his actions. He leaves but is unknowingly being tracked by Terry (as Batman) after he placed a tracer on Charlie. When Charlie was doing his latest heist for the mercenary, Karros, he fought Batman and during the brawl, he was infected by a leaked Cerestone canister (which was an experimental hormone developed by Wayne-Powers that accelerated plant growth and was estimated to revolutionize farming industry). Charlie and Karros escaped, but Karros blamed him for the fiasco, and demanded a reimbursement of 40,000 credits. It got worse for Charlie as the effects from the Cerestone started setting in, as he was in deep pain and his body began to gradually change. During the night, Charlie turns into a mutated malformed brutish monster, which fits his moniker and nature, and then refers to himself by his street name Big Time.

Due to everything that happened to him, Big Time wants revenge and goes after Armacost (due to that he indirectly was responsible for Charlie's condition). He confronts Armacost and almost kills him but Batman intervenes and stops him. Despite Big Time's inhuman strength, he gets stunned by a gas grenade and knocked out by Batman. Big Time is then arrested by the GCPD and is held without bail.

Despite being imprisoned, Big Time escapes and has assistance from a crime lord known as the Major. However, Big Time gets fed up with being used as a pawn and schemes against the Major. In order to accomplish this task, Big Time decided he needed to bring some of his own friends. Big Time firstly selects Terry and tries to get him to join his Gang. Big Time fails in convincing Terry and in response goes berserk. Terry then takes this opportunity and escapes. Big Time later gets reprimanded by the Major and gives him an ultimatum to fix his mistake.

Big Time sees this as the perfect opportunity to enact his plan to get rid of the Major. He confronts Terry again and takes advantage of Terry's naivete. Big Time is unable to kill Terry and convinces him to get the Major taken to the GCPD without being implicated. After the major gets arrested, it is revealed that Big Time only wanted the Major to get arrested so he can have his men work for him. He also lies that he doesn't want to be normal. Big Time then tries to kill Terry when he refuses to join him, but Bruce comes in and saves Terry by ramming Big Time with his car. Big Time attacks Bruce, but Terry uses this distraction to put on his Batsuit and stops Big Time. Big Time tries to flee on a bridge but Batman (Terry) stuns him with a flash grenade. This prompts Big Time to lunge at him, with both of them falling over the bridge. Big Time tries to hold on Batman's leg for dear life, but he loses his grip and falls to his presumed death. Bruce offered sympathy, but Terry comes to accept that Charlie was a bad influence he had long outgrown.

Me: Whoa! Is that Big Time!?

Clocker: Jeez! What happened to him!?

Me: The computer shows that he's infected with an experimental hormone that accelerates plant growth called Cerastone.

Lisa: Gadzooks! That stuff is a highly dangerous formula. Luckily I have an antidote for it.

Lisa went and got the formula. It was a purple liquid.

Lisa: You have to get him to drink this guys.

Me: (I take the formula beaker) Thanks Lisa.

I put it in a pocket.

We were off to help him. Nico caught a Probopass and a Dusknoir in the park earlier.

---

Batman 2039 was fighting Big Time. It was a rough battle.

Big Time: Terry? You're Batman?

Batman 2039: Well, I am the future version. But-

Big Time (enraged): YOU LIED TO ME! I TRUSTED YOU AND YOU BETRAYED ME!

We arrived and saw the fight.

Batman 2039: Okay, okay! You're right. What am I doing this for, Charlie? Do I think all these people are gonna thank me forever? (winks to us and we wink back) It's a lot easier and more fun to do what I wanna do, instead of being told what to do by someone else.

Big Time (smirks): That's more like it. I knew you'd come around. Get up here and give me a high five.

We swooped in and knocked him down.

Me: We have to knock him out and make him drink this antidote Lisa made. I have a feeling it will work. Lets get him!

We went at Big Time and I punched him and Dana fired a blast of blue fire and it burned him. We punched him all over the place.

Me: Lets finish this!

Cybertron Crumplezone: Right! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it turned his thrusters into powerful shoulder cannons.

Sidney Poindexter: Lets do this! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and it enhanced his ghost powers.

Crumplezone and Sidney Poindexter: CRUMPLE THE BULLY CANNON!

Crumplezone fired his shoulder cannons and Sidney Poindexter fired a ghost energy ray and the blasts combined and they hit Big Time and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Clocker: Time for some serious action! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back bumpers and the thrusters turned into blasters.

Flash: I've always wanted to try this! VELOCITRON CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his right arm device and it enhanced his super speed powers 100-fold.

Clocker and Flash: SUPER SPEED FORCE POWERBLAST!

Flash ran incredibly fast and Clocker fired numerous blasts and Flash punched him all over the place and the lasers hit him and exploded.

Me: Lets knock him out. Final Smash time!

Dana: You got it J.D.!

Batman 2039: Ladies first.

Dana: Thanks. BLUE FIRE DRAGONPUNCH!

Dana fired a powerful blast of blue fire and it turned into a powerful blue dragon and it went at Big Time and punched him with devastating force.

KRABBBBLLLLAAAAAAAAAAAAAAAAAAAAAAAAAAMMMMMMMMMM

Batman 2039: Now for me. BATSTORM FUTURE STRIKE!

Batman fired a huge swarm of bats and they slammed into Big Time and knocked him out.

Me: Now's our chance.

I pulled out the antidote and Lincoln held his mouth open. I poured it into him and he swallowed it.

Big Time reverted back to normal and he was weak and disoriented.

Charlie: What happened?

We explained everything.

Charlie: Look, if you guys want to throw me in jail again, I understand.

Crumplezone: Nah. We'll just have ya see a therapist every morning.

Charlie: I'm cool with that.

Me: Sorry we were so rough on ya dude.

Charlie: Nah it's all right. I deserved it.

We shake hands.

Back at the estate we were talking about what happened.

Inque (guilty): You were right, Terry. Charlie isn't that different from us.

Clocker: Too bad he has to go to therapy now.

Terry: Don't beat yourselves up. I actually thought about giving up on Charlie as well. But if you always have hope for a person, that person will have a good outcome.

Me: That's true Terry.

Terry: (To the viewers) If you know someone that is in need of some serious help, be sure to help them out whenever possible.

Me: Amen to that Terry.

We rested after a long day and we haven't faced one of Batman 2039's enemies in a while.

THE END

---

Another Fanfiction complete and another Batman Beyond Villain done.

I'm sorry we haven't done a Batman Beyond villain in a while. But Charlie "Big Time" Bigalow was a cool guy but he had a serious problem. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Lincoln's 12 Personalities

In Lisa's Laboratory, Lisa had perfected a new serum.

Lisa: It's finished! My new emotion serum is finally complete! Now all I need is a perfect test subject to test it with.

Lisa went downstairs and she found Lincoln in the kitchen getting a glass of orange juice.

Lisa: (In her head) Lincoln is the perfect test subject!

Lisa snuck in after Lincoln filled up his glass with orange juice. When he was putting it back in the fridge, Lisa slipped some of the serum into his drink and put it back on the counter with no one noticing a thing.

Lincoln drank the juice laced with Lisa's serum.

Lincoln: Mmm. Good juice. (Stomach grumbles) Uh oh.

He was in a lot of pain.

Lincoln came up to me.

Me: What's wrong buddy?

Lincoln: I don't know. I don't feel so good.

Lisa then came with an empty beaker.

Me: Lisa? Did you spike Lincoln's juice with one of your experiments again?

Laney: Lisa, mom and dad told you not to use us as guinea pigs anymore!

Sabrina Mason: If I have to guess, this is a combination of Lincoln, his personalities, one of Lisa's experiments and a whole lot of trouble.

Then the beaker fell out of Lisa's hands and Lincoln went into the beaker as it was floating.

Lincoln: Uh oh!

The beaker shattered and Lincoln became 12 different colored puddles and we gasped.

The puddles swirled around and fired 12 beams of light and they turned into 12 different Lincoln's! But they each had a different colored shirt on.

Me: Whoa!

Laney: Holy mackerel!

Varie: That experiment split Lincoln into 12 Versions of himself!

Me: It sure did. Are you okay Lincoln's?

Red Lincoln: I told you not to give me those lessons! (Punches me)

Me: Ow! WHAT THE HECK WAS THAT FOR YA JERK!?

Pink Lincoln: FREE! FREE! (Hugs Lucy) I'M FREE!

Grey Lincoln: (Fearful and hiding under the couch) I don't like it here.

Purple Lincoln: What's not to like? (Kisses Earth passionately)

I saw that the Yellow Lincoln was reading a book on advanced genetics.

Me: Wow! Advanced Genetics and DNA Science? You'd have to have the skills and college of a doctor with 12 years of college to read that.

Yellow Lincoln: Indeed. The nucleotides of the DNA atomic structure can be quite a mathematical process to learn.

My head was sparking.

Me: Whoa! My head hurts from all that.

Laney: No kidding. I may be a smart girl but I can't digest all that information in one sitting.

We saw the Brown Lincoln cleaning up everything and making everything spotless.

Lola: I like this one.

Brown Lincoln: Thank you. Everything must be spotless.

The Sky Blue Lincoln walked up to Lynn.

Sky Blue Lincoln: Hey Lynn, you want to head to the obstacle course for a race!?

Lynn: Oh it is on!

They went to the obstacle course.

Lana saw the Green Lincoln meditating with yoga candles around him.

Lana: This one is very calm.

Bodhi was with him.

Me: Look at that state of deep concentration.

Lori: This one is so full of hope.

The Blue Lincoln was giving Lori all kinds of great advice and more.

Blue Lincoln: You have what it takes to be a great sister Lori and a great mother and never tell yourself anything different.

Lori: I will remember that.

The Orange Lincoln belched and fell to the floor.

Lana: Awesome!

The White Lincoln was looking at himself in the mirror and he was looking sharp.

Lola: You are looking sharp big brother.

White Lincoln: I want to look Perfect.

Black Lincoln: Are you all gonna yell at me?

Me: No we're not gonna yell. But now I think I know what Lisa's serum did. It divided Lincoln into the 12 core parts of his personality.

Dark blue Lincoln: Ugh! You are completely disgusting!

Me: Thanks a lot!

Lynn came back with the Sky Blue Lincoln and she was exhausted and dripping with sweat like there was no tomorrow.

Lori: Blue is literally his hope.

Leni: Red is like his rage.

Luna: Pink is his happiness dudes.

Luan: Grey is his timidity.

Lynn: Yellow is his smarts.

Lucy: Dark Blue is his disgust.

Laney: White is his perfection.

Lana: Brown is his clean.

Lola: Orange is his laziness.

Lisa: Sky Blue is his Athleticism and Competitiveness.

Lily: Black is his sensitivity

Me: And Green is his Calmness.

Lisa: My experiment is a success! I must inform my college colleagues!

Lori grabbed Lisa's shirt.

Lori: Not so fast! This is literally your fault!

Me: Lori, put her down. Now.

Lori did so.

Me: Lisa's experiment may have done this. But I think this is so cool!

Bowser Jr: Lisa, maybe you should put a security system around your experiments so no one can touch them!

Me: We'll worry about that later B.J.

Lincoln: J.D.! Can you hear me?

Me: Lincoln?

A spirit Lincoln then appeared. I saw him.

Me: Lincoln, it's the true you!

Lincoln: That's right. Lisa's experiments did split me into my 12 core parts of my personality. You got to get me back together into 1.

Me: How can we do that? We don't even know if Lisa made an antidote.

Rage Lincoln punched me in the face.

POW!

Me: Ow! Why you little!?

I punched Rage Lincoln in the face and gave him a nasty black eye.

Maria grabbed me and the Rage Lincoln with her water powers.

Maria: That's enough you two! We can't hurt each other because of an experiment that made this happen.

Nico: Maria's right! We have to figure this out.

Maria: Ok, Lincolns. You all need to stay inside until we merge you all back!

William (the 12 Lincolns just escaped): Ok. Who left the door unlocked?

Me: We have to get them back!

Optimus Prime: We need to find the Lincolns and merge them together before any of our enemies find them!

Me: Right! Wait!

I saw a huge pile of food and buried underneath it was the Lazy Lincoln.

Lazy Lincoln: Oh hey. (Belch)

Me: We have the Orange Lincoln here.

I put him in a beaker and he turned into an orange liquid.

Me: Turns out he was here.

With that we split up and went all over across town!

---

Riku, Demona, and Britney Crosby, Carly Beth, Nicole, Sabrina Mason, Xion, and Karai VS Caitlin and Dominique Rage

---

Rage Lincoln kicked over a bunch of trash cans and threw them at cars and they exploded!

KRABBBOOOOOOOMMMM!

Caitlin (to Rage Lincoln): Hello, Stinkcoln!

Rage Lincoln: Only Lynn gets to call me that!

Dominique (gives him a wedgie): Do we look like we give a damn?! You're gonna pay for getting Mandy expelled!

Carly Beth: Let the hot head boy go!

Carly Beth punched Dominique in the face and gave her a nasty black eye!

They got up and they had Rage Lincoln over a sewer.

Carly Beth: Alright, you two. Let's just talk about this.

Caitlin (holds Rage Lincoln over the edge): Ok. We'll talk.

Dominique: About our demands, that is!

Nicole: What do you two want? A few souls out of the Book of Vile Darkness? Because I'll do that if it means getting Lincoln back to normal!

Caitlin: We could care less about that book and what's in it!

Dominique: What we want is Mandy's expulsion being erased so she can go back to school!

Nicole: Not gonna happen you bitch! Mandy brought all that on herself by calling Clover a dumb blonde!

Carly Beth (to Caitlin and Dominique): I can't believe I'm saying this but Chuck and Steve never stooped to your level!

Nicole punched Caitlin in the mouth and knocked out some of her teeth! It released the Rage Lincoln.

Britney Crosby: Me, Demona, and Riku will get Rage out of here. You guys handle Caitlin and Domnique!

Carly Beth: Right!

Carly Beth and Nicole grabbed Rage Lincoln.

Britney Crosby, Demona and Riku pulverized the living shit out of them both.

Then Caitlin and Dominique ran away.

Xion (sees Caitlin and Dominique run away): That's right. Run. Because soon, there will be nowhere left for you two to go!

Demona: Britney what were you doing before the nightmare of Horrorland began?

Britney: I was fighting Slappy the Living Dummy and it was horrible.

One week earlier, Britney's annoying cousin Ethan, brought his dummy Mr. Bad Boy. Britney believes that Ethan is up to no good again. Meanwhile, Britney's best friend Molly is also having serious problems with a Mind Stealer Doll. Molly's dad brought it back from one of his trips. Molly is afraid of the doll, so the girls carry the doll to a graveyard and bury it.

After some more madness is caused by the dummy, Britney finds out some information about Ethan's dummy from Molly's dad's research. Britney and Molly discover that his real name is Slappy and that he has six ancient words that both wake him up and put him back to sleep. They then go to Britney's house to read the words to put Slappy back to sleep. However, Ethan must have somehow put him back to sleep before the girls got there because after going to bed, Britney is awakened by who she believes is Ethan trying to wake her up, but it turns-out to be Slappy! Slappy grabs her very wrist tightly. He thanks her for waking him up and claims that she's now his new slave and that she'll do whatever he wants! He informs her that he heard Ethan talking about her burying the Mind Stealer Doll in the graveyard. Slappy cries that he wants it and then tells Britney to go get it and bring it to him! Slappy rushes off to the graveyard and Britney follows him.

After arriving at the graveyard, Britney goes after Slappy. After capturing him, he kicks and screams and vows revenge! In the end Slappy's mind gets stolen and Britney's parents soon arrive. They mention to Britney that they wish to take her to a doctor, for they feel that she has gone crazy. She claims she is fine though, they do not really believe her. But they leave together, after Britney re-buried the doll…

Xion: That's horrible Britney. You know you aren't the only one that faced Slappy right?

Britney: I know. Nico said that he and a lot of others were tormented by him. It was a nightmare.

Demona: That must've been traumatizing for you.

Britney: It was.

## Michael Munroe, Francis, and Lea - Hope

At Gus's Games and Grub, Michael Munroe, Francis and Lea were there and they found the Hope Lincoln rooting people on with great hope and he helped them get a lot of fun points, prizes and more.

Francis: Wow! Hope Lincoln is really good at helping people.

Michael Munroe: He sure is.

Lea: I like this Lincoln the best. He loves to show his hope to everyone.

Michael: Me too.

Hope Lincoln: Hey guys.

Francis: Hey Hope Lincoln.

Hope Lincoln: I know why you came. I'll gladly let you take me back. Being out was fun. But I want to be a part of the whole Lincoln.

Francis: We're gonna miss you Hope Lincoln.

Lea turned Hope Lincoln into a blue liquid and went into the beaker.

Francis: That's 3 down and 9 more to go.

Lea: Yep. Hey Michael how did you get the nickname The Monster?

Michael: Well, that's something I don't like to talk about. But it was mostly because of my explosive temper.

Michael is a very athletic child with a short fuse. He is nicknamed Monster, because he explodes a lot. But he never wants to be called Monster again, after his ordeal with real monsters in Mrs. Hardesty's basement. And there are much more monsters waiting for him in HorrorLand. He later meets up with the other Very Special Guests, then gets lost in Panic Park due to Byron "helping" them. Michael appears insane in Escape From HorrorLand, along with other guests that were waiting for the other Very Special Guests in the Panic Park attraction, the Tunnel of Hate.

Michael: Ever since, I was called that.

Francis put his hand on his shoulder.

Francis: I know just how you feel Michael. I was once like you. I had a really nasty disposition and I had an explosive temper as well. I became Hotstreak when the Big Bang happened and I was a flaming menace. I loved hurting people. But J.D. has been a great friend to me and a major mentor figure. He changed me into a great and better person. If he can do it to me, he can do so to you.

Michael: Thanks Francis. I would like that.

---

Matt Daniels, Maria, and Bai Tza - Smarts

---

The Smart Lincoln was at the Library and Matt Daniels, Maria and Bai Tza saw a bunch of massive stacks of books.

Matt Daniels: Whoa!

Maria: Look at all these books!

Bai Tza: Smart Lincoln read all these books in one sitting? Incredible!

Maria: This is every book in the library all at once!

Ms. Wetta: I'm amazed myself Maria.

Maria: I know Ms. Wetta. But we have a strange situation here.

Smart Lincoln arrived.

Smart Lincoln: Indeed it is.

They saw that Smart Lincoln had a brain the size of a kitchen table and it was throbbing and pulsating with knowledge!

Maria: Wow! You got really smart from all these books!

Smart Lincoln: Indeed. And I will gladly go with you and rejoin Lincoln as a whole.

Maria: Okay. But Lincoln's gonna get a massive headache from all that knowledge when we put you back together.

Smart Lincoln: I know.

Smart Lincoln turned into a yellow Liquid and went into a beaker.

Maria: That was the coolest of the Lincoln's.

Matt Daniels: He sure was.

Maria: Hey Matt what were you like before the whole Horrorland nightmare?

Matt Daniels: I was the leader of the Horrorland Special Guests.

Daniels appears in HorrorLand in the book Creep from the Deep, so, canonically, the first half of book 3 actually occurs before book two's Enter HorrorLand segment. He is kind and sporty, but the only thing that drives him up the wall is Bradley "Worm" Wormser. He takes on a leadership roles for the Very Special Guests' group.

Maria: Wow!

Matt D.: I know.

## Julie Martin, Killer Frost, and Poison Ivy - Passion

At the Park, Julie Martin, Killer Frost and Poison Ivy were looking for Passion Lincoln.

Julie Martin: Where is Passion Lincoln.

Killer Frost: I think we found him.

They saw Passion Lincoln and Earth kissing passionately while they were sitting on a park bench.

Julie M., Killer Frost and Poison Ivy: Aaaawwww.

Earth: You are quite the kisser Passion Lincoln.

Passion Lincoln: I've learned a lot from Lori's magazines. Don't tell her I read them.

Earth: I won't.

Julie M.: As much as I want this love to go on, we have to get you back together with the original Lincoln.

Passion Lincoln: All right. I'll see you at home Earth.

Earth: Will do.

Killer Frost pulled out a beaker and Passion Lincoln turned into purple liquid and went into it.

Julie Martin: That was so adorable.

Killer Frost: It sure was. Julie how did you wind up in Horrorland?

Julie Martin: Well before I wound up there, I was a newspaper reporter for my middle school.

Julie Martin is a girl who takes pictures for Twin Forks Middle School's newspaper. She really wants to beat the photography contest against David Blank. But the Sneer Sisters, Greta and Becka, break her digital camera. So, she finds another self-developing camera and the students in Twin Forks Middle School will never be the same! She gets an invitation to HorrorLand, but quickly finds out that she and the other Very Special Guests are all in great danger…

Poison Ivy: So you warned everyone about them being in danger? You did your best to help.

Julie M.: Thanks Pamela.

---

## Molly Molloy, Venom, and Rhino - Athletic

---

Molly Molloy, Venom and Rhino were at the Gym and they saw Athletic Lincoln and Girl Jordan playing Dodgeball. They saw them doing all kinds of moves and tricks in dodgeball and they were really working up a tremendous sweat and Athletic Lincoln wasn't in the least bit tired.

Molly: Wow! Look at him go!

Venom: He's really giving Girl Jordan a run for her money.

Rhino: No kidding.

Girl Jordan was dripping sweat like there was no tomorrow.

Molly: I think that's enough you two.

Molly used her plant powers and tied up the Athletic Lincoln in vines.

Venom: Wow! You've gotten your powers down Molly!

Molly: I know.

Molly put the Athletic Lincoln in the beaker.

Rhino: That was great Molly.

Molly: Thanks Aleksei.

Venom: What were you doing before the Horrorland nightmare?

Molly: I was helping in destroying the evil Slappy.

Rhino: That's awful.

Molly: I know. Nico told me everything that went down with him and a bunch of others. It was a nightmare.

## Robby Schwartz, Stewie, Bowser Jr., - Timid

Robby Schwartz, Stewie and Bowser Jr. were looking for the Timid Lincoln.

Stewie: So are you sure that the Timid Lincoln is here at home?

Robby: I'm positive Stewie. My Emoticlone Detector I built will be able to find the spiritual energy of the emoticlones anywhere.

Bowser Jr.: Wow! That is genius.

Stewie: Indeed. I'm very impressed old chap.

Robby: Thanks Stewie. I've always been known as the nerd of my group. But I always like to draw comics and invent stuff.

Robby is a nerdy kid who likes to make web-comics. His latest creation is Dr. Maniac, a maniacal supervillain who somehow escapes into the real world! The same thing happens to his other characters: Purple Rage, Scarlet Starlet, and possibly even Robby's imaginary sister Taylor Schwartz. However, Taylor and Scarlet

Starlet do not appear alongside Dr. Maniac in HorrorLand.

The detector detected an emoticlone. They saw the couch trembling and they looked under it and there was the Timid Lincoln.

Robby: There you are. It's all right. Lets get you back in the beaker.

The Timid Lincoln went into the beaker as a grey liquid.

---

## Boone Dixon, William, and Shego - Sensitivity

---

Boone Dixon, William and Shego were looking for Sensitive Lincoln in Edd's Attic.

Edd: Are you sure there's one of Lincoln's Emoticlones in my attic guys?

William: We're positive Double D.

Shego: I can sense it.

They saw something shaking in the corner.

Boone: That's him.

Sensitive Lincoln: You're not here to yell at me are you?

Boone: Of course not. We want to put you back together with the other Lincoln's.

Sensitive Lincoln: Well okay.

The Sensitive Lincoln turned into a black liquid and went into the beaker.

Edd: That was positively unequivocally fascinating!

Shego: It sure was. Boone, what were you doing before the whole Horrorland nightmare?

Boone: I was sent to a terrible place called Camp Hither.

Boone and Heather love to go to different camps every summer. This year, they travel to Camp Hither but find out that the place is infested with snakes! They also find out that Dr. Crawler, their camp director, is a snake himself! Dr. Crawler wants to turn Boone to a snake, but Boone stops him, and Dr. Crawler poisons himself to death. He gets an invitation to HorrorLand and sees children getting strangled by vines. He jumps to the rescue but gets tangled as well. Then, the monster police take them to "The Keeper" a.k.a. Dr. Maniac. He also finds out that he and the other guest are in danger. He is one of the children to get lost in Help! We Have Strange Powers! He appears in The Streets of Panic Park, trying to fight Byron with Michael Munroe.

Shego: That's horrible. Nico told us about that one.

Boone: I can tell. He has a lot of Goosebumps books.

---

Abby Martin, Teresa, and Arpeggio - Happiness

---

At a local dance party going on in the middle of town, Abby Martin, Teresa and Arpeggio were looking for Happiness Lincoln.

Abby Martin: Wow! Look at all these people!

Teresa: I know.

Then they saw Happiness Lincoln dancing and everyone was loving to watch him. He was doing all kinds of awesome dance moves.

Teresa: Wow! Happy Lincoln sure knows how to dance!

Abby Martin: Look at him go!

Arpeggio: (British Accent) I say! He sure knows how to move. Abby what is your story with Horrorland?

Abby: Well we lost our parents at a young age.

Teresa: Oh Abby. I'm so sorry.

Abby: I know. Thank you Teresa.

Abby and her younger brother, Peter, lost their parents at an early age. Since then, they have lived with their Granny Vee. Granny Vee becomes sick and sends the kids to live with their Uncle Jonathan.

Upon arriving in Vermont, the siblings are picked up by a man who they think is their uncle. The man is actually Tuttan-Rha, an ancient Egyptian who stays alive by eating mummy organs. Abby and her brother manage to defeat the ancient Egyptian, and they go back to live with their Granny Vee.

Once the kids return to Granny Vee, Granny Vee confesses that her health was failing. Abby unwraps a parcel. The parcel contains a piece of a mummy's organs. Abby tells her grandmother to ignore the smell and eat a nice chunk and will do her a world of good. Since Tuttan-Rha used the organs to stay alive, Abby assumes that Granny Vee can do the same. Abby assures Granny Vee that she will be around for a long time.

Arpeggio: Gosh. I'm sorry Abby.

Abby: Thanks Arpeggio.

D.J.: And the winner is Lincoln Loud!

Everyone cheered! Happy Lincoln was given an awesome dance trophy.

Happy Lincoln: Thank you all so much! I'm so happy!

Teresa: Way to go man!

They took him back to the estate.

---

Lizzy Morris, Luke Morris, Clay (Goosebumps), Shocker, and Elena

- Cleanliness

---

At Ed's house, Lizzy and Luke Morris, Clay (Goosebumps), Shocker and Elena were looking for Clean Lincoln.

Lizzy: I think I know where he is.

They went upstairs and found him in Ed's room and it was spotlessly clean and in a bag that had the radiation symbol on it was all of Ed's moldy stuff and more.

Elena: Whoa! He really cleaned up all of Ed's mess!

Sarah: He sure did. I like this Lincoln.

Clay: I'll say. He's so tidy and clean.

Luke Morris: No kidding.

Clean Lincoln: All clean! Not one single piece of filth is here.

Elena: Wow! It's so shiny I can see my face in the floors and the walls.

Lizzy: You did a great job Clean Lincoln.

Clean Lincoln was put into the beaker as a brown liquid.

Elena: That's cool.

Ed: I like my room like this. I can't believe I was that filthy.

Luke Morris: Me neither.

Elena: How did you guys first came across Horrorland?

Lizzy: That is a nightmare we will never forget.

The Morris Family, along with Luke's friend Clay, get lost on their way to Zoo Gardens Theme Park, and when they see a billboard sign advertising HorrorLand, they decide to go there instead. Once in the park, Lizzy, Luke, and Clay go off on their own to have some fun, noticing numerous "No Pinching" signs. After a few frightening experiences on the rides, the family tries to leave, but find the park gates locked and the Horrors march toward them and try to have them pushed in a bubbling purple pond. When the HorrorLand MC tells the family that everything in HorrorLand was serious to them, Lizzy realizes that this includes the signs she saw, so she pinches the HorrorLand MC, causing her to deflate. As the other Horrors come to her aid, it allows the Morris' and Clay to escape by hijacking one of the HorrorLand buses. However, when they get home, they discover that one Horror had followed them. He gives them passes for next year.

Derek and Margo Strange, hosts a television show called Strange File, convince Lizzy, Luke, and Clay to go back to HorrorLand with them so that they can expose it as an evil, dangerous place. In the end, however, it turns out that Derek and Margo are monsters too.

Lizzy and her brother are recurring characters in the Goosebumps HorrorLand series, namely the Escape from Horroland story arc. She appears in Help! We Have Strange Powers!, Escape From HorrorLand, and The Streets of Panic Park.

Lizzy is also in the PC game, Escape From HorrorLand, a non-canon direct sequel to One Day at HorrorLand. The games begins when Lizzy, Luke, and Clay suddenly find themselves back at HorrorLand after touching the passes that were given to them. Throughout the game, you (the player) must help Lizzy rescue Luke, Clay, and her parents and escape from HorrorLand. In the game, she is played by Tatum Marie Fjersted.

In order to solve the mystery of what's happening at HorrorLand during the events of the Goosebumps HorrorLand book series, Lizzy and Luke Morris launch a blog to post clues information and information on the HorrorLand theme park. The site is mostly run by Luke, but Lizzy contributes in the form of extracts from a "Welcome to HorrorLand" guidebook. Since the site opened, they've received correspondence from Madame Doom, Monster-X, and Slappy the Dummy.

Elena: Geez. That's terrible that happened to you.

## Jillian Gerard, Jackson Gerard, Sandman, and Clayface - Perfection

In Eddy's house, Jillian & Jackson Gerard, Sandman and Clayface were looking for Perfection Lincoln.

They found him in Eddy's room and Eddy was giving his some beauty perfection tips.

Eddy: Oh hey guys. Just showing Lincoln here how to use that old black magic.

Jillian: I figured you would be showing him some of your styles Eddy. But this is a strange situation we have here.

They revealed the story.

Eddy: Wow! I didn't know Lisa's experiment would cause that.

Sandman: It's hard to explain.

Jackson: I'll get him back in the beaker.

Jackson did so and the Perfection Lincoln was back in the beaker as a white liquid.

Eddy: Wow.

Sandman: Hey Jackson, how did you and Jillian wind up in Horrorland?

Jackson: Well before we wound up there we discovered that we had strange psychic powers.

Jillian and Jackson were going to the theater at the mall to see Butt-Kicker II, which starred their favorite superhero, Butt-Kicker himself. But when they took their seats and waited for the movie to start, they noticed their new schoolmates, Nina and Artie Lerner, who are also twins. Jillian and Jackson were most dismayed at this, as the

Lerners were the most disgusting and wimpy kids in the school.

After being thrown out of the theater for being rowdy, Jillian and Jackson look around the mall and had a good laugh about what they would do to the Lerner twins if they had any powers. After that, they were outside to meet with their parents when they were splashed by the Lerner's car and then they noticed a Madame Doom booth at the mall entrance. Jillian and Jackson went over to the booth and put a quarter in the slot to find out about their fortunes. The hand got stuck and wouldn't come up all the way so Jackson decided to reach in and get it. Jillian grabbed his shoulder and they both received a powerful shock that jolted them hard.

Unbeknownst to the kids, the shock that they received gave them psychic powers. Soon, Jillian and Jackson find out that they have special powers. However, using their special powers makes Jillian and Jackson targets for the Thought Police.

Jillian and Jackson soon became curious of where their powers came from and went to HorrorLand to find out. They had a bit of fun at first until they received a fortune card saying to escape HorrorLand. And then they ran into Inspector Cranium, who had changed back and they managed to escape from him by going on the Doom Slide, but not before Cranium mentioned The Menace. Then several Horrors came over and took Jillian and Jackson to where "The Keeper" lived with the other Very Special Guests. There, the Keeper, who turned out to be Dr. Maniac and the Purple Rage were the others a real scare. First the Purple Rage exploded in anger and then Dr. Maniac kept on changing the temperature dangerously until Robby Schwartz pretended to have suffocated. After Dr. Maniac left in a panic, the other guests explained to Jillian and Jackson that they are trying to escape HorrorLand to Panic Park and that three kids have already escaped to there and that mirrors are the way there and a Horror named Byron is trying to help them. So everyone raced off to find a mirror. Along the way the twins noticed a dark-haired girl and boy watching them.

Soon they reached a cafe, where Britney Crosby and Molly Molloy were last seen and Jackson uncovered the mirrors by concentrating on the wall. Five more of the kids went in the mirrors, but the Monster Police caught the remaining kids before they could jump in, and they managed to get away. Then the dark-haired girl and boy caught up with them and introduced themselves as Lizzy and Luke Morris and explained that they have been to HorrorLand before and that the guests would be safer in HorrorLand. Then Jillian read Lizzy's mind and told the others she was lying creating an uproar. Lizzy struggled to explain about Panic Park, but Jillian and Jackson told the others that she is working with the Horrors to keep them in HorrorLand. Jillian and Jackson spent the journey criticizing and bad-mouthing Lizzy and Luke and still felt uneasy about them even after they found their friends and rescued Carly Beth Caldwell and Julie Martin from drowning in the Tunnel of Hate. Panic Park turned out to be a very frightening place and Jillian and Jackson faced many dangers there such as the Egg Aliens, The Haunted Mask and Captain Long Ben One-Leg.

They then discovered a man who introduced himself as Karloff Mennis, also known as The Menace. Jillian and Jackson were then revealed to be traitors, working for The Menace the whole time, much to the anger of the other Special Guests. It was also revealed that it was The Menace who gave them their powers, not Madame Doom. Jillian and Jackson were taken away, but managed to catch up with the others and the villains (who have joined forces with them to defeat The Menace) when they caused Panic Park to shrink by laughing. Jillian and Jackson explained that they never wanted to work for The Menace and his control over them has shrunk. So Jackson opened the whirlwind with Cranium's help, and Jillian, Jackson and the others got back to HorrorLand and their families safely.

Jillian: Ever since then, we found out that we had these incredible psychic powers. Humans can only use 10% of their brain power. But we can now use 100% of our power. We're omnipotent.

Sandman: That's amazing!

Eddy: That's incredible!

---

Billy Deep, Sheena Deep, Rubberband Man and Inque - Disgust

---

Billy & Sheena Deep, Rubberband Man and Inque were looking for the Disgust Lincoln at the Mall.

Rubberband Man: I had a feeling he was here at the mall.

Inque: He's over there at Reiningers.

Billy Deep: Isn't that where Leni works?

Sheena: It is. She has today off.

They went in and they found Disgust Lincoln at the mens shirts.

Disgust Lincoln: Uch! I would never wear orange.

Inque: And you need to go home.

Inque put the Disgust Lincoln back in the beak as a dark blue liquid.

Billy Deep: That's all of them.

Sheena: Wait! We need to find the Calmness one.

---

Back at the estate we were looking for Calmness Lincoln and we found him on the floor meditating.

Me: Have you been here the whole time?

Calmness Lincoln: Actually I just got back from the Yoga Studio doing Tai Chi. But you can put me back with the others.

Me: All right.

I put the beaker up to him and he went into it as a green liquid.

Me: That's all of them. Lets get our Lincoln back.

We put an empty bowl on the floor and put all 12 liquids of each Lincoln into it and it glowed and the whole Lincoln was back.

Lincoln: Thanks for bringing me back together guys.

Me: You're welcome buddy and it's good to have you back. Sorry I punched you in the face like that.

Lincoln: No hard feelings J.D.

Me: I need to go rest. I got a splitting headache. (Groans)

I went to my room.

Lori: It's literally good to have you back little brother.

Lincoln: Thanks Lori.

Lincoln then got a massive headache the size of Russia!

Maria: Sorry Lincoln, but your smart self read all the books in the library in one sitting and it's gonna take a while for you to digest all that information.

Lincoln: (Groans) Whoa! No wonder my head hurts.

Everyone laughed.

It was really cool learning about how Lincoln thinks and more.

Sabrina Mason: (To the viewers) Never drink an experimental formula from Lisa without your consent or there will be trouble.

I was resting in my room reading a book with an ice pack on my head. Blue Beetle caught a Pinsir.

Me: (Groans) That's the last time I drink steak sauce. (To the viewers) This was one of the most craziest adventures we've ever had. It was also one of the coolest ones we've ever experienced because we got to see the core parts of Lincoln's personality. It was cool but it gave me a splitting headache.

Lincoln was in bed with a splitting headache the size of Russia from reading all those books all at once and he had an ice bag on his head.

THE END

---

Another Fanfiction and Funny Adventure complete

I got this episode out of the blue out of inspiration from Harburton81's Fanfic Behavior Blast and the episode of TTG Colors of Raven. Those were awesome! Thanks for the inspiration Harburton81. Credit goes to you for the idea and the inspiration. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Night of The Swamp Werewolf

At Serena's house, Me, Nico, Ash, Serena, Laney, Lincoln and Jessie were invited over for breakfast.

Jessie (Pokemon): Thanks for letting us come over for breakfast, Grace.

Grace: You're welcome Jessie. I'm so glad you and James are no longer on Team Rocket.

Nico: We all are Grace.

Ash: Me and Serena have started dating.

Serena: Yep. It's our 2nd date.

Grace: (Squeals in excitement) I'm so excited you guys!

Laney: Ash and Serena from what I can tell are made for each other.

Lincoln: I picked up on that a while back.

Me: Yep.

Grace: I heard you all went after both Teams Aqua and Magma.

Me: We sure did. We were supposed to originally go after just Team Aqua. But both teams surfaced and we had a change of plans. So we went after both teams at the same time and killed them both.

Lincoln: We also threw some of their members in our prisons.

Me: Yep.

Grace: That's great. Who is next after those two?

Me: We're going after Team Plasma next. They want to dominate the world by dividing humans and pokemon forever. A world without free will for both species.

Grace: That's terrible!

Nico: We won't let them do it.

Me: The Delta Sky will Blow them into the Stratosphere.

Grace: That's a great motto.

Serena: I think it was cool Mom.

We later went back to the estate and Nico caught a Serperior and a Rotom.

---

Back at the Estate we were watching on a holographic screen another rant session at Icky Vicky. Shego went first.

Shego: (On the screen) Here's what I think about you Icky Vicky. (Takes a deep breath and growls ferociously) YOU MAKE ME FUCKING SICK! (INFURIATED ENRAGED SCREAMING) (Think how SpongeBob yelled in the episode Rock Bottom.)

Her screaming was so loud that she blew green fire all over the place as she screamed and it all hit Icky Vicky.

Britney Crosby: Whoa! That is an explosive temper.

Karai: (Japanese Accent) My turn.

She walked up to Icky Vicky.

Karai: Are you saying I'm stupid? Do I look stupid to you?

Icky Vicky: Umm. Yes?

Karai: That's it!

Karai jumped her and pulverized the living shit out of her with a ferocious assault in a brutal fight cloud.

We were laughing hysterically and rolling on the floor laughing like crazy.

Me: (laughing) That is so funny!

Jen: No kidding. This reminds me of the time me and Bruce hulked out when we faced Terrorists.

Me: What happened then Jen?

Jen: Well it wasn't a pretty sight.

---

Jen: (Narrating) Me and Bruce were captured by an evil terrorist organization called the Black Lion. They were stationed over in Somalia.

Me: I remember them. I killed all those guys 1 year before I moved to Michigan.

Jen: That's right. Their leader was a madman named Amir Niyona and he wanted to destroy the entire planet and turn it into a utopian paradise for only them as the superior species.

Amir slapped Jen in the face. And it was only making her even more angry. Another man punched Bruce in the face!

Bruce: Amir! You're making me angry! You wouldn't like us when we're angry!

Then they started to Hulk out!

Bruce's eyes turned emerald green and then his skin turned green and his muscles grew huge and his hair turned black and then he grew muscular as his clothes were shredding and he turned into THE INCREDIBLE HULK!

She Hulk underwent the same thing. She had her eyes glow emerald green and her skin turned green and she grew muscular and taller, her hair turned from Black to longer dark green, and her shoes were shredded and she turned into THE SHE-HULK!

Hulk: HULK SMASH TERRORISTS!

Then they broke out of their ropes and punched and smashed all the terrorists into pulp and killed all over them and knocked out some of them.

She-Hulk: That's what you get for messing with the power of the Hulk!

Then they reverted back. (Process in reverse)

Jen: Wow! That was a close one.

Bruce: It's good we stopped them.

Jen: (Narrating) We defeated the Black Lion.

FLASHBACK ENDS

Hulk: Hulk remember that. Black Lion dangerous. (Eats a sandwich)

Me: If your muscles are as big as your appetite, we'll be out of food in a couple of days.

We laughed.

Hulk: Hulk can't help it. Need food for big strength.

Nico: (to Britney Crosby and the other Very Special Guests) Do you guys still suffer from PTSD from your monster experiences?

Britney: PTSD? What's that?

Me: It stands for Post Traumatic Stress Disorder. It's a very painful disorder that is very taxing on the mind.

Nico: Yeah. It's usually brought on by terrifying events that were brought on with either fear or anything like that. A lot of veterans that went to war usually get it. It happened to me.

Molly: Oh I get it. Yeah. We are still suffering from that. But we're getting better.

Nico explained what he went through and how we helped him get over his PTSD.

Robby: Whoa! That's awful!

Jillian: I can't believe Ken's parents would accuse you of doing that when it was only an accident!

Jackson: Yeah it's not your fault Nico.

Nico: I know that. I'm over it now. J.D. and everyone helped me get over my grief.

Then there was a knock at the door.

Me: I'll get that.

I went to the door and I answered it. It was member of the Justice League - Rex Mason A.K.A. Metamorpho.

Me: Wow! Rex Mason A.K.A. Metamorpho.

Metamorpho: Nice to finally meet you, J.D.

We shook hands.

Me: You too Rex. John Stewart told me so much about you.

Metamorpho: I figured my pal would do that. He always spreads good word about awesome friends.

Me: I figured. Come on in.

He came in and everyone saw him.

Lincoln: Whoa! Metamorpho!

Metamorpho: Pleasure to meet you all.

Lana: Oh wow! You are awesome! You're one of my favorite superheroes!

Me: I take it the Justice League sent you to help us on our next mission?

Metamorpho: They sure did.

Kevin Levin: You actually look like one of my mutations.

Metamorpho: I do huh?

Me: Kevin is Half Human, Half Osmosian. He has the same powers you do.

Metamorpho: I believe it.

Lola: If I may ask, how did you become Metamorpho?

Metamorpho: Well it was because of a mutagen I was exposed to when I worked for Simon Stagg.

---

Rex Mason worked for Simon Stagg until he fell in love with Simon's only daughter, Sapphire. Knowing Simon would never approve of their relationship, the two kept it secret from Simon for a while. Rex met up with his old friend, John Stewart (who calls him "Mace") when GL prevented the runaway train Rex was on from crashing. Rex introduced John to Sapphire and told him of their relationship, including the fact that Simon didn't know about it.

Batman soon discovered the incident on the train was caused by chemicals being illegally transported on the train by Simon Stagg's company. When Rex learned this, he confronted Stagg, who denied that he had anything to do with the incident, lying through his teeth. Later when Simon visited Sapphire, he was shocked to find Rex there. The couple told Simon of their relationship, followed by Rex announcing his resignation from Simon's company so he could take a job in Chicago… and take Sapphire with him. Reeling from all this news, Simon nevertheless composed himself and told Rex and Sapphire they had his blessing.

Later, as Rex was cleaning out his desk, Simon arranged events so that a false alarm sounded and drew Rex into a room where he was encased in a tube and subjected to Stagg's experiment. Rex was made a test subject for Stagg's project to create a "chemical man" who could survive in any environment. The project was code-named "Metamorpho."

As a result of the experiment, Mason could now transmute any part of his body into any element or chemical. Mason was distraught over his freakish new appearance and literally had a meltdown as he tried to cope with his new abilities. Stagg manipulated Mason into fighting Stewart and nearly killing his old friend. Then Superman, Hawkgirl, and J'onn J'onzz arrived on the scene. Metamorpho held his own against the League, which delighted Stagg, who was secretly across the street videotaping the encounter in order to impress potential investors.

Metamorpho eventually fled from the battle and confronted Sapphire in their home as to her "affair" with Stewart (which was just another Stagg lie). Unafraid, Sapphire slapped him and reassured him that she still loved him, regardless of his transformation and new appearance. Realizing that he had been played for a fool, Mason located Stagg in one of his laboratories and vowed that Stagg would never do to anyone else what he did to Mason. Metamorpho started destroying Stagg's equipment, and in doing so, inadvertently caused an accident that saw Stagg's mind transferred into a giant chemical monster. The monster rampaged through the city and kidnapped Sapphire. However, with the help of the League, Metamorpho turned himself into a polypeptide capable of neutralizing the monster. Knowing that he probably wouldn't survive the process, Metamorpho heroically dove into the monster anyway and released the polypeptide to save Sapphire. The gambit worked and seemingly, neither Metamorpho nor the monster survived. Sapphire shed a tear for Rex, which landed in some of the polypeptide residue. All the residue then pooled together and rose up, reconstituting Metamorpho, much to the joy of Sapphire and the relief of Stewart.

Some time later, Superman was seemingly disintegrated by Toyman and presumed dead. (Actually, he had been flung into the far future.) At his wake, the League discussed potential replacements, with Stewart suggesting Metamorpho. It became a moot point when Superman returned to his own era, though Metamorpho did join the expanded League following the Thanagarian invasion.

## Powers and abilities

Rex's mutagen exposure augmented his entire physical body.

Shapeshifting: Rex can stretch, bounce, elongate, control, reshape his body as if it were made of polymer or liquid. He can even shift his mass into shapes like weapons and blunt objects.

Transmutation: Rex can transmute his body to any of a wide variety of liquid, gas or metallic elemental compounds and form it to his will. He can alter the shapes and consistencies of these elements and combine them to form complex compounds. Rex can assume forms of gas, liquid or solid states. He was able to transmute his arm into Kryptonite, a substance with elements not found on the periodic table. He once emitted hypergolic substances that explode on contact. He can even convert into polypeptides and other organic substances; some of the most complex substances known.

Enhanced Durability: The nature of Rex's body provides him with degree of protection offering damage resistance from blunt attacks and energy attacks.

Enhanced Strength: While not on Superman's level, Rex is superior in physical strength than he was as a human.

---

Metamorpho: Ever since then I was made a member of the Justice League and decided to help protect the world.

Lola: That's awful and amazing!

Lisa: Indeed. The mutagenic formula Stagg exposed you too really helped you out.

Me: He was given these powers for a reason and with great power comes great responsibility.

Nico: That's right.

Me: How's Sapphire Stagg doing?

Metamorpho: She's doing great J.D. and we've now officially tied the knot. And she's due any day with a baby girl.

Me: Wow!

We cheered for him.

Lori: Congratulations Mr. Mason!

Metamorpho: You can call me Rex.

Me: But congratulations Rex. You must be really excited to be a dad.

Metamorpho: I sure am.

Me: Well we're happy for you Rex.

I looked at the clock and it was 5:30 PM.

Me: I'm glad you arrived Rex. We got to head over to Fever Swamp in Florida.

Nico: It's our next target on our Goosebumps Monster Hit List. We're going to take down the Werewolf of Fever Swamp.

Robby: I remember that. And I was almost killed by a werewolf in Horrorland.

Nico: I know that too.

Me: And we chose this one for a reason. For the next full moon.

Maria: Isn't tonight a full moon?

Me: Yes the next Full Moon is Tonight. We got to get there before it rises. Lets roll!

We were off to Fever Swamp in Florida.

---

FEVER SWAMP, FLORIDA

---

We arrived in Fever Swamp. It was probably the most terrifying swamp we've ever seen. The swamp was located right next to Lake

Okeechobee.

Me: Whoa! So this is Fever Swamp.

Lana: This place is horrifying!

Laney: This place really gives me the creeps.

Offroad: I wonder why this place is called Fever Swamp.

Me: It is said that it caused all kinds of terrible illnesses like Malaria and Cholera.

Lincoln: Boy I would not want to come here ever again.

Carly Beth: Me neither.

Me: We better hurry. Moonrise is in 30 minutes. We got to find a kid named Grady Tucker.

We looked and found the Tucker Residence. We made a light bridge and crossed it and went to their swamp house and I knocked on the door.

Grady came and answered it.

Grady: Wow! Team Loud Phoenix Storm!

Me: Are you Grady Tucker?

Grady: I sure am. It's such an honor to meet you.

Me: We came to help solve your werewolf problem. And we have to be ready for it.

Grady: Right. Come on in.

We did so.

We told Grady and Cassie's mom and dad about what's been going on and how Will is the Werewolf.

Mrs. Tucker: So my son is a werewolf?

Me: I know this is a shock Mrs. Tucker but we're gonna help him out.

G1 Sideswipe (to Grady): Is it true that you can turn into a wolf now?

Grady: I sure can Sideswipe. But I try to surpress it, but the pain is too strong.

Me: I know how that feels Grady. But we can help you. Watch this.

I stand up and growled and I turned into the famous werewolf hero J.D. The Nocturnal!

I howled!

Me: **I am also the famous werewolf hero J.D. the Nocturnal!**

Grady: Wow! You're a werewolf too.

Cassie: Not just any werewolf big brother. He's J.D. the Nocturnal! The famous werewolf hero of the world.

Me: **That's right Cassie. I can transform into my J.D. the Nocturnal form at will and I have all the abilities of a werewolf including my own. And I can see in the dark.**

Grady: That is amazing! You think I can do that?

Me: **Our best chance for you to achieve that is to wait until the moon comes up. And there's a full moon tonight that is rising right now.**

Grady: I'll take that chance.

Me: **Okay.**

* * *

Out on the swamp, we saw the Full Moon rising and then Grady looked at it and then he started to change.

Me: **Here we go.**

I chanted a powerful incantation and with the power of moonlight magic, I turned Grady into a Nocturnal Werewolf like me. I turned him into GRADY THE NOCTURNAL!

Me: **How do you feel Grady?**

Grady: **I feel amazing! Hey! I can talk and I have I still have my humanity!**

Lori: And you are now an awesome force of good in the dark.

Grady: **I sure am.**

Grady heard something coming.

Laney: What is it Grady?

Grady: **It's Will. I hear him coming.**

Me: **Mr. and Mrs. Tucker, you and Cassie stay inside the house. This is gonna get really rough.**

Mr. Tucker: Okay. Lets go.

They went inside.

Superman laid out some steak.

Superman: You sure this bait is going to work?

Batman: (sprays steak with ketchup) I'm positive. Will Blake in his werewolf form is an animal. And all animals can become trapped with the right kind of bait.

Me: **Clever.**

Grady: **Hold on Will. We're gonna cure you.**

We hid in the trees and the bushes and waited. We heard growling and we saw THE WEREWOLF OF FEVER SWAMP! He was a true werewolf. He saw the steak and walked up to it and began to eat it.

Me: **NOW!**

(Beast At Our Door by Groove Addicts Plays)

Edzilla: ED SMASH WEREWOLF! (throws tree at werewolf)

It hit him and he whimpered and we attack.

I jumped out at him pounced on him and threw him into a tree. He got up and we growled at each other ferociously.

Me: ( **FEROCIOUS GROWLING** ) ( **ROAR** )

My yellow eyes glowed neon yellow under the light of the full moon. Will's eyes looked right into mine and we were growling with extreme ferociousness.

We went at each other and I slashed him in the chest and kicked him in the face and fired a powerful blast of moonlight energy at him and grabbed him and threw him into a tree. We were slashing at each other and I was dodging all his attacks.

Laney: Wow! What a ferocious battle!

I was facing Will.

Me: **Will, I don't want to hurt you. We only want to help you. We're going to cure you. And free you of the curse.**

I punched him in the face.

Me: **Lets knock him down! Combo and Final Smash time!**

G1 Sideswipe: Roger that! CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and it enhanced his flare blasters and they can now fire flares that can be seen from 100 miles away.

Metamorpho: I've always wanted to try this. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Metamorpho's right arm and it enhanced his elemental powers 100 fold.

G1 Sideswipe and Metamorpho: MOONLIGHT FLARE BURN!

Metamorpho fired a powerful blast of purple fire and G1 Sideswipe fired a powerful flare and the blasts combined and turned into a powerful purple fire blast from the light of the moon. It hit Will and exploded and it knocked him down.

Jessie (Pokemon): Lets do this! Seviper! I choose you!

Jessie called out her Seviper!

Molly: Wow! So that's a Pokemon!

Jessie (Pokemon): It sure is. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Jessie's Right Arm device and it enhanced her Seviper's abilities.

Offroad: Time for action! CYBER KEY POWER!

The Earth Cyber Planet Key went into Offroad's back and it enhanced his SMG blaster 100-fold.

Jessie (Pokemon): Use Venoshock!

Offroad and Jessie (Pokemon): VENOM LASER BLAST!

Offroad fired his SMG blaster and Seviper fired a massive blast of purple poison lightning and the blasts combined and hit Will and knocked him down.

Me: **Lets use our Final Smashes Grady!**

Grady: **You got it! I'll go first! CRESCENT MOON SCYTHESTORM!**

Grady swung his arms and fired yellow blades of energy made of moonlight. They slashed Will and knocked him down.

Me: **My turn! FULL MOON WAVESTORM!**

I fired a massive blast of blue moonlight energy and it slammed into Will and it exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Will was knocked out.

Me: **Now to cure you of the curse of the werewolf for good Will.**

I chanted a powerful moonlight magic spell and removed the curse of the werewolf on Will and he was back to normal.

Will was disoriented and he was naked.

Maria covered him with a robe.

Will: What? What happened?

Me: **You've been cured.**

Will: AAAAHHH!

Grady: **Will! Wait! It's J.D. Knudson. But he's known as J.D. the Nocturnal in his werewolf form.**

Me: **That's right. And I cured Grady and he's now Grady the Nocturnal.**

Will: Awesome! You're the famous J.D. Knudson of Team Loud Phoenix Storm.

Me: **And I'm also the famous werewolf hero J.D. the Nocturnal.**

I reverted back to normal and Grady did the same.

Me: You have been through a horrible ordeal and we cured you of the curse.

Will: I'm forever grateful to you J.D.

Me: You're welcome Will.

We cured Will and went back home. Grady and his family moved to Gotham Royal York.

Me: (To the viewers) Whether it is in the night or in the day, crime never sleeps. But we will always be there to stop crime.

THE END

---

Another Fanfiction and another Goosebumps Monster bites the dust.

The Werewolf of Fever Swamp was a really awesome and scary one. Werewolves are really scary. I wanted to do this one on July 16th, 2019 because a Full Moon is later tonight. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# The Mad Inventor

At the estate we were watching TV and reading books and playing card games.

Me: So far things have been quiet.

Megan: They sure have.

Rhinox: Cornelia, you know how the second Horn of Hypnos incident happened at the same time that Metallo attacked?

Cornelia: Of course. Why?

Rhinox: Well, did you ever call Megan back when you, Will, Taranee, and Hay Lin got freed?

Cornelia: I had a massive headache and I was so dizzy that I couldn't stand up.

---

Cornelia: (Narrating) After we were freed we were too dizzy and had headaches the size of Alaska to even think straight.

Cornelia: Oh my aching head.

Taranee: Your head? Mine hurts even more.

Hay Lin: (Dizzily) Hey there pretty boy. You up for a night on the town in a dirty style?

Hay Lin falls to the ground dizzy.

Will: What hit me? I feel like I was run over by a steamroller.

Cornelia: We went to bed afterwards and I called Megan back.

FLASHBACK ENDS

Cornelia: Our heads were spinning fast.

Megan: I remember that. You told me about what happened during that time.

FLASHBACK 2

The flashback takes place after the events of the Metallo chapter and before we cured Sydney and her friends in the Underground City. That's when her phone rang.

Megan: Hello?

Cornelia: Hey Megan.

Megan: Cornelia, I was worried.

Cornelia: There's a reason for why I haven't called and I'm sorry about that.

Megan: It's all right. What happened?

Cornelia revealed everything that happened and Megan was shocked.

Megan: Whoa! That's awful! I'm glad you're all right and Irma was able to snap you guys out of it.

Cornelia: She's our hero. She saved us from doing stuff that we would regret.

Megan: I'm glad.

FLASHBACK 2 ENDS

Megan: And I'm glad everyone is all right.

Me: Me too.

Nico: Hey guys.

Me: Hey Nico. How was the park?

Nico: It was great. I caught an Emboar and a Samurott.

Me: Nice catch dude.

Nico: And I discovered that I have the ability to do this.

Nico formed a fire in his hand and molded it and turned it into a fire woman.

Me: Whoa! You have Chernabog's fire powers!

Nico: I sure do.

Nico and May danced with the fire woman. They danced to the Dance of the Hours and it was a magnificent performance. When it was done we cheered.

Me: Bravo!

Jessie B.: Awesome performance!

Laney: Great job guys!

May: That was so much fun!

Syd: It sure was. I love to dance and it's amazing!

Me: It sure is Syd. That was cool. But what really has me concerned is that Mandy and her cronies are still out there. And I have a very strong feeling that they are planning something. Something big and we have to know what.

Britney Crosby: I'm telling you guys. This isn't a problem. Mandy and her cronies would never hurt anyone. Not when they're on the run.

Demona (sarcastically): Of course, Britney. There's no way they can cause trouble despite them finding ways to do so in the past.

Riku: Demona's right. All they have to do is find a villain that's still active.

Matt Daniels: And then they'll end up joining said villain due to their hatred of us.

Britney Crosby: But the bad guys would never have an interest in the three of them. And the minute a civilian finds them, they'll report it. Trust me. We'll have them caught in no time.

Me: It's not that simple guys. I have a feeling something is coming.

The doorbell rang.

Me: I'll get that.

I went to the door and at the door were the parents of Sam, Clover and Alex - Gabriella Simpson, Stella Newton and Carmen Ramirez.

Gabriella: J.D. Knudson, it's an honor to meet you.

Me: Are you Sam, Clover and Alex's mothers?

Stella (TS): We certainly are J.D. I'm Stella Newton, Clover's mom.

Carmen (TS): I'm Carmen Ramirez, Alex's mom.

Gabriella: And I'm Gabriella Simpson, Sam's mom.

Me: Pleasure to meet all three of you. Now I see where all three of your daughters got their looks. They got them from all three of you.

Stella (TS): (Laughs) Our daughters do look like us huh?

Me: They sure do. They are like their moms reborn. Come on in.

They came in. Gabriella, Stella and Carmen told us what has been happening.

Gabriella (Totally Spies): Are Sam, Clover, and Alex with you guys?

Zuko: Sorry. They aren't. Why?

Carmen (Totally Spies): Because they never came back to our homes last night.

Me: That's odd. It's like they just vanished into thin air. Let me see here.

Suddenly the coffee table went down and a huge vacuum sucked us in and we were on our way to W.O.O.H.P.

Me: Here we go guys!

Stacy: WHEEEE!

Lana: I NEVER GET TIRED OF THIS!

Carmen (TS): WHAT A BAD TIME TO GET WOOHPED!

We hit a mattress and we landed in Jerry's office.

Jerry: Good day Team Loud Phoenix Storm.

Me: Hello Jerry.

Laney: Hey Jerry.

Jerry: I'm afraid we have an urgent situation. Sam, Clover and Alex have been kidnapped.

We gasped.

Lucy: Who would do such a thing?

Jerry: This is the man.

We saw a picture of a villain called THE INVENTOR!

The Inventor appeared in the episode "Totally Busted". He was a mad scientist who created the SUDS to turn regular people into spy-ssassins, who would then assassinate spies across the world. He also invented several other weapons, which were also created to execute spies.

Me: Who is that guy?

Jerry: He's called The Inventor. He invented a a deadly chemical weapon called S.U.D.S.

Laney: S.U.D.S.?

Jerry: It stands for Simple minded Users Destroy Spies. It's a very dangerous chemical substance that controls the user and turns them into deadly weapons called Spy-Sassins.

We gasped.

Me: That motherfucker! Just what the universe needs. Another fucked up mad scientist running amok.

Jerry: And that's not the worst of it. It appears he has Mandy, Caitlin and Dominique under his employ.

We gasped.

Me: Those three bitches!

Tarantulus: Nice going, Britney. Because you let Caitlin and Dmonique go, they were able to hook up with Mandy and the Inventor. And now they've kidnapped Sam, Clover, and Alex.

Britney Crosby: Oh, come on! If anything, we should blame Riku. He was there as well.

Riku: Oh no! Don't turn this around on me. Demona was with us when Caitlin and Demonique flew the coop.

Demona: Me? I'll have you two know that you two are both equally to blame!

Matt Daniels: The biggest mistake I made was not making sure you guys dealt with the two of them properly!

Me: All right you guys! That's enough! We have more important things to do than fighting amongst ourselves.

Tarantulus: You're right. Sorry guys.

Britney Crosby: Yeah. Sorry.

Demona: Sorry.

Riku: Sorry.

Matt Daniels: Sorry.

Me: We'll gladly take the case Jerry. And we're gonna kill this guy.

Jerry: Very good. Good luck to all of you.

Stella (TS): Nobody uses our daughters as weapons and gets away with it!

Gabriella: We're gonna mount this guys head on a pike for this!

Carmen (Totally Spies): Lets get him!

Me: Lets roll!

We set out for the Inventor's Hideout.

---

At a local warehouse on the Lake Huron Wharf, the Inventor had Mandy, Caitlin and Dominique with them and Sam, Clover and Alex were being forced to work for him against their will.

Suddenly a massive fiery explosion bursted into the warehouse and a phoenix cry was heard. We landed and we saw Mandy, Caitlin and Dominque.

Me: We found you Mandy and now you and your cronies are going to prison.

Maria (to Mandy): Just when I thought you couldn't sink any lower.

Mandy: You all ruined everything for me! I lost everything because of you!

Mandy revealed what happened shortly after she was expelled. Her parents were infuriated when they saw Mandy's true colors and they realized that they have created a sociopathic monster with a major superiority complex. They saw that she is a monster that thinks she is far better than everyone else because she has more money and popularity than anyone else and that she can get away with anything because she's rich. She was a teenage version of Princess

Morbucks. Because of this, her parents disowned her and threw her out onto the streets with little money. Mandy had no more money and was forced to live on the streets. For 1 week she lived in extreme poverty. Begging and eating little food. Her parents blamed themselves for creating a monster. Mandy blamed all of her misfortune on one person. Or three persons to be exact: SAM SIMPSON, CLOVER NEWTON AND ALEX RAMIREZ! Mandy blamed everything she went through on them and her plan was to get revenge on them by forcing herself into slavery for the Inventor. Mandy found Caitlin and Dominique and recruited them for this evil plan.

Lori: You literally disgust me Mandy!

Nico: Mandy, Caitlin and Dominique you have failed this world!

?: And that is not the only thing you all will fail.

Out of the shadows came THE INVENTOR!

Me: The Inventor, I presume?

Inventor: That's right.

Me: You're gonna pay for everything you've done.

Sam walked up to Lincoln.

Lincoln: Sam? What are you doing?

Sam Simpson (trying to fight the Spy-sassin influence): Lincoln… I'm sorry!

The spies were attacking Lincoln, Lori and Luna. But they dodged all their attacks.

William: Why are they attacking us?

Gabriella Simpson: Because they've turned into Spysassins. Me, Stella, and Carmen have seen this before. The Inventor has them under his control.

Maria: The way to get Sam, Clover, and Alex back to normal is to get rid of the Inventor.

Stella (Totally Spies): Or get them away from the Inventor.

Me: You work with W.O.O.H.P. don't you?

Stella (TS): We sure do.

Me: Like mother like daughter.

Mandy: Face it, losers. You'll never beat us!

Dominique: Yeah! You're the good guys!

Caitlin: And you don't have the guts to finish off people like us!

Maria: You're right. We won't kill you three. But we will put you in a position where you can't harm anyone else!

Lincoln jumped away and fired a massive blast of lightning and it hit Mandy, Caitlin, Dominique, Sam, Clover and Alex and fried the Spy-Sassin formula inside them and destroyed it with 100,000,000,000 volts of electricity. Freeing them.

Me: That did it.

The Inventor was trying to get away. I used my super speed and caught up to him and stood in his way.

Me: Running away? I guess you are nothing but a coward.

I punched him in the face and kicked him in the stomach and jumped and dealt him a deadly haymaker and a powerful roundhouse kick to his face and knock out some of his teeth.

Mandy got up and she was twitching from electrical shock.

Mandy: (Groans)

Gabriella walked up to her and Mandy had a nervous smile.

Gabriella: NOT MY DAUGHTER YOU BITCH!

Gabriella punched Mandy in the face and gave her a nasty black eye and it knocked her out!

Stella (TS): YOU'RE TERMINATED MOTHERFUCKER!

Stella punched Caitlin in the face and knocked out some of her teeth and knocked her out.

Carmen (TS): GIVE MY REGARDS TO KING TUT YOU ASSHOLE!

Carmen punched Dominique in the face and knocked her out after giving her a massive black eye. Mandy and her cronies were tied up.

I punched the Inventor in the face and kicked him in the crotch.

Me: It's over Inventor.

Inventor: I'm not finished yet!

He pressed a button on his arm on a device and suddenly a huge robot appeared and he went into it. It was as big as a Voltron Lion and it destroyed the warehouse.

Me: Impressive. You've come prepared. But so have I.

I snapped my fingers and I turned giant as well. I was about the same size and a force field formed over the city to protect it.

Me: Lets dance fuckhead.

I block a punch he threw.

Edzilla (punches Inventor's robot): ED SMASH STUPID HAIRED SCIENTIST!

Inventor: Hey! Don't diss the hair!

Me: We're about to do more than that!

I punched the robot in the face and I picked it up with ease.

I slammed it onto the ground with devastating force.

CRRRRAAAAAAAASSSSSSSSHHHHH!

I grab the robot and threw him into the air.

Tarantulus: Lets use our combos on him! Tarantulus TERRORIZE!

Tarantulus transformed.

Tarantulus: CYBER KEY POWER!

The Animatron Cyber Planet Key went into Tarantulus's back and it enhanced his spider leg machine guns and weapons 100-fold.

Zuko: I've had enough of this guy! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his Firebending 100-fold.

Tarantulas and Zuko: FIRESTORM INFERNO SPIDER STRIKE!

Zuko fired a massive blast of fire and Tarantulas fired his blaster and the blasts combined and turned into a massive fire spider and it slammed into the giant robot and exploded with incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Rhinox: Time for some heavy firepower. Rhinox MAXIMIZE!

Rhinox transformed.

Rhinox: CYBER KEY POWER!

The Animatron Cyber Planet Key went into Rhinox's back and it enhanced his machine guns 100-fold and the bullets from his machine guns can now exploded with the power of C4.

Matt Daniels: I've always wanted to see what this was like. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Water Powers 100-fold and it gave him the ability to shape the water into any animal he desires.

Rhinox and Matt Daniels: MAELSTROM RHINOCEROS CHARGE!

Matt Daniels fired a massive blast of water and Rhinox fired his machine guns and the water turned into a massive charging rhino. It rammed into the Robot and the bullets and the rhino exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Hulk: Hulk Smash!

Superman: Lets hit him with our combo!

Edzilla: (Roar)

They had their fists charge up.

Hulk, Superman and Edzilla: TRIPLE DEVASTATOR PUNCH!

They punched the robot and smashed it in half and blew its legs apart with devastating force.

Me: Final smash time!

Tarantulus: You got it! BLACK SPIDER VENOMFIRE!

Tarantulus fired a massive blast of black fire at the robot and it hit it and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Lincoln: This is for Sam, Clover and Alex you bastard! SATURN LIGHTNING SUPERSTRIKE!

Lincoln fired a massive blast of super powerful lightning and it slammed into the robot and it exploded with incredible power!

Lincoln: Lets finish him with a combo final smash!

Me: Go get him buddy!

Sam (TS): Lets get him mom!

Gabriella: With pleasure.

Lincoln had a massive ball of lightning ready and Sam, Clover, Alex, Gabriella, Stella and Carmen fired beams of Fire, Water, Earth, Wind, Light and Darkness into it.

Lincoln, The Spies and their mothers: ELEMENTAL MASS STRIKE BURST!

They fired the blast and it slammed into the robot and the whole robot exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Robot was completely destroyed and The Inventor was on the ground.

I then took an oxygen tank and shoved it all the way through his stomach and out his back. I pulled out my flare gun.

Me: Some motherfuckers are always trying to ice-skate uphill.

I fired the flare gun and it went through the oxygen tank and it caused it to exploded into a massive fireball and blew the Inventor into a million flaming pieces and killed him instantly.

The Inventor was dead.

Me: Burn in hell.

Nico: Inventor, you have failed this universe.

Sam, Clover and Alex walked up to Lincoln.

Sam (TS): (blushes) Lincoln, me, Clover, and Alex have something we want to tell you.

Lincoln: What is it?

Sam (TS): We've been wanting to tell you that me, Clover and Alex love you. Ever since you saved us from quicksand over in Colombia, we've been wanting to tell you that we love you. You are the bravest boy we have ever met and you are also the strongest and most giving boy ever.

Lincoln smiled and he made 2 Shadow Clones and they went up to Sam, Clover and Alex and they each kissed.

Everyone: Aaaawwwww.

Me: (Sniffs) That was beautiful.

Laney: I'm so happy for them.

Lola: Me too Laney.

Lana: That's our brother.

Earth: I'm proud of him.

Lilly: Me too.

Ronnie Anne: That's our favorite lame-o.

Me: We're not done yet. We still have one loose end to tie up.

And that loose end was bringing Mandy and her cronies to trial for their crimes.

---

(The Peoples Court theme plays)

In the Michigan State Federal Courthouse, Mandy, Caitlin and Dominique were brought to trial in the Federal Court System for their crimes. They were tried together.

Bayliff: Calling courtroom to order in the case of People of the United States VS Mandy, Caitlin and Dominque. Honorable Judge Katie N. Rockell Presiding.

We were surprised to see Maria and Carmen's mom now a Judge for the Federal Court System.

Judge Katie: You may be seated.

Carmen: Wow mom, I didn't know you were now a judge for the Federal Court System.

Judge Katie: Surprising huh Carmen?

We laughed.

Me: Sorry your honor. But we were surprised.

Judge Katie: That's all right J.D. In my spare time, I'm a judge for the Federal System. Anyway, has the jury reached a verdict?

Juror 1: We have your honor. In Case number 3231384648J, we the jury in the above entitled case find the defendants Mandy Josephine Tuckett, Caitlin Fiona Salazar and Dominique Maureen Holhauser Guilty of all charges.

Clover: YES!

Judge Katie: (Laughs) I know Clover. Mandy, Caitlin and Dominique, As punishment for your horrible actions to the entire city of Michigan as well as the entirety of the United States in General, it is the judgement of this court that you 3 are hereby sentenced to 40 consecutive terms of Life in Prison without the possibility of Parole plus a total of 6,726 years in the Neptune Prison for Traitors. And in addition you will pay Samantha Simpson, Clover Newton and Alexandra Ramirez damage restitution in the amount of $198,826,634,826,846,547,375,265.00. Court is adjourned! (Bangs Gaval) Take them away.

Mandy: NO!

Caitlin: YOU WILL PAY FOR THIS J.D.!

Dominique: YOU RUINED EVERYTHING FOR US!

Me: You brought all this on yourselves.

Lincoln: You will never be welcome on Earth ever again!

They were taken away.

BURN IN HELL MANDY, CAITLIN AND DOMINIQUE. CASE CLOSED!

---

Sam, Clover and Alex have their own mansion connected to ours and it is a lavish and extremely luxurious castle. Gabriella, Stella and Carmen live with them.

Lincoln: (To the viewers) Never mess with the friends of Team Loud Phoenix Storm, or there will be hell to pay. Not just in blood but in lives.

Me: You said it buddy. I'm proud of you.

Lincoln: Thanks J.D.

We high five.

---

In the Neptune Prison for Traitors, 2.7 billion miles away from home, Mandy, Caitlin and Dominique were now completely miserable in their new prison cell in the Solitary Confinement district.

Mandy: I HATE TEAM LOUD PHOENIX STORM! I WILL KILL THEM ALL FOR THIS NEXT TIME!

Caitlin: There won't be a next time! We're stuck in here till the day we die!

Dominique: We'll never see our families and our planet again because of you!

Mandy: ME!? What did I do!?

Caitlin: If you hadn't been such a spoiled little brat, we wouldn't have wound up in here in the first place!

Dominique: This is all your fault Mandy!

Mandy: Oh you want to go at it!?

They got into a massive fight cloud. It was gonna be a long time for them to realize the error of their ways.

THE END

---

Another Fanfiction Complete and another Totally Spies Villain is dead.

The Inventor from the 3 part episode Totally Busted was a bad man. And he was pure evil. Now that Mandy and her Cronies are in prison forever we will never see them again! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# An Adorable Kingdom

In the Living Room at the Estate we were watching one of Bart Simpson's favorite action movie series: McBain. With us was the star of the series Rainier Wolfcastle. We saw Rainier Wolfcastle bust out of an ice sculpture in the shape of the Venus De Milo statue. Awesome entrance!

Rainier: (Arnold Schwarzenegger Accent) They actually used computer graphics to make it look like I did that.

Nico: That is so cool!

Greta: That's my daddy for you.

We saw Rainier bust out of a map board and he shot all the bad guys. He threw the main bad guy out a window and he crashed onto a fuel tanker and it exploded into a massive fireball.

Nico: YEAH! Senator Mendoza, you have failed this world!

Rainier: (Laughs) That he has Nico. That he has. So? What did you think of my movies?

Nico: Your movies are awesome Mr. Wolfcastle!

Manaphy: I want to use a gun just like in the movie!

Horsea: Me too!

Rainier: (Laughs) I'm glad you all look up to me.

Me: I think I can arrange that.

I brought out 4 guns. 2 of them were 50 caliber pistols and two 9 millimeter automatic pistols.

Maria: We'll kick some serious butt with these.

May: Never underestimates the power of a good gun. (Does a

Femme Fatale Pose)

Rainier: FYI, my combat skills are not just shown in movies.

Renamon (to Wolfcastle): When did you realize that Springfield was corrupt?

Rainier: Two weeks before everyone declared war on it. I got myself and my daughter out of the town before it was destroyed.

Me: Good thinking Rainier.

---

Later we were watching Lola, Lana, Lila, Lily and Lucy's favorite show Unikitty!

Laney: Unikitty is so adorable!

Lana: She sure is. I also noticed that her brother Puppycorn sounds just like me.

Lucy: That is very coincidental.

Me: Unikitty is so cute and her brother is funny. But I absolutely hate that guy Master Frown.

Lola: I know! He always ruins everything!

Lana: He's the worst!

Lila: I would never want him around!

Lucy: I would wish death upon him.

Nico: I know he's bad guys but we don't want to kill him. Lets mangle him up and warn him that if he ever causes trouble again, that we will destroy him.

Me: I like how you think Nico. But instead lets keep him alive as a comic relief.

Nico: Good idea.

Me: Richard just doesn't show any emotion at all. It's like he hasn't had one day of fun in his life. Poor guy. He needs to be shown that emotions are a good thing.

Lisa: I like that Dr. Fox. She's a brilliant scientist like me and she is amazingly gifted.

Lynn: I like Hawkodile. He has an awesome kick butt attitude.

Me: He sure does. I like those funny parts of this show where Unikitty gets angry.

Lana: Those parts are funny.

Lola: They sure are.

Me: Oh yeah! Shall we head to the world of Unikitty?

Nico: Lets do it and I caught a Watchog and a Stoutland earlier.

Me: Awesome job Nico.

---

We went to the Simulator and we were gonna visit the world of Unikitty. The Simulator Activated and we were in the world of Unikitty and it was an adorable kingdom!

Me: Wow! Unikitty's Kingdom is just as breathtaking as it is in the show!

Lana & Lola: (SQUEALS) OH MY GOSH! We're actually in the world of Unikitty!

Lucy: I'm so excited I could die.

Laney: Everything is so pretty and so cute!

Me: Not only that but this is the first time we've ever been here.

We walked around the village and we saw the beautiful Unikitty Castle!

Lola: This castle is everything we saw!

Lana: It's so cute!

We went to the castle and out came Princess Unikitty and Prince Puppycorn!

Unikitty: Hi!

Me: Unikitty!

Puppycorn: WOW! The legendary Team Loud Phoenix Storm! I love you guys!

Lana: (Hugs and pets Puppycorn) Aw you are so cute Puppycorn!

Maria: (squeals) Oh my gosh! (hugs Unikitty) She's so cute!

Unikitty: I know I'm cute Maria.

Laney: We love watching your show and you all are awesome!

Unikitty: You think I'm awesome? You should meet my friends Emmet and Wyldstyle.

Me: They are just as awesome!

Richard came and he was in his stoic glory.

Richard: (Emotionlessly) Welcome to the Unikitty Kingdom, Team Loud Phoenix Storm.

Me: Thank you Richard. It's a pleasure to be here.

Dr. Fox and Hawkodile came.

Lisa: Dr. Fox! It's such an honor to meet you!

Dr. Fox: Same to you Lisa Loud. We heard so much about all of your deeds on Earth.

Lynn: I love how you kick butt Hawkodile!

Hawkodile: Thanks Lynn. You're fighting style is amazing on it's own accord.

Me: Everyone watches your show all the time on Earth.

Lana: That's right. We love watching Unikitty and it's an awesome show.

Lola: You all are the cutest show ever!

Lana: And you know what that means?

Lola & Lana: CUTENESS OVERLOAD!

They were overloaded with so much cuteness that they flew up into the sky and put on an awesome and dazzling fireworks display.

We laughed at how Lana & Lola were reacting. It was so cute and so adorable. We talked to Richard and showed him that emotions are always important and they show what you're feeling and that no one should ever be deprived of emotions.

Richard: Huh. You're right about that. I can't believe how boring I was. Thank you for helping me realize that.

Me: You're welcome Richard.

Richard: You can call me Rick.

Me: I'm glad we can help you Rick. And if you ever need any help with chores you let us know.

Richard: Thanks J.D. I greatly appreciate that.

?: I think it's disgusting!

We turned and we saw MASTER FROWN!

Not much is known about Master Frown's life prior to the series; what is known, however, was that he was born into negativity, and grew to despise everything happy. As such, he serves as a formidable foe for Princess Unikitty.

Master Frown is the antithesis of Unikitty; while Princess Unikitty strives towards staying positive, Master Frown revels in the suffering of others, sometimes taking it upon himself to ensure that everyone is just as unhappy as himself. However, his sense of unhappiness is simplistic such as drinking someone's glass of milk among other mundane acts. As such, he can be seen as a minor annoyance more often than not. Master Frown hails from the Unikingdom's neighboring Frowntown, in which he lives with a roommate named Brock. It's not too uncommon for the two to engage in minor quarrels.

In the episode "No Day Like Snow Day," Master Frown realizes that it was Snow Day. Rather than stay inside as recommended by Brock, Master Frown goes to gleefully watch the residents slip on the ice and hurt themselves. Upon hearing that a blizzard was due to hit the Unikingdom, Master Frown giddily goes there, anticipating the misery of the civilians. However, when he discovers that Unikitty and her friends were enjoying the Snow Day, Master Frown vows to ruin it. Unfortunately for him, Master Frown gets trapped in a snowman, making Puppycorn and the others assume that the snowman that he made was alive. They proceed to engage in snowball fights with the snowman among other winter activities. Eventually, Unikitty makes Puppycorn realize that since his snowman would melt, they put the snowman on an ice floe, which would take it to the North Pole. Master Frown's screams of anguish are mistaken for promises that he would return every year. The episode ends with Hawkodile and Richard revealing that they knew that Master Frown was in the snowman the entire time.

Me: Master Frown. Just the little blockhead we're looking for.

Master Frown: Who are you calling a blockhead you jerk!?

He went at me and tried to mercilessly punch all over the place. But I dodged all his attacks with incredible ease.

Tracks (to Master Frown): Your fighting skills are impressive, I'll give you that. But you lack finesse!

Master Frown: I'll show you finesse!

He went at Tracks and he punched him in the leg and his hand got smashed in by the impact of the punch.

Cutthroat (to Master Frown): Did your parents not give you much love as a kid?

Master Frown: SHUT UP!

He went at us again and we were wearing him down.

Me: You are really pathetic Frown and you have no love for anyone other than yourself.

I punched him in the face and give him a massive black eye!

Me: Lets show him what happens when you mess with Team Loud Phoenix Storm.

Nico: Lets.

We went at Master Frown and really pulverized him all over the place. I punched him in the face and Nico leg swept him and Ed slammed him into the ground.

Me: Combo Time!

Rika: You got it! Walk all over him Renamon!

Renamon: I'm on it Rika! (ECHOING) DIAMOND STORM!

Renamon sent out a massive shower of energy diamonds.

Tracks: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Incendiary Missiles 100-fold.

Renamon and Tracks: FIRESTORM DIAMOND BARRAGE!

Tracks fired a huge number of Incendiary missiles and the the energy diamonds and missiles all hit him at once and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOMMMM!

Flash Man: Lets get him! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Time Stopper 100-fold.

Cutthroat: It's my turn! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his Magnetizer and creature powers 100-fold.

Cutthroat and Flash Man: SUPER TIME MAGNETIZER!

Cutthroat fired his supercharged magnetizer and Flash Man fired his Time Stopper and the blasts combined and they slammed into Frown and stopped him in place.

Me: Lets show him what our Final Smashes can do.

Nico: You got it buddy! SAIYAN PRIDE BLAST!

Nico fired a powerful energy blast and it hit Frown and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Unikitty: I've always wanted to try this out! RAINBOW HORN BURST!

Unikitty fired a massive rainbow blast from her horn that was filled with joy and it slammed into Frown and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We walked up to him as Frown was weak, mangled up and burned.

Nico (to Master Frown): Because we're feeling generous, we're letting you off with a warning. And besides, it would be much fun to have you as a recurring villain alongside Blast Ketchup.

Me: It sure would be. Beside, we need some comic relief.

Nico: (To the viewers) If you mess with an adorable friend Like Unikitty, we're gonna come after you.

Unikitty: You said it Nico.

Master Frown limped off and he was heading home. But he was gonna be back.

We had the Unikitty Kingdom moved to Gotham Royal York and placed under our protection. It was gonna be so awesome having Unikitty and friends with us and if Master Frown and the Doom Lords come, we'll be ready for them and they will learn a lesson we give them painfully!

THE END

---

Another Fanfiction and an awesome show for the universe done.

Unikitty is a funny show on Cartoon Network! I think it's so cute and really funny! Tara Strong and Grey Griffin are doing a great job in it. But Master Frown is a jerk to the 20th power! The reason is well… I just don't like him. Everyone else, yes. Richard is a totally emotionless guy and I think it's sad that he never expresses any emotion at all. Poor guy. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. We'll open a big time can of Whoop-Ass on them!

See you all next time.

Unikitty is owned by Lego, Warner Bros. and Cartoon Network.

# Being Robin Hood

In the Living Room, we were reading books and playing card games. The reason is because our TV is on the fritz.

Me: This stinks. The TV is broken because a wire snapped. But I can always go buy one later.

Lola: That's true.

Richard: J.D. I can't thank you enough for helping me realize that emotions are a part of who everyone is and I was so boring while being emotionless.

Me: No problem Richard. We always have to have emotions because that's what makes everyone what they are.

Lincoln: No kidding.

Lucy: I may enjoy the darkness, but I would never be that boring.

Laney: Me neither.

Me: I'm sorry the TV broke guys. But hey, I can always get another one.

Lori: That's true.

Then we heard crying.

Me: Uh oh.

We went to see and we saw Tifa sitting on her bed and she was holding a picture of her and a young boy with brown hair. She was crying hard.

Me: Tifa? Are you okay?

We went over.

Tifa: (Crying) I miss him. This is a picture of me and my son Chris.

Molly Molloy: I didn't know you had a son, Tifa.

Tifa: (Crying) He's not my son by blood. I adopted him as my own son!

Me: May I take a look?

I saw the picture and it was a kid with a red and white shirt and he had red hair, blue shorts and he was full of energy.

Me: He sure looks like an awesome kid.

Sonic came in.

Sonic: Hey guys what's the matter?

Me: Tifa's upset because she misses her son Chris.

Sonic: Let me see.

Sonic looked at the picture and he recognized Chris.

Sonic: I know him. That's Christopher Thorndyke.

Me: How do you know him Sonic?

Sonic: He helped us in numerous battles against Dr. Robuttnik.

---

Chris grew up with his grandfather Chuck Thorndyke, his bodyguard and butler Mr. Tanaka, and his housemaid Ella. He lives in a large, luxurious mansion due to his parents' success in their individual fields of work. Chris' father Nelson Thorndyke is a big-wig businessman who is the president of a software company, while Chris' mother Lindsey Thorndyke is a movie star. As a child, Chris rarely saw his parents given how they decided to focus more on their careers to give Chris the best things possible. This made Chris become very lonely and he found his luxurious mansion to be pretty boring. At some point, Chris made friends with Danny, Frances, and

Helen, who were his classmates, but his relationship with them was not enough to mend his loneliness.

One late night, Chris was awoken by the sound of a splash outside of his mansion. Thinking it came from the swimming pool, Chris rushed out of the mansion to investigate, discovering that Sonic the Hedgehog landed in the pool. Without a second thought, Chris dove in to the pool to rescue Sonic from drowning. The next morning, Chris was on the phone with his parents, having admitted his actions last night. Eventually, he heard that Sonic's friends Cream and Cheese were captured by the military and held hostage at Area 99. Chris and his grandfather Chuck aided Sonic as he infiltrated the facility to rescue Cream and Cheese. After rescuing them, Chris also met Tails.

When Chris discovered that Sonic was missing, he informed his friends about this and set out with Tails and Chuck to look for Sonic. When they were unsuccessful in doing so, Chris then heard the news of Dr. Eggman attacking Station Square with his E-23 Missile Wrist, announcing his plans for taking over the world. Tails and Chris set out on the Tornado 2 in an attempt to stop Eggman. They attempted to attack Missile Wrist, but were useless against it as Missile Wrist fought back. When all hope seemed to be lost, Sonic finally arrived and defeated Missile Wrist, while Tails and Chris escorted Sonic, Amy and Knuckles back to Chris' home (though the latter leaves).

Some time later, Chris learned how Sonic and his friends were sent to Earth by a Chaos Control phenomenon caused by the seven Chaos Emeralds, making Chris figure they could get Sonic and his friends home if they got the Emeralds together again. Later, Chris got a new homeroom teacher at school named Mister Stewart, who was actually an undercover G.U.N. agent sent to observe Chris for anything that could prove useful against Eggman. As Sonic and his friends went to get a Chaos Emerald that had just appeared though, Chris followed them. However, right before Eggman could get the Emerald, Chris picked it up first, but Eggman quickly snatched it away. Refusing to let him take it, Chris climbed onto Eggman's Egg Mobile to retrieve it, and after some struggling, Eggman threw Chris off the Egg Mobile, only to discover Chris took the Chaos Emerald with him. Fortunately, Sonic managed to save Chris, securing the first of the Chaos Emeralds.

When signs of a Chaos Emerald having surfaced in Silver Valley appeared, Chris went to investigate with Tails and Amy. After arriving however, Chris and co. discovered it was a trap laid by Eggman, who captured them in E-47 Pumpty while he lured Sonic and Knuckles into fighting one another. However, Chris and co. managed to escape E-47, and when Sonic and Knuckles joined forces, they managed to defeat Eggman together.

Afterwards, Chris learned that his parents were taking a break from their work to visit him back home. However, on the day of their arrival, Chris found his class interrupted as Mister Stewart was abruptly thrown out by Eggman's E-51 Intelligente, who took over the class, and quickly gained the respect and support of the kids. However, when Eggman arrived to discover E-51 having apparently gone AWOL on him, he threatened E-51 into swearing his loyalty to the Eggman Empire again. When Chris then tried to leave for home, E-51 kept him from leaving and forced the class to paint portraits of Eggman. Thankfully, Sonic arrived after wondering about Chris being late and destroyed E-51, leaving Eggman to depart in defeat again. Sonic then reminded Chris that he needed to get home, and Chris arrived in time to see his parents again.

The next day, Lindsey was helping prepare a dinner for her and Chris. However, she soon had to return to work, leaving her upset at thinking she was a bad mother for leaving Chris like this without saying goodbye first. When Chris discovered this, he began to think ill of his mother, causing Cream, who had been pretending to be a stuffed animal to fool Ella, Mister Stewart, and Sam, to break her ruse and yell at Chris in fury for thinking bad of his mother after she overheard Lindsey earlier, before running out in a huff. Later though, Chris was able to make amends with Cream for what happened.

When Eggman began sucking up satellites with his E-90 Super Sweeper, Sonic and Tails proved unable to reach orbit to face it in the Tornado 2. Tails and Chuck thus made the X Tornado, allowing Chris to join Tails and Sonic as they went into space to deal with E-90. When Sonic was frozen solid on the outside of the X Tornado's fuselage due to the freezing temperatures of the altitude they were at, Chris uses one of the cables in the cockpit to provide a means to thaw Sonic out using Ring energy, allowing him to destroy E-90.

Chris soon after had to attend the opening of Hotel de Blanc at Emerald Coast on behalf of his parents, providing Sonic and the others a chance for a vacation at the Thorndyke Family's bungalow. However, Eggman soon arrived to destroy the hotel and make room for his new amusement park, with Chris caught in the middle, leading to another battle in which Sonic and Amy were able to defeat him.

Later, Chris arrived at the soon-to-be-demolished Diamond Stadium when Tails located the turquoise Chaos Emerald that had been found by the stadium's groundskeeper, Albert Butler. When Eggman arrived with his baseball team of E-21 Ballios to challenge Sonic and his friends for it and the green Chaos Emerald, Chris took part in the game, but proved to be no match for the E-21s until a pep talk from Sonic encouraged him from striking out when up at bat again, allowing him to help Sonic and their team take the lead. In the end, Eggman cheated when he lost the lead, resulting in him escaping with the turquoise Chaos Emerald, but the game convinced the team manager to have the stadium's turf moved to the new stadium and keep Albert employed to maintain it.

While Chris was in class one day, a rumor came up that another Chaos Emerald had been found in an abandoned warehouse. Chris went to check it out with Sonic, Tails, and Danny, but were lured in the wrong direction by Rouge the Bat. By the time they discovered the mistake and checked out the warehouse, the trap set by G.U.N. had already caught Rouge, leaving Sonic, Chris, and the others befuddled by the false lead.

However, Chris soon set off with Frances, Tails, and Amy to Tingalin Villa to seek out the yellow Chaos Emerald there, only to be secretly followed by Mister Stewart, who had installed a tracking device in Chris' new goggles. However, during the search, Chris and the others were attacked by Eggman and his E-35 Funfun. Sonic soon arrived in time to save them, but Eggman quickly escaped with the yellow Chaos Emerald. Sonic, Chris, and the others followed him back to his headquarters, currently under attack by G.U.N. naval and air forces, where Sonic was able to break inside, defeat Eggman and his E-18 Guerra-Hard, and retrieve the turquoise and yellow Chaos Emeralds, while also allowing Rouge, Knuckles, and a G.U.N. commando team a chance to escape before the explosives they planted wiped out Eggman's headquarters.

As a result of Sonic's heroics, Chris and his household members were invited to meet the President at the White House. When Chris brought Sonic the news though, Sonic chose to stay in Station Square to fulfill a request for Chris' classmate, Helen. Chris thus went to the meeting with Chuck, Tails, Amy, Cream and Cheese. When Chris grew worried about Sonic though, he arrived in a commandeered G.U.N. helicopter with Helen, allowing Sonic to meet the President, before Chris and everyone shared a laugh when the President's aide, Jerome Wise, passed out upon discovering that the press he had at the party to take a picture of Sonic shaking hands with the President were fast asleep thanks to his earlier stall tactics until Sonic finally showed up.

Following the meeting with the President, Chris saw Sonic and his friends being granted passports, allowing them to travel in public and not be kept secret anymore. However, they had a hard time getting used to it when they noticed the strange looks they were given by the public on an outing to the mall with Chris and Ella. However, Eggman soon attacked Station Square in his new mobile base, the Egg Fort. Sonic arrived to confront him, and with help from Sam and Mister Tanaka, Chris was able to return home and retrieve the X Tornado to help Sonic against the Egg Fort, sending it plunging into the ocean. Later, Chris took Sonic and the others on a vacation to the Sapphire Sea, during which they explored a sunken ship, where they found the blue Chaos Emerald. Eggman soon attacked them with his E-57 Clurken, but Sonic was able to defeat E-57, allowing Chris and co. to escape with the Emerald.

During a dogfight with the Egg Fort, both it and the X Tornado were shot down over an African Savannah, resulting in Chris, Tails, and Sonic running afoul of a pair of crooked men who were planning to build a dam and destroy the Savannah in the process. However, thanks to Decoe and Bocoe fighting Sonic in the E-65 Gorru-Gaooh, the construction equipment got destroyed, while the criminals were arrested by the local authorities.

Chris soon brought Sonic, Tails, Amy, Cream and Cheese to the site of his mother's next movie that was being filmed. Later, after the director decided to call it quits after a take of Lindsey in the castle resulted in problems with the audio after two attempts, Chris paid his mom a visit to wish her goodnight. However, Lindsey got kidnapped by King Boom Boo and his fellow Booms, and Chris soon found himself struggling to rescue her alongside Ella, Sonic, Tails, Cream and Cheese, with Amy's help. After the two got tricked by King Boom Boo into freeing him with the Talisman, Amy got possessed by one of his minions and attacked Chris. Just when it looked like Chris was done for though, the possessed Amy showed fear when she saw he was in front of the Talisman, hesitating to attack him out of concern for the relic. Seizing the moment, Chris used the Talisman to free Sonic, who then exorcised Amy, before everyone else was released. The group then escaped King Boom Boo and Chris sealed him and his minions up again with the Talisman. However, Chris forgot to put the Talisman back on its pedestal the right way, meaning that King Boom Boo could still escape.

Chris later took Sonic and his friends on a trip to the glaciers on his family's cruise ship, but Sonic proved to be unable to relax due to being surrounded by water, paranoid with wanting to return to dry land. Mister Tanaka soon arrived with a helicopter full of senior citizens to help Sonic and his friends relax, but it was not until Eggman arrived to attack in his new Egg Fort II, and with support from a senior citizen offering him some advice, that Sonic finally managed to regain his focus. Also aided by an enraged Ella in the X Tornado, Sonic defeated the Egg Fort II.

One night, Chris was awoken from sleep by his uncle, Sam Speed, having arrived to challenge Sonic to a race in his new Rocket Car, which Sonic eventually conceded to. During the race, Chris and Tails arrived in the X Tornado to give Sonic lunch, but Chris was left covered in dust when Sam took off to retake the lead while Sonic was distracted. Chris later appeared at the finish line, where Sonic won by a huge margin.

Chris eventually came along with his friends and Sonic's crew on a trip to the homeland of Mister Tanaka, led by Mr. Stewart. After

Cheese got flushed down a river however, Chris helped his friends search for it. Eventually, the group discovered a small passage through which they entered a Chao colony. There, Chris and the others were warmly welcomed by its residents. After they found Cheese and played with the Chao, they decided to return to Mr. Stewart. However, Dr. Eggman and his E-66 Da-Dai-Oh soon appeared. When the robot tried to attack the group however, it slid down the mountainside. Although that neutralized the threat, the robot would muddle up the river feeding the Chao colony. Chris and the others thus tried cleaning the pond where the Chao lived until Chris came and did it for them. After that, Chris could enjoy the evening at a bonfire, learning that Tanaka knew about the Chao colony.

A short time later, Chris received a call from his father Nelson, asking him to come to Filmdom City. The reason was that Nelson wanted his family, Sonic, and his friends there as he was planning on surprising Lindsey for their wedding anniversary by appearing on the set of her latest movie to present her with a ring he got for their anniversary while in disguise as one of her co-stars. However, when he revealed the ring to Chris and co., it turned out to be the purple Chaos Emerald, which reacted violently to the one Sonic was carrying before being subdued. During the rehearsal for the scene Nelson would present the emerald to Lindsey in, he ended up ruining the whole plan and exposing the emerald again, causing it to react to both the ones Sonic and Knuckles were carrying, destroying much of the sound stage's equipment before Mister Tanaka subdued it. Lindsey was furious as a result, but before Chris' parents could get too deep in arguing, the set got crashed by the Egg Fort II, setting in motion events that left the purple Chaos Emerald in Eggman's possession, before E-74 Weazo attacked everyone. When E-74 threatened Chris, Lindsey, and Ella, Nelson protected them, but Sonic and Knuckles managed to lure E-74 away and destroy him, while Eggman escaped with the Emerald. Afterward, Chris and his mother were relieved that Nelson was alright, before cheering Tanaka up after the butler thought he had failed his duty to protect the Thorndykes. With all matters settled, Chris encouraged everyone to celebrate his parents' anniversary, which they did.

Later, Sonic found himself unable to stop running when a microchip from Eggman's E-88 Lightning Bird got stuck in his ear unnoticed. Chris and his friends made several attempts to stop Sonic with various traps, but they all failed. Thankfully, Sonic eventually got the microchip out himself.

With everyone looking for the last missing Chaos Emerald, Chris began feeling depressed, knowing that once they had all seven, Sonic and his new friends would leave him and head home. When Steward convinced Chris to think about his friends first though, the decision was made for Chris and Knuckles to meet with Eggman and call a truce so they could work together to get those among them home. After Eggman agreed and asked for the Chaos Emeralds to be brought to him for safekeeping, Chris took the four Sonic had, and the one Knuckles had, to the Egg Fort II. After dropping them off, Chris and Knuckles witnessed E-77 Lucky report that he had found the last Chaos Emerald. Seizing the moment, Eggman ejected Knuckles from the Egg Fort II and took Chris hostage, revealing to Chris that he planned to establish the Eggman Empire on Earth and had no interest in their truce. With that, he launched the Egg Fort II to go meet with Lucky.

Shackled to the back wall of the Egg Fort II's cockpit, Chris was left helpless as he watched Eggman deal with Sonic and G.U.N., only able to cheer Sonic on and taunt Eggman. However, when Eggman turned the Egg Fort II into the E-99 Eggsterminator, fueled by power from the six Chaos Emeralds he now possessed, Chris saw Sonic get beaten into a pulp by the Eggsterminator, struggling against his restraints and shouting Sonic's name in anguish. Finally, when the Eggsterminator drop-kicked an unconscious Sonic into the ocean, it became too much for Chris to bear. Breaking free of his restraints and grabbing the Emeralds, Chris was left in a heavily injured state. When Knuckles then broke into the cockpit to rescue Chris, Rouge carried him off in the confusion. However, Chris struggled in her arms, causing her to drop him and the Emeralds. Rouge was able to save him, but the Emeralds fell into the ocean. As the Eggsterminator then grabbed Rouge and Chris and attempted to crush them, however, Sonic was revived by the seven Chaos Emeralds, as Lucky had given him his earlier, transforming into Super Sonic. Tearing the Eggsterminator's fist holding Rouge and Chris to pieces, Super Sonic took down the rest of the

Eggsterminator, before inducing Chaos Control.

In the void of Chaos Control, Super Sonic healed Chris of his injuries. Chris hugged Super Sonic, asking him not to leave, but Super Sonic soon disappeared, leaving Chris in deep grief. It soon turned out however, that Chaos Control brought the Mystic Ruins and Angel Island to Earth instead, and Chris' face brightened once more when Sonic appeared before him.

Six months after Super Sonic's battle with the Eggsterminator (during which Eggman had mysteriously gone silent), Chris would pay his mom a visit, where she gave Cream the yellow Chaos Emerald as a gift. Later, the two met another resident from Sonic's world, Big the Cat, who was looking for his pal Froggy, and Chris and Cream agreed to help him. However, some time later, Chris found the Station Square police under attack by was only when Sonic showed up to fight it that Eggman arrived and revealed that he was behind Chaos and planned to evolve it into an unstoppable monster with the Chaos Emeralds to conquer the world with. Stealing Cream's Chaos Emerald, alongside the Emerald he already possessed, Eggman evolved Chaos into Chaos 2. However, Knuckles arrived, demanding to know what Eggman did to the Master Emerald, and together with Sonic, they managed to defeat Chaos 2.

Gathering with his friends to hear their stories, Chris learned from Knuckles that the Master Emerald had been shattered and that Froggy had swallowed the purple Chaos Emerald Big had found. Chris thus agreed to help Big find Froggy, while Sonic and Tails looked for the rest of the Chaos Emeralds to ensure Chaos could not grow stronger. Knuckles also began his search for the shards of the Master Emerald so he could restore it.

During their search for Froggy, Chris and Big managed to fish him up from one of the fishing spots Big found, only for Froggy to then be kidnapped by E-102 Gamma, one of Eggman's E-Series robots sent to hunt Froggy down. Pursuing Gamma to the Egg Carrier, Chris and Big freed Froggy. However, they ended up becoming captives of Chaos when it absorbed the Chaos Emerald from Froggy, along with the Emerald Eggman got earlier from a Flicky, which transformed Chaos 4 into Chaos 6. However, a tag-team effort by Sonic and Knuckles defeated Chaos 6, thus freeing Chris, Big and Froggy from its clutches, leaving Eggman to escape his crashing Egg Carrier in fury. Boarding the abandoned X Tornado, Chris managed to escape the Egg Carrier, but was separated from the others, only to then find the white Chaos Emerald.

With the Emerald in his possession, Chris went to find Sonic, Tails, and Knuckles, who had just discovered from Eggman that Chaos was still alive. When Chris finally found his friends, Chaos ambushed him, forcing Sonic, Tails, and Knuckles to rescue him, but allowing Chaos to get all seven Chaos Emeralds the group had and assume its ultimate form of Perfect Chaos. Chris subsequently flew back to the now flooded Station Square with the others in the X Tornado, but none of their attacks, nor Eggman's Egg Carrier 2, were able to break through Chaos' defenses. Before Chaos could finish them off though, a spirit named Tikal saved them. Chris was later among those who retrieve the drained Chaos Emeralds for Sonic to use, who used their remaining energy to become Super Sonic again to fight Perfect Chaos. During the fight, Perfect Chaos tried attacking Chris and the others, but Super Sonic blocked the attack. Provoked by Perfect Chaos attacking his friends, Super Sonic defeated Perfect Chaos. This purged Chaos of the anger and hatred that had poisoned it for so long and reverted it back to its base form. After Chaos left with Tikal, Chris and the others noticed Eggman had escaped in the confusion, but they knew he would be back.

Because of the damage Station Square sustained from Perfect Chaos, Chris and his family had to move to the capital until the damage to the Thorndyke Mansion was repaired. However, Chris soon discovered that Sonic was wanted by the police and G.U.N. for numerous crimes being carried out by a mysterious hedgehog that looked like Sonic. Locating Sonic soon after, Chris saw Sonic's run-in with his doppelgänger, the Ultimate Life Form, Shadow the Hedgehog. After Shadow fled the scene, the police and G.U.N. cornered Sonic. Sonic pleaded that he was innocent, but Chris begged him to just turn himself in to avoid further trouble, which Sonic did after being told that he was being taken to Prison Island. Despite Sonic having been incarcerated, Chris and Mister Tanaka decided to bust him out with Tails and Amy. While Tails and Amy took the X Tornado to Prison Island, Chris and Mister Tanaka headed there in disguise in a boat. Once there, Chris and Tanaka ditched their disguises and got onto the island, but when it was discovered that Eggman had rigged the island to explode, Chris encountered Shadow, thereby proving to him that Sonic was innocent. As Chris got entangled in Shadow's escape, he managed to convince Shadow to transport him off the island to safety via Chaos Control alongside Shadow's partner, Rouge.

After Prison Island's destruction, Chris ended up on Space Colony ARK, where he discovered that Eggman planned to use the colony's Eclipse Cannon to threaten the world into submitting to his rule. Any attempt by Chris to reason with Shadow also fell on deaf ears, as Shadow was convinced by Professor Robotnik to take revenge on humanity for Maria's death.

Once Eggman had all seven Chaos Emeralds, he attempted to fire the Eclipse Cannon at Earth for refusing to give in to his demands. However, instead, he triggered his grandfather's doomsday revenge plot, turning the whole ARK into a mega-bomb that would destroy the Earth. While Sonic, Knuckles, Decoe, and Bocoe took the Master Emerald to the ARK's core to defuse the ARK by draining the Chaos Emeralds of their power, Shadow refuses to help, remained convinced that humanity deserved to perish. However, Chris managed to make Shadow remember the full understanding of Maria's last words to him, thereby convincing him to help save the world, but was badly injured by a hostile Shadow in the process. As a result, when Sonic and Shadow went Super to deal with the Final Lizard, Super Sonic momentarily returned to his friends to heal Chris of his injuries. After being healed, Chris watched as Sonic and Shadow destroyed the Final Lizard and restored the ARK to a stable orbit. However, when Sonic returned with only one of Shadow's Limiters, indicating he sacrificed himself to save everyone, Chris was left deeply upset over Shadow's sacrifice before returning to Earth with Sonic and the others.

After moving back home to the Thorndyke Mansion in Station Square, Chris joined his grandfather Chuck when he spoke with the President regarding how the recent Chaos Control used by Sonic and Shadow to stop the ARK had caused more parts of Sonic's world to be brought to Earth, which was troubling the President. While Chuck assured him that there was no problem regarding it, Chris still felt uneasy about everything. He also bore witness when Eggman attempted to make up for the incident with the ARK by repairing the Moon, turning it into the Egg Moon. Later at home, Chris watched Amy throw a temper-tantrum regarding Sonic standing her up for a date. As she swung her hammer in frustration however, Chris noticed a loud clunk when Amy seemingly hit something invisible. Some time later, Chris and the others were confronted by Vector the Crocodile and Charmy Bee, two members of the Chaotix, who had come looking for Cream, which led to a scuffle. This scuffle was only broken up when Sonic returned with Vector's client, Cream's mother Vanilla, allowing Cream and Vanilla to reunite, much to Chris' amazement, before everyone picked on Vector for his mistake.

Some time later, everyone gathered on the Thorndyke Family yacht to celebrate the New Year, but soon found their celebration ruined by the Egg Moon eclipsing the Sun. Eggman explained that the Egg Moon was malfunctioning, so he offered his Sunshine Balls as an temporary replacement until the Egg Moon was fixed. However, Chris was shocked when Sonic began destroying the Mirror Towers that provide power to the Sunshine Balls, angering the people of Station Square and causing them to surround the Thorndyke Mansion. After Amy broke down a wall to allow them out, Chris and the others were surrounded by the mob, led by the former aide to the President, Jerome Wise. However, Chris' uncle arrived with the Speed Team, and threatened to arrest everyone there if they laid so much as a hand on his nephew. Faced with little options at that point, Jerome and the mob reluctantly disperse, allowing Chris, Tails, and Amy to take the X Tornado to find Sonic, arriving when G.U.N. did to confront him, as he had been fighting Knuckles at the moment. When Sonic attempted to explain his reasons for his actions, Chris was overwhelmed by all the logic, but Tails and Amy understood, and they realized that Eggman had been tricking everyone in another scheme to build the Eggman Empire.

Back at the Thorndyke Mansion, Chris, Sonic, Tails and Amy headed to the White House to rescue the President from Eggman, while Topaz and Rouge went with Knuckles and Mister Tanaka into space to take out the transmitter on the Egg Moon to end the eclipse. With Eggman, Decoe, and Bocoe on the run, Chris joined in a trap that led to Eggman and his two lackeys finally getting arrested and incarcerated.

As peace settled, Chris had to deal with Amy when she got upset over being stood up by Sonic after they had arranged a date. Fortunately, Sam Speed would show up and help take Amy off his hands.

However, even with Eggman in prison, that did not stop him from sabotaging the appliances being made by Nelson's company, Thorndyke Industries, causing them to turn evil and run rampant, forcing Chris, Sonic, and the others to deal with them while Bokkun busted Eggman, Decoe, and Bocoe out of prison. In the process, Chris also met Emerl, who was able to help deal with the rampaging appliances by copying Sonic's Spin Attack.

With Eggman on the loose again, Chris joined his friends when they tried to infiltrate Eggman's base under Station Square. There, they had to contend with the Egg Spider, which was destroyed by Emerl. Amidst the chaos however, Eggman would escape again.

Hoping to lure him out, the President held the Chaos Emerald Martial Arts Mash-Up tournament. Chris made his way through the competition, but forfeited to Knuckles in the quarterfinals, not wanting to face Amy or Rouge in the semifinals. Emerl eventually won the tournament, only for the energy from the Chaos Emerald (the prize of the tournament) to make him go berserk. When Sonic, Knuckles, Tails, Amy, and Rouge were unable to stop him due to its copy ability, it was Cream and Cheese who finally deal Emerl a death blow when they tag-team it, which prevented Emerl from using his copy ability on them as the other attacked before Emerl could finish duplicating the move he was recording.

Some time later, Chris found himself helping Sonic when Eggman attempted to locate the lost continent of Murasia, having taken the crew of the G.U.N. destroyer Seahawk hostage on his Egg Battleship to ensure neither Sonic nor G.U.N. and their GUN Fort V3 would try to stop him. However, in the end, Eggman's plan for Murasia failed, and Decoe and Bocoe, who Eggman left behind to perish, defect and join Chris, staying at his house.

Christina Cooper arrived some time later to reveal that the Time Suspension Phenomenon was taking place, threatening to stop time permanently unless Sonic and his friends, along with everything from their world went back home. Heartbroken, Chris thought this was a trick, and decided to confront Eggman on it. However, Eggman had no part in what was happening, and even managed to show Chris that he was acting selfishly by refusing to let Sonic and the others go home. Realizing his mistake, Chris returned home. When Tails and Chuck later completed a portal leading back to Sonic's dimension, it was not long before it was time to say goodbye to everyone as they were sent back to Sonic's world. However, even after everyone else went through and returned to their world, Chris, at the last second, hit the shutoff switch to the portal before Sonic could enter, shutting it down, to everyone's shock. Before anyone could ask Chris why, he grabbed Sonic and fled for parts unknown.

Despite being willing to see everyone else off, Chris refused to let Sonic leave as he felt that, due to his parents and their busy schedules, Sonic's departure would leave Chris feeling all alone again. Fleeing to his family's old lakeside retreat, Chris and Sonic were able to talk, and Sonic finally convinced Chris to let him return to his world. It was then revealed that though Chris had shut down the portal, Sonic has always been able to use Chaos Control with the Chaos Emeralds to return home under his own power. Shortly after Sonic departed, Lindsey and Nelson, who finally understood Chris' feelings and wanted to make up for their absence by spending more time with him, arrived to find Chris waiting for them.

Six years later, Chris has grown considerably. In that time, he and Helen began working together on getting the portal working again to visit Sonic in his world. Eventually, they took a break to go meet with Frances and Danny. As the four friends discussed things regarding events with Sonic and the others so long ago, Chris reminisced about his time with Sonic and all the adventures that they had together.

Early in the third season, he uses a portal to travel to Sonic's home in the show. But due to the differences in time-acceleration between both planets, the teleportation process rejuvenates his body back to his pre-teen age. Chris no longer takes the back seat in the X-Tornado; instead, he is shown as flying it capably, which his younger self would never have been able to do so. Chris also comments in one episode that he is a black belt in karate. Additionally, he has also shown to have become a quite capable engineer, enough to impress Tails. He invents different gadgets and devices like Sonic's Hovershoes, a hoverboard and a new, better Chaos Emerald scanner for the Blue Typhoon. He is also seen in a few episodes using Flash Bombs as a distraction and he also uses a laser gun as a weapon.

His support allows Sonic and their friends to defeat the Metarex in numerous conflicts, culminating in the final battle against Metarex leader Dark Oak, that results in the destruction of him, his remaining Metarex forces, and tragically, Cosmo, who sacrificed herself to paralyze Dark Oak so Tails could deliver the killing blow to Dark Oak with Super Sonic and Super Shadow using the Sonic Power Cannon. However, with the Master Emerald having been sacrificed to kill Dark Oak's two remaining generals that fused with him into Final Mova, Chris was stranded in Sonic's world, until Eggman offered a means to allow Chris to return home. There was a catch though: Chris could not take the time to say goodbye to Sonic and his friends as the window for him to return home closed in a few minutes. With little option left, Chris took Eggman up on his offer, boarded the pod, and was launched to return home, as he roared into the sky, Chris spotted Sonic running along the ground below, who looked up and wished Chris good luck before the pod disappeared from view as Chris returned home to Station Square and Earth. As a result, since Chris never got to say goodbye to them, Sonic and his friends all declare war on Eggman.

---

Me: Wow. I didn't know he helped you out.

Sonic: He is a true friend. But when we last saw him he disappeared a while ago.

Tifa: That's because I found him.

Tifa revealed a sad story that was enough to make all of us cry.

During a deadly raid on a slave encampment, Tifa found Chris and saved him. She was touched by his sad and heroic background that she adopted him as her own son. But then when the war with Xehanort began, they were separated. Tifa was heartbroken and she feared that she would never see him again.

We were crying hard. I had tears streaming down my face. The boyfriends of the Loud Sisters were comforting them.

Laney: (Crying hard) That is so sad!

Joey: (Comforts Laney) I know Laney. It's gonna be all right.

Lori J.: (Crying hard) Poor Chris!

Nick F.: (Comforts Lori) I know Lori.

Me: We got to find him!

Sora: Let's call Cloud about this. It's been ages since I talked to him.

Me: That's a great idea Sora.

Goofy: Gawrsh I wonder how he's doing.

Donald: Lets go see.

Me: Okay, Tifa when was the last time you saw him?

Tifa: When we were in Hollow Bastion.

Me: Then that's where we're heading. Lets roll!

We were off to Hollow Bastion. (KHII Hollow Bastion)

---

## HOLLOW BASTION

---

We were at Hollow Bastion orbiting the Land of Departure. We saw that it was once the land of the base of Operations for Maleficent when we destroyed the Key to Darkness.

Me: Wow. Hollow Bastion.

Kairi: Never thought we would be back here again.

Naruto: Boy this place has a lot of bad memories.

Me: But we did stop Maleficent from opening the door to darkness.

Fu: And we killed all the Disney Villains.

Sakura: We sure did.

Aqua: I'll never forget that.

Lincoln: Me neither.

Earth: What was all that like Linky?

Lincoln: It was a nightmare.

Me: We can talk about that later guys. I have a feeling I know where Chris is. Lets go.

G1 Soundwave: Ravege, eject. Operation: Son retrieval.

We went down to the southern side of the world and it was getting creepier and creepier. The Negative Energy was very weak but its presence was really strong and it was enough to be detected. We continued on and it was getting stronger and stronger. We arrived at a cliff edge and we saw a dark castle called the VILLAINS VALE! It was a castle home to thousands upon thousands of Heartless and the number of them around the whole castle and the number was staggering.

Me: Holy mackerel.

Lola: Look at all the Heartless.

Lana: There's so many of them.

Our scans show that there were

865,745,745,582,894,825,863,725,853,875,894,785 Heartless all in one spot and the Dark Orb Detector showed that there was a massive dark orb hidden right underneath the castle. It was as big as a massive skyscraper.

Me: Whoa! That's the biggest Dark Orb of them all!

Lori: That is literally the biggest one we've ever seen!

Me: Lets blow this one apart!

I flared up my Super Ebonwu 30,000 Aura and fired a massive Kamehameha Wave at the Dark Orb under the castle and it drilled under it and blew the whole Dark Orb apart and destroyed the whole castle and all the heartless and it all released a massive burst of energy that made the power up in the Choleric Section of the Corrupted Land of Ooo seem like nothing and it empowered us with a massive power increase of such incredible power that it made us stronger in energy, power and more. When it was done we saw our auras looked like they were pure fire and overflowing with so much energy that it was unbelievable.

Me: WOW! What power!

Nico: Unreal! This is the most powerful I've ever felt!

Lori: Me too!

Vince: Unbelievable!

Laney: This is amazing!

Then a scream was heard. We turned and we saw Chris Thorndyke! He was being attacked by a Liepard and Simisage.

Nico: A Liepard and a Simisage!

Me: I already have a Liepard. You can have those two Nico.

Nico: With pleasure.

Nico threw 2 Pokeballs and caught them.

Tifa: Chris!

Chris: Mom!

They hugged and were reunited.

Me: I'm so glad he's all right.

Suddenly I sensed an incredible power. It was incredibly strong and it was as powerful as when we fought Unicron.

Me: Whoa! Do you guys feel that!?

Naruto: I sure do. That power I'm sensing is incredible!

Fu: Whoever it's coming from is incredibly powerful.

Me: Yeah. But we'll worry about whoever it is later.

?: That power comes from Sephiroth.

We turned and we saw Cloud Strife.

Me: Cloud Strife, I presume?

Cloud: That's right. It's an honor to meet you J.D.

Me: You too.

Sora: It's great to see you again Cloud.

Cloud: Same to you Sora.

We later found out who Sephiroth is.

---

He was a Biologically-Engineering Genocidal Conqueror. His power is completely unreal and it's absolutely terrifying. So powerful that it rivals that of even the most powerful of gods.

Sephiroth is the child of Professor Hojo and Lucrecia Crescent, two Shinra Inc. scientists. While in the womb, his mother named

Lucrecia was injected with cells of a powerful alien being known as Jenova, and in his fetal form, he merged with the cells and was taken from Lucretia at birth. He was kept in the dark about his real mother, only told that she was named Jenova, and the terrible experiments that were been performed on him. Later in his life, he became a member of SOLDIER, Shinra Inc.'s super warriors. Sephiroth became the most powerful SOLDIER going beyond 1st class and became known as the SOLDIER Hero. He was particularly renowned for his accomplishments during the war between Shinra and Wutai, where he was first seen easily defeating a powerful Djinn known as Ifrit. Sephiroth was close friends with two other Shinra experiments, Angeal and Genesis, Genesis being considered a failure compared to him, and both were also unaware of what had been done to them. Genesis and Angeal would spar with Sephiroth, at which Sephiroth would easily fight them all off, until one day Genesis tried to go all out. Try as Genesis may, Sephiroth overwhelms him but Angeal stops the fight. Genesis would leave Shinra shortly afterwards with Professor Hollander. Sephiroth hoped to bring him back however. Then, Shinra sent him to Nibelheim to inspect a broken Mako reactor, along with another SOLDIER 1st Class (Zack Fair), and several infantry men, one of which was Cloud Strife.

Once in the city, Zack asks Sephiroth about his parents, and he mentions that his mother's name was Jenova, but said nothing about his father. Sephiroth climbs Mt. Nibel with the rest of his men to inspect the reactor, and in it he finds a room labeled Jenova. In the room he sees Jenova- a hideous abomination, in the form of a female. Why Jenova is in an armored containment suit when later revealed is unclear, although it is likely a small error by the game creators. This and the witnessing of other mutant creatures ("failed" SOLDIERs injected with Jenova cells) brings about what essentially is a psychotic break, leading to him question who, or what, he is. For six days he locked himself in the basement of Shinra mansion reading books about the experiments Shinra had been doing.

This research causes Sephiroth to believe that Jenova was a Cetra and that he himself is the last surviving Cetra, he also comes to think that humanity betrayed the Cetra by leaving them to defend the planet against an evil calamity, the calamity actually being Jenova herself. With this information along with his anger for being used as an experiment for Shinra, Sephiroth slowly slips into insanity. On the seventh day, Sephiroth decided to take revenge on the humans for leaving the Cetra and making him one of Shinra's experiments, but first insanity took him and he burned Nibelheim to the ground (most likely using an extremely powerful Firaga). Zack thus confronts him later on, with Cloud not far behind.

When they reach the reactor, Zack breaks into the room labeled Jenova, and demands that Sephiroth tell him why he burned the town down. Sephiroth stood in front of a discolored and disfigured woman in a test tube, Jenova, and addresses her as "Mother" believing she is his real mother due to the fact that he was told his mothers name was Jenova. After talking to Jenova about reclaiming the planet Zack attacks him and they fight fiercely. Although Zack is able to stand reasonably evenly with Sephiroth, even having the skills to defeat Genesis proved to be insufficient and Sephiroth eventually overwhelms Zack in swordplay, driving him back before he quickly overpowered Zack in a clash of strength, disarming him and sending him flyinh. Sephiroth turned back to his "Mother" and acts as if nothing as happened. Cloud then walks in, and takes Zack's Buster Sword and badly injures Sephiroth but Sephiroth, in his rage, easily stabs Cloud through the stomach, though with all his will, Cloud manages to pull the sword up and throw Sephiroth off the edge of the reactor core, although, as an alternate ending in the anime Last Order Final Fantasy VII, Sephiroth intentionally jumps into the reactor asking Jenova to go with him to the "Promised Land".

In Final Fantasy VII while seeking to find the Black Materia and destroy the world, Sephiroth desires to reach the "Promised Land" by doing so. He is briefly playable in a flashback to the events that occurred in Nibelheim seven years prior. Most of the game is spent searching for him, but Sephiroth is always one step ahead of the heroes. His desire is to find the so-called promised land, so he can use the large amount of mako energy to activate the black materia, summoning Meteor, a powerful spell which Sephiroth tricks Cloud and the others into finding. Once activated, the black materia would send a meteor into the planet, causing the planet to try and heal itself using the Lifestream's mako energy, Sepiroth would then absorb this energy, thus becoming a god and rule the planet.

As the game progresses, it seems Sephiroth's powers become greater and greater, to the point where he can control Cloud, and even the remaining cells of Jenova herself. His control over Cloud however, allows him to obtained the black materia from him. Using Cloud, Sephiroth tries to make him kill Aerith while she is praying in the Forgotten Village trying to summon the spell Holy to help counter act the meteor summoned by Sephiroth, Tifa however yells and breaks Sephiroth's manipulation, and so using his control over Jenova, he forces her cells to take his own form and uses her to impale Aerith through the stomach.

Cloud and company pursue Sephiroth to the planet's wound, a crater that was left behind when Jenova arrived on the planet. They go into it and Sephiroth shows Cloud several flashbacks of what really happened at Nibelheim, and reveals that Cloud has his cells in him, and that Sephiroth could control him because of this. The illusion ends and Cloud, who does not believe himself to be Cloud, hands over the Black Materia to the real Sephiroth that had been frozen in the planet's core. Sephiroth had controlled remnants that shared Jenova cells from inside the planet in order to bring himself back to life to and achieve his plan of becoming a god to rule the planet.

Eventually, Sephiroth achieved his plan and became "Bizarro Sephiroth" (in Japanese: リバース・セフィロス Ribāsu Sefirosu) and "Safer Sephiroth" (in Japanese: セーファ・セフィロス Sēfa Sefirosu), which is his ultimate god or god-like form. One last battle commences between Cloud, his friends, and Safer-Sephiroth, who is eventually defeated. Despite this, his conscience remains intact and he drags Cloud into the Lifestream to have one last confrontation with him, this time in a metaphysical realm. However, just like before, Sephiroth is defeated. The Meteor continues its course and crashes into Gaia, but due to Aerith's ability to talk with the planet and summon the spell Holy, the Lifestream is able to push back the meteor before it causes ultimate destruction to the planet.

In Advent Children, though Sephiroth was defeated 2 years earlier, but has left a great dent in the planet. He infected the Lifestream, and so created a disease called Geostigma. Geostigma weakens the immune system, causes exhaustion, and black sores on the skin of the infected. Children are more prone to getting this disease than adults, however, this does not mean adults can't get it; in fact, Cloud has it. 3 remnants of Sephiroth that did not dissipate into the Lifestream, named Kadaj, Loz, and Yazoo, are seeking to reunite with their "mother" Jenova, and attack Cloud, calling him their "brother". As the movie progresses, two of the remnants are defeated, leaving only Kadaj, who merges with what is left of Jenova. By doing so, he becomes Sephiroth's avatar, adopting his physical appearance. Cloud and Sephiroth fight once more and this time it is purely physical battle. With his superior combat abilities, Sephiroth is steadily able to wear down and overwhelm Cloud until Cloud is finally decisively beaten and badly injured. However, Cloud, by reminiscing of all that he cherishes when Sephiroth mistakenly mocks him by threatening to kill them all and being invigorated by Zack's spirit, perfects Omnislash 5 and uses it to finally defeat Sephiroth, taking advantage of the advantage of many blades, the enchanted speed, and Sephiroth's surprise to soundly deal lethal blows. However, when Cloud demands Sephiroth to stay in his memory, Sephiroth calmly says "I will… never be a memory.", proving he is not truly defeated and while his physical body may have been destroyed, he is still present.

Sephiroth, though not visibly seen, is mentioned as a well-known hero. His reputation inspires Zack Fair to train to become Sephiroth's equal in power and legend.

After Master Xehanort's defeat, Zack witnesses Hercules train under Phil, noticing one of Sephiroth's feathers floating towards him. Zack then disappears, with the feather landing where he once stood.

Sephiroth appears as an optional boss in the first Kingdom Hearts game for both the North American version, and later the Final Mix version. He is found in Olympus Coliseum. No story is really provided, though it does refer to him as "The SOLDIER Commander" and a man once known as the "greatest of swordsmen".

Prior to Sora's arrival to Olympus Coliseum, Cloud strikes a deal with Hades: if Cloud defeats Hercules in battle, Hades will lead Cloud to Sephiroth. However, the deal is not payed off.

Later, Sora enters the Platinum Match and encounters Sephiroth himself, besting the One-Winged Angel in a duel. In the Final Mix version only, following Sora's departure, Cloud encounters Sephiroth and engage in a battle before dissipating in light.

In the second Kingdom Hearts game, while still an optional boss, Sephiroth is given a backstory. Sephiroth claims he is the darkness in Cloud's heart and as long as that darkness remains, Sephiroth cannot die. Thus, Cloud and Sephiroth have been fighting for a long time, across many different worlds. One year after Sora's battle with Xehanort's Heartless, Cloud has been looking for Sephiroth in the newly-restored techno-magic kingdom of Hollow Bastion (now known by its true name "Radiant Garden"), wanting to end their conflict once and for all.

Sora and company first encounter Sephiroth as they leave Hollow Bastion's castle to assist in the Battle of the 1000 Heartless. The One-Winged Angel inquires of Cloud's whereabouts, but realizes that Cloud is getting enlightened and takes his leave. He soon after rescues his arch-nemesis from a swarm of Heartless and taunts him about the darkness.

After defeating the MCP and discovering Hollow Bastion's true name of Radiant Garden, Sora and company arrive at the Dark Depths, once more encountering Sephiroth, who asks where Cloud is and on Sora's identity. Sora and company refuse to answer. Sephiroth then notices Sora's Keyblade and engages Sora in battle, intending on testing the weapon's loyalty and Sora's strength.

After an arduous battle, Sora triumphs over the One-Winged Angel. Sephiroth, though, informs Sora that only Cloud can truly defeat him, and orders the Keyblade wielder to bring Cloud to him. Sora then finds Cloud in the Marketplace and tells him of Sephiroth's location, prompting Cloud to travel there to engage Sephiroth in battle.

As Sora returns to the Dark Depths, Cloud arrives and duels with Sephiroth. As the two lock blades, Sephiroth taunts Cloud once more, but Tifa arrives, encouraging Cloud to let go of his inner past. Though Sephiroth is irritated at Tifa's appearance, Cloud suddenly glows in a bright aura and warps both himself and Sephiroth to an unknown world to continue their duel.

Sephiroth makes an appearance in the Final Fantasy-based fighting game Dissidia and it's prequel Dissidia 012. Despite a few more colors in his wardrobe, he pretty much stays the same. In the story he mocks Cloud's inability to find a reason to fight. Once Cloud defeats him and obtains his crystal, Sephiroth tells him to remember that he is the only reason that Cloud was able to get it.

Among all Final Fantasy villains in Dissidia Final Fantasy, Sephiroth seems to be treated with the most fear by both villains and heroes. Unlike other Final Fantasy villains, Sephiroth truly believes he is right, and from this draws substantial willpower, and fervent religious willpower; this with his psychopathy, substantial martial ability, and massive power reserves make him among the most powerful of Chaos' warriors, if not the most powerful.

In some cutscenes, it is revealed that Sephiroth had no memory of his past life when he awoke as a servant of Chaos, however, he says that he is slowly gaining it back. His personality does fully comes back near the end of the game.

The fallen hero also appears in this rhythm game as a boss in Final Fantasy VII scenarios. Commonly during the song "One-Winged Angel". He is also an unlockable playable character by gathering eight black shards.

---

Me: Whoa! So Sephiroth is that dangerous!?

Cloud: Yeah. He poses a tremendous threat to everyone in the entire universe.

Me: Then we have to kill him when he makes his move.

Nico: Good idea. And if his power is as terrifying as it is, then we are in serious danger.

Me: No kidding. And he has a 7 and a half foot long sword? That's huge!

Lori: No kidding!

Lisa: A sword like that would have a very long extended and deadly reach.

Me: It sure would.

We had a future fight on our hands and Cloud would call us when the time to fight Sephiroth came.

---

Back at the estate, we finished setting up our new 84' HD Plasma TV and we were watching my favorite Disney Movie from 1973: Robin Hood. It was based on the legendary tale of English Folklore: Robin Hood.

---

The film is narrated by the rooster Alan-a-Dale, who explains that Robin Hood and Little John live in Sherwood Forest, robbing from the rich and giving to the poor townsfolk of Nottingham. The Sheriff of Nottingham and his posse often try to catch the two but fail every time. Meanwhile, Prince John and his assistant Sir Hiss, arrive in Nottingham. Sir Hiss hypnotized Prince John's brother King Richard to go off on the Crusades, allowing Prince John to take the throne. Unfortunately, the prince is greedy and immature, even sucking his thumb whenever his mother is mentioned. Robin and Little John rob Prince John by disguising themselves as fortune tellers, prompting the prince to put a bounty on their heads and makes the Sheriff his personal tax collector.

The Sheriff taxes Friar Tuck and a family of rabbits. However, Robin gives back some money to the rabbits, giving his hat and archery kit to the young rabbit Skippy for his birthday. Skippy and his friends test out the archery kit, but Skippy fires an arrow into the grounds of Maid Marian's castle. The children sneak inside, meeting Maid Marian and her attendant Lady Kluck. Maid Marian reveals she and Robin were childhood sweethearts but they have not seen one another for years. Friar Tuck visits Robin and Little John, explaining that Prince John is hosting an archery tournament, and the winner will receive a kiss from Maid Marian. Robin agrees to participate in the tournament disguised as a stork whilst Little John disguises himself as the Duke of Chutney to get near Prince John. Sir Hiss discovers Robin's identity but is trapped in a barrel of ale by Friar Tuck and Alan-a-Dale. Robin wins the tournament, but Prince John exposes him and has him arrested for execution despite Maid Marian's pleas.

Little John threatens Prince John leading to a fight between Robin, Little John, Maid Marian, Lady Kluck and Prince John's soldiers. In the forest, Robin and Maid Marian fall in love again as the townsfolk mock Prince John, describing him as the "Phony King of England". Enraged by the insult, Prince John triples the taxes, imprisoning most of the townsfolk who cannot pay their taxes. The Sheriff visits Friar Tuck's church to steal from the poor box, enraging Friar Tuck who is arrested too. Prince John plans to hang Friar Tuck to lure in Robin and kill him. Robin and Little John sneak in, with Little John managing to free all of the prisoners whilst Robin steals Prince John's taxes, but Sir Hiss awakens to find Robin fleeing.

Chaos follows as Robin and the others try to escape to Sherwood Forest. The Sheriff corners Robin after he is forced to return to rescue a straggler, setting fire to Prince John's castle and causing Robin to leap from a tower into the moat below. Little John and Skippy watch as the moat is pelted with arrows and Robin is apparently shot and drowned, only for him to emerge unharmed after using a reed as a breathing tube. Prince John despairs and is driven into a blind rage when Sir Hiss points out his mother's castle is on fire. Later, King Richard returns to England, placing his brother and his cohorts under arrest and allows Robin and Maid Marian to be married and leave Nottingham with Little John and Skippy in tow.

---

When the movie was done we cheered wildly.

Me: That is so awesome!

Lori: That movie is literally one of my favorites.

Lana: Mine too.

Green Arrow: Robin Hood was actually one of the inspirations for me being a hero.

Hawkeye: Same with me.

Me: That's cool guys!

Laney: It sure is. Sora did you go to the Robin Hood World during your search for Riku?

Sora: I sure did. And we helped depose Prince John and got Robin Hood pardoned.

Me: Awesome! Just like in the movie. Shall we head to the Simulator and help him out?

Everyone cheered.

We went to the Simulator.

---

In the Simulator we were getting ready. When the Simulator activated, we were in the world of Disney's Robin Hood from 1973. We were in Sherwood Forest, England in the year 1196 A.D.

Me: Wow! Sherwood Forest. It's everything like we read about.

Nico: It sure is.

Robin Hood then landed in front of us.

Me: Wow! Robin Hood!

Robin Hood: It's nice to finally meet you all.

Me: You too.

Sora: It's great to see you again Robin.

Robin Hood: You too Sora. It's great to see you again as well.

Goofy: How have you been?

Robin Hood: Doing good Goofy.

Robin Hood told us about what he does in Sherwood Forest and he asked us to help him in one of his raids.

Sly Cooper: Constant raids involving stealing from a rich guy? Count me in!

Me: Lets do it!

We were going to learn how to do a Robin Hood raid

---

We were raiding the castle of Prince John!

---

After tricking King Richard into partaking in a crusade beyond England, Prince John becomes the acting monarch of England and quickly asserts his authority over the kingdom. Surrounded by a very large army of henchmen, he easily robs the people of England of all they have, causing misery and despair among the population. He was known for his harsh and unjust taxes, and would gladly tax the people continually until they did not have a scrap of silver or gold left. He was not above imprisoning his people if they failed to pay their taxes even after they gave up everything they had. By the time of the film, he had set his sights on the wealthy village of Nottingham and proceeded to assert his rule over the city.

Unfortunately for Prince John, his scheming ways caught the attention of famed robber Robin Hood who, alongside his faithful companion Little John, robbed the rich to give to the poor. During his journey to Nottingham, Prince John ran across two fortune tellers (actually Robin Hood and Little John in clever disguises) and eagerly accepted their offer to tell him his fortunes (despite Sir Hiss warning him of the possible danger). As Robin Hood distracted him by complimenting his more sovereign and regal features, he and Little John robbed Prince John's caravan of the gold they had been carrying, and escaped into Sherwood Forest right under the noses of the fooled guards. Robin Hood added further insult to the injury by making off with John's royal robe, leaving him in nothing but long underwear (so that he couldn't do anything to deter Robin Hood and Little John). John gave chase, but he fell out of his carriage (Little John made off with the golden hubcaps on the wheels, again so that Prince John couldn't deter them). Utterly humiliated, John swore revenge on Robin Hood, labeling him a wanted man in Nottingham.

Upon arriving in Nottingham, Prince John decreed a series of harsh taxes on the villagers, driving them out of their homes and leaving them starving. Those unable to pay were sent to the stocks. Aiding John in his efforts was the cruel Sheriff of Nottingham, who had no shame in robbing the people on behalf of the prince. During John's rule, Robin Hood, Little John, and Friar Tuck of the local Church did everything they could to keep hope alive in the town, secretly distributing money among the starving population. The people viewed Robin Hood as a hero, so he was never turned in for his illegal crimes against the prince.

Prince John also set up his residence in his mother's castle in Nottingham where Maid Marian, Robin's former love still resided. Maid Marian had no love for the prince and desperately wished to see Robin again, while at the same time fearing that he had forgotten all about her.

Prince John eventually set up a trap for Robin Hood by hosting an archery tournament and offering up a kiss from Maid Marian as the winning prize. Unable to resist this opportunity to see his lost love again, Robin eagerly enrolled in the tournament, disguised as a stork while Little John disguised himself as a duke. Although falling for Little John's disguise, the prince expected Robin to be in disguise and took note of the stork's superior archery skills. When Robin won the tournament as John had planned, after recognizing him when shaking his hand, he unmasked his enemy in front of the crowd and had him arrested and sentenced to "immediate death". Maid Marian pleaded with him to show mercy, but her pleas fell on deaf ears, even after Robin proclaimed his undying love for Maid Marian. John labeled Robin a traitor to the crown, but was openly insulted by Robin, who shouted, "Long Live King Richard!" Outraged, John yells at everyone to be silenced and ordered Robin to be executed but was forced to let Robin go when Little John held him hostage from behind with a dagger. The Sheriff discovered this and when Little John got distracted, John indignantly ordered his minions to do away with Robin. In the battle that followed, Robin and his friends defeated John's minions and destroyed the tournament grounds, forcing John to cower behind a barrel of ale. Robin and his allies then fled into Sherwood Forest, much to the Prince's outrage. When he found Sir Hiss inside an ale barrel (having been forced in there by Friar Tuck to prevent the latter from exposing Robin Hood's true identity), due to his anger at being humiliated as well as Sir Hiss supplying information about the stork's true identity that he by that point already knew, vented his rage by tying him to a knot on a pole and daring him to get himself out of it.

In the days that followed, John was further insulted to learn that the villagers were mocking him with the song "Prince John, Phony King of England", infuriating the evil ruler. Pushed to the end of his rope, he placed even harsher taxes on the people and arrested dozens of helpless villagers who were unable to pay. The town was driven into poverty and everybody was losing hope. Although John now had all of the money left in the village, he still was not satisfied, and longed to kill Robin Hood. One stormy night, John sat silently seething in his throne, ignoring the mountains of gold that now surrounded him, until Sir Hiss attempted to cheer him up by informing him of Friar Tuck's arrest. At first, John flew into a rage, as it was Robin Hood he wanted, but then realized that he could use this to his advantage. He sentenced Friar Tuck to the gallows in an attempt to lure out Robin Hood, hoping to use the opportunity to capture Robin Hood and finally do away with him for good. However, Robin caught on to this plan, and he and Little John agreed to trigger a jailbreak that night to save the Friar's life.

That night, Robin and Little John broke into the castle. Little John proceeded to free Friar Tuck and all of the prisoners. Meanwhile, Robin sneaked past the guards and found the Prince sleeping in his royal quarters. Keeping quiet, he recovered gold everywhere in the room and gave it back to the overjoyed prisoners, who prepared to make off with what was rightfully theirs. Unfortunately, Sir Hiss awoke to find Robin escaping, and the prince also woke up to the scene. He ordered his minions to kill Robin, causing a large fight to break out within the castle. Robin and Little John defended the prisoners as they fled, and opened the gates to Sherwood Forest. Unfortunately, Robin was left behind after rescuing one of the children who nearly got left behind, and found himself pursued by John's guards and the Sheriff. The Sheriff trapped Robin in a tower by setting the castle on fire, forcing Robin to jump in the moat, where he was shot at by archers. John watched gleefully as he waited to see if Robin was dead, and was overjoyed when he did not resurface.

Unfortunately for John, Robin swam underwater back to the shore, uninjured and mocking the foolish tyrant. John began complaining when he realized he was foiled again by Robin. Sir Hiss criticized him for his failure about that his actions burned his mother's castle, with John threatening to hit him with a wooden stick if he didn't shut up. John finally snaps and flies into a violent rage. He chased Sir Hiss around the castle, aggressively attacking him with the stick, all of this while sucking his thumb.

Eventually, King Richard returned home and found out about the terrible deeds that Prince John (and the Sheriff of Nottingham) had inflicted on the people of England. Richard immediately reclaimed his throne from his brother and repealed all of the unjust taxes John had imposed on the people, allowing Nottingham to return to happiness and prosperity. Richard also pardoned Robin Hood for his past crimes, and honored him for his efforts to help the people. Meanwhile, John was sentenced to jail along with Sir Hiss and the Sheriff of Nottingham for their crimes against poor people, and the three villains got thrown in the royal rock pile, working to pay off the debt that they owed the citizens of England for their embezzlement. John howls in pain when his foot gets crushed by a rock fragment, much to Sir Hiss' amusement.

---

We were killing all his guards and we swiped all his loot in one fell swoop and we were slashing all the guards and men apart until all there was left was a pile of dead bodies.

Mindwipe (mind controls guards): Give me and my friends some gold from this castle.

Mindwipe made them do so.

We left and Prince John had his castle up in flames. He was extremely pissed off and he knew that he was in big trouble and he was sucking his thumb like a little baby. He was a TRUE PHONY!

Later we went back to Robin Hood's hideout.

---

Back at the hideout we were celebrating a successful raid.

Cosmos: I still think we should've taken out Prince John back there.

Robin Hood: Well, I thought it would've been more funny to, as you guys say, see him lose his cool.

Mindwipe: How many raids do we really have to make before dealing with Prince John permanently?

Robin Hood: Until he finally makes his move.

Me: Then we will continue to raid his castle.

We did so for over 10 days and it was one successful raid after another.

Lola: Prince John is a phony. I think it would be best to send to our space prisons.

Lana: No way. He'll just whine and annoy the other prisoners.

Me: That's true. And he is a true phony king who is nothing but a whiny little baby.

William: You didn't say that Prince John tends to throw tantrums.

Robin Hood: I might have implied it when I said that he would lose his cool.

Me: He's nothing but a whiny little baby and he is a stupid greedy tyrant.

I then sensed Prince John coming.

Me: Here he comes guys. Lets show him what happens when you mess with Team Loud Phoenix Storm.

Sly Cooper: You got that right J.D.

Nico: Lets do it.

Me: (Cracks Knuckles) Lets make that whiny baby beg for mercy.

My eyes glowed red.

---

Prince John was completely enraged.

We confronted him.

Me: Prince John the phony king.

Nico: This is exactly what I said to Ken. Don't you think it's time you give up on this charade John? It's getting old. You think you are a king? No you aren't! You're nothing more than a pathetic whiny little baby that is nothing but a pretender! You're like that story "The Emperor's New Clothes."

Me: In other words, Prince John the Whiner of England, you have failed this Kingdom and this country!

Nico: Hey! That was my line!

Me: Sorry, but you were gonna say it anyway.

Nico: True.

Me: Lets get him!

We went at Prince John and I punched him in the face and Nico kicked him in the stomach and Sly Cooper bashed him in the face with his cane and Molly Molloy dealt him a powerful uppercut and kicked him in the stomach and punched him in the face and knocked out his big right tooth.

Syd: You give all lions everywhere a really bad name!

Syd punched John in the face and kicked him in the crotch and stepped on his foot and broke it with a sickening crunch!

CRUNCH!

He screamed like a little girl! She flared up her Aura and it turned into an African Elephant and she rammed and trampled Prince John.

Ronnie Anne: AWESOME!

Me: That was amazing! Never underestimate the power of the animal kingdom. Lets show him our combos!

Cosmos: You got it J.D.! CYBER KEY POWER!

The Earth Cyber Planet Key went into the side of his Particle Blaster and it enhanced it 100-fold.

Molly Molloy: Lets do this! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Molly Molloy's arm and it enhanced her plant powers 100-fold.

Cosmos and Molly Molloy: COSMIC PLANT BIND SLAM!

Cosmos fired his particle blaster and Molly Molloy grew nasty bramble vines. The particle blasts hit Prince John and exploded and burned him bad and the vines entangled him and slammed him into the ground with ferocious fury!

KRABLAM! KRABLAM! KRABLAM!

Ravage: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and enhanced his heat-seeking missiles.

Mindwipe: Lets have some fun! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his Neuro-Circuitry Paralyzing Fluid.

G1 Ravage and Mindwipe: NEURO-PARALYSIS MISSILE BURST!

Ravage fired Heat-seeking missiles and Mindwipe fired his fluid and they hit and exploded and numbed him.

Me: Lets show him the power of our final smashes!

Sly Cooper: Lets get him! I'll start us off. SKILLS OF THE COOPER CLAN!

Sly and the spirits of the Cooper Clan family went at Prince John and they bashed him all over the place with their skills and pulverized him all over the place with their canes and weapons.

Robin Hood: This is for the Poor Citizens of England! SHERWOOD FOREST LEAFSTORM!

Robin Hood fired a massive storm of leaves at Prince John and they shredded him.

Prince John was weakened and he was really mangled up. We walked up to him and we had our arms crossed.

Nico: (to Prince John) You know what? You're not even worth killing. And the prisoners in our prisons would just be annoyed by your whining. No. We're just going to have you locked up in this world's prison. You don't even have the skills to get out.

Prince John was dethroned and King Richard I the Lionheart returned and Prince John was condemned to work in the Rock Yard forever.

Robin Hood: (To the viewers) You steal from the poor and you will answer to me and Team Loud Phoenix Storm.

Me: You got that right Robin Hood.

We added the world of Robin Hood to the orbit of the Realm of Departure.

THE END

---

Another Awesome chapter complete and another Disney Villain thrown in prison.

Robin Hood from 1973 was an awesome Disney Movie! I saw it earlier and it was awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think!

See you all next time.

# CUATLPSATSPOSPSP

Captain Underpants And Team Loud Phoenix Storm And The Squishy Predicament Of Stanley Peet's Stinky Pits

Happy 50th Anniversary of Apollo XI everyone!

Maria, Horsea, Aquagirl, Nico, Heidi, Ronnie Anne, Syd and Carl were at the Gotham Royal York Aquarium and Puppycorn and Unikitty were with them.

Maria: I always love coming to the aquarium. It's so peaceful.

Carl: (Spanish Accent) I love the aquarium. It's such a beautiful place like my lovely gazelle Laney.

Nico: (Chuckles) You sure know how to pour on the charm Carl.

Ronnie Anne: That's my cousin for you Nico. Thanks for helping me babysit Carl while abuela and abuelo are away.

Nico: No problem Ronnie Anne.

Syd: I love learning about fish.

Horsea: Thanks for taking me to the aquarium, Maria.

Maria: You're welcome Horsea.

Aquagirl: Coming to the Aquarium is a perfect way to talk to some of my friends.

Heidi: That's cool Marina. I love coming here because grandpa took me here back when I was a little girl and I love looking at all the pretty fish.

Syd: Me too Heidi.

Heidi: What are your favorite kinds of fish Syd?

Syd: I like all kinds of fish. But my number one favorites are dolphins and sharks.

Heidi: Those are awesome fish. Did you know that Sharks have been on this planet for over 470 million years?

Syd: No I did not. That is amazing!

Heidi: Sharks are one of natures most powerful survivors. They have been on this planet ever since the early Ordovician Period and they have survived everything nature has to throw at them. They even survived the extinction of the dinosaurs 65 million years ago. And they even survived the Great Permian Extinction 240 Million Years ago.

Syd: Wow! They are that tough!? Incredible!

Heidi: I know. But that's what makes them one of natures most powerful and toughest survivors. But they were around almost just as long as Jellyfish.

Heidi showed them a tank full of Moon Jellyfish.

Heidi: Jellyfish have been around ever since this planet was still in its infancy. They've been around for 700 million years!

Everyone: WOW!

Maria: That's incredible!

Syd: I didn't know that! You're blowing my mind right now!

Carl: I never knew about that!

Horsea: Me neither.

They saw all kinds of awesome and colorful fish from all over the world and they were all so beautiful.

Later they were at lunch outside in the outdoor cafeteria and enjoying the beautiful view of Lake Huron.

Syd: Heidi, how do you know so much about fish?

Heidi: I'm actually a marine biologist.

Ronnie Anne: Wow! Are you really?

Heidi: Yep. Dr. Heidi Melissa Knudson, PhD and Professor of Marine Biology.

Syd: Oh that is so amazing!

Nico: I didn't know you were a Marine Biology Professor Heidi.

Heidi: You guys never asked.

Ronnie Anne: Touche.

Nico was looking out over the lake and he was seeing all the way over the United States-Canada Border.

Nico: It won't be long. Soon we'll be on Total Drama Galaxy, competing in another series of death-defying challenges and then we'll expose Billy McLean for being the most evil television host in all of history.

Syd: I can't believe that Billy McLean is that evil. When we face him he will pay for his crimes!

Ronnie Anne: We won't let him get away with all of this!

Nico: No we won't. He has failed this world and all of International Television.

Heidi: I wish we all can participate on Total Drama one last time and bring him down all together.

Nico: I think J.D. can talk that over with Chris and ask him. But we have 7 more months. So we got plenty of time.

Carl: That's true.

Then a deafening roar was heard!

RRRRROOOOOOOOOOOOOOOOOOOOOOOOAAAAARRRRRRR!

Nico: What was that!?

Syd: It sounds like a monster!

Suddenly out of the water roaring ferociously was a SEA DRAGON! It was a long and very powerful blue dragon with four webbed hand legs, powerful fins on his long neck and a tail with fins and he had razor sharp fangs and teeth and he had blue eyes!

Nico: Whoa! What a Sea Dragon!

Syd: I've never see a Sea Dragon before!

Then two figures appeared. It was two Gene-Slammers. One was half human, half dolphin and the other was half human, half humpback whale! And they didn't have clothes on.

Aquagirl: Are those two gene slammed girls? Because I don't see any clothes on them.

Nico: They ARE Gene-Slammers!

Sonarstorm: (Spanish Accent) My name's Sonarstorm. I used to be Caitlin Estevez.

Humpswim: (Russian Accent) And I'm Humpswim. I used to be Gina Semyon Petrikov.

Heidi: Let me tame this dragon.

Heidi went over to the dragon and put her hand on his head and it became her friend. It then glowed and turned into an awesome scythe and it was on Heidi's back.

Heidi: Wow! What a scythe!

Nico: Caitlin, Gina, was this the work of Dr…

Sonarstorm: Luther Paradigm? Yes it was.

Heidi: Were you two wearing wetsuits when you were gene-slammed?

Humpswim: Yes we were.

Maria: Good thing I brought extra clothes with me.

Heidi: I can cure you both and give you the ability to transform into your Gene-slammer forms at will. We have a bunch of others like you.

Humpswim: You would do that for us Heidi?

Heidi: I sure would. But just so you know, this is gonna hurt. Really bad.

Sonarstorm: We are ready Heidi.

Heidi: Okay. Boys you better cover your eyes.

The boys did so.

Heidi snapped her fingers and Caitlin and Gina changed back. Caitlin's skin changed back to human and Caitlin had brown hair and green eyes. Gina's skin changed back to human and she had blonde hair and blue eyes and she had a scar on her stomach in the shape of a crescent moon.

Heidi: Uh you girls are naked.

They covered themselves.

Caitlin (covers her naked body): YOU BOYS TAKE A LOOK AT MY BOOBS AND I'LL SNAP YOUR FUCKING NECKS!

Gina: Oh, c'mon, Caitlin! (strikes a pose) I don't mind the attention!

Nico: No way am I looking! If I look then Nicole and the Anti-Pervert Patrol are gonna beat the living shit out of me!

Carl: Me too!

Maria: Lets get you girls new clothes.

Maria pulled out two towels and took them to the women's bathroom. There they got changed. Caitlin had a grey T-shirt with dolphins on it, black pants with yellow pocket liners and black flattops and an ocean Sleeveless Trenchcoat with the kanji for Echo of the Dolphin on the back. イルカのエコー

Gina had a blue and grey t-shirt with humpback whales on it, blue pants, blue shoes like Lori's and a blue ocean Sleeveless Trench coat with whales on it. She also had the kanji for Gentleness of The Humpback Whale on it. ザトウクジラの優しさ

Caitlin: Wow! Maria these clothes are perfect! And they are absolutely comfy.

Gina: I look amazing! Maria you make really awesome clothes.

Maria: My friend Leni is an awesome fashionista and she taught me and Teresa how to make clothes.

Caitlin: She sure knows how to make awesome clothes.

Later they went back to the estate.

---

Back at the estate we were watching a documentary about the Apollo XI Mission on TV.

Poliwag gave Britney Crosby a pair of black sunglasses.

Poliwag (to Britney Crosby): Britney, have you considered getting black sunglasses for your outfit?

Britney: Black Sunglasses are perfect for it. Thanks Poliwag.

Me: Whoa! It was so cool how Apollo XI landed on the moon.

Laney: I know.

Me: (To the viewers) You're probably wondering what all that is about. Well today is July 20th, 2019 and today marks the 50th anniversary of when the Apollo XI Lander landed on the Moon. 50

years ago today, this marked the first ever time we landed on the moon 250,000 miles away from Earth and it was one of the biggest achievements ever known in the history of Mankind! Astronauts Neil Armstrong, Edwin Buzz Aldrin and Michael Collins became the first astronauts to ever land on the Moon. To help you understand, here's some Gratuitous Educational Information.

---

Apollo 11 was the spaceflight that first landed humans on the Moon. Commander Neil Armstrong and lunar module pilot Buzz Aldrin, was the crew (both Americans) that landed the Apollo Lunar Module Eagle on July 20, 1969, at 20:17 UTC. Armstrong became the first person to step onto the lunar surface six hours 39 minutes later on July 21 at 02:56 UTC; Aldrin joined him 19 minutes later. They spent about two and a quarter hours together outside the spacecraft, and collected 47.5 pounds (21.5 kg) of lunar material to bring back to Earth. Command module pilot Michael Collins flew the command module Columbia alone in lunar orbit while they were on the Moon's surface. Armstrong and Aldrin spent 21 hours 31 minutes on the lunar surface at a site they named Tranquility Base before lifting off to rejoin Columbia in lunar orbit.

Apollo 11 was launched by a Saturn V rocket from Kennedy Space Center on Merritt Island, Florida, on July 16 at 13:32 UTC, and was the fifth crewed mission of NASA's Apollo program. The Apollo spacecraft had three parts: a command module (CM) with a cabin for the three astronauts, and the only part that returned to Earth; a service module (SM), which supported the command module with propulsion, electrical power, oxygen, and water; and a lunar module (LM) that had two stages - a descent stage for landing on the Moon, and an ascent stage to place the astronauts back into lunar orbit.

After being sent to the Moon by the Saturn V's third stage, the astronauts separated the spacecraft from it and traveled for three days until they entered lunar orbit. Armstrong and Aldrin then moved into Eagle and landed in the Sea of Tranquility. The astronauts used Eagle's ascent stage to lift off from the lunar surface and rejoin Collins in the command module. They jettisoned Eagle before they performed the maneuvers that propelled the ship out of the last of its 30 lunar orbits on a trajectory back to Earth. They returned to Earth and splashed down in the Pacific Ocean on July 24 after more than eight days in space.

Armstrong's first step onto the lunar surface was broadcast on live TV to a worldwide audience. He described the event as "one small step for [a] man, one giant leap for mankind." Apollo 11 effectively ended the Space Race and fulfilled a national goal proposed in 1961 by President John F. Kennedy: "before this decade is out, of landing a man on the Moon and returning him safely to the Earth."

In the late 1950s and early 1960s, the United States was engaged in the Cold War, a geopolitical rivalry with the Soviet Union. On October 4, 1957, the Soviet Union launched Sputnik 1, the first artificial satellite. This surprise success fired fears and imaginations around the world. It demonstrated that the Soviet Union had the capability to deliver nuclear weapons over intercontinental distances, and challenged American claims of military, economic and technological superiority. This precipitated the Sputnik crisis, and triggered the Space Race. President Dwight D. Eisenhower responded to the Sputnik challenge by creating the National Aeronautics and Space Administration (NASA), and initiating Project Mercury, which aimed to launch a man into Earth orbit. But on April 12, 1961, Soviet cosmonaut Yuri Gagarin became the first person in space, and the first to orbit the Earth. It was another body blow to American pride. Nearly a month later, on May 5, 1961, Alan Shepard became the first American in space, completing a 15-minute suborbital journey. After being recovered from the Atlantic Ocean, he received a congratulatory telephone call from Eisenhower's successor, John F. Kennedy.

Kennedy believed it was in the national interest of the United States to be superior to other nations, and that the perception of American power was at least as important as the actuality. It was therefore intolerable that the Soviet Union was more advanced in the field of space exploration. He was determined that the United States should compete, and sought a challenge that maximized its chances of winning. Since the Soviet Union had better booster rockets, he required a challenge that was beyond the capacity of the existing generation of rocketry, one where the US and Soviet Union would be starting from a position of equality. Something spectacular, even if it could not be justified on military, economic or scientific grounds. After consulting with his experts and advisors, he chose such a project.

On May 25, 1961, Kennedy addressed the United States Congress on "Urgent National Needs" and declared:

I believe that this nation should commit itself to achieving the goal, before this decade is out, of landing a man on the Moon and returning him safely to the Earth. No single space project in this period will be more impressive to mankind, or more important for the long-range exploration of space; and none will be so difficult or expensive to accomplish. We propose to accelerate the development of the appropriate lunar space craft. We propose to develop alternate liquid and solid fuel boosters, much larger than any now being developed, until certain which is superior. We propose additional funds for other engine development and for unmanned explorations - explorations which are particularly important for one purpose which this nation will never overlook: the survival of the man who first makes this daring flight. But in a very real sense, it will not be one man going to the Moon - if we make this judgment affirmatively, it will be an entire nation. For all of us must work to put him there.

In spite of that, the proposed program faced the opposition of many Americans and was dubbed a "moondoggle" by Norbert Wiener, a mathematician at the Massachusetts Institute of Technology. The effort to land a man on the Moon already had a name: Project Apollo.

An early and crucial decision was choosing lunar orbit rendezvous over both direct ascent and Earth orbit rendezvous. A space rendezvous is an orbital maneuver in which two spacecraft navigate through space and meet up. In July 1962 NASA head James Webb announced that lunar orbit rendezvous would be used and that the Apollo spacecraft would have three major parts: a command module (CM) with a cabin for the three astronauts, and the only part that returned to Earth; a service module (SM), which supported the command module with propulsion, electrical power, oxygen, and water; and a lunar module (LM) that had two stages - a descent stage for landing on the Moon, and an ascent stage to place the astronauts back into lunar orbit. This design meant that the spacecraft could be launched by a single Saturn V rocket that was then under development.

Technologies and techniques required for Apollo were developed by Project Gemini. Project Apollo was abruptly halted by the Apollo 1 fire on January 27, 1967, in which astronauts Gus Grissom, Ed White, and Roger B. Chaffee died, and the subsequent investigation. In October 1968, Apollo 7 evaluated the command module in Earth orbit, and in December Apollo 8 tested it in lunar orbit. In March 1969, Apollo 9 put the lunar module through its paces in Earth orbit, and in May Apollo 10 conducted a "dress rehearsal" in lunar orbit. By July 1969, all was in readiness for Apollo 11 to take the final step onto the Moon.

The Soviet Union competed with the US in the Space Race, but its early lead was lost through repeated failures in development of the N1 launcher, which was comparable to the Saturn V. The Soviets tried to beat the US to return lunar material to the Earth by means of uncrewed probes. On July 13, three days before Apollo 11's launch, the Soviet Union launched Luna 15, which reached lunar orbit before Apollo 11. During descent, a malfunction caused Luna 15 to crash in Mare Crisium about two hours before Armstrong and Aldrin took off from the Moon's surface to begin their voyage home. The Nuffield Radio Astronomy Laboratories radio telescope in England recorded transmissions from Luna 15 during its descent, and these were released in July 2009 for the 40th anniversary of Apollo 11.

The Apollo 11 mission emblem was designed by Collins, who wanted a symbol for "peaceful lunar landing by the United States". At Lovell's suggestion, he chose the bald eagle, the national bird of the United States, as the symbol. Tom Wilson, a simulator instructor, suggested that they put an olive branch in its beak to represent their peaceful mission. Collins added a lunar background with the Earth in the distance. The sunlight in the image was coming from the wrong direction; the shadow should have been in the lower part of the Earth instead of the left. Aldrin, Armstrong and Collins decided that the Eagle and the Moon would be in their natural colors, and decided on a blue and gold border. Armstrong was concerned that "eleven" would not be understood by non-English speakers, so they went with "Apollo 11", and they decided not to put their names on the patch, so it would "be representative of everyone who had worked toward a lunar landing".

An illustrator at the MSC did the artwork, which was then sent off to NASA officials for approval. The design was rejected. Bob Gilruth, the director of the MSC felt that the talons of the eagle looked "too warlike". After some discussion, the olive branch was moved to the talons. When the Eisenhower dollar coin was released in 1971, the patch design provided the eagle for its reverse side. The design was also used for the smaller Susan B. Anthony dollar unveiled in 1979.

After the crew of Apollo 10 named their spacecraft Charlie Brown and Snoopy, assistant manager for public affairs Julian Scheer wrote to George M. Low, the Manager of the Apollo Spacecraft Program Office at the Manned Spacecraft Center (MSC), to suggest the Apollo 11 crew be less flippant in naming their craft. The name Snowcone was used for the CM and Haystack was used for the LM in both internal and external communications during early mission planning.

The LM was named Eagle after the motif which was featured prominently on the mission insignia. At Scheer's suggestion, the CM was named Columbia after Columbiad, the giant cannon that launched a spacecraft (also from Florida) in Jules Verne's 1865 novel From the Earth to the Moon. It also referenced Columbia, a historical name of the United States. In Collins' 1976 book, he said Columbia was in reference to Christopher Columbus.

The astronauts had personal preference kits (PPKs), small bags containing personal items of significance that they wanted to take with them on the mission. Five 0.5-pound (0.23 kg) PPKs were carried on Apollo 11: three (one for each astronaut) were stowed on Columbia before launch, and two on Eagle.

Neil Armstrong's LM PPK contained a piece of wood from the Wright brothers' 1903 Wright Flyer's left propeller and a piece of fabric from its wing, along with a diamond-studded astronaut pin originally given to Slayton by the widows of the Apollo 1 crew. This pin had been intended to be flown on that mission and given to Slayton afterwards, but following the disastrous launch pad fire and subsequent funerals, the widows gave the pin to Slayton. Armstrong took it with him on Apollo 11.

NASA's Apollo Site Selection Board announced five potential landing sites on February 8, 1968. These were the result of two years' worth of studies based on high-resolution photography of the lunar surface by the five uncrewed probes of the Lunar Orbiter program and information about surface conditions provided by the Surveyor program. The best Earth-bound telescopes could not resolve features with the resolution Project Apollo required. The landing site had to be close to the lunar equator to minimize the amount of propellant required, clear of obstacles to minimize maneuvering, and flat to simplify the task of the landing radar. Scientific value was not a consideration.

Areas that appeared promising on photographs taken on Earth were often found to be totally unacceptable. The original requirement that the site be free of craters had to be relaxed, as no such site was found. Five sites were considered: Sites 1 and 2 were in the Sea of Tranquility (Mare Tranquilitatis); Site 3 was in the Central Bay (Sinus Medii); and Sites 4 and 5 were in the Ocean of Storms (Oceanus Procellarum). The final site selection was based on seven criteria:

The site needed to be smooth, with relatively few craters; with approach paths free of large hills, tall cliffs or deep craters that might confuse the landing radar and cause it to issue incorrect readings; reachable with a minimum amount of propellant; allowing for delays in the launch countdown; providing the Apollo spacecraft with a free-return trajectory, one that would allow it to coast around the Moon and safely return to Earth without requiring any engine firings should a problem arise on the way to the Moon; with good visibility during the landing approach, meaning that the Sun would be between 7 and 20 degrees behind the LM; and a general slope of less than 2 degrees in the landing area.

The requirement for the Sun angle was particularly restrictive, limiting the launch date to one day per month. A landing just after dawn was chosen to limit the temperature extremes the astronauts would experience. The Apollo Site Selection Board selected Site 2, with Sites 3 and 5 as backups in the event of the launch being delayed. In May 1969, Apollo 10's lunar module flew to within 15 kilometers (9.3 mi) of Site 2, and reported that it was acceptable.

During the first press conference after the Apollo 11 crew was announced, the first question was, "Which one of you gentlemen will be the first man to step onto the lunar surface?" Slayton told the reporter that it had not been decided, and Armstrong added that it was "not based on individual desire".

One of the first versions of the egress checklist had the lunar module pilot exit the spacecraft before the command module pilot, which matched what had been done in previous missions. The commander had never performed the spacewalk. Reporters wrote in early 1969 that Aldrin would be the first to walk on the Moon, and Associate Administrator George Mueller told reporters he would be the first as well. Aldrin heard that Armstrong would be the first to step on the Moon because Armstrong was a civilian, which made Aldrin livid. Aldrin attempted to persuade other lunar module pilots he should be first, but they responded cynically about what they perceived as a lobbying campaign. Attempting to stem interdepartmental conflict, Slayton told Aldrin that Armstrong would be first since he was the commander. The decision was announced in a press conference on April 14, 1969.

For decades, Aldrin believed the final decision was largely driven by the lunar module's hatch location. Because the astronauts had their spacesuits on and the spacecraft was so small, maneuvering to exit the spacecraft was difficult. The crew tried a simulation in which Aldrin left the spacecraft first, but he damaged the simulator while attempting to egress. While this was enough for mission planners to make their decision, Aldrin and Armstrong were left in the dark on the decision until late spring. Slayton told Armstrong the plan was to have him leave the spacecraft first, if he agreed. Armstrong said, "Yes, that's the way to do it."

The media accused Armstrong of exercising his commander's prerogative to exit the spacecraft first. Chris Kraft revealed in his 2001 autobiography that a meeting occurred between Gilruth, Slayton, Low, and himself to make sure Aldrin would not be the first to walk on the Moon. They argued that the first person to walk on the Moon should be like Charles Lindbergh, a calm and quiet person. They made the decision to change the flight plan so the commander was the first to egress from the spacecraft.

The ascent stage of lunar module LM-5 arrived at the Kennedy Space Center on January 8, 1969, followed by the descent stage four days later, and Command and Service Module CM-107 on January 23. There were several differences between LM-5 and Apollo 10's LM-4; LM-5 had a VHF radio antenna to facilitate communication with the astronauts during their EVA on the lunar surface; a lighter ascent engine; more thermal protection on the landing gear; and a package of scientific experiments known as the Early Apollo Scientific Experiments Package (EASEP). The only change in the configuration of the command module was the removal of some insulation from the forward hatch.[84][85] The command and service modules were mated on January 29, and moved from the Operations and Checkout Building to the Vehicle Assembly Building on April 14.

The S-IVB third stage of Saturn V AS-506 had arrived on January 18, followed by the S-II second stage on February 6, S-IC first stage on February 20, and the Saturn V Instrument Unit on February 27. At 1230 on May 20, the 5,443-tonne (5,357-long-ton; 6,000-short-ton) assembly departed the Vehicle Assembly Building atop the crawler-transporter, bound for Launch Pad 39A, part of Launch Complex 39, while Apollo 10 was still on its way to the Moon. A countdown test commenced on June 26, and concluded on July 2. The launch complex was floodlit on the night of July 15, when the crawler-transporter carried the mobile service structure back to its parking area. In the early hours of the morning, the fuel tanks of the S-II and S-IVB stages were filled with liquid hydrogen. Fueling was completed by three hours before launch. Launch operations were partly automated, with 43 programs written in the ATOLL programming language.

Slayton roused the crew shortly after 0400, and they showered, shaved, and had the traditional pre-flight breakfast of steak and eggs with Slayton and the backup crew. They then donned their space suits and began breathing pure oxygen. At 0630, they headed out to Launch Complex 39. Haise entered Columbia about three hours and ten minutes before launch time. Along with a technician, he helped Armstrong into the left hand couch at 06:54. Five minutes later, Collins joined him, taking up his position on the right hand couch. Finally, Aldrin entered, taking the center couch. Haise left around two hours and ten minutes before launch. The closeout crew sealed the hatch, and the cabin was purged and pressurized. The closeout crew then left the launch complex about an hour before launch time. The countdown became automated at three minutes and twenty seconds before launch time. Over 450 personnel were at the consoles in the firing room.

The Apollo 11 Saturn V space vehicle lifts off with Astronauts Neil A. Armstrong, Michael Collins and Edwin E. Aldrin Jr. at 9:32 a.m. EDT July 16, 1969, from Kennedy Space Center's Launch Complex 39A.

An estimated one million spectators watched the launch of Apollo 11 from the highways and beaches in the vicinity of the launch site. Dignitaries included the Chief of Staff of the United States Army, General William Westmoreland, four cabinet members, 19 state governors, 40 mayors, 60 ambassadors and 200 congressmen. Vice President Spiro Agnew viewed the launch with the former president, Lyndon B. Johnson and his wife Lady Bird Johnson. Around 3,500 media representatives were present. About two-thirds were from the United States; the rest came from 55 other countries. The launch was televised live in 33 countries, with an estimated 25 million viewers in the United States alone. Millions more around the world listened to radio broadcasts. President Richard Nixon viewed the launch from his office in the White House with his NASA liaison officer, Apollo astronaut Frank Borman.

Saturn V AS-506 launched Apollo 11 on July 16, 1969, at 13:32:00 UTC (9:32:00 EDT).[1] At 13.2 seconds into the flight, the launch vehicle began to roll into its flight azimuth of 72.058°. Full shutdown of the first-stage engines occurred about 2 minutes and 42 seconds into the mission, followed by separation of the S-IC and ignition of the S-II engines. The second stage engines then cut-off and separated at about 9 minutes and 8 seconds, allowing the first ignition of the S-IVB engine a few seconds later.

Apollo 11 entered Earth orbit at an altitude of 100.4 nautical miles (185.9 km) by 98.9 nautical miles (183.2 km), twelve minutes into its flight. After one and a half orbits, a second ignition of the S-IVB engine pushed the spacecraft onto its trajectory toward the Moon with the trans-lunar injection (TLI) burn at 16:22:13 UTC. About 30 minutes later, with Collins in the left seat and at the controls, the transposition, docking, and extraction maneuver was performed. This involved separating Columbia from the spent S-IVB stage, turning around, and docking with Eagle still attached to the stage. After the LM was extracted, the combined spacecraft headed for the Moon, while the rocket stage flew on a trajectory past the Moon. This was done to avoid the third stage colliding with the spacecraft, the Earth, or the Moon. A slingshot effect from passing around the Moon threw it into an orbit around the Sun.

On July 19 at 17:21:50 UTC, Apollo 11 passed behind the Moon and fired its service propulsion engine to enter lunar orbit.[3][96] In the thirty orbits that followed, the crew saw passing views of their landing site in the southern Sea of Tranquility about 12 miles (19 km) southwest of the crater Sabine D. The site was selected in part because it had been characterized as relatively flat and smooth by the automated Ranger 8 and Surveyor 5 landers and the Lunar Orbiter mapping spacecraft and unlikely to present major landing or EVA challenges. It lay about 25 kilometers (16 mi) southeast of the Surveyor 5 landing site, and 68 kilometers (42 mi) southwest of Ranger 8's crash site.

At 12:52:00 UTC on July 20, Aldrin and Armstrong entered Eagle, and began the final preparations for lunar descent. At 17:44:00 Eagle separated from Columbia. Collins, alone aboard Columbia, inspected Eagle as it pirouetted before him to ensure the craft was not damaged, and that the landing gear was correctly deployed. Armstrong exclaimed: "The Eagle has wings!"

As the descent began, Armstrong and Aldrin found that they were passing landmarks on the surface two or three seconds early, and reported that they were "long"; they would land miles west of their target point. Eagle was traveling too fast. The problem could have been mascons - concentrations of high mass that could have altered the trajectory. Flight Director Gene Kranz speculated that it could have resulted from extra air pressure in the docking tunnel. Or it could have been the result of Eagle's pirouette maneuver.

Five minutes into the descent burn, and 6,000 feet (1,800 m) above the surface of the Moon, the LM guidance computer (LGC) distracted the crew with the first of several unexpected 1201 and 1202 program alarms. Inside Mission Control Center, computer engineer Jack Garman told Guidance Officer Steve Bales it was safe to continue the descent, and this was relayed to the crew. The program alarms indicated "executive overflows", meaning the guidance computer could not complete all its tasks in real time and had to postpone some of them. Margaret Hamilton, the Director of Apollo Flight Computer Programming at the MIT Charles Stark Draper Laboratory later recalled:

To blame the computer for the Apollo 11 problems is like blaming the person who spots a fire and calls the fire department. Actually, the computer was programmed to do more than recognize error conditions. A complete set of recovery programs was incorporated into the software. The software's action, in this case, was to eliminate lower priority tasks and re-establish the more important ones. The computer, rather than almost forcing an abort, prevented an abort. If the computer hadn't recognized this problem and taken recovery action, I doubt if Apollo 11 would have been the successful Moon landing it was.

During the mission, the cause was diagnosed as the rendezvous radar switch being in the wrong position, causing the computer to process data from both the rendezvous and landing radars at the same time.[106][107] Software engineer Don Eyles concluded in a 2005 Guidance and Control Conference paper that the problem was due to a hardware design bug previously seen during testing of the first uncrewed LM in Apollo 5. Having the rendezvous radar on (so that it was warmed up in case of an emergency landing abort) should have been irrelevant to the computer, but an electrical phasing mismatch between two parts of the rendezvous radar system could cause the stationary antenna to appear to the computer as dithering back and forth between two positions, depending upon how the hardware randomly powered up. The extra spurious cycle stealing, as the rendezvous radar updated an involuntary counter, caused the computer alarms.

When Armstrong again looked outside, he saw that the computer's landing target was in a boulder-strewn area just north and east of a 300-foot (91 m) diameter crater (later determined to be West crater), so he took semi-automatic control. Armstrong considered landing short of the boulder field so they could collect geological samples from it, but could not since their horizontal velocity was too fast. Throughout the descent, Aldrin called out navigation data to Armstrong, who was busy piloting Eagle. Now 107 feet (33 m) above the surface, Armstrong knew their propellant supply was dwindling and was determined to land at the first possible landing site.

Armstrong found a clear patch of ground and maneuvered the spacecraft towards it. As he got closer, now 250 feet (76 m) above the surface, he discovered his new landing site had a crater in it. He cleared the crater and found another patch of level ground. They were now 100 feet (30 m) from the surface, with only 90 seconds of propellant remaining. Lunar dust kicked up by the LM's engine began to obfuscate his ability to determine the spacecraft's motion. Some large rocks jutted out of the dust cloud, and Armstrong focused on them during his descent so he could determine the spacecraft's speed.

A light informed Aldrin that at least one of the 67-inch (170 cm) probes hanging from Eagle's footpads had touched the surface a few moments before the landing and he said: "Contact light!" Armstrong was supposed to immediately shut the engine down, as the engineers suspected the pressure caused by the engine's own exhaust reflecting off the lunar surface could make it explode, but he forgot. Three seconds later, Eagle landed and Armstrong shut the engine down. Aldrin immediately said "Okay, engine stop. ACA - out of detent." Armstrong acknowledged: "Out of detent. Auto." Aldrin continued: "Mode control - both auto. Descent engine command override off. Engine arm - off. 413 is in."

ACA was the Attitude Control Assembly - the LM's control stick. Output went to the LGC to command the reaction control system (RCS) jets to fire. "Out of Detent" meant that the stick had moved away from its centered position; it was spring-centered like the turn indicator in a car. LGC address 413 contained the variable that indicated the LM had landed.

Eagle landed at 20:17:40 UTC on Sunday July 20 with 216 pounds (98 kg) of usable fuel remaining. Information available to the crew and mission controllers during the landing showed that the LM had enough fuel for another 25 seconds of powered flight before an abort without touchdown would have become unsafe, but post-mission analysis showed that the real figure was probably closer to 50 seconds. Apollo 11 landed with less fuel than most subsequent missions, and the astronauts encountered a premature low fuel warning. This was later found to be the result of greater propellant 'slosh' than expected, uncovering a fuel sensor. On subsequent missions, extra anti-slosh baffles were added to the tanks to prevent this.

Armstrong acknowledged Aldrin's completion of the post landing checklist with "Engine arm is off", before responding to the CAPCOM, Charles Duke, with the words, "Houston, Tranquility Base here. The Eagle has landed." Armstrong's unrehearsed change of call sign from "Eagle" to "Tranquility Base" emphasized to listeners that landing was complete and successful. Duke mispronounced his reply as he expressed the relief at Mission Control: "Roger, Twan-Tranquility, we copy you on the ground. You got a bunch of guys about to turn blue. We're breathing again. Thanks a lot."

This is the LM pilot. I'd like to take this opportunity to ask every person listening in, whoever and wherever they may be, to pause for a moment and contemplate the events of the past few hours and to give thanks in his or her own way.

He then took communion privately. At this time NASA was still fighting a lawsuit brought by atheist Madalyn Murray O'Hair (who had objected to the Apollo 8 crew reading from the Book of Genesis) demanding that their astronauts refrain from broadcasting religious activities while in space. As such, Aldrin chose to refrain from directly mentioning taking communion on the Moon. Aldrin was an elder at the Webster Presbyterian Church, and his communion kit was prepared by the pastor of the church, Dean Woodruff. Webster Presbyterian possesses the chalice used on the Moon and commemorates the event each year on the Sunday closest to July 20. The schedule for the mission called for the astronauts to follow the landing with a five-hour sleep period, but they chose to begin the preparations for the EVA early, thinking that they would be unable to sleep.

Preparations for the two astronauts to walk on the Moon began at

23:43. These took longer than expected; three and a half hours instead of two. During training on Earth, everything required had been neatly laid out in advance, but on the Moon the cabin contained a large number of other items as well, such as checklists, food packets, and tools. Once Armstrong and Aldrin were ready to go outside, Eagle was depressurized.

Eagle's hatch was opened at 02:39:33. Armstrong initially had some difficulties squeezing through the hatch with his portable life support system (PLSS). Some of the highest heart rates recorded from Apollo astronauts occurred during LM egress and ingress. At 02:51 Armstrong began his descent to the lunar surface. The remote control unit on his chest kept him from seeing his feet. Climbing down the nine-rung ladder, Armstrong pulled a D-ring to deploy the modular equipment stowage assembly (MESA) folded against Eagle's side and activate the TV camera.

Apollo 11 used slow-scan television (TV) incompatible with broadcast TV, so it was displayed on a special monitor and a conventional TV camera viewed this monitor, significantly reducing the quality of the picture. The signal was received at Goldstone in the United States, but with better fidelity by Honeysuckle Creek Tracking Station near Canberra in Australia. Minutes later the feed was switched to the more sensitive Parkes radio telescope in Australia. Despite some technical and weather difficulties, ghostly black and white images of the first lunar EVA were received and broadcast to at least 600 million people on Earth. Copies of this video in broadcast format were saved and are widely available, but recordings of the original slow scan source transmission from the lunar surface were likely destroyed during routine magnetic tape re-use at NASA.

While still on the ladder, Armstrong uncovered a plaque mounted on the LM descent stage bearing two drawings of Earth (of the Western and Eastern Hemispheres), an inscription, and signatures of the astronauts and President Nixon. The inscription read:

Here men from the planet Earth first set foot upon the Moon, July 1969, A.D. We came in peace for all mankind.

At the behest of the Nixon administration to add a reference to God, NASA "shrewdly" included the vague date as a reason to include A.D., which stands for Anno Domini, "in the year of our Lord".

After describing the surface dust as "very fine-grained" and "almost like a powder", at 02:56:15, six and a half hours after landing, Armstrong stepped off Eagle's footpad and declared: "That's one small step for [a] man, one giant leap for mankind."

Armstrong intended to say "That's one small step for a man", but the word "a" is not audible in the transmission, and thus was not initially reported by most observers of the live broadcast. When later asked about his quote, Armstrong said he believed he said "for a man", and subsequent printed versions of the quote included the "a" in square brackets. One explanation for the absence may be that his accent caused him to slur the words "for a" together; another is the intermittent nature of the audio and video links to Earth, partly because of storms near Parkes Observatory. More recent digital analysis of the tape claims to reveal the "a" may have been spoken but obscured by static.

About seven minutes after stepping onto the Moon's surface, Armstrong collected a contingency soil sample using a sample bag on a stick. He then folded the bag and tucked it into a pocket on his right thigh. This was to guarantee there would be some lunar soil brought back in case an emergency required the astronauts to abandon the EVA and return to the LM. Twelve minutes after the sample was collected, he removed the TV camera from the MESA and made a panoramic sweep, then mounted it on a tripod. The TV camera cable remained partly coiled and presented a tripping hazard throughout the EVA. Still photography was accomplished with a Hasselblad camera which could be operated hand held or mounted on Armstrong's Apollo space suit. Aldrin joined Armstrong on the surface. He described the view with the simple phrase: "Magnificent desolation."

Armstrong said that moving in the lunar gravity, one-sixth of Earth's, was "even perhaps easier than the simulations… It's absolutely no trouble to walk around."[9] Aldrin joined him on the surface and tested methods for moving around, including two-footed kangaroo hops. The PLSS backpack created a tendency to tip backward, but neither astronaut had serious problems maintaining balance. Loping became the preferred method of movement. The astronauts reported that they needed to plan their movements six or seven steps ahead. The fine soil was quite slippery. Aldrin remarked that moving from sunlight into Eagle's shadow produced no temperature change inside the suit, but the helmet was warmer in sunlight, so he felt cooler in shadow. The MESA failed to provide a stable work platform and was in shadow, slowing work somewhat. As they worked, the moonwalkers kicked up gray dust which soiled the outer part of their suits.

The astronauts planted the Lunar Flag Assembly containing a flag of the United States on the lunar surface, in clear view of the TV camera. Aldrin remembered, "Of all the jobs I had to do on the Moon the one I wanted to go the smoothest was the flag raising." But the astronauts struggled with the telescoping rod and could only jam the pole a couple of inches (5 cm) into the hard lunar surface. Aldrin was afraid it might topple in front of TV viewers. But he gave "a crisp West Point salute". Before Aldrin could take a photo of Armstrong with the flag, President Richard Nixon spoke to them through a telephone-radio transmission which Nixon called "the most historic phone call ever made from the White House." Nixon originally had a long speech prepared to read during the phone call, but Frank Borman, who was at the White House as a NASA liaison during Apollo 11, convinced Nixon to keep his words brief.

Nixon: Hello, Neil and Buzz. I'm talking to you by telephone from the Oval Room at the White House. And this certainly has to be the most historic telephone call ever made. I just can't tell you how proud we all are of what you've done. For every American, this has to be the proudest day of our lives. And for people all over the world, I am sure they too join with Americans in recognizing what an immense feat this is. Because of what you have done, the heavens have become a part of man's world. And as you talk to us from the Sea of Tranquility, it inspires us to redouble our efforts to bring peace and tranquility to Earth. For one priceless moment in the whole history of man, all the people on this Earth are truly one: one in their pride in what you have done, and one in our prayers that you will return safely to Earth.

Armstrong: Thank you, Mr. President. It's a great honor and privilege for us to be here, representing not only the United States, but men of peace of all nations, and with interest and curiosity, and men with a vision for the future. It's an honor for us to be able to participate here today.

They deployed the EASEP, which included a passive seismic experiment package used to measure moonquakes and a retroreflector array used for the lunar laser ranging experiment. Then Armstrong walked 196 feet (60 m) from the LM to snap photos at the rim of Little West Crater while Aldrin collected two core samples. He used the geologist's hammer to pound in the tubes - the only time the hammer was used on Apollo 11, but was unable to penetrate more than 6 inches (15 cm) deep. The astronauts then collected rock samples using scoops and tongs on extension handles. Many of the surface activities took longer than expected, so they had to stop documenting sample collection halfway through the allotted 34 minutes. Aldrin shoveled 6 kilograms (13 lb) of soil into the box of rocks in order to pack them in tightly. Two types of rocks were found in the geological samples: basalt and new minerals were discovered in the rock samples collected by the astronauts: armalcolite, tranquillityite, and pyroxferroite. Armalcolite was named after Armstrong, Aldrin, and Collins. All have subsequently been found on Earth.

Mission Control used a coded phrase to warn Armstrong that his metabolic rates were high, and that he should slow down. He was moving rapidly from task to task as time ran out. As metabolic rates remained generally lower than expected for both astronauts throughout the walk, Mission Control granted the astronauts a 15-minute extension. In a 2010 interview, Armstrong explained that NASA limited the first moonwalk's time and distance because there was no empirical proof of how much cooling water the astronauts' PLSS backpacks would consume to handle their body heat generation while working on the Moon.

Aldrin entered Eagle first. With some difficulty the astronauts lifted film and two sample boxes containing 21.55 kilograms (47.5 lb) of lunar surface material to the LM hatch using a flat cable pulley device called the Lunar Equipment Conveyor (LEC). This proved to be an inefficient tool, and later missions preferred to carry equipment and samples up to the LM by reminded Aldrin of a bag of memorial items in his sleeve pocket, and Aldrin tossed the bag down. Armstrong then jumped onto the ladder's third rung, and climbed into the LM. After transferring to LM life support, the explorers lightened the ascent stage for the return to lunar orbit by tossing out their PLSS backpacks, lunar overshoes, an empty Hasselblad camera, and other equipment. The hatch was closed again at 05:11:13. They then pressurized the LM and settled down to sleep.

Presidential speech writer William Safire had prepared an In Event of Moon Disaster announcement for Nixon to read in the event the Apollo 11 astronauts were stranded on the Moon. The remarks were in a memo from Safire to Nixon's White House Chief of Staff H. R. Haldeman, in which Safire suggested a protocol the administration might follow in reaction to such a disaster. According to the plan, Mission Control would "close down communications" with the LM, and a clergyman would "commend their souls to the deepest of the deep" in a public ritual likened to burial at sea. The last line of the prepared text contained an allusion to Rupert Brooke's First World War poem, "The Soldier".

While moving inside the cabin, Aldrin accidentally damaged the circuit breaker that would arm the main engine for lift off from the Moon. There was a concern this would prevent firing the engine, stranding them on the Moon. However, a felt-tip pen was sufficient to activate the switch; had this not worked, the LM circuitry could have been reconfigured to allow firing the ascent engine.

After more than 21 1⁄2 hours on the lunar surface, in addition to the scientific instruments, the astronauts left behind: an Apollo 1 mission patch in memory of astronauts Roger Chaffee, Gus Grissom, and Edward White, who died when their command module caught fire during a test in January 1967; two memorial medals of Soviet cosmonauts Vladimir Komarov and Yuri Gagarin, who died in 1967 and 1968 respectively; a memorial bag containing a gold replica of an olive branch as a traditional symbol of peace; and a silicon message disk carrying the goodwill statements by Presidents Eisenhower, Kennedy, Johnson, and Nixon along with messages from leaders of 73 countries around the world. The disk also carries a listing of the leadership of the US Congress, a listing of members of the four committees of the House and Senate responsible for the NASA legislation, and the names of NASA's past and present top management.

After about seven hours of rest, the crew was awakened by Houston to prepare for the return flight. Two and a half hours later, at 17:54:00 UTC, they lifted off in Eagle's ascent stage to rejoin Collins aboard Columbia in lunar orbit. Film taken from the LM ascent stage upon liftoff from the Moon reveals the American flag, planted some 25 feet (8 m) from the descent stage, whipping violently in the exhaust of the ascent stage engine. Aldrin looked up in time to witness the flag topple: "The ascent stage of the LM separated… I was concentrating on the computers, and Neil was studying the attitude indicator, but I looked up long enough to see the flag fall over." Subsequent Apollo missions usually planted the American flags farther from the LM to prevent them being blown over by the ascent engine exhaust.

During his day flying solo around the Moon, Collins never felt lonely. Although it has been said "not since Adam has any human known such solitude", Collins felt very much a part of the mission. In his autobiography he wrote: "this venture has been structured for three men, and I consider my third to be as necessary as either of the other two". In the 48 minutes of each orbit when he was out of radio contact with the Earth while Columbia passed round the far side of the Moon, the feeling he reported was not fear or loneliness, but rather "awareness, anticipation, satisfaction, confidence, almost exultation".

One of Collins' first tasks was to identify the lunar module on the ground. To give Collins an idea where to look, Mission Control radioed that they believed the lunar module landed about four miles off target. Each time he passed over the suspected lunar landing site, he tried in vain to find the module. On his first orbits on the back side of the Moon, Collins performed maintenance activities such as dumping excess water produced by the fuel cells and preparing the cabin for Armstrong and Aldrin to return.

Just before he reached the dark side on the third orbit, Mission Control informed Collins that there was a problem with the temperature of the coolant. If it became too cold, parts of Columbia might freeze. Mission Control advised him to assume manual control and implement Environmental Control System Malfunction Procedure 17. Instead, Collins flicked the switch on the offending system from automatic to manual and back to automatic again, and carried on with normal housekeeping chores, while keeping an eye on the temperature. When Columbia came back around to the near side of the Moon again, he was able to report that the problem had been resolved. For the next couple of orbits, he described his time on the back side of the Moon as "relaxing". After Aldrin and Armstrong completed their EVA, Collins slept so he could be rested for the rendezvous. While the flight plan called for Eagle to meet up with Columbia, Collins was prepared for certain contingencies[which?] in which he would fly Columbia down to meet Eagle.

Eagle rendezvoused with Columbia at 21:24 UTC on July 21, and the two docked at 21:35. Eagle's ascent stage was jettisoned into lunar orbit at 23:41. Just before the Apollo 12 flight, it was noted that Eagle was still likely to be orbiting the Moon. Later NASA reports mentioned that Eagle's orbit had decayed, resulting in it impacting in an "uncertain location" on the lunar surface.

On July 23, the last night before splashdown, the three astronauts made a television broadcast in which Collins commented:

… The Saturn V rocket which put us in orbit is an incredibly complicated piece of machinery, every piece of which worked flawlessly… We have always had confidence that this equipment will work properly. All this is possible only through the blood, sweat, and tears of a number of people… All you see is the three of us, but beneath the surface are thousands and thousands of others, and to all of those, I would like to say, "Thank you very much."

Aldrin added:

This has been far more than three men on a mission to the Moon; more, still, than the efforts of a government and industry team; more, even, than the efforts of one nation. We feel that this stands as a symbol of the insatiable curiosity of all mankind to explore the unknown… Personally, in reflecting on the events of the past several days, a verse from Psalms comes to mind. "When I consider the heavens, the work of Thy fingers, the Moon and the stars, which Thou hast ordained; What is man that Thou art mindful of him?"The responsibility for this flight lies first with history and with the giants of science who have preceded this effort; next with the American people, who have, through their will, indicated their desire; next with four administrations and their Congresses, for implementing that will; and then, with the agency and industry teams that built our spacecraft, the Saturn, the Columbia, the Eagle, and the little EMU, the spacesuit and backpack that was our small spacecraft out on the lunar surface. We would like to give special thanks to all those Americans who built the spacecraft; who did the construction, design, the tests, and put their hearts and all their abilities into those craft. To those people tonight, we give a special thank you, and to all the other people that are listening and watching tonight, God bless you. Good night from Apollo 11."

On the return to Earth, a bearing at the Guam tracking station failed, potentially preventing communication on the last segment of the Earth return. A regular repair was not possible in the available time but the station director, Charles Force, had his ten-year-old son Greg use his small hands to reach into the housing and pack it with grease. Greg was later thanked by Armstrong.

The aircraft carrier USS Hornet, under the command of Captain Carl J. Seiberlich, was selected as the primary recovery ship (PRS) for Apollo 11 on June 5, replacing its sister ship, the LPH USS Princeton, which had recovered Apollo 10 on May 26. Hornet was then at her home port of Long Beach, California. On reaching Pearl Harbor on July 5, Hornet embarked the Sikorsky SH-3 Sea King helicopters of HS-4, a unit which specialized in recovery of Apollo spacecraft, specialized divers of UDT Detachment Apollo, a 35-man NASA recovery team, and about 120 media representatives. To make room, most of Hornet's air wing was left behind in Long Beach. Special recovery equipment was also loaded, including a boilerplate command module used for training.

On July 12, with Apollo 11 still on the launch pad, Hornet departed Pearl Harbor for the recovery area in the central Pacific, in the vicinity of 10°36′N 172°24′E. A presidential party consisting of Nixon, Borman, Secretary of State William P. Rogers and National Security Advisor Henry Kissinger flew to Johnston Atoll on Air Force One, then to the command ship USS Arlington in Marine One. After a night on board, they would fly to Hornet in Marine One for a few hours of ceremonies. On arrival aboard Hornet, the party was greeted by the Commander-in-Chief, Pacific Command (CINCPAC), Admiral John S. McCain Jr., and NASA Administrator Thomas O. Paine, who flew to Hornet from Pago Pago in one of Hornet's carrier onboard delivery aircraft.

Weather satellites were not yet common, but US Air Force Captain Hank Brandli had access to top secret spy satellite images. He realized that a storm front was headed for the Apollo recovery area. Poor visibility was a serious threat to the mission; if the helicopters could not locate Columbia, the spacecraft, its crew, and its priceless cargo of Moon rocks might be lost. Brandli alerted Navy Captain Willard S. Houston Jr., the commander of the Fleet Weather Center at Pearl Harbor, who had the required security clearance. On their recommendation, Rear Admiral Donald C. Davis, the commander of Manned Spaceflight Recovery Forces, Pacific, advised NASA to change the recovery area. This was done; a new one was designated, 215 nautical miles (398 km) northeast of the original.

This altered the flight plan. A different sequence of computer programs was used, one never before attempted. In a conventional entry, P64 was followed by P67. For a skip-out re-entry, P65 and P66 were employed to handle the exit and entry parts of the skip. In this case, because they were extending the re-entry but not actually skipping out, P66 was not invoked and instead P65 led directly to P67. The crew were also warned that they would not be in a full-lift (heads-down) attitude when they entered P67. The first program's acceleration subjected the astronauts to 6.5 standard gravities (64 m/s2); the second, to 6.0 standard gravities (59 m/s2).

Before dawn on July 24, Hornet launched four Sea King helicopters and three Grumman E-1 Tracers. Two of the E-1s were designated as "air boss" while the third acted as a communications relay aircraft. Two of the Sea Kings carried divers and recovery equipment. The third carried photographic equipment, and the fourth carried the decontamination swimmer and the flight surgeon. At

16:44 UTC (05:44 local time) Columbia's drogue parachutes were deployed. This was observed by the helicopters. Seven minutes later Columbia struck the water forcefully 2,660 km (1,440 nmi) east of Wake Island, 380 km (210 nmi) south of Johnston Atoll, and 24 km (13 nmi) from Hornet, at 13°19′N 169°9′W. During splashdown, Columbia landed upside down but was righted within ten minutes by flotation bags activated by the astronauts. A diver from the Navy helicopter hovering above attached a sea anchor to prevent it from drifting. More divers attached flotation collars to stabilize the module and positioned rafts for astronaut extraction.

The divers then passed biological isolation garments (BIGs) to the astronauts, and assisted them into the life raft. The possibility of bringing back pathogens from the lunar surface was considered remote, but NASA took precautions at the recovery site. The astronauts were rubbed down with a sodium hypochlorite solution and Columbia wiped with Betadine to remove any lunar dust that might be present. The astronauts were winched on board the recovery helicopter. BIGs were worn until they reached isolation facilities on board Hornet. The raft containing decontamination materials was intentionally sunk.

After touchdown on Hornet at 17:53 UTC, the helicopter was lowered by the elevator into the hangar bay, where the astronauts walked the 30 feet (9.1 m) to the Mobile Quarantine Facility (MQF), where they would begin the Earth-based portion of their 21 days of quarantine. This practice would continue for two more Apollo missions, Apollo 12 and Apollo 14, before the Moon was proven to be barren of life, and the quarantine process dropped. Nixon welcomed the astronauts back to Earth. He told them: "As a result of what you've done, the world has never been closer together before."

After Nixon departed, Hornet was brought alongside the 5-short-ton (4.5 t) Columbia, which was lifted aboard by the ship's crane, placed on a dolly and moved next to the MQF. It was then attached to the MQF with a flexible tunnel, allowing the lunar samples, film, data tapes and other items to be removed. Hornet returned to Pearl Harbor, where the MQF was loaded onto a Lockheed C-141 Starlifter and airlifted to the Manned Spacecraft Center. The astronauts arrived at the Lunar Receiving Laboratory at 10:00 UTC on July 28. Columbia was taken to Ford Island for deactivation, and its pyrotechnics made safe. It was then taken to Hickham Air Force Base, from whence it was flown to Houston in a Douglas C-133 Cargomaster, reaching the Lunar Receiving Laboratory on July 30.

In accordance with the Extra-Terrestrial Exposure Law, a set of regulations promulgated by NASA on July 16 to codify its quarantine protocol, the astronauts continued in quarantine. After three weeks in confinement (first in the Apollo spacecraft, then in their trailer on Hornet, and finally in the Lunar Receiving Laboratory), the astronauts were given a clean bill of health. On August 10, 1969, the Interagency Committee on Back Contamination met in Atlanta and lifted the quarantine on the astronauts, on those who had joined them in quarantine (NASA physician William Carpentier and MQF project engineer John Hirasaki), and on Columbia itself. Loose equipment from the spacecraft remained in isolation until the lunar samples were released for study.

On August 13, the three astronauts rode in ticker-tape parades in their honor in New York and Chicago, with an estimated six million attendees. On the same evening in Los Angeles there was an official state dinner to celebrate the flight, attended by members of Congress, 44 governors, the Chief Justice of the United States, and ambassadors from 83 nations at the Century Plaza Hotel. Nixon and Agnew honored each astronaut with a presentation of the Presidential Medal of Freedom.

The three astronauts spoke before a joint session of Congress on September 16, 1969. They presented two US flags, one to the House of Representatives and the other to the Senate, that had been carried to the surface of the Moon with them. The flag of American Samoa on Apollo 11 is on display at the Jean P. Haydon Museum in Pago Pago, the capital of American Samoa.

This celebration was the beginning of a 38-day world tour that brought the astronauts to 22 foreign countries and included visits with the leaders of many countries. The crew toured from September 29 to November 5. Many nations honored the first human Moon landing with special features in magazines or by issuing Apollo 11 commemorative postage stamps or coins.

Humans walking on the Moon and returning safely to Earth accomplished Kennedy's goal set eight years earlier. In Mission Control during the Apollo 11 landing, Kennedy's speech flashed on the screen, followed by the words "TASK ACCOMPLISHED, July 1969". The success of Apollo 11 demonstrated the United States' technological superiority; and with the success of Apollo 11, America had won the Space Race.

New phrases permeated into the English language. "If they can send a man to the Moon, why can't they… ?" became a common saying following Apollo 11. Armstrong's words on the lunar surface also spun off various parodies.

While most people celebrated the accomplishment, disenfranchised Americans saw it as a symbol of the divide in America, evidenced by protesters outside of Kennedy Space Center the day before Apollo 11 launched. This is not to say that they were not awed by it. Ralph Abernathy, leading a protest march, was so captivated by the spectacle of the Apollo 11 launch that he forgot what he was going to say. Racial and financial inequalities frustrated citizens who wondered why money spent on the Apollo program was not spent taking care of humans on Earth. A poem by Gil Scott-Heron called "Whitey on the Moon" illustrated the racial inequality in the United States that was highlighted by the Space Race. The poem starts with:

A rat done bit my sister Nell.

(with Whitey on the moon)

Her face and arms began to swell.

(and Whitey's on the moon)

I can't pay no doctor bill.

(but Whitey's on the moon)

Ten years from now I'll be paying still.

(while Whitey's on the moon)

Twenty percent of the world's population watched humans walk on the Moon for the first time. While Apollo 11 sparked the interest of the world, the follow-on Apollo missions did not hold the interest of the nation. One possible explanation was the shift in complexity. Landing someone on the Moon was an easy goal to understand; lunar geology was too abstract for the average person. Another is that Kennedy's goal of landing humans on the Moon had already been accomplished. A well-defined objective helped Project Apollo accomplish its goal, but after it was completed it was hard to justify continuing the lunar missions.

While most Americans were proud of their nation's achievements in space exploration, only once during the late 1960s did the Gallup Poll indicate that a majority of Americans favored "doing more" in space as opposed to "doing less". By 1973, 59 percent of those polled favored cutting spending on space exploration. The Space Race had ended, and Cold War tensions were easing as the US and Soviet Union entered the era of détente. This was also a time when inflation was rising, which put pressure on the government to reduce spending. What saved the space program was that it was one of the few government programs that had achieved something great. Drastic cuts, warned Caspar Weinberger, the deputy director of the Office of Management and Budget, might send a signal that "our best years are behind us".

After the Apollo 11 mission, officials from the Soviet Union said that landing humans on the Moon was dangerous and unnecessary. At the time the Soviet Union was attempting to retrieve lunar samples robotically. The Soviets publicly denied there was a race to the Moon, and indicated that they were not making an attempt. Mstislav Keldysh said in July 1969, "We are concentrating wholly on the creation of large satellite systems". It was revealed in 1989 that the Soviets had tried to send people to the Moon, but were unable due to technological difficulties. The public's reaction in the Soviet Union was mixed. The Soviet government limited the release of information about the lunar landing, which affected the reaction. A portion of the populace did not give it any attention, and another portion was angered by it.

The Command Module Columbia went on a tour of the United

States, visiting 49 state capitals, the District of Columbia, and Anchorage, Alaska. In 1971, it was transferred to the Smithsonian Institution, and was displayed at the National Air and Space Museum (NASM) in Washington, DC. It was in the central Milestones of Flight exhibition hall in front of the Jefferson Drive entrance, sharing the main hall with other pioneering flight vehicles such as the Wright Flyer, Spirit of St. Louis, Bell X-1, North American X-15 and Friendship 7.

Columbia was moved in 2017 to the NASM Mary Baker Engen Restoration Hangar at the Steven F. Udvar-Hazy Center in Chantilly, Virginia, to be readied for a four-city tour titled Destination Moon: The Apollo 11 Mission. This included Space Center Houston from October 14, 2017 to March 18, 2018, the Saint Louis Science Center from April 14 to September 3, 2018, the Senator John Heinz History Center in Pittsburgh from September 29, 2018 to February 18, 2019, and its current location at the Seattle Museum of Flight from March 16 to September 2, 2019.

For 40 years Armstrong's and Aldrin's space suits were displayed in the museum's Apollo to the Moon exhibit, until it closed for good on December 3, 2018, to be replaced by a new gallery which was scheduled to open in 2022. A special display of Armstrong's suit is planned for the 50th anniversary of Apollo 11 in July 2019. The quarantine trailer, the flotation collar and the flotation bags are in the Smithsonian's Steven F. Udvar-Hazy Center annex near Washington Dulles International Airport in Chantilly, Virginia, where they are on display along with a test lunar module.

The descent stage of the LM Eagle remains on the Moon. In 2009, the Lunar Reconnaissance Orbiter (LRO) imaged the various Apollo landing sites on the surface of the Moon, for the first time with sufficient resolution to see the descent stages of the lunar modules, scientific instruments, and foot trails made by the astronauts. The remains of the ascent stage lie at an unknown location on the lunar surface, after being abandoned and impacting the Moon. The location is uncertain because Eagle ascent stage was not tracked after it was jettisoned, and the lunar gravity field is sufficiently non-uniform to make the orbit of the spacecraft unpredictable after a short time.

In March 2012 a team of specialists financed by Amazon founder Jeff Bezos located the F-1 engines from the S-IC stage that launched Apollo 11 into space. They were found on the Atlantic seabed using advanced sonar scanning. His team brought parts of two of the five engines to the surface. In July 2013, a conservator discovered a serial number under the rust on one of the engines raised from the Atlantic, which NASA confirmed was from Apollo 11. The S-IVB third stage which performed Apollo 11's trans-lunar injection remains in a solar orbit near to that of Earth.

The main repository for the Apollo Moon rocks is the Lunar Sample Laboratory Facility at the Lyndon B. Johnson Space Center in Houston, Texas. For safekeeping, there is also a smaller collection stored at White Sands Test Facility near Las Cruces, New Mexico. Most of the rocks are stored in nitrogen to keep them free of moisture. They are handled only indirectly, using special tools. Over 100 research laboratories around the world conduct studies of the samples, and approximately 500 samples are prepared and sent to investigators every year.

In November 1969, Nixon asked NASA to make up about 250 presentation Apollo 11 lunar sample displays for 135 nations, the fifty states of the United States and its possessions, and the United Nations. Each display included Moon dust from Apollo 11. The rice-sized particles were four small pieces of Moon soil weighing about 50 mg and were enveloped in a clear acrylic button about as big as a United States half dollar coin. This acrylic button magnified the grains of lunar dust. The Apollo 11 lunar sample displays were given out as goodwill gifts by Nixon in 1970.

The Passive Seismic Experiment ran until the command uplink failed on August 25, 1969. The downlink failed on December 14, 1969. As of 2018, the Lunar Laser Ranging experiment remains operational.

On July 15, 2009, released a photo gallery of previously unpublished photos of the astronauts taken by Life photographer Ralph Morse prior to the Apollo 11 launch. From July 16 to 24, 2009, NASA streamed the original mission audio on its website in real time 40 years to the minute after the events occurred. It is in the process of restoring the video footage and has released a preview of key moments. In July 2010, air-to-ground voice recordings and film footage shot in Mission Control during the Apollo 11 powered descent and landing was re-synchronized and released for the first time. The John F. Kennedy Presidential Library and Museum set up an Adobe Flash website that rebroadcasts the transmissions of Apollo 11 from launch to landing on the Moon.

On July 20, 2009, Armstrong, Aldrin, and Collins met with U.S. President Barack Obama at the White House. "We expect that there is, as we speak, another generation of kids out there who are looking up at the sky and are going to be the next Armstrong, Collins, and Aldrin", Obama said. "We want to make sure that NASA is going to be there for them when they want to take their journey." On August 7, 2009, an act of Congress awarded the three astronauts a Congressional Gold Medal, the highest civilian award in the United States. The bill was sponsored by Florida Senator Bill Nelson and Florida Representative Alan Grayson.

A group of British scientists interviewed as part of the anniversary events reflected on the significance of the Moon landing:

It was carried out in a technically brilliant way with risks taken… that would be inconceivable in the risk-averse world of today… The Apollo programme is arguably the greatest technical achievement of mankind to date… nothing since Apollo has come close [to] the excitement that was generated by those astronauts - Armstrong, Aldrin and the 10 others who followed them.

Armstrong's Hasselblad camera was thought to be lost or left on the Moon surface. In 2015, after Armstrong died in 2012, his widow contacted the National Air and Space Museum to inform them that she found a white cloth bag in one of Armstrong's closets. The bag contained a forgotten camera that had been used to capture images of the first Moon landing. The camera is currently on display at the National Air and Space Museum. However, there are 12 Hasselblad cameras currently sitting on the surface of the Moon, where only the film magazines were brought back to Earth.

On June 10, 2015, Congressman Bill Posey introduced resolution H.R. 2726 to the 114th session of the United States House of Representatives directing the United States Mint to design and sell commemorative coins in gold, silver and clad for the 50th anniversary of the Apollo 11 mission. On January 24, 2019, the Mint released the Apollo 11 Fiftieth Anniversary commemorative coins to the public on its website. On July 19, 2019, a Google Doodle was created to celebrate the 50th anniversary of the Moon landing.

---

Me: (To the Viewers) I hope this helped you all. President John F. Kennedy's dream was to one day send a man to the moon and 6 years later after he was assassinated on November 23rd, 1963 we finally made that dream a reality on July 20th, 1969.

Lincoln: Wow! That is so awesome!

Laney: It sure is. I never would've known that there was so much that was done that time.

Me: It was a huge day for us.

Nico and everyone came in.

Nico: We're back.

Me: Hey guys. How was the aquarium?

Maria: It was awesome! We had a great time. But we had 2 big encounters there.

Heidi: We encountered a magnificent sea dragon from Lake Huron.

Syd: And we cured 2 Gene-Slammers.

Caitlin: And we are those gene-slammers. I'm Caitlin Estevez and I'm half human, half dolphin.

Gina: And I'm Gina Semyon Petrikov. I'm half human, half humpback whale.

Me: Pleasure to meet you girls. Dr. Luther Paradigm spliced you no doubt.

Caitlin: That's right.

Me: What were you doing before he slammed you?

Caitlin: We worked as Whale Show Instructors at the aquarium in Los Angeles, California.

---

Caitlin: (Narrating) **Me and Gina are best friends and we did all kinds of awesome shows together. And we worked with them all: Dolphins, Whale Sharks, Orcas, all kinds of fish.**

Caitlin and Gina did all kinds of awesome tricks with said creatures.

Gina: (Narrating) **We were known as the greatest handlers of fish ever.**

Caitlin: **But then came that terrible day where we became gene-slammers like the Street Sharks. We were ready to put on our next show when suddenly something hit us. We thought we pulled a hair somewhere. We were having extreme pains afterwards and we thought it was cramps.**

Caitlin and Gina were experiencing excruciating pain.

Gina: **Then we starting changing.**

Past Caitlin: (GROANS IN PAIN) WHAT'S HAPPENING TO US!?

Past Gina: (GROANS IN PAIN) OH GOD IT HURTS!

Caitlin's skin turned grey and her brown hair fell out and her head grew and turned into that of a dolphin and it had yellow patches on the sides and a blowhole on top as well as her mouth turned into a dolphin snout. Out of her back came a dolphin fin. Her wetsuit was totally shredded.

Gina's skin turned dark blue and lumpy and her blond hair fell out. Her hands turned into fins and her mouth grew wider and her teeth turned into bristly baleen plates and her head turned into that of a humpback whales and she grew a fin out of her back and her wetsuit was totally shredded.

Caitlin: **When we saw ourselves in the mirror, we were beside ourselves with horror!**

Caitlin and Gina looked at themselves in the mirror and they screamed in absolute horror.

Past Caitlin: WHAT THE HELL HAPPENED TO ME!?

Past Gina: WE'VE BEEN TURNED INTO FISH FREAKS!

Past Caitlin: Actually I'm a dolphin and you're a humpback whale. But we can't be seen like this!

They went on into hiding as a result.

FLASHBACK ENDS

Caitlin: We stayed hidden in another part of the country helping people whenever they needed it. But thanks to Heidi here we have our humanity back and we can now do things humans can do again. We also can transform whenever we need to.

Me: That's awful! But you'll be happy to know that we killed Dr. Luther Paradigm.

Caitlin: Really!?

Me: Yep. We killed him and sent his fucking DNA Twisting ass off to Hell.

Ronnie Anne: And we found others slammed by him.

Me: We still have a lot of his mess to clean up but we're gonna find them and help them. But not only that but Dr. Luther Paradigm has 2 brothers that specialize in Land and Air animals as well. Dr. Roland Paradigm specializes in splicing with Land Animals and Dr. Arthur Paradigm specializes in splicing with Air Animals. We're going to kill them later on and rid the world of their splicing ways and make them pay for tampuring with the laws of mother nature.

Caitlin: We'll gladly help you out J.D.!

Gina: Those monsters will pay for their crimes and taking our humanity!

Me: They sure will.

Nico: They will. And I just caught a Simisage and a Simipour.

Me: Good job Nico.

---

Later at Gotham Royal York High School, Luan was having lunch with George Beard and Harold Hutchins and the janitor Mr. Krupp. Aquagirl, Allie, Hun-Gurr, Cybertron Scourge, G1 Snarl, Me, Nico, Lincoln and Laney were with them.

Luan: What really has me concerned is the former staff of Jerome Horwitz Elementary coming after us.

Mr. Krupp: They wouldn't dare come after us now.

Hun Gurr: Don't you think your former fellow staff members might want to take revenge on you now that you've befriended George and Harold?

Mr. Krupp: I doubt it. Besides, I think they'll learn not go after me since I know you guys.

Me: And if they do come after us, they will pay for it in blood. And Luan put the one that costed Mr. Krupp his job in prison forever.

Harold: That was Melvin Sneedly. He may have been a genius, but he was a nuisance and totally pure evil.

Me: True.

?: That's not the only one you have to worry about!

We turned and we saw the former Science Teacher of Jerome Horwitz Elementary School - MORTY FYDE!

Mr. Fyde is having class with George and Harold and they start making cat and dog noises without moving their lips or opening their mouths. He thinks that he's going crazy and continues on with class, much to the students' dismay. He showed the class a fake volcano, which gave George and Harold the idea to prank The Lunch Ladies. After a couple of animals noises, he left to go see a doctor as he thought he had gotten nuts from hearing things.

Mr. Fyde quits because he dreamed that he had been eaten by a talking toilet, thought he heard cats and dogs meowing and growling in his classroom, imagined that the school got flooded with sticky green goop, and he thought he saw a group of abominable snowmen chasing George and Harold down the hallway. When Mr. Krupp tried to tell him that can all be explained as George and Harold's doings, Mr. Fyde stated that he saw a big fat bald guy in his underwear fly out the window (the big fat bald guy obviously being Captain Underpants). As Mr. Krupp could not find that as their doing, Mr. Fyde retired to leave the school for the greener pastures of the "Piqua Home for the Reality Challenged" and was eventually replaced by Professor Poopypants.

Mr. Fyde makes a very brief appearance in this novel, as this story is set four years in the past from the previous books and Mr. Fyde is still the science teacher at Jerome Horwitz Elementary School. He is seen in a teacher's meeting along with Mr. Krupp and Ms. Ribble.

Mr. Fyde has been seen in the film feeling shocked about another science convention happening on the third Saturday of the month leaving everyone (except Melvin) depressed. Mr. Fyde had plans that weekend so he told Mr. Krupp that he couldn't make that Saturday for he knows that he had plans to be with his family that day, but Mr. Krupp didn't care so he fired him and he told everyone in the auditorium that Mr. Fyde is no longer with them. He was never seen again after he got fired and replaced by Professor Poopypants.

Morty only appeared in one episode of the TV series; Captain Underpants and the Squishy Predicament of Stanley Peet's Stinky Pits, where he has returned to Jerome Horwitz Elementary from the "Piqua Home for the Reality Challenged" for the first time in a long one, but, he still gets anxious around loud noises, which-unfortunately for Mr. Fyde-an elementary school is built on. The same day he returned, Mr. Krupp announced the start of the

Avocad-grow contest (a scam he set up to get a large supply of guacamole). During the contest, an accident with Melvin Sneedly's Piticle accelerator 2000 combined him with George and Harold's pit, turning him into a monster that destroys anything that makes any sort of loud noise. He eventually gets planted into the ground in a peaceful forest and watered by Stanley Peet's sweat, where he now lives peacefully as an amazing avocado tree in said forest; which is located near the school.

George: Mr. Fyde!?

Mr. Krupp: Morty? What are you doing here!?

Fyde: REVENGE!

Me: Revenge? For what?

Fyde: For these two ruining my life and how dare you side with George and Harold, Krupp!?

Cybertron Scourge: Well, since Jerome Horwitz is closed down, Krupp can do whatever the Hell he wants!

Mr. Krupp: And I've forgiven George and Harold for everything they did. They are my friends now and they made me realize what a beast I was!

Allie: Are you and all the other teachers of the closed Jerome Horwitz Elementary School now working for the Legion Of Doom?

Fyde: That's right! We're now called the League Of Rottenness! And our first task is to kill Mr. Krupp and those two rotten brats! (Points to George, Harold and Mr. Krupp!)

Me: You've gone mad!

Allie: Now you will pay for your crimes and serve your life in the Saturn Insane Asylum and I also have some friends that are going to help.

Allie put on an awesome ring and the gem had a beautiful Centaur Girl in the middle. She chanted an incantation and a rainbow portal appeared and out came the beautiful Centaurettes from the movie Fantasia.

Satina: Hey Allie.

Satina was the blue Centaurette with flowers in her tail and she had blue hair and a flower strapless top.

Allie: Hey Satina. It's time to kick some bad teacher butt.

George: Time for something awesome! Ready Mr. Krupp?

Mr. Krupp: You know it George!

George snapped his fingers and Mr. Krupp turned into the underwear crusader: CAPTAIN UNDERPANTS!

Captain Underpants: TRA-LA-LA! So Fyde is out for revenge huh?

Me: That's right. Lets take this clod down.

We went at him and I punched him in the face.

Me: Hey Fyde. How about this?

I took out an airhorn and blew it right in his ear at Point Blank Range and he screamed and then HE… WENT… CRAZY!

Me: So you go nuts whenever you hear loud noise. Let me add to that.

I had him look at the Bracelet of Cthulhu and then he went absolutely psycho!

We went at him and punched him all over the place and pulverized him all over the place.

Aquagirl: Lets get him with our combos! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Aquagirl's arm device and it enhanced her water powers 100-fold.

G1 Snarl: Me Snarl smash bad science teacher! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his energy sword 100-fold.

Aquagirl and G1 Snarl: MAELSTROM BEAST SWORD!

Aquagirl fired a massive blast of water and it merged with Snarl's sword and Snarl slashed Fyde and cut his chest and legs.

Captain Underpants punched Fyde all over and hurt him bad. Fyde took a bucket and threw water and splashed Captain Underpants all over and got him wet.

Fyde: Any minute now, you're going to turn back into Mr. Krupp!

Me: You are a fool Fyde! George and Harold made some changes.

George: That's right. Now we can change him back when I snap my fingers again!

Me: In other words Fyde, you are a pathetic little cretin.

Cybertron Scourge: Let me heat things up. CYBER KEY POWER!

The Animatron Cyber Planet Key went into Scourge's back and 2 more heads popped out and they roared.

Cybertron Scourge: Witness the Three-Headed Dragon!

Hun-Gurr: Time to show him I mean business! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his Sonic Stun Gun and enhanced it 100-fold.

Cybertron Scourge and Hun Gurr: FIRESTORM SONIC STUNBURN!

Cybertron Scourge fired a powerful blast of fire from his mouths and Hun-Gurr fired a massive sonic blast from his Sonic Stun Gun. The blasts combined and they hit Fyde and exploded.

Me: Lets show him our Final Smashes guys!

Britney Crosby: Lets get him! SHADOW MOON SCYTHE!

Britney formed a scythe of pure black fire and she slashed Mr. Fyde in the chest and it burned him bad.

Captain Underpants: Time for me. SUPERFART VOMITSTORM!

Captain Underpants released a massive fart and it smelled so horrible that we hurled our guts out!

George: Lets show him a Combo Final Smash Harold!

Harold: You got it George!

They did their friendship handshake.

George and Harold: SUPER FARTSTORM STINKBREATH!

They fired a massive blast of super foul stinky breath at Fyde and it made him hurl his guts out all over the place!

I wrapped him in a straitjacket.

Me: I think a nice long stay in the Saturn Insane Asylum is what you need you fucked up lunatic.

Britney Crosby: You said it. (To the Viewers) Old habits die hard, but hatred never will. Now we have the former staff of the closed down Jerome Horwitz Elementary School to worry about besides the Legion of Doom and all the bad guys we know.

Nico: That's right. Morty Fyde, you have failed this world as a teacher and as anything.

We condemned Morty Fyde to the Saturn Insane Asylum in the Maximum Security Section. He was sentenced to life without parole in the Triple Max Solitary Confinement Psychiatric Unit.

THE END

---

Another Fanfiction Complete and the first ever Captain Underpants Villain Brought to Justice.

I wanted to make this chapter special by commemorating the 50th Anniversary of the Apollo XI Landing on the Moon. Also I want to include Villains from the Captain Underpants series. Now we have all kinds of villains to take down. NicoChan11 gave me the ideas for this one. Thanks man as usual. I couldn't put the whole title as the chapter title so I used it as an acronym for it. Let me know what you all think.

See you all next time.

# College Revenge

At the Jupiter Prison it was time for another rant and prank session on the most hated babysitter in the history of the world: ICKY VICKY!

Me: Another great day for a rant.

Lincoln: Lets get this show started!

Abby Martin: I'll go first!

Abby walked up to Icky Vicky and looked at her in the face.

Abby Martin: Are you calling me crackers!? Are you saying that I'm a dry salted square here to amuse you!?

Icky Vicky: Uh… Yes?

Abby Martin: THAT'S IT!

Abby jumped Icky Vicky and pulverized the living shit out of her.

We were rolling around on the floor laughing ourselves silly!

Me: (Laughing Hysterically) CALL A DOCTOR! (LAUGHS)

Lincoln: (LAUGHS HYSTERICALLY)

Michael Munroe: My turn!

Michael Munroe went up to Icky Vicky and glared at her.

Michael Munroe: I AM A SOFTY!? WHAT!? ARE YOU SAYING THAT I'M A SWIRLY-TOPPED ICE CREAM CONE HERE FOR YOU TO SMACK YOUR UGLY LIPS OVER!? IS THAT WHAT YOU'RE SAYING!?

Icky Vicky: Uh… Yes?

Michael: THAT'S IT!

He jumped Icky Vicky and pulverized her all over the place and we were laughing all over the place.

Prisoner 1: (LAUGHING HYSTERICALLY!)

Prisoner 2: (LAUGHING HYSTERICALLY!)

Me: (Laughs) I never get tired of those Pesto Rants!

Lincoln: Me neither!

Jillian: Our turn!

Jillian Gerard & Jackson Gerard went up next. Jackson kissed Icky Vicky full on the mouth and they both spit up a lot.

Jackson: Aw yuck! You taste like poison meat!

Jillian: Maybe she thinks you're cute. You know what I'm saying? (Laughs)

Jackson: (To Icky Vicky) YOU? YOU THINK I'M CUTE!?

Icky Vicky shook her head for no.

Jackson: THAT'S IT!

Jillian and Jackson jumped her and pulverized her all over the place.

We were laughing hysterically and we were rolling on the floor holding our sides and it was so funny!

* * *

Back at the estate we were watching TV and reading books. Mallow of the Alola region were with us.

Mallow: It's so cool being here at Team Loud Phoenix Storm Estate.

Me: We're glad you could be here Mallow.

We saw Goofy looking at a picture of him and his son Max.

Me: Is that your son Max, Goofy?

Goofy: That's my little boy J.D. He's now in college and is the champion of the College X Games.

Stacy: I've heard about those games. They are the greatest skateboarding games in all of college sports.

Me: They sure are.

Goofy: And I haven't seen my little boy since we embarked on the journey to save the universe.

Sora: I would like to see your son, Goofy.

Me: Yeah lets go see him. And he's not in any of the worlds Sora encountered. He's here on Earth. Lets go meet Max Goof!

We were off to Max's college.

---

We arrived at Max's College and it was an amazing college.

Me: So this is the college Max goes to. It's very amazing.

Stacy: I would love going to this college.

Nico: Me too.

Max came and he saw us.

Max: Dad!?

Goofy: Maxie!

They hugged for the first time in a while.

Max: I missed you so much dad!

Goofy: Hi, Maxie! Sorry I haven't visited you lately.

Max: I know. Mickey told me you were out saving the universe with Team Loud Phoenix Storm.

Goofy: That's right.

Me: Hey there Max.

Max: Whoa! No way! Team Loud Phoenix Storm!? It's an awesome honor to meet you guys!

Me: You too Max. Goofy told us so much about you.

Max: Not as much as we learned about all of you. You guys are legends all over the universe.

Me: We don't like to brag.

Tank then came.

Tank: Hey Max Man. What's shaking!? (Sees us) WHOA! NO WAY! The legendary Team Loud Phoenix Storm? Awesome!

Me: Pleasure to meet you uh?

Tank: Oh I'm sorry. Name's Tank. Member of the ΓMM Frat Club.

Me: Pleasure to meet you Tank. We're also members of a frat club. Not from this college but one that Sully and Mike went to.

I show on the inside of my vest the logo for the ΓΘΞ club.

Tank: ΓΘΞ? That's a cool club man.

Maria: I'm really sorry Brad betrayed you, Tank.

Tank: Ah it's no big deal Maria. But thank you for your concern Maria.

P.J. came.

P.J.: Hey guys.

Me: P.J.!

P.J.: Wow! Team Loud Phoenix Storm! It's awesome having you all here!

Me: Pleasure to finally meet you P.J. I take it you heard what happened to your father.

P.J.: I sure did.

Rapunzel: P.J., I am very sorry about your dad.

P.J.: It's not your fault, Rapunzel. My dad made his own decisions. I'm just glad I can still visit him.

Bowser Jr: If it makes you feel any better, me and Mario weren't that rough on him.

Mario: (Italian Accent) Yeah! All-a we did was-a do a combo attack that-a probably gave-a him a concussion.

Me: I'm glad you still love him as your father after everything he ever did.

P.J.: I know J.D.

Me: Good. But what has me worried is that Brad is gonna want revenge on you guys for humiliating him.

Max: If he is out for revenge we'll be ready for him.

Robert "Bobby" Zimuruski and Roxanne, Max's girlfriend arrived.

Bobby Z.: Team Loud Phoenix Storm! AWOOOOO!

Me: Bobby Zimuruski is in the house!

Roxanne (Goofy): You guys are awesome!.

Laney: It's a pleasure to meet you Roxanne.

My dark orb detector beeped and it showed that there was a Dark Orb in the college campus.

Me: There's a Dark Orb here in the area.

Max: Dark Orb?

Me: They are the fragments of Xehanort.

We explained what they were.

Max: Whoa! So Xehanort is still alive even in death.

Me: That's a good way to put it Max. Yes. And his evil is scattered throughout the entirety of the Virgo Supercluster and we have over 47,000 galaxies to cover and countless galaxies to cleanse of his evil over a radius of 110 million Light-Years.

P.J.: Wow!

Max: That's incredible!

Me: I know. It'll take us thousands of years to destroy them all. But we can do it. We'll never give up until the essence of Xehanort is erased from existence forever.

Max: I love that spirit!

Tank: Ya know, there's always a spot on the Gammas open for you guys. Except we don't cheat anymore.

Whirlwind: We'll think about it.

We then saw BRADLEY UPPERCRUST III himself!

---

When Max, P.J., and Bobby were seen skateboarding, Bradley and the Gammas followed them to the Coffee shop. He offered Max to join their faternity, but the Gammas picked on P.J. and Bobby. He quickly became Max's enemy and placed a wager about the X-Games; the losing team becomes towel boys for the winning team. Max accepted the wager. During class, he would often pick on Max (especially when Goofy came bursting in).

Later, while Max and his friends were practicing skateboarding, Brad notices Goofy having good moves (though it was unintentional) and had Goofy join the Gammas. During the qualifying round, he placed a mini-rocket under Goofy's skateboard and while Max was skateboarding, he flashed light into Max's eyes. Afterwards, Goofy decided to leave the faternity to help support his son and Brad had him thrown out. When Goofy sneaks back into the house to return his Gamma badge, he overhears their conversation that the Gammas were gonna cheat in the competition.

During the X-Games, Bradley had disguised cheaters to ruin the other players' chances of winning. After Brad and Max's teams made it in the finals, he had P.J. flying off in the sky to force the other team to forfeit. This unexpected turn of events causes Max to realize that Bradley tricked him into disowning his father and Goofy was telling the truth about Bradley's cheating. However, Max was able to convince Goofy to step in and help him beat Bradley and win the X-Games. While he was racing, Bradley attempted various cheats, including having his teammates blocking the road, moving a hay bale so the racers would go cross country, and having Tank throw him past the other team. Soon after, Goofy stumbled towards Brad and bumped into them sending them both flying.

Near the finish line, although Bradley's second in command Tank was in the lead, Bradley was unwilling to let anyone but himself cross the finish line and pulls out a remote control to activate one last cheat. To stop Bradley, Goofy throws his horseshoe at his face, but as Bradley falls to the ground, his chin hits the button that has Max and Tank blasted towards the X-Games wire and fabric logo, causing it to crash on top of them and set on fire. Ignoring the accident, Brad races forward to win the race for himself, but Max and Goofy help Tank escape. Goofy and Tank release themselves from the skateboard to give Max enough speed, and Max beats Brad to the finish line, winning the competition.

In the end, Bradley conceded defeat, shook Max's hand, showed good sportsmanship and even agreed to be Max's towel boy, but Max calls off the bet because Brad has to deal with Tank. Tank then turns on Brad for betraying him and then slingshots him towards the X-Games blimp flying overhead. He was never seen or heard from again.

Me: Brad Uppercrust III.

Max: What do you want, Brad?

Brad: Listen, I feel really bad about what happened between us during the X Games. So, I want to give you this car as an apology.

We saw that Brad had given Max an awesome Ferrari!

Me: Whoa! What a Ferrari!

Lola: That is an awesome car!

Lucy: I would love having a car like that when I'm older.

Me: Wouldn't we all.

Lana noticed something on the underside on the car that is not supposed to be there and she saw that it was a C4 Pipe Bomb! It was triggered by a remote detonator! Lana knew she had to do something and she had a strong feeling that Brad was trying to kill him.

Lana: (Telepathically to me) J.D., Brad attached a C4 Pipe Bomb to the car to kill Max! It's a Remote Detonator bomb!

Me: (Telepathically to Lana) WHAT!? Good work Lana. I'll distract him while you remove it and hide it somewhere out of harms way.

I distracted Brad and Lana removed the bomb and flew out and threw it in a field. Max got into the car and went on a ride. Brad pressed a button and detonated it out in the fiend.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Whoa! That was a close one!

Max Goof: That was close. If you guys hadn't stepped in, I would've died!

Me: Thank Lana. She found the bomb.

Whirlwind: That was a close one though.

---

Later we were at a restaurant that is considered a College Staple.

Max Goof: Alright, guys. Here's a toast to me and my dad finally reuniting!

We clinked our glasses.

Everyone: CHEERS!

Me: We're so happy for you guys.

We were served our food. Lisa noticed something rather peculiar with Max's food. There were traces of a strange white powder on Max's food.

Lisa: (Telepathically to me) 2nd Elder Brother. I have a very strong suspicion that Bradley is trying to poison Max. There's a strange white powder on Max's food.

I saw the powder.

Me: (Telepathically to Lisa) I see it Lisa.

I turned on my computer eyes and found out that Max's food was laced with Thallium! A highly toxic metallic compound that was used in a lot of murders over the centuries. The most notable case I remembered seeing revolving around Thallium Poisoning was the murder of Peggy Carr caused by George Trepal who is on Death Row for her murder in Florida. I also saw numerous incidents with Thallium Poisoning on a lot of crime documentaries.

Me: (In my head) That's Thallium! I know that poisonous metal compound all too well in crime documentaries. (Telepathically to Lisa) Lisa, we'll distract Max while you replace his food.

Lisa: (Telepathically) Affirmative.

I was talking to Max and Lisa took his food and put it in a biohazard evidence bag for later use as proof against him. She replaced his food with non-laced food.

I gave her the thumbs up.

Later after we paid for our lunch we went outside.

Max: First, it was a bomb. And now, poison? What's next? A Heartless attack!

Then a massive armada of Solider Heartless appeared.

Max: Me and my big mouth!

We saw Brad with them!

Max Goof: I knew you hated me. But to do something like this?!

Brad: You cost me everrything! My Gamma team, my social status, and even my popularity! So now, I'm gonna make sure you lose everything as well!

Me: You brought that all on yourself Brad. You and your cheating ways were unacceptable!

G1 Divebomb: Ok. I have to admit. Those death traps were actually clever.

Nico: Bradley Uppercust III, you have failed this city!

Springer: Just like you failed the X Games!

Astrotrain: Any other death traps we should know about?

Me: My scans show nothing. Lets take them down!

We slashed all the Soldier Heartless to pieces and killed them all.

Me: That was a waste of time. Now you are going to prison.

Brad: I'm not going down without a fight! Now he's my biggest friend!

Then a huge Heartless appeared. It was a massive skateboard-shaped Heartless and it was shaped like a skateboard centaur with ferocious razor sharp teeth, glowing red eyes, 8 arms and it has the ability to fire a powerful laser capable of blowing a whole city to dust.

It was called the -720˚ Skatedoom!

Me: WHOA!

Laney: That is an ugly heartless!

Stacy: And it gives all Skateboarders a really bad name!

Lily: Lets rip this freak apart!

We went at it and I punched him in the face and Lincoln and Stacy fired a massive blast of lightning and zapped it. Laney entangled it in her vines. Whirlwind flew around and blasted it with rainbow bombs.

Astrotrain: Lets finish this clod! Combo time! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his ionic displacer rifle 100-fold.

Divebomb: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into Divebomb's back and it enhanced his particle blaster 100-fold.

Astrotrain and G1 Divebomb: HYPERSONIC PARTICLE DESTROYER!

They both fired their blasters and the blasts combined and they hit the Skateboarder Heartless and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMM!

The explosion killed the heartless in an instant.

Remmy (Lilo and Stitch) punched Brad multiple times.

Brad (kicks Remmy off him): Get off me!

Remmy called on the Gigantion Cyber Planet Key and it enhanced his dream altering powers 100-fold.

Springer: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into Springer's back and it enhanced his wind-tunnel laser 100-fold.

Springer: NIGHTMARE TORNADO SHATTERSTORM!

Remmy turned into a ghost and went into Brad's ear and messed around with his dreams and Springer blew him around in a massive tornado.

Me: Final Smash time guys!

Whirlwind: Lets do this! RAINBOW SINGULARITY VORTEX!

Whirlwind charged up a rainbow blast and fired a rainbow orb and it hit Brad and pulled him in as it turned into a black hole with a rainbow vortex around it.

Max: My turn. GOOF PRIDE SILLYSTORM!

Max fired a beam of light from his hands and it hit Brad and all kinds of objects hit him and pulverized him.

Goofy: Maxie, lets hit him with a combo final smash as father and son.

Max: You got it dad!

Goofy and Max: FATHER SON GOOF PUNCH!

They went at Brad and slammed a powerful punch into his face and knocked him down.

Max: (to the Viewers) You better watch out or Team Loud Phoenix Storm will make you answer for your crimes.

Me: You got that right Max.

I went up to him and found the Dark Orb imbedded in the back of his right hand and I pulled it out and crushed it with my bare hands. We got an immense power boost as a result. We presented the evidence we found on Brad to the Dean. Brad was expelled from the university and was arrested for his crimes. It was thanks to our knowledge of crime documentaries we watched that we managed to foil Brad's plans. Brad was sentenced to 3 life sentences in the Antarctica Prison without parole. During the fight, Nico caught an Unfezant and a Musharna.

THE END

---

Another Fanfiction Complete and another Disney Villain has been brought to justice.

A Goofy Movie and An Extremely Goofy Movie were both the funniest movies ever made by Disney and they made me laugh so hard I was about to pass out! My favorite was A Goofy Movie. It was so funny! My favorite parts were the canyon and the river and the road trip across the country and I liked the songs. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. Also I did watch those documentaries in real life.

See you all next time.

# A Miserable Crybaby Scientist

We were over at Campbells Chunky Soup Maximum Security Prison. We were there to meet Sideshow Bob's brother Cecil and free Sideshow Bob's family and place them under our protection and into the Redemption Squad.

Quick Man: You sure you're up for this, Bob? You haven't seen your brother for a long time.

Sideshow Bob: (British Accent) I'm more than ready Quick Man. I want my family to be reunited and sent down the right path.

Me: You are making the right decision.

We walked up to Cecil Terwilliger's cell and in it with him was his wife Francesca, his son Gino, his mother Dame Judith Underdink and his father Robert Terwilliger Sr.

Cecil: Bob! I haven't seen you for a long time! How've you been?

Sideshow Bob: Hello dear brother!

They hugged.

Gino: Dad!

Sideshow Bob: Son!

They hugged and Bob kissed Francesca.

Me: It's a pleasure to meet you all.

Robert: You too J.D.

Judith: (British Accent) Same to you J.D. We heard so much about you.

Me: I'm honored and I get that all the time.

Cecil (to Bob): Here's what puzzles me. I've heard rumors that you had a hand in Springfield's destruction. But when Springfield's destruction first came up, your name was never mentioned.

Sideshow Bob: That's because we did all that in an alternate time with the same events but I was involved.

Me: Yeah. That time merged with ours and Springfield was a town doomed from the very start.

Cecil: That's what we heard.

Francesca (Simpsons): What happened that lead to Springfield's demise?

Me: It's a very ugly story.

I revealed the full extent of Springfield's Corruption and everyone that was part of it and how the war went down all leading up to its destruction.

Cecil: That's awful! I had no idea that Springfield was that despicable!

Francesca (Simpsons): That town is a nightmare!

Me: Yep. But we obliterated it completely with a 250 megaton nuke in the nuclear power plant. Springfield, Oregon is now nothing more than a radioactive crater. All traces of it are now completely obliterated.

Gino: Good riddance to that evil town!

Me: Well a lot of people were spared because they had no involvement in the corruption of the town whatsoever. Most of them were the children. They now have a fresh new start in Gotham Royal York.

Sideshow Bob: It's all true dear family.

Quick Man: Springfield got what it deserves.

Cecil: I'm glad it did. (to William and Maria) So I take it that the team that you run is a new version of the Suicide Squad?

Maria: Trust me. It's much more better then that.

William: The team we have is a branch of Team Loud Phoenix Storm called The Redemption Squad.

Me: It's a team for Supervillains that were shown the error of their ways and they want to redeem themselves.

Cecil: That's wonderful.

Later we released Sideshow Bob's family and they were now placed into our protection.

---

Narrator: The plant city of Gotham Royal York, the happiest and most well protected city on Earth, (cut to all of the towns people going to the carnival) but today, is the happiest day of all, as young and old alike gather from far and wide, to celebrate their civic joy at the 8th annual happiness carnival." Jugglers, clowns, fire eaters, it's so totally awesome, look for a roller-coaster!" (shudders, then clears throat) "You couldn't find more excitement anywhere else, except for haps in the home Gotham Royal York's most excitable, most powerful and happy young citizens and protectors, Team Loud Phoenix Storm!"

Scene cuts to inside the Team Loud Phoenix Storm Estate…

Bubbles: "Hooray!"

Blossom: "We're going to…"

Buttercup: "The carnival!"

Professor Utonium: "Better hurry up, girls, or we'll be late."

Blossom: "I'm baking a pie…"

Buttercup: "We're entering the dog show…"

Bunny: I'm entering the chili cook off.

Bubbles: "And I'm entering the 8th annual happiest citizen contest…"

Me: You are a shoe-in to win Bubbles. You are the cutest and happiest citizen in the city.

Bubbles: Thanks J.D.

Laney: I'm entering the sewing contest. I have a great entry for us.

Me: I can't wait to see what you have ready Laney.

We were all excited and ready.

Stella (Loud House): I love going to carnivals guys.

Syd: Me too Stella. They are so much fun!

Cut to Professor Utonium in the white sports car…

Professor Utonium: "Let's go, girls…"

Bubbles: "Coming, Professor!"

They flew into the car.

Me: You ready guys?

Professor Utonium: "I'm looking forward to this just as much as you are…"

Powerpuff Girls: "Yay!"

Me: Lets fly!

We were off to the carnival.

Powerpuff Girls: La, la, la, la, la, la, we're going to the carnival

la, la, la, la, la, la, we're going to the carnival

Narrator: Ah, the sound of children laughing, how sweet it is, but all is not sweetness and like, Powerpuff Girls, if you listen closely, (sounds of crying and weeping sounds can be heard) you can hear the sounds of crying from above a castle on an island, an island surrounded, by a sea of tears.

Lou Gubrious: (Tearfully) "Listen to them, the citizens of Gotham Royal York, they all sound so… so happy… and I am so… (Sobs Wildly) miserable!"

WHAT A BABY.

Lou Gubrious continues crying and wailing, then blows his nose… and comes up with a plan.

Lou Gubrious: "But I, Lou Gubrious, shall have… my revenge! I've invented a machine called the Miseray… which'll take every ounce of sadness in my pink little body and turn it into pure negative energy, that'd unleash upon those stupid happy people in Gotham Royal York, making them all miserable… (He sobs wildly again…) but making me so happy!"

Lou Gubrious cries again… but activates the Miseray…

The Miseray fired its energy.

The scene goes over to a police officer giving out ticket forms…

Narrator: Uh oh, Gotham Royal York, watch out, Lou Gubrious has made good on his threat, and unleashed his awful ray.

The police officer's mouth wobbles up and down… and he begins bawling and crying uncontrollably.

Cut to a banker and a bank robber…

Narrator: It looks bad, folks, not even the law is outside his evil grasp!

Bank Robber: (crying uncontrollably) "Buddy!"

Banker: (crying uncontrollably) "Pal!"

The banker and the bank robber break down crying and wailing…

Narrator: Just look at all these happy young suspecting people be plunged into sadness… and what's worse is… it's headed for the carnival!"

We then felt the massive power of the Miseray and we got an unbelievable power boost unlike anything we've ever felt! It's powerful increase was so strong that it made our auras explode out and it looked like fire! The power increase was so strong that it made the power increase we got at the Villains Vale seem like a joke.

Me: Whoa! What power!

Nico: Whoa! What happened!? That is incredibly strong Negative Energy!

Stella (Loud House): Wow! So that is what a Negative Energy power increase feels like.

Me: Whoever has all that Negative Energy from negative emotions has to be the most hateful person ever!

Stella: I wonder why so many civilians are crying.

We saw everyone crying.

Me: This is not hatred that's causing this, it's pure sadness! Everyone is being plunged into sadness by someone.

Lana: Who in the 9 levels of Hell would do such a horrible thing!?

Me: We'll find out when we get to the Carnival.

We arrived and we saw all the citizens crying all their eyes out.

Me: Whoa! Everyone is sad as all get out because of this massive amount of Negative Energy.

Laney: How can it be affecting everyone out here?

?: (CRYING WILDLY) Because of me!

We turned and we saw the crybaby scientist LOU GUBRIOUS!

---

The Carnival of Happiness came to Townsville and everybody in The City of Townsville was as happy as could be, especially Bubbles, of The Powerpuff Girls. She went to the carnival so she could enter Townsville's 6th annual "Happiest Citizen Contest".

However, not everybody in Townsville was happy, because off the coast of the city, sat a big dark castle, on a rocky island. In that castle, lived a very sad and miserable man named Lou Gubrious, who spent his days crying his eyes out. His tears came out in giant, flowing, uninterrupted streams, enough to fill up the retreats of his mountainous island, and create a myriad of waterfalls, all over the island, which would flow naturally into the ocean around it.

Lou Gubrious complained and whined about how everybody in Townsville was happy, while he was sad. He devised an evil plan to make everybody else in Townsville happy, while also making himself happy. Lou had invented a machine called "The Miseray", which when activated, would take all the misery from himself, and send it out, to the rest of the world, while also taking the happiness of others, and inject it into himself.

When Lou activated the machine, an aura of depressing radiation swept The City of Townsville, and successfully made everybody in the town, start bawling their eyes out, acting depressed, and ruining everybody's good moods. This included The Powerpuff Girls, Professor Utonium, The Mayor, Mrs. Bellum, and The Talking Dog.

Lou Gubrious walked into Townsville, while everybody around him was crying. For once, Lou Gubrious was not crying. In fact, he was not even sad at all. He was overjoyed and had a bright and beaming smile on his face. Lou introduced himself by his new name, "Hal Larious", and accentuated his happiness, by prancing around Townsville, mocking everybody, who was sad. He went up to Bubbles, who had just won the "happiest citizen" contest, but said that due to recent events, there should be a recount on the winner.

He then took the trophy for himself and gloated to Bubbles about how he had lost the contest to her every year, since the contest started, and was joyous to have finally won the contest for once.

The Professor told The Powerpuff Girls that if people keep crying at this rate, Townsville will be flooded with tears in 10 minutes. However, once the Giant Fish Balloon Monster started crying his eyes out, The Professor said that the time would be shortened to 5 minutes, considering how many eyes the Fish Balloon had and how large he was as well. The Powerpuff Girls tried to cheer people up, by going around and telling jokes, hoping that it would make people laugh, and put an end to all the crying, but all their attempts to get as little as one chuckle out of even the most jovial of citizens, proved to be completely fruitless.

Bubbles told a joke to a pigeon, using a banana as a prop, but it did not work. Bubbles peeled the banana and threw the peel away. Hal Larious just so happened to be passing by, while this happened, and while everyone in Townsville was watching, Hal slipped on the banana peel in the most hilarious and comical way possible, which made everyone else laugh their heads off. Hal was both hurt and humiliated, prompting him to start crying again.

Everything went back to normal in Townsville, and everyone (except for Hal) was happy. The formerly hilarious Hal Larious was now back to being the lugubrious Lou Gubrious, but he was not allowed to go back to his island of sadness. Now, Lou Gubrious was working as an unpaid employee at the carnival of happiness. There was a log ride at the carnival and Lou was chained up in shackles at the beginning of the ride. There, he cried nonstop, providing a waterfall, to make the log ride function for free. Lou presumably spent the rest of his days, working this involuntary job, and he quoted that it only hurts, when he laughs.

---

Me: Who are you?

Gubrious: (CRYING) I am Lou Gubrious! The most miserable crybaby scientist of all time!

Courage: And I thought Zalost was miserable!

Me: How in the world can a little guy like you have all that misery and so much sadness inside you all at once? It's inhuman and defies all logic!

Lisa: That's what I was thinking.

Gubrious: (CRYING WILDLY) BECAUSE I'M MISERABLE!

Me: Jeez you are a major crybaby.

Gubrious: (Crying) Why aren't you affected by the Miseray!?

Me: Because your sadness is making us more powerful.

Gubrious: I thought you all only get powered up by hatred!

Sandstorm: All negative emotions make us stronger. Not just hatred!

Octane: And your machine doesn't work on Cybertronians anyway!

Adult Blossom: I remember this guy. He did this plan before. He plunged everyone into total sadness and almost flooded the city in tears.

Adult Bubbles: Yeah and I foiled his plan the first time.

Me: And now he's going to do it again.

Bubbles: I never thought that you would hurt someone else emotionally besides me, Buttercup, and Blossom.

Adult Bubbles: Yeah and it was sick.

Nico: (to Gubrious) You are a sad, strange little man. You almost have my sympathy. Almost.

Buzz Lightyear: That's exactly what I said to Woody when we were lost at Pizza Planet.

Me: Now it's time for us to teach you a lesson you will never forget. (Cracks Knuckles)

Lori: I'm going to literally turn you into a human pretzel for messing with peoples feelings!

Me: If we didn't feel sorry for you Gubrious, we would make you suffer for your crimes.

Gubrious (to the Loud Sisters): I get why you're all harsh on people like me. But I've had to work hard every day of my life, and what do I have to show for it? A dark castle and an abandoned island! And what do you have to show for all your lives of picking on your siblings?

Leni: What?

Gubrious: Everything! A large estate! About 10 cars! Handsome husbands! Nice children! Fancy clothes and expensive food for dinner! And do you all deserve any of it? No!

Lori: What are you literally trying to say?

Gubrious: I'm saying you're all what's wrong with America, Louds. You all coast through life, you all do as little as possible, and you all leech off of decent, hardworking people like me. And honestly, your siblings Lincoln and Laney deserve better!

Buttercup: Hey, back off!

Gubrious (to the Powerpuff Girls): Zip it! I'll get to you girls shortly! (to the Loud Sisters) You all aren't heroes! You all are frauds and hypocrites!

POW!

I punched him in the face and knocked out some of his teeth.

Homer: (Laughs) He said almost exactly the same thing Frank Grimes said.

Bart: I remember him dad.

Me: Didn't he get himself killed when he got electrocuted with 25,000 volt wires after having a mental breakdown?

Homer: That's right J.D.

Stella (Loud House): I can understand why you did that rant. But Lincoln's sisters have already suffered enough!

Me: They sure have.

Nico: If you weren't so miserable Gubrious, I would gladly make you suffer for saying stuff like that.

Me: Me too.

My dark orb detector beeped and it showed that there was a Dark Orb on in Lou Gubrious's island castle in a sea of tears.

Me: There's a Dark Orb in Lou Gubrious's castle. Nico, tie him up.

Nico: Right.

Nico tied him up in energy chains and we were off to Lou Gubrious's island castle. We saw that it was an isolated castle on an island with waterfalls pouring out of it. It was in the middle of a sea of tears.

Me: This is really sad and pathetic.

Lola: He lived out here in the middle of a Sea of Tears!? Gross!

Stella was being carried by Syd.

Stella (Loud House): I feel really sorry for Mr. Gubrious. I wonder what caused him to become so miserable.

Me: Who knows? But this is awful that he's that sad and depressed.

We went into his castle and we found the Miseray. It was a strange machine that had a huge dark orb the size of a house inside it that was being used as the power source and its negative energy was being used to make everyone but us miserable and sad.

Me: Wow! So this is the Miseray!

Laney: And that is one of the biggest Dark Orbs we have ever seen!

Me: That is exactly the same size as the Dark Orb that Team Flare used to power their Tachyon Particle Superlaser Cannon.

Stacy: I remember seeing that. That was incredible.

Syd: I heard you all destroyed Team Flare and that was an incredible battle!

Ronnie Anne: It was one of our most incredible battles Syd.

Me: But lets blow this orb up and destroy this place!

We fired energy blasts and blew up all the equipment and the machine was cracking and exploding all over the place. (Think of how Trunks and Krillin were blowing up Dr. Gero's Lab in Dragonball Z.)

Me: Payback time for all the pain and sadness you've caused!

Flaming explosions were blowing everything apart and burning everything. Outside the castle, the whole castle had explosions bursting out of it. Once all the equipment was destroyed, we set our sights on the dark orb.

Me: Lets blow that dark orb apart! Combo and Final Smash time!

Stella (Winx Club): Lets get it! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and it enhanced her Solarian Magic powers 100-fold.

Sandstorm: Time for action! CYBER KEY POWER!

The Earth Cyber Planet Key went into Sandstorm's Sand blaster and it enhanced it 100-fold.

Stella (Winx Club) and Sandstorm: SOLAR PLASMA SANDBURST!

Stella (Winx Club) Fired a massive blast of solar plasma and Sandstorm fired a massive blast of sand. The blasts combined and turned into a massive stream of solar plasma and it hit the Dark Orb and cracked it with a powerful explosion.

Quick Man: Lets get the need for speed! VELOCITRON CYBER KEY POWER!

The Velocitron Cyber Planet Key went into Quick Man's right arm and it enhanced his super speed and his Quick Boomerang 100-fold.

Octane: Lets get it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Flamethrower 100-fold.

Octane and Quick Man: SPEEDING FLAME BOOMERANG BARRAGE!

Quick Man fired a massive barrage of super fast boomerangs and Octane fired a massive blast of fire. The fire merged with the boomerangs and it turned them into flaming blades and they hit the Dark Orb and cracked it.

Me: That is a tough Dark Orb. Final Smash time!

Stella (Loud House): Lets do it. This'll be my first Final Smash. SOLAR PLASMA FIRESTORM BURST!

Stella fired a massive blast of fire at the Dark Orb and it hit the Dark Orb and Exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Bubbles: This is for messing with other emotions! BUBBLESTORM BURST WAVE!

Bubbles fired a massive blast of bubbles and it completely shattered the Dark Orb and we got a massive power boost! The whole castle was getting ready to explode!

Me: This whole place is gonna blow! Lets get outta here!

We flew out of the castle as it all exploded into a massive fiery explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: That was a blast!

Nico: It sure was.

Bubbles: (To the viewers) He will never again mess with peoples emotions.

Me: No he won't. And I have just the place where his tears will be put to good use.

---

And we decided to put his crying to good use and we built an awesome Waterpark in Phoenix Land and Lisa built a special Tear filtration machine that turned the tears into water and it was a major success. We built log rides, water slides and more and Lou Gubrious was the water source for the park. Nico caught a Zebstrika and a Gigalith. Bubbles won the 8th Annual Happiest Citizen Contest and Blossom's pie won 1st place and Buttercup won the dog show with Talking Dog and Bunny's Chili won the Chili Cook Off and Laney won a trophy for the best quilt. Lots of contests were won at the carnival. We had an awesome time.

THE END

---

Another Fanfiction Complete and another Powerpuff Girls Villain brought to justice.

Lou Gubrious had to be the saddest villain I've ever seen in that episode City of Frownsville. Poor guy was sad all the time. But he only appeared in that one episode and that's it. What a ripoff. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# An Island of Trains

At the Disney Castle we were with King Mickey. P.J. was there to visit his dad in prison. After being locked up for his crimes against the universe, Pete was left to realize the error of his ways by rotting in a cell.

Me: So Pete is feeling guilt over all the pain and suffering he caused huh?

Nico: I'll believe that when I see it.

Mickey: You will.

Me: P.J. are you sure you want to talk to your dad about this?

P.J.: I'm positive J.D. I want to tell my father that I forgive him for his crimes but it's gonna take a while for him to earn back my trust.

Me: We have all the time in the world P.J.

We went down into the dungeon and we saw Pete in his cell. However instead of him being in his clothes like we saw before, he was now in an orange prison jumpsuit. And orange is the new black.

Mickey: Pete, you have some visitors.

Pete saw us.

P.J.: Hey there dad.

Pete: Aw P.J. It's so nice to see you here.

But Pete saw us.

Pete: You got my son involved in this?! How do you all sleep at night?!

Ed: I like to sleep at night with a nice pillow while eating buttered toast and gravy.

Eddy: Shut up Ed.

Me: Pete, we're not here to insult you. We have P.J. here because he has something to tell you.

P.J.: (to Pete) Look, Dad. I forgive you for what you did. You're my father and nothing will ever change that. But my trust is something you'll have to earn back.

Pete: I understand son. I've done a lot of terrible things I'm not proud of. But I never meant to hurt you at all. You're my son P.J. and I will always love you no matter what.

P.J.: I love you too dad.

They hugged even though prison bars were in their way they still love each other.

Sora: Well, Pete. I hope this makes us even. We've reduced your prison sentence to 10 years. But after that, you better not commit anymore crimes.

Pete: It does Sora. And I promise.

Me: Because if you do commit anymore crimes…

I made the finger gesture that said "I will kill you." I slid my finger across my neck.

The warning will stick and I also made the gesture that said "I'm watching you."

---

Later, over the eastern Atlantic Ocean we were flying to an island located right next to England. It was an island that was well known throughout all the children in the world in books, games and movies and on TV. It was the Island of Sodor from Thomas the Tank Engine and Friends. One of my favorite childhood shows from my past.

Nico: So we're heading to the island that is home to Thomas the Tank Engine and all his friends!? AWESOME!

Me: I know. It's like we're gonna be visiting one of the awesome lands of my childhood.

Lana: I love Thomas the Tank Engine! Lincoln introduced me to that show and it's what made me want to be a handyman.

Lincoln: Yep. It was back when Lana was around 3 that I showed it to her.

Laney: I remember that. That was so adorable that you did that Lincoln.

Lori: It was literally the cutest time.

Leni: Totes.

Luna: It was rockin' dudes.

Luan: It sure was a chugin good time. (Laughs to rimshot) Get it?

Most of us laughed but everyone sighed.

Me: (Laughs) That was a good one!

Eddy: (Laughs) That was funny!

We landed and Gordon the Big Express Engine saw us.

Gordon: Team Loud Phoenix Storm?! It's such an honor!

Me: Gordon the Big Engine, it's an honor too. I love all you guys in my childhood. Most of us all do.

Thomas the Tank Engine came.

Thomas: It's such an honor to meet you all.

Me: You too Thomas.

Lana: I love all you guys. You guys are the reason why I got into the handyman business and I love all you guys!

Thomas: I'm honored that you love us Lana.

James (TTTF): I'm honored too.

Emily: We have so many fans around the world.

Me: I used to watch all you guys all the time back when I was little. I was only 4 when I was watching you and it feels like so long ago.

Thomas: I'm sure it does.

Henry: It sure does feel like a long time huh?

Toby: Yeah it does.

Me: But what I can't stand most of all is all you guys having to deal with those Troublesome Trucks.

Lola: Yeah! They are a major nuisance!

Lana: I hate those trucks!

Thomas: So you all came here to help stop them once and for all.

Me: If you would like.

Thomas: We would be so honored J.D.

Percy: We'll gladly help you out.

Emily: Count us all in.

Astrotrain: I'll help out too! It's been a long time since I've used my train form.

Me: Awesome! It'll be great working with our favorite childhood stars. Lets split into 12 groups and go after the Troublesome Trucks.

Nico: Good idea.

Vince: Nice!

Carol: This is gonna be so awesome!

Me: It sure is. We'll call Thomas and all his friends the RAILWAY

HELP BRIGADE.

Thomas: I like it!

James: Alright, guys. This is the part where you do some combo attacks and Final Smashes to take out the Troublesome Trucks. Go for it!

Double D: Not this time, James.

James: Say what?

Double D: The Troublesome Trucks are only nuisances at best. So all we have to do is go around Sodor to round them up.

Thomas: Where should we meet after getting all the Troublesome Trucks?

Me: Back here at the station. We're gonna throw those trucks in jail for causing all kinds of trouble. Lets ride the rails!

We cheered!

(CALIFORNIA HERE I COME PLAYS)

We were off. We had special incarceration carts with us and we built a special railroad impound lot for the bad trucks.

---

## Percy the Small Engine, William, Boone Dixon, Shego, Luan, and Winx Club Stella

---

Percy the Small Engine was riding down the rail with Luan, William, Boone Dixon and Stella of the Winx Club.

Percy was most likely built by the Avonside Engine Company sometime around the 1900's and had a subsequent rebuild in the period before he was sold second-hand to the North Western Railway by a factory on the Mainland. He is said to have been found to contain Hunslet parts, among others, according to workers at Crovan's Gate.

When Gordon, James and Henry went on strike in protest of extra work after Thomas' departure to run his branch line, the Fat Controller decided the railway needed another tank engine. At the engine workshop, the Fat Controller saw a green saddle tank. When the engine confirmed he was willing to work hard, the Fat Controller bought him and named him Percy. Bringing him back to Sodor, Percy was charged with running the branch line while Thomas ran the Main Line with Edward and was allowed to stay after the big engines surrendered and returned to work. At first, Percy liked to annoy the big engines. Percy was later waiting at Knapford, but forgot to whistle to the signalman and thus was startled when Gordon came running towards him with the express. Gordon managed to stop in time, but Percy was so frightened, he ran away and ended up stuck in a sandbank. He was rescued by Gordon and took up the duty of station pilot at Tidmouth.

Percy was still a cheeky engine and often liked to play jokes on Gordon and James, but one day the other engines got their revenge when Percy failed to recognise a "backing signal". After this, Percy was subject to bullying from the big engines until Duck arrived and helped Percy to put the big engines in their place, although Percy still received a reprimand from the Fat Controller for it.

With Duck's arrival, Percy was sent to Thomas' Branch Line to help build Knapford Harbour and has stayed there ever since as a goods engine. He met a self-centred white helicopter named Harold who said that railways were "slow and out-of-date", so he decided to race him, of which he won. When Percy had to take the Sunday School children home, he came across a flooded paddock which swashed away his fire. Thankfully, with a little help from Harold, who had dropped supplies of hot drinks for his crew and the passengers, he was able to get the children home.

Despite being really useful, Percy was prone to having accidents, sometimes for acting naughty and others for carelessness. He was naughty when he asked the trucks to push him past a danger notice, only to end up in the water until he could be lifted out and taken to the works by Henry. When a diesel railcar named Daisy came to look after Thomas' Branch Line, she constantly kept leaving behind the milk van every time Percy shunted it for her. Fed up with taking the milk for her, Percy offered to take Toby's trucks for him while he took the milk. However, the trucks were unfamiliar with Percy and when he ordered them about, they decided to seek revenge by pushing him onto a line of stone trucks.

One winter, the cold was severely getting to Percy, so he tried to think about warm things. As a result, his workday led to Percy obsessing over scarves and seeing everyone around him wearing them. Henry remarked on the silliness of an engine wanting a scarf, but Percy bit back with a comment about Henry's funnel size. The cold did not affect Percy's cheekiness however, as he planned on startling the coaches by coming in quietly. However, the porters did not hear him either and Percy crashed into their luggage trolley, ending up covered in jam with the Fat Controller's hat on Percy's lamp iron and his best trousers wrapped around Percy's funnel. James joked that Percy found a 'scarf' after all and ran off to tell Henry. That night, Thomas and a clean Percy prepared to go to sleep happy that the firelighter had agreed to arrive earlier the next day. Henry and Percy make up and Henry assures Percy that the weather will be warmer the following day.

In Tale of the Brave, Thomas told Percy about some mysterious footprints that he saw at the China Clay Pits. Percy convinced himself that the footprints were that of a monster that was roaming Sodor. Continuing to be anxious for a few days, he caused lots of confusion and delay such as: mistakenly referring to Gator (the new engine) as the monster, failing to delivery his mail on-time and running off before the Fat Controller finished talking to him. After talking with his new friend Gator, he understood what being brave is like and later used this courage to save James from a huge landslide. He later learned that the monster was really a dinosaur a long, long time ago, which had now become a fossil. He also understood that the footprints Thomas saw, were also only fossils left from the dinosaur. Percy later said goodbye to Gator, who had to return to the mainland, but the two friends were certain they would meet again someday.

In the eighteenth series, Percy was starting to miss Gator and tried to forget him by working hard and not think about him. When he had to deliver trucks full of precious sculptures and paintings for a special exhibition, he did not stop to be coupled and the Troublesome Trucks went rolling to the old mine. He thought about Gator and his advice of how to be brave. Percy went into the mine and rescued the trucks. Percy soon reunited with Gator at Christmas.

In the nineteenth series, he was to take the Mayor of Sodor to the Search and Rescue Centre to present a new alarm bell to celebrate their one thousandth rescue. Diesel overheard Percy talking about it at the Docks and he played a trick on him, sending Percy to the Old Quarry which resulted him ending up on a badly flooded railway line and after Diesel unsuccessfully attempted to pull him out of the flood, he too also ended up getting stuck in the water after it badly damaged his generator. The rescue of Diesel and Percy marked the Sodor Search and Rescue Centre Crew's one thousand and first rescue. He was once giving the job of transporting Farmer McColl's ewes to a fair at Maithwaite, however he was late delivering that night's mail. Rushing to get back on time, he bashed his livestock wagon into a flatbed and unknowingly created a hole in it. He collected the sheep from McColl Farm, but every time he stopped some of the sheep escaped. By the time he had reached the fair, all the sheep had escaped. Fortunately, Thomas, Annie and Clarabel arrived shortly afterwards with the sheep, much to Percy's relief. Once, he saw some painters at Knapford, talking about Sir Topham Hatt "leaving". After he told Thomas and the other engines, they came to the conclusion he was leaving Sodor because of them, so they decided to create no confusion and delay until he decided to stay. By the end of the day, it appeared their plan was successful, though Percy still had his doubts. His suspicions were seemingly confirmed when he saw the painters clearing out the Fat Controller's office. Now believing the Fat Controller was being forced to leave, the engines decided to go on strike until he was allowed to stay. After much confusion and delay, the Fat Controller explained to the engines that he was just moving to a temporary office while his was being redecorated. With the misunderstanding cleared up, Percy and the other engines worked hard to get the railway back on schedule.

In the twentieth series, he had the job of taking the Christmas Mail to Vicarstown for Hiro to take to the Mainland and onwards to the North Pole. Harold offered to help, but Percy refused, determined complete the job on his own. After he left a bag of letters behind at Dryaw, Harold chased after him, but Percy, believing he was just mocking his speed, refused to stop and crashed into a snowdrift at a tunnel. Stuck, he reluctantly agreed to let Harold deliver the Mail. The following day, he heard from Toby that Harold had not returned to Sodor that night, so he raced off to the Mainland to find him. He found him stuck in a field and out of fuel. Not wanting Harold to spend Christmas stranded and alone, he fetched his fuel and the two returned to Sodor. Later, Percy was taking the Mail Train at night, when he came across the Watermill bridge and heard a moaning sound which gave him a fright. Percy later told Thomas and Toby about it and remembering the story of The Three Billy Goats Gruff, he thought it was a troll that lives under the bridge. The three engines reluctantly crossed the bridge and discovered it was only a lost cow. He was also the only engine to be nice to Hugo, who was being shunned as the others thought he had come to replace them. He would then see a Zeppelin in the sky and question how Hugo could be in the sky as well as on the rails.

In The Great Race, Percy took Thomas' place in the shunting competition of the Great Railway Show after Thomas had an accident and was left on Sodor. However, Thomas managed to make it to the Mainland after all and Percy dropped out of the competition so his best friend could compete and because he did not want to compete in the first place.

In the twenty-first series, Percy became confused because of the new P.A. system which was not working properly. Because of this, he ended up taking a delivery of pigs to Lord Callan at Callan Castle. He was also told by Dowager Hatt to pull Gordon's Express instead of Gordon doing so, but because he was not strong enough to pull it, he got stuck on Gordon's Hill and ended up severely delayed.

In the twenty-second series, when Merlin first came to Sodor, Percy thought everyone was talking about how Merlin is an invisible engine so that why Percy hadn't seen him. He looked everywhere for the invisible engine until he met up with Merlin (who did not get a chance to introduce himself) and heard what he believed was the invisible engine's whistle rushed off to tell Thomas about hearing what he thought was Merlin's whistle; but unknown to Percy, it just turned out to be Trevor.

In the film, Percy overheard Mr. Conductor talking in his sleep. Later, he arrived at Knapford with his Mail Train, he told Thomas about Mr. Conductor and conclude that he travels on Sodor to the magic railroad. Thomas told Percy about the missing truck and realised that the buffers leading to the magic railroad and told Percy to guard the buffers to be a brave engine. Sometime afterwards, Percy found Splatter and Dodge at the magic buffers and raced to warn Thomas, telling him to get Lily back to Muffle Mountain before Diesel 10 destroyed the magic railroad. Percy was last seen pulling a goods train during the chase between Lady, Thomas and Diesel 10, when the three engines passed over Bulgy's Bridge.

Percy: It's such an honor to have you all here with us.

Luan: Thanks Percy. You are my favorite engine when I first watched you all.

Percy: I'm so honored Luan.

William: We didn't watch you guys all the time when we went to Kadac in France and I'm sorry about that.

Percy: It's all right William. Shego, weren't you with Dr. Drakken?

Shego: I was. My friend Maria showed me the error of my ways and she helped me see what a horrible person I was. I'm now on Team Loud Phoenix Storm's Redemption Squad.

Percy: That's awesome! I'm so glad you changed.

Shego: Thanks Percy

Stella of the Winx Club was in her Enchantix Form and she was flying beside them.

Stella: This is so awesome working with you.

Percy: Thanks Stella. I like working with you all too.

In the mountains of the island of Sodor they found one of the Troublesome Trucks. They were getting rocks and stones from the mountains.

Percy: Hold it right there you delinquent!

7-Plank Truck: Well if it isn't Percy!

Percy: Your days of mischief are over forever.

7-Plank Truck: And what are you gonna do about it ya tin can!?

Percy: Oh it's not me that's doing anything.

Luan: It's us!

William: Lets get him!

Stella and Luan lifted the 7-Plank Truck off the rail and dumped out the rocks and they put him on the cart.

Percy: You have a lot to answer for when we get back you punk.

---

Emily, Luna, Matt Daniels, Maria, Bai Tza, and Irma.

---

Emily had Luna, Matt Daniels, Bai Tza and Irma with her.

When Emily was new to Sodor, she was ignored by the other engines for borrowing and pulling Annie and Clarabel without Thomas' permission or knowledge. The matter was resolved after she saved both Thomas and Oliver from nearly having a nasty accident on the cross-points and she was rewarded with two new coaches. Emily proved to be kind-hearted, as she was the only engine concerned about Henry when he was ill due to leaky tubes and when she stuck up for Salty when Thomas and Percy were teasing him.

However, Emily has proven to be a nuisance on occasion as she bossed everyone about when they were clearing up after a storm; Thomas when taking passengers and Percy when shunting trucks. When pulling the express for the first time, she was determined to keep to Gordon's timing, only to run out of water.

Later on she was assigned to the Flour Mill, while James was assigned to the Misty Valley Branch Line, primarily the Black Loch. James told her that there was a monster in the Loch. She had trouble with the Flour Mill and ended up crashing some trucks off the line. She was later reassigned to the Misty Valley Branch Line replacing James. She discovered that the monster was just a family of seals. She is presumed to still work the line as it has never been stated otherwise.

When Thomas had to stay at Knapford Sheds, Emily did not like his company at first as she did not want any noise; she just wanted some sleep. However, she learned how comfortable it is to have the company of friends and once Tidmouth Sheds was rebuilt, she was transferred there to be with her new shed mates.

Like most engines, Emily can get quite puffed up in the smokebox. When she was called "Excellent Emily," she ignored the advice of Murdoch, Thomas and Duck, only to get herself into trouble. Afterwards, she took their advice to get her job done.

Emily tries her best to make her friends happy. When she assumed that Mavis was sad, she took flowers to the quarry, but only created a mess. When she tried to help her friends with the football/soccer match, she neglected to fetch the dirty washing, which turned out to be the football/soccer team's uniforms. Also, when the Fat Controller lost his top hat, Emily went to find it without success and then took the special Christmas train without permission. However, she made amends for her friends' sake.

She later took Paxton to the Vicarstown Dieselworks after he was damaged during an accident at the Blue Mountain Quarry.

When Thomas hid his snowplough, Emily had to do Thomas' work and saved him when he got stuck in the snow again.

Thomas told Emily about the Flatbeds of Fear, but Emily did not believe in it and said there was a sensible explanation. She eventually believed in it, until Thomas told her that it was just one of Salty's tall tales. Later, she was very excited to collect a special which was a giant model of a globe of the world to take it to the Animal Park. However, it accidently fell off and she spent some time getting after it.

When the Steam Team tried to clear the tracks of snow for Connor to deliver the last train for Christmas, Emily was unable to clear them from the Sodor side, but was happy to see Hiro as he cleared it from the other direction, then was disappointed when they mistook Harold for Father Christmas by believing his red port lamp to be Rudolph's nose.

She was later informed by Paxton about the rumour that Toby was to be scrapped, but Henrietta overheard and knew it was not true. Emily took her to find Toby and once they found him safe, Emily gave him some of her coal.

When Henry confided in Emily that he feared catching chicken pox from Stephen and Bridget Hatt, she assured him that he could not get chicken pox, joking that he worries too much.

She became fascinated with Caitlin being able to go at such high speeds and wondered what it would be like to be fast, becoming depressed when she could not do so. However, in the end, she managed to save Caitlin when she descended down a steep hill with broken brakes.

When Thomas was fed up with Diesel's selfishness during the holidays, Emily partook in Thomas' plan to mend the diesel's ways, much to her joy and amusement. She later attended the Earl's Christmas lunch with several other engines, including Thomas and a reformed Diesel.

Emily went with the other Sodor engines to be part of the Great Railway Show, competing in the Best Decorated Engine Parade along with James, Carlos, Rajiv and Yong Bao, but she and James lost to Rajiv. After Percy dropped out of the Shunting Challenge, she encouraged Thomas to take his place, declaring him Sodor's last chance to win.

Once, when the Fat Controller was ill, Dowager Hatt took charge of the railway. She assigned Emily to Thomas' job of pulling Annie and Clarabel, while Gordon was assigned to her job of taking scrap to the scrapyards. This resulted in lots of confusion and delay, culminating with a massive hold up outside of Knapford. Emily pointed this out to the Dowager and was able to help her get things back on track before the Fat Controller returned.

Later, she helped Donald and Douglas pull a heavy train of steel pipes to Vicarstown, but the journey became difficult when the twins kept teasing each other and arguing about swapping places. When they stopped on Gordon's Hill, Emily was left holding the train while Donald and Douglas continued to bicker. Eventually, Emily slipped down the hill and was knocked off the rails by a giant, heavy snowball, which had formed from a lump of coal shaken out of Donald's tender when Douglas bumped him. Once Harvey had cleared up the mess, Emily took the front while both twins pushed and they reached Vicarstown without any further trouble.

Some time later, it was discovered that Thomas had mysteriously vanished off the Island of Sodor. As the Fat Controller began a desperate search for Thomas, Emily went down to Brendam Docks, where Carly revealed she loaded Thomas onto a ship only a short while ago. Emily rushed back to Knapford to tell the Fat Controller, who became more frantic when he realised that if Thomas had left Sodor by ship, he could have been anywhere in the world by that point. Emily joined the search in the hopes of Thomas still being on Sodor, but returned to Tidmouth Sheds that night to look on with deep worry as Thomas' berth remains empty, his whereabouts unknown. However, when Mr. Percival received word a few days later from a signalman on the Indian Railway that Thomas had been spotted there and was returning to Sodor via the Mainland through Asia and Europe, Emily was waiting at Knapford Station alongside the other engines, residents and friends to welcome him home, along with meeting Thomas' new friend Nia, who would be living with them on the North Western Railway as her shed in Kenya had been demolished and Thomas invited her to live and work on the North Western from now on.

Later on, Emily had been assigned to pick up the new boiler for the Sodor Animal Park from Brendam Docks when the old one broke down. However, when she noticed the ship had not come into port yet, she asked Carly where it was, only for Carly to reply that the snowstorm was causing the ships to be delayed reaching their destinations, and the boiler may not arrive until after Christmas. Thomas, overhearing this, rushed off to notify the Fat Controller of the situation. Emily returned to Tidmouth Sheds later that evening with the rest of the Steam Team, only to be amazed when Thomas arrived with the animals from the Animal Park, explaining that he was unable to reach the Steamworks as originally instructed by the Fat Controller, and brought the animals here where they could stay warm through the Steam Team's boilers. Although Gordon and James were against the idea, Emily, Nia, Rebecca and Percy were all for it. The next morning, which was Christmas, the Fat Controller arrived at the sheds, and was shocked when he found the animals inside with the Steam Team and their crews. However, he then revealed that the new boiler for the Animal Park had arrived, and the animals could return home soon. Emily and the other engines shared a laugh when one of the ostriches snatched the Fat Controller's top hat to wear itself, much to his annoyance.

When a heavy fog descended on the Island, Emily nearly had a head-on collision with Gordon as he pulled out of Knapford Railway Station with the Express, before actually hitting him and pushing him backwards when she was rammed from behind by Rebecca when her brakes failed again to stop her in time. As a result, the Fat Controller advised her and the rest of the Steam Team to be careful in the fog, having Cyril the Fogman place detonators on the rails to warn them that they were approaching signals and to slow down to avoid an accident. Emily later attended Sir Robert Norramby's fireworks show at Ulfstead Castle with Thomas and Rebecca, soon joined by Samson, who was able to conquer his fear of fireworks, and Bradford.

Luna: It's so awesome riding the rails with you Emily.

Emily: I'm glad you're having fun Luna. I heard J.D. sang a song for you with Mick Swagger on Christmas 3 years ago.

Luna: He sure did. That was the best Christmas gift I've ever gotten from him.

Matt Daniels: You're a fan of Mick Swagger, Luna?

Luna: I sure am dude. He's my idol.

Matt Daniels: I'm a fan of Mick Swagger too dudette!

Luna: Rockin'!

Irma and Bai Tza were flying beside them.

Irma: Luna is an awesome musical inspiration and she loves all music.

Bai Tza: She sure does.

They arrived in a hilly area.

Maria: Now, if I was a Troublesome Truck, where would I hide?

They saw one of the short wheelbase trucks hauling rocks and pebbles.

Emily: Hold it right there punk.

Short truck: Well if it isn't Emily the tin tube,

Emily: Your days of causing mischief are over for good!

Short truck: Who's gonna stop me?

Irma: We are!

Irma, Luna and Bai Tza fired a powerful blast of water and it lifted the short truck up and put him on the incarceration bed.

Emily: You have a lot to answer for.

Thomas the Tank Engine, J.D. Nico, May, Lincoln, Lizzy Morris, Luke Morris, Clay (Goosebumps), Shocker, Elena, and Will

Thomas the Tank Engine, me, Lincoln, Lizzy Morris, Luke Morris, Clay (Goosebumps), Shocker, Elena and Will were riding the rails.

Details of Thomas' arrival on the North Western Railway in 1915 are mostly undocumented and it is unknown exactly how he turned up on Sodor. The most popular theory put forward, however, is that he was sent to Sodor in a wartime mix-up. His driver and fireman got along well with the local people and married Sudrian women. By 1920, neither one wanted to leave the Island or their beloved engine.

During an inquiry, Topham Hatt found out that the LB&SCR had written off Thomas as being "lost on war service." Rather than face complications resulting from a change in their books, the LB&SCR quietly sold Thomas to the North Western Railway for a "nominal sum".

Thomas originally worked as the station pilot at Vicarstown, shunting trains for the bigger engines on the main line to take out. He enjoyed teasing the other engines, especially Gordon, who he would quietly sneak up on and whistle loudly at while Gordon dozed on a siding. Eventually, Gordon managed to get back at Thomas by pulling out of the station before he could be uncoupled from his coaches, dragging him down the line at a tremendous speed. Thomas vowed to never tease Gordon again. Perhaps as a result of his brief excursion beyond his boundaries, Thomas longed to see more of the world and become a part of it and became jealous of the bigger engines for having the chance to pull trains.

On an occasion when Henry fell ill, Thomas took his morning passenger train since there were no other engines available, much to his delight. However, for unknown reasons, Thomas left the station before he could be coupled to his train, leaving behind the coaches, the passengers, and their luggage. Thomas was not aware of his mistake until he was stopped by a signalman who asked where his train was. Ashamed and humiliated, Thomas returned to the station and collected his coaches. Subsequently, the incident made him a laughing stock among the other engines.

Thomas continued to grumble to the other engines, though they took no notice of him. However, Edward felt sorry for him and allowed him to take his goods train to Wellsworth while he handled his shunting duties in the yard. Although Edward warned him to be careful around the trucks, Thomas took no notice and bumped the trucks as he started. When they reached Gordon's Hill, the trucks pushed him down the line, causing him to lose control. Thomas raced through Maron station and came to a stop, where he was confronted by the Fat Controller. Sometime after this, Thomas was relocated to Wellsworth to learn more about handling trucks.

Thomas was present in the yard when James ran out of control with his trucks and derailed in a field outside the station. Thomas fetched the Breakdown Train and rushed to James' aid and he helped to clean up the broken trucks and bring James back to the shed when he was re-railed. As a reward for his actions, Thomas was given two new coaches, Annie and Clarabel and was given the responsibility of running the Ffarquhar Branch Line, much to his delight.

Thomas loved his branch line dearly and had many adventures during his first days on the line. He once left his guard behind by accident and on another occasion he accidentally swallowed a fish in his tank when he took on water from the lake, causing him tremendous pain. During the autumn series, Thomas met Terence and teased him for his caterpillar tracks, though he later came to regret this after he became stuck in the snow and had to be pulled out by him. Thomas later met Bertie and was challenged to a race to Ffarquhar. Although he was behind for most of the race, Thomas managed to overtake Bertie and won.

After a compliment by his driver went to his smokebox, Thomas became conceited, believing that he no longer needed his driver to control him. The next morning, Thomas found himself moving on his own after a careless cleaner had meddled with his controls, but he was unable to stop and crashed into the Ffarquhar stationmaster's house. Thomas was sent to the Works to be mended and received some changes to his design, including a new footplate that was now level from smokebox to bunker. When Thomas returned to the branch line, he began looking after the passenger trains with Daisy.

In 1990, Thomas was invited by the National Railway Museum to represent the North Western Railway in the Great Railway Show, an event showcasing many famous engines across the UK. Thomas was excited, but the journey to York was shaky; he damaged his front bufferbeam when he hit a crossing gate and the lorry he was traveling on was booked for parking illegally. Thomas was repaired when he arrived at the Museum and befriended Green Arrow while he was being mended, though he continued to have bad luck when he ran into a bag thrown onto the line and frightened a small child. Fortunately, Thomas managed to make up for his bad luck when, as he was double-heading a railtour with Green Arrow, he noticed the line up ahead was damaged and stopped the train. As a reward for his actions, Thomas was made an honorary member of the National Railway Museum and received a commemorative plaque. Afterwards, Thomas left York and returned to Sodor.

In 1995, during the Golden Jubilee of the Railway Series, Thomas derailed on his branchline after rabbits had been undermining the track. He was resuced and managned to attend the Jubilee at Tidmouth, or be it after being delayed at Knapford Junction after a points and signal failure.

In 2007, during which Toby was having to handle the overflow of quarry workers, Thomas discovered an old carriage named Victoria, who he asked to be restored and help Toby. He brought her up from the Junction to Ffarquhar to meet Toby, after having to bypass Terence's toppled cart that had nearly blocked the line.

In 2011, Thomas had been crossing the river bridge near Elsbridge, when he was forced to stop due to an injured swan laying on the rails. He escorted it to Ffarquhar where it was taken to a vet, and after recovery Thomas brought it back to Elsbridge where the swan was freed. Later, he attened the Thin Clergyman's centenary.

Before coming to Sodor, Thomas lived at Brighton, where he worked alongside several other engines. He was brought to the North Western Railway when the Fat Controller was in need of a new tank engine to shunt trains at Knapford and was originally painted teal-green before receiving his blue livery.

Thomas was cheeky at first and enjoyed teasing Gordon by waking him up while he was resting at Knapford. Gordon managed to get back at Thomas by leaving the station too quickly before he could be uncoupled and though Thomas learned his lesson about teasing Gordon, he wanted to see more of the world and go beyond the yard at Knapford station. He was given the chance to pull his first passenger train when Henry became ill but left the station too early when he mistook the guard's whistle for Edward's train for his own, leaving behind his coaches and passengers. Thomas was stopped by a signalman and he went back to the station to fetch his train.

Thomas was teased relentlessly about this mistake by Gordon and James, though Edward felt sorry for him and offered to let Thomas take his goods train while he took care of his shunting duties in the yard. Thomas could hardly contain his excitement and was too excited to listen to Edward's warning about the trucks, believing that he could handle them easily. However, as he reached the top of Gordon's Hill, the trucks began pushing Thomas down the line, causing him to run out of control and nearly crashed until he stopped in a siding.

Upon noticing that Henry had not come out of the sheds to pull his train during a rainy day, Thomas raced back to Tidmouth Sheds and managed to convince a paranoid Henry that the rain would not hurt him, finally helping him get over his fear of the rain. Thomas continued to work in the yard and over time, he became more skilled at shunting. While taking a break in the yard one day, Thomas saw James being pushed by his trucks unable to stop due to his burning brake blocks. Thomas bravely chased after James abandoning his Punishment and tried to stop him, but unfortunately, James derailed and landed in a field. Thomas rushed back to Knapford and retrieved Judy and Jerome, who helped him, re-rail James. As a reward for his heroic actions, Thomas was rewarded with his own branch line and two coaches of his own, Annie and Clarabel. From that point on, Thomas began proudly working on his branch line.[8]

However, he was key to several major events on Sodor, eventually becoming the first tank engine to explore the world. He now visits and works on foreign railways on occasion.

Thomas: It's so awesome having you all with us J.D.

Me: Thanks Thomas. It's so awesome helping you all out.

Lincoln: It sure is. I loved watching you guys back when I was little. It was awesome!

Thomas: I'm glad we have so many fans.

Shocker: It feels like forever since I watched you guys. You really are an inspiration for a lot of good children.

Me: I know Herman.

Thomas: I heard you guys destroyed an evil villain named Nerissa.

Me: We sure did. That was one of our most action packed battles. But it was so intense that it threatened to tear the whole planet apart.

Thomas: That's amazing!

Nico: It sure was.

May: I'll never forget that. That was one of the most intense battles we've ever had.

Lizzy: I remember reading about that. That battle was intense!

Clay (Goosebumps): That was an incredible battle! I remember hearing about that before we were forced to go back to Horrorland.

Luke Morris: I know.

Elena: That was intense.

Will: That was a rough battle. But in the end we all triumphed.

Thomas: I'm happy for all of you. Your teamwork is really quintessential for overpowering your strongest enemies.

Me: That's right Thomas. It takes the power of teamwork to achieve victory. Divided we are weak, but united we are stronger.

Thomas: That's a great saying.

Lincoln: It sure is.

They arrived at a mine and there they saw a Mine Trolley come out. It was one of the Troublesome Trucks.

Thomas: Not so fast troublemaker!

They pulled up.

Mine Trolley: Thomas the tin head. I did expect to see you here.

Lincoln: Your joy ride is over punk!

Mine Trolley: Lincoln Loud!

Lizzy: Not just him!

They grabbed him and put him on the Incarceration Cart.

Thomas: You have a lot to answer for when we get back.

---

Gordon the Big Engine, Lori, Teresa, Arpeggio, Abby Martin, and Hay Lin

---

Gordon the Big Engine, Lori, Teresa, Arpeggio, Abby Martin and Hay Lin were going down the rails.

Gordon was built at Doncaster in 1922 as an experimental prototype for Sir Nigel Gresley's A1 Pacific design for the Great Northern Railway. Inevitably there were faults which needed correction; so Gordon was kept "hush hush" and, apart from test runs, was never put into regular traffic or given a GNR number. He was used experimentally until all defects had been cured and the first batch of Pacifics had appeared in 1922/23. In 1923 therefore Gordon was no longer needed and was sold to the NWR together with a spare boiler and firebox.

During Gordon's early years on the railway, he often looked down on the smaller engines like Edward and Thomas. However, he would soon find he needed help from Edward to be his banker after he got stuck on a hill with a train of trucks. He also needed Edward and Henry to pull his passenger train after he broke his safety valve in front of Henry's Tunnel.

Gordon often found Thomas very annoying for whistling rudely at him, so he taught him a lesson by bringing him along his express train before he could be uncoupled. Thomas usually fetched the coaches for him, however, after Thomas left the yard when he was given a branch line, Gordon, along with Henry and James, soon found that they had to fetch their own coaches. After the big engines had several mishaps, one of which involved him having to pull his train backwards, Gordon proposed that they all go on strike, where they would only pull their coaches if another engine fetched them. Edward was the only engine left and since he was a tender engine and that Gordon proposed that tender engines do not shunt, they started to discriminate against Edward until the Fat Controller decided to leave them in the shed until they learned the error of their ways.

After Gordon, Henry and James saw how silly they were, the Fat Controller let them out, reminding them to behave and bought a tank engine named Percy to help fetch their coaches. Gordon almost had a run-in accident with Percy when he carelessly stood on the Main Line. After Percy ran away backwards and stopped in a pile of dirt, Gordon helped him out. Gordon was still arrogant and insulted Henry for the way he whistled. However, he ate his own words when his whistle jammed and he went running down the main line whistling continuously. He did not stop until a fitter climbed up and knocked his whistle in place.

Gordon is mainly used for passenger duties, pulling the North Western Railway's express, the Wild Nor' Wester, but has occasionally pulled goods trains, much to his dislike. He has been known to run into ditches and stop on hills to get out of doing these jobs, as he believes that these are below him.

In 1939, Gordon went to Crewe for a rebuild. His conjugated valve gear, which had been giving much trouble, was replaced by a two-cylinder chassis (designed by the Fat Controller), he received a smoother running plate, as the new cylinders couldn't fit under the original. This rebuild effectively made him a hybrid with Stanier valve gear, running plate, and cylinders, while the rest above was Gresly built.

Gordon has become famous after his adventures: In 1952, he was forbidden from pulling passenger trains following his incident in the ditch he caused, but after a period of good behaviour, by 1953, his punishment ended and he pulled Queen Elizabeth II's royal train. In 1956, he travelled to London, where he was lauded by a large crowd. Gordon did not like the visit, however, as he discovered that London's big station was St. Pancras, which he thought was King's Cross.

In 1957, during City of Truro's visit, Gordon heard that the famous engine had reached 100 miles an hour, and believed he could go reach that speed. This resulted in him lossing him dome on the viaduct. Later, when Diesel arrived on trial and was having trouble moving some old trucks, he blamed on Duck by making rumours about him giving Gordon a bad nickname, the "Galloping Sausage." As a result, Gordon, Henry and James began to turn against Duck by forbidding him from the shed. However, when the truth came out that Duck had not made the nicknames, they begin to feel very silly about jumping to conclusions before knowing the true story.

In 1965, Gordon complained about BoCo going on the main line, because the diesel only works on Edward's Branch Line. He claimed that the Fat Controller would never agree and states that branch lines are vulgar. That night, Gordon's crew mistakenly believed that the passenger with a green hat was the guard waving his green flag. As a result, Gordon left with the majority of the passengers, the luggage and the guard stranded on the platform. Everyone was surprised, but the surprise quickly gave way to anger. This made Gordon so embarrassed, he brought his train back down to the big station as Edward was already late with his train. But the signalman at the junction was not told about the change. Because of this, Edward was sent to the main line and Gordon was sent down to Edward's branch line. He spent the night at Brendam, and was teased by Bill and Ben of being a lot of old iron that should be scraped or sunked. BoCo stopped them, and Gordon gained respect to him.

In 1967, Gordon felt devastated about his siblings after hearing that they were all scrapped on the Mainland, but happy to hear that his brother Flying Scotsman was preserved, when the Fat Controller brought him to reunite with Gordon.

Then, in 1986, Gordon heard about high speed trains on the Other Railway, and belived he could go faster than them. However he had a wheelship and later covered wedding guests and the Fat Controller's top hat with soot. He managed to redeem himself and get the Express over his hill after his firebars collapsed, and got to visit Carlisle when a Diesel taking a Railtour failed.

In 1995, Gordon had been hauling the Express when a flock of crows swooped in front of the train, resulting in one of them knocking the seal out of his front break pipe.

As Gordon could not go far on the Other Railway due to a lack of waterpipes, he would have to change places with a diesel locomotive at Barrow, who would take the Wild Nor' Wester onwards to London. By the early 2000's, however, this wasted too much time and the timetable was considered too slow. Sir Stephen Hatt decided to buy Pip and Emma to run the service, as they are capable of doing a complete round trip every day, which he did so in 2010. Gordon now pulls fast passenger trains, which he prefers as he can do two round trips per day instead of one and does not need to hurry.

Gordon's last train of the day stops at all the stations on the Main Line. One evening, delays on the Other Railway resulted in him being late. At Killdane, he encountered a fire and he urged his driver to do something; his driver used a hose to put out the fire with water from Gordon's tender. Following this, the Fire Brigade recommended him for The Queen's Fire Service Medal, which he is very proud of.

Gordon has been, to date, the fastest engine on Sodor, but has sometimes had accidents, sometimes due to him trying to show off; In the fifth series, his brakes were not working and he could not stop, resulting in him crashing through the Kirk Ronan Station wall. Also, in the sixth series, he ignored Salty's advice about going slow while pulling trucks, resulting in him speeding down a rickety old branch line and tumbling into a field. Though he has proven to not be too big for his wheels and to be useful instead, like when Spencer first arrived on Sodor, he gave him advice about taking on water before going to Maron Station; in result, he ran out of water on Gordon's Hill and Gordon had to pull him from there. In the tenth series, he, along with Edward, criticised Rocky when he first arrived on Sodor and called him "new-fangled nonsense". Afterwards, when he crashed into Edward's pipes, which had fallen off his flatbeds, he derailed. In result, Rocky came and lifted him back onto the rails and cleared the pipes, proving how useful he is.

Gordon once tried taking a shortcut in order to beat Stanley to Great Waterton, but accidentally crashed into Ben's logs, but luckily, saved Stanley from crashing into them on the track below. When Gordon was given the task of taking the Lion of Sodor to the Duke and Duchess of Boxford's Summer House with Ferdinand, he ignored his advice about going slowly over the Fenland, with the result of the statue falling into the muddy marsh. After the statue was cleaned, Gordon let Ferdinand be his front engine and they delivered the statue safely to the summer house. They have since then been good friends. One day, Gordon accidentally broke his buffer beam after colliding with a truck at the Dieselworks and Den and Dart gave him a yellow and hazard buffer beam (similar to Den's), but Gordon refused to wear it until he later found that he can still be really useful as what Thomas said. One winter he, along with the rest of the Steam Team, had to find places to sleep, when the turntable at Tidmouth Sheds was frozen, so he decided to sleep there, in the one accessible berth, resulting in him getting stuck in there the next morning and remaining there for the rest of the day. He has since become a more sensible engine.

Once, he was waiting at Kellsthorpe Road Station while a workman was painting a telephone box on the other platform. But the man accidentally kicked his paint can onto the track next to Gordon, just as Connor raced through the station, splattering red paint all over Gordon. When Henry saw red spots all over Gordon, he assumed the blue engine had chicken pox. Later, as he was filling up with water, he told Philip to get on with his work and keep out of his way. He explained to Philip that he pulls the express and is very fast. As Gordon returned to Knapford with the express, Philip reversed back to the station as Gordon braked hard and told him that he nearly caused an accident. As he was resting in the yard, Philip challenged Gordon to a race and started to race away, but Gordon went back to resting instead of racing him. That night, Gordon was not very happy and decided to show Philip how fast he can go the next day and told him to have another race.

In the twentieth series, he was not ready to leave the sheds as his firebox had not been cleaned out the night before. As Henry was pulling the express, Gordon arrived into Knapford to fetch his train, but the Fat Controller scolded Gordon for coming in late and told him that he had been assigned to goods trains for the rest of the day. Gordon was grumpy as he arrived at Brendam Docks with his goods train. Salty, Porter and Cranky greeted him. Gordon was given a train of coal. When he returned to Knapford, he asked the Fat Controller if he could pull the express again, but he was told to go to the Blue Mountain Quarry instead. As he arrived at the quarry, Gordon was still in a bad mood as he collected a train of stone. As he began to leave, the trucks put their brakes on and then released them, causing Gordon to jump the points and hit a buffer stop. Finally fed up with his work, he ordered to be uncoupled so he could go back to the sheds. That night, the Fat Controller scolded him again for not doing all his jobs that day and ordered him to pull the Flying Kipper as punishment or else Henry would pull the express permanently. Henry and Thomas teased him about it not being an easy job, but Gordon was determined to prove them wrong and left the sheds to pull the Flying Kipper. As he returned to the sheds next morning, the Fat Controller praised him for successfully delivering the Kipper on time and told him that he could now go back to being the express engine again much to Gordon's delight. When the other engines noticed how smelly he was after pulling the Flying Kipper, he quickly went to the washdown whilst the other engines laughed.

In The Great Race, Gordon introduced Thomas to his brother, the Flying Scotsman, at Vicarstown and later teased Thomas for wanting to compete in the Great Railway Show, believing that he is too small to compete. Gordon was selected by the Fat Controller to participate in the Great Race and was temporarily streamlined for the event. However, he refused to undergo the final safety checks and as a result, the workmen forgot to attach his safety valve. Thomas brought it to the Mainland and tried to warn Gordon, but he competed in the race without it and his boiler exploded when he refused to heed Thomas and Flying Scotsman's warnings. Gordon had to drop out of the race as a result. After the Great Railway Show was over and all of the foreign engines (except for Ashima) had gone home, Gordon met up with Flying Scotsman, who admitted that his opinion on Sudrian engines has improved significantly since the race.

In the twenty-first series, he and Spencer loved to race to see who is the fastest. However, their boasting about led to Gordon saying that he is an important engine, as he started at Platform 1. Spencer then went to platform one and made Gordon move to Platform 2, where Spencer was supposed to be going to. Then, Thomas and Philip shunted Gordon and Spencer's coaches to them. Unfortunately, the coaches ended up for the wrong engines as the two were on the wrong platforms. This led to a mix up and the two both set off without realising that they had a wrong coaches. After they raced along the main line, Gordon stopped at Wellsworth with Spencer's Coaches while Spencer thundered down with the express and he realised that Spencer got the wrong express coaches and chased after him all the way to Callan Castle. This ended up upsetting the passengers because of how they missed their stops and they did not realise that they had the wrong coaches that they shunted on the platform for the first place. There, Gordon and Spencer took the passengers to the right stations and returned to Knapford and apologised to each other as they watched the fireworks all together. He also teased Philip about his number 68 painted on their side and after sixty-eight sheep ran onto the track, Philip saved him from the sheep blocking on the main line.

Gordon was very upset when Edward moved from Tidmouth to Wellsworth Sheds, even more so when Henry decided to move to Vicarstown Sheds. He was so upset about all the changes happening on the railway that he threw a tantrum in front of Thomas, Annie, Clarabel, Nia, Paxton and the Fat Controller and after failing to convince Edward to come back to Tidmouth once more, the Fat Controller sent him to his shed for his behaviour. However, Nia was able to calm Gordon down when she told him that change can be good and that if all her old friends will remain her friends, so will Edward and Henry. Despite bonding with Nia, Gordon was not very pleased to hear of another engine taking over Henry's berth in the sheds, which later turned out to be Rebecca. However, he later became good friends with her, after she retorted the Flying Scotsman's teasing of him about being the 'little brother'.

Upon meeting a big blue electric express engine named Gustavo in Brazil, Thomas found that he reminded him of Gordon, especially when he shouted "Oh, the indignity". Thinking his mindset was like Gordon, Thomas ignored him, until he found out that Gustavo didn't act like Gordon at all! The 2 engines were soon engaged in a conversation regarding Gordon's streamlining for the Great Railway Show.

After Rebecca coated herself in honey and produce, Gordon found himself with an uncontrollable urge to laugh. He kept it suppressed and hidden until Sir Topham Hatt told him it was alright.

In the film, Gordon complained to Thomas, who was late and Thomas retorted that Gordon was being bossy and told him that he had to find Mr. Conductor, who was coming to visit Sodor to look after the North Western Railway while Sir Topham Hatt was taking a holiday. He thought Mr. Conductor was not needed until Diesel 10 sped through Thomas and Gordon at Killaban by. Later, he, James and Thomas argued about who should have taken Mr. Conductor and retorted that James is a big engine and Thomas is a small blue engine.

Gordon: It's such an honor to have you all with us Lori.

Lori: Thanks Gordon. It's literally so awesome to be here. You're my favorite engine. I literally love you on the show.

Gordon: Thanks Lori. I'm so glad I have some fans. Teresa I heard you were once one of the Metabreed.

Teresa: That's right. I was once Talon. I looked like a Harpy and had deadly sonic scream powers. I got that way because of an experimental mutagenic compound that mutated me.

Gordon: I'm sorry that happened to you. I'm glad J.D. and everyone cured you.

Teresa: Me too.

Hay Lin: But we're glad we can help out everyone in need.

Arpeggio: (British Accent) That's right lads.

Gordon: I heard you all took down the evil Transformer Devil, Unicron.

Lori: That was literally one of our most intense battles.

They arrived at a railway and they saw Barnstaple Railway Van.

Gordon: Hold it right there!

Railway Van: Gordon the Chump.

Lori: You shut up or I will rip your wheels off!

Hay Lin and Lori formed a powerful tornado and put the railway van on the cart.

Gordon: You have a lot to answer for.

James the Splendid Engine, Edd, Linka, Lynn, Lightning, Jillian Gerard, Jackson Gerard, Sandman, Cornelia, and Clayface

---

James the Splendid Engine, Edd, Linka, Lynn, Jillian & Jackson Gerard, Sandman, Cornelia and Clayface were riding down the rails.

James was designed by George Hughes and built by Horwich Works at some point between 1912 and 1913. He was designed as an experimental variation of the Class 28 locomotives, with a front pony truck installed at the front and 5'6" sized driving wheels instead of the class' usual 5'1". These were added in an attempt to cure the "nose-diving" the class experienced when travelling at high speed. The experiment did not entirely produce the results hoped for, and after the Grouping James was sold to the North Western Railway.

Shortly after he arrived on the Island of Sodor, James was damaged in a crash when his trucks pushed him down the line and his wooden brake blocks caught on fire. After being recovered from the wreck, James was sent to Crovan's Gate Works, where he was repaired, repainted into a new red livery and gained functional brakes. He presumably gained his Fowler tender around this time.

When James returned from the Works, he became vain and troublesome. While double-heading a passenger train with Edward, he accidentally showered water on the Fat Controller's new top hat, almost forgot to stop at the station, and disturbed an elderly lady with his hiccups. After being threatened by the Fat Controller with a coat of blue paint, James became grumpy and started bumping the coaches around aggressively, though this backfired on him when one of the brake pipes began leaking and needed to be mended with a bootlace and some newspapers. Following this incident, James was shut up in the shed until he could learn his lesson. When he was finally let out by the Fat Controller, James was assigned to pulling a goods train to Killdane. Although he had some trouble when some of the trucks broke away, James managed to keep the train under control and deliver it to the station and was allowed to keep his red paint after the Fat Controller had seen everything.

Even though he had proven to be useful, James was still teased by Gordon and Henry, who mocked him for his past mistakes. However, after Gordon got lost and wound up at Tidmouth, James was allowed to take the express in his place. He did so successfully and he and Gordon became firm friends.

When Thomas left Tidmouth to run the Ffarquhar Branch Line, James, Gordon and Henry became irritated, as they now had to fetch their own trains. After an incident on the turntable that left him humiliated, James, along with Gordon and Henry, decided to go on strike, refusing to leave the shed and behaving badly when they had to work. The Fat Controller eventually shut them up in the shed and made Thomas and Edward pull their trains, though he allowed them to come out when they were sorry.

When Diesel arrived on trial, James gained the nickname "Rusty Red Scrap-Iron". Believing that Duck was behind the insults, James, along with Gordon and Henry, turned against him. However, when

Diesel was exposed and Duck was proven innocent, James and the other engines were sorry and welcomed him back. James later recalled the events of Diesel's visit to Duncan, though he greatly exaggerated certain parts of the tale, making it seem as though he was the one who sent him packing.

James continued to treat diesel engines with hostility, long after the other steam engines had already accepted them. Although he liked BoCo and Bear, James was openly nasty to other diesels, believing them to be inferior. However, when his injector froze one wintry day and he had to be rescued by the Works Diesel, James decided to give up his prejudiced views, as the diesel had been friendly to him.

In 2011, James was chosen by the Fat Controller to go to the Mainland to collect a bust of the Thin Clergyman and deliver it to Tidmouth. James did so, but on the way back the entrance to Henry's Tunnel collapsed. Thankfully, James had gone through the tunnel before it collapsed and made it to Tidmouth with the bust. He attended its unveiling alongside the other engines.

James arrived on the North Western Railway sometime before Thomas' arrival and was originally painted black and wore wooden brake blocks, which were prone to burning up and emitting smoke when stopping. He originally owned Annie and Clarabel and believed that he would be given his own branch line, although the other engines doubted this.

When Thomas came to Sodor, James teased him on several occasions for making mistakes, often joining in with Gordon to make fun of him. However, one day, James ran out of control with a goods train and was unable to stop due to his brake blocks being on fire. Thomas chased after the train and tried to slow it down, but James flew off a bend and crashed in a field, the crash badly damaging him. Thomas rushed back to Knapford and retrieved Jerome and Judy, who helped to clear away the wreckage and placed James back on the rails. James was sent to the Steamworks to be mended, where he received his new red livery. Upon returning from the Steamworks, James found out that Annie and Clarabel now belonged to Thomas, who had been given the responsibility of running the Ffarquhar Branch Line.

In the film, Thomas met James at Tidmouth Sheds until Diesel 10 first arrived and told them his plans to destroy the lost engine named Lady. James and Thomas rebel against Diesel 10. Later on, Thomas, James and Gordon argue about who should have collected Mr. Conductor. After Mr. Conductor is helping to make James' itch go away, James is sad, so Mr. Conductor happily says his red paint is bright and cheerful just like the gold dust and sends him off to work. Sometime afterwards, James appears at the Smelter's Yard when Diesel 10 arrived with Junior. Junior lands onto James' cab and the two almost got thrown into the smelting pit by Diesel 10. Luckily, Junior used his gold dust to teleport them to a spot near the magic buffers, where Mr. Conductor was waiting. James departs and thanks Junior for his help.

Astrotrain arrived and he was in his train mode.

James (sees Astrotrain's train form): Oh, so that's why they call you Astrotrain. I get it now!

Astrotrain (in his train mode): I can't believe that those stupid trucks can cause so much trouble.

James: You have no idea.

Lightning: Lightning is gonna strike those trucks into prison! Sha-BLAM!

Lynn: We're not here to fight Lightning.

Edd: That is correct.

Jillian Gerard: Those trucks will know how prison feels by the time we're done with them.

Jackson Gerard: You got that right.

Cornelia: Never mess with the good production of good trains.

James: I'm glad you think so Cornelia.

Clayface: I agree.

Sandman: The troublesome Trucks will love hard labor.

Linka: Yep.

They saw an NER Van.

James: Hey you bad bucket.

NER Van: Well if it isn't stupid and ugly James.

Astrotrain: The only ugly one is you.

Astrotrain formed a crane and put the NER Van on the incarceration cart.

James: You have a lot to answer for.

---

Ben & Bill, Lola & Lana, Poison Ivy, Julie Martin, Killer Frost, Bloom, Michael Munroe, Francis, Lea, and Taranee

---

Ben & Bill were both rolling down the tracks with Lana & Lola, Poison Ivy, Julie Martin, Killer Frost, Bloom, Michael Munroe, Francis, Lea and Taranee.

One day, Bill and Ben returned from shunting some trucks to find that some other trucks they had shunted earlier were missing. Their drivers, after examining a puddle of oil on the ground, concluded a diesel was responsible. After the twins argued over who brought the "diseasel" into the yard, the drivers suggested they go looking for the diesel. The twins were horrified at the possibility that the "diseasel" might magic them away like he did with the trucks, but their drivers quickly persuaded them otherwise, and so they set off.

At last, the twins found the "diseasel". While Ben ran behind, Bill confronted the "diseasel" over the theft. The "diseasel" claimed the trucks were his and ordered Bill to "go away"; Bill pretended to be frightened and slunk away, remarking, "You'll be sorry". With that, Ben ran up and accused the "diseasel" of being a "truck stealer", before running back so Bill could run up again. This continued until the "diseasel", under the impression that there was only one very swift and annoying saddletank, became so giddy that his eyes "nearly popped out", just as the twins puffed up beside him. The "diseasel", initially confused, laughed at his ignorance. When Edward arrived moments later, inquiring as to why Bill and Ben were not shunting, the twins angrily claimed that the "diseasel" had sneaked into their yard and stolen their trucks. Edward soon realised what was going on and explained the situation. The twins, embarrassed, apologised to the "diseasel", who asked to be called BoCo, and then left to shunt some more trucks, leaving Edward and BoCo to laugh about the incident.

A few days later, after BoCo took the Express in James' absence, Edward recounted what Gordon had said about branch lines to the twins. The next morning, after Gordon ended up at Brendam after a series of events involving poor preparations and a large floppy green hat, the twins sneaked up beside him and loudly recounted what Gordon had said about branch lines. Concluding that the engine beside them could not be Gordon, the two declared he was nothing more than a pile of old scrap-iron, and began to contemplate what they should do (Bill was all for sending Gordon to be scrapped, while Ben favoured the more humane option of dumping him in the sea), all the while ignoring Gordon's protests, until at last, BoCo arrived. Gordon begged him to save him, and so BoCo threatened the twins to leave with the trucks he had brought. The twins quickly left, leaving Gordon with BoCo. BoCo wisely neglected to tell Gordon the twins were joking.

Sometime later, a group of enthusiasts came to visit the railways of Sodor. When Edward brought them to Brendam, the twins took them to the China Clay Workings in a brake van special.

In 1988, Thomas was sent to work on Edward's Branch Line while repairs were carried out on a bridge on Thomas' branch line. The twins were quick to tease him about his colour, but Edward was savvy enough to send the twins away before an argument broke out.

After Thomas returned to the Yard, covered in dairy from a collision with a farm lorry, the two teased him even more about his new livery. This continued until Edward announced a party of enthusiasts were coming, and threatened that he would not bring them to see the twins. The twins, excited, decided instead to worry about their own paint - for example, how clean it was - although one day, when the drivers remarked that "the enthusiasts would not eat their dinner off them", Bill quipped that "They might if we were Thomas".

When at last, the enthusiasts did arrive, a photographer with an "instant" camera began harassing Ben by continuously taking pictures of him, even after the remainder of the crowd went to watch Bill tug a boat into deeper waters. At last, the photographer prepared to take one final picture, just as Bill's driver arrived to ask for assistance. Ben's driver turned on the steam just as the photographer took the picture; disgusted with the poor quality of the shot, he abandoned it on the floor and left. The picture was later discovered by Bill's driver after the two rescued the boat.

The repairs to the bridge took a long time, and Thomas was still at Brendam when the rainy season came. At the "Drain", a hollow in the land where rainwater collected, the water even began to come near the rails, although no one took much notice. One particularly wet day, as Ben returned from the Workings, the wind whipped the rainwater into a wave which swamped him, dousing his fire. His fireman went for assistance, and brought Thomas to help. While Thomas dragged Ben out, Bill took away the trucks. When at last the water subsided four days later and Bill returned to Brendam, the two made a pact to never tease Thomas again.

Bill and Ben made their first appearance listening to Percy recount the time he got caught in a flood helping Thomas, before being shooed off by Henry, as they were in a shed specifically for the Fat Controller's engines.

One day, Bill and Ben were sent to work in the yard. They got to use the turntable as a reward for their hard work. But Bill and Ben were accidentally sent down the same track and they ended up buffer-to-buffer. They each blamed each other for the incident and refused to speak to one another. At last, Edward and BoCo lost patience and the Fat Controller heard about the incident. He gave the twins a chance to work together, and sure enough, the plan worked. The twins started to speak to each other again. Bill and Ben sometimes found it dull up at the clay works and wanted something exciting to happen. They got their wish when a rockslide devastated the quarry. Luckily, Bill and Ben had taken all of the workmen and the foreman out of the quarry before the rockslide. The Fat Controller was so pleased that he called them heroes.

Later, BoCo could not handle the twins as much as he used to, so Sir Topham Hatt had to bring in another diesel, Derek. Bill and Ben had heard from Percy that Derek had a toothache, but they soon found out that Derek really had teething troubles. The twins and Derek had to pull a train the next day, and Derek soon overheated. Together, the twins got the train to their destination. That night, they, BoCo and Duck talked about Derek all night long.

When Salty was sent to work with the twins and Mavis with an important job, he impressed the twins with his skills for handling the trucks. When Salty handled the trucks with songs and tales of the sea, Bill and Ben became jealous. They became even crosser when Salty told them stories. Luckily for them, Salty was transferred to Brendam Docks. Bill and Ben met Salty again when they themselves went to the docks and started teasing Cranky. This time, they encouraged Salty to tell them his stories, knowing that Cranky couldn't stand them. The twins spent the entire night being engrossed in and fascinated by Salty's many tales, and when they left the following morning, Cranky was pleased. Afterwards, Ben had to get new buffers, so he was sent to the Works. Bill became jealous and his mind drifted away from his work. After some trucks teased him, Bill crashed into a ditch. Ben arrived to rescue Bill and Bill was taken to the Works to be mended.

Some time later, Fergus was sent to help the twins at the quarry but got tired of his "do it right" attitude. Bill and Ben collected a rock crusher from the docks and caused a rockslide. Fergus pushed them out of the way, but the twins returned the favour when they helped him out of the rocks.

In the seventeenth series, they teased Percy after he had an accident with a mail bag, unaware the pumpkins on their train were falling onto the tracks, which caused more problems for Percy. After Sir Topham Hatt ordered one twin to act as a back engine, Bill reluctantly went to push from behind. Ben ended up derailing near an embankment, and Percy, although he was nervous because he had lost his new lucky charm, helped Bill pull Ben back onto the tracks.

After racing Connor several times (by racing, one would start the race and the other twin would be waiting at the finish) Sir Topham Hatt figured out their tricks. So people would not confuse the two or think they were the same engine, Bill was repainted blue. To continue the tricks, Ben tricked Kevin into giving him a blue coat of paint too. Since then they were repainted to their yellow schemes. They also teased Harvey about going fishing with his hook.

Thomas was sent to work with the twins at the Clay Pits while a bridge on his branch line was being repaired. They ran away from him, and after he caught up, they teased him about being slow. They showed him to a line of trucks, which he was coupled up to. Thomas began pulling them, but did not realise that Timothy was on the other end, jerking the little oil-burning engine backwards. Later that day, there was a storm at the Pits, and the rain made the cliffs unstable. Thomas was near some cliffs, and saw a set of mysterious footprints. However, the area was still unstable and he was unable to investigate. Bill and Ben pushed Thomas to safety just before the three were hit by a landslide. The next morning, the twins were congratulated by the Fat Controller. Later in the week, Thomas asked if they were playing a trick on him by scaring him with fake footprints. However, Bill and Ben thought that he thought that their rescuing him was a trick and so they puffed away, offended. The next morning at dawn, when Percy went to the clay pits to prove his bravery to James, Bill accused Ben of making puffing noises in his sleep, and when Thomas came looking for Percy, the twins assumed that they could literally hear what Timothy was dreaming. When they went to work the day, they were almost hit by a landslide, and after Marion found a fossil, Bill and Ben were both very intrigued by the concept of fossils.

In the eighteenth series, Bill and Ben played Guess What's In My Shovel with Marion. They also teased Timothy for being an oil burning engine, but when the Clay Pits ran out of coal, Timothy went to pick up some more. They apologised for their teasing. However, they later sent Timothy on what the Fat Controller referred to as a "fool's errand" to search for a rainbow-coloured truck. Timothy brought back a green truck with several colours of paint on it full of dockyard waste. Bill and Ben were sent to take it to Whiff's Waste Dump as a punishment, as well as being on waste duty. They also teased Emily and Samson.

In the nineteenth series, the twins became convinced that Timothy was no help at all. So when they found out that the Fat Controller was looking for an engine to help at Brendam Docks, they volunteered Timothy. Unfortunately, the twins were too busy messing around to work on their own properly. Luckily, once Timothy was no longer required at the docks, he came back to the Clay Pits to help them clear up the mess.

In Sodor's Legend of the Lost Treasure, they teased Henry when he saw a ghostly railboat on the rails the previous night, which was really Skiff.

In the twenty-second series, Harvey came to help them out when they had an accident. Rebecca was there to see Harvey arrive to help them, and noted how cool he looks with his crane. Later on Valentine's Day, Bill, Ben and Diesel teased Thomas and Rosie that they were a lovely couple, while Thomas and Rosie did not want to be embarrassed by the teasing.

Bill and Ben made up a game called "Hunt the Truck" and hid a truck for Nia along with Edward's truck full of Christmas decorations and presents for Sir Robert Norramby's Christmas party. Edward knew what the twins were up to and took the truck from where they hid it. As a way to give them a taste of their own medicine, he pretended to be worried about losing the truck and how the party will be ruined, prompting the twins to go on a search for it. They eventually gave up and decided to apologise to everyone for what they did, only to run into Edward at the party and realize that he had taken the truck they hid and taught them a lesson on how it felt to have trucks hidden from them.

Ben: I love how you guys did all kinds of fun adventures.

Lana: We get that a lot Ben.

Bill: My favorite was when you put that evil teacher Ms. Trunchbull in prison forever.

Lola: That was our friend Gabrielle that did that.

Taranee: I heard about that. Ms. Trunchbull ruled over that whole school with fear and she wanted nothing more than to kill all those children.

Bloom: She gives all teachers and principals everywhere a really bad name.

Poison Ivy: You got that right Bloom.

Killer Frost: She was pure evil.

Julie Martin: I would make a teacher like that suffer terribly for it.

Francis: Me too.

Lea: Same here.

Ben: You guys are a force of good.

They found a field with cattle and they saw a Cattle Truck loading up some cattle.

Bill: A Cattle Truck.

Lana: Lets get it!

They pulled up.

Bill: Hey you troublemaker!

Ben: Stop that!

Cattle Van: Well if it isn't the freakish twins!

Lana: You be quiet!

Lola: And save your banter for your time in jail!

Lana and Lola loaded them up.

Ben: You have to answer for your crimes.

Bill: Lets go.

---

Henry the Green Engine, Lisa, Stewie, Tecna, Robby Schwartz, and Bowser Jr.

---

Henry the Green Engine, Lisa, Stewie, Tecna, Robby Schwartz and Bowser Jr. were going down the rail.

Henry's precise origins are uncertain. The story goes that he was built from drawings stolen from Sir Nigel Gresley at Doncaster about 1919 by an anonymous locomotive builder who held a grudge against him and desired to steal a march on him. His spy, however, blundered and took the wrong drawings; they were for an experimental engine, but were supposed to be for the new "Pacific" locomotives Gresley was designing at the time. The thief realised his mistake too late and Henry was built, with many resulting flaws and a superficial likeness to Gresley's Pacifics.

The thief was delighted to unload his "White Elephant" on to the first desperate customer who came along - The Fat Controller. He had intended to buy a Robinson "Atlantic" of the Great Central Railway, but was tricked into purchasing Henry in 1922 instead and had no choice but to keep him due to the railway being desperate for locomotives.

Henry was vain and stopped in the Ballahoo Tunnel and refused to come out, citing that his paintwork would be spoiled by the rain. After several attempts to move him failed, he was bricked up in the tunnel until Gordon broke down while pulling the Express. As Edward was unable to move the train himself, the Fat Controller offered to let Henry out of the tunnel to help. Henry eagerly accepted.

Henry performed very well and the Fat Controller promised him a new coat of paint, since Henry's existing paintwork had been spoiled more by his stay in the tunnel than it would have been by the rain. Henry asked to be painted blue like Edward. However, many people confused him with Gordon, to the bigger engine's annoyance. The matter was worsened after a trip to the Works when Henry was given spares of Gordon's buffers. Sometime before 1935, Henry, when again offered new paint, chose green and so ended the Gordon/Henry confusion.

Unfortunately, Henry was to suffer humiliation when he was hosed with water by an elephant he frightened. After Gordon and James had suffered humiliations of their own (and all three had become thoroughly fed up having to do their own shunting and fetch their own coaches), the big engines went on strike. The Fat Controller naturally disapproved of this nonsense and locked them up in the shed for several days, leaving them miserable. However, they were let out again after promising to work hard.

The poor engine and his system, which was already finicky at best due to design flaws, never really recovered from his stay in the tunnel. Henry developed steaming problems, which he complained about constantly, though he found little sympathy, especially when it caused him to run late.

A period came when the Main Line engines were supplied with a poor delivery of coal and Henry had a very difficult time of it indeed. He had strength to pull trains only sporadically, in spite of numerous parts replacements. At last, the Fat Controller looked into it personally and asked for the opinion of Henry's fireman, who told him about the poor coal and Henry's firebox being too small to burn it efficiently. The fireman also suggested purchasing the high-grade Welsh coal used on the Great Western Railway. Sir Topham Hatt agreed to purchasing some in order to give Henry "a fair chance".

When the Welsh coal came, Henry's performance vastly improved, such that he was comparable to Gordon. He continued to use the coal until he had a collision with a goods train at Killdane while pulling the Flying Kipper and was sent to Crewe to be rebuilt in 1935. Henry was rebuilt into a Stanier 5MT. (Sir Topham Hatt had connections with Sir William Stanier, so this is likely the reason he managed to get Henry rebuilt so quickly).

After returning, Henry was added to the rotation for the Express and pulled it so well that he made Gordon jealous. Gordon tried to get even by rudely criticising Henry for whistling loudly at stations, but he had to eat his words later that day after his own whistle valve jammed open. Some time later, Henry was taking a slow train. As he passed under a bridge, three boys he had assumed to be railfans dropped stones onto him and his coaches. He paid them out on his return journey by "sneezing" ashes that collected in his smokebox at them.

When Queen Elizabeth II was due to visit Sodor in 1953, Henry (justifiably) assumed that he was the Fat Controller's choice to pull the Royal Train. But the day before, while he was idling at the station, his smoke blinded a painter, who fell along with his paint pot onto Henry. The paint splashed over Henry's boiler and as painting over it would take too long, Gordon was given the job instead.

When Duck arrived in 1955 to take over Percy's duties as station pilot, Henry, along with Gordon and James, teased him and tried to give him orders, as they had been doing to Percy. With Percy's help, Duck blocked the big engines from entering the shed. The Fat Controller arrived and told the two tank engines off for causing a disturbance. Henry and the others laughed - until the Fat Controller shouted for silence and told them that they had been worse, as they had made the disturbance. He told them that Duck was right - he, Sir Topham Hatt, is in charge and he gives the orders; Henry respected Duck more after that.

Sometime after this period, Henry gained a Fowler tender for unknown reasons. By this time, Henry once acted rudely with the engines at Barrow-in-Furness while in the middle of a conversation with Percy, calling him and them: "silly things" and challenging Percy's statement that he did not fear water. Percy retaliated by reminding Henry about his stay in the tunnel, but Percy was shown wrong when he accidentally ended up smokebox-first in the sea at Knapford Harbour. When Percy was to be sent at the works the next day, Henry ridiculed Percy; telling him that he would be braver the next time he plunged into the sea, but Percy was quite determined that there would not be a next time.

Henry would then later accompany the engines to England.

Henry's good opinion of Duck would be briefly spoilt in 1957. He and the other main line engines were growing very tired of Duck's incessant talk about the Great Western Railway following City of Truro's visit. A diesel sent to the island on trial quickly developed a grudge against Duck and spread nasty stories about the main line engines to the trucks, stories he falsely claimed that Duck had told him. Furious at being called "Old Square Wheels", Henry joined Gordon and James in barring Duck from the shed just like what Duck and Percy had done previously. He felt sorry a few days later when he became the next target of Diesel's slander and when Duck returned after preventing an accident, Henry cheered for him loudly.

When Gordon started feeling depressed in 1967, Henry, who thought Gordon was just moaning and groaning, teased him and told him he should get a wash-out and would feel much better. When Gordon's brother Flying Scotsman visited Sodor, Henry was jealous of the visitor's second tender. Duck and Donald explained and while Henry took the point he still was vain enough to want an additional tender. Deciding to bring Henry down to earth, Duck told the big engine that he had in his possession not one, but six spare tenders, which, as a tank engine, he had no need of. Henry accepted and all the engines waited to see him go past. But instead of a splendid sight, the tenders were old, rusted and full of boiler sludge. Gordon mocked him with a comment about wash-outs.

Henry was so frustrated that the day after 7101 and 199 arrived on trial, he became so hot that his regulator fused wide open and his driver had to use the reverser to control him. On his return journey (no train), he stopped at a signal box next to 199, who had a train of fuel tankers. The signalman told them that 199, who he nicknamed "Spamcan", had failed and that he needed to be moved out of the way to clear the line for the "Limited". Henry pulled the train clear, but shortly afterwards, 7101's ejector failed and the "Limited" ground to a halt. Henry then volunteered to help move both trains. Luckily all he had to do for 7101 was keep the vacuum brakes off, but it was still hard work. The cavalcade made it to a station where Flying Scotsman waited to take the coaches and Donald to take the goods. Henry brought 7101 to the Works afterwards and cheered for the arrival of Oliver several days later.

Later, when Gordon needed new tubes, Henry pulled the express, but soon fell ill as well. This left the job of the express to Thomas, Percy and Duck. A while later, Henry had to pull an extra long Flying Kipper and Duck had to help him up Gordon's Hill, but due to a tail-lamp falling off the rear van, Duck accidentally crashed into the train.

During the subject of paint colours, Henry commented on how he hated to be red and look like a fire engine. The next day, he was rough with his coaches, and resulted in breaking the drawbar between him and his tender. Because of his seperated source of water, his fireman was forced to throw out the fire, which set the sleepers alight. After the fire brigade put out the flames, Henry never made rude comments on fire engines again.

In 1985, Henry complained to Thomas the time that the Viaduct had gone under repairs, when Thomas became impatient with his connection between the main line engines and his branch line. Later when bringing passengers for Thomas, the tank engine run away.

In 1986, when Gordon accidentally blew ashes when his smokebox was clogged, Henry suggested that Gordon should have a good "sneeze," but Gordon reminded Henry that The Fat Controller did not like Henry's sneeze. He also pulled the express when Gordon slipped on the icy rails and befriended Pip and Emma.

When Thomas had been invited to the Great Railway Show, he was angry that he was not chosen and later teased Percy that Thomas was old enough to become a museum piece.

In 1992, during the time when the railway began using a new type of coal, Henry began having problems with it, resulting in his smokebox door to be pasted with damp shredded newspaper when hot ashes damaged it. He was to head to Crovan's Gate with James on the Express, but after crossing the Viaduct one of the steel rims on his driving wheel breaks off and shatters a window on one of the coaches. He is taken off and manages to get to the Works. After his repairs, he is given an undercoat of red paint, but before the green is applied he is called out to pull the Express. Despite his looks, he manages to pull the train, even getting up Gordon's Hill on his own, and returns home with his finished coat of green.

He later fretted over the Golden Jubilee despite Duck, Daisy, James and Donald trying to cheer him up.

In the TV series, Henry loved visiting the forest. Because of how much he loves it, he helped to replant trees after it was destroyed by a storm.

He also has had to go back to the Works on several occasions, such as when his tubes were leaking and after he had an accident with some trucks. But the reason most often given for Henry's poor state is that he needed special coal again, even though this was corrected in the first series. This error began with the tenth series episode Toby's Afternoon Off and has been fixed as of King of the Railway as Toby stated that the fact that Henry needed special coal was fixed years ago. The last time Henry was stated to need special coal was in the fifteenth series.

During one winter, he was tasked with working with Spencer to deliver trucks to Vicarstown. But Spencer teased him by making him think there was an abominable snowman on Sodor. After they had delivered their trucks, they both saw a strange white figure stumbling around on the tracks in front of them. Thinking it was the abominable snowman, Spencer tried to run away, but his valves burst, so Henry stood his ground and tried to make the snowman go away. Luckily, it was only the Fat Controller who ended up running into trouble in the heavy snow.

One night, he saw Sailor John and Skiff rolling along the line and got a big fright, thinking Skiff was a ghost ship. Some of the engines teased him about it, even though he insisted the boat was real.

In the twentieth series, Henry had to pull the express for Gordon while he was having his firebox cleaned in the morning. He was initially hesitant but enjoyed himself, especially after the passengers stated he was much friendlier than Gordon. Later, Henry was having a repaint at the Steamworks when Kevin gave him the wrong paint. Henry puffed into the night, his new paintwork glowing in the dark, causing his friends to think they had seen a ghost train. The Fat Controller realised that Henry had the wrong paint and told him to return to the Steamworks for some proper green paint, while praising Henry for being the only engine working as all the others were too scared to come out of the shed.

Henry would later go to The Mainland and be a part of the Great Railway Show, competing in the Strongest Engine Race. After the race, he met up with the other engines and informed them that he came in fifth. Philip congratulated him, only for Henry to reveal that there were only five engines.

In Journey Beyond Sodor, Henry was due to go back to the Mainland with a goods train. However, a faulty signal caused him to crash into the back of Hiro's train. After being rescued by the Breakdown Train, the Fat Controller arranged James to take his train while Henry is being repaired. However, Thomas ended up taking the train before James could and James only went when Thomas did not return. At the end of the film, Henry was fully repaired and returned to the sheds while the others finished singing The Most Important Thing is Being Friends, to which he asked, "What did I miss?"

Sometime after Tidmouth Sheds was mended from James' accident and after Nia came to Sodor, Henry was relocated to Vicarstown Sheds with Rosie per his request.

In the film, Henry had suffered from boiler trouble due to deposits left by fumes from Diesel 10. This time, his sickness was cured by "Sodor coal." Henry was one of the few engines who knew the 'legend' about Lady was true as for he was the first to acknowledge the fact that Diesel 10 was looking for her. Later, Thomas found Henry with a boiler ache and offered to collect trucks of Sodor coal to make Henry feel better.

Henry: You guys have done a lot of good deeds over the last 3 years.

Lisa: Indeed we have Henry. Our achievements have been made known all over the world.

Stewie: Indeed they have.

Tecna: (British Accent) They have.

Henry: I heard that J.D. gave his heart to Sandman's daughter who was dying.

Lisa: Affirmative. She was suffering from a heart defect called Tetralogy of Fallot, an extremely rare heart defect that causes a lot of cardiac and vascular problems. It was really life threatening and she needed a heart transplant.

Henry: Wow. That's a big deal.

Bowser Jr.: It sure is.

Robby Schwartz: But J.D. did a really selfless deed.

Henry: Yeah.

They arrived at a Dairy Plant and found a Milk Tanker Troublesome Truck.

Henry: Not so fast you clod!

Milk Tanker: Well if it isn't Greeny Henry.

Henry: Save your banter for prison time.

Lisa lifted up the Milk Tanker and put him on the cart.

---

Harvey the Crane Train, Lily, Billy Deep, Rubberband Man, Sheena Deep, Inque, and Layla

---

Harvey the Crane Train, Lily, Billy Deep, Rubberband Man, Sheena Deep, Inque and Layla were going down the rails.

When Harvey first came to the island, the engines said he looked different and all of them except Thomas did not trust him, but when he saved Percy after an accident with some Troublesome Trucks at Bulgy's Bridge, they realised that Harvey's difference was what made him special. Since then, he has proved very useful, using his crane arm for maintenance, building and clearing up. He mainly works at Brendam and the Shunting Yards, but his favourite place to be is at the Water Works, where he is said to live.

Since his addition to the railway, Harvey has helped after many accidents, but he could not do it alone, so Rocky was brought to help.

Bill and Ben made fun of Harvey for being both a crane and an engine. However, Porter helped Harvey see to the positives of being a crane engine. The dock manager asked Harvey to deliver flatbeds of scrap metal to Vicarstown since Edward had been delayed, but because he wasn't paying attention when he was going down Gordon's Hill, his flatbeds derailed and made a terrible mess. Fortunately for Harvey, he was able to use his crane to clear it up and was able to deliver the cargo. He also helped Thomas back onto the rails after an accident.

Harvey teamed up with Samson with collecting track side scrap for the scrapyards while Scruff was being repaired and building The Earl's new Dinosaur Park.

Diesel tried to make mischief between him and Daisy by saying that the other was boasting about being unique. However, this led to the two becoming good friends. Also, when a branch got stuck in his gears, Harvey tried to fix the problem himself, only to make himself derail in a tunnel. After he was repaired, he spun his crane fast enough to throw a crate all the way to a dock worker. He later did the same thing again after Rebecca told him how cool he looks with his crane while helping Bill and Ben clear up the accident.

Harvey: I love your adventures guys. My favorite was when you were on Total Drama All Stars 2.

Lily: That was an awesome adventure.

Harvey: I also heard you guys defeated the evil spirit of Jack the Ripper.

Lily: We sure did. That was one of our most awesome adventures.

Billy Deep: That was so cool! I heard he was dead for 100 years.

Sheena Deep: He was. And I heard a dark orb brought him back.

Lily: That's right Sheena.

Rubberband Man: That was a terrifying adventure. But it was really cool!

Inque: It sure was.

Layla: I'm glad we now have finally seen the last of Jack the Ripper.

Harvey: Wasn't he like one of the most notorious serial killers in all of London?

Lily: He sure was. He terrorized all of Victorian London back at the end of the 19th century. We didn't know who he was until 21st century Forensic Technology identified.

Layla: That is what really amazes me.

Harvey: It amazes me too.

They saw an NER 20 Ton Brake Van.

Harvey: Hold it right there!

NER 20 Ton Brake Van: Harvey!? What are you doing here!?

Harvey: We're arresting you.

Lily: That's right!

They operated his crane and lifted him up and put him on the cart.

---

Donald & Douglas, Laney, Molly Molloy, Flora, Venom, and Rhino

---

Donald & Douglas the Scottish Twins, Laney, Molly Malloy, Flora, Venom and Rhino were going down the rails.

Donald and Douglas were designed by John F. McIntosh and built by the St Rollox Works for the Caledonian Railway in 1909. Upon nationalisation, they became part of the Scottish Region of British Railways, where they were renumbered 57646 and 57647. In 1959, Sir Topham Hatt needed a goods engine and by his request, BR decided to transfer 57646 (Donald) to Sodor.

To Sir Topham Hatt's surprise though, two engines arrived. Donald's twin Douglas (57647) could not stand to be separated from his brother and was smart enough to realise he would eventually be scrapped if he stayed in Scotland. Unfortunately for Sir Topham Hatt and any other worker, neither engine could be told apart: both claimed to have forgotten their numbers and indeed their numberplates had "slyly slipped off" during the journey from Scotland. This caused the Fat Controller to keep both until he could determine which engine was freeloading on his hospitality. It was later revealed that this piece of skulduggery had been planned not only by the two engines, but also by their drivers and firemen, who were related as well.

The Fat Controller was unaware of Douglas' motive and threatened the two that whichever engine he found out to be the truant would be sent home. Both engines resolved to give outstanding service so that Hatt would want to keep both of them. This plan quickly went to pieces, however, after Douglas accidentally shunted Thomas' special coach, full of passengers, into a siding at Tidmouth, causing a great deal of fury for the passengers. Things were more complicated when Donald crashed into a signalbox at Knapford and Douglas accidentally destroyed the Spiteful Brake Van, who had caused trouble for him earlier.

Despite all this grief, the twins' professionalism, competency, strong work ethic and personable natures had begun to win them support, particularly when they demonstrated an aptitude for snowplough work that they had learned in Scotland. After rescuing Henry from just such a snowy ordeal, the other engines came over to Donald and Douglas' side which ultimately led to the engines of Sodor taking industrial action. After a suggestion by Edward and being pushed into it by Gordon, Percy was presented to the Fat Controller as a deputation, arguing the twins' case on their behalf and pleading that, if sent away, they would be scrapped. Hatt's reaction to this was mixed - though he did not approve or appreciate them trying to interfere with his decision-making, he understood the engines' feelings upon the matters of saving steam engines and scrapping in general. In the end, Percy's statement and the twins' excellent performance was enough for Hatt to take pity on the twins and keep both. He demonstrated this intent with an offer of a fresh coat of paint for both engines, as well as giving them both nameplates to avoid any more confusion. By their request they were painted NWR blue, in honour of their Caledonian heritage.

In 1967, Douglas helped save Oliver, Isabel and Toad from the prospect of scrap. The Fat Controller soon found out and arranged for the three to be repaired and painted in Great Western colours. Toad asked to be Douglas' brake van as a show of gratitude.

Since then, the twins have, by all accounts, "transformed" goods traffic on the main line. Such is their versatility that they regularly see service on the Little Western and Edward's Branch Line, as well as duties as station-pilots at Tidmouth. A turntable has been provided for them at Arlesburgh, although briefly decommissioned after Oliver was pushed into it by some trucks.

After Donald teased Duck about his "quacking", Duck's crew got a humorous payback by slipping a small duckling into Donald's tender. When discovered, the duckling became friends with Donald and his crew and eventually settled down at Haultraugh, where a small pond was nearby. She was named Dilly by the stationmaster, but she is known to everyone else as Donald's duck.

Such a demanding work-load has begun to tax them however and in 1993 the Fat Controller borrowed a navy saddletank named Wilbert from the Dean Forest Railway to deputise for them on the Arlesburgh branch, with the intention of obtaining another engine of Wilbert's class to permanently fill that role.

Donald and Douglas work together practically all the time, but they sometimes have a falling out. This was proven when the two crashed into Trevor's hay cart. Donald accused Douglas of pushing him into the cart while Douglas accused Donald of pulling him. The twins refused to speak to each other. When Duck needed help at the Sodor Ironworks, Donald took the opportunity to get away from Douglas. While Douglas missed his twin and was ready to make up, Donald began to experience lapses in competence and demanded an apology. Eventually, Donald was not looking where he was going and crashed through some buffers into a ditch. As soon as Douglas heard from Duck that Donald was in trouble, he immediately rushed over to help his twin and the two engines made up.

Later, Callan Castle was to be reopened by Lord Callan, so Donald and Douglas took some equipment up to the castle. The two argued whether or not the monster inside the lake existed or not. Unfortunately for the twins, a landslide occurs and the two became stranded. The Fat Controller promised help, but soon night came. The twins saw a shape moving towards them on the causeway. Donald and Douglas were petrified until they realised it was only Harvey who had come to help. Soon, the twins got their equipment to the castle on time and Lord Callan called them Really Useful engines.

In the eleventh series, some points were jammed and Gordon was sent to pick up the engineer to mend them, but instead picked up the carpenter. Gordon reversed to Abbey hoping to collect the engineer, but Douglas was in the way. Gordon decided that Douglas should go to Wellsworth and Donald to go to Maron to collect the engineer and Donald bring him to Douglas and Douglas bring him back to Gordon. The plan was carried out and the points were fixed; Gordon thanked the twins for helping him.

Afterwards, Harvey was sent to help the twins after a tree had been knocked down. Thomas, however, misunderstood the situation and accidentally sent Harvey the wrong way. Thomas was proud of himself for being so helpful until he saw that Donald and Douglas were stuck and needed Harvey's help. He found Harvey and gave him the correct directions needed to help the twins. Thanks to Thomas and Harvey, the line was cleared and the twins were on their way.

The twins later helped with the construction of the Harwick Branch Line, delivering most of the heavy construction materials. When Douglas went over the unstable track bed that hides the tunnel into

Calles Cavern it began to crack and the workmen only just stopped Donald from going over it. The twins witnessed Rocky lifting Captain Calles' Pirate Ship out of the cavern and helped deliver it to Arlesburgh Harbour. They later attended the branch line's opening ceremony.

Once, they were to clear snow from the tracks during winter, but they kept arguing over which tracks to clear next. Douglas was accidentally separated from his tender and left behind by Donald, who eventually found him in a siding with some help from Toby.

Donald and Douglas were among the engines who asked The Fat Controller to take them to the Great Railway Show, but they were not chosen.

Another snowy day, they had to take a large shipment of pipes to Vicarstown and Emily came along to help. During the journey, Douglas told Emily about some of Donald's accidents and she began laughing, which Donald could hear echoing through the pipes. Irritated, Donald stopped the train and got Douglas to take his place at the front. As they continued, Donald began telling Emily about Douglas' accidents, until Douglas stopped the train on Gordon's Hill and demanded that he and his brother swap back. With both twins uncoupled and busy squabbling and bumping each other, Emily was left holding the train on her own. They did not notice till too late that Emily and the train were slipping back down the hill - to make matters worse, a lump of coal shaken out of Donald's tender by a bump from Douglas had formed a giant snowball, which knocked Emily off the rails. Donald and Douglas instantly began arguing whose fault the accident was, until Emily cut in and scolded them both for their behaviour. After Harvey had cleared away the mess, both twins took the rear of the train while Emily took the front and they reached Vicarstown without any further trouble.

Donald and Douglas were later seen at Knapford Station with Philip, Diesel, Emily, Gordon, Duck, Henry, James, Edward, Percy, Daisy, Oliver, Mr. Percival and Toby to welcome Thomas and his newest friend Nia to Sodor following the pair's adventure around the world.

Donald: (Scottish Accent) You lads and lassies have been all over

the place.

Venom: We sure have.

Rhino: We've been on many adventures.

Molly Molloy: We sure have.

Laney: It's been an amazing series of adventures that did a lot of good and brought a lot of criminals to justice.

Douglas: (Scottish Accent) Aye. You all have done so much wee laddies.

Flora: That's right.

Donald: I heard you endured the trouble of Slappy.

Molly Molloy: Yes we did. It was horrifying.

Douglas: I'm sorry that happened to you lass. I heard legends of how evil Slappy was.

Molly Molloy: I know. Me and several others dealt with him. Myself, my best friend Britney, Nico and many more.

Donald: That's terrible lass. Lets focus now.

Laney: You got it.

They went down the track and we saw an LMS Banana Truck.

Donald: HOLD IT RIGHT THERE!

LMS Banana Truck: Well if it isn't the Scottish losers.

Douglas: Shut yer trap! You're under arrest.

They lifting him up and put him on the incarceration cart.

---

Toby the Tram Engine, Lucy, Britney Crosby, Riku, Roxy, and

Demona.

---

Toby the Tram Engine, Lucy, Britney Crosby, Riku, Roxy and Demona were going down the tracks.

Toby was built by James Holden at the Great Eastern Railway's Stratford Works in Stratford, London, England on 30th June, 1914. He originally lived at Great Yarmouth Docks, Norfolk with his brothers. Sometime between June 1939 and January 1948 Toby was chossen to be an attraction at a seaside village's Festival, and was repainted and polished for the event. However, after helping their branchline's engine, and seeing how smart he looked, the branchline was afraid that he would show them up, and didn't let him join in the Festival. After that he worked on an unnamed tramway in East Anglia. In 1951, Toby came to work at the quarry on Thomas' Branch Line after his tramway closed, as it was found to be illegal for Thomas to go on the Quarry Tramroad without sideplates or cowcatchers. At first, Toby was teased by James for his shabby paint. However, James stopped teasing him after he crashed into some tar wagons.

Toby also got into a bit of trouble with a diesel shunter named Mavis, as she was unwilling to shunt trucks where they needed to be placed. After an accident, the two engines made up their quarrel and became good friends.

When Mavis was sent to the works after her accident with a lorry, Toby did her work at the quarry, leaving Percy to do Toby's work as well as his own. Toby once came off the rails at a crossing when the earth was swollen over the rails and ended up on the road. Luckily, with the fireman guiding the driver, they managed to reverse Toby back on the rails. The Fat Controller, however, heard about it, but rather than being cross, he only joked with him and told him that he should leave the roads to what they were made for.

By 2007, Toby was having trouble taking the workmen to the quarry as Henrietta did not have enough room in her to carry them all at once. Bertie usually helped, but one day, he was ill and Henrietta was so full that some workmen even had to ride on her balcony. As he went past a part of his line that went through a town, he stopped quickly when a car came out of a side street and nearly collided with him. To make matters worse, a policeman witnessed the workmen riding on Henrietta's balcony and after he made a report, an inspector spoke to the quarry manager, telling him that passengers were not allowed to ride on coach balconies. Luckily, Thomas managed to help Toby when he found an old and worn out coach named Victoria, who was used as a summer house for many years when she was taken out of service. Victoria was eventually restored and now works with Toby and Henrietta along their line.

When the Horrid Lorries arrived on the Island, Toby found his work at the quarry being taken over by Lorry 2 and his work at the mill being taken over by Lorry 3. When the two lorries became damaged and sent back to the docks, Toby threw Lorry 2's remarks about usefulness back at him.

After many weeks of rain, Toby inspected a dam for potential damage due to rising floodwaters along his branch line. While crossing the dam, Toby found that it was breaking and tried to return to safety, but the dam collapsed just as Toby was crossing a wooden bridge, which broke off and carried Toby toward a waterfall. Harold managed to drop one end of a rope to Toby and the other end to Percy, who pulled Toby to safety. Afterwards, a party was held for Toby and the Fat Controller praised Toby's bravery.

When taking the Fat Controller and his grandchildren to the seaside, the Fat Controller decided to use Toby for an exploration in search of a castle, which they found as well as a mine. Toby was scared of the mine's spooky atmosphere (certain it was haunted) and stayed on guard at night during the restoration. Thomas told Toby about the Old Warrior Ghost, who was really a narrow gauge engine named Bertram. After this, the two engines became good friends and now take visitors to and from the castle and mine. Toby once took Sir Topham Hatt's family on vacation again, this time to a small river inlet.

Toby has had several winter escapades. The thick fog concealed Thomas' crash site from Toby's view and the foghorn had been damaged from the landslide Thomas had crashed into. Luckily, Cyril the Fogman managed to place a detonator on the rails to warn Toby just in time. During the holidays, Toby was unable to clear the snowdrifts by himself, so he needed Thomas' help to deliver a Christmas tree to the festivities on his branch line. During one harsh winter, Toby had to rescue Farmer McColl's lambs that were trapped on a hillside.

Toby was given a temporary three-chime whistle while his bell was being cleaned at the Steamworks. It helped with warning Thomas and Gordon that the tracks were blocked. He once was scared of Knapford Junction.

He once ran out of coal while delivering scrap to Crocks Scrap Yard and after a few unsuccessful attempts at stopping passing engines to ask for some of their coal, Reg decided to lift Toby into the air so that the next engine would see him. Unfortunately, Thomas passed by and thought Reg was about to scrap Toby. After the story spread across the island, Emily took Henrietta to the scrapyard so that she and Toby could explain the truth.

In Sodor's Legend of the Lost Treasure, Thomas nearly collided with Toby while racing Bertie. The next morning, Toby attempted to warn Thomas about his red signal, but Thomas was too late to stop and collided with Emily and derailed Gordon's coaches. Thomas tried to blame him along with Gordon and Emily, but Sir Topham Hatt saw through his lie.

In the twentieth series, Toby met Philip for the first time and was rather taken aback by the boxcab's talkative nature and desire to have races. Philip also had mistaken Toby as a boxcab before realising Toby was a steam tram. Later, he told Thomas the trees look very spooky. Toby told Thomas and Percy that reminded the others about how the littlest goat survived by going across the bridge first and told the troll to eat his bigger brothers.

In the twenty-first series, after Toby took Henrietta to the Steamworks to get her seats refurbished, he was given a replacement carriage named Hannah. Hannah ordered him to go faster down the line and pushed him down Gordon's Hill, nearly making him derail. He got fed up with Hannah and abandoned her on a siding beside the main line. When he returned to the siding to fetch her, he saw James going fast with Hannah until she broke away and crashed into a siding. After Henrietta had her new seats fitted, he took Hannah to the Steamworks to be mended, where she reunited with Henrietta and revealed to him that they were sisters. Afterwards, he began working with Henrietta once again.

During the winter, Toby was taking some trucks when he was diverted into a siding to avoid colliding with Donald and Douglas. In doing so, he ended up running into a snow bank and while his driver dug him out, he had a beard of snow on his face for the rest of the day. He also took some holidaymakers to the Anopha Quarry instead of the seaside after he became confused because of the new P.A. system which was not working properly.

Temporarily, he took over Stephen's job while he was at the Steamworks, but was ridiculed by his passengers. He later changed their minds when he stopped the theft of King Godred's crown.

In the film, after Diesel 10 eavesdropped on Thomas and Percy talking about the buffers to the magic railroad, Toby told them to carry on taking the Mail Train while he followed him to the Smelters Yard. There, he distracted Diesel 10 by ringing his bell, which resulted in Diesel 10 demolishing the shed that he, Splatter and Dodge were in.

Toby: I heard you all went to other planets.

Lucy: We sure did Toby. It was so awesome.

Britney: It's really cool going to other planets and doing all kinds of things.

Roxy: Going to other planets has been a majorly educational experience for all of us.

Demona: It sure has.

Riku: I love going to other worlds and planets. We learn so much that no human can ever learn.

Toby: I believe it guys.

They then arrived at a salt mine and they saw a Salt Wagon.

Salt Wagon: Toby the weakling!

Toby: Shut up. You are under arrest.

They brought him onto the cart.

---

Edward the Blue Engine, Leni, Carly Beth Caldwell, Sabrina Mason, Karai, Musa, and Xion.

---

Edward the Blue Engine, Leni, Carly Beth Caldwell, Sabrina Mason, Karai, Musa and Xion were riding the tracks.

Edward was built by Sharp, Stewart and Company at their Atlas Works in Glasgow, Scotland in 1896. He worked on the Furness Railway's Cumbrian Coast Line before coming to Sodor on loan with other engines in 1915 to assist with the building of the North Western Railway. The Furness had found him to be a "shy steamer" and were not interested in getting him back when his work was completed. In 1921, they sold him to the NWR for a nominal sum, who have, by careful maintenance and extensive modifications, turned him into a reliable engine.

By 1923, Edward was confined to Vicarstown Sheds, to the delight of the other engines, who claimed that he was too old and weak to work. Edward was eventually let out again and proved that what he lacked in strength, he made up for in work by pushing a stubborn Gordon and his heavy goods train up Gordon's Hill in 1923.

In 1923, when Thomas was fed up with fetching coaches for the big engines, Edward offered Thomas to take his trucks. However, Thomas, having no experience with trucks, was pushed down a hill and diverted into a siding. Later in 1925, Edward helped James double-head a passenger train when the splendid red engine was acting out.

For some time afterwards, Edward was getting so old that his parts caused him to clank as he went along, which led to the bigger engines teasing him about his age. Gordon and Henry teased him about when a group of cows caused half of his cattle trucks to break away and derail, but later got their comeuppance when they encountered a cow named Bluebell on a bridge. Later in 1953 Edward save an old traction engine named Trevor from scrap when he encouraged The Vicar of Wellsworth to buy him.

However in 1954, James would still talk down to Edward's age and how slow he is, but after he was left running down The Main Line without a driver thanks to two naughty boys who played with his controls, Edward proved himself to be a hero when he brought the inspector and James' fireman to slow him down. James could not thank Edward enough for his heroic actions and the Fat Controller sent Edward to the works to have his worn parts mended as a reward. When Edward came back, everyone was very pleased to see him again.

In 1948, Edward received his own branch line and had two twin tank engines named Bill and Ben help take trucks from the Sodor China Clay Company to Brendam along his line. When the twins were playing tricks on a new diesel named BoCo in 1965, Edward put a stop to it and showed BoCo how to handle them. Soon, Edward and Gordon were both talking about branch lines, most to the disapproval of Gordon. That night there was a mishap at Tidmouth, which in favour, Edward's train went first which sent him down the mainline (this was caused when the signalman at Wellsworth was not informed of the delay) and Gordon went down to Brendam. Some few evenings later, when Edward was taking a passenger train filled with enthusiasts home to Tidmouth, his crank-pin snapped, damaging his wheel splasher and running plate, forcing the driver and fireman to take them off. However, Edward was able to pull the heavy train back to Tidmouth, very late, but with triumph. BoCo looked after Edward's branch line while Edward was sent to the works again for repairs.

In 1988, while the Elsbridge river bridge was being repaired, Edward helped Thomas settle in on his branchline. Later, while taking china clay trucks to Wellsworth, the rear of his train derailed on a section of loose rail. Luckly, Trevor was nearby and was able to warn him about it.

In 1995, before the 50th anniversary of the Railway Series, Edward was hurrying along his branchline after being delayed by James. He loosened one of his bogie wheels on a set of points, which came off and landed in a field of cabbages. He was repaired in time for the Golden Jubilee and lead Pip and Emma to Tidmouth as the royal train, and getting held up at Knapford Junction after the points and signals failed.

In 2007, when an old coach named Victoria was being restored, Edward quickly recognised her from the Furness Railway and listened to her story about when she worked with a tank engine named Albert on his branch line, alongside another coach named Helena. Edward later took her to Knapford Junction for Thomas to take to Toby.

When Trevor was to be the main star attraction for the Vicar's garden party, Edward wanted to help but did not know how. His chance came when the Vicar forgot to promote the party by putting up the posters, so he suggested having them put up on his cab and coaches as part of the party's advertisement. His plan worked and so many people came to the party that they raised a lot of money for the children. The Vicar later thanked Edward and his crew for their idea.

Edward has a penchant for telling spooky stories on Halloween that the other engines enjoy. In the fifth series episode Haunted Henry, Edward told Henry that whenever an owl hoots, a mist rolls in and when the mist is about, there is a ghost about too. In the sixth series episode Scaredy Engines, he told them a story of a ghost engine that returns to the smelters in search of his lost whistle every Halloween.

In addition to running his branch line, Edward often acts as a banker for other engines up Gordon's Hill to help them when their trains are too heavy. In spite of Edward's great history with the railway and his good relationship with the other engines, his old age makes some engines think that he is unreliable. Gordon would always still tease and talk down about him, even going as far as suggesting that he should "retire". When Percy told his driver about this, who told the Fat Controller, he arranged for Edward to show Stepney how to run the loop line, while Duck did his work. Unfortunately, Duck got stuck on Gordon's Hill when the Troublesome Trucks held him back.

When Gordon came behind him, he could not push Duck up the hill. Edward was sent to help the double train up and when they arrived at Knapford station, the Fat Controller rebuked Gordon for his horrible comments about Edward. Gordon apologised to Edward the following day and from then on, he never suggested him "retiring".

Since then, Edward's skill as a banker is always valued among Gordon and the others, as seen in Edward the Great and You Can Do it, Toby!; in Chickens to School, Edward exclaimed, "I'm always helping Gordon up the hill!" However, his speed left a lot to be desired. In As Good as Gordon, Emily had to wait for Edward at the crossing. Impatient, Emily snidely told him to hurry up, calling him "Slowcoach". When Spencer visited the Island of Sodor and beat Gordon's record, he insulted the Sudrian engines, who became fed up with Spencer's boastfulness. They wanted to race Spencer to the Duke and Duchess of Boxford's Summer House, but the Fat Controller chose Edward to go there instead. Gordon thought that Edward should not be doing an express engine's job and James thought that Edward would let the whole railway down. Regardless, Edward tried his best and had several moments of triumph during the race. Gordon saw how hard Edward was trying and took back his earlier words, encouraging Edward instead, calling him "a credit to the railway!" Edward eventually won due to Spencer falling asleep and felt like the pride of the Sodor railway-and he was right.

Edward has always been a kind and wise engine, though in some scenarios, he has acted a bit judgemental to newcomers. For example, in Harvey to the Rescue, he claimed that Harvey "doesn't even look like an engine". In Thomas and the New Engine, he was one of the engines to spread rumours that Neville wanted to bump the steam engines. In Edward Strikes Out, he agreed with Gordon's element of doubt about Rocky and called him a "new-fangled nonsense". The narration at the episode's start reveals that this is because Edward has worked on Sodor the longest. In both the first and third of these scenarios, Edward learned of Harvey and Rocky's usefulness by their episode's ends.

In Calling All Engines, Edward acted so discriminate towards Diesel, 'Arry and Bert and blamed them for collecting the wrong building material for the new Tidmouth Sheds.

In Edward and the Mail, he did not want to embarrass himself in front of the other engines, so he tried to take the mail train without asking Percy, who was in need of repairs, for advice, resulting in him delivering the mail to all the wrong places.

Edward has also acted excitable in some episodes. In the twelfth series episode, Steady Eddie, he was given a task of taking the new water wheel to Great Waterton. He ignored the Fat Controller's advice to take the express track, took all the bumpy tracks to show off and resulted in the water wheel almost being scrapped. In Thomas and the Runaway Kite, he wanted to help Thomas to chase after the Fat Controller's grandchildren's kite. Since then, Edward has tried to regain his usual self, which one day made Charlie think he was too old to have fun in Charlie and Eddie. Edward was upset about this so he tried to be as fun as Charlie, but this only caused even more trouble. Since then, he has just stuck to being the wise and kind engine that he was of old.

In the fifteenth series, Edward was sent to work with Harold for the day, being given the chance to be a hero. After observing Gordon and Rocky in action, Edward resolved to fulfil his hero role by being "strong and fast and stern". On his way to the Sodor Search and Rescue Centre, Edward found a miserable Charlie and cheered him up by telling him a joke, collected Dowager Hatt's suitcase when it was sent to the wrong station and rescued a lost Katie the sheepdog. Edward was still determined to be what he thought a hero but found that his time spent helping others had made him late for Harold, who was not at the Rescue Centre when Edward chuffed in. The Fat Controller reassured Edward that being kind, funny and gentle was Edward being himself, enough to be a hero and everyone cheered for him. Harold arrived looking for Edward, who just smiled.

In the eighteenth series, he was still being teased by Gordon, who thought he was unreliable for breaking down frequently, but Edward claimed that he had not broken down in ages. When Gordon later got stuck on his hill, Edward came to push him. As they reached the top of the hill, Gordon just carried on without saying "thank you". Edward complained about Gordon's ungratefulness to Thomas, who came up with a plan. Thomas challenged Gordon to a race across the island. As Gordon nearly caught him up, Thomas pulled onto the same track which meant Gordon had no choice but to follow him. At Gordon's Hill, the two engines were going so slowly that Gordon stopped and got stuck again. As Thomas carried on his way, Edward arrived. This time, it was Edward's turn to call Gordon unreliable for always getting stuck on his own hill. Edward then began to carry on his way too, but Gordon begged him to help. Gordon promised to never call him old and unreliable again. Edward forgave Gordon and gave him a push. The big blue engine even said "thank you" once they had reached the top of the hill.

In Sodor's Legend of the Lost Treasure, he told Thomas, who was being mended at the Steamworks, that Rocky had discovered a pirate ship in the cavern in which Thomas had fallen into earlier (despite Thomas discovering it first). Later, while working at the Docks, Salty told him, Henry, James, Porter and Cranky about a "lost pirate".

When Thomas felt that Max and Monty's recklessness was going too far, Edward told Thomas to ignore them. He laughed at Thomas, Percy and Toby for being scared of a cow which they thought was a troll and he was also scared of going out in the night when the engines thought a glowing Henry was a ghost. Edward was among the engines who were afraid Hugo was the start of steam engines being replaced.

In The Great Race, Edward was one of the many engines who wanted to go to the Great Railway Show but instead was left on Sodor.

When Henry had an accident at Vicarstown on the viaduct, while taking a goods train to the Mainland, Edward took Judy and Jerome to the accident scene that evening, where they lifted Henry back to safety.

In the twenty-first series, Edward arrived at Knapford to pick up the old public service announcement system which the Fat Controller had just replaced and took it to Crocks Scrap Yard. When Thomas, Percy and Toby could not understand the new P.A. system and took the trains to the wrong places, they tried to fix it, but it became badly burnt out and no longer working. Edward then returned to Crocks

Scrap Yard to have Reg urgently return the old public service announcement. When Edward brought it back, the Fat Controller praised him for saving the old public service announcement.

When his shed was being repaired after James had an accident, Edward was sent to Philip's Shed, then the Steamworks and Brendam Docks but they were all too noisy for him to get a good night's sleep. He later found Philip to be good company and decided that he would stay with him at Wellsworth Sheds instead of Tidmouth from then on.

When Bill and Ben made up a game called "Hunt the Truck" and played it on Nia, Edward threatened to take the trucks he brought for them away if they did not give back the truck to Nia. When Bill and Ben tried to hide an important truck from Edward, the wise old engine knew what the twins were up to and took the truck from where they already hid it. He would later pretend to be worried that the truck going missing would ruin Sir Robert Norramby's Christmas party, prompting the twins to search for it without realising that Edward had set up his own trick for them.

Edward: So Leni, I heard you make awesome clothes for everyone.

Leni: That's totes right.

Karai: (Japanese accent) That is correct. Leni is an amazing fashion designer.

Sabrina Mason: She makes an amazing line of clothes.

Musa: She sure does.

Edward: I heard you were terrorized by an evil haunted mask Carly Beth.

Carly Beth: I was. That was a horrible nightmare.

Xion: It sure was.

Edward: I'm sorry that happened to you.

Carly Beth: That's all right.

They went up to an oil field and they saw Tankers and they went up to one.

Edward: Hold it right there!

Oil Tanker: Edward the blue weakling!

Leni: You are in a lot of trouble.

Edward: What she said. You're under arrest.

They picked up the tanker.

---

We rendezvoused back at the station and we put all the troublesome trucks in our special prison for bad trucks and trains. It was the Sodor Train & Vehicle Maximum Security Correctional Institute. The mischief of the Troublesome Trucks was over. Storm caught her first ever Pokemon: Castform. It can change due to the weather. We moved the island of Sodor to North America and extended it all with the American Transcontinental Railroad and we also built a massive railroad system all over the world and it was an immense project and we also built a train bridge over the Bering Strait and it was a huge success. We overcame a lot of transportation problems. It was a massive project and it was a success.

THE END

---

Another Fanfiction and more mischief makers brought to justice.

Thomas the Tank Engine and Friends is a very popular show I remember watching a lot back when I was a little kid. It was so awesome! The reason we did this is because I was doing submissions for Thomas the Tank Engine and Friends. I also did this chapter for my friends ThomperFan and BlueSonicMania. This chapter is for you guys. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

Thomas the Tank Engine and friends is owned by Reverend William Awdry, his son Christopher, Britt Allcroft and many companies.

# The Global Super Race

In the backyard of the Team Loud Phoenix Storm estate, we were showing Syd our villain trophies. She saw the solid gold statue of Saluk next to the stone statue of the Evil Terra.

Syd: Wow! Look at all these amazing statues!

Me: Yep. Some of the villains we encountered turned into this. This gold statue is Aladdin's enemy Saluk. And this stone statue is the evil Terra.

Syd: That's so awesome! And these flags you all made are awesome!

Me: Yep. These flags are our Death of Organizations Flags. They are the symbols of that organizations destruction. We killed a lot of them: Team Rocket, Team Flare, Team Galaxy, Teams Aqua & Magma, The Purple Dragons, there's still a lot of them out there.

Syd saw the statue we made for Nico.

Syd: Wow! This one is amazing!

Nico: That statue is me. It was made for me on my birthday.

Me: Yep. It was an awesome birthday present for him. Me and Laney made that for him.

Syd: That's an awesome statue! I think that is so cool!

Nico: Thanks Syd.

Syd then saw our Giant Squid statue.

Sys: Whoa! Is that a Giant Squid?

Me: It sure is. That is our taxidermy of the Graves Point Squid. We found out that a huge 110 foot long giant squid was terrorizing the Pacific Coast town of Graves Point, Washington State. This squid killed 10 people and it paralyzed the whole town with fear.

Nico: I didn't know about that J.D.

Me: Well this was before you moved here Nico. This Giant Squid was the largest creature ever to swam the ocean. The largest giant squid ever discovered was 43 feet long and it weighed over half a ton. But this one was 110 feet long and it weighed 5,000 pounds.

Nico and Syd: WOW!

Nico: That is the biggest squid ever! It's as big as a blue whale!

Me: A tiny bit bigger than that. But yeah. But in the end, we saved all of Graves Point from this massive beast and we made a memorial for all the victims of the squid.

Syd: That's amazing. But I'm glad you guys stopped this squid. Squids are one of the strongest and smartest creatures ever.

Me: I know. Squids are one of natures most powerful survivors. They've been on this planet for 415 million years and they have one of the most powerful and sophisticated brains ever known. They are very smart creatures.

Syd: They sure are. I can't believe they are that smart and powerful.

Me: Me neither. Octopuses have been around almost nearly as long. They were on this planet for 323 million years.

Nico: Wow. So not even half the length of squids.

Syd: One thing puzzles me though. What caused the Great Permian Extinction?

Me: Well. It was the continental drift that caused the Continents to form into Pangaea that did it. But as a result, it triggered a massive Global Volcanism chain reaction. Back 240 million years ago, when the continents merged together to form the massive supercontinent Pangaea, all the volcanoes around the world erupted all at once and poured millions and millions of tons of volcanic ash and lava all over the world and it wiped out 95% of all life on the planet. Resulting in one of the most devastating mass extinctions ever known.

Syd: Whoa! That's horrible!

Nico: I know. And we did an awesome educational simulator field trip where we went into the future.

Syd: Wow! What did you see?

Me: That was an awesome experience.

We told Syd about our trip into the distant future at 5 million, 100 million and 200 million years from now and she was floored!

Syd: Oh that is so amazing!

Me: Well we don't know if it's gonna happen or not. Nobody knows what the future has in store for us.

Lola: But it was such an amazing and educational experience for us.

Me: It sure was Lola. Lisa got to study all about the future life. It was all hypothetical but it really intrigued us.

Syd: You guys are really amazing!

Me: Tell me something we don't already know.

We laughed.

* * *

In the living room we were watching TV, Reading books and playing card games.

Me: It sure is a beautiful day outside.

Laney: It sure is.

Fu: I love enjoying the splendor of the sunny day.

Molly Molloy: Me too.

Me: Hey Britney, how did you and Molly meet? Nico told us you've been best friends for a long time.

Molly Molloy: That is an experience I will never forget.

Britney Crosby: That is a day like no other.

Molly Molloy: I'll tell the story

* * *

Molly Molloy: (Narrating) **I was a normal girl in kindergarten. I was a very friendly and very social girl. I also loved helping people out. But then one day, Britney Crosby came. She was shy, but she was nervous. Britney saw that I was in trouble by looking through my eyes. I was going through some personal issues with my parents.**

FLASHBACK PAUSED

Me: What happened to your parents Molly?

Britney Crosby: Her parents divorced.

We gasped. That was one of the many things that should never happen in any marriage. Being divorced tears lives and families apart and changes people forever.

Me: That's awful.

Laney: Divorce is a terrible thing.

Lana: How does a divorce happen?

Me: It can happen in a number of ways. Marriage not working out, financial strain, abusive partnership, anything.

Lola: That's awful.

Me: No kidding. Please continue Molly.

Molly Molloy: Right. Sorry.

FLASHBACK RESUMES

Molly Molloy: (Narrating) **It wasn't until a certain day that me and Britney became friends. I walked into the girls bathroom to wash my hands from getting them covered in marker and I saw Britney being harassed by some 3rd grade bullies. She had a nasty black eye and I knew right then that I had to teach them a lesson and stop them.**

Young Molly went over to the bullies and stood in between them and Britney ready to face them.

Young Molly: LEAVE HER ALONE YOU MONSTERS!

Bully 1: Look at the little twerp defending the freak!

Bully 2: Lets teach this one a lesson in respecting her elders!

But what he didn't know was that Molly was taught in self-defense and she punched the 2nd bully in the crotch with devastating force and punched him in the face and knocked out some of his teeth. She took the other two bullies and bashed their heads together and knocked them out.

Britney was amazed.

Young Britney: That was so cool!

Young Molly: Thanks. I was taught all that. I'm Molly Molloy.

Young Britney: I'm Britney Crosby and it's a pleasure.

Molly Molloy: **Ever since that day, we became fast friends and we turned the bullies over to the principals office.**

FLASHBACK ENDS

Molly Molloy: We got them expelled from school that day and me and Britney were best friends ever since then.

Lana: Wow!

Lola: You are a very brave girl Molly.

Laney: You sure did a great deed that day.

Molly Molloy: I don't like to brag.

Nico: But those bullies have failed that school as human beings.

We laughed.

---

Later I was looking at the strange crystal cluster I found on the planet Venus during the Venusian Race. It was a magnificently formed crystal cluster that was glowing red and it was a beautiful cluster. But the crystals were 10,000 times sharper than that of a razor blade and were completely indestructible.

Me: This crystal is amazing. I can't believe it grew in the scorching 900˚ heat on the planet Venus. It's hard to imagine that it's that strong. I got to show this to Lisa.

I took the crystal into Lisa's room and I stood in front of a closet door and I formed an octopus tentacle and pressed a passcode on a code panel.

Computer: Voice Identification please.

Me: James Dean Knudson, ID Number 7253779347 Beta.

Computer: Hello J.D. Knudson. Welcome to Lisa's lab.

Me: Thank you.

The closet opened and Lisa's lab was a massive laboratory.

Me: I forgot how big this laboratory is.

I walked in and found Lisa and Nicole working on an amazing machine.

Nicole saw me.

Nicole: Oh hey dad.

Lisa: Greetings 2nd Elder Brother.

Me: Hey girls. I have something I need you to look at.

Nicole: What is i… (Gasps) Where did you get that beautiful crystal cluster?

Me: I found it on the planet Venus when we were racing there. It's an amazing crystal cluster and I found it.

Nicole: That is an amazing crystal. I'll run some tests on it.

Nicole did so and her findings were amazing! She found out that it was a crystal composed of pure indestructible Neutronium, the strongest and most indestructible metal ever known to the entire universe and it is the sharpest crystal ever known in the universe. Able to cut through solid adamantium and the strongest metal in the world like a hot knife through butter.

Me: Wow! This is a powerful crystal!

Nicole: It sure is. Since you found it on the planet Venus, we'll call it Venusite, after the planet Venus.

Me: That's a good name. This crystal will make an awesome forging element for our weapons.

Nicole: It sure will dad. We can harness this crystals molecular structure and put it into our swords to make them indestructible.

Me: That's an awesome idea.

Nicole, Lisa and Dexter got to work and they copied the crystals molecular structure and infused it with our swords and it made them sharper than ever before.

* * *

We were resting on the couch and having snacks and watching TV.

Nico: (to Sheila) Sheila, in the Underground City, what was your relationship with Roy, Max, George, and Ken?

Sheila: I viewed all of them as my brothers. We were very close ever since this whole ordeal ever began.

Nico: Wow What was your family life like before the whole nightmare began?

Sheila looked down and I knew right then and there that it was not pretty.

Me: Oh no. I take it that it's a bad time.

Sheila: It is. I don't like to talk about it.

Me: I'm sorry Sheila. You don't have to tell us right away. You can tell us when you're ready.

Sheila: Thanks J.D. I don't want to talk about it.

Sheila then broke down crying. Varie comforted her.

Then there was a knock at the door.

Lily: I'll get that.

Lily went to the door and she answered it. It was Bobbie Fletcher.

Lily: Wow! Bobbie Fletcher.

Bobbie: Hey Lily. Is J.D. available?

Me: Oh hey Bobbie. What's up?

Bobbie: There's another awesome race coming up J.D. It's a Race Around the World.

Me: Wow! A Global Super Race!? Oh you know we'll be there!

Bobbie: I know you will. I'm excited for this one. It's gonna start in Nome, Alaska and end at the Kamchatka Peninsula in Russia.

Me: Whoa! That's a 22,000 mile long race!

Bobbie: Actually it's much longer than that. Here's a map of the race route.

Bobbie handed me a map and what I saw was staggering. The race starts at Nome, Alaska and goes all over North America, races through Central and South America, cuts through the southern Atlantic Ocean, goes all over Africa, all over Europe, all over Asia, all over Australia and finishes at the Kamchatka Peninsula in Russia.

Me: Wow! What a race! This has to be a 40,000 mile long race.

Bobbie: That's exactly right J.D.

Me: A race like this would take a whole week to complete.

Bobbie: That's the challenging part. The whole race is gonna cover 40,000 miles in 8 hours.

Me: Wow! That's an awesome challenge. Count us in Bobbie. But our cars aren't equipped to change into any terrain and all that.

Bobbie: Don't worry J.D. We already built you all multi-terrain changing cars that can get you through any terrain on land, sea and air. See you all at the race in Nome.

Me: We'll be there Bobby.

After Bobby left, we told everyone.

Lori: Are you literally serious J.D.!?

Leni: A race around the world!? That's totes amazing!

Nico: This is gonna be fun guys!

May: It sure is. Count me in.

Lily: I'm so excited for this!

Me: Me too guys. It's race time!

Everyone cheered.

20 minutes earlier, in our garage, Kevin and Lana were working on Kevin's car.

Kevin Levin: You sure you want to help me out with my car, Lana? Alien technology can be pretty complicated.

Lana: I can handle it Kevin.

They were fixing his car.

We came in as they just finished up fixing it. They were covered in transmission fluid and more.

Lana: All fixed.

Kevin: You're quite an awesome mechanic Lana.

Lana: Thanks Kevin.

Kevin: And you know a lot about alien technology.

Lana: We've been to several planets and Gwen and Elena have been showing me.

I came in to the garage.

Me: Hey guys. It's race time!

Lana: Awesome! I take it Bobbie Fletcher was here?

Me: She was Lana. And we have an awesome new race.

I told them everything.

Kevin: A Race around the world huh? I'm in.

Lana: Awesome!

We got ready for the greatest race on Earth.

NOME, ALASKA - Starting line.

---

We were getting our cars ready and we had awesome new cars that can go over any terrain.

Me: This is gonna be so awesome!

Laney: It sure is. I don't think we ever raced in a race of this caliber.

Lana: I don't think so either.

?: (Scottish Accent) I'm excited to participate too now.

We saw in a skull racer THE SILVER BANSHEE!

Siobhan McDougal was the first-born child of Garrett McDougal, the patriarch of an old Gaelic clan that has occupied an island midway between Scotland and Ireland for a thousand generations. On that island is Castle Broen, where first-born McDougals undergo a ritual to prove themselves worthy to lead the clan. When Siobhan was young, she traveled the world, only returning to Castle Broen when she heard of her father's death. Her uncle Seamus determined that no woman would lead the clan and intended her brother Bevan to become the new patriarch. She went ahead with the family ritual by herself, which involved calling on supernatural forces for power. She was interrupted by Bevan, and the distraction proved disastrous as she was dragged away into an infernal netherworld. An entity called "the Crone" granted her powers and the ability to return to Earth as the Silver Banshee, but demanded payment in the form of an occult book that belonged to her father. She found that her father's book collection had been shipped off for sale in the United States. Her quest brought her to Metropolis. Killing anyone that stood in the way of her search attracted the attention of Superman, who was able to defeat her when he realised that she could only kill a person once as she turned away from someone who resembled a previous victim; by faking his death, Superman was able to enlist the Martian Manhunter to attack Banshee by posing as Superman's ghost. Unable to defeat Superman, she chose to retreat and continue her mission at a later date.

Silver Banshee returned to Metropolis twice more, but was halted both times by Superman. It was Batman who finally found the book among some stolen goods in Gotham City. Superman brought the book to Castle Broen where he was confronted by Silver Banshee. The Crone appeared at the castle, and after an enigmatic warning to Superman, she dragged the Banshee, Bevan, and Seamus off to her Netherworld.

In Leesburg, Supergirl rescued Silver Banshee from Satanus' Netherworld when the chaos flow brought the river Styx to the town. Silver Banshee was left in a confused state, eventually going back to her psychotic persona and using Supergirl's friend Mattie as a host while rampaging on the streets. Mattie and Silver Banshee thus proceeded to nearby Schnaffenburg where Mattie tried to get revenge on Gerald McFee, who killed her brother during Final Night while in thrall to Gorilla Grodd. Supergirl calmed Silver Banshee, separating Mattie from her, which led to Silver Banshee temporarily vanishing.

Silver Banshee was one of the final four villains- along with Bizarro, Mongul, and the Master Jailer- sent against Superman by Manchester Black, Black using his powers to make Banshee and Bizarro sane enough to tactically outthink Superman, also granting Banshee awareness of his Kryptonian name so that she could use her magic against him more effectively. Despite this, Superman was able to defeat the four, forcing Mongul to expend his energy before dropping a nuclear-powered superhuman onto the deserted island that they were currently inhabiting.

Silver Banshee attempted to collect the billion dollar bounty President Luthor placed on Superman's head in Superman/Batman #3, but failed, with Batman using an ultrasonic generator to keep her nullified.

Silver Banshee later joined the Secret Society headed by Alexander Luthor. She was one of the members who turned on Black Adam when Luthor needed him for his machine. She also took part in the Battle of Metropolis.

Silver Banshee battles Supergirl in Supergirl #34, and is expected to be a recurring nemesis for Supergirl, as well as Superman, as part of an attempt to tie Supergirl's book in with Superman's titles.

In Superman #682, Supergirl was used as a diversion as some members of Kandor captured Silver Banshee, placing her in the Phantom Zone. Later, Superman freed Silver Banshee to be taken to Belle Reve.

Inspector Henderson with other police officers break into an apartment, but it explodes and then they find a corpse covered in runes. Kara meets with Inspector Henderson, who's following a case his old mentor was never able to close, and thinks it has to do with items Silver Banshee needs to lift her curse. Inspector Henderson finds his mentor had the item, but it imbeds itself in Inspector Henderson's hand, allowing Silver Banshee to track him. Silver Banshee shows up and fights Supergirl, but Supergirl opens a package from Henderson and becomes possessed by a Banshee hybrid. Banshee-Supergirl and the Silver Banshee battle each other as events are recapped. Supergirl tells Silver Banshee they hid the artifacts in people, in order to keep them hidden from her. Apparently all the items were hidden not as a curse, but as a test for prospective clan leaders. Henderson punches Banshee-Supergirl, which is effective because of the artifact in his hand. Supergirl tries to exorcise the spirits possessing her but fails. Henderson realizes the spirits are tied to the artifacts and can be used against them. He then stabs his hand and breaking Supergirl free from her spirits. Silver Banshee then uses her wails to disperse the spirits. She finally uses magic to remove the artifacts from Henderson's hand and lets him know she is indebted to him.

Me: Siobhan McDougal A.K.A. The Silver Banshee!

Lucy: Silver Banshee? What are you doing here?

Silver Banshee: Relax, Lucy. I'm not here to cause trouble now. Believe it or not, I'm here to race.

Lucy: Really? Does Grodd know you're doing this?

Silver Banshee: I actually quit the Legion of Doom.

Lucy: Why? I thought you had a great time with them.

Silver Banshee: I did at first. But I'm getting older now. I need to do something else with my life besides the same old crime routine.

Timmy Turner (to Silver Banshee): Last time a criminal said he was going straight, me and J.D.'s fairies were put at risk. Why should we believe you?

Me: She's telling the truth. I see it in her eyes. She left the Legion Of Doom to redeem herself. But also I have a strong feeling that it's to take back your rightful place as the patriarch of your family.

Silver Banshee: Aye. You're right J.D. My brother Bevan must pay for his crimes against my family.

Me: He will pay for his crimes after we finish the race.

Julie Martin: This is gonna be so awesome! I can't believe we're gonna participate in a race like this!

Rodimus Prime: Even though you can't drive yet, it's still gonna be so much fun.

Smokescreen: This is gonna be so awesome!

Sheena Deep: This is gonna be awesome!

Crumplezone: This is your first ever race guys.

Billy Deep: It sure is. I'm so excited.

Robby Schwartz: We all are.

Jack Johnson: I am too. I'll be rooting for you guys.

Trudy: Same here.

We got in our race cars.

Billy Natson then came.

Billy N.: And… Welcome to another most fantastic race and one of the biggest days in the history of man. Hello, I'm Billy Natson and we have a magnificent treat for you all today. Today we're having a first ever global race around the whole world and it's a 40,000 mile long race that extends all the way from Nome, Alaska to the Kamchatka Peninsula in Russia. Wow! We have with us the legendary racers of Team Loud Phoenix Storm and it's gonna be a magnificent treat for you all today. Are you excited about the race today J.D.?

Me: You know I am Billy. A race around the world will be an awesome experience! Let burn rubber!

Billy N.: Love that racing spirit J.D.! Have fun out there guys!

Everyone was so excited. We got in our cars as Krysta was getting ready to wave the green flag and Dick Dastardly was already planning how to make sure the racers don't get ahead of him.

Krysta: Everyone ready!?

We revved our engines.

Krysta: On your mark… Get set…

We were ready.

Krysta: REV UP AND GOOOOOOOOOOOOO!

We put the pedals to the metal and gunned it!

Billy N.: AND THEY'RE OFF!

We zoomed out of Nome Alaska at 300 miles per hour and we were really blazing with intense speed! We were already going passed the highest mountain in North America: Mount McKinley. It was a beautiful mountain at 20,310 feet high and it was breathtaking. Next we were in the Yukon in Northwestern Canada.

We went in a rollercoaster line and we saw all kinds of magnificent mountains, forests and more.

Next we zoomed through Manitoba, Canada and it was beautiful. We then raced through Ontario, Quebec, and a small part of Churchill Falls. We saw all kinds of beautiful places.

We were now in the continental United States and we went through New York, Pennsylvania, Maryland, Kentucky, Tennessee, Georgia, Alabama, Mississippi, Louisiana, Texas, New Mexico, Arizona, California, Oregon, Washington State, Idaho, Montana, Wyoming, Utah, Arizona again and then we went across the border into Mexico.

We cut through Central America and we saw Honduras, El Salvador, Costa Rica and Panama.

Next we were in South America. We were going through Bogota, Colombia. Next we went through Venezuela and it was beautiful. We then saw the tallest waterfall in the world: Angel Falls. At 3,212 feet high, it was easily the tallest waterfall in the world.

Angel Falls (Spanish: Salto Ángel; Pemon language: Kerepakupai Meru meaning "waterfall of the deepest place", or Parakupá Vená, meaning "the fall from the highest point") is a waterfall in Venezuela. It is the world's highest uninterrupted waterfall, with a height of 979 metres (3,212 ft) and a plunge of 807 m (2,648 ft). The waterfall drops over the edge of the Auyán-tepui mountain in the Canaima National Park (Spanish: Parque Nacional Canaima), a UNESCO World Heritage site in the Gran Sabana region of Bolívar State. The height figure, 979 m (3,212 ft), mostly consists of the main plunge but also includes about 400 metres (1,300 ft) of sloped cascade and rapids below the drop and a 30-metre (98 ft) high plunge downstream of the talus rapids.

The falls are along a fork of the Rio Kerepacupai Meru which flows into the Churun River, a tributary of the Carrao River, itself a tributary of the Orinoco River.

Laney: Wow! Look at that waterfall!

Me: That's Angel Falls. The tallest waterfall in the world.

Lori: It's literally so beautiful!

Luna: That is an amazing waterfall dudes.

Luan: It sure will make you fall! (Laughs to Rimshot) Get it?

Most of us laugh while everyone else sighed. Later we passed through Guyana, Suriname and French Guiana. We were driving through the town of Jonestown, Guyana.

Luna: Wow! So this is Guyana.

Me: Yep and this is the town where a terrible event back in the 1970's called the Jonestown Massacre took place.

The Peoples Temple Agricultural Project, better known by its informal name "Jonestown", was a remote settlement established by the Peoples Temple, a cult under the leadership of Jim Jones, in northwestern Guyana. It became internationally known when, on November 18, 1978, a total of 918 people died in the settlement, at the nearby airstrip in Port Kaituma, and at a Temple-run building in Georgetown, Guyana's capital city. The name of the settlement became synonymous with the incidents at those locations.

In total, 909 individuals died in Jonestown, all but two from apparent cyanide poisoning, in an event termed "revolutionary suicide" by Jones and some Peoples Temple members on an audio tape of the event, and in prior recorded discussions. The poisonings in Jonestown followed the murder of five others by Temple members at Port Kaituma, including United States Congressman Leo Ryan, an act that Jones ordered. Four other Temple members committed murder-suicide in Georgetown at Jones' command.

Terms used to describe the deaths in Jonestown and Georgetown evolved over time. Many contemporary media accounts after the events called the deaths a mass suicide. In contrast, most sources today refer to the deaths with terms such as mass murder-suicide, a massacre, or simply mass murder. Seventy or more individuals at Jonestown were injected with poison, and a third of the victims (304) were minors. Guards armed with guns and crossbows had been ordered to shoot those who fled the Jonestown pavilion as Jones lobbied for suicide.

Jonestown resulted in the largest single loss of American civilian life in a deliberate act until September 11, 2001.

Nico: Man! That is horrible!

Luna: I heard you mention that when Linka came to our dimension.

Linka: I remember that. That was so awful.

Laney: I know. It's just absolutely sick that cult leaders can be that deranged.

Nico: I know.

Later we were in Northeastern Brazil and we were in the white sand deserts of the famous Lençóis Maranhenses National Park.

Lençóis Maranhenses National Park (Parque Nacional dos Lençóis Maranhenses[a]) is a national park located in Maranhão state in northeastern Brazil, just east of the Baía de São José. Protected on June 2, 1981, the 155,000 ha (380,000-acre) park includes 70 km (43 mi) of coastline, and an interior composed of rolling sand dunes. During the rainy season, the valleys among the dunes fill with freshwater lagoons, prevented from draining due to the impermeable rock beneath. The park is home to a range of species, including four listed as endangered, and has become a popular destination for ecotourists.

Lana: Whoa! Look at this place!

Me: This is a very popular tourist destination here in Northeastern Brazil. It's called the Lençóis Maranhenses National Park.

Nico: It's beautiful. It's like the perfect oasis.

Lori: I would love to come here for a vacation.

Laney: Me too. The water is so beautiful and crystal blue.

Lola: It's so pretty.

Lily: I never even knew a place like this even existed. It's breathtaking.

We went down south and cute through Sao Paolo and Rio De Janeiro. We cut through Uruguay and went through Argentina and then we arrived at Patagonia, Chile.

Me: Now we have to go underwater guys.

We went into the ocean and our cars turned into Submarines and we were underwater in the southern Atlantic Ocean. We were underwater and we saw the southern side of the most seismically active volcanic area on the planet: The Mid-Ocean Ridge.

A mid-ocean ridge (MOR) is a seafloor mountain system formed by plate tectonics. It typically has a depth of ~ 2,600 meters (8,500 ft) and rises about two kilometers above the deepest portion of an ocean basin. This feature is where seafloor spreading takes place along a divergent plate boundary. The rate of seafloor spreading determines the morphology of the crest of the mid-ocean ridge and its width in an ocean basin. The production of new seafloor and oceanic lithosphere results from mantle upwelling in response to plate separation. The melt rises as magma at the linear weakness in the oceanic crust, and emerges as lava, creating new crust and lithosphere upon cooling. The Mid-Atlantic Ridge is a spreading center that bisects the North and South Atlantic basins; hence the origin of the name 'mid-ocean ridge'. Most oceanic spreading centers are not in the middle of their hosting ocean basis but regardless, are called mid-ocean ridges. Mid-ocean ridges around the globe are linked by plate tectonic boundaries and appear similar to the seam of a baseball. The mid-ocean ridge system thus is the longest mountain range on Earth, reaching about 65,000 km (40,000 mi).

Me: Wow! The Mid-Ocean Ridge.

Lincoln: It's a massive underwater mountain range!

Laney: It's huge! I never even knew all this was here!

Earth: It's one of the most seismically and volcanically active mountain ranges on our planet.

Me: That's right. It's also the longest mountain range on our planet and it's at 40,000 miles long.

Everyone: WOW!

Lynn: That is so amazing!

Nico: No kidding.

Later we were in Southern Africa. We switched to jeep mode and we were racing through South Africa. We were in the capital city of Johannesburg.

Me: Johannesburg, South Africa.

Laney: I've always wanted to come here.

Me: It's also home to famous South African Revolutionary Nelson Mandela.

Nelson Rolihlahla Mandela (/mænˈdɛlə/; Xhosa: [xolíɬaɬa mandɛ̂ːla]; 18 July 1918 - 5 December 2013) was a South African anti-apartheid revolutionary, political leader, and philanthropist who served as President of South Africa from 1994 to 1999. He was the country's first black head of state and the first elected in a fully representative democratic election. His government focused on dismantling the legacy of apartheid by tackling institutionalised racism and fostering racial reconciliation. Ideologically an African nationalist and socialist, he served as President of the African National Congress (ANC) party from 1991 to 1997.

A Xhosa, Mandela was born to the Thembu royal family in Mvezo, British South Africa. He studied law at the University of Fort Hare and the University of Witwatersrand before working as a lawyer in Johannesburg. There he became involved in anti-colonial and African nationalist politics, joining the ANC in 1943 and co-founding its Youth League in 1944. After the National Party's white-only government established apartheid, a system of racial segregation that privileged whites, he and the ANC committed themselves to its overthrow. Mandela was appointed President of the ANC's Transvaal branch, rising to prominence for his involvement in the 1952 Defiance Campaign and the 1955 Congress of the People. He was repeatedly arrested for seditious activities and was unsuccessfully prosecuted in the 1956 Treason Trial. Influenced by Marxism, he secretly joined the banned South African Communist Party (SACP). Although initially committed to non-violent protest, in association with the SACP he co-founded the militant Umkhonto we Sizwe in 1961 and led a sabotage campaign against the government. He was arrested and imprisoned in 1962, and subsequently sentenced to life imprisonment for conspiring to overthrow the state following the Rivonia Trial.

Mandela served 27 years in prison, split between Robben Island, Pollsmoor Prison, and Victor Verster Prison. Amid growing domestic and international pressure, and with fears of a racial civil war, President F. W. de Klerk released him in 1990. Mandela and de Klerk led efforts to negotiate an end to apartheid, which resulted in the 1994 multiracial general election in which Mandela led the ANC to victory and became president. Leading a broad coalition government which promulgated a new constitution, Mandela emphasised reconciliation between the country's racial groups and created the Truth and Reconciliation Commission to investigate past human rights abuses. Economically, Mandela's administration retained its predecessor's liberal framework despite his own socialist beliefs, also introducing measures to encourage land reform, combat poverty, and expand healthcare services. Internationally, he acted as mediator in the Pan Am Flight 103 bombing trial and served as Secretary-General of the Non-Aligned Movement from 1998 to 1999. He declined a second presidential term, and in 1999 was succeeded by his deputy, Thabo Mbeki. Mandela became an elder statesman and focused on combating poverty and HIV/AIDS through the charitable Nelson Mandela Foundation.

Mandela was a controversial figure for much of his life. Although critics on the right denounced him as a communist terrorist and those on the far-left deemed him too eager to negotiate and reconcile with apartheid's supporters, he gained international acclaim for his activism. Widely regarded as an icon of democracy and social justice, he received more than 250 honours-including the Nobel Peace Prize-and became the subject of a cult of personality. He is held in deep respect within South Africa, where he is often referred to by his Xhosa clan name, Madiba, and described as the "Father of the Nation".

Laney: Nelson Mandela is one of my favorite historical figures. I love his beliefs in anti-racism.

Lana: Me too. He was a hugely famous figure in history.

Luan: He sure was.

Luna: I agree dudes.

Ronnie Anne: He was a major influence over much of the world.

Me: Yep. He was persecuted a lot. But his will and strength was incredibly strong and powerful. He is a true example of how strong the human spirit can be.

Lincoln: That is a strong inspiration.

Later our cars were in hovercraft modes and we were driving through the notorious Okavango Swamp in Botswana.

The Okavango Delta (or Okavango Grassland) (formerly spelled "Okovango" or "Okovanggo") in Botswana is a swampy inland delta formed where the Okavango River reaches a tectonic trough in the central part of the endorheic basin of the Kalahari. All the water reaching the delta is ultimately evaporated and transpired and does not flow into any sea or ocean. Each year, about 11 cubic kilometres (2.6 cu mi) of water spread over the 6,000-15,000 km2 (2,300-5,800 sq mi) area. Some flood waters drain into Lake Ngami. The area was once part of Lake Makgadikgadi, an ancient lake that had mostly dried up by the early Holocene.

The Moremi Game Reserve, a National Park, is on the eastern side of the Delta. The Delta was named as one of the Seven Natural Wonders of Africa, which were officially declared on 11 February 2013 in Arusha, Tanzania. On 22 June 2014, the Okavango Delta became the 1000th site to be officially inscribed on the UNESCO World Heritage List.

Me: Wow! The Okavango Swamp. One of the most treacherous swamps in the world.

Laney: It sure looks very dangerous. I would not want to be here.

Lana: Me neither. But look at all the animals here.

Lola: There sure are a lot of them.

We later went over Mozambique and crossed over into Zimbabwe and we went into Namibia. We crossed over into Angola and we saw the desolate Skeleton Coast, one of the most bleak and barren deserts in the world.

The Skeleton Coast is the northern part of the Atlantic coast of Namibia and south of Angola from the Kunene River south to the Swakop River, although the name is sometimes used to describe the entire Namib Desert coast. The Bushmen of the Namibian interior called the region "The Land God Made in Anger", while Portuguese sailors once referred to it as "The Gates of Hell".

The name Skeleton Coast was coined by John Henry Marsh as the title for the book he wrote chronicling the shipwreck of the Dunedin Star. Since the book was first published in 1944, it has become so well known that the coast is now generally referred to as Skeleton Coast and is given that as its official name on most maps today.

On the coast, the upwelling of the cold Benguela current gives rise to dense ocean fogs (called cassimbo by the Angolans) for much of the year. The winds blow from land to sea, rainfall rarely exceeds 10 millimetres (0.39 in) annually and the climate is highly inhospitable. There is a constant, heavy surf on the beaches. In the days before engine-powered ships and boats, it was possible to get ashore through the surf but impossible to launch from the shore. The only way out was by going through a marsh hundreds of miles long and only accessible via a hot and arid desert.

The coast is largely soft sand occasionally interrupted by rocky outcrops. The southern section consists of gravel plains, while north of Terrace Bay the landscape is dominated by high sand dunes. Skeleton Bay is now known as a great location for surfing.

Me: Wow! Skeleton Coast.

Laney: This place gives me the creeps.

Lucy: I would love coming here in times of darkness.

Me: This desert is also home to the largest meteorite ever found. The Hoba Meteorite.

The Hoba (/ˈhoʊbə/ HOH-bə) meteorite, short for Hoba West, is a meteorite that lies on the farm of the same name, not far from Grootfontein, in the Otjozondjupa Region of Namibia. It has been uncovered but, because of its large mass, has never been moved from where it fell. The main mass is estimated at more than 60 tonnes. It is the largest known intact meteorite (as a single piece) and about twice as massive as the largest fragment of either the Cape York meteorite (the 31-tonne Agnighito) or the Campo del Cielo (the 30-tonne Gancedo). It is also the most massive naturally occurring piece of iron (actually ferronickel) known on Earth's surface. The name "Hoba" comes from Khoekhoegowab word meaning "gift".

Lana: That one must be really heavy.

Me: It weighs over 60 tons or 120,000 pounds.

Everyone: WOW!

Lincoln: That is really heavy.

Lori: Not nearly as heavy as the one that literally crashed into Dallas.

Me: I know.

Later we went through Zaire, Tanzania, Zaire again, The Congo, Gabon, Cameroon, Nigeria, Benin, Togo, Ghana, Liberia, Sierra Leone, Mali, Gambia, Mauritania and Morocco. We were driving through Algeria and Carol spotted Dick Dastardly up to no good as we were driving through a canyon.

Carol: Guys! Dick Dastardly is about to block off the canyon!

Me: I see it Carol.

I press some buttons.

Me: Banshee Missiles away!

I fired 2 Banshee Missiles and they released a deadly sonic shriek that shattered the rock into pebbles.

William (to Silver Banshee): Looks like your first assignment with us just drove by. Either convince Dastardly to back off or take him down!

Silver Banshee: Roger that! That was awesome that J.D.'s car can do that.

William: Lisa built them.

Aylene: She sure did.

Silver Banshee fired a sonic laser and it hit by Dick Dastardly and sent him flying and he slammed into the opposite wall.

SLAM!

Dick Dastardly: (MUFFLED) DRAT! DRAT! AND DOUBLE DRAT!

We were driving through the deserts of Libya.

Fu: Dick Dastardly is driving up behind you fast J.D.

Me: I see him Fu.

Dick Dastardly was really pissed this time! He was growling like a madman and the arteries and veins in his eyes were showing and that indicated that he was out of his mind with so much rage that it was unbelievable!

Dick Dastardly: I WILL KILL YOU FOR THIS J.D.!

Me: He's completely lost his marbles!

Dick Dastardly armed his racer with all kinds of weapons on it. There were lasers, missiles and more on it.

Me: Wow! His car is a war machine!

Fu: He's really going at it!

Aylene: I don't think so you freak! Volcano Missile Fire!

Aylene fired a rocket full of red hot lava and it hit by the side of Dick Dastardly's car and it exploded into a massive fiery explosion as Dick Dastardly fired some missiles.

KRABBBOOOOOOOOOMMMMMMMMM!

The missiles he fired hit the cliffs and they exploded and sent a major rockslide at us.

Laney: I got this.

Laney used her plant powers and formed a net that caught the rocks.

Nico: Nice work Laney.

Lily: Lets see how he likes this. Quicksand Missile, FIRE!

Lily fired a brown missile and it went ahead of Dick Dastardly and it hit the desert in front of him and formed a pit of swirling quicksand and Dick Dastardly fell into it and sank half way.

Lily: Eat our dust you loser!

Nico: Dick Dastardly you have once again failed this race!

We were really ahead of him now. But Dick Dastardly was not gonna be finished yet. We drove through Egypt and went into the Sinai Peninsula and into Saudi Arabia. We saw under construction a brand new supertall skyscraper going up. It was the Jennah Tower and it was gonna be the tallest building in the world.

We went north and went into Turkey. We were driving through the capital city of Istanbul, Turkey.

Me: Istanbul, Turkey. What a beautiful city.

Lana: It sure is.

Laney: I think this is a pretty place.

Me: It sure is. That's my favorite building right there. The Sultan Ahmed Mosque.

The Sultan Ahmed Mosque (Turkish: Sultan Ahmet Camii) is a historic mosque located in Istanbul, Turkey. A popular tourist site, the Sultan Ahmed Mosque continues to function as a mosque today. The Blue Mosque, as it is popularly known, was constructed between 1609 and 1616 during the rule of Ahmed I. Its Külliye contains Ahmed's tomb, a madrasah and a hospice. Hand-painted blue tiles adorn the mosque's interior walls, and at night the mosque is bathed in blue as lights frame the mosque's five main domes, six minarets and eight secondary domes. It sits next to the Hagia Sophia, another popular tourist site.

Nico: Isn't that one of Istanbul's popular tourist sites?

Me: Yep.

Lola: Didn't they once call this place Constantinople?

Me: That's right Lola. Istanbul, Turkey was once called Constantinople.

Constantinople /ˌkɒnstæntɪˈnoʊpəl/ (Greek: Κωνσταντινούπολις, translit. Kōnstantinoúpolis; Latin: Cōnstantīnopolis) was the capital city of the Roman Empire (330-395), of the Eastern Roman (Byzantine) Empire (395-1204 and 1261-1453), of the brief Crusader state known as the Latin Empire (1204-1261) and of the Ottoman Empire (1453-1923). In 1923 the capital of Turkey, the successor state of the Ottoman Empire, was moved to Ankara and the name Constantinople was officially changed to Istanbul. The city is located in what is now the European side and the core of modern Istanbul. The city is still referred to as Constantinople in Greek-speaking sources.

In 324 ancient Byzantium became the new capital of the Roman Empire by Emperor Constantine the Great, after whom it was renamed, and dedicated on 11 May 330. From the mid-5th century to the early 13th century, Constantinople was the largest and wealthiest city in Europe. The city became famous for its architectural masterpieces, such as Hagia Sophia, the cathedral of the Eastern Orthodox Church, which served as the seat of the Ecumenical Patriarchate, the sacred Imperial Palace where the Emperors lived, the Galata Tower, the Hippodrome, the Golden Gate of the Land Walls, and the opulent aristocratic palaces lining the arcaded avenues and squares. The University of Constantinople was founded in the fifth century and contained numerous artistic and literary treasures before it was sacked in 1204 and 1453, including its vast Imperial Library which contained the remnants of the Library of Alexandria and had over 100,000 volumes of ancient texts. It was instrumental in the advancement of Christianity during Roman and Byzantine times as the home of the Ecumenical Patriarch of Constantinople and as the guardian of Christendom's holiest relics such as the Crown of thorns and the True Cross.

Constantinople was famed for its massive and complex defences. The first wall of the city was erected by Constantine I, and surrounded the city on both land and sea fronts. Later, in the 5th century, the Praetorian prefect Anthemius under the child emperor Theodosius II undertook the construction of the Theodosian Walls, which consisted of a double wall lying about 2 kilometres (1.2 mi) to the west of the first wall and a moat with palisades in front. This formidable complex of defences was one of the most sophisticated of Antiquity. The city was built intentionally to rival Rome, and it was claimed that several elevations within its walls matched the 'seven hills' of Rome. Because it was located between the Golden Horn and the Sea of Marmara the land area that needed defensive walls was reduced, and this helped it to present an impregnable fortress enclosing magnificent palaces, domes, and towers, the result of the prosperity it achieved from being the gateway between two continents (Europe and Asia) and two seas (the Mediterranean and the Black Sea). Although besieged on numerous occasions by various armies, the defences of Constantinople proved impregnable for nearly nine hundred years.

In 1204, however, the armies of the Fourth Crusade took and devastated the city, and its inhabitants lived several decades under Latin misrule. In 1261 the Byzantine Emperor Michael VIII Palaiologos liberated the city, and after the restoration under the Palaiologos dynasty, enjoyed a partial recovery. With the advent of the Ottoman Empire in 1299, the Byzantine Empire began to lose territories and the city began to lose population. By the early 15th century, the Byzantine Empire was reduced to just Constantinople and its environs, along with Morea in Greece, making it an enclave inside the Ottoman Empire; after a 53-day siege the city eventually fell to the Ottomans, led by Sultan Mehmed II, on 29 May 1453, whereafter it replaced Edirne (Adrianople) as the new capital of the Ottoman Empire.

Lola: How come they changed it to Istanbul?

Me: They just liked it better that way.

Luna: There's a song for this called Istanbul (Not Constantinople) By They Might Be Giants.

Me: I love that song Luna.

I took out one of their CD's and put it in and it played said song.

(ISTANBUL NOT CONSTANTINOPLE BY THEY MIGHT BE GIANTS PLAYS)

Istanbul was Constantinople

Now it's Istanbul, not Constantinople

Been a long time gone, Oh Constantinople

Now it's Turkish delight on a moonlit night

Every gal in Constantinople

Lives in Istanbul, not Constantinople

So if you've a date in Constantinople

She'll be waiting in Istanbul

Even old New York was once New Amsterdam

Why they changed it I can't say

People just liked it better that way

So, Take me back to Constantinople

No, you can't go back to Constantinople

Been a long time gone, Oh Constantinople

Why did Constantinople get the works?

That's nobody's business but the Turks

Istanbul

Istanbul

Istanbul

Istanbul

Even old New York was once New Amsterdam

Why they changed it I can't say

People just liked it better that way

Istanbul was Constantinople

Now it's Istanbul, not Constantinople

Been a long time gone, Oh Constantinople

Why did Constantinople get the works?

That's nobody's business but the Turks

So, Take me back to Constantinople

No, you can't go back to Constantinople

Been a long time gone, Oh Constantinople

Why did Constantinople get the works?

That's nobody's business but the Turks

Istanbul

We drove on and we went through Bulgaria, Albania, Bosnia & Herzegovina, Croatia, Slovenia, Italy, France and into Spain. We were going through Barcelona, Spain and it was a beautiful city. We saw the most beautiful church in Spain: The Sagrada Família.

The Temple Expiatori de la Sagrada Família (Catalan: [ˈtemplə əkspjəˈtoɾi ðə la səˈɣɾaðə fəˈmiljə]; Spanish: Templo Expiatorio de la Sagrada Familia; "Expiatory Church of the Holy Family") is a large unfinished Roman Catholic church in Barcelona. Designed by Catalan architect Antoni Gaudí (1852-1926), his work on the building is part of a UNESCO World Heritage Site. In November 2010, Pope Benedict XVI consecrated the church and proclaimed it a minor basilica.

In 1882, construction of Sagrada Família began under architect Francisco de Paula del Villar. In 1883, when Villar resigned, Gaudí took over as chief architect, transforming the project with his architectural and engineering style, combining Gothic and curvilinear Art Nouveau forms. Gaudí devoted the remainder of his life to the project, and he is buried in the crypt. At the time of his death in 1926, less than a quarter of the project was complete.

Relying solely on private donations, Sagrada Familia's construction progressed slowly and was interrupted by the Spanish Civil War. In July 1936, revolutionaries set fire to the crypt and broke their way into the workshop, partially destroying Gaudí's original plans, drawings and plaster models, which led to 16 years work to piece together the fragments of the master model. Construction resumed to intermittent progress in the 1950s. Advancements in technologies such as computer aided design and computerised numerical control (CNC) have since enabled faster progress and construction past the midpoint in 2010. However, some of the project's greatest challenges remain, including the construction of ten more spires, each symbolising an important Biblical figure in the New Testament. It is anticipated that the building can be completed by 2026, the centenary of Gaudí's death.

The basilica has a long history of splitting opinion among the residents of Barcelona: over the initial possibility it might compete with Barcelona's cathedral, over Gaudí's design itself, over the possibility that work after Gaudí's death disregarded his design, and the 2007 proposal to build a tunnel of Spain's high-speed rail link to France which could disturb its stability. Describing Sagrada Família, art critic Rainer Zerbst said "it is probably impossible to find a church building anything like it in the entire history of art", and Paul Goldberger describes it as "the most extraordinary personal interpretation of Gothic architecture since the Middle Ages".

We continued on and we went through France again, Germany and into Denmark. We crossed over into Scandinavia and we went through Norway, Sweden and Finland. Then we went through Estonia, Latvia, Lithuania, Belarus, Poland and then we went through Ukraine and into Russia.

We were now in Asia and we were going through Kazakhstan and Uzbekistan. In Turkmenistan, we saw an incredibly unusual sight. We saw Darvaza Gas Crater.

The Darvaza gas crater (Turkmen: Jähennem derwezesi, Җәхеннем дервезеси), known locally as the Door to Hell or Gates of Hell, is a natural gas field collapsed into an underground cavern located in Derweze, Turkmenistan. Geologists intentionally set it on fire to prevent the spread of methane gas, and it is thought to have been burning continuously since 1971. The gas crater has a total area of 5,350 m2. Its diameter is 69 m (226 ft), and its depth is 30 m (98 ft).

The Turkmen government hopes that the crater will become a popular tourist attraction. The surrounding area is also popular for wild desert camping.

Laney: Look at that.

Me: That's the Darvaza Gas Crater. Its been burning ever since 1971.

Lincoln: It sure is a strange crater.

We then went through the war zones of Iran, Afghanistan and Pakistan and then we crossed over into India. We then went through

Bangladesh, Naturma, Myanmar, Laos, Cambodia and Vietnam. We then went through China and we saw it all. Then we went through the Gobi Desert in Mongolia. One of the most famously known Dinosaur Graveyards on the planet.

The Gobi Desert (/ˈɡoʊ.bi/) is a large desert or brushland region in Asia. It covers parts of Northern and Northeastern China and of Southern Mongolia. The desert basins of the Gobi are bounded by the Altai Mountains and the grasslands and steppes of Mongolia on the north, by the Taklamakan Desert to the west, by the Hexi Corridor and Tibetan Plateau to the southwest and by the North China Plain to the southeast. The Gobi is notable in history as part of the great Mongol Empire and as the location of several important cities along the Silk Road.

The Gobi is a rain shadow desert, formed by the Tibetan Plateau blocking precipitation from the Indian Ocean reaching the Gobi territory.

Me: Wow. The Gobi Desert.

Laney: It's so dry here.

Lana: This place is amazing.

Suddenly we saw a massive burst of lightning shoot out of the desert sand.

Lincoln: Whoa! Did you see that?

Me: I sure did. But there are no storms in the area.

Lisa: How is that possible?

Then we saw a huge worm emerge from the sand and it was screeching horrifically and we saw it emit a tremendous amount of lightning from its body.

Laney: Whoa! Look at that!

Lori: What in the world is that thing!?

Me: It can't be. I thought it was just a legend!

Lana: What is that thing!?

Me: That's the legendary Mongolian Death Worm!

The Mongolian death worm (Mongolian: олгой-хорхой, olgoi-khorkhoi, "large intestine worm") is a creature alleged to exist in the Gobi Desert.

The creature first came to Western attention as a result of Roy Chapman Andrews's 1926 book On the Trail of Ancient Man. The American paleontologist was not convinced by the tales of the monster that he heard at a gathering of Mongolian officials: "None of those present ever had seen the creature, but they all firmly believed in its existence and described it minutely."

In 1983 a specimen of Tartar sand boa (Eryx tataricus) was shown to locals who claimed to have seen "olgoi-khorkhoi" and they confirmed that this was the animal they called "olgoi-khorkhoi".

Lynn: I've read about that creature!

Lola: I thought that thing was a myth!

Lucy: It's now a real thing.

Laney took a picture of it and she got living breathing proof of its existence.

Crumplezone: That is incredible! I never saw a creature like that.

Nico: None of us have.

Me: But it's also extremely dangerous. It's lightning discharge is as powerful as 100 lightning strikes.

Crumblezone: I'll scare it off. CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and turned his engines into powerful cannons.

He fired them and blasted the ground and scared it off.

Me: Nice shot Crumplezone.

Nico: I'll say. Good work.

Crumplezone: Thanks boss.

We went out of the desert and we went back into Kazakhstan and we went back into Russia. We went through Siberia and we were wearing our warmest fur parkas as it was getting blistering cold. We journeyed all over Russia and we were in the town of Oymyakon, Russia. The Coldest Town on Earth.

Oymyakon (Russian: Оймяко́н, pronounced [ɐjmʲɪˈkon]; Yakut: Өймөкөөн, Öymököön, IPA: [øjmøˈkøːn]) is a rural locality (a selo) in Oymyakonsky District of the Sakha Republic, Russia, located along the Indigirka River, 30 kilometers (19 mi) northwest of Tomtor on the Kolyma Highway. It is one of the coldest permanently inhabited settlements on Earth.

The temperature in Oymyakon right now was -80˚ Fahrenheit and it was bone-chillingly cold. But we made it out and we turned our cars into speedboats and we were over in Japan. We then went to the Philippines and it was as beautiful as we remember seeing it on our Worldwide Adventure.

Me: Wow! The Philippines. It's so beautiful.

Lori: I can't believe it has this many islands.

Nico: Me neither. My mom and dad are both from the Philippines.

Me: I remember that. You told me that your mom and dad were both from the Philippines.

Nico: Yep.

May: That is so awesome Nico.

Lincoln: It sure is.

We then arrived in Indonesia and we were now in Australia. We were driving all over the Australian Outback and we took our cars in Boat mode to New Zealand and then it was time to race for the finish line. However we got an unexpected shock when we saw Dick Dastardly back for round 2!

Me: Dick Dastardly!

Dick Dastardly: That's right! Now you will never cross that finish line! NO ONE IS CROSSING THAT FINISH LINE BUT ME!

Me: We'll see about that!

Dick Dastardly had numerous weapons and laser blasters ready.

Laney: I don't think so! (Presses some buttons) Thorn Bomb Missiles, Fire!

Laney's roadster grew rose vines and they whiplashed and fired rose thorns and they hit Dick Dastardly's car and exploded.

His car sank into the ocean and Dick Dastardly and Muttley were left floating.

Dick Dastardly: DRAT! DRAT! DRAT! TRIPLE DRAT!

Nico: Once again you have failed this race!

We crossed the ocean and made it to the Kamchatka Peninsula and the finish line was at the base of Kronotsky Volcano and we saw it and it was a struggle.

Billy N.: And here comes the first race to cross the finish line! It's LINCOLN LOUD & EARTH!

I came in 2nd and Laney & Nico came in tied at 3rd place.

We went to the winners circle and Lincoln and Earth were given an awesome trophy in the shape of planet Earth and it was made of solid blue Waterford Crystal and the continents were green Waterford Crystal and there was a car racing around it and it was a beautiful trophy.

Lincoln: This is so awesome Earth!

Earth: It sure is Linky! I'm so happy we won.

Me: Way to go buddy. I'm so proud of you.

Laney: Me too big brother.

Nico: You were awesome Lincoln.

Me: And not only that but we've now officially have seen the entire planet in one day.

We were having an awesome dinner at the Burpin' Burger to Celebrate.

Me: Way to go guys. A toast to Lincoln and Earth for their awesome win.

Everyone: CHEERS!

We clinked our glasses together.

Everyone at the restaurant cheered.

Silver Banshee: Now that the race is done, time for me to get to the reason that I even joined the Legion of Doom in the first place.

Me: Okay Siobhan.

Silver Banshee: I left the Legion because they were doing all kinds of deeds that made me realize that joining them was a foolish idea. I want to reclaim my rightful place as patriarch of the McDougal Clan.

Me: You made the right decision Siobhan.

Siobhan told us what happened and her brother Bevan is a monster. We gladly agreed to help her in exchange for her joining the Redemption Squad.

Me: And how about we also give you the ability to transform into the Silver Banshee at will?

Silver Banshee: Thanks for trying, J.D. But I don't think anything…

Banshee's head started pounding, She held her throbbing head in pain as she groaned in agony. She then gasped as the skin on her hand changed color.

Her bones were stretching inside her as her skin changed back to what it was and her hair turned back to Scottish Red and her eyes were green and she was now in a black and white leotard.

Silver Banshee was back in her human form.

Silver Banshee (smiles weakly): Thank you, Lucy. (vomits all over the floor)

Everyone: Ew.

We cleaned up her mess.

Me: Now it's personal. Lets head over to Scotland people.

---

We arrived at the McDougal Clan castle in Scotland and we saw that it was heavily guarded.

Me: This place is a heavily guarded fortress.

Siobhan: Bevan must've gone to extremes now.

Me: No kidding.

Robbie Schwartz: I can hack into the computer of the security system and shut it all down.

We snuck into the castle and we went to the main security panel.

Eddy: Great! It needs a password to open!

Robbie Schwartz: I can use my powers to hack the console. But it's gonna take time.

Me: Okay.

Robbie hacked into it.

He typed in the password. It was Scotland Aye.

Computer: Access Granted. Security System Shutting Down.

Me: Yes.

We went to find Bevan.

Bevan McDougal was looking over footage of our battles.

Bevan: (Scottish Accent) Ever since those Cybertronians showed up, battles against the Avengers and the Justice League have gotten very ugly.

Bodyguard: It's not just the battles, your Highness. Our old villain hideouts have gotten ugly as well. Take Horrorland, for instance. It used to be a large place for the Goosebumps monsters to go to. And now, it's just a smoking crater.

Then a fiery explosion blasted the door open. When the smoke cleared they saw us.

Me: Bevan McDougal, you're under arrest.

Bevan saw Siobhan.

Bevan: Siobhan? Yo.. You're alive!

Silver Banshee: If you think I'm letting you keep the throne, brother, you're sorely mistaken!

Bevan: Am I? When you came in, my security cameras got footage of you with Team Loud Phoenix Storm. All I need to do is make that footage public and you'll be number 1 on the enemy lists of all the villains out there. And with nowhere to go, you'd have to go on the run. Face it, dear sister. You have to keep me on the throne! You don't have a choice!

I blasted all the equipment and blew it all apart and destroyed it all.

Me: Not this time you motherfucker. Say Hello to our little friends.

Edzilla roared as he appeared behind me and he was ready to smash Bevan.

Edzilla: ED SMASH BAD BROTHER!

Sheila: I want to help out.

Sheila concentrated.

Sheila: (Head changing) OH FUCK! IT HURTS SO BAD!

Her head was growing in size.

Sheila: (HEAD CHANGES AND GROANS IN PAIN) THE SHREDDER SHOULD'VE DIED BEFORE TEAM LOUD PHOENIX STORM SAVED US! THIS IS FUCKING PAINFUL!

She then lost her teeth.

Sheila: I JUST BRUSHED THOSE!

She turned into SHREDLEGS!

They went at Bevan and smashed him all over the place with indiscriminate fury. It was a ferocious and powerful assault. But then they stopped and they were reverting back. Her human teeth came back.

Sheila: MY TEETH!

Nico: Bevan McDougal you have failed this world.

We sent Bevan to the Neptune Prison for Traitors and he was sentenced to Eternity in Prison without the possibility of parole.

Rikki Chadwick caught her first ever Pokemon during the race: a Primarina.

---

Back at the estate we were watching TV and reading books.

Sheila: Guys, I'm ready to tell you about my backstory.

Me: Are you sure Sheila? You don't have to tell us if you don't want to.

Sheila: No you guys have a right to know. Okay. Here goes.

Sheila took a deep breath.

Sheila: My family life has not been a pleasant one.

---

Sheila (Narrating) **I was a normal little girl with a fun life ahead of me. But my parents were different. My father was a raging alcoholic and drug user. He would drink large quantities of beer and sniff in huge amounts of cocaine. My mother however loved me more than all of life itself. She told me that I was destined for great things and she wanted me to help people. But then came that horrible day. My mom and dad got into a terrible argument and then I came down to the living room and saw them fighting and then my dad took a shotgun and blew my mothers head off! (Crying) I saw him kill my mother right in front of my eyes! The police came in a couple of seconds after that and arrested him!**

The flashback showed everything Sheila said.

FLASHBACK ENDS

Sheila was crying hard and it was horrible that she went through all that. Varie was comforting her.

Varie: That's awful. I completely understand how you feel Sheila. My parents were murdered too.

We gave Sheila a chance to calm down.

Me: What happened to your father?

Sheila: (Sniffles) He was convicted of Capital Murder and sentenced to death. I testified against him at his trial and he hated my guts for it. They executed him on April 24th, 2007. That was the day my mother died. That's why I didn't like to talk about it. My father was a monster.

Me: What a fucked up motherfucker!

Nico: Your father has failed this world and the next.

Me: He sure has.

We were sad and felt sorry for Sheila. But we promised to help her.

THE END

---

Another Fanfiction and an awesome race done.

A Global Race was such an awesome idea. Me and nbwatts came up with the idea for this one. Credit goes to you for the idea and it was so awesome! Thanks man. I did most of the ideas and more. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Curse of Princess Khana

Welcome Aboard ArchangelOfJustice12

---

At the Jupiter Prison we were getting ready for another rant session with the most hated babysitter ever: ICKY VICKY.

Me: This is always fun.

Nico: I love a good rant.

Homer: Me too.

Matt Daniels: I'll start us off.

Matt Daniels walked up to Icky Vicky.

Matt Daniels: Are you saying that I don't know my directions, that I'm some sort of wrong way Corrigan, I'm a misguided directionless goonibird!? IS THAT WHAT YOUR SAYING!?

Icky Vicky: Umm.. Yes?

Matt Daniels: THAT'S IT!

Matt Daniels jumped Icky Vicky and pulverized the living shit out of her and we were laughing our heads off.

Prisoner 1: (LAUGHING) OH MAN I NEVER GET TIRED OF THOSE PESTO RANTS!

Me: (LAUGHING HYSTERICALLY!) ME NEITHER!

Nico: (LAUGHS HYSTERICALLY!) THIS IS SO FUNNY!

Boone Dixon: My turn.

Boone Dixon walked up to her cell.

Boone Dixon: You're saying, I'm an overdone piece of meat? Is that what you're saying!? What am I? A plate of big dry stinkbutt meat here to amuse you!?

Icky Vicky: Umm… Yes?

Boone Dixon: THAT'S IT!

Boone Dixon jumped Icky Vicky and pulverized the living shit out of her.

We were laughing hysterically!

Prisoner 2: (LAUGHING HYSTERICALLY) OH YOU ALWAYS CRACK US UP!

Homer: (Laughing) This is so funny!

Carly Beth: It's my turn.

She went up to her cell.

Carly Beth: Instead of ranting at you, I'm gonna do a song. And I'd like Maria and Sabrina to join in.

Matt and Boone played the piano and the tambourine.

Carly Beth, Maria and Sabrina came and joined her.

Carly Beth, Maria and Sabrina: (Singing)

Everybody in the USA hates their evil sitter

She's Vicky and she's really really lame

Vicky tried to wreck our lives

Her views on babysitting are wrong

We hate her guts and Vicky is her name

V-I-C-K-Y, she's the girl that we hate most

We'd like to see her house go up in flames

V-I-C, his name is Vicky

K-Y, such a stupid name

She's worse than Frankenstein or Doctor No.

She's a ticking time bomb

She a bad girl and kills people.

Then goes home and counts her money.

her babysitting is an emporium of death

V-I-C, go tell Vicky

K-Y, her life is dead

everybody hates that stupid jerk

Planet Earth rocks with our joyous loathing

filling clubs with angry valentinos

you don't have to move your feet

just hate Vicky to the disco beat

She's your perky, peppy, nightmare babysitter

if you despise evil dumb babysitters

then you'll love hating Icky Vicky more

or her creepy little evil friends

No Way!

(Raspberries)

V-I-C, his name is Vicky

K-Y, she is so rotten bread

the evil smiling mustache geek that walks with Satan.

ICKY VICKY THEN WENT BALLISTIC!

But we were laughing hysterically at this and we were rolling on the floor and laughing our heads off and it was so funny that we were dripping tears and it was funny!

Homer: (LAUGHING HYSTERICALLY) OH THAT IS SO FUNNY! I DID A SONG LIKE THAT ABOUT FLANDERS! THAT WAS SO FUNNY!

Nico: I wrote it for them.

Me: (LAUGHING HYSTERICALLY) SO FUNNY!

---

Back at the estate we were relaxing by the pool and everyone else was having fun.

Me: Ah. What a beautiful day.

Nico: You said it.

Vince: It's so beautiful.

With us was our newest recruit Hunter Drake Michaelson, our new recruit from Germany who is a very skilled and powerful warrior and he has elemental manipulation, omnipotent elemental powers, immortality, invincibility and many more powers. He's also an awesome German cook. He has brunette hair, blue eyes, age 20, his hobbies: Playing video games, drawing, artwork, flag making, outside, and anime & manga.

Likes: Video games, foraging, ecosystem, animals, prehistoric animals, nations, monarchies, Germany, Hungary, Japan, Epic music, Sabaton music, Dragonforce music, Audiomachine music, world building, garry's mod.

Me: I'm glad you're part of the team now Hunter.

Hunter: (German Accent) Ja. It's such an honor to be here. Und I will do everything I can to help.

Laney: I love learning about Germany and all of Europe.

Hunter: Ja it's such a magnificent country und I love learning about all the culture of the world.

Nico: That's so awesome.

Straxus: It's so awesome having you here Hunter.

Hunter: Thanks Straxus.

Straxus (to Sheila and Nanette): Have you two ever met your monster forms inside your minds?

Nanette: As a matter of fact we did.

Sheila: When we went to sleep, we met them.

---

Nanette: (Narrating) I was in the dark recesses of my mind and it was there that I was talking to my monster form: Thunderbug.

Thunderbug: **So my new shared body has come.**

Nanette: Since I can now turn into you and this is my body, I need to go over some ground rules. This is my body and you are in my home.

Thunderbug: **I understand. But it's gonna be hard for us to work together because we of…**

Nanette: I know. But we'll find a way to work together.

Nanette: (Narrating) Then whenever I would change I would lose my voice and my eyes would turn blank and yellow.

FLASHBACK ENDS

Nanette: Essentially we've gotten along already.

Sheila: Me and Shredlegs had difficulty getting along.

FLASHBACK 2

Sheila: (Narrating) I encountered Shredlegs in my mind and he was a difficult monster to get along. At first we argued but then he got a change of heart.

Shredlegs: **Since you can now turn into me, we need to find some way to work together.**

Sheila: There has to be something we can do.

Sheila: (Narrating) Then whenever I would change into Shredlegs, my voice would vanish and then my eyes would turn blank and dark green.

FLASHBACK 2 ENDS

Me: And then we managed to give you all the ability to change at will.

Hunter: That's amazing.

Sheila: It was. I'm just glad we can transform at will now.

Nanette: Same here. You know what? Since Sheila came clean about her family history, it's only fair that I tell you guys mine.

Me: Okay Nanette.

Nanette: Here goes.

FLASHBACK 3

Nanette: (Narrating) **My story is much different. Long ago before I moved to Gotham Royal York, I lived in the city of Gotham. It was a good time for me. I was a normal kid and loved by my friends and I loved helping people. Even though Gotham was a crime-filled city I still loved it. But then when I came home from**

**school one day, a terrible thing happened. I saw 3 mobsters come in uninvited and they shot and killed my mom and dad right in front of my eyes! (CRYING) IT WAS HORRIBLE!**

FLASHBACK 3 ENDS

Varie came over and comforted her.

Varie: I'm so sorry Nanette.

Sheila: Nanette, that's horrible!

Laney: The Gotham Mob is a ruthless crime organization!

Lana: That's terrible!

Batman: I know just how you feel Nanette.

Varie: Same here.

Me: Who were the mobsters that we responsible?

Nanette: (Sniffles) They were sent by Rupert Thorn. My father double-crossed him and stole millions of dollars from him and he had major inside information on his criminal empire. They killed him to silence him! (Crying)

Varie: That's horrible!

Hunter: Rubert Thorn is a monster!

Me: And we threw him in prison for all eternity and brought his criminal empire to a crashing defeat. We had him sent to the Moon Prison. But then we decided to transfer him to an much better prison. The very same prison Roland Daggett is at: Crematoria.

Nico: The Triple-Max Prison located 3,500 light-years away from here?

Me: That's the very one. And it's a very inhospitable world.

Hunter: Good riddance to that Kartoffelgesicht.

Me: You said it Hunter.

---

Later in the living room I was looking through Nico's Goosebumps books. I had the monsters we destroyed stacked up in a pile on the left and the others were laid out flat on the table.

Me: Hmm. Which one shall be our next target.

I looked them over very carefully and I spotted one.

Me: Ah!

I picked up the book The Curse of The Mummy's Tomb.

Me: The Curse of The Mummy's Tomb is our next target.

Nico: The Mummy of Princess Khana. That's a great choice.

I read the book and it was terrifying and blood-boiling.

Gabe is spending his Christmas vacation in Egypt because his parents have business to attend to there. While staying in their hotel in Al-Jizah, Gabe's parents receive an emergency phone call and have to rush to Alexandria. Rather than going with his parents, Gabe is given the option to stay with his uncle Ben, who is a scientist investigating pyramids in Cairo. Gabe's parents call Uncle Ben and leave. While Gabe waits for his uncle to arrive, he clutches his good luck charm: a mummy's hand that he bought a few years ago at a garage sale. Uncle Ben and his daughter, Sari, arrive. Ben informs Gabe that his archaeologists team has discovered underground tunnels beneath the pyramid, but he also says that the tunnels would be too dangerous for Gabe to explore alone.

The next day, Ben and the children go to the pyramid. While preparing to enter the pyramid, Ben warns the kids that his team may have unleashed an ancient curse by exploring the pyramid. Armed with flashlights, the three relatives enter the pyramid and walk for a while. The trio makes there way through a tight corridor to a large room. Ahmed and various other members of Ben's team are already there. While Ben is distracted, Sari suggests to Gabe that they go exploring on their own. Gabe is reluctant, but Sari insists, confidently saying that they won't get lost. Gabe follows Sari into the tunnels, but Sari quickly vanishes from his view. Convinced that he's being pranked, Gabe continues walking. When Gabe enters a small room, Sari scares him and starts to laugh, causing Uncle Ben to appear. Ben joins Sari in laughter.

The next morning, during breakfast, Ben receives a phone call. Apparently, almost all of Ben's workers have become ill, so he goes and visits them. Though the kids were warned to stay in the hotel, Gabe proposes that they go to a nearby museum by themselves. The kids go to the museum and wander through it. A a few minutes, Ahmed appears. They try to avoid him, but he's too fast. He says that Ben told him to take the kids back to their room in the hotel. Ahmed takes the kids to his car, but he starts driving in the opposite direction of the hotel. Gabe realizes that Ahmed is kidnapping them. Gabe warns Sari, and the two sprint out of the car. After asking a cab driver for help, the duo makes it back to the hotel and stay in their room until Ben arrives. When he does, the kids tell him what happened. Ben says that he has to return to the pyramid to continue his exploration. For safety, Ben takes Gabe and Sari with him to the chamber.

A few minutes after they enter the pyramid, Gabe stops to tie his shoe. When he looks up, he sees that Uncle Ben and Sari have disappeared. After searching for a while, the floor cracks beneath Gabe, and he falls through, landing in a big room filled with mummy-preparation tools. Sari appears in the room, and she says she also got lost. The two kids call Uncle Ben via a pager that Ben provided them with. A few seconds after Sari calls her father, the kids see a light coming through a tunnel. The kids hope that Ben has arrived, but the light turns out to be coming from of Ahmed, who is carrying a torch.

Ahmed says that he warned Ben about a curse, but Ben didn't believe him. He then says that the kids violated the sacred chamber of an ancient Egyptian princess named Khala, and, because of that, they should die. He grabs a knife and starts approaching the kids, but Ben suddenly appears and tries to stop him. Ahmed swings his torch at Ben and hits him in the head. Ahmed heaves the torch across the room, and it falls into the room's tar pit. The tar starts burning. The kids watch helplessly as Ahmed closes Ben's body in a sarcophagus, and he puts the kids in a separate sarcophagus. Luckily, Egyptians built hidden escape hatches into their coffins to allow the souls of the deceased to escape, so the three relatives are able to escape while Ahmed is distracted. The trio tries to exit, but they are stopped by Ahmed, who threatens them with his dagger. He forces them to walk toward the tar pit. Ahmed tells Ben and the kids that they'll have to jump into the pit. Terrified, Gabe pulls out the mummy's hand from his pocket. When Ahmed sees it, he recognizes it as the Hand of the Priestess. All of the mummies in the room to come alive and begin surrounding him. Some of the mummies grab Ahmed and try to throw him into the pit. Gabe looks away. However, when he looks back, he sees that the mummies have returned to their original spots, and Ahmed is running away.

Relieved, Ben and the children go back to their hotel room. Gabe pulls out the mummy's hand and pretends he's summoning ancient spirits. He is startled to hear a knock on the door, which he suspects to be a mummy. When he opens the door, Gabe sees his parents, who are back from Alexandria.

Me: Looks like we have an evil archaeologist to throw in jail and kill the mummy while we're at it.

Lizzy: You guys killed a mummy before right?

Cody: We sure did. It was the high priest of Pharaoh Seti I: Imhotep.

Me: Yep. And this mummy is the Egyptian Princess Khala.

Cody: I've read about her. She was the princess of Pharaoh Khufu back 4500 years ago.

Laney: That's a long time ago.

Me: Lets go check it out. Lets fly!

We were off to Egypt.

We arrived in Cairo, Egypt.

Me: Wow! Cairo, Egypt.

G1 Sludge: Me Sludge want to play in sand!

Me: We'll have plenty of time to play in the sand later. We need to find a boy named Gabe. He's said to be here in Cairo.

Nico: Lets go.

We went to an Egypt hotel and we were at a room door.

Me: This is it.

I knocked on the door.

Gabe: (In the room) Who is it?

Me: We're Team Loud Phoenix Storm.

The door opened and we saw Gabe.

Gabe: Awesome! Team Loud Phoenix Storm! You guys are my heroes.

Me: It's a pleasure to meet you Gabe. We came to talk to you about a mummy you encountered.

Gabe: Sure.

We went to the lobby and Gabe told us about his ordeal with the mummy and how it and Ahmed nearly killed him.

Me: That mummy and Ahmed are nothing but trouble.

Hunter: Ach du lieber Gott! No kidding.

Nico: We have to stop that mummy and Ahmed.

Abby: You're not the only one that has dealt with a mummy Gabe.

Gabe (to Abby Martin): So you dealt with a mummy problem too?

Abby: Yep. But I managed to get powers recently. (creates a small breeze)

Gabe: What did Horrorland do to you?

Abby: It changed a lot of us. And we joined Team Loud Phoenix Storm as the Goosebumps Monster Busters.

Gabe: That is so awesome!

Me: And we all dealt with a mummy before we went after the Goosebumps monsters. We dealt with the mummy of my High Priest Imhotep.

Gabe: The evil keeper of the dead that killed Pharaoh Seti I in 1290 B.C.?

Cody: That's right. And J.D. here is the reincarnation of Pharaoh Seti I.

Me: Yep.

Gabe: That is so cool!

Me: I know. Shall we go to the pyramids of Egypt?

Gabe: Lets do it.

Batgirl: I have a feeling these mummies are going to pop out and attack us.

Me: If they do we'll be ready for them.

We went to the Great Pyramids of Giza.

---

We arrived at the Great Pyramids of Giza.

The Great Pyramid of Giza (also known as the Pyramid of Khufu or the Pyramid of Cheops) is the oldest and largest of the three pyramids in the Giza pyramid complex bordering present-day El Giza, Egypt. It is the oldest of the Seven Wonders of the Ancient

World, and the only one to remain largely intact.

Based on a mark in an interior chamber naming the work gang and a reference to the fourth dynasty Egyptian Pharaoh Khufu, some Egyptologists believe that the pyramid was thus built as a tomb over a 10- to 20-year period concluding around 2560 BC. Initially at 146.5 metres (481 feet), the Great Pyramid was the tallest man-made structure in the world for more than 3,800 years until Lincoln Cathedral was finished in 1311 AD. Originally, the Great Pyramid was covered by limestone casing stones that formed a smooth outer surface; what is seen today is the underlying core structure. Some of the casing stones that once covered the structure can still be seen around the base. There have been varying scientific and alternative theories about the Great Pyramid's construction techniques. Most accepted construction hypotheses are based on the idea that it was built by moving huge stones from a quarry and dragging and lifting them into place.

There are three known chambers inside the Great Pyramid. The lowest chamber is cut into the bedrock upon which the pyramid was built and was unfinished. The so-called Queen's Chamber and King's Chamber are higher up within the pyramid structure. The main part of the Giza complex is a set of buildings that included two mortuary temples in honour of Khufu (one close to the pyramid and one near the Nile), three smaller pyramids for Khufu's wives, an even smaller "satellite" pyramid, a raised causeway connecting the two temples, and small mastaba tombs surrounding the pyramid for nobles.

Me: The Great Pyramids of Giza, one of the 7 wonders of the ancient world.

Nico: It's magnificent.

Cody: And it took over 1,000 years to build this.

Lincoln: It's amazing. We were here on our worldwide adventure to kill Sam's evil parents again.

Cody: That's right. Lord Anubis allowed us to go into the Egyptian Underworld and we watched Sam, Lola and Lana kill her evil parents Michael and Michelle Malloy.

Gabe: I heard all about them! They were the most ruthless serial killer couple ever!

Sam S.L.: They sure were. But they were pure evil.

Gabe: I'm sorry that happened to you Sam.

Sam S.L.: No worries Gabe. But thank you.

Drill Man: Wonder if I can drill under this sand?

Me: Go for it Drill Man.

Drill Man got to work and then the sand collapsed and we fell through and then we wound up falling through the roof of an ancient tomb and we landed on the floor. We saw that it was still in pristine condition even after 4,500 years had passed. It was lit up by torches.

Me: Wow!

Laney: Oh wow! This is an amazing tomb!

Lola: It's amazing.

Gabe: This tomb is amazing.

Maria: Is this the tomb you were in Gabe?

Gabe: It sure is.

Me: This tomb is 4,500 years old and it's still in tremendously great shape.

Vince: It sure is.

Cody: This is amazing. I've loved learning all about ancient Egypt and this has to be the most amazing tomb ever.

Me: It sure is Cody.

We went over to a wall and saw ancient hieroglyphics.

Lincoln: Look at these hieroglyphics.

Me: This looks like some kind of story. Let me see if I can decipher it.

Lana: Okay.

Me: It says: "Long ago, the evil princess of Egypt, Khana was plotting to overthrow her own father, Pharaoh Khufu by unleashing a terrible and mighty army onto the land. But her father overheard this murderous plot, and ordered for her to be mummified alive and he had her imprisoned here in this tomb, where she will stay forever. She then had a terrible curse placed on her saying that if her tomb was ever disturbed by intruders, she would come back to life and kill all who enter."

Laney: That's terrible!

Naruto: Whoa! That's awful. So Princess Khana hated her father.

Gabe: But why?

Me: It could be a number of reasons. But this one was done out of sheer hatred.

Lincoln: Does it say anything else?

Me: Lets see. (Reads more) "Should Khana ever come back, your only salvation to destroy her would be to summon the powers of the water of Tefnut."

Gabe (to Maria): You got powers from an Egyptian Diety named Tefnut.

Maria: Yep. If it wasn't for Tefnut, I wouldn't have made great friends. (blushes) And a great boyfriend.

William: Thanks babe.

Me: Tefnut is the Egyptian Goddess of Water.

Maria: Yep.

?: (Arabic Accent) So you are here brat!

We turned and we saw AHMED!

When Gabe arrives in Egypt for his Christmas vacation, he opts to stay with his Uncle Ben and cousin, Sari Hassad, rather than his parents. Gabe's uncle is an archaeologist and expert on all things Ancient Egypt. His work has brought him to the pyramids of Cairo, where he hopes to be on the verge of a great discovery. Overseeing Ben's investigation is Ahmed, a quiet Egyptian man from Ben's university. Ahmed warns Ben he could be in great danger exploring the pyramids, as they hold many curses. Ben, however, is not superstitious and blows off the idea.

Ahmed quickly turns from simply unfriendly to dangerous as Ben uncovers a hidden tomb in the pyramids. He attempts to kidnap Gabe and Sari, but the two are able to escape. Ahmed continues his chase after the two children, eventually leading them all back to the pyramid. There, he reveals the tomb Ben discovered as the preparation chamber of the priestess, Khala, whom he is descended from. Ahmed tells the children that they and Ben must die for violating her chamber. Ahmed attempts to lead the children to a boiling pit of tar, so he can mummify them. Before he can get away with his plan, Gabe pulls out his summoner - a mummy's hand - to wake up Ahmed's many other mummified victims. The terrified Ahmed runs away from the pyramid, allowing the children to escape with their lives.

Gabe: Ahmed!

Ahmed: (to Gabe) You should have never returned, boy!

Me: Ahmed, so we meet at last!

Ahmed: So that brat has Team Loud Phoenix Storm to assist him.

Me: (Speaking Arabic) أنت مهووس بالأعلى من الطبيعة أحمد. لقد حاولت قتل جابي وجعل حياته كابوسًا حيًا! (You are a fucked up freak of nature Ahmed. You tried to kill Gabe and make his life a living nightmare!)

Ahmed: (Speaking Arabic) تدخل هذا شقي في خططي للحصول على الكنز وكان عليه أن يدفع مع حياته! (That brat interfered in my plans to get the treasure and he had to pay with his life!)

Me: أنت حقًا شخص شرير بلا ضمير مطلقًا! لو كانت هذه إيران لأني سأقتلك بكل سرور حيث تقف! (You are truly an evil person with absolutely no conscience! If this were Iran I would gladly kill you where you stand!)

Ahmed: We shall see.

Me: And now you will die with the mummy. You tried to kill Gabe here and that is something we never will tolerate.

Fu: That's right.

Gaara: You are as honorless and despicable as I was before I met Naruto.

Ahmed: I'm impressed you're here Lord Kazekage. But your reign is gonna be short-lived.

Gaara (forms a sand fist from the wall): Flint's right. Egypt does have a lot of sand to be controlled.

Gaara punched him and sent him crashing into the mummy's coffin. Then the mummy's coffin opened up and out came THE MUMMY OF PRINCESS KHANA!

ALL: THE MUMMY!

The Mummy groaned as it woke up and it had glowing evil red eyes and it grabbed Ahmed and ate him and splattered his blood and guts all over the place.

Everyone: EWWWW!

Me: Oh that is disgusting!

Lincoln: Guess she prefers red meat.

Me: Well we aren't very appetizing either. Lets kill this ancient bitch!

We transformed and powered up!

Gabe: Whoa! So this is your Super Angel forms.

Me: Yep. Now it's time for us to bury this ancient bitch once and for all!

We went at the mummy and I punched it in the face and kicked it in the chest.

Laney tied it up with her plant powers and slammed it into the ground. Lincoln, Linka and the Morris siblings fired powerful blasts of lightning and electrocuted the mummy. Lori fired a massive blast of wind at it and blew sand around it in a massive tornado of sand.

Nico: Princess Khana, you have failed this world for 4,500 years!

Lola and Michael Munroe fired a massive blast of fire and burned the mummy.

Hunter demonstrated his powers by firing a powerful blast of lightning and fire combined together. It hit the mummy and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Gaara formed a powerful spear using Shukaku's chakra and he threw it. The spear hit the mummy and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Wow! What power! Lets weaken it with our combos!

Straxus: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into Straxus's back and it enhanced his grenade launcher 100-fold.

Straxus: My weapon of choice is usually my pickaxe but I have to diversify my weapons.

Drill Man: Lets get her! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Drill Man's left arm and it enhanced his Drill Missile 100-fold.

Straxus and Drill Man: SUPER MISSILE BARRAGE!

They both fired grenades and Drill Missiles and they hit the Mummy and exploded.

It was a massive fiery cloud.

Sludge: Me, Sludge get her! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his energon sword and it enhanced it 100-fold.

Batgirl: Time to try this out. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and it gave her the ability to turn into a powerful colony of bats.

Sludge and Batgirl: BATSTORM ENERGON SLASH!

The Bat Colony went into the energon sword and it enhanced its power and turned it into a sword of darkness. He slashed the mummy and it exploded.

Me: Lets final smash this freak!

Gaara: You got it J.D. I've always wanted to try this out. SHUKAKU SANDSTORM BURIAL!

Gaara fired a massive blast of sand and it turned into Shukaku's head and it went at the mummy and it hit her and exploded.

Gabe: Time for me. I've always wanted to try this! NEPHTHYS PHOENIX FIRESTORM!

Gabe chanted an ancient Egyptian Chant and a fire tornado appeared and a powerful phoenix of pure fire appeared and it hit the Mummy and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Maria: You will never terrorize this place ever again!

Maria fired a massive blast of water at the mummy and the water destroyed it instantly! Melting it into absolutely nothing!

Me: Go back to hell you bitch!

The mummy of Khana went back to Hell and she was gonna stay there. Forever.

During the battle Nico caught an Excadrill and a Swoobat.

Gabe: (To the viewers) What can I say? Team Loud Phoenix Storm is just that awesome!

Me: We sure are. You were awesome Gabe.

Hunter: Ja. You were amazing!

Me: Yep.

We inducted Gabe into the Goosebumps Monster Hunters and it was awesome for him. He had the power to control the wind and the sand.

THE END

---

Another Fanfiction complete and another Goosebumps Monster destroyed.

Welcome aboard Hunter. You will make an awesome addition to the team. On Deviantart, me and Hunter do awesome RP's together that turn into awesome fanfictions for the site. The Curse of The Mummy's Tomb on Goosebumps was the creepiest and strangest one. The mummy was horrifying. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you think and welcome aboard ArchangelOfJustice12.

See you all next time.

# Terror of The Necromorphs

Somewhere in the unknown regions of space, we see a dead planet with a massive hole on it. For this planet was Aegis VII, a mining world that had it's hole made by a giant planet-cracker Spaceship named the U.S.G. Ishimura. Another Spaceship appeared, only it was smaller than the Ishimura. It had the words U.S.G. Kellion.

Unknown voice from the USG Kellion: Hello Ishimura, this is the repair crew from the USG Kellion Responding. Ishimura? Come in. Ishimura, prepare to be boarded?

Back on Earth, Three days before the Ishimura incident, in the estate of the legendary Team Loud Phoenix Storm in Gotham Royal York, Michigan, we were watching TV and resting after defeating another Goosebumps monster.

Me: Another Goosebumps monster bites the dust.

Naruto: Yep.

Hunter: Ja. I'm glad we brought another monster down.

Fu: Yep.

Stacy: Did I also mention that it's shark week?

Me: No you didn't! Awesome!

We turned on the Discovery Channel for it.

Suddenly, Laney, Lisa and Lana came into the room.

Laney: Hey guys! We got some contact from our radio, but it's not from here. It's something else, it could be a S.O.S. distress contact!

Lisa: It appears to be in space, and not on our Earth's origin.

Naruto: We better go check it out.

Me: Right bro. Lisa, deploy the U.S.S. Valor

Lisa: Roger that. I traced where the signal was coming from and it's from a ship called Ishimura. I don't know the specifics of what this ship is

Fu: We'll have to find out.

Me: Where's it coming from?

Lisa: It appears to be coming from a star system located 6 light-years away from here. Called the Aegis System.

Me: Then that's where we need to go. Lisa, deploy the U.S.S. Valor.

Lisa: Affirmative.

We entered our ship and we were off and the Spaceship leaves the estate and into space. Our Destination, Aegis VII.

---

The U.S.S. Valor was flying through space.

Me: Captain's Log, Stardate 2702.4: The U.S.S. Valor is en route to the planet Aegis VII, located 6 light-years away from Earth. We just received a distress signal coming from a ship called the U.S.G. Ishimura. Our mission is to investigate what went down and rescue any survivors.

Lincoln: I wonder what this ship is like.

Me: We'll know when we get there.

Stacy: Sydney, do you have a crush on Donnie?

Sydney (blushes): Of course not! Why do you ask?

Raph (chuckles): Don't deny it. Donnie's been close to ya ever since ya got cured at the Underground City.

Ratchet was on a table being fixed.

Mixmaster: You sure you don't want your Quarry form back?

Sydney (sighs): I've gotten used to my sword. I'll let you guys know when it's time for me to get my mutated form back. But for right now, I'm fine the way I am.

Ratchet: Sydney, what was your family like before J.D. and the others met you?

Sydney: That is something I will never forget and it started out good. But ended bad.

---

Sydney: (Narrating) **I was an ordinary little girl and I had a loving family. I loved everyone and everything. But then one day, he came. The Shredder and his Foot Clan came in uninvited and they abducted me and killed my entire family right in front of my eyes! (Crying)**

FLASHBACK ENDS

Varie was comforting Sydney.

Me: That's horrible. Shredder I'm glad we killed you.

Nico: I'm glad too.

Brawn accidentally knocked off his equipment.

Ratchet: BRAWN! I NEEDED THAT!

Lisa: We have arrived at our destination.

Me: On screen.

We all saw an Asteroid field surrounding the Planet. And to our shock, we found a massive Spaceship that says "U.S.G. Ishimura". But that's not what was shocking, what's shocking is a huge rock the size of two Russia's, Hovering over the Planet's atmosphere.

Me: That is a huge chunk of planet!

Naruto: Look at the size of that chunk of rock!

Nico: Unbelievable! How can a ship like that lift up a huge chunk of rock like that?

Me: No idea.

Shikamaru: So this ship is a mining ship?

Lori: Literally looks like it.

Me: No kidding.

But to our surprise, we see another Ship. This time, it has entered into the same Star System just like our ship did. The words on this mysterious small ship says "U.S.G. Kellion", as this Kellion opened contact with the Ishimura, but no response from it.

Me: No response. Hunter, Lincoln, Lana, you three go aboard and search for any survivors.

To our shock and horror, the USG Kellion lost control when it got closer to the U.S.G. Ishimura's docking bay.

Me: Uh oh! Fire tractor beam and beam the ship to us!

But it was too late, as the U.S.G. Kellion crashed into the Ishimura's hangar bay.

Lincoln: Whoa!

Leni: (Worried) You don't think they are dead?

Me: Lets get moving! Street Sharks, Nicole, Laney, Nico, May, Vince, Carol, Hunter, Lincoln, Naruto, Lana, you guys come with me! We're going aboard.

Hunter: Jawohl Herr Knudson!

Lincoln: Yes J.D.

Laney: Copy that!

Naruto: You can count on us.

Nico: Lets do this.

Lana: Don't worry big bro, I'll do my best to help.

Vince: You got it partner.

Lori: Well it looks like the rest of us is staying on the Spaceship.

Me: Lets go.

We entered one of the Shuttle ships inside our spaceship, we were heading to the USG Ishimura.

We boarded the ship and saw the inside sparking and was destroyed

Me: Whoa.

Hunter: So the Ishimura is having technical difficulties and hull damages?

Lana: Looks like both.

Me: My god. What the hell happened here?

Laney: Looks like damaged systems.

Lincoln: Lets find out.

We searched the ship and we saw more damage, technical difficulties, and blood stains on the walls… Wait, blood stains? It look like the blood was made a few days ago. But for some reason, we saw no dead bodies. Weird.

Me: There's blood here.

I wiped it off with my finger.

Me: Still fresh. Whoever it was that was killed, it happened less than 10 minutes ago.

Hunter: Ja it is, but where's the body at? It's not here.

Me: No idea. Lets keep looking.

We kept searching and finally we saw a dead body. But it's appearance made some of us want to puke. It was a deformed and grotesque looking dead body, it's guts looked like it was exploded and from it is small midget size arms jutting from it. It's throat looked like it was ripped apart and the mouth has no chin, appearing to be mouthless, and it's two regular hands on two regular arms had it's hand ripped open, revealing two bone like scythes. Though it was dead and not moving the sight of it was so horrific to look at.

Me: OH THAT IS DISGUSTING!

Nicole: What the fuck is that!?

Lana: What the heck is that thing?

Naruto: Well, whatever it is, it's dead. Hey J.D. Why does this thing look Human?

Me: I've never seen a creature like this before bro. This is something none of us have ever encountered.

Nicole: I know this creature from somewhere. But I'm having a hard time remembering where I saw it.

As we were talking, we failed to notice that the dead body is not dead at all. It rises up, and it raised it's scythe like blades down on me. But Lana saw it.

Lana: J.D. LOOK OUT!

I looked behind me and I ducked and got out of the way and Lincoln and Stacy fired a blast of lightning and electrocuted the creature.

But the creature didn't flinch as it charges at Lincoln this time.

I slashed the creature's head off and killed it.

But to our shock and horror, the creature still can attack us even without the head. And now it's focusing on me

I fired a powerful blast of fire at the creature and incinerated it.

Lincoln: What was that thing!? How can it attack us even without the head?

Me: I have no idea.

John: That thing was terrifying!

Lana: And that thing was ugly!

Hunter: But why was it dead the first time we saw it but it rises up without us looking?

Me: It acts like a zombie. But it can still fight even when we blow it's head off.

Coup: That is awful.

Lana: But was that thing like playing dead?

Me: I think so.

Then we left the room and went to another room. This time it has a light flickering in there. Almost it looked like it was losing power and we saw another dead body. But fortunately it's Human and not one of the Creatures. But we also see what looked like a weapon on the desk.

Lana: This guy is dead.

Me: This is a weapon that's far more advanced than anything we've seen. Looks like it's from the year 3000

Suddenly we hear a door open and we look where it was coming from. It was a Man wearing what look like a armor, and a helmet with teal light from it. He look at us in suspicion.

Unknown Man: Who are you? Are you the surviving Crew of the Ishimura?

Me: No we came aboard because we received a distress signal.

Unknown Man: I see, so you don't know what's happening on this ship?

Me: No. We were asking the same thing.

Unknown Man: I'm Isaac Clarke, Engineering class from the USG Kellion.

Me: Pleasure to meet you. I'm J.D. Knudson, leader of Team Loud Phoenix Storm.

Isaac Clarke: Team Loud Phoenix Storm? Never heard of it.

Me: We're a team Of interplanetary superheroes that defend the entire universe from the forces of evil and defend the entire universe.

Isaac Clarke: I see, but you're not from the Earth I came from? Considering the armor and weapons you all wield that is not in the Earth Gov's origins?

Me: No. We're from 6 light-years away from here. What year is your Planet Earth from?

Isaac Clarke: The year is 2508 AD. Why you ask?

Me: Wow! That's 489 years from now. You're in the year 2019.

Isaac Clarke: 2019? That's 489 years ago. So your saying there are two Earths on this Galaxy?

Me: That is a strong possibility. Either that or you went back in time to our universe or our Faster Than Light warp engines took us 489 years into the future.

Isaac Clarke: That is another possibility.

Lana: Guys, I saw blood stains on the walls that said "CUT OFF THEIR LIMBS." What does that mean?

Lincoln: Sounds like a way to kill those creatures.

Naruto: Sounds like it.

Isaac Clarke: Hey Mr. Knudson, you didn't introduce your friends?

Lincoln: Sorry I'm Lincoln Loud.

Nico: I'm Nicolas Chan. But everyone calls me Nico.

Lana: I'm Lincoln's little sister Lana Loud.

Laney: I'm Laney Loud. Another one of Lincoln's little sisters.

Nicole: I'm Nicole Knudson, one of J.D.'s daughters.

May: I'm May, Nico's girlfriend.

Vince: I'm Vince Pusateri, 2nd In Command of Team Loud Phoenix Storm.

Carol: I'm Carol Pingrey Loud, Vince's Fiancé.

John: We're the Bolton Siblings. I'm John and these are my brothers Clint, Bobby and Coup and this is our sister Stacy.

Stacy: Pleasure to meet you.

Clint: Sup.

Bobby B.: Yo.

Coup: Pleasure.

Naruto: I'm Naruto Uzumaki Namikaze.

Me: Naruto's my little brother.

Hunter: Und i'm Hunter Vadász Takács-Michaelson. But you can call me Hunter Herr Clarke.

Isaac Clarke: You have a nice German Accent Hunter.

Hunter: Danke.

Lana: Also Isaac, what's this weapon we found in the table?

Isaac Clarke: That's a Plasma Cutter, a tool used for mining. But be careful, it's very dangerous and only the most experienced can wield it.

Me: It's very advanced.

Isaac Clarke: Thank you James.

There was banging on the other door, as we all heard someone calling for help.

Man from the other door: Help! Help! Someone! Please open the Door! Help!

Me: Uh oh.

We went to the door and opened it and out came a bunch of men and a woman.

But one of the men got attacked by another of those creatures, as it slashed and killed the man, the man's left leg was went flying. After that the creature look at the group and prepares to charge. Not caring if it's outnumbered.

We fired energy and element blasts and burned it's limbs off

Feeling useless, the creature dies after it's limbs is burned off.

Woman: Thank you, you saved us.

Man: All except Josh, that thing killed him.

Me: We saw.

Woman: I'm Emily, and this is Jones, Tyler, Larry, and George, we're Miners and doctors. The monsters that attacked the Ishimura a few days ago, the security died off, and most of the people here were killed.

Me: Pleasure. We're Team Loud Phoenix Storm.

We introduced ourselves.

Emily: Never heard of it, but I can tell you all have good hearts.

Me: Thanks Emily. We think that you all went back in time to our time in the year 2019 or we travelled forward in time.

Emily: That shouldn't be possible. The Ishimura arrived to this Aegis System Nine days ago. And it's 2508?

Me: We don't know ourselves Emily. It's the year 2019.

Isaac Clarke: Hey, we need to look for more survivors, and also Kendra Daniels and Zach Hammond! And also my Girlfriend Nicole.

Emily: I understand Isaac.

Isaac Clarke: Thanks, hey Emily, can you and your friends come?

Emily: Sorry, but we can't come with you all.

Me: No Emily. I have a strong feeling that the entire colony is infested with all these creatures. We can beam you all aboard our ship for safety.

Emily: Thank you so much J.D.

Me: Lisa, beam aboard 4 to our ship.

Lisa: Copy that 2nd Elder brother.

The Transporters energized and they beamed Emily, Larry, Tyler and George to our ship.

As we left the room, we continued to go down the hallway and found something on the ground. It was some sort of device on the ground and it had blinking a white light.

Isaac Clarke: An Audio Recorder. I wonder was it doing here?

Lincoln: Lets see.

Lincoln picked it up and pressed play.

It plays the Audio of someone. "This is Benson. Everybody listen up! They're using the vents! That's how they're getting around the ship! Stay away from the vents… Noo! Get back! Get Back! Ahhhhhhhhhhhhhhhh!" And a roar was heard from the audio recorder. And the audio recorder ended.

Me: Whoa! Holy shit! Whatever that was, it was as demonic as the devil himself!

Lana: No kidding!

Laney: That was horrifying!

Stacy: No kidding.

Lincoln: Wait, this Benson from the audio recorder said those creatures travel by the vents?

We looked at the vents and we saw that they were busted open.

Me: That must be where they came in.

Hunter: Clever monsters, but we must remain vigilant.

Carol: I agree.

Lana: That's right Hunter.

Naruto: I agree.

Me: Right bro.

As we enter the door, it opens. We went into a room that has windows which were blinded by metal sliding doors. But Isaac Clarke went into what look like a advanced computer. And turns it on and it activating the window slides as it opens. And through the window we saw two more people there. One is a woman with strawberry blonde hair, and an African-American man wearing a security outfit. But a visual image appeared in front of Isaac Clarke's face. Which was from his right arm.

Woman: Isaac? Isaac! God I can't believe it he made it-wait, who are those people?

Isaac Clarke: Calm down Kendra, these are my new friend, and they are not part of the Ishimura and they came here to help us.

Kendra: I see, may I get what their names are?

Isaac Clarke: Sure thing, hey guys. I'd like to introduce you to Kendra and Zach.

Me: Pleasure to meet you.

We introduced ourselves.

Zach Hammond: I see. Well it's a pleasure to meet you all. And Isaac, I'm relieved that you're still alive. Hopefully you all didn't run into more of them?

Kendra: More what?! What the hell are those things? Is that the crew?!

Me: We did run into a couple of them. And we were wondering what those creatures are as well.

Zach: Keep all of your voices down! Whatever they are, they're not friendly! And half the doors on the ship are locked because of the quarantine. Now we have to get to the bridge. But first, we got to repair the tram system.

Kendra: Wait, why the Tram Station! You're crazy Hammond. You're gonna get us all killed.

Zach: If you listen to me, I WILL get you out of here alive. Now what's wrong with the Tram?

Me: Lets find out. Let's go guys.

Kendra looks up the datapad about the Ishimura's tram station and she sighs agitated.

Kendra: The Data board is fried but there should be a spare in the

Maintenance bay. There's also a broken tram blocking the tunnel that needs to be repaired. Dammit, everything is on the other side of this quarantine. We can't reach it from here.

Zach: No, we can't… but you and your friends can. Isaac, if I can get to the bridge, I should be able to access the personnel files. You fix the tram and I'll help you find Nicole.

The Image ended.

Hunter: So we have to go fix the Tram?

Lana: I can do that. On Earth in Gotham Royal York, I'm quite the handyman.

Isaac Clarke: Gotham Royal York? I don't believe this Gotham Royal York existed on the Earth that I came from.

Me: It's located in Michigan just outside of Detroit. It's a fusion city of 3 major cities combined into one: Gotham City, New York City and Royal Woods.

Lincoln: It's an amazing city.

Nico: It sure is. It's an amazing city and it's as big as a city in your time Isaac.

Isaac Clarke: Like I said, it does not exist on the Earth I am from. Also why is it that a girl no order than 7 knows engineering and stuff?

Me: She's very talented for someone her age. She fixes the family van and all the stuff around the house and she knows all about how to work with dangerous tools.

Lana: Yep.

Laney: Lana is very talented.

Isaac Clarke: I see, well I'm a Engineer as well and I could use some help from Lana.

Lana: I'd be more than happy to help.

Isaac Clarke: Thank you.

We open the door and we see the hallway. But we didn't know which way where we are going.

Me: We don't know which way to go. This is a huge ship.

Naruto: Yeah it looks like it goes on forever.

Isaac Clarke: I have a device that lead us to where the Tram is. *He activated it.* Alright, it's to the right! *He leads us to the right.*

Isaac leads the way, the com-link just opened up. And the voice revealed to be Zach Hammond's.

Zach from the Comlink: Isaac, everyone, be careful. Shooting them in the head and body didn't seem to work. Go for the limbs, dismember them. That should do the job.

Me: That explains why we should attack the limbs of those creatures.

Lincoln: Yep.

They enter the door, they went into a bigger room and they see another door. But this time, it was sliding fast, and was malfunctioning. As they see it, they heard a roar from the far distance.

Lincoln: It's one of those creatures!

Me: It's coming this way. I can feel it.

Another creature appeared. But this time, it's a different one. And it's huge.

Me: That one is bigger than the last one!

Nico: It's huge and ugly!

Laney: No kidding!

The thing charges at us without stopping. Then Zach's voice from the comlink came again.

Zach from the Comlink: Careful! Shooting the limbs on the front didn't seem to work. Arm for the back!

Me: Right!

I fired a massive energy blast and it curved around and hit it in the back and it exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM

Isaac Clarke: Woah! That thing didn't stand a chance.

Me: Our power is strong enough to destroy entire planets in the blink of an eye.

Hunter: Ja, but let's not use it anymore here. We don't want to accidentally destroy this ship where we are.

Me: Good idea Hunter.

Laney: We have to be careful.

Carol: Got it.

Lincoln: But what should we do about this door? It could cut us in half due to it malfunctioning.

Lana: I got this.

Lana fixed the door right up and it was opening safely.

Me: Good work Lana.

But Isaac saw on a floor, it's a strange device nobody (Except Isaac) seen before.

Me: What is it Isaac?

Isaac Clarke: Its a stasis module.

Me: I've seen these before. They contain people or things in cryogenic suspended animation.

Isaac Clarke: Good answer, it might be useful against those things and the malfunctioning stuff. But it needs stasis batteries every time the Stasis Module runs out. But thankfully, it's not run out.

Me: Lets see what or who is inside this thing.

I wiped some frost off it and inside it was a member of the crew frozen in time.

Isaac Clarke: What the? Where did this cryogenetic pod came from?

Lincoln: We have no idea.

Nico: Me neither.

As we opened the Cryogenetic pod, a person came out of the pod.

I caught him.

Me: Brr. That's cold.

This man look like a crew member of the USG Ishimura. He's the same age as you. Shaved beard, and was wearing what look like a Security outfit, as he opened his eyes. And looks at us.

Man: What day is it?

Me: It's a long and very complicated story.

Isaac Clarke: *Sees the security badge on this man.* You're from P-Sec?

Me: Yes, i am from P-Sec.

Lincoln: P-Sec?

Isaac Clarke: It's a short word for Planetside Security.

Me: Like an Interplanetary Police Force.

Man: Yes! I'm Stuart L. Berricks. I am part of the P-Sec forces on the U.S.G. Ishimura. I accidentally trapped myself inside that Pod. Though the Captain would not appreciate my laziness. But speaking of which, I'll call him. *He calls the Captain from the comlink, but nothing happens.* That's weird, why is the Captain not responding?

Me: I think he's dead.

Lincoln: There was an invasion on this ship with horrific creatures.

Stuart: What horrific creatures?

Lana: You'll have to see one for yourself.

Me: Yeah. They are really horrifying.

Stuart: What are all of you going to do?

Isaac Clarke: We're going to fix the Tram.

Stuart: Alright, also I'm coming as well. I'll help you get to the Maintenance bay.

Me: Thank you. We never introduced ourselves. We are Team Loud Phoenix Storm.

We introduced ourselves.

Isaac Clarke: And I'm Isaac Clarke. A Engineer.

Stuart: I see. Well. Let's get going. I want to see what those creatures are that you spoke of.

Me: Trust me. They are horrifying.

Nico: Yeah.

Vince: They sure are.

We entered the Door where Lana had fixed earlier andWe found another hallway.

Me: We have more hallways.

Isaac Clarke: *Activating the navigation device.* It's that way to the left!

We followed Isaac. It was like we were going into a hive of pure evil.

We almost close to the door, the lights suddenly shut off for a minute.

Lana: Who turned out the lights!?

Stuart: Shit! Man! That never happened before. How much damage did those creatures that you spoke of do to this ship?

Me: Probably a lot. We saw a ship crash into a much bigger ship when we got here.

Isaac Clarke: The U.S.G. Kellion?

Lincoln: Yep.

Me: That's the one.

Isaac Clarke: That's the ship where me, Kendra, Zach, and the other two guys came from.

Me: That's Coincidental. We received a distress signal and answered it.

Isaac Clarke: I see. Well we came here just to repair the Ishimura. Before we met those things, which were responsible for killing the two guys that came with us.

Naruto: That's awful.

John: That is horrifying.

Isaac Clarke: Yep it was. I was almost chased by one of them. But I made it to the Elevator. But the creature came through. But it didn't kill me in time when the Elevator doors closed fast and crushed it. After I exited the Elevator and that's how I meet you guys.

Me: So you escaped just in time.

Isaac Clarke: Yep.

We opened the door, to our surprise, there is still light on this room. But not just any room, this was the Trams Maintenance room.

Me: Is this the Tram Maintenance room?

Isaac Clarke: Yes, looks like one of the arms still works.

He presses a button, an arm came out and grabbed one of the Trams handles, there was another one. But this one is malfunctioning.

Me: This one is still broken.

Lana: Let me fix it.

Lana fixed it in a jiffy.

Isaac Clarke: Thanks-

There was a bursting sound and we saw two to three vents break off. The culprits are several bone-scythed creatures again.

Stuart: What the fuck! *He fires his P-Sec pistol at them, but the pistol bullet wounds only agitated the creatures.* Fuck me! Since when can those creatures be able to take a bullet?!

Lincoln: Lets see how they like this!

Stacy and Lincoln fired a powerful blast of lightning and blew off their limbs

Some of the creatures fall down dead after their limbs were blown off. But the rest charged at us.

We slashed and blasted off the rest of their limbs and killed them.

Stuart: What the fuck were those things?!

Me: Those were some of the creatures we've encountered and told you about.

Hunter: Hey guys! I found another Audio Recorder! *He got the Audio Recorder from the ground.*

Lincoln: Lets hear what's on it Hunter.

Hunter pressed it. The Audio Recorder said "Listen up, car 8 is trashed. We managed to get it back to the repair depot, but now the auto-loader is fried. I need a Stasis Module brought down here now! If we don't get this piece of shit off the tracks, it's going to jam up the whole system!" And the audio recorder ended.

Me: So there's an escape module still operational.

Isaac Clarke: Wait a minute? Didn't I picked up a Stasis Module?

Me: You did Isaac. That's the one we found.

Suddenly, the auto loaders pull the damaged Tram car from the tracks.

Female computer voice: Replacing damaged Tram car. Please stand by.

Naruto: Looks like you have an escape vehicle.

Me: We can take the vehicle to our ship and bring you all back to Earth with it.

The comlink opened again. But this time it's Kendra's.

Kendra from the Comlimk: Isaac, everyone, you all did it! That tram was blocking the whole system. When you get the computer online, you'll all be able to call the Tram from the control room. The faster the better… I can hear something crawling around there… *And the image disappears.*

Me: Uh oh!

Suddenly, several more scythed creatures appeared from the vents again and they charge towards us.

Me: Attack!

We shoot, blast and slash the creatures limbs off. After that another tram appeared and the auto loaders brought it to the tracks.

Female Computer voice: Tram replacement complete.

Isaac Clarke: Wait! The tram has to go to Kendra and Zach. They need to get to the bridge and access the files there.

Me: Okay but we got to hurry!

Lincoln: Yeah we can't hold them off forever!

Nico: I know.

After the battle, We took the Tram there. As we enter the hallway again we encountered another creature. But this time, it's legs were fused together. Forming a tail and with a sharp scorpion like blade on the end of it's tail. It looks at us from the ceiling, before leaving.

Me: That one is ugly!

Lincoln: That's new, first we see the Scythe creatures, second we saw a giant gorilla lookalike creature. And now this creature. How many varieties of these creatures are there?

Me: Looks like there's too many.

Nicole: Yeah but they all look so familiar to me somehow.

Hunter: Let's head to where the malfunctioned door used to be. Since Lana fixed it.

Me: Right. Lets go!

We enter the big room again where the door we came through that Lana fixed earlier, we saw more scythe creatures again, including the same scorpion like creature. They attack us, and the scorpion-like creature leaps to where we are.

We slashed and blasted their limbs off and destroyed them.

After that we went to the door we came from. And Kendra's voice from the comlink appeared again.

Kendra: Isaac, everyone that's with Isaac, I patched into the deck's security system. It took some work, but I've got the door to the Maintenance bay unlocked. The data board should be somewhere inside.

Isaac Clarke: Roger that Kendra! *As the comlink ended.* It appears we have to go to another Maintenance bay.

Naruto: Which Maintenance Bay is that?

Isaac Clarke: *Activates the Navigation device.* That way!

We went down the left hall.

We continue to go down the Left hall and we found another scythe creature on the ground.

Stuart: I see that thing is dead. Let's move on.

Lincoln: Wait don't.

Stuart: Why?

Lana: It's still alive and playing possum!

Nico: Yeah, they have a very clever ambush strategy.

Isaac Clarke: Well, I'm about to see it.

He fired his Plasma Cutter at one of the scythe creature's leg, dismembering it. And to Isaac and Stuart's shock, the creature was alive and pissed off. But without one of the legs. It uses it's bone scythe like blades to use as walking sticks, it was crawling to where Isaac was.

Isaac: It IS alive!

Isaac finished the creature off by shooting it's arms arm. And it lies dead.

Me: That did it!

Stuart: How did those things do that? They're like animals?

Me: We don't know ourselves. But they are also like zombies.

Naruto: Hey guys! I found another Audio Recorder.

Me: What does that one say bro?

Naruto plays it. "This is Benson, tram engineering. We think we've figured it out. Smith killed one! Listen, forget about shooting them in the body, you gotta cut off their limbs. Grab a cutter, anything like that. Cut them apart!" And the recorder ended.

Me: We already know that part.

Naruto: Yep.

Lincoln: Wait, isn't Benson that guy we found the first Audio Recorder about him. Before he died?

Me: Yeah he was.

As we opened the door of the Elevator that would lead them to the Maintenance Bay.

We took the elevator.

After the Elevator arrived to the maintenance bay, the door opens. Revealing the us as we got out. But we saw more Scythe creatures there. Waiting for the group, and they charged in towards us.

Me: Here they come!

We fired our weapons and energy and elemental blasts at the creatures limbs and after that the creatures were destroyed by our attacks.

Only one of each creature fell.

After that, the group heard Kendra's voice again.

Kendra's voice from the comlink: It's Kendra. It looks like the door to the storage room is locked. There should be a key somewhere in the

Maintenance bay.

Me: We'll look for one. It should be in a tool box somewhere.

As we were looking for a key, we see another Elevator that leads them to the second floor of the Maintenance Bay.

They took it.

The elevator only ascends for a few seconds, before the doors open. They see another scythe creature on the ground, playing dead.

Me: That one is playing possum too!

Hunter: Yeah right, we are not falling for it's tricks!

Hunter fired a blast of at the Creature's limbs, the creature growled in pain and anger. Before it's limbs were dismembered and it lays dead.

Me: Yeah!

We went across the metal bridge of the second floor and we saw what look like a key there.

Lana: There's the key.

Me: Lets Get it guys!

We went there to get the key, the vent on the left of the Key busted open, revealing another scythe creature.

Naruto: There's just no end to these guys!

Me: No there isn't!

Lincoln: I know!

Lincoln fired lightning at the creature's limbs, killing it.

I grabbed the key.

Me: Got it!

But there was something else. We see another device here. This time it said database.

Isaac Clarke: No, it's just a Database, you grab the Key and I'll grab the Database. Let's see what it says?

As he was reading it, it said

"USG ISHIMURA

AEROSPACE ENGINEERING DEPT

SHUTTLE REPAIRS INVOICE

MISSION DAY TWO:

- Faulty fore gyro, vessel USG-ISH-503. Replaced, now functional.

MISSION DAY THREE:

- Faulty 40 scope, vessel USG-ISH-501. Still in repair.

MISSION DAY FOUR:

- Damaged landing repulsors, vessel USG-ISH-505. Complete replacement, now functional.

- Damaged fore and left-fore viewports, vessel USG-ISH-504. Replaced, now functional.

MISSION DAY FIVE:

- Damaged booster collar, vessel USG-ISH-505. Repaired, now functional.

ENGINEERS'S NOTE

Wright, J.F. (2nd ENGINEER, MAINTENANCE BAY).".

Me: This place is much more damaged than what we first thought.

Isaac Clarke: It did say Vessel USG-ISH-S05 and others. I think they are talking about the shuttles.

Me: We got to find them. Lets go.

As we were going to the first floor, we encountered another scythe creature as it charges at us.

Me: Lets get it!

Naruto: Yeah!

We fired powers and weapons at the creature. Killing it with it's limbs blown off. After that we enter the Elevator to the first floor. It opened and we see another scythe creature coming for us.

Lincoln: Fire!

We did so as the creature falls down dead after it's limbs were blown out. Isaac uses his navigation device, which leads us to the Maintenance Bay's storage room.

Me: Storage room?

Isaac Clarke: Yes J.D., this is where Kendra told us to go to. Inside there is something we need, a Data board.

Lincoln: Lets get it.

Carol: Yeah.

We went to the storage room after I opened it with the key I got. We went inside and on the left is the Data board itself.

Me: The Data Board.

Hunter: I'll get it! *As he picked it up.*

We went outside the storage room. The image of Kendra appeared again.

Kendra from the video image: That's it Isaac and everyone! Take the board back to Tram Control and put it in a slot that goes into the computer array. That should get the tram system back online.

After that, the image turns off.

Me: Roger that. Lets go!

But we see more scythe creatures including two more leaping scorpion like creatures. As they attack us.

We beat them fast and ran to the tram room.

After that, Hunter handed the Data Board to Isaac and he puts it in the computer array.

Female Computer Voice: Tram Control Computer now online.

As Isaac went to the Tram Control Computer, he presses it.

Female Computer Voice: Ship-wide tram system re-initialized. All trams now operational. Tram arriving at Flight-Deck Station.

Through the window, the Tram appeared. And Kendra and Zach went inside the Tram. The image of Zach appeared.

Zach: Alright, we're on board and heading to the bridge. Good work. *But then the image changed to Kendra.*

Kendra: Strange… the quarantine just lifted… *The image changed back to Zach.*

Zach: Whatever was in the flight lounge must have left. That's lucky for us. You all get back to the USG Kellion and the shuttle where the Team Loud Phoenix Storm came from and prep them for launch. We'll find out what we can from the bridge and meet you there.

Kendra: If we live that long. You're out of your league, Hammond. This is suicide! We're all going to die here.

Zach: You're lack of confidence in me is duly noted, Ms. Daniels, but I have a mission to complete and that's exactly what I am going to do. With or without you. Do we understand each other?

Kendra: *Sighs as she looks at us.* Just get us out of here alive. *As the image closes.*

Me: Nobody is gonna die on our watch!

Nico: That's right.

Isaac: Well you heard Zach, let's get to the Kellion and the shuttle where you guys came from.

We did so.

We went to the elevator where Isaac came from earlier. It went up after we took it, after that it opens. We saw another scythe creature, but it wasn't paying attention to us. It just went left of the hallway. This hallway was familiar to Isaac since that's where he came from after his first encounter with those creatures.

Isaac: That's the hallway where I came in from the other room. After our first encounter with those things.

Me: Lets go see where that one went to.

As we continue to go down the hallway, they see the same creature. Only this time it attacked the vent and went in. Ignoring the group.

Lana: That's weird? What is it not attacking us?

Carol: I have no idea.

Me: No clue.

But another scythe creature came in, this time it's behind us. Only for Stuart and Isaac to shoot it's limbs off, killing it. We almost made it to the door that leads to "Flight Lounge", the same creature that ignored the group appeared from the ceiling and this time it's now focusing on the group.

Me: That thing is really ugly.

Naruto: Isn't that the same one that ignored us almost a minute ago?

Lincoln: It sure is.

Laney: It looks like it.

Lincoln and Stacy fired at the scythe creature's limbs, killing it. We entered the room. This was the same place where Isaac first encountered the creature before. But it was different, the dead bodies of the two men that accompanying Isaac, Zach, and Kendra. All but disappeared and what's left is their blood on the ground were the dead bodies used to be.

Isaac: That's the place where we first saw the creature that was responsible for the deaths of two men. But, where is the bodies?

Me: I don't see anything.

John: They just vanished.

Lincoln: Let's get to the Kellion and our shuttle!

Me: Right!

Lincoln fired a powerful blast of lightning and blew it into a thousand pieces.

As we enter the Kellion first, we see the image on the ship's bridge. But we see another scorpion like creature, crawling all over the ship's windows.

Computer: Hostile lifeforms detected. Hull damage critical. Evacuate immediately.

Me: Oh shit!

As both our Shuttle and the USG Kellion was caught on fire from too many damages.

Isaac: We need to get out of the Kellion! Now!

Me: Lets go!

We finally exit the Kellion and both the ship and our shuttle

exploded.

KRABBBOOOOOOOOOOOOOMMMM!

They descend into the ground. We made it out just in time. But we encountered more creatures. Dozens of scythe creatures, two to three scorpion like creatures, and a big armored gorilla lookalike creature. They charge against us.

Naruto: Lets get them!

We fired our weapons and powers against the creatures, the only ones we manage to kill are the scythe and scorpion like creatures. And the big creature is the only one left. As it charges at us.

Hunter: We need to get behind that thing and shoot it's back!

Me: I got this!

I fired a powerful energy blast of pure fire and it curved around and hit the creature in the back and exploded.

After that, we got another video image from Kendra and Zach.

Zach: What the hell is happening down there?! What happened to the shuttles?

Me: They got destroyed by the creatures. It's like they knew where we were going.

Kendra from the video image: That was our ride home… They are the only way off this ship…

Zach: Kendra…

Kendra: No Hammond! This changes everything!

Zach: Just let me think! Can you access the Command Computer?

Kendra: *Sighs in frustration.* It's no good. There's an executive lockdown of all primary systems. Without the captain's authorization, I can't access them.

Zach: Well? Where's the Captain?

As Kendra types in of where the Captain of this ship is.

Kendra: Here it is. Captain Benjamin Matthias. Location… Medlab. Status… Deceased.

Zach: What? How?

Kendra: I can't access this information. Isaac, you and your friends must find the Captain and find his RIG. With his authorization codes, I can crack this computer wide open.

Me: We can do that. I refuse to give up! I'm never gonna give up until we get off of this deathtrap.

Naruto: Me neither. I won't give up and I never go back on my word. That's my ninja way.

Zach: I don't know if you're a real ninja or not. But that's not my decision, but thanks. We need all the help we can get. Also I'm sending the Tram back to your location. Get to the Medical Deck and find his RIG as fast as you all can.

Me: Roger that. And Naruto is not just a ninja. He's my little brother and the greatest and strongest hearted and most amazing ninja there is.

Kendra: *Heard a noise.* What was that? *As the two were looking were the sound was coming from. Only Zach saw it.*

Zach: Holy fuck! Come on, lets get out of here! *As he and Kendra ran, as the Scorpion like creature appeared in the video image. And the image shut itself off.*

We ran fast and fired blasts of energy and lightning and destroyed more creatures.

As we made it to the Tram who appeared.

Lincoln: There's the Tram guys!

Hunter: So we're heading to the Medical Deck?

Me: Let's go!

As the group enters the Tram. Their destination; The Medical Deck.

We arrived to the Medical Deck.

As we got out of the Tram, we saw another dead body. And a woman with some bandages on her eyes. With some blood stains on it.

Woman: Shhh, Shhh, it's all right, McCoy… they're here… Nothing to be afraid of… hehehehehehehehe… I knew you all would come… just like you said… I, I, saved this for you… *As she tries to pass it to Isaac, but her hands were shaking as she dropped it.* Can i go now? McCoy wants to take me… to the shuttle… *As she falls down dead.*

Me: Help them!

Hunter: It's too late, she's dead. But what's this device she dropped?

Isaac: It's a Kinetic Module.

Lincoln: What does that do?

Isaac: It's a device that moves heavy objects. And it could be useful at those big crates that are blocking our path. *As he uses the Kinetic Module at one of the Crates. Lifting it up, and threw it across the room.*

Me: Awesome! Very amazing piece of technology

Lana: Guys, I see a computer lookalike station there that says Store?

The store opens the shop that has the list of.

Plasma Cutter

Line Gun

Pulse Rifle

Level Suit 2

Plasma Energy

Small Medpack

Small Air Can

Stasis Pack

Power Node

Me: Look at all this stuff.

Laney: Very interesting selection.

Isaac: I think I know about the Power Nodes. They can be used for upgrading our weapons and RIGS.

Me: Lets do it.

Isaac: Wait, I think we went passed all the credits, power nodes, and other stuff on the Flight Deck.

Lana: That won't be a problem!

Lana brought out a large bag, as she opens it. Revealing to be hundreds of thousands of credits, several power nodes, lots of ammo, and medpacks.

Isaac: How did you get all these stuffs without any of us looking?!

Me: I think Lana found all of that.

Stuart: That would be a serious crime of theft, but I'll let that pass. Since this ship is infested by those things. Well at least we have enough credits to buy weapons, more power nodes, and other stuff we need.

Me: Way to come through Lana. Lets do it.

The group buys more weapons, such as the mining tools used for weapons like the Plasma Cutters and Line Guns. They also bought Line Racks and Plasma Energies for ammo. They also bought several more Power Nodes.

We looked like we were ready for war.

Isaac went into the entrance, he see's more crates. He uses his Kinetic Module to lift those crates, and threw them across the room. But we also see another strange device on the ground.

Isaac: Well well well. Is that a Schematic I see on the ground? *As he picked it up.* It's a Schematic, it's used for the Stores to unlock any items we might get. This Schematic unlocks a weapon named the Flamethrower.

They went back to the store, and Isaac inserts the Schematic inside. Finally unlocking the Flamethrower they need.

Me: Whoa!

Nico: This is an advanced Flamethrower.

Isaac Clarke: I know, hey Stuart! Care to do the honor of carrying the Flamethrower? *After he purchased it from the store.*

Stuart: Sure thing.

Hunter: Uh what about the Level 2 Suit?

Isaac: Oh I forgot all about that, you see, I'm wearing a Level 1 suit. I'll get the Level 2 Suit inside the Store.

Me: Okay.

Laney: Go for it.

Isaac purchases it, the Store converts into an Armor changer. As Isaac steps inside it, the doors close. After a several seconds, the doors open and revealed Isaac in the Level 2 suit. As he steps outside the armor changer, as it converts back to the Store.

Me: Nice armor.

Isaac: Thanks.

Lincoln: Let's continue to find the Captain's RIG!

Me: Right.

We continue to go to the room that says Security Station of the Medical Deck. Suddenly, they got a video image of Zach.

Zach: Isaac? Everyone? Are you there? We were attacked! Kendra's gone! But not dead! One minute she was there. Then… I can't believe I lost her. We can still do this. Get me the Captain's RIG codes and we'll find Nicole.

Me: Okay Zach. We're on it.

Zach looks at where the RIG is. It shows the map of where the Captain is. But something is blocking the way.

Zach: Looks like the crew barricaded the door to the emergency wing. You all have to blow through it to get to the morgue. Get some thermite from the Medical storage, and a shock pad from Zero-G Therapy. Should be down the corridor. *But the image is getting static, as the static increases.*

Zach: God, *Static.* communication is useless in all this static..*And the image closes due to Static.*

Me: We lost the image!

Isaac: It must be the Static and communication loss that's affecting this ship.

Stuart: Jeez, how much damage did this ship take?

Me: We have no idea.

Naruto: Well, let's find the Thermite Bombs and the Shock Pad!

Me: Roger that bro.

As we head to the room that says Research Wing.

Me: We made it.

Isaac: Not yet, we need to head to a-*Hesees another Malfunctioning door that leads to the Main Lab.* Great, another Malfunctioned door.

Lana: I got this.

As Lana fixed it, the door opens for the group to enter another door that said Main lab. After opening it, we made it to the Main Lab.

Lincoln: Is this the main lab?

Isaac: Yes it is. Now let's find the Medical Stor-*An Alarm was sounded.*

Computer: Warning. Hazardous anomaly detected. Quarantine initiated. *As the room darkens and orange alarm lights on.*

Naruto: I don't like the sound of that!

Me: Me neither.

And Naruto was right, dozens more scythe creatures appeared. As they attack the group.

Me: Lets get them!

We fired our weapons and powers at the Scythe creatures. After minutes of fighting we blew apart the last scythe creature and it fell dead.

Computer: Quarantine lifted. *The alarm lights shut off and the room turning the lights back on.*

Lana: That takes care of them.

Laney: Yep.

Stuart: Hey guys! I found what look like a Video Log. It's in this room! *Pointing to a small office room there.*

He pushed play.

It actually shows a Video of a man, and another man who look like the Captain.

Man 1: What in god's name is going on down there?

Man 2: I think that's precisely the point, doctor. God's work.

Man 1: I'm not so sure of that… We have to assume that the colony's problems are somehow connected to the Marker.

Man 2: You can assume all you want to. I do not. The Marker is glorious and divine, you - you know that.

Man 1: God moves in mysterious ways…

Man 2: Anyway, we'll have it on board tomorrow. You can analyse it all you want to. What are you so worried about?

Man 1: Worried? Captain, people are dying down there. Killing each other. Is this madness the "Transformation" Unitology teaches us?

Captain Benjamin Matthias: Doctor… Terrance… there will always be risk when the stakes are high. And here. they're enormous. It could change everything.

Dr. Kyne Terrance: That's what worries me. *And the video log ended.*

Lincoln: That's horrifying.

Me: No kidding.

Isaac: Ugh, I should of known! The captain and this doctor are Unitologists.

Nico: Unitologists?

Me: What do they do?

Isaac: Unitology is the fastest growing religion on Human space. They believe the words from some kind of artifact they named the

Marker.

Me: That sounds like some kind of doomsday cult.

Isaac: Could be, this religion was founded in March 15th, 2215 AD. By some guy named Michael Altman.

Nicole: And it's very familiar to me but I can't remember.

Lincoln: I don't like this guy already.

Isaac: I agree Lincoln. Wait, I wonder what's behind the bookshelf?

He used his Kinetic Module to move the Bookshelf to the left. Revealing to be a secret room. There is another Text Log was there.

Me: There's a textbook log in here.

As we open it, it said.

PERSONAL LOG

DR. KYNE, T. (CHIEF SCIENCE OFFICER)

The vidlogs from the colony are poor quality, but the artifact does indeed appear to be a genuine Marker, the first to be found in the Unitology's two hundred year history. I'm eager to get it on board the ship so I can study it properly.

The potential here is enormous. Not just for me personally, though it's true that I've dreamed of such a discovery for decades. But also to humanity, and the Church of Unitology in particular.

This Marker could herald the dawn of a new age for mankind, and I will do my part to ensure it comes to pass. I know the Church will be grateful, but the true recognition will come from all of humanity. On this day, we are blessed.

Me: Whatever this artifact is it sounds likes it's too dangerous for all of us.

Lana: I know, but I found something in the bathroom. It could be another Audio Log there.

Me: Lets see.

The Audio Log plays. "Mercer: I finally convinced Jurgens to show me the video feed from the colony. And what I saw was glorious. Breathtaking. Miners undergoing a transformation into something extraordinary. I must know more. Even as the believer within me wants to become one of them, the scientist needs to uncover their secrets. I need to study one of these… Necromorphs, as Kyne so clinically puts it. I need to witness this infection first hand. Perhaps that patient from the colony…"

Me: Necromorphs?

Nicole gasped when she heard that name.

Hunter: So that's what these creatures are called?

Laney: That is a terrifying name.

Naruto: Wait, didn't I say that those things look like humans?

Me: I sure noticed that bro.

Laney: Me too.

Naruto: You don't think they are dead bodies turned into those Necromorphs?

Lincoln: They could very well be.

Carol: They sure are horrifying creatures.

May: No kidding.

Hunter: Which means there is some sort of contagious virus that infects dead bodies and turns them into monsters. Where did this infection came from?

Me: I have no idea.

Stuart: Hey I know that voice from the Audio Log. That person must be Dr. Challus Mercer.

Me: Chief medical officials here?

Stuart: Well he's actually a Scientist. But yes, there are medical officers here. But I don't see them. I don't think I want to know what happened to them.

Me: Necromorphs probably got them. But we got to destroy all these creatures before they destroy all life in the entire universe.

Isaac: J.D.'s right! Whatever those Necromorphs came from, they are not welcome in this universe.

Nicole: I remember now! Guys the whole universe is in terrible danger!

Me: What's going on Nicole?

Nicole told us the history of the Necromorphs and what they are and how big a threat that they pose to the entire universe.

Necromorphs are created through power of Markers (either Black Marker or its derivation Red Markers), alien object that emit a highly concentrated electromagnetic signal that alters any dead tissue in range on a cellular level, converting it into Necromorph tissue and re-animating the corpse of the host organism. This signal also affects the minds of intelligent life forms, usually manifesting as dementia and resulting in homicidal and suicidal actions - laying out a rich field of fodder for the Necromorph infection.

Once some Necromorphs are created, these Necromorphs would butcher any non-Necromorph lifeforms on sight so their corpses can be reanimated either via infection with their cells or Markers' powers.

Me: So they're an infectious hostile life form.

Nicole: That's right. And there are many different types of Necromorphs.

Nicole told us what they are.

## Slasher

Slashers are the most common Necromorphs, posing the greatest threat when in groups. They are named for the large bone blades that emerge from the hands of their upper arms, which can be the infected corpses' original arms or can be newly sprouted limbs. Slashers also have an atrophied set of lower arms, which usually have little purpose, but can sometimes be used to hold their prey. Bones in the feet of Slashers are extended, most notably the heel bone, which adds balance. It helps them in climbing on walls or running, but walking is harder. More durable Slashers can also result from more decayed corpses and female Slashers can spit acid projectiles.

## Leaper

Leapers are more animalistic Necromorphs with more muscular arms and the top of their heads seem to have separated from the neck, also sporting a set of mandibles on their heads and mutated jaws. However, their most notable trait are their long scythe-like tails created from the corpses' innards and legs, fused together into a single limb. Leapers' tails can coil to about a third of its original length and they can use these to propel themselves, letting them leap long distances. Leapers also sport large fangs and claws and can move quite fast, often inhabiting areas with no gravity so as to take advantage of their fast moves.

## Lurker

Lurkers are the result of the corpses of infants being transformed into Necromorphs. They have been mutated heavily, due to lacking any physiology that could be used to kill, and have become little more than a mass of muscle. Lurkers' skin have become leathery and a set of tentacle like appendages extend from their lower stomach, which act as their primary means of movement. Lurkers attack with a trio of whippy barbed tentacles that extend from their backs and the tentacles can fire barb projectiles.

## Infector

Infectors are the Necromorphs responsible for helping them to spread, constantly hunting for corpses to infect. The host corpse is twisted and broken, developing bat-like wings formed from flaps of flesh between their limbs. The head becomes the Infectors' feelers and a stinger-like appendage, made from a fusion of bone, flesh, and spinal tissue. The Infectors' use these appendages to spread the Necromorph infection, enveloping the corpse in their wings and driving its stinger into the skull to inject a fluid stored inside its body.

## Pregnant

Pregnants sport an enormous sac that contains lesser Necromorphs and have two large arms with bone scythes. The host corpses' arms are fused into the sac and in troublesome situations, Pregnants tear open their sacs to release the Necromorph spawn inside. They have smaller legs so as to balance themselves out and can move at a decent speed despite their bulk.

The best method to kill Pregnants is avoid hitting the sac as should the sac was attacked, Swarmers inside would be released and swarm the player. Also, had a Pregnant been decapitated, they would wind up slashing everything around them blindly, which is useful should this Necromorph also be accompanied by another.

## Swarmer

Swarmers are small Necromorphs that seem to be nothing more than reanimated chunks of flesh. They attack in groups and try to swarm and overwhelm their targets, tearing them apart.

## Brute

Brutes are large Necromorphs created from numerous corpses. They have spiky armored skin on most of their bodies to protect them and have high physical strength, as well as surprising speed. However, Brutes have notable yellow weak points on their bodies, which can be used as a means of severing their limbs. If they lose their legs, they can fire organic bombs out of holes in their stomachs.

## Guardian

Guardians are immobile Necromorphs, created from human corpses fusing into the enormous Necromorph entity known as the Corruption. As this Necromorph develops, it becomes less and less human-like and grows more actively hostile. The Guardians lose their arms and develop large sacs and openings in their lower bodies. These openings have appendages sprouting out of them, helping attach them to the wall. The Guardians can attack with scythed appendages made from their innards, but their most notable ability is their ability to spew forth embryo-like Necromorphs called Pods. These Necromorphs attack with tentacles and can burst in a small explosion, though they are little danger unless they swarm enemies.

## Wheezer

Wheezers are unique Necromorphs that do not directly attack people, instead sitting stationary. The only threat they pose is the poisonous gas that they breath from their lungs, which have grown to large size and sprouted out their backs. Wheezers' arms and legs are fused together, preventing them from moving, and they can be easily killed.

## Exploder

Exploders are suicide bomber-esque Necromorphs with large glowing growths on their arms that are extremely explosive. The corpse hosts of these Necromorphs have had their heads split in half and they can use these two halves to bite at enemies. Exploders' other arms and legs have developed to help balance them out, so they can manage a clumsy walk. When they have gotten close to enemies. Exploders swing the explosive pustules on their arms at them or against the ground. This results in a large explosion, which can easily blow humans to bits and usually kills the Exploder.

## Divider

Dividers are tall, lanky Necromorphs, able to split apart into smaller Necromorphs after they have been damaged enough. These Divider spawns are not as durable as the original Divider, but they are very fast. They move along with tentacles and jump onto and attack their

enemies.

### Twitcher

Twitchers result from corpse hosts that possess stasis modules. The modules fuse into these Necromorphs' flesh, reversing their effects and making Twitchers able to move much faster than normal Necromorphs. They also move rather erratically and even have a blur when seen up close. Twitchers are designed similarly to Slashers, though more muscular and some lack the small appendages on their chests, but have larger bone scythes. They have a large gap on top of their skulls, which is filled with tentacles and seem to lack eyes.

### Puker

Pukers are Necromorphs that can spit corrosive bile out of their mouths and also have sharp claws. They are heavily mutated with one leg being made of the hosts' intestines and the other being the hosts' original legs fused into one. The Pukers' lack eyes, their jaws are fused into their necks, and their lungs are visible, clearly full of their bile. Their flesh also hangs loosely from their bodies due to the way they expel bile.

### Tripod

Tripods are three-legged Necromorphs composed of multiple corpses and are highly vicious even by Necromorph standards. They attack mostly with their brute strength, but also use their bladed tongues. Tripods have large yellow weak points visible on their arms and tongues and they are brought down when they lose their arms. There exists a unique female version of the Tripod, which has a female corpse as its main host and a more tentacle-esque tongue.

### The Pack

The Pack are a group of Necromorphs created from children, acting as a predatory herd and are rarely encountered alone. They aren't as mutated as other Necromorphs, now sporting bony claws, enhanced muscles, and a more open fanged mouth. However, the members of the Pack are easily torn to shreds, which may be why they act as a group and they seem to coordinate through sound.

## Stalker

Stalkers are raptor-like Necromorphs that use flanking, stealth, and group-tactics to catch their prey. They sport large claws and their rib cages have spread open, though most of their organs are now gone. However, Stalkers most notable feature are their large domed skulls, which they use to smash against their opponents and also help to protect themselves from attacks. Stalkers are possibly the most intelligent Necromorphs, moving around, hiding, attempting to lure their targets, fleeing when damaged, and attacking only when they think their prey's guard is down.

## Cyst

Cysts are immobile Necromorphs that seem to grow from the Corruption. Whenever anything comes near them, they fire explosive pods into the air that explode upon hitting the ground.

## Crawler

Crawlers, like Lurkers, are Necromorphs resulting from using infants as hosts. They are extremely bloated with an explosive substance inside them and the torso and head are twisted backwards. Crawlers also have had their legs fused together, making them crawl along.

## Nest

Nests are Necromorphs created from female host corpses, which are fused with at least one other corpse. They have bulbous appendages sprouting from them and a mess of flesh on the bottom that anchor them down. While normally retracted into these bases, Nests will emerge when anything comes near them and release swarms of glowing Necromorphs that act as projectiles, homing on targets and exploding when they hit. If the target gets too close, Nests will retreat back into their invulnerable lower sections until the target moves away.

## The Hunter

The Hunter is a unique Necromorph created by Dr. Challus Mercer, which was created by placing some of the Corruption's tissue inside a human. It is built similarly to the Slasher, but bigger and stronger and can regenerate lost limbs, meaning that the dismemberment method used on other Necromorphs will only stop the Hunter temporarily. The Hunter pursued Isaac Clarke throughout the USG Ishimura and he was only able to escape it or temporarily disable it on each occasion. However, he was finally able to wipe the Hunter out when he test fired the engine of a shuttle while it was in the way, incinerating it completely.

## The Corruption

The Corruption is the single largest Necromorph entity, though it does not directly harm other creatures. Its unsteady design does slow down those that walk on it and it also removes oxygen from the air, changing it into poisonous gas that makes any kind of long term survival near impossible. Since the Corruption drastically changes habitat, it may be key to the Necromorph infection and it seems to aid them in adapting to the different environments they must deal with.

## The Leviathan

The Leviathan is a large Necromorph entity that collided with the Ishimura as it was drifting in space. It made its way into the hydroponics area of the ship, infesting there. The Leviathan has a large gaping mouth, which has a bulbous orb in the center and three large tentacles. It attacks by swinging with its tentacles, spawning Pods, and spitting out organic bombs. Isaac Clarke confronted this Necromorph in the hydroponics area due to it causing the air to degrade and managed to destroy it.

## The Slug

The Slug is another large Necromorph entity that attached itself to the blast doors on the outside of the Ishimura. It is a large, mostly immobile mass, with five large tentacles. Needing to open them to send a message to the USM Valor, Isaac took the helm of one of the asteroid defense cannons and fought it, successfully killing it, and making it detach from the blast doors.

## The Hive Mind

The Hive Mind is an enormous Necromorph that seems to be the guiding intellect behind the ones on Aegis VII and the Ishimura. It resembles a segmented worm-like creature with a large circular maw that has two sets of jaws and a number of yellow bulbs that act as weak points. The Hive Mind utilizes large tentacles and spitting acid projectiles to attack and has more yellow bulbs in its lower body. It was created by the military testing their experimental Red Marker 200 years before the outbreak. However, when the Marker proved too dangerous, the experiments were abandoned and it was used to suppress the Hive Mind. After the Marker was taken aboard the Ishimura, the Hive Mind was awakened, beginning the Necromorph outbreak. Isaac Clarke managed to return it, suppressing the Hive Mind once again, but after Kendra Daniels tried to retake the Marker, the Necromorph reawakened. It killed Kendra and attacked Isaac, but he managed to bring it down.

## The Tormenter

The Tormenter is a massive Necromorph, formed from numerous corpses. It has a lean serpentine build with a large fanged maw and mandibles on its head. The Tormenter has long arms, connected to its body by yellow tissue, which act as a weak point, and the rest of its body is a mess of spikes and tissue. This Necromorph is quite strong, able to deal with fire from a gunship without any sign of damage. The Tormenter attacked Isaac after he dropped down a vent to escape Tiedmann's forces. It managed to grab Isaac, who succeeded in escaping its grasp and it pursued him onto Tiedmann's gunship, grabbing him when he tried to jettison away. However, the Tormenter tore off the ship's fuel canisters and Isaac shot them, destroying the Necromorph in the explosion.

## Ubermorph

The Ubermorph is a unique Necromorph, notable for the fact that it has no human traits in its design. It is built similarly to the Slasher, though a good deal bulkier, and has a pair of small arm-like appendages on its torso, in addition to its larger clawed arms. Like the Hunter, the Ubermorph is able to regenerate itself, making it practically impossible to kill. After Isaac deactivated the power in the government sector, letting the Necromorphs swarm it, the Ubermorph found its way inside as well. As Isaac started to find the secrets of stopping the Marker, the Ubermorph pursued him and he was forced to constantly escape the Necromorph. The Ubermorph was finally destroyed after the Titan Station's reactor exploded.

## The Graverobber

The Graverobber is a Necromorph that was supposed to appear in the short animated film Dead Space: Downfall, but was finally cut most likely due to time constraints. Originally, it would have pursued Alissa Vincent until getting smashed by the Ishimura's centrifuge.

The Graverobber has a bear-like stance and possesses three jawless heads and pincers. It also has large, Slasher-like blades. The most interesting part about this creature is that its upper half is composed of the dead bodies of Ramirez, Samuel Irons and the shower woman. This Necromorph would find deceased bodies and within seconds fully eat the body.

Me: So there are many different types of Necromorphs?

Nicole: Yeah.

Me: And the ones we just saw were the Slashers, Leapers and the Brutes.

Nicole: But those are not nearly as big as the biggest ones of them all.

Nico: Which are?

Nicole: They are called the Brethren Moons and they are giant Necromorphs that are as big as whole planets.

The Brethren Moons, though their origins are unknown, are a series of moon-sized creatures throughout the galaxy that consumed all organic life they encounter through the use of their Markers.

The Moons consumed new worlds by sending out Black Markers which travelled through space and impact upon planets. In the case of Earth, the Black Marker was carried inside an asteroid that struck the Yucatán Peninsula around 65 million years B.C. It was unknown if the Moons specifically targeted worlds that showed promise for intelligent life, or if, as it was theorized by the Unitologist leader, Jacob Danik, the Markers are actually responsible for encouraging the evolution of intelligent species.

The Markers broadcasted an electromagnetic signal originating from the Moons that mentally affected intelligent beings. This signal manifested either as dementia or as a compulsion to replicate Markers through artificial means. This along with the fact that the Marker signal represented a source of apparently limitless electromagnetic energy drove intelligent species to create Marker copies-Red Markers-that are inevitably distributed throughout their territory. However, the signal had another function: It could alter necrotic tissue on the molecular level, causing corpses to reanimate and become Necromorphs.

After a Necromorph infestation claimed the majority of a planet's population, the Markers on the planet would initiate a Convergence Event-the birth of a Brethren Moon. Once the Convergence began, the flesh of the Necromorphs and other dead tissue within the Marker's area of influence are flung into the stratosphere where they began to form into a new Moon. The Moon not only absorbed biorganic material, but also planetary fragments as well.

The creature was only finalized once the creators of the Markers are absorbed along with the planet's entire biosphere. Once the Markers are absorbed as well as a large portion of the biosphere, the Marker itself gravitates to the central heart of the Moon so it could communicate telepathically with the rest of the network as well as release broadcasts to other nearby Markers. It was currently unknown what happened to the Moon once it absorbed all life at its birthplace, but it was believed that they mass travelled to the nearest source of organic life to continue feeding.

Earl Serrano speculated that all life between the origin of the Moons and humanity's home system are extinguished by the Moons which mixed countless species in their uniform biomass. The game proposed an uncommon answer to the Fermi paradox: Humanity never had the opportunity to contact aliens because a massively and lethally invasive species absorbed most if not all organic tissue within our galaxy, possibly beyond, leaving much of it in a state of "dead space". Serrano also discovered that the Moons formed a network spanning the entire galaxy which they used to communicate as the Markers' influence affected races to build more of them, trapping and assimilating other species, the network continued to expand.

We gasped in sheer horror.

Naruto: So the Necromorphs ARE a danger to all life in the entire universe.

Nicole: That's right bro. And if we don't destroy them, they will destroy all life in the entire universe.

Isaac: So that's why they pose that big of a threat. Let's get going.

Me: Right!

We continue to went into the next room, we see through the window is someone, who is banging the window to get him out. And a Necromorph as well, but it was a baby one.

Man: C'mon! C'mon! Let me out! *The baby Necromorph shoots projectiles at the man's hand.* Nooooo… *As he was struggling to get his hand out from the needle spine. His head exploded by another projectile by the baby Necromorph. As the monster crawled away from our view.*

Me: That one was a baby!

Lana: I think I'm gonna be sick!

Lana hurled her guts out!

(LANA VOMITS)

Carol pat her back.

Lincoln: So glad we did not bring Lily with us.

Me: Me too. She would be scarred for life. But that one we saw must've been a Lurker.

Nicole: It was.

Isaac: Now we must be vigilant, their could be other Lurkers in there. *As we enter the same room where that guy we saw earlier had died by one of the Lurkers, we see hundreds of tubes full of babies inside. For this is the Bio Lab.

Me: This looks like a research lab.

Lana: Why are there Babies inside the tubes?

Me: I don't know, but whatever this is for it sure doesn't look good.

Carol: I agree

Naruto: This looks like something Orochimaru would do.

Isaac: Who's this Orochimaru you spoke of?

Me: He was one of our most dangerous enemies. He was a mad scientist shinobi that wanted to destroy entire Hidden Leaf Village where we all live. And let me tell you, you would hate this guy. He did these mega insane experiments so that he would find a way to live forever and learn all the techniques in the world that we have.

This shocks and horrifies Isaac and Stuart.

Isaac: That bastard!

Stuart: I would gladly shoot this sadist motherfucker to the core!

Lincoln: Me too.

Lana: Even Lisa is not that dangerous!

Hunter: Ja, he even makes our medics look like saints.

Me: It's worse. He was a majorly fucked up pedophile. Most of his experiments were tested on were children.

Hunter: That dummkopf! I would strip him of his blood and mind and burn them all with intense Fire!

Isaac: When I see that ugly pedophilic snake guy, I'm gonna blown his fucking face to pieces!

Lincoln: He is very inredeemable!

Me: It's too late for that. He's already dead and we killed him.

Nico: And I sealed him in my book. It's the Book of Vile Darkness.

Isaac: Oh thanks. That book sounds scary though. Oh, speaking of blown to pieces, we need to find the Thermite! And then the Shock Pad!

Me: Right. We'll tell you all more about what Orochimaru did later. Lets go.

We saw projectiles flying to where we were earlier. But thankfully, the projectiles missed. As we see one of the Necromorph Lurkers, the same one that killed that man earlier.

Me: There's that one that killed that man earlier!

Isaac: Shoot it's three tentacles! *As we shoot at the tentacles of the Lurker that used to be its intestines, as the lurker dies after it's three tentacles is blown off.*

Me: These freaks give babies everywhere a really bad name!

Lincoln: Only except that they're undead!

Me: The Necromorph's use even the youngest of souls to destroy all life. What a bunch of savage and ruthless monsters!

Nico: They all have failed this entire universe all together.

Isaac sees the elevator like platform there.

Isaac: Let's go up on the second floor of this Bio Lab.

Me: Right. Hunter, we need to always be on the alert for anything.

Hunter: Jawohl. *As we ascend into the second floor, we see three more Lurkers there.*

Lincoln fired lightning and blew them to pieces.

As we see the door that says "Return to Main Lab".

Lana: That's odd, why is there the door that says Return to Main Lab?

Isaac: Must be some room in the Main Lab we never checked. *As we enter the room, they see the Thermite there.* Ah, there it is, the Thermite.

Me: Thermite explosives. Very powerful bombs equal to that of C4.

Isaac: Yep. *As he picked up the Thermite, the audio feed from Zach appeared.

Zach from the Comlink: Alright, that thermite you picked up should be able to melt through the barricade. Use the shock pad to ignite it. I hope I can hold this position. I hear something big moving out there. *And the comlink ended.*

Me: Lets get moving.

We went into the Main Lab, and then to the door that said "Return to Security Station". There we encountered two more Scythe Necromorphs.

Nicole: Slasher Necromorphs!

We fired our powers and weapons at the Slashers and blew their limbs off, killing them.

Me: So much for them.

Stuart: Hey the tubes we saw on the Bio Lab we left earlier. I know that these are Cloning tanks.

Me: These scientists were really playing with intense fire.

Lincoln: And they suffered the consequences.

We enter the Security Station, they see the third door that says "Imaging Diagnostics Ward".

Me: The Imaging Diagnostics Center?

Isaac: Yes, this is where we're going in. But be weary, we don't know what kind of horrors awaits us in this room.

Me: We have to be ready for anything.

Nico: Right.

We open the door, we went into the hallway. But then the lights suddenly shut off for a minute. But as we were continuing to go, we see another person there, hitting his head on the wall.

Me: Are you all right sir?

The man ignores me, as he hit his head very hard, killing himself, as he lays down on the ground. And with blood on the walls where he was hitting his head was.

We went over to him.

Me: This guy really hit his head hard.

Lincoln: Why would he do this to himself?

Me: It must be survivors guilt.

Nico: Or it could be dementia.

Stuart: Could be, let's continue.

We enter through the door that said "Imaging Diagnostics Room", there, we see three scorpion like Creatures there.

Lincoln: Watch out for the Leapers! *As he fired lightning at one of the Leaper's tail, dismembering it. Thus preventing the same Leaper Lincoln fired at from jumping.*

Lana: Hey guys! I found another Audio Log inside this room, but it requires a Power Node to open it?

Isaac: We have several Dozen Power Nodes, this one will be enough to open it.

Me: Wait. A power node won't be needed. Lincoln you can use your lightning powers to power it.

Lincoln: Okay.

Lincoln did so.

Me: Lincoln did this method earlier and it worked.

After that, the Door opened, and Lincoln picked up the Audio Log. As he press it. It said.

"Mercer: You found something down there, didn't you?

Kyne: Yes… we found something.

Mercer: So, the texts were right all this time.

Kyne: I wouldn't be certain about that. There was nothing divine in what I saw.

Mercer: We must embrace this. We are the first witnesses!

Kyne: Mathius isn't letting anyone down on the colony. It's under quarantine until we learn more.

Mercer: To hell with Mathius! He of all people should know that this is greater than him, or the operation, or even the company. This is our deliverance!

Kyne: Keep your damn voice down. People are dying down there.

Mercer: Only the worthless and the unbelievers. But I believe. Do you believe. Terrance? Do you?"

Me: This Mathius must've been responsible for everything that happened in this colony.

Lincoln: I think so. Hey, I found a Text log!

Lincoln presses it, it shows the words.

MEDICAL LOG

DR. WARWICK, B. (CHIEF PSYCH OFFICER)

REPORT OF PSYCHIATRIC OBSERVATION

PATIENT: HARRIS, B. (Employee #PM-19026-EH) Harris is asleep, after another strong sedative. He seems literally unable to sleep without chemical aid. Most people succumb to exhaustion after 50+ hours of waking, regardless of any desire to stay awake. Not Harris.

His explanation of events on the colony is also odd, and points to the same paranoia we've seen elsewhere planetside. His guilt is not in doubt-two planteside security officers were present when he took Dr. Sciarello hostage and murdered Nurse Evans-and he doesn't deny his actions. But he insists there was no crime, nor does he feel guilt.

This is classic sociopathic behavior, but Harris exhibits no other symptoms. He is affable and friendly, able to empathize and offer original opinions. When questioned about the murder, however, he becomes withdrawn and intransigent, displaying schizophrenic behavior. He also undergoes intermittent hallucinatory periods, again similar to those experienced by other colonists. Harris claims he threatened the Doctor because he "had to stop the dreams and the faces", and that he'll kill again to "Make it whole again". What that means, I haven't determined yet. A most intriguing case.

Me: Geez. Sleep deprivation and chemicals did all this!

Nico: That could be.

Isaac: Hey, I found a Upgrade Bench!

We went over to it.

Isaac: Well since Lincoln used his Lightning powers to open the doors, the Power Nodes can now be used for upgrading Weapons, RIGs, and other Tools.

Lincoln: Okay.

After spending Power Nodes in upgrading our weapons and armor, are now more stronger and more powerful.

Me: Nice!

Isaac: I know, now let me move this X-Ray tube out of the way.

He uses his Kinetic Module to move the X-Ray tube to the left.

Isaac: There we go, now we can move on.

We did so.

We moved to the room on the left, after opening the door. We found a Man on the ground, choking white substance from his mouth, as he dies.

Isaac: Fuck! Man! That's the third time we see another person died in the Medical Deck.

Me: Looks like chemical poisoning.

Hunter: He must of used it to commit suicide. That's weird, every time we see survivors. They died in front of us?

Me: So many lives gone here.

Carol: It's awful.

But we heard one of the Vents in this room burst open. Revealing to be a lone Necromorph Slasher, as it charges at us.

We killed that one with ease.

As we exit out of the room, there was another Elevator like platform there. But it's not powered, but we did see a mega sized battery there.

Isaac: A power cell!

Me: That's a big one.

Isaac: Yes it is, we must plug the Power Cell back to there. In order to get this Elevator like Platform working again.

Me: Okay.

As Isaac used his Kinetic Module to grab the Power Cell and plug it back in. Thus powering the Cargo Lift.

Me: We're online.

We ascend into the second floor of the Imaging Diagnostics room, they saw Isaac brought the X-Ray tube closer to where their were going. Thus getting a easy way to go there. Until they see a Leaper and a Slasher burst open from the vents. The leaper from the left, and the slasher from the right.

Me: They're trying an intercepting strategy!

Lincoln: Not for long!

Lincoln blasted then with a massive wave of lightning from both sides and vaporized them

Isaac: Nice shot Lincoln!

Me: Very clever buddy.

Lincoln: Thanks J.D. and Isaac.

We continue to move, and Isaac brought the X-Ray tube again. As they walk to the door that says "Zero-G Therapy room".

Me: Zero Gravity Therapy Room?

Isaac: Yes, how did you know about Zero-G?

Me: I watch a lot of science fiction movies and you would be amazed at what I know.

Isaac: I see. Well let's get going.

We went inside the small room, where another door that said "Zero-G Therapy Room". But as Isaac opened.

Computer: Warning. Hull breach detected. Now entering Vacuum of Space.

Me: Uh oh! Isaac, Stuart, hold your breath!

Isaac: What about you?

Me: We discovered earlier that we have the ability to breathe in the endless vacuum of space.

Isaac: Alright, but don't let go your breaths. Since there's no air in space.

The door opens, the air in this small room we're in was sucked out by the vacuum of space. The numbers appeared on Isaac's back. Which was one minute. As they moved to another room, though there's no sound.

Me: (Echoing) Wow. That was intense.

Nico: (Echoing) No kidding.

But finally they entered the room and there the door closes, and the Air returns.*

Computer: Exiting Vacuum of Space.

Me: That was intense! But that was so cool!

Naruto: It sure was.

Lana: That was awesome!

Laney: It sure was.

Computer: Now entering Zero-G Gravity. *As the room to the Zero-G Therapy room opens.*

Me: Here we go.

Then the voice from Zach came up.

Zach: As you all know, the Ishimura is able to set its gravity locally. Your gravity boots will kick in when you all enter a Zero-G Area. *And the comlink ended.*

Me: I know these Gravity Boots. They will help us walk in Zero Gravity.

The doors open, the lights all turn on. Revealing a bigger room and a computer monitor that said "Activate Zero-Gravity". As Isaac turned it on the Gravity dropped to 0. Everything is now floating.

Me: Zero Gravity. This is what its like to float in the endless void of space.

Laney: It's so awesome.

May: It sure is.

Isaac pointed up in the ceiling he jumps to it and landed there. Since they are in the Zero-G room. We all did the same and followed Isaac. But they encountered more Leapers there, who also took advantage of the Zero-G Therapy Room as well.

Me: Lets get them!

As we fired our weapons and powers at the Leapers. As the entirety of the Necromorphs in the room are now dead.

Me: That's that.

We now enter another door after Isaac puts another Power Cell in the plug. It is a small room and there we found the Shock Pads they were looking for.

Me.: These are Shock Pads?

After Isaac picked up the Shock pads. Zach's voice from the comlink appeared again.

Zach: Great, you all got the Shock pad. Combine that with the

Thermite, throw it at the barricade to destroy it. Shit! I can hear more coming. Moving through the vents. Stay safe everyone. *And the comlink ended.*

Me: We got company.

We see more Leapers, but also new Necromorphs. Which are flying.

Me: They can fly as well!?

Hunter: We can see that! FIRE!

We fired at the Leapers and the Fliers. After that, the Leapers and Fliers are all dead.

Naruto: That takes care of them.

Stuart: Now let's leave to the Security Station. We need to destroy the Barricade that is blocking the Morgue.

Me: Right.

Naruto: Lets get moving.

We left the Zero-G Therapy Room we entered the Vacuum of Space.

Me: Hold your breaths!

Isaac and Stewart hold their breathes and we enter the Vacuum of Space. After that we made it halfway to the Door. we encountered another Necromorph Slasher, though no loud sounds were heard.

The Necromorph Slasher charges at us and destroyed it.

We made it to the door, we opened it and went inside. The door closes and Oxygen air returns.

Computer: Exiting Vacuum of Space.

Me: That's it for that.

Isaac: Maybe next time, you guys should get spacesuits?

Me: Actually we don't need them.

We enter the Imaging Diagnostics Room and we went to the Cargo Life and descend into Floor 1. We found two more Slashers and one Leaper.

We destroyed them with ease.

After that we left the Imaging Diagnostics Room and enter the wing. But we encountered new Necromoprhs. But the were small in size and there are hundreds of them. Coming for the us.

Me: There's a swarm of those!

Nicole: That's what they're called!

Stuart: So glad I have a Flamethrower!

He fired his flamethrower at the Swarmers. Annihilating them.

Chuckling at Lincoln's pun. But nevertheless we continued to move and finally we exited the Imaging Diagnostics Wing and entered the Security Station. We saw a door blocked by a barricade.

Isaac: Okay, Lana, you and me must combine the Thermite and Shock Pad, and put it in the Barricade.

Lana: Right.

Isaac and Lana combine the Thermite and Shock pad together, they brought it to the Barricade.

Me: FIRE IN THE HOLE!

A flash of light began as Isaac, Lana, and everyone covered their eyes for a seconds before the flashing light died down. And the Barricade has been breached.

Isaac: Alright! To the Ishimura Clinic and into the Morgue!

Naruto: Right!

We went to the Clinic door, the comlink from Zach appeared again.

Zach from the Comlink: Okay, you all through. Should be clear from there to the morgue. Remember, the codes are on the Captain's body. *And the call ended.*

Lincoln: Lets go.

But as the door opens, we found another Video log there.

Lana: Lets see what this log says.

As Lana presses it. It opens a video of Nicole.

Nicole (DS): This is Senior Medical Officer Nicole Brennan, transmitting ship wide. We need more help! We don't have the resources to deal with this many cases. Nobody will tell us what's happening! These wounds… we're not equipped to deal with this many…

Cries of pain were in the background

Nicole (DS): speaking to nurse off-screen God… Get him to the table! Hold him! Nurse, you hold him down! Christ! End recording!

Zach's voice appeared again from the comlink.

Zach: That was Nicole, right? I can't tell from here when that log was made… I'm sure she's around here somewhere. *And the comlink ended.*

Me: Sounds like she had her hands really full.

Isaac: Yeah, after all, she is the Doctor. I'm worried for her. *Seeing the door with the words said "Emergency Room".* Let's head to the Emergency Room.

Me: Right.

We enter the Emergency Room and we saw the room is very dark with blinking lights on. But we also heard Necromorphs here, Lurkers to be exact.

Me: Here they come.

We fired at the Lurkers in this dimly lit room.

Me: These Lurkers are disgusting!

Lincoln: We know that.

After we finished the last Lurker we saw another Power Cell and Isaac placed it inside the plug. The room's lights turned on. But not only that, the door that says "ER Hallway A" was opened as well.*

Me: Careful guys.

We went inside the door of ER Hallway A we found another Lurker, as it fired Projectiles at us.

Lana: Look out!

Naruto fired his Flame ball jutsu at the Lurker, killing it as it's flesh is turned to ash.

Me: Nice shot bro.

Naruto: Thanks!

Lincoln: I found another room, but requires a Power Node. Well, no need for that, since i'll use my lightning powers.

He shot lightning at the Power Node slot handle. The door opens.

Lana: Nice work bro.

Lincoln: Thanks Lana.

We went into a small room and we got anything of value or ammo we also found another Schematic. Since Lana keeps collecting more Power Nodes, Credits, and Schematics.

Me: I think this is all we need.

We left the small room and encountered three more Necromorph Slashers.

Lincoln: They just keep coming!

Hunter: Und we keep beating them back! *As we fired at the Slashers limbs, killing them.*

Me: That's that.

We continue to move through Hallway A and we finally saw Hallway B. But Lana found another Audio Log behind them.

Lana: Look! There's another Audio Log.

Me: Lets hear it.

Lana presses it.

Eileen: Hello? Can anybody hear me? My name is Eileen Fisk; I just woke up in here and everybody was gone; I don't know what's happenin'… why did they all leave? I'm going to try and find someone; if you can hear this, please come for me… I hear scratching in the walls…

Harris: (groan)

Eileen: Hello? Who's there? A-are you a doctor? Why is everyone… wait, I know you. You're Harris, the prisoner from the colony… you killed that nurse… help… somebody help me… please… PLEASE!

Me: Whoa!

Laney: Scary.

Lincoln: Isn't that the guy who killed that the nurse from the colony but denies his actions that Eileen said?

Naruto: Sounds like it.

Lana: That poor Eileen must of been killed by that Harris guy.

Me: If I find him I will kill him.

Isaac: Or the Necromorphs might of gotten him. But yes, he will pay for this.

Lincoln: Yeah.

Stuart: Let's continue.

We went to Hallway B and found three more Necromorph Slashers. They charge at the group.

We destroyed them.

But we also found another Text log. As Hunter picked it up and opened it.

NEWBORNS

Alyssa Rose

Kai Jatin

Alyssa

Leoni

Ian Ansel

Jackson Thomas

Lucas

Zara James

Caitlyn

Kai Jashua

Kody

Kyle

Jiannah Faith

Jack William

Agatha Marjorie

Me: All these babies.

Hunter: Ja, they're the Baby names on this Text Log. Why did the Necromorphs have to turn them into Lurkers?

Lincoln: No idea.

Nicole: Ruthless creatures.

We continue to move to the door that said "Intensive Care Unit". After opening it, we found a Woman there. She was laughing as she was cutting the man apart with Bone-saw.

Woman: Hhheheheheheheheheeh

Man: Aghhhhhhh Ahghhh! *As he dies, and the Insane woman looks at us. Before she slit her own throat with a bone saw. Killing herself while laughing insanely as she dies.*

Me: Geez! Something really fucked these people up!

Isaac: I know, what the hell is happening here?

We found another that said "Morgue".

Me: The dead fridge or as it's normally called, The Morgue.

Lincoln: Yes-wait, I found another Text Log!

Me: Lets see.

After I picked up the Text Log. It said

SCIENCE LOG

FROM: DR. KYNE, T. (CHIEF SCIENCE OFFICER)

ATTN:CAPTAIN MATHIUS, B.

Benjamin -

Further to your previous conversation, I ask that you delay bringing the Marker up from the planet for a day or two.

You know I'm as keen as anyone to study it in detail, and I understand your sense of urgency given the events on the colony, but that's why I ask-what's happening down there is just too unique, too unprecedented, to cut it short without proper time to study the causes and effects.

In light of a discussion I had with Dr. Mercer, I'd like to meet with Drs. sciarello and Welland planetside to get their observations.

-Terrence

Me: Wonder what that means?

Lincoln: This Kyne must be talking about the artifact they found on the planet.

Me: Maybe.

We open the door to the morgue and see the hallway. But the glasses from both walls suddenly broke off for no reason.

Me: Woah!

Naruto: What was that!?

Isaac: I know. *Sees another Audio Log on the ground.* I found another Audio Log!

Lana: Lets hear it

Isaac presses it.

Kyne: Science log, Chief Science Officer Dr. Kyne reporting. The colony's problems concern me greatly. I have no doubt they are somehow linked to discovery of the Marker, but the exact nature of that connection is still unknown. Almost 40 percent of the colonists are experiencing a form of dementia. The obvious symptoms are acute depression, insomnia and hallucination. Incidence of violence and even murder also indicate extreme paranoia. Dr. Mercer has advised that I bring some of the affected on board for study. Dr. Welland, the planetside psychiatrist, has reported that his own analysis has been fruitless. I'm hesitant to rely on Dr. Mercer at this point, but I need his expertise. We need solutions and we need them quickly.

Me: I think this Marker has something to do with all of this.

Lincoln: I agree with you.

We continue to move through the Morgue hallway and we found another Lurker there.*

Lincoln blasted it with lightning.

The Lurker dies as it's necrotic flesh disintegrates into ash and dust.

Lana: It disintegrated.

Lincoln: Thanks Lana. Hey! I found the Elevator that leads to the Morgue! *Pointing to where the Elevator where the words said "Morgue" on it.*

Me: Let's go!

We enter the Elevator after that. The elevator opens and it reveals another door that said "Morgue Room". We made it.

The door opened and a Slasher Necromorph roar was heard and we saw it and destroyed it!

After that, we see the entire Morgue empty. No Bodies with the exception of one corpse. From another room through the glass wall is Captain Benjamin Matthias himself. Laid on the table and it had what look like a Sedative needle punctured his right eye.

Me: This is disgusting.

Isaac: The Captain?

I found an I.D. tag on him. I wiped some blood off and saw that it was the Captain.

Me: It is the Captain.

Naruto: Well let's get his RIG codes- *Screech* We're not alone are we?

Me: No we aren't!

Another Necromorph appeared from the ceiling. And grabbed the dead captain, and punctured his head with it's proboscis, it sent some kind of liquid like substance inside the dead captain. But to our shock, horror and disgust. Is this thing is resurrecting the Captain into a Slasher. But this time, this Slasher has yellow eyes, and blackish skin. And looks at me, as it charges.

We blasted it and killed it.

The Infector like Necromorph then charges at Lana. With it's proboscis ready to impale her. But Lincoln intervenes and fires a Void Rasengan at it. Disintegrating it into ash.

After the fight, the Black Slasher drops the Captain's RIG codes.

Me: Good work Lincoln!

Lincoln: Thanks!

Isaac then picks up the RIG codes from the Enhanced Slasher.

Lana then see's another Text Log there.

Lana: I found another Text Log!

Me: What's it say Lana?

Lana shows what the Text Log said.

MEDICAL LOG DR. DOMUSS, G. (MEDICAL EXAMINER) REPORT OF DEATH ON SHIP SUBJECT: CAPTAIN MATHIUS, B. It is my sad duty to officially pronounce Captain Benjamin Matthias dead.

Reports of the exact circumstances surrounding his death are conflicted, and beyond the scope of my role. I can only report on the body.

The subject was in generally good health for his age, though a cursory blood test indicates his leukocyte count was very low, with eosinophils in particular almost non-existent. His preflight physical exam showed no such problems, indicating rapid onset; however, it is unlikely this had any effect on his death.

Multiple contusions on the arms and hands, indicating a brief struggle pre-mortem. Slight contusions around the ribcage, suggesting hes chest was restrained in some way. Cause of death was a single prolonged trauma to the ocular body which continued on through the cavity wall, and finally into the frontal lobe, causing rapid neurotrauma, seizure and death.

The force required to puncture the ocular cavity in this manner is great, and the possibility of self-infliction correspondingly low.

I therefore have not alternative but to record a preliminary verdict of UNLAWFUL DEATH. Whether deliberate or accidental is beyond my jurisdiction.

Me: Holy Shit!

Lincoln: He died by a eye injury?! And it was the work of someone?

Me: Looks like it.

Zach's voice appeared again.

Zach: Codes received, and they look good. Thank god. I'll start accessing the Captain's records right now. Head to the tram station everyone, and i'll contact you all there. I'm going to find out what the hell happened to this ship… *And the comlink ended.*

Me: After we get off this ship we need to destroy the planet.

Isaac: Good plan!

Nicole: I agree. That planet needs to be obliterated.

We left the morgue and the emergency room. We head to the Security Station. We another Enhanced Slasher attacking them.

They blasted it to pieces.

We then went to the wing while heading to the Security Station. The video image of Zach appeared.

Zach: Isaac! Everyone! Somehow one of them found a way down to the Captain's Nest! I managed to contain it in a damaged escape pod.

Me: Good work.

Zach: Thanks J.D.! *He looks around to sees any. But nothing was there as he turned his attention back to the video feed.* Lifting the executive lockdown now… I found the Deck logs… Whatever is happening around here, it came from the planet when they cracked it open. It spread to the colony and reached the ship. Isaac, everyone, this isn't an infection. It's some form of alien life! SHIT! We've got bigger problems. The ship's engines are offline and our orbit is decaying! Get over to the Engineering deck ASAP, while I stay here and figure out what the problem is.

Me: Roger that and when we're done here we're gonna destroy the planet and obliterate all those Necromorphs.

Zach: So that's what those things are called? How did you know what their names?

Me: They were from a previous log. That's what they're called. Also Nicole here told us more about them.

Zach: I see, well. Get to the Engineering Deck and fix the engines! *After that, the video feed was cut off.*

Me: Lets go!

As we enter the Tram station, there, they enter the Tram. Their Destination; The Engineering Deck.

Me: The engineering deck.

After arriving to the Engineering Deck, the video feed from Zach appeared again.

Zach: Isaac! Everyone, we've got two problems, and we're working on borrowed time here! First, there's no fuel in the engines. Second, the gravity centrifuge is offline… which means there's a couple of trillion tons of rock pulling us down. I need you to get that centrifuge operational, refuel the main engine and fire it up so I can stabilize the ship's orbit.

Me: We'd better get the gravity back up and fuel cells at optimum levels.

Nodding, we left to what looked like a Control room there. We see one of the dead bodies of a man, sitting in one of the chairs. Yet there is another Video Log there as well.

Naruto: Found Another video log.

Me: Lets see it bro.

It plays the Audio.

Temple: Personal log… acting Chief Engineer Jacob Temple. It's been two days since they pulled the planet open… since the captain died. The panic, the riots… They were nothing compared with what came after. Our friends, our co-workers started coming back… changed… coming back to kill us, drag us away. Rucker disappeared this morning, and I have to assume he's dead. My crew… they're starting to crack. I'm trying to keep an eye on them, but right now I have bigger problems. We're hemorrhaging fuel, and the primary engine is laboring. Danvers and I are going to try to reach the fuel depot to see if we can fix it… Temple out.

Me: This is really bad. Paranoia and fear destroyed them all.

Isaac: And it looks like this Jacob Temple didn't succeed, didn't he?

Me: No he didn't.

Nico: No kidding.

Lincoln: Well, let's finish what Mr. Temple wants to fix.

Me: Right. Lets do so.

Isaac lead us to the Machine Shop on the right of the Control room. There, we descend down the stairs. But they also saw another Necromorph Slasher, playing dead.

Me: Not this time.

I fired a blast of fire at it and incinerated it.

After that, they went into the small room which was full of Spacesuits and another Audio Log there as well.

Me: Look at all these spacesuits.

Lana: Another Audio Log. Lets see what it says.

She plays it.

(screaming and insane mutterings are heard in background)

Jacob Temple: What in hell is going on here? Danvers!

C. Danvers: It's, it's Henderson… He's crazy! Pulling his own… teeth out!

Temple: Henderson! For god's sake!

Henderson: UWAAA..UNHH!

(Sudden bang followed by soft thud)

Danvers: Oh, god. Is he dead?

Temple: Relax, he's alive. But he hit that door pretty hard.

Danvers: Man… Why would he do something like that!? I don't get it.

Me: Horrifying.

Nico: Holy shit!

Hunter: Why would that Henderson guy pull his own teeth out?!

Lincoln: That's sick and twisted.

Laney: Severe insanity.

Naruto: What kind of madness had these guys been inflicted with?

Me: No idea bro. But this is horrific. The sooner we destroy this place and the entire planet the better. You guys know I have the power to destroy entire planets right?

Lincoln: Yes, but we need to fix the engines here. And then we destroy the Planet.

Stuart: Wait? Why not destroy this Marker, I think this artifact is responsible for all of this shit.

Me: It is. And I can sense that it's on the planet. We need to find it and destroy it and the planet both.

Stuart: Actually, it's on the Ship. It was pulled from the Planet a week ago. Which was a few days before the outbreak.

Me: Then we need to send this whole ship into the planet and blast them both.

Isaac: Wait! Aren't we suppose to fix the engines?

Me: Yes and we'll use this whole ship as a bomb and my power will boost it.

Nico: That just might work.

Isaac: Alright, but those engines need to be fixed. In order to stabilize the orbit.

Me: Right. Lets do it.

We continue to walk through the Machine Shop room. We found another Upgrade Bench and another Text Log there.

Me: Another Text log. Lets see what this one says.

The Text Log said.

DECK LOG

HALLOW, F. (AB)

Don't know what's going on around here. Someone said the ship's been attacked. Who the hell would attack us out here? First the Captain dies, now we get attacked? Carmack says someone on Bridge staff killed him. Can't believe that.

Goddamn chaos now. Can't get through to the Bridge. Can't get through to anyone. Everyone's running. Getting the hell out of here. I should probably join them.

Me: This is really bad.

Isaac: Yep. *But sees the door to our left. It said "Refueling Control Station".*

Me: The refueling room.

We enter the Refueling Control Room and continue to walk where it is. Until a Slasher came out of nowhere from above and it started to attack us.

Lincoln fired a blast of lightning and incinerated it.

We continue to move and we found one of the Refueling tanks, and a lever that needs to be pulled down.

Me: I got this.

I pulled the level down.

Computer: Refueling sequence activated.

Me: We have refueling.

Isaac: Now let's get to another Refueling tank!

He led us to what looked like a moving cargo lift. As Isaac pulled it from his Kinetic Module towards us.

Me: I can do that.

Isaac: Well, let's get to the other side of this room, and find that

Refueling tank.

Me: Okay.

Laney: Lets get moving.

We went inside what Stuart had called the Gondola. It moved to where we were going to. We also heard Necromorph sounds as well. And across the Fuel room we were going to it was crawling with dozens of Necromorph Slashers there.

Me: Here they come!

We fired our weapons and powers at the Necromorph Slashers after the Gondola arrived. We quickly left the Gondola and fought against the Slashers while trying to find the Refueling station.

We destroyed them all with ease.

After that, we found another Audio Log there.

Me: Another Audio log. Lets hear it.

After pressing it.

C. Danvers: Never should have let him live. Never should have let him live.

Jacob Temple: Shut it, Danvers! Shut… it! Engineering log. Temple reporting. Someone has shut off the fuel lines to the primary engine, and damaged the valves in the process. They need to be repaired before I can re-open them, but we're running out of time. With the engine offline, orbit decay will begin in less than ten hours. I just can't understand who would do this. If it's one of those crazy Unitologist bastards, I'll break their neck!

Danvers: Henderson said they were coming. We never should have let him live.

Temple: Shut up, Danvers and help me with the tools. Temple out.

Me: Geez!

Lincoln: What does Danvers mean "Never should of let him live?"

Me: No clue. But it's not good.

We were continuing to find the second Refueling station and we finally found it. And like the first one it too needs the level to pull down.

Computer: Sufficient fuel to fire primary engine.

Zach's voice from the audio feed appeared again.

Zach Hammond: Whatever you guys did, it's working guys! I have a fuel reading. It's only a quarter full, but that's enough to restore the orbit once you bring the engines online… What the hell? False alarm. Though I saw something.

Lincoln: What is it?

Zach: I thought I saw something. Anyway, continue to go and fix the engine. Zach out.

And the audio feed cut off. But we then heard something, it was coming from three Lurkers, four Leapers, and seven more Slashers. As they attack us.

I fired a blast of energy and vaporized them!

Lana: Good shot J.D.!

Me: Thanks Lana. Lets keep moving.

After entering the Gondola again, it moved us to the same room we once came from. But we see more Slashers, including another hundred of Swarmers there as well.

Lana: I got this!

Lana formed a powerful Rasenshuriken and it emitted the roar of a howling blizzard and the cold temperature coming off of it was incredible!

Lana: ICE STYLE: ABSOLUTE ZERO RASENSHURIKEN!

She threw it and in a massive explosion of ice, cold and snow, the Necromorphs were frozen solid and they all shattered into a million pieces and died.

Me: Nice work Lana!

Lana: Thanks J.D.!

Me: That was awesome! You must've learned some moves from Naruto and me.

Lana: I have this habit of picking up things on the fly.

Me: It was awesome.

After the Necromorphs were defeated, we moved to the door that said "Return to Control Room", after that, they went inside. But they saw another Infector through the Control Room's window, it struck it's proboscis on the same dead body they found earlier. And transformed it into another Enhanced Slasher.

Naruto: Not this time! FIRE BURST RAY!

Naruto fired a massive blast of fire from his hands at it and incinerated it.

Me: Nice job bro!

Naruto: Thanks big bro.

But now we have to fight the Infector. It's target is Lana. But like last time, Lincoln killed it with an Void Rasengan.

Me: Nice job buddy!

Naruto and Lincoln: Thanks J.D.!

Me: Awesome!

We went inside the Control Room, Isaac activated the navigation device, and it leads us to an Elevator to the Gravity Centrifuge.

Isaac Clarke: Looks like we have to fix the Gravity Centrifuge, and then the Engines.

Me: Okay. Which way is it to the Gravity Centrifuge.

Isaac: To this Elevator where my Navigation device wants us to.

Me: Okay.

After entering the Elevator it descends into another room. After opening we left the Elevator. But we found another Audio Log.

Me: What does this log say?

Stuart picks it up and presses it.

Jacob Temple: This is Temple. Now the centrifuge is offline! We've got four trillion tons of rock hanging off our asses, and without that centrifuge to balance the ship, the gravity tethers will pull us straight down to the planet! I'm heading over there now to see if I can fix it.

Me: That's a lot of Rock! That's 8 Quadrillion pounds of rock! We got to get that centrifuge back online.

Hunter.: Right J.D.! We need to fix the Gravity Centrifuge!

We enter the room that said "Decontamination room".*

Me: It's a clean room. They have to keep it sterile and germ free.

We open the door and went inside. Isaac presses the Decontamination Chamber as the alarms were turned orange.

Computer: Decontamination sequence activated. Please stand by. *As the metal bars appeared on all windows and the showering water appeared. But outside we see several Necromorph Slashers and they bust through the vents.*

I fired lightning at them and destroyed them.

Computer: Decontamination sequence complete. Thank you for your patience.

And the door to the Gravity Centrifuge opens and the metal bars ascend and the alarms shut off.

Me: You're welcome.

I dry off.

We went into the door that said "Gravity Centrifuge" and we see a Hallway. But which way is the Gravity Centrifuge? Is it on the Left or the Right?

Lana: There's a fork.

Me: Looks like we have two choices.

Isaac: Hold on. (He activated the Navigation device of where we were going.) It's on the right!

Me: Okay.

We follow Isaac and after a journey we made it to the Gravity Centrifuge room's first door. After entering it we see the second door there and it opens.

Computer: Entering Zero-Gravity.

Me: Here we go.

We entered a large room. Where the gravity centrifuge is at. But to their right, they see a wall of flesh looking stuff there as well.

Me: Holy crud! That is the biggest Necromorph of them all!

Isaac: What is that stuff?!

I touched it.

Me: It's very squishy. (I noticed that my hand is covered in blood) Yuck! And it's covered in blood.

Lincoln: It's disgusting!

Me: Ug-ly!

Stuart: Well, that stuff won't remain here for lon-oh fuck!. It moved! It fucking moved!

Me: It's alive. Here we go.

Lana: More Leapers!

We see several more Necromorph Leapers.

Me: Lets get them!

We fired their weapons and powers at the Leapers, finishing them off.

Me.: It's not over yet!

We see a Brute Necromorph.

I fired an energy blast and it curved around and it hit its back and exploded and killed it.

Hunter: Nice shot Herr Knudson!

Me: Thanks Hunter.

Nico: Lets get this baby powered up.

We knew we had to get the Generator Modules back online to the Gravity Centrifuge to work. After fixing the two generators we went back to the centrifuge.

Computer: Generator Modules attached. Centrifuge power restored.

Me: That did it!

Isaac: Now we need to activate the Centrifuge guys.

Lincoln: Okay.

We went to where the power button to the Centrifuge is and Isaac presses it.

Computer: Centrifuge activated. Re-establishing balance with planetary cargo. Gravity restored. Entering vacuum.

Me: Here it comes!

As the vacuum of space enters the Gravity Centrifuge room, though there's gravity. Which means we can't get back and must walk to another cargo lift in order to get out. But we have to avoid the Centrifuge's arm as well.

Me: Look out!

We dodge the Centrifuge's arm and continue to go and the audio feed from Zach appeared.

Zach: You're all doing great guys! Centrifuge and gyros are both at 100% and stabilized. Now get out of there and focus on the engine. I don't know how much time we have left.

Me: Easier said than done! It's like trying to dodge bullets firing from guns all over the place.

As we continued to move while avoiding the centrifuge arms, one of the Necromorph Leaper's attempts to pounce on Lana, only to be crushed by the Centrifuge arm.

Me: That worked.

After a long walk we managed to get back inside.

Computer: Exiting vacuum.

Me: Whew.

But another Necromorph appeared. This time it was a Tentacle and it grabbed me by the leg and I blast its weak spot. The Drag Tentacle was cut in half after it's yellow spot was destroyed. And the remaining one fell back inside the hole without it's prey.

Me: That'll teach ya.

Lincoln: Yep.

Nico: Nice try.

Vince: That's telling him.

We went to the Decontamination room again and went back to where the Elevator that would take us back to the Control room. But we found another Necromorph Slasher there as well.

Lana fired a blast of energy and destroyed it.

Lana: See ya freak!

We went inside the elevator and we got another Video feed. But this time it was from Kendra Daniels.

Kendra Daniels: Isaac? Everyone? Can you all hear me? It's Kendra… They attacked me… I ran for it… and Hammond just… he just disappeared.

Me: (In my head) Hmm. I'm getting some very bad vibes from that Kendra woman. But I better play along. (Out loud) We hear ya.

Kendra: Okay, I don't know where Hammond is. But I can't think of any possible fate of what happened to him?

Zach: Kendra! Where are you!?

Kendra: Never mind. Nice to see you're alive and well, Hammond. I've barricaded myself in the computer core. I can hear them moving outside. But I don't think they know I'm in here. I can log into everything from here. I hacked the root and found some reports from the colony. Even before they cracked the planet, the colonists were experiencing widespread dementia. It seems to be related to some artifact they found on the planet. Something called "the Marker." I'll keep looking. I've got your location, and I'm going to unlock the door to Fuel Storage. You can get to the engine chamber from there.

Lincoln: Okay.

We enter the two doors on the left of the Control Room and we enter the vacuum of space again.

Computer: Entering vacuum.

Me: Here we go.

But the computer also said something else too.

Computer: Entering Zero-Gravity.

Me: Uh oh.

We follow Isaac's lead by jumping through Zero-G on the damaged hull. We the energy field that prevents the vacuum from entering. But we also saw two more Leapers there as well.

Me: Lets go!

We fired at the Two Leapers and enter the force field, finally exiting Zero-G and the vacuum of space and enter the door that said "Engine Room".

Me: We made it.

And now we move through the halls of the Engine Room and we found a large room which was covered in the same Necrotic substance like the gravity centrifuge room we saw earlier. But now this room has more of these stuff than the Centrifuge room.

Me: Oh yuck!

Naruto: Gross!

Laney: This stuff is everywhere.

They heard someone groaning in agony, as they see a person. Stuck in the necrotic flesh wall. With no legs. But was alive, but in so much pain.

Me: What the shit!

Lincoln: What happened to him?!

More agonizing groaning was heard from the same man.

Naruto: That is gorey.

Isaac points his Plasma Cutter on the man's head. Firing it, killing him, to spare him anymore pain and give mercy.

Me: Good thinking.

Isaac: Thanks, I'll despise myself for not killing that man. He doesn't deserve this fate. So I gave him a merciful death. So that the Necromorphs would not use him anymore.

Me: You did the right thing.

Lana suddenly opens the door to the right of the same man where Isaac have given mercy. It opened and revealed loot there. But there was also another Audio Log.

Lana: I found another Audio Log!

Naruto: What does it say?

Lana presses it.

Jacob Temple: This is Temple. Screw the engine. I can't restart it by myself, and with all the other shit going on, it's obvious this is sabotage. I'm heading for the bridge, and then I need to find Elizabeth. I've got to get her off this ship, it's not safe.

Me: We got to get the engine online

We continue to find the Engine and we found another Door. We opened it and it revealed more loot. Including another Text Log there.

Naruto: Another text log.

Naruto picks it up, as it said.

ENGINEERING LOG

DANVERS, C. (QMED)

Re: Organic growth in engineering (Update)

The unidentified growth seen in other parts of the ship has now reached engineering. I don't know what the hell this stuff is-looks like someone threw up their guts all over the walls-but it's spreading faster than we can cut it up, which is pretty disgusting in itself.

It's already in the engine spoke. and if we can't find a way to stop it soon, it'll hit the main chamber by the day after tomorrow. I hope the docs are looking into it, because it's way beyond me.

Me: You don't have to tell me twice.

Finally seeing the cargo lift, we enter it and descend into Floor 2. There we went into another small room. They see another dead corpse of a miner there. But for some reason, this dead body came back to life. An agonizing groan was heard in this man as he finally fell down dead.

Me: That was weird.

Isaac: We know.

We found another Cargo Lift and descend down and we enter Floor 3. But we also saw two more men stuck in the wall. All alive but are in agonizing pain as well.

I fired a blast of fire and burned them to ash quickly.

Me: They didn't deserve this.

We found another door that requires a Power Node.

Lincoln: I'll use my lightning powers again.

As he shoots lightning at it, it powered the door. As it opens, it revealed more loot there.*

Me: All right!

We see another Door that said "Exit to Engine Room". But the door was malfunctioning.

Lana: I got this.

Lana fixed the door.

Lincoln: Thanks Lana.

Lana: No problem bro.

Carol: That's our little handyman.

But there was another Slasher and it attempts to get to Lana with it's scythe blades on it's arms.

Naruto fired a blast of fire at it and incinerated it.

Lana: Thanks Naruto!

Naruto gave her the thumbs up.

As we move forward in the Hallway, we saw a hundred more Swarmers and a single Slasher there.

I fired an energy wave and obliterated them.

After that we continue to move, seeing the stairs that leads us to the door after opening it. We see three more Slashers including a new Necromorph that looked similar to the Slashers but with a big sickly yellow belly.

Me: That one looks like it's about to give birth!

Nicole: That one's called a Pregnant!

Lana shoots her purse rifle at the Necromorph's belly and it ruptured as the Necromorph fell down in the ground. But it was still crawling with it's scythe blades and the fetus where it used to be became Swarmers which came out from the belly, as the three Slashers, the Pregnant, and a hundred more Swarmers came after us.

Naruto: Oh yuck!

Lana: You were right J.D.! That thing was pregnant.

Stuart: Less talk more shooting! *He fired at the Slashers, Swarmers and the Pregnant with his Flamethrower.*

We fired energy blasts, powers and weapons and destroyed the Necromorphs.

Isaac: That's that!

He got to the controls and pressed it. Powering it.

Computer: Ignition sequence initiated. Please stand by.

Me: Here we go.

We also heard sounds and we see several dozen Slashers, seven Leapers, three Lurkers, two Pregnants, and a single Brute. All ready to attack us.

Me: Whoa!

Nico: What an army!

Hunter: Looks like we have to destroy the Necromorphs here.

Naruto: A bunch of them.

We fired our powers and weapons at the advancing Necromorphs and destroyed them all.

After that Isaac presses the controls again.

Computer: Engines firing.

The group heard them turn on.

Me: Engines online!

The video feed of Zach appeared.

Zach: It's working! We're online and functional! Finally some good news. Get a tram to the bridge, Isaac. Everyone, I'm going to take us back into a geostationary orbit.

Me: Roger that! Lets move!

Kendra appeared from the video feed.

Kendra Daniels: Wait, wait! We're not safe yet. The ship's Asteroid Defense System is offline. On the way up, the ship's going to pass through a debris field thrown up from the planet crack. We'll be ripped to pieces unless you restart it.

Me: Not good!

Zach Hammond: Goddammit! I'll start working on it from here. Isaac and everyone, meet me at the Bridge. You all can do more good here than I can.

Me: We're on our way!

We went to the hallway, but Isaac stopped.

Me: What is it?

Isaac: I thought I heard Nicole from the Audio Feed. Did you guys not hear that?

Me: I didn't hear anything.

Laney: Me neither.

Naruto: Same here.

Lincoln: No.

Isaac: Must be my imagination. Let's continue to the tram station.

Me: Okay.

We see the door that said "Control Room" and enter it and we finally enter the Tram Station. After getting on the Tram, their destination; The Bridge.

Me: Here we are.

After everyone exits the tram and enters the Bridge tram station, the video feed from Zach appeared again.

Zach Hammond: Isaac. Everyone, come in. Kendra's right, the ADS is completely shot. I'll need your help to fix this. Kendra, if you can hear me, see if you can get into the ship reports. It sounds like you have better access from there.

Kendra Daniels: When were you going to tell us about the artifact, Hammond? This "Marker?"

Zach Hammond: I don't know anything about that. It's referenced in the Captain's records. They brought it up from the planet…

Kendra Daniels: It's on the ship?!

Zach Hammond: In the cargo. They think that it's of alien origin. But I don't know what the hell it is.

Kendra Daniels: Really? CEC didn't know anything about it? You're lying.

Zach Hammond: Back off. I am not the bad guy here. We're all shaky right now. You're going to have to trust that I don't know anything about it. We've entered the debris field! Get to the captain's nest. I'll explain everything later. Hammond out.

Me: Lets get over there!

We see the door that said Main Atrium.

We went into the Main Atrium.

As they were continuing to move through the hallway, the wall on the left had one of it's non seeing glass broke off, revealing a tentacle, who was trying to get the group. But fell back from the hole.

Me: Whoa!

Lana: That was ugly.

Me: No kidding.

It came back again but this time it was the Brute's head as it was trying to get us. But like the tentacle it too had it's head fall back from the hole.

Lana: What is with this tentacle?

Lincoln: And this Brute?

Me: No idea.

We continue to move through the hallway and finally found the door that said "Main Atrium." We open it and it reveals a bigger room with lots of computer stations, a holographic map of the Milky Way, and a two elevators and a large glass window.

Me: Whoa! It's a holographic map of the Milky Way Galaxy!

Lana: Look at all this equipment!

Laney: This is all amazing.

Lincoln: Lisa would love this room.

Me: She sure would.

Isaac: I have a question Lincoln?

Lincoln: What is it Isaac?

Isaac: You mentioned Lily and Lisa? How many siblings do you, Laney and Lana have?

Lincoln: I'm the only boy with 11 sisters. Five older, six younger.

Isaac and Stuart were shocked at this.

Isaac: That's a lot of sisters!

Stuart: If I have to guess, your older sisters are 20 to 30 years older than you?

Lincoln: Nope. Lori is 17, Leni is 16, Luna is 15, Luan is 14, Lynn is 13, Lucy is 8, Laney is 8, Lana & Lola are twins and they are 7, Lisa is 4 and Lily is 15 months.

Stuart: You said you have five older sisters?

Lincoln: Yep. I'm the only boy biologically in a family of 12 kids.

Me: It's an awesome story. We'll explain later.

But then an asteroid hit the Main Atrium and it made two large holes on it. Luckily there is no vacuum coming here.

Computer: Warning: Hull breach detected.

The audio feed from Kendra appeared again.

Kendra: Isaac! Everyone! The impact on the bridge right at your feet! I'm reading heavy damage but containment looks solid. Life support is stabilized. We've got to get the ADS working again!

Me: We're getting right on it Kendra.

We see the Captain's Nest elevator. We went there as it descends and we see the door that said "Captain's Nest".

Me: Captain's Nest? This must be where the captain works at.

Hunter: That's where Zach is.

Me: Lets see.

We open the door and we see a small room with the Captain's chair, a holographic map of the the Planet Aegis VII. And Zach himself.

Me: Are you Zach?

Zach: Yes I am! But damn, you guys scared me. This place making me jumpy.

Me: It's making all of us jumpy. But it's a pleasure to meet you in person.

Zach: Same here. And is that your ship over there? (Points to where our Ship is.)

Me: That's the one.

Zach: Does she have a name?

Me: Yes she does. It's the U.S.S. Valor.

Zach: I see. *Rumbling was heard by another asteroid. As he grunts in frustration.* Goddamn asteroids are coming through the roof… Look, I know Kendra doesn't trust me, but to be honest, I don't know anything about the Marker or anything else. This was supposed to be a repair mission, plain and simple.

Me: And it ended up turning into a nightmare from the 9 levels of hell.

Zach: You can say that. But yes, everything literally went to Hell when those Necromorphs as you found from one of the Audio Logs started spreading everywhere on the Ishimura. Now, this mess is being cause by the Asteroid Defense System failing. I can fix these boards but the main power routing is shot. You guys are going to have to re-route them manually through at the east junction boxes to activate the primary cannon.

Me: I think Necromorphs came from the planet and we have to blow up this whole ship and the whole planet.

Zach: Blowing up the ship is not an option unless it needs to be. Oh while you guys are going to get the junction boxes online, first you guys need to activate the Atrium elevators from the Bridge security. You can use them to get to the junction boxes.

Lincoln: We don't have a choice Zach. These creatures pose a tremendous danger to the entire universe and they will destroy all life in the galaxy if we don't stop them.

Me: Our best option is to destroy the entire planet of Aegis VII and this entire ship with it. Here's why Zach.

We revealed everything.

Zach: I see. So they are a danger to the entire universe. But like i said, it's not an option unless we have no choice. Now go and fix the junction boxes after reactivating the Atrium elevators.

He continues to look, but stops and looks at us again.

Zach: By the way guys, Be careful. I saw something out there. I don't know what, but I only got a glimpse. But it was big. Really big. But it looked like it took some damage and someone must of fought this monster before.

Me: We'll be careful. Lets go.

Zach: Oh, one more thing. Here.

He hands the Text Log to us.

Zach: Found it here.

We read it and it said:

MINING LOG

DALLAS, A. (SUPERVISOR, 2nd ENGINEER)

The death toll is mounting. Known dead so far:

Arnold-Fernandez, D

Ashik, M

Me: Whoa!

Zach: I know, pretty gruesome.

We left the Captain's Nest. One of the damaged escape pods had one of the Slashers and it attempts to brake through the door and get us.

Zach from Audio Feed: FUCK! Stand back!

As the pod where the Necromorph was has been ejected into space.

Zach: Thought that one was dead when I sealed the pod. These things don't die easily. Do they?

Me: No they sure as hell don't.

Zach: Better get moving. *

We left in the elevator and we arrived back in the Atrium room. We see the door and went there but the door was breaking and something was in there. The door broke and it revealed two Brutes. Two are normal, but one was sickly brownish black with yellow eyes. Suggesting that this Brute was enhanced.

We fought and destroyed the Enhanced Brute and two more Brutes were dead as well our hands. But Lana found one of the Audio Logs here.

Lana: I found a Audio Log!

Naruto: What does it say?

Lana presses it.

Worker: Bridge, come in! We've been boarded, repeat, the ship has been boarded! We are under attack!

(A man is heard shouting "OPEN FIRE" and loud gunfire is heard)

Worker: What the hell are they? Th-they've already killed most of the deck staff! We need security backup here immediatly! Guns are useless, we can't hold them back for very lo-

(feed cuts out)

Me: SHIT!

Isaac: I know, the crew on this Bridge didn't stand a chance.

Me: No way in hell.

Hunter: Hey guys, while we went to the Captain's Nest. I found this Schematic about a Level 3 Suit?

Isaac: Well, I did see the Store. Follow me.

Me: Okay.

We follow Isaac to the store right next to the Main Atrium door. The store converts into the armor changer and Isaac steps inside for several seconds before coming out with a new suit on.

Me: Nice suit Isaac.

Isaac: Thanks J.D. Now let's get to the room where those Brutes came from.

Me: Right!

We went to the Security Room where the door used to be and it was a small room. Strange, how come this small room hosts three massive Brutes that they killed earlier? But nevertheless, we continue to move. We saw the Elevator Control and Isaac presses it.

Thus unlocking the Elevator on the Atrium room.

Computer: Atrium elevators are now online.

We took the Atrium Elevator.

We also saw another Video Log in the Elevator we took it.

The group activated the Video Log.

(Kyne stands in front of Matthius; two bridge staff stand behind him.)

Matthius: (looking behind him, at the two bridge staff) This is mutiny. You'll all be tried for mutiny! Kyne, make them listen to reason.

Kyne: Settle down, then. (to the bridge staff) Hold him.

(The two men restrain Matthius from behind by the arms)

Kyne: By Maritime Law Article 54-69, I hereby declare Captain Benjamin Matthius unfit for duty.

Matthius: The marker… must be delivered to the church! Terrence! Please!

Kyne: (turns away, and readies a needle) I'm sorry Ben, but I can't let you do this.

Matthius: Traitor. Heretic!

Kyne: (turns back around) Hold his head.

Matthius: MURDERER!

Kyne: Hold him!

(Matthius begins to violently struggle in the men's grasp. Kyne tries to get a clean shot with the needle, trying to inject it in his neck. Kyne stabs with the needle. The needle goes right into Matthius' left eye. Matthius screams in agony, blood pouring out of his eye socket. The two men let go of him in shock, and Matthius falls backward onto the flood, dead.)

Bridge Staff 1: He's… dead!

Kyne: N-no, it was an accident! I had to stop him!

Bridge staff 2: Arrest the doctor.

Me: Whoa! I wonder what they arrested him for.

Lincoln: Isn't that the Captain we took the RIG codes from, before he became the Necromorph on the morgue?

Me: That sure sounded like it.

Hunter: Und Kyne, we were at his office in the Main Lab. So he's the reason the Captain's dead?

Me: Good god.

Lana: Didn't Kyne said it was a accident?

Naruto: Looks like paranoia and fear made them quick to judgement.

Me: My thoughts exactly bro.

As the elevator made it to the bottom, they heard a girl scream.

Me: Whoa we have a girl in trouble!

Isaac: Let's find out!

We went down the hallway that said "To Ship Systems Room" and we found a girl that was 8 years old being chased by three Necromorph Slashers.

Me: Oh no! Get away from her you freaks!

Me and Lincoln fired powerful blasts of lightning and destroyed them!

Girl: Y-y-y-You saved me?

Me: We sure did. Are you all right?

The girl hugged me and broke down crying. I comforted her.

Me: It's all right. It's all right.

Stuart noticed this girl before.

Stuart: Susie?!

Susie: Dad! *They hug each other.*

Stuart: Thank goodness you're all right sweetheart.

Susie: You too daddy!

Isaac: At least we saved Stuart's daughter from the Necromorphs.

Me: We sure did.

Susie: Who are you guys?

Me: We are Team Loud Phoenix Storm.

We introduced ourselves.

Susie: Thank you all so much.

Me: You're welcome Susie. Maybe we can beam you and Stuart onto our ship for safety.

Stuart: You can do that?

Me: Sure. Our ship has a powerful long range transporter.

Naruto: That's cool!

Me: It sure is bro. We can get you out of this nightmare for safety.

Stuart: Thanks, and I'm sorry I won't be helping you. My daughter is all that matters. But I don't know where Alicia is.

Me: If we find her, we will beam her to the ship. Lisa, 2 coming on board.

Lisa: Roger that J.D. Sakura, Energize.

Sakura: Energizing.

The transporter activated and Stuart and Susie were beamed aboard to the ship.

Isaac: All right! We need to find the junction boxes and find Alicia as well.

Me: You got it Isaac!

We continue to find the junction box and Alicia and we see the room that said "SS Storage Room". We opened the door and it revealed to be a small room and a Necromorph Slasher was playing dead there.

Me: Not this time.

I fired a massive blast of fire and burned the Slasher.

Nico: You all should stay dead.

We went inside the storage room and we got supplies and loot there. After that we left and continued to move and we heard Kendra's voice from the Audio Feed.

Kendra: It looks like some of the gravity plating is malfunctioning. Keep an eye out for any kind of distortion effect coming from the floor. It could be dangerous.

Me: Copy that Kendra.

We opened the door that said "Ships Systems" and there we see the distortions Kendra was talking about. But they also see one of the Necromorph Lurker's coming towards us. Only for it to be caught in the distortion as it was sent flying to the ceiling, killing it.

Me: That was freaky.

Lincoln: That Lurker didn't stand a chance against that distortion.

Me: No it didn't.

Isaac: Alright guys. Do not step in those distortion currents! I repeat; Do not step in those distortions!

Me: Roger that.

We went around the Ships Systems room while avoiding the distortions. We encountered another Lurker and a Slasher.

I fired more fire at them and incinerated them. Behind us was another Slasher who came out from the floor's vent. But like the Lurker earlier, it too was sent flying to the ceiling, killing it as the Slasher's arms, legs, and body parts fell down.

Me: And stay down you freaks!

We continue to move, they see two more Lurkers.

Lincoln: VOID STYLE: SHADOW SPEAR JUTSU!

Lincoln fired a Shadow Spear and it was a long spear made of void energy and it made contact with the two Lurkers. Killing them as their bodies were turned to dust.

Me: Awesome job buddy!

Naruto: That was awesome! Believe it!

Lincoln: Thanks, I now have the Void Style Kekkei Genkai.

We found an entrance, but it was blocked by two crates. Which was not a problem since Isaac has the Kinetic Module device as he moves them away. As we went inside the next room, we see something charging at us. It was another Brute.

Me: Oh no you don't!

I fired a powerful blast of energy and it curved around and hit its back.

Isaac: Nice shot J.D.!

Me: Thanks.

We saw in another room a junction box. But there were two large flailing wires with a deadly electric shock.

Me: Whoa! Look out!

Isaac: I got this!

He fired his Stasis Module at the wires, stopping them in a slow animation. As Isaac went there and presses the button.

Computer: Power transferred to the ADS.

Me: Perfect. Lets continue on.

Lincoln: Now we need two more to go.

We continue to move and we heard Zach's voice from the Audio Feed.

Zach: Ship Systems junction box re-routed. I'm making some progress with the tracking grid… one of the cannons is giving me a hard time… keep moving.

Me: Roger that.

We left the Ships Systems Room and went into the hallway and we heard something. It was from a Necromorph Slasher with it's legs missing or broken. As it was crawling to the group with it's scythe blades.

Lana fired a blast of energy and destroyed it.

But another Slasher appeared with a missing left arm. As it attacks Lincoln only for it to be vaporized by Lincoln's Void powers.

Me: Nice shot guys!

Lincoln and Lana: Thanks J.D.!

After that we went back to the elevator. We went back to the Atrium room only to see several Slashers and three Leapers there. All ready to attack us.

Hunter fired a massive blast of energy and destroyed the Leapers.

Lincoln: Thanks Hunter!

Hunter: Danke Lincoln. But now we have Slashers to kill.

Lincoln: Leave that to me! *(Does the hand signs) VOID STYLE: SHADOW DRAGON BURST!

Lincoln fired a Dragon made of Void energies and it slammed itself into the Slashers, vaporizing them.

Naruto: Nice!

Me: Nice shot Lincoln!

Lincoln: Thanks-

Two more Leapers appeared and they missed Lincoln as he finished them off with his void powers.

Me: That was close.

Isaac: Now we need to get to another Elevator!

Isaac led us to another elevator that says "Mining Admin and Comm Array" which was behind the first elevator we came out from. We went into the elevator and the screen appears with three levels. We were are at Floor 2. So we need to go to either Floor 1 or 3.*

Me: Looks like we have 2 more choices.

Lincoln: Shall we go to Floor 1?

Me: Lets check it out.

I pressed the button for one.

The elevator descends and Kendra's audio feed appeared again.

Kendra: Isaac, veryome, listen up. I've gone over the med-sci reports. These things are BIO-RECOMBINATORS. They take dead tissue, absorb it and mold it into new forms. One iteration seems to have the sole purpose of infecting corpses… The others, well, seem to be making corpses to infect. And that body tissue we keep seeing on the walls is part of it too. I found a report that says it's a habitat changer.

Me: So they're hyperadaptoid organisms?

Hunter: I think so.

Lincoln: Wait, remember when we saw the weird stuff in the walls on the Engineering Deck?

Me: Yeah? I remember that.

Lana: What does Hyperadaptoid mean?

Me: Hyperadaptoid means that they are shapeshifters and they can survive in any environment no matter how inhospitable.

Hunter: Not just shapeshift, but also mutate as well. Who made that Hyperadaptoid virus in the first place?

Me: I have no idea.

Lincoln: Me neither.

Lana: They can't be based on the monsters from the movie The Thing?

Me: That would be even more terrifying

Isaac: Isn't that movie very old?

Me: It was made in 1982 and 2011

Isaac: I see. Only it's too old on my Earth.

Me: Over 500 years to be precise. Oh we're here.

The elevator arrived at the first floor and it opens and we got out from the elevator. We saw the door that said "Mining Admin Room"

there.

Me: Mining Administration Room. Lets head in.

We opened it, revealing another Hallway there. And with two dead bodies of people there.

Me: Looks like the Necromorphs have been here too.

But there was a explosion on the door to the right as the two dead bodies and the air were sucked outside the vacuum of space.

Me: Whoa!

Isaac: Everyone, hold your breaths!

Computer: Entering vacuum.

Me: Oh man!

We went through the hallway and entered the M.A. Hall Storage and got more loot and we went to the left and found a door that said "Mining Admin Room". We opened it, and revealed a small room with another door with the same words.

Computer: Exiting vacuum.

We went into the room and we also found two Enhanced Slashers, ready to attack us.

Me: Take them down!

We fought against the two Enhanced Slashers one by one. As they die after their limbs were cut off.

Me: Yes!

We see the door that said "Mining Admin Storage Room C", which requires a Power Node for it.

Lincoln: I got this.

Lincoln shot his Lightning powers at it and activated the door.*

It opened.

We went inside and collected the loot there. After that wewent back to the Mining Admin room and continue to go to the junction box while avoiding the Distortions from the ground.

Me: Careful guys.

After we made it while killing off the Lurker there, Isaac activates the junction box.

Computer: Power transferred to the ADS.

Me: Online.

Zach's audio feed appeared again.

Zach: Control Systems junction box re-routed. I'm getting a reading! Almost there.

Me: Copy that Zach.

We move out and we saw an Infector injecting viruses into the dead bodies. Turning them into more Enhanced Slashers. As the Enhanced Slashers charge at the group.

Me: Hunter, get them!

Hunter: FIRE STYLE: FIRE DRAGON JUTSU!

He fired a Dragon made of fire and it burned the Enhanced Slashers and the Infector to ash.

Me: Nice shot!

Naruto: Sasuke would be proud man.

Hunter: Danke J.D. und Naruto.

We went outside the Mining Admin room enter the elevator again.

Lana: Next stop, floor 3!

Me: Elevator going up!

Hunter: While we go to the floor 3, I went to another room und found another Text Log.

Me: What does it say?

As Hunter read it.

CAPTAIN'S LOG

INITIAL INFECTION VECTORS

It's been less than an hour, but they've spread fast. Flight deck was the first to go, after the shuttle crashed. Now almost entirely overrun. We've lost at least half the Medical deck, and about a quarter of Engineering. No information yet from Cargo or Planet Ops, which suggests bad news. This is not what I expected.

Me: Terrifying.

Isaac: We know. *As the elevator opens, they are in floor 3.*

They arrived at floor three.

We see a man there.

Man: Make us whole again. *As he looks at the group, and then turn left and leave.*

Me: What was that guy doing?

Lincoln: I don't know.

Naruto: Hey I found the Audio Log here!

Me: Lets hear it bro.

Naruto presses it.

Jacob Temple: This is Temple. The bridge is fucked. I don't know what went on in there, but I'm not sticking around in case whatever did it comes back. I'm heading for Hydroponics, to find Elizabeth.

Me: Strange.

Isaac: What's strange?

Me: That one was very strange to me somehow.

Lincoln: Okay.

As they went "To Comm Array Exterior Access", as they continue to move on. We found a Pregnant Necromorph and another Enhanced Slasher there.

Me: I got this!

I fired a powerful blast of energy and vaporized them both!

Hunter: Nice!

Me: Awesome!

We heard crying inside the vent.

Me: Someone's crying.

Nico: I wonder who it is.

I found the air vent and I open the vent. We see a 5 year old girl in there. Crying.

Me: Are you all right?

Girl: (Looks at me with tears in her eyes as she nods her head.)

Me: It's all right. We mean you no harm. We're not one of those creatures. Are you Alicia?

Alicia: Yes, I..I..I am A.. Alicia. Alicia Lily Berricks.

Me: Your father Stuart is really worried about you. We've been told to find you. I'm J.D. Knudson, Leader of Team Loud Phoenix Storm.

Alicia: Daddy is worried? Where is daddy?

Me: He's on our ship with your sister Susie. They are both okay and we can beam you over there.

Alicia: Beam? Like Star Trek?

Me: Exactly.

Alicia: Thanks Mr. Knudson.

Me: Just call me J.D. Everyone calls me that.

I held out my hand and she took it and I brought her out.

Everyone saw her.

Lana: Woah, is that Alicia?

Me: It sure is.

Everyone introduced themselves.

Me: We're the team that was sent to destroy these monsters.

Alicia: *Smiles in happiness.* Thanks. But may I go to daddy?

Me: You sure can. J.D. to Lisa.

Lisa: Lisa here J.D.

Me: I found Stuart's daughter Alicia and she's safe and can you beam her aboard?

Lisa: Affirmative J.D. Energize.

Sakura: Energizing.

Me: We'll see you on the ship soon Alicia.

Alicia: Thank you all! *As she was beamed to our spaceship.*

Alicia was back safely on the ship.

Me: Thank goodness we found her.

Isaac: And I found the third junction box! *He presses it.*

Computer: Asteroid Defense System now online.

Me: Great job Isaac.

Isaac: Thanks J.D.

The audio feed from Zach appeared again.

Zach: All right, we've got enough power. But the ADS cannon's auto targeting is down. I think it's a faulty data cable. I need one of you to aim the cannon manually until I can replace it. Take the elevator to the top of the ship, and head for the cannon pit.

Me: Roger that Zach. We found Stuart's daughters safe and beamed them to our ship

Zach: Beamed what?

Me: We found Stuart's daughters Alicia and Susie safe and beamed him and his daughters to our ship.

Zach: You didn't tell me you have a Beaming device on your ship?

Me: You never asked.

Zach: Touché. But get to the ADS Cannon ASAP! I don't know how much damage this ship will take by those asteroids.

Me: Roger. Lets go!

Stacy: You sure we don't need space suits? Because I can show you guys mine.

Me: We're good Stacy. Our powers enable us to breath in the endless vacuum of space without a spacesuit.

Stacy: That's so cool!

We went to the door that said "Ship Exterior Access". We moved fast and went to the door that said "Storage Room 47" on the right first. We got more loot there. After that, we went to the elevator that and we went to the top. We left the elevator and moved across the lower halls of the Ship's Exterior and Zach's audio feed appeared again.

Zach: Isaac. Everyone, you're going to have to cross the ship exterior to reach the ADS cannon. Problem is, we're still getting bombarded by asteroids. Look for cover or you'll get torn to pieces.

Me: Right.

Naruto: We'll be careful

Isaac: But remember guys, that the Ship's Exterior is outside the ship. Which means we're about to head into the vacuum of space.

Me: Well we can breath in the endless vacuum of space. Lets do it.

We opened the first hatch and enter it and finally we opened the second hatch. As the familiar vacuum of space enters.

Computer: Entering vacuum.

Me: Here we go.

Computer: Warning. Multiple impacts detected across the starboard hull.

We saw asteroids coming.

Me: Here they come! We got to hurry!

We went for cover as the flying asteroids hit for 10 seconds before stopping. We then continue to move on until we see more asteroids coming and we duck behind another cover as the flying asteroids hit for 10 seconds before stopping. We then continue to cross the Ship's Exterior and we saw the asteroids again and went to the third cover. As the asteroids hit for 10 more seconds before no more was coming and we moved on and finally reached the door.

Me: That was close.

As they open the door and went inside, the door closes and the air returns.

Computer: Exiting vacuum.

Me: Lets go.

On same room is a chair of something which is the manual chair for controlling the ADS Cannon.

Me: Wow!

Nico: That is an amazing cannon.

Vince: It sure is an amazing cannon system.

As Isaac takes control of it, the windows in front of him opens the cover shields, seeing thousands of asteroids. And the turret's health-bar is at 85 and he fires the cannon at the nearest asteroid.

Me: Blast those rocks Isaac!

As Isaac continues to shoot the asteroids, Zach's audio feed appeared.

Zach: That's it, Isaac. You're in the pit. The cannon's a massdriver, so it should punch through anything flying at us. Keep an eye on the hull's integrity. Too many of those things get by and we're dead. I think I've almost got the system repaired. Just buy me a little more time everyone!

Naruto: We're trying Zach!

A few minutes have passed and Isaac was doing good. Despite losing the hull integrity to 60% health, he continued to shoot at the asteroids. Zach's audio feed appeared again.

Zach: Just one more minute and it should be fully operational!

Lincoln: Hang on guys!
